

01 What Life is All About & Who is GOD?

The biggest problem in the world today is not war. It is not disease, cancer, AIDS, and so on. It is not children starving in Africa or
1:15
in some other parts of the world. It is not poverty, and it is not crime.
1:20
The biggest problem in the world today is that people do not know who they are.
1:27
And consequently, they got their priorities all mixed up. You ask the average person
1:34
"who are you?" and they will look in the mirror and they will say "this is me." And they are wrong. When you look in the mirror, you do not see
your "self",
1:47
you see your body. And your body is simply a garment that you are
1:53
wearing for fifty or a hundred years. Then, you shed it.
1:59
You know, it's a matter of common sense. There is a difference between a living
2:05
body and a dead body. The living body is full of vitality and spark, and when it
2:12
dies, the spark is gone and becomes stiff just like a piece of wood. And we know
2:20
that something is gone. The person is gone. So, we can easily agree that
2:26
a person consists of a body and a soul. And the soul is the real person. And this
2:34
is where the people fail to recognize who they are. If they knew that the body
2:39
is not them, they will rearrange their priorities, and they will pay
2:45
more attention to themselves, their selves, not their bodies. A person goes to school
2:52
for many many years, works hard, takes examinations, and even after school he
2:57
gets a job to make some money, and so on. All this to care for the body,
3:04
a vanishing entity that will become stiff, dead someday. And when that day comes,
3:11
almost everyone will look at that lifeless body and say "for this thing,
3:18
I went to school, I worked hard, I took examinations, I earned a lot of
3:24
money and I spent it all to care for this thing, this vanishing stiff part of
3:30
me. What did I do for myself?" There is something that we must do. And this is what
3:37
life is all about. We have to rearrange our priorities and this cannot
3:45
result without knowing that I am a body and the soul, and I must put the body in
3:54
the service of the soul. To drive the point home, just take an
4:00
average person and ask him or her "what did you feed your self today? What did you
4:06
feed your soul today?" Let's start with the question "what did you feed your body today?" And they will tell you "I gave my body breakfast,
4:15
lunch, dinner, numerous snacks." But they gave nothing to the real person,
4:22
to themselves. What did they feed themselves? We nourish the babies. When we are born,
4:31
we give the baby milk and so on. And then, the baby grows, becomes a child, and we give them potatoes and meat and rice, and the body
4:38
grows to five or six feet. But what did we do for the real person? This is
4:45
the major question that we're addressing right now. This is what life is all about.
4:51
People are giving attention to the vanishing entity and totally ignoring
4:57
the real person. There is such a thing as food for the soul, nourishment for the
5:03

real person. And now, the new thing that I have for you is tangible evidence
5:11
that there is food and nutrition for the real person. And the strange thing that is not
5:18
known yet, is not commonly known anyway, is that just as the body grows, the real
5:25
person or the soul grows in leaps and bounds. Maybe, the body grows
5:31
to five or six feet, but the soul or the real person grows to immense sizes.
5:38
I don't wanna confuse you right now but the size of the soul can be as big
5:43
as the City of Tucson. I'm not exaggerating. We now have
5:49
tangible evidence that the soul can grow from a very small size like a cat
5:56
to a huge size. And this makes it even more important to nourish and feed the real person.
6:04
Now, what is the food for the soul? This tangible evidence that we just
6:10
obtained tells us... the evidence by the way comes from the Creator, from God
6:17
Himself, and He tells us that we must make contact with God every day to cause
6:24
this nutrition and nourishment of the soul, because the soul is literally
6:30
a piece of God. And God says "if you have anything to do with Me, with God,
6:36
your soul will grow." If you remember, in the Bible, at the beginning, God said He
6:42
breathed into Adam the breath of life. So, the soul is part of God's breath. And
6:49
if we have anything to do with God, we grow. However, there's a specific set
6:56
of nutrition that we can offer to ourselves.
7:02
Another question that illustrates this biggest problem in the world, namely that
7:07
the people do not know who they are, is that you ask the average person "how old
7:13
are you?" And he or she will give you a number somewhere between 15 and 85 years old.
7:19
Wrong, again. Any person, the real person, is a few
7:28
billion years old. And this is the new information that we obtained from this
7:34
new tangible evidence. You can easily see the problem
7:40
if we illustrate a little bit how the human being consists of two entities.
7:54
One entity is the body. Let us represent it by this dot right here.
8:02
And the eternal person, and this is an
8:07
infinite entity. It will never die. It just goes on forever and ever. So, here we
8:15
have a body that lasts a period of time somewhere between fifty
8:20
and a hundred years. We know that we all exist, we are all under death sentence.
8:28
And this period, when you divide any number by infinity,
8:33
it equals zero. If you live 1,000 years, you divide this by infinity and it
8:40
equals zero. This is just plain mathematics. So, the body that is going to
8:46
live for a zero, for all practical purposes, zero period of time, is taking
8:52
all our attention. We spend 24 hours a day taking care of this
8:59
insignificant entity, the vanishing entity. And the question is "how much are we

9:06
doing for this eternal entity, the real me? What am I doing for it?"
9:12
Now that we agree that we must rearrange our priorities and give more attention
9:18
to the real person, the soul, instead of wasting all our life taking care of the
9:23
vanishing entity. Now, what specifically are you supposed to do? You know, there are so
9:29
many people who are talking in vague terms about capturing the heavenly
9:34
light and dissolving it into your whole being and all this doesn't mean a thing, you
9:40
know, all these things. It is much more practical than that. It is much more specific than that. And God has been sending to us the exact
methodology
9:50
of developing our person, our real self, since Adam, since the first human being.
9:58
It came down to us in the Bible, in the Old Testament, in the Psalms of David, in the gospel of Jesus, in the Quran. And now we have specific
methods of developing
10:10
the person, the soul, and exactly what to do and when, and the most efficient
10:18
ways and the least efficient ways. We now possess this valuable information.
10:25
And we're told that you must make contact with God, your Creator, five times a day.
10:31
This contact, you can think of ropes coming down from the Creator and keeping
10:37
us out of this sizzling pan called the world. At the same time, we develop and we nourish our self, the real self, the soul,
10:47
by making these contacts five times a day. We are given exactly the
10:53
combination. Actually, it's a numerical secret combination that anyone can obtain.
10:59
And through this secret mathematical combination, you can make contact with
11:04
God and nourish and develop your real self. Five times a day, you are given the
11:10
combination, you are given the method, how to do it, when to do it. And this
11:15
is the way to provide for yourself. Everyone takes breakfast, lunch, dinner, snacks and
11:23
so on, and dresses nicely, and buys a nice home, and has a beautiful spouse
11:29
or a handsome spouse, as the case may be, and all this to take care of the vanishing entity, the body. The big question is "what are you doing
for you,
11:39
the real person? And you can agree with me now that this is the biggest problem
11:45
in the world, not knowing who we are. You notice I mentioned "making contact with God," and this is... I'm talking
11:55
about specific methodology. I'm not talking about prayer. Prayer is fine
12:01
and it will contribute to the growth and nourishment of the person's soul, the real person. You know, millions of children grow up... we grew
up knowing that we must
12:11
say grace before we eat, say a short prayer "God is good. God is great. Please.
12:16
Thank you for our food" and all that. Millions of people pray. I mean, they utter
12:25
supplications, ask God for favors and all this is fine. God loves that. But I'm
12:31
talking about a practical, a real meal for the real person. We have this
12:39
physical evidence telling us exactly what to say, what sounds to utter. It is
12:47
like the combination of a safe. You have this combination, a knob on a safe
12:55
where there is a treasure and you have to turn it this way a certain number of times and then this way to another number and so on and then
you open the

13:03
safe and you have the treasure. It is very similar to that. A numerical
13:08
combination, a combination of sounds that you must utter,
13:13
a combination of movements that you must do. And this is common to all religions.
13:20
It came to us, like I said, in the older scriptures, and the latest scriptures, and in this new discovery of a tangible mathematically coded
method. And if you
13:33
contact me at the telephone numbers shown at the end of this program, I can discuss this specific method with you. And the contact with
God is not the only
13:43
way to develop the soul. There are many other methods, but the daily
13:50
contact with God is the most efficient. This is the steak of the soul food.
13:55
But, for example, there is a method of fasting, where you dictate on the body
14:02
exactly when the body is going to eat or drink. And there is even a specific
14:09
time of the year for that. So, God told us exactly what to do to nourish our soul.
14:15
And if this becomes known to you or to any other person, you can ask them "what
14:21
did you do for your self today?" And they will not say "zero or nothing," like most
14:26
people would say now. The person would answer "I gave my body
14:32
breakfast, lunch and dinner, and I gave my self five good meals by contacting
14:39
my Creator five times today." There will be a big difference.
14:46
There will be the proper arrangement of priorities. Right now, the priorities are
14:53
all reversed. People are spending 99% of their time caring for the vanishing entity
15:02
and totally unaware, totally neglecting the real self, the real person. And it's a
15:10
big shame because when the time comes and we shed the body, we will really
15:17
regret that we didn't give the real person, the soul, the proper attention.
15:26
You know, it is very well and finally established now that money, fame, beauty
15:31
and so on, do not bring happiness. There is always something missing.
15:37
Did you see the Barbara Hutton story that was shown on TV the other day? I was listening to a special, Barbara Walters special. She was
interviewing
15:46
Eddie Murphy. Here's a movie star who's got everything. He has two Rolls Royces,
15:52
a Mercedes, a Corvette. He's got a palatial estate in New Jersey,
15:58
his family, yet he told Barber Walters there is something missing. We have to develop the real self in order to be happy. If you have a body
16:08
that has everything, money, fame, everything it wants, everything the body wants, but the soul is not nourished, happiness will be missing.
And this, now
16:21
you can appreciate that this is the biggest problem in the world. And I know what you're thinking. You're probably saying "what is the catch?"
16:31
How much do I have to pay for this?" Ironically, this very precious knowledge
16:37
is free. It is just yours for the asking. And like I said it is not... there is no
16:46
mincing of words. There is no vague ideas. This is... I'm talking about specifics.
16:55
Happiness has been the most elusive goal for everybody and now we know that
17:02
material success, money, fame, and all this does not bring happiness. Now, we have a
17:09

concrete tangible method where we know... actually, the secret of happiness,
17:15
this most elusive of our goals, has been unveiled.
17:23
You ask all the philosophers, and people who have a lot of experience in life,
17:29
and they will tell you, readily, that material success does not bring happiness.
17:35
Money, fame, success, all this does not bring happiness. And I mentioned to you
17:41
Eddie Murphy as an example in his interview with Barbara Walters. But now
17:47
we have a concrete method with a track record that tells us that this most
17:54
elusive of our goals, happiness, is actually attainable. And the secret is
18:00
in developing and nourishing the real person. The people are unaware. They're going
18:06
about their life, totally unaware, totally neglecting the real self. And if they
18:12
only develop and nourish the real person, and put their priorities in perspective,
18:19
happiness will be readily theirs. I'm not talking about something over
18:26
there in heaven somewhere, where you have to die first, stay in the grave millions of years, and then get resurrected in order to be in paradise
and all that.
18:37
I'm talking about happiness, victory, success, the real thing, here, in this world.
18:44
Just like I mentioned earlier, like the combination. You turn that combination to the right, left, and so on in the correct numbers and you open
it
18:54
and you have the treasure now. You do the specific procedure, just
19:00
like a cookbook recipe. It's just as simple as that. I'm not exaggerating. God told us exactly how to do it, what to do and what to say and the
combination is
19:11
very specific. You do it and you get the results.
19:16
As you see, it's been all common sense and this is why you ought to believe me.
19:22
Why should you believe me by the way? Let me ask that question. Why should you believe me? You should believe me because when you
discuss this matter with me, if
19:31
we meet in person, I'll show you tangible evidence and you will see that we have a mathematically coded message from God. You will see
19:40
the physical evidence. If you don't see it, just leave. I mean, you don't have to take it. You look at the evidence, you see it is tangible, concrete,
and you see
19:49
the results. And you visualize the whole thing. I mean, it will be in front of you.
19:56
There is no imagination, or speculation, or conjecture. This is the real thing. And from the beginning of this program
20:06
to the end, it is all common sense, isn't it?
20:11
Now, who would be the most authoritative source to give you this kind of
20:16
information? The Creator, the One who created your soul, the One who breathed
20:22
into Adam from His breath. Your soul is a piece of God, and the source of all this
20:28
information is God. And you will see it supported by physical evidence. This is a
20:35
new stage in human history and you can be one of the pioneers to discover this. The discovery, by the way, is very recent. And maybe 50
years from now, everybody
20:46
will know about it. But right now, only select few, the elite of the elite, knows
20:52
it, and you can be one of those. God willing, it will be known in a shorter
20:58
time than 50 years. But you can grasp this opportunity now. You live in this

21:04
world only one life and then we go on to the... we move on to a new stage, the
21:10
eternal real life where everyone is assigned a rank and a position depending
21:17
on how much you nourished your real self. Can you hire a child as a pilot or
21:25
an engineer? You can't. Therefore, you have to develop the real person and grow
21:33
and nourish in order to be strong enough for the eternal real life that will come
21:38
after this world. And then you'll be assigned a prominent rank.
21:44
And like I said, you don't have to wait for that. Happiness, real happiness
21:50
and the consequences of nourishing your soul begin right here. God's promises have to
21:58
be a fact. And God says He promises those among you who believe and lead a
22:03
righteous life that they will be sovereigns on earth, kings and queens on earth. And when God says that He promises, it is done.
22:13
What I told you is a very condensed summary of this major historical event.
22:20
Needless to say, there is a lot of detail that anyone can come and see me,
22:27
and talk about it and discuss it. They can demand the proof. "Where is the physical evidence, the concrete tangible evidence you're talking
about?" They can
22:36
come and ask me that. And I will show it to them. And then they can make their decision themselves. They have got nothing to lose. And this
is all free.
22:45
I never ask him for a penny. So, they can come and see me in Tucson
22:52
at 739 East 6th Street, or better yet call and make an appointment and
22:57
I will sit with them and show them the proof. The telephone number should be shown at
23:03
the end of this program. It is 791-3989. And it could
23:11
be the most important step they have made in their life. And it results from
23:17
the realization that we are not just walking zombies. We're not just bodies
23:22
walking around with nothing in them.
25:45
Allahu Akbar. Allahu Akbar.
26:07
Allahu Akbar. Allahu Akbar.
26:28
La Elaha Ella Allah
26:45
La Elaha Ella Allah
27:06
Alhamdu Lillah, we praise God. Wa Ash-hadu Alla Elaha Ella Allah Wahdahu La Shareeka Lah.
27:13
And we bear witness that there is no god except the One God. It is very important for any person to know who God is to really appreciate why
27:25
millions of people fall into idol worship. Why do they leave God and idolize
27:32
Muhammad, or Jesus, or Mary, or Saint Francis, or Saint Jude, or some helpless creature?
27:39
And the main reason is that the people do not know who God is. They do not
27:44
appreciate the greatness of God. So, my purpose in this sermon is to share with
27:51
you some idea about the greatness of God. And to appreciate the greatness of God.
27:58
We, we have to think of this universe that we are living in.
28:05
Our planet Earth is part of the solar system, as you all know. And by the way,
28:11

I'm gonna talk to you strictly about scientific facts, established scientific
28:17
facts. This earth is part of the solar system.
28:22
It is the only planet in the solar system that has life. We went to the moon
28:29
and we didn't see a single tree there, or a mouse, nothing. We sent cameras to
28:34
Mars and we didn't see a creature there, unless those rocks are creatures, as we
28:40
saw in one of the cartoons. There is no life in the solar system except here on the planet Earth.
28:48
Our sun, the center of this solar system, is 93 million miles away. Now, I want you
28:57
to watch these distances, 93 million miles away from us, the Sun. And the light comes
29:06
to us from the Sun in four minutes. So, remember this relationship. The light
29:11
travels from the Sun to the Earth, 93 million miles, in four minutes.
29:18
The solar system itself spans a distance of two billion to four billion miles.
29:27
This is our solar system. So, when you go to the edge of our solar system, if you
29:33
travel 2 billion, with a B, 2 billion miles away,
29:40
how big is the planet Earth from that point? It will seem small. Okay, let us now go a little further.
29:50
Let us talk about the galaxy, our galaxy. As you know, it is called the Milky Way
29:55
galaxy. And the solar system is one... the Sun of the solar system is one of one
30:04
billion suns or stars in our Milky Way galaxy.
30:12
It will take four minutes for the light to travel from the Sun to the planet Earth, 93 million miles. You know, how long it will take to cross the
Milky Way
30:24
galaxy? If you travel at the speed of light, you will cross the Milky Way
30:31
galaxy, our galaxy, in a hundred thousand years, not four minutes, or ten minutes, or
30:38
one hour, or ten hours, or ten days, or 10 years. It will take you a hundred thousand years to travel across the Milky Way
30:49
galaxy, our galaxy. Now, so if you go to the border, the edge
30:56
of the Milky Way galaxy and try to find the planet Earth, where is it?
31:01
It's minute, isn't it? Just a tiny mote. You know, when you look in the sunlight
31:06
and see these little things flying? Those are called motes. And the Earth is not even
31:12
that within the Milky Way galaxy.
31:17
Well let us travel, let us go on a little bit further. Let us go to our next-door galaxy, our neighbor. You know, how far it is, our neighbor
31:28
galaxy? Two million light years away.
31:35
So, if you're cooking something and you wanna borrow some salt or some sugar from your neighbors, don't go to the next-door galaxy. It will
take you
31:45
2 million years going at the speed of light, and 2 million years coming at the speed of light and your cooking will be all gone.
31:56
So, 2 million light-years, from our galaxy to the next-door galaxy.
32:07
Now, so if you go to the next-door galaxy and try to find the planet Earth in the Milky Way, what are your chances of seeing the planet Earth
using
32:17
the strongest possible imaginable telescope? Can you find the planet Earth?
32:23
How about your house? Or you? Or any human being like Jesus or Muhammad?
32:30

Can you see them from that galaxy, our next door galaxy?

32:36

Shall we move a little further? There are 1 billion galaxies in our

32:45

universe. This is 1 billion, with a B.

32:52

A billion trillion stars in our galaxy... in our universe, excuse me. There are 1

33:01

billion galaxies in our universe. A billion trillion stars in our universe.

33:11

Our universe now has distances of 10-15 up to 26 billion light-years,

33:18

distances within our universe. And you can easily imagine this now. If

33:24

our next-door galaxy... and these are all, I remind you, these are all scientific

33:29

established scientific facts.

33:35

26 billion light years within our universe.

33:41

You have to agree with me that when you go to the edge of our universe,

33:51

it is hopeless to try to find the planet Earth. It is such an insignificant speck

33:58

in God's Kingdom. It is an established physical fact that when you go, if you go to the edge of our

34:08

universe, you cannot possibly see the planet Earth. You cannot possibly see the Sun of our solar system, let alone the planet

34:18

Earth. So, that's our universe. Before we leave our universe, that's the next step, I would like to remind you that...

34:31

In fact, I will do a calculation thing with you right now. Let us say the number of stars in our universe is not a billion trillion.

34:42

Let us just take a smaller number, quintillion, quintillion. That's a smaller

34:48

number of stars in our universe. And let us count from one to quintillion,

34:56

taking one second per count. It's like... let us say we're counting the stars 1 2 3 4

35:05

1 second per count. So, we take 1 quintillion, divide by 60, you'll get the

35:11

number of minutes it will take you to count from 1 to quintillion. Then, you take

35:18

this number and divide by 60 again, you get the number of hours it will take us

35:23

to count from 1 to quintillion. Now, we take this last product and divide by 24

35:30

and you get the number of days it will take you to count from one to quintillion. These are physical facts as you see.

35:40

Just a simple dividing by the seconds, the minutes, the hours, and the days.

35:46

Divide by seven, you get the number of weeks. Then, you divide by four, you get the number of months. You divide by 12, you get the number of years it will take you to

35:55

count, just count a quintillion stars. You know, how long it will take you? How many

36:01

years? This is a mathematical physical fact. It will take you 32 billion, with a B,

36:11

32 billion years just to count a quintillion stars in our

36:17

universe. And God created them. God didn't just count them. God created

36:26

them. And we are talking only about stars in our universe. We're not talking about the planets that go with those stars. We're not talking about the

36:36

uncountable decillions of heavenly bodies and meteorites that are in our

36:43

universe. We're talking only about stars. The Sun is one of the stars, our Sun. By the way, it is one of the dim stars.

36:56

The bright stars... the definition of a bright star is "it must be at least

37:05

1 million times as bright as our Sun." Look outside and see how bright the Sun is.

37:12
A bright star has to be a million times as bright as this, as our Sun.

37:19
We had a conference here at the University of Arizona that dealt with bright stars only, and the Sun was not one of them because by definition a bright

37:29
star is a million times as bright as our Sun. So, it will take you 32 billion years just to count, not to create, just

37:38
to count a quintillion of the billion trillion stars we have in our universe.

37:44
That's our universe. Now, prepare for a shock.

37:50
This universe, our universe, vast as we can imagine, is only one of seven

37:59
universes. And it is the smallest and innermost

38:04
of the seven universes. This is a fact that is in the Quran, proven by the Quran's

38:12
mathematical code. We are all now familiar with the mathematical code of the Quran that

38:18
proves that every word is from God, that it is not written by a human being, that it

38:24
is God's word... God's message to the world. And this mathematically proven

38:30
statement say that our universe, with its billion

38:36
trillion stars, a billion galaxies, 26 billion light-year distances, is the

38:42
smallest and innermost of seven universes.

38:49
Can you imagine how big the second universe is if our universe is 26 billion light years across? The second universe, can you imagine how big it is?

38:58
How about the third universe? The fourth that is around these? You can imagine seven

39:04
balls inside each other. The fifth universe? I don't think you can imagine the

39:10
size of the fifth universe. How about the sixth universe? And the

39:15
seventh? I can tell you right now there is no number in the world that can describe or measure the circumference of the seventh

39:24
universe, actually the first universe. We are the seventh universe, the innermost of the seven universes. There is no number that will describe

39:33
the circumference of the first universe. Now, prepare for

39:39
another shock. Most of you are familiar with that statement in the Quran in sura 39, where God says He is holding the seven

39:49
universes within the fist of His hand. In Arabic in the Quran

39:56
وَالسَّمَوَاتِ مَطْوِيَّاتٍ بِيَمِينِهِ (39:67) God is not holding the seven universes like this in two hands. God is holding the

40:06
seven universes in one hand and this is allegorical description

40:11
to give us an idea about the greatness of God and who God is.

40:18
It's an allegorical idea to make us appreciate the greatness of God

40:25
and to make us appreciate and realize the blasphemy of saying that such great

40:34
God has a human son on the tiny tiny speck called the planet Earth.

40:43
I mean, how can that be? We are a fortunate generation in that

40:48
with the established scientific facts, we can appreciate the greatness of God.

40:56
And God tells us who He is and His message to the world, the Quran.

41:02
And with the sciences we now accomplished we appreciate that greatness. And therefore, we can appreciate the grossness, the blasphemy of saying that

41:14
God had a wife or a mother or a son. We can appreciate, we can realize

41:20
how blasphemous, how terrible it is to say that God has a partner, another god
41:26
with Him. How can we idolize Muhammad, the tiny human being who existed on a tiny planet called Earth in a tiny solar system?
41:39
What was Muhammad's role in deciding the speed of rotation of the moon, for example?
41:46
The moon rotates around itself and around the Earth, yet we always see one
41:53
side of the moon, the same side of the Moon. Because of the perfect synchronized movement of the moon around itself and
42:01
around the Earth, we see only one side. And if that movement was off by one
42:07
second, we will see that other side of the moon. This precision in God's creation, what was the role of Muhammad or Jesus or
42:18
Mary or Saint Francis in deciding that speed of rotation of
42:23
the moon? This elaborate system, everything going in its orbit precisely.
42:30
We know exactly what time the Sun will rise in the year 2025, July 4th 2025.
42:40
We know exactly... in Tucson Arizona for example, we know exactly when, what time
42:46
will the Sun rise and from what spot, because the Sun follows God's laws, God's
42:51
creation, and follows the exact orbit. God is holding the seven universes in
42:58
His hand. That's who God is.
44:56
Man has always believed in some kind of a god.
45:12
This need to believe in a supernatural and omnipotent being led many to search
45:18
for a god, start wars in the name of a god, even create a god if they had to.
45:26
Hello, my name is Bill Buck. In this report, we are going to present to you what we call the ultimate miracle. You see, when man chose to believe in
45:34
gods most of these gods had one thing in common. It was required that they be feared worshiped served and revered. Numerous religions sprang up to serve
45:43
these gods. Some of the oldest religions still exist today, namely Buddhism, Hinduism, and Shintoism. Some of these religions believe
45:53
in many gods, for example a god of fire, a god of water, a god of love, a god of
45:58
prosperity and so on. Then, came the monotheistic religions, those that believe in one god. All of
46:08
which are considered major influences in global history and affairs. These are Judaism, Christianity, and Islam. And significantly, they share a common
46:17
belief in... global history and affairs. These are Judaism, Christianity, and Islam.
46:23
And significantly they share a common belief in one supreme god. Perhaps, the
46:29
best way to portray these is to look at Jerusalem where all three religions mingle. We have a historical account of biblical and other prophets and the
46:38
miracles that they are credited with having performed. There was Moses we are told talked to God and led the Jews out of bondage and brought them the Ten
46:46
Commandments. He even parted the Red Sea when pursued by Pharaoh and his troops, according to the Bible. There was Jesus Christ who is the son of the Living God
46:56
to Christians. Through him Christians entered into a new covenant with their creator. Lastly, there was Muhammad. Muslim history
47:05
tells us that in Mecca, God revealed to him the Quran, the Muslim holy book which
47:11
is recited fervently and followed by one-fifth of the world's population.
47:16
For many centuries and in spite of man's experience with religion, there still remain many mysteries. The most baffling and complex mystery of all

47:24
remains the identity and the concept of this god that man has never seen and yet
47:30
believes in so religiously. This sea of religious confusion has been swelling all the time. Many religions all claiming to be right began to break into sects.
47:40
During all this time, man was advancing economically, socially, militarily, and
47:46
intellectually. Man continued to advance technologically at an unprecedented pace.
47:53
But in terms of religion, he was still in this sea of confusion, often misled by
47:58
tricksters and deeply disappointed with his unanswered prayers to this unseen god. Disappointment and confusion led many to lose their belief. Agnosticism
48:10
and atheism have become widespread. Many now openly reject or at least question
48:17
the existence of this god who has been so popular throughout the ages. The
48:23
theory of Darwin became the accepted opinion of many scientists and scholars who were able to draw supportable conclusions from the proof and arguments
48:31
presented. But now, most scientific and religious thinkers realized that there are deeper questions. So, where does that leave us? Are there any real solutions
48:42
to this religious dilemma? On the one hand, the man cannot accept the illogical practices that religion dictates to him. Yet, by denying God, man still doesn't
48:53
find the answers to some of his most burning questions, such as "Who am I? Why
48:58
am I here? Is there a god? What is the purpose of life?" Just when man's tolerance to manual labor reached a limit and the
49:07
Industrial Revolution lay around the corner. Now, an intellectually enlightening revolution seems to be around the corner.
49:14
Previous generations were converted to believe in God by means of miracles. However, modern man cannot believe in God because of these. He has watched men walk
49:23
on the moon. He's presented daily with the latest technological marvel. He has
49:30
come across too many false claims, fake miracles, and fake promises. He has become
49:35
very cynical, especially when it comes to ancient myths and beliefs. With some arrogance, he believes that he knows more than his forefathers, let alone those
49:45
ancient reporters of fantastic events. He wonders what they would have thought of
49:50
some of today's miracles. Today's man needs something substantial. He needs an ultimate miracle. All the miracles that were supposed to have
49:59
converted man over the ages were limited to a particular geographical location or a time period. By definition, an ultimate miracle would be something that is
50:08
perpetual, not limited to a certain century or a geographical location. It would be for all of the people to see, all of the time. It would be something
50:17
that is physical, touchable, examinable, verifiable and irrefutable. A few years
50:25
ago, noted scientists and television personality, Carl Sagan, in his best-selling novel, talked about a mathematically coded message from outer
50:33
space. On page 431, the author states "my fondest hope for this book is that it
50:39
will be made obsolete by the pace of real scientific discovery." Well, it seems that Carl Sagan's fondest hope has come true. Research over the past few years
50:48
has uncovered just such a mathematical code in a document that is over 1,400 years old. There are other miraculous aspects to this document.
50:57
For instance, only in the past 20 years has science been able to witness the development of the fetus in the very early stages. However, 1,400 years ago, the
51:08

development of the fetus in the first 28 days had already been documented and with such graphic accuracy that it left Dr. Moore, chairman of the anatomy

51:18

department of the University of Toronto, utterly amazed. For at this stage, the

51:24

embryo is only about one tenth of a millimeter long and would appear like a dot to the human eye. To discern its shape would require a powerful

51:33

microscope. However, microscopes were not developed until the 17th century. And yet 1,400 years ago, we find the following.

51:43

"thereafter we created of the drop a thing which clings, a leech like

51:50

structure." Dr. Moore confirmed that the embryo does in fact cling to the wall

51:56

of the uterus. Another passage describes the stages of fetus development. "God makes

52:03

you in the wombs of your mothers in stages one after another

52:09

within three veils of darkness." Dr. Moore confirmed the accuracy of this

52:16

description, also. He explained that the three veils could reasonably be interpreted to mean the mother's abdominal wall, the wall of the uterus

52:24

and the amniochorionic membrane. It goes on. We've all heard about the big bang

52:29

theory but who would expect to find an account about the Big Bang Theory 1,400

52:34

years ago but there it is. "Do the disbelievers not realize that the

52:41

heavens and the earth used to be one entity then we parted them." The

52:48

separation process resulted in the formation of multiple worlds. Mention

52:53

of these worlds has made several times in the document. Also, it would seem that the modern discovery of bridges of matter which are present outside

53:01

organized astronomical systems is referenced in the verse which reads.

53:06

"God is the One who created the heavens, the earth and what is between them."

53:12

"Today, we will only preserve your body to set you up as a sign for subsequent generations.

53:18

Indeed, most people are heedless of our signs." Miraculously, it seems that the

53:25

Egyptians were exclusively gifted with the science of mummification. In 1898,

53:31

Murray discovered the mummified body of Ramses II of Thebes in the Valley of Kings where it had lain untouched for three thousand years.

53:39

He had it transported to Cairo where it may be seen to this day. The medical

53:44

study of the mummy of Merneptah, Pharaoh of the exodus, has yielded further useful

53:49

information on the possible cause of this pharaoh's death. The lack of signs of deterioration of the body proves that the body did

53:58

not stay in water for a prolonged period of time. And in the heavens, for many

54:03

centuries, it was believed that the moon had its own light. Science discovered, not too long ago, that the moon really did not generate its own light, but acted

54:13

only as a reflector of the Sun's rays. "God is the one who made the Sun

54:19

luminescent and the moon alight, and he designed its phases to provide you with

54:25

a timing device. God did not create all this in vain."

54:30

God is the one who created the night, the day, the Sun, and the moon. Each one is

54:37

traveling in an orbit with its own motion." Today, it is known how the

54:43

celestial organization is balanced by the position of stars in a defined orbit.

54:49

And how the interplay of gravitational forces is related to their mass and speed of movement, each with its own motion. Sir Francis Drake proved the

54:59

Earth to be round when he sailed around it in 1597. "Are you more difficult to

55:05

create than the heaven that He built? He raised its masses and perfected it. He

55:11

made its night dark and its morning visible. Thereafter, He made the Earth

55:18

egg-shaped." That was written almost a thousand years before Columbus. We know

55:25

now that the Earth's atmosphere acts as a filter to prevent harmful radiations from reaching the surface. Short wavelengths like x-rays and ultraviolet

55:34

rays are filtered out at high altitudes. Protection from these rays is vital to

55:40

the existence of life on Earth. "And we made the sky a protected ceiling."

55:48

Then, there is the affirmation of the modern idea that the origin of life is aquatic. "And we made water a requisite for every living thing." Water is the simplest

56:01

chemical compound of importance to all living things. Most organisms consist of 50 to 95 percent water. Scientists know that absolutely every living entity

56:12

known to man requires water for its existence. Many properties of water make

56:18

it essential to life's processes. Its ability to dissolve a great variety of substances is vital because most chemical reactions within organisms can

56:28

occur only in a water solution. Take the field honeybee, busy bringing in nectar

56:34

from flowers. On entering the hive with a full honey sac, which is an enlargement of

56:40

the esophagus, the field bee regurgitates the contents into the mouths of young workers called house or nurse bees. These, in turn, deposit nectar in a cell and carry

56:52

out the tasks necessary to convert the nectar to honey. This, we have known for

56:57

about 80 years. "And your Lord inspired the bee, build homes in the mountains

57:04

and the trees and what the people build for you. Then, eat from all kinds of

57:11

crops and obediently follow the designs of your Lord." "Out of their bellies comes

57:17

a liquid of various colors wherein there is healing for the people. This should be

57:23

a sign for those who reflect." Remember, this statement was made 1,400 years ago. How in the world could

57:31

somebody have known 1400 years ago that honey came from the belly of the bee?

57:36

This document also claims that there is a healing property in honey. Honey does in fact have mild antiseptic properties. The Russians used honey to cover their

57:46

wounds in World War II. The wounds retained an amount of moisture and left very little scar tissue. Because of its density, no fungus or bacteria could grow

57:56

in the wound. It is also known that if a person suffering from allergies from a

58:01

certain plant is given honey produced from that plant, that person builds up certain resistance to the algae. 1,000 years before the discovery of the

58:12

circulation of blood and roughly 13 centuries before it was known what happens in the intestine to ensure that the organs are nourished by the process

58:21

of digestive absorption, we find a verse in the document. "From between the urine and the blood comes pure, delicious milk."

58:33

Only recently was it found that from what the cow eats, there is a separation of nutrients into the blood and the urine and the remainder ends up

58:41

as milk. Progress in botany 1400 years ago was nowhere advanced enough for it

58:48

to establish as a rule that plants have both male and female parts, nevertheless
58:54
we read in the document. "God is the One who sent water down from the sky and thereby brought forth pairs of plants, each separate from
59:06
the other." Today, we know that fruit comes from plants that have sexual
59:12
characteristics, even when it comes from unfertilized fruits like bananas.
59:18
"Of all fruits God placed on the Earth two of a pair." This document stated to early man
59:27
the remarkable premise that mountains move like the clouds. We know this to be true now since the Earth rotates around its axis and around
the Sun. But to an
59:37
ancient, what could be more contradictory to the obvious than that mountains move.
59:42
And yet "When you look at the mountains, you may think that they are standing
59:49
still. But they are moving in the same manner as the clouds. Such is the creation of God."
59:57
We know now of continental drift, a folding which forms mountain ranges. The
1:00:03
Earth's crust is like a solid shell on which we can live while the deeper layers are hot and fluid. "Have we not made the earth an expanse and
the
1:00:14
mountains stakes?" The stake like stability of the mountains is linked to
1:00:20
the folding phenomenon in that the folds provide the foundations for the reliefs that form the mountains. From this aspect, they are indeed
like
1:00:30
tent stakes driven deep into the ground. "He makes his chest straightened
1:00:37
like one who climbs towards the sky." Fingerprinting became a scientific
1:00:43
method of identification in the 1880s with the research of Sir Francis Galton. Galton calculated mathematically that no two persons could
have exactly the same
1:00:53
fingerprint patterns. "We can even reconstruct the tip of his finger." All of these scientific
1:01:03
phenomena have been taken from the same book. Other examples contain infinitely
1:01:08
more precious data which directly relate to facts discovered by modern science.
1:01:13
But it took modern computers to discover them. It is only now that the numerous verses of this text have finally become comprehensible. Dr.
Maurice Bucaille,
1:01:24
an eminent french scientist, says that it is impossible to explain how a text produced 1400 years ago could have contained ideas that have
only
1:01:34
been discovered in modern times. Many other scientific phenomena; the barrier between
1:01:39
salt and freshwater, the branch-like progression of combustion, all were mentioned 1,400 years ago. In a notable recent experiment
conducted by Nova,
1:01:50
it was found that at the exact moment of death, there is a slight weight loss in
1:01:55
humans, but not animals. This document states that at the moment of death, God
1:02:01
takes the soul away. And now we come to the most incredible significance of
1:02:06
these discoveries. Remember, we said that modern man needs an ultimate miracle to
1:02:12
release himself from the bondage of religious frustration and confusion about his creator. Well, it so happens that this ultimate miracle does
exist in
1:02:21
this document, the identity of which we are about to reveal. This ultimate
1:02:27
miracle exists in the form of a scientifically proven mathematical code
1:02:33
that is touchable, examinable, verifiable, and utterly irrefutable.
1:02:39
Not only does it prove that the author of this divine document is God Almighty,

1:02:45
but it also serves as the first physical evidence for the very existence of God. And it serves as a means for preservation for the document itself, so

1:02:54
that the reader knows that every word, indeed every letter is from God Almighty. This document is the Quran. And the ultimate miracle is the perfect and

1:03:06
unchallengeable mathematical code. This mathematical code, this signature of the

1:03:13
Creator, has always been here in the Quran for all to see. But only recently

1:03:18
was it revealed and then only with the help of a modern computer by Dr. Rashad Khalifa,

1:03:24
the Imam or minister of the mosque of Tucson. Briefly, let me explain.

1:03:30
The Quran consists of 114 chapters. 29 of these chapters are prefixed with letters

1:03:37
that remained mysterious for 1,400 years. Nobody knew what they meant until now.

1:03:43
Before we go into details of this, let us look at a simple example that will allow us to realize the magnitude of this miracle. Take a simple sentence like "Jack

1:03:53
and Jill went up the hill." There are 7 words and 24 letters in

1:03:58
this sentence and this is called the simple mathematical structure of this sentence. Now, let us try and change this mathematical structure but still try and

1:04:07
convey a specific meaning in good English. Let us say we want to convey the

1:04:12
same meaning with a sentence containing 7 words and 26 letters. We must pad 2 letters in "Jack and Jill went up the hill." In trying to do this, we

1:04:22
soon see that the word "Jack" and the word "Jill" cannot be changed. The word "over"

1:04:28
cannot be substituted for "up" because it conveys a separate meaning. Similarly, the

1:04:34
word "the" cannot be replaced by "a" because "a hill" refers to any hill. In other words,

1:04:42
it becomes pretty difficult to change the mathematical structure of a simple sentence and still have an accurate and acceptable statement in English. Now,

1:04:51
how about if we try and group sentences that conveys specific meanings into a mathematical pattern, not only controlling the count of total letters,

1:05:00
but also the count of specific letters within words? Suppose, we want to take "Jack and Jill went up the hill to fetch a pail of water" and change the total

1:05:10
number of "A's" plus the total number of "I's" to 9 instead of 8. There are

1:05:15
7 words containing the letters "A" and "I" that make perfect English and cannot

1:05:20
be changed. So, we can only try and change the rest of the words, but this will again convey a different meaning to the sentence. It quickly becomes apparent

1:05:29
that changing this structure to fit a pattern is almost impossible for just one sentence. Prepare for the shock. The document, the Quran, contains an

1:05:41
exquisitely sophisticated control of letters across chapters, within chapters,

1:05:46
in combination of letters between words, in total number of sentences, in total

1:05:51
number of words, all interlocking with one another rendering it impossible to duplicate even with the most powerful computers.

1:05:59
Yet, it remains very simple to understand. For example, 29 chapters, roughly 160,000

1:06:06
letters, are prefixed by mysterious letters. Chapter 50 starts with just Q.

1:06:13
Chapter 2 has A. L. M. Chapter 19 has 5 letters as a prefix K. H. Y. 'A. S. Please, note

1:06:22
that we have chosen English equivalents of the Arabic letters for simplicity of illustration. It was found that the letter Q occurs in chapter 50 exactly 57

1:06:32
times or 19 times 3. The "A's" "L's" & "M's" in chapter 2 occur a total of
1:06:38
9899 times and so on, without a single exception in all the initialed chapters, with the occurrences in multiples of the number
1:06:48
19. At the same time that the "A's" "L's" & "M's" are controlled in 7 chapters that have A.L.M. as a prefix, the "A's" and the
1:06:58
"L's" are part of the Arabic word for God, the occurrence of which is also being
1:07:03
controlled as you will soon see. At once we realize that there is a deliberate superhuman design that binds the book's chapters, verses,
words, even letters,
1:07:13
for if one letter was changed, deleted, or added, the whole system collapses. And the
1:07:19
fact that this system was discovered 1,400 years after its creation proves that it has been perfectly preserved. The foundation of
1:07:29
this mathematical code is the opening statement. "In the name of God,
1:07:34
Most Gracious, Most Merciful" and this contains exactly 38 alphabets or 19
1:07:39
times 2. In the language of the Quran, Arabic, it contains exactly 19 alphabets
1:07:46
and 4 words. These 4 words, namely "name", "God", "Most Gracious" and "Most
1:07:51
Merciful" appear in the whole book 19, 2698, 57, and 114 times,
1:08:02
respectively. All these are multiples of 19. The total number of verses are 6346.
1:08:12
The total chapters are 114, again, multiples of 19. We are beginning to see
1:08:20
that this unique code must have been pretty difficult to construct. "On it are nineteen - indeed by the moon, by the night as it passes, by the
morning as it shines,
1:08:32
this is one of the greatest miracles."
1:08:38
Greatest miracle indeed, and now we realize that 19 is the Creator's
1:08:44
signature on everything He created. For example, you and I have 209 bones in our
1:08:50
bodies, 19 times 11. A full-term fetus remains in the mother's womb 266 days, 19
1:08:58
times 14. The Sun, the Moon, the Earth line up in the same position every 19
1:09:04
years, and on and on and on. The viewer may wonder "why 19?" Well, using our ancestral
1:09:12
system of numerology, the Arabic and Hebrew word for "one" has a value of 19.
1:09:19
And this is what the message of Quran is "One, One God, and one Brotherhood of
1:09:26
Nations under God." The Quran was written under God's direction. One thing is clear.
1:09:34
No human being could have written such a complicated and perfectly mathematically coded text, not then, not now, even with the aid of
computers. One of the most
1:09:46
important functions of the Quran's mathematical code is that it proves and authenticates by physical evidence all the miracles of the
previous prophets
1:09:56
and messengers. Moses parted the Red Sea. Jesus revived the dead and healed the
1:10:01
hopelessly blind and the leprous and so on. Now, these miracles are mathematically composed within the Quran and proven by this code to
be true. God was the witness.
1:10:12
His words are Divine and what He has proven by means of the ultimate miracle
1:10:18
is that the Quran is indeed His word, the Word of God. Therefore, let us look
1:10:24
to it to answer some of our most crucial questions such as "why are there famines,
1:10:30
disasters, and diseases?" And "what is the overall purpose and meaning of life?"
1:10:36
And "what of peace, that elusive dream of the righteous universal man?" Given now that

1:10:43
the message of the Quran is One, One God, one Brotherhood, think of it.
1:10:51
All the power and love in the universe in One Supreme Being who has assured us
1:10:57
that He not only exists but communicates without question to those who believe and seek out the truth, His laws and commitment. Imagine
what can be achieved
1:11:11
by following His laws and directions.

In the name of God, the Most Gracious, the Most Merciful.
0:48
We are recording this program in January of 1986.
0:54
A couple of months ago, around November 1985, a book appeared in bookstores
1:01
across the nation that soon became a best-seller.
1:06
The book is a fictitious novel, narrating the arrival, monitoring of a coded
1:14
message from outer space that proved the existence of a super intelligence out there trying to contact
1:23
us on earth. The message was decoded by computers.
1:29
And the novel - this fictitious novel - even supports all-time religions' belief in
1:37
God. The novel is "Contact."
1:43
You probably saw this book, "Contact" by Carl Sagan.
1:49
And there are only four quotations that I would like to share with you in this
1:56
book. The first quotation appears on the front flap of the book and it says
2:06
"in Contact, Carl Sagan, whose cosmos enthralled millions of readers
2:14
and television viewers, has brilliantly employed the freedom of fiction
2:21
to imagine the greatest adventure of all; humanity's first encounter with other
2:28
intelligent beings." The second quotation appears on page 219. And it describes the computer decoding
2:42
of this message as "This is only the most amazing discovery in the history of the world."
2:52
Let me repeat this quotation. It describes the computer decoding of the message like this "This is only the most
3:03
amazing discovery in the history of the world." The third quotation that I would like to share with you, appears at the end of the
3:14
novel, page 430, where we find the conclusion of the
3:21
whole novel. And here it is "There is an intelligence
3:28
that antedates the universe." In other words, the novel is trying to say that
3:35
there is God out there. "There is an intelligence that antedates
3:41
the universe." The last quotation that I wish to share with you
3:47
is non-fictitious. It is not fiction at all. It is Carl Sagan's notes
3:52
at the end of the book. Carl Sagan says, in his... in the author's note "My fondest hope for this book
4:04
is that it will be made obsolete by the pace of real scientific discovery."
4:13
Well, ladies and gentlemen, Carl Sagan's fondest hope has just come true.
4:22
In the next 50 minutes or so, I will share with you the real scientific
4:28

discovery of a coded message from outer space, from deep space. And the message
4:35
will represent the first physical evidence ever for the existence of God.
4:42
We have been talking about God, and those who believe in God have been presenting
4:49
circumstantial evidence. But now, we are going to witness a miracle. We are going
4:56
to witness physical evidence, the first incontrovertible evidence that God exists. And we are going to see this
5:07
proof through the real scientific discovery of a coded
5:14
message that came to us and could never be human-made.
5:20
Before I get to the historical development of this message, and the
5:27
monitoring and decoding of it, I would like to make a couple of statements
5:33
that I consider very important. The first statement is that every
5:39
utterance you are going to hear in this program is a proven scientific fact. Every statement you are going to hear
5:53
is proven by means of a mathematical code that gives us, provides us with physical
6:01
evidence that every statement is correct. It is very important that you have full
6:08
confidence that every statement here is proven
6:14
by physical evidence. The reason I'm saying this is that some
6:20
of the statements you are going to hear had in the past provoked ridicule or snickering or some laughter. This will no longer be the case.
6:33
You see, the message came to this world in many parts, and the first part came
6:42
to us through the first man, Adam. Adam was created by God, and he knew about God
6:52
and when he came to this world, he transmitted the first portion of the
6:58
message. The purpose of the message as you will see is to tell us where we came from, why we are here, where we are going, the
7:09
purpose of our existence. So, Adam taught his children
7:15
and grandchildren about God, and everything he knew about the creation of Adam,
7:23
the creation of the human being, the creation of his wife, Eve, and how he came from
7:30
up there to the planet Earth. That is a very important part of the message.
7:37
The message, afterwards, came to us through every
7:42
messenger of God: Noah, Abraham, Moses, Jesus, Muhammad. And I will go through the
7:52
stages of development of the message and show you the mathematical code that was embedded in these messages.
8:43
What happened was that God picked out from every generation a human being
8:50
through whom God sent part of the message. We are talking about one and the
8:56
same message. Abraham, Moses, David, Solomon, Jesus, Muhammad, all these people received parts
9:08
of one and the same message. And as a proof of authenticity, as it turns out,
9:16
and as you will witness in this program, God incorporated in His message to us
9:23
an intricate mathematical code. Intricate beyond human ability, just to prove
9:31
that this message is not fabricated by any human being.
9:38
Abraham contributed a good portion of that message.
9:45
And you know, you probably watched the movie "the Ten

9:50
Commandments." You know that Moses was walking in the desert when he saw the burning bush, and God communicated with Moses.
10:01
God communicated part of that message. It was a very significant part - part that we
10:07
call today the Torah. You saw in the movie and you read in the
10:12
Bible how the tablets were, were written, were recorded, that the scripture
10:21
was recorded on the tablets. That scripture, in the language of Moses, was mathematically
10:27
coded beyond human ability, and this is what this program is all about.
10:34
The discovery of a mathematical code embedded within God's message to us
10:43
through His messengers. The first hint - let me go back to Moses, when he carried the tablet with the
10:54
message on them, the letters on those tablets were counted according to
11:02
an intricate mathematical code, the same mathematical code that was discovered
11:08
in all the scriptures. The message given to Jesus, in his language, Aramaic, was also mathematically
11:21
coded in that language. The alphabet letters of that message were counted
11:27
and carefully placed. The whole message in Aramaic was
11:34
composed according to a mathematical pattern. And this is the pattern that was
11:40
consistent through every part of the message, from Adam to Abraham, Noah, before
11:45
that, Moses, David, Solomon, Jesus, Muhammad. The same mathematical code, the letters,
11:52
the words, the verses, everything was calculated and carefully placed to prove
12:00
that the message is from God. The first hint of the discovery of a mathematical code was, at least what we
12:11
know of, was announced about 1000 years ago. And this was printed recently in a
12:18
book called "Studies in Jewish Mysticism." "Studies in Jewish Mysticism."
12:26
And I'm going to read for you a quotation from that book "No change can be
12:34
tolerated in the text of the prayers, not even a minute one, because every change,
12:42
even of one letter, would destroy the numerical harmony
12:47
inherent in the text." That was the first hint of a mathematical code in God's
12:52
message to the world. Here is another quotation from the
12:57
same book, and this quotation also was written about 900 years ago.
13:03
"According to Rabbi Judah and the Ashkenazi Hasidic school in general,
13:09
there can be nothing accidental in the Bible, not even the forms of letters,
13:14
the punctuation, the vocalization, and especially in the numerical structures."
13:22
How do you like that? 900 years ago marks the first discovery of a mathematical
13:28
code in the scriptures. And I will go through the details
13:35
of this amazing mathematical code, and how it penetrates and encodes the complete
13:43
scripture of God. Of course, I'm talking about the original scripture, not any
13:49
translation. We are talking about the original words of God in the languages
13:54
of God's messengers: Adam, Abraham, Moses, David, Solomon, many many others,
14:03

Jesus, Muhammad. And the original scripture was coded according to this
14:10
very intricate miraculous system.
14:34
How in the world are we going to study the original scriptures given to Abraham,
14:41
Moses, David, Jesus and Muhammad? The mathematical code that God put
14:50
in His message to the world, is in the original scripture, the original
14:57
words, letters, verses that were written by God Almighty in those
15:04
scriptures. In Abraham's scripture, in his original language, Moses' scripture, in his
15:11
original language and so on. How are we going to study the original
15:17
scripture given to Jesus in Aramaic, his language?
15:23
Well, there is only one scripture in the world today that is original and still
15:30
intact, and that is the Quran. Back in the year 610 AD, God picked out a man named
15:40
Muhammad and communicated with us through him, by giving him the Quran.
15:47
And Quran today is the only original intact scripture in the original language
15:55
as written by God Almighty. The Quran represents the latest edition
16:02
of the scripture. Remember, we are talking about one and the same message.
16:07
And the mathematical code that I will share with you today
16:13
was throughout the whole message, in the Torah, in the Gospel of Jesus, in the Quran,
16:22
in the Psalms. And as I mentioned... I mentioned to you glimpses of the
16:28
mathematical code that were written about, about a thousand years ago.
16:35
Back in 1968, I noticed that the Quran had
16:40
mysterious letters at the beginning of certain chapters. For example, chapter 2,
16:46
begins... the first verse is only three letters A.L.M. "What is A.L.M.?" I wondered.
16:55
29 chapters in Quran have these mysterious letters. Chapter 50
17:01
is entitled Q. That's it, Q. and is prefixed with the letter Q, nothing else, Q.
17:09
Chapter 68 is prefixed with the letter N. Chapter 36 is prefixed with the
17:19
letter, letters Y.S. and so on. These letters remained mysterious for 1,400 years
17:27
since 610 AD. Well, curiosity led me to put the Quran in the computer just to find out what
17:37
these letters represent. So, I wrote the Quran in the computer. Of course, the
17:43
Quran in the original language is Arabic, remember? And the computers when back in
17:50
1968, they didn't have Arabic computers. So, what I did, I took every Arabic letter
17:57
in the Quran and I used an English letter to represent the Arabic letter.
18:03
And I put the whole scripture, the final edition of God's message to the world
18:09
in the computer. Then, I asked the computer for a number of mathematical
18:15
characteristics. The number of every letter in every chapter, the numbers of
18:21
words, and all kinds of questions. I had no idea what to expect.
18:27
And when the computer was through and answering my questions, a very intricate

18:34
 mathematical pattern emerged, and fit with the older findings of mathematical
 18:42
 codes in the original scriptures of Moses, Jesus, David, and so on.
 18:49
 The mathematical code that emerged provides the first physical evidence for the existence of God.
 18:58
 In fact, once you study this mathematical pattern in detail and understand it, you will no longer believe in God. You will
 19:09
 know that God exists. You will need faith no longer. So, that's how
 19:16
 intricate and how miraculous this mathematical code is.
 19:51
 As it turns out, these mysterious letters have specific counts in their chapters.
 20:00
 And there was one common denominator in the whole scripture that is common to
 20:07
 all these letters. We're talking about exactly half the Quran. The Quran
 20:14
 is about 500 pages of the regular-sized pages, and the mysterious letters prefix
 20:21
 29 chapters that represent, in size, about half the Quran. The Quran consists
 20:30
 of 114 chapters, many of them are short chapters, but these mysterious letters
 20:36
 prefix about half the Quran and it turned out that every single set
 20:43
 of these mysterious letters is found in its chapter in multiples of 19, without
 20:50
 a single exception. In other words, the letters are distributed within Quran
 20:55
 according to this intricate mathematical pattern that is way beyond the human
 21:01
 ability. When you study it in detail, you will have no doubt whatsoever that there is a mathematical system proving the
 21:11
 authenticity of Quran as God's message to the world. To be more accurate: as God's
 21:17
 final edition of the scripture, His message to the world.
 21:46
 So, now let me give you a few examples to demonstrate the miraculous nature of this mathematical code.
 21:55
 Chapter 50, for example, in Quran is entitled Q, as I mentioned before,
 22:01
 and is prefixed with the letter Q. When you count the letter Q in that chapter,
 22:07
 you will find 57 Q's in the whole chapter. That is 19 times 3. It's a
 22:14
 multiple of 19. And as I said every single one of these mysterious letters
 22:20
 is found in its chapter in multiples of 19. There is another chapter in Quran, one
 22:27
 other chapter, that is also prefixed with the letter Q, and that is chapter 42.
 22:34
 And guess what, even though chapter 42 of Quran is more than twice as long
 22:40
 as chapter 50, it has the same number of Q in it, 57.
 22:46
 So,...and 57 is 19 equals 3. So, the only two chapters in Quran that are prefixed with
 22:54
 the letter Q have exactly the same number, 57 and 57. And Q, we are told in
 23:01
 chapter 50, represents Quran. Quran is spelled with the heavy K in the Arabic
 23:07
 language, which is represented by the letter Q. Only two chapters, 57 and 57, the total is 114. And guess what, this is the number
 23:18
 of chapters in Quran, 114, 19 times 6. The letter N prefixes chapter 68, and when
 23:28
 we count the letter N in that chapter, we find 133. These as you notice are
 23:34
 physical facts. It is not guesswork. I'm not saying "in my opinion, chapter 68
 23:42

contains 133 N's." This is a physical fact. The chapter is initialed
23:49
with the letter N, prefixed with the initial N, and it contains 133 Ns. 133 is a multiple
23:58
of 19. It equals 19 times 7. Chapter 36, for example, is prefixed
24:06
with the letters Y.S., and when you count the letters Y and S in this chapter,
24:13
the total is 285, or 19 times 15. How do you like that? This means every letter Y,
24:23
every letter S, in this chapter, is counted, calculated and harmonized with
24:29
the other initialed chapters. There is also an interlocking relationship between these letters,
24:37
because you find these letters in a number of chapters and they interlock
24:43
with each other, and all of them give you totals that are multiples of 19. We will find out why 19 before the end of this program. But at
24:54
this point, I would like to quote for you from Rabbi Judah the pious, his writings
25:01
of about a thousand years ago, and it demonstrates the common denominator
25:07
in all the scriptures, one and the same message: the Quran, the Gospel of Jesus,
25:14
the Torah of Moses, the Psalms of David. Let me quote for you from Rabbi Judah
25:21
the pious, where we find that the number 19 is the common denominator in all the
25:28
scriptures. Here's what Rabbi Judah said
25:33
900 years ago "The people, the Jews in France, made it a custom to add in the
25:39
morning prayer the words: ashrei temimei derekh,
25:45
which means blessed are those who walk the right righteous way. And our Rabbi
25:50
the Pious of blessed memory wrote that they were completely and utterly wrong.
25:56
It is all gross falsehood because there are only 19 times..." here it is
26:03
"...there are only 19 times that the holy name is mentioned in that portion of the
26:08
morning prayer. And similarly, you find the word Elohim 19 times. Similarly,
26:17
you find that Israel were called sons 19 times, and there are many other examples.
26:25
All these sets of 19..." 19, here we go. ..."are intricately intertwined
26:34
and they contain many secrets and esoteric meanings which are contained in
26:39
more than eight large volumes." So, this is just to give you an idea that the
26:45
number 19 is the common denominator in all portions of the message, God's
26:52
message to the world.
28:03
Ladies and gentlemen, it is impossible, statistically impossible to write a book
28:10
with this kind of mathematical composition, where every letter, every word is calculated and carefully placed according to a mathematical
pattern
28:20
that is clearly beyond human ability. We find this mathematical pattern in God's
28:26
scripture, the one and the same message, in Quran and in previous scriptures.
28:32
I just gave you the example from the Torah as written by Rabbi Judah the pious.
28:52
And now we come to the big question "why 19?" in the older scripture as well as in
28:59
the Quran. Why is 19 the common denominator of God's message to the
29:04

world, from the time of Adam until now? And why did it have to wait? You see, when Rabbi Judah discovered the number 19
29:16
in the older scriptures, he didn't know why 19. As you recall when I
29:22
quoted him, he said "there is a secret and a great esoteric meaning to the number
29:27
19" but he didn't know why. Because this question had to wait until the
29:34
completion of God's message to the world by revealing the final edition, the Quran
29:40
in the Arabic language. You see 19 is the numerical value of the word "one", in Arabic. And this is the whole essence
29:52
of the scripture, that there is one God, that we shall worship only the one God.
29:59
In Arabic, the word "one" is written like this. It is pronounced: "WAHD."
30:09
And at the time of revelation of Quran, there were no numbers as we know
30:15
them today. They used the alphabet letters as numbers.
30:21
So, the numbers were non-existent. This is a relatively recent invention,
30:28
the numbers. So, let us go to this word in Arabic, the word "one" or "WAHD" and see
30:33
how the numerical value equals 19. The first letter in this word
30:40
"W" was 6 in those days. It was the letter "W" and also the number 6. This is
30:48
the letter "A" and it represents the numeral 1. This is the letter "Ha" which represented the numeral 8. Finally,
30:59
the letter "D", "WAHD", the letter "D" was 4. And if you add the total, 6 plus 1
31:08
is 7... 7 plus 8 is 15... 15 plus 4 is 19. So, there's the total the numerical
31:17
value of the word "one" in Arabic. And now with the completion of the scriptures,
31:25
through the revelation of Quran, we know why 19. 19, the common denominator of the
31:36
mathematical code throughout the scriptures, means "one." God is one.
31:48
What is more important than the mathematical code is the content of the
31:53
message itself. Because the message, being from our Creator, tells us who we are, where we came from, where we are going, and why we
32:05
are here, what is the purpose of our life. These are the most important questions
32:11
as far as any human being is concerned. And now, we have the answers from the
32:16
most authoritative source, the Creator Himself. Naturally, we cannot discuss all the contents of the message in one program.
32:27
Hopefully, in a series of programs, we will present to you the contents of the message. But for now, let me deal with just one question:
32:38
Who is God? Who is the One who created you and me?
32:45
There is a specific One who created you and me, and the whole universe. There is a
32:51
certain One that we should know who is the Omnipotent, Omnipresent, Omniscient
32:59
God who runs this universe. Who is He? The Quran describes God as following:
33:10
You see, this planet Earth is part of the Milky Way galaxy, and the Milky Way
33:18
galaxy is so huge that it takes 30,000 light years, if you travel at the speed
33:26
of light, it will take you 30,000 years to reach the outer limit of the Milky Way galaxy, our galaxy. And our universe contains 1 billion
33:40
galaxies like the Milky Way, a billion trillion stars. These numbers are actual
33:48
scientific numbers. The astronomers, the scientists, stopped counting at 1 billion
33:54
galaxies in our universe and the billion trillion stars. That's how big our

34:00
universe is. We now measured 26 billion light years within our universe, 26,000 millions
34:13
of light years within our universe. And the Quran, God tells us in Quran that there are seven universes.
34:26
The billion trillion stars, the 1 billion galaxies, the 26
34:33
billion light years are only within the smallest and innermost of seven
34:40
universes. This is how God describes the universes. You can imagine seven balls
34:47
inside each other. And we live in the smallest and innermost of the seven
34:54
universes. Can you imagine the size of the second universe? How about the third universe?
35:02
The fourth? The fifth? The sixth? And the seventh universe? How can we describe the
35:09
circumference of the seventh universe? Infinity will be the most accurate
35:16
description of the length of the circumference of the seventh universe.
35:25
And you know what? Quran describes God as holding the seven universes in His right hand. That's who God is.
35:38
God is holding the seven universes in one hand. It makes a difference whether
35:45
you are holding something in both hands, like this, or within the fists of one
35:51
hand. And in chapter 39 of Quran, God describes Himself as holding the seven
35:57
universes in His right hand, and this tells you who God is.
36:05
God is the One who created the sun, the moon, the stars, the galaxies in the
36:11
extreme accuracy that you see. The sun will rise tomorrow exactly at the
36:18
specific time from the specific place because God designed it this way. And He's
36:26
the only one who controls it. No other entity, human or non-human,
36:33
designed this universe. So, this is just an example of the contents of the
36:40
message. The message goes on and tells you exactly why you are here
36:46
and how to fulfill the purpose of your life. But we will get into these topics
36:52
in the future, God willing. And I hope you will follow these series of programs. Meanwhile,
36:58
if you have any questions, please write to me or call. Our address is
37:04

The telephone is area code 602 791 3989.
37:49
Ladies and gentlemen, my name is Rashad Khalifa, and what I'm about to share
37:55
with you is the most important news in the history of the world. Because this is the
38:02
most important news, it comes with something unique, something
38:07
never witnessed before, a built-in irrefutable proof of authenticity.
38:13
The world's leaders are invited, as well as each and every one of you, invited to
38:20
examine the evidence then take action in accordance with this news. Here are the
38:27
headlines. This year, 1986, is the last year to experience the world as we know
38:35
it, today. A new worldwide era or worldwide system will begin sometime
38:43
between September 6, 1986 and August 25th, 1987. We are recording this bulletin
38:52

on May 15th, 1986. The new era will last 303 lunar years, which is equivalent to
39:03
294 regular years after which the world will come to an end.
39:10
In other words, after 300 years of a new era, the world will end in the year 2280.
39:48
Up until now, the world has served as the testing ground for Satan's claim that he
39:55
can be a god besides God. Up until now, the world has been Satan's domain.
40:03
Satan's incompetence as a god has been proven by the abundance of misery,
40:10
disease, famine, divorce, oppression, and wars, in this world. In the new era, Satan
40:18
will throw up his arms and declare his failure. For thousands of years, Satan has
40:26
been trying very hard to make his domain, the planet Earth, a perfect place, where
40:33
everyone enjoys perfect health, perfect wealth, and perfect peace, but he
40:39
just couldn't do it. While Satan's kingdom is plagued
40:45
with misery, disease, famine, poverty, oppression, and wars, the upcoming era of God's
40:53
kingdom is characterized by perfect health, perfect wealth, and perfect peace and joy. To become a member in the upcoming
41:04
kingdom of God, you must satisfy three minimum requirements. First, you must
41:11
believe in the one true God as the Omnipotent, Omniscient and Omnipresent
41:18
Creator and Sustainer of the universe. You must believe in the one true God, the
41:25
specific One who actually created you. You must believe in the one true God
41:32
ALONE without idolization of any creature of God, such as Jesus, or Mary,
41:38
or Buddha, or Muhammad, or the saints. The definition of idol worship is believing
41:46
that anyone or anything other than God can benefit you. The second requirement
41:53
for membership in the upcoming kingdom of God is to believe in the Hereafter,
41:58
Resurrection after death, Heaven and Hell. The third requirement is to lead
42:06
a righteous life and this means that you're a person who is honest, truthful, nice,
42:14
one who never hurts anyone.
42:49
So, these are the three minimum requirements for membership in God's
42:55
Kingdom. First, to believe in God alone without setting up any idols. Second, to
43:02
believe in the Hereafter. Third, to lead a righteous life.
43:07
This news bulletin confirms the conclusions of the outstanding Christian
43:14
scholars who thoroughly researched the Bible then concluded that Jesus
43:19
is neither God nor the son of God, but a great teacher and the messenger
43:25
of God. They published their findings in the famous book "the myth of God incarnate."
43:49
The next headline is actually an invitation and a challenge to the
43:54
world's leaders to examine the evidence, the incontrovertible physical evidence
44:01
that comes to the world built into this message. I invite them to examine
44:07
the evidence, then take whatever action they deem necessary to save their
44:13
own necks and the necks of millions of people who follow them.

44:18
 I invite Billy Graham to examine the evidence, then repent and save himself
 44:25
 and his millions of followers. One of Dr. Graham's favorite statements is "I know
 44:33
 I am going to Heaven." Well, I have news for Dr. Graham.
 44:38
 He will see Heaven only if he repents and reverses the mobilization of millions of
 44:45
 people against Jesus Christ and the teachings of Jesus Christ. I have no
 44:51
 doubt about the sincerity of Dr. Graham. But I can show him physical evidence,
 44:57
 proving that he has been used by Satan to oppose Jesus Christ.
 45:17
 I invite Billy Graham, Pat Robertson, Jerry Falwell, Robert Schuller, Oral
 45:24
 Roberts, Jimmy Swaggart and all evangelists to join God's Kingdom by
 45:31
 upholding the teachings of Jesus Christ, and by abstaining from offending Jesus
 45:37
 by calling him God or son of God. I invite the Pope to join God's
 45:43
 Kingdom before it's too late. I call on Pope John Paul II to
 45:50
 examine the evidence, then lead his 1 billion followers out of Satan's grip
 45:57
 and into God's upcoming Kingdom. The Pope is in contempt of God so long as he
 46:04
 idolizes Jesus, Mary and the Saints against their will.
 46:30
 Rabbi Kushner of Boston has published a book entitled "When bad things
 46:36
 happen to good people." This book exposed Rabbi Kushner's denial of God's
 46:43
 Omnipotence and revealed the reason why Satan had victimized Rabbi Kushner
 46:51
 and his late son. I invite Rabbi Kushner to break away
 46:56
 from his persecutor, Satan, and to join God's Kingdom by professing God's
 47:03
 Omnipotence and by taking whatever action necessary to retract
 47:09
 his blasphemies against God.
 47:25
 This bulletin declares that the Muslim world has been in Satan's camp for 1,200
 47:32
 years. The Muslims, en masse, have abandoned the word of God in favor
 47:39
 of man-made fabrications. I invite the leaders of the Islamic world to stop
 47:46
 misleading their 1 billion followers, and to join God's upcoming Kingdom by
 47:53
 upholding the word of God and nothing but the word of God.
 48:18
 I must point out that no one should ever think that I am judging anyone. Only God is Judge. What I
 48:28
 uttered in this bulletin was God's judgment, not my judgment. And God's
 48:35
 judgment is supported by its built-in proof of authenticity that anyone can
 48:42
 examine and verify. May God guide us all towards membership in His eternal Kingdom.

03 Mathematical Miracle of Quran

How this mathematical miracle of the Quran was discovered? When I came to this
 1:15
 country, the United States, in 1968, I read the English translations of the Quran

1:21
and I didn't like any of them. I read them all, Yusuf Ali, Muhammad Ali,
1:27
Pickthall, Arberry, N. J. Dawood, and so on. All of them, even as far back as
1:33
George Sale's translation. Some of them actually distorted the basic doctrines
1:40
of the Quran and that was serious enough to encourage me to translate the Quran
1:47
myself, for my own children. I did it just for local consumption. However, because
1:55
I'm a chemist and not a professional religionist, I decided not to move from one verse to the next unless I knew exactly what
2:06
every word and every verse meant. I made a pledge to God that I will not move
2:12
from one verse to the next unless I know exactly what it meant. So, I started the
2:19
translation and I finished the first Surah, Al-Fātehah in seven days. Then, I moved on to the next verse, the first verse of Sura
2:29
number two, Al-Baqarah. And I found that it consisted of only three letters: م ا ل = A.L.M. Of course, I knew this
2:38
all along since I was a young child, but now I'm trying to translate it.
2:45
I wanted to know exactly what the significance of A.L.M. is. I looked up all
2:52
the Tafseers, interpretations, and all the books written about these letters
2:59
and everybody, all the scholars said "we do not know what these letters mean." So, I
3:06
started my own research and after many attempts and many failures, I decided to
3:13
put the whole Quran in the computer. I didn't know what to look for. So, I had
3:21
the computer count every letter in every Sura, and the objective was to look for
3:27
any mathematical connections or any mathematical pattern between... that
3:34
involves these letters. There are 29 Suras in the Quran prefixed with these
3:40
initials, different sets of initials, 14 sets of initials to be exact: م, نون, ص, ق, ط, س, هـ, ح
3:51
ا, ل, م, نون, ص, ق, ط, س, هـ, ح, and so on, 14 of them. And sure enough, after 4 years of research
4:00
a mathematical pattern emerged with a common denominator binding
4:06
all these initials without a single exception. And the common denominator was
4:11
19. As it turned out, and as you will see in this program, every element of the
4:19
Quran: the number of verses, the numbers assigned to the Suras, numbers of words,
4:25
the letters, every letter in the Quran is mathematically composed beyond human capability. And the common denominator
4:36
that binds all these mathematical physical facts is the number 19.
5:16
So, let us get down to business and look at the Quran itself. And I would like to remind
5:22
you that all the items you're going to see are factual observations. They're all
5:29
physical facts in the Quran. So, here is a big Quran that we can see together
5:35
and the first item of this miracle is that the first verse in the Quran:
5:44
"Bism Allah Arrahman Arraheem" consists of 19 Arabic letters. Here they are: 1, 2, 3, 4,
5:52
5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 19 letters. And the whole Quran has 114
6:04
Suras. As we see here, the last Sura is number 114, and 114 is a multiple of 19,
6:17
19 times 6. And it consists of six verses, by the way.
6:24

So, 19 times 6 gives us the total number of Suras in the Quran, 114.

6:35

Now, if we count from this Sura towards the other Suras, here is 1, 2, 3, 4,

6:47

5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18 and 19.

7:11

We find that number 19 is the first revelation in Quran, Sura number 96 and it says

7:19

(96:1) أَفْرَأْ بِاسْمِ رَبِّكَ الَّذِي خَلَقَ the first revelation. So, the first Sura revealed is positioned, in the Quran, atop the last

7:30

19 Suras in the Quran. You also notice that this Sura consists of 19 verses.

7:39

The first revelation was 19 words exactly. Here they are: 1, 2, 3, 4, 5, 6, 7, 8, 9,

7:51

10, then go to the next page, 11, 12, 13, 14, 15, 16, 17, 18, 19. This was the first

8:07

revelation through the Prophet Muhammad, and it consisted of 19 words. If you

8:13

count the letters in these 19 words, you find that the total is 76, 19 times 4.

8:22

And if you count the letters in the whole Sura, the first

8:28

Sura revealed, you find that the total is 285 letters, or 19 times 15.

8:41

The last Sura revealed was Sura number 110 and it consists also of 19 words.

8:51

Here they are: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19. So, the last

9:09

revelation and the first revelation consisted of 19 words. Now, if you go back

9:16

to the very beginning, the first verse in the Quran, as you heard before

9:27

the first verse of the Quran "Bism Allah Arrahman Arraheem" consists of 19 letters. Every word, there are four words here, and every word is mentioned in the

9:38

Quran a number of times which is consistently a multiple of 19. The word

9:45

"ism" which means name is mentioned in the Quran 19 times, exactly.

9:51

If you wish to use the word "Bism", it is mentioned three times, but if you add

9:57

the numbers assigned to the verses and Suras where the 3 times of "Bism" occur, the

10:03

total is 114, 19 times 6. The second word "Allah" is mentioned in the whole book

10:12

2698 times, or 19 times 142. The third word

10:19

"Arrahman" is mentioned in the whole Quran 57 times, or 19 times 3.

10:26

The last word "Arraheem" is mentioned in the whole book 114 times, or 19 times 6.

11:31

As you see, Bism Allah Arrahman Arraheem, the first verse in the Quran is very

11:36

important. And you will see it at the beginning of every Sura in the Quran.

11:42

Every Sura has this "Bism Allah Arrahman Arraheem" at the beginning except one.

11:50

However, only the first verse of the first Sura is numbered. It has number one.

11:56

When you go to the other Suras, you find that this opening statement has no number. This is why we take only the first opening statement to represent

12:08

all the Bismillahs in the Quran, all the opening statements of the Quran. If you

12:14

go to Sura 9, you will notice that this Sura does not have a Basmalah. It says

12:25

here that this Sura does not have Bismillah. Now, since the Quran has 114 Suras, and this one does not have an opening

12:35

statement, this will mean that we have only 113 Basmalahs in the Quran, and this

12:43

number is not divisible by 19. But we find that this missing Bismillah is made

12:51
up in Sura number 27. So, if you go to surah number 27,
13:05
you will see that we have two "Bismillahs." This is Sura number 27, and there is one "Bism Allah Arrahman Arraheem" at the
13:15
beginning, like every other surah except Sura 9 and there is an extra one
13:21
in the middle of the Sura. Right here in verse 30, you'll see another "Bism Allah Arrahman Arraheem." So, this Sura contains two of them, two
of the opening
13:34
statement or "Basmalahs", one at the beginning and one in verse 30.
13:40
And this restores the number of this important opening statement to 114
13:47
or 19 times 6. Also, if you count the Suras from the
13:57
missing Bismillah of Sura 9... see, there's the missing Bismillah of Sura 9.
14:06
And then we count the Suras from here to the place where we find the extra Bismillah. Here is one. This is number 1.
14:17
2 Suras, 3 Suras,
14:31
4, 5, 6, we are counting from the missing Bismillah to the extra
14:52
Bismillah, this will be 7, 8, 9, 10, 11,
15:27
12,
15:36
13,
15:42
14, 15, 16, and 17,
16:02
we didn't get to Sura 27 yet. This is 25 which is the 17th Sura from the missing
16:09
Bismillah. Here is 18, and you'll find that the Sura that has two Bismillahs,
16:21
Sura number 27, is Sura number 19. From the missing "Bismillah" to the extra
16:29
"Bismillah", from Sura 9 to Sura 27, we find exactly 19 Suras, inclusive.
16:37
This is the Sura that has two "Bismillahs" and it is Sura number 19 after the missing
16:48
"Bismillah" of Sura 9. From the missing "Bismillah" in Sura 9 to the extra
16:55
"Bismillah" in Sura 27, there are 19 Suras.
17:03
So, when you count the Suras from the missing "Bism Allah Arrahman Arraheem" of
17:09
Sura 9 to the extra "Bismillah" in Sura 27, you find 19 Suras. Now, watch this:
17:17
if you add the numbers of the Suras, the numbers assigned to the Suras, from 9
17:23
to 27, from the missing Bismillah to the extra Bismillah, that is 9 plus 10
17:28
plus 11 plus 12 plus 13 all the way to plus 26 plus 27,
17:34
the total is 342 which is a multiple of 19. It is 19 times 18. And this is half the
17:43
story. You add the numbers of the Suras from the missing Bismillah to the extra
17:50
Bismillah 9 + 10 + 11 all the way to 27 the total, 342, is exactly the number of
17:58
words between the two Bismillahs of Sura 27, the number of words, as you see
18:04
here. This total, 342, is exactly the number of words between this Bismillah
18:16
in Sura 27, and the second Bismillah of Sura 27. You count these words.
18:22
You count all these words and you'll find that the total, up to this
18:28
word here, before the second Bismillah, up to this word, the total is 342, which

18:36
equals the total of the numbers of Suras from the missing Bismillah to this extra
18:42
Bismillah.
19:59
The number of verses "Ayat" in the Quran, from the beginning, from the first AYA
20:10
or verse, to the very end,
20:18
to the last AYA is 6346, which is a
20:27
multiple of 19. The total number of AYAT, verses, in the Quran
20:33
6346, or 19 times 334.
20:44
As I mentioned before, there are 29 Suras in Quran that are initialed with these Quranic
20:52
initials. And the first initial in the Quran is in Sura number two, the first
20:59
verse: (الم) A.L.M. The last initial is the
21:07
initial NuN (نون) in Sura number 68, which is right here.
21:29
This initial here is the last initial. This here is the first initial and this
21:40
is the last initial. The number of AYAT or verses in this section here, from the
21:49
first initial to the last initial, is 5263 AYAT or verses, 19 times 277. You just
22:02
start at (الم) (A.L.M.), the first Quranic initial, and you count all the
22:10
verses in here up to this verse in Sura 68, and you'll find that the total
22:20
is 5263, or 19 times 277.
22:27
Also, if you count the word "Allah" in this section between the first initial and the last initial, you'll
22:38
find that the total of the word "Allah" here is 2641
22:45
which is a multiple of 19, 19 times 139. And of course,
22:54
if you count the word "Allah" outside of this section, that will be here
23:00
and before (الم) (A.L.M.), the word "Allah" is 57 times, is found 57 times or 19 times 3.
23:11
In the section from the first initial, (الم) (A.L.M.) to the last initial, NuN (نون),
23:21
there are exactly 38 Suras without initials. The un-initialed Suras here are 38
23:28
which is a multiple of 19, 19 times 2. So, this is another physical fact.
23:41
Now, I mentioned that outside of this section, there are 57 word "Allah." That's outside
23:50
the initialed section of the Quran, in this part and this part to the end. There are
23:57
57 words "Allah." If you add the numbers of the Suras, the numbers assigned to the
24:04
Suras, like this number here, and the numbers assigned to the verses, the total
24:12
is 2432, or 19 times 128. Now, I'm talking about the numbers assigned to the Suras
24:21
and verses where you find the word "Allah" outside of the initialed section. You add
24:27
these numbers assigned to the Suras and to the verses wherever you find the word "Allah", and the total is a multiple of 19. Well, this proves
that the numbers
24:37
assigned to the Suras and the numbers assigned to the verses are from God, not from humans.
25:48
The word "Al-Quran" is mentioned in the Quran 57 times. That is 19 times 3.
25:58
Isn't that profound? And if you add the numbers of the Suras and the numbers

26:07
of verses, where the word the Quran is found, the total is 2660, which is 19 times
26:18
140. I'm talking about the numbers - for example, this word here, Al-Quran, is in
26:25
Sura 17. See the Sura number is 17,
26:37
and the verse number is 45 as you see here. You take these numbers, the 57 times
26:47
where the word Quran is found in the Quran, and you add the numbers of the verses and the numbers of the Suras, altogether, the total is
26:56
2660, or 19 times 140. There are other grammatical forms of
27:05
this word "Al-Quran" like "Al-Quranan" and "Al-Quranahu" and if you add all the
27:12
Suras and all the verses, the numbers of the verses and the numbers of the Suras,
27:17
where these forms, different forms of the word "Quran" is found, the grand total
27:24
is 3363, or 19 times 177. Of course, the word
27:33
"Quran" is very special and this is why it is so intricately composed within the Quran.
28:10
The first pillar of Islam, mainly that God is one, is mentioned in the Quran
28:18
exactly 19 times, that "Allah Wahid." God is one, is mention in the Quran exactly
28:25
19 times. Now, there's also the word "Wahdahu", worship God alone.
28:37
This commandment to worship God alone "Wahdahu" is mentioned in the Quran five
28:42
times, and if you add the numbers of the verses and the numbers of Suras where
28:49
the word "Wahdahu" worship God alone occurs, the total is 361, or 19 times 19.
28:58
So, this emphasizes the importance of worshipping God alone. The word "Wahid"
29:06
referring to God as one, is mentioned in the Quran 19 times and the word "Wahdahu"
29:11
is mentioned 5 times, but when you add the verses and Suras' numbers where this
29:19
word "Wahdahu" is found, the total is 361, 19 times 19.
29:33
For example, this word "Wahdahu" happens in verse 12 of Sura number 40. So, you take this number 40 and the number of the
29:47
verse 12, and you do this every time you see the word "Wahdahu" in the Quran and the total is 361, 19 times 19.
30:30
The other 4 pillars of Islam, the Salat, the Zakat, the Hajj and Siyam,
30:38
are mentioned in the Quran 114 times, or 19 times 6.
30:44
Now, when you take the word "Salat" for example, which happens in the Quran 67 times, and you take the numbers of verses and the
30:55
numbers of the Suras where
31:03
every time you see this word "Salat" and you add them up, the total
31:17
is a multiple of 19. It is 4674, or 19 times 246, the word "Salat" throughout the
31:23
Quran. You add the verses and the numbers of the verses and the
31:28
numbers of Suras where the word "Salat" occurs, and the total is
31:34
4674, or 19 times 246.
31:42
If you go to the word "Zakat", you find that "Zakat" and "Hajj", you add the
31:48
numbers of the verses and the numbers of Suras where "Zakat" and "Hajj" are found,
31:58
and the total is 2888, or 19 times 19 times 8. This is "Zakat" and
"Hajj" together. You add the numbers of the verses and the numbers of the Suras

32:05
 throughout the Quran where you see "Zakat" and "Hajj." When you look at the word
 32:14
 "Siyam" in the Quran, the whole Quran, the fasting of Ramadan, you'll see that it
 32:21
 occurs 6 times. And if you add the numbers of the verses to the numbers
 32:29
 of the Suras, every time you see this word "Siyam" in all its forms, the total is
 32:38
 1387, or 19 times 37. So, the basic pillars of Islam, the
 32:48
 numbers assigned to the Suras and verses where these words are found, all these numbers are multiples of 19.
 34:42
 The Sura entitled "Q" is also initialed with the letter "Q." And when you count this
 34:50
 letter "Q", every time you see it, you count it, in the Quran, in this Sura,
 34:59
 you'll find that the total of the letter "Q" in this Sura is 57, or 19 times 3.
 35:07
 Also, the only other Sura initialed
 35:13
 with "Q", which is surah number 42 - there's the letter "Q", as an initial - contains
 35:21
 the exact same number of "Q" as the other Sura. So, you count this "Q"
 35:27
 and then you go and find this "Q" and count it, and so on, this is a physical fact. The total occurrence of the letter "Q" in this Q-initialed Sura is
 also
 35:37
 57, 19 times 3. Now, when you go back to Sura "Q" here, you notice that "Q"
 35:47
 is a symbol, or stands for Quran. "Q" stands for Quran or "Q" here stands for Quran.
 35:57
 And if you add the 57 "Q" of this Sura number 50, plus the 57 "Qaf"
 36:07
 or "Q" in Sura number 42, also 57, 57 plus 57 is 114, which is exactly the same
 36:16
 number as the Suras of Quran. 57 plus 57 equals 114, the number of Suras in Quran.
 36:28
 You notice that the Sura "Q" is number 50 and it consists of 45
 36:35
 verses. If you add the number of the Sura which is 50 to the number of verses
 36:41
 in the Sura which is 45, the total is 95 or 19 times 5. Well, this is half the
 36:49
 story. If you go to the only other Sura initialed with "Q" which is Sura number 42,
 36:55
 you see that the number of verses is 53. And if you add the number of the Sura
 37:02
 to the number of the verses, you get exactly the same total as Sura "Q",
 37:07
 which is 95. 42 plus 53 is 95, or 19 times 5.
 37:15
 And with Sura "Q", 50, the number of the Sura, plus the number of verses 45,
 37:21
 50 plus 45 is 95, or 19 times 5. In this Sura, the Quran is described as "Majeed."
 37:30
 (50:1) ق وَالْقُرْآنِ الْمَجِيدِ And this word "Majeed" has its numerical value is 57,
 37:39
 which is the number of the letter "Q" in this Sura. "Majeed", the M is 30, the
 37:48
 Jeem is 3, the Ya is 10, and the Daal is 4, and you add these numbers, 30, plus 3,
 38:00
 plus 10, plus 4 - the total is 57, 19 times 3. When the Quran was revealed, there were
 38:08
 no numbers. These letters were used as numbers. So, you can look at the "Meem" as
 38:14
 the letter "Meem" or M, and also as the numeral 30. The same with the other
 38:20
 letters. So, this is a universal established system of... where the alphabet
 38:26
 letters are used as numbers. When we go to Sura 68, which is initialed with the

38:38
letter "NuN", N, if you count the letter N wherever you see it in this Sura,
38:48
you find that the total is 133, 19 times 7. In the Quran, there are three
38:59
Suras initialed with the letter "Saad." The first one is Sura number 7.
39:12
It is initialed with the letters: Alef Lam Meem Saad (A.L.M.S.). The second Sura that's initialed
39:18
with this letter is Sura number 19,
39:25
Sura Maryam, which has five initials: Kaf Ha Ya 'Ayn Saad. So, this is the
39:36
second Sura where we see the initial, the letter Saad as an initial. The third Sura initialed with this letter is Sura number 38, which is also
entitled
39:49
Saad. The name of the Sura is Saad, and the initial is Saad. So, these are three
40:04
Suras initialed with the letter Saad, and when you count the letter Saad in the three Suras, the total comes to 152, or 19 times 8.
41:46
There is one Sura in the Quran initialed with the letters Ya Seen, two letters, Ya and Seen. It is Sura number 36. See, the first verse is
41:59
the two letters Ya and Seen. And if you count these two letters, Ya and Seen in the
42:06
whole Sura, the total is 285, or 19 times 15. So, you see that consistently, the
42:18
Suras contain a number of their initials that is consistently a multiple
42:24
of 19. There are 7 Suras initialed with the letters Ha and Meem, 7
42:37
consecutive Suras, beginning at Sura number 40. See, there is Sura number
42:48
40, initialed with the letters Ha Meem. The whole verse consists of just
42:57
the two letters, Ha Meem, 7 consecutive Suras. This is the last one,
43:09
Sura number 46. It is initialed with the letters Ha Meem.
43:15
And you count these distinctive unique letters, Ha and Meem, in the seven
43:21
Suras. And you find that the total is 2147, the total of Ha plus Meem in the
43:30
7 Suras. This is 19 times 113, 2147. This means if only one letter Ha or one
43:43
letter Meem was lost or added in the last 1400 years, the whole mathematical
43:50
system collapses. But as it is, you count them right now in any Quran anywhere in
43:55
the world and you find that Ha and Meem in the 7 Ha Meem initialed Suras
44:03
totals 2147, or 19 times 113.
44:21
Sura number 42 has two sets of initials. As you have just
44:30
seen, it has the initials Ha Meem in verse one, and verse two of this Sura has the
44:37
initials 'Ayn Seen Qaf, three letters, 'Ayn Seen and Qaf. And if you count these
44:44
three distinct letters in this Sura, 'Ayn plus Seen plus Qaf, the total is 209
44:51
or 19 times 11. Sura number 19 has the largest or the
44:58
biggest set of initials. It has five letters. This is Sura number
45:06
19, and it is initialed with five letters: Kaf Ha Ya 'Ayn Saad. And you add, you
45:19
count these letters in this Sura, the five letters total: 798, or 19 times 42.
45:30
Now, I wish to remind you that the letter Saad, for example, interacts or is
45:38
interlocking with the other Saad initialed Suras, Sura number seven and

45:43
 Surah number 38. You remember that this letter Saad in the three Saad-initialed Suras is 152, or 19 times 8, but it also
 45:55
 is intricately intertwined with these letters in this Sura to give us a total
 46:01
 of 798, or 19 times 42. So, you can see that this mathematical system is far
 46:09
 beyond human capability.
 47:18
 There are six Suras in the Quran initialed with these letters: Alef Laam Meem, A.L.M. They are Suras number 2, 3, 29, 30, 31, and 32. This
 happens
 47:34
 to be Sura number 32. And every single one of the six Suras contains a total
 47:45
 of these letters which is a multiple of 19, every, every one. For example, Sura
 47:53
 number 2 contains 9899 of these letters and that's a multiple 19, 19 times 521.
 48:03
 Sura number 3 also contains a multiple of 19 of these letters: Alef Laam Meem, and so on. Every one of the six Suras contains a total of Alef
 48:14
 plus Laam plus Meem which is a multiple of 19.
 49:02
 There are six... there are five... There are five Suras in the Quran initialed with
 49:10
 these three letters: Alef Laam Ra, A.L.R. And every single one of the five Suras
 49:17
 contains a total of Alef plus Laam plus Ra, which is a multiple of 19, every one.
 50:42
 Sura number seven is initialed with the four letters: Alef Laam Meem Saad,
 50:50
 as you see here. And when you count these letters Alef plus Laam plus Meem plus Saad,
 50:57
 in this Sura, the total comes to 5320 which is 19 times 280. And again, I wish
 51:08
 to remind you that this letter Saad interlocks between this Sura and the
 51:14
 other Saad-initialed Suras, Sura number 19 and Sura number 38, and every time
 51:19
 within the Sura, and also with its sister Suras where the letter Saad is found, the totals are consistently a multiple of 19.
 52:10
 Sura number 13 is initialed with the letters Alef Laam Meem Ra, four initials,
 52:21
 Alef Laam Meem Ra. When you count these letters Alef plus Laam, plus Meem, plus Ra
 52:29
 in this Sura, you find that the total is 1482, 19 times 78. There are five Suras in the Quran initialed with the letters
 52:51
 Ha, as we see in Sura 19 here, there's the letter Ha, one of the five initials
 53:02
 in Sura 19. And then in Sura "Ta Ha" there it is, Ta Ha.
 53:13
 And the initials Ta Seen Meem in Sura number 26 right here, Ta Seen Meem.
 53:30
 And in Sura 27, it is the initials Ta Seen, right here. And Ta Seen Meem
 53:40
 in Sura number 28, Ta Seen Meem. You count these letters in the 5 Suras
 53:52
 and you find that the total is 1767, or 19 times 93.
 54:07
 People keep asking why 19? Why did God choose the number 19 as the
 54:13
 common denominator throughout the Quran to prove every element of the Quran? The numbers of verses, the number of Suras, the numbers
 of words from a certain
 54:23
 root, the numbers of letters, the initials as you have seen, and we find
 54:29
 the number 19 in the Quran in Sura number 74 verse number 30. We find
 54:35
 the number 19, and we find it connected with the proof that the Quran is not human-made. Some people say the Quran is human-made.
 54:45
 إِنَّ هَذَا إِلَّا قَوْلُ الْبَشَرِ (74:25) as it says in Sura number 74 verse 25. And God says the answer to
 54:51

these people is the number 19, as we see in verse 30 of Sura 74. Now, why 19?

54:58

It turns out that 19 is God's signature on everything He created. As to the

55:05

answer to the question "why 19?", we discovered that 19 is the basic message

55:14

of the Quran. Because 19 is the numerical value of the Arabic word ONE. So, the whole

55:23

message of the Quran is God alone, God is one, worship God alone. And 19 is the

55:31

numerical value of the word "WAHD" (one) in Arabic. When the Quran was revealed, there were

55:37

no numbers. The alphabet letters were used as numbers, and the letter "Waw" also served as the numeral 6. The letter "Alef" was 1. The letter "Ha" was 8.

55:49

And the letter "Daal" was 4. "WAHD" 6 plus 1 plus 8 plus 4, the total is 19.

55:57

And this is why 19 is the common denominator throughout the Quran, proving every

56:04

aspect, every element of the Quran.

04 Essentials of Submission (Islam)

Bism Allah Arrahman Arraheem. In the name of God, Most Gracious, Most Merciful.

0:35

Islam actually began with the first man, the first human being, Adam. He was the

0:40

first messenger of God. He brought to his children, and grandchildren, the message of worshiping God alone. And this is Islam, submitting to God,

0:51

worshiping God alone. A series of messengers after Adam

0:57

brought the same message, worship God alone. The first commandment in the Bible,

1:03

the message of Moses, the message of Jesus, the messages of all the prophets of

1:09

Israel, David, Solomon, and so on, is one and the same, the first commandment, worship God with all your heart, all your body, and all your soul. Worship

1:19

God alone. The Quran states very clearly that the religion as far as God is concerned is Islam. So, there is only one religion as far as God is concerned.

1:30

If you want to be more specific, the original prophet of Islam is Abraham because he brought all the religious practices in Islam. And we see this

1:41

throughout the Quran. For example, in Sura 21, verse 73 tells us

1:50

that Abraham was the original source of... of course, God is the original source

1:56

of everything, but Abraham delivered to us the Salat prayer, the contact prayers, and the

2:02

Zakat charity. This is in Sura 21 verse 73. And we see this also with the

2:10

fasting, the Hajj pilgrimage. All the practices of Islam came to us through

2:15

the prophet Abraham. The prophet Muhammad contributed the message, the

2:21

scripture of Islam which is the Quran. Abraham was the original prophet of Islam.

2:33

All religious duties in Islam came to us through Abraham.

2:45

All religious duties in Islam came to us through Abraham. The prophet Muhammad contributed the message, the scripture of Islam, which is the

2:54

Quran. God revealed the Quran to us through the Prophet Muhammad. The Prophet

3:00

Muhammad was born in the year 570 AD. And when he was 40 years of age, he was

3:08

appointed God's final prophet. Prophet means he brought a new

3:16
scripture, the final edition of God's message to the world and that is the

3:21
Quran. The Quran was given to the prophet

3:26
Muhammad in one night, as we see in the Quran in many many verses, in Sura 17

3:32
verse 1, in Sura 44 verse 3, and in Sura 97.

3:41
The release of the Quran from Muhammad's soul to his mouth and his hand was done

3:49
over a period of 23 years from his age of 40 to the age of 63. He died

3:55
at the age of 63. So, over a period of 23 years, the Quran was being released

4:02
after being placed in Muhammad's heart on the night of power - in Arabic لَيْلَةُ الْقَدْرِ

4:10
The purpose of releasing the Quran over 23-year period is to help the Prophet and the believers, at the time, to

4:21
memorize the Quran as it was being released. And this is stated in the Quran.

4:26
In the Quran it says (25:32) لَنُنَبِّئَنَّ بِكَ فُؤَادَكَ to fix it in your memory.

4:32
So, the release was very slowly, very gradually, and it took 23 years.

4:44
Prophet Muhammad's role was to deliver God's final message, the Quran.

4:58
God created the universe and created the human race and out of His mercy, He sent

5:04
messengers and books to tell us about Him. All these messengers and all the

5:10
books that God sent to us preach one and the same religion.

5:15
The first messenger was Adam himself, the father of all humanity. After him, came

5:21
messengers like Noah, Jesus, Moses, Muhammad. Muhammad was the last prophet bringing

5:27
the last scripture, the Quran. And in the Quran, we find everything we need,

5:33
all the duties, obligations, commandments, prohibitions in Islam. Quran is the

5:41
final scripture. It is the completion of the message. Because the previous

5:47
scriptures were suited for that stage of human development. The Quran came to

5:52
complete the picture and now we have the final, the complete religion, Islam.

5:59
The Quran is all you need. In fact, because God said that the Quran is complete,

6:05
perfect, and fully detailed, if you go to any other source, you will be disobeying

6:11
God and disobeying the messenger of God, Muhammad who brought this Quran out of his mouth. God brought to us the Quran out of

6:18
Muhammad's mouth. And you will be disobeying God and disobeying Muhammad if you follow any other sources besides the Quran. And specifically I mean sources

6:28
like Hadith, Sunnah, and all the other books and things that the traditions and

6:35
the customs invented. If you go to any source besides the Quran, you will be

6:40
disobeying God. Because clearly God says in Sura number 6, verse

6:46
114, for example, that the Quran is fully detailed. You don't need anything else. God says in verse 19 of Sura number 6 that the Quran is what was given to

6:57
Muhammad to deliver to the world, and it is the only source for religious guidance

7:03
and religious education. The Quran tells us exactly what the

7:08
essentials of Islam are, and they are... Very quickly, I'm gonna go into details of these later on. Number one: to believe in God alone. You do not have any other idols.

7:20

You are devoted to God alone, and this is represented by the SHAHADA, the first

7:26

so-called pillar of Islam. Let us go along with that idea. The first pillar of Islam is the SHAHADA, and the SHAHADA is stated in the Quran in Sura number 3

7:37

verse 81. Excuse me, it's verse 18. Sura 3, verse 18. It says شَهِدَ اللَّهُ means God bears

7:50

witness, لَا إِلَهَ إِلَّا هُوَ that there is no god except He.

7:56

And also the angels and those who possess knowledge will make this SHAHADA,

8:01

which is "La Elaha Ella Allah" or "Ash-hadu Alla Elaha Ella Allah." This is the first

8:09

pillar in Islam. Sura number 3, verse number 18.

8:15

The SHAHADA, the first pillar of Islam is "La Elaha Ella Allah." If you want to make it

8:21

complete, then you say "Ash-hadu Alla Elaha Ella Allah." I bear witness that

8:27

there is no god except Allah, the one God. Now, don't add anything else.

8:33

Some people, who imitate old inventions and old traditions, will say

8:41

"Ash-hadu Alla Elaha Ella Allah" and then they make another SHAHADA that Muhammad is a messenger of God. We know that Muhammad is a messenger of God, but if you inject this

8:50

in the SHAHADA, this ruins everything, because now you don't have God ALONE. You put an idol, Muhammad, next to God. And this is, by the way, is a very strong

9:00

prohibition in the Quran that you put any other name besides the name of Allah, the name of God. We find this in Sura number 39 verse 45.

9:12

You must say, you must devote yourself to God ALONE. You do not idolize Muhammad and put him next to God. This will be going against God and against Muhammad.

9:22

So, the first pillar of Islam is SHAHADA "La Elaha Ella Allah." The first pillar of Islam is worshiping God ALONE.

9:34

This is expressed by bearing witness that there is no god except the One GOD.

9:44

Verse 18 of Sura 3 teaches the correct statement: There is no god except the one God (La Elaha Ella Allah)

9:57

So, the first pillar of Islam is SHAHADA "La Elaha Ella Allah." The second pillar is observing five

10:06

contact prayers every day. This is the food for your soul. This is a favor that God

10:13

is doing for you. You're not doing it for God. And the five contact prayers begin

10:20

before sunrise. You must get up before sunrise in order to feed your soul, give you soul breakfast. Your body will be lazy and will not

10:30

want to get out of bed before sunrise. But for your sake, get out of bed before

10:37

sunrise and do the Morning contact prayer, whereby you contact your creator

10:42

and feed your soul. The second prayer... by the way, the details

10:48

of the prayers are given on another videotape that we call "Principles of Muslim prayer." So, be sure you order that tape and see how the contact prayers are

10:59

performed, the correct way, not the traditional innovations that we see in

11:04

the Muslim world. The second prayer is the Noon prayer.

11:10

And it begins as soon as the sun declines from the highest spot in the sky. That is

11:16

the Noon prayer, consists of four units. The Morning prayer is two units. The

11:21

Noon contact prayer is four units. The Afternoon contact is done about three or

11:29

four hours after the noon prayer in the mid afternoon. And the fourth contact prayer is the Sunset prayer or "Maghrib." And it is done

11:40

immediately after sunset. And the final contact prayer, the Night prayer, must be

11:46
done about two hours after sunset. So, these are the five contact prayers
11:53
and they represent the second pillar of Islam.
11:59
The second pillar of Islam is the Contact Prayers [Specified actions and words]
12:06
There are 5 Contact Prayers per day, Morning, Noon, Afternoon, Sunset, and the Night Contact.
12:16
These are the daily meals for the soul to nourish the real person [That's you].
12:30
The third pillar of Islam is fasting, in Arabic, SIYAM.
12:37
God commands us to fast during one month of the year, and it is the ninth
12:45
month of the lunar calendar. Now, I'm smiling because there is a
12:52
tremendous test in this system, where the lunar year is shorter than the solar year,
12:59
and this makes the month of Ramadan move about 10 to 15 days every year.
13:05
So, it comes in the winter sometimes when the day is nice and short and fasting is very easy, and moves to the summer where the days are
very long, 16 hours or more
13:14
sometimes, and the day is hot and you can't eat or drink during this long
13:20
period. And a lot of people will drop out. They will... they will not fast even though nobody dies by not eating or drinking for 24 hours. But
some people
13:31
will drop out and you can see that the system is designed to show who will fast
13:37
and would obey God's commandment, no matter how long the day is.
13:42
This changing of the day from short and cold to long and hot days will show
13:49
us who are the dropouts, who will fast only if the day is short and nice and
13:54
cold. So, this is the second pillar of Islam, fasting during the month of
14:00
Ramadan, the ninth month of the Islamic calendar. The third pillar of Islam is Fasting during one month [Ramadan].
14:14
From dawn to sunset, Muslims do not eat or drink or have any sexual activity [during Ramadan]
14:28
As you see, the fasting of Ramadan is also designed to tame the wild horse,
14:35
your body. See, your body wants to eat and drink, and you, the real person or the soul, dictates on the body saying "no, you're
14:44
not going to eat or drink until sunset." Because the fasting consists of not
14:49
eating or drinking or engaging in intercourse, sexual intercourse from dawn
14:56
to sunset. Dawn means about two hours before sunrise to sunset, no eating, no
15:03
drinking, no sex. And this is control of your wild horse.
15:10
You are taming the wild horse, your body. And you can see that God is training you,
15:18
is teaching you to be a person of a strong will,
15:23
and preparing you for the eternal life of the Hereafter, the real life.
15:29
Because in the real life that comes after this life, God wants the people who are strong,
15:36
who practice and exercise and know how to control themselves, I mean, their
15:42
their bodies. This also causes your soul to feed, grow and develop.
15:49
Fasting makes you the boss, not your "body" ... The soul commands the body to control itself.
15:59
Fasting prepares us for a position of prominence and leadership in the real life [Hereafter].
16:12

The fourth pillar of Islam is charity, in Arabic, ZAKAT. There is an obligatory

16:20

charity where you sit down and you calculate exactly what you possess, what

16:26

your possessions are, and you give away a portion, a fixed portion of your net worth. You do this once a year.

16:34

You pick out a specific day in the year, the last day of Ramadan, the first day of Ramadan, or the first day of January, one day, one fixed day in the year.

16:44

And you sit down on that day and you calculate how much you are worth. This means you add up the market value of your house, your car, your clothes,

16:53

anything that you possess if you sell it all today. How much will it be worth? The fair market value, not the new... the price of the new thing, no, the present

17:05

market value of everything you possess. And then you give away 2.5% of that.

17:10

See? It's a small percentage. And you do it once a year. And it goes to specific people.

17:16

The Quran lists them in this priority: first your parents.

17:21

If your parents are rich... and these are the recipients of your

17:27

charity. If your parents are rich, the second in the list are your relatives.

17:34

You give this 2.5%, you give it to your relatives. If they're all rich,

17:39

then you find some orphans, people who do not have support, parental support, a father

17:46

support or something. And you give this charity to them.

17:51

After the orphans, you give to the alien, somebody who's traveling and is

17:58

stranded and doesn't have the money or the bus fare to go to his home town, you help that person. So, the order in the Quran is: the parents, the relatives,

18:07

the orphans, the traveling alien, the poor the beggars and so on. So, there is a

18:13

specific order for giving these charities. However, there is also

18:18

a general charity called "Sadaqa" and this is an on-the-spot charity. You're

18:25

walking in the street and you see a poor person and you want to help, then you help that person and this is called "Sadaqa" or charity. You're supposed to be

18:33

charitable the whole year, all the time. You must be charitable. But the ZAKAT

18:38

is the obligatory charity where you give it to someone you personally know.

18:44

You personally know that this fellow is poor and needs help and you give your 2.5%

18:53

to these people that you personally know. You cannot consider the taxes, for example, as ZAKAT charity, because you don't know where the taxes

19:02

will go. They can go to fix the street or something, or to the army or something. But the idea behind ZAKAT is that you give it to the people that you

19:11

personally know are in need. And the Quran, as I said, lists the parents first,

19:17

the relatives, your own - you start with your own people then you go to

19:23

other strangers in that order. The fourth pillar of Islam is Zakat charity.

19:33

Zakat is obligatory once a year and is 2.5% of your net worth at the time..

19:46

Quran specifies the recipients as people you know, beginning with your parents

20:00

The fifth pillar of Islam is Hajj pilgrimage to the Holy Land in Mecca.

20:08

And this is only, of course, for the people who can afford it. When you can

20:13

afford it, you go to Mecca and you observe Hajj, and this is commemoration of
20:19
the prophet Abraham, not the man Abraham but his
20:27
exemplary submission to God. He thought... he saw a dream one time and he thought
20:34
that God was commanding him to sacrifice his only son, Ismail. And he proceeded to carry out this command even though God did not order
20:43
him to do it. He just thought in a dream that God was ordering him to do it. But he was
20:49
willing to sacrifice his own son in submission to God, and of course, God intervened to save Ismail and Abraham from this tragedy. And God
21:01
substituted a sheep to be sacrificed instead of Ismail. And this is what you
21:07
do when you go to Hajj. So, and Hajj consists of arriving in Mecca dressed only in untailed clothes, just a sheet or something.
21:17
and seamless shoes or sandals, seamless
21:23
clothes and seamless sandal. The women dress in a regular dress that is simple. So, you cannot tell the rich from the poor.
21:43
The fifth pillar of Islam is pilgrimage Hajj to Mecca.
21:56
To observe Hajj, you go to Mecca dressed in seamless clothes and seamless sandals. This is for the men.
22:04
The women dress modestly in regular modest dress, all white dress, for
22:12
example, so you cannot tell the rich from the poor. You get to Mecca and you go
22:18
around the Ka'bah in Mecca seven times. Then, you go between Safa and Marwah, the knolls of Safa and Marwah seven times. Then, you go
to 'Arafat, Mount 'Arafat and you
22:29
stand there the whole day, which is the 10th day of the twelfth, the last month in
22:35
the Islamic calendar. The tenth day of the Hijr. You spend that whole day on
22:40
Mount 'Arafat commemorating God, worshiping and praying. And then, you go to
22:46
Mina, it's a little town near Mecca. You go to Mina for two or three days.
22:52
Then, you go back to the Ka'bah, go around it seven times, which is called the farewell
22:57
circumambulation around the Ka'bah, and this is it. Now, my advice to you is
23:03
never to go to Medina because people go to Medina and they ruin their Hajj. They
23:08
go to the Prophet Muhammad's tomb, mausoleum, and they idolize the prophet and this ruins everything, ruins the whole religion not just
Hajj. So, Hajj
23:17
must be done only in Mecca where you go around the Ka'bah seven times, between Safa and Marwah seven times, you go to 'Arafat for one
day and to Mina for two or
23:26
three days, and this is it. These are specific steps that are mentioned in the Quran. And by the way, all these duties in Islam came to us
23:35
through the prophet Abraham. If you look at Sura 22, the last verse, number 78,
23:42
you will see that Abraham is the source, is the father of Islam and the father of Muslims. And if you look at Sura number 16 verse 123, you
see that the prophet
23:54
Muhammad followed the religion of Abraham. Islam is the religion of Abraham. He's the founder of Islam. And all the duties of Islam came
from
24:03
IBRAHIM, not the prophet Muhammad. Muhammad brought the Quran. God brought the
24:09
Quran through Muhammad. So, this is why some people become confused when you
24:15
tell them that God says that the Quran is complete, perfect and fully detailed.
24:21
Because some of the old traditionalists will say "ok, where is the number of Raka's
24:26
for the Noon prayer in the Quran?" See, they forget that the contact prayers, the
24:32

fasting of Ramadan, the ZAKAT charity, and the Hajj pilgrimage, all these duties
 24:37
 came to us from Abraham, and the Quran says so. If you look at Sura 21
 24:42
 verse 73, it tells you that Abraham started the Salat and the Zakat. And in
 24:48
 Sura 22 entitled Hajj, you see that Abraham is the source of Hajj and so on.
 24:55
 The Quran says clearly that all duties and obligations came to us through the
 25:01
 prophet Abraham, and tells us in Sura 22 verse 78 that this is the religion
 25:07
 of Abraham. The prophet Muhammad simply contributed the Quran. And the Quran
 25:13
 is God's words that came through Muhammad. So, watch for this point and don't let anyone
 25:22
 trick you into thinking that the Quran is not complete. The most important principle in Islam is God ALONE. You must be devoted to God
 alone. You do
 25:33
 not idolize the prophet Muhammad like the Christians did with the prophet Jesus. You devote yourself completely to God alone, and you
 follow the word of God
 25:41
 alone, the Quran alone, no other sources. If you do,
 25:47
 you'll nullify all your work, as we see in Sura 39 where God says if you fall in idol worship, all your works are nullified. You may do the Salat,
 the Zakat,
 25:56
 the charity, the Hajj, the fasting and all this and it will be all in vain unless
 26:02
 you are devoted to God alone. And you will declare your SHAHADA "Ash-hadu Alla Elaha Ella Allah." This is it. So, these are the basic
 essentials of Islam.
 26:18
 All our work would be nullified if we practice idol-worship. We must be devoted to God Alone.
 26:43
 The prohibitions are also important. There are four meats that you
 26:49
 cannot eat, for example. And these are number one, animals that die of themselves without human interference. Number two, pork, the meat
 of pigs. Number
 27:01
 three, running blood, running blood that you can put in a glass and cook or drink.
 27:07
 Number four, animals dedicated to other than God that are specifically dedicated
 27:13
 to Muhammad or Jesus or Ali or somebody. These are forbidden. So, if you go to the market,
 27:19
 you go to Safeway Market, for example, and you look at the meat, if you want to know if it is HALAL, permitted or HARAM, prohibited, you ask
 yourself these four
 27:28
 questions. Is this meat pork? The answer is "no", then did these animals
 27:35
 die of themselves without human interference? The answer is "no." Is this running blood? The answer is "no." Was this meat dedicated to
 Jesus or to anyone else or
 27:44
 Saint Francis? The answer is "no." Therefore, this meat is HALAL. It's ok. You can eat it. If you make it HARAM, if you prohibit it, then you are
 following some
 27:53
 other religion. You're not a Muslim when you do that. So, it is very important
 27:58
 to follow specifically what the Quran prohibits. If you prohibit anything else...
 28:04
 some people go to funny lengths like prohibiting soaps and brushes and shoes and things like that, and of course, this is a religion that is not
 Islam, has
 28:13
 nothing to do with Islam.
 28:20
 Four Prohibited Meats 1. Dead Animals. 2. Running Blood. 3. Meat of Pigs. 4. Dedicated to Idols
 28:31
 Prohibitions not specifically mentioned in Quran belong to another religion.
 28:47
 Also prohibited are all intoxicants: alcohol, marijuana, anything that will affect your
 28:56

mind. All intoxicants, anything that affects your capacity to think and to
29:02
have a healthy brain. So, all intoxicating drugs, weeds and alcohol, all these are
29:11
prohibited. Also, gambling is prohibited. Don't play the lottery. Believe me, it
29:16
will cost you more than... even if you win the jackpot, you will end up a loser.
29:21
Believe me for this is God is in control and He prohibited gambling, games of
29:27
chance of any kind. Of course, the major prohibitions are listed in the Quran: adultery is
29:35
prohibited, murder, stealing, cheating, lying. God wants you to be a perfect
29:40
person, a nice person. Even breaking the promise is prohibited. You must be a
29:46
person of your word. You must be a man of your word, or a woman of your word. When you say something, you do it and people must know
you as such. This is what a
29:55
Muslim is all about. All intoxicants are prohibited: Alcohol, Marijuana, LSD, etc. Anything that alters your mind.
30:20
Islam is proven to be the best way to fight drug and alcohol abuse.
30:40
Now, some people are fascinated by Hajj pilgrimage and they just want to do it right away. You know, they're fascinated by the exotic country,
30:48
you know, Saudi Arabia and the trip and all that. But my advice to you is to perfect your religion first. Believe me, it is not a very pleasant trip.
There's a
30:58
million and a half or two million people making pilgrimage and it is a, an
31:03
exacting trial instead of enjoyment. You're not going as a tourist. It is a difficult
31:09
process and some people may become disillusioned when they go too early, before the faith is strong enough. So, be sure you perfect your
religion
31:18
first and then make the Hajj pilgrimage.
31:24
One needs to perfect the religion before going to Hajj. About 10 good years of prep'n needed.
31:41
Performing Hajj too early, often leads to opposite results. Arrogance..... and loss of faith.
32:01
Another thing to guard against with regard to Hajj is that some people go and do the Hajj pilgrimage like I said before their faith is strong
enough
32:10
and they come back puffed up and thinking "you know, I'm perfect now. You know, I'm cool, and nobody is like me. I did Hajj, you know." And
it goes to their head.
32:21
And it brings the reverse result. They become worse Muslims than
32:26
better Muslims. So, you want to go and do Hajj pilgrimage after you perfect your
32:32
religion and this must make you humble, more humble. And I remember the proverb that says "don't be humble, you're not that great."
32:49
Performing Hajj should make us better, humble, Muslims.
33:11
Observing the Hajj pilgrimage is very easy. All you do is get ready financially
33:18
and with your vacations and everything, and then you travel to Saudi Arabia, Jedda.
33:23
As soon as you land there, they will assign a guide called "Mutawwif" to
33:29
you and the Mutawwif and his assistants will tell you exactly what to do. But the main thing is that you memorize the statement "Labbayka
Allāhumma Labbayk"
33:42
means "my Lord, I respond to Your call", "Labbayka Lā Shareeka Laka Labbayk"
33:49
"I respond to you. There is no partner with You." And the whole statement will be taught to you by the Mutawwif.
34:01
The main statement that you need to know throughout Hajj goes like this
34:07
"Labbayka Allāhumma Labbayk" which means "my Lord, I respond to Your call."

34:13

"Labbayka Lā Shareeka Laka Labbayk", "I respond to You. You have no partner. There is no partner with You, I respond to Your call."

34:23

And this is what it looks like. Here's the first word "Labbayka"

34:28

which means "I respond to You. I respond to Your call." "Labbayka."

34:34

"Allāhumma" which means "my God or our God", "Allāhumma."

34:41

Labbayka Allāhumma Labbayk. "Labbayka", "I respond to Your call."

34:50

"Lā" means no. "Shareeka" means partner or idol. "Lā Shareeka Laka", with You "Labbayk",

35:00

"I respond to a call." Labbayka Allāhumma Labbayk Labbayka Lā Shareeka Laka Labbayk.

35:13

This is all you need. And you utter this statement. You memorize it, and utter it all the time during Hajj, throughout Hajj, any time

35:23

you change direction, you climb a hill, down a hill, you meet friends, you say that. Labbayka Allāhumma Labbayk Labbayka Lā Shareeka Laka Labbayk.

35:32

The details of the Hajj will be given to you by the guide that will be assigned to you as soon as you arrive in Saudi Arabia.

37:39

Number 9, they do their Zakat obligatory charity wrong.

37:44

According to their laws now, they give the charity 2.5% of your

37:52

savings, above \$50 that are one year old, once a year. This is the law of charity over there

38:00

which means the poor will die of starvation by the time you do that. Now, if you look in the Quran, in Sura 6, we learn that charity must

38:09

go out whenever you receive money. Any money that enters your pocket and is yours,

38:14

the net, you take 2.5% - out of every \$100 that's \$2.5,

38:24

you give them away to your relatives, not to anybody else. This is the Zakat, the

38:29

obligatory charity. If you wanna build a school or a mosque or a hospital, that is general charity. That's something else.

38:39

But 2.5% of your net income must go to the poor immediately which means a continuous flow of money from people to the relatives, their

38:47

parents and their cousins and their sisters and brothers and so on. That's the correct way

38:53

of doing Zakat. And the Quran gives the zakat so

38:58

much importance, God says "My mercy encompasses all things, but I will designate it for those who give the Zakat."

39:07

So, this shows... in other words, if you don't give the Zakat, you're out of God's mercy.

39:14

It is very important and they don't do it.

39:32

Alhamdu Lillah, Wa Ash-hadu Alla Elaha Ella Allah, Wahdahu La Shareeka Lah.

39:42

We praise God and we bear witness that there is no god except the one God.

39:50

I want to go to... before I go another subject... Like I said, I'm just chatting with you. I'm not

39:57

supposed to be giving this Khutba. I want to emphasize the Dawn prayer.

40:05

The Dawn prayer, you have no idea how important the Dawn prayer is. It dawned on

40:10

me, no pun intended. It just came out.

40:17

I was reading the Quran the other day and it dawned on me that God used the word the Dawn prayer.

40:25

And when we were growing up, they taught us to do the morning prayer.

40:31

And I noticed that even until now, I say "I intend to do the morning prayer",

40:37

"Salat Al-Subh" in Arabic. That is wrong. If you miss, if the Sun rises before you

40:44

do the morning prayer, you've missed the Dawn prayer. Because the Quran calls it the Dawn prayer

40:51
which means it must be done at dawn. And ironically, this morning, there's a
40:58
commercial now you can hear it. If you listen to the radio, you're gonna hear this commercial about a truck driver who... listen carefully
Iman... a truck driver
41:07
who is complaining. It's an Anacin commercial. And
41:13
complaining that he's driving long distances, and he becomes stiff after a long distance. So, again
41:20
the commercial is saying "don't stay in the same position for a long time. Get out and stretch in order to evade arthritis." And God is
41:31
telling us to do the Dawn prayer for our benefit. Because if you want your mental health, before your physical health, you have to
41:42
get up at dawn and stretch and lubricate your joints at any cost.
41:48
And then we have this problem in Canada when I was visiting ten days ago, and people were saying how the alarm... they just shut the alarm
off and go back to sleep, and
41:57
I told them "get the biggest and most obnoxious alarm and put it far away from you at the other end of the room, because this is what you
42:06
need to do at the beginning." At the beginning, it is difficult to do the
42:11
Dawn prayer which is an indication to you that your soul is too weak and is
42:17
unable to control your body. This is a thermometer for you.
42:25
Because as you do the Dawn prayer as required by God, your soul will grow
42:31
and your body will become obedient to you.
42:36
And then, it will become easier and easier and then you'll enjoy it actually getting
42:42
up for the Dawn prayer. But it is for your physical benefit and for your mental benefit. Do the Dawn prayer. Also, if you're here in Masjid
Tucson, you're a very special person.
42:55
I assure you, you have no idea how special you are and you must - you know the
43:00
slightest - you must be perfect. You have to do the
43:06
five prayers. You have to do the Dawn prayer. Because your responsibility is also great. God has given you a great opportunity.
43:17
And a great responsibility comes with the deal.
43:23
So, you have to do the Dawn prayer, please, the five prayers. But I'm emphasizing
43:30
right now the Dawn prayer because this is how it is mentioned, for your physical health and your mental health.
44:18
Ladies and gentlemen, we are recording this program in August of 1987 because
44:25
something very important has happened. In fact, you will agree with me that what I'm
44:31
reporting to you today is the most significant, easily, the most significant
44:36
event in history. As you know, this world is plagued with
44:42
many problems: wars, famine, cancer, AIDS, and so on. Because
44:50
of my association as a scientist with the United Nations, I had the opportunity
44:55
to use computers to decode a message from outer space that brings the final
45:04
solutions to all our problems. I know this sounds unbelievable but once
45:09
you examine the evidence, you will agree with me. Before I get to the exciting details, let me share with you a few facts. One of the
45:20
biggest problems in the world today is war. There is a war going on right now
45:25
between Iraq and Iran. The Shia Muslims are fighting the Sunni Muslims. The
45:31
Protestants and the Catholics are fighting in Ireland. The Hindus and the

45:37
Sikhs are fighting in India. The Jews and the Muslims, the Arabs are fighting in
45:43
the Middle East. And we all know the mess that is happening right now in Lebanon. All these people, ironically, the Muslims,
45:54
the Jews, the Christians, the Hindus, the Sikhs, all of them have one thing in common. They all believe in God.
46:02
A message from deep space has been decoded by the computer.
46:17
The message is mathematically composed and brings solutions to the world's problems.
46:35
The Christians believe in God. The Buddhists believe in God.
46:40
The Muslims believe in God. The Hindus, the Mormons, Jehovah witnesses,
46:45
they all believe in God. The one thing that divides them and causes them to
46:50
fight with each other is the human factors, human factors such as Jesus,
46:57
Muhammad, Buddha, Mary, and Joseph Smith, and so on. It is these human factors that
47:04
cause division among these people. And as intelligent and highly educated
47:10
generations of human beings, we can see that if we rise above these human
47:17
factors and unite on the basis of the one common denominator, the one
47:23
common link, namely belief in God, there will be no divisions. God is the One who created you.
47:38
God is the One who provides for you.
47:46
God is the One who controls your life.
47:56
God is the One who will resurrect you.
48:11
God is the One who puts you in Heaven.
48:27
No one else does any of these things.
48:41
The mathematically coded message from outer space comes, as you will agree
48:47
after examining the physical evidence, comes from the Super Intelligent Creator.
48:52
And one of the first thing that it proposes to us in order to solve our
48:57
problems is to rise above the human factors that divide these people. With
49:04
all due respect to Jesus, Muhammad, Mary, Joseph Smith, and so on, we must
49:11
concentrate on the one common link. It is allegiance to these people that divides
49:20
us and causes the differences and wars. If we succeed in carrying out the first
49:26
proposal of this mathematically coded message, we will not fight each other
49:31
and we will be united and civilized. If we are all devoted totally to the One who created us, there will be universal unity.
49:53
The supernatural mathematically coded message emphasizes that God is the One
49:58
who created you, that God is the One who provides for you, that God is the One who
50:04
terminates your life, God is the One who will resurrect you, and that we shall
50:09
focus on the one common link that binds all of us and not on helpless and
50:16
powerless people like Muhammad, Buddha, Jesus, and Mary, and so on.
50:22
In response to this first suggestion of the super natural message, I am urging
50:29
you to join me in forming Universal unity through devotion to God
50:37

alone. This way people will be united. They will not be fanatically biased to
50:44
human beings, and they will not fight with each other. They will join in the one common factor that they all believe in: God.
50:54
Let us do something positive. Let us establish universal unity.
51:08
So, please call me right now and I will discuss the details with you. The number,
51:14
it's a free toll number, 1 800 992 5524.
51:20
In Arizona, please call me at 7 9 1 3 9 8 9. I will be glad
51:27
to send to you free details and discuss the matter with you on the telephone.

05 Principles of Contact Prayers (Salat)

BISM ALLAH ARRAHMAN ARRAHIM My dear lucky viewers, Al-Salaamu 'Alaykum
2:35
This tape will present to you how to observe the Contact Prayer, the Salat.
2:42
And you are very lucky because you are trying to learn how to make contact with your creator,
2:49
which is the greatest of all worships. In this tape, I will explain to you the meaning of the word Salat.
2:56
You already heard me call it contact. The word Salat (صلاة) is an Arabic word derived from the root Silah (صلة),
3:05
which means connection or contact. So, when you observe the Salat prayers, you make contact
3:11
with your creator. It is wrong to translate it as pray.
3:16
As a Muslim, when you tell somebody "I pray five times a day", that is the wrong expression,
3:23
because other people can tell you "I pray all day." The correct expression for the Muslim is "I make contact with my creator five times a
3:34
day." This is the meaning of Salat. In this program, I will present to you where the Salat commandment comes from.
3:44
The Contact Prayer is mention in the Quran more than seventy times.
3:50
And I will show you the crucial verses, like where the times of Contact Prayers are mentioned
3:58
in the Quran. Then, I will go on to explain to you the source of the Contact Prayers.
4:06
When was the first time that the contact commandment came to us from God? And how did it come to
4:12
our generation? I will explain this to you. Then, I will move on to explain why does God want us to establish contact with Him.
4:22
Why did God command us to observe the Contact Prayers five times a day?
4:27
What is the reason? Does God need the Contact Prayers, or do we need the Contact Prayers?
4:34
After this, I will go on to explain every aspect of the Contact Prayer.
4:42
I'm gonna start with the call for the Contact Prayer, the Azan (أذان). I will go through the details, even the historical development of it.
4:52
I will show you how the words are written in English, the English transliteration.
4:57
Then, I will go on to the preparation for the Contact Prayers, which is called Wuḍū (وضوء)
5:03
or ablution. And of course, my sources are always the Quran. There's only one source, and it is this book right here, the Quran.
5:14
God's message to you, to me and to the whole world. This is God's final message to the world.
5:21
And this is our source, the only source.
5:36
I will show you where the Wuḍū is mentioned in Quran and what the details are.
5:41
Then, I will demonstrate for you how to do the Wuḍū. And I will move on from there to demonstrate for you and describe in detail how to do
the

5:52
five daily Contact Prayers. The Morning Contact, the Noon Contact Prayer, the afternoon, the sunset, and the

6:03
night Contact Prayer. I will explain also some of the fine details of... for example, what happens when you miss

6:13
part of the Contact Prayer in a group. You're going to the mosque and you see a group of people praying, you come in late, what to do?

6:21
And some other fine detail. So, I hope this will cover everything you need to know about the Contact Prayer.

6:30
The most important worship in Islam.

7:06
You heard me say that the Contact Prayers must be observed five times every day.

7:13
Okay, where in the Quran do you find these five times?

7:18
They are specifically defined in the Quran. For example, in Sura number 11, AYA or verse number 114,

7:29
we see three times of Contact Prayers. This is what the verse says "You shall observe the Contact Prayers at both ends of

7:39
the day, and at night." So, here you have three prayer.

7:45
At both ends of the day, this is the Morning Prayer and the Sunset Prayer.

7:51
The Morning Prayer is before sunrise and the Sunset Prayer is immediately after sunset.

7:59
And of course, the Night prayer is the last prayer of the day. So, here in this verse, we have three prayers. We are commanded to do these three prayers.

8:09
The Morning, the Sunset and the Night. Now, the Noon Prayer is mentioned in Sura number 17, verse number 78

8:20
where it says "You shall observe the Contact Prayer when the sun begins to

8:26
decline from the highest point at noon." So, this is a very specific description of the time of the Contact Prayer at noon.

8:38
As soon as the sun begins to decline from its highest spot of the day at noon, you observe

8:44
the Noon Contact Prayer. This is Sura 17, verse 78. It says exactly the time of the Contact Prayer at noon.

8:55
So, now we see the Morning Prayer, the Noon Prayer, the Sunset Prayer, and the Night Prayer.

9:03
Well, this accounts for 4 of the prayers. Where is the fifth one? We find the fifth prayer mentioned in Sura number 2, AYA or verse number

9:13
238), two three eight, where it says "You shall observe all the Contact Prayers, especially the middle prayer."

9:22
The middle contact prayer has to be the Afternoon Prayer because we have the Morning Prayer, the Noon Prayer, the Sunset Prayer, and the Night Prayer.

9:31
These two prayers here and two prayers here, so the middle prayer will be the Afternoon Prayer.

9:36
So, there you have it, all 5 Contact Prayers mentioned in the Quran.

9:41
By the way, the Morning Prayer and the Night Contact Prayer are mentioned by name

9:47
in verse 58 of Sura 24. Sura 24, the verse is 58.

9:55
It talks about Salat Al-fajr (صلاة الفجر). This is the Morning Contact Prayer, and Salat

10:01
Al-isha (صلاة العشاء). This is the Night Contact Prayer. So, all five times of the Contact Prayers are decreed in the Quran.

12:10
And now I would like to discuss with you the source, the original source, of the Contact Prayers.

12:17
When you look in the Quran, you will notice that before Abraham, there was no mention of

12:25
the Contact Prayers, the Salat. You notice that Noah was telling his people to just believe in God and ask His forgiveness,

12:34
but there is no mention of the Contact Prayers before Abraham. So, the original source of the Contact Prayers is the prophet Abraham who is the father,

12:45
the founder of Islam. And we see this very clearly in Sura number 22, verse number 78,

12:53
the last verse of Sura number 22. We also see it in Sura 21, verse 73

13:02
 where we learn that the Contact Prayers were given to Abraham, as the original founder
 13:11
 of Islam. And we see in Sura 16, verse number 123 that the prophet
 13:18
 Muhammad followed the ways of Abraham. And then we see in Sura number 8 verses 33 to 35,
 13:27
 and in Sura 9, verse 54, we see that the Salat, the Contact Prayers,
 13:33
 were practiced before the prophet Muhammad. So, all these... you know, a lot of people are under the erroneous impression that the
 13:42
 prophet Muhammad brought these practices, but they came through prophet Abraham, and this
 13:47
 is why we do not see the details of how many units per prayer and these kind of details,
 13:53
 we do not find it in the Quran. Although the Quran is complete, perfect, and fully detailed.
 14:00
 So, the reason the details of the Contact Prayers are not in the Quran is because they were
 14:07
 already in existence when the Quran was revealed.
 14:12
 I can tell you to go and buy Crest toothpaste, and you will... I don't
 14:17
 have to explain to you what Crest toothpaste is because Crest is already in existence,
 14:22
 all you need to do is go out in the market and buy it. And when the Quran came down, the Contact Prayers, the Salat, were already in
 existence.
 14:32
 And this is exactly why in one of the very early Suras, Sura number 73
 14:38
 Al-Muzzammil, we see the commandment to observe the Contact
 14:43
 Prayers and the Zakat (the Obligatory Charity), because they were already in existence. Abraham being the founder of Islam, what did he
 contribute to the religion?
 14:55
 He contributed all the practices of the religion. The Contact Prayer, The Zakat charity, The fasting of Ramadan. In fact, we see
 15:05
 that the fasting of Ramadan was slightly modified in the Quran in Sura number 2, verse 187.
 15:13
 Also, Hajj. Hajj in Sura number 22, we see that
 15:18
 it is directly decreed through the prophet Abraham. So, Abraham contributed all practices in Islam. You must correct that impression.
 15:27
 The prophet Muhammad contributed the Quran. That's it. But all the practices existed before the prophet Muhammad. They were in
 existence when the
 15:37
 Quran came down.
 15:51
 Now, we get to the question "why should we pray?" Why should we make contact with our creator every day, five times?
 16:00
 Repeating the same thing, five times a day? Well, the answer... the obvious answer first is that we do it because our creator
 16:08
 commanded us to do so, in the Quran, as I showed you. But what is the mechanism? Why does God ask us to contact Him five times a day?
 16:20
 Does God benefit from it? Do we benefit from it? And the answer immediately is "God does not need our Contact Prayer. We need the
 Contact Prayer."
 16:31
 And we fully understand the reason for decreeing the Contact Prayers if we know who we are.
 16:39
 You see, most people do not even know who they are. You ask a person "who are you?" and they look in the mirror.
 16:46
 They say "this is me." And you know something? They are wrong. This is not me. This is my body.
 16:53
 And the body is like a garment that we are wearing temporarily. The real person is invisible to us. The real person, the soul, is in another
 dimension
 17:04
 that is not visible to our eyes. So, what does the real person look like?
 17:10
 This will lead us to understanding why should we observe the Contact Prayer.
 17:15
 You see, you can consider the Contact Prayers the meals for the real person, the food, the nutrition.

17:23
When we are born our mother feeds us milk and we grow. Then, we eat all kinds of food, rice and meat and potatoes and so on, and our body grows

17:34
until it becomes five feet, six feet, whatever. And that is the limit of the body's growth.

17:41
Okay. Meanwhile, what is happening to the real person, the soul? The body or the garment grows to five or six feet, but what happens to the real person?

17:53
Is the real person nourished just like the body? And this is where most people do not realize the importance of making contact with their creator.

18:06
Making contact with our creator is the most important nutrition for the soul.

18:11
We need it to grow and develop. And I'm talking here about the real person.

18:18
The real person grows and develops by contacting our creator daily.

18:24
Five times every day constitutes five meals for the soul. So, every time you do a Contact Prayer, your soul grows and develops.

18:34
And this is why we are commanded to do the Contact Prayer. You can imagine the person who does not feed his or her soul. At the end of living in this

18:45
world, they are still babies because they never feed their soul.

18:50
But the Muslim, the person who observes the duties and practices of worship,

18:56
this person feeds the soul, and the soul grows and develops immensely. And we end up our mission in this world, grown and developed, and healthy, and fit for the

19:08
real life, the eternal life that comes after this life. The Contact Prayers therefore are very important. Think of them as the meal for the soul, for the real person.

19:22
The Morning Prayer is the breakfast for the soul, for you, the real you. Just like how you give

19:28
your body breakfast, lunch and dinner, you need, for yourself, the real person, you

19:34
need meals also. The Noon Prayer is lunch for the soul.

19:40
And the Afternoon Prayer is another meal. And the Sunset Prayer is an meal, nutrition for the real person.

19:47
And the Night Contact Prayer is the dinner for the soul.

19:53
So, nourishing, developing and growing the soul is the reason for observing the Contact

20:00
Prayers, and we are the ones who need it. God does not need it.

20:19
All practices of worship in Islam, without exception, are designed to cause the soul,

20:26
the real person, the real you, to grow and develop. They're all designed to make you the boss over your body.

20:35
A lot of people, in fact the majority of people, are enslaved to their body,

20:40
their outer garment, that is temporary. Some day this garment is going to vanish and you, the real person, will remain forever, for eternity.

20:52
So, most people, unfortunately, are unaware of nourishing and strengthening and developing

20:58
their soul, the real person. But all practices of worship in Islam are designed to cause the soul to grow and develop,

21:08
nourish the soul. For example, the Morning Prayer, let's take the Morning Contact Prayer.

21:13
Before sunrise, what does the body... what does your body want?

21:19
Your body wants to sleep, right? But your soul, you, the real you, the real person, needs to get up, do the ablution,

21:30
and observe the Contact Prayer, make contact, the first contact of the day with your creator.

21:37
So, immediately you can see that there is a fight. The body wants to sleep, and the soul needs

21:43
to get up and nourish itself and have breakfast.

21:49

Now, who's going to win? If your body wins, you continue to sleep.

21:56

And the body is the temporary garment. It is not very smart to let the body win, right?

22:04

If you win, you, the real person, win, your body will obey and will say "yes, sir"

22:12

will listen to you, obey you, get up out of bed, do the ablution, and observe the Contact Prayer.

22:19

So, you can see that the first Contact Prayer is a struggle between you and your body.

22:27

By the way, this struggle becomes less and less, as your body becomes more and more obedient

22:33

to you, as you become the boss. As you develop and become stronger, your body becomes more and more

22:40

obedient, and with time, your body, when you say "my body get up and do the Morning

22:46

Prayer", your body will say "yes, sir" obediently. As a matter of fact, eventually, you will actually enjoy getting up in the morning and doing the Contact Prayer.

22:57

And this is because the soul has grown and developed, and became the boss, and enjoys

23:04

observing the contact with our creator. You look at the fasting, for example. One of the important practices in Islam is fasting

23:13

the month of Ramadan, during the month of Ramadan. And, in Ramadan, your body, of course, wants to eat and drink, but you tell your body when you fast,

23:27

"you're not gonna eat or drink until sunset." So, you can see that you are practicing, exercising your soul, and this causes your soul to grow

23:37

and develop, and this is exactly the whole idea of our being here in this world. We want to grow and develop as much as possible in order to enter the real life, the eternal life

23:49

the Hereafter, in a state of fitness, strength, growth and development.

23:55

Because in the Hereafter, you cannot hold a responsible position in the eternal real

24:02

life if you are weak, unnourished, and still a baby. Will you hire a baby as a pilot, or an engineer? Of course not.

24:10

So, God wants you to develop yourself and to be strong enough to hold a responsible position,

24:16

a high rank, in the Hereafter, the eternal real life.

24:21

And all practices of worship in Islam are designed towards this end.

24:27

For example, the Zakat charity, what is it? The Zakat charity is simply taking money away from your body and giving it to the poor.

24:36

So, you can see that you are being the boss because the body loves money. And you take something

24:42

the the body loves and give it away. So, all practices of worship in Islam are designed to make your soul grow and develop,

24:51

make you the boss over your body. And the Contact Prayers are the most important tool to do so.

24:58

You're gonna notice it the first time you do the Morning Contact Prayer before sunrise.

25:06

Let us now get to the details of the Contact Prayers and how to observe them.

25:12

There are a billion Muslims in the world today, 1000 million throughout

25:18

the world, in every country of the world. But in the area that is recognized as the Muslim world, you hear the call for the prayer

25:27

five times every day, the Morning, Noon, Afternoon, Sunset and Night.

25:33

And you hear the MU'AZIN (مُؤَذِّن). This is the name of the person that delivers the Azaan (أَذَان) or the call to Contact Prayer.

25:41

And before I get into explaining the Azaan, I wish to remind you that in the last 1400

25:48

years, lots of customs, innovations, prejudices, superstitions were added into

25:55

the Azaan. And what I am going to present to you now is the Azaan of the prophet Muhammad

26:02

that he approved. And I'm going to remove all the additions, and the superstitions, and nonsense from the Azaan

26:11

and I will give you the pure Azaan. I'm going to write it for you on the board, so you can see how it is pronounced.

26:19

And I will have professional Azaans. You're gonna hear recordings of professional MU'AZINs.

26:27

Now, at the beginning of Islam, the people went to the prophet Muhammad and they said

26:32

"how can we call the people to come to the prayer? You know, the Jews have the horn,

26:38

and the Christians use bells. What are we going to use?" And with time, the prophet's companions studied the matter and finally, it was suggested

26:49

that somebody stands on top of the mosque and make the announcement,

26:54

Allahu akbar, which means God is great, 4 times. Allahu akbar; Allahu akbar, Allahu akbar; Allahu akbar, La elaha ella Allah, there is

27:05

no god except the one God, which is the message of all God's messengers to the world.

27:10

There's really one message from all the messengers that God sent to us. And this message is

27:17

la elaha ella allah, there is no god except the God, Allah.

27:23

So the Azaan consists of: Allahu akbar, 4 times, followed by la elaha ella Allah.

27:33

This Azaan that has been approved by the prophet consisting of Allahu akbar 4 times,

27:39

then la elaha ella Allah, with time, it got so long that in my lifetime, in 1953, the

27:48

Minister of Religious Affairs in Egypt issued a law to reduce the Azaan. It got so long

27:56

and so ridiculous, it took 10 to 15 minutes to deliver the Azaan. And it had foolish things praising the prophet and his red cheeks and these silly things. I mean,

28:08

the Azaan got really ridiculous. After a few years, some people added to the Azaan "Ash-hadu an la elaha ella Allah

28:19

wa ash-hadu anna Muḥammadan rasūlu Allah." This was added to the original Azaan.

28:24

Some years later, they added the expression "ḥayya 'alā ṣ-ṣalāh" which supposedly

28:30

means "come to the prayer", but it really doesn't mean that. Apparently, some new

28:36

foreign Muslims, that is non Arab Muslims, added that expression "ḥayya 'alā ṣ-ṣalāh"

28:42

which is not a typical. The Arabic should have been "ḥayya 'ilā ṣalāt", but they said "ḥayya 'alā ṣ-ṣalā."

28:50

Then many years later, somebody added "ḥayya 'ala l-falāḥ" which supposedly means

28:56

"come to the success." And some other people added "ash-hadu anna alīyyan walīyyu Allah."

29:04

in some parts of the Muslim world. And until now, they use these... all these additions are being used in different parts

29:12

of the Muslim world. Later on, some people added the "ash-hadu anna ahlul bayt hojato Allāh" and so on.

29:21

So, the Azaan kept getting longer and longer, as I told you, until the Minister of Religious

29:27

Affairs in Egypt issued a law reducing the Azaan to its present form in the Muslim world.

29:34

But here at Masjid Tuscon, and hopefully you will go back to the original Azaan that the

29:40

prophet Muhammad approved. Allahu akbar, Allahu akbar, Allahu akbar, Allahu akbar, la elaha ella Allah.

29:48

This is the Azaan that we use here in Masjid Tuscon, and hopefully it will spread all over

29:54

the world. We have it done like this in many mosques around the world

29:59

that have seen the light and decided to take the Azaan and the prayers to the original

30:05

Azaan and prayer of the prophet Muhammad. You know the same thing is true with the Wuḍū.

30:12

Wuḍū is the ablution or the preparation for Salat. When people hear the Azaan or the call to the Contact Prayer, they prepare for the prayer,

30:24

the Contact Prayer. And they do this by observing ablution. And ablution is decreed in the Quran in Sura number 5

30:32
verse number 6. And it is very specific. It gives you 4 steps. Remember that, 4 steps of ablution.

30:42
The average Muslim today has 8 or 9 or 10 steps which constitutes actually in reality some other god that added these steps, because

30:52
they do it religiously, and it constitutes idolatry. So, please be careful, and observe what the Quran says, the Quran, the whole Quran

31:02
and nothing but the Quran. And the Quran gives us 4 steps. The first step is washing your face. The second step is washing your arms to the elbow.

31:13
The third step is to wipe your hair. And the fourth step is to wash your feet.

31:20
These are the 4 steps decreed in the Quran, and it is actually a gross transgression

31:29
to add anything to the 4 steps, or reduce anything. Some people will say "what is wrong with washing my nose and my mouth and my neck and all the... my ears and so on?"

31:41
Of course, there's nothing wrong with extra cleanliness. Go take a bath or a shower if you want to.

31:46
But when it comes to religious practices, we must adhere to what our creator dictated exactly.

31:55
We cannot increase it, reduce it, or increase it by anything.

32:01
So, it is very crucial that we follow what our creator said in the Quran.

32:06
These are the words that came out of the prophet Muhammad's mouth. Ironically, those people think that they are following the prophet Muhammad by increasing

32:15
the number of steps in ablution. And you and I know that the prophet Muhammad could never disobey God.

32:22
So, if God said 4 steps, this is it. The ablution is 4 steps.

32:27
So, now let us go to show you, demonstrate for you the 4 steps of ablution, the Wudū.

32:54
We find this commandment in Sura number 5, verse number 6.

33:00
And I will quote the verse for you. It says "O you who believe, when you get up for

33:05
the Salat prayer, you shall wash your face, your arms to the elbows, wipe your hair,

33:14
and wash your feet." 4 steps, and these are the words that came out of the prophet Muhammad's mouth.

33:21
These are the words of God. And God is saying "you shall observe the ablution 4 steps."

33:27
Washing the face, arms to the elbows, wipe your head, and wash your feet.

33:33
These are the 4 steps as dictated in Quran. However, like everything else, innovations, superstitions, traditions crept into God's

33:45
commandment and Satan distorted the commandment. Now, the vast majority of Muslims observe something like 9 or 10 steps in ablution.

33:57
And this is very serious because it simply means that there is some other god who told them

34:02
to do the ablution 9 steps. They wash their hands, their mouth, their nose, their

34:09
face, their ears, their neck. They have all kinds of innovations and additions.

34:15
And I would like to warn you that you must never increase the steps or decrease them,

34:21
the steps of ablution. You must obey exactly what God told you in Quran.

34:28
If you want to wash more, you might as well take a shower or do whatever you want, but outside

34:34
the ablution. If you are taking a shower or a bath, you can do the ablution after the shower or the bath

34:43
while you are still in the shower. But you have to go through the motions of ablution as I will show you now.

34:50
So, let me show you, demonstrate to you how to do the ablution.

34:55
First of all, you roll your sleeves so you can wash your arms to the elbows.

35:03
There we go. We are now demonstrating the ablution.

35:10
 You go to the faucet, and the first step in Quran is wash your face. So, you wash your face.

35:20
 Here we go. Bism Allah Al-rahman Al-raheem. Okay, let me stop right here and remind you of something.

35:29
 You should make an intention, that is you say "I intend to observe the Wuḍū, or the ablution."

35:37
 Before you do that and you say "Bism Allah Al-rahman Al-raheem." And you commemorate God in any way you want. You say "Alhamdu Lillah", "Subḥān Allāh",

35:44
 "Allahu akbar", anything you want to commemorate God. But if you want to say it in Arabic, the intention should be;

35:52
 "nawayatu al-wuḍū, Bism Allah Al-rahman Al-raheem." So, here we go. "Bism Allah Al-rahman Al-raheem, nawayatu al-Wuḍū."

36:01
 Then the first step, you wash your face.

36:10
 Okay, I washed my face twice, and I feel like I did a good job. So, this is good enough.

36:17
 There is no set number of washing your face. The second step, the arms to the elbows. So, here we go,

36:25
 washing the arm to the elbow. Right arm and then the left arm, the same thing.

36:47
 And this takes care of the second step. The third step is you wipe your hair. So, what I will do is

36:55
 I wet my hands and then I wipe my hair, my head, like this. And this is the third step.

37:03
 The final step is wash your feet to the ankles. So, you put your foot there

37:10
 wash it thoroughly. And this takes care of the right foot.

37:17
 And then the left foot.

37:32
 That's it. There you have it, the 4 steps of Wuḍū, very simple. Don't add any more steps, and don't reduce the steps.

37:50
 Now that you finished the 4 steps of Wuḍū, wash your face, your arms to the

37:55
 elbows, wipe your head and wash your feet, you are ready for the Salat Prayer.

38:01
 So, now let's go back to the masjid and show you how to observe the Salat Prayers, all 5 of them.

38:50
 The innovations, superstitions, prejudices, customs, and traditions did not hit the Azaan

38:57
 and the Wuḍū only, brothers and sisters, it also hit the Salat itself, the Contact Prayer.

39:03
 There's so much garbage that we have to remove from the Contact Prayers to make it pure,

39:09
 and make it exactly the Contact Prayers that the prophet Muhammad preached and practiced.

39:15
 So, what I'm going to present to you is the pure Contact Prayer without any innovations

39:22
 or additions that happened in the last 1400 years. We are trying to take the Salat, the Contact Prayers, all the way to the prophet Muhammad,

39:31
 the way he preached it, and the way he practiced it. And the most important point, please pay attention, the most important point is never to mention

39:43
 any name other than the name of Allah, the name of God, in your Contact Prayer.

39:49
 This is dictated upon us in the Quran. But you probably know that the average Muslim today adds the names of Muhammad and his family,

39:57
 Abraham and his family, and so on in the Contact Prayer. And this nullifies the Contact Prayer and makes it absolutely useless, if not harmful.

40:08
 So, you must be very careful. And this is my responsibility to tell you that.

40:13
 You must be very careful never to mention any name other than the name of Allah, the

40:18
 name of God, in the Contact Prayers. We see this in the Quran in Sura 72, AYA or verse number 18,

40:27
 where it says "the places of worship belong to God, do not mention any other name besides

40:33
 the name of God." This is a Quranic commandment. And in Sura 20, verse 15, we see the commandment (20:14) أَقِمِ الصَّلَاةَ لِذِكْرِي

40:43

"observe the Contact Prayers to commemorate Me" singular. God

40:49

is telling us that we must commemorate Him alone in the Salat, in the Contact Prayer.

40:56

So, I will give you the details of the Contact Prayers and we will go the mosque now and

41:03

give you a demonstration. But before I do this, I want to clarify that the TASHAHUD or the recitation while sitting down

41:13

should be only "Ash-hadu Alla Elaha Ella Allah Wahdahu La Shareeka Lah"

41:18

or just "Ash-hadu Alla Elaha Ella Allah", or just "La Elaha Ella Allah." This is enough. "There is no god except the one God."

41:26

And forget about all these names, Muhammad and his family, Abraham and his family. Muhammad and Abraham will be the first people to denounce this use of their name in the Contact Prayer.

41:38

And you know something, all the Imams of Sunni and Shia, all of them, unanimously agree that

41:45

this mentioning of Muhammad and his family, Abraham and his family while sitting down

41:50

in the Contact Prayer, is not an obligatory part of the prayer. You heard me right. Unanimously, they agreed that this is just a desirable, they think,

42:01

a desirable part, but it is not. It actually kills your Contact Prayer, makes it useless

42:07

and actually does harm to you. Because God will be offended to have other names mentioned besides Him

42:13

in the daily worship. You're worshiping God alone. So, just be careful.

42:19

And this by the way led to the conclusion that you must recite only Al-Fātehah, the opening

42:26

Sura of the Quran while standing up in the Contact Prayers. Do not recite any Quran after the Al-Fātehah. And on the surface, this looks like abandoning

42:37

the Quran, it is not. It's the exact opposite. Because in the Contact Prayers, a lot of people end up memorizing

42:44

the short Suras: "qul huwa Allahu ahad", and "qul a'uzu...", and that's it. And they think

42:49

they know Quran. But I must tell you to read Quran every day. You must read the Quran every day. This is

42:56

a commandment from our creator to read His message, the Quran, every day, the whole Quran,

43:02

not just the short Suras. But in the Contact Prayers, please, you only need recite Al-Fātehah.

43:09

And this is a unifying force of all the Muslims in the world. I was praying in Mecca one time and the Imam read Al-Fātehah and then he read the whole

43:20

Sura number 32, Sura Al-Sajdah after Al-Fātehah. And I was thinking, you know, there are a few thousands of people in there around the Ka'bah

43:30

praying behind this Imam, and the vast majority of them didn't know any Arabic. What is their point? They just stand through all this recitation in Arabic that they do not understand.

43:43

What is required is only recite Al-Fātehah. And this will unify all the Muslims of the world. They will do the same thing in all

43:51

the prayer. In Japan, they know Al-Fātehah. They read it in the Contact Prayer. In Sweden, in America, in Canada, in Australia, in Mecca, in Pakistan, all the Muslims of the world

44:02

will do the same thing. But this business of reciting long portions of the Quran is wrong. It actually ruins the

44:10

Contact Prayer. God wants things to be easy for us, but Satan wants to make things difficult

44:16

for us. So, he adds all things. Besides, when you recite the Quran, you mention Moses and

44:23

Jesus and Muhammad and Pharaoh and the devil and all these things. You'll mention other names besides the name of God in the prayer, and this is forbidden by

44:33

commandment from God. We are not to mention any name. When you recite the Quran in the mosque and you mention other names, it's because God says

44:42

so in the Quran. It says (19:16) وَأَذْكُرْ فِي الْكِتَابِ مَرْيَمَ for example. This is God's commandment.

44:48

You can mention the name of Mary in the Quran in order to learn from the lessons of previous
 44:55 prophets, messengers, and so on. And it is a commandment from God to mention. So, when we read the Quran, we mention these
 45:03 names only because God commanded us to do so. But in the Contact Prayers, in the Salat, we are commanded never to mention any other
 45:12 name but the name of Allah, the name of God.
 45:38 After you have done the Wuḍū and you are ready for the prayer, you go to a nice clean
 45:44 place. You don't necessarily need the prayer rug. This is one of those innovations.
 45:50 You can pray in any clean place, even bare ground as long as it is dry and clean.
 45:57 So, you go to a nice clean place and you find the direction of Mecca, the direction of the
 46:04 Sacred Mosque, because this is a commandment in Quran that you must face.
 46:09 This is an organizational point. There is no other significance to it, except organizational.
 46:15 You can imagine people going in a mosque and facing in different directions, it'll be a mess.
 46:22 So, this organizational point dictates on us that we must face the direction of Mecca,
 46:28 wherever you might be. So, in the United States, the direction generally is slightly south of east, slightly south
 46:39 of east, southeast. So, find the direction of Mecca. You face that direction and then you make your intention.
 46:48 This is the first step. You must say "I intend to do the Morning Prayer" in any language you like.
 46:55 If you want it in Arabic, you can say "Nawaytu Salat Al-Sobh." This will be the NIYYA or
 47:01 the intention for the Morning Prayer. Or if it is for the Noon Prayer, you say, in your heart or in an audible voice "I intend
 47:11 to do the Noon Prayer", "Nawaytu Salat Al-Zuhr" in Arabic.
 47:16 If it is the Afternoon Prayer, it is "Nawaytu Salat Al-Asr."
 47:22 And for the Sunset Prayer, the NIYYA or intention is "Nawaytu Salat Al-Maghrib."
 47:29 For the Night Prayer, the intention or the NIYYA is "Nawaytu Salat Al-'Eshaa."
 47:36 So, but you can do it in any language you wish, secretly or loudly. Now after you do the NIYYA, now you're facing the direction of Mecca, you
 make your intention
 47:46 or NIYYA, then you open the Salat by raising your hands to the sides of your face and saying
 47:52 "Allahu akbar" like this "Allahu akbar."
 47:57 There is your opening of the Salat. Once you say "Allahu Akbar" in this manner, you have started your contact or Salat, your contact with your
 creator.
 48:11 Now after you make the opening TAKBIR, Allahu akbar, you can either put your hands on the side
 48:18 or you can choose to hold them like this, with your left hand on your stomach, and your right hand on top of your left hand. It doesn't
 48:27 make any difference. Some people make a big deal out of it, but there is no difference. Either way is correct.
 48:33 So, this is the opening of the Salat, the Contact Prayer. Allahu akbar.
 48:41 Now, you are ready to recite Al-Fātehah, the opening Sura of Quran.
 48:48 The easiest way for you is to have me write the words in English transliteration, English letters.
 48:55 So, before you do the Wuḍū, the ablution, you can say your intention "I intend to
 49:02 make the ablution" or Wuḍū either in English or in Arabic. So "I intend to do the ablution" in English, the Arabic would be "Nawaytu Al-Wuḍū".
 49:12 And you write it like this "Nawaytu." "Nawaytu" which means "I intend."
 49:28 Nawaytu Al-Wuḍū. "Al" means "the."

49:35
Ablution "Wuḍū", "Al-Wuḍū."
49:45
"Nawaytu Al-Wuḍū"
49:50
Let me write the words of Azaan for you. "Allahu Akbar, Allahu Akbar, Allahu Akbar Allahu Akbar,
49:58
La Elaha Ella Allah." So, in the Azaan, we say "Allahu Akbar" 4 times.
50:04
"Allahu Akbar" meaning "God is the greatest." Allahu
50:17
"Allahu", "God" "Akbar" (greatest).
50:30
Allahu Akbar, 4 times.
50:36
Then, "La Elaha Ella Allah." "La" means no.
50:44
La "Elaha" meaning god with a small g.
51:00
"La" means no. "Elaha" is god. no
51:06
"Elaha" is god with a small g.
51:12
"Ella" means except.
51:19
"Ella", except
51:28
"Allah" means God.
51:43
"La Elaha Ella Allah" So, this is the complete Azaan, the original Azaan without any innovations or additions
51:53
or traditions. A lot of people think that Allah is the name of God, but it is not. Allah simply means God.
52:02
The English word for it is God. The non-Muslims in the Arabic world say "Allah" because this is the Arabic word for God
52:11
even though they are not Muslims. They will say "IN SHAA ALLAH." They say "Allah" and because simply that is the language.
52:18
It is not the name of God. This is why I use the word, the English word, "God" for "Allah."
52:28
Allahu Akbar Allahu Akbar
52:37
Allahu Akbar Allahu Akbar
52:45
La Elaha Ella Allah
52:52
I'm going to write the NIYYA or intention for every prayer for you, so you can see how it is spelled.
52:59
Here's the NIYYA or intention for the Morning Prayer. "Nawaytu" – "Nawaytu" which means "I intend."
53:16
"Salat" – "Salat Al-Subh" – "Al" – "Subh" – "Al-Subh"
53:41
"I intend to do the Morning Prayer" – "Nawaytu Salat Al-Subh."
53:47
Now, to make it the Noon Prayer, you just... you say the same thing except you change
53:56
"Al-Subh" to "Zuhr" which means "noon."
54:02
"Nawaytu" – "Nawaytu Salat Al-Zuhr." This will make it the Noon Prayer, "Al-Zuhr."
54:16
For the Afternoon Prayer, you just make it "Al-'Asr" "Salat Al-'Asr." You write 'A like this "Al-'Asr." "Nawaytu Salat Al-'Asr."
54:38
The Sunset, you make it "Al-Maghrib."
54:45
"Nawaytu Salat Al-Maghrib", it's written like this "Al-Maghrib."
55:03
"Nawaytu Salat Al-Maghrib." This is the Sunset Prayer. And the Night Prayer is "Al-'Eshaa."
55:13
"Nawaytu Salat Al-'Eshaa" – "Al-'Eshaa."
55:27
"Nawaytu Salat Al-'Eshaa."
55:34

By now you know how Allahu akbar is written, the opening of the Contact Prayer "Allahu akbar."

55:42

This is followed by Sura Al-Fātehah. And it is written like this: The first verse is "Bism Allah."

56:02

"Arrahman."

56:13

"Arraheem."

56:29

"Bism Allah Arrahman Arraheem." "Al hamdu"

56:46

"Lillahi"

56:54

"Rabbil 'Alameen"

57:14

Okay, "Bism Allah Arrahman Arraheem" means "in the name of God, most Gracious,

57:21

most Merciful." "Al hamdu Lillahi" means "praise be to God."

57:28

"Rabbil 'Alameen" means "Lord of the universe."

57:34

"Bism Allah Arrahman Arraheem. Al hamdu Lillahi Rabbil 'Alameen", "in the name

57:41

of God, most Gracious, most Merciful. Praise be to God, Lord of the universe."

57:49

And the next statement is familiar to you: "Arrahman Arraheem", "Most Gracious

58:12

Most Merciful."

58:19

And the next statement is: "Maliki" means "Master" or "King."

58:33

"Yawm" means day. "Eddeen"; recompense. "Yawm Eddeen" day of recompense.

58:51

So "Arrahman Arraheem", "Most Gracious, Most Merciful", "Maliki Yawm Eddeen",

58:57

"Master of the Day of Recompense." "Eyyaka Na'abudu" means "only You we worship."

59:30

"Wa Eyyaka" means "and only You" "Wa" means "and."

59:36

"Eyyaka Nasta'aeen" means "we ask for help, only You we ask for help."

59:59

"Wa Eyyaka Nasta'aeen", "and only You we ask for help."

1:00:07

The next statement... now, of course, you can always go back, reverse the tape and watch

1:00:15

all these words until you know them very well by heart.

1:00:24

The next statement is "Ehdina Al-Serata Al-Mustaqeem", "guide us in the right path."

1:00:31

"Ehdina" means "guide us."

1:00:40

"Al-Serata" means "the path".

1:00:51

"Al-Mustaqeem", "the straight" or the right path.

1:01:08

"Ehdina Al-Serata Al-Mustaqeem", "guide us in the right path."

1:01:14

"Serata" means "the path of"

1:01:26

"Al-Lazeena" means "the path of those"

1:01:36

"An'amta" means "those whom You blessed."

1:01:44

"An'amta 'Alayhim", "You showered Your blessings on them."

1:01:55

"Ehdina Al-Serata Al-Mustaqeem", "guide us in the right path."

1:02:00

"Serata Al-Lazeena An'amta 'Alayhim", "the path of those whom you blessed."

1:02:09

And then we go to the last statement in the Al-Fātehah, "Ghayri Al-Maghdoobi 'Alayhim."

1:02:22

"Ghayri" means "other than, or not."

1:02:31
 "Al-Maghdoobi 'Alayhim" means "not the path of those who incur wrath, or anger."
 1:02:54
 "Ghayri Al-Maghdoobi 'Alayhim." "Wa Laddaalleen" (not the strayers). "Wa" means "and."
 1:03:00
 "La" means "no", "nor" "Wa La" "Wa Laddaalleen", and this is the end of it – "and not the strayers."
 1:03:13
 "Ghayri Al-Maghdoobi 'Alayhim", "not the path of those who incur wrath, or anger" "Wa Laddaalleen", "nor the strayers."
 1:03:42
 After you recite Al-Fātehah, then you make Ruku, bowing.
 1:03:48
 And as you bow you say "Allahu Akbar" and you know what that looks like. I wrote it for you.
 1:03:54
 Then during the Ruku you say "Subhaana Rabbiya Al-'Azeem" about three times. It doesn't
 1:04:00
 matter, two or three or four times. "Subhaana" means "glory be to."
 1:04:12
 "Subhaana Rabbiya" means "Glory be to my Lord."
 1:04:22
 "Al-'Azeem" means "the Great."
 1:04:31
 "Subhaana Rabbiya Al-'Azeem", "Glory be to my Lord, the Great."
 1:04:38
 Then, you stand up and in this position only you say "Sami'a Allahu Leman Hamidah"
 1:04:47
 means "God hears anyone who praises Him." And it is written like this "Sami'a Allahu"
 1:05:09
 "Leman", "anyone."
 1:05:17
 "Hamidah", "who praises him."
 1:05:25
 "Sami'a Allahu Leman Hamidah" as you stand up.
 1:05:31
 Then, you make the first prostration, Sujud.
 1:05:39
 And when you do that, you say "Allahu Akbar" as you go down in prostration. And during prostration, you say "Subhaana Rabbiya Al-A'ala"
 1:05:58
 about three or four times, means "Glory be to my lord, the Most High."
 1:06:05
 "Al-A'ala", "the Most High." And this takes care of all the words of the Contact Prayers.
 1:06:13
 Now, you know how to say all the words and if you play the tape over and over, you can
 1:06:19
 see how exactly they are written down and how they are pronounced.
 1:07:17
 In the sitting position, you say "Ash-hadu Alla Elaha Ella Allah, Wahdahu La Shareeka Lah"
 1:07:24
 which means "I bear witness that there is no god except Allah, the one God,
 1:07:30
 He is one. "La Shareeka Lah", "He has no partners." And this is how I write it "Ash-hadu" means "I bear witness."
 1:07:43
 "Ash-hadu Alla",
 1:07:49
 "Elaha" means "god with a small g." "I bear witness that there is no god"
 1:07:56
 "Ella", "except"
 1:08:01
 "Ella Allah", "the one God"
 1:08:08
 "Wahdahu", "He is one"
 1:08:18
 "Wahdahu La Shareeka Lah", "He has no partner." "La" means "no."
 1:08:25
 "Shareek" means "partner." "La Shareeka Lah", (He has no partner).
 1:08:38
 And this takes care of the Ta-shahud in the sitting position,
 1:08:44
 "Ash-hadu Alla Elaha Ella Allah, Wahdahu La Shareeka Lah."
 1:08:53
 And then of course to end the prayer, you look at the right side and say "Al-Salaamu 'Alaykum",
 1:08:59

and then on the left side saying "Al-Salaamu 'Alaykum" and this ends the Contact Prayer. So, let me write "Al-Salaamu 'Alaykum" for you.

1:09:10

"Al-Salaamu 'Alaykum"

1:09:28

There you have it, the complete words of the Contact Prayers.

1:09:37

Now, let me explain a few fine details about the Salat, the Contact Prayers.

1:09:42

One of the most important points is that there is a myth among the average Muslims

1:09:50

that a woman who has her period or menstruation cannot pray. Now, this has to be from Satan because Satan is the one who does not want you, the Muslim

1:10:01

woman, to pray. God did not say in the Quran at all "do not pray during menstruation."

1:10:08

There is nothing in the Quran that says that. Even the Hadith... we learn from Hadith that the prophet's wives used to pray during

1:10:15

their menstruation. One Hadith even says "they put a bucket under one of his wives as she prayed."

1:10:22

Ridiculous as this may be, but it demonstrates that the Muslim woman should pray during her

1:10:28

menstruation. If a Muslim woman does not pray, during menstruation, this means one week in the month without prayer,

1:10:36

and this is like 4 years every 10 years, 4 years without any

1:10:42

prayer, imagine that. So, this will be a satanic innovation to stop the women from praying during menstruation.

1:10:50

So, please, menstruation or not, the Contact Prayer, the Salat prayer is the only worship

1:10:57

that must go on. There is absolutely no excuse for not doing the Contact Prayer.

1:11:03

Even God provides that you can pray walking, or riding in a car, or riding in a plane,

1:11:09

or in a bus, or even if a person is very sick, very ill, cannot move, that person can pray

1:11:16

with his or her eyelids, or even mentally. If you are working in crowded place and you cannot find a place to pray, you can pray

1:11:26

at your desk sitting down just mentally going through the motions and the words. So, there is absolutely no excuse for missing any Contact Prayer.

1:11:53

So, whether the person is ill, unable to move, or riding, trapped in a car or a bus or

1:12:00

a plane, or in a working place where there is no place available for prayer,

1:12:07

or during menstruation, or the after birth bleeding, any of these conditions cannot... nothing

1:12:14

stops your from performing, observing the Contact Prayers.

1:12:19

Another point that I wish to mention is the group prayer or the Jama'a.

1:12:25

In the Jama'a, one person leads the prayer and the rest of the group stand behind him,

1:12:31

behind the imam, and do exactly what he does. You do not have to recite Al-Fātehah or the Quran

1:12:39

after the imam. Remember, all that is required in the Contact Prayer is the Al-Fātehah, the first Sura of Quran.

1:12:49

So, you just mentally follow the imam as he recites Al-Fātehah during the Contact Prayer.

1:12:56

And then of course in Ruku', the bowing position, you say "Subhaana Rabbiya Al-'Azeem" as usual.

1:13:02

And in the Sujood or prostration, you say "Subhaana Rabbiya Al-A'ala", as usual.

1:13:09

So, you only listen to the imam when he recites Al-Fātehah in the standing position.

1:13:16

If a person comes late, and finds the Jama'a, the group, already did one or two or three

1:13:23

Rak'as, units, you just – if you come late, you just join the group in whatever

1:13:29

position they are in, and then after they finish, when they say "Al-Salaamu 'Alaykum", the first one, you stand up and you complete the part that you missed.

1:13:39

So, this is how you make up for missing units, or missing Rak'as when you join a group.

1:14:04

What happens if you miss one of the prayers, one of the Contact Prayers? You're supposed to do all five Contact Prayers during each one of the five periods, the Morning

1:14:16

Contact before sunrise, the Noon between around 12:00 and four (16:00), the Afternoon

1:14:21

between four (16:00) and sunset, the Sunset Contact immediately after sunset, and the Night Prayer after all the twilight disappears from the horizon, about two hours after sunset.

1:14:34

Now what happens if you miss one of these prayers? There is a myth that you can make it up or combine prayers and it is just an innovation.

1:14:43

You cannot make up missed prayer. If you miss the Noon Prayer in any day, you just cannot bring yesterday back.

1:14:51

You missed it and it is too bad. So, you just ask God for forgiveness, repent and promise God that you will never, to the

1:15:00

best of your ability, miss anymore prayers, and you just go on doing the prayers.

1:15:05

See, the idea of the Contact Prayer is to contact our creator within a certain period of every day.

1:15:13

And when you miss that, it is gone. You cannot bring it back, and you cannot make it up, but you can ask forgives and repent.

1:15:23

And now the best way to describe the Contact Prayers to you is to demonstrate exactly how it is done.

1:15:31

So, now I will demonstrate for you the Morning Contact Prayer.

1:15:49

Do you remember the first thing you have to do in order to observe the Contact Prayers?

1:15:55

That's right, the intention. You declare your intention, in Arabic "NIYYA."

1:16:00

So, since this is the morning prayer, I will make the intention for the Morning Contact Prayer,

1:16:06

in English then in Arabic. Then, I will proceed with the prayer and you just watch everything I'm doing and this

1:16:13

is – this should be the correct way for observing the Contact Prayer.

1:16:18

So, here I am facing the direction of Mecca, and I'm going to make my intention.

1:16:25

I intend to do the Morning Contact Prayer, Nawaytu Salat Al-Subh.

1:16:32

Allahu Akbar Bism Allah Arrahman Arraheem (1:1)

1:16:38

Al hamdu Lillahi Rabbil 'Alameen (1:2) Arrahman Arraheem (1:3)

1:16:43

Maliki Yawm Eddeen (1:4) Eyyaka Na'abudu Wa Eyyaka Nasta'aeen (1:5)

1:16:49

Ehdina Al-Serata Al-Mustaqeem (1:6) Serata Al-Lazeena An'amta 'Alayhim Ghayri Al-Maghdoobi 'Alayhim Wa Laddaalleen (1:7)

1:17:00

Allahu Akbar Subhaana Rabbiya Al-'Azeem x 3

1:17:08

Sami'a Allahu Leman Hamidah Allahu Akbar

1:17:14

Subhaana Rabbiya Al-A'ala x 3 Allahu Akbar

1:17:23

Allahu Akbar Subhaana Rabbiya Al-A'ala x 3

1:17:33

Allahu Akbar Bism Allah Arrahman Arraheem (1:1)

1:17:40

Al hamdu Lillahi Rabbil 'Alameen (1:2) Arrahman Arraheem (1:3)

1:17:45

Maliki Yawm Eddeen (1:4) Eyyaka Na'abudu Wa Eyyaka Nasta'aeen (1:5)

1:17:51

Ehdina Al-Serata Al-Mustaqeem (1:6) Serata Al-Lazeena An'amta 'Alayhim Ghayri Al-Maghdoobi 'Alayhim Wa Laddaalleen (1:7)

1:18:02

Allahu Akbar Subhaana Rabbiya Al-'Azeem x 3

1:18:11

Sami'a Allahu Leman Hamidah Allahu Akbar

1:18:16

Subhaana Rabbiya Al-A'ala x 3 Allahu Akbar

1:18:27

Allahu Akbar Subhaana Rabbiya Al-A'ala x 3

1:18:36
Allahu Akbar Ash-hadu Alla Elaha Ella Allah, Wahdahu La Shareeka Lah
1:18:45
Al-Salaamu 'Alaykum Al-Salaamu 'Alaykum
1:18:52
And this completes the Morning Prayer. This is the original contact Salat prayer as observed by the prophet Muhammad and it came to us
1:19:02
all the way from Abraham exactly this way. And you notice in my prayer, I didn't look around, I didn't laugh, I was not distracted,
1:19:12
I concentrated on communicating with my creator. And now I will do the Noon Prayer.
1:19:19
Now, the Noon Prayer, the Afternoon Prayer, and the Night Contact Prayer are all identical, exactly the same.
1:19:28
So, the intention for the Noon Prayer is "Nawaytu Salat Al-Zuhr."
1:19:35
For the Asr, for the afternoon prayer "Nawaytu Salat Al-Asr."
1:19:41
And for the night prayer "Nawaytu Salat Al-Eshaa." So, what I'm going to demonstrate for you is 4 Rak'as
1:19:50
which is suitable for the Noon, Afternoon, and the Night Prayer. So, here we go.
1:19:56
I face the direction of Mecca, and I make my intention according to whichever Contact
1:20:02
Prayer it is, and I start my prayer by opening with TAKBIR.
1:20:08
Allahu Akbar Bism Allah Arrahman Arraheem (1:1)
1:20:14
Al hamdu Lillahi Rabbil 'Alameen (1:2) Arrahman Arraheem (1:3) Maliki Yawm Eddeen (1:4) Eyyaka Na'abudu Wa Eyyaka Nasta'aeen (1:5)

1:22:53
Allahu Akbar Subhaana Rabbiya Al-A'ala x 3
1:23:01
Allahu Akbar Bism Allah Arrahman Arraheem (1:1)
1:23:06
Al hamdu Lillahi Rabbil 'Alameen (1:2) Arrahman Arraheem (1:3)
1:23:12

Maliki Yawm Eddeen (1:4) Eyyaka Na'abudu Wa Eyyaka Nasta'aeen (1:5)
1:23:17
Ehdina Al-Serata Al-Mustaqeem (1:6) Serata Al-Lazeena An'amtal 'Alayhim Ghayri Al-Maghdoobi 'Alayhim Wa Laddaalleen (1:7)
1:23:27
Allahu Akbar Subhaana Rabbiya Al-'Azeem x 3
1:23:36
Sami'a Allahu Leman Hamidah Allahu Akbar Subhaana Rabbiya Al-A'alaal x 3 Allahu Akbar
1:23:50
Allahu Akbar Subhaana Rabbiya Al-A'alaal x 3
1:23:58
Allahu Akbar Ash-hadu Alla Elaha Ella Allah, Wahdahu La Shareeka Lah
1:24:07
Al-Salaamu 'Alaykum Al-Salaamu 'Alaykum And this takes care of the 4 Rak'a prayers, the Noon, the Afternoon or the Night Prayer.
1:24:20
And now I will demonstrate for you the 3 Rak'as of Salat Al-Maghrib, the Sunset Prayer.
1:24:28
It is of course the same except you do only 3 Rak'as, 3 units, and here we go.
1:24:36
I intend to do the Sunset Contact Prayer, Nawayatu Salat Al-Maghrib.
1:24:42
Allahu Akbar Bism Allah Arrahman Arraheem (1:1) Al hamdu Lillahi Rabbil 'Alameen (1:2) Arrahman Arraheem (1:3)

06 Principles of Friday Prayer

BISMI ALLAH AL-RAHMAN AL-RAHIM. In the name of God, Most Gracious, Most Merciful.

1:43
 Brothers and sisters AL-Salāmu 'Alaykum. The Friday congregational prayer is an
 1:49
 obligatory duty upon every Muslim man and woman. This is a social function
 1:55
 decreed by God Almighty for the Muslims to get together and to know each other
 2:01
 and to be familiar with their problems and their joys. And we find in SURA
 2:07
 number 62 verse number 9, the commandment from God says "o you who believe when the
 2:14
 contact prayers, the SALAT for Friday, is announced, you shall go to the mosque and
 2:20
 observe the SALAT prayer, and drop all business. This is better for
 2:26
 you if you only knew." So, if anyone is afraid that he or she may lose some
 2:31
 business during the Friday prayer, God is saying "this should be better for you" God will make it up to you. God runs the world and He is the
 only
 2:39
 provider and He guarantees you doing better if you go to the Friday prayer.
 2:44
 And notice that the commandment said "o you who believe." It didn't say "o you believing men or o you believing women." It says "o you who
 2:54
 believe when the contact prayer on Friday is called for, you shall go and
 2:59
 drop all business." It is very important. I'm emphasizing the role of the women because this is also an educational meeting where people sit
 down and
 3:09
 listen to a sermon and the Muslim woman must be the best educated because she
 3:15
 teaches the children. Women are our mothers and they teach
 3:20
 us as we grow up and it is essential that they are educated, not ignorant.
 3:26
 The traditional customary Muslims of the Middle East, they kept the women away
 3:33
 from the mosque and this kept the children ignorant because the mothers are ignorant as far as the religion is concerned. So, it is very
 important to
 3:41
 emphasize this fact that Muslim men and women are required. It is an obligatory duty for them to go to the Friday prayer.
 4:15
 Now, there are certain conditions for the Friday prayer. The people dress nicely as
 4:22
 commanded in the Quran, and they go for the noon prayer on Friday to the mosque.
 4:29
 And the Imam or the person who gives the sermon is required to follow certain
 4:35
 traditions. These are religious traditions or duties that came to us all
 4:40
 the way from Abraham and it is universal. This is the way it is happening all over the world.
 4:46
 The first condition is that throughout the prayer from the beginning to the end, you mention only the name of God, ALLAH
 4:57
 SUBHANAHU WA TA'ALA in the AZAN. The AZAN should be ALLAH-O AKBAR, ALLAH-O AKBAR
 5:03
 ALLAH-O AKBAR, ALLAH-O AKBAR, La Elaha Ella Allah. This is the AZAN.
 6:24
 Now, the AZAN should be ALLAH-O AKBAR, ALLAH-O AKBAR ALLAH-O AKBAR, ALLAH-O AKBAR, La Elaha Ella Allah. This is the AZAN. So,
 the AZAN or the call for
 6:34
 contact prayer is delivered. Then, the Imam stands up in front of the congregation and he starts the first sermon by saying "ALHAMDU
 LILLAH."
 6:46
 This is the first requirement. Now, you notice I said the first sermon,
 6:52
 because the KHUTBA or sermon on Friday consists of two sections or two sermons.
 7:01
 The prayer itself consists of two RAKATs, instead of four. The customary noon prayer
 7:06
 consists of four RAKATs or four units but on Friday, it is only two

7:11
 RAKATs or two units and this is because the two sermons compensate for two

7:17
 RAKATs or two units. So, the first sermon and also the second sermon, they must

7:23
 begin by stating ALHAMDU LILLAH, praise be to God, followed by the SHAHADA.

7:32
 And the SHAHADA, as dictated in the Quran, in SURA number 3 verse 81, the SHAHADA is

7:40
 La Elaha Ella Allah. That's it. So, the Imam stands up and he begins

7:46
 each sermon the first one and the second one by saying ALHAMDU LILLAH. La Elaha Ella Allah.

7:53
 Then, he goes into the sermon, the subject in any language that he wishes.

8:02
 Of course, in this country in the united states, it'll be English, so the people will understand. If the Imam, during the sermon, uses Quran in Arabic,

8:12
 he must translate it, so the people will understand. This is the whole idea of a sermon.

8:17
 The sermon also deals with the local conditions of the local community.

8:24
 Or it can deal with a general lesson from the Quran or a general religious lesson.

8:29
 So, let me write for you the first requirement which is stating ALHAMDU LILLAH. La Elaha Ella Allah. at the beginning of each sermon.

9:13
 The Imam stands up for the sermon and the first thing he says in the first sermon and the second sermon is ALHAMDU LILLAH. This is how it looks in writing.

9:31
 AL-Hamdu Lillah,

9:44
 which means praise be to God. La Elaha Ella Allah, which looks like this. La means no.

9:56
 Elaha means god with a small g.

10:01
 La Elaha Ella, except

10:08
 Ella Allah.

10:17
 La Elaha Ella Allah. There is no god except Allah.

10:24
 This is the required utterance at the beginning of the first sermon and the second sermon. After this, you go into the subject of your sermon. Now, you notice

10:34
 I didn't say anything else. This is what you start with. ALHAMDU LILLAH. La Elaha Ella Allah.

10:41
 You don't start with BISMI ALLAH AL-RAHMAN AL-RAHIM, or dear brothers and sisters or AL-Salāmu 'Alaykum or anything else.

10:48
 The minute you stand up for the sermon, you say "ALHAMDU LILLAH. La Elaha Ella Allah."

10:54
 Then, you can say "dear brothers and sisters, AL-Salāmu 'Alaykum. I want to talk to you today about the contact prayers, the SALAT", for example, or whatever your subject is.

11:23
 After you finish the subject of the first sermon, how do you finish the first sermon?

11:30
 You finish it by asking the people to repent. You can ask them in Arabic and then translate it to English. And the Arabic is Tooboo Ela Allah. Repent.

11:42
 This is how you end the first sermon. Let me write it for you.

11:48
 Tooboo means repent, plural.

11:54
 Ela Allah.

12:03
 Tooboo Ela Allah. And this is how you end the first sermon.

12:11
 Now, as soon as you say Tooboo Ela Allah. Repent,

12:16
 you sit down and you repent yourself. You sit down and you pray to God "please, God forgive me. I repent to you. I will never commit a sin after

12:25

after now", and you mean it. Now, as soon as you say "Tooboo Ela Allah" to end the first sermon,
12:32
you sit down yourself and you repent. You ask God to forgive you. So, here's how you end the first sermon.
12:40
You finish your subject, then you say to the people "Tooboo Ela Allah. Repent."
12:46
And then you sit down and you ask God to forgive you and you declare your repentance.
12:55
You say "please, God forgive me. I repent. I will never commit a sin after now." And you
13:00
mean it. Of course, you're gonna fall in sin again, but God says "He loves those
13:05
who continuously repent." So, you sit down for about a minute, no more, just one minute.
13:13
And everybody in the mosque will be asking God for forgiveness. And everyone at the mosque will be repenting, and then you stand up for
the
13:21
second sermon. And you start the second sermon by - that's right - ALHAMDU LILLAH.
13:27
La Elaha Ella Allah. This is how you start the second sermon exactly the same way as the first sermon. Then, you either continue the subject
you were
13:37
talking about in the first sermon, or you talk about a new subject. You can have
13:42
two different subjects for the two sermons. And after you finish talking in
13:48
the second sermon, you end this last sermon by saying
13:53
Aqem Al-Salah." And this is a sign to someone in the congregation to declare
13:59
that the SALAT, the contact prayer for Friday, is ready to be observed and
14:05
everybody stands up. You end the sermon by saying Aqem Al-Salah. Let me write it for you.
14:16
Aqem Al-Salah
14:27
Aqem Al-Salah Now, the minute you say Aqem Al-Salah, the second sermon is over,
14:36
and a person in the congregation will say ALLAH-O AKBAR, ALLAH-O AKBAR ALLAH-O AKBAR, ALLAH-O AKBAR, La Elaha Ella Allah. And this
means everybody stand
14:48
up and let us pray. Then, as the Imam who gave the two
14:53
sermons, you stand up in front of the congregation and you pray two RAKATs as usual.
14:59
And I'm going to show you now an example of Friday congregation sermons.
15:07
God bless you.
15:36
So, let me summarize for you. You begin the first sermon by saying ALHAMDU LILLAH.
15:41
La Elaha Ella Allah. Then, you go into your subject in English. Then, you end the
15:47
first sermon by saying Tooboo Ela Allah. Then, you sit down and you ask God for
15:52
forgiveness and you repent. You sit down for about one minute, no more than that. Then, you stand up and you start the second sermon by
saying the same thing
16:02
ALHAMDU LILLAH. La Elaha Ella Allah. Then, you go into your subject that you want
16:07
to talk about and you end the second sermon by saying Aqem Al-Salah.
16:13
When you say that, someone in the congregation that knows that he was going to do this, will stand up and say ALLAH-O AKBAR, ALLAH-O
AKBAR,
16:22
ALLAH-O AKBAR, ALLAH-O AKBAR, La Elaha Ella Allah. And then, everyone in the mosque stands up and
16:29
they line... they stand up in straight lines behind you, the Imam. You take your
16:35
place and you do the Friday prayer exactly like the morning prayer. It is
16:41

identical to the morning prayer because it consists of only two RAKATs, or two units.

16:47

Now, the exact method of doing the SALAT, the contact prayers, is explained

16:52

in our tape entitled principles of Muslim prayer. This gives the details of all five daily contact prayers.

17:26

ALHAMDU LILLAH, WA ASHHADU AN LA ILAHA ILLA ALLAH, WAHDAHU LA SHARIKA LAH.

17:32

Praise be to God and we bear witness that there's only one God.

17:38

I want to start my KHUTBA this time with the beautiful quotation

17:43

from the Bible from Luke 12:29 to 31. It is, of course, a Quranic idea. The

17:52

author is one and the same. And this is expressed beautifully in English.

18:00

Starting at 29, it says "it is not for you to be in search of what you are to eat or drink. Stop worrying.

18:11

The unbelievers of this world are always running after these things.

18:16

God knows that you need such things. Seek out, instead, His kingship over you

18:24

and the rest will follow in turn." So, all you need to do is seek God's kingship over you and everything else you need follows, the food, the

18:35

provisions, the clothing, the health, everything else follows.

18:40

So, what does this mean? What does seeking God's Kingship mean?

18:46

It means that you give priority to God's commandments. You give priority to the

18:52

five contact prayers. You wake up in the morning and you say "my duty today is to

18:57

do the five contact prayers."

19:03

That you... the Friday prayer is a commandment from God. There is a commandment in Sura 60, verse 9, that you must go to the Friday prayer. You give this priority.

19:13

You arrange your life and your job and your circumstances,

19:18

so you will do the five daily prayers and the Friday prayer.

19:24

And of course, you people here are the least people who need this. Some people out there are the ones who need this kind of reminder.

19:33

You put on the list of your priorities the Quranic study. There's a Quranic study every Friday night going on here, where we study the Word of God.

19:44

And you have to work your circumstances. You cannot be somewhere in Tucson and there's a Quranic study going on in the mosque.

19:53

Otherwise, you don't really care. You're not seeking God's Kinship over you. To be

19:59

sitting within say 50 miles and there's a Quranic study going on.

20:07

What does it mean to seek God's kinship over you and everything else follows, the provisions, the health, the happiness? You give priority to the activities

20:18

of the believers. You remember the verse in SURA 18 that says "force yourself

20:24

to be with those who worship God alone", because it takes some effort and some

20:29

work. It's not easy but this is what is good for you, as you'll see in the second KHUTBA, IN SHAA ALLAH.

20:38

It means that you make a point of giving out the ZAKAT. charity, as commanded by God. This is how you seek God's Kingship over you.

20:47

One day in the year, whatever January 1st, December 31st, the first day of Ramadan,

20:53

any day you set for yourself, one day in the year. You calculate exactly how

20:59

much you are worth and you give out two and a half percent to people that you know, personally, people who need your charity. And the Quran gives the exact

21:11

order, your parents first. If they don't need it, then your relatives, your cousins

21:16
your brothers, sisters. I mean, your genetic brothers and sisters. And if all
21:23
your relatives are rich, they don't need it, then you go to the orphans, children who have no support, one of the parents is missing somehow.
21:34
And after that the traveling stranger, somebody stranded from Mexico or
21:40
Nicaragua or whatever and passes by your house or you know personally, people who immigrated from Thailand or Vietnam and they're
living in a house in a terrible
21:49
conditions and you know them. Then, they come next. So, there is a specific
21:54
sequence or order to give out this charity.
22:01
You give priority to HAJJ, eventually, not now. I wouldn't advise you to
22:06
do it now. The Quran makes it conditional. Someday all of us, IN SHAA ALLAH, we'll go.
22:12
We're gonna charter a plane when we'll go all of us. We'll make HAJJ and we'll go in as there will be great victory, because the land over there
will be
22:20
worshiping God alone. This is God's promise to us and therefore I can talk about it in this way. So eventually, you have to observe HAJJ.
22:31
You seek God's Kingship over you and everything else follows by observing the
22:38
prohibitions that God gave you. You don't drink. You don't gamble.
22:44
You don't eat pork. You don't lie. You don't cheat. You don't
22:51
violate your promises. You must be a person of your word. You must be an example of a person of God, one a member in God's Kingdom.
23:08
Anything else in your life must take place number two. You give priority to
23:16
these activities, the commands of God, and this way you seek God's Kingship over you and this way, you attain all other goals: money, health,
wealth,
23:27
happiness et cetera, et cetera. Tooboo Ela Allah. Repent.
23:43
ALHAMDU LILLAH, WA ASHHADU AN LA ILAHA ILLA ALLAH, WAHDAHU LA SHARIKA LAH.
23:51
By studying the Quran continuously, we have discovered the secret of happiness.
23:58
The secret of happiness is a developed, nourished and growing soul, the real you, the real person, not this body. This is the secret of
happiness and we
24:08
came to this conclusion by studying people who obtained everything. They got
24:13
everything that the human beings go after: money, fame, good looks, sports cars,
24:22
whatever. And I have used the example of Eddie Murphy, a movie star, when he was
24:28
interviewed by Barbara Walters. He's got millions of dollars. He got palaces in
24:35
California exclusive places and in New Jersey, five luxurious cars, all the
24:42
girls, all the money, all the fame that he wants, and he told Barbara Walters he was
24:48
not happy. So, what is the secret of... Aren't these the things that people are going after, money and fame and wealth and whatever? And he's
not happy. So, the
25:00
secret of happiness is that he must develop his soul and the soul can be developed by worshiping God alone.
25:10
Now this KHUTBA, I want to talk about God's name: AL-RAZAQ, the provider, the provider. God is
25:19
the exclusive provider. He's the one who decides how much money
25:26
you're going to make or you made from birth to death. And I want to shed a whole new light on this word: the provider, because God
25:37
provides for the body and for the soul. Therefore, the contact prayers that you do five times a day are a provision from God.
25:50
The duties that I talked about in the first KHUTBA, they're actually a gift from God. And we see this... there's a lot of

25:59
evidence in the Quran for this. For example, in SURA 7 verse 43, we see that the people in Heaven pray and say

26:09
"ALHAMDU LILLAH, praise be to God who guided us to this. We could not... we could

26:14
never be guided without God's blessing and guiding us." In other words, it was not their

26:20
doing. It is God's blessing and God's gift to them that guided them.

26:27
In SURA 10 verse 9, we see a very clear principle saying that God guides the

26:34
people because of their faith, or their belief. In other words, when you decide to

26:39
worship God alone, then God provides for your soul. And God provides the five contact prayers for your soul and the fasting of

26:49
the month of Ramadan for your soul. I mean, you think that you're gonna do the five prayers, but really it's a gift from God. You cannot do it without God's

26:59
guidance, SURA 9 verse 10.... SURA 10 verse 9, excuse me.

27:05
In SURA 49 verse 17, another clear evidence for this. The verse says

27:12
"they act as if they are doing you a favor by embracing Islam or by practicing Islam. Instead, God is the one who blessed them

27:24
by guiding them to Islam." So, when we worship God alone, when we do the five

27:30
daily prayers, when we fast the month of Ramadan, when we join the Quranic study, and even the picnics of the Muslim group,

27:39
we are not doing God a favor. It is God's provisions to our souls.

27:47
In SURA 14 verse 40, we see Abraham praying, and what is he saying? He says

27:54
"please, God make me an observable of the contact prayers", because it's a gift from God - "and also my children" he said. He said

28:05
"please God make me an observer of the contact prayers. رَبِّ اجْعَلْنِي مُقِيمَ الصَّلَاةِ (14:40) in Arabic.

28:14
He didn't say "please God give me a million dollars." So, observing the five contact prayers is a privilege and a gift and a

28:22
blessing. It is not a hardship. It is not work. You get up for the morning prayer

28:28
before sunrise not because you want to do this or because you're doing such a

28:35
great effort, you know, for God's sake, it's because God blessed you and enabled you to get up before sunrise to feed your soul, this very important meal the

28:46
morning prayer. Abraham said رَبِّ اجْعَلْنِي مُقِيمَ الصَّلَاةِ (14:40) My lord make me one who observes the

28:55
contact prayers, and also my children.

29:02
People in Satan's Kingdom are provided with sins.

29:11
We see this in SURA of 24 verse 21, when Satan collects people in his

29:18
kingdom, he pushes them to go to the bar, and lie, and cheat, and drink, and do not

29:27
feed your soul. This is what sins are, not feeding the soul, depriving the soul, poverty of the soul.

29:37
On the other hand, in SURA 7 verse 28, we see the principle that God does not

29:42
advocate vice.

29:49
So, it's the exact opposite of what Satan does. And this is why I want to remind you again that God never ordered Abraham to

29:57
slaughter his son, because this is a terrible vice, of course. And this is why we

30:03
never never find it in the Quran that Abraham ordered Abraham to sacrifice his son. That wouldn't make sense, and it does not... this law that God does not

30:14
advocate sins would be violated.

30:29
People in Satan's kingdom, because of their idol worship, they may observe the five contact prayers,

30:37
but they do not make contact. They dial the wrong number. They dial Satan's number, because they mention other names with God. And this is

30:48
a trick of Satan. And this is why we find in the Quran such statements as "woe to those who observe the SALAT prayers." (107:4) وَإِلَى الْمُنْصَلِينَ

30:58
Because now they are really doing an effort, but it's all in vain, as we see in SURA 39. It is all in vain. Once there's a name

31:07
mentioned with God in the prayer, it violates the commandment in SURA 72 verse 18.

31:14
Once another name is mentioned, the whole effort is in vain. And we are blessed here. See, we're gonna

31:22
stand up. We're gonna pray to God. We're gonna establish contact

31:28
with God and there will be no name from the moment we say Allah Akbar to open

31:33
the prayer, to the end, there'll be no name but the name of God.

31:38
And you can see the difference. Aqem Al-Salah

31:44
ALLAH-O AKBAR, ALLAH-O AKBAR, LA ILAAHA ILLAA ALLAH.

31:49
ALLAH-O AKBAR (1:1) بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

31:55
الْحَمْدُ لِلَّهِ رَبِّ الْعَالَمِينَ (1:3) الرَّحْمَنِ الرَّحِيمِ (1:4) مَلِكِ يَوْمِ الدِّينِ (1:5) إِيَّاكَ نَعْبُدُ وَإِيَّاكَ نَسْتَعِينُ (1:2)

32:03
أَهْدِنَا الصِّرَاطَ الْمُسْتَقِيمَ (1:7) صِرَاطَ الَّذِينَ أَنْعَمْتَ عَلَيْهِمْ غَيْرِ الْمَغْضُوبِ عَلَيْهِمْ وَلَا الضَّالِّينَ (1:6)

32:12
ALLAH-O AKBAR

32:18
سمع الله لمن حمده (God listens to those who say praise) ALLAH-O AKBAR (God is the greatest)

32:28
ALLAH-O AKBAR (God is the greatest) ALLAH-O AKBAR (God is the greatest)

32:39
بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ (1:2) الْحَمْدُ لِلَّهِ رَبِّ الْعَالَمِينَ (1:3) الرَّحْمَنِ الرَّحِيمِ (1:1) ALLAH-O AKBAR (God is the greatest)

32:48
مَلِكِ يَوْمِ الدِّينِ (1:5) إِيَّاكَ نَعْبُدُ وَإِيَّاكَ نَسْتَعِينُ (1:6) أَهْدِنَا الصِّرَاطَ الْمُسْتَقِيمَ (1:7) صِرَاطَ الَّذِينَ أَنْعَمْتَ عَلَيْهِمْ غَيْرِ الْمَغْضُوبِ عَلَيْهِمْ وَلَا الضَّالِّينَ (1:4)

33:01
ALLAH-O AKBAR (God is the greatest)

33:08
سمع الله لمن حمده (God listens to those who say praise) ALLAH-O AKBAR (God is the greatest)

33:19
ALLAH-O AKBAR (God is the greatest) ALLAH-O AKBAR (God is the greatest)

33:29
ALLAH-O AKBAR (God is the greatest)

33:36
ASALAAMU ALAYKUM (peace be upon you) ASALAAMU ALAYKUM (peace be upon you)

33:43
This is why it is appropriate to say congratulations at the end of the prayer, because you just received a gift

33:49
from God, the equivalent of a hundred million dollars in your account.

33:55
Congratulations.

34:10
ALHAMDULILLAH, praise be to God WA ASHADU AN LA ILLHA ILLA ALLAH WAHDAHU LA SHARIKA LAH.

34:17
And I bear witness there's no god except the One God. Our topic today is a very important one, marriage in Islam.

34:28
God has prescribed for us laws to govern the important aspects of

34:34
our lives and He left a lot of freedom for many other aspects in our lives.

34:41
And we're told that these laws are recommendations or commandments.

34:50
They are commandments because we should do them and they are recommendations because we have the freedom not to do them, as long

34:59
as we are ready to pay the price. God tells us in SURA 10 verse 62 that if you follow these commandments, you are

35:08
guaranteed happiness, perfect happiness in this world.

35:14
And tells us in SURA 21 verse 142 that if you disregard these commandments, you

35:21
are guaranteed a miserable life. So, it is very important for us to know these laws with regard to every aspect of
35:34
our lives, and today I'm going to share with you the commandments dealing with marriage.
35:43
There are two requirements that must be fulfilled for two people to get married. And these are... Number one is love.
35:55
And we see this in SURA 4 verse 24. The Arabic is **فَمَا اسْتَمْتَعْتُمْ بِهِ مِنْهُنَّ**
36:03
the ones that you like, you get married to. So, love must exist between the two.
36:13
And this cannot happen without
36:18
good acquaintance with the person. You must know the person. You must know his or her habits and you must know his or her temper. You
must know his or her
36:30
principles. You just must know the person. You cannot love a person
36:36
without knowing that person. So, this calls for a period of
36:42
acquaintance, getting to know each other. And then based on that knowledge, you
36:48
either love the person or not. And God tells you if you love the person, then
36:54
you get married. God says that if this is the person intended for you, God will put love in
37:02
your hearts. And this is in SURA 30 verse 21.
37:08
So, the first requirement before ever becoming intimate
37:14
is love. You must know each other very well and you must be in love with each
37:20
other. And God will help you along if this is the right person. If you don't love
37:25
the person, that is not the right person for you. The second requirement is dowry for the wife.
37:35
And we, we understand throughout the Quran, we understand from the Quran that the
37:41
purpose of the dowry is security for the woman. Because in many cases, you are taking a girl from her parents house. Then, she
37:53
becomes dependent on the husband. This is the majority of wives in the whole world.
38:00
And you can't just throw her out after a year or two,
38:06
because she is not the same person. And after what the Quran calls a
38:11
formidable oath has been made between the two of you. So, the purpose of the
38:18
dowry is security. And this can be
38:23
attained by writing a contract and paying the dowry in advance or saying that
38:31
if divorce takes place or if the marriage breaks up, then the wife must be given
38:37
a certain amount of money that will provide her security. The Quran is very careful in this respect, even with divorce.
38:47
In SURA 2 verse 240 and 241, we see that divorcees must be given
38:55
alimony or some kind of security. In SURA 65 the first verse says very
39:02
carefully that you can't kick the wife out of your house. And this provides security for the wife. This is the divorced wife.
39:11
And you cannot even fabricate conditions and situations to make them so miserable
39:17
that they leave on their own. You must guarantee their housing and
39:23
staying with their children. And she will not be the man's wife.
39:28
He cannot touch her, but she has to stay in that house. She must be provided with security of housing, provisions and this is
39:37
throughout the Quran. So, this is the purpose of the dowry. These are the two condition. There must be a sufficient period of time

39:46
for the two people to know each other and to satisfy the first requirement of
39:51
love before becoming intimate.
40:04
What is being done now, what my parents did and what is happening in most Muslim
40:10
countries is they actually do official the marriage.
40:17
And then, the now husband and wife, they don't touch each other. They do not become intimate, but this marriage, official marriage gives
them a chance
40:27
to be together alone, hold hands, go places, know each other. And then after
40:32
months or a year or years, the marriage is consummated. And of course during this period, if it doesn't work out, they break up. They find
40:42
somebody else. And she is still a virgin. And she still hasn't lost her chances.
40:50
This is how my parents got married, this is how my sister got married. How long were you... you did the marriage first and then how long was
it before consummating the marriage?
41:03
You didn't...
41:12
There were two years between كُتِبَ الكتاب which is the... Oh, it was an engagement and then two years and then you did official marriage and
the consummation
41:24
at the same time. So, you had two years of knowing each other. If I was in Egypt, you wouldn't do it....
41:30
I'm just kidding.
41:36
Oh, you didn't go outside. You were all... you had a chaperone... OK. I'm satisfied now.
41:51
But this is really the way it is done of most marriages in the Muslim world.
41:59
Worship in Islam, and all practices in Islam, and all the commandments that God gave us are based on self discipline and self-control.
42:10
I mean, Ramadan is coming up where you're gonna tell your body "you're not gonna eat or drink untill sunset."
42:16
This is self....it takes self-discipline and self-control. Where self discipline and self control is lost,
42:27
the human being becomes worse than animals. And there's a specific
42:32
reference in the Quran for this in SURA 7 verse 179. God called some
42:37
people "they are like animals, even worse." I mean, what is happening now in this
42:45
country and in Europe is that people meet. They don't even know each
42:51
other "let's hop in bed." This is worse than animals. because you can take a female cat or a female dog or a female horse that is not
43:04
in heat, not in that proper period and put her in the midst of two hundred
43:12
best-looking horny males. Can they touch her?
43:18
They will not touch her. They cannot touch her because it is not the proper time, but with human beings the way it is done now here, it's a lot
worse than
43:27
animals. They're worse than animals and these are the laws that God
43:33
lays down for our happiness. Because especially for the woman, I mean, she cheapens herself when she acts this way,
43:46
for the man, too. So, the two requirements... I'm repeating again
43:52
are that long period of time where people
43:57
must know each other and must fall in love before becoming intimate. So, remember love before intimacy,
44:04
and the dowry that is to provide security for the wife.
44:10
Now, the Quran leaves room for forfeiting the dowry if the wife is independently
44:18

wealthy. And being married or unmarried or divorced or widowed or whatever will not affect her security, then she can forfeit the dowry.

44:30

But we have examples of a man who's holding a fantastic position and he's

44:35

wealthy and his ex-wife is on welfare. That's not fair.

44:40

This is what the Quran... this is what God's laws are supposed to avoid a situation like that.

44:48

So, it is to the best for the benefit of the girl to demand her

44:55

right when the situation calls for it.

45:02

Tooboo Ela Allah. Repent.

45:29

ALHAMDU LILLAH, praise be to God. WA ASHHADU AN LA ILAHA ILLA ALLAH WAHDAHU LA SHARIKA LAH.

45:35

And we bear witness that there is no god except the One God. The marriage principles are laid down in the Quran must be known to all of us because

45:43

we come across these once in a while. And these are the principles God

45:48

prescribed for us to guarantee perfect happiness.

45:55

And from my experience, from life experiences and the things I have seen

46:00

even if it may look difficult at the beginning,

46:06

it is for the best of the couple to follow these prescriptions.

46:15

Quite often you read in the newspapers that "if I don't acquiesce to him, he's gonna leave me and find somebody else." Well, let him. He doesn't love you anymore. I mean,

46:23

he doesn't love you. That love is not there. But if the man loves the woman, respects her, then he will...

46:34

she will guarantee a husband who loves her. If you follow these steps,

46:40

you'll be guaranteed happiness from the physical and spiritual aspect.

46:53

Self discipline and self-control,

46:58

is easy when the soul is grown and developed and is stronger than the body

47:04

which is what the practices of religion are all about, developing your soul, so it'll be

47:09

stronger than your body. What you hear about Jimmy Swaggart and Jim Baker,

47:16

it shows that they are people whose body is stronger than their soul. I hear they were preaching against

47:24

adultery, and preaching the Word of God supposedly, and then they are dealing with, with prostitutes.

47:35

And for the Muslim, it's.... the Quran provides the solutions to all these problems

47:44

that we find in this country, alcohol drugs,

47:50

marital problems. Solutions to all the problems are found

47:56

in the Quran. We are becoming increasingly aware of the problems of alcohol and the disasters that come from it. I mean,

48:05

wherever you look, there are victims of alcoholism. But, and please forgive me if I appear to be bragging or anything, but I have

48:13

to share with you what the Quran does, what Islam does to us

48:19

it's that alcohol is just not in my mind at all. It's out of the question.

48:25

And this is the most effective way of dealing with alcohol or drugs. There's

48:31

just no way I will be tempted or even think about trying whiskey or gin or

48:37

champagne or whatever those things are. It's out of the question. It's just not in my

48:43

thinking at all, the same with drugs. And there was a demonstration on the TV

48:48
recently, with, what's his name that had Muslims on the TV talking about drugs? Geraldo Rivera. They had a bunch
48:58
of Muslims and they were talking about drugs and they set the example for Harlem or something where drugs are going rampant
49:07
and they just, drugs are not on their mind. Nothing is gonna tempt them to use drugs.
49:16
It's the solution to all problems. And there is a mechanism for it, and the mechanism is that the soul is stronger
49:24
than the body, because of all the prayer and the fasting and the things that God has prescribed for us and constitute gifts from God to us.
49:38
And again I will ask you to forgive me if I appear to be bragging, but again I wanna share with you what Islam does. Now, in my line of work,
work with the
49:47
United Nations, traveling to different Countries in the world and making a lot of money. The UN pays the highest salaries in the world
49:56
when I was... when I'm with them on assignment. And I have been to conferences, the American Chemical Society conferences, the
50:05
American Association for advancement of science. And in those conferences,
50:11
it seems like all the prostitutes of the whole town converge on the hotels where these conferences are. And I have looked around, and I see
50:22
scientists that I respect, going up or down in the elevator with prostitutes.
50:30
And I lose respect for them. And what appears to be bragging is that I can make a statement here in a KHUTBA in front of you, in a prayer
50:39
that I never never fell for prostitutes, for prostitutes, or dealt with a prostitute,
50:46
because it is not on my mind. And Jimmy Swaggart cannot make that statement, or Jim Baker cannot make that statement. Because they
lacked... they are using
50:57
the wrong techniques. Because of their idolization of Jesus, they they nullify their work. If they do anything that may cause growth or
51:07
development of their soul, it is nullified as the Quran says because of their idolatry. Therefore, their body is stronger than their souls.
51:15
But like with alcohols and drugs, it's just not on my mind. Now to make that statement absolutely truth, in saying, dealt with
51:25
prostitutes, there was one instance where a friend of mine, a colleague, we went into his room in the hotel in one of the American Chemical
Society meetings
51:34
to get a book or something. And there was a prostitute passing out in the hall and he called her in his room and I guess he was bragging or
showing off or something,
51:42
and bargained with her and I was there witnessing this. This is the extent of my dealing with prostitutes. So, Islam and the Quran,
51:54
just solves all these problems, and lays down the laws and regulations,
52:04
and not only teaches self discipline, but it instills it on you and becomes
52:09
easy. I mean, there's... it's no problem at all.
52:20
God says that you can speak up of God's blessings on you.
52:27
And this is the category where we can share with each other these things, because some people may think it is incredible,
52:35
when you go in those conferences and if you make a statement like this to the people, it's an incredible statement.
52:45
And I just... I just couldn't think of a man who under those circumstances did not, for after the
52:51
things I have seen, under those circumstances did not fall for prostitutes. The temptation is great.
53:00
But for the Muslim, there is no temptation at all. It is zero, doesn't mean a thing.
53:07
Aqem Al-Salah. ALLAH-O AKBAR, ALLAH-O AKBAR, LA ILLAHA ILLA ALLAH.
53:13
When you talk about marriage in Islam, you cannot avoid mentioning polygamy and polygamy is allowed. Throughout history, it was
53:24
allowed. In the Bible, it is allowed without limits. In the Quran, it is allowed with many many conditions and strings
53:32
attached to it. But all I can...I need to say is that the prophet Muhammad
53:38

provided the perfect example, as far as polygamy is concerned. Muhammad was
53:43
married to one wife for 25 years until she died. He had only one wife and
53:48
he raised all his children with that one wife.
53:55
And after she died, he married women who had many children, who had no support, and
54:01
no home. They were widows of his friends who died in battle or died naturally, and they needed the support. They were old
54:10
women. There were only two political marriages; to the daughter of Abu Bakr and the daughter of Omar, his best friends who
54:21
insisted, you know, "please you have to marry my daughter." Because this is a tribal...it's a tribal
54:28
tradition. In tribal societies, for different tribes to marry and be connected in marriages important and
54:34
this is probably why after the prophet's death, Abu Bakr was elected to be the Khalifa after the prophet, and Omar followed Abu Bakr. And
these are the two
54:44
men whose daughters were married to the prophet. But the message, the loud message
54:49
here is that Muhammad spent his life, all his young life with one wife and
54:55
raised his children and then after that polygamy came into the picture and there were many special conditions surrounding that. The other
subject that I need to
55:07
talk about is divorce and I just have to tell you out right that God hates divorce,
55:14
throughout the Quran. Almost invariably children are victimized, even the husband and the wife
55:23
are victims in divorce, and this is why it is imperative that we follow these
55:29
regulations that God prescribed for us, and avoid divorce at any cause. There's a
55:36
verse in Quran that says "if you want to substitute a wife in place of another wife..."
55:43
No, this is not the verse, but there's a verse that says "if you dislike your present
55:49
wife, you may dislike something where in God has put a lot of good."
55:56
The verse that I was mentioning before is "if you want to substitute one wife in place of another," which again actually emphasizes
monogamy,
56:06
it says "do not take anything from the first wife back," and this also brings in
56:12
the matter of security for the wife. Because women have been abused throughout history and God knows that. And God says in SURA 28
verse 5 that
56:22
He is for the oppressed and for the rights of the weak. And marriage is a tremendous
56:27
contract, is a formidable contract. This is what the Quran calls it.
56:33
To take a wife out of her house and take her
56:38
into your house, supposedly to live forever. You know there's tremendous responsibilities associated with that.
56:48
So, we pray to God to guide us on His path and to gift... give us the gift of following His commandments.

2:33
We praise God, and we bear witness that there is no god except the one God.
2:40
And we declare that all devotion and all worship is directed to God alone.
2:46
SURA 39 devotion and worship belong to God alone.
2:56
Some of you probably saw this bombshell where there is announcement
3:14
that I have been commissioned a messenger of God.
3:20
And this is probably the most difficult announcement that I have ever come up with.
3:30
But something that I have known since 1980. And you can see that I was, I was coward.
3:43
I was afraid to come up with it. I dreaded the time when I may have to announce it.
3:50
Because there is a general tendency to resent anybody saying - I am going to use a wrong statement now,
4:00
but this is what the resentment is for. Generally, people resent somebody saying "I'm better than you"
4:08
or what appears to be saying "I am better than you."
4:14
And even the Quran condemns such a statement, in SURA 4, God says "note those who exalt themselves.
4:29
God is the one who exalts whomever He wills without the least injustice."
4:36
The resentment in this case results from two things: ignorance and idol-worship.
4:48
Ignorance, because the Quran teaches us that a messenger of God
4:55
is not necessarily better than anyone else in the congregation.
5:01
In SURA 18, from verses 60 to verse 82, we see that God picked out one of the biggest messengers,
5:12
Moses, one that God said "I made you for myself." (20:41) وَأَصْطَفَيْنَاكَ لِنُقْسِي "I made you for Me."
5:22
And in other place, God said (20:39) لِيُضْئَعَ عَلَى عَيْنِي "I had you made before My eyes."
5:30
And we see in those verses that God sent Moses to "one of our servants, whom we bestowed,
5:39
we gave mercy and knowledge." And Moses proved to be a lousy student.
5:45
So, this teaches us that a messenger of God is not necessarily better than
5:51
anyone else in the congregation.
5:56
I can think of quite a few of you whom I consider better than me.
6:04
I see people, when I was their age, I used to go to the Saints and ask for help.
6:11
I was an idol worshiper, when I was that age. Yet here they are, a lot younger. They have 20-year head start, compared to me. And so
6:23
This is the first thing. Ignorance causes this resentment. Idol worship because the people idolize the messenger of God and they made him
next to God.

6:36
They made him a god besides God. So, when you mention the word "messenger of God", they are awed, you know.

6:44
But the truth is, a messenger of God is - the Quran repeats "a human being like you."

6:50
or in colloquial, local terms a flopper like the rest of us whom we can kid around and who can be silly.

7:02
What is more the Quran teaches that a messenger of God... if a person is picked out as a messenger of God, a commissioned messenger of God...there are kinds of messengers

7:15
does not even guarantee Heaven. And we see this in SURAH 39 verse 65

7:23
where it says "it has been revealed to you and to those before you that if you ever fall in idolatry,

7:31
all you work will be nullified and you will be among the losers.

7:37
So, a messenger of God does not even guarantee heaven. And this is why we see in SURA 21, verse 28 that the messengers are worried about their own neck.

7:49
We are all familiar with these verses. But the people who have either ignorance or idolatry in them,

7:57
they resent an announcement like this.

8:09
If a person is picked as a messenger of God, it's a difficult job. It's a very difficult job.

8:16
There is no material gain out of it. I certainly will not allow a single penny to enter my personal pocket because of this or because of religious reasons.

8:29
I'm not a professional religionist and I will not allow a penny to enter my pocket from religious activities

8:37
Because then the motive changes. And the Quran repeats "stay with those who do not ask you for wages."

8:50
The Quran says in SURA 49... Quran gives us the criteria of who is better than whom.

8:57
And in says in Arabic (49:13) إِنَّ أَكْرَمَكُمْ عِنْدَ اللَّهِ أَتْقَاهُ The best among you is the most righteous.

9:03
It didn't say the best among you is the messenger of God, or the richest, or the tallest,

9:10
or the most knowledgeable. "The best among you is the most righteous."

9:18
So, all these things will teach us that messenger of God is no big deal.

9:24
It is just a vehicle that God uses to communicate with us.

9:31
A center of information. And with it goes a difficult job, a very difficult job, the abuse, the slandering, the threats.

9:47
And God says....I believe it's in 42:51. Yes. In SURA 42, verse 51, God says that

10:01
"No human being can communicate with God, except through three ways:

10:07
inspiration, or from behind a barrier, or through a messenger"

10:13
that through whom God spreads certain information. So, people will know this is reliable information, that this is from God.

10:22
We are people who follow the Quran, the whole Quran and nothing but the Quran. Therefore, anybody, and this means anybody, who brings any information must conform to the Quran.

10:33
The whole Quran, nothing but the Quran. And if anyone, and underline anyone,

10:39
comes up with any information that is not confirmed by the Quran, we tell him "forget it!"

10:46
We don't accept it. So, the criterion is preaching, confirming existing scripture, the Quran and nothing else.

11:00
No innovations. Now, we come to the question: is it possible that we receive a messenger from God?

11:12
If you ask an average Muhammadan, they will tell you Muhammad was the last messenger.

11:19
But they have no basis, for saying this. And the Quran gives us a precedent since Joseph, the prophet Joseph.

11:29
When he died, the Quran teaches us that the people said "okay, that was the last messenger, we'll never see another messenger after that.

11:36

So, this is a human tendency. And the Muhammdans claim that Muhammad was the last messenger. He's not.

11:43

In SURA 33, verse 40, God says "Muhammad was not the father of any of your men. He was a messenger

11:52

of God and the final prophet." So, here we see a distinction between prophet and messenger.

12:00

A prophet is one who delivers a scripture, like Jesus, Moses, Muhammad. They are prophets.

12:07

And we this clearly in SURA 3, verse 81, where God says that He made a covenant with the prophets

12:14

that He will give them the scripture and wisdom." So, here we have the definition of a prophet.

12:21

Then, God made a covenant with us, with you and me, with every human being. He said "then,

12:27

when a messenger comes to you, confirming existing scripture.

12:33

So, there's the definition of a messenger. "When a messenger comes to you confirming

12:38

existing scripture, you shall believe in him and support him."

12:43

God said "do you make a pledge with me?" And we all said "yes, we do."

12:49

And God said "you have thus borne witness and I bear witness along with you."

12:59

Therefore, it is possible that there will be messengers after Muhammad. In SURA 7, verse 35, it says "o children of Adam, when messengers come to you, reciting

13:12

My revelations to you, those of you who believe are the successful ones." This is SURA 7, verse 35.

13:22

Obviously, it is for people after the Quran. As a matter of fact, the verse begins by saying "o children of Adam."

13:29

So, as long as there are children of Adam on this Earth, this verse is valid.

13:38

If messengers are coming after Muhammad, what do they look like? What will a messenger look like after Muhammad?

13:46

Just think of any human being. What are his characteristics? You think he'll be walking on water or walking on the air or coming with 3 angels on each side or something.

13:55

He's just one of us, just a human being.

14:01

Some people came. I wanna answer the question why, why send a messenger?

14:10

Why does God send a messenger? Why not just go the same way that people have been going? Reading the Quran, following the Quran.

14:23

Well, one important element is the test. Because of this covenant that we made with God.

14:30

What are you going to do if a messenger of God comes and says "worship God alone,

14:37

and forget about the human beings; Muhammad, Jesus, Moses or anybody.

14:43

You must devote yourself totally to God alone."

14:48

One who will preach the Quran, God's proven scripture.

14:53

What are you going to do? Are you gonna scoff at him? Are you gonna help him, morally?

15:00

Are you gonna rally around him? What are you going to do? A test.

15:06

Another test is the test of ego. The Quran repeats they said "Oh, he just wants to be better than we are. He wants to be a leader."

15:16

And this is emphasized throughout the Quran.

15:22

You're gonna find some verses in here. And there is in SURA 17, verse 94, it says "what

15:30

prevented many people from believing was that they said "you mean God sent a human being

15:36

to be a messenger?" And in SURA 64, verses 5 & 6, I'm gonna read them for you.

15:52

"Did you not receive the news of those who disbelieved in the past?

15:58

They suffered the consequences of their decision and deserved painful retribution. Why?

16:04
This is because their messengers went to them with clear revelations, but they said "human beings
16:11
to guide us?" Thus, they disbelieved and turned away. God does not need them.
16:20
So, it's a tremendous test to accept somebody who says he is a messenger of God.
16:31
There's an ego here. We're required to kill the ego. And this applies to all of us. One of the requirements in the Quran.
16:40
The egotistic person will resent anything like this and will be deprived.
16:47
And God says in the Quran "I will divert from my revelations those who are arrogant."
16:53
(7:146) سَأَصْرِفُ عَنْ آيَاتِيَ الَّذِينَ يَتَكَبَّرُونَ فِي الْأَرْضِ I will send them away. God will actively send them away.
17:00
So, this is something we have to kill, the ego.
17:08
So, many people came and said they were messengers of God. Bahá'u'lláh was one of them. And Ghulam Ahmad of Pakistan said he was a messenger of God.
17:19
And Joseph Smith, the Mormon leader, said he was a messenger of God.
17:25
But God made it mandatory that a messenger comes with proof, certain signs.
17:36
Moses brought all kinds of proofs. Saleh brought proofs. Jesus came with signs that he is authorized and sent by God.
17:49
And on that difficult day, a few days ago, when... I'm going to give you all details.
17:57
I'm not gonna be mysterious and say I was told this and that and leave it hanging.
18:05
I'm going to give you... everything's is gonna be wide open in front of you and I will tell you exactly what happened
18:10
in time if the time doesn't help us now. But this reminds me of the fellow... you've heard this... I told some of you at least this before... but this fellow was the most curious person in town
18:27
and he would just ask questions. He'd always ask questions. And one time, he was sitting in the bar or the pub or whatever the place is
18:37
and then comes in this man with one leg and he sits next to him and this very curious person... of course, he's curious, you know... "how did you lose your leg?"
18:49
He wants to know. And the man with one leg knows that he is the most curious person in town.
18:56
He would just die to know, how did this fellow lose his leg? So, he told... the man with the one leg told him, the curious fellow.... told the curious fellow. "I will tell you on one condition."
19:12
And he said "anything... anything... just tell me... anything.... just tell me what to do and I will do it. Just tell me... anything."
19:18
He said "you ask only one question and you don't ask any questions after that." He said "OK. OK. I do it. Just tell me. How did you lose your leg?"
19:26
He said "it was bitten." So, I'm sure that curious guy died on the spot because he couldn't ask any more questions.
19:35
So I'm not going to be mysterious with you, I'm gonna tell you everything gradually.
19:41
But on that difficult day, when I realized that I must announce. I mean, I chickened out for 8 years, now.
19:56
I needed some signs and I was shown. I had some signs but I was shown a couple of additional signs on that day.
20:07
Now, I will share with you some of the signs that will assure all of us.
20:16
Now, the first sign, of course, is the mathematical miracle of the Quran which is very simple and people should have seen it in the last 1400 years.
20:27
Literally, thousands of scholars looked in the Quran and counted all its words, its letters, its vowels - those signs, little signs. They counted everything in the Quran.
20:38
But they never came up with the mathematical composition of the Quran.
20:44
BISMI ALLAH, 19 letters. The number of SURAs 19 times 6. The first revelation, 19 words. The last revelation, 19 words.
20:51
All these are simple things that they should have discovered. But God reserved this for a person called Rashad, as we see

21:00
in the index of the Quran page 320 which was printed one year before I was born,

21:11
that index. It's a comprehensive index. And on page 320, you'll see that the root word RASHADA is mentioned 19 times.

21:21
And this is something that came to us from Turkey. I didn't discover it. It was discovered and sent to us,

21:26
as most of you know. Now, the additional things... Now, I want to give you a piece of new information that shows you the awesome miracle of the Quran that was reserved until this time.

21:45
The word God, ALLAH, in the Quran is mentioned 2698 time. When you take every verse in the Quran, where you see the word ALLAH.... every verse... from verse 1 of SURA 1

21:57
and you add the numbers of verses, the total is 118123. These are the numbers of verses wherever you see the word God in here. It's awesome.

22:14
Because not a single verse was transplanted from its place. Not a single verse was changed.

22:23
And not a single word, ALLAH, was dropped out or added in the Quran. So, this is an awesome miracle that did not... was reserved for... God knew in advance

22:36
who is going to be fortunate enough or blessed with releasing this information.

22:45
Now, if you add all the verses in the SURAHs of the 19 RASHADA and the last name... the last name is also involved there. This is very embarrassing to me but I have to tell you this and share it with you.

22:59
But Khalifa is mentioned in the Quran twice. When you add all the SURAs and verses, the total is 1369 which is 19 times 77.

23:14
You add all the SURAs and verses where RASHADA and Khalifa are mentioned. Well, I was not content with that. I'm greedy.

23:22
I wanted specific Rashad Khalifa. Specific, Rashad Khalifa. And sure enough, you look up the.... Rashad is mentioned twice... Rashad. This is the way my name is written down.

23:33
It is mentioned in Quran twice in SURA 40 verse 29 and verse 38. The Khalifa... they are twice in the Quran. One of them is a bad one and the other's a good one.

23:45
The bad Khalifa is Satan which is in SURA 2. And the human Khalifa which is specifically mentioned in Quran in reference to David, the prophet,

23:57
one of our favourite prophets, the Psalms. And this Khalifa is mentioned in SURA 38 verse 26. So, if you add the SURAs and verses connect it with Rashad and the human Khalifa

24:14
the total is 171. 19 times 9. So, in other words, you look at every angle and you can see that the signs are connected with the mathematical code.

24:31
Now, I will explain to you in detail at another time when we have time, but this is the religion

24:38
of IBRAHIM, as we see in the last verse of SURA 22.

24:44
(22:78) مِلَّةَ أَبِيكُمْ إِبْرَاهِيمَ This is the religion of your father Abraham. He is the one who named you Muslims before.

24:50
Muhammad brought the Quran. And yours truly was blessed with bringing the proof.

24:57
I was blessed with the proof of the Quran, and the secrets of the Quran.

25:03
When you add Ibrahim, Muhammad and Rashad... The gematrical values of the 3 names.... This is all detailed here...

25:11
The total is 855 which is 19x45. And 45 happens to be my age in 1980 when I was told for the first time...

25:21
And again I will.... I promise you I'll explain to you how, But 45, in 1980, which is also 1400, exactly 14 centuries after Muhammad, who was told in the Quran

25:36
that he will have 7 pairs, 14 centuries, among other meanings of the 7 pairs.

25:43
So, it is very tight evidence and it suits the age of... computer age.

25:53
Now, the secrets of the Quran....the Quran... I mentioned this because it explains to you the revolutionary ideas that I used to come up with once in a while

26:06
or the crazy ideas, if you wanna call them that, like the end of the world. It is very clear in the Quran, but it was not shown before. It's a secret in the Quran.

26:17
God knew when the end of the world will be and He put it in His final message.
26:22
And we are the generation that was destined to know, to get this secret out of the Quran.
26:30
And like the idea that drove a lot of people crazy, that anybody who dies before the age of 40
26:36
goes to heaven. "How can they go to Heaven when they are 35 and they are awful bad? "Put them in Hell."
26:43
We are mean. Human beings are mean. There was so much opposition to that idea, it's not even funny.
26:50
And it is not coincidental that Latifah hands... Carole... Caroline hands Otis a button, this button here.
27:02
Today, was it? Did she give it to you today? ...yesterday? Yesterday. And he comes to me 5 minutes before, before the KHUTBAH to give me this button
27:11
which says Everything up to the age of 40 is just rehearsal.
27:17
Now, I thought she made the button, but she didn't.
27:23
Where did you get it? Carole: I don't know. I was in a shop but I don't know what shop I was in.
27:33
The messenger: Oh... Oh...but you picked it up in a shop. You were shopping and you saw that. Carole: Yeah, and I saw it and I said Alhamdulillah.
27:38
The messenger: OK. So, it's not coincidence, you know. God spreads His information in many different ways,
27:45
ways and means. Another... other secrets of the Quran that we've been enjoying in the last 10 years... Oh, the ZAKAT. Now, this is new.
27:58
And I'm gonna tell you about it now and you will have to do it, as of now, immediately. The ZAKAT... The ZAKAT is being done wrong all over the Muslim world.
28:10
Now, here is the true ZAKAT from the Quran
28:15
in SURA 6 verse 141. Yes, it is 6:141.
28:26
You remember... You're gonna remember this verse because it says when you harvest the crop, give the ZAKAT on the day of harvest.
28:34
You remember that? "On the day of harvest." OK. Well, we are not farmers. We don't harvest wheat and barley or anything.
28:43
But we harvest paychecks every two weeks or so. That's our harvest.
28:52
The day you receive your harvest, the day you receive your paycheck, you take out 2.5% and you give it to people that you know who are in need.
29:05
It makes so much sense... I mean, how come we didn't think of this, you know, all the time? That makes so much sense and it is from the Quran and it will correct the method of ZAKAT
29:17
that is dominant in the Muslim world. Because the people that we know who need help, they need it now. They are hungry now.
29:26
They can't wait for a year, like they told us in the past.
29:33
You get 10 dollars, you take out 25 cents. 2.5%. Is it 25 cent? Yeah.
29:42
Now, if it is impractical to give 25 cents to somebody you know, you can keep it and accumulate it for a couple of weeks or a month, until it is a reasonable amount. Then you give it
29:52
that month. Don't go beyond a month. You give it to somebody you know personally, according to the system of the Quran,
30:01
your parents first, your relatives next, the orphans and the people who need it, in that order.
30:07
Any money, any net income that you get, you take 2.5% because God says. Chances are this 2.5% that you have in your check are illegitimate, illicit.
30:20
Get rid of it. It is called purifying your money. You spend most of your time sleeping on the job or something.
30:33
Yet, you get the check, you know. So, God says this is way you purify your income.
30:41
Take it out immediately. Also, who's gonna keep track of one year?
30:53
So, God has His ways. This is one of the secrets of the Quran. We reap these benefits.

31:00
Among the secrets of Quran that we've enjoyed in the last 10 years are the correct method of the SALAT prayer.

31:12
I wanna... We're running out of time. So, TUBU ILLA ALLAH, repent.

31:26
ALHAMDULLILAH WA ASHHADU AN LA ILLAHA WAHDAHU LA SHARIKA LAH We devote our worship and our devotion to God Alone. No human beings.

31:36
There's a SURA in Quran that says when God's victory comes and support and you see the people entering God's religion, God's true religion

31:48
in throngs, in great numbers. And this is what is happening now. This SURA is 19 words, consists of 19 words and the first verse is 19 letters.

31:59
This is our SURA. And this is... and so far, this bombshell... the reaction has been positive.

32:07
People have been calling me from everywhere in the world saying "I'm calling to say I believe."

32:12
And when that difficult day came and I was a coward and I was saying this thing here may cause my own children to disown me. They may say "you're a crazy man. Get out of here."

32:30
And, as I will tell you in detail. I cried. I fell prostrate. I was fired. I was fired.

32:38
And I cried. I fell prostrate and I begged. And when, in my heart, I became solid and I said

32:44
"I will do it a any cost. Even if I lose my own children, my own friends, I will do it."

32:50
Then, I was restored, as I will give the details. I give you. But the reason I'm mentioning this SURA, the victory, is that... I went

33:04
I mean, there's unanimous, unanimous positive reaction to it from everybody... people here who read it and I went... I was very careful talking to Beth

33:16
as we were... 3 o'clock in the morning and I told her "guess what, Beth?"

33:25
I have to this and this and this and I was very careful diplomatic. And then she's casually drinking her tea and she says "I knew that all along, dad. I support all the way."

33:37
أَعُوذُ بِاللَّهِ مِنَ الشَّيْطَانِ الرَّجِيمِ

33:45
بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

33:53
يسن (36:2) وَالْقُرْآنِ الْحَكِيمِ (36:1)

34:03
إِنَّكَ لَمِنَ الْمُرْسَلِينَ (36:4) عَلَى صِرَاطٍ مُسْتَقِيمٍ (36:3)

34:12
تَنْزِيلِ الْغَزِيرِ الرَّجِيمِ (36:5)

34:18
لِيُنذِرَ قَوْمًا مَّا أُنذِرَ ءَابَاؤُهُمْ فَهُمْ غَافِلُونَ (36:6)

34:30
لَقَدْ حَقَّ الْقَوْلُ عَلَى أَكْثَرِهِمْ فَهُمْ لَا يُؤْمِنُونَ (36:7)

34:41
إِنَّا جَعَلْنَا فِيْ أَعْنَاقِهِمْ أَغْلَالًا فَهِيَ إِلَى الْأَذْقَانِ فَهُمْ مُّقْمَحُونَ (36:8)

34:57
وَجَعَلْنَا مِنْ بَيْنِ أَيْدِيهِمْ سَدًّا وَمِنْ خَلْفِهِمْ سَدًّا فَأَغْشَيْنَاهُمْ فَهُمْ لَا يُبْصِرُونَ (36:9)

35:16
وَسَوَاءٌ عَلَيْهِمْ ءَأَنذَرْتَهُمْ أَمْ لَمْ تُنذِرْهُمْ لَا يُؤْمِنُونَ (36:10)

35:31
إِنَّمَا تُنذِرُ مَنِ اتَّبَعَ الذِّكْرَ وَخِشِيَ الرَّحْمَنَ الْعَلِيمَ ۖ فَبَشِّرْهُ (36:11) بِمَغْفِرَةٍ وَأَجْرٍ كَرِيمٍ (36:12)

35:50
إِنَّا نَحْنُ نُحْيِي الْمَوْتَى وَنَكْتُبُ مَا قَدَّمُوا وَءَاتَرَهُمْ ۚ وَكَلَّمَ شَيْءٌ (36:12) أَخَصَيْنَاهُ فِي إِمَامٍ مُّبِينٍ (36:11)

36:11
But that night, in April, I opened Quran as usual and read the place where usually... the top right. And it said "you're going to hell."

36:30
So, I closed it again and said this is Satan telling me, trying to fighting me with giving me bad time. So, I said

36:37
أَعُوذُ بِاللَّهِ مِنَ الشَّيْطَانِ الرَّجِيمِ And please God protect me from Satan. I seek refuge in You. And I said it in many different ways

36:47
and then I opened it again at random as usual and it said "you're fired. You will not do the job. You're a chicken. You're not suitable. And you are going to hell."

37:00
So, I sought refuge in God again from Satan, from the devil in stronger terms for a longer time. I made SUJUD

37:08

Then, I opened the Quran again at random. It said "you're fired. You're going to hell. You're doomed. You're not gonna do it. We'll find somebody else to do the job."

37:16

So, I closed it again. It is now defying statistics or coincidence.

37:23

So, I turned to God very hard and I said "please, God, let me know if this is coincidence or why is it giving me these bad ideas."

37:33

So, I opened and I kept doing this and repeatedly every time, I opened. It said "you're fired. You're no good. You're going to hell. You're doomed."

37:43

And it was getting worse. Until I reached the conviction, a real conviction in my heart, that I'm doomed. I'm going to hell.

37:52

Then, I started to cry. And I started to repent. And I opened it and as if the Quran had nothing in it except "you're fired. You're going to hell.

38:07

You're not gonna do the work. We'll substitute somebody in your place." So, I said this Quran is rigged. Maybe, because I'm using it a lot.

38:16

So, I got this one which was brand new. And I opened it. It said "you're fired. You're going to hell. You cannot do the job. You're a chicken. We'll substitute somebody in your place."

38:27

So, I closed it again and I opened another place. The Quran had nothing in it except... I got the English Quran and I opened it.

38:36

I looked in a neutral spot and it. "You're fired. You'll not do the job. You're going to Hell."

38:42

So, it is no longer coincidence. I got this big book, this big Quran, here.

38:49

And I opened it this way. I mean, I did all kinds of crazy things to let the Quran open at random and go like this.

38:57

And then I opened the Quran and looked in it. And it say "you're going to hell. You're doomed. You cannot do the job. You're fired."

39:06

So, with this, I got... Oh, I got a letter opener and I stacked the Qurans

39:15

like this and I point. I closed my eyes and pointed the letter opener

39:20

and inserted it in one of these pages and opened it and it tell me the same thing. There was nothing in the Quran that morning except "you're fired. You cannot do the job. Get out of here. You're doomed. I don't need you anymore. I substitute somebody else in your place."

39:38

So, I cried and I made SUJUD. And I repented. I sought refuge from Satan and it kept giving me the same message.

39:48

So, I became convinced that God is speaking to me through the Quran and I became convinced that I'm no good,

39:56

that I'm fired, that I'm going to hell. And I cried as hard as I never did in my life.

40:02

I really became convinced that I'm finished and I'm doomed and there is no salvation inside.

40:10

I... my SUJUD became longer, my crying was harder. There was nobody in the mosque.

40:18

And then one time, I opened the Quran and it said "We forgive you." Oh, I reached the conviction with all this crying that...

40:28

now, the message was very clear that I am not coming out with an announcement that I am God's messenger.

40:42

I have known it since 1980 and I ignored messages that say... there are verses in Quran that say "say O, people I'm God's messenger to all of you."

40:53

And I ignored those. They were very loud and very clear and I ignored them. Obviously, the timing was not right, then. I mean, now in retrospect

41:01

I was supposed to have ignored those messages. They got loud and repeated and louder and clearer and I kept ignoring them until this happened. So, there is something that led to this.

41:15

I mean, I opened the Quran says "say O, people I'm God's messenger for all of you."

41:22

And I became convinced that this is no longer the case. Then, with these repetitions, I reached the decision... in my repentance,

41:35

I said "please God accept my repentance. Take me back even if I lose my own children, my friends, if I lose everybody, I will, I will do anything. I will go out and I will make the announcement."

41:48

And I really had that conviction cause I said chances are my children will tell me "get out of here. You're a crazy man. What are you talking about?"

41:58

So, it became my neck. And there are verses in Quran where it says "the person disowns his own parents, his own children. The children disown their parents" and so on. It became a reality for me.

42:11
And here I am doomed, going to hell. And all things are hinging on courage. God doesn't want a coward to work for Him.

42:24
It became very obvious. So, when I really reached the conviction that I will do it at any expense, I got this message that said "you're forgiven. We'll accept your repentance."

42:37
And my crying of sadness became crying of joy.

42:43
And I still didn't believe that remark. Maybe, it's a fluke. So, I did the same thing and there was nothing in the Quran except "We accept your repentance. You're forgiven. Go now and do the job. God is Forgiver, Merciful."

42:58
And I did it in the same way. I mean, this defied all statistic and all coincidence.

43:08
The background to this...

43:13
This is why I'm not... people who around me know that I'm not making any bones about it. I'm not being humble about it and I could not take any chances.

43:23
And I believe if it happens again, I will be really fired and be sent to Hell. And I'm not gonna do it. So, this is why I have been bold.

43:33
And it really has nothing to do with humbleness or modesty. If we understand a few basic things in the Quran. One thing is that a messenger is no big deal.

43:45
That it is a big deal only if we idolize the messengers. We get the picture in our mind...

43:53
...and this is the typical response with all the believers. The people who were averse from the beginning, they just continued to be averse or maybe a little bit worse.

44:07
Except their harsh attacks had a little bit of reverence in, as if in the background, it said "what if he is?"

44:18
I get this telephone calls on the machine and in the past, they used to call me bad names and all that but

44:26
now they say... they read Quran. And they read the verses that says "fear God."

44:34
And then they add "come back to Islam." This kind of thing. But you can sense the kind of respect they have at the back of their mind.

44:44
This is the difference that happened with the opponents. And this is because of their reverence for RASOOL ALLAH. This word, they made it so big and put it next to God.

44:57
And this is why it's a big deal for them. But if we understand the Quran, we'll find out that it is not a big deal

45:04
because the Quran teaches us that a messenger is not necessarily better

45:10
than anyone in the world, in his generation, or anyone around him.

45:16
We have this lesson in SURA 18, where Moses, one of the big messengers of God,

45:24
met someone who's described as one of God's servants "one of our servants." God says.

45:32
And this one of God's servants began teaching Moses a few lessons and Moses turned out to be a lousy student.

45:43
So, this is teaching us that the messenger, the biggest ones, are not any better than anyone around them. I mean, not necessarily better than people around them.

45:54
The Quran teaches that say "I'm a human being like you." And this is about the prophet Muhammad, for example.

46:04
The Quran teaches that the criterion for closeness to God is righteousness, not being a messenger or not being the most knowledgeable or the richest or the tallest

46:17
or anything else. Righteousness. Nothing else. So, and anyone can be more righteous than the messenger or anybody else.

46:28
There is also a verse in SURA 39 that says that "being a messenger of God does not even guarantee Heaven." It is no guarantee.

46:37
It says. I'm quoting the Quran, now. It says "that's what We revealed to you and to those before you that if you ever fall in idol worship, in idolatry, all your work will be nullified and you'll be a loser."

46:54
So, if people understand this, they won't make a big deal out of being a messenger of God. I called Atef and I told him about this.

47:05
and he... logically, he started to discuss the wisdom of making an announcement like this and why is it necessary.

47:15

And I found myself him and I talking as if I sat down and decided to make an announcement. Then, it dawned on me it's not really my decision. It was not my decision at all.

47:27

Obviously, God wants this announcement to be made for reasons that only God knows.

47:32

And we can speculate on. The first verse in SURA 67 says "God created death and life to test us, to test the people."

47:46

Cause before that there was no death. Before the human race came here, there was no death. This is why God says He created death.

47:55

mentioned death before life. The whole purpose is a test. And it turns out and we know now that the road to God is full of traps on the side for people to fall off. They drop out.

48:11

And when you hear somebody say "I'm a messenger of God." Some people drop out. And it's part of the sifting process. There are so many traps along the road.

48:23

And the matter is decided, really, from the very beginning. I mean, a person who has doubts, who is not a sincere believer will fall off at one of these traps along the road.

48:35

The firm believer will keep going, no matter what happens. Because what we're saying is "worship God Alone." We are saying "destroy all idols."

48:47

And we are fanatically against building idols.

48:59

This reminds me of... I don't know if it's a good joke. I mean, there's nothing bad about the language but...

49:08

The Muhammadans insist on putting Muhammad's name next to God and say لا إله إلا الله محمد رسول الله

49:14

In the AZAN they say لا إله إلا الله محمد رسول الله So, I'm tempted to ask them how do you like if we follow your method and, you know, we say

49:21

لا إله إلا الله That's it. There is no god except the One God. لا إله إلا الله This is like the Quran says.

49:29

Verse 18 of SURA 3, God says لا إله إلا هو God bears witness

49:35

that there is no god except Him." In other words, God's SHAHADA is لا إله إلا الله

49:42

And then the verse goes on and says وَأُولُوا الْعِلْمِ also the Angels وَالْمَلَكُوتِ and those who possess knowledge.

49:47

This is their shahada. لا إله إلا الله So, it's very clear in the Quran that the SHAHADA is

49:52

لا إله إلا الله They insist because of idolatry to add the Muhammad's name which violates a good number of commandments in the Quran.

50:00

When you put Muhammad's name next to God in the so-called SHAHADA, their SHAHADA,

50:07

they are violating a good number of commandments. So, the temptation is, I wanna tell them "how do you like if we say" لا إله إلا الله رشاد رسول الله if we follow your method.

50:16

Now that they picked up this opposition to me... the Muhammadans... and to the point that I'm under death sentence in a good number of countries, now,

50:28

Saudi Arabia is one of them. Iran is another one. So, now that they hate me so much, how would they like to say

50:34

لا إله إلا الله رشاد رسول الله if I give them enough proof and so on. Maybe, this will induce them to just say لا إله إلا الله

50:42

So, we are saying لا إله إلا الله We are, very strongly, staunchly against building any idol. And

50:56

I don't know how to convince them that I don't want any glory or money or fame.

51:02

And for 8 years, I was really... I was a coward. I mean, what did this announcement bring to me? Except, I thought "trouble."

51:13

but it did not, actually. Their action has been positive so far. But I would rather go and worship God Alone by myself somewhere very quietly and just eke out and living out of this world and go into the eternal life.

51:27

This is what I would rather do, personally. This is what I wanted to do for 8 years. This is why I was fired in that night.

51:38

So, I'm sure I forgot quite a few points that I wanted to tell you about.

51:47

The background to this is that I have known since 1980

51:56

that I'm God's messenger in the sense that... not in a general sense... in the sense that Abraham was the original messenger of Islam.

52:06

He brought all the practices. The NAMAZ, the fasting, the ZAKAT Charity, pilgrimage

52:15
and of course the first commandment لا إله إلا الله and Muhammad brought the Quran. And that I am the third of a triangle that I brought the proof...

52:28
the proof of authenticity of the religion. The first publication... we just found out this yesterday... The first time the miracle of Quran was published

52:39
was in January 1973. 1973, I was 38 years old and I didn't know anything except that I found this mathematical miracle in the Quran.

52:51
And the 7th... the January 73 publication in the most popular magazine in the middle east: آخر الساعة

53:03
had to do with the proportion of the initials. Qaf, for example, the letter Q in chapter 50.

53:11
That chapter had the highest proportion of the letter Q. SURA Saad had the highest proportion of the letter Saad. SURA NuN had the highest proportion of SURA NuN. Alef Lam Meemm and so on.

53:21
Every SURA had the highest proportion of its initials except SURA Ya Seen had the least... the exact opposite. And that was the whole article.

53:31
And it didn't have the computer printouts of the whole Quran which I had written in the computer.

53:38
And then in 1973, in November which is exactly my 38th birthday was the first report on the number 19. That was back in 73.

53:50
And... but I didn't know that I am God's messenger in that sense until 1980.

53:59
1980 was correspondent to the year 1400, the Islamic year. And

54:08
it seems like a new era began at that time, 1400. If you look here

54:17
in SURA 47.... SURA 47, verse 38. 38 was very prominent. We were looking at this magazine yesterday

54:28
We became curious... We were looking at it on the other page.

54:35
They had reports in the magazine 38 years ago. They had a big number 38.

54:43
47, the last verse which is 38.

54:50
I wrote in bold letters that if you turn away, God will substitute other people in your place

54:57
and they will not be like you. This is one of the verses, by the way, about substituting somebody in your place.

55:04
But then I wrote this in bold... in big letters and I put a footnote saying here.... at the end of the footnote it says "Islam is being reestablished in the English-speaking world

55:15
after being restored to its pristine purity.

55:20
So, I wrote here, back in 1980, 1400 that God had forsaken the Arabs. The Arabs meaning in the Arabian peninsula.

55:36
There's a certain geographical area where the Arabs are... that defines who the Arabs are.

55:44
And now, it's been 8 years and we didn't have... we don't have a single Arab. Of the hundred million Arabs in the world, we don't have a single Arab who could see and appreciate the miracle of Quran

55:55
even though it's very clear.

56:00
An Arab, from the Arabian peninsula, not from North Africa and not from Egypt.

56:10
Sometimes they call me and say "you're an Arab, aren't you?" I say "No, Thank God. I'm Egyptian." But it's quite a phenomenon that we don't have a single Arab.

56:21
Last Friday, we had like 60 people in the mosque, not a single Arab.

56:28
We had the conference in San Francisco, couple of hundred people, not a single Arab except those who came to harass us.

56:36
So, there's.... something happened in 1980 after 7 pairs of centuries.

56:44
SURA 13... 15 excuse me. SURA 15, verse 87. God is telling Muhammad "I'm giving you 7 pairs."

56:55
Among the other meanings, I'm convinced that it means 7 pairs of centuries because of what I've seen and

57:06
the fact that this verse is at the end of SURA entitled Muhammad.

57:11

So, the background is that I have known since 1980 and I have been evading the responsibility of... Actually, we'll just go, just go along and worship God and spread the message.

57:23

And what we've been doing was... God has been gracious to us in that He's been showing us what the correct Islam is.

57:34

The Muhammadans, throughout the world, the hundred million of them are doing SALAT wrong,

57:40

they mention محمد آل محمد. إبراهيم آل إبراهيم in the SALAT. We know now for sure that this is wrong.

57:47

The Quran came out of Muhammad's mouth. It says "you should never mention any other name during the SALAT

57:56

besides other than the name of God. That the SALAT must be devoted to God Alone and no one else." So, they did the SALAT wrong. They did the ZAKAT wrong.

58:06

They are doing it wrong. And now we have it corrected.

58:11

If we look in SURA 6, verse 141, it tells you "when you harvest the fruits or the crops,

58:20

give the charity, the ZAKAT charity of that crop on the day of harvest."

58:27

Now, the ZAKAT as being practiced now in the Muhammadan world is once a year

58:35

on your savings, above a certain amount.

58:42

But the Quran says "give the ZAKAT on the day of harvest." Now, since we are not farmers, we do not harvest fruits or crops, or anything like that. We harvest paychecks.

58:54

So, when we get the paycheck, we're supposed to take out what came to us from IBRAHIM in very clear words ربع العشر a quarter of ten. One quarter of one ten. This comes to 2.5 percent.

59:07

So, you take 2.5% of your net income when you get it, the day you get it.

59:14

So, I would... I would go... I would say it makes sense that we wait like a month to know what our month seems, we get our paychecks, our monthly income. It's a very common thing.

59:26

And you, at the end of the month, figure out how much was your net income, 2.5 percent and you give it to people you personally know are in need.

59:36

You know them, personally and you know that they need the assistance. And we are given specific order in the Quran as to who we give the money to.

59:45

You give it first to your parents. If they don't need it, you give it to your relatives, cousins, and uncles and aunts and so on.

59:53

People you know, personally who are related to you and they need the money or the help.

1:00:01

After that, the orphans. You find children who lost one or both parents

1:00:07

for some reason, divorce or abandonment or death and you give them this money.

1:00:13

And the fourth category is any poor persons and the last category are traveling aliens

1:00:19

people who sneak into this country from Mexico. They have no jobs. They are hungry. So, you help them. We have a specific order in the Quran.

1:00:28

This is the correct ZAKAT. So, what we did was, we cleaned out the SALAT. We returned it to its pristine purity.

1:00:36

We corrected the ZAKAT. We corrected the fasting. Even the fasting was wrong.

1:00:45

What SURA? What was wrong with it? Well, they sleep all day and stay up all night and use fasting as an excuse to be nasty and...

1:00:57

You know that. They call names and say "I'm fasting." So, "excuse me, I'm fasting."

1:01:08

And the timing of the moon is always wrong. I think they're fasting today, still in Egypt. And even though, tonight you can see the moon.

1:01:15

I'd love to go out, but the computer tells you what time the moon is born,

1:01:22

what time it rises, what time it sets. and whether the clouds or not, whether inside or not, whether you are sighted or blind, you can know exactly

1:01:31

what the moon is doing. But they follow the Hadith that says "you fast when you see it, and you break your fast when you don't see it.

1:01:38

and if you cannot see it, you complete the month of Ramadan, 30 days." So, we fasted 29 days this month.

1:01:45

Audience: "Is it 29 days all the time?" The messenger: No, sometimes 29, sometimes 30.

1:01:52

The Hajj was wrong and we already wrote in the Muslim Perspective to correct... Hajj is wrong by going to Medina.

1:02:02

It turns out that, as it is now done, going to Medina is the most important part of Hajj even though it is not part of Hajj at all in the Quran.

1:02:10

Going to Medina is flagrant idol worship. They go to the prophet's tomb or to Fatimah's tomb and they pray and implore.

1:02:21

"Nothing." I'm quoting the Quran because on the Day of Judgement say "we were worshipping nothing."

1:02:30

So, this is what we've been doing and I was happy that way. So, we were just spreading the message. It has gone all over the world, literally.

1:02:39

This... this translation and the small book, the brown book, Quran, Hadith and Islam

1:02:45

and the message of returning Islam to its pristine purity as far as all the practices are concerned.

1:02:51

These places, I never heard of, little islands in the Indian ocean.

1:02:59

There's an island called "l'union"? Union Island in English? But it's a French... "l'union."

1:03:06

Ihsan lived in Mauritius. That's another country I never heard of, Mauritius. And we have people there in Mauritius.

1:03:15

l'union? l'union? Close? Are they close to Mauritius? It must be.

1:03:23

I went to New Zealand, Australia. I went everywhere and I was happy that way. The message is being spread all over the world.

1:03:31

Exactly what needs to be done. So, why the announcement? That was my justification.

1:03:40

And that's why each one of you asked me "why the announcement? Why is it necessary?"

1:03:46

So, my opinion was the same as yours. But then, I was...

1:03:53

Pardon?

1:04:06

Right. OK. What do they have?

1:04:13

Obviously, God has a reason. The Quran says "you don't ask God why. We ask."

1:04:24

God is not to be asked about anything He does but we are to be asked about anything we do.

1:04:30

لَا يُسْأَلُ عَمَّا يَفْعَلُ وَهُمْ يُسْأَلُونَ (21:23)

1:04:38

So, obviously God has a purpose and very good reasons. Now, the Quran says that Muhammad is not the last messenger.

1:04:50

And this could be one the very important reasons. So, if Muhammad is not the last messenger... The statement in the Quran in 33:40 says

1:05:03

مَا كَانَ مُحَمَّدٌ أَبَا أَحَدٍ مِّن رِّجَالِكُمْ وَلَكِن رَّسُولَ اللَّهِ مُحَمَّدٌ أبا أَحَدٍ مِّن رِّجَالِكُمْ Muhammad was not the father of any of your men وَلَكِن رَّسُولَ اللَّهِ a messenger of God وَخَاتَمَ النَّبِيِّينَ and the final prophet

1:05:15

This expression of وَلَكِن رَّسُولَ اللَّهِ is not necessary at all for the meaning. If the prophet include the messenger or vice versa.

1:05:23

You can have a perfect sentence saying مَا كَانَ مُحَمَّدٌ أَبَا أَحَدٍ مِّن رِّجَالِكُمْ وَلَكِن خَاتَمَ النَّبِيِّينَ

1:05:31

Muhammad was not the father of any of your men but he was the final prophet.

1:05:37

But of course every letter in the Quran is delivered as we know now, very well. It says وَلَكِن رَّسُولَ اللَّهِ a messenger of God وَخَاتَمَ النَّبِيِّينَ and the final prophet

1:05:49

So, there is a verse 35 in SURA 7 says "O, children of Adam when messengers come to you

1:05:57

narrating My revelations to you, those of you who believe and lead a righteous life

1:06:03

are the successful ones." Obviously, this is a verse for the people after Muhammad because it's in the Quran.

1:06:10

And like Dr. Mansour said "for as long as there are children of Adam on Earth, this verse is valid." Because it says "O, children of Adam"

1:06:22

يٰۤاٰدَمُ اِمَّا يٰۤاَتَيْنٰكَم رُّسُلًا مِّنْكُمْ يَفْضِلُوْنَ عَلَيْكُمْ ؕ اٰتَيْنٰۤى (7:35) فَمَنْ اَتٰنِىْ وَاَصْلَحَ فَلَا خَوْفٌ عَلَيْهِمْ وَلَا هُمْ يَحْزَنُوْنَ

1:06:31

35, SURA 7.

1:06:37

So, I mean, what is this verse directed to? Not the people before Muhammad because they've never seen the Quran.

1:06:45

For the people who read the Quran.

1:06:52

The Quran gives us all sorts of example of the human tendency or aversion to the idea of having a messenger of God.

1:07:03

It seems to be a test of ego, a test of ego, you know. This guy is gonna sit here and say "I'm messenger of God." So, he's gonna steal the show. And

1:07:12

he's gonna get all the attention. And it may be one of the tests, you know, for dropping out. This is something I don't wanna contribute to that. But it's not up to me.

1:07:26

So, the Quran illustrates this by using Joseph. Joseph... this is verse... I believe it's verse 34 in SURA 40.

1:07:40

SURA 40, it says "Joseph had come to you with clear revelations, but you doubted his message. Then, when he died you said he was the last messenger."

1:07:52

Now, look who God picks out. Joseph. Who came after Joseph? The big ones. What are the big ones? David, Solomon, Jesus, Moses, Muhammad.

1:08:05

All these came after Joseph even though the people said "he's the last messenger. Nobody else will come after that."

1:08:11

So, they have been saying the same thing about Muhammad that Muhammad is the last messenger.

1:08:20

The world population today is a thousand times what it was at the time of Muhammad. And you've seen how much advancement the human being achieved.

1:08:35

This is an enlightened generation of humans who are very advanced,

1:08:40

computers, and sciences, and technology and video tapes.

1:08:45

And it just makes sense that God wants to send a messenger to this generation.

1:08:57

And I can't make any bones about it. I can't. I'm chickened the other way around now.

1:09:03

I was a chicken in being afraid to announce and now I'm a chicken not to... I'm a chicken to hold back.

1:09:09

Cause I'm afraid if I'm fired again, there will be no restoration.

1:09:15

So, this verse about Joseph tells us that it's a human tendency.

1:09:21

And now the question to turn the table around... the question is why are they averse to this idea?

1:09:27

So, if Muhammad was not the last messenger and somebody is gonna come after Muhammad, messengers after Muhammad. What do they look like?

1:09:35

What are their qualifications? What will they say?

1:09:42

So, if someone comes along and says "worship God Alone.

1:09:50

Uphold the word of God Alone, not the words of men. Clean out all the practices of worship. Destroy all idols. Remove all innovations."

1:10:06

What's wrong with that? I mean, it makes sense that God's messenger will do that, will say that.

1:10:16

Why will I oppose or object to someone who says that?

1:10:31

We'll get along just fine. With any one of us.

1:10:44

This is really the same message from Adam until now. It's one and the same message.

1:10:50

So, I along with you would ask that question, you know. And I put it in the Perspective. They should tell us why shouldn't I be a messenger of God?

1:11:01

I've given them enough proof. I've had lots of, there's a lot of evidence in that.

1:11:08

And it is mathematical. It is physical, tangible.

1:11:14

So, I want them to come up with evidence opposing that that I should not be.

1:11:21

There's one thing that came out. The first thing that came out I'm thinking of some Muslim organization in Oklahoma

1:11:30

and they issued the new magazine. The first issue. I think it was just for that and there was an article in it. said that "my name is not Rashad Khalifa."

1:11:41

my name is not Rashad Khalifa. I mean, I've heard everything now.

1:11:46

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

1:11:54

يس (36:2) وَالْقُرْآنِ الْحَكِيمِ (36:1)

1:12:04

إِنَّكَ لَمِنَ الْمُرْسَلِينَ (36:4) عَلَى صِرَاطٍ مُسْتَقِيمٍ (36:3)

1:12:14

تَنْزِيلِ الْغَزِيرِ الرَّجِيمِ (36:5)

1:12:20

لِيُنذِرَ قَوْمًا مَّا أُنذِرَ ءَابَاؤُهُمْ فَهُمْ غَافِلُونَ (36:6)

1:12:31

لَقَدْ حَقَّ الْقَوْلُ عَلَى أَكْثَرِهِمْ فَهُمْ لَا يُؤْمِنُونَ (36:7)

1:12:43

إِنَّا جَعَلْنَا فِي أَعْيُنِهِمْ أَغْلًا فَلَا يَرَوْنَ إِلَى آلَاءِ مَا هُمْ مُقْتَضُونَ (36:8)

1:12:59

وَجَعَلْنَا مِنْ بَيْنِ أَيْدِيهِمْ سَدًّا وَمِنْ خَلْفِهِمْ سَدًّا فَأَغْشَيْنَاهُمْ فَهُمْ لَا يُبْصِرُونَ (36:9)

1:13:18

وَسَوَاءٌ عَلَيْهِمْ ءَأَنذَرْتَهُمْ أَمْ لَمْ تُنذِرْهُمْ لَا يُؤْمِنُونَ (36:10)

1:13:32

إِنَّمَا تُنذِرُ مَنِ اتَّبَعَ الذِّكْرَ وَخَوَّبَى الرَّحْمَنُ بِالْغَيْبِ فَبَشِّرْهُ (36:11) بِمَغْفِرَةٍ وَأَجْرٍ كَرِيمٍ

1:13:51

إِنَّا نَحْنُ نُحْيِي الْمَوْتَى وَنَكْتُبُ مَا قَدَّمُوا وَءَاتَيْنَاهُمْ ءَاثِمًا شِئْءٌ (36:12) أَخَصَيْنَاهُ فِي إِمَامٍ مُبِينٍ

1:14:11

إِلَىٰ إِذْ أُلْحِيَ ضَلَالُ الْمُبِينِ (36:24)

1:14:39

So, they did the SALAT wrong. They did the ZAKAT wrong. They are doing it wrong.

1:14:45

And now we have it corrected. If we look in SURA 6, verse 141, it tells you "when you harvest the fruits or the crops, give the charity, the ZAKAT charity of that crop on the day of harvest."

1:15:03

Now, the ZAKAT as being practiced now in the Muhammadan world is once a year on your savings, above a certain amount.

1:15:18

But the Quran says "give the ZAKAT on the day of harvest." Now, since we are not farmers, we do not harvest fruits or crops, or anything like that. We harvest paychecks.

1:15:30

So, when we get the paycheck, we're supposed to take out what came to us from IBRAHIM in very clear words ربيع العشر a quarter of ten. One quarter of one ten. This comes to 2.5 percent.

1:15:44

So, you take 2.5% of your net income when you get it, the day you get it. So, I would... I would go...

1:15:54

I would say it makes sense that we wait like a month to know what our month seems, we get our paychecks, our monthly income. It's a very common thing.

1:16:03

And you, at the end of the month, figure out how much was your net income, 2.5 percent and you give it to people you personally know are in need.

1:16:13

You know them, personally, and you know that they need the assistance. And we are given specific order in the Quran as to who we give the money to.

1:16:21

You give it first to your parents. If they don't need it, you give it to relatives, cousins, and uncles and aunts and so on. People you know, personally

1:16:32

who are related to you and they need the money or the help. After that, the orphans. You find children who lost one or both parents

1:16:44

for some reason, divorce or abandonment or death and you give them this money. And the fourth category is any poor persons and the last category are traveling aliens

1:16:56

people who sneak into this country from Mexico. They have no jobs. They are hungry. So, you help them.

1:17:03

We have a specific order in the Quran. This is the correct ZAKAT. So, what we did was, we cleaned out the SALAT. We returned it to its pristine purity.

1:17:13

We corrected the ZAKAT. We corrected the fasting. Even the fasting was wrong.

1:17:21

What SURA? What was wrong with it? Well, they sleep all day and stay up all night and use fasting as an excuse to be nasty and...

1:17:33

You know that. They call names and then say "I am fasting." So, "excuse me, I'm fasting."

1:17:44
And the timing of the moon is always wrong. I think they're fasting today, still in Egypt. And even though, tonight you can see the moon.

1:17:52
I'd love to go out, but the computer tells you what time the moon is born, what time it rises, what time it sets

1:18:02
and whether the clouds or not, whether inside or not, whether you are sighted or blind, you can know exactly what the moon is doing.

1:18:10
But they follow the Hadith that says "you fast when you see it, and you break your fast when you don't see it. and if you cannot see it, you complete the month of Ramadan, 30 days." So, we fasted 29 days this month.

1:18:21
Audience: "Is it 29 days all the time?" The messenger: No, sometimes 29, sometimes 30.

1:18:29
The Hajj was wrong and we already wrote in the Muslim Perspective to correct... Hajj is wrong by going to Medina.

1:18:38
It turns out that, as it is now done, going to Medina is the most important part of Hajj even though it is not part of Hajj at all in the Quran.

1:18:47
Going to Medina is flagrant idol worship. They go to the prophet's tomb or to Fatimah's tomb and they pray and implore.

1:18:58
"Nothing." I'm quoting the Quran because on the Day of Judgement say "we were worshipping nothing."

1:19:07
So, this is what we've been doing and I was happy that way. So, we were just spreading the message. It has gone all over the world, literally.

1:19:15
This... this translation and the small book, the brown book, Quran, Hadith and Islam and the message of returning Islam to its pristine purity as far as all the practices are concerned.

1:19:28
These places, I never heard of...

2:24
Our guest is doctor Rashad Khalifa, who - he devoted most of his life for his own mission,
2:38
reading, learning, writing, researching and also preaching. But he is most remembered
2:55
by his last computer research, the divine mathematical codes in the Quran based on number
3:06
19. According to the Quran, SURA number 74, verse number 30:
3:17
عَلَيْهَا تِسْعَةَ عَشَرَ "over it are nineteen. But why 19?
3:30
That's what doctor Khalifa will explain in this interview. Please, brothers and sisters
3:41
in Islam, welcome with me, doctor Rashad Khalifa. Doctor Khalifa, I know I didn't introduce
3:54
you well enough... Dr. Khalifa: You did very well. Abdel Rahman: ...and I think the best way to introduce you is to introduce yourself.
4:06

with your own words. Dr. Khalifa: You did a good job. This is what really counts.

4:11

I did a research in the Quran, and I was blessed by ALLAH SUBHANAHU WA TA'ALA to see the mathematical

4:20

code in the Quran. And this is really sufficient for an introduction. Abdel Rahman: Well, I think... Dr. Khalifa: You did a good job, so we'll keep it like that. Abdel Rahman: Thank you,

4:28

Abdel Rahman: But I think also we are entitled to know how much benefit this...

4:34

It's great. It's honor actually to have it, but we would like to know how this mathematical

4:45

codes goes and how far it's benefit, and beneficial to the Muslim in his own living life? I mean,

4:54

the Quran is filled with miracles, and there's a lot of ways to approve that the Quran is miracle. If you read it in Arabic, you will see a lot of verses applies to itself

5:06

that the Quran it's miracle and it's the word, really the word of God. But...

5:14

Dr. Khalifa: Well, this is the first physical evidence. The Quran is full of miracles, but all of

5:21

them are disputable, the linguistic excellence, the scientific miracles, and all these things.

5:27

The Quran is full of miracles, but the mathematical miracle is indisputable. It's physical

5:32

based on physical facts. Like BISMILLAH AL-RAHMAN AL-RAHIM being 19 letters, the number of SURAS being 114. All these are physical facts, like the sun rising from the

5:42

east. It is indisputable unlike the previous miracles. So, and this is in accordance with God's

5:49

will in SURA of 41 verse 53, where God says سَتَرِيهِمْ ءَاتِيَنَّا فِي الْغَافِقِ

5:55

This is in the future tense. سَتَرِيهِمْ "We will show them our miracles in the horizons, and within themselves, until they realize that this is the truth." So, the miracles of

6:04

the Quran are increasingly powerful. And then we get to this mathematical miracle which

6:11

is described by God Himself as "one of the greatest miracles." The SURA that you mentioned 74 عَلَيْهَا تِسْعَةَ عَشَرَ the verse 30, and then the verses go on and on, saying

6:23

that this is one of the greatest miracles. It says (74:32) وَالصُّبْحُ إِذَا أَشْفَرُ (74:34) وَاللَّيْلِ إِذَا أَدْبَرَ (74:33) كَلَّا وَالْقَمَرِ

6:29

(74:35) إِنَّهَا لَإِحدى الْكُتُبِ It is one of the greatest miracles, and this is God's own description of it.

6:35

Abdel Rahman: You mean here the miracles, it's the computer age, right? That's what ALLAH SUBHANAHU WA TA'ALA... I noticed...

6:43

Dr. Khalifa: Well, the computer age... Abdel Rahman: I noticed, excuse me for this, I noticed you used God. You didn't use ALLAH

6:49

which the Quran always says is ALLAH, because the Quran came in Arabic. It didn't come

6:54

in English or in Persian. It come. قُرْءَانًا عَرَبِيًّا Dr. Khalifa: Actually, I did say ALLAH SUBHANAHU WA TA'ALA at least one time...

7:01

Abdel Rahman: I noticed you said God... Dr. Khalifa: Well, it depends on what language you speak. If you speak English, you have to say God. If you speak Arabic, you have to ALLAH. So...

7:08

Because as you know, you're from Egypt and you know the Egyptian cops use the word ALLAH. They say IN SHAA ALLAH. They say MA SHA ALLAH. And

7:15

some of them are named ABDULLAH. Abdel Rahman: Yes. Dr. Khalifa: So, ALLAH is the Arabic word and has nothing to do....

7:22

Abdel Rahman: You mean using God, it's already okay? Dr. Khalifa: Of course it is... It depends on what language you use. If you

7:28

meet somebody in the street and say ALLAH here in the United States, some people think

7:35

ALLAH is a man who is named ALLAH, or ALLAH is a rock somewhere. And this is an actual

7:41

happening. My son was in a class where they told that ALLAH is a rock. My son had to

7:47

object. Abdel Rahman: But this we have nothing to do with this because you know there are... Dr. Khalifa: What I mean is, it depends on what language

7:53

you use. If you use English, you have to use God. If you use French, you have to use Dieu. If you use Farsi, you have to use KHODA. If you use Arabic, you have to use ALLAH.

8:02

Abdel Rahman: Let's go back again also to the computer. I would like to know how far it's beneficial

8:09

to the human being. You know, I'm a Muslim and you discovered that the computer age discovered

8:15

that the Quran... you discovered... Dr. Khalifa: You're asking about the role of the mathematical code... Abdel Rahman: Yes, to the Muslims.

8:21

...as it applies to the Muslims and the non-Muslims. This is mentioned in the Quran immediately after the number 19. It says...it gives you 5 reasons for the number 19. It says

8:32

وَمَا جَعَلْنَا عَدَّتْهُمْ that we made their number, for the following reasons: Number 1

8:37

لِيُفْتِنَ الَّذِينَ كَفَرُوا to disturb the disbelievers لِيُفْتِنَ الَّذِينَ كَفَرُوا

8:43

لِيُشَاقِقَ الَّذِينَ أُوتُوا الْكِتَابَ to prove their disbelief. لِيُشَاقِقَ الَّذِينَ أُوتُوا الْكِتَابَ

8:49

This is the number 2 reason is to make the believers among the Christians and the Jews certain that this book, the Quran,

8:58

is from God. وَيَزِدَّ الَّذِينَ ءَامَنُوا إِيمَانًا Number 3 لِيُشَاقِقَ الَّذِينَ أُوتُوا الْكِتَابَ

9:06

So, the people who believe that the Quran is from God, before the number 19, without the number 19, when they see the mathematical

9:14

code they will increase in faith. وَيَزِدَّ الَّذِينَ ءَامَنُوا إِيمَانًا And the fourth reason.

9:20

وَلَا يَرْتَابَ الَّذِينَ أُوتُوا الْكِتَابَ وَالْمُؤْمِنُونَ If any of the Muslims, or

9:26

the Christians, or the Jews have any doubt in their heart that this book, the Quran, is from God,

9:32

the mathematical code will help remove all this doubt. Number 5 in the verse says

9:38

وَلَيَقُولَ الَّذِينَ فِي قُلُوبِهِم مَّرَضٌ وَالْكَافِرُونَ مَاذَا أَرَادَ اللَّهُ بِهَذَا مَقَالًا

9:43

And to expose the hypocrites and the disbelievers, they will say "so what? this is not important." So, these are the five reasons that God Himself

9:51

gives as the role of the number 19 or the mathematical code in the Quran.

9:59

Abdel Rahman: Make the Muslim strongly believe that the Quran from God.

10:05

But there's SURAs, there's AYAs in the Quran by Arabic

10:10

approve to the Muslim and non-Muslim that the Quran is miracle, it's the word of God. Like, for example, like

10:17

(39:5) يَكْوُرُ اللَّيْلُ عَلَى النَّهَارِ ALLAH SUBHANAHU WA TA'ALA, He said, He make... He cover the globe with the night and...

10:29

Dr. Khalifa: He rolls the day around the night, and the night around the day, proving that the Earth is round. Abdel Rahman: Ah, how, how the messenger of God approved

10:39

this? How the messenger of God knows that? In the centuries later, there is such... to

10:44

approve this. So, if we go through the Quran, we will find a lot... Dr. Khalifa: So, let us say that this verse will cause someone to believe in the Quran.

10:51

(39:5) يَكْوُرُ اللَّيْلُ عَلَى النَّهَارِ وَيَكْوُرُ النَّهَارُ عَلَى اللَّيْلِ This person when he or she looks at

10:57

the mathematical code, God says in the Quran - not I am saying - God says that his belief

11:02

will increase. His faith will increase. وَيَزِدَّ الَّذِينَ ءَامَنُوا إِيمَانًا So, this is an additional confirmation or assurance or increase in faith.

11:13

Abdel Rahman: Alright. There is also another thing. You believe, you know, when you talk now you don't

11:19

believe in Hadith or Sunnah. Do you believe in Hadith or Sunnah? Dr. Khalifa: I believe that the Quran is complete, perfect and fully detailed because God says so in

11:27

the Quran. Abdel Rahman: And we don't have to use Hadith or Sunnah at all? Dr. Khalifa: It doesn't matter or any other source. Abdel Rahman: I noticed in the prayer here, you never mentioned the messenger of God, like, you ignored him completely.

11:39

Abdel Rahman: Do you have anything against him? Because you ignored... you said... Dr. Khalifa: Is it true that I mentioned... Abdel Rahman: Yeah, you say ALLAH, then when you prayed, you

11:52
prayed, you read Fateha, but you didn't read Quran, you know. Something, it's actually

11:57
- I hope you will correct me if I'm mistaken or something - new to me, new to any Muslim,

12:03
because we know that when we say **لا اله الا الله** و ان محمد رسول الله

12:11
This is about Islam. You can't separate it. You can't say **لا اله الا الله** I bear witness there is

12:19
no god but one God and you hold that the messenger Muhammad is the messenger of God. If you hold it, you mean your SHAHADA is incomplete.

12:29
Dr. Khalifa: Is that right? Abdel Rahman: Well that's what I believe. I hope we will... Dr. Khalifa: Let's look in the Quran again. If you look in the Quran, the Quran gives you the correct SHAHADA.

12:37
And this is in SURA number 3, verse 18 it says **يَشْهَدُ اللَّهُ أَنَّهُ لَا إِلَهَ إِلَّا هُوَ وَالْمَلَائِكَةُ وَأُولُوا الْعِلْمِ قَائِمًا بِالْقِسْطِ**

12:47
So, the SHAHADA according to ALLAH, the angels, and those who know **يَشْهَدُ اللَّهُ أَنَّهُ لَا إِلَهَ إِلَّا اللَّهُ** is **أُولُوا الْعِلْمِ**

12:55
There is no محمد رسول الله there. This is one thing. **يَشْهَدُ اللَّهُ أَنَّهُ لَا إِلَهَ إِلَّا هُوَ وَالْمَلَائِكَةُ وَأُولُوا الْعِلْمِ**

13:06
So, this is the correct SHAHADA as dictated in the Quran. When you say **لا اله الا الله محمد رسول الله**

13:13
you violate the most basic commandment in the Quran. The first one is the principle

13:21
of TAWHEED. You are not commemorating God Alone. You are putting a name besides God,

13:27
another name beside God. You are making distinction among the messengers of God. This is an important

13:34
commandment that you see in SURA 2 verse 285, for example. It's mentioned four times

13:40
in the Quran that you do not make, you shall not make any distinction among the messengers

13:45
of God. And it is done so powerfully that any Muslim who makes distinction is not a Muslim at all

13:55
because the Quran says **لَا تُفَرِّقُ بَيْنَ أَحَدٍ مِّن رُّسُلِهِ** وَقَالُوا سَمِعْنَا وَأَطَعْنَا

14:00
and these are the MU'MENS **سَمِعْنَا الرِّسُولَ إِذَا نَزَلَ إِلَيْهِ مِنْ رَبِّهِ وَالْمُؤْمِنُونَ كُلٌّ آمَنَ بِاللَّهِ وَمَلَائِكَتِهِ وَكُتُبِهِ وَرُسُلِهِ لَا تُفَرِّقُ بَيْنَ أَحَدٍ مِّن رُّسُلِهِ** وَقَالُوا سَمِعْنَا وَأَطَعْنَا

14:12
Abdel Rahman: That is the Muslim, he doesn't, he shouldn't have to say **لا اله الا الله محمد رسول الله**

14:19
but he believe **لا اله الا الله** and he believe all the messengers of ALLAH SUBHANAHU WA TA'ALA, they are equal, no distinction between...

14:28
Dr. Khalifa: When was the last time you said **لا اله الا الله يونس رسول الله** Abdel Rahman: Well, you actually do not say YUNES. When you say...

14:36
Dr. Khalifa: Answer my question. When was the last time you said **لا اله الا الله يونس رسول الله** Abdel Rahman: I hope you will understand me. I'm not debating

14:44
you. I'm not arguing with you. I am... Dr. Khalifa: No no, I am trying to demonstrate the points of the distinction among the prophets. Abdel Rahman: Okay.

14:50
Dr. Khalifa: When was the last time you said **لا اله الا الله يونس رسول الله** Abdel Rahman: Okay. When I say **لا اله الا الله محمد** Dr. Khalifa: No, wait wait, first answer...

14:57
Abdel Rahman: I will answer your question. I will not answer the way you want. I answer it the way I want... Dr. Khalifa: No no, just yes or no. It's a yes or no. When was the last time you said **لا اله الا الله يونس رسول الله**

15:06
Abdel Rahman: When I say **لا اله الا الله محمد رسول الله** it's admitting that I admit all the messenger up to Muhammad, I believe

15:15
in them. Dr. Khalifa: You didn't say that. It doesn't say that. Abdel Rahman: That's what I admit. I believe all the messenger including the last messenger of ALLAH SUBHANAHU...

15:22
Dr. Khalifa: Muhammad is not the last messenger. Abdel Rahman: Well, this is another... Dr. Khalifa: Where do you get that? Where do you get that Muhammad is the last messenger? Abdel Rahman: Let's continue.

15:31
Dr. Khalifa: No, let me ask another question. Is Muhammad dead or alive? Abdel Rahman: This is **علم عند الله**. As far as

15:40
I know, as a human being, he died. Dr. Khalifa: Muhammad is dead? Abdel Rahman: As far as I know. Am I coming to be questioned, or I question you?

15:48

Dr. Khalifa: What do you mean? No, we're dealing with your question. لا اله الا الله محمد رسول الله We're looking at this statement from the logical point of view. Forget anything else.

15:56

God gave us a mind that He wants us to use. So, you are saying لا اله الا الله محمد رسول الله

16:03

which means what in English? Abdel Rahman: I bear witness that there is no god but one God, and Muhammad is the messenger of God. Dr. Khalifa: "Muhammad is the messenger of God". So, my

16:12

question is "is Muhammad dead or alive?" Abdel Rahman: What do you think?

16:19

Dr. Khalifa: What I think, the Quran says Muhammad is dead. (39:30) إِنَّكَ مَيِّتٌ وَإِنَّهُمْ مُمَيِّتُونَ Abdel Rahman: Yes. Dr. Khalifa: We know that Muhammad is dead unless he's

16:25

1,400 and some years old. Abdel Rahman: Yes. Dr. Khalifa: Sitting somewhere. Abdel Rahman: Okay. Dr. Khalifa: But he is in a grave now. He's dead, right? Abdel Rahman: Okay.

16:32

Dr. Khalifa: Now, do you think a dead man can be a messenger of God? Abdel Rahman: No longer after he died... Dr. Khalifa: Exactly. So, why do you say Muhammad is the

16:39

messenger of God? He's not, he could not be a messenger of God because he's dead, is this true?

16:46

Abdel Rahman: I will go for it for the time being, okay. Let's go...

16:51

Dr. Khalifa: Well, can a dead man be a messenger of God? Abdel Rahman: He was a messenger of God and he already completed his mission.

17:01

Dr. Khalifa: Exactly, now therefore the correct statement would be محمد كان رسول الله Therefore the statement لا اله الا الله محمد رسول الله

17:07

is wrong, even from the purely logical point of view. However, like I said the SHAHADA is in the Quran. Unfortunately, the Muslims do not follow

17:17

the Quran. And it says شَهِدَ اللَّهُ أَنَّهُ لَا إِلَهَ إِلَّا هُوَ وَالْمَلَائِكَةُ وَأُولُوا الْعِلْمِ

17:23

Therefore, anyone who says anything but لَا إِلَهَ إِلَّا اللَّهُ is not among أُولُوا الْعِلْمِ He doesn't know. He is ignorant. It's due to ignorance.

17:33

This is why in the KHUTBA you saw me say لَا إِلَهَ إِلَّا اللَّهُ This is it. This is all we say. Abdel Rahman: Also, you said you believe in the Quran, nothing

17:41

but the Quran, and we don't have to believe anything from Hadith. Why? We don't have to pay attention to Hadith, why? Dr. Khalifa: Because God says in the Quran that the Quran

17:53

is complete, perfect, and fully detailed. And the question is "do you believe God or not?" If you believe God, you'll believe that the Quran is complete, perfect, and fully

18:01

detailed. Listen to this. This is verse 114 in SURA 6. It say أَفَعَبَّرَ اللَّهُ أَنْبَىٰ حَكِيمًا وَهُوَ الَّذِي أَنْزَلَ إِلَيْكُمُ الْكِتَابَ مُفَصَّلًا

18:11

Shall I seek out other than God as a source of law when He sent down to you this book

18:16

fully detailed? مُفَصَّلًا fully detailed. Therefore, if you go to anything else, you will be a rejector of the Quran. You have rejected,

18:26

you have disbelieved God. So, this is the reason why. It doesn't matter how great the Hadith is.

18:34

Abdel Rahman: You know the Muslims usually, when they use Hadith, it doesn't mean that they are overlapping the Quran. No, the Quran is divine constitution

18:48

of God to mankind. And who apply, who perform that constitution

18:57

to mankind better than Muhammad, the messenger of God, the one who redeemed it, the one who

19:03

received it, and delivered it to mankind. People always like to follow the one who receive it,

19:10

and to see how he perform it, how he - he show it to the people, then they follow

19:20

his way of performing the constitution of God. It means like when I follow the Hadith doesn't mean I am away of the Quran. As far

19:29

as I know, I hope you correct me if I'm wrong. I'm just saying my statement and I'm sure you will have a comment on it. That's as far as I know about the Muslim how they use Hadith.

19:41

What do you think? Dr. Khalifa: Well, first of all if the Quran is fully detailed

19:47

- not if the Quran - I mean, I know the Quran is fully detailed. God says the Quran is fully detailed. Therefore, you don't need anything else.

19:54
We know that the Hadith are... we know now from many many years of research that the
20:01
Hadith are fabrications attributed to the prophet. Now the Satan, SHAYTAN knows
20:07
that we love the prophet very much, and he use that as a bait to catch...when you catch
20:14
fish, you put bait on a hook to catch the fish. Abdel Rahman: I think, I think - if you excuse me for interrupting
20:19
you Dr. Khalifa - the Muslim, they are aware of a lot of Hadith being injected to Hadith, not like Quran...
20:28
Dr. Khalifa: No, I'm talking about the Sahih Bukhari, for example. Sahih Bukhari is full contradictions, blasphemies against the prophet. I can
show you literally hundreds of Hadiths that are
20:40
considered attacks on the prophet. They distract from the greatness of the prophet Muhammad.
20:46
So, but the important point Abdel Rahman is that God says the Quran is complete, perfect,
20:53
fully detailed. This is the important point. So if you give me a Hadith that is fantastic and great and has all the qualities of the best things in
the world, I still cannot go
21:03
to it because God tells me the Quran is complete, perfect, and fully detailed. But the fact is that the Hadith is actually a blasphemous attack
against the prophet, and I gave you
21:17
an issue of the Muslim Perspective in Arabic proving that - I'm talking about Shahih Hadith of Bukhari
21:23
- they are a transgression against the prophet. Abdel Rahman: So, you are ignoring completely the great teacher
21:30
of Islam which Muhammad peace be upon him, he was a great teacher, was... He is the one
21:36
who received the message of Allah, and he taught it to the people. So, I consider him he is my leader.
21:42
Dr. Khalifa: You are missing the point. Abdel Rahman: OK. Let me know it. Dr. Khalifa: Yeah, you are missing the point. Abdel Rahman: Okay.
Dr. Khalifa: The Hadith was never uttered by the prophet, has nothing to do with the prophet because
21:51
- did the Quran come out of the prophet's mouth? Abdel Rahman: How did it come out?
21:56
Dr. Khalifa: Did the Quran come out of the prophet's mouth? Abdel Rahman: I will ask you, you won't ask me, how did it come out?
22:01
Dr. Khalifa: It doesn't matter how. Abdel Rahman: Okay, you tell me how it come out. Dr. Khalifa: The Quran says that Gabriel brought it,
released it... Abdel Rahman: But how he revealed it to Muhammad?
22:07
Dr. Khalifa: Yes, through Gabriel. God revealed Quran, yes, to Muhammad. It came out of his mouth. Abdel Rahman: Whose mouth?
22:14
Dr. Khalifa: Muhammad's mouth. Abdel Rahman: Muhammad's mouth. Dr. Khalifa: Right. Therefore, if you wanna follow Muhammad, you
follow Quran, because it came out of
22:20
Muhammad's mouth. Abdel Rahman: Yes. Dr. Khalifa: So, I don't know what the people like that... Abdel Rahman: If I'm an Arabian illiterate,
don't understand
22:28
that highly quality Arabic language of the Quran, miracle of the Quran, and I would like
22:33
to understand, who will teach me and show me the right way more than the one who revealed
22:39
from God, peace be upon him, Muhammad (عليه صلاة وسلام)? How? That's why Muhammad, he brought the Hadith... Dr. Khalifa: Are you saying
Muhammad is the teacher
22:46
of Quran? Abdel Rahman: He is interpreter of the Quran to the Muslims. Dr. Khalifa: No, he was forbidden from interpreting the Quran.
22:53
Abdel Rahman: He was? Dr. Khalifa: Yes. In the Quran SURA 75 verse 19, it says (75:19) لَّمْ يَنْهَ عَنْهُ لِسَانُكَ لِتَعْجَلَ بِهِ (75:16) لَمْ يَنْهَ عَنْهُ لِسَانُكَ لِتَعْجَلَ بِهِ
23:03
Muhammad don't move your tongue - or in English here in American English, don't open your mouth.
23:09
(75:17) لَمْ يَنْهَ عَنْهُ لِسَانُكَ لِتَعْجَلَ بِهِ that we are the ones who will reveal it and put it into Quran.
23:16
(75:18) لَمْ يَنْهَ عَنْهُ لِسَانُكَ لِتَعْجَلَ بِهِ Once we have it in the Quran, you Muhammad, follow the Quran.
23:22
(75:19) لَمْ يَنْهَ عَنْهُ لِسَانُكَ لِتَعْجَلَ بِهِ God is saying that I'm the One who will explain it.
23:27
So, the prophet is forbidden from explaining the Quran. In another SURA, SURA 69, starting at verse 38, we see that if the prophet uttered
23:37

anything else other than the Quran, he will go to Hell. It says... to go from the beginning...

23:50

It says (69:43) تَنْزِيلٌ مِّن رَّبِّ الْعَالَمِينَ (69:41) وَمَا هُوَ بِقَوْلِ شَاعِرٍ قَلِيلًا مَّا تُؤْمِنُونَ (69:42) وَلَا بِقَوْلِ كَاهِنٍ قَلِيلًا مَّا تَذَكَّرُونَ (69:43)

24:02

OK. Yeah. (69:38) فَلَا أُقْسِمُ بِمَا تُبْصِرُونَ (69:39) وَمَا لَا تُبْصِرُونَ (69:38) This is the strongest oath in the Quran (69:38)

24:12

I swear by the things you see and the things you do not see. Now, this is not swearing by the sun or the moon or the time or anything. This is swearing by everything in the universe.

24:20

(69:40) إِنَّهُ لَقَوْلُ رَسُولٍ كَرِيمٍ (69:40) This Quran is the utterance of an honorable messenger.

24:26

(69:41) وَمَا هُوَ بِقَوْلِ شَاعِرٍ قَلِيلًا مَّا تُؤْمِنُونَ (69:41) It is not the utterance of a poet.

24:32

(69:42) وَلَا بِقَوْلِ كَاهِنٍ قَلِيلًا مَّا تَذَكَّرُونَ (69:42) It is not the utterance of a soothsayer, or some... an Egyptian BAKKASH, somebody who's

24:41

BAKKASH. Abdel Rahman: What's BAKKASH mean? Dr. Khalifa: Soothsayer, KAHEN Abdel Rahman: KAHEN. Okay.

24:46

(69:43) تَنْزِيلٌ مِّن رَّبِّ الْعَالَمِينَ (69:44) وَلَوْ تَقَوَّلَ عَلَيْنَا بَعْضُ الْأَقَاوِيلِ (69:44) It came from the Lord of the universe. (69:44) If he uttered anything else

24:55

(69:45) لَأَخَذْنَا مِنْهُ بِالْيَمِينِ (69:46) ثُمَّ لَقَطَعْنَا مِنْهُ الْوَتِينَ (69:45)

25:00

(69:47) فَمَا مِنْكُمْ مَّنْ أَحَدٍ عَنْهُ حَاجِزِينَ (69:47) None of you can protect him.

25:05

And because of this interruption in the English language, I hope I didn't mess up the verses. But this is the general idea. (69:38) فَلَا أُقْسِمُ بِمَا

تُبْصِرُونَ

25:12

(69:39) وَمَا لَا تُبْصِرُونَ (69:40) إِنَّهُ لَقَوْلُ رَسُولٍ كَرِيمٍ (69:41) وَمَا هُوَ بِقَوْلِ شَاعِرٍ قَلِيلًا مَّا تُؤْمِنُونَ (69:42) وَلَا بِقَوْلِ كَاهِنٍ قَلِيلًا مَّا تَذَكَّرُونَ (69:39)

25:18

(69:43) تَنْزِيلٌ مِّن رَّبِّ الْعَالَمِينَ (69:44) وَلَوْ تَقَوَّلَ عَلَيْنَا بَعْضُ الْأَقَاوِيلِ (69:45) لَأَخَذْنَا مِنْهُ بِالْيَمِينِ (69:46) ثُمَّ لَقَطَعْنَا مِنْهُ الْوَتِينَ (69:43)

25:23

(69:47) فَمَا مِنْكُمْ مَّنْ أَحَدٍ عَنْهُ حَاجِزِينَ (69:47) So, this... the prophet Muhammad was forbidden from explaining the Quran, or uttering any additional religious teachings, and this is

25:33

in the Quran. Abdel Rahman: So, you are actually trying to tell me there is no way we have to follow the Hadith of the messenger of God, or follow

25:43

his way. We have the Quran, we have to stick... Dr. Khalifa: You still miss the point. It is not the Hadith of the messenger of God. It is the Hadith

25:50

attributed to the messenger of God. Because the prophet Muhammad would never disobey God.

25:55

And God told him "you have the Quran and nothing else." And this is in verse 19, SURA 6. It says

26:05

قُلِ اللَّهُ شَهِيدٌ بَيْنِي وَبَيْنَكُمْ وَأُوحِيَ إِلَيَّ هَذَا الْقُرْآنُ لِأُنْذِرَكُمْ بِهِ وَمَنْ بَلَغَ ۖ أَفَلَا يَنْفَعُ شَيْءٌ أَكْثَرَ شَهَادَةً

26:16

I was given this Quran to deliver to you and the future generation. Abdel Rahman: I think... Dr. Khalifa: Wait a minute.

26:22

It did not say والحديث أَوْحِيَ إِلَيَّ هَذَا الْقُرْآنُ والحديث Abdel Rahman: No, I think I agree with your point for one reason because we - we will be as Muslims

26:30

all of us, we will be judged by the Quran. But I disagree about one thing because - another thing because

26:37

the hadith I have to follow the messenger of God, the one who received the Quran and

26:44

who delivered it to me. As a Muslim, if I ignore it... Dr. Khalifa: You miss the point again. The Hadith came from SHAYTAN, from Satan, not from Muhammad.

26:52

Abdel Rahman: I have to be aware, which is right the Hadith and what's wrong Hadith. But ignoring, ignoring the messenger of God, that is a question

26:59

I would like to elaborate with you. Dr. Khalifa: You mean if you follow the Quran, you will ignore the messenger of God? Abdel Rahman: No, if I ignore the Hadith., if I ignore...

27:08

Dr. Khalifa: This is the Hadith of Satan. If I prove to you that the Hadith is from Satan, would you still wanna follow it? Abdel Rahman: No.

27:13

Dr. Khalifa: So, if I come to you just because the SHAYTAN came to you and said صلى الله عليه وسلم You believe it? Abdel Rahman: If it's...

27:20

Dr. Khalifa: Say, Satan walks from this door, wearing a turban, wait, and says صلى الله عليه وسلم

27:27

You're gonna follow it? Abdel Rahman: It's been renarrated by most scholar religion in Islam, which are - we know that they are

27:37

being following the messenger of God, and they know what he saw, and they are witness

27:43

and we are taking them, holding them, they are witnessed Muhammad, because... Dr. Khalifa: They never witnessed Muhammad. Abdel Rahman: Well, that's...

27:50

Dr. Khalifa: The first Hadith, it was recorded was 250 years after Muhammad, across 8 generations of the dead.

27:56

Abdel Rahman: So, from the period when Muhammad died to 250 years there was no Hadith at all? Dr. Khalifa: That's right. Abdel Rahman: I see. You believe in the Quran...

28:03

Dr. Khalifa: There was no recorded Hadith. People were making up Hadith at the time. For example, you come to my house and I have only fish to feed you. If you object, then I'll

28:12

tell you "well, the prophet said if you eat fish alone you're gonna be great." So, people made this kind of Hadith. And it was not recorded or anything. So, Bukhari

28:21

came 250 years later and claimed that the prophet said these things. And as you know, Bukhari eliminated 90% of the things that he wrote himself, and still whatever is left

28:32

the thousands of Hadith are attacking and blaspheming against the prophet.

28:38

Abdel Rahman: Okay. Let's move to another point because if we wanna continue talking about this point, we will never finish it at all. Dr.

Khalifa: Well, this point should be finished because

28:46

God says the Quran is complete, perfect and fully detailed. And the Quran says that telling Muhammad to

28:53

tell us that he brings only the Quran. The last verse in sura 50 says

28:58

(50:45) فَذَكِّرْ بِالْقُرْآنِ مَنْ يَخَافُ وَعِيدِ Deliver the message of the Quran. It didn't say Quran

29:04

and Sunnah, or Quran and Hadith. (50:45) فَذَكِّرْ بِالْقُرْآنِ مَنْ يَخَافُ وَعِيدِ Abdel Rahman: But there is a lot of SURAs also remind the Muslim to follow ALLAH and the messenger of

29:14

God. For example, I probably I have some: قَالَتْهَا الَّذِينَ آمَنُوا بِاللهِ وَرَسُولِهِ وَالْكِتَابِ الَّذِي نَزَّلَ (4:136) عَلَى رَسُولِهِ وَالْكِتَابِ الَّذِي أَنْزَلَ مِنْ قَبْلُ

29:25

(5:3) أَلَيْسَ لَكُمْ دِينُكُمْ أَنْتُمْ أَكْمَلْتُ لَكُمْ دِينَكُمْ (33:56) إِنَّ اللَّهَ وَمَلَائِكَتَهُ يُصَلُّونَ عَلَى النَّبِيِّ You know, ALLAH SUBHANAHU WA TA'ALA also confirm it to the people to pray to Muhammad

29:35

because ALLAH SUBHANAHU WA TA'ALA praying to Muhammad, as far as I know, I hope you will understand me and you will correct me if I'm wrong. Dr. Khalifa: Let me correct you.

29:42

Abdel Rahman: (24:47) وَأَطِيعُوا اللَّهَ وَأَطِيعُوا الرَّسُولَ (24:54) فَلْأَطِيعُوا اللَّهَ وَتَخِشُوا اللَّهَ وَمَنْ يُطِيعِ اللَّهَ وَرَسُولَهُ (24:52) وَيَقُولُونَ آمَنَّا بِاللَّهِ وَبِالرَّسُولِ

29:49

(24:56) وَأَقِيمُوا الصَّلَاةَ وَآتُوا الزَّكَاةَ وَأَطِيعُوا الرَّسُولَ Dr. Khalifa: So, why do you disobey him then? Why are you disobeying him when he tells you to uphold that the Quran is complete, fully detailed,

29:59

and you shall uphold the Quran alone? Why do you disobey him and go to something else? Abdel Rahman: I see. Dr. Khalifa: You see in the Quran it is telling you (24:54) وَأَطِيعُوا اللَّهَ وَأَطِيعُوا الرَّسُولَ

30:07

So, why don't you listen and obey the ALLAH and the RASOOL? Abdel Rahman: Okay. By obeying the messenger of God, and obeying because I know that the messenger

30:17

of God he is been taught by ALLAH SUBHANAHU WA TA'ALA, he was orphan and is taught

30:22

by ALLAH SUBHANAHU WA TA'ALA, and he is, he was perfect, he was perfect.

30:28

Dr. Khalifa: Okay, is this the reason for you to disobey him? Abdel Rahman: No, to obey him. Dr. Khalifa: You're not obeying him when you go to other than the Quran.

30:35

Dr. Khalifa: But you are disobeying him when you... Abdel Rahman: Obeying him in the Quran and his way of life, way of life. Dr. Khalifa: But if you follow anything other than the Quran, then you are disobeying the prophet. Abdel Rahman: I see.

30:43

Abdel Rahman: Okay. Dr. Khalifa: So, therefore you must be the... if you are reciting these verses, you have to do them yourself. (24:54) أَطِيعُوا اللَّهَ وَأَطِيعُوا الرَّسُولَ

30:50

Abdel Rahman: Yes. Dr. Khalifa: If you obey RASOOL, you will uphold the Quran, the whole Quran, nothing but the Quran. If you go to anything other than the

30:56

Quran, you are not obeying the messenger. Abdel Rahman: So, you believe in the Quran from the cover to the cover?

31:02

Dr. Khalifa: Yes. Right. Abdel Rahman: You believe in this Quran, and our - speaking to each other now we will speak according

31:10
to the Quran. Dr. Khalifa: Yes, absolutely. Abdel Rahman: You say, you said, I think in one of your brochures here, if you allow me to read it to you or

31:20
just you said here - you said: "Providing indisputable evidence for the exposure and removal of two human-made

31:30
sentences that were injected into the Quran at the end of the last SURA revealed

31:36
in Medina, SURA number 9." Other words, you say here that the human being

31:42
been injected some SURAs in the Quran... Dr. Khalifa: AYAs, verses. Abdel Rahman: Some verses in the Quran. So, this Quran, the one in my hand here, in Arabic, the one

31:52
in my hand in Arabic, it's not completely perfect. It's been injected by...

31:59
man-made SURAs, you believe in that? Dr. Khalifa: Right. Abdel Rahman: Okay. And also... Dr. Khalifa: This Quran is not correct.

32:05
Abdel Rahman: This is not correct? Dr. Khalifa: But we know the correct Quran. I can show you a Quran that is correct and complete. Abdel Rahman: You will show me in a minute, but let me continue

32:12
this. ALLAH SUBHANAHU WA TA'ALA says (15:9) إِنَّا نَحْنُ نَزَّلْنَا الذِّكْرَ وَإِنَّا لَهُ لَحَافِظُونَ

32:18
ALLAH SUBHANAHU WA TA'ALA took an oath on Him to guard the Quran, because mankind couldn't guard the Torah or the Bible. So, ALLAH Dr. Khalifa: And He did. That's right.

32:32
took an oath on Him to guard the Quran. In your translation, you said "we have sent

32:40
down - for this verse - we have sent down the revelation and we will surely preserve it. Dr. Khalifa: Yes.

32:48
In Yusuf Ali translation, what he says, he says "We have, without doubt, sent down - excuse me let me...

33:00
In Yusuf Ali translation, which most of the Muslim people - they are taking by Yusuf Ali translation the Quran "We have without a doubt sent down

33:11
the Message and We will assuredly guard it from corruption".

33:17
Dr. Khalifa: I agree with that. Abdel Rahman: You agree about that? Dr. Khalifa: Yeah. Abdel Rahman: Okay. Well, I would like you to elaborate on this point doctor Khalifa.

33:25
Dr. Khalifa: ALLAH SUBHANAHU WA TA'ALA carried out His promise and He preserved the Quran perfectly. I can show you a Quran that is perfect, in the way it was sent down, and the way it was written...

33:36
Abdel Rahman: I would like to see it. Dr. Khalifa: Right. The way every letter of it is preserved,

33:42
not a single letter is added, and not a single letter is lost. However, if you go to Egypt or Iran today,

33:49
you're gonna see that the Quran is printed with some mistakes in them, but this does not negate the fact... Abdel Rahman: Let's be clear now...

33:56
Dr. Khalifa: Wait. Doesn't negate the fact... Abdel Rahman: Let's be clear before you go. Abdel Rahman: This Quran, it's been in the whole world through Iran

34:05
through Persia, through Arabic world, this Arabic Quran

34:10
it's not real Quran? Dr. Khalifa: There are some mistakes in it. Abdel Rahman: It has mistakes in it? Dr. Khalifa: Right.

34:16
Abdel Rahman: And you have the one... Dr. Khalifa: The point is that God did preserve the perfect Quran and we have it. Abdel Rahman: You have it?

34:23
Dr. Khalifa: It's all over the world. Abdel Rahman: With whom? With you? Dr. Khalifa: No, it's even here. You can find it here also as long as you mark the mistakes.

34:31
There are a few mistakes. Abdel Rahman: But ALLAH SUBHANAHU WA TA'ALA says (15:9) إِنَّا نَحْنُ نَزَّلْنَا الذِّكْرَ وَإِنَّا لَهُ لَحَافِظُونَ Dr. Khalifa: So, how do you explain...

34:36
Abdel Rahman: We will never allow anyone to inject even one single... Dr. Khalifa: So, how do you explain the fact that in Iran today, they're printing millions of Qurans

34:44
that do not follow the Quranic writing? Like, for example, the word "SALAT" is written SAAD, LAAM, ALEF, HE,

34:51

instead of SAAD, LAAM, WAW, HE as in the original Quran. How do you explain that? Do you mean God failed to carry out His promise? Is this what you think?

35:00

Abdel Rahman: No, I'm not thinking of anything. I would like you... Dr. Khalifa: Okay. I'm saying that it doesn't matter what people do with the Quran. They can take it

35:07

and mess it up and do anything they want. This is what they want to do. This is only ink and paper. But the Quran that God sent down is preserved exactly the way that it was written,

35:18

and without adding or losing a single letter. So, this promise of God

35:24

(15:9) إِنَّا نَحْنُ نَزَّلْنَا الذِّكْرَ وَإِنَّا لَهُ لَنَحْفَظُون (15:9) is kept. However, I must point out something to you.

35:30

When there is a law, like the law of preservation of the Quran, this law does not exist unless

35:36

it is violated. Do you understand what this means? Abdel Rahman: Yes, I'm following you. Dr. Khalifa: Okay. For example, if there is a law that

35:43

Abdel Rahman Salem cannot leave this room. If you stay in this room forever, nobody will ever know that this law exists. Is this true? Abdel Rahman: As far as I understand.

35:54

Dr. Khalifa: Okay. Now, but if you violate this law, and try to leave the room, and then you are forced back in,

36:01

then we know that the law exists. Therefore, the violation of the sacredness

36:07

of the Quran proves that God preserved it, because we detected the mistakes. We know

36:13

exactly where any letters were added or removed, and we have the perfect the Quran.

36:19

Abdel Rahman: You have the perfect Quran? Dr. Khalifa: Because God fulfilled, God fulfilled His promise. Abdel Rahman: Yes. Do you think you can... Dr. Khalifa: And the perfect Quran is contained in here. It

36:28

is included in here, but people added some of their errors in it. However, it doesn't

36:34

make any difference because the perfect Quran is in existence. Abdel Rahman: If I am an ordinary Muslim walking in the street, and I picked up this Quran,

36:42

you know, for the witness of ALLAH SUBHANAHU WA TA'ALA, how do I know this is right and this is wrong,

36:50

and this is injected? Dr. Khalifa: Okay. You are either a sincere Muslim or you're an insincere Muslim, is this correct? Abdel Rahman: Mhmm.

36:58

Dr. Khalifa: Now, God knows that, right? Abdel Rahman: Yes. Dr. Khalifa: Now, when God knows that you are a sincere Muslim, He will see to it that you'll be

37:05

guided to the correct Quran, to the perfect Quran. If you're not a sincere Muslim, you'll

37:11

be left to - you'll have a fake Quran. A fake Muslim has a fake Quran. A true Muslim has a true Quran. This is a rule of thumb.

37:18

Abdel Rahman: Okay. You also... Dr. Khalifa: A sincere believer has a perfect Quran. An insincere person does not have a perfect Quran.

Abdel Rahman: Okay. You said also in your writing and in your

37:28

paper brochures you said: the old testimony, and the new testimony, and also the final testimony,

37:34

referring to the Quran which I believe as far as I know, also I hope you will correct me

37:39

if I'm mistaking - Muslims they don't like to use or to apply this word this "old" and

37:47

"new" and "final" to the word of God. We know that this word is being used by Jewish and

37:55

Christians, not by the Muslims. The Muslim, he knows that the word of God, from Adam to Muhammad, it's the word of God, never been old, never been used, never been - it's

38:04

word of God. When we say the word of God, it's the word of God. But... Dr. Khalifa: You don't like the using "old testament", "the new testament"...

38:11

Abdel Rahman: No, I'm just asking, wondering... Dr. Khalifa: No, I like to use it, but if you don't like to use it, go ahead and don't use it. Abdel Rahman: So, that's the only answer you have, right? Dr. Khalifa: Right.

38:19

Abdel Rahman: You said also "Mohammedans, the worst enemies of God." Dr. Khalifa: Yes.

38:26

Abdel Rahman: "Beware of Mohammedans, the worst enemies of God, according to the Quran."

38:33
 Did the Quran say that? Dr. Khalifa: Yes. Abdel Rahman: That the Quran said "the one who follows Muhammad will be My worst enemy?"
 38:39
 Dr. Khalifa: The one who worships Muhammad. Abdel Rahman: Well, the one who worships, you know the Muslim they never worship Muhammad... Dr. Khalifa: You indicated in the beginning of this interview
 38:48
 that you worship Muhammad. Abdel Rahman: How? Dr. Khalifa: You said, لا اله الا الله محمد رسول الله You worship Muhammad in your life.
 38:53
 Wait, wait, wait, wait. You put Muhammad's name next to ALLAH's name. This is SHIRK. By definition, this is SHIRK.
 39:00
 Abdel Rahman: According to SURA... Dr. Khalifa: You made a statement "Muhammad is a messenger of God", when he is dead. He is not alive. Only God is alive, this is why God says
 39:07
 (25:58) "put your trust in the living One, who never dies" تَوَكَّلْ عَلَى الْخَيِّ الَّذِي لَا يَمُوتُ
 39:13
 because Muhammad is dead. And when you put his name When you put Muhammad's name, a human creature
 39:20
 of God next to God, the name of God, this is worshipping without knowing it. So, you're
 39:26
 worshipping Muhammad without knowing it because you do not follow the Quran that came out of Muhammad's mouth because of your reverence for Muhammad, which is - another word for
 39:36
 it is idol-worship. The Quran tells you (2:285) لَا تَقْرُبُوا بَيْنَ أَحَدٍ مِّن رُّسُلِهِ Do not make any distinction among the prophets or the messengers of God
 39:45
وَقَالُوا سَمِعْنَا وَأَطَعْنَا In other words, you do not argue, we say "we hear and we obey, we do not make any distinction." But you defy this and you're
 39:51
 making a distinction, and all this because you love Muhammad too much. Now, Loving Muhammad too much is like the Christians loving Jesus too much and worshipping him.
 40:00
 And therefore, worshipping Muhammad, or doing or practicing SHIRK - God says there is a law
 40:08
 (5:72) إِنَّهُ مَن يُشْرِكْ بِاللَّهِ فَقَدْ حَرَّمَ اللَّهُ عَلَيْهِ الْجَنَّةَ that heaven is forbidden for those who make SHIRK. And SHIRK by definition, when you say
 40:17
لا اله الا الله محمد رسول الله This is SHIRK by definition, because let me put it to you in human terms. If you invite me to your house for dinner,
 40:25
 you're gonna invite me alone, right? Abdel Rahman: Yes. Dr. Khalifa: You say "Rashad, come to my house alone by yourself" and this will "I'm coming to
 40:31
 your house alone." However, you can also say "I will invite you to dinner to my house, but bring your servant with you." Okay? Then, I'm not invited
 40:42
 alone anymore. This is SHIRK. There is a SHARIKA, more than one person, coming to your house.
 40:47
 Even though you are acknowledging that that other person is my servant, it still is SHIRK.
 40:54
 So, when you say لا اله الا الله محمد رسول الله This is SHIRK by definition, and this is exactly why God teaches us in the Quran that the SHAHADA is
 لا اله الا الله
 41:03
 The SHAHADA of "ALLAH", "AL-MALA'EKA", the angels, and the "ULULELM", the people who know.
 41:09
 Abdel Rahman: Correct me if I am wrong... Dr. Khalifa: So, Mohammedans is the correct expression to describe... Abdel Rahman: If I'm a Muslim, and I will say "LA ILLAHA ILLA ALLAH", by saying "MUHAMMAD RASOOL ALLAH",
 41:21
 means that I approve, and admit, and bear witness that I will accept the message of
 41:31
 ALLAH SUBHANAHU WA TA'ALA came through Muhammad... Dr. Khalifa: No. You are doing the opposite. When you
 41:37
 say: "LA ILLAHA ILLA ALLAH MUHAMMAD RASOOL ALLAH", you are saying "I reject Muhammad and his message." This is what it means.
 Abdel Rahman: How? Explain it to me.
 41:44
 Dr. Khalifa: By breaking the commandments in the Quran. By breaking the commandment of making distinction
 41:50
 among the prophets. By making... putting another name besides the name of God
 41:57
 and violating the basic principles of the Quran. Abdel Rahman: I'm a putting a name inside by my God because Dr. Khalifa: But that's against...
 42:05
 loving Muhammad is loving God. Because Muhammad, he devoted most of his life to ALLAH SUBHANAHU WA TA'ALA, to His message, in His path. I love him; by loving Muhammad... Dr. Khalifa: If you love him...

45:48
 You know, it says in the beginning اللَّهُ وَمَلَائِكَتُهُ، يُصَلُّونَ عَلَى النَّبِيِّ So, do you agree that اللَّهُ وَمَلَائِكَتُهُ، يُصَلُّونَ عَلَى النَّبِيِّ
 45:54
 Abdel Rahman: This is the present time. Dr. Khalifa: Yes. Hold it. Hold it. Do you agree that اللَّهُ وَمَلَائِكَتُهُ، يُصَلُّونَ عَلَى النَّبِيِّ Abdel Rahman: Yes, I do.
 Dr. Khalifa: So اللَّهُ وَمَلَائِكَتُهُ، يُصَلُّونَ عَلَى النَّبِيِّ now اللَّهُ وَمَلَائِكَتُهُ، يُصَلُّونَ عَلَى النَّبِيِّ Abdel Rahman: Yes.
 46:02
 Dr. Khalifa: So, why are you telling Him to صَلُّوا عَلَى النَّبِيِّ if He's doing it? Abdel Rahman: Since ALLAH and His angels praying on Muhammad, I am as a Muslim, should pray on Muhammad,
 46:13
 and on every single Muslim who is believes in Islam. Dr. Khalifa: Yeah, but according to you, you are saying "اللهم صلى على محمد" right? Abdel Rahman: Yes.
 46:20
 Dr. Khalifa: But already ALLAH tells you that He is making SALAT on Muhammad. Abdel Rahman: That's why I ask ALLAH SUBHANAHU WA TA'ALA to accept my
 46:25
 praying to Muhammad. Dr. Khalifa: No, but He's already doing it. You're asking God to do what He's saying He's doing. Abdel Rahman: For me.
 46:31
 Dr. Khalifa: But you can see that Satan messed up the meaning of this verse. What this really means is during the prophet Muhammad's time, because of the use of the word "AL-NABI"; o you who believe,
 46:41
 support him and help him and stay in touch with him. This is what it means. But the Muslims messed it up and Satan uses it to make the Muslims worship Muhammad instead of God. This is why
 46:51
 I call them Mohammedans. Abdel Rahman: So, we shouldn't actually do that. We shouldn't
 46:57
 actually mention Muhammad in - as I saw you in the prayer, JUM'AH prayer here, you never mentioned
 47:06
 Muhammad for anything. Dr. Khalifa: I'll mention if I need to. I mean, what do we mention him for? Abdel Rahman: You never mentioned. You said - I mean, it's not...
 47:12
 Dr. Khalifa: What do you wanna mention him for? Abdel Rahman: You don't have to mention. Dr. Khalifa: Why? Abdel Rahman: I'm a Muslim, you already know. Dr. Khalifa: I'm asking you, why do you wanna mention Muhammad?
 47:18
 Abdel Rahman: As a messenger of God. Dr. Khalifa: Well, the Quran says only the hypocrites say that. Only the hypocrites declare that Muhammad is "RASOOL ALLAH", because we know that Muhammad
 47:27
 is "RASOOL ALLAH." We don't need to say it. Abdel Rahman: Okay. Dr. Khalifa: Okay. It says (63:1) إِذَا جَاءَكَ الْمُنَافِقُونَ قَالُوا نَشْهَدُ إِنَّكَ لَرَسُولُ اللَّهِ وَاللَّهُ يَعْلَمُ (63:1)
 47:36
 إِنَّكَ لَرَسُولُهُ، وَاللَّهُ يَشْهَدُ إِنَّ الْمُنَافِقِينَ لَكَاذِبُونَ
 47:42
 اشهد ان محمد رسول الله
 47:52
 Abdel Rahman: So, actually you're ignoring completely the, the way Muhammad used to live, and to ignoring
 47:58
 to reject for us as a Muslim to know how Muhammad he used to live his right way according to
 48:03
 the Quran, so we have to follow it. Dr. Khalifa: Are you ignoring the way Muhammad used to live? Abdel Rahman: No, I would be glad to go for it.
 48:12
 Dr. Khalifa: So, why are you wearing a tie? Did he wear a tie? Abdel Rahman: I'm not going for... we are not going for outside as much inside in praying, worshipping...
 48:18
 Dr. Khalifa: Now, wait a minute. You're talking about the way he lived. Abdel Rahman: The way he used to live in belief... Dr. Khalifa: Do you have your camel parking out there?
 48:27
 Abdel Rahman: In behaving muslim, see, you are going for outside. Now, for the service we are going for inside, the way he performed with the Quran, how he used to pray.
 48:33
 Dr. Khalifa: Do you agree that he gave the Quran? Abdel Rahman: Yes. Dr. Khalifa: Do you agree that his source was the Quran? Abdel Rahman: Yes. How...
 48:39
 Dr. Khalifa: Even according to Hadith it says كان خلقه القرآن Abdel Rahman: Yes. Dr. Khalifa: He represented the Quran, right? Abdel Rahman: Yes. Dr. Khalifa: And now we have the Quran. Abdel Rahman: Okay.
 48:45
 Dr. Khalifa: So, therefore if you want to follow Muhammad, you follow the Quran. Abdel Rahman: Okay. How do you know... Dr. Khalifa: Wait a minute. Is this true?
 48:51
 Abdel Rahman: It's true. Dr. Khalifa: Alright. So, this is what we're doing. We're following the Quran, which means we're following Muhammad.
 48:57
 However, Muhammad's job was to deliver the message. He did the job. He did a good job.

And he's gone, and that's his role. He cannot guide you. Abdel Rahman: And that's it, no more? We don't have to think of...

49:03

Dr. Khalifa: It's what the Quran says (5:99) مَا عَلَى الرَّسُولِ إِلَّا الْبَلَاغُ two negatives (5:99) مَا عَلَى الرَّسُولِ إِلَّا الْبَلَاغُ Abdel Rahman: I think, as far as I know, in this SURA, it means like

49:13

you, Muhammad, do not force people to believe in Islam. You are only responsible for delivering

49:20

the message, not to force it. Dr. Khalifa: No. No, this is a general statement that is not violated anywhere in the Quran, it is repeated. (5:99) مَا عَلَى الرَّسُولِ إِلَّا الْبَلَاغُ

49:26

(24:54) مَا عَلَى الرَّسُولِ إِلَّا الْبَلَاغُ And repeated many times. So, the sole function of the prophet or the messenger is to deliver the message.

49:33

Abdel Rahman: That's all? Dr. Khalifa: (28:56) وَأَنْتَ لَا تَهْدِي مَنْ أَحْبَبْتَ Abdel Rahman: وَلَكِنْ اللَّهُ يَهْدِي مَنْ يَشَاءُ Dr. Khalifa: Right. Abdel Rahman: This is also supporting the same AYA, so you said it now. It's like you don't force it on people for believing,

49:44

no, you just deliver the message, and you perform it, and teach the people how to do it.

49:49

Dr. Khalifa: No, no, no. Now, you are adding other things, because it says (5:99) مَا عَلَى الرَّسُولِ إِلَّا الْبَلَاغُ There's nothing else. Abdel Rahman: These people come to the mosque here, who they follow? They follow you, how to do, right?

49:59

Dr. Khalifa: No, they follow the Quran. They don't follow me. Abdel Rahman: You teach them, Abdel Rahman: you hold this Quran and you teach them in the Quran, so they sit and listen

50:05

and look at you, and they say that's right, that's right. Who is right? Dr. Khalifa: The Quran. Abdel Rahman: Doctor Khalifa right in a way of interpreting the

50:12

Quran here. So, I am following doctor Khalifa. I am not actually... Dr. Khalifa: No, you are not. Dr. Khalifa: You follow doctor Khalifa then you're not right.

50:18

Abdel Rahman: It's not right? Dr. Khalifa: That's right. Abdel Rahman: Okay. Let's also... Dr. Khalifa: Anybody here, and we all know this, we do not follow any person. And we emphasize here we are worshipers of God alone, we follow

50:27

the word of God alone, and if I ever say anything that is not in the Quran and it contradicts

50:32

with the Quran, I'm the first one to appreciate alerting me to this, because then I'm wrong. Abdel Rahman: If I am following... Dr. Khalifa: Nobody follows me.

50:39

Abdel Rahman: If I am following the Quran, why should I come to this mosque to listen to Khalifa? Dr. Khalifa: You don't need to. You don't need to. Abdel Rahman: ...here, I look at it in the house. I don't need to leave it

50:45

to mister, doctor Khalifa, right? Dr. Khalifa: That's right. Abdel Rahman: That's right. Dr. Khalifa: Absolutely, you don't need anybody, you don't need Rashad Khalifa or anybody. You just...if you have the Quran, you don't need anybody because

50:54

you follow the Quran and nothing else. Abdel Rahman: You said in your brochures here also, Islam being

51:02

practiced today. Dr. Khalifa: Can I go back to your question, why we come here to the mosque? Abdel Rahman: Yes.

51:08

Dr. Khalifa: There's a commandment in the Quran that says (18:28) يُرِيدُونَ وَجْهَهُ وَأَصْبِرْ نَفْسَكَ مَعَ الَّذِينَ يَدْعُونَ رَبَّهُمْ بِالْغَدَاةِ وَالْعَشِيِّ

51:14

It says "force yourself to be with those who worship God alone." Because it's a social function. This is why

51:20

God instituted the Friday Prayer every week, so all the believers who follow the Quran alone must get together. They must know each other. They must be united, as you know. Throughout

51:28

the Quran these instructions are there. This is the only reason we are here. And there are replicas of this masjid in many other places around the world who do not have Rashad Khalifa there

51:39

because we have our leader is the Quran. Our imam is the Quran. Our guide is the Quran, the word of God. We are worshippers of God alone. And we go out of our way to destroy persons

51:50

or idols of any kind, alive or dead. So, this is the reason we get together here.

51:58

Abdel Rahman: In your brochures, you had also, if you can comment in this, please - you said here "Islam being practiced today is severely corrupted beyond recognition."

52:09

Can you elaborate on this for me, please? Dr. Khalifa: Absolutely. The Muslims in the world today do not do

52:15

anything according to the prophet Muhammad's teachings. You, for example, did you make WUDU, today?

52:22

Abdel Rahman: Yes, I do. Dr. Khalifa: Okay. Can you describe it to me? Abdel Rahman: As usual. Dr. Khalifa: Okay, go ahead, describe it. Number one, you open the faucet.

52:30
 Abdel Rahman: Yeah. Dr. Khalifa: You wash your hand. Abdel Rahman: Yes. Dr. Khalifa: Okay. Abdel Rahman: I wash my face. Dr. Khalifa: Okay. Abdel Rahman: Arms. Dr. Khalifa: Yeah.

52:35
 Abdel Rahman: My feet. Dr. Khalifa: Yeah. Abdel Rahman: That's as far as I know. Dr. Khalifa: Okay, you didn't do your head.

52:41
 Abdel Rahman: Yes, I do my hair. Dr. Khalifa: You didn't... Abdel Rahman: My ears. Dr. Khalifa: Your ears. Abdel Rahman: My mouth, that's Sunnah. You said you don't follow Sunnah. According to...

52:48
 Dr. Khalifa: I'm asking you what you did. About your actions today... Abdel Rahman: Well, exactly what I did. I said "NAWAYTO SUNNAH AL-WUDU", there's Sunnah before Fajr.

52:58
 Sunnah is me washing my mouth, because I'm going to stand next to someone, I don't

53:03
 wanna him to smell my smell. So, I wash my mouth, wash my nose... Dr. Khalifa: Being bothered by bad breath.

53:12
 Dr. Khalifa: Okay, so you wash your hands first? Abdel Rahman: Yes. Dr. Khalifa: Okay, then you wash your mouth? Abdel Rahman: Yes. Dr. Khalifa: Then your nose? Abdel Rahman: Yes, wash my nose, and my face.

53:18
 Dr. Khalifa: Then, you wash your face. Abdel Rahman: And my arms. Dr. Khalifa: Your arms. Abdel Rahman: My hair. Dr. Khalifa: Your hair. Abdel Rahman: My ears.

53:23
 Dr. Khalifa: Your ears. Abdel Rahman: My feet. Dr. Khalifa: My feet. 8 steps. Abdel Rahman: Yes. They're 8 steps, right? Abdel Rahman: Yes. Dr. Khalifa: Okay, now if we look in the Quran, this is what came out of Muhammad's mouth.

53:33
 I'm taking you as an example, because you're telling me that the Muslims practice something that is corrupted, severely corrupted. If you look in the Quran, what came out of

53:41
 Mohammad's mouth the following يَا أَيُّهَا الَّذِينَ ءَامَنُوا إِذَا قُمْتُمْ إِلَى الصَّلَاةِ فَاغْسِلُوا وُجُوهَكُمْ وَأَيْدِيَكُمْ إِلَى الْمَرَافِقِ وَامْسَحُوا بِرُءُوسِكُمْ وَأَرْجُلَكُمْ إِلَى الْكَعْبَيْنِ (5:6)

53:52
 4 steps. Now, Satan will not accept that. He has to have his 4 steps also. Abdel Rahman: And this will hurt Islam if we add 2 or 3?

54:00
 Dr. Khalifa: Of course. Abdel Rahman: If I wash my hands... Dr. Khalifa: Yes. Abdel Rahman: If I wash my hands and wash my ears, and if

54:06
 I wash thoroughly, if I clean myself, that will hurt Islam? Dr. Khalifa: Absolutely. You're not following the Quran. Abdel Rahman: If I pray to ALLAH SUBHANAHU WA TA'ALA, He says

54:13
 pray to God... Dr. Khalifa: Wait, hold it, hold it, let's stay with the WUDU. We're gonna go to other examples. I wanna show you that Muslims do not do anything

54:21
 according to Muhammad's teachings. Out of Muhammad's mouth came the teaching that we should have 4 steps. You made 8 steps. 4 from God and 4 from Satan.

54:31
 Abdel Rahman: What's wrong with that? Dr. Khalifa: So, you have a... This is what is wrong with it. Abdel Rahman: What is wrong with it? Dr. Khalifa: You have a SHARIK. You have another god besides God telling you - who told you to do additional

54:38
 4 steps? Another god! Abdel Rahman: It's more clean. Dr. Khalifa: Well, why don't you take a bath? Abdel Rahman: I take a bath sometime.

54:45
 Dr. Khalifa: Well, fine, but this has... Abdel Rahman: Whil you take a bath, there is no need for WUDU Dr. Khalifa: We're talking about the worship, okay? This is talking about ablution as an act of worship. Abdel Rahman: Yes.

54:52
 Dr. Khalifa: I brush my teeth in the morning when I get up but this has nothing to do with worship. This is my hygienic practices.

54:58
 Abdel Rahman: Yes. Dr. Khalifa: Okay. But we're talking about the WUDU as a form of worship. Do the Muslims follow what came out of Mohammad's mouth? The answer is for

55:07
 you "no." You are not following... No. Abdel Rahman: Yes, the answer is yes. Dr. Khalifa: No, you're not. Abdel Rahman: I follow it, and I add some more.

55:12
 Dr. Khalifa: Exactly, you add some more. Abdel Rahman: Some more to be more careful. Dr. Khalifa: Right. Either you know better than God, or you have another god that is adding steps

55:20
 to you. What is the source of the other 4 steps? Abdel Rahman: Excuse me, doctor Khalifa, this is a mercy of ALLAH SUBHANAHU WA TA'ALA when He say "you

55:28
 people pray 2 RAKAT" and I come to the mosque, I do pray 4 RAKAT. It's mean like I'm not

55:33
 following God. I'm praying for You ALLAH 2 RAKAT, and I added 2 RAKAT for extra for

55:40
 me to make it more... Dr. Khalifa: No. Then, you have another god who told you to do 2 extra RAKATs. Because the number of RAKATs is mathematically coded according to

55:49
 God in the Quran, according to God's system. And if you add anything else, then you have another god who told you to do those two RAKATs.

55:56
 Let me show you from the Quran. Okay? Abdel Rahman: Yes. Dr. Khalifa: ALLAH SUBHANAHU WA TA'ALA ordered the angels to fall prostrate, make SUJUD before Adam,

56:03
 right? Abdel Rahman: Yes. Dr. Khalifa: They fell prostrate before Adam. Who were they worshipping? Who? They made SUJUD before Adam. Who were they worshipping?

56:13
 Abdel Rahman: Who were they worshipping? Dr. Khalifa: Who? Abdel Rahman: Who? Dr. Khalifa: God. The source of the order, right? Abdel Rahman: God. Abdel Rahman: Yes. Dr. Khalifa: They were not worshipping Adam. Even though

56:20
 they were making SUJUD before Adam. Abdel Rahman: Yes. Dr. Khalifa: They are worshipping the source of the order. Abdel Rahman: Okay.

56:25
 Dr. Khalifa: So, if you make SUJUD to God because Muhammad told you to make SUJUD to God, you're not worshipping God. You're worshipping the source of the order, Muhammad.

56:33
 Do you understand me? You are breaking the mathematical code. The number of RAKATs. If God told you to do 2 RAKATs, you must do 2 RAKATs. If you add more,

56:43
 then you... Abdel Rahman: That's against Islam. Dr. Khalifa: Exactly. Abdel Rahman: I should do exactly 2 RAKATs, no more, no less?

56:48
 Dr. Khalifa: That's right. In your WUDU, you must do the 4 steps, no more and no less. Okay, this is

56:54
 WUDU. Abdel Rahman: Yes. Dr. Khalifa: Now, I ask another question about SALAT. Did you pray the Noon yesterday?

57:00
 Abdel Rahman: Yes. Dr. Khalifa: Did you do it silently or loudly? Abdel Rahman: Silently. Dr. Khalifa: This is against the Quran. You are not obeying

57:08
 the prophet Muhammad here. Abdel Rahman: Why? Dr. Khalifa: Because if you look in SURA 17, verse 110, it says لَا تَجْهَرُ بِصَلَاتِكَ وَلَا تُخَافُتُ بِهَا

57:16
 وَأَتَّبِعْ نَبِيَّكَ ذَلِكُمْ سَبِيلًا Dr. Khalifa: Exactly. Abdel Rahman: Which one? the Noon one? Dr. Khalifa: 110. Abdel Rahman: The Noon SALAT or all the SALAT?

57:23
 Dr. Khalifa: All the SALAT, didn't say the Noon or what. It said لَا تَجْهَرُ بِصَلَاتِكَ وَلَا تُخَافُتُ بِهَا Do not say your SALAT in a loud voice or secretly."

57:31
 Therefore, when you do it secretly, you have another god who told you to do it secretly. Abdel Rahman: No. According to my knowledge...

57:37
 Dr. Khalifa: Why do you not follow the Quran? Abdel Rahman: Well, let me comment on this. Dr. Khalifa: No, the point that I'm making is that the Muslims are not following the Quran or Muhammad.

57:47
 Abdel Rahman: You are damaging, excuse me for this expression and I hope you will correct me if I'm wrong,

57:52
 you are damaging completely the "TA'LIM" of Muhammad (SAW), even

57:59
 in his early days, like Muhammad he followed and he and his follower were silent in doing

58:08
 SALAT, in Noon prayer and in ASR, afternoon prayer. Dr. Khalifa: Yes. Abdel Rahman: Because they were weak at that time. They were weak at that time, and they were aware, afraid of the KAHERIN.

58:20
 Dr. Khalifa: Are you weak now? Are you afraid of the KAHERIN attack you? Abdel Rahman: No, that's why we follow his way.

58:25
 Dr. Khalifa: So, but he left you the Quran... Abdel Rahman: It's like when you follow a Christmas way,

58:30
 as a remembering. It's not damaging, sometimes... Dr. Khalifa: So, you disobey the Quran in other words.

58:38
 Abdel Rahman: No, we... Dr. Khalifa: Did you see the prophet pray silently? Abdel Rahman: No, this is the Sunnah... Dr. Khalifa: This is what you heard, right?

58:44
 Abdel Rahman: Yes. Dr. Khalifa: So, you follow hearsay, and you don't follow the Quran. Abdel Rahman: Okay. Dr. Khalifa: Right? Abdel Rahman: Okay. This...

58:51
 Dr. Khalifa: What do you mean okay? Abdel Rahman: Well, I'm not gonna go through this because... Dr. Khalifa: You are saying that I'm destroying all the TA'LIM of Muhammad, right?

58:57
 Abdel Rahman: Mmmhmm. Dr. Khalifa: And I tell you I hope I'm destroying what you think is TA'LIM of Muhammad because it is not.

59:03
 TA'LIM of Muhammad is in the Quran, and he told you not to do the prayer silent. Now, again, can you tell me what you say in your SALAT sitting down? In the sitting position.

59:14

Abdel Rahman: Yes, I noticed also in your SALAT as soon as you sit you said الله السلام عليكم ورحمة الله I mean, you didn't say anything at all, right?

59:21

Dr. Khalifa: What do you say? Abdel Rahman: لا إله إلا الله وأشهد أن محمداً رسول الله

59:36

Dr. Khalifa: You don't say محمد و آل محمد صلى الله عليه وسلم Abdel Rahman: Well, that's extra. You don't have to say it.

59:41

Dr. Khalifa: Okay. Now, this what you just said here nullifies the SALAT, okay? It makes it zero.

59:47

Abdel Rahman: Do you know the occasion of this one? Dr. Khalifa: It violates the Quran and makes it absolutely

59:54

null and void and useless and a waste of time. Even worse, it makes you a MUSHRIK. Because the Quran says

1:00:02

(72:18) وَأَنَّ الْمَسْجِدَ لِلَّهِ فَلَا تَدْعُوا مَعَ اللَّهِ أَحَدًا That the mosque or the masjid or places of SUJUD belong to God, you shall not mention anybody else

1:00:12

أحدًا anybody else with God. So, when you sit down and you mention the name of Muhammad or, AL-NABI in the Quran, you're finished. You're a dead duck. The SALAT

1:00:20

doesn't mean a thing. You are disobeying God and disobeying the prophet. So, as you see, the Muslims are practicing a religion that has nothing to do with Muhammad.

1:00:30

And they misunderstand that. As you see, the WUDU is wrong. The AZAN is wrong.

1:00:36

The AZAN that they do - can you tell me any AZAN in any place in the Muslim world that is devoted

1:00:42

to ALLAH alone? Anywhere in the world? Abdel Rahman: Well, what the AZAN says?

1:00:47

Well why? It's always devoted to ALLAH SUBHANAHU WA TA'ALA Dr. Khalifa: It doesn't mention Muhammad at all?

1:00:53

Abdel Rahman: No, It's mentioning Muhammad is against the religion. By mentioning... once you mention Muhammad, it's like اشهد ان لا اله الا الله و اشهد ان محمدا رسول الله

1:01:02

It's mean I bear witness there is no god but one God, and Muhammad is the messenger

1:01:07

of God. It's mean, this is the last messenger of God. Dr. Khalifa: Well, the fact is that the AZAN is not devoted to God alone. There is Muhammad in it.

1:01:16

Abdel Rahman: Okay, Muhammad, he is the messenger. He deliver the message to me. Dr. Khalifa: Yeah, but he delivered a message telling you to only mention God alone.

1:01:23

(72:18) وَأَنَّ الْمَسْجِدَ لِلَّهِ فَلَا تَدْعُوا مَعَ اللَّهِ أَحَدًا This is very clear Arabic. It's telling you that this worship belongs to God, do not mention any other names.

1:01:32

And you're telling "forget it. I'm gonna mention Muhammad next to You." You are defying God and defying Muhammad. You are going against the Quran.

1:01:41

So, let us just think, you know. The Muslims are doing the AZAN wrong, the WUDU wrong, the SALAT wrong, the ZAKAT wrong, the SIYAM wrong, HAJJ wrong.

1:01:49

Abdel Rahman: How they do that, because I would like to go through also the points that you said? Dr. Khalifa: Okay, you heard about the AZAN. You hear about the WUDU.

1:01:57

Abdel Rahman: Yes. Dr. Khalifa: You heard about the SALAT. Abdel Rahman: Yes. Dr. Khalifa: And now we come to ZAKAT, for example.

Abdel Rahman: Yes. Dr. Khalifa: Okay. If you look in SURA number 6, verse

1:02:04

141. It says that the ZAKAT must be given on the day of harvest.

1:02:11

وَأَتُوا حَقَّهُ، يَوْمَ حَصَادِهِ Okay? Now, we, you and I, harvest paychecks or

1:02:19

dollars. We do not harvest wheat and corn and so on, right? Abdel Rahman: Yes. Dr. Khalifa: So, the day we receive any money, we must give the ZAKAT on that day immediately,

1:02:28

according to the Quran's teachings as who receives the ZAKAT and so on.

1:02:33

Now, the Muslims give the zakat once a year. Which means what? The hungry people have to wait a year before they get the assistance.

Abdel Rahman: I know there is a distinguish between ZAKAT

1:02:43

and the SADAQA. Dr. Khalifa: Well, we're talking about ZAKAT. We're talking about ZAKAT. (6:141) يَوْمَ حَصَادِهِ

1:02:49

the ZAKAT is "HAQ", must be... Abdel Rahman: You interpret ZAKAT - "HAQ" means ZAKAT?

1:02:55

Dr. Khalifa: No. I mean, it's very clear in the verse. It says (6:141) يَوْمَ حَصَادِهِ وَأَتَوْا حَقَّهُ. Abdel Rahman: "HAQ" who?

1:03:01

Dr. Khalifa: ZAKAT of the harvest. Abdel Rahman: It didn't mention ZAKAT now. Now, we are going by your word. Dr. Khalifa: So, what is it? What is "حَقُّهُ"?

1:03:08

Abdel Rahman: What's "حَقُّهُ" means? Abdel Rahman: Yeah, you tell me what "حَقُّهُ" means. Dr. Khalifa: If you read the verse. Abdel Rahman: "HAQ" means "SADAQA", mean... Dr. Khalifa: No, SADAQA is not "HAQ." SADAQA is voluntary.

1:03:17

OK. There's a difference between ZAKAT and SADAQA. The ZAKAT is obligatory. The SADAQA

1:03:23

and there's "HAQ." Abdel Rahman: Yes. Dr. Khalifa: But the SADAQA is voluntary. It's any charitable act that you do to any poor person.

1:03:31

Okay? Abdel Rahman: There is ZAKAT for Ramadan, and there is also another ZAKAT for your money. Dr. Khalifa: Yeah, there is just only one ZAKAT. It's one ZAKAT which is came to

1:03:42

us from EBRAHIM. ربيع العشر 2.5%. It came very simple "ربيع العشر"

1:03:48

And it is given as soon as you receive any income, whenever you receive any income. But the Muslims do it

1:03:55

wrong, do it once a year on their savings. That's not the way it should be. Abdel Rahman: How also you explain the fasting? Dr. Khalifa: Well, the fasting, they do not - they never agree on

1:04:08

the beginning or the end of Ramadan, as you know. They quit any productive work during the month of Ramadan.

1:04:15

They become obnoxious creatures, and they are angry easily, and they're very bad people

1:04:21

and they blame it on the fasting. This is not the way to do SIYAM. And the HAJJ is ruined by going to Medina and worshipping at the tomb of the prophet.

1:04:30

Abdel Rahman: No, this has nothing to do with HAJJ. Everybody knows that when you go to visit the mosque

1:04:38

of RASOOL (عليه صلاة وسلام), it's extra. Dr. Khalifa: Hadith says that "HAJJ is not complete without visiting my tomb." And I don't know when he said that, when he was alive or dead?

1:04:51

But this - whether it is part of the HAJJ or not, it destroys the HAJJ. Abdel Rahman: Yeah, you said you translate the Quran, right? Dr. Khalifa: Yes.

1:05:00

Abdel Rahman: And you said "my translation was authorized by God." Dr. Khalifa: Yes. Abdel Rahman: What do you mean by that? I would like you

1:05:07

to elaborate on this point. Dr. Khalifa: Well, when I started to translate, I didn't want to publish it because I thought, I said "I will not publish it unless it's authorized",

1:05:16

and I demanded certain signs that it is authorized and I received the signs, and I published

1:05:21

it, and called it authorized. Abdel Rahman: How you did you receive it? Dr. Khalifa: Well, that's a long story that's beyond this interview. So, let's leave it at that.

1:05:27

Abdel Rahman: Well, we would like to know it, you know. I think people would like to know how - what kind of authorization you say Dr.

Khalifa: Come to the conference and I'll give you the details. I'm gonna give the details

1:05:35

at the conference. Abdel Rahman: Can't you even give me a hint about it? Like here probably here, you said "when I was in Mecca"... Dr.

Khalifa: I can give you a few hints.

1:05:43

Abdel Rahman: Yes, go ahead, please. Dr. Khalifa: My English translation is the 19th translation.

1:05:48

And if you're aware of the mathematical code, the number 19 is the common denominator

1:05:56

in the Quran, in the previous scriptures, in you and me, in the universe. And also...

1:06:02

Abdel Rahman: You mean, if I'm a Muslim, I have to concentrate on nothing but numbers in Quran.

1:06:08

Quran is not numbers. Quran is spiritual... D. Khalifa: No, if you do that, you'd be wrong. Abdel Rahman: Quran is spirit. Dr. Khalifa: Yeah.

Abdel Rahman: The most important thing... Dr. Khalifa: Just like...

1:06:15

Abdel Rahman: The Quran, the word of it, the constitution I have to follow it, the living life of it.

1:06:20

If you approve by numbers that it is the miracle of God, that's enough for me and I have to

1:06:27

move to another point. Dr. Khalifa: That's right, you bet. Abdel Rahman: Okay. Dr. Khalifa: So, how many times did we talk about the number 19, since we started? We're not concentrating on the number 19, you

1:06:36

are. Abdel Rahman: Okay, you concentrating... Dr. Khalifa: We talked about SALAT, and ZAKAT, and HAJJ, and the Quran, and the teachings

1:06:42

in the Hadith, and so on. We didn't talk about the number 19. Abdel Rahman: OK. let's talk about number 19 now. Dr. Khalifa: But anyway, the signs were abundant that this

1:06:52

Quran is authorized. I give here in the Muslim Perspective details about my name, and the verses

1:06:58

and the SURAs where my name is mentioned and so on. So, you have to look it up and come to your own conclusions. This is why the translation is authorized.

1:07:05

Abdel Rahman: And that's why you claim that you are a messenger of God. Dr. Khalifa: That's right. Abdel Rahman: You believe that you are a messenger of God, right?

1:07:11

Dr. Khalifa: Right. Abdel Rahman: How do you believe that? Why do you believe this? Dr. Khalifa: Well, I gave you... like I said, I gave you several proofs.

1:07:18

Abdel Rahman: Give me. Dr. Khalifa: And there are many other proofs. Abdel Rahman: One of the proof is the... Dr. Khalifa: The discovery of the mathematical code is one.

1:07:24

Abdel Rahman: I mean like... Dr. Khalifa: This is something that's very simple. It's been in the Quran for 1400 years,

1:07:30

right? Abdel Rahman: But no one discovered it but you. Dr. Khalifa: No one discovered it but me. Abdel Rahman: And that's why you are a messenger of God?

1:07:35

Dr. Khalifa: That's right. It's mean like the one who invented the aeroplanes, the things I can't even reach my mind, I can't even - I can also put him as a messenger

1:07:45

of God because this is something... Dr. Khalifa: Okay, there are two points here. The first point is that we're talking about the Quran which is a special, divinely controlled book.

1:07:54

As you heard in the KHUTBA, no one can touch a word in it unless they are sincere believers.

1:08:00

That's what God says. Do you believe that? Abdel Rahman: Yes, I do. Dr. Khalifa: Do you believe God when He says that nobody will touch anything in the Quran unless he

1:08:06

is a sincere believer? Abdel Rahman: How do you say it in Arabic? How do you say it in Arabic? Dr. Khalifa: It says (56:79) لَا يَمَسُّهُ إِلَّا الْمُطَهَّرُونَ

Abdel Rahman: (56:79) لَا يَمَسُّهُ إِلَّا الْمُطَهَّرُونَ

1:08:13

The one who - has nothing to do with... Dr. Khalifa: Okay. It says (18:57) وَمَنْ أَظْلَمُ مِمَّنْ ذُكِّرَ بِآيَاتِ رَبِّهِ فَأَعْرَضَ عَنْهَا وَنَسِيَ مَا قَدَّمَتْ يَدَاهُ إِنَّا جَعَلْنَا عَلَى قُلُوبِهِمْ أَكِنَّةً أَنْ يَفْقَهُوهُ وَفِي آذَانِهِمْ وَقْرًا

1:08:23

Abdel Rahman: Yes. Dr. Khalifa: So, the person who is not a believer in the Quran will have shields on their heart "أَكِنَّةً عَلَى قُلُوبٍ".

1:08:30

وإذا قرأت القرآن جعَلْنَا بَيْنَكَ وَتَيْنِ الَّذِينَ لَا يُؤْمِنُونَ (17:45) بِالْآخِرَةِ جَذَابًا مُسْتَوْرًا

1:08:37

(18:57) وَمَنْ أَظْلَمُ مِمَّنْ ذُكِّرَ بِآيَاتِ رَبِّهِ فَأَعْرَضَ عَنْهَا وَنَسِيَ مَا قَدَّمَتْ يَدَاهُ إِنَّا جَعَلْنَا عَلَى قُلُوبِهِمْ أَكِنَّةً أَنْ يَفْقَهُوهُ وَفِي آذَانِهِمْ وَقْرًا

1:08:42

understand the Quran, according to this? Abdel Rahman: According to the Quran, yes. Dr. Khalifa: Right. Therefore, the people who are not sincere, the people who are liars, the people who are

1:08:53

disbelievers, they cannot understand the Quran because God puts shields on their hearts,

1:08:58

their minds, and deafness in their ears. Do you agree? Abdel Rahman: Yes. Dr. Khalifa: Okay, God says that. Abdel Rahman: Okay. Dr. Khalifa: Therefore, if I am given access to the most

1:09:07

important secret in the Quran, can I be a disbeliever who tricked God and discovered

1:09:13

the Miracle of the Quran? Is this possible? Abdel Rahman: I think so...

1:09:19

Dr. Khalifa: Do you think anybody can trick God? Abdel Rahman: No. Dr. Khalifa: Okay. So, any disbeliever cannot trick God and sneak behind His back and find something

1:09:29

in the Quran. Abdel Rahman: I think when you claim you are a messenger of God, you are not tricking God. This is... Dr. Khalifa: No, no, no, I'm talking about discovering the Miracle

1:09:35

of the Quran as a sign of messengership. Abdel Rahman: Well, there are a lot of ways to discover,

1:09:40

hundreds, hundreds of scholars, they discovered that the Quran is miracle by its word, by

1:09:47

its verses. Dr. Khalifa: Inspired yes, then those are good people. Dr. Khalifa: Are they good people? Abdel Rahman: They taught us how miracle, how beautiful the

1:09:55

Quran, by its words is, not by its numbers. It's fascinating when you understand the Quran

1:10:01

by its words, by the Quran itself. Dr. Khalifa: Are you familiar with the mathematical code?

1:10:07

Abdel Rahman: No, sir, I'm not. Dr. Khalifa: Okay, so you have to look at it and understand it first to appreciate that. Anyway, it is... Dr. Khalifa: Do you think you can give a brief idea for

1:10:16

the audience? Dr. Khalifa: Yes. Absolutely, okay. Abdel Rahman: Thank you. Dr. Khalifa: It's a psychical fact that "BISMI ALLAH AL-RAHMAN AL-RAHIM" which is the first verse in Quran consists of 19 letters.

1:10:23

It is a physical fact that the SURAs of the Quran are 114, 19x4. It is a physical fact that the first words revealed were 19 words:

1:10:32

أَفْرَأَ بِأَسْمِ رَبِّكَ الَّذِي خَلَقَ (96:2) خَلَقَ الْإِنْسَانَ مِنْ عَلَقٍ (96:3) أَفَرَأَ وَرَبُّكَ الْأَكْبَرُ (96:4) الَّذِي عَلَّمَ بِالْقَلَمِ (96:1)

1:10:38

(96:5) عَلَّمَ الْإِنْسَانَ مَا لَمْ يَعْلَمْ These are 19 words. It is a physical fact that this first SURA, SURA "Al-'Alaq", consists of 19 verses.

1:10:46

It is a physical fact that this SURA, "Al-'Alaq", is on top of the last 19 SURAs in the Quran.

1:10:52

It is a physical fact that "BISMI ALLAH AL-RAHMAN AL-RAHIM" - well, let me go to deeper facts.

1:11:00

The number of verses in the Quran is 6346, which is a multiple of 19.

1:11:06

If you count the word "ALLAH" in the Quran, you'll find that it is 2698, 19x142.

1:11:14

The word "Quran" in the Quran is mentioned 57 times, 19x3 in 38 SURAs, 19x2. When you take the verses where the word "Quran"

1:11:23

is mentioned, you find that the total is 2660, 19x140.

1:11:29

"ALLAH WAHDAHU" in the Quran, when you look at here in the index - I will let you look it up yourself. Look here mister Abdel Salem.

"WAHDAHU", when it

1:11:52

says about "ALLAH WAHDAHU", SURA 7, verse 70. This is "AL-QURAN WAHDAHU", so we don't count it.

1:11:58

But here's "ALLAH WAHDAHU", 39:45... Abdel Rahman: I think - okay, I should look like this and you can concentrate... Dr. Khalifa: No, you just get this from the library.

1:12:06

Abdel Rahman: You can do it, you can show me. Dr. Khalifa: No, this is - to look on this way. But you get this "Al-Mu'jam Al-Mufahas", okay, from any library, any Islamic library, any Islamic center.

1:12:17

And look at page 745, and you look at the SURAs and verses where "ALLAH WAHDAHU" is mentioned, okay?

1:12:24

SURA 7, verse 70. SURA 39, verse 45. SURA 40, verses 12 and 84. SURA 60, verse 4.

1:12:32

You add these numbers, they come to 19x19. OK? The word "WAHED", when it refers to God is 19 times

1:12:41

So, this goes on and on, SURA "QAF" has 57 QAFs, 19x3. SURA "NOON" has 133 NOONs, 19x7.

1:12:51

The 3 SURAs initialed with "SAAD" have 152 SAADs, 19x8. And it goes on and on, I believe you saw it in the blue book.

1:12:59

Abdel Rahman: How do you... Dr. Khalifa: So, this proves that every letter... Abdel Rahman: Yes. How do you count, calculate all of this from the Quran itself here, and at the same

1:13:10

time you say this Quran been injected with different letters in different SURAs? How? Well, now...

1:13:17

Dr. Khalifa: You mean that 2 verses? Abdel Rahman: There's only 2 verse been injected in the Quran? Dr. Khalifa: Yeah. Abdel Rahman: The rest of the Quran is perfect? Dr. Khalifa: Yes. This is how the 2 verses were discovered

1:13:26

because they stand out like a sore thumb. Abdel Rahman: What's that mean? Dr. Khalifa: They ruin the words - listen to this - all the forms, all the forms of the word God are distorted

1:13:37

in these 2 verses. The word "ALLAH", there is 1 extra in these 2 verses. Listen to me. The word "ALLAH", there are 2698 in the Quran. If you include these

1:13:46

two verses, it becomes 2699 which is not a multiple of 19. The word "ILAH" is also by 1, and the word "RAB"...

1:13:55

Abdel Rahman: Let me show it to the audience before you go through what kind of 2 verses doctor Khalifa is talking about. It is in the SURA

1:14:04

"TAWBAH" in the last 2 verses, says بِالْمُؤْمِنِينَ رِءُوفٌ رَحِيمٌ

1:14:16

فَإِنْ تَوَلَّوْا فَقُلْ خَشِيَ اللَّهُ لَوْلَا إِلَهُهُ إِلَّا هُوَ عَلَيْهِ تَوَكَّلْتُ وَهُوَ رَبُّ الْعَرْشِ الْعَظِيمِ

1:14:23

Doctor Khalifa, he according to his words says "this is not Quran. This is been injected in the Quran".

1:14:31

Dr. Khalifa: Yes. Abdel Rahman: Would you please explain? Dr. Khalifa: No, you're going away from the subject now. Abdel Rahman: Okay. Dr.

Khalifa: From the Mathematical Code. Abdel Rahman: Yes.

1:14:37

Dr. Khalifa: The Mathematical Code proves that every letter in the Quran, except these 2 verses that were humanly injected. Show me this book again, the two verses. Let me see it

1:14:50

Dr. Khalifa: Okay. These 2 verses are at the end of SURA number 9. OK.

1:15:01

Dr. Khalifa: I want you to read the title of the SURA to the audience, okay? And zoom the camera on him.

1:15:08

He's gonna read the title of the SURA, everything that is written in here. SURA 9. Abdel Rahman: SURA number 9. Dr. Khalifa: Yes.

1:15:14

Abdel Rahman: SURA AL-TAWBAH المائدة نزلت بعد المائدة ١٢٩ وآيتها مكية و الآيتين الأخيرتين مكية

1:15:29

Dr. Khalifa: Okay. This says that this is SURA entitled "AL-TAWBAH." It is a Medinan SURA except the last 2 verses. They were Meccan.

1:15:36

Now, if you go to Egypt and buy a coin that says on it "this was done in the year 350 BC,

1:15:44

will the people laugh at you or not? Because there was no date before Jesus Christ called 350 BC. There was no dating then.

1:15:54

And everybody will realize that this a stupid tourist who bought this coin. Now, we are not stupid to accept a Medinan SURA with two Meccan verses at the end of it.

1:16:05

So, even this Quran that you carry is telling you that these two verses are fake. They're human injected.

1:16:12

The Mathematical Code exposes them. The word "ALLAH", the word "ILAH", the word "RAB" are all increased by 1 because of these 2 verses, for example.

1:16:20

Abdel Rahman: How did you discover it's been injected? How did you find? Dr. Khalifa: By the mathematical Code. The Mathematical Code confirms that the Quran is perfect, and that

1:16:28

these two sentences were added in it to exalt the prophet Muhammad and to worship him.

1:16:34

As you know, they deal with the prophet Muhammad. Abdel Rahman: So, by your mathematical - as you name it - the

1:16:40

divine mathematical... Dr. Khalifa: No, forget the mathematics. You just read yourself now at the title of the SURA that the whole SURA is Medinan except the last two verses.

1:16:47

They're Meccan. How could that be? When the prophet moved from Mecca to Medina, everything revealed after that was Medinan. How did the two Meccan verses get injected

1:16:57

in a Medinan SURA? You do not find Meccan verses in Medinan SURAs. You find Medinan SURAs in Meccan... wait a minute. You find Medinan verses in Meccan SURAs but not the other way around.

1:17:08

So, if we think a little bit, you yourself read it now. And this tells you that these two

1:17:13

verses are at least suspect. So, the Mathematical Code prove beyond doubt,

1:17:19

plus a lot of other evidence. Even in BUKHARI says these two verses are not correct.

1:17:25

If you read it carefully, and you read the story of collecting the Quran, okay, recording the Quran, it tells you that every single verse in this Quran was witnessed

1:17:36

by more than one witness, except these 2 verses, the last two verses of SURA 9. They were witnessed

1:17:42

only by one person, Khuzeimah Ibn Thaabet Al-Ansaary. Ansaary means he is Medinan, and the two

1:17:48

verses are Meccan. I mean, it doesn't take too much intelligence. Abdel Rahman: A lot of people, they moved from Medina to Mecca after...

1:17:54

Dr. Khalifa: No, no, no, not Al-Ansaar. This is Khuzeimah Ibn Thaabet Al-Ansaary. So, these are the only two

1:18:00

verses in the Quran that were witnessed by only one witness according to the stories. I mean, forget anything else. Even assuming these stories are correct.

1:18:10

Abdel Rahman: So, you wanna say in other words those two verses are not Quran, actually? Dr. Khalifa: That's right. Abdel Rahman: Or probably they are from Quran, and they should Dr. Khalifa: They're from Satan.

1:18:17

be in a different place. Dr. Khalifa: No, no, no, they are not Quran. Abdel Rahman: You say they are not Quran period? Dr. Khalifa: They are not Quran, period. Abdel Rahman: They are not Quran? Dr. Khalifa: That's right. They stand out by many many many overwhelming

1:18:26

evidence, proofs, many proofs. But this...you have to write a book about that.

1:18:31

Abdel Rahman: You have to write a book about that? Dr. Khalifa: That's right. Abdel Rahman: Also, by inventing the divine mathematical codes, that's why you claim for - we assume that

1:18:47

you are a messenger of God because of this one, right? Or there is any other evidence? Dr. Khalifa: Well, the fact that we want to establish here is that no one can touch the Quran unless

1:18:55

he is a sincere believer, right? Abdel Rahman: If you are a sincere believer, you are a messenger of God? I am a sincere believer. Dr. Khalifa: The Quran says...

1:19:01

Dr. Khalifa: A sincere believer will not lie and say "I'm a messenger of God." Abdel Rahman: If you are a sincere believer, does that make you a messenger of God?

1:19:09

Dr. Khalifa: If you are a sincere believer, you will not lie about God. Is this correct? Abdel Rahman: No. Dr. Khalifa: Wait a minute, a sincere believer will not

1:19:15

lie about God. Is this correct? Abdel Rahman: Yes. Dr. Khalifa: Right. Dr. Khalifa: So, a person who finds something in the Quran, especially if it is the secret

1:19:23

miracle of the Quran, this person must be a sincere believer. And if this person is

1:19:29

a sincere believer as established by the fact of discovering the secret of the Quran, then this person will not possibly lie against God and say that he's a messenger of God.

1:19:37

Abdel Rahman: But why, why you precisely say "I am a messenger of God since I discovered this"? Why you didn't say

1:19:46

"o people, o Muslims, I'm coming to correct something" like Hassan AL-Imam,

1:19:53

like Ghazali, like Muhammad Abduh, they didn't... they were very sincerely Islam, and they correct a lot

1:20:00

of ways in Islam, but they never claim that they are messenger of God. They... Dr. Khalifa: Were they sincere believers? Abdel Rahman: They were sincere believers.

1:20:08

Dr. Khalifa: Therefore, they will not lie about God. If they were not messengers of God, they will not lie about God. Did they claim to be messengers of God?

1:20:13

Abdel Rahman: They never claimed they are messenger of God. Dr. Khalifa: Right Dr. Khalifa: So, they were not messenger of God. Abdel Rahman: So, why you claim you are a messenger of God? Dr. Khalifa: Because I am.

1:20:18

Abdel Rahman: Is it because of this mathematical codes only? Dr. Khalifa: No, Because I am a messenger of God. Abdel Rahman: Well, give me a proof that you are... Dr. Khalifa: I just gave.

1:20:24

Abdel Rahman: No, not this, because this is... Dr. Khalifa: My name also is mentioned in the Quran here. If you open this index,...

1:20:30

Abdel Rahman: OK. Your name as "AL-RASHIN AL-KHOLAFa" has nothing to do with, you know...

1:20:37

Dr. Khalifa: You're entitled to say what you want, but what is the root word of my name? Abdel Rahman: Your name is Rashad. Dr. Khalifa: Yes.

1:20:43

Abdel Rahman: Rashad has nothing...and my name is Abdel Rahman... Dr. Khalifa: Hold it. Hold it. Hold it. I'm just wanna...let's go step by

1:20:49

step, okay? Abdel Rahman: Yes. Dr. Khalifa: The root word of my name is "RASHADA." Is this correct? Abdel Rahman: Yes. Dr. Khalifa: Okay.

1:20:59

Dr. Khalifa: Right. We're talking about Arabic language. This is the index of the Quran again. Abdel Rahman: OK. Page 320. And the root of my word - is it here? Do you see it here?

1:21:06

RASHADA. Abdel Rahman: Your name is Rashad, not "RASHADA." Dr. Khalifa: I know the root word of Rashad is "RASHADA",

1:21:12

Abdel Rahman: Yes. Right? And do you see "RASHADA" here? Abdel Rahman: Yes. Dr. Khalifa: Okay, "RASHADA" is between this mark here

1:21:19

and this mark, alright? Abdel Rahman: Mmhhh. Dr. Khalifa: So, I want you to count the number of mentionings of the root word "RASHADA" in the Quran. You count it

1:21:25

yourself, go ahead. Abdel Rahman: Okay, whatever, I count it - you did count it, so we won't waste audience time. Dr. Khalifa: No, go ahead, you go ahead.

1:21:32

Dr. Khalifa: 1, 2, 3, 4, 5 Abdel Rahman: Yes, it count up to... Dr. Khalifa: 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19

1:21:41

Abdel Rahman: Yes. Dr. Khalifa: The root word of my name is mentioned 19 times. The Mathematical Code of the Quran is based on the number 19, as you see.

1:21:47

Abdel Rahman: Yes. Dr. Khalifa: Now, do you think this is coincidence? Abdel Rahman: But this is not your name doctor Khalifa, excuse me, "RASHADA" is an Arabic word.

1:21:54

Dr. Khalifa: It is the root word... Abdel Rahman: My name is Abdel Rahman... Dr. Khalifa: If my name, Rashad, is mentioned in multiples of 19, would you believe it?

1:22:00

Abdel Rahman: No, I won't. Dr. Khalifa: Why? Abdel Rahman: Because simply it has nothing to do with the Quran.

1:22:05

Dr. Khalifa: Do you think this is coincidence, in other words? Abdel Rahman: No, not coincidence, but this has nothing to do with your name, "RASHADA", Rashad,

1:22:11

has nothing to do with your name. Dr. Khalifa: Okay, we said that there is a Mathematical Code in the Quran.

1:22:16

Abdel Rahman: Did you stop it? A woman: Wait, wait, wait. Yeah. Abdel Rahman: We were talking about number 19. Dr. Khalifa: Right. The Mathematical Code of the Quran

1:22:24

is based on number 19. The root word of my name is mentioned in the Quran 19 times, which is "RASHADA." Abdel Rahman: Not your name, again also I am saying not

1:22:32

your name. It's saying the word of "RASHADA", or "AL-RASHAD", it doesn't mean Rashad Khalifa. Dr. Khalifa: Hold it. Hold it. I'm not talking about Rashad. I am talking about "RASHADA." The root word

1:22:41

for my name is mentioned in the Quran 19 times, which is in accordance with the Mathematical Code. But also my name "Rashad" and "Khalifa", if

1:22:49

you add the numbers of the SURAs and verses, you come up with multiples of 19. Abdel Rahman: When ALLAH SUBHANAHU WA TA'ALA mentioned Muhammad, He means Muhammad.

1:22:57

Dr. Khalifa: Yes. Abdel Rahman: Ibn Abdullah. Dr. Khalifa: Yes. Abdel Rahman: But when He mentioned Rashad, He doesn't mean He mention Rashad Khalifa.

1:23:03

Dr. Khalifa: Because the Quran was delivered 1400 years before Rashad Khalifa. God will not... God will not Abdel Rahman: But He doesn't know...

1:23:10

Dr. Khalifa: Wait. God will not put in the Quran that "I'm sending Rashad Khalifa." He will not say that. So, He put it in mathematically-coded terms that are not to be revealed until the

1:23:19

Mathematical Code is revealed. Okay? Abdel Rahman: And that's... Dr. Khalifa: This is probably why there is no other Rashad Khalifa that I know of. There was one Rashad

1:23:28

Khalifa that born in my family. My cousin had a boy, and he named him Rashad Khalifa, and the boy died when he was young. And I advised them not to do that...

1:23:38

Abdel Rahman: If I go to any Arabic country and I found Rashad Khalifa Dr. Khalifa: Who claims to be a messenger of God. Abdel Rahman: No. Any Rashad Khalifa.

1:23:45

Dr. Khalifa: Yeah? Abdel Rahman: Nobody lives in this world by name Rashad Khalifa but you? Dr. Khalifa: I don't know anyone who's named Rashad

1:23:51

Khalifa but me. Abdel Rahman: If we found someone by this name, what do you think? Dr. Khalifa: And he says he's a messenger of God?

1:23:58

Abdel Rahman: No, he will say "I'm Rashad Khalifa." Dr. Khalifa: Well, fine. He's Rashad Khalifa. But if he says he's messenger of God, that's something else. Abdel Rahman: Okay.

1:24:04

Dr. Khalifa: Does he say he is a messenger of God? Abdel Rahman: You approve that you are a messenger of God by the divine Mathematical Code...

1:24:11

Dr. Khalifa: By discovering the Mathematical Code. Abdel Rahman: And 19 names of your name. What else? Abdel Rahman: Can you... Dr. Khalifa: There are hundreds of other things.

1:24:18

Abdel Rahman: Let's see, let's hear it. Dr. Khalifa: No, I cannot tell you those things. Abdel Rahman: Let's hear it because... Dr. Khalifa: I'm giving you the physical evidence. Abdel Rahman: In order to be a messenger of God, you have to be above ordinary people.

1:24:28

Dr. Khalifa: Yes. Abdel Rahman: Above, like you are doing something... Dr. Khalifa: No, no, no. I don't mean yes. Dr. Khalifa: No, no, no. Wait a minute. No. Abdel Rahman: Like you are doing something no human being can do it.

1:24:37

Dr. Khalifa: No, no, no. This is not true. The Quran teaches that Moses went to one of our servants. عَبِيدًا مِّنْ عِبَادِنَا (18:65) And this one of our servants taught

1:24:45

Moses a few things, and Moses was a very bad teacher. So, I want to correct you that you're saying that messengers are above the ordinary.

1:24:51

Abdel Rahman: But the Quran said that ALLAH SUBHANAHU WA TA'ALA taught Musa some kind of devices in order to

1:24:59

appear in front of his own people. Dr. Khalifa: The miracles of... Abdel Rahman: Yeah people, in order to make the people believe. Dr. Khalifa: Yeah.

1:25:05

Abdel Rahman: Hold it. This is not a human being ordinary. He is not the magic. This is not a magic. This Dr. Khalifa: Right.

1:25:11

is something from God. Dr. Khalifa: Anyway, I have given you enough poofs. And I want you to ask anybody to give me a proof that I'm not a messenger of God, one, one proof.

1:25:22

Abdel Rahman: You haven't convinced me. Dr. Khalifa: Let's move on. Abdel Rahman: You have not convince... Dr. Khalifa: I don't wanna convince you. Abdel Rahman: We are trying... you haven't convinced me so far you are a messenger. You didn't give me

1:25:31

something Dr. Khalifa: Yeah. Abdel Rahman: to astonish me or to make me say "Oh, he is above mankind." Dr. Khalifa: Yes. Abdel Rahman: So, I have to believe it.

1:25:38

Dr. Khalifa: Let me read something for you in here. Abdel Rahman: Okay. So, you're holding this book and you don't believe in it? Dr. Khalifa: What do you mean I don't believe in it?

1:25:44

Abdel Rahman: You said this book is not correct. Dr. Khalifa: No. The complete Quran is here. There is some addition. Abdel Rahman: Some addition? Dr. Khalifa: Yeah. Abdel Rahman: Okay.

1:25:52

Dr. Khalifa: You can't make statements like that. Look at this

1:26:03

وَقَالُوا لَنْ نُؤْمِنَ لَكَ حَتَّى تَفْجُرَ لَنَا مِنَ الْأَرْضِ يَنْبُوعًا (17:90) They said "we'll not believe unless you have a spring gush out of the earth."

1:26:11

أَوْ تَكُونَ لَكَ جَنَّةٌ مِّنْ نَّخِيلٍ وَعِنَبٍ فَتُفَجَّرَ نَجْلَاتُهَا تَفْجِيرًا (17:91) Or you possess a garden of dates and grapes,

1:26:19

with rivers flowing in. " أَوْ تُسْقِطَ السَّمَاءَ كَمَا رَعِمْتَ عَلَيْنَا كِسْفًا أَوْ تَأْتِيَ بَالِغًا بِالْمَلَائِكَةِ قَبِيلًا " (17:92)

1:26:26

Or you drop the heaven over us, the sky over us, as you claimed. Or bring God and the angels before our eyes.

1:26:33

(17:93) أَوْ يَكُونَ لَكَ بَيْتٌ مِّنْ زُخْرَفٍ or you posses a mansion, a fantastic mansion

1:26:39

أَوْ تَرَىٰكَ فِي السَّمَاءِ or see you climb to the sky لَوْ كُنْتَ تُؤْمِنُ لَإِذْ تَأْتِي بَالِغًا بِالْمَلَائِكَةِ قَبِيلًا even if you do that we will not believe.

1:26:45

So, I cannot... I don't want anybody to be convinced. All I can do is deliver the message and tell you

1:26:53

what the proofs are. And then it's up to you to take it or leave it. Abdel Rahman: In your book here "Quran, Hadith & Islam" - also one of the book you wrote about

1:27:04

Quran, Hadith and Islam - you said here "we don't believe in anything with intercession."

1:27:11

What does that mean? You don't believe in intercession? Dr. Khalifa: We believe the Quran that says قُلْ لِلَّهِ الشَّفَعَةُ جَمِيعًا (39:44)

1:27:18

"to God belongs all intercession." So, nobody possesses intercession. Abdel Rahman: You don't believe that the messenger of God

1:27:24

will make "SHAFAT" to the Muslims? Dr. Khalifa: The Quran says that the messenger of God will not have any SHAFAT

1:27:30

any intercession, it says إِنْ تَسْتَغْفِرْ لَهُمْ سَبْعِينَ مَرَّةً فَلَنْ يَغْفِرَ اللَّهُ لَهُمْ (9:80) God tells Muhammad "if you ask forgiveness for them seventy times, God will not forgive them.

1:27:39

So, there you have it. Ebrahim made intercession on behalf of his father, but his father is going to hell. It does not matter. Ebrahim is God's friend.

1:27:47

So, I'm afraid we have to quit. If you have one last question, I'll answer one last question. Abdel Rahman: Well, I have a lot of questions, actually,

1:27:53

but if you're gonna quit, we won't go anywhere. But I hope you will, before you quit, you will

1:27:59

comment or you will say something you would like to say to the Muslims.

1:28:04

Dr. Khalifa: Well, what I'd like to say is that Islam today has nothing to do with the prophet Muhammad. And it is the objective of all the sincere believers to restore Islam to the religion preached

1:28:17

by the prophet Muhammad. As I mentioned in this program, the Muslims around the world are not doing anything correctly. Everything is wrong: the AZAN, the ablution,

1:28:26

the SALAT, the ZAKAT, the HAJJ, the fasting. Everything is done not according to the teachings

1:28:32

of the prophet Muhammad that came to us in the Quran. And it is the objective to restore Islam

1:28:37

to its original pristine purity as preached by the prophet Muhammad, the final prophet. سلام عليكم ورحمة الله

1:28:45

Abdel Rahman: Thank you doctor Rashad Khalifa. And I really appreciate your time.

09 In Defence of the Bible

In the name of God, the Gracious, the Merciful. More and more people are

1:16

increasingly disillusioned with the Bible.

1:19

They grow up learning that the Bible is the Word of God.

1:25

But when they study the Bible carefully, they discover that it contains too many

1:32

unacceptable contradictions, too much unacceptable nonsense.

1:38

And this shocks them and causes the disillusionment.

1:43

A very good example is in the market today, in the bookstores.

1:48

We find a book by Carl Sagan called "Contact", and on page 30 of this book, we find a very

1:56

good example of the contradictions, the unacceptable contradictions in the Bible.

2:02

We see here that in the Gospel of Matthew, there are 28

2:09

generations between David and Jesus. But in the Gospel of Luke, we see that the

2:17

number of generations from David to Jesus is 43. Now, how could this be the

2:23

word of God? Does God know how many generations are between David and Jesus?

2:30

The names in Matthew and in Luke are not even similar.

2:36

And this destroys the credibility of the Bible as the Word of God.

2:42

How can we explain these contradictions? This program will prove to you that the Bible

2:49

is in fact the Word of God. But these indefensible contradictions

2:55

are there because they were injected by human beings. Any contradiction, any

3:01

nonsense you see in the Bible, is a result of human interference, distortions

3:08

and injections by wicked people, or good intentioned people. So, I will prove to

3:16

you that the vast majority of the Bible is Divine truth.

3:51

The biggest contradiction of all is the deification of Jesus Christ,

3:56

making him a god against his will, and against the teachings of the Bible even.

4:03

We read in Matthew 27:46

4:12

that "on the cross, toward mid-afternoon, Jesus cried out in a loud tone and the

4:23

Gospel of Matthew even write the Aramaic that Jesus supposedly uttered on the cross

4:29

"ELI ELI LAMA SABACHTHANI?" Which means

4:34

"my God, my God, why have you forsaken me?" Now, this is not God speaking, saying "my

4:41

God, my God, why have you forsaken me?" This also casts doubt and creates a serious

4:49

contradiction concerning the doctrine that Jesus came here to die for our sins.

4:55

Because if this were true, then his crucifixion would be a fulfillment of

5:04

his purpose and he would have said on the cross "my God, my God, thank you for

5:09

fulfilling my mission." So, all these contradictions

5:15

create disillusionment in the minds of intelligent people. In this Bible here, we

5:23

find the theme at the beginning like this "the man who hears my word and has

5:33

faith in Him who sent me, possesses eternal life." So, this verse is telling us

5:40

that Jesus was sent to humanity by God, that Jesus is a messenger of God.

5:49

And when we go to the book of Revelation, the very first verse says the following

5:55

"This is the revelation God gave to Jesus Christ, that he might show his servants

6:02

what must happen very soon." This is the revelation God gave to Jesus Christ.

6:10

So, here we have God giving a message to Jesus Christ in order to deliver to the

6:16

world. Jesus could not possibly be God. Jesus is a messenger of God.

6:24

Many great Christians of course realized this serious contradiction, the deification of

6:32

Jesus against his will and studied it carefully and researched the

6:38

subject thoroughly. This book is written by Don Cupitt, a University Lecturer in

6:49

Divinity and Dean of Emmanuel College, Cambridge.

6:53

Michael Goulder, Staff Tutor in Theology in the Department of Extramural Studies at

7:01

Birmingham University. John Hick, who is H. G. Wood Professor of Theology

7:08

at Birmingham University. Leslie Houlden, Principal of Ripon College, Cuddesdon

7:17

Dennis Nineham, Warden of Keble College at Oxford.

7:24

Maurice Wiles, Regius Professor of Divinity and Canon of Christ Church

7:33

at Oxford, and Chairman of the Church of England's Doctrine Commission.

7:39

And the final author here is Frances Young, Lecturer in New Testament Studies

7:46

at Birmingham University. And the essence or the summary of the book is found on the

7:56

back where it says "for many people, the incarnation of God in Jesus Christ

8:03

is the essence of Christianity." Here, a group of distinguished theologians

8:08

and biblical scholars asked whether the idea of the incarnation is essential to

8:14

Christianity and they questioned the whole development of the doctrine.

8:20

Their thesis is that Jesus was as he is described presented in Acts 2:21

8:29

"a man approved by God" for a special road within the divine purpose

8:37

and the later conception of him as God incarnate, the second person of the Holy

8:43

Trinity living a human life is a mythological or poetic way of expressing

8:50
his significance for us. This reinterpretation of the doctrine of the
8:55
incarnation has been criticized as sensational and destructive, but the
9:01
authors declare a constructive purpose. They have examined the evidence from the
9:07
New Testament onward with care and fairness and have asked their questions
9:14
because they are concerned with the consequences of their findings for a
9:19
full and living Christian faith for today. Their work is something that no
9:25
thinking Christian can ignore.
9:29
I assure you that we do not have enough time to give examples of the
9:35
contradictions and nonsense that is found throughout the Bible, unfortunately.
9:42
But you heard me state earlier that the Bible is in fact the Word of God, the
9:48
infallible Word of God. And here I am talking about the original unaltered
9:55
Bible in the original language. That was the Word of God.
10:03
The contradiction and the nonsense have been injected into the
10:07
Bible by people who deliberately or with good intentions actually distorted the
10:15
words of God and created doctrines that are not in the Bible. However, the Bible
10:23
as printed today, 90% of it is Divine truth. Unfortunately, the human race has
10:32
been duped into following the 10% of contradictions and false doctrines
10:39
injected by humans into the Bible. The Bible, being the Word of God, must be
10:49
corrected and God sees to it that all these contradiction and nonsense are exposed.
11:16
The biggest problem that these contradictions and nonsense create is
11:23
that millions of people throw the baby with the bathwater. Because of these
11:30
contradictions and false doctrines that have been injected in the Bible and the
11:35
nonsense that the intelligent people cannot accept, these things
11:40
unfortunately drive millions of people away from God and from the Word of God.
11:47
But we must be alerted that the Bible contains the truth from God. For example,
11:54
the first commandment in the Old Testament and in the New Testament which
11:59
is called the greatest commandment is to worship God alone, the Creator of the
12:06
universes, the Creator who created you and me and Jesus Christ and Muhammad and Mary.
12:13
It is the false doctrines that created
12:15
the Trinity and the deification of Jesus Christ against his will and distorted
12:22
the Bible. Ironically, the distortions and the nonsense and the false doctrines
12:28
constitute a minute part of the Bible. But unfortunately, millions upon millions of
12:36
people follow these minute contradictions and small false doctrines and they leave
12:43
the majority of the truth. They ignore, for example, the fact that the Bible
12:49
clearly states that Jesus is not God. Millions of people ignore the clear
12:55

statements throughout the Bible that Jesus is not God and they insist on the
13:00
defection of Jesus against his will. And in this way, they are being enemies of
13:06
Jesus Christ as he himself says in Matthew 7:23
13:13
"Then I will tell them plainly, 'I never knew you. Away from me, you evildoers!'" [Matthew 7:23]
13:28
Of course, God did something about the contradictions, the falsehood, the
13:33
nonsense that have been injected into His word, the Bible. And what God did was
13:40
to send a final edition of the scripture. This final edition is mathematically
13:47
composed beyond human ability, as I will explain to you. When you examine this
13:54
final message from God to you, you will be sure that every letter, every word is
14:00
from God. You will be absolutely positive that there is no human interference in
14:05
it and you will see which truth in the Bible is confirmed by this final segment
14:13
of the scripture and you will see that the contradiction and the false
14:18
doctrines are exposed. As such, you will recognize which is the
14:23
truth from God and which is the falsehood from human beings, human
14:28
interference into the Bible. So, this is what God did to clear the confusion, to
14:36
settle the controversies, and to establish the truth in His Bible.
15:35
This final segment of God's message to the world settles once and for all the
15:42
subject of the crucifixion of Jesus. And God tells us he was an eyewitness there, remember?
15:49
God tells us that the person of Jesus
15:52
Christ, that is the soul, left his body, was raised to God before his body was
16:00
put on the cross. So, the people who were torturing Jesus' body and crucifying it
16:07
were not dealing with Jesus Christ at all. Jesus was gone already. He was raised
16:13
like anyone who dies. The soul was raised, returned to God, and the body was
16:19
tortured and put on the cross. And the heart was beating and the lungs were
16:23
breathing, but the person was not there. Ironically, God gives us today a good
16:30
example of a person whose soul has departed but his body is living with us
16:36
and his heart is beating and his lungs are breathing, he's eating and he smiles
16:40
and everything, but his soul departed. And I am talking about one of the people who
16:47
received an artificial heart, Bill Schroeder. About a month after his
16:52
operation, he was having dinner with his wife and we are told he had a stroke.
16:58
In my opinion, Bill Schroeder left. The person is gone. And now his body is walking with
17:05
an artificial heart and his lungs are breathing but the person is not here. He
17:10
does not recognize the time or the people around him ever since that moment.
17:17
And this is exactly what happened regarding the crucifixion of Jesus, as
17:21
told in God's final message that is proven by mathematical code.
17:52
So, let me summarize for you what this final message from God to the world does.

18:00
First of all, it exposes the contradiction and the
18:06
nonsense that have been injected in the Bible.
18:11
The second thing, it confirms the Divine truths that are found in the Bible, the
18:21
majority of the Bible is Divine truth.
18:25
The third function of this final message from God to the world is to settle the
18:32
great controversies, like the deification of Jesus, the
18:38
sonship, the claimed sonship of Jesus to God.
18:44
The the fourth function of this final
18:51
segment of God's Scripture is to confirm all previous miracles, the unusual
18:58
happenings that cannot, that may be unbelievable, like the parting of the Red
19:03
Sea, like the fact that Jesus revived the dead, and created birds from clay by God's
19:11
leave. All these things are hard to believe. So, this final segment of God's Scripture
19:19
being mathematically composed and containing this physical evidence that
19:23
it is from God confirms those unusual happenings that we call miracles.
19:31
Since every letter, every word in this final segment of God's scripture is
19:37
mathematically composed beyond human ability, when you read a statement saying
19:42
"Moses parted the Red Sea," this statement becomes proven by physical evidence. When
19:51
you read in this message that Jesus revived the dead, which is something
19:56
unbelievable, normally, when you read that and you know that it is a miracle...
20:03
miracle by definition is an unusual happening. So, when you read the statement
20:09
Jesus revived the dead, and you know that every letter, every word is
20:14
mathematically composed beyond the human ability, then this gives you
20:19
physical evidence that the statement "Jesus revived the dead" is a proven fact.
20:27
Unusual as it may be, it is God's miracle that Jesus performed. So, these are the
20:36
four functions of God's final scripture to the world. Expose the contradiction
20:44
and nonsense and remove it from the Bible.
20:48
Confirm the Divine truths that are contained in the Bible. Settle the
20:55
controversies like the virgin birth of Jesus and the crucifixion of his body
21:01
after his soul has departed. And the fourth function is to confirm
21:08
all previous miracles, the miracles of Moses and Jesus and the unusual
21:13
happenings that we see in the Bible and in the Quran.
21:58
I am sure you realize that we cannot cover these heavy subjects in such a
22:05
short time. And because these subjects are so heavy,
22:09
I am sure I raised more questions than answered. And this is why I hope you will
22:16
get on the phone and call me with your questions. Don't hesitate to ask. My phone (www.submission.ws)

Thank you and God bless you. (www.submission.ws)

10 Evolution or Creation, The Final Argument by Dr Rashad Khalifa

Every one of you is aware of the spirited debate that has been raging for
1:10
decades between evolutionists and creationists. This hot debate began in
1:18
the mid 19th century, about 125 years ago when Charles Darwin developed his theory
1:26
of gradual evolution. Basically, what Charles Darwin said was
1:33
that life began spontaneously from inanimate inorganic matter.
1:40
This beginning of life was supposedly in water and a single simple cell first
1:48
formed, then this cell split and multiplied and evolved into new forms of life.
1:57
With the passage of millions upon millions of years, fish came into existence in this water.
2:06
And with additional millions upon millions of years, some of the fish started to walk on land, and started to develop lungs instead of gills.
2:19
Eventually, again additional millions and millions of years were required for some of these land creatures to develop wings
2:30
and the ability to fly. Another branch of these land animals continued to develop
2:35
and evolve all the way to human beings. Of course, as scientists, we took this
2:43
theory of Charles Darwin and we scrutinized it. We put it to the test like any other theory. Darwin used terms like natural selection, mutations,
2:55
survival of the fittest to explain his theory.
3:00
Now, during the last 100 years of scientific revolution, we learned quite a few things.
3:06
Many of the things that you and I learned as youngsters have been found to be wrong or at best trivialized. So, we took this theory of
evolution and
3:20
we studied it carefully. We started to look for the evidence. We treated it like any other theory, trying to prove it and turn it into a law.
3:30
So, in the process of studying the theory and collecting evidence, fossils and skeletal remnants,
3:38
and so on, and the other sciences combined to teach us that parts of the
3:46
original theory of Darwin were unworkable or scientifically wrong, just downright wrong.
3:54
And this led to the modification of Darwin's theory. As scientists, we had to modify the original theory of evolution as written
4:05
by Charles Darwin in order to fit the new established facts.
4:10
Let me give you a couple of examples. Gradual evolution proved to be wrong. Our
4:18
fossil record does not support gradual evolution. You heard about the missing
4:25
link. Every one of you knows about the missing link. And I'm here to tell you that there is not just a missing link. There are thousands of
missing links and
4:35
to solve this problem, the scientists came up with a new theory called
4:40
punctuated equilibrium. Stephen Gould of Harvard and Niles Eldredge came up
4:46

with this idea, punctuated equilibria, to solve the problem of the missing links.

4:53

What they said was that evolution happened in giant leaps, not gradually.

4:59

So, this was the first major modification of the original theory of evolution.

5:06

Another idea, for example, that we had to abandon was Lamarck's concept of inherited -

5:15

let me give you the correct expression here - the transmission of acquired characteristics. This concept of Lamarck had to be abandoned because it proved

5:25

unworkable. And to give you an example from everyday life,

5:30

Lamarck for example said that the giraffe has a long neck because those

5:36

animals had to reach for high leaves and they lived in an area where they needed

5:41

the long neck. Well, this was proven unworkable and scientifically untenable

5:47

and it was eventually abandoned. So, we kept adjusting and

5:54

modifying the theory of evolution. What I wish to share with you today is a

6:00

scientific examination of both evolution and creation. I will present to you physical evidence, irrefutable, incontrovertible evidence that will help

6:12

you decide exactly what took place: evolution and/or creation.

6:18

The title of this program is Evolution or Creation: the Final Argument. And hopefully, by the

6:24

end of this program, you will see enough evidence to help you make a final decision about evolution and creation.

6:32

We will find out exactly what components of Darwin's theory are correct and which components are wrong.

6:40

And I must point out at this time that Darwin was indeed a genius when he

6:46

suggested natural selection, survival of the fittest, and mutations to explain his theory.

6:53

Let me give you a good example. The navel orange, this beautiful fruit is a

6:59

new creature. That's right. Your great grandfather never saw or tasted a navel orange.

7:06

And this happened through mutation. All of a sudden this tree came

7:11

out with this beautiful fruit, seedless and delicious. And, of course, now it is spread all over the world. We take it for granted, but this is a good example of evolution.

7:22

However, I must point out that the navel orange evolved from oranges.

7:30

In other words, we did not see an apple evolve from oranges or a fig. An orange, it is still... the navel orange is still an orange. And this is an important point.

7:54

The evolution creation issue is before the Supreme Court this year in 1987.

8:01

So, this program is quite timely because right now, we have a powerful scientific and objective tool that can tell us exactly which events in

8:12

the world are probable and which events are not probable. This powerful objective and scientific tool is mathematics.

8:22

Mathematics is the most scientific of all Sciences. It is a pure science and through mathematics, we

8:31

can tell if a bridge or a building is going to collapse or not under any given

8:36

circumstances. So, we can use this powerful tool to examine both evolution

8:43

and creation. This is exactly what we're going to do together and hopefully by

8:49

the end of this program, we, you and I, will reach a final decision.

8:54

So the name, the Final Argument, is quite appropriate.

9:30

Let me first simplify the mathematical laws, the laws of probability that we

9:35
will be using today to examine both evolution and creation.

9:40
Let us say we have five cubes, each cube is labeled with only one number, either one or two

9:49
or three or four or five. If we mix these five cubes in a mixer and have them

9:56
fall down in some kind of a device so they'll be lined up in one line or toss

10:01
them up in the air and have them fall in such a way so they'll be lined up, what are the possible combinations of these five cubes?

10:12
How many permutations are we going to have? Well, the laws of mathematics are very simple. They tell you that you will get 120 combinations and you obtain this

10:23
by multiplying, multiplying 1 by 2 by 3 by 4 by 5. The product is 120.

10:30
So, you will get 120 combinations or permutations. In other words, every combination, let us say

10:38
if they fall down lined up 1 2 3 4 5 in this particular combination, this

10:44
combination has a chance out of 120 chances. Let me show you on the board.

10:50
Here we are with the 5 cubes, each one labeled with only one number.

10:58
You toss them up in the air and have them fall down so they'll be lined up in this

11:03
particular combination. What are the possible combinations, how many?

11:09
Here, we see the formula, the number of possible combinations of permutations is 1 times

11:15
2 times 3 times 4 times 5 or 120 combinations.

11:22
The probability for any specific combination is obtained by dividing one

11:27
over 120, because each combination has a chance out of 120 chances.

11:34
And 1 over 120 equals 0.0086. This probability diminishes fast as we increase the

11:44
number of cubes. For example, if we increase the number of cubes by 1, so you

11:50
have six cubes instead of five, the number of possible combination jumps

11:55
from 120 to 720 - 1 times 2 times 3 times 4 times 5 times 6.

12:03
And the probability for any specific combination goes down from one out of 120 to one out of 720,

12:13
or 0.0014. So, you can see how fast it diminishes.

12:19
Okay, well, when will the probability diminish all the way to zero?

12:24
Well, mathematicians who are exceedingly precise, conservative, and careful scientists

12:32
decided that if you have 84 cubes, then the probability is zero for

12:39
getting any specific combinations. What does this mean? Let me go to the board and show you this.

12:47
I have the number here for 84 cubes. The probability, look at this, is zero point

12:54
zero zero zero zero zero zero zero all the way 50 zeroes and then 208.

13:02
So, you can see here that the probability for all practical purposes is zero.

13:09
And this by the way is extending it the full benefit of the doubt.

13:15
What does this mean in practical terms? This means that you can take these

13:20
eighty four cubes toss them up in the air and have them fall in such a way so they line up, and if you want the specific combination of one two three

13:30
four five six seven eight all the way to 84, if you want this specific combination, you can toss up these cubes and have them fall down lined up forever and you

13:41
will never see this combination. This is what probability 0 means. You can appreciate that.

13:47
Now, many of you are familiar with the lottery. You know what your chances are of winning the lottery. And here in the lottery, we're talking

13:55
about five or six numbers. So, you can really appreciate the improbability of

14:02
having 84 cubes line up in a specific combination.

14:16
To make a long story short, the genetic material of the human being, the gene

14:23
that decides what kind of creature we have, this genetic material contains,

14:28
listen to this, 30 billion nucleotides arranged in specific sequences and specific quantities.

14:38
Now, what are the probabilities of arranging these billions of nucleotides in a specific sequence? Of course, you know the answer

14:47
from mathematical laws. The probability is 0 many times over.

14:54
We are talking here about, not 84 numbers or 8,400 numbers or 84,000 or 84 million numbers,

15:04
we are talking about 30 billion nucleotides.

15:31
Now as scientists, we have been talking about similarities between the human

15:36
being and the ape as far as genetic material is concerned. And you know something, if we have 90 percent similarity, we are still talking

about

15:46
300 million nucleotides that must be arranged in a specific sequence

15:53
and specific quantities to change the ape into a human being.

15:59
Even if we have 99% similarity, we are still talking about 30 million

16:06
nucleotides that must be haphazardly arranged in specific sequence in order

16:13
to change the ape into a human being. And you know that the probability for this is zero. We have now these mathematical laws that can tell

us

16:23
exactly which event is probable and which event is not probable. And we know

16:30
that the probability that 30 million nucleotides, in case of 99% similarity

16:36
between the human and the ape, we know that this probability is zero. We're not talking about 84 numbers. We're talking about 30 million

nucleotides.

16:46
Another thing, at the other end of the evolutionary spectrum, we're talking

16:53
about the so called simple cell. You remember, when I stated Charles Darwin's

16:59
theory. Darwin said that first a simple single cell was formed. Well, the cell

17:09
that Darwin is talking about is not simple at all. It's a very complex chemical factory.

17:15
In fact, it is the most complex chemical factory we know of. It has hundreds of actions and reactions going on in the cell and it has the DNA

17:25
material that is very complex. And just to quote something that will

17:32
make you smile at least. About 50 years ago, (H. G.) Wells, (Julian) Huxley, and (G. P.) Wells wrote in their text: the Science of Life, I'm

quoting now.

17:43
"Nothing can be seen inside the nucleus of the cell but the clear fluid."

17:51
Now, those great scientists knew nothing about DNA.

17:56
In the last 50 years, there was so much advancement in science that we realize

18:03
now how many actions and reactions are going on within the nucleus. We know about the DNA, the helical structure. And we know the

arrangement and the

18:13
specificity of sequences of nucleotides. And we know now that haphazard

18:19
creation of a simple cell, as Darwin called it, is not...the probability is zero.

18:29
According to Darwin, the evolution of organs paralleled the evolution of the organisms.

18:36
For example, the eye, this very complex organ started out, according to Darwin, as a

18:43
light-sensitive spot on the surface. After millions upon millions of years,

18:49
this light sensitive spot became a depression. Additional millions upon

18:55
millions of years passed and the depression became a pit and then millions more years caused a lens to develop in that depression.

19:07
Well, according to this scenario, creatures existed for millions upon

19:12
millions of years in total blindness, awaiting the evolution of the 20/20 vision,

19:21
the evolution of the eye. And this, of course, to you and to me doesn't... logically does not make sense.

19:29
And now we see by mathematical laws that the probability is zero that this happened haphazardly.

19:36
Do you know how many things are in the eye? The lens, the cornea, the retina, there is... I can give you a list two pages of components of the eye.

19:45
Each one of them cannot be haphazardly, haphazardly formed. We have now these laws

19:53
of mathematics telling us that the probability is zero.

20:34
Let me give you some examples. The dragonfly has 30,000 lens in each eye,

20:42
lenses in each eye, 30,000 of them. Now, for millions of years, the dragonfly

20:50
existed with 30,000 lenses in each eye. What kind of intelligence told the

20:57
dragonfly to stop evolving at 30,000? Imagine the little area of the small eye of

21:03
the dragonfly divided into 30,000 cones, and each cone is fitted with a perfectly

21:10
shaped lens, imagine that. Now, why did the dragonfly

21:15
stop at 30,000? Why not a couple hundred more, or a couple thousand more? Who told

21:22
the dragonfly that this is enough evolution for your eye? How about the housefly? 4000 lenses in each eye. The housefly has 4000 lenses in each eye.

21:34
Now, what kind of intelligence told the housefly to stop evolving the eye at 4000 lenses?

21:43
For millions of years, the fly had 4,000 lenses in each eye. Now, who told it to stop evolving? Why not go on to 5000 lenses?

21:54
The honeybee has 6,300 lenses in each eye. And again, we test the same question. And if you pursue that question, it will

22:06
prove the existence of a Super Intelligent Being that told these

22:11
organisms to stop evolving their eyes at a certain number of lenses. So, this is the irony of it.

22:40
So, while evolution is proven to be correct by scientific

22:45
research, the initiation of life or the origin of species is proven to be not

22:54
probable. The probability is zero and therefore it had to be created by a

23:00
Super Intelligent Creator. And we will discuss this matter and see the mathematical evidence supporting it before the end of this program.

23:11
Let us look at some established facts that you and I have witnessed in the

23:16
last few years. The first fact is that despite our tremendous scientific

23:22
advances, these great achievements, not a single scientist, not a single

23:28
researcher, not a single laboratory has succeeded in initiating life from

23:34

inorganic inanimate matter. They utterly failed in duplicating Charles Darwin's
23:42

basic concept that life evolved from inanimate inorganic matter.
23:50

What the scientists, what we succeeded in doing was to synthesize amino acids
23:57

and proteins from oxygen, hydrogen, nitrogen, and so on. This is the extent of
24:06

our success in the lab. We could not produce life.
24:13

Now, of course, it is natural that we can make amino acids or proteins from oxygen,
24:19

hydrogen, nitrogen, and so on. After all these are the ingredients that make up amino acids and proteins. It's no big deal that you create the
circumstances
24:28

for the ingredients to link up together and make up these chemicals. But these
24:35

are dead chemicals, dead molecules of amino acids and protein. And some people
24:40

would say "these are the building blocks of life." Well, that is right. These are the building blocks but this is the extent of it, just that, building
blocks.
24:50

Now, if you take a bunch of building blocks, put them in the corner and leave them there for thousands of years, will they assemble
themselves into a building, with the deliberate design?
25:01

Of course not. So, as scientists, we succeeded in creating the building blocks, but we could not create the building. This is a very important
fact.
25:28

The debate between evolutionists and creationists was so hot and so emotional
25:36

that some of my fellow scientists gave up their scientific objectivity. And I find
25:42

myself forced to criticize fellow scientists for behaving like unscientific creationists.
25:51

Let me give you a good example, has to do with the booklet published by the National Academy of Sciences back in 1983.
25:59

In that booklet, they published a picture, one of their favorite pictures, the skulls of
26:06

a number of hominids. And they concluded from that picture that the skull of the
26:13

more advanced hominid evolved from the more primitive skull,
26:23

that the advanced skull evolved from the primitive skull.
26:28

Well, this is a perfectly valid and scientific conclusion. There's no problem with that.
26:36

But the problem is that the Academy ignored an equally valid conclusion
26:41

that these skulls, the animals that possessed these or the creatures that
26:47

possessed these skulls, simply existed independently, independent of each other
26:52

without any relationship whatsoever. Now, scientific objectivity dictates that
26:58

we present both views, that the skulls evolved from each other and/or the
27:05

skulls existed independently of each other.
27:10

This kind of abandoning scientific objectivity resulted from the high
27:18

emotionalism and fanaticism on both sides of the evolution creation issue.
27:25

But scientists would never abandon their objectivity. We'll be in deep trouble
27:30

if we abandon our objectivity. Note we cannot say evolution is a fact and
27:36

it is up to the rest of the world to prove otherwise. This is putting the cart
27:42

before the horse. When we say that this evolution business is a theory,
27:48

we are...the burden of proof is on us to provide the evidence that evolution is a fact.

27:56
It is our duty to establish evolution as a truth, not the other way around.
29:30
To summarize, we all appreciate the power of mathematics as a pure science, the
29:38
most scientific of all sciences. And we are all familiar with the simple formula
29:44
of Einstein, $E=MC$ squared. And we are familiar with the tremendous
29:50
consequences of such a simple formula. Mathematics is an objective and powerful
29:56
tool that can tell us exactly what events in the world are probable and what events are not probable. We have been talking about a DNA, the
genes,
30:08
30 billion nucleotides in the human gene that interact with other life processes.
30:16
We are not talking about a toy. You know, when you go to the toy store and buy a bunny rabbit, for example, it has ears and realistic eyes but
these eyes don't see.
30:27
And this toy rabbit doesn't have any cells or DNA or nucleotides that are
30:34
arranged or any life actions and reactions. We are, we are assuming here
30:40
that we are just talking about the simple arrangement of nucleotides in
30:46
specific sequences and specific quantities. We are talking about just physical arrangement. The probability is... this infinitesimally small
probability
30:58
is multiplied by other infinitesimally small probabilities when you interact
31:04
the nucleotides, the DNA with other life processes in the cell and throughout the organism.
31:11
Now, we can use the same powerful tool to prove the alternative, namely creation.
31:20
Now, how in the world can anybody prove creation? Nobody could imagine anything that can prove creation. But you know
31:30
something, about hundred years ago, we could not envision TV or the telephone
31:36
or communication satellite, but here we are. If you can see your great-grandfather today and describe the television to him, he would
disagree with you,
31:46
he would think you went crazy. So, similarly we could not imagine anything
31:51
that will prove or disprove creation but how about a coded message from outer space?
32:00
Did you ever think about that? A coded message from outer space, telling you "I am the Creator and this is how I did."
32:08
A message that will give you all the details. Many of you are familiar with the Carl Sagan's latest novel called Contact.
32:18
In Contact, he presented a fictitious story about a coded message from outer space
32:26
from some intelligent life out there. And the message was decoded by computers and
32:32
so on. And you know something, this is not fictitious at all. I am here to tell you
32:37
that we actually received a coded message, mathematically coded message
32:43
from the Super Intelligent Creator, telling us exactly what happened,
32:48
how the universe and the six million living organisms, six million species of
32:54
living organisms in this universe, how they all came to be.
33:28
Now that we possess this irrefutable mathematical proof that came from outer
33:36
space, from the Super Intelligent Creator, We can look back and at least smile at
33:43
statements of even some of the leading creationists. Let me quote for you one of
33:48
those leading creationists, Duane Gish. He said "it is impossible to conceive an
33:56

experiment that could disprove the possibility of creation. Creation thus
34:01
does not fulfill the criteria of a scientific theory." So,
34:07
even the creationists gave up thinking that there could never be anything to
34:12
prove or disprove creation. But here we are just like any other discovery, we
34:19
find this mathematically coded message from the Super Intelligent Creator.
34:26
The first hint of the mathematical code was reported about 900 years ago by a Jewish
34:33
rabbi, Rabbi Judah the pious. And by the way, I'm talking here about
34:39
unaltered original untranslated scripture. This is very important, very
34:47
crucial because there have been many distortions and changes, alterations, losses,
34:53
additions to the scriptures and we have to be extremely careful to know that we
34:59
are dealing with original unaltered untranslated scriptures, literally the
35:05
very same words that the Creator wrote down or sent to us. So, what Rabbi Judah
35:14
found... well, let me quote for you. It is easier this way.
35:21
The people... now, this is... this quotation is from a book called studies in Jewish Mysticism.
35:29
It was edited by Joseph Dan and Frank Talmage, and here is what they said.
35:34
"The people, Jews, in France made it a custom to add in the morning prayer the words "ashrei temimei derekh" blessed are those
35:46
who walk the righteous way. And our Rabbi the Pious of blessed memory wrote that
35:52
they were completely and utterly wrong. It is all gross falsehood because there
35:58
are only 19 times" - now pay attention to these numbers - "there are only 19 times
36:05
that the holy name is mentioned in that portion of the morning prayer
36:10
and similarly you find the word Elohim 19 times
36:16
in the pericope of Ve'elleh shemot. Similarly, you find that Israel is called
36:22
sons 19 times and there are many other examples. All these sets of 19 are
36:32
intricately intertwined and they contain many secrets and esoteric meanings."
36:39
So, this was the first hint of a mathematical composition in the message that came to us from the Creator, or some kind of a code.
36:49
Now, you realize now that it is important to find original scripture, unchanged. And just like the evolutionists looking for
36:59
fossils and skeletal remains, scientists have been looking the world over for
37:04
original scriptures. You heard about the Dead Sea Scrolls and all the finds in
37:10
lots of... in the Middle East in many places. All these are attempts. Some of
37:15
them are failures and some of them are successes. So, I set out to find an original scripture, and here is the result.
37:26
In this whole world, there's only one scripture that was never altered, not a single letter
37:34
was changed in that scripture, and that scripture is the Quran.
37:39
So, what I did was I got the Quran, an original copy, with the original Arabic and I put it in
37:48
the computer and I decoded an intricate mathematical code that is clearly beyond human ability.
37:55
So, now we have physical proof using the ultimate in scientific evidence, mathematics, telling us that everything that happened.
38:05
That there is a Super Intelligent Creator. And in that message, we see how we came into being,

38:11
why we are here, where we are going, and many many other answers to lots of our
38:18
most urgent questions.
38:40
Before I put the Quran in the computer, I noticed a unique phenomenon that you
38:46
will never find in any other literary work. I noticed, for example, that chapter
38:52
2 of the Quran has in the first verse... there are only three letters in the first verse.
38:59
That's it. A. L. M., that is verse 1 of chapter 2. And these letters remained
39:06
mysterious for 1,400 years. Scholars and scientists of all kind have been looking
39:12
at these initials A L M and the other initials in Quran trying to figure
39:18
out what they mean and they could not do it. The computer did it recently and
39:24
to give you an idea, if you count the letters A L and M in chapter 2 of Quran,
39:32
you'll find that the total is 9899. And this number, 9899, is a multiple of 19.
39:42
Remember the work of Rabbi Judah the Pious? The number 19 turns out to be
39:49
the common denominator in the older scripture and in the newer scripture.
39:56
19 is the common denominator in the Bible, the original unaltered Bible, and also in
40:02
the latest edition of the scripture, the Quran. And this is very important.
40:08
Now, there are 29 chapters in Quran, covering half the Quran. The Quran has 114
40:17
chapters. Some of them are longer and some are shorter but the 29 initialed
40:22
chapters constitute half the Quran. And this mathematical system goes from
40:30
the very simple to the very complex. So, it is suitable for people of all levels of education.
40:36
For example, chapter 50 is entitled Q. That's it, just one letter, Q.
40:43
And it is initialed with the letter Q. The computer said that this chapter contains
40:49
57 Q's. When you count them, you can count them if you know the Arabic letters.
40:55
And you'll find that the total is 57, 19×3 . There is one other chapter in
41:02
Quran that is initialed with the letter Q and that is chapter 42 which happens
41:07
to be more than twice as long as chapter 50, entitled Q. And when you count
41:14
the letter Q in chapter 42, you'll find exactly the same number, 57. So, the only
41:20
two Q-initialed chapters have the same number of Q's, 57 and 57.
41:27
Chapter 68 is initialed with the letter N as in Nancy, N. And you count the letters N in this
41:36
chapter and you come up with 133, 19×7 . And this goes on and on and it gets
41:43
more and more complex until you realize that this is not human fabrication, that
41:49
this is way beyond human ability. For example, we have 7 chapters in Quran
41:55
that we see initialed with the letters H M, 7 of them about 1/10. They constitute about 1/10 of the whole book.
42:03
And when you count the letters H, "HA" and the M, "MEEM"
42:09
in these 7 chapters, you come up with a total 2147 and this is a multiple of 19,
42:17
the common denominator throughout the scriptures, the coded message from the Creator to us.
42:25

2147. Now, if only one letter H or one letter M was lost or added in the last
42:33
1400 years, you will end up with 2,148, for example, and this is not a multiple
42:40
of 19. The whole system collapses. Or 2146, because mathematics is a pure science.
42:48
It is the most sensitive scale. And if you lose one number, you don't have a multiple of 19.
43:29
By the time the computer was done with the mathematical analysis of Quran,
43:34
a vast mathematical code emerged. And you could see that every letter, every word
43:43
in Quran is precisely calculated beyond human ability and you will be
43:48
absolutely convinced that this is a message from a Super Intelligent Creator,
43:54
telling us exactly what happened. Let me give you another good example
44:01
because some people may think that only the initialed chapters are mathematically composed.
44:09
This simple example is that the opening statement in Quran consists of
44:14
four words, and the number of letters in this statement is 19. It's a very important statement. It says "in the name of God, the
44:24
Gracious, the Merciful" and it is considered the most important statement in Quran. It consists of 19 letters and every word is found in the
whole book
44:34
in multiples of 19. For example, the first word ISM, or name, is mentioned
44:41
exactly 19 times throughout the whole book. The second word is God, ALLAH, and it
44:49
is found 2698 times. This is 19x142.
44:56
The third word the gracious, in Arabic AL-RAHMAN, is mentioned in the whole book 57, 19x3,
45:05
And the last word AL-RAHIM, or the Merciful, is mentioned 114 times or 19x6.
45:14
Now, right there, you can appreciate that this cannot happen in a human fabricated book, in a human-made book because you can go to
45:23
the library, if you go to the library and examine 1 million human-made
45:29
books, how many books would you find where the opening statement consists of an X number of letters and every word in the opening
statement is repeated in the
45:39
whole book in multiples of X? How many? Again, the laws of probability say "zero."
45:45
You will not find a book where all the words of the opening statement comply
45:52
with this criterion. So, there you have it a very simple...this very simple phenomenon
45:58
by the way was published in Scientific American in the September 1981 issue.
46:04
And the comment on it was that this is an ingenious study of the Quran. I was really flattered.
46:54
What does this have to do with the evolution creation issue? Well, we have here a vitally important document from the Super Intelligent
Creator telling us
47:07
in words and letters that are mathematically composed beyond human intelligence, telling us exactly what happened. And in this document,
we see
47:19
that life began in water, just like Darwin said. So, this portion of Darwin's
47:28
theory is confirmed. We also see evolution and changes in creation in
47:34
Quran chapter 35 verse 1, and in chapter 16 verse 8. We see that evolution is a
47:42
continual process. So, according to this vitally important document, evolution is
47:49
a divinely guided process. Evolution is a creation of the Super Intelligent
47:56

Creator and it is something that is happening now on continuous basis. We learn that every one of us was individually created and the evolution
48:07
that is taking place is individually controlled and guided by the Super
48:13
Intelligent Creator. One of the most exciting things about this document is that the dichotomy, the great rift between science and religion
48:24
is eliminated. We now see this document from the Super Intelligent Creator
48:31
telling us that evolution is the Creator's work and that it is going on
48:36
continuously and therefore there is no need for this dichotomy between science and religion.
48:44
So, what we see here is mathematical, irrefutable evidence that creation and evolution, both, are correct and they
48:53
complement each other. Of course, we have to examine the existing theories of
48:59
evolution and creation, and correct them in view of the new statements that came
49:06
to us from the Super Intelligent Creator. While on the subject of confirming or
49:12
rejecting existing Scriptures, I must point out that this mathematically
49:19
composed document from the Super Intelligent Creator, the Quran, sets the
49:24
record straight as far as many existing creationist ideas are concerned. For example, we learn that the earth is billions of
49:33
years old, not 5000 or 10,000 years old. And we learn that the earth is
49:40
egg-shaped as I mentioned before, not flat. And we learn that Noah's Ark, for
49:49
example, did not look like what we see in the pictures of Bible stories and so on.
49:54
Noah's Ark was simply a raft made of logs tied together with primitive
50:00
ropes and Noah did not carry all the animals of the earth on his ark either
50:06
or this raft. He carried his domesticated animals to save himself, his family and
50:13
his animals from the flood. And the flood did not cover the whole world as we hear
50:19
as youngsters. The flood was a local flood. All this is proven by
50:26
mathematically composed statements from the Creator Himself.
50:43
It is very important to realize that the prevalent creationism has nothing to do
50:50
with the original untranslated Bible. That's right. The prevalent creationism
50:57
is a product of medieval storytellers and ignorant interpretations and
51:03
mistranslations of the original Bible. For example, the Bible says clearly
51:08
that one of our days is the same as one thousand years of your Lord. So... or the
51:17
day is equal to fifty thousand years if you look at the Quran in chapter 70 verse 4.
51:24
So, we are told clearly that the day of our Earth is not equal to any other day.
51:31
When you go to the Moon, the day equals 14 Earthly days. If you go to
51:37
Mercury, for example, the day over there is 88 of our days. So, the minute you
51:43
leave this tiny planet Earth, the day is no longer 24 hours. So, the truth is the
51:51
Bible does not say that the earth is 6,000 or 10,000 years old. The Bible does
51:57
not say that Noah's flood covered the whole world and the original Bible did
52:03
not say that Noah carried all his animals on the ark and the ark did not look like an aircraft carrier either. These misrepresentations of the Bible

52:14
actually give Christianity and religion in general a bad name.
52:19
Most people who are pushing the prevalent false creationism are doing a terrible
52:25
disservice to Christianity and to the Bible because these misrepresentations
52:32
are not the truth. Scientific findings and now mathematics support the truth
52:38
in the Bible. And we must remember that the creationism that is prevalent today is
52:43
false. The true Christian creationism agrees 100% with science.
53:22
It is the prevalence of these ideas that are completely rejected by science and
53:29
the scientific findings and established facts. These ideas caused Darwin's
53:35
disillusionment with religion. And let me quote for you what Darwin said as a
53:44
result of these prevalent creationist ideas. I'm quoting now
53:51
"I gradually came to disbelieve in Christianity as a divine revelation. This disbelief crept over me at a very slow rate but at last was complete."
54:04
And we cannot blame Darwin for seeing that the earth is billions of
54:12
years old as established by science while the creationist ideas say that the
54:17
earth is 6,000 years old. You cannot blame the man for not believing that Noah
54:23
carried all animals, the lions, the giraffes, the polar bears, and the giant
54:29
worms of Australia on on his ark. And you cannot blame Darwin for not believing
54:37
that the flood of Noah covered the whole world. So, all these things are now set straight.
54:45
We learn from this document that the Quran complements the old Scriptures and confirms the majority of the truth in those scriptures and
54:56
consummates the whole message from the Creator to us.
55:02
To conclude, we now possess physical incontrovertible evidence that every one
55:11
of the six million species of living organisms came into being through a
55:17
creation process. Then, evolution took place and is going on continuously as a
55:23
divinely guided and controlled process. Thank you very much.
55:49
We have invited into our studio professor Jeff Clark. He is with Arizona State University. He's an anthropologist and he maintains that
creationism isn't
55:58
a science and therefore doesn't belong in scientific classes. On the other hand, we have Dr. Rashad Khalifa. He is a biochemist and, of
course, he takes the
56:09
opposite stand. And again, we're going to throw our phones open for your opinions about it. It's a hot issue. It's going to be one that is you're
gonna be
56:18
viewed with a great deal of interest by the people in United States in various states. And we're going to find out how this thing is going to
evolve.
56:26
Well, Bob I have to make a correction here in that I will approach the matter from a scientific point of view. I agree with most of the things
that Jeff
56:36
just mentioned in that science is our means to ascertain what the truth is. And we
56:42
have a very powerful tool, objective and scientific tool to ascertain what events
56:49
in the world are probable and what events are not probable. And this powerful tool is mathematics. Mathematics is the most powerful, the
most scientific
56:59
of all sciences and it represents the ultimate in scientific proof.
57:05

I realize that nobody can ever imagine a proof that will prove
57:12
either evolution or creation, but there is something new and very exciting
57:17
and I'm here to present it to you. So, in essence, we are talking about
57:22
a mathematically coded message from outer space. If you read the Carl Sagan's Contact, he's talking about a novel, a fictitious message
from outer space.
57:33
Now, this is not fiction anymore. And this is what I have come here with. You're gonna have to put that in your pipe and smoke it.
57:38
Sorry. yeah, I dare say. But so far is the particular aspect of the Old Testament
57:45
that's of issue here, i.e., the book of Genesis. It's an origin myth like any
57:51
other origin myth. It's not a greater nor lesser than... You keep going back to the book of Genesis, there exists...
57:59
The reason I say that is I believe that that underlies scientific creationism as espoused by Henry Morris.
58:06
Now, it's obvious Dr. Khalifa does not agree with Dr. Morris as to what... He's not here right now. I am debating with you. That's quite true but
who has written the text
58:15
on scientific creationism? Henry Morris. And who is the founder of the Institute for Creation Research?
58:21
Henry Morris. How long ago was that? Well, he goes back about 20 years... Well, we're talking about now, Jeff. As soon as this program
58:29
is over, I will show you irrefutable mathematical evidence that we have a document from outer space from the Creator telling us exactly...
How are you gonna prove that
58:38
in the Supreme Court for heavens sake? Absolutely, I'll prove it in any court. All right, I have to take some calls. This is really getting
interesting, messages from outer space.
58:45
Absolutely. ...to absolutely prove the creation is a fact. Yes sir. Is it possible that there is some sort of gigantic
58:54
protoplasm somewhere out in the cosmos with all the ingredients and all of this energy that
59:00
can in fact create things. I'm not talking about an old man in a robe with a beard and pearly gates and things like that. I'm talking about is
there a
59:09
possibility with our limited knowledge to envision some sort of humongous thing
59:16
that thinks that can create things? You can envision anything that you want and they are obviously not in the strict rigorous sense, but...
59:25
You're not saying this about God. Oh yes, gods are the servants of the societies and the
59:31
cultures that create them. They have no existence apart from the societies that... Even if it is proven to you? Well, I'd like to see somebody
prove it.
59:40
I'm glad you like to see it because I can show it to you. Bob, there is no escape now that there is a
59:45
Super Intelligent out there, either through the theory of evolution, ironically, or the theory of creation.

11 King of Chaos

In the name of God, the Most Gracious, Most Merciful. This is the second in a series of programs.
1:40
And in the last program, I presented to you physical evidence that the scripture is God's message to the world, the physical
1:50
evidence was in the form of a mathematical code that pervades the
1:57
whole scripture and I am talking about the Bible the Old Testament, the New Testament, and Quran. This mathematical system
2:08
teaches us that every letter, every word is mathematically composed in the
2:15
scripture beyond human ability, far beyond human ability, and this
2:23
gives us... gives you confidence that every statement you are going to hear is a
2:30
proven scientific fact. Every letter, every word in the scripture was written

2:37
by God, and now we have this physical proof, the mathematical code that was
2:44
discovered by computers recently, to let us know that every statement is a proven
2:52
fact. We now have full confidence in every statement. That program was very
3:00
important and I hope you watched it because it will let you know that every statement you heard and every statement you will
3:09
hear in this series of programs is a proven scientific fact.
3:16
It is very important to have this confidence because many items that we will share
3:23
with you deal with matter that has been confusing in the past. Now, it has become
3:30
very clear and proven by physical evidence.
4:17
We are going to deal with the matter of God's love.
4:23
You heard me open this program by saying "in the name of God, the Most Gracious, the
4:30
Most Merciful. And we read in the scripture the proven
4:35
word of God, that God is love, that God is peace, that He is the Most
4:42
Compassionate, the Most Merciful. Yet, when we look around us in this world,
4:49
we see a lot of misery, a lot of war, oppression. The vast majority of people
4:56
in the world are suffering from poverty, diseases, starvation,
5:02
cancer, and the question, the inevitable question that arises is why?
5:11
If God is Loving, Compassionate and Merciful as we read in the scripture, if God is in
5:19
full control, why do we see all these problems, the earthquakes, the miseries? Why?
5:28
So, as you see, we are dealing with some very heavy material.
5:54
In this episode, I want to illustrate for you the answer to the question "who is
6:01
God?" And remember now that every statement is supported by physical evidence.
6:07
Let us start with the solar system. If this is the Sun, the planets
6:17
are orbiting the Sun in the solar system,
6:32
and so on. Now, in this position, our planet Earth
6:39
is orbiting the Sun and the distance from the Sun to our planet is 93 million miles,
6:53
93 million miles. The light travels from the Sun to the planet Earth in four
6:58
minutes. That's the speed of light. Now, the whole
7:04
solar system has distances within the solar system of four billion miles.
7:23
Four billion miles within our solar system. You can imagine the planet Earth when
7:31
you are four billion miles away. It will look real tiny. Now, let us consider the
7:38
solar system within our galaxy, the Milky Way galaxy. So, I'm going to erase this.
7:54
Okay, this is the solar system and the planet Earth is in there somewhere.
8:04
So, the planet Earth can be represented by a dot. Now, the Milky Way galaxy has
8:13
millions of stars, and remembering that the light travels from the Sun to the
8:25
earth in four minutes, 93 million miles, imagine this from here to the edge of
8:32

the Milky Way galaxy, the light will take not four minutes, not a year, not a
8:39
thousand years, it will take 30,000 years at the speed of light to go to the edge.
8:47
So, here's the planet Earth and if we go to the edge of our Milky Way galaxy,
8:56
it will take us thirty thousand years, excuse me, at the speed of life to get
9:08
to the edge of the Milky Way galaxy. Can you imagine? Now, if you are at the
9:15
border of the Milky Way galaxy, how big is the planet Earth?
9:21
Rather how tiny is it? It will be submicroscopic, real tiny, relatively.
9:30
So, let us now look, let us erase this and look at the Milky Way galaxy. Let us make
9:41
it real tiny. This is the Milky Way galaxy, right here, and somewhere in there,
9:48
this dot is actually, this dot right here is actually too big for the solar system
9:56
because we're talking about 30,000 light years across. This distance here, remembering that the light
10:14
comes to us from the Sun, 93 million miles, in four minutes. So, if we say this
10:22
is the solar system, you can imagine the planet Earth in there somewhere. So, this is the Milky Way galaxy now, and our universe contains
10:33
one billion of these galaxies, one thousand millions like the Milky Way
10:58
within our universe. So, the distances within our universe reach
11:08
up to 26 billion light-years, 26 billion light-years within our universe.
11:28
From the Sun to the earth, we have 93 million miles and the light takes four
11:34
minutes to get to us from the Sun. Can you imagine distances of 26 billion
11:43
light-years? Where are the four minutes within this distance, the four light-minutes?
11:52
These are 26,000 millions of light-years within our universe.
11:58
So, now let me erase this and draw our universe.
12:05
Okay, here is the Earth, the solar system, the Milky Way galaxy, our universe. This is all, of
12:15
course, distorted because we don't have enough board, but when you are at the edge
12:22
of the Milky Way galaxy, the planet Earth is very tiny. And when you go all the way to the border of our universe, where is the planet Earth?
12:33
Do you remember where the planet Earth is? Very minute.
12:39
Well, this universe is the smallest and innermost of seven universes.
12:53
Seven universes, not one. And our universe is the smallest and the innermost of the
13:02
seven universes. We have seen how vast our universe is, with 26 billion
13:09
light-years within our universe. The second universe is much bigger.
13:16
The third universe is bigger than the second, the fourth, the fifth, the sixth,
13:22
the seventh universe. Our mind cannot imagine the size of the seventh universe that
13:29
encompasses the other six universes. This is why in the last program,
13:36
we decided that the circumference of the seventh universe cannot be described mathematically in terms of miles or light-years.
13:46
Infinity is the best description of the circumference of the seventh universe.
13:54
And now we get to know who God is. This will correct the concept of God in the
14:03
minds of millions of people because God is holding the seven universes in his hand.

14:11
This is what the proven statement in the scripture says.

14:16
In the Quran, chapter 39, God tells us that He is holding the

14:21
seven universes in His hand. How much space do you have within the fist of your hand? And God is holding these vast distances, these vast universes within

14:35
his hand. Where is the planet Earth in there? How significant is it?

14:42
It is very important and very relevant to this program to understand who God is and

14:49
how minute and insignificant the whole planet Earth is within God's kingdom.

15:28
This illustration gives us some idea about the greatness of God and who God

15:35
is and I assure you we didn't even come close, but we do have a better idea

15:42
and this corrects the concept of God in the minds of millions of people.

15:49
God is great not only in terms of size but also in terms of controlling

15:56
everything, every atom in the heavens and the earth, down to subatomic levels,

16:03
and this is a direct quotation from Quran. We learn from the scripture that God is

16:10
the Most Gracious, the Most Merciful. God is Love. He loves His creation and you

16:16
noticed that I started this program by saying "in the name of God, the Most

16:22
Gracious, the Most Merciful. And this brings the inevitable question.

16:29
When we look around us all over the world, we see a lot of misery, a lot of

16:35
famine, starvation, poverty, accidents, earthquakes, problems, diseases, cancer.

16:45
The world is full of problems. The vast majority of the world is under

16:51
dictatorship, oppression and poverty. So, the inevitable question that pops up

16:58
in our minds, justifiably so, is if God is full of Love and Compassion and Mercy,

17:07
why all these problems? Why does God permit this famine,

17:14
starvation, accidents and misery? It's a legitimate question and this

17:21
program will deal with this question.

21:28
In order to answer the question "why are we here?"

21:33
And what is the purpose of our lives?", we had to go back in time to where there

21:40
was God and nothing else. Then, God created the angels

21:48
to perform functions where the existence of God is not necessary, or simply

21:54
devastating, as we will learn later on. The Angels had to possess immense powers,

22:02
and just to give you an idea, today, the angels have to travel billions of

22:09
light-years in only a few of our hours. They have to possess immense

22:17
powers, and God gave the angels immense powers. We have heard in the last few years about questions like how many angels can

22:30
dance on the tip of a pin. This kind of silly question. But the exact opposite is

22:38
true. Just to give you an idea, one angel can hold the planet Earth in one hand.

22:45
We know these things now after the discovery of the mathematical code and

22:51
the mathematically proven statements in the scriptures. One of the angels became infatuated with his God-given powers. He had so much

23:05
power that he thought he can be a god in his own right. That angel's name was
23:14
Lucifer or Satan or the devil or El Diablo. He has many names. Let us call him Satan for the purposes
23:23
of this program. You can imagine Satan flying in the
23:29
universe and saying to himself "I can be a god in my own right. I can
23:36
rule part of this universe by myself." That was all in his head
23:42
and, of course, his fellow angels had no idea what Satan was thinking, but God
23:48
knew about Satan's supercilious thoughts, deep in his head.
23:55
God knew those thoughts. And there were two alternatives,
24:02
either God can simply wipe out Satan, and in this case the angels will wonder. They
24:12
will be perplexed "why did God do this to Satan? Satan didn't do anything wrong."
24:19
The other alternative was to expose Satan first,
24:24
and to do this, God decided to create a tiny, a minute creature from a lowly material, mud. You can imagine the size of
24:38
the human being compared to the size of an angel who can hold the planet Earth in his hand.
24:47
So, God created a tiny creature from a lowly material, mud. Then, God ordered the angels to bow down before Adam, this tiny
25:01
creature. They all did, except, you know who, Satan. And thus Satan was exposed as a rebel.
25:13
Now, the angels see for themselves that Satan is a rebel
25:19
who deserves to be banished from God's Kingdom.
25:24
That was the first reason for creating the human race.
25:57
It was mercy from God that He decided to expose Satan first by creating the tiny
26:05
creature from mud, then ordering the angels to fall prostrate, bow down before Adam.
26:13
The other reason for creating the human race is a bit more complicated.
26:21
To understand this second reason, we have to go back to the time when Satan was infatuated with his power and saying "I can rule part of
26:31
this universe by myself. I can be a god in my own right."
26:37
God said to Himself when He knew about Satan's supercilious thoughts "all right,
26:45
you want to be a god? I will make you a god, and see how good you are. There is
26:50
much more to godhood than you think." This is what God thought to Himself and this
26:58
is where the second reason for creating us comes. In order to make Satan a god, temporarily,
27:08
God decided to give Satan a dominion and constituents. In order to be a god or a
27:16
king, you have to have a dominion and constituents. To give Satan a dominion,
27:24
God went out of His way to show Satan that the dominion God is giving to Satan
27:34
is really tiny, minute. God created this vast universe, the seven universes that I
27:42
described to you. And in this vast universe, God told Satan "I'm giving you
27:51
this tiny tiny planet Earth. This is your dominion." Okay. So, now that Satan has his
27:59
dominion, where will he get his constituents? That's right, the human race.
28:07
God created the human beings and gave them the freedom of choice.
28:13

God told us, you and me and every one of us,
28:19
that if we choose Satan's kingdom, we belong in Satan's kingdom. And if we
28:27
choose God's Kingdom, then we belong in God's Kingdom. Now, this choice depends on siding with Satan's point of view or God's point of view.
28:43
God's point of view is that God alone is Lord of the universes. He has no partners, no other God besides
28:56
Him. This is God's point of view. And when you agree with this point of view,
29:04
you belong in God's Kingdom. Satan's point of view, on the other hand,
29:11
is that God alone is not enough. There can be or there must be another god or gods besides Him.
29:22
And Satan wanted to be that other god. So, the human beings have the freedom of choice and those among them who side
29:34
with Satan's point of view become Satan's constituents.
29:39
So, now Satan has his dominion, the planet Earth, and his constituents the human
29:48
beings who side with his point of view. And Satan is being tested as a god
29:57
and the results are all around us. Now, you know why the famine, the starvation,
30:07
the misery, the accidents, the cancer.
30:12
Satan's kingdom is plagued with these problems.
30:19
On the other hand, these problems do not exist in God's Kingdom. When you side
30:27
with God's point of view, that is decide that God alone is Lord of the
30:36
universes, without any other idols in your life, you
30:43
belong in God's Kingdom and God's Kingdom has no cancer, no accidents, no
30:50
headache, no problems. God's kingdom is characterized by perfect health,
30:57
perfect wealth and perfect peace, perfect happiness.
31:04
I know this sounds unbelievable but you heard me right.
31:10
God's Kingdom is characterized by perfect health, perfect wealth,
31:16
perfect happiness and joy. When you choose God's point of view,
31:23
you belong in God's Kingdom, and you will have no headache, no problems, no traffic
31:31
tickets. I'm gonna repeat that, you heard me right. When you belong in God's
31:38
Kingdom, you will have no headache. You will forget what headaches are.
31:45
You will have no financial problems, no health problems.
31:51
God runs the universes, and this is His law. If you belong in God's Kingdom, there
32:00
will be no accidents in your life, no misery, no marital problems, no problems of any kind.
32:11
Unfortunately, the vast majority of people have sided with Satan's point of view,
32:19
that God alone is not enough. They do this by idolizing, setting up idols like Muhammad or Jesus or Mary or Saint
32:29
Francis or the boss or the dollar. They set up all kinds of idols.
32:37
And when they do this, they uphold Satan's point of view and automatically,
32:44
they become Satan's constituents. Don't get me wrong. Satan is trying very hard to make his kingdom, the planet
32:56
Earth, and his constituents, the people who choose him and his point of view...
33:01

he is trying very hard to make his kingdom a perfect Kingdom. He wants very badly
33:09
his constituents to enjoy perfect health, perfect wealth and perfect peace and happiness,
33:18
but he just can't and this is the whole idea.
33:23
Satan is being put to the test with a dominion and constituents and his
33:31
incompetence as a god has been proven and this is the whole idea of our existence.
35:23
Some of you may think that I'm talking about some kingdom to come after life or
35:30
something like that, but I'm talking about now, you and I.
35:37
And some of you may ask "I didn't want to be in this test. Why am I here, involuntarily?"
35:46
And this is a wrong question. Because we learn from the scripture that is proven by mathematical code, by physical evidence to be God's
35:56
message to the world, we learn that you and I and every human being was asked
36:03
whether we want the freedom of choice or not. We met God before the creation of
36:10
the heavens and the earth and we bore witness that He alone is our Lord.
36:16
But this knowledge is obscured with this body. We cannot remember it now.
36:22
We will remember it when we get rid of this body, this garment and become free again.
36:30
I'm talking about now. Every human being you see is either a
36:36
constituent of God or a constituent of Satan, and as I mentioned constituents of
36:44
God enjoy perfect health, perfect wealth and perfect happiness and
36:49
joy now, in this world. Satan's constituents are plagued with
36:57
problems, financial, marital, health. They have all kinds of problems and I know
37:05
this sounds unbelievable but this is why I am repeating it. And I must repeat now
37:12
that these statements are proven by physical evidence, by the mathematical code that I explained to you in the last episode. It is very
important to realize
37:23
that I'm not talking from the top of my head, that this is
37:28
proven material by physical evidence that anyone can examine and verify.
37:35
When you are in God's kingdom, when you side with God's point of view that God alone
37:42
is Lord without any idols, without Muhammad or Jesus or Mary or the Saints
37:50
or the boss or the dollar, you belong in God's Kingdom and you enjoy perfect life.
38:02
When you side with Satan's point of view, here in this world, you suffer the consequences.
38:11
What you see around the world is the consequence of Satan's incompetence as a god.
38:19
God gave him this planet Earth and gave us the freedom to choose him and become
38:25
his constituents. You know the scripture tells us that if
38:31
God wills, He can make all the people believers, which is true. If God wills, He
38:39
can make all the people on Earth believers. The question is why doesn't He? And the answer in the scriptures is
38:49
"if God made all the people believers, where will Satan get his constituents to
38:55
prove Satan's incompetence as a god?" See, we are here to provide Satan with constituents.
39:06
Those among us, with our freedom of choice, who choose Satan become his constituents
39:15

by their choice. So, this is happening here and now. Any
39:21
human being you look at belongs either in God's Kingdom or in Satan's kingdom.
39:27
Whether they know it or not, there is no other choice. You either belong in God's
39:33
Kingdom or in Satan's kingdom. How can you tell? If you have any problems whatsoever,
39:42
if you have headaches, financial problems, health problems,
39:50
marital problems, any kind of problems, this will be your hint that you have
39:57
made the choice to side with Satan's kingdom, somehow. You will have to examine your own life.
40:09
That is the difference between Satan's kingdom and God's Kingdom. God's Kingdom is characterized by perfect health, perfect wealth and
peace of mind.
40:41
If you look into your life and find that your life is full of problems
40:46
or has some problems, if you come to the conclusion that you
40:52
have been victimized by Satan or duped by Satan into joining his kingdom, what is the way out?
41:01
How can you join God's Kingdom? How can I join God's Kingdom?
41:09
This is a very easy matter. At the same time, it is not so easy for the reasons
41:14
that I'm going to explain to you. First of all, you have to come to a solid unshakable conclusion that God alone is
41:25
Lord of the universe, that no one besides God can help you or harm you.
41:34
You have to come to this solid conclusion. So, let us say you claim that you came to
41:44
this conclusion, that you believe that God alone is Lord of the universe.
41:50
The scripture tells us, in Quran, chapter 29 verse 2, I'm going to quote it now.
41:58
"Do the people think that they will be left to say we believe without being put to
42:04
the test? We will surely put them to the test to distinguish those who are
42:11
telling the truth from the liars."
42:16
Therefore, when you make this claim that you believe that God alone is Lord of
42:23
the universe, you will have to be put to the test to show that you're not just
42:29
offering lip service, that this is a deep solid unshakable conviction.
42:37
We read in the Bible that Job was put to the test.
42:43
Satan inflicted a lot of harm upon Job, and this is my chance to tell you that
42:52
any problems, any diseases, any accidents, any misery is inflicted only by Satan.
43:01
God does not inflict any harm on His creation.
43:31
There are four kinds of disasters. The first kind is the admission tests,
43:41
what I call admission tests. When you or I claim that we believe that God
43:47
alone is Lord of the universe without any idols, we must be put to the test.
43:55
These admission tests are designed to show that we uphold this conviction solidly, unshakably under all circumstances,
44:06
rich or poor, health or sickness. And admission tests are characterized by
44:12
the fact that they do not leave permanent damage. They test you thoroughly.
44:19
Then, you are admitted into God's Kingdom. That is the first kind of disaster.
44:26

The second kind of disaster is called educational disaster. This is designed to bring us back into

44:36

God's Kingdom if we sway out of God's Kingdom.

44:42

If we make a mistake and step out of God's Kingdom, this is exactly what

44:49

happens. You step out of God's Kingdom and Satan captures you, smites you, gives

44:57

you a problem, a disaster. And this will be your attention getter.

45:08

You'll be alerted that you have stepped out of God's Kingdom and you will come back fast. That is called educational disaster.

45:17

And as you see, admission tests and educational disasters are inflicted by Satan.

45:25

The third kind is called blessings in disguise. And these appear to be disasters but

45:33

when they are passed, you look back on them and you discover that they were actually good for you. You go apply for a job or something and you don't get it,

45:44

you flunk in the interview and you're very upset because you wanted that job, but later on you discover that with time,

45:54

you obtained a better job and that... had you succeeded in getting that job, it would

46:02

have been much worse for you. So, that is a blessing in disguise.

46:10

The fourth kind of disaster is retributive disaster.

46:17

And it happens when a society or an individual reaches the point of

46:25

corruption where there is no reform, the point of no reform. A good example in the

46:32

Bible and the Quran, in the scriptures, is Sodom and Gomorrah. The people of Sodom

46:38

and Gomorrah were corrupted beyond reform.

46:44

They became hopelessly trapped in their corruption.

46:50

And God decided to inflict the retributive disaster that they deserved

46:59

And this is the only kind that you may attribute to God, but

47:06

actually it is... this ended their life. It was the final blow.

47:13

And death is a fact of life, as you know. Everyone dies. So, it is not really a

47:22

disaster since it is the final act. Death is a fact of life. We all die.

47:29

And that is not a disaster. So, these are the four kinds of disaster.

47:51

I remember a story that was told by a famous preacher about two men, one

47:58

believed in God and the other did not. The man who believed in God was telling

48:03

his friend "well, listen if you don't believe in God, then if there is a Day of

48:09

Judgment, you will be in deep trouble. But you see, if you believe in God and then

48:16

if there is a Day of Judgment and you face God, you've got nothing to lose.

48:23

If you don't believe in God, you're in trouble. But if you believe in God and

48:28

there is no Day of Judgement and there is no God, you've got nothing to lose." Now, this argument the preacher said makes sense. It makes sense that you

48:38

believe in God. But actually, I am here to tell you that it doesn't work that way.

48:45

See, you cannot believe in God just in case there is a God. The only way is to

48:52

reach deep solid unshakable conviction about God, not only that God exists, but

49:00

also that God is the Only Lord of the universe, that there is no idol, no other

49:08
god besides Him. And as I told you, it is very easy to
49:15
make the switch from Satan's kingdom to God's Kingdom. All you need to do is to reach this deep conviction. You have many years to study,
49:28
look around, research, think, reflect and make a decision.
49:33
And if you are fortunate to make a decision to join God's Kingdom by believing that God alone is Lord of the universe,
49:43
then you will be put to the test to show that you mean it, that it is
49:51
not only lip service or just in case as in that story.
50:20
Your decision to join God's Kingdom based on deep unshakable conviction must
50:27
be accompanied by repentance, remorse for the wrong things you have done in the
50:33
past. You simply say to God "I'm sorry, I did those things. I'm sorry, I did not
50:40
side with Your point of view, that I fell into idol worship. I committed certain sins. I will never do them again. I repent to You."
50:50
This repentance wipes out all your sins. You become like a newborn baby, no sins whatsoever.
50:58
Better yet, we learn from the scripture that all your sins of the past will be transformed into credits. That's right,
51:09
credits in your record. And credits means growth and development and strengthening
51:15
of your soul. So, on the day of judgment, you will be strong and able to withstand
51:22
the Energy of God, being close to God Himself.
52:19
A lot of people ask the question "why the children are suffering?"
52:26
Why the innocent children are suffering?" In the last few years, we have been
52:32
watching in our living rooms on the TV children starving and dying in Africa.
52:42
And a lot of people are justified in asking "why the children?"
52:48
It is very important to point out that when we side with Satan's point of view,
52:57
we move ourselves and our families out of God's Kingdom into Satan's kingdom.
53:05
We and our families become constituents in Satan's kingdom and subject to Satan's
53:14
incompetence as a temporary god. This is why the children are suffering.
53:23
On the other hand, the suffering and death of those children is actually a blessing in
53:30
disguise. When we study the scripture carefully, we realize that these children
53:36
are going straight to Heaven. And it is indeed a blessing for them. They actually
53:44
do not die. They move on from this life to a much better life.
53:50
The chances of those children growing up and making the right choice, siding with
53:58
God's point of view, the chance is very nil that they will do that.
54:04
And it is far better for those children to die now and go to Heaven than to suffer for
54:13
a long time and then end up not making it and ending up in an eternal Hell.
54:45
This brings us to a very important item in this episode, the unforgivable sin.
54:53
You see, at the end of our term in this world, at the time of death,
55:00
murder is forgivable, adultery is forgivable, stealing is forgivable,
55:08
lying, cheating, all these are forgivable sins. There is only one
55:15

unforgivable sin when maintained until the time of death.

55:20

This one unforgivable sin is idol-worship.

55:28

We fully appreciate now why idol worship is the only unforgivable offense.

55:34

Because now we realize that the whole idea behind our existence, the whole idea

55:40

behind creating us is to provide Satan with the constituents who agree with his

55:47

point of view, that God alone is not enough,

55:53

that there can be other gods, other idols besides God. The grossness of idol-worship

56:01

can be appreciated when you remember what I mentioned earlier in

56:07

this program, that this planet Earth is a tiny tiny component in God's Kingdom.

56:14

Remember when I mentioned that the planet Earth is 93 million miles from the Sun, that the light from the Sun to the planet Earth

56:25

takes four minutes to reach us? 93 million miles from the Sun to the Earth.

56:31

And this is a very tiny distance when we think of the whole solar system being

56:40

something like 4 billion miles across. And you can see the planet Earth

56:47

diminishing in these vast distances. Now, the light comes to us from the Sun

56:55

in four minutes, but from the edge of our galaxy, the

57:01

Milky Way galaxy, the light takes not four minutes, not four days, not four

57:08

years, not four centuries, and not four thousand years even, it takes 30,000

57:16

years for the light to travel from the planet Earth to the edge of our

57:23

galaxy, the Milky Way galaxy. Can you imagine how tiny the planet Earth is in the Milky Way galaxy? And I mentioned that before. Our universe contains one

57:36

billion galaxies like the Milky Way, and distances up to 26 billion light years.

57:47

From the Sun to the planet Earth, the light takes four minutes. If you travel

57:53

at the speed of light, you reach the Sun in four minutes. You reach the outer limit of the Milky Way galaxy in 30,000 years. You reach the outer limit of our

58:02

universe in 26,000 millions years at the speed of light. So, where is the planet

58:10

Earth in our universe? It is almost nothing.

58:15

Now, our universe, as I mentioned, is one of seven universes. The other six are much larger universes,

58:24

if you can imagine that. So, the planet Earth is terribly insignificant.

58:32

Now, on this tiny insignificant planet Earth, a man named Muhammad walked for 63 years.

58:41

All his life from birth to death was 63 years. On this tiny insignificant planet

58:47

Earth, there was this human being, Muhammad. And millions of people around

58:53

the world idolize him against his will. Can you imagine the grossness of this

58:59

idol worship? On this tiny minute insignificant planet Earth, a man named

59:06

Jesus, a creature of God, walked on the earth for 33 years.

59:12

So, how significant is he? How significant is Muhammad?

59:17

And you can imagine, you can appreciate the grossness of idol worship when people idolize

59:24

creatures of God like Muhammad or Jesus or Mary or the Saints who walked on this

59:30
 Earth for a limited period of time. And this planet Earth, as you see, the whole
 59:35
 planet Earth, is terribly insignificant. So, now with the study of the scriptures and the physical evidence supporting it, we come
 59:47
 to appreciate that the only unforgivable offense is idol worship.
 59:53
 God is holding the seven universes in His hand and we see now that our purpose
 1:00:02
 in life to be successful is to side with God's point of view that He alone
 1:00:07
 is enough. God describes His greatness in the scriptures for us to appreciate God
 1:00:16
 and to see that He alone is Lord and to see and appreciate the
 1:00:24
 grossness of idolizing anyone else. The definition of idol worship, by the way, is that
 1:00:34
 if you believe that anyone other than the One who created you can benefit you. Then, you have fallen into idol worship.
 1:00:44
 This is the definition of idol worship. If you believe that anyone other than
 1:00:50
 the One True God, the One, the specific One who created you, if you believe that
 1:00:57
 anyone other than God can benefit you, then you have fallen into idol worship.
 1:01:55
 I am sure you realize that we cannot cover these heavy subjects in such a short time.
 1:02:04
 I have shared with you the ideas about the king of chaos. We know
 1:02:09
 now who the king of chaos is. We know why the world is full of miseries, famine,
 1:02:16
 wars, oppression, disasters, accidents, cancer, etc.
 1:02:22
 And we dealt with the most important question in anyone's life, the purpose of
 1:02:29
 our life. Why are we here? Why were we created? And because these subjects are so heavy, I am sure I raised more questions than
 1:02:40
 answered, and this is why I hope you will get on the phone and call me with your
 1:02:45
 questions. Don't hesitate to ask. My phone number is area code 602 791 (www.submission.ws)

12 Friday Sermon by dr Rashad Khalifa the Most Important Sermon GOD is Doing Everything 1987 06 05

All united in this place of prayer, each individual soul joined in community of worship. One God.
 0:46
 La Elaha Ella Allah
 0:56
 Alhamdu Lillah. Wa Ash-hadu Alla Elaha Ella Allah Wahdahu La Shareeka Lah
 1:04
 This, IN SHAA ALLAH, will be the most important KHUTBA I've ever delivered so far.
 1:11
 So, please pay attention, a special attention this time.
 1:16
 I will try to repeat the important points and I want you to bear in mind that I'm
 1:23
 talking to you, you. Don't say "he's talking to somebody else".
 1:30
 Recently, I have come to a very important conclusion about believing in God,
 1:37

and this started in the Muslim Perspective issue of February 1987,

1:44

with the title "Satan Believes in God." It dawned on me that throughout the Quran we are taught

1:52

that the majority of believers in God are going to Hell.

1:58

In SURA 12, verse 103 says "most people no matter what you do will not believe"

2:05

and then in 106, we're told that "the majority of those who believe will go to Hell."

2:13

This is in SURA 12 verse 106, and then we read

2:20

in SURA Al-Mu'minûn, number 23 verses 84 through 90.

2:29

I'm gonna quote starting at 84. "Say, to whom belongs the Earth and

2:36

everyone in it if you know? They will say to God! Say would you then take need?

2:44

or how come you do not take heed?" "Say, who is the Lord of the Heavens, the seven universes, the Lord with the great Dominion?

2:55

They will say "God!" Say "how come you do not observe righteousness or do not observe God?"

3:03

"Say, in whose hand is the Kingship of everything, over everything, the One that

3:12

can come to your help and does not need any help, if you know? They will say: God!

3:18

Say "how come you, you have been bewitched, have been... have gone astray?" So,

3:24

And in SURA 29 verse 61 says "if you ask them who created the Heavens and the Earth

3:31

and committed the Sun and the Moon? They will say: God!" and then the verse ends by

3:37

asking "how come they deviated?" In SURA 29 verse 63, it says "if you ask them who sends water

3:47

from the sky to revive dead land? They will say: God! Say praise be to God, how

3:53

come most of them do not understand?" So, all these verses and many more throughout Quran tell us that people believe in God. Satan believes in God, but

4:03

they're still going to Hell. Now why? And the very important conclusion is you

4:09

do not believe in God unless you know God as He really is with all His qualities,

4:15

namely, especially that God runs everything, that God is doing everything.

4:22

And this will shed a new light on our submission to God, our acceptance of whatever is happening to you personally, or in the world,

4:33

to anybody, to anything, to any country. We do not believe in God unless we believe that God is running everything.

4:43

And at this point, I would like to suggest a ZIKR for you, something for you to do.

4:52

Every day, wherever you go, when you're driving, or sitting, or you have

4:57

nothing to do, or even if you have something to do, I want this to dominate your life even mentally, even when you're doing something, I want you to repeat

5:07

always "God is running everything", "God is running everything." This is your new ZIKR, our new ZIKR.

5:15

Because it will, it will... the whole world will look different to you. When anything is happening that may turn you into

5:23

an objector, not a submitter, this will remind you that God is doing everything and that you are objecting.

5:33

As a believer, you have no business losing your temper, for example. You're not a believer if you lose your temper. And as I said that at the beginning

5:42

of the KHUTBA, I'm talking to you. Don't say "he's talking to somebody else." I'm talking to you, yes you, Abdullah, Gatut, Mohtasham, Ahmad, the other Ahmad,

5:52

Frank and so on. I am talking to you, every one of you. You have no business losing

5:58

your temper because this indicates you're objecting to something God is doing.

6:03
We must know that God is doing everything, even the things that Satan is doing, they are following God's law.

6:13
A good example in the Quran is before the creation of Adam, God is telling the

6:19
angels "I'm putting on earth a representative"

6:25
which in a nutshell says that God of course knew that Adam was gonna be

6:30
duped by Satan, and will go down to Earth, because after when Satan tricked Adam,

6:37
God said "go down to Earth all of you." But this, before the creation of Adam, God is telling the angels "I'm going to

6:46
place on the planet Earth a representative, the human being."

6:53
So, even though Satan tempted Adam and Eve, God is doing everything

7:00
because everything is going in accordance with God's will.

7:06
This is our new ZIKR when you're driving, when you're sitting, when you're doing anything. Eventually, it's gonna happen mentally every cell in your body

7:13
is gonna say "God is running everything."

7:19
And this is the true believer. This is the believer in God who will not go to Hell.

7:24
The majority of believers in God are going to Hell because they do not believe that God is running everything.

7:32
In SURA 8 verse 17, a classic example "it is not you who killed them" - that was

7:38
after the battle, one of the battles in early Islam - "it is not you who killed them, it is God who killed them. It is not you who threw when you threw" the arrow

7:47
or the gun or whatever "it was God who threw."

7:53
And this is a very important conclusion and this is why I think this is the most important KHITBA I ever given to you.

8:04
I made a trip recently to Egypt and everything that happened in that trip told me that we don't do anything. We do not do anything. God is doing everything.

8:18
The timing of my arrival, the timing of my leaving, I mean, I get on the telephone and say "TWA, I'm changing my reservation

8:25
from Tuesday to Thursday." I decided to change my... I didn't decide anything. I didn't change anything. Believe me, God is doing it. God is doing everything.

8:36
In SURA number 12, again, the brothers of Joseph decided not to kill him, right?

8:43
They think they decided not to kill him. They decided to throw him in the well. But before this happens, way before this, years before they make this so-called decision of theirs,

8:55
Joseph sees the dream, the Sun, the Moon and eleven stars bowing before him

9:04
which is his father, his mother, and his 11 brother bowing before him, something that was to happen after he's practically ruling Egypt as a man.

9:15
So, one day the brothers met to kill him. They... The decision was already made. They could not decide to kill him. It was impossible.

9:24
But here they are meeting and they're taking votes "shall we kill him?" "What shall we do with him?" And then they decided, they think, not to kill him.

9:35
God is running everything. And this is our new ZIKR. Just keep telling

9:41
yourself "God is running everything" especially when you are at the brink of objecting to something or losing your temper.

9:51
When you lose your temper, tell yourself "you must separate yourself from you as of now." When you lose your temper against a friend or a spouse or a brother or

10:01
a sister or anybody in the street, you tell yourself "you're not a Muslim.

10:08
You're objecting." Because God is running everything. Believe me. When your friend or your wife or your husband behaves in a certain way that

10:15
gets in your nerves, God is doing it and it's because you deserve it.

10:23
So, you have to get on yourself, and correct your self,

10:29
and catch yourself objecting, not submitting to God. God runs everything.

10:42
I wanna give you an example so you understand how God is running everything and how we have the freedom of choice.

10:52
Suppose I had a temporary ability of traveling in the future, let's say for one week.

11:00
I travel in the future and I see what happened to you, what decision you made.

11:05
Okay. So, I traveled all the way to the next Friday and I saw exactly where you went,

11:11
what kind of decision you made. Now back to this Friday, I'm giving you a choice to go to New York or to California. I wanna give you a

11:19
choice to go to either New York or California. So, I'm giving you a choice. You're going to freely choose California or New York for your trip,

11:29
but I already know, see, because I travelled in time this one week and I know that you decided to go to California. So, even though I'm giving you the freedom of choice,

11:39
I know exactly what you're going to do and where you're going. But it is much more than this. I don't think we can really understand it.

11:49
God runs everything and this is the condition. This is a quality of God and if you

11:55
don't know this quality, you don't know God and you don't believe in God. And this is what the Quran means by all these verses.

12:04
When Satan inflicts disasters, diseases, cancer on people,

12:14
Satan is doing this in accordance with God's law, and we see this in the Quran.

12:20
I remind you of the example of the disciples of Jesus, when they

12:25
demanded a feast from the sky, and God said "okay. I'm gonna send it down but if any

12:31
of you disbelieves, I will punish him severely more than anybody that I ever punished."

12:39
Now, you know that the punisher would really be Satan, but God - this is God's law. When they disbelieve, they step out of God's Kingdom, then Satan will inflict

12:49
the damage, but God is doing everything. So, even the actions of Satan

12:56
are under God's control. God is running everything. God will not be a god if He

13:01
wasn't running everything. So, this is a quality of God that you must recognize and we're going to

13:08
commemorate. This is in our own language, in English, and you drive your car and

13:14
you say God is running everything, and you look at everything and you say God is running everything, because this is the condition of belief in God.

13:25
The Quran says very clearly "when something good happens to you, it is from God, when something bad happens to you, it is from you," but God is running everything.

13:35
God created the fire. You can use it to cook a steak from a raw steak to a delicious cooked steak, unless you like it raw.

13:48
But you can also put your finger in that fire and burn your finger. So, God created the fire to be in your service, but if you choose to put your

13:56
finger in it and suffer, then this is from you, not from God.

14:02
But it is God's law that made the fire as burning. If you put your finger in it, it burns. It's God's law.

14:10
It's one of the physical laws. There are many invisible laws like if you disobey God, if you go drink, for example, it's exactly

14:16
like putting your finger in the fire but the punishment is not as visible. You can be sure you'll pay. It's just like that, like the fire putting your finger in it.

14:27
Alcohol and drinking it, drugs and taking them, adultery and committing it,

14:33
all these things, they're laws that God's laws govern them and the punishment,

14:39
the physical - the fire, putting your finger in it, the punishment for the sins are exactly in the same way,
14:46
but they're not as visible. They're just as painful if not worse.
14:53
And this explains all the problems we see in the world, the people breaking God's law and paying the price, just like putting their finger in the fire.
15:05
What is our role? What do we do? God is doing everything.
15:11
We do only one thing, one decision: to be with God or not.
15:17
After that God takes over. But we are absolutely free in that decision.
15:25
To submit is already done, and the choice, our choice is to willingly submit or unwillingly submit.
15:33
And those people who don't believe in God out there, they are submitting to God, except unwillingly.
15:39
I mean, they can't control the number of beats of their heart for example. I mean, this is one of the visible things.
15:47
But God runs everything. When Reagan decides to agree with the
15:52
Russians on limiting nuclear weapons, he's not deciding anything. He's just like Joseph's brothers. He thinks he's deciding to meet with the Russians
16:02
or vice versa. But God runs everything.
16:11
We know also that the Angels are as free as we are,
16:16
from the incident where Satan refused to obey God and bow down before Adam.
16:24
God wants His creatures to be free, as far as that decision is concerned until the Day of Judgement. The eternal Day of Judgement, there's
16:32
no more. We'll see everything, and we'll submit. Everybody will submit
16:39
including the dwellers of Hell.
16:54
It turns out that if we believe that anybody is doing anything, this is SHIRK. This is idol worship.
17:04
You're putting somebody who's doing something with God, next to God,
17:10
it negates the idea that God runs everything. So, if you think anybody is doing anything, I mean, this is by definition is SHIRK, idolatry.
17:26
This is why we're gonna remind ourselves to remind ourselves against Satan's ideas,
17:32
we're gonna always say "God runs everything." You're gonna do it for a while, and then you'll forget, like I forget.
17:40
So, I'm gonna keep after me and after you, and we're gonna repeat that. I'm gonna remind you, and you remind me, and we will always continuously until every
17:49
cell in our body is declaring: "God is running everything." Because this, like I said, sheds a whole new light on Submission, the idea of Submission.
17:59
And this sign out there on the wall "Happiness is Submission to God"
18:04
is a profound sign. There's a lot more to it than meets the eye. You're gonna be perfectly happy, and this ZIKR "God runs everything"
18:15
is going to help you into total Submission because anytime you start to complain or object, you're gonna remind yourself "God runs everything."
18:23
I'm complaining against God. I'm complaining that God is doing this, so I'm complaining, I don't like it.
18:34
We sometimes we turn into complainers, and we have to catch ourselves.
18:44
Complainers will complain when things are good. They complain when things are bad. They get into a rut and they'll complain continuously. That's objection. That's the opposite of Submission.
18:59
There's a good example of decisions. The May issue of the Muslim Perspective,
19:07
we decided to print a certain number and we said "okay, we're gonna get to these Muslim organizations. They don't deserve the
19:14

Muslim Perspective anyway. So, we're gonna skip one, do one and skip one." So, we'll send only Muslim Perspectives to half of them, and okay we made a decision, right?

19:25

We make decisions, but God makes the decision and God's decision prevails. So, the next day, the press they called me and they say "guess what, we made a mistake."

19:34

I said "what?" Said "we changed the page." They printed one page on the wrong side.

19:43

So, they have to do it over, for nothing. So, we ended up with a large

19:49

number of Muslim Perspectives anyway and we had to send every, you know, the Muslim Perspective to everybody.

19:54

But this is an example of deciding, right? We decided to eliminate these names,

20:01

but God decided "No! You're gonna send it to every single one of them." God runs everything.

20:20

Tooboo Ela Allah. Repent.

20:36

Alhamdu Lillah. Wa Ash-hadu Alla Elaha Ella Allah Wahdahu La Shareeka Lah.

20:44

I believe this ZIKR is very important, very significant and I believe is gonna help all of us. So, I'm going to repeat again, impress on you that

20:55

whenever you have a chance continuously "God is running everything." "God is running everything. God is running everything."

21:02

silently and loudly, every chance you get, and eventually, like I said, every cell in

21:09

your body will be pronouncing this important decision. This is the requirement to make it to Heaven.

21:24

I want to talk again about being upset and fighting with anybody.

21:31

Being upset, complaining, fighting, for your own good, you shouldn't do that.

21:40

We should not do that for our own good because it backfires manifold.

21:46

When you say a hurting word, or a hurting look.

21:51

The Quran goes all the way to suspicion. Inside of your head if you suspect, if you're suspicious of some...

22:01

you know, you look at me and I have a stomachache or something, and I'm making a face, and you say "this guy is not friendly to me," you've committed a sin.

22:09

And it's gonna backfire on you. You're the one who's going to suffer.

22:15

You must seek excuses for the people. If I pass by you and I'm making a face,

22:21

it is not because I hate you, probably I do, okay, maybe I do, but what you are

22:27

supposed to do is "oh, he must have a headache or a stomachache or something is bothering him."

22:33

And you love me instead of hate me, for your own good. But if I am making a face, if I'm passing by you and I'm making a face

22:43

and you assume that I do it because I don't like you, and it is true, even that little suspicion in your head will hurt you, will backfire on you, so let alone being loud, calling names.

22:58

These backfire on you. For your own protection, for your own peace of mind and happiness, don't do it.

23:07

The reason is that the mechanism of it is that it is objection.

23:12

It is complaining against what God is doing. God is running everything.

23:17

And if your husband, or wife, or your friend is behaving in a certain way, it's because of something you have done. You have to turn, you have to join your wife

23:25

or your husband or your friend and call you names or whatever the other person is doing.

23:32

You ally yourself with your enemy against yourself because it's something you have done. You say "God is punishing me for something I have done. I have stepped out of God's laws."

23:43

And always on your mind is "God is doing everything." And don't say I'm talking to somebody else. I'm talking to you, every one of you, and me. I have to remind myself.

24:00

I think I'm the oldest person in this place. Anybody older than me? gosh.

24:05

See, from my experience as being your elder,

24:12

I'll give myself the privilege of advising you. From experience, it backfires on you

24:19

when you lose your temper. Happiness is submission to God.

24:25

You have to make a decision right now that you will never be upset. You will never complain. Let other people complain. Let them be upset.

Let them call you names.

24:35

You take the defeated side, for your own good. Because believe me you're a lot happier this way and you end up victorious.

24:46

There is nothing in this world that is worth being upset about. Believing that God runs everything, as you read in the Quran, equals or

24:55

is better than, excuse me, is better than owning everything in this world and twice as much.

25:04

If you own Manhattan and all the real-estate on Manhattan, they consider you rich. So, I'm not talking about Manhattan. I'm talking about all of the United States, all of Japan.

25:14

If you own Hong Kong, you'll be rich, with all the real-estate over there.

25:20

But believing in God, the proper way, is better than owning everything in the

25:26

whole world and twice as much. Does this make you happy? It should.

25:33

The simplest thing you do as a believer which is praying five times a day,

25:39

if you put it in the right perspective of a person who believes is the greatest thing that can happen to anybody.

25:48

Okay. I want you to put yourself in this situation. You receive a telephone call from the White House. They say "Frank Jurgen, you're invited to have lunch with the president next Wednesday."

26:03

Okay, I'm gonna use Frank as an example. Frank immediately will call his work "I'm not coming to work on Wednesday" and will call his friends "guess what? I'm invited

26:14

to lunch at the White House." And he'll find the best clothes to put on

26:25

for that important meeting. Well, five times a day, you have an appointment with the King of kings. If you believe

26:32

that God runs everything, that God is the president of the whole world, that Reagan

26:37

is a dinky servant, an insignificant creature of God, if you really know that

26:47

well, is this what you will do for every prayer? You have an appointment with God five times a day.

26:54

You're gonna call work and say "I'm not coming to work because I have an appointment with the president of the whole universe." So, this puts things in perspective.

27:06

Are you gonna seek excuses not to go to the White House? I have a headache, Mr. president. Most people will go even though they

27:16

have the worst headache, a migraine and they'll still go.

27:24

Okay. I finished the main topic and there are two points that I would

27:29

like to mention before I close. One of them is something that I started to do.

27:35

I should have done it long time ago. There's a statement in the Quran that say "eat and drink but in moderation," not too much.

27:43

So, I started doing this after Ramadan and it feels great not to fill your stomach too much.

27:50

I mean, look at the wisdom of the Quran (7:31) **كُلُوا وَاشْرَبُوا وَلَا تُسْرِفُوا** "eat and drink but in moderation" not too much and it's a great thing.

28:01

If I continued the same, I wouldn't be able to wear this suit.

28:07

I'm beginning to put on some of my clothes that I had discarded.

28:13

God created the universe. This will help us appreciate God and how He's

28:18

running everything and will induce us to make this new ZIKR continuously.

28:24

In the last issue of Parade Magazine, Carl Sagan wrote an article about billions and billions.

28:31

God created a billion trillion stars. Now, forget the planets that go with these stars

28:39

and forget the fact that the Sun is one of the dim stars. The bright, a bright star is defined as a star that is a million times, at least a million times as bright as our Sun.

28:54

So, God created a billion trillion stars, and here there's a table from Parade that says "how long it would take to

29:02

count to this number," you know, "the billion trillion" or...

29:09

"a billion trillion will have

29:18

7x3, 21 zeroes" which will make it a septillion.

29:26

A billion trillion is a septillion. Okay. So, but here they went as far as a quintillion. Let's just go to the small number, okay? Quintillion.

29:34

Quintillion is one two or three four five six, six time 3 - only 18 not 21.

29:40

The quintillion, "how long it will take you to count this number from 0, 1 count

29:45

per second, night and day?" You know how long it will take you to count the quintillion? Let's forget the other 1 million stars and let's forget the planets,

29:53

and the heavenly bodies and all this, it will take you, listen to this, you're gonna say: 1 2 3 4, just counting, okay? Not creating, counting. It's gonna take you

30:05

32 billion years which is more than the age of the universe.

30:11

Okay. I mean, the universe is not 32 billion years. But if you just count,

30:16

you look at the stars and count one by one, it's gonna take you 32 billion... this is mathematics. Because you divide the quintillion by

30:25

the second and the minutes and the days and so on. It will take you 32 billion years to just count them and God created them.

30:36

So, you can appreciate the greatness of God. Aqem Al-Salat.

13 Friday Sermon by dr Rashad Khalifa GOD is Doing Everything Rearranging Our Priorities 1987 07 No2

United in this place of Prayer, each individual soul joined in community of worship
0:16
One God La Elaha Ella Allah
0:29
Allahu Akbar
0:45
Praise God. We bear witness that there is no god except the One God.
0:50
There's no other gods or idols besides Him.
0:56
In the last KHUTBA, we reached the conclusion that you do not really believe in God
1:03
unless you know that He's doing everything.
1:09
You make the initial decision, this is our role. We make a decision, a decision to be with God or not
1:17
and "not" means you'll be with Satan because there's no other choice. You're either with God or with Satan.
1:23
And this is the decision where we have absolute freedom of choice.
1:30
After that you're either guided by God or messed up by Satan,
1:35
but the Ultimate Doer of everything is God. And everything's happening in accordance with God's will.
1:49
I want today to compare our priorities.
2:02
I just remembered an idea, I have to write it down so I don't forget. I want to use the board here to illustrate something about priorities.
2:21
Most people do not know who they are. We recognize now the human being as consisting of two entities,
2:30
just to make it very simple, the body and the soul.
2:37
The body goes on for, let's be optimistic, about 100 years
2:48
and then it dies, becomes nothing. The soul is the real person,
2:55
the real "you." This is the real person right here and it goes on for eternity.
3:05
The body has requirements and the soul has requirements.
3:11
The body... now, what I want to compare here is what we do for this entity
3:17
and what we do for this entity. For this entity, people
3:23
starting with an infant: the infant is given milk and nourished, given shots,
3:31
painful shots, and growing pains
3:38
and teething and then they go to school, the body goes to school. You know, you have to go to school, right?
3:47
If you wanna be... there's a commercial on the radio and TV now by, what is the name of that comic cat?
3:54
Garfield. He said "if you wanna be a fact cat, go to school, go to college." I think he said.
4:02
So, you go to school and you take tests
4:07
and go through the homeworks and the absence reports and chastising from the parents and the teachers
4:18
and working very hard studying. You know, school is not popular with most of us.
4:26
You go through grade school, junior high school. Then, you go to high school and all the hard work involved in it and you're so glad to
4:35

graduate only to go into college. Then, you're a freshman
4:41
and you study very hard and work and you're very busy, you know, devoting a lot of effort and time and money to go to school because
4:50
why? Because this body, you want it to dress nicely, to have good clothes,
4:56
and you want to buy a house, preferably in the foothills
5:02
with so many rooms and luxuries and carpets and drapes. This body wants that.
5:09
And you work hard for that. You graduate from college and you apply for jobs.
5:16
You go to the placement office and you stand in line for the interviewer, the people who interview you
5:23
and you are very polite to be interviewed. You want to be bright.
5:28
You want to pretend to be bright and you want to put on your best appearance
5:34
and some sense of humor and intelligence, abilities, you know. You pretend to be perfect
5:41
for the interview and you get the job and then you do a lousy job and you're fired.
5:48
Then, you apply for other jobs and you're miserable. You know, all this is, this is for the body because the body wants clothes, housing, food
6:00
and we do all this work for the body. Now, what are they doing for the soul,
6:07
the average person? Now, this is the real person. Now, after all this, the body dies, goes to dust, becomes nothing.
6:20
There was a person... this body will belong to a person called Rock Hudson, remember that name?
6:26
Rock Hudson. Ok. He died recently. That's why you still remember him. And Rock Hudson was a very successful person
6:34
lots of money, fame, covers, magazine covers, on the front covers, TV movies, wealth, Beverly Hills mansion.
6:47
This body, his body had a lot of fun and he also broke God's law, as we know, and he died in humiliation.
6:56
Now, now the real person, Rock Hudson, does exist, the real person.
7:01
What did he do for this body? And what did he do for this? What did the fame and money bring him?
7:09
What was the value of the fame and the money that he accumulated?
7:16
Remember George Liberace? The glitter, the suits that he was wearing
7:24
and the showmanship and the clapping, the people clapping for him, the performances he gave,
7:30
and how many millions of dollars he made. But how much does he, the real person, have?
7:36
At the end, the mortician was afraid to touch him because of the virus, AIDS virus.
7:45
Rockefeller, any of them. So, the body, people work very hard for this entity here.
7:55
What do they do for "the soul"? This is the question. What I'm trying to bring out is rearranging our priorities, or putting our priorities in perspective.
8:07
What are we doing for the soul? What does the soul need? The soul needs worshiping God Alone.
8:16
This is the first step because the soul is part of God in any way you want to look at it.
8:23
Because God said "I blew into Adam from My spirit." So, the soul needs to worship God alone
8:30
and then it needs food, nutrition, the five daily meals. The five prayers are needed.
8:41
You need the fasting.
8:47
People like Rock Hudson, for example, he put himself in the service of this body.
8:55
He was serving this body. Whatever the body wants, he gave it,
9:01
but he neglected "himself." And if "the soul" was this size when he started,
9:09

it is still this size now, didn't grow. He didn't feed his soul.

9:14

His priorities were mixed up. I'm using a real person as an example because here's a person who attained fame and fortune.

9:26

The conclusion from this is that anything that we do that is not developing our soul is a waste of time.

9:37

If you do anything that has nothing to do with God is a waste of time. So, when you wake up in the morning, until the end of the day, you ask yourself

9:45

"am I doing this for God?" which is, which is another word for feeding your soul

9:53

because anything you do for God causes your soul to grow and develop.

9:58

It is actually for yourself, for the real entity. So, we have to rearrange our priorities,

10:07

put them in perspective. How much of the day are you doing for the body and how much are you doing for you?

10:16

You went to school and suffered through examinations to have a good job.

10:22

What did you do for you?

10:32

By the way, the hundred years compared to infinity is zero.

10:38

So, this is the proportion that you should do for yourself and for your body.

10:45

You should do zero for your body and you should do 100% for you.

10:52

It is not intelligent otherwise because this is zero. It's going to be nothing.

10:58

So, you have to put this in the service of you and not the other way around.

11:03

Almost everybody out there has their priorities reversed. They put this in the service of a vanishing garment.

11:29

Tooboo Ela Allah. Repent.

11:50

Alhamdu Lillah, Wa Ash-hadu Alla Elaha Ella Allah Wahdahu La Shareeka Lah.

11:58

From this diagram, I want to move on to comparing

12:06

a believer, a Muslim, one who submitted to God, and a regular person.

12:16

I was looking out the window the other day. I prayed my morning prayer

12:22

and about an hour later, one of my neighbors...

12:27

I was looking out the window and I saw the neighbor coming out and he was obviously very sleepy.

12:38

His hair was all messed up and you can imagine, a person who just got up, you know, he's walking like this. He can hardly walk. He's young. I mean, he's not old.

12:47

His clothes are a mess and he was out to get the newspaper.

12:53

Now, a Muslim wakes up in the morning, the first thing he says, or she says بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ. لَا إِلَهَ إِلَّا اللَّهُ وحده لا شريك له

13:01

The first thing a person says. Remember we pledged this in one of the KHUTBAs.

13:06

The first thing you're going... I hope you didn't forget. We do forget once in a while but the first thing when you get up in the morning:

13:13

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ "In the name of God" لَا إِلَهَ إِلَّا اللَّهُ وحده لا شريك له

13:19

because this is what you will say when you get up on the Day of Resurrection, whatever you say every morning.

13:26

And I have to repeat what most people say when they get up in the morning and they look in the clock

13:32

And it is oh sh**, and this is what they will say. This is exactly what they'll say on the Day of Judgement when they get up in the morning

13:38

"Oh sh**" Because usually they are up late, you know, they get up. They turn the alarm off and go back to sleep

13:50

And then when they get up next time, it's too late and they utter the four-letter words.

13:57

So, the Muslim gets up in the morning: بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ. لَا إِلَهَ إِلَّا اللَّهُ وحده لا شريك له When you get up on the Day of Resurrection,

14:03
if this is a habit here, it's gonna be a habit also on the Day of Judgement. God will see to it. God will help you.

14:12
And there is no place to go to, when you get up on the Day of Resurrection, saying بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ. لَا إِلَهَ إِلَّا اللَّهُ وحده لا شريك له

14:19
"There's only One God." There's no place to go but Heaven on the Day of Resurrection.

14:24
So, this is what the Muslim does. Now, what did my neighbor do when he got up in the morning looking for the paper?

14:30
God is not on his mind. Let's take the average person. I hope God was in his mind, but it didn't look like it.

14:36
And then the Muslim goes to do his ablution or her ablution. You go and do ablution in the morning and you pray the morning.

14:45
This is the first thing you do. And this act of ablution and the morning prayer is very refreshing.

14:51
You're alert. You look nice. You washed your face. You combed your hair.

14:57
You will not look like this guy. I mean, he really looked, looked terrible.

15:02
You only see that in the movies, somebody just got up out of bed, you know. The Muslim commemorates God in every chance he or she gets.

15:14
The Muslim sees the sunrise and says "SUBHAN ALLAH." All these are nutritions for the soul,

15:24
for you, the real person. And your soul grows when you say "SUBHAN ALLAH," Glory be to God as you see the Sun rising,

15:30
because you're always conscious of God. The Sun is rising exactly at the precise second

15:37
and from the same spot that it is supposed to, without delay.

15:42
And God committed that sun in your service. And you say "SUBHAN ALLAH."

15:50
You look at a flower and you do the same thing. Then, you make a telephone call to one of your friends or associates and you say

15:58
"tomorrow, I'm going to do this and that, IN SHAA ALLAH," God willing.

16:03
There's a certain behavior of the person who has submitted to God because you know that "God is doing everything"

16:10
and you know that you will do this and that tomorrow only because God wills.

16:16
But God will do that. And the Quran gives you this very clear commandment.

16:24
And then your kids get up and you admire them and you say "Mā Shā Allāh."

16:30
"This is God's giving to you." This is God's will that you have these children

16:35
and you thank God. Now, the non-Muslim is unaware. God is not on his or her mind at all.

16:43
And they are neglecting the real person, themselves, neglecting themselves.

16:50
They'll be very careful to have breakfast, but they will not give breakfast to their soul.

16:58
So, you are living 24 hours a day, you are commemorating your Creator. And you are...

17:04
Your Creator doesn't need that. God doesn't need any of our prayers or our worship.

17:10
We do. So, you are being prepared for the eternal life which is coming.

17:17
You don't see anybody around who's 200 years old, do you? You haven't heard of anyone.

17:22
It's coming, the Day of Resurrection. And then, you'll be assigned that eternal rank

17:28
depending on the spot where you qualified, how much growth you did.

17:40
So, so far I talked about rearranging the priorities or putting the priorities in perspective

17:46
and how much time we devote to your soul, the real person

17:52
and how much time you give to your job and your boss and your family and so on strictly.

17:57
You can give time to your family in the cause of God. Our priorities must be in perspective.

18:09

This is why you are here for the Friday prayer. You dropped all business and you are here for the Friday prayer. This is the correct priority. Anytime you are not

18:19

here on Friday, you're out of God's grace. It's a commandment for every Friday.

18:26

You drop all business and you go to the Friday prayer. And God associates this

18:31

with business and profit. And God said "it is better for you to drop business."

18:38

And because God runs the world, "God is doing everything" and when you drop your business and go to the Friday prayer as God commands you to, God will see to it

18:47

that you make more money, more profit. And you don't care but it will come.

18:55

"Rearranging or putting our priorities in perspective"

19:01

I'm gonna read a couple of verses from the Quran that deal with this subject of priorities.

19:11

In SURA 18 starting at verse 45, it says "cite for them..."

19:19

أَعُوذُ بِاللَّهِ مِنَ الشَّيْطَانِ الرَّجِيمِ I seek refuge in God from Satan.

19:24

Bism Allah Arrahman Arraheem In the name of God. It says "cite for them the example of this world like sending water

19:34

from the sky that causes plants to grow on the earth and then turns to hay, blown

19:41

away by the wind." This is this world. This is the example of this world in verse 45 of SURA 18. The plant grows. It is strong. You see all

19:54

those flowers out there? They're very nice. Watch them. They're gonna turn into dry something like hay and they'll blow away. In fact, the time will come and you'll

20:04

say "I want to remove these stuff from here" because it's gonna be dry and shriveled. And this is how this world is.

20:13

The next verse

20:18

it says that "money and children are the beauty of this life or the

20:25

adornments of this life." This is the good things of this life: money and children. In Arabic: زِينَةُ الْحَيَاةِ الدُّنْيَا

20:35

And I've heard many people, they say "God says that money and children are the adornments of this life. I have lots of children. Where is the money?"

20:43

But generally, money and children are adorning, are the beauties, or the

20:53

the adornment of this life, but and then the rest of the verse says "However the eternal righteous works."

21:00

وَالْبَاقِيَاتُ الصَّالِحَاتُ in Arabic that "the righteous works that last forever"

21:07

we're talking about the real person here. are far better for you. So, money and children and properties

21:17

in this world, they are the good things in this life.

21:22

And God tells us what is better than that. Like I mentioned in the last KHUTBA

21:28

worshipping God alone and nourishing your real person, the Quran says, is much

21:34

better than owning everything on this earth and twice as much.

21:41

All the real estate in Vancouver and New York.

21:50

All the real estate in the whole world. All the oil, the gold, the diamonds.

21:56

Believing in God alone and feeding, nourishing your real person is much

22:02

better. When you have the right perspective, is much better than owning everything on earth and twice as much. So, this verse 46 of SURA 18 says "money and children are

22:13

the beauties or the good things of this world, but the righteous works that last forever are far better and provide better hope وَخَيْرٌ أَمَلًا

22:22

The end of the verse is خَيْرٌ أَمَلًا There is better hope in them. There is no hope in the properties. Rock Hudson was very famous and very rich.

22:32

George Liberace's mansion still you can go as a tourist and look at it, but he's not there

22:39

because there's something better that he could have acquired. That is righteous works and developing his soul in order to withstand life next to God

22:50

in the Hereafter. If he didn't develop his soul, he will not stand being close to God. And the verse 47 says "because the day will come when we remove the

23:01

mountains and you see the Earth barren." Everything will go. "and then we will gather every single one.

23:12

The Arabic says *قَلَمَ نُغَادِرُ مِنْهُمْ أَحَدًا* "We will not leave a single person."

23:18

God says "we're gonna gather everybody" to, for this

23:25

reckoning. How much did you do for this vanishing garment? How much did you do for yourself? The reckoning is gonna be automatic, but every single one will

23:34

come to account.

23:40

The next verses go on and describe why the righteous works, and feeding your

23:45

soul is the number one priority. That when you do anything else, it's a

23:52

waste of time. Anything else that does not develop your soul is a waste of time.

23:57

And missing a Friday prayer... I'm using this because you're all here... when you miss a Friday prayer for any reason, it's a terrible terrible loss.

24:06

Because being once a week at congregational prayer where you meet your brothers and sisters, and it's a commandment from God to do this. When you

24:15

miss it, you miss a lot. I mean, I cannot put it in billions of dollars. We have to always remember the right

24:24

perspective. And the advice in Quran is to commemorate God 24 hours a day, every chance you get. You can turn your work

24:34

into worship. You can take the mail from the fellow. Open it. He has a express mail thing.

24:47

And I need it. Bring it. These are papers that I need.

24:55

It's one o'clock so I'm gonna read some material and some kind of a quiz.

25:02

I want you to find out or think where it is from. Ok?

25:09

Every addition or omission of a word or even of a single letter from

25:16

the sacred text of the prayers destroys the religious meaning of the

25:21

prayer as a whole and is to be regarded as a grave sin,

25:27

a sin which could result in eternal exile for those who commit it.

25:32

Remember there are certain statements of Quran that says *وَيْلٌ لِلْمُصَلِّينَ* "woe to

25:37

those who are doing their prayer." I mean, those are people who are doing their prayer, but they end up in the negative because they are heedless of their

25:46

prayers or because there are other reasons. So, you must make sure that your

25:51

prayer is perfect, your SALAT, your contact. I'm not talking about supplications. I'm talking about your Contact Prayers.

25:59

It is a recognized statement in Quran *الَّذِينَ هُمْ عَنْ صَلَاتِهِمْ سَاهُونَ* "Woe to those who are doing their Salat prayer."

26:06

"who are heedless of their prayers." They are not aware or they are neglecting something. Let me read

26:12

this again. And I want you to apply it to our Contact Prayer here. See, Barry is

26:18

visiting us for the first time and he will wonder why do we do the prayer in Arabic and why this particular prayer, for example. And all of us asked this question.

26:26

In fact, it's gonna come up. So, let me read this again. "Every addition or omission

26:35

of a word or even a single letter." Now, we in this mosque fully appreciate the

26:42
mathematical composition of everything that's connected with our worships, the

26:47
Quran and even the bones in our body and everything else. So, we should appreciate what is written here.

26:56
"Every addition or omission of a word or even of a single letter from the sacred text..." Al-Fātehah is the sacred text that God gave us,

27:06
the first SURA of Quran. We cannot add anything to it. As you know, Satan succeeded everywhere in the Muslim world, they add the word "Amen."

27:16
And our people in Washington DC have a radio program and I have one of the tapes here talking about this "Amen." And they got it from a dictionary, some

27:27
recognized dictionary and they read what "Amen" is. It turned out to be an old Hebrew-Greek something word that has nothing to do with Arabic. It is not in the Quran, but

27:36
here this is why Satan tricked the people into adding it.

27:41
"Every addition or omission of a word or even a single letter from the sacred text of the payers destroys the religious meaning of the prayer as a

27:49
whole and is to be regarded as a grave sin." So, here's a person doing the prayers

27:54
committing a grave sin. OK. Let me go to another section.

28:01
As I go, you will guess what I'm reading from. "He and his disciples evolved a

28:06
mystical theory according to which the words and letters of the various prayers

28:13
are not accidental nor are they only vehicles for which literal... for their literal meaning." I mean,

28:22
أَهْدِنَا الصِّرَاطَ الْمُسْتَقِيمَ "Guide us on the right path" is wonderful but we are not saying the Contact Prayer for this literal meaning.

28:29
There is much more to it. So, listen to this. "Nor are they only vehicles for their literal meaning, their order and especially their numbers..."

28:41
We certainly appreciate that "...reflect a mystical harmony, a sacred divine

28:46
rhythm." Next.

28:53
"No change can be tolerated in the text of the prayers not even a minute one

28:59
because every change even of one letter would destroy the numerical harmony

29:05
inherent in the text." So, every letter that God composed in the first SURA of Quran, Al-Fātehah, is numerically controlled.

29:15
The sounds, when you say اَلْحَمْدُ لِلّٰهِ رَبِّ الْعَالَمِينَ this is composed by God for a specific reason, a combination that causes your contact with your Creator.

29:25
Oh, listen! It's coming up. "It does not matter; therefore, whether the change is beneficial from the point of

29:33
view of meaning and content." I mean, you may think of composing a Shakespearean excellent

29:40
literary marvel that praises God. It doesn't mean a thing. Forget it. It is not the

29:47
meaning we're after. It's the numerical composition and the sounds.

29:52
"For this level of meaning is not the most important one in the Prayers.

29:59
The text was formed" by God - I'm adding this "by God" - "to reflect mystical

30:04
harmony and any change would destroy it." The second point here is the liturgy

30:10
that is the Contact Prayers' Al-Fātehah. "The liturgy received new importance

30:16
and new meaning within the framework of religious practice." After discovering the numerical importance of it. "A completely new dimension was added in this way to the

30:26
daily prayer service. It stopped being just a reciting of requests and

30:32
praises of God in ancient formulas." Arabic, for example. "And became a vehicle for becoming a participant in a mystical divine

30:41

harmony. The prayers suddenly received a new depth of meaning and importance
 30:47
 which was undreamed of in the thousand years that had passed since they were formulated." Next.
 31:01
 Okay, this will really tell you what this is coming from. The quiz becomes easier and easier. "The fierce polemical tone of Rabbi Judah's
 31:10
 criticism of the changes introduced by the Frenchmen in the prayers can therefore be explained as a result of his fear that the prayers may
 be
 31:19
 regarded as completely human in origin and meaning making them secular and meaningless in religious and mystical practices." A lot of
 people accuse me of
 31:29
 being harsh with some people who are making changes in the prayers or in the
 31:34
 Quran or in the practices of religion, but there is a precedence. It is fear for
 31:42
 these people and it is concern for them.
 31:47
 "According to him, even if the content and meaning of the prayer is religious, expressing
 31:53
 love and devotion to God, it still will be just called a secular song like that
 31:59
 of the non-jews if it does not have the added mystical dimension of hidden truth,
 32:05
 which cannot be revealed by the literal meaning of the words alone. In his
 32:11
 polemic, Rabbi Judah does not defend only the specific tradition of prayer which he received from his parents and teachers, he also defends
 prayer as an
 32:20
 elevating force forming a connection" - connection: SALAT - "a connection between
 32:25
 man and God, a connection that no mere words can achieve." So, it is not just
 32:31
 the words. There's a numerical mysticism in it. And the last section...
 32:40
 "All God-fearing people, when they pray, have to direct their prayers when they
 32:46
 say "blessed is God" "أَلْحَمْدُ لِلَّهِ" "When they say "blessed is God"
 32:52
 and when they kneel before Him and thank Him and direct their prayers in their hearts only to His holiness alone, within which is His glory
 and which has neither
 33:04
 form nor image." You direct it to God Alone. Aqem Al-Salat.

14 Friday Sermon by dr Rashad Khalifa Quran vs Bible Code End of the World Revealed 2280AD 1987 07 N

One God
0:21
LA ILAHA ILLA ALLAH (There is no god, except the One God)
0:32
ALLAH-O AKBAR (God is great).
0:36
One God
0:39
LA ILAHA ILLA ALLAH (There is no god, except the One God)
0:50
ALLAH-O AKBAR (God is great).
0:54
ALHAMDULILLAH. WA ASHHADU AN LA ILAHA ILLA ALLAH, WAHDHU LA SHAREEKA LAH.
0:59
We continue to record these KHTUBAs because they are very important.
1:05
Now, I know what I'm going to talk about.
1:10
About, in fact, exactly 19 years ago, I started the research on the Quran. I put
1:18
it in the computer and you know the rest of the story. Now
1:23
after that, there was tremendous publicity for the miracle of the Quran.
1:27
We had not reached the the conclusion that is causing all kinds
1:33
of problems for the disbelievers that we shall worship "God Alone", that we shall
1:38
devote ourselves to "Allah Alone" and that we must uphold the Quran, the
1:44
whole Quran and nothing but the Quran. Until this conclusion appeared about 1976,
1:51
there was tremendous publicity for the miracle of Quran and the putting the
1:55
Quran in the computer and it was a very popular issue. The
2:00
leaflet was distributed by the millions throughout the Muslim world
2:05
and was translated to all languages of the world, French and Japanese.
2:11
And the biblical scholars apparently became jealous and they wanted to do the
2:20
same thing. So, they did organize a very
2:28
sanctioned study at the Hebrew University in Jerusalem.
2:33
A fellow by the name of Cats put the Bible in the computer, "the
2:39
Torah", the five books of Moses I guess, and what he did was to first, let's say
2:48
I'm gonna put the English but they used the original, the oldest text they could get hold of
3:00
"In the beginning,...." This is how the book of Genesis begins.
3:06
What they did was take every second letter.
3:11
I think they started with every seventh letter: one, two, three, four, five, six, seven.
3:17
One, two, three, four, five, six, seven. So, they took every seventh letter,
3:23

put all these letters together and tried to get meaningful words or sentences out of
3:29
them. That didn't work. So, they took every eighth letter and that didn't work.
3:37
And they kept going on until they got to some number and they found the word
3:43
"Torah" and they became very excited and they said "God is saying that this is the
3:48
Torah" and so on. They found words like: Elohim, Jerusalem
3:53
Holocaust, but these words were born from the letters that they extracted from the text -
4:00
the original text of the Bible. Last night, Larry King had a professor at the
4:05
University of California San Diego, his name was Richard Elliott Friedman.
4:12
His book is now in the market and they're making a big noise about it. The
4:16
book is entitled "who wrote the Bible?" and in the question and answer by
4:20
telephone, somebody asked him if he's familiar with the computer work that was done in
4:27
Israel. And I'm going to let you hear the answer.
4:34
Then I will comment from there on. Don't worry; you're going to hear it.
4:46
...computer without them to prove that it was written by different people in different times.
4:55
...that they discovered by using the computer, but the chances of the Bible being written by mortal man is only one
5:02
chance out of 1,300,000.
5:07
"Sure. I'm familiar. There've been two these computer studies in recent years that supposedly prove that the Bible is all by God
5:14
or all by one person and so on."
5:16
"These are non-sense. They are bogus. They are a disgrace to statistics. In simplest terms, what their system was
5:23
they counted every seventh letter of the Bible to see if it spelled out any words. It didn't
5:27
work. So, they tried every eighth letter and so on and finally on a certain number, I think, it was
5:30
every 17th letter came out every now and then spelling the word. As it happens
5:33
the word they got was "Torah." Three of the four letters of Torah are the three most
5:37
common letters in the Hebrew language. And so they said so statistically, my God, how
5:41
could this have happened that it keeps out spelling "Torah?" It is nonsense. You
5:44
can do this with any book, the same process. You count every 14th letter of the
5:48
Bible and it will spell out "Paul McCartney is dead."
5:53
Okay. This is true, I mean. As you see now, what I'm trying to tell you in this
6:00
KHUTBA is that we have the real thing. These people tried. They put the Bible in the
6:05
computer and they tried all kinds of things. Now, they're taking every 7th
6:09
letter, every 8th letter and so on. In the Quran, the discovery that came out
6:14
of this mosque, we have no choice. We cannot manipulate the data. We have two
6:20
verses initialed with the letter "Q." We didn't choose "Q."
6:26
The author of the Quran, Almighty Allah, chose
6:30
"Q" and there are two chapters initialed with "Q." One is chapter 42, another
6:38
Chapter 50. You count the letter "Q" which is dictated on us, we did not choose it.

6:44
 In chapter 42, and you have 57 Q's, 19 times 3.
 6:53
 You count the letter "Q" in chapter 50 which is half as long as 42
 7:01
 and you also get the same number, 57,
 7:06
 which is 19 times 3.
 7:12
 There is one chapter initialed with the letter "N." We didn't choose the letter "N."
 7:20
 There is no chance of manipulating or haphazardly looking for anything
 7:26
 and you count the letters in this chapter. The letter "N" in this chapter and
 7:31
 you have 133. 19×7 . There are three chapters initialed with the
 7:40
 letter "S", the heavy "S" a guttural "S." Saad.
 7:45
 And you count this letter. There's no question about the letter "Q" or "N" or "S",
 7:52
 they're very clear letters. And in the chapters initialed with "S", you count this
 7:56
 letter and you'll find 152 S's which is 19 times 8.
 8:05
 There is no manipulation here. We have the real thing. We have proof that
 8:11
 every letter in Quran, every word was mathematically composed beyond human
 8:17
 intelligence. This is a supernatural composition. I wanted initially to
 8:29
 give you a report on my visit to San Diego. We had a very nice meeting last
 8:34
 Saturday and I find out that Apamea's aunt and
 8:39
 uncle were there.
 8:44
 I presented to them, we discussed with them the miracle of Quran and there was one
 8:48
 person, an objector, who came from some other camp.
 8:54
 And I pointed out these things to him that we have no chance of manipulating
 9:00
 the Quran because we did not choose the "Q" or the "S" or the "N."
 9:05
 And I asked him to explain how come all these are consistently
 9:10
 multiples of 19? We have seven chapters initialed with "H. M",
 9:17
 seven chapters. And you count these initials in the seven
 9:22
 chapters and you have 2147 or
 9:27
 19 times 113.
 9:36
 2147, these seven chapters are almost one tenth of the Quran and if you have one
 9:43
 extra "H" or one extra "M",
 9:48
 this will not be a multiple of 19. It's an extremely sensitive mathematical
 9:53
 composition.
 9:56
 "ALM" in chapter 2, 9899 of them, you count the letter "A", the letter "L" and letter "M",
 10:08
 and the total is 9899. We did not choose "ALM", like they skipped every seventh letter,
 10:15
 every eight letter, and then they took the letters out and tried to make words
 10:19
 out of them. Like Dr. Friedman said "you can do it with any
 10:22

book."
10:25
Some of the critics say "you can do this with any book." But it's not true.
10:29
I tell them "fine." They said "you can do it to any number, not the same 19."
10:34
I say "please let us see some other numbers." You know, "we'd like to see
10:37
a miraculous composition of the Quran using any number." And they they haven't
10:41
shown us anything yet. 19 years until now and we challenged
10:45
them to prove any mistake here. There isn't any. Notice this is 9899,
10:51
it sounds like the price of a used car, 9899 and 99 cents. But this is a
11:02
multiple of 19.
11:06
19 times 521.
11:20
One A, one letter A, if it's added or lost becomes 9898 and that will not be
11:29
a multiple of 19. If you add one "L" or one "M" in chapter two, a huge
11:36
chapter, just one letter, lost or added and you have 9900 which is
11:41
a nice round number, but it's not a multiple of 19.
11:46
We have a chapter initialed with "KHY'AS", the heavy "S."
11:57
This happens to be chapter 19 and it has to do with the story of Mary and Jesus,
12:02
the virgin birth, the miracles of Jesus, things that are normally unbelievable and
12:06
this is why God is strengthening this chapter with 5 initials. And you
12:12
count them. These are distinct letters that I have in the book, the visual
12:17
presentation book, with every one of these letters marked with a star. So,
12:22
they can see for themselves. I mean, you're feeding them the miracle with a spoon.
12:27
The first book was just tables and numbers and they said "how do we know
12:30
you're not lying? How do we know these numbers are correct?" So, I printed the
12:35
second book for them with every letter. I said "all you need to do is show me one
12:40
letter without a star, one of these letters without a star, or show
12:43
me a star under a letter that is not one of these." There are 798
12:48
of these. This is 19 times 42.
12:59
Consistently, every single one of them without exceptions, 29 chapters initialed.
13:08
And we have no choice. This "KHY'AS" have been in the Quran for 1400 years.
13:15
There is no chance for manipulating or playing around.
13:20
And after the conclusion came that we shall worship "God Alone" and uphold the
13:24
"Quran Alone," you know how popular I am. They are dying to find a mistake.
13:31
It's a blessing from God that I'm not that popular.
13:37
Just received a death threat the other day. Somebody said "the Saudi's gonna
13:41
assassinate you almost three days ago. That's how
13:44
popular I am. So, you can imagine how eager they are to find mistakes and you

13:49
 can be sure if they find one mistake because one mistake means the whole
 13:53
 thing collapses and this is what I'm telling them. I said "I'll forget the whole thing if you
 13:58
 find one mistake because God is perfect and His system is perfect.
 14:06
 There are other initials: "ALMR",
 14:12
 "ALMS", "ALR", "TSM",
 14:25
 "TS", "YS." "YS" is a SURA entitled "YS", SURA number 36.
 14:32
 You count the "Y" and the "S," in this chapter, they are 285. 19 times 15.
 14:44
 Strange things happen in the Quran. There is a letter Y. This letter is
 14:49
 questionable in many many SURAs. There're many words
 14:53
 like for example: يتوفكم "Yatawafakum" is written with a "Y" in the word that is
 14:58
 obscure "Y." It's kind of a questionable "Y." You do not find a single
 15:03
 questionable word in this SURA. They're all straightforward "Y." YA SEEN. 285.
 15:16
 I don't know what other letters I forgot but every single one in their chapters
 15:21
 is a multiple of 19.
 15:24
 No wonder God calls this "One of the Greatest Miracles."
 15:29
 And we are the lucky generation that witnesses this miracle.
 15:33
 The consequences of this Miracle certainly are fantastic and they have evolved
 15:38
 to the ultimate conclusion
 15:42
 that I've been telling you about. "God is doing everything." This is the
 15:47
 ultimate conclusion. This ultimate conclusion explains why
 15:53
 the majority of believers are going to Hell.
 15:59
 Because there are lots of people who believe in God but they don't believe
 16:01
 that He's doing everything. It's a very crucial conclusion, the ultimate
 16:06
 conclusion.
 16:09
 The one that leads us to Heaven and you can understand why it is rare
 16:15
 that people go to Heaven. People who are going to Heaven are rare and we find this in
 16:21
 the Bible consistently, the Bible and the Quran. "Narrow, straitened is the road to
 16:27
 Heaven. Wide and spacious is the road to Hell" says the Bible.
 16:33
 The Quran says the same thing.
 16:36
 TUBU ILLA ALLAH. Repent.
 16:50
 ALHAMDULILLAH. WA ASHHADU AN LA ILAHA ILLA ALLAH, WAHDAHU LA SHAREEKA LAH.
 16:54
 Praise be to God. I bear witness that there is no god except the One God who is doing everything.
 17:04
 God is doing everything.
 17:09
 And some people added a few things; Lisa, the other day, was telling me she added "and I
 17:14
 wholeheartedly submit to Him" makes that another complete sentence. God is doing
 17:20

everything and I wholeheartedly submit to Him. Because this ultimate conclusion
17:25
that God is doing everything sheds a whole new light
17:28
on the idea of submission to God. Because from now on you will not be an
17:34
objector. You will not be unhappy with anything.
17:37
If you're unhappy with anything, you're an objector.
17:43
If there's anything that causes unhappiness, you have to find out what it
17:47
is and eliminate it. Look for the non-Quranic situations in your life.
17:54
Eliminate them. You must live, you must be sure that
18:00
everything in your life is Quranic. Quranic means the word of God.
18:05
In the meeting in San Diego, the one fellow over there, the objecting fellow,
18:13
was saying that
18:17
out of this research came the dating for the end of the world.
18:25
The first book, the Computer Speaks, as you remember,
18:29
I said that the end of the world, God says, that the end of the world is 2280 AD,
18:41
or 1710 AH,
18:47
both of them multiples of 19. Okay. He said that this is a very dangerous thing
18:52
to say. Now, why is it dangerous, whether it is
18:56
correct or wrong? Why is it dangerous? First of all, we're not gonna live until that time.
19:01
Second of all, if it is wrong, I mean, why is it... it's a piece of information.
19:07
I must mention here that the three minimum requirements in the Quran, in SURA 2
19:13
verse 62, and also the same thing is repeated in SURA 5.
19:19
It says the minimum requirements are (1) believe in God,
19:23
(2) believe in the Hereafter (3) lead a righteous life. These are the three minimum requirements.
19:29
You'll make it to Heaven if you believe in God Alone,
19:34
believe in the Hereafter, and lead a righteous life. There is nothing about
19:37
Moses and Jesus and Muhammad. You don't have to believe in them.
19:43
There's nothing about the Quran or the Bible or the Gospel. You don't have to
19:48
believe in them. There's nothing in there about anything. There's nothing about the angels.
19:55
You believe in the angels? Of course, you believe in the angels, but it is not a
19:59
requirement. It's a piece of information. It's an additional piece of
20:02
information. There's a difference between the knowledgeable person and the ignorant
20:07
person. And all of them, if they satisfy these three requirements, they make it to
20:12
Heaven. But to believe in the angels, the messengers, the scriptures,
20:18
all these are additional pieces of information, valuable pieces of
20:21
information, and one of the valuable pieces of information is that God put in the Quran
20:26
the end of the world. So, I'm going... this KHUTBA will be devoted to this.

20:31
First of all, the Quran is God's final message to the world.

20:38
God is the only One who knows when the world will end and God wants to tell

20:43
the world about the end of the world

20:48
and when it will be. And God put it in the

20:51
in the final message to the world. So, it is not me who is saying or predicting

20:57
the end of the world. It is the All Knowledgeable, God Almighty, that is

21:02
saying in the Quran when it will end and it goes like this. In SURA 20, verse

21:07
15, God says "I will not keep the end of the world hidden."

21:14
And in SURA 15, God says "We have given you, O Muhammad, the seven pairs."

21:22
The seven pairs, 14.

21:28
And the letters that I showed you in the

21:31
first KHUTBA are 14, fourteen sets. So, they are, as you see, a fantastic

21:38
miracle and God is telling Muhammad what a blessing it was that God gave him

21:44
these seven pairs. Now, when the Quran was revealed, there were no numbers.

21:51
This "ALM", the first verse of SURA 2, for example, you can look on them as

21:57
letters and you can also look on them as numbers.

22:02
This is 71. This was 71 at the time of revelation of

22:07
Quran. We did not have these numbers when the Quran was revealed. "A" is 1, "L" is 30, "M" is 40.

22:14
1+30+40. The total is 71.

22:18
You add the 14 sets of numbers, and they give you 1709, total.

22:28
So, "We have given you, O, Muhammad", the verse, when you look at it carefully in view

22:33
of all the Quran, that from Muhammad to the end of the world, or from the Quran to

22:38
the end of the world, 1709 years. After you complete 1709

22:44
years, you go into 1710 After Hijra, which is a multiple of 19.

22:50
There is one flag goes up, a sign, a confirmation.

22:56
The corresponding year AD is 2280 which is also a multiple of 19. Another flag goes up.

23:04
This discovery happened in the year 1400 AH.

23:17
And it said that the end of the world will be 1709. I mean, the total

23:23
number of the letters was 1709. So, how many

23:27
years are left? How many complete years because 1710 will not be complete?

23:31
Before the end of 1710, the world will end. 309 and immediately a flag goes

23:39
up. We find in SURA 18, the people of the Cave.

23:45
God didn't tell us how many there are in the cave.

23:50
And God goes out of His way to tell us I'm not gonna tell you how many there

23:54
are in the cave. Three and people say "four." Five and people say "six" or seven and

24:01

people say "their eighth is the dog." Say God knows how many there are. So, I'm not gonna

24:07

tell you how many, but He tells us how long they lasted in the cave,

24:11

300 increased by 9. Why? This is a Quranic number and

24:19

you look the SURA and it tells you why God says, told us about the people of

24:25

the Cave. It says "to remove all doubt about the end of the world."

24:30

I'm gonna say it in Arabic and the translation in English. I mean, what is more

24:34

straightforward than that? It says

24:36

وَكَذَلِكَ أَتَتْهُمْ لَعْنَتُنَا لِيُغْلِبُوا أَنْ يَكْفُرُوا وَأَنَّ اللَّهَ خَفِيٌّ وَأَنَّ السَّاعَةَ لَا رَيْبَ فِيهَا (18:21)

24:42

That the end of the world, there is no doubt about it. In other words, so this is to remove

24:47

all doubt concerning the calculations. This is connected with the end of the

24:52

world. "We have given you the seven pairs" is connected with the end of

24:57

the world in SURA 15.

25:01

The verse before that, before we have given you 7 pairs, God says that God is the

25:07

Omniscient who knows, the Creator, the Omniscient, who knows everything

25:12

and knows when the world will end.

25:15

وَإِنَّ السَّاعَةَ لَأَتِيَةٌ فَاصْفَحِ الصَّفْحَ الْجَمِيلَ (15:85)

25:18

إِنَّ رَبَّكَ هُوَ الْخَلْقُ الْعَلِيمُ (15:86)

25:20

"That your Lord is the Creator, the Omniscient who

25:22

knows when it will end. We have given you seven pairs

25:26

and the great Quran." So, all these signs together tell us that there is no doubt.

25:32

But it is a piece of information, it is not required

25:36

to go to Heaven. The minimum requirements are (1) believe in

25:40

God (2) believe in the Hereafter (3) lead a righteous life under any name. If you're

25:46

a Buddhist or Hindu or Christian or Jewish or Muslim, under any name, if you worship

25:51

God Alone, the Creator of the universe and believe in the Hereafter, Heaven

25:57

And Hell, Resurrection after death, and lead a righteous life. You can't just

26:02

believe in God and the Hereafter and be a nasty, bad person, liar, cheat and all that.

26:08

You have to lead a righteous life. So, these three minimum requirements will

26:11

lead you to Heaven. Belief in the messengers, Muhammad, Jesus, Moses is not

26:16

required, the angels is not required. Believing in the scriptures is not required.

26:22

We don't see it in the.. Believing that the world will end in 1710 or 2280 is not

26:27

required, but it is a valuable piece of information as valuable as knowing

26:32

that there are angels and jinns and messengers

26:37

and scriptures.

26:39

AQEM AL-SALAT.

15 Friday Sermon by dr Rashad Khalifa Universal Unity Through Devotion to GOD Alone GOD is Close to

Each soul joined in a community of worship.

0:18

One God.

0:20

LA ILAHA ILLA ALLAH (There in no god but One God)

0:33

All equal before God, all united in this place of prayer.

0:39

Each individual soul joined in community of worship.

0:44

One God.

0:46

LA ILAHA ILLA ALLAH (There in no god but One God)

0:57

ALLAH-O AKBAR (God is great)

1:04

WA ASHHADU AN LA ILAHA ILLA ALLAH, WAHDAHU LA SHAREEKA LAH.

1:07

Praise be to God and I bear witness that there's only One God. Allah.

1:17

Looks like the rain is delaying a number of people,

1:19

so, I'm gonna start with the less important subjects

1:22

and keep the important subjects to the second KUTHBA.

1:27

In this KUTHBA, I wanna talk about the subject for the Muslim Perspective that we will be preparing

1:32

IN SHAA ALLAH, in the next few days. One important subject is...

1:41

I don't know if it's a new idea,

1:42

but it's an idea called Universal Unity.

1:46

And I'm abbreviating it

1:48

U & U, Universal Unity through devotion to God alone.

1:55

The idea is that the Protestants are fighting the Catholics in Ireland.

2:01

The Jews are fighting the Muslims in the Middle East.

2:04

The Hindus are fighting the Sikhs in India.

2:08

The Sunnis and Shias are fighting each other in Iran and Iraq.

2:15

And there is one thing in common among all those people.

2:21

The Protestants, the Catholics, the Hindus, the Sikhs, the Muslims, the Sunnis, the Shias,

2:27

this one common bond is belief in God.

2:31

They all believe in God.

2:34

So, it dawned on me that if we rise above the human

2:36

factors.

2:38

If the human race rises above the human factors

2:44

such as Jesus, Mary, Muhammad, the saints and so on,

2:49

they will be united.

2:50

There'd be no reason to be different.

2:54

The reason the Sunnis are fighting the Shias is because they reverence different imams,

3:00

human factors.
3:02
The reason the Protestants are fighting the Catholics is
3:06
Martin Luther, a human factor.
3:09
The reason, the Mormons are Mormons is Joseph Smith and so on.
3:16
So, it is these human factors, Muhammad, Jesus, Mary, Joseph Smith
3:21
and so on that cause the differences.
3:25
If we focus on the one common linkage that is belief in God,
3:32
we will have One objective to love,
3:35
One objective to worship,
3:39
One and the same.
3:41
So, this is why I called it Universal Unity.
3:44
I finished a video program a couple of days ago.
3:48
I mean, the shooting of it
3:51
and be editing it in the next two weeks.
3:53
And IN SHAA ALLAH would be showing it in Washington DC and New York, Boston, Cincinnati,
4:00
San Francisco, Los Angeles, the major centers,
4:04
and Chicago.
4:06
We got Chicago also.
4:09
So, the program will emphasize these points of differences and the one point of unity.
4:18
And I will be asking them to get together with us in promoting Universal Unity.
4:26
A complete name is Universal Unity through Devotion to God Alone.
4:32
And by the way, we're going to change this sign out there.
4:39
While studying this subject,
4:42
I realized that you can submit to somebody while hating his guts.
4:47
So, submission is not really a good word.
4:50
Devotion is a positive word.
4:53
So, we're going to change the sign and make it, Happiness is Devotion to God Alone.
4:58
This is a product of this Universal Unity idea.
5:06
This is one subject,
5:08
and I'm gonna put this in the Muslim Perspective on the back page.
5:12
On the front page, I'm going to talk about Polygamy which is a very popular subject.
5:19
I had a called from New York, Shaheed Ahmad, most of you knew her.
5:22
And they're having a big problem with New York Muslims abusing the law,
5:28
God's law polygamy.
5:32
So, I want to start off by saying that we have laws,
5:36
Divine laws in the Quran.

5:37
Polygamy is one of them.
5:38
It is God's law.
5:39
It is allowed.
5:41
But I want to say that when we abuse God's law,
5:46
any of God's laws, the retribution is really not worth it.
5:50
The retribution is severe.
5:55
We can't cheat ourselves and justify things for ourselves.
6:00
But when we look at the subject of polygamy, our example
6:05
is the Prophet Muhammad.
6:08
Sometimes they accuse us that we do not follow the example of the prophet and this is a
6:12
lie.
6:13
But our example here, a perfect example, is Prophet Muhammad.
6:17
He had one wife until she died for 25 years.
6:22
He had one wife.
6:24
All his youth, from the age of 25 to 50,
6:30
he had only one wife.
6:31
He had all his children from her, except one.
6:35
And after Khadija died, he married widows of his friends who had children to give them
6:44
his name.
6:46
He had a couple of political marriages that were actually forced on him.
6:50
Abu Bakar told him "you have to marry my daughter.
6:52
You must marry my daughter."
6:54
So, he married Aisha.
6:56
And they lie, they say that he married Aisha when she was 9.
6:59
Well, even now when a girl is born in a family, they name her, her husband-to-be,
7:07
when she's still 9 hours old.
7:10
She's gonna marry, you know, some cousin.
7:14
So, this is happening now.
7:15
And this is what happened with Aisha.
7:18
But he did not marry her until she was a mature
7:20
woman.
7:21
That was a political marriage.
7:22
Another political marriage was his friend, Omar, who told him
7:26
"you've got to marry my daughter, Hafsa, also." So,
7:28
But his marriages, after Khadija died, were all to
7:33

alleviate sorrow.

7:35

So, here's an important criterion for polygamy is that you alleviate sorrow.

7:40

You do not create sorrow.

7:41

I'm gonna put this in the Perspective.

7:44

So, somebody who wants to use this law has to be very careful not to abuse it.

7:52

And he has to use this criterion.

7:55

"Am I creating sorrow or alleviating sorrow?"

8:00

"Will there be creation of pain or removal of pain?"

8:03

This is one thing.

8:05

"Am I driven by lust,

8:08

or am I driven by charitable feelings?"

8:13

We have... we are very special people. We are people who

8:16

decided to worship God alone and follow His laws.

8:20

And we have to be the harshest on ourselves.

8:24

So, I'm going to write this on the front page of the Muslim Perspective.

8:30

I think these are all the criteria, I could think of.

8:33

But I think, we don't need to say anymore, once we think of the example of

8:38

the Prophet,

8:39

especially that he was living in a society, where polygamy was a way of life.

8:46

Every man had 20, 30 wives.

8:48

200 wives depending on how rich he was.

8:50

There was a way of life in the society.

8:53

In this society, it is not a way of life.

8:55

It is even illegal according to the laws of this country.

9:01

But it is the law is being abused everywhere.

9:04

I hear examples from everywhere in the country by Muslims.

9:10

And they are paying dearly because abusing God's law.

9:16

When you become a Muslim, you know better.

9:18

When you know better, the responsibility is multiplied manifold

9:23

and the retribution is really severe,

9:25

it's not worth it.

9:28

TUBU ILLA ALLAH. Repent.

9:45

ALHAMDULILLAH, WA ASHADU AN LA ILAHA ILLA ALLAH, WAHDAHU LA SHAREEKA LAH.

9:54

The important subject, I want to talk about in this KUTHBA is, I was reading the Bible,

10:01

preparing this book about Jesus.

10:05

And in one place, Jesus tell the people "your problem is that you do not know God."

10:12
And this happens to be the problem right now.
10:19
People do not know God.
10:21
So, I'm going to review with you some scientific facts that you already know.
10:27
Because if we know God, we will understand why every page of the Quran says "God alone,
10:34
worship God alone."
10:36
And will understand the blasphemy of putting human
10:41
creatures anywhere near God.
10:48
We live in something called the solar system.
10:52
And our sun is 93,000,000 miles away.
10:57
93,000,000 miles away.
11:00
This is 93,000 times as much as from here to New York.
11:08
93,000 times, going to New York and coming back.
11:12
93,000 times.
11:14
That is how far the Sun is from us.
11:16
The light of the sun takes 4 minutes to reach us. That's the speed of light.
11:21
93,000,000 miles in 4 minutes.
11:25
The solar system has 12 planets, maybe more,
11:29
but they haven't discovered yet.
11:32
And this, the solar, the sun and the 12 planets surrounded, occupy a distance that goes to
11:39
4,000,000,000 miles.
11:40
Okay 4,000 million of miles.
11:43
This is our solar system.
11:45
Our sun is a star and, in our universe, there are a billion trillion stars.
11:53
This is stated clearly in the Quran
11:55
when God says, in SURA 40, that the creation of the heavens is a lot more difficult than
12:02
the creation of the human being,
12:04
if you can imagine that.
12:06
But see, we have a billion trillion heavenly bodies.
12:09
No, excuse me.
12:10
Only stars, because there are uncountable decillions of other heavenly bodies associated
12:17
with those stars.
12:20
A billion trillion stars in 1,000,000,000 galaxies.
12:25
All these are scientific facts.
12:27
1,000,000,000 galaxies.
12:29
Our galaxy is called the milky way galaxy.
12:32

And our next-door galaxy is 2,000,000 light years
12:37
away.
12:38
That's next door.
12:40
If you live 2,000,000 years and travel at the speed of light,
12:43
doing nothing else, just traveling at the speed of light,
12:47
you will go next door galaxy in 2,000,000 years.
12:53
There are a billion of those,
12:54
Billion galaxies.
12:57
And we learn from Quran that this...
13:02
Now, by the way, it'll take you something like a hundred billion years to
13:07
just count them,
13:09
not create them,
13:11
just to count the stars.
13:15
They do it scientifically by taking a picture at random of the sky
13:18
and counting
13:19
what's in the picture and then multiplying by the, they calculate the circumference of the
13:24
of the earth and the visible stars.
13:27
This is how they...
13:28
But if you count them, 1, 2,
13:29
and take one second per star to count,
13:32
it will take you a hundred billion years
13:36
day and night without stopping
13:38
just to count them.
13:39
Now, all this we're told in Quran is in the smallest and the innermost of 7 universes.
13:50
So, all this vastness is in the smallest universe.
13:53
Imagine 7 balls inside each other.
13:56
The 2nd universe is bigger.
13:58
The 3rd is bigger than the two.
14:02
The 3rd universe, the 4th, the 5th, the 6th, the 7th.
14:08
Can you imagine the circumference of the 7th universe?
14:13
How long is it, the circumference?
14:15
There is no number that can describe that.
14:18
We do not have... you know, at the time of the Quran revelation, they didn't count beyond 1,000.
14:25
And now, with our computers we do not have a number that will...
14:31
even if you estimate the differences between the 7 universes and be very conservative,
14:38
you still will not have a number that will describe the circumference of the 7th universe

14:45
in light years or millions of light years.
14:48
Infinity would be the closest and most honest description
14:52
of the circumference of the 7th universe.
14:56
If you go to the edge of our solar system, the earth will be almost invisible.
15:06
You have to use very, very powerful telescopes
15:09
in our solar system.
15:11
If you go to the edge of our galaxy, the earth is absolutely invisible.
15:19
And on this earth walked a man called Jesus or Muhammad.
15:25
So, the people do not know God.
15:27
They are unaware of who God is.
15:31
Because this infinity, the circumference of the 7th universe, were told SURA 39, is held
15:37
within God's right hand.
15:40
This allegorical description, being withheld within God's right hand, is to tell us how big God is,
15:48
how great God is, and who God is.
15:54
Because it is not held within his hands. There's a difference between holding something like this or
15:59
like this inside.
16:01
How much space do you have inside your hand?
16:07
God is great.
16:09
And because of this greatness, God is capable of treating you as if you're the only creature
16:15
in the universe.
16:17
God has that capability and He does.
16:21
He's closer to you personally than your jugular vein.
16:25
God is great.
16:26
We cannot understand or encompass the greatness of God.
16:34
God is capable of treating every ant as if it is the only
16:40
creature in the universe.
16:45
Can you imagine the circulatory system of the ant, the heart of the ant?
16:51
It does have a heart and it beats.
16:55
It's not like our heart but it does have a
16:57
heart.
16:58
It has a circulatory system
17:00
and God controls that as if it is the only creature in the universe.
17:09
So, when God says, in SURAH 53
17:12
"God is the One who makes you happy or miserable.
17:15
God is the One who makes you rich or poor."
17:18

And when we raise the new understanding, which is absolutely essential for you to go to Heaven,

17:26

namely, God is doing everything.

17:30

We need to know who God is to understand and appreciate that statement.

17:34

God is doing everything.

17:38

The only thing we do is choose to be with God or with Satan.

17:42

This is it.

17:43

After that God takes over.

17:46

And God makes you rich or poor, happier or miserable.

17:50

God is doing everything.

17:53

However, misery comes from Satan.

17:56

But in accordance with God's will.

17:59

So, the Ultimate Doer is God.

18:01

And we bring the misery on themselves... on ourselves.

18:07

We choose to put our finger in the fire or not.

18:10

So, when it hurts, it's because we chose to put our finger in the fire.

18:14

And it is God's law that when you put your finger in the fire, it hurts.

18:18

So, we bring the pain on ourselves.

18:22

So, if you have any problem of any kind, you just have to ask yourself

18:29

"why do I have this problem?"

18:30

And you have to dig and find out why and remove the

18:34

reasons.

18:35

You have to be honest with yourself.

16 Friday Sermon by dr Rashad Khalifa the Mathematical Miracle Proves the Quran to be the Word of GO

ALLAH-O AKBAR.

0:15

LA ILAHA ILLA ALLAH.

0:32

ALHAMDU LILLAH. WA ASHHADU AN LA ILAHA ILLA ALLAH, WAHDAHU LA SHAREEKA LAH.

0:38

Praise be to God. We bear witness that there is no god except

0:41

the One God.

0:45

We are a very fortunate generation. And this is understatement of the year. In SURA 32

0:55

God says that certain people have no

0:57

idea how much joy and happiness await them. And we have no idea

1:06

how fortunate we are, but 50 years from now, the future generation will realize how fortunate

1:14

we are. We are the pioneers of something that is very special.

1:20

About 50 years ago, for example, God's miracles through his messengers existed without any proof.

1:29

And even now our generation, excluding the pioneers, that

1:36

we have become, you go to them and say "Moses threw down the

1:39

staff and it became a snake." And they say "sure. Oh, yeah,

1:44

sure." The unbelievers. Even the believers have doubts. You tell them "Jesus revived the

1:51

dead." And say "oh, maybe, he just fainted or something or he was just,

1:58

you know, he was sick or something and he came back to life." They do not believe those

2:04

miracles. But now, God gives us the first tangible evidence that when Moses

2:12

threw down the staff, it became a snake. Because what we have, and turns out that this has been

2:20

always the case in the scriptures, in the Bible, in the Old Testament, the New Testament,

2:24

everything that God sent down, everything that God created you and

2:28

me and the Sun, the moon, the stars, they all have God's signature on them.

2:34

The scriptures are mathematically composed, numerically structured beyond human intelligence.

2:40

So, every statement in the Quran becomes proven with

2:44

physical evidence. So, when the Quran makes the statement; Moses threw down the staff

2:50

and became a snake, this becomes a physical evidence proving it

2:57

because it is mathematically composed by God Himself. It is authenticated by the mathematical

3:02

composition that comes only from God, not from a human being.

3:06

And God was an eyewitness there. God was an eyewitness who saw Moses throw down the staff

3:12

and it became a snake. And He's telling us

3:17

in a numerically-structured statement. And the same is the true

3:21

with "Jesus revived the dead." Every statement in the Quran

3:26

is physically proven beyond doubt. So, that's how this is

3:32
the fortune that we are not aware of. And this is how fortunate we are, is that we have
3:37
now, you read the Quran, and you have full confidence in everything it
3:40
says, including many things that are unbelievable, like Moses throwing down the staff and having
3:48
it turned into a snake. God says in Quran in SURA 41, verse 53
3:55
"I will increase My evidence. I will continuously increase My evidence until everyone believes
4:03
that this is the truth." So, when, I'm going to talk to you today about
4:10
the miracle of Quran again because there's some new evidence that just came out confirming
4:15
this statement of God that He will increase His evidence. So, initially we
4:21
said that the first verse in Quran consisted of 19 letters. And the number of SURAs 114
4:33
is a multiple of 19. And they said "well, this is coincidence." This is when
4:40
this came out first. And then, we found out that in SURA entitled Q,
4:48
there are 57 Qs. The other, the only other SURA initialed with Q also had 57 Qs.
4:57
19 x 3 and 19 x 3. 19 letters in the first verse. 19 x 6, the Quran SURAs, and
5:05
people said "coincidence." Then, we found out that if you add these two 57, 57
5:12
you have 114. 'Q' stands for QURAN. 114 SURAs. And they said "this is coincidence." They still
5:21
continued to disbelieve. And then, we said that this statement here
5:26
which is 19 letters. Every word of it is found in the Quran in multiples of 19.
5:36
The first word is 19 times. The second word 2698 times. The third word 57 times.
5:44
The fourth word 114 times. And they said "this is coincidence." So, God kept increasing the evidence
5:56
And you know the rest. You know that the letter 'NOON' in
5:59
SURAs 'NuN' is 133, a multiple of 19. You know
6:04
that we have, I'm just reminding you of a few
6:08
of those. So, you will be the people who appreciate the Masjid Tucson
6:13
miracle more than anybody else. There are seven
6:17
SURAs initialed with HA MEEM, H. M.,
6:21
seven chapters constituting about one-tenth of the Quran. And you count these
6:27
letters in the seven chapters and you'll have 2147 of these letters in the seven chapters.
6:35
This is 19 x 113. If only one HA, one H, or one M was lost or added or
6:46
substituted in the last 1400 years, this will increase by one or decrease by one. And the
6:53
whole thing disappears. The whole thing collapses. So, you can
6:58
see the mathematical composition that is beyond human intelligence and has to be from God.
7:06
The thing that gives you confidence that when Moses threw down
7:09
the staff, it became a snake. It's as like you're an eyewitness. You're just as good as
7:16
an eyewitness if not better. When Moses threw down the staff and became
7:21
a snake, how many people saw that? Very few people who were inside the palace hall with Pharaoh.
7:31

And how long did it last? A few minutes and that was it. That was the
7:36
end of it. The miracle happened. A few people saw it, was over in a few minutes.
7:42
But this miracle of Quran is continuous forever. It is perpetual. It is doing two things.
7:50
It is a continuous miracle until the end of the world.
7:53
And it confirms all those temporary miracles that were limited by time and space
8:00
like Jesus reviving the dead.
8:01
How long did it take for Jesus to revive Lazarus? How many people saw Jesus revive Lazarus?
8:08
But now, we know. Now, we are witnessing that miracle now, millions of people
8:13
by mathematically-composed statements, authenticated by God Himself.
8:19
We know that this is not man-made. God wrote that, and Who was an eyewitness.
8:24
So, when this came out, they said "we don't believe it."
8:30
I just received a review written by something, something Phillip. Phillip is the last name.
8:38
He's not our Phillip here. Some other Phillip. And they finally admitted that there are four or five SURAs
8:46
that, are, actually have multiples of 19.
8:48
What they admitted was the Qs
8:55
that these are 57 in each of the Q-initialed SURAs. So, that's two SURAs.
9:00
The N in SURA 68. They said "yes, this is correct." The YA SEEN, YS-initialed SURAs,
9:12
SURA 19, K. H. Y. 'A. S., five initials. What was the other SURAs?
9:21
I think this is it. And they said "this is not enough to establish a pattern. It is pure coincidence."
9:27
So, they don't, they don't... But at least, finally they admitted that there is
9:32
something here. About the H.M. SURAs, they said "why is he adding them together?"
9:39
And they raise all kinds of strange questions. So, what you'll see in the next issue of the Muslim Perspective,
9:50
not this one, not October, but November, is that
9:53
it is obvious that God is increasing His evidence just as He said in chapter 41.
9:59
And that those people will continue to say "no, we don't believe"
10:02
in order to expose and confirm the hardcore unbelievers who will end up in the lowest pit of Hell.
10:12
The reason... the reason I'm saying this is that Lisa, yesterday, found something else.
10:19
This KHUTBA should be given by Lisa by the way but this fits in the mainstream of the...
10:26
This is really profound as you will agree. And if you want more details, you can ask her afterwards.
10:36
There is something in the Muslim Perspective of last month where...
10:43
Let me get one of those Qurans to explain to you what the deal is.
10:54
The preliminary information that you have is that, 114 SURAs in the Quran,
10:59
29 of them are initialed with the Quranic initials, A. L. M., Q, N, S, K. H. Y., and so on,
11:08
these initials, 29 of them. The first initial, as you know, is in SURA number 2, verse number 1
11:18
that says "A. L. M." The first one is in SURA number 2, verse 1.
11:26
And the last one is the initial N in SURA 68. Here it is. So, this part here of the book is what is

11:41
between the first initial and the last initial.
11:44
And what Lisa found in the last issue of the Muslim Perspective as published in that issue
11:50
was that between these two, the number of verses is a multiple of 19.
12:01
5263 between the first initial and the last initial. It's a multiple of 19. 19×277 ,
12:19
excluding the two false verses at the end of Sura number 9.
12:25
Also, between these, the first initial and the last initial, there are 19 groups
12:32
of initialed and uninitialed SURAs.
12:37
In other words, SURA 2 and 3 are initialed. That's one group.
12:40
SURAs 4, 5 and 6 are not initialed. That's group number two.
12:44
You go on like this, it's 19 groups.
12:47
So, what does this say?
12:50
This piece of information says that
12:52
the number of verses is a divine order dictated by God
12:58
because it conforms to the mathematical code.
13:03
Also, the sequence of SURAs
13:05
because the initialed, uninitialed and so on,
13:07
they alternate, making up 19 groups.
13:11
Now, last night, what she found was really profound
13:14
and has to do with the...
13:16
with this part here. Ok. Now, in the whole Quran,
13:21
the word Allah is a multiple of 19.
13:25
Allah is mentioned 2,698 times.
13:33
And God chose to put the first initial in Sura 2, the last initial in Sura 68.
13:41
So, what she did is add up the number, the word Allah that happened here; easier, she added the word Allah here in the smaller part.
13:51
SURA Al-Fātehah before the A.L.M,
13:53
and from 69, SURA 68, I'm smiling for a reason.
13:59
Sura 68 has the letter N at the beginning.
14:02
So, counting the word Allah
14:04
outside this
14:06
came to 57.
14:09
Allah, the word Allah, outside in this portion here
14:17
and then Sura Al-Fātehah, there are two of them in SURA Al-Fātehah.
14:21
Now, when she counted these verses,
14:26
you count from A.L.M, it's verse 1 of SURA 2
14:30
to the letter N, that's verse 1 of Sura 68 and you stop
14:33

because there are no initials after N.

14:36

So, the rest of SURA N is not counted in that

14:40

because it's inclusive.

14:43

Now, when you count the word Allah

14:45

in between here,

14:47

the difference is 2641.

14:52

You deduct this from the total number of Allah

14:55

which is also a multiple of 19, of course.

14:59

But God knows

15:02

that the people

15:04

who look at this... what does this tell us?

15:07

This tells us that the number of the verse

15:09

is dictated by God,

15:11

the number of the verse.

15:13

And if you look at Yusuf Ali, you will see that he changed the numbers because it sounded better to him.

15:18

You know, the numbering of verses is strange in some places and he couldn't take it

15:23

So, he played around with it.

15:25

Now, we wouldn't dare do that.

15:27

And in spite of the things that happened in the last 1400 years,

15:31

the Quran comes to us, unscaled

15:34

with the numbers of the verses exactly right.

15:38

I'm talking about the numbers of the verses and the numbers of the SURAs, as you will see before the end of this KHUTBA.

15:44

Ok, I was saying that when you count the verses you include, you start with the A.L.M. and you end with the N.

15:52

So, you have all of SURA 68

15:55

not counted in this because it is outside that range, verse-wise.

16:01

So, God knew that the unbelievers will say

16:05

"why didn't you count the word Allah in SURA 68, also?"

16:10

And we did or she did

16:12

and it is zero.

16:13

In SURA 68, there's not a single word Allah.

16:17

So, any way, any way they want to protest, God got their number: Zero

16:24

Their number is Zero.

16:26

So, I mean, it's really strange that a SURA as big as SURA 68 does not have any words Allah in it.

16:37

And I will complete this KHUTBA in the next section Insha Allah. TUBU ILLA ALLAH. Repent.

16:57

ALHAMDU LILLAH. WA ASHHADU AN LA ILAHA ILLA ALLAH, WAHDAHU LA SHAREEKA LAH.

17:04

This is only a small part of the great miracle that was discovered yesterday.

17:08
And I have been calling around the world this morning to spread the news out of here
17:15
because some people started the rumor that only the initialed chapters are guarded,
17:23
but this shows that
17:25
all the Quran is guarded because the word Allah is all over the place, as you know
17:30
thousands of them
17:32
and this portion here is outside the initialed area, if you want to call it that
17:40
and within the initialed area, we have the 19 groups. Everything is so perfectly tight
17:49
that there is no hole for the disbelievers to escape.
17:53
And it is amazing that they continue to say
17:57
"no." They continue to fail to see the miracle.
18:01
because God Himself said in Chapter 7 "I will divert away from My miracles those who are too arrogant."
18:09
"and no matter what kind of miracle you show them, they will not see it." God said that.
18:14
So, this is the explanation. Now, listen to this.
18:20
These 57 words, Allah, that are outside the initials that are here,
18:30
they happen in SURAs and verses, certain SURAs and certain verses.
18:36
And when you add the numbers of the SURAs and the verses where these happen, the total is 2432
18:47
2432. And this is 19×128 .
19:03
Right. Now, this is a big number.
19:06
You add the numbers of the SURAs and the verses where the word Allah occurs
19:12
and you're gonna read this in the next issue of the Perspective.
19:15
Now, what does it tell us? This says the sequence of the SURAs is dictated by God,
19:20
the number of the SURAs, the number of the verses where the word Allah takes place, where the word Allah occurs
19:26
and it is so magnificent,
19:28
because there are verses where more than one Allah, you find 1 or 2 or 3
19:33
Allah in one verse,
19:35
but you cannot count the verse twice.
19:38
So, this system is so perfect
19:40
you have no doubt that you are reading the words of God, right here.
19:46
And when God says "I put guards on you,"
19:50
you know that there are guards on you.
19:53
So, you will not receive a scratch without God's control,
19:59
without deserving it or without a good reason for it
20:04
because sometimes God will mess up your life in order to have something good happen to you.
20:11
Joseph had to go to prison in order to rule Egypt afterwards.
20:17
He had to. So, going to prison was equivalent to going to school and graduating with a degree.
20:24

He graduated from the prison to rule Egypt.
20:27
So, even though the prison looked terrible, like a disaster,
20:31
it was to promote Joseph to a good position.
20:35
So, when God says "I put guards on you,"
20:38
when God speaks throughout Quran about invisible soldiers,
20:42
you know that He runs this world with invisible soldiers.
20:46
When God says that everything is written down
20:50
before the earth was created, everything was already recorded,
20:54
what you're gonna do next year is already recorded,
20:56
how many kids you're going to have is already recorded,
20:59
who they are going to marry is already written down,
21:01
what day and time and hour and place you're going to die is written down,
21:05
everything is written down, recorded. God says that.
21:08
And God says "I'm telling you this so you don't feel sorry for the things you miss
21:13
and you don't get excited over the things you attain.
21:16
You have... the believer has an even keel.
21:19
He or she doesn't get excited or depressed
21:23
because everything is already recorded. There is nothing anybody can do,
21:27
but He guarantees victory for His people.
21:32
I mean to the point... I'm going to read for you Psalm 91 again,
21:37
which I read for you before.
21:39
And these were mathematically authenticated, too,
21:45
David's Psalms.
21:48
Now, we have evidence that the whole scripture,
21:50
we're talking about the original scripture,
21:53
was mathematically authenticated.
21:56
This Psalm happens to be confirmed in the Quran,
22:02
when God says "I'll make you a King or Queen on Earth, you know that this is from God and you know that it is the absolute truth.
22:10
When God tells you "I'm doing everything,"
22:12
you know this is the absolute truth.
22:17
And when you pass the initial tests and you worship God regularly
22:23
and you do the 5 prayers, certainty will come to you.
22:26
I'm smiling because this is something that we live every day.
22:30
We lived it today.
22:31
God was showing us that we are not doing anything,
22:35
even the words we utter.

22:37
God is doing everything and when He says this, you know that it is the absolute truth.
22:42
Here's Psalm 91, very quickly.
22:46
"You who dwell in the shelter of the Most High,"
22:50
This means every believer. It's talking to you.
22:53
"Who abide in the shadow of the Almighty"
22:56
You've decided to join God.
22:58
You abide in the shadow of the Almighty.
23:01
"Say to the Lord, my refuge and my fortress,"
23:04
This is what you said.
23:06
You decide to tell God "my Lord, You're my refuge and my fortress."
23:12
"For He will rescue you from the snare of the fowler."
23:15
"From the destroying pestilence."
23:18
"With His pinions, He will cover you."
23:20
"Under His wings, you shall take refuge."
23:24
"His faithfulness is a buckler and a shield."
23:28
One of God's names in the Quran is the Faithful.
23:31
When you tell God "I'm gonna join You. I'm going to be with You. I'm gonna believe Your word." God is faithful to you.
23:40
And He will fulfill His part of the promise.
23:42
You happen to have no power and He has all power. You can do nothing for God, but He can do everything for you.
23:49
Ok. David goes on and says with God's inspiration.
23:52
"You shall not fear the terror of the night"
23:58
and the arrow that flies by day."
24:01
"You shall not fear the pestilence that roams in darkness,
24:05
nor the devastating plague at noon."
24:10
"Though a thousand fall at your side"
24:12
because of the AIDS disease. No, that's from me.
24:17
I mean, it will not touch you.
24:20
"Though a thousand fall at your side; ten thousand at your right side."
24:26
"Near you, it shall not come."
24:28
This is what God is saying. These are God's words that He reveals through David.
24:32
The Psalms were written by God
24:35
through David's mouth to teach us.
24:38
And you know every word in it is true.
24:40
It is confirmed by the Quran
24:42
and by this fantastic mathematical code whose parameters are increasing and the evidence is piling up beyond belief.
24:52

"Rather with your eyes shall you behold and see the requital of the wicked."
24:59
As a person of God, you're gonna see that the people who are unjust to you, they're gonna get it, sooner or later.
25:06
And the Quran repeats it. Even if you don't see it, they will get it.
25:12
God will let you know.
25:14
You know, they may persecute you until the last week of your life and you may not see it.
25:18
This is why the Quran says whether you see it or not, they will get it. But if you're alive, you will see it. God will let you know.
25:26
"Because you have the Lord for your refuge,"
25:30
"you have made the Most High your stronghold."
25:33
I mean, God controls Ronald Reagan, your boss.
25:36
The president of your company is God. Really! And He runs it.
25:42
When the president of the company gives you a raise,
25:46
God is really the One who is... I mean, God manipulates the president of your company.
25:50
When the president of your company reprimands you,
25:53
God is really doing that. He controls this man's or this woman's heart and mind.
26:01
"So, because you have the Lord for your refuge, you have made the Most High your stronghold."
26:07
"No evil shall befall you; nor shall affliction come near your tent."
26:13
You know that these words are God's words that are proven mathematically.
26:17
You have confidence.
26:19
Like this Moses throwing down the staff and became a snake, now you have confidence that this is the truth.
26:25
Now, you have tangible physical proof that this is true.
26:29
And you have... you better believe it.
26:32
Now, listen this is how the mechanism is.
26:34
Listen to this.
26:36
"For to His angels, He has given command about you
26:41
"that they guard you in all your ways,"
26:46
"Upon their hands, they shall bear you up,"
26:50
"lest you dash your foot against the stone."
26:53
They're gonna carry you up like this on their hands
26:55
if you're gonna dash your foot against the stone.
26:57
You better believe that. God is saying it. It is proven mathematically.
27:01
"Lest you dash your foot against the stone."
27:04
You're walking in the night and there's a stone, you're gonna hit it, you don't see it,
27:08
and the angels will carry you or will remove the stone.
27:13
This is what God does.
27:14
Everything in this world is done by angels. I mean, by God, but I mean through His angels.
27:20

ALLAH-O AKBAR

ALLAH-O AKBAR
0:37
LA ILAHA ILLA ALLAH.
1:04
ALHAMDU LILLAH. WA ASHHADU AN LA ILAHA ILLA ALLAH, WAHDAHU LA SHAREEKA LAH.
1:10
We praise God and we bear witness that there is only One God.
1:18
I would like to review with you very quickly, the new issue of the Muslim Perspective.
1:24
As you know,
1:26
we are witnessing the emergence of a fantastic miracle
1:30
that tells the world, this is a message from God to the world, that this is a supernatural
1:39
scripture that could not possibly be human-made.
1:44
And the evidence is accumulating and increasing in accordance
1:48
with the verse in SURA 41
1:49
that says "we will show them our miracles in the horizons, and within themselves,
1:54
until they realize that this is the truth." Until they give up.
2:00
Unfortunately, our Muslim Ulama are still stuck in the first letter of the QURAN.
2:07
In BISMILAH AL-LAH AL-RAHMAN AL-RAHIM. They're still
2:10
trying to figure out how many letters are in the BISMILLAH,
2:13
the first verse.
2:16
Only a couple of days ago, Cath met this fellow from Saudi Arabia.
2:22
And he told her "do you go to that mosque over there?"
2:27
And she said "yes, we have a...
2:31
and I will always go there.
2:32
We have a proof that... what the truth is that the Quran is complete perfect
2:38
fully detailed."
2:39
And he said "is this based on the miracle of 19?"
2:42
And she said "yes." And he said...
2:45
And he started out denying that BISMILAH AL-LAH AL-RAHMAN AL-RAHIM is 19 letters.
2:50
So, she asked him to write it down.
2:51
He wrote down 19 letters; BISMILAH AL-LAH AL-RAHMAN AL-RAHIM.
2:54
Then, she asked him to count it.
2:56
And this is what the Muslim Ulama are doing.
2:59
And he started counting invisible letter.
3:03

She said "the computer, what the computer sees,
3:06
what your eye sees, is what you count."
3:08
"How many letters do you see?"
3:10
So, the miracles are overwhelmingly accumulating.
3:14
And they are still stuck in the first letter.
3:17
BA, it is Douglas' famous statement.
3:21
They're still at the BA, because they wanna figure out if there is an ALIF after the
3:25
BA or not.
3:26
Ironically, God wrote down the two words
3:31
in the first revelation of QURAN. You'll find BISMILLAH AL-RAHMAN AL-RAHIM and right
3:36
after it is IQRA BISM,
3:38
and the two words, BISM (بِسْمِ) and BISM (بِأَسْمِ) are spelled differently,
3:42
one without the ALIF and one with the ALIF.
3:45
And this is what got the Mufti of Yemen who came here one time to argue with us.
3:51
So, in this issue of the perspective, I'm listing the latest
3:56
findings that Lisa found out last month.
4:00
And I will mention them quickly.
4:07
What we see in these miracles is confirmation of
4:10
certain parameters of the QURAN.
4:12
Among the parameters of the QURAN are the verses, the number of verses, the numbers
4:16
of verses,
4:18
verse number 7 or 19 or 70, 71, whatever.
4:22
The numbers of verses in the characteristic parameter of the QURAN.
4:25
The numbers of SURAs and the sequence of SURAs.
4:30
Looks like this is what is being proven to the world now.
4:34
Of course, a lot of them will not know it
4:36
for until 50 years from now.
4:39
But at this time, it seems like God is revealing proof to tell us
4:48
that the verses, the numbers of verses, the sequence of verses, the numbers of SURAs
4:52
and the sequence of SURAs are all dictated by God.
4:56
They could not be human-made.
4:58
The first Quranic initial ALIF LAM MEEM is in SURA 2, verse 1.
5:03
And the last initial is NUN in SURAH 68.
5:06
And when you count the verses between these two, they are 5,263,
5:15
a multiple of 19,
5:16
the common denominator. 19 which means LA ILAHA ILLA ALLAH or God is One.

5:23
So, this tells us that the number of verses is divinely dictated.
5:30
Now, between the ALIF LAM MEEM and the NUN, there are 19 groups of SURAs: initialed, un-initialed,
5:39
initialed, un-initialed, 19 of them.
5:42
There are 38, 19 x 2, un-initialed SURAs.
5:48
The word ALLAH occurs outside of this range 57 which is 19 x 3
5:55
and the inside is 2,641 which is also a multiple of 19.
6:01
19 X 139.
6:04
And then, when you take...
6:07
Now, we have SURAs where the word ALLAH occurs.
6:10
There are SURAs where there is not a single word ALLAH.
6:14
But if you take the SURAs where the word ALLAH occurs, well, this is a very special
6:18
word.
6:20
You take the SURA number and the verses where the word ALLAH
6:23
occurs and add them up
6:25
and the total is 2432 which is a multiple of 19.
6:34
And this is only in the outside of the ALIF LAM MEEM and the NUN.
6:39
We are working now the inside.
6:41
Hopefully, we'll finish it this weekend.
6:44
But this tells us that the sequence of SURAs is dictated by God.
6:51
We have here a table showing the SURAs and verses
6:54
where the word ALLAH occurs
6:55
and you can see for yourself,
6:56
anybody can.
6:58
These are factual observations.
7:00
It is not an opinion.
7:01
It's not nobody's,
7:02
It is nobody's opinion.
7:03
So, they cannot say "you don't have the right to interpret."
7:07
There is no interpretation.
7:08
These are factual observations on the Quran.
7:18
Now, at the end of the article, I started to go through the historical development of
7:23
the miracle
7:24
and how when the first items came out,
7:26
they rejected it.
7:27
And then, the evidence intensified, increased and they continued
7:32

to reject it.

7:35

And then, they became arrogantly and stubbornly opposing it.

7:39

And now, it is pride and ego.

7:41

They cannot agree with it anymore.

7:43

But the evidence keeps piling and accumulating.

7:47

And the idea, as I see it, is to confirm the hardcore disbelievers.

7:57

Because the Quran says

8:01

مَسْأُوفٌ عَنْ آيَاتِنَا الَّذِينَ يَتُكَبَّرُونَ فِي الْأَرْضِ بِغَيْرِ الْحَقِّ (7:146)

8:04

I will divert from my revelations those who are too

8:07

arrogant to accept my miracles or my revelations.

8:11

وَأِنْ يَرَوْا كُلَّ آيَةٍ لَا يُؤْمِنُوا بِهَا

8:13

And no matter what kind of miracle they see, they will not believe in it.

8:18

So, this is to confirm that they deserve the lowest pit of hell.

8:24

The evidence keeps increasing and they keep rejecting it, until they're confirmed as hardcore

8:30

disbelievers.

8:33

Now, as you know Ihsan has been with us for a few weeks now

8:37

and she's been doing a lot of research on the Quran which is walking around with a counter

8:45

just counting the letters and words and so on.

8:48

And she found something that again confirms that the verse numbers is dictated by God.

8:56

When you look at the verse number and says, verse number 36,

8:59

this number is assigned by God.

9:02

She noticed as all of you did that SURA AL-RAHMAN, number 55, has this word repeated in it ALA

9:11

which means marvels.

9:14

As you know, 31 times in SURA 55, God says "which of God's marvels can you deny?"

9:22

So, she looked at this verse and she noticed first of all that there is a pattern

9:28

that this statement which of your God's marvels can you deny.

9:36

First, there is one odd-numbered verse and then two even-numbered verses

9:42

and then, three odd-numbered verses.

9:45

These are the verse numbers where this statement occurs.

9:49

And then, 1, 2, 3, 4, 5, 6, 7, 8 even-numbered verses.

9:55

And then, 17 odd-numbered verses.

9:57

So, you can see that there is a deliberate pattern there.

10:02

Okay then, she looked in the Quran for wherever this word occurs.

10:07

There are two verses in SURA 7

10:10

that say "remember and reflect on God's marvels."

10:19

There is also a similar statement in SURA 53 and the verse number is 55.

10:25
 You see the connection with SURA 55?
 10:28
 The verse here is 55.
 10:29
 The SURA is 53.
 10:31
 And it says "which of God's marvels are you... do you have doubts about?"
 10:37
 This is
 10:37
 هَيَّأِ الْعِلْمَ الَّذِي تَتَمَارَى
 10:41
 And this
 10:42
 الَّذِي تَتَمَارَى
 10:43
 And this is
 10:44
 هَيَّأِ الْعِلْمَ الَّذِي تَتَمَارَى
 10:48
 Okay, so what she did, this is all the... this word occurs only in these SURAs.
 10:54
 So, she added up the numbers of the SURAs and the verses
 10:58
 and there is the total,
 11:00
 a multiple of 19.
 11:02
 So, this tells you that this special statement, the numbers of SURAs and verses,
 11:11
 SURAs and verses is dictated by God.
 11:15
 It follows the pattern of 19.
 11:20
 So, she added all these numbers together and the total is a multiple of 19.
 11:25
 And she is as greedy as I am, as far as this research is concerned.
 11:30
 So, she counted the letters in these verses. 114. Each of these.
 11:37
 114 letters which is talking about God's marvels.
 11:43
 That's another multiple of 19.
 11:45
 And then, she added the two statements, the letters in the two statements.
 11:49
 This statement here, if you take one of them, it's 20 letters which, this is directed to the humans and the jinns.
 11:56
 "Which of God's marvels can you deny?" is 20 letters.
 12:01
 And this verse here where it says, 55 in SURA 53,
 12:05
 you notice there is a 55:53.
 12:10
 So, you'll take this one and this one, and they are 38 letters, 19 x2.
 12:16
 So, the miracle is very tight and interlocking.
 12:21
 And there is no escape for the people who keep denying it.
 12:25
 So, looks like all the parameters of the QURAN... we're gonna
 12:29
 end up with every single parameter confirmed as dictated by God.
 12:36
 And if you read the books that they study in Azhar for example, they go through all
 12:40
 kinds of hypothetical situations where the divisions
 12:44
 of SURAs
 12:45

SURAs and verses may have been.

12:47

But the fact is, you pick up the Quran anywhere in the world and you find

12:51

these verses.

12:52

You find this statement "which of God's marvels can you deny?"

12:56

You'll find it in these SURAs and these verses, in Japan or in Sweden or in Pakistan.

13:02

The fact is the Quran has these numbers.

13:04

And they all conform to the mathematical, the miraculous mathematical code.

13:13

To conclude, increasingly, we see here that we have a book from God

13:19

where you read every word in it, and you have 100% confidence that this is from God.

13:26

And you can base your future and your life on it as you will see in the next KHUTBA, IN SHA ALLAH.

13:31

TUBU ILLA ALLAH. Repent.

13:47

ALHAMDU LILLAH.

13:48

WA ASHHADU AN LA ILAHA ILLA ALLAH, WAHDAHU LA SHAREEKA LAH.

14:00

In SURA 38, verse 67,

14:05

there's a statement that says "proclaim that it is a momentous event that you are disregarding."

14:15

So, proclaim to the people the momentous, the great event.

14:22

(38:67) قُلْ هُوَ نَبَأٌ عَظِيمٌ

14:23

Say or proclaim; it is a momentous or a great event.

14:29

(38:68) أَنْتُمْ عَنْهُ مُعْرِضُونَ

14:31

That you are disregarding.

14:32

The average person on the street is going about his or her life totally unaware of the great event.

14:41

The great event is a universal conference: The Day of Resurrection

14:48

where the people of the past, present and future will be resurrected

14:53

and will be assigned a job or a position,

14:58

if you will, for eternity.

15:01

And everyone of those people should be thinking about that.

15:04

What is the position that will be assigned to them for eternity in the real life?

15:10

Are they gonna be assigned... is he gonna be a garbage collector forever?

15:16

There is nothing wrong with garbage collecting here to make a living but forever?

15:23

Is he gonna be an engineer or a pilot or a doctor or a lawyer?

15:28

Using terms of this world.

15:31

That is the great event that they are totally disregarding and they're totally unaware of it and totally unprepared.

15:40

Here in this world, they go to school for umpteen years

15:44

to get a degree to qualify for a good job.

15:48

For how long?

15:49

30 years, 20 years, 50 years?

15:54
So, this is our school for the eternal life.

15:59
And so, how much credits are they accumulating in preparation for that assignment for that eternal job?

16:08
There'll be people going there, into eternal life with zero credits.

16:14
Didn't go to school at all.

16:16
And there will be grade school dropouts.

16:20
And there will be high school dropouts and college dropouts and college graduates and graduate students and PhDs

16:29
depending how much credit you accumulate here.

16:32
So, when we wake up every morning, we have to ask.

16:35
you know today "I'm going to accumulate credit for

16:38
this world, so many credits.

16:40
X credits."

16:41
"How many I'm going to get for the real life, for the eternal life?"

16:50
We accumulate credits by sitting here.

16:52
Now, we are collecting credit.

16:55
Your record is gonna have the Friday Prayers which is a commandment from God.

16:59
You go to the Friday Prayer and drop all business.

17:03
And God promises immediately after that, that will make it up to you

17:07
money-wise or earning-wise. If you drop all business and come to the Friday Prayer,

17:14
God says He'll provide for you a lot more and much better here in this world.

17:21
And by the way, the credits that you accumulate here, they help you here.

17:26
You remember last time, I read for you from Psalms.

17:30
Psalm 91

17:32
where God says He gives word to His angels to carry you, lest you dash your foot against the stone. So, it happens here.

17:44
You remember I read for you from Luke 12:29

17:49
that you seek God's kingship over you and the rest will follow automatically,

17:55
and the rest meaning; health, wealth, happiness.

17:59
Happiness, you don't know where it's coming from, emanates from your inside.

18:03
And you're like an artificially-intoxicated person that is alcohol-intoxicated

18:10
cause the real intoxication is God's intoxication where you are laughing and happy

18:14
regardless of what is happening.

18:16
The earthquake killed two million people in Tucson

18:18
and you are happy and joyous.

18:20
So, understanding the events that happen in the world

18:24
and why the earthquakes happen.

18:27
But the happiness is a internal feeling that only God controls, nobody else.

18:33

And there is false happiness that does not last.
 18:36
 And there is real happiness that lasts.
 18:38
 So, you benefit from the credits here in this world.
 18:42
 And this is a big mistake that most people out there make.
 18:45
 They think that they have to wait until the Day of Judgment to cash in their credits.
 18:52
 You start cashing it right now.
 18:54
 So, every morning, we have to ask ourselves "how many credits do I want?"
 19:03
 The five daily prayers are the credits that you collect daily in your record.
 19:09
 So, we really have to consciously ask "is our
 19:13
 record going to be empty of credits or full?"
 19:16
 Because that will decide your position for eternity.
 19:21
 Proclaim that it is a great event,
 19:25
 a momentous event that you, the people, are disregarding.
 19:30
 You are totally unaware of it.
 19:32

18 Friday Sermon by dr Rashad Khalifa Quran is the Only Book in the World That is Mathematically Com

Allahu Akbar x 4 La Elaha Ella Allah x 1
 0:31
 I'm gonna get you going on time, IN SHAA ALLAH.
 0:34
 Don't worry. I'm late.
 1:07
 Alhamdu Lillah, Wa Ash-hadu Alla Elaha Ella Allah Wahdahu La Shareeka Lah.
 1:15
 The idea of mathematical composition of literature is an original idea. It's a new idea
 1:23
 and it is monopolized by God Alone.
 1:26
 This is mathematical composition of literary works.
 1:29
 If you go to the library and look at millions of books, you will not find one
 1:35
 that is mathematically composed. The idea is not known in human-made books.
 1:41
 And the Quran is the only book in the world
 1:44
 that is mathematically composed and is intact.
 1:49
 There have been fragments of mathematically composed materials
 1:56
 like liturgies and small pieces of the original scripture,
 2:01
 but the Quran is the only book in the world that's mathematically composed.
 2:05
 And the idea of mathematical composition is that everything is calculated, the words, the letters, the verses, the chapters.
 2:14
 I can ask you to write a book where chapter 2 contains 500 S's, for example.
 2:21
 This is a mathematical composition because you'll get to chapter 2 and you will write and count the S's and keep track of them.
 2:28
 So, you'll end up with 500 S's in chapter 2.
 2:32

So, this is the simplest form of mathematical composition.

2:38

This can be made difficult by adding more specifications: chapter two has 500 S's

2:43

and chapter 6 has 300 H's and 200 R's, for example. Then, it becomes more difficult.

2:50

You'll have to keep track of more things as you write.

2:53

And as you write, you'll have to make up sentences that make sense and serve a purpose.

3:03

It's not just calculations. It's two important things. So, the Quran is the only book

3:08

in the world today that is mathematically composed

3:13

and this is why I'm kind of monopolizing the KHUTBA these days.

3:17

You may have to bear with me one more time.

3:20

But I'm giving this KHUTBA on behalf of sister Ihsan Ramadan.

3:25

She made some significant discoveries that you have in front of you

3:31

and they're really profound.

3:32

What is happening these days is a concentration on

3:36

the parameter of the numbers assigned to the verses in the Quran.

3:42

Are these haphazard? Were they made by men?

3:46

Was it just somebody said "let us give this number 6 and this number 7 and they divided the verses haphazardly?"

3:53

And the loud the message that's coming loud and clear is "NO."

3:57

These numbers are assigned by God.

4:00

So, let me, the first new... I reported some new findings to you last week.

4:07

The thing that Ihsan found this morning. Was it this morning or last year? I'm losing track of time.

4:14

I think it is this morning

4:17

It's been, it's been very exciting in the office here.

4:22

And you can see that I am... my breath is taken away.

4:25

It is breath-taking.

4:27

One of the most important worships in Islam is SALAT.

4:32

SALAT, Connection between the creature and the Creator,

4:36

something that we practice.

4:39

And this seems to be the most important thing for any human being.

4:44

The Jews and the Christians, we know from Quran, lost it.

4:48

In Sura 19, by the way, the verse says that "Generations came after Moses and Jesus that lost the Contact Prayer"

4:59

which means they lost the combination. This is Ihsan's own words.

5:04

They lost the combination to the safe, so they couldn't make contact.

5:08

And the consequences given in the same verse: "therefore, they will suffer immensely"

5:15

because they lost the contact.

5:17

Imagine being in this sizzling pan called the world

5:21

and these contact prayers are the ropes that keep you out of this sizzling pan.

5:27
 If you don't make this contact, you are burning in this sizzling... you are suffering the pains and problems.

5:37
 Ok. The word "SALAT" in Quran, "contact prayer", this signifies it's importance.

5:48
 If you look in the small sheet here, what we did was add the SURAs and the verses where the word "SALAT" occurs in the whole Quran

6:00
 and the total is circled in red: 4674. It's a very big number.

6:09
 It's a very big number which means if there was one verse

6:15
 that came to us 32 instead of 31, for example, from God,

6:21
 in other words, God assigned the number 31 and somebody in 1400 years changed it to 32, we would not have this,

6:29
 will not be divisible because this is a multiple of 19. 19×246 .

6:40
 These are the numbers of the SURAs and the numbers of the verses

6:45
 and any discrepancy with... this is the ultimate and scientific proof, mathematics,

6:50
 is very sensitive.

6:53
 76, for example, is a multiple of 19, but not 77, and not 75.

7:00
 And the larger the number, the more huge the odds that this is haphazard.

7:08
 So, you understand this one here.

7:10
 Now, the word "Quran," you take the word "Quran"; it's a very important word.

7:18
 And at the top of the page, what you see are the numbers of verses throughout Quran where the word "Quran" occurs.

7:28
 And you take those verses, the numbers of the verses, and add them up, as you see here.

7:33
 If you look at the top of the page, it says ready and then the number 10. It's the number of the line. A equals. 185 is the first verse where the word "Quran" happens.

7:42
 It's in Sura 2, verse 185, plus 82, 82 is the second verse where the word Quran happens, and this is in Sura, probably, Sura 4

7:55
 and so on. So, we added up all the verses where the word Quran takes place

8:04
 and the total is $2660 = 19 \times 140$.

8:15
 Now, listen to this. The word "Quran" happens in the Quran 58 times.

8:30
 58 is not a multiple of 19

8:33
 but one of them, one of these is in Sura 10, where God says:

8:41
 "every time you show the Quran to the disbelievers, they say, give us a quran other than this."

8:48
 So, it is not this Quran. So, the word "Quran", "This Quran" of God happens 57 times

8:58
 which is 19 times 3 and this total does not include that verse that says "a quran other than this."

9:07
 So, you can see the accuracy and the intricacy of this. This is not human-made.

9:18
 Now, the word "Quran", of course, it happens a number of times in certain SURAs. How many SURAs?

9:27
 The word "Quran" in every shape, form, or grammatical shape is found in 38 SURAs, 19 times 2.

9:38
 If you add the number of SURAs where the word "Quran" happens and the number of verses,

9:45
 the total of the verses where the "Quran" takes place, the total is 2698, 19 times 142.

9:57
 Does this number ring a bell?

10:01
 Anybody? Gatut.

10:04
 Exactly. This is the... the word "Allah" occurs in the Quran this total: 2698.

10:13
The evidence is piling up and, at this rate the world will end tomorrow.
10:20
I mean something, something is happening at this rate of the evidence piling and showing that we have a book from God.
10:33
Too boo Ela Allah. Repent.
10:44
Alhamdu Lillah, Wa Ash-hadu Alla Elaha Ella Allah Wahdahu La Shareeka Lah.
10:57
Like I said, I'm giving this KHUTBA on behalf of Ihsan. She mentioned some ideas today.
11:02
She said "if you're driving and the traffic light is turning from green to yellow to red
11:09
and you're driving very fast and you're contemplating, you know, "shall I cross or stop?"
11:15
And then, very quickly you notice a police car standing there at the intersection,
11:22
what will you do?"
11:24
You're going to stop. You know, this finishes contemplation.
11:27
It's done. You're gonna stop.
11:30
So, Ihsan made an invention, a terrible invention. That's a terrible invention.
11:35
She invented a machine that will electronically ticket you whether the police is there or not.
11:41
If you cross at the wrong time, there's an electronic machine there that will give you a ticket.
11:47
Now, what will you do?
11:49
You will stop, you see.
11:53
And the people who believe in God, know that God is with them, closer to them than their jugular vein.
11:58
and therefore, they know that every time they make a mistake, there's an electronic machine that will give them a ticket.
12:06
Now, are the people... do they believe in the police, or do they believe in God?
12:16
You know, they will believe that God is with them and they will know that any time they make a mistake, they'll get a ticket
12:23
and there will be the time to pay those tickets.
12:30
OK. That's another idea.
12:32
The other thing that I want to mention...
12:33
Ahmad, do you want to man the camera?
12:46
We're gonna edit this KHTUBA for you, so if you want a copy of it, we'll give you a copy.
12:56
There is a verse in Sura 68 that says
13:02
"on the Day of Judgement, every human being will be required, will be invited, because it's a privilege,
13:11
will be invited to fall prostrate before God when He comes to this world,
13:17
but the people who did not make SUJUD here, in this world,
13:23
will not be able to make SUJUD over there.
13:28
And the Quran says "they were invited to make SUJUD when they were able to."
13:36
So, this adds to the importance of the SALAT.
13:42
For if you make SUJUD here, you'll be able to make SUJUD there.
13:49
Finally, there's a Psalm that I would like to read for you.
14:03
I had the KHUTBA marking it.
14:04

Psalm 62 says "Trust in God Alone"

14:11

"Only in God is my soul at rest. From Him comes my salvation.

14:18

He only is my rock and my salvation

14:24

my stronghold. I shall not be disturbed at all.

14:30

How long will you set upon a man and all together beat him down as though he were a sagging fence, a battered wall?"

14:45

If you put trust in men, in humans, instead of God.

14:51

"...though he were a sagging fence on a battered wall.

14:54

Truly from my place on high, they plan to dislodge me.

14:59

They delight in lies. They bless with their mouth, but inwardly, they curse.

15:07

Only in God, be at rest, my soul.

15:10

For from Him, comes my hope. He only is my rock and my salvation.

15:16

My stronghold. I shall not be disturbed. With God is my safety and my glory.

15:22

He is the rock of my strength. My refuge is in God.

15:27

Trust in Him at all times, o my people.

15:30

Pour out your hearts before Him. God is our refuge."

15:35

Aqem Al-Salat.

19 Friday Sermon by dr Rashad Khalifa More Evidence There is Meaning in Relations Between Numbers 19

Allahu Akbar Allahu Akbar Allahu Akbar Allahu Akbar

0:37

La Elaha Ella Allah

0:44

La Elaha Ella Allah

0:48

Alhamdu Lillah, Wa Ash-hadu Alla Elaha Ella Allah Wahdahu La Shareeka Lah.

0:54

I have been talking to you about the overwhelming, the blessed explosion in the miracle

1:02

of the Quran in the last few weeks.

1:05

And Gatut was supposed to give the KHUTBA today, but because of the unusual circumstances,

1:12

this blessed explosion, I again asked him to let me give the KHUTBA, today.

1:18

So, you have to put up with me one more time.

1:22

But when I go back to the basics, as you know the miracle of the QURAN is based... the foundation

1:33

is in the first verse Bism Allah Arrahman Arraheem.

1:40

And these are exactly 19 letters.

1:48

Now, we came to know that the meaning of the number 19 is that God is One

1:54

because in the old time when the Quran was revealed, there were no numbers.

2:02

They used the alphabet as numbers.

2:04

And this for example served the letter 'WOW' and also as the number 6.

2:10

This was the letter 'ALIF' and the number 1 at the same time.

2:15

This was the letter 'HA' and the number 8.

2:20

These, every, every alphabet served double as a number and an alphabet.

2:26
The letter 'D' also served as 4.

2:30
So, when you add 4 and 8 is 12, 13, and 19.

2:34
The total is 19.

2:35
So, the reason the number 19 is the common denominator

2:41
is that it means that God is One.

2:43
This is the basic message of the Quran.

2:45
Do not worship except Allah.

2:49
So, sometimes I'm surprised at as how much some of us

2:55
here do not know these basic pieces of information.

2:59
So now, with this very quick review, the blessed explosion this time has to do with

3:06
the five pillars of Islam.

3:08
I'm gonna write... I'm gonna deal with the number 1 which is worshipping God alone.

3:15
Okay, what we just found...

3:17
I think you probably knew, most of you knew that the word

3:20
'WAHID' in the Quran is found 25 times,

3:26
but 6 of those have nothing to do with God.

3:31
They have to do with the children of Israel saying "we cannot tolerate one kind of food."

3:37
(2:61) لَنْ نَصْبِرَ عَلَىٰ طَعَامٍ وَاحِدٍ

3:38
And Joseph's brother telling his children "do not enter from one door."

3:43
(12:67) وَلَا تَدْخُلُوا مِنْ بَابٍ وَاحِدٍ and so on.

3:45
6 of them have nothing to do with Allah. 19 say, that God is One. 19 of them.

3:52
So, this keeps with the code but what is new now is that you take the numbers of the SURAs

4:02
and the numbers of verses where the word 'WAHID' occurs and the total; One, worship God alone.

4:16
The total is 1425 which is 19 x 75.

4:26
It's a multiple of 19.

4:29
Now, it is not enough to know that God is One

4:34
that "ALLAH WAHID", you must worship God Alone.

4:37
And this is something new in the word WAHDAHU, God alone.

4:44
This word is mentioned in the Quran 6 times.

4:47
5 times, it has to do with Allah and 1 time with the Quran.

4:53
(17:46) وَإِذَا دُكِّرَتْ عَلَيْكَ فِي الْقُرْآنِ وَحْدَهُ، وَلَوْ أَنِ أَذْبَرْنَاهُمْ تَفْهُورًا

4:59
has to do with the Quran.

5:00
"If you preach the Quran alone, they don't like it."

5:05
But the 5 times, you take the verses and the SURAHs again and you add them up

5:10
and the total is 361. Watch this now.

5:16

361 for the word "Alone".

5:18

Worship God alone.

5:21

This is 19 x 19.

5:24

This is assurance.

5:27

It turns out that these numbers have also a message in them.

5:33

Okay. So, this is the first pillar of Islam: Worshipping God Alone.

5:40

The other basic pillars, as you know, the famous, five basic pillars of Islam are what?

5:46

SALAT, ZAKAT, SIYAM, fasting and HAJJ.

6:04

Now it turns out, you can look at the index of the Quran and SALAT is mentioned 67 times.

6:10

ZAKAT is mentioned, I believe 6 times. No 32 times.

6:18

SIYAM is 6 times and HAJJ 9 times.

6:23

Where are they?

6:24

Yeah.

6:26

Let us add these together. These are the numbers of times these basic duties in Islam are mentioned.

6:33

7 and 2 is 9, 15, 24. 2 and 6 is 8 and 3 is 11. 114, the same number of SURAHs as the QURAN

6:47

or 19 X 6. Okay, this is not the big deal here right.

6:53

Well this is, this is profound.

6:55

But what is really profound is that you take the word SALAT, everywhere the word SALAT is found

7:02

in the Quran,

7:02

take the number of the SURAH, and the numbers of the verses.

7:06

These are the numbers assigned to the AYAT and you add them up,

7:11

and the total for SALAT is 4674.

7:17

This is a multiple of 19.

7:27

And then you take SIYAM.

7:30

I'm gonna take SIYAM first.

7:33

And you do the same thing,

7:35

you take the numbers of SURAHs

7:37

and the numbers assigned to the verses and add them up

7:40

and the total is 1,387 a multiple of 19.

7:46

This is 19 x 73.

7:50

You take ZAKAT, the 32 of them.

7:55

Everywhere the word ZAKAT is found in the Quran, you take the number of the SURAH and the numbers assigned to the verses

8:00

and the total is 2395.

8:06

Now, the computer did all this.

8:11

Now, this here is NOT a multiple of 19. It is up by 1.

8:17

But then, you go to HAJJ and you find that the total, in the same manner is 645.

8:28
This is NOT a multiple of 19. It is down by 1.
8:32
So, but when you add all of them together, the total, of course, is a multiple of 19.
8:38
Now, watch the message that this gives us
8:41
that SALAT, every Muslim in the world did SALAT
8:45
sometimes during his or her life.
8:48
Every Muslim did.
8:50
It is the most important duty on every Muslim
8:54
SALAT. And the number is a multiple of 19.
8:57
Fasting of Ramadan,
9:00
every Muslim in the world before he or she dies, fasted sometimes during Ramadan
9:06
without exception.
9:07
Everyone must fast.
9:09
Every Muslim must fast,
9:11
rich or poor, they can do it.
9:14
Now, ZAKAT, is only for the Rich.
9:20
It is not... not every Muslim pays ZAKAT.
9:26
And this is reflected in the fact that this is not a multiple of 19,
9:33
and the same with HAJJ but together
9:34
They are divisible. They are multiples.
9:37
There's a message in the numbers also. You can see the extreme intricacies of the numbers and the message that come with them.
9:46
Not every Muslim in the world made HAJJ before he or she died,
9:51
not everyone but everyone made SALAT, everyone fasted and only the rich pay ZAKAT.
9:57
This (ZAKAT) is up 1 and this (HAJJ) is down 1.
10:00
So, these are the five basic pillars of Islam,
10:05
that "God is One." I've mentioned it to you. And these four basic pillars.
10:20
Okay, there is more that I will have to talk to you in the second KHUTBA.
10:23
So, turn to Allah Subhanahu Wa Ta'ala and repent.
10:25
Tooboo Ela Allah.
10:38
Alhamdu Lillah, Wa Ash-hadu Alla Elaha Ella Allah Wahdahu La Shareeka Lah.
10:47
In the continuing research of Ihsan, she's been holding the index of the Quran; and adding
10:55
the numbers of the SURAs and the numbers of the verses and
10:58
she's coming up with this blessed explosion in the miracle and also putting us to work.
11:07
We are sorry that she's leaving tomorrow but we're also glad,
11:10
No, no.
11:14
We're really sorry that she's leaving tomorrow
11:17

Because she does put us to work through the telephone anyway.
11:23
Look at the SURA Qaf,
11:25
SURA number 50 initialed with Q.
11:29
It's in SURA 50.
11:33
You take... this is very simple. Anybody can do at home without a computer.
11:37
You look at SURA Qaf and look at the AYAT where the letter Qaf happens.
11:42
You know, we have it in the blue book.
11:43
You can see SURA QAF and the verses.
11:46
You add them up, they're 798,
11:51
a multiple of 19.
11:53
19 means God is One.
11:55
Worship God alone.
11:58
And this is 19×42 .
12:04
Well, it doesn't stop here.
12:06
You know what 42 is.
12:08
It's the only other SURA that is also initialed with Qaf.
12:12
SURA Al-Shoorā: HA MEEM 'AYN SEEN QAF.
12:15
So, there is that. This interlocking and intertwined relationship of the mathematical code is telling
12:24
us that this is the only book in the world, in history, that is mathematically composed,
12:30
that is superhuman, that when you read any statement in it, you know this is from your Creator.
12:36
You have 100% confidence, this is God speaking to you
12:40
and this is the importance of it.
12:42
It never happened before in history and will never happen again.
12:47
This is an original idea of Allah Subhanahu Wa Ta'ala.
12:52
You will not find a book...
12:52
you go to the university, how many books do they have, the university libraries?
12:57
Millions, not one of them is mathematically composed.
13:01
But the Quran is.
13:04
I was writing yesterday. It's something that I wrote before but I
13:09
wanted to share, I wanna share it with you was... we're writing a book about Jesus,
13:15
the truth about Jesus
13:17
from the Quran, from the Bible, from the Gospels.
13:21
And an interesting fact, very quickly, is I was writing a chapter "Jesus birth"
13:28
and the Quran say that
13:32
إِنَّ مَثَلَ عِيسَىٰ عِنْدَ اللَّهِ كَمَثَلِ آدَمَ (3:59)
13:35
The creation of Jesus as far as God is concerned is equal to the creation of Adam.

13:45
Jesus equals Adam.

13:50
In other words, the creation of Jesus is like the creation of Adam.

13:55
خَلَقَهُ مِنْ تُرَابٍ ثُمَّ قَالَ لَهُ كُنْ فَيَكُونُ (3:59)

13:58
God said "be and it is."

14:00
He said to Jesus "be in Mary's womb" and he was.

14:06
So, it just happens that in the Quran and this is, anybody can look at in the index,

14:11
that both Jesus and Adam are mentioned exactly the same number of time, 25.

14:17
25 (Adam) and 25 (Jesus).

14:20
I believe the name of Jesus is a multiple of 5, when you look at the numerical values of it,

14:26
but this will be another KHUTBA, IN SHAA ALLAH.

14:34
And then, I wanna pass on to you a valuable experience in all these works with the miracle

14:41
of the Quran and the book on Jesus that is geared to the average American here.

14:49
We experienced interferences from Satan that are very clear.

14:54
And we also found out how to chase him away.

14:57
And it turns out to be a commandment in the Quran in SURA 23

15:03
where it says in Arabic... and we tried it and it works and I want it to work for you.

15:08
I want you to do it as my brothers and sisters because it's really effective.

15:14
And it is a commandment in the Quran. It says,

15:16
وَقُلْ رَبِّ أَعُوذُ بِكَ مِنْ هَمَزَاتِ الشَّيَاطِينِ (23:97)

15:20
QUL means say.

15:21
It's a commandment.

15:22
My Lord, I seek refuge in You from Satan,

15:26
from the suggestions of the devils.

15:28
Excuse me,

15:29
this is the literal translation.

15:31
It will be wonderful if you can learn in Arabic and

15:33
say it just like this because it is a numerical combination.

15:38
The statement is رَبِّ أَعُوذُ بِكَ you know most of these words anyway.

15:42
رَبِّ أَعُوذُ بِكَ مِنْ هَمَزَاتِ الشَّيَاطِينِ

15:45
My Lord, I seek refuge in You from the suggestions of the devils.

15:50
وَأَعُوذُ بِكَ رَبِّ أَنْ يَحْضُرُونِ (23:98)

15:52
And I seek in You my Lord lest they come near me.

15:56
So, I would suggest to you that you study this in Arabic and say it. I'm

16:03
telling you a thousand times a day is not, is not enough

16:06
because the sneaky whisperer الْوَسْوَاسِ الْخَنَّاسِ will grab any chance and will come to you

16:15

and suggest things against Allah Subhanahu Wa Ta'ala.

16:18

So, this is a very effective commandment and this is my suggestion. You can call it ZIKR

16:24

because you are making ZIKIR of Allah.

16:28

رَبِّ أَعُوذُ بِكَ مِنْ هَمَزَاتِ الشَّيْطَانِ وَأَعُوذُ بِكَ رَبِّ أَنْ يَحْضُرُونِ

16:33

And we'll have to rush through, so Aqem Al-Salat.

20 Friday Sermon by dr Rashad Khalifa the Mohammadans Discoveries by Atef and Lisa 1987 12 04

Alhamdu Lillah, Wa Ash-hadu Alla Elaha Ella Allah Wahdahu La Shareeka Lah.

0:36

The message of worshipping God Alone

0:40

is... there's a big

0:43

switch

0:44

this year. This marks

0:47

a new era

0:49

and the switch is from the religious leaders

0:53

like the Pope

0:55

and Jewish leaders and Muslim

0:59

leaders

1:00

to

1:02

Academia, the Academic people

1:04

who include Jews, Christians, and Muslims

1:08

and who will look at the

1:12

data

1:13

of the Quran objectively

1:16

and then they will tell the world

1:18

adding the credibility of academic research

1:22

and they will tell the world about it. This is what's happening this coming year.

1:27

Yesterday,

1:28

we had the president of the... the vice president of the biggest Islamic university in Saudi Arabia and three of his people

1:38

come here and discuss

1:43

the matter of worshipping God Alone.

1:45

And you know all their arguments.

1:48

But one thing happened that stands out

1:51

that I don't think I or you will ever forget

1:55

and it's something that I don't think Satan himself will dare do.

2:00

That man objected to having this on the wall by itself.

2:07

He wanted Muhammad next to it.

2:10
He, instead of, being pleased with seeing the name God on the wall, he actually criticized it.
2:22
I mean, unbelievable as this may be, we have a sign on the wall out there saying "Happiness is Devotion to God."
2:29
And that sign pleases all the believers in God including Jews, Christians.
2:35
And the hardcore Jesus worshippers are even pleased with it and they call us and they tell us how much it pleases them in the morning to drive by and see it
2:44
or in the evening, but this man was upset to see
2:49
the name of God Alone up there.
2:58
These people worship Muhammad
3:01
just like the Christians worship Jesus. I mean, they're all human beings and they're all victims of Satan the same way.
3:12
I want to read for you some of the writings about Muhammad.
3:21
Actually, I don't wanna do that because it's kind of crazy, but I'd rather concentrate on our positive data, but since I opened the page, I will read just a couple of things to give you an idea. Then, it will get to our good results.
3:56
OK. It says here that in the beginning...
4:01
The title is "the creation of the greatest RUH" or spirit.
4:07
"And it is the light of our master and prophet Muhammad." This is what they're saying "Peace and blessings be upon him."
4:15
It says here "Then God, Allah TA'ALA, looked at that light again and it sweated from modesty before God.
4:25
From the sweat of its nose, God created the angels."
4:30
This is now the light of Muhammad.
4:33
"From the sweat of its face, He created the throne."
4:37
Poor God didn't have a throne to sit on until the light of Muhammad sweat on the face.
4:46
Oh, "He created the throne, the foot stool,
4:50
the tablet of forms, the pen, the sun, the moon, the whales and the stars and what is in the heavens."
5:00
OK
5:02
"From the sweat of its breast, He created the prophets, the messengers, the ULUMA (religious scholars)."
5:08
No wonder!
5:11
"The martyrs and the SALIHUN." That is the righteous people.
5:18
This goes on and on. OK. "From the sweat of its back and from the sweat of the two eyebrows,
5:30
He created the community of Muhammad and the Muslims both men and women."
5:35
We're all created from the sweat of the brows, eyebrows of Muhammad.
5:44
There's a part here.
5:50
Oh
5:55
"Then, God created..." this is... "then, God commanded all the souls of creation to look at the form of Muhammad. And so they looked at it.
6:04
Whoever saw his hand became a Khalifa (ruler and Sultan among creatures)." I don't want my name in there.
6:16
Whoever saw his forehead became a just prince.
6:21
Whoever saw his eyes became one who preserves the word of Allah." It goes on like that.
6:29
"Whoever saw his lips became a cabinet minister.
6:36

Whoever saw his nose became a doctor.
6:43
Whoever saw his mouth became one who fasts.
6:49
Whoever saw his teeth became one who is beautiful of face among men and women."
6:58
I'm gonna skip here. "Whoever saw his neck became a merchant." OK.
7:05
"Whoever saw his breast became a 'A'LEM." a scholar.
7:13
"Whoever saw his abdomen became one who does RUKU and SUJUD." prostration
7:21
By the way, they skipped from here down.
7:24
They didn't say "whoever saw..."
7:27
"Whoever saw his feet became a hunter.
7:32
Look at this "Whoever saw his shadow became a singer."
7:38
There's another place here. "Whoever saw his fingers became a scribe. Whoever saw his fingers of his right hand became a tailor
7:46
and Whoever saw his left hand became an ironsmith.
7:53
Whoever saw his left palm became a Meiser.
7:57
Whoever saw his back... the back of his right hand became a cook."
8:02
Do we have any cooks here?
8:08
Whoever saw his right palm became a money changer and embroiderer." Whatever the relationship is.
8:20
"Whoever saw his left palm became a corn measurer."
8:25
You know the corns that grow on your toes. NO.
8:32
It says, Oh, "whoever saw his throat became a MO'AZZEN (a person who calls to prayer)."
8:43
There is some place where somebody saw some finger and became a carpenter and so on.
8:48
But this here. I'm gonna close with this. This is ridiculous but...
8:53
"Whoever saw nothing became a Jew, Christian, or a Zoroastrian or a KAFIR." disbeliever. So,...
9:03
There are no carpenters among the Jews. There are no tailors among the Christians. This is nonsense, a bunch of nonsense.
9:11
And this man had the goal to say "why do you have God Alone, on the wall?"
9:21
Now, we just get to the serious, positive work that we're doing. I was visiting with my brother in California last weekend.
9:30
And we checked some of the results of the research, generally. He got hold of the index to the Quran and we looked up a few words.
9:40
I just want you to be the most familiar with this great great miracle. God calls it "one of the greatest miracles"
9:49
which will show you that when you read the Quran, you are reading God's message to you.
9:54
And that which will give you full confidence that not just any human being wrote the Quran and is fooling you
10:02
or that his statements are not reliable or trustworthy.
10:07
You will have full confidence. So, I'm gonna keep informing you, keeping you up-to-date with this information.
10:14
My brother looked up the word "Quran"
10:19
and, in the index of the words of Quran which counts every word and is proven to be correct except as far as the word... the number of the word ALLAH is concerned where they made
10:30
the same mistake that the computer made. You know about that. But he found that the list says 58.
10:38
But in SURAH number 10, there is one statement that says "the disbelievers would say: give us a Quran other than this one."
10:46

So, you remove that. Minus 1 and the mentioning of Quran is 57. 19×3 .

10:54

When you take the numbers assigned to the chapters and the numbers assigned to the verses where this word is found,

11:03

the total is 2660 which is a multiple of 19.

11:11

19 times 140.

11:14

And then we looked up the word "messenger."

11:25

And he found that in the index, the total was 116.

11:31

You see, when the person who doesn't know and looks at this say "well, this number is not a multiple of 19"

11:37

but one of these 116 times is a messenger of Pharaoh in chapter 12.

11:45

The messenger of Pharaoh went to Joseph to ask him about the dream of the king. So, you remove that.

11:52

The other, so... the other..... another RASUL is mentioned in the last two verses of SURAH 9.

11:58

So, there are 2 of them that you remove and you have the total of 114.

12:04

OK. These are things that you should be familiar with. 19 times 6.

12:11

And then we looked up the word WAHED or one

12:21

and it said 25, but 6 of them had nothing to do with God and that God is One is mentioned in the Quran 19 times and you take the numbers assigned to the chapters and the numbers assigned to the verses

12:37

and they add up to a total which is a multiple of 19.

12:45

So, I will let you absorb this much which was repeated before and think about it as we all repent and ask God to forgive us and help us along His right path. Tooboo Ela Allah.

13:22

Alhamdu Lillah, Wa Ash-hadu Alla Elaha Ella Allah Wahdahu La Shareeka Lah.

13:26

We praise God and bear witness that He is the only Lord and Savior.

13:31

He's only One God.

13:33

Well, Lisa Spray continues to make discoveries and I wanna share with you. She wants to share with us, what she found out lately by adding...

13:45

making additions of the verses and SURAH numbers. This is what God wants to teach us now that the numbers assigned to the verses

13:53

and the numbers assigned to the chapters are dictated by God Himself. They are not human-made.

14:01

Also, the sequence of the chapters as we have it.

14:06

Miraculously, the sequence of the chapters has nothing to do with the sequence of revelation of the chapters.

14:12

As you know, this is very simple and you're gonna remember it and see how everything in the Quran is Divine, is not human-made.

14:21

We have a missing Bism Allah Arrahman Arraheem in chapter 9.

14:25

There is no Bism Allah.

14:27

And we know that this is made up in chapter 27.

14:35

There's been a 0 Bism Allah, and here there are 2 Bism Allah.

14:48

And you know that when you count the SURAHs starting with number 1 here and ending here, you have 19,

14:55

19 SURAHs between the missing Bism Allah and the extra Bism Allah.

15:00

There's an opening Bism Allah Arrahman Arraheem in this SURAH and then in verse 30,

15:06

we see the queen of Sheeba sending a letter to Solomon and the letter was "In the name of God, the Most Gracious, the Most Merciful." Bism Allah Arrahman Arraheem in verse 30.

15:16

Now, very simply, any of you can go home and do this. Add $9+10+11+12+.....+$ up to 27. The total is 342. 19×18 .

15:40
Now, see, why did God eliminate the Bism Allah from this chapter and put it in this chapter?

15:50
This particular series of numbers, 9, 10, 11, 12, 13, up to 27. When you add them up, they give you this total. 342.

16:04
But this is half the story. It turns out that these two BISM ALLAHs are in the opening, let's say verse zero, and then you find the extra Bism Allah in verse 30.

16:20
The number of words... You count the words between the two Bism Allah and it is this number.

16:31
How do you like that?

16:32
I mean, it's a design that nobody can dream of.

16:37
The number of words between the two Bism Allah.

16:41
So, this is all I want you to.... NO! There is one more thing. It's just so much....

16:48
I was talking to Ismail Barakat in Canada today and he used the word that I can't remember. It is not "explode." But he said "the miracle is exploding."

16:57
I'm gonna remember the expression he used which was perfect. But this is what's happening now. It's really a blessed explosion to overwhelm the world

17:09
and to show how blind the top religious leaders are. The man who objected to having the name of ALLAH on the wall, God by Himself,

17:21
is, if there's a Pope in Islam, this is the second man. He's vice president of the top Islamic university and he knows nothing about the miracle.

17:33
In fact, they were so pitifully ignorant. I didn't even want to open the discussion on it or say anything about it

17:41
and interestingly they didn't wanna talk about it and they didn't attack it which tells me that there are some quarters in Saudi Arabia that discovered the truthfulness of the miracle and told these people.

17:53
So, they don't wanna discuss it and for the first time they never attacked it.

17:59
They didn't say Bism Allah is so many letters or...

18:02
was the first time... Never saw it... It's really.... I learned a lot by discussing the matters with them.

18:08
The other thing that Lisa wrote down here

18:14
was the number of verses from the first Quranic initials,

18:24
A.L.M. in SURAH 2, verse 1.

18:30
You count the verses. This is a huge number now.

18:35
You add up the verses all the way to the word "nineteen" in the Quran.

18:41
That's right. You know what I'm gonna say.

18:50
And the total is 5515.

18:59
Now, there are many angles to this miracle

19:03
and one of the things that the miracle does not ignore is the Bism Allah Arrahman Arraheems that are at the head of the SURAHs.

19:13
Now, between this verse (2:1) and this verse here which is 74:30

19:21
there are 71 Bism Allah Arrahman Arraheem and when you add these,

19:28
the total comes to 5586 or 19×294 .

19:42
The Bism Allah Arrahman Arraheem is recognized as un-numbered verses.

19:48
And they are counted. When you add all the verses of the Quran including the 112 un-numbered Bism Allah Arrahman Arraheems, the total is a multiple of 19.

20:01
It is 6346. Right. This is 19×334 .

20:21
This is the total number of verses in the Quran including all the Bism Allah, 112 of them.

20:33
 There are a few more items that I would like to talk to you about, but we're running out of time, so I would mention one more item
 20:40
 that came across the... via satellite. We have one of our people in Morocco. His name is Yaghoobi Kamal and he called
 20:52
 and he read from this Muslim Perspective of September 1986, Muharram, 1st, 1406
 21:04
 where... I have consulted the Quran and the message was loud and clear, after seeking refuge in God from Satan,
 21:12
 that I wrote this. I said "almost all present governments in the region will reject and scoff at this offer."
 21:21
 I had sent... if you recall, I had sent letters to every president and every king of every Muslim country in the world,
 21:28
 Arab and Muslim country and I invited them with evidence to form a United Islamic Nation.
 21:36
 And when I consulted the Quran, I will show you the verse in SURAH 9 by the way, that say "do they not see that they're put to the test once or twice a year?"
 21:47
 And this caused me to add this "consequently, there will be a change of government in that region at the rate of at least 3 governments every 2 years."
 22:00
 Cause once or twice a year means 3 every 2 years.
 22:07
 "Until a government comes with the specific objective of joining the United Islamic Nation."
 22:13
 Now, this looks like a flaky thing to some people,
 22:20
 but this turns out to be true. Exactly, two years after the publication of this statement,
 22:30
 Habib Bourguiba, the president of Tunisia was removed and a new president was.... a new government was installed and this happened next to... next door to our brother Kamal.
 22:41
 So, he fell. We had 3 governments fell. The government of Sudan, president Nimeiry, remember him?
 22:50
 and the government of Yemen, president Mahmood Ali
 22:55
 and finally, the last....the third one was president Bourguiba of Tunisia.
 23:00
 Now, those dictators... the only.... the most important thing.... the only thing, they care about in life is their throne,
 23:08
 their government, and the only thing that will make them do anything or move at all is to feel that their throne is threatened.
 23:16
 It's the only way, they'll do anything.
 23:18
 They also act as if they will live forever. They all do.
 23:24
 And they never learn from their past experiences. But I want you to be aware of this and I find it very interesting
 23:33
 that in the 2 years, we did have 3 of those governments. By the way, those governments were named. I did name the governments that received that letter.
 23:43
 So, we'll see what happens. I'm gonna write it in the new Perspective. I'm gonna ask the question "who's gonna be next?"
 23:49
 and I'm going to mail it to all the presidents and kings of that area.
 23:54
 So, May God guide us all and help us to be in His Kingdom.

21 Friday Sermon by dr Rashad Khalifa the Power of Repentance the Secret of Happiness GOD Controls E

Allahu Akbar Allahu Akbar La Elaha Ella Allah
 0:27
 La Elaha Ella Allah.
 0:30
 Alhamdu Lillah, Wa Ash-hadu Alla Elaha Ella Allah Wahdahu La Shareeka Lah.
 0:36
 We praise God and we bear witness that there is no god except the One God.
 0:42
 Today is the first day of a new year. It is January 1st, and I don't see a single person with a hangover in here.
 0:55

The first day of the new year of 1988
1:00
is also the first day of the rest of your life.
1:05
And the Quran provides the ways and means of starting all over again, anytime you want to.
1:13
We can forget completely about the past and start as a totally new person beginning a totally new life.
1:21
The concept of repentance. Repentance: returning to God.
1:27
Being unaware for a while
1:30
and now deciding to return and be with God.
1:34
I have put
1:36
the theme of the new translation of Quran on the wall here
1:39
for you and I'm gonna read it
1:41
because I wanted to share it with you.
1:45
Well, before I read it, I'd like to say that finally we've discovered the secret of happiness,
1:53
the most elusive of all human searches.
2:00
The secret of happiness is in this
2:05
short theme here: "Happiness is a quality of the soul, the real person, not the body."
2:14
Therefore, a body that achieves all the material successes it longs for: money, fame, power, good looks,
2:24
carnal satisfactions often belongs to an unhappy person. The real person's happiness depends totally
2:35
on the degree of growth, development and fulfillment of the real person.
2:42
This book, the Quran, maps the road to perfect happiness for both body and soul,
2:48
both in this temporary world and in the eternal Hereafter.
2:53
So, this is the secret of happiness.
2:55
And you've seen the video that we made couple of weeks ago.
3:02
And I mentioned in it Eddie Murphy
3:05
in his interview with Barbara Walters
3:08
and how he owns this big estate in New Jersey where he has his family. His mother see him successful.
3:15
He's got the success, the fame, the movies, the TV, millions of dollars, five cars, two Rolls-Royces, a Porsche,
3:23
a Mercedes, a Corvette, yet he said that he was not happy.
3:30
So, what does a human being want in this world?
3:35
Is this what... isn't this what everybody out there thinks they want?
3:40
The millions of dollars, the Rolls Royces, the Mercedes, the estates, the palaces and he's not happy. So,
3:49
this proves once again... this been proven over and over that material success does not bring happiness.
3:57
If the soul is shrunk and not fed and not nourished, there is no happiness.
4:03
This is the secret of happiness. Nobody can be happy unless the soul is nourished and develops and grows.
4:14
Just try not to feed your body for one day and see how miserable your body is.
4:21
Try for one day not to feed your body or give it water.
4:26
The soul is exactly like that if the soul is not nourished.

4:32
But in our dimension here, we do not feel the pain.
4:36
It is reflected in what Eddie Murphy told Barbara Walters that he was not happy.
4:41
It's reflected in that.
4:43
This is the secret of happiness.
4:46
A few weeks ago, they had the Barbara Hutton story on the TV and many of you saw it.
4:51
Same thing, wealth, fame, anything she wanted,
4:58
yet you saw her in the program trying to commit suicide.
5:01
This is a true story, how miserable she was,
5:04
the exact opposite of happiness. So, what does everybody out there want?
5:09
You want money, fame, good looks, success,
5:13
but then if the soul is not nourished, there is no happiness.
5:20
The nourishment for the Soul, God teaches us in the Quran, just like mentioned in the theme in here
5:27
that the Quran maps the road to perfect happiness.
5:31
And it starts the minute you wake up. We've been learning here from the Quran
5:35
that when you wake up in the morning, the first thing you say is
5:38
Bism Allah Arrahman Arraheem.
5:40
Right there, it's a good snack for the Soul.
5:45
It's a bit of nourishment.
5:48
The minute you open your eyes in the morning, you say Bism Allah Arrahman Arraheem. La Elaha Ella Allah.
5:53
There is no god except the One God.
6:00
The Quran teaches us specifically when you admire anything that belongs to you,
6:06
you must say: Mā shā Allah
6:09
This is the Arabic. You can say it in English. "This is what God gave me" in English.
6:14
Say Mā shā Allah. You admire your car, your children, your spouse, your house, anything that belongs to you,
6:23
and this invokes protection for your belongings
6:26
and it is nourishment for the soul,
6:28
because the soul is a piece of God.
6:31
And when you say Mā shā Allah, your soul grows,
6:34
another bit of nourishment.
6:38
You praise God. You Say "Alhamdu Lillah."
6:41
Thank God or Praise God
6:43
when something good happens
6:44
when you finish eating.
6:45
When you start your car, you say "Bism Allah" and you...
6:48
When you start eating, you say "Bism Allah"
6:50

"In the Name of God."
6:53
And when you finish, you say "Alhamdu Lillah."
6:56
Thank God. Praise God
7:01
When you see something wonderful,
7:04
the sunrise or the sunset
7:06
or a flower
7:08
or a fruit, or anything God created, or a cute cat,
7:13
you say "SUBHAN ALLAH."
7:18
God be glorified.
7:21
SUBHAN ALLAH. God be glorified.
7:24
Any time you think of God, because your soul is a piece of God,
7:27
your soul will be nourished.
7:30
Don't just eat the apple or the orange.
7:34
Think
7:34
who made this?
7:36
Where did it come from? Where did the apple come from?
7:39
The perfect flavor, the perfect sugar,
7:41
the perfect texture, the crunchiness.
7:45
Who designed this? Where did it come from?
7:48
It came from the air, by the way,
7:50
and the liquid from the soil.
7:53
This is where the apple came from.
7:55
It starts as a little ovary
7:58
and then it grows.
8:01
The leaves of the tree collect carbon dioxide from the air and link it together in chains.
8:08
The sugar is carbon: ccccc, six carbons make one small molecule of sugar.
8:15
So, the leaves of the tree, photosynthesis. You've heard the photosynthesis
8:19
and the energy from the sun
8:22
and the water from the soil.
8:24
This is it. This makes the apple
8:27
and all the other chemicals.
8:29
Don't just eat the apple to feed your body.
8:32
Eat the apple and feed you soul by saying "SUBHAN ALLAH."
8:35
God be glorified.
8:39
Because the body, you're gonna throw away.
8:42
The soul is you

8:43
and you're gonna last forever.
8:56
The best nourishment of all is the contact prayer
9:02
making contact with God.
9:03
These are casual snacks,
9:04
Mā shā Allah (this is what has given me), Alhamdu Lillah (Praise be to God/ Thank God), Inshā Allah (God willing).
9:08
You should never say "I'm gonna do something the next hour, or at 2 o'clock or tomorrow or next month or next week
9:13
without saying "Inshā Allah," God willing.
9:17
You're gonna shock your American friends first but then they will get used to it and they will respect you later.
9:25
And you will nourish your soul, as you remind them and remind yourself.
9:30
Say "Inshā Allah."
9:32
So, these are the snacks for the soul
9:37
and they may barely spare you misery
9:42
be it temporary or eternal Hell.
9:45
It might, but
9:50
the best nourishment is the five daily contact prayers.
9:55
These are specifically prescribed by God at specific times with specific utterances and specific movements.
10:04
It's a numerical code.
10:06
It's a combination that causes contact
10:10
with God.
10:12
Then, your soul really grows.
10:15
And like you heard on the tape, the other day,
10:18
the soul grows in leaps and bounds which makes nourishment a lot more crucial and a lot more important than your meals for the body.
10:31
because, ok, you're gonna give your body three meals today
10:34
how much would you grow today?
10:37
The children probably grow at a higher rate.
10:40
But what is the maximum you'll grow?
10:41
One pound?
10:43
Hopefully not.
10:47
But the soul, if there is a weight for the soul, you may grow by 10 tons.
10:54
The soul has a weight in the other dimension, not in this dimension.
11:01
In this dimension, I think, they determined the soul is one ounce.
11:05
They put a dying person on a scale
11:08
and they weighed him before he died and weighed him after he died.
11:11
And the difference was one ounce.
11:15
This is scientific research. They wanted to catch the soul scientifically
11:20

in the material world.

11:23

But in the other dimension, wow,

11:26

you know, when they go to the other dimension, they're gonna see the angels and the jinns and all the other creatures of the other dimension.

11:33

And one prayer, very easily, makes you grow by 10 tons.

11:42

10 tons. Iman, how many tons do you carry in your 18 wheelers?

11:48

80 tons? 80,000 pounds over 2,000 is 20 tons. 80,000 pounds over 2000 is 40 tons.

12:04

Yes, 40 tons, yes. OK. You can, you can load Iman's truck with just one prayer.

12:13

I don't think you'll forget this now.

12:16

So, this makes feeding, nourishing the soul all the more important.

12:27

In Sura 22

12:31

or is it 21? Let me

12:34

make sure so we can go and refer to it.

12:39

21. It says that "the reckoning is approaching while the people are totally unaware."

12:53

21. "The reckoning for the people is fast approaching while they are totally unaware, heedless." Reckoning of what?

13:05

It's calculating

13:08

how much you deposited in your account, how much growth you attained for yourself.

13:15

And you can't just wait and wait and wait and then try to feed a shrunken soul.

13:22

There's such a time where it's impossible.

13:26

You have to do it everyday. You have to do as much as you can.

13:29

This is what we're really here for.

13:34

The reckoning for the people is fast approaching.

13:36

That Day will come.

13:40

Sooner than you think.

13:42

Because life goes fast.

13:45

For the young people, it seems so far away.

13:56

"The reckoning for the people is fast approaching while they are totally unaware heedless" (21:1).

14:03

Did you hear all the hullabaloo and the parties last night for the bodies that they throw away?

14:10

They did nothing for the soul.

14:14

If anything, they did things against the soul.

14:16

It went into the negative.

14:24

The Health Department was distributing condoms to the bars, so they give the drinks and condoms.

14:32

I mean, what is this?

14:35

You can be sure most of it is not legitimate relationships.

14:42

I mean, Satan had a heyday last night.

14:47

And these are negative. The souls go into the negative.

14:53

It was on the news all day yesterday. You know "don't forget; get your condoms."

15:04
[21:2] "Whenever a new reminder comes to them from their Lord, they listen to it thoughtlessly."
15:15
I mean, you remind them that they're gonna throw away their body
15:20
and their soul is gonna remain forever
15:24
and will be assigned a rank forever on the Day of Eternity.
15:30
And they are thoughtless. They "oh, sure." They're so unaware.
15:37
Their hearts are distracted.
15:40
Satan succeeded in distracting them.
15:46
And the wicked confide to each other: is he not just a human being like you?
15:52
They will not take anything from you, any advice from you.
15:55
They hate advice. They hate the Truth.
16:01
[21:3] "Would you accept magic while you see?"
16:06
Their hearts are distracted.
16:08
And in the second KHUTBA, In Shā Allah, I will... I think I discovered something I'd like to share with you
16:13
that will help us not to be distracted.
16:16
Tooboo Ela Allah. Repent.
16:36
Alhamdu Lillah, Wa Ash-hadu Alla Elaha Ella Allah Wahdahu La Shareeka Lah.
16:40
Praise be to God. I bear witness that there is only One God.
16:45
He has no partners.
16:56
We are a very very lucky generation.
17:02
In Sura 56, we are told that
17:08
the lower Heaven is gonna be relatively crowded.
17:12
It's gonna be full of all the children who died,
17:14
all the people who died before the age of 40
17:17
and adults who did not nourish their souls enough.
17:23
It's gonna be like the coach in the plane
17:26
be crowded.
17:28
First class Heaven,
17:33
will not be crowded, big seats, comfortable. They all go to the same destination.
17:38
You remember going in the plane and these people sitting in first-class looking at you like
17:42
"haha, I'm in first class. I have a big seat."
17:46
And you go in there, squeeze in this coach in the plane.
17:50
You may get a seat that you just barely fit in it,
17:55
especially, if you are a little heavy weight like myself. You'll really squeeze in there.
18:01
So, the coach is gonna be very crowded.
18:04
First class, God says in Sura 56
18:10

that there will be multitudes of the early generations, which ours is one of them
18:18
and few of the later generations.
18:22
You know, God wills that this generation of ours witnesses a renewal of the message.
18:28
You know, the Christians have gone astray. They have been worshiping Jesus.
18:33
The Muslims gone totally astray worshiping Muhammad and the saints.
18:38
And the people forgot about God and all of a sudden, there comes into focus "God Alone" message
18:44
with this fantastic miracle that is coming to enhance that.
18:49
I'm sure many many people thought of it and I have met a few of them
18:53
but they did not have the authorization or the power or this mathematical code in the Quran that points at God Alone.
19:02
19 means God is One, God Alone.
19:05
And this is our generation. You can be sure that subsequent generations will be fewer of the people.
19:14
I mean, here we are; we are pounding each other's head every day. "Let's worship God alone. Let's worship God alone."
19:19
"You're idol worshipping. I am idol worshipping."
19:22
You know, we are reminding. We are a lucky generation.
19:26
There will be multitudes of us, our generation, IN SHAA ALLAH, in first class,
19:31
in the High Heaven.
19:33
Now, the difference is much greater than first class and coach of the plane.
19:38
But then as, as the message, as they move further from our witnessing of the miracle,
19:45
we are witnessing the miracle before our eyes
19:50
and as they move further, there'll be less and less, according to Sura 56.
19:56
So, we are a very lucky generation.
19:58
And this brings to us more privilege.
20:03
I will not call it responsibility. I will call it privilege
20:07
to be much more careful, to do our five daily prayers, to observe God, observe His laws
20:13
make ZIKR continuously.
20:15
Well, this reminds me.
20:17
If you get distracted, the new ZIKR...
20:20
I was listening to the Quran the other day and the reader in a beautiful voice was saying
20:25
the part of Quran where God says "do they think that I do not hear their secrets and their conspiracies?"
20:36
"Do they think that I do not hear their secrets and their conspiracies?"
20:43
And when Moses and Aaron said "we're afraid Pharaoh may kill us." God said "don't worry. I'll be with you. I hear and I see."
20:53
And this inspired me, as I was going to sleep two nights ago to say "God hears my secret
21:02
and my declarations.
21:05
God knows my secrets."
21:06
And this evolved gradually until I said
21:09
"God is here in this room."

21:11
"God is here now in this room. God sees me, hears me."
21:15
And this is what you have to visualize and materialize.
21:19
And it has a tremendous, great effect. I'm sure your soul will grow tremendously.
21:24
And if you had any devilish thoughts, they will go away.
21:30
You just visualize God with you. God is in this room, wherever you are.
21:35
God is here now. God is with me.
21:38
This is a new ZIKR.
21:41
God is teaching us.
21:44
And it will help you a lot.
21:46
It helped me.
21:48
And this is what I'm sharing with you now.
21:51
God is with me. God is in this room.
21:55
He is... see, as we talked now. God is in this room.
21:58
God is Omnipresent in every room, everywhere.
22:04
And personally with you as well as that ant out there by the roses.
22:10
God is with that ant.
22:11
God controls everything that the ant is doing,
22:14
how much food it gets.
22:16
God is with me.
22:17
God is here.
22:20
He hears my secrets,
22:22
what I'm thinking.
22:22
And this will help a lot.
22:31
The miracle,
22:33
I'll just give you a piece of news as to what I'm doing
22:38
since we're all in this together.
22:46
What I'm doing now is
22:49
I'm gonna give the mathematical miracle of Quran a lot of attention in the coming days and weeks, In shā Allah.
22:59
And what I'm doing is I'm making a generic video tape on the miracle.
23:04
Generic means that it will just have the facts in the video
23:11
and anybody can dub his or her own language on the tape.
23:16
So, I'm going, I'm going to do the English and the Arabic.
23:20
We're gonna have Mohtasham or Abdullah or both do the Turkish.
23:24
Gatut will do the Indonesian, Malaysian. Franchesco will do the Spanish.
23:31
We're gonna dig up somebody to do the Urdu, and so on.
23:34

Susan will do the Farsi and the French because she is good in both.
23:39
So here, so we're gonna have it in English, Arabic, Urdu, Turkish, Indonesian, Malaysian, Farsi, French.
23:49
Eric is going to do it in Swedish.
23:52
Eric Thornwall
23:54
So, we will also have these flashcards. These are flashcards
24:00
and I can have them by next week.
24:02
And they help a lot of people,
24:05
especially that there must be like 75% to 80% of the people who have a mathematical mental block.
24:12
You know, what's one plus one?
24:18
She doesn't know.
24:20
It's called the mathematical mental block.
24:27
A lot of people have them.
24:28
They're geniuses.
24:31
But these flashcards...
24:41
have to laugh a while.
24:44
The flashcard
24:50
makes it easy, so...
24:54
We're gonna edit this out.
25:03
Sometimes you get intoxicated.
25:06
This is called God's intoxication.
25:09
The smallest thing
25:10
you know, people who drank last night, think they were intoxicated.
25:15
And at first, the smallest things makes them laugh
25:18
Then, they wake up in the morning with a huge hangover.
25:22
And sometimes God's people get like that.
25:24
You know, the smallest things make them laugh out of control.
25:28
This is the title; it says "Mathematical Miracle of Quran."
25:31
And this says "these are all physical facts."
25:39
And this is the last statement before the actual facts.
25:43
The Quran is mathematically coded beyond the human intelligence.
25:46
This is Arabic and English, by the way.
25:48
We're gonna have them in nice-sized cards for everybody.
25:51
Here is...
25:54
This is another set, the last one, I promise.
25:57
It says "the Quran's mathematical code is based on the number 19."
26:02
And here is fact number one.

26:04
You see how simple it is.
26:06
Fact number 1: opening statement of the Quran the "Bismillah" consists of 19 Arabic letters.
26:14
This is fact number one.
26:16
Fact number 2: The Quran consists of 114 Suras or 19 x 6.
26:23
Fact number 3: First revelation of Quran was 19 words.
26:29
Fact number 4: First revelation, the 19 words, are 76 letters, 19 x 4.
26:37
First revelation is 19 verses.
26:42
And it goes on like that.
26:44
Last revelation was 19 words.
26:46
So, they're all concentrated facts.
26:49
This is the quick summary.
26:51
And then what I will have after this will be
26:54
the pictures from the Blue Book, for example, where it shows Bism Allah Arrahman Arraheem, broken down into letters
26:59
19 letters
27:00
and then Gatut will say it in Indonesian.
27:04
These are the documentation of these facts.
27:06
These will take only like five minutes,
27:09
all of them.
27:10
And then so we come to fact number 1, the documentation for fact number 1, Gatut will say it in Indonesian.
27:17
The "Bismillah" consists of 19 letters, as you see.
27:20
And anybody can say it in any language.

22 Friday Sermon by dr Rashad Khalifa GOD is Doing Everything Story About Ahmed Subhy Mansour 1988 0

La Elaha Ella Allah (There is no god but One God)
0:21
Alhamdu Lillah, Wa Ash-hadu Alla Elaha Ella Allah Wahdahu La Shareeka Lah.
0:27
We praise God and we bear witness there is only One God.
0:32
God is doing everything.
0:37
And this is the conclusion that we must reach
0:41
if we are to be saved.
0:44
That God is doing everything is a quality of God.
0:48
If you don't know this quality, then you don't know God.
0:55
And this is why the Quran is full of those verses
0:58
talking about people who do believe in God
1:02
but they're going to Hell
1:04
because they do not know God as He really is.
1:07

In Sura 8, verse 17,
 1:10
 we're told that God...
 1:13
 There was the appearance of a battle
 1:16
 with a small handful of believers fighting a big huge army of disbelievers.
 1:23
 And the believers were busy running around and stabbing and throwing arrows and shooting, thinking they are fighting,
 1:29
 but the verse tells us that God is the One who's fighting; God is the One who did the killing and the throwing of the arrows.
 1:37
 God is doing everything.
 1:39
 We only do the decision to be with God or not.
 1:43
 And the whole design of this life is to effect a test for each one of us.
 1:55
 This whole life is a test,
 1:57
 nothing else.
 1:59
 And we read in Sura 51, verse 56 that God created this whole universe,
 2:04
 created us just to worship Him alone.
 2:07
 Anything else are just the means for provision,
 2:11
 the jobs, what you do to go to school to find work, develop your talents or whatever.
 2:18
 It's just an outside appearance to provide for you,
 2:21
 give you the dollars, the food, the roof over your head and so on.
 2:25
 But the main job, when you wake up in the morning, my main job today is to worship God Alone.
 2:31
 And to observe my duties towards God.
 2:35
 All those duties, of course, are designed for our own benefit to develop and grow our soul
 2:40
 through the prayers, the fasting and so on.
 2:43
 But the whole world is designed for a test
 2:47
 in that a person is required to pray before sunrise, for example
 2:53
 in order for his or her soul to grow and develop.
 2:58
 And some person may say "oh, the sun is rising too early
 3:03
 4 o'clock in the morning, you know, in July and August."
 3:06
 They complain.
 3:08
 "But the sunrise is at 4 o'clock, you know, I'm not gonna get up at 3:30 to do the morning prayer."
 3:13
 So, God says "ok. I'm gonna make it rise at 7."
 3:18
 And God designed the earth.
 3:20
 It's a little bit lopsided, so it will go up and down in front of the Sun
 3:24
 in this way creating the winter and the short day and the long day.
 3:29
 And God will say "ok. Now, the Sun is rising at 7 o'clock. Are you going to pray the morning prayer before sunrise?"
 3:37
 See, God designed the test this way.
 3:40
 And God nullifies the excuses of everybody
 3:43
 in order to see who is going to make it to the Highest Heaven

3:47
and that is the person who's gonna pray before sunrise no matter what time the sun rises.
3:54
And also to assure the place of those who are going to the
3:57
lowest pit of Hell
4:00
because even when the sun rises at 7 o'clock, they will not pray the morning before sunrise.
4:06
So, you can see the range of the time of sunrise and how God did it to sift out the ranks.
4:15
The people who will pray when the sun rises at 6.
4:19
And people who will pray when it rises at 6:30.
4:23
And people who do the morning prayer when it rises at a quarter of seven.
4:26
So, there'll always be dropouts.
4:29
And there will be those who pray no matter what time the sun rises.
4:33
3 in the morning, they'll be up by 2:30
4:35
and they'll do the morning prayer and go back to sleep, but they will do it.
4:40
People will say "I'm gonna fast in Ramadan 16 hours? The day is 16 hours long
4:46
and I'm gonna eat no food, no water for 16 hours and it's so hot!"
4:50
God says "ok. I'm gonna cool it down for you. I'm gonna make it 7 hours."
4:55
And God does that.
4:57
So, you can see that the fasting days range from 7 hours, 9 hours
5:02
of cool day
5:04
to 16 hours of hot days.
5:08
And you can see the test going on
5:12
and you can see the dropouts.
5:14
Some people will fast even if the day is 20 hours in August.
5:18
And nobody dies anyway from that. It's good for you, takes down your blood pressure,
5:22
reduces your weight and all that.
5:25
And nobody dies if he or she fasts for two consecutive days.
5:30
But there are people who will fast even if the day is 20 hours long.
5:39
For the last 19 years,
5:41
we've been giving the Muslim world evidence
5:44
that they have deviated,
5:46
that we must adhere to the Quran Alone
5:48
and we've been showing them the verses in Quran.
5:54
So they said "well, who is this Rashad Khalifa? He's an ignorant person
6:00
He's never been to Azhar.
6:02
And he's duping the ignorant people who don't know anything about Islam."
6:06
They wrote this.
6:07

They published it. They lectured and so on.
6:10
He's a science man. He is not a religious man.
6:15
If you hear it from a scholar,
6:17
from Azhar,
6:18
then, you can you know, they wrote that Rashad is ignorant.
6:23
He doesn't have a religious degree.
6:26
He's not from the Azhar.
6:27
And he's deceiving the ignorant people.
6:29
And God said "ok, I'm gonna nullify,
6:32
like the long day, the sunrise at 7,
6:34
He said "ok, I'm gonna produce for you the best Azhar scholar.
6:39
And he's sitting right with us right now. He's not a usual Azhar scholar.
6:43
He is one in a long time that was the first of his class in the freshmen, sophomore, junior and senior years.
6:53
He's not a common Azhar person.
6:57
He didn't have a connection.
6:59
A lot of people in the Azhar have connections with the dean or the president of the university and they pass and so on,
7:05
but there are special students who get this degrees and they graduate with the first honors, they call it.
7:12
And he's one of those, one of the unusual students.
7:17
And when he graduated the first of his class,
7:20
he was hired in the university
7:23
and he taught at the university
7:26
and he made his Ph.D. on the same subject that we preach here in this mosque
7:31
that the prophet will not intercede on your behalf on the day of judgement,
7:35
that the prophets are human beings who made mistakes.
7:37
And they gave him the Ph.D. with the highest degree ever in the Azhar.
7:42
So, he's not just...
7:42
God said "I'm gonna give you an Azhar man, not just an Azhar man, I'm gonna give you the best."
7:48
And so, so, he goes out and he teaches and he steals the students from all the other professors.
7:55
I mean, these are facts that are recorded now in the headlines of the front pages
8:00
that came out in the last month as he was in prison
8:03
and our powerful Fātehah got him out, ALHAMDULILLAH (Praise be to God).
8:06
But he would go and teach in the senior class
8:13
and then he will go to teach the next period, will be in the sophomore class.
8:19
The students from the senior class will follow him to the sophomore class
8:22
and the professor of the senior class will complain,
8:25
"where are my kids? Where are the students?"

8:27
"Well, they followed Subhi Mansour to the Sophomore class."
8:29
So, he raised a lot of jealousy within the university
8:34
besides the fact that he was preaching exactly...
8:38
it's identical to what we've learned here
8:41
in this mosque and what we've been preaching.
8:43
And the enemies of Quran, the enemies of God went crazy
8:47
because God nullified their excuse.
8:49
He said "ok. You don't like Rashad Khalifa who's a chemist,
8:52
Here's an Azhar man, one of your own
8:54
and one of your best.
8:56
And he is preaching the same thing.
9:00
He discovered the truth."
9:01
And I don't know where did God hide him from Satan.
9:05
You know, because Satan monopolized all those Azhar people.
9:08
He escaped somehow. God protected him.
9:11
So, he was supposed to give the KHUTBA today, but he refused. He said "I wanna see your system first.
9:16
Then, I will give the KHUTBA."
9:18
Also, he wants to increase his mastership of the English language which he does very well.
9:25
You know, he really surprised me.
9:26
But we have now this newspaper saying
9:31
"how did he get the Ph.D. in this subject?!"
9:34
Now, they want to put his committee on trial.
9:38
"Why did they give him the Ph.D.? How did that happen?"
9:42
And these happen to be the leaders of the Sunna Institute.
9:45
I mean, the chairman of his Ph.D. committee is now the head of Sunna Institute in Cairo
9:50
And he says "how did I do that?!"
9:55
They just can't figure it out,
9:56
but he is a living proof of God's power.
10:01
They are saying "let's take the Ph.D. back from him."
10:04
You know, these things are unheard of. How can you take it back?
10:08
I mean, not only have they said "how did he get the Ph.D.?"
10:12
How did he get the Ph.D. with this high degree, high honors, the highest honors?"
10:17
They call it the first honors
10:19
مرتبة الشرف الأولى in Arabic
10:22
The rank of the highest honor.
10:25

And it had all these things and they cut it down, by the way, you know but...

10:30

After cutting out whatever they wanted, they still, they still don't like it in the newspaper.

10:36

So, this shows you the power of God and shows how God nullifies the excuses of the people in order to effect the test.

10:47

For those who don't like the sun rising at 4 o'clock, God will make it rise at 7, gradually.

10:57

And for those who don't like fasting for 16 hours in a day,

11:00

God will make it 9 hours in a cool day.

11:04

Tooboo Ela Allah. Repent.

11:18

Alhamdu Lillah, Wa Ash-hadu Alla Elaha Ella Allah Wahdahu La Shareeka Lah.

11:26

I know many of you are anxious to hear our report on our Canada trip.

11:33

One of the purposes of the KHUTBA on Friday is to study our affairs and see what is going on.

11:40

And Dr. Mansour and myself went to Canada on the weekend

11:46

and there were a number of miracles that happened.

11:51

First of all, somehow, I forgot that an Egyptian going to Canada needs a visa, an entry visa

12:00

and what is worse, an Egyptian who applies for a visa in any Canadian consulate,

12:10

they have one in Seattle,

12:11

there is a five day mandatory

12:14

mandatory five-day waiting period

12:17

because they telex Cairo and ask if this person is a terrorist or what.

12:22

And, as far as Egypt is concerned, he is the biggest terrorist in all Egypt, one could say

12:29

and his being here is actually a miracle because he is forbidden from travel.

12:34

There were people in the prison who were there for years

12:38

for religious reasons because they offended the person who was interviewing them or something.

12:45

And this is something that he did the first day.

12:48

On the first day, when they were interrogating him

12:51

the officer, or the lawyer, whoever it is, the district attorney

12:57

in the prison interviewing him and said

12:59

"I'm a Muslim, I don't pray

13:02

and I don't fast, but I'm going to Heaven.

13:04

Ain't I?"

13:05

He said "no, you're going to Hell."

13:09

He didn't mince words.

13:10

And he is out here.

13:13

There are stories of people who offended the interrogators inside and then never made it out.

13:18

They're still there, for years.

13:21

And we know them by name,

13:23

but he is out here.

13:26
We sent a few telegrams from around the world
13:30
to the president's office in Egypt
13:33
and we read Al-Fātehah. This is a very powerful prayer, ALHAMDU LILLAH.
13:37
So, for a variety of reasons, they let him out on his own recognizance with the stipulation that he's not to leave the country.
13:45
And now he's haunting them because we're are sending the new (Muslim) Perspective,
13:49
the title is "Al-Azhar disbelieves in Quran."
13:52
Now, they called him, they called him منكر السنة (rejector of Sunna) in Egypt or
13:59
something we really admit, the rejector of Sunna.
14:01
And you know, prisons affect a person's psych somehow and
14:10
he happened to leave the prison on a miserable day. The weather, it was raining. There was mud.
14:17
Cairo was not prepared. Especially, where, the area where he lives is not prepared for rain
14:22
and there was a lot of mud there where you stepped in the mud and then you go, you leave your shoe in the mud.
14:31
put in front of you, put your foot in it
14:34
and then you leave your left shoe in the mud.
14:39
So, he caught himself talking aloud to himself saying
14:44
"ok منكر السنة or rejector of Sunna,
14:46
be careful, lest you slip down or something."
14:50
So, he was out talking to himself with this title that they gave him منكر السنة (rejector of Sunna)
14:54
Now, as of the next issue of the Perspective, we're gonna call the Azhar people: منكر القرآن
15:00
The rejectors of Quran.
15:07
And we are going to issue emergency issues of the Perspective every other week
15:12
and we're mailing them to them over there.
15:14
We're proud of our title "rejectors of Sunna" and we'll see how proud they are with their title as "rejectors of Quran."
15:22
Something that is supported by evidence
15:25
for example
15:26
an editorial, the official Azhar journal
15:30
wrote an editorial in January, the last issue
15:33
attacking him
15:34
and in that, they said that the Quran needs to be detailed.
15:40
I mean, there are about ten statements directly against Quran.
15:45
So, we're taking this statement
15:47
putting it, this is what the Azhar Ignoramuses say
15:51
and this is what God says
15:54
and we give the verses that say "the Quran is fully detailed."
15:56
And we're gonna do this for the rest of the year.
16:02

Ok. We went to a ...

16:03

So, this is, I just got diverted to the miracle of him leaving Cairo, leaving Egypt.

16:09

It is an absolute miracle.

16:11

As a matter of fact, an informer in his group found out that he was leaving

16:16

but without a definite date and he did something that cancelled that informer's information.

16:27

In any rate, we're glad that he's here.

16:30

So, we headed for Canada

16:32

and Ismail Barkat, most of you know him, he's a very hot-tempered, very loud, beautiful person,

16:39

we love him,

16:39

and he was supposed to meet us in Seattle.

16:43

And he swears he was there at 1:30

16:47

and we were there at 1:00 o'clock and we waited until 3:00 o'clock.

16:50

And according to his account and our account, we existed in the same place, but we never saw each other,

16:56

We never heard each other

16:57

as loud as he is. He said...

17:01

he said I even took the public address system and I called you,

17:06

we didn't hear a thing.

17:07

We didn't see him. We didn't hear him. He didn't see us

17:10

and there was nothing.

17:12

Anyway, so, we waited until the next day

17:15

when Raymond Catton... now, Ismail went back to Seattle

17:19

and I had nothing to do, so I tried to smuggle Dr. Mansour into Canada.

17:23

It didn't work out.

17:27

I rented a car, went to the borders and usually they let you pass, you know,

17:32

because the guy at the border said "where are you from?" I said "Tucson, Arizona."

17:36

He said "can I see some IDs?"

17:38

I said "oh, oh, OK. So, we're gonna turn around..."

17:44

So, meantime, Ismail went back to Canada

17:46

and Raymond Catton went with us in the morning to the Canadian Consulate

17:52

where we found out that we have to have five-day mandatory waiting period for an Egyptian to get a visa.

17:59

However, the vice counsel, a lady, turned out to be from Raymond Catton's old country's village,

18:07

a small village, it's called Lancashire

18:10

in England, and they spoke the same language.

18:13

You know, this is how they knew each other.

18:16

"Good morning, (imitating the Lancashire dialect),"

18:21

and she said "good morning (imitating the response in the Lancashire dialect)"

18:24
and he said "oh, you're from Lancashire."
18:26
And she said "that's right."
18:30
She said "ok. Here's the visa."
18:33
Free.
18:34
I mean, if Ismail Barakat went with us, first we would have ended up in jail
18:41
because he's loud.
18:44
He will never go back to Vancouver without this man.
18:48
He's Dr. Mansour's best friend.
18:53
And had they mentioned that you cannot have a visa to enter Canada,
19:00
I mean, Barakat would have destroyed the Consulate,
19:02
I'm telling you, we would have ended up... thank God we just didn't see him
19:06
and he didn't see us.
19:10
So, with all these delays,
19:13
we made it to the Friday prayer in Vancouver.
19:16
And we went immediately after, after the KHUTBA
19:21
and they just finished the KHUTBA and the prayer, so we sat with them
19:24
and they all cancelled going back to work
19:26
and we sat until 4 o'clock,
19:28
from about 2 o'clock to 4 o'clock.
19:32
And we got to talk to them and
19:35
we discussed a lot of things. We did exactly everything we wanted to do
19:40
in the Friday prayer.
19:41
And then we had meetings on Friday night, Saturday night and Sunday night
19:46
in three different places
19:48
about fifty or sixty people and everything was just fantastic.
19:52
The objectors of the past didn't even show up.
19:55
There were no more objections.
19:56
And what I carried to them is the new profound conclusion that we all must have... that "God is doing everything."
20:09
So, as you can tell, we'll be talking about these things for the next few weeks, IN SHAA ALLAH and
20:18
we may discuss more details tonight
20:20
and you will get a chance to greet Dr. Mansour.
20:24
We're glad, we're glad he's here.
20:27
And it is a tremendous victory.
20:33
So, it is time to quit.
20:35
Aqem Al-Salat.
20:36

Allahu Akbar. Allahu Akbar.

23 Friday Sermon by dr Rashad Khalifa Our Purpose GOD's Kingdom vs Satan's Kingdom Abraham's Dream 1

Allahu Akbar Allahu Akbar Allahu Akbar Allahu Akbar La Elaha Ella Allah

1:00

La Elaha Ella Allah

1:21

Alhamdu Lillah, Wa Ash-hadu Alla Elaha Ella Allah Wahdahu La Shareeka Lah.

1:26

We praise God and we bear witness that there is only One God,

1:31

Allah.

1:37

I want to talk today about the whole idea behind our existence here.

1:42

It is very important to define our goals.

1:46

The distinction between God's kingdom

1:58

and Satan's kingdom

2:04

is the whole idea

2:06

in this world.

2:18

We read in the prayer

2:21

that God is مَلِكِ يَوْمِ الدِّينِ

2:24

God is the Master of the Day of Judgment

2:28

the eternal Day of Judgment.

2:31

And it is because God has given permission to Satan to set up a kingdom

2:38

in this tiny tiny spec in God's dominion, the planet Earth,

2:44

to show him that he is not competent

2:51

to be a god besides God

2:54

which is the thought that crossed his mind.

2:56

So, the whole idea is that this is a test for Satan

3:03

to show that in God's kingdom, there is perfect happiness.

3:22

And I mean by perfect happiness, perfect health, perfect wealth, perfect joy.

3:32

Satan's kingdom is plagued with problem.

3:48

So, this is, this is what I want you to remember

3:51

always that the distinction, the whole idea is a distinction between God's kingdom and Satan's kingdom

4:00

that God's kingdom has no problems

4:04

once you pass all the required tests

4:07

and once you come to the point, this point of perfection, when you are in God's kingdom.

4:16

And that Satan's kingdom is plagued with problems.

4:20

Our soul grows and develops

4:23

and this constitutes the secret of perfect happiness in this world

4:28

as you see on the wall there. That's the theme of the new translation.

4:33
The secret of happiness in this world is a fed, nourished soul.
4:39
You ate breakfast today, or lunch, or snack or something. You ate something today. You gave your body something today.
4:47
And the people who did not feed their soul, they have a starving soul
4:53
without feeling the pain.
4:56
The pain will show up all at once
4:59
when the separation happens between the body and the soul.
5:03
Right now the soul is obscured by the body
5:06
and the pangs of starvation and pain and hunger are not felt.
5:14
It is felt later on when it is too late
5:17
and when it is eternal and when it is called Hell.
5:22
So, the whole idea is setting up a distinction between God's kingdom and Satan's kingdom.
5:31
How do we join God's kingdom?
5:35
We have to do things that are ordered by God.
5:38
We have to follow the commandments and abstain from the prohibitions.
5:42
It's very simple
5:43
It's listed in the Old Testament, the New Testament, and the Final Testament, the Quran.
5:52
Remember the famous statement, when in the new testament somebody went to Jesus and told him "how do I attain salvation?"
5:59
And Jesus said "follow the commandments."
6:03
A very simple instruction.
6:05
And now the commandments are listed in detail
6:09
with a built-in proof telling you this is from God.
6:12
This is what you should do for your own good
6:15
and this is what you should not do for your own good.
6:20
This is how you join God's kingdom.
6:21
If you don't,
6:23
you will have a starving soul, a shrunk, weak
6:27
unnourished soul
6:29
that cannot be happy no matter how much the body achieves
6:34
of money or fame or whatever, success.
6:54
We can join God's kingdom anytime we want to.
6:56
It's wide open.
6:59
And you can join it right now
7:02
in order to guarantee this perfect happiness.
7:07
You guarantee success in this world
7:09
where no problems, no headaches, no diseases.
7:16

We can do this anytime. Anybody can do this anytime.

7:22

And after you join, for a while, there is a period when you may step out of God's kingdom

7:29

And then God pinches you, if he loves you, if he cares about you and you come running right back to God's kingdom

7:37

but as long as you are inside God's kingdom, there is perfect happiness.

7:44

You'll be in God's kingdom only if you know God,

7:47

recognize God, believe in God, as He is

7:50

mainly, the most important point that He is doing everything.

7:56

That everything is done in accordance with His will

7:59

that God is doing everything.

8:01

It boils down to this statement.

8:03

It is much too complicated for most people to understand.

8:06

But you must know that. If you know God, you'll know that He is doing everything.

8:10

Then, nobody will bother you.

8:13

Your supervisor at work will not bother you because he's not doing anything.

8:17

And you will look at him whether he is promoting you or reprimanding you, as God's work.

8:23

And if you're perfectly in God's kingdom, you know that whatever is happening is for your own good.

8:29

You'll understand it and you will be perfectly happy.

8:34

So, we can join God's kingdom right now through something that's called repentance.

8:39

You can make a pledge right now

8:41

that you will join God's kingdom, you will be firmly in God's kingdom

8:45

that you will follow His commandments

8:48

not because you're doing Him a favor

8:50

because you are doing you a favor.

8:55

You can pledge to join God's kingdom right now

8:57

by doing the five prayers

9:00

because you need it,

9:01

because you need to feed your soul.

9:04

The Quran makes a very important point on showing off.

9:10

Some people may pray

9:12

because they are showing off

9:15

or some people may not pray because of peer pressure.

9:19

They're embarrassed to pray in front of their friends.

9:23

So, what this person is doing is he's cheating himself.

9:26

It's exactly like eating continuously no calorie food for the body.

9:32

If you eat no calorie food exclusively, you cannot live.

9:36

Your body will die.

9:37
 And the same with the soul.
 9:40
 We cannot cheat ourselves by showing off
 9:44
 or by not praying because of peer pressure
 9:48
 or because we are embarrassed from our friends.
 9:52
 You will never be embarrassed, too embarrassed to eat lunch or dinner or breakfast.
 9:58
 So, your body is getting its rights fully
 10:02
 but not the soul, if you are affected by peer pressure or showing off.
 10:10
 So, when I say repent now, I want collectively, all of us to join God's kingdom,
 10:16
 that we are going to pledge to be in God's kingdom for our own good that we're going...
 10:23
 You wanna pledge that you will never tell a lie,
 10:26
 you will never sin
 10:28
 and you mean it,
 10:30
 as of now
 10:31
 that you will be in God's kingdom
 10:32
 you'll carry out the five nourishing meals for your soul
 10:38
 that you will follow the commandments in the Quran
 10:41
 you're gonna fast the month of Ramadan
 10:43
 which comes April 17, by the way
 10:45
 you must be ready as of now
 10:47
 that you'll not backbite anybody
 10:51
 you will not hurt anyone
 10:53
 unless they are fighting in the cause of God which doesn't happen here.
 10:59
 This is a free land.
 11:02
 Simply, that you will follow the commandments
 11:05
 and you make this solemn pledge now.
 11:08
 God says there is a commandment in the Quran that says
 11:10
 ۚيَا أَيُّهَا الَّذِينَ آمَنُوا
 11:12
 "O, you who believe,"
 11:13
 this is directed to those who believe
 11:15
 تَوَنُّوْا إِلَى اللَّهِ
 11:17
 "Repent to God," meaning enter into a covenant with God
 11:23
 تَوْبَةً نَّصُوحًا
 11:24
 means "irrevocable repentance."
 11:26
 Irrevocable, irrevocable, so you mean it
 11:30
 as you repent now and as you pledge now
 11:33

to enter God's kingdom and attain perfect happiness
 11:36
 and God will believe you, will take your word for it. When you make a Covenant,
 11:40
 He will accept the Covenant.
 11:43
 and God says in the Quran
 11:46
 أَوْفُوا بِعَهْدِي أُوفِ بِعَهْدِكُمْ
 11:49
 "You carry out your part of the Covenant, I will carry out my part of the Covenant."
 11:53
 which is this: the Perfect Happiness.
 11:56
 So, we are going now collectively to make a Covenant,
 11:59
 enter into a Covenant with God that we will repent
 12:01
 that as of now, there will be no sin
 12:03
 that you're gonna be a perfect human being.
 12:06
 And then you're gonna keep your part of the Covenant.
 12:10
 Tooboo Ela Allah.
 12:33
 Alhamdu Lillah, Wa Ash-hadu Alla Elaha Ella Allah Wahdahu La Shareeka Lah.
 12:37
 We praise God and we bear witness that there is no other god besides Him.
 12:41
 Congratulations! We probably shook the galaxy
 12:45
 just this group of us
 12:48
 pledging, entering into a Covenant with God
 12:51
 and God accepts you with open arms.
 12:58
 As we recite Al-Fātehah in the prayers,
 13:01
 we say "Bism Allah Arrahman Arraheem."
 13:04
 Arrahman Arraheem, Most Gracious, Most Merciful.
 13:08
 And God's mercy is beyond our imagination.
 13:11
 God is merciful beyond our imagination.
 13:15
 And I feel this a lot with the discovering, discovering the Quran.
 13:23
 For example, you tell the human beings
 13:26
 when we learn that Allah Subhanahu Wa Ta'ala gives the human being 40 years
 13:31
 to make up his or her mind
 13:34
 40 years of research, looking around, studying and then, deciding,
 13:40
 people say "no, what do you mean 40 years? That's too long."
 13:43
 Because people are mean.
 13:46
 They are not as merciful as God.
 13:49
 Many people I tell them "a person who dies at the age of 35
 13:53
 and he didn't pray, he didn't fast, he didn't do anything
 13:58
 is going to Heaven."
 14:00
 They say "no, send him to Hell."

14:04
 "Why does he go to Heaven?" you know
 14:06
 But God is Merciful beyond our wildest imagination.
 14:11
 And God decided that He wants to give us 40 years
 14:14
 to look around and study
 14:17
 and thank God, you know, thinking of myself
 14:19
 and many other, my friends who barely made it, you know
 14:24
 before the 40 years were up.
 14:27
 God is merciful
 14:29
 because we would be in deep trouble if it was shorter than 40 years.
 14:34
 There is a law in Quran that says "Equivalence", the law of QESAS "Equivalence"
 14:40
 is detailed in the Quran. It goes beyond what was dictated in the Torah.
 14:44
 And it says "the male for the male, the female for the female"
 14:47
 the slave for the slave, the free for the free."
 14:51
 And this restricts Capital Punishment
 14:54
 and this is followed by recommendation to substitute compensation for capital punishment
 15:02
 but when I ask the people, even the gentlest and kindest of friends
 15:07
 and you tell them "a male killed a female"
 15:11
 What is the punishment?" They say "kill him."
 15:16
 Why? God says "the male for the male, the female for the female."
 15:18
 So, He's given us... "where do you get the male for the female?"
 15:21
 I say "a female killed a male."
 15:25
 What is the punishment for this murder?" They say "kill her. Kill her."
 15:31
 Why? I mean, you look at the law
 15:33
 but when I discuss it with them and they look at the Quran,
 15:36
 they see that God's mercy is there
 15:39
 and we cannot violate these laws.
 15:42
 We are mean.
 15:44
 God's mercy is beyond our wildest imagination.
 15:48
 This verse "the male for the male, the female for the female" and so on is followed at the end of the verse
 15:56
 (2:178) مِّنْ أَغْتَدَىٰ بَغْدَ ذَٰلِكَ فَلَهُ عَذَابٌ أَلِيمٌ
 15:59
 Anyone who transgresses this law
 16:01
 after this
 16:03
 which indicates this is a new law
 16:05
 يَغْدَ ذَٰلِكَ
 16:06
 after this
 16:08

will suffer a painful retribution.

16:13

So, it is very clear in the verse

16:14

and everyone that we discussed this matter with, they agreed finally with the Quran. They could see God's mercy there

16:20

that the verse leans favorably towards compensation

16:26

rather than capital punishment.

16:27

So, God's mercy "Arrahman Arraheem" is beyond our imagination

16:32

and we must...

16:36

I'm gonna go into another subject now

16:40

and this is "how do you act on behalf of your friends?"

16:45

You have a very dear friend

16:46

and somebody says something unkind about your friend,

16:49

what do you do?

16:51

You just sit and take it, you and your friend?

16:55

Or do you defend your friend?

16:57

If you know

16:58

that your friend is not a cheater, for example

17:01

and somebody tell you that this friend of yours is a cheater,

17:05

you will become upset on behalf of your friend

17:08

and you will defend your friend. You say "no, he's not a cheater."

17:13

So, I come from a background with a lot of garbage that I must get rid of.

17:20

We all do.

17:22

And God teaches us through examples.

17:30

When brother, Dr. Mansour, mentioned in one KHUTBA that

17:33

the thing that we all came from, we all believed this at one time

17:37

that God ordered Abraham to kill his son,

17:40

his only son.

17:43

We learn from our research and looking in the Quran in detail

17:46

that the Quran NEVER says that God ordered Ibrahim to kill his son.

17:51

There is a law in Quran that "God does not command vice."

17:56

إِنَّ اللَّهَ لَا يَأْمُرُ بِالْفَحْشَاءِ (7:28)

17:58

This is a rule.

17:59

And God's mercy

18:02

will... with this... with knowing this about God's mercy, do you think He will tell somebody "go kill your son" your only son?

18:13

You know, I expected many of us

18:16

to go to Dr. Mansour, for example, and say

18:19

we studied, we did research, we looked in the Quran and we discovered that God NEVER told Ibrahim to kill his son.

18:28
You must stand up for your friend. God wants solid friends
18:31
who will not take any statement that contradicts God's qualities.
18:41
If somebody accuses you of being a cheat
18:43
and you are in a position of power, you are forming a cabinet, for example, a government
18:48
and you are a president of some company, chairman of the board or something
18:52
and you know that this person, even though he or she loves you,
18:55
thinks wrongly that you are a cheat.
18:58
How will you act towards this person?
19:03
If you think of God that He commanded somebody to kill his son
19:08
an act of vicious, merciless, a command,
19:15
How will He feel about you on the Day of Judgement, if you feel that way?
19:18
I discussed this matter with Dr. Mansour
19:21
and we looked in the Quran and he said:
19:23
"that's right." He read the verses.
19:24
and it said
19:26
إِنِّي أَرَىٰ فِي الْمَنَامِ أَنِّي أَذْبَحُكَ (37:102)
19:28
I see in a dream that I am slaughtering you.
19:30
And he said "that's right."
19:32
God didn't order Ibrahim to kill his son.
19:34
It doesn't say that in the Quran anywhere.
19:36
يَتْلُوهُمْ (37:104) قَدْ صَدَّقْتَ الرُّؤْيَا (37:105)
19:41
You believed your dream.
19:43
if you look at it,
19:44
but you see what they put in our heads as we were growing up, all of us
19:47
and it comes from some distortions in the Bible
19:50
that God ordered Ibrahim to "take your son and kill him."
19:53
And it affected all of us
19:56
but we have to look in the Quran
19:58
and derive our information from the Quran.
20:01
And had God ordered Ibrahim to kill his son,
20:04
He will tell us
20:06
but He wouldn't
20:08
because God put the rule. He said He does not command فحشا , vice,
20:13
gross matters.
20:16
God will not be afraid to tell us
20:18

if He did do that.
 20:20
 I will accept it if He did do that.
 20:23
 But He didn't. God's mercy is beyond our wildest dreams.
 20:27
 Ibrahim thought that he received the command from God in that dream
 20:32
 but you see the crime is magnified because they tell us that the dream of the prophet is truth
 20:38
 which makes them not human.
 20:41
 I mean, it turns into idolization of the prophets.
 20:45
 So, it's a gross crime from many many angles.
 20:56
 There's a few other things that I need to say about this.
 20:59
 Let me see if I remember.
 21:22
 I know there's something that I'm forgetting to say.
 21:28
 So, maybe, I'll remember it in the prayer.
 21:34
 It has to do with Ibrahim thinking
 21:37
 that he was killing his son.
 21:42
 So he went ahead,
 21:44
 God intervened.
 21:46
 It's exactly the other way around.
 21:48
 I mean, it's contrary to what most people believe.
 21:51
 God only intervened to save Ismail,
 21:54
 Ibrahim's son.
 21:59
 So, not only He did not order Ibrahim to kill his son, He intervened to save the son
 22:04
 because Ibrahim was a sincere believer.
 22:07
 He was in God's kingdom.
 22:08
 And God will not not let him.
 22:10
 God will not allow you to fall in sin.
 22:14
 God will not allow you to do something wrong when you're in His kingdom.
 22:17
 He will not allow you. He will not let you do it.
 22:21
 And you made the pledge, you are in God's kingdom.

24 Friday Sermon by dr Rashad Khalifa Seek GOD's Kingship Over You and Everything Else Follows 1988

Alhamdu Lillah, Wa Ash-hadu Alla Elaha Ella Allah Wahdahu La Shareeka Lah.
 0:07
 Praise be to God
 0:08
 and we bear witness that there is only one God.
 0:13
 I want to start my Khutba,
 0:15
 this time with the beautiful quotation from the Bible,
 0:19
 from Luke 12: 29-31.

0:24
It is, of course, a Quranic idea. The author is One and the same.
0:30
And this is expressed beautifully in English.
0:34
Starting at 29, it says "it is not for you to be in search of what you are to eat or drink.
0:41
Stop worrying.
0:43
The unbelievers of this world are always running after these things.
0:49
God knows that you need such things.
0:54
Seek out, instead, His kingship over you.
0:58
and the rest will follow, in turn."
1:01
So all you need to do is seek God's kingship over you and everything else you need, follows,
1:08
the food, the provisions, the clothing, the health.
1:12
Everything else follows.
1:14
So, what does this mean? What does seeking God's kingship mean?
1:20
It means that you give priority to God's commandments.
1:24
You give priority to the 5 contact prayers.
1:28
You wake up in the morning and you say "my duty today is to do the 5 contact prayers."
1:38
That you... the Friday prayer is a commandment from God. There is a commandment in Sura 60, verse 9
1:43
that you must go to the Friday prayer. You give this priority.
1:47
You arrange your life and your job and your circumstances
1:52
so you will do the 5 daily prayers and the Friday prayer.
1:58
And of course, you people here are the least people who need this.
2:01
Some people out there are the ones who need this kind of reminder.
2:07
You put on the list of your priorities, the Quranic study.
2:11
There's a Quranic study, every Friday night, going on here, where we study the word of God
2:18
and you have to work your circumstances.
2:21
You cannot be somewhere in Tucson and there's a Quranic study going on somewhere in the mosque.
2:27
Otherwise, you don't really care.
2:29
You're not seeking God's kingship over you,
2:32
to be sitting within, say 50 miles,
2:36
and there's a Quranic study going on.
2:42
What does it mean to seek God's kingship over you and everything else follows, the provisions, the health, the happiness?
2:48
You give priority to the activities of the believers.
2:54
You remember the verse in Sura 18 that say "force yourself to be with those who worship God Alone."
3:02
Because it takes some effort and some work. It's not easy.
3:06
But this is what is good for you, as you will see in the second KHUTBAH, Insha Allah.
3:12
It means that
3:14

you make a point of giving out the ZAKAT charity
3:17
as commanded by God.
3:18
This is how you seek God's kingship over you
3:21
one day in the year, whatever, January first, December 31st, the first day of Ramadan, any day you set for yourself,
3:31
one day in the year, you calculate exactly how much you are worth
3:34
and you give out 2.5% to people that you know personally,
3:39
people who need your charity.
3:43
And the Quran gives the exact order:
3:46
your parents, first. If they don't need it, then your relatives
3:49
your cousins, your brothers, sisters.
3:52
I mean your genetic brothers and sisters.
3:56
And if all your relatives are rich, they don't need it, then you go to the orphans,
4:01
children who have no support
4:03
one of the parents is missing somehow
4:07
and after that, the traveling stranger.
4:11
Somebody stranded from Mexico or Nicaragua or whatever and passes by your house
4:17
or you know personally
4:18
people who immigrated from Thailand or Vietnam and they're living in a house in a terrible conditions and you know them.
4:25
Then, they come next.
4:27
So, there is a specific sequence or order to give out this charity.
4:36
You give priority to Hajj eventually
4:39
not now. I wouldn't advise you to do it now.
4:41
The Quran makes it conditional.
4:44
Someday all of us, IN SHAA ALLAH, will go. We're gonna charter a plane when we'll go, all of us. We'll make Hajj.
4:50
And we'll go in as will be great victory because the land over there will be worshipping God alone.
4:56
This is God's promise to us and therefore, I can talk about it in this way.
5:00
So eventually, you'll have to observe Hajj.
5:06
You seek God's kingship over you,
5:09
and everything else follows by observing the prohibitions that God gave you.
5:14
You don't drink. You don't gamble. You don't eat pork.
5:20
You don't lie. You don't cheat.
5:24
You don't violate your promises.
5:27
You must be a person of your word.
5:29
You must be an example of a person of God,
5:33
one, a member in God's kingdom.
5:43
Anything else in your life must take place number two.

5:48
You give priority to these activities, the commands of God
5:52
and this way you seek God's kingship over you
5:55
and this way you attain all other goals:
5:58
money, health, wealth, happiness, etc., etc.
6:04
Tooboo Ela Allah. Repent.
6:17
Alhamdu Lillah, Wa Ash-hadu Alla Elaha Ella Allah Wahdahu La Shareeka Lah.
6:25
By studying the Quran continuously, we have discovered the secret of happiness.
6:32
The secret of happiness is a developed, nourished and grown soul,
6:36
the real you, the real person, not this body.
6:40
This is the secret of happiness.
6:42
And we came to this conclusion by studying people who obtained everything.
6:48
They got everything that the human beings go after:
6:51
money, fame, good looks, sports cars, whatever.
6:57
And I have used the example of Eddie Murphy,
7:00
a movie star when he was interviewed by Barbara Walters.
7:05
He's got millions of dollars. He's got palaces in California, exclusive places and in New Jersey,
7:12
the five luxurious cars,
7:15
all the girls, all the money, all the fame that he wants.
7:21
And he told Barbara Walters he was not happy.
7:23
So, what is the secret of happiness?
7:25
Aren't these the things that people are going after
7:28
money and fame and wealth and whatever?
7:31
And he is not happy.
7:33
So, the secret of happiness is that he must develop his soul.
7:38
And the soul can be developed by worshiping God alone.
7:45
Now, this KHUTBA, I want to talk about God's name: AL-RAZAQ, the provider.
7:51
The provider.
7:53
God is the exclusive provider.
7:57
He is the One who decides how much money you're going to make, or you made from birth to death.
8:06
And I want to shed a whole new light on this word "the provider"
8:10
because God provides for the body and for the soul.
8:16
Therefore, the contact prayers that you do five times a day are a provision from God.
8:24
The duties that I talked about in the first KHUTBA, they're actually a gift from God.
8:29
And we see this... there's a lot of evidence in the Quran for this.
8:38
For example, in Sura 7, verse 43,
8:41

we see that the people in Heaven
 8:43
 pray and say "Alhamdu Lillah", "Praise be to God" who guided us to this.
 8:48
 We could not, we could never be guided without God's blessing and guiding us."
 8:52
 In other words, it was not their doing.
 8:55
 It is God's blessing and God's gift to them that guided them.
 9:00
 In sura 10, verse 9,
 9:03
 we see a very clear principle
 9:06
 saying that God guides the people because of their faith or their belief.
 9:12
 In other words, when you decide to worship God alone, then God provides for your soul
 9:18
 and God provides the five contact prayers for your soul
 9:22
 and the fasting of the month of Ramadan for your soul.
 9:26
 I mean, you think that you're gonna do the five contact prayers,
 9:29
 but really it's a gift from God. You cannot do it without God's guidance.
 9:34
 Sura 9 verse 10. Sura 10, verse 9, excuse me.
 9:38
 In sura 49, verse 17,
 9:42
 another clear evidence for this.
 9:44
 The verse says "they act as if they are doing you a favor by embracing Islam or by practicing Islam
 9:53
 instead, God is the one who blessed them by guiding them to Islam."
 10:01
 So, when we worship God alone, when we do the five daily prayers, when we fast the month of Ramadan,
 10:07
 when we join the Quranic study and even the picnics of the Muslim group,
 10:12
 we are not doing God a favor.
 10:16
 It is God's provisions to our souls.
 10:22
 In sura 14, verse 40, we see Abraham praying
 10:26
 and what is he saying?
 10:27
 He says, "please God make me an observer of the Contact Prayers"
 10:32
 because it's a gift from God.
 10:35
 "and also my children" he said.
 10:38
 He said "please God make me an observer of the Contact Prayers."
 10:44
 رَبِّ اجْعَلْنِي مُقِيمَ الصَّلَاةِ (14:40)
 10:47
 in Arabic.
 10:48
 He didn't say, "please, God give me a million dollars."
 10:52
 So, observing the five Contact Prayers is a privilege, and a gift and a blessing.
 10:58
 It is not a hardship. It is not work.
 11:00
 You get up for the morning prayer, before sunrise,
 11:04
 not because you want to do this, or because you're doing such a great effort, you know, for God's sake.
 11:11
 It's because God blessed you and enabled you

11:15
to get up before sunrise to feed your soul,
11:18
this very important meal, the morning prayer.
11:24
Abraham said " رَبِّ اجْعَلْنِي مُقِيمَ الصَّلَاةِ " My Lord, make me one who observes the Contact Prayers,
11:30
and also my children.
11:37
People in Satan's kingdom are provided with sins.
11:46
We see this in Sura 24, verse 21.
11:49
When Satan collects people in his kingdom,
11:53
he pushes them to go to the bar and lie and cheat,
11:57
and drink and do not feed your soul.
12:03
This is what sins are: not feeding the soul, depriving the soul, poverty of the soul.
12:10
On the other hand, in Sura 7, verse 28,
12:14
we see the principle that God does not advocate vice.
12:24
So, it's the exact opposite of what Satan does.
12:27
And this is why I want to remind you again that God never ordered Abraham to slaughter his son
12:33
because this is a terrible vice, of course.
12:36
And this is why we never, never find it in the Quran that Abraham ordered Abraham to sacrifice his son.
12:43
That wouldn't make sense and it does not... this law that "God does not advocate sins" would be violated.
13:04
People in Satan's kingdom, because of their idol worship,
13:09
they may observe the five Contact Prayers, but they do not make contact.
13:14
They dial the wrong number.
13:17
They dial Satan's number because they mention other names with God.
13:21
And this is a trick of Satan.
13:23
And this is why we find in the Quran such statements as "woe to those who observe the Salat prayers."
13:29
وَيْلٌ لِلْمُصَلِّينَ (107:4)
13:33
Because, now they are really doing an effort,
13:36
but it's all in vain. As we see in Sura 39, it is all in vain.
13:41
Once there is a name mentioned with God in the prayer, it violates the commandment in Sura 72, verse 18.
13:47
Once another name is mentioned, the whole effort is in vain.
13:54
And we are blessed here.
13:56
See, we're gonna stand up, we're gonna pray to God,
13:58
we're gonna establish contact with God,
14:03
and there will be no name.
14:05
From the moment we say, "Allahu Akbar" to open the prayer to the end,
14:08
there'll be no name but the name of God.
14:12
And you can see the difference.
14:17

Aqem Al-Salat.

the equivalent of a hundred million dollars in your account.
16:27
Congratulations.

25 - Friday Sermon by Dr. Rashad Khalifa - Marriage - Importance of Love - Muhammad's Example

Alhamdu Lillah, praise be to God
0:06
Wa Ash-hadu Alla Elaha Ella Allah Wahdahu La Shareeka Lah.
0:10
And I bear witness there's no god except the One God.
0:13
Our topic today is a very important one, marriage in Islam. God has prescribed for us laws
0:24
to govern the important aspects of our lives and He left a lot of freedom for many other aspects in our lives.
0:33
And we're told that these laws are recommendations or Commandments. They are Commandments because we should do them.
0:46
And they are recommendations because we have the freedom not to do them
0:50
as long as we are ready to pay the price. God tells us in SURAH 10 verse 62
0:58
that if you follow these Commandments, you are guaranteed happiness, perfect happiness in this world
1:06
and tells us in SURAH 21 verse 142 that if you disregard these Commandments, you are guaranteed a miserable life.
1:17
So, it is very important for us to know these laws with regard to every aspect of
1:26
our lives and today I'm going to share with you the commandments dealing with marriage
1:35
There are two requirements that must be fulfilled.
1:40
for two people to get married and these are number one is love and we see this in SURAH 4 verse 24.
1:52
The Arabic is "فَمَا اسْتَمْتَعْتُمْ بِهِ مِنْهُنَّ"
1:56
the ones that you like, you get married to. So, love must exist between the two and this cannot happen without
2:11
good acquaintance with the person. You must know the person. You must know his or her habits
2:18
and you must know his or her temper. You must know his or her principles. You just... you must know
2:27
the person. You cannot love a person without knowing that person. So, this calls for a period
2:34
of acquaintance, getting to know each other and then based on that knowledge, you either
2:41
love the person or not and God tells you if you love the person then you get married.
2:50
God says that if this is the person intended for you, God will
2:53
put love in your hearts and this is SURAH 30 verse 21.
3:00
So, the first requirement before ever becoming intimate is love. You must know each other
3:09
very well and you must be in love with each other and God will help you along
3:15
if this is the right person. You don't love the person, that is not the right person for you.
3:23
The second requirement is dowry for the wife and we understand throughout the Quran
3:31

we understand from the Quran that the purpose of the dowry is security for the woman because in
3:39 many cases, you are taking a girl from her parents' house. Then, she becomes dependent on the husband.
3:47 This is the majority of wives in the whole world and you can't just throw her out after a year or two
3:58 because she's not the same person and after what the Quran calls a formidable oath
4:05 has been made between the two of you. So, the purpose of the dowry is security.
4:13 And this can be obtained by writing a contract and pay the dowry in advance or saying that if
4:24 divorce takes place or if the marriage breaks up, then the wife must be given a certain amount
4:31 of money that will provide her security. The Quran is very careful in this respect even where divorce...
4:39 In SURAH 2 verse 240 and 241, we see that divorcees must be given
4:47 alimony or some kind of security. In SURAH 65, the first verse says, very carefully, that you can't
4:56 kick the wife out of your house and this provides security for the wife. This is the divorced wife.
5:04 And you cannot even fabricate conditions and situations to make them so miserable that
5:10 they leave on their own. You must guarantee their house... their housing and staying with their children
5:18 and she will not be the man's wife. He cannot touch her, but she has to stay in that house.
5:24 She must be provided with security of housing, provisions and this is throughout the Quran. So, this is the
5:31 purpose of the dowry. These are the two conditions. There must be a sufficient period of time for the
5:39 two people to know each other and to satisfy the first requirement of love before becoming intimate.
5:57 What is being done now, what my parents did and what is happening in most Muslim
6:02 countries is they actually do the official marriage.
6:10 And then the now-husband and wife, they don't touch each other. They do not become intimate but this
6:16 marriage, official marriage gives them a chance to be together alone, hold hands, go places, know each
6:23 other and then after months or a year or years, the marriage is consummated. And of course during
6:30 this period, if it doesn't work out, they break up. They find somebody else and she is still a virgin
6:38 and she still hasn't lost her chances. This is how my parents got married. This is how my sister got married.
6:46 How long were you... you did the marriage first and then how long was it before consummating the marriage?
6:56 You didn't...
7:00 You did it the American way.
7:05 There were two years between كُتِبَ الكتاب which is the...
7:09 Oh, it was an engagement and then two years and then you did official marriage and the consummation
7:16 at the same time. So, you had two years of knowing each other. If I was in Egypt, you wouldn't do it....
7:22 I'm just kidding.
7:28 Oh, you didn't go outside.
7:31 You were all... you had a chaperone... OK.
7:36 I'm satisfied now.
7:44 But this is really the way it is done of most marriages in the Muslim world.
7:51 Worship in Islam and all practices in Islam and all the commandments that God gave us are based on

7:59
self-discipline and self-control. I mean, Ramadan is coming up where you're gonna tell you body
8:05
"you're not gonna eat or drink until sunset." This is self....it takes self-discipline and self-control.
8:14
Where self-discipline and self-control is lost,
8:20
the human being becomes worse than animals and this is... there's a specific reference in the
8:25
Quran for this in SURAH 7 verse 179. God calls some people "they are like animals even worse."
8:35
I mean, what is happening now in this country and in Europe is that
8:42
people meet. They don't even know each other. "Let's hop in bed." This is worse than animals.
8:48
Because you can take a female cat or a female dog or a female horse that is not
8:57
in heat, not in that proper period and put her in the midst of two hundred best-looking horny
9:06
males. Can they touch her? They will not touch her. They cannot touch her because it is not the proper
9:15
time, but with human beings the way it is done now, here, it's a lot worse than animals. They're
9:21
worse than animals and this is... these are the laws that God lays down for our happiness.
9:28
cause
9:31
especially for the woman, I mean, she cheapens herself when she acts this way.
9:38
for the man, too. So, the two requirements... I'm repeating again are that long period of time where people
9:49
must know each other and must fall in love before becoming intimate. So, remember love before intimacy
9:56
and the dowry that is to provide security for the wife.
10:03
Now, the Quran leaves room for forfeiting the dowry if the wife is independently wealthy
10:13
and being married or unmarried or divorced or widowed or whatever will not affect her security.
10:18
Then, she can forfeit the dowry. But we have examples of a man who's holding
10:25
a fantastic position and he's wealthy and his ex-wife is on welfare. That's not fair.
10:33
This is what the Quran... this is what God's laws are supposed to avoid a situation like that.
10:40
So, it is to the best
10:44
for the benefit of the girl to demand her right when the situation calls for it.
10:55
Tooboo Ela Allah. Repent.
11:21
Alhamdu Lillah. Praise be to God.
11:24
Wa Ash-hadu Alla Elaha Ella Allah Wahdahu La Shareeka Lah.
11:28
And we bear witness that there is no god except the One God.
11:32
The marriage principles are laid down in the Quran must be known to all of us because we come across these
11:37
once in a while and these are the principles God prescribed for us to guarantee perfect happiness.
11:47
And from my experience from life experiences and the things I have seen
11:52
even if it made... if it may look difficult at the beginning
11:59
it is for the best of the couple to follow these prescriptions.
12:07
Quite often you read in the newspapers that "if I don't acquiesce to him, he's gonna
12:12
leave me and find somebody else." Well, let him. He doesn't love you anymore. I mean, he
12:16

doesn't love you. That love is not there. But if the man loves the woman, respects her,
12:23
then he will... she will guarantee a husband who loves her. If you follow these steps,
12:33
you'll be guaranteed happiness from, from the physical and spiritual aspect.
12:46
Self-discipline and self-control
12:51
is easy when the soul is grown and developed and is stronger than the body which is what the
12:57
practices of religion are all about, developing your soul, so it'll be stronger than your body.
13:04
What you hear about Jimmy Swaggart and Jim Baker shows that they are people
13:11
whose body is stronger than their soul. I hear they were preaching against adultery and
13:18
preaching the word of God supposedly, and then they are dealing with, with prostitutes.
13:27
And
13:29
for the Muslim, it's.... the Quran provides the solutions to all these
13:35
problems that we find in this country, alcohol, drugs
13:43
marital problems. Solutions to all the problems are found in the Quran.
13:51
We are... we are becoming increasingly aware of the problems of alcohol and the disasters that
13:56
come from it. I mean, wherever you look, there are victims of alcoholism but... and please forgive me
14:04
if I appear to be bragging or anything but I have to share with you what the Quran does, what
14:09
the Islam does to us. It's that alcohol is just not in my mind at all. It's out of the question and
14:16
this is the most effective way of dealing with alcohol or drugs. There's just no way I will be
14:26
tempted or even think about trying whiskey or gin or champagne or whatever those things are.
14:33
It's out of the question. It's just not in my thinking at all, the same with drugs. And there
14:39
was a demonstration on the TV recently with what's... what's his name that had Muslims on the TV
14:46
talking about drugs? Geraldo Rivera. They had a bunch of Muslims and they were talking about drugs and
14:53
they set the example for Harlem or something where drugs are going rampant
14:58
and there's just drugs are not on their mind. Nothing is gonna tempt them to use drugs.
15:09
It's the solution to all problems.
15:13
And there is a mechanism for it and the mechanism is that the
15:16
soul is stronger than the body because of all the prayer and the fasting and
15:21
the things that God has prescribed for us and constitute gifts from God to us.
15:30
And again, I will ask you to forgive me if I appear to be bragging but again I wanna
15:34
share with you what Islam does. Now, in my line of work, working with the United Nations, traveling
15:41
to different countries in the world and making a lot of money. The UN pays the highest salaries
15:47
in the world when I was... when I'm with them on assignment and I have been to conferences
15:55
the American Chemical Society conferences, the American Association for the Advancement of
15:59
science. And in those conferences, it seems like, all the prostitutes of the whole town converge on
16:07
the hotels where these conferences are. And I have looked down and I see scientists that I respect
16:18
going up or down in the elevator with prostitutes and I lose respect for them and what

16:26
appears to be bragging is that I can make a statement here in a KHUTBAH in front of you in
16:31
a prayer that I never never fell for prostitution... for prostitutes or get to the prostitutes and
16:39
because it is not in my mind and Jimmy Swaggart cannot make that statement or Jim Bakker cannot
16:45
make that statement because they lacked... they are using the wrong techniques because of their idolization of
16:54
Jesus, they... they nullify their work. If they do anything that may cause growth or development of their soul,
17:01
it is nullified as the Quran says because of their idolatry. Therefore, their body is stronger than their
17:07
souls but like with alcohols and drugs, it's just not in my mind. Now, to make that statement absolutely
17:15
truth, in saying, dealt with prostitutes, there was one instance where a friend of mine, a colleague
17:21
we went into his room in the hotel in one of the American Chemical Society meetings to get
17:27
a book or something and there was a prostitute passing out in the hall and he called her in
17:31
his room and I guess I was bragging or showing off or something and he bargained with her and I was
17:37
there witnessing this. This is the extent of my dealing with prostitute. So, Islam and the Quran
17:47
just solves all these problems and lays down the laws and regulations
17:56
and and not only teaches self-discipline, but it
18:00
instills it on you and becomes easy. I mean, there's... it's no problem at all.
18:13
God says that you can speak up of God's blessings on you and this is the category where
18:20
we can share with each other these things because some people may think it is incredible.
18:28
When you go in those conferences and if you make a statement like this to the people, it's an incredible statement.
18:37
And I just... I just couldn't think of a man who under those circumstances did not, for after the
18:44
things I have seen, under those circumstances did not fall for prostitutes. The temptation is great.
18:51
But for the Muslim, there is no temptation at all. It is zero, doesn't mean a thing.
19:00
Aqem Al-Salat.
19:01
Allahu Akbar Allahu Akbar La Elaha Ella Allah
19:06
When you talk about marriage in Islam, you cannot avoid mentioning polygamy and polygamy is
19:14
allowed... throughout history, it was allowed.
19:19
In the Bible, it is allowed without limits. In the Quran, it is allowed with many many
19:23
conditions and strings attached to it. But all I can.... I need to say is that the Prophet Muhammad
19:30
provided the perfect example as far as polygamy is concerned. Muhammad was married to one wife for
19:37
25 years until she died. He had only one wife and he raised all his children with that one wife.
19:47
And after she died, he married women who had many children, who had no support and no home. They were
19:56
widows of his friends who died in battle or died naturally and they needed the support. They were
20:02
old women. There were only two political marriages to the daughter of Abu Bakr and
20:09
the daughter Omar, his best friends who insisted, you know, "please, you have to marry my daughter."
20:18
Because this is a tribal, it's a tribal tradition in tribal societies for tribes
20:23
different tribes to marry and be connected in marriages important and this is probably
20:28

why after the prophet's death, Abu Bakr was elected to be the Khalifa after the
20:33 prophet and Omar followed Abu Bakr. And these are the two men whose daughters were
20:38 married to their prophet. But the message, the loud message here is that Muhammad spent his life
20:45 all his young life with one wife and raised his children and then after that polygamy came into
20:51 the picture and there were many special conditions surrounding that. The other subject that I need to talk
20:59 about is divorce and I just have to tell you outright that God hates divorce, throughout the Quran.
21:10 Almost invariably children are victimized. Even the husband and
21:15 the wife are victims in divorce and this is why it is imperative that we follow
21:21 these regulations that God prescribed for us and avoid divorce at any cost.
21:28 There's a verse in Quran that says "if you want to substitute a wife in place of another wife..."
21:36 No, this is not the verse.... but there's a verse that says "if you dislike your present
21:41 wife, you may dislike something wherein God has put a lot of good."
21:49 The verse that I was mentioning before is "if you want to substitute one wife in place of another"
21:54 which again actually emphasizes monogamy... it says "do not take anything from the first wife back."
22:03 And this also brings in the matter of security for the wife because women have been abused
22:09 throughout history and God knows that and God says in SURAH 28 verse 5 that he is
22:15 for the oppressed and for the rights of the weak and marriage is a tremendous contract, is a
22:21 formidable contract. This is what the Quran calls it. To take a wife out of her house and take her into your
22:31 house supposedly to live forever. You know, there's tremendous responsibilities associated with that.
22:41 So, we pray to God to guide us on His path and to gift... give us the gift of following His...

We praise God and we bear witness that there is no god except the one God.

And we declare that all devotion and all worship is directed to God Alone.

2:46
 SURA 39 (39:3) لَا إِلَهَ إِلَّا اللَّهُ الْخَالِص devotion and worship belong to God Alone.

2:56
 Some of you probably saw this bombshell where

3:07
 there is an announcement that I have been commissioned a messenger of God.

3:20
 And this is probably the most difficult announcement that I have ever come up with.

3:29
 But something that I have known since 1980 and you can see that

3:37
 I was... I was coward. I was afraid to come up with it. I dreaded the time when I may have to announce it

3:50
 because there is a general tendency to resent anybody saying...

3:58
 I'm gonna use our own statement now but this is what the resentment is for.

4:03
 Generally, people resent somebody saying: "I'm better than you" or what appear to be saying "I am better than you."

4:14
 And even the Quran condemns such statement in SURA 4, God says "note those who exalt themselves. God is the One who exalts whomever He wills without the least injustice."

4:36
 The resentment in this case results from two things: ignorance and idol worship.

4:47
 Now, ignorance because the Quran teaches us that a messenger of God is not necessarily better than anyone else in the congregation.

5:01
 In SURA 18 from verse 60 to verse 82, we see that God picked out one of the biggest messengers, Moses.

5:13
 One that God said "I made you for Myself" (20:41) وَأَصْطَفَيْنَاكَ لِنُقِيمِيَ

5:19
 I made you for Me. and in another place, God said (20:39) لِنُضْئِعَ عَلَى عَيْنِي

5:25
 I had you made before My eyes. And we see in those verses that God sent Moses to one of Our servants

5:38
 whom We bestowed, We gave mercy and knowledge and Moses proved to be a lousy student.

5:44
 So, this teaches us that a messenger of God is not necessarily better than anyone else in the congregation.

5:56
 I can think of quite a few of you whom I consider better than me.

6:03
 I see people and when I was their age, I used to go to the saints and ask for help.

6:11
 I was an idol worshipper when I was that age. Yet, here they are a lot younger. They have 20-year head start

6:21
 compared to me and... so... This is the first thing. Ignorance causes this resentment.

6:28
 Idol worship because the people idolize the messenger of God and they made him next to God.

6:36
 They made him a god besides God. So, when you mention the word "messenger of God," they are awed, you know.

6:43
 But the truth is a messenger of God is, the Quran repeats, a human being like you

6:50
 or in colloquial, local terms a flopster like the rest of us whom we can kid around and who can be silly.

7:02
 What is more the Quran teaches that a messenger of God... if a person is picked out as a messenger of God, a commissioned messenger of God....there are kinds of messengers

7:14
 does not even guarantee Heaven. And we see this in SURA 39 verse 65

7:23
 where it says "it has been revealed to you and to those before you that if you ever fall in idolatry,

7:31
 all your work will be nullified and you will be among the losers."

7:37
 So, a messenger of God does not even guarantee Heaven and this is why we see in SURA 21 verse 28

7:45
 that the messengers are worried about their own neck. We're all familiar with these verses

7:52
 but the people who have either ignorance or idolatry in them, they resent an announcement like this.

8:09
 If a person is picked as a messenger of God, it's a difficult job... it's a very difficult job

8:16

There is no material gain out of it. I certainly will not allow a single penny to enter my personal pocket because of this or because of religious reasons.

8:29

I'm not a professional religionist and I will not allow a penny to enter my pocket from religious activities

8:37

because then the motive changes and the Quran repeats, you know "stay with those who do not ask you for wages."

8:50

The Quran says in SURA 49... Quran gives us the criteria of who is better than whom.

8:57

and it say in Arabic (49:13) إِنَّ أَكْرَمَكُمْ عِنْدَ اللَّهِ أَتْقَاهُ The best among you is the most righteous.

9:03

It didn't say the best among you is the messenger of God or the richest or the tallest or the most knowledgeable.

9:13

The best among you is the most righteous. So, all these things will teach us that messenger of God is no big deal.

9:23

It is just a vehicle that God uses to communicate with us... a center of information.

9:34

And with it goes a difficult job, a very difficult job... the abuse, the slandering, the threats.

9:47

And God says....I believe it's in 42:51. Yes. In SURA 42, verse 51, God says that "no human being can communicate with God except through 3 ways.

10:06

Inspiration. Or from behind a barrier. Or through a messenger that through whom God spreads certain information.

10:17

So, people will know that this is reliable information. That this is from God. We are people who follow the Quran, the whole Quran and nothing but the Quran.

10:26

Therefore, anybody, and this means anybody, who brings any information must conform to the Quran

10:33

the whole Quran, nothing but the Quran. And if anyone, and underline anyone, comes up with any information that is not confirmed by the Quran, we tell him "forget it!"

10:46

We don't accept it. So, the criterion is preaching, confirming existing scripture, the Quran and nothing else.

11:00

No innovations. Now, we come to the question: Is it possible that we receive a messenger from God?

11:12

If you ask an average Muhammadan, they will tell you Muhammad was the last messenger. But they have no basis for saying this.

11:23

And the Quran gives us a precedent since Joseph, the prophet Joseph.

11:29

When he died the Quran teaches us that the people said "OK. That was the last messenger. We'll never see another messenger after that."

11:35

So, this is a human tendency. And the Muhammadans claim that Muhammad was the last messenger. He's not.

11:43

In SURA 33, verse 40, God says "Muhammad was not the father of any of your men. He was a messenger of God and the final prophet."

11:55

So, here we see a distinction between prophet and messenger. A prophet is one who delivers a scripture like Jesus, Moses, Muhammad. They're prophets.

12:07

And we see this clearly in SURA 3 verse 81 where God says that He made a covenant with the prophets that He will give them the scripture and wisdom."

12:17

So, here we have the definition of a prophet. Then, God made a covenant with us - with you and me, with every human being... said then "when a messenger comes to you

12:29

confirming existing scripture." So, there's the definition of a messenger.

12:35

"When a messenger comes to you confirming existing scripture, you shall believe in him and support him."

12:43

God said "do you take... make a pledge with me?" And we all said "yes, we do." And God said "you have thus born witness and I bear witness along with you."

12:58

Therefore, it is possible that there will be messengers after Muhammad. In SURA 7 verse 35

13:05

It says "O children of Adam, when messengers come to you reciting My revelations to you, those of you who believe are the successful ones."

13:20

This is SURA 7 verse 35. Obviously, it is for people after the Quran.

13:25

As a matter of fact, the verse begins by saying "O children of Adam." So, as long as there are children of Adam on this Earth, this verse is valid.

13:37

If messengers are coming after Muhammad, what do they look like? What will a messenger look like, after Muhammad?

13:45

Just think of any human being. What are his characteristics? You think he'll be walking on water or walk in the air or coming with 3 angels on each side or something.

13:54

He's just one of us, just a human being.

14:01

Some people came. I wanna answer the question why. Why send a messenger?

14:10

Why does God send a messenger? Why not just go the same way that people have been going?

14:17

Reading the Quran. Following the Quran.

14:23

Well, one important element is the test because of this covenant that we made with God.

14:30

What are we going to do if a messenger of God comes and says "Worship God Alone and forget about the human beings?"

14:39

Muhammad, Jesus, Moses or anybody. You must devote yourself totally to God Alone.

14:48

One who will preach the Quran, God's proven scripture. What are you going to do? Are we gonna scoff at him? Are we gonna help him morally? Are we gonna rally around him?

15:02

What are we going to do? A test. Another test is the test of ego.

15:09

The Quran repeats they said "Oh, he just wants to be better than we are. He wants to be a leader."

15:16

And this is emphasized throughout the Quran.

15:22

You're gonna find some verses in here and there's... in SURA 17 verse 94, it says "what prevented many people from believing was that they said "you mean, God sent a human being to be a messenger."

15:41

and in SURA 64 verses 5 and 6, I'm gonna read them for you.

15:52

Did you not receive the news of those who disbelieved in the past? They suffered the consequences of their decision and deserved painful retribution. Why?

16:04

This is because their messengers went to them with clear revelations but they said "human beings to guide us?"

16:13

Thus, they disbelieved and turned away. God does not need them.

16:20

So, it's a tremendous test to accept somebody who says he is a messenger of God. There's an ego here. We're required to kill the ego.

16:34

And this applies to all of us. One of the requirements in the Quran.

16:40

The egotistic person will resent anything like this.

16:45

And will be deprived and God says, in the Quran, "I will divert from my revelations those who are arrogant."

16:53

(7:146) سَأُصْرِفُ عَنْ هَآئِهِمُ الَّذِيْنَ يُكَذِّبُوْنَ فِي الْاَرْضِ "I will sent them away." God will actively send them away. So, this is something that we have to kill, the ego.

17:08

So, many people came and said they were messengers of God. Bahá'u'lláh was one of them. And Ghulam Ahmad of Pakistan said he was a messenger of God.

17:19

and Joseph Smith, the Mormon leader said he was a messenger of God.

17:25

But God made it mandatory that a messenger comes with proof, certain signs.

17:36

Moses brought all kinds of proofs. Saleh brought proofs. Jesus came with signs that he is authorized and sent by God.

17:48

And on that difficult day, a few days ago, when... I'm going to give you all details. I'm not gonna be mysterious and say I was told this and that

18:02

and leave it hanging. I'm going to give you... everything's is gonna be wide open in front of you and I will tell you exactly what happened

18:10

in time if the time doesn't help us now. But this reminds me of the fellow... you've heard this... I told some of you at least this before... but this fellow was the most curious person in town

18:27

and he would just ask questions. He'd always ask questions. And one time, he was sitting in the bar or the pub or whatever the place is

18:36

and then comes in this man with one leg and he sits next to him and this very curious person... of course, he's curious, you know... "how did you lose your leg?"

18:48
He wants to know. And the man with one leg knows that he is the most curious person in town. He just died to know how did this fellow lose his leg.

19:01
So, he told... the man with the one leg told him, the curious fellow.... told the curious fellow. "I will tell you on one condition."

19:11
And he said "anything... anything... just tell me... anything.... just tell me what to do and I will do it. Just tell me... anything."

19:17
He said "you ask only one question and you don't ask any questions after that." He said "OK. OK. I do it. Just tell me. How did you lose your leg?"

19:25
He said "it was bitten." So, I'm sure that curious guy died on the spot because he couldn't ask any more questions.

19:35
So, I'm not going to be mysterious with you. I'm gonna tell you everything, gradually. But on that difficult day, when I realized that I must announce. I mean, I chickened out for 8 years, now.

19:56
I needed some signs and I was shown. I had some signs but I was shown a couple of additional signs on that day.

20:07
Now, I will share with you some of the signs that will assure all of us.

20:15
Now, the first sign, of course, is the mathematical miracle of the Quran which is very simple and people should have seen it in the last 1400 years.

20:27
Literally, thousands of scholars looked in the Quran and counted all its words, its letters, its vowels - those signs, little signs. They counted everything in the Quran.

20:38
But they never came up with the mathematical composition of the Quran.

20:44
BISMI ALLAH, 19 letters. The number of SURAs 19 times 6. The first revelation, 19 words. The last revelation, 19 words.

20:51
All these are simple things that they should have discovered. But God reserved this for a person called Rashad, as we see in the index of the Quran

21:02
page 320 which was printed one year before I was born, that index. It's a comprehensive index.

21:13
And on page 320, you'll see that the root word RASHADA is mentioned 19 times. And this is something that came to us from Turkey.

21:23
I didn't discover it. It was discovered and sent to us, as most of you know.

21:29
Now, the additional things... Now, I want to give you a piece of new information that shows you the awesome miracle of the Quran that was reserved until this time.

21:45
The word God, ALLAH, in the Quran is mentioned 2698 time. When you take every verse in the Quran, where you see the word ALLAH.... every verse... from verse 1 of SURA 1

21:57
and you add the numbers of verses, the total is 118123. These are the numbers of verses wherever you see the word God in here.

22:12
It's awesome. Because not a single verse was transplanted from its place. Not a single verse was changed.

22:23
And not a single word, ALLAH, was dropped out or added in the Quran. So, this is an awesome miracle that did not... was reserved for... God knew in advance

22:37
who is going to be fortunate enough or blessed with releasing this information.

22:45
Now, if you add all the verses in the SURAHs of the 19 RASHADA and the last name... the last name is also involved there. This is very embarrassing to me but I have to tell you this and share it with you.

22:59
But Khalifa is mentioned in the Quran twice. When you add all the SURAHs and verses, the total is 1369 which is 19 times 77.

23:14
You add all the SURAHs and verses where RASHADA and Khalifa are mentioned. Well, I was not content with that. I'm greedy.

23:21
I wanted specific Rashad Khalifa. Specific, Rashad Khalifa. And sure enough, you look up the.... Rashad is mentioned twice... Rashad. This is the way my name is written down.

23:32
It is mentioned in Quran twice in SURA 40 verse 29 and verse 38. The Khalifa... they are twice in the Quran. One of them is a bad one and the other's a good one.

23:46
The bad Khalifa is Satan which is in SURA 2. And the human Khalifa which is specifically mentioned in Quran in reference to David, the prophet,

23:58

one of our favorite prophets, the Psalms. And this Khalifa is mentioned in SURA 38 verse 26. So, if you add the SURAHs and verses connect it with Rashad and the human Khalifa

24:13

the total is 171. 19 times 9. So, in other words, you look at every angle and you can see that the signs are connected with the mathematical code.

24:31

Now, I will explain to you in detail at another time when we have time. But, this is the religion of IBRAHIM, as we see in the last verse of SURA 22.

24:44

(22:78) مِلَّةَ أَبِيكُمْ إِبْرَاهِيمَ This is the religion of your father Abraham. He is the one who named you Muslims before.

24:50

Muhammad brought the Quran. And yours truly was blessed with bringing the proof.

24:57

I was blessed with the proof of the Quran and the secrets of the Quran.

25:03

When you add Ibrahim, Muhammad and Rashad... The gematrical values of the 3 names.... This is all detailed here... The total is 855 which is 19 times 45.

25:15

And 45 happens to be my age in 1980 when I was told for the first time...And again I will.... I promise you I'll explain to you how, but 45 in 1980, which is also

25:30

1400... exactly, 14 centuries after Muhammad who was told, in the Quran, that he will have 7 pairs. 14 centuries, among other meanings of the 7 pairs.

25:43

So, it is very tight evidence and it suits the age of... computer age.

25:53

Now, the secrets of the Quran....the Quran... I mentioned this because it explains to you the revolutionary ideas that I used to come up with once in a while

26:05

or the crazy ideas if you wanna call them that, like the end of the world. It is very clear in the Quran but it was not shown before. It's a secret in the Quran.

26:16

God knew when the end of the world will be and he put it in his final message. And we are the generation that was destined to know, to get this secret out of the Quran.

26:29

And like the idea that drove a lot of people crazy that anybody who dies before the age of 40 goes to Heaven. "How can they go to Heaven when they are 35 and they are awful bad?"

26:41

"Put them in Hell." We are mean. Human beings are mean. There was so much opposition to that idea, it's not even funny.

26:50

And it is not coincidental that Latifah hands... Carole... Caroline hands Otis a button, this button here.

27:01

Today, was it? Did she give it to you today? ...yesterday? Yesterday. And he comes to me 5 minutes before, before the KHUTBAH to give me this button

27:11

which says "everything up to the age of 40 is just rehearsal." I thought she made the button, but she didn't.

27:23

Where did you get it? Carole: I don't know.

27:29

I was in a shop but I don't know what shop I was in. The messenger: Oh... Oh...but you picked it up in a shop. You were shopping and you saw that.

27:36

Carole: Yeah, and I saw it and I said Alhamdulillah. The messenger: OK. So, it's not coincidence, you know. God spreads his information in many different ways, ways and means.

27:48

Another... other secrets of the Quran that we've been enjoying in the last 10 years... Oh, the ZAKAT. Now, this is new.

27:58

And I'm gonna tell you about it now and you will have to do it, as of now, immediately. The ZAKAT... The ZAKAT is being done wrong all over the Muslim world.

28:10

Now, here is the true ZAKAT from the Quran in SURA 6 verse 141. Yes, it is 6:141.

28:26

You remember... You're gonna remember this verse because it says when you harvest the crop, give the ZAKAT on the day of harvest.

28:34

You remember that? On the day of harvest. OK. Well, we are not farmers. We don't harvest wheat and barley or anything. But we harvest paychecks every two weeks or so.

28:49

That's our harvest. The day you receive your harvest, the day you receive your paycheck, you take out 2.5% and you give it to people that you know who are in need.

29:05

It makes so much sense... I mean, how come we didn't think of this, you know, all the time? That makes so much sense and it is from the Quran and it will correct

29:16

the method of ZAKAT that is dominant in the Muslim world because the people that we know who need help, they need it now.

29:24

They are hungry now. They can't wait for a year like they told us in the past.

29:33

You get 10 dollars, you take out 25 cent. 2.5%. Is it 25 cent? Yeah.

29:42

Now, if it is impractical to give 25 cents to somebody you know, you can keep it and accumulate it for a couple of weeks or a month

29:50

until it is a reasonable amount, then you give it that month. Don't go beyond a month.

29:56

You give it to the somebody you know personally, according to the system of the Quran, your parents first, your relatives next, the orphans and the people who need it in that order.

30:07

Any money, any net income that you get, you take 2.5% because God says. Chances are this 2.5% that you have in your check are illegitimate, illicit.

30:20

Get rid of it. It is called purifying your money. You spend most of your time sleeping on the job or something. Yet, you get...

30:33

Yet you get the check, you know. So, God says this is the way, you purify your income. Take it out, immediately. Also, who's gonna keep track of one year?

30:53

So, God has his ways. This is one of the secrets of the Quran. We're gonna... We reap these benefits. Among the secrets of Quran that we've enjoyed in the last 10 years are the correct method of

31:05

the SALAT prayer.

31:12

I wanna... We're running out of time. So, TUBU ILLA ALLAH, repent.

31:26

ALHAMDULLILAH WA ASHHADU AN LA ILLAHA WAHDAHU LA SHARIKA LAH We devote our worship and our devotion to God Alone. No human beings.

31:36

There's a SURA in Quran that says when God's victory comes and support and you see the people entering God's religion, God's true religion

31:48

in throngs, in great numbers. And this is what is happening now. This SURA is 19 words, consists of 19 words and the first verse is 19 letters.

31:59

This is our SURA. And this is... and so far, this bombshell... the reaction has been positive.

32:06

People have been calling me from everywhere in the world saying "I'm calling to say I believe."

32:13

And when that difficult day came and I was a coward and I was saying this thing here may cause my own children to disown me. They may say "you're a crazy man. Get out of here."

32:30

And as I will tell you in detail. I cried. I fell prostrate. I was fired. I was fired. And I cried. I fell prostrate and I begged.

32:40

And when in my heart, I became solid and I said "I will do it at any cost even if I lose my own children, my own friends, I will do it."

32:50

Then, I was restored, as I will give the details. I give you. But the reason I'm mentioning this SURA, the victory, is that... I went

33:04

I mean, there's unanimous, unanimous positive reaction to it from everybody... people here who read it and I went... I was very careful talking to Beth

33:16

as we were... 3 o'clock in the morning and I told her "guess what, Beth?" I have to this and this and this and I was very careful diplomatic.

33:27

And then she's casually drinking her tea and she says "I knew that all along, dad. I support all the way."

2:35

But that night, in April, I opened Quran as usual and read the place where usually... the top right. And it said "you're going to hell."

2:53

So, I closed it again and said this is Satan telling me, trying to fighting me with giving me bad time. So, I said

3:00

And please God protect me from Satan. I seek refuge in You. And I said it in many different ways

3:10

and then I opened it again at random as usual and it said "you're fired. You will not do the job. You're a chicken. You're not suitable. And you are going to hell."

3:22

So, I sought refuge in God again from Satan, from the devil in stronger terms for a longer time. I made SUJUD

3:31

Then, I opened the Quran again at random. It said "you're fired. You're going to hell. You're doomed. You're not gonna do it. We'll find somebody else to do the job."

3:40

So, I closed it again. It is now defying statistics or coincidence.

3:46

So, I turned to God very hard and I said "please, God, let me know if this is coincidence or why is it giving me these bad ideas."

3:56

So, I opened and I kept doing this and repeatedly every time, I opened. It said "you're fired. You're no good. You're going to hell. You're doomed."

4:06

And it was getting worse. Until I reached the conviction, a real conviction in my heart, that I'm doomed. I'm going to hell.

4:15

Then, I started to cry. And I started to repent. And I opened it and as if the Quran had nothing in it except "you're fired. You're going to hell."

4:30

You're not gonna do the work. We'll substitute somebody in your place." So, I said this Quran is rigged. Maybe, because I'm using it a lot.

4:38

So, I got this one which was brand new. And I opened it. It said "you're fired. You're going to hell. You cannot do the job. You're a chicken. We'll substitute somebody in your place."

4:50

So, I closed it again and I opened another place. The Quran had nothing in it except... I got the English Quran and I opened it.

4:59

I looked in a neutral spot. "You're fired. You'll not do the job. You're going to hell." So, it is no longer coincidence.

5:08

I got this big book, this big Quran, here. And I opened it this way. I mean, I did all kinds of crazy things to let the Quran open at random and go like this.

5:20

And then I opened the Quran and looked in it. And it say "you're going to hell. You're doomed. You cannot do the job. You're fired."

5:29

So, with this, I got... Oh, I got a letter opener and I stacked the Qurans

5:37

like this and I point. I closed my eyes and pointed the letter opener

5:42

and inserted it in one of these pages and opened it and it tell me the same thing. There was nothing in the Quran that morning except "you're fired. You cannot do the job. Get out of here. You're doomed. I don't need you anymore. I substitute somebody else in your place."

6:01

So, I cried and I made SUJUD. And I repented. I sought refuge from Satan and it kept giving me the same message.

6:11

So, I became convinced that God is speaking to me through the Quran and I became convinced that I'm no good,

6:19

that I'm fired, that I'm going to hell. And I cried as hard as I never did in my life.

6:25

I really became convinced that I'm finished and I'm doomed and there is no salvation inside.

6:32

I... my SUJUD became longer, my crying was harder. There was nobody in the mosque.

6:40

And then one time, I opened the Quran and it said "We forgive you." Oh, I reached the conviction with all this crying that...

6:51
now, the message was very clear that I am not coming out with an announcement that I am God's messenger.

7:05
I have known it since 1980 and I ignored messages that say... there are verses in Quran that say "say O, people I'm God's messenger to all of you."

7:17
And I ignored those. They were very loud and very clear and I ignored them. Obviously, the timing was not right, then. I mean, now in retrospect

7:24
I was supposed to have ignored those messages. They got loud and repeated and louder and clearer and I kept ignoring them until this happened. So, there is something that led to this.

7:38
I mean, I opened the Quran says "say O, people I'm God's messenger for all of you."

7:44
And I became convinced that this is no longer the case. Then, with these repetitions, I reached the decision... in my repentance,

7:57
I said "please God accept my repentance. Take me back even if I lose my own children, my friends, if I lose everybody, I will, I will do anything. I will go out and I will make the announcement."

8:11
And I really had that conviction cause I said chances are my children will tell me "get out of here. You're a crazy man. What are you talking about?"

8:21
So, it became my neck. And there are verses in Quran where it says "the person disowns his own parents, his own children. The children disown their parents" and so on. It became a reality for me.

8:34
And here I am doomed, going to hell. And all things are hinging on courage. God doesn't want a coward to work for him.

8:48
It became very obvious. So, when I really reached the conviction that I will do it at any expense, I got this message that said "you're forgiven. We'll accept your repentance."

9:00
And my crying of sadness became crying of joy.

9:06
And I still didn't believe that remark. Maybe, it's a fluke. So, I did the same thing and there was nothing in the Quran except "We accept your repentance. You're forgiven. Go now and do the job. God is Forgiver, Merciful."

9:21
And I did it in the same way. I mean, this defied all statistic and all coincidence.

9:31
The background to this...

9:36
This is why I'm not... people who around me know that I'm not making any bones about it. I'm not being humble about it and I could not take any chances.

9:45
And I believe if it happens again, I will be really fired and be sent to Hell. And I'm not gonna do it. So, this is why I have been bold.

9:56
And it really has nothing to do with humbleness or modesty. If we understand a few basic things in the Quran. One thing is that a messenger is no big deal.

10:08
That it is a big deal only if we idolize the messengers. We get the picture in our mind...

10:16
...and this is the typical response with all the believers. The people who were averse from the beginning, they just continued to be averse or maybe a little bit worse.

10:30
Except their harsh attacks had a little bit of reverence in, as if in the background, it said "what if he is?"

10:41
I get this telephone calls on the machine and in the past, they used to call me bad names and all that but

10:50
now they say... they read Quran. And they read the verses that says "fear God."

10:58
And then they add "come back to Islam." This kind of thing. But you can sense the kind of respect they have at the back of their mind.

11:07
This is the difference that happened with the opponents. And this is because of their reverence for RASOOL ALLAH. This word, they made it so big and put it next to God.

11:20
And this is why it's a big deal for them. But if we understand the Quran, we'll find out that it is not a big deal

11:26
because the Quran teaches us that a messenger is not necessarily better than anyone in the world, in the generation, or anyone around him.

11:39
We have this lesson in SURA 18 where Moses, one of the big messengers of God met someone who's described as one of God's servants. "one of Our servants" God says.

11:55
And this one of God's servants began teaching Moses a few lessons and Moses turned out to be a lousy student.

12:05
 So, this is teaching us that the messenger, the biggest ones, are not any better than anyone around them. I mean, not necessarily better than people around them.

12:17
 The Quran teaches that say "I'm a human being like you." And this is about the prophet Muhammad, for example.

12:27
 The Quran teaches that the criterion for closeness to God is righteousness, not being a messenger or not being the most knowledgeable or the richest or the tallest

12:40
 or anything else. Righteousness. Nothing else. So, and anyone can be more righteous than the messenger or anybody else.

12:51
 There is also a verse in SURA 39 that says that "being a messenger of God does not even guarantee Heaven." It is no guarantee.

12:59
 It says. I'm quoting the Quran, now. It says "that's what We revealed to you and to those before you that if you ever fall in idol worship, in idolatry, all your work will be nullified and you'll be a loser."

13:17
 So, if people understand this, they won't make a big deal out of being a messenger of God. I called Atef and I told him about this.

13:28
 and he... logically, he started to discuss the wisdom of making an announcement like this and why is it necessary.

13:38
 And I found myself him and I talking as if I sat down and decided to make an announcement. Then, it dawned on me it's not really my decision. It was not my decision at all.

13:49
 Obviously, God wants this announcement to be made for reasons that only God knows.

13:55
 And we can speculate on. The first verse in SURA 67 says "God created death and life to test us, to test the people."

14:09
 Cause before that there was no death. Before the human race came here, there was no death. This is why God says He created death.

14:18
 mentioned death before life. The whole purpose is a test. And it turns out and we know now that the road to God is full of traps on the side for people to fall off. They drop out.

14:33
 And when you hear somebody say "I'm a messenger of God." Some people drop out. And it's part of the sifting process. There are so many traps along the road.

14:46
 And the matter is decided, really, from the very beginning. I mean, a person who has doubts, who is not a sincere believer will fall off at one of these traps along the road.

14:57
 The firm believer will keep going, no matter what happens. Because what we're saying is "worship God Alone." We are saying "destroy all idols."

15:10
 And we are fanatically against building idols.

15:21
 This reminds me of... I don't know if it's a good joke. I mean, there's nothing bad about the language but...

15:31
 The Muhammadans insist on putting Muhammad's name next to God and say لا إله إلا الله محمد رسول الله

15:36
 In the AZAN they say لا إله إلا الله محمد رسول الله So, I'm tempted to ask them how do you like if we follow your method and, you know, we say

15:44
 لا إله إلا الله That's it. There is no god except the One God. لا إله إلا الله

15:50
 This is like the Quran says. Verse 18 of SURA 3, God says شَهِدَ اللَّهُ God bears witness

15:56
 لا إله إلا الله, لا إله إلا هو that there is no god except He. In other words, God's SHAHADA is

16:03
 لا إله إلا الله and then the verse goes on and says وَالْمَلَكُوتُ also the angels

16:08
 وَأُولُوا الْعِلْمِ and those who possess knowledge. This is their SHAHADA. لا إله إلا الله So, it's very clear in the Quran that the SHAHADA is

16:15
 لا إله إلا الله They insist because of idolatry to add the Muhammad's name which violates a good number of commandments in the Quran when you put Muhammad's name next to God

16:25
 in the so-called SHAHADA, their SHAHADA, they are violating a good number of commandments. So, the temptation is I wanna tell them "how do you like if we say"

16:36
 لا إله إلا الله if we follow your method. Now that they picked up this opposition to me... the Muhammadans... and to the point that I'm under death sentence in a good number of countries, now.

16:50
 Saudi Arabia is one of them. Iran is another one. So, now that they hate me so much, how would they like to say

16:57
 لا إله إلا الله if I give them enough proof and so on. Maybe, this will induce them to just say

17:03
لا إله إلا الله So, we are saying لا إله إلا الله

17:08
We are, very strongly, starchly against building any idol. And

17:18
I don't know how to convince them that I don't want any glory or money or fame. And for 8 years, I was really... I was a coward.

17:29
I mean, what did this announcement bring to me? Except, I thought "trouble."

17:35
but it did not, actually. Their action has been positive so far. But I would rather go and worship God Alone by myself somewhere very quietly and just eke out and living out of this world and go into the eternal life.

17:50
This is what I'd rather do, personally. This is what I wanted to do for 8 years. This is why I was fired in that night.

18:01
So, I'm sure I forgot quite a few points that I wanted to tell you about.

18:10
The background of this is that I have known since 1980

18:18
that I'm God's messenger in the sense that... not in a general sense... in the sense that Abraham was the original messenger of Islam.

18:28
He brought all the practices. The NAMAZ, the fasting, the ZAKAT Charity, pilgrimage

18:38
and of course the first commandment. لا إله إلا الله and Muhammad brought the Quran. And that I am the third of a triangle that I brought the proof... the proof of authenticity of the religion.

18:54
The first publication... we just found out this yesterday... The first time the miracle of Quran was published

19:01
was in January 1973. 1973, I was 38 years old and I didn't know anything except that I found this mathematical miracle in the Quran.

19:14
And the 7th... the January 73 publication in the most popular magazine in the middle east: آخر الساعة

19:26
had to do with the proportion of the initials. Qaf, for example, the letter Q in chapter 50. That chapter had the highest proportion of the letter Q.

19:36
SURA Saad had the highest proportion of the letter Saad. SURA NuN had the highest proportion of SURA NuN. Alef Lam Meemm and so on.

19:44
Every SURA had the highest proportion of its initials except SURA Ya Seen had the least... the exact opposite. And that was the whole article.

19:53
And it didn't have the computer printouts of the whole Quran which I had written in the computer. And then in 1973, in November

20:04
which is exactly my 38th birthday was the first report on the number 19. That was back in 73.

20:12
And... but I didn't know that I am God's messenger in that sense until 1980.

20:22
1980 was correspondent to the year 1400, the Islamic year. And

20:32
it seems like a new era began at that time, 1400. If you look here

20:40
in SURA 47.... SURA 47, verse 38. 38 was very prominent. We were looking at this magazine yesterday

20:51
We became curious... We were looking at it on the other page.

20:57
They had reports in the magazine 38 years ago. They had a big number 38.

21:05
47, the last verse which is 38.

21:12
I wrote in bold letters that if you turn away, God will substitute other people in your place and they will not be like you.

21:22
This is one of the verses, by the way, about substituting somebody in your place. But then I wrote this in bold... in big letters and I put a footnote saying here.... at the end of the footnote it says "Islam is being reestablished in the English-speaking world

21:38
after being restored to its pristine purity. So, I wrote here, back in 1980, 1400 that God had forsaken the Arabs. The Arabs meaning in the Arabian peninsula.

21:59
There's a certain geographical area where the Arabs are... that defines who the Arabs are.

22:06
And now, it's been 8 years and we didn't have... we don't have a single Arab. Of the hundred million Arabs in the world, we don't have a single Arab who could see and appreciate the miracle of Quran

22:18
even though it's very clear.

22:23

An Arab, from the Arabian peninsula, not from North Africa and not from Egypt.

22:32

Sometimes they call me and say "you're an Arab, aren't you?" I say "No, Thank God. I'm Egyptian."

22:37

But it's quite a phenomenon that we don't have a single Arab.

22:44

Last Friday, we had like 60 people in the mosque, not a single Arab.

22:50

We had the conference in San Francisco, couple of hundred people, not a single Arab except those who came to harass us.

22:58

So, there's.... something happened in 1980 after 7 pairs of centuries.

23:07

SURA 13... 15 excuse me. SURA 15, verse 87. God is telling Muhammad "I'm giving you 7 pairs."

23:18

Among the other meanings, I'm convinced that it means 7 pairs of centuries because of what I've seen and the fact that this verse is at the end of SURA entitled Muhammad.

23:34

So, the background is that I have known since 1980 and I have been evading the responsibility of... Actually, we'll just go, just go along and worship God and spread the message.

23:45

And what we've been doing was... God has been gracious to us in that He's been showing us what the correct Islam is.

23:57

The Muhammadans, throughout the world, the hundred million of them are doing SALAT wrong, they mention

24:04

ابراهيم آل محمد. ابراهيم آل محمد in the SALAT. We know now for sure that this is wrong.

24:10

The Quran came out of Muhammad's mouth. It says "you should never mention any other name during the SALAT

24:19

besides other than the name of God. That the SALAT must be devoted to God Alone and no one else." So, they did the SALAT wrong. They did the ZAKAT wrong.

24:29

They are doing it wrong. And now we have it corrected.

24:34

If we look in SURA 6, verse 141, it tells you "when you harvest the fruits or the crops, give the charity, the ZAKAT charity of that crop on the day of harvest."

24:50

Now, the ZAKAT as being practiced now in the Muhammadan world is once a year on your savings, above a certain amount.

25:04

But the Quran says "give the ZAKAT on the day of harvest." Now, since we are not farmers, we do not harvest fruits or crops, or anything like that. We harvest paychecks. So, when we get the paycheck, we're supposed to take out

25:20

what came to us from IBRAHIM in very clear words ربع العشر a quarter of ten. One quarter of one ten. This comes to 2.5 percent.

25:30

So, you take 2.5% of your net income when you get it, the day you get it. So, I would... I would go...

25:40

I would say it makes sense that we wait like a month to know what our month seems, we get our paychecks, our monthly income. It's a very common thing.

25:49

And you, at the end of the month, figure out how much was your net income, 2.5 percent and you give it to people you personally know are in need.

25:58

You know them, personally, and you know that they need the assistance. And we are given specific order in the Quran as to who we give the money to.

26:08

You give it first to your parents. If they don't need it, you give it to relatives, cousins, and uncles and aunts and so on. People you know, personally

26:18

who are related to you and they need the money or the help. After that, the orphans. You find children who lost one or both parents

26:30

for some reason, divorce or abandonment or death and you give them this money. And the fourth category is any poor persons and the last category are traveling aliens

26:42

people who sneak into this country from Mexico. They have no jobs. They are hungry. So, you help them. We have a specific order in the Quran.

26:51

This is the correct ZAKAT. So, what we did was, we cleaned out the SALAT. We returned it to its pristine purity.

26:59

We corrected the ZAKAT. We corrected the fasting. Even the fasting was wrong.

27:08

What SURA? What was wrong with it? Well, they sleep all day and stay up all night and use fasting as an excuse to be nasty and...

27:20

You know that. They call names and then say "I am fasting." So, "excuse me, I'm fasting."
27:30

And the timing of the moon is always wrong. I think they're fasting today, still in Egypt. And even though, tonight you can see the moon.
27:38

I'd love to go out, but the computer tells you what time the moon is born, what time it rises, what time it sets
27:48

and whether the clouds or not, whether inside or not, whether you are sighted or blind, you can know exactly what the moon is doing.
27:56

But they follow the Hadith that says "you fast when you see it, and you break your fast when you don't see it."
28:01

and if you cannot see it, you complete the month of Ramadan, 30 days." So, we fasted 29 days this month.
28:07

Audience: "Is it 29 days all the time?" The messenger: No, sometimes 29, sometimes 30.
28:15

The Hajj was wrong and we already wrote in the Muslim Perspective to correct... Hajj is wrong by going to Medina.
28:25

It turns out that, as it is now done, going to Medina is the most important part of Hajj even though it is not part of Hajj at all in the Quran.
28:33

Going to Medina is flagrant idol worship. They go to the prophet's tomb or to Fatimah's tomb and they pray and implore.
28:44

"Nothing." I'm quoting the Quran because on the Day of Judgement say "we were worshipping nothing."
28:53

So, this is what we've been doing and I was happy that way. So, we were just spreading the message. It has gone all over the world, literally.
29:02

This... this translation and the small book, the brown book, Quran, Hadith and Islam and the message of returning Islam to its pristine purity as far as all the practices are concerned.
29:14

These places, I never heard of, little islands in the Indian ocean. There's an island called "l'union"? Union Island in English? But it's a French...
"l'union."
29:30

Ihsan lived in Mauritius. That's another country I never heard of, Mauritius. And we have people there in Mauritius.
29:38

l'union? l'union? Close? Are they close to Mauritius?
29:44

It must be. I went to New Zealand, Australia. I went everywhere and I was happy that way. The message is being spread all over the world.
29:54

Exactly what needs to be done. So, why the announcement? That was my justification.
30:02

And that's why each one of you asked me "why the announcement? Why is it necessary?"
30:09

So, my opinion was the same as yours. But then, I was...
30:16

Pardon?
30:29

Right. OK. What do they have?
30:36

Obviously, God has a reason. The Quran says "you don't ask God why. We ask."
30:47

God is not to be asked about anything He does but we are to be asked about anything we do.
30:54

(21:23) لَا يُسْأَلُ عَمَّا يَفْعَلُ وَهُمْ يُسْأَلُونَ
31:01

So, obviously God has a purpose and very good reasons. Now, the Quran says that Muhammad is not the last messenger.
31:13

And this could be one the very important reasons. So, if Muhammad is not the last messenger... The statement in the Quran in 33:40 says
31:26

وَلَكِنَّ رَسُولَ اللَّهِ هَؤُلَاءِ أَبَاءُ أَحَدٍ مِّن رِّجَالِكُمُ Muhammad was not the father of any of your men
31:33

a messenger of God وَخَاتَمَ النَّبِيِّينَ and the final prophet This expression of
31:39

وَلَكِنَّ رَسُولَ اللَّهِ is not necessary at all for the meaning. If the prophet include the messenger or vice versa.
31:46

You can have a perfect sentence saying هَؤُلَاءِ أَبَاءُ أَحَدٍ مِّن رِّجَالِكُمُ وَلَكِنَّ خَاتَمَ النَّبِيِّينَ
31:54

Muhammad was not the father of any of your men but he was the final prophet.
32:00

But of course every letter in the Quran is delivered as we know now, very well. It says
32:05

وَلَكِنَّ رَسُولَ اللَّهِ a messenger of God وَخَاتَمَ النَّبِيِّينَ and the final prophet
32:11

So, there is a verse 35 in SURA 7 says "O, children of Adam when messengers come to you narrating My revelations to you, those of you who believe and lead a righteous life are the successful ones."

32:28

Obviously, this is a verse for the people after Muhammad because it's in the Quran. And like Dr. Mansour said "for as long as there are children of Adam on Earth, this verse is valid."

32:38

Because it says "O, children of Adam"

32:46

In Arabic يٰٓبَنِي آدَمَ إِنَّمَا يَأْتِيَنَّكُمْ رُسُلٌ مِّنكُمْ يَقُصُّونَ عَلَيْكُمْ ءَايَاتِي ۖ (7:35) فَمَن أَتَىٰ وَأَصْلَحَ فَلَا خَوْفٌ عَلَيْهِمْ وَلَا هُمْ يَحْزَنُونَ

32:55

35, SURA 7. So, I mean, what is this verse directed to? Not the people before Muhammad because they've never seen the Quran.

33:08

For the people who read the Quran.

33:14

The Quran gives us all sorts of example of the human tendency or aversion to the idea of having a messenger of God.

33:26

It seems to be a test of ego, a test of ego, you know. This guy is gonna sit here and say "I'm messenger of God." So, he's gonna steal the show. And

33:35

he's gonna get all the attention. And it may be one of the tests, you know, for dropping out. This is something I don't wanna contribute to that. But it's not up to me.

33:49

So, the Quran illustrates this by using Joseph. Joseph... this is verse... I believe it's verse 34 in SURA 40.

34:03

SURA 40, it says "Joseph had come to you with clear revelations, but you doubted his message. Then, when he died you said he was the last messenger."

34:15

Now, look who God picks out. Joseph. Who came after Joseph? The big ones. What are the big ones? David, Solomon, Jesus, Moses, Muhammad.

34:28

All these came after Joseph even though the people said "he's the last messenger. Nobody else will come after that." So, they have been saying the same thing about Muhammad

34:38

that Mohammad is the last messenger. The world population today is a thousand times what it was at the time of Muhammad. And you've seen how much advancement the human being achieved.

34:58

This is an enlightened generation of humans who are very advanced, computers, and sciences, and technology and video tapes. And it just makes sense that God wants to send a messenger to this generation.

35:20

And I can't make any bones about it. I can't. I'm chickened the other way around now. I was a chicken in being afraid to announce and now I'm a chicken not to... I'm a chicken to hold back.

35:31

Cause I'm afraid if I'm fired again, there will be no restoration.

35:38

So, this verse about Joseph tells us that it's a human tendency. And now the question to turn the table around... the question is why are they averse to this idea?

35:49

So, if Muhammad was not the last messenger and somebody is gonna come after Muhammad, messengers after Muhammad. What do they look like?

35:57

What are their qualifications? What will they say?

36:05

So, if someone comes along and says "worship God Alone.

36:13

Uphold the word of God Alone, not the words of men.

36:18

Clean out all the practices of worship. Destroy all idols. Remove all innovations."

36:29

What's wrong with that? I mean, it makes sense that God's messenger will do that, will say that.

36:39

Why will I oppose or object to someone who says that?

36:58

We'll get along just fine. With any one of us.

37:06

This is really the same message from Adam until now. It's one and the same message.

37:13

So, I along with you would ask that question, you know. And I put it in the Perspective. They should tell us why shouldn't I be a messenger of God?

37:24

I've given them enough proof. I've had lots of, there's a lot of evidence in that.

37:31

And it is mathematical. It is physical, tangible.

37:36

So, I want them to come up with evidence opposing that that I should not be.

37:44

There's one thing that came out. The first thing that came out I'm thinking of some Muslim organization in Oklahoma

37:52

and they issued the new magazine. The first issue. I think it was just for that and there was an article in it. said that "my name is not Rashad Khalifa."

28 Friday Sermon by dr Rashad Khalifa Natural Instinct Who is the Real You How to Find Perfect Happi

We praise God and we bear witness that there is only one God.

0:08

The one true God who created all of us.

0:14

We've been fortunate to receive a message from God

0:23

that is proven with tangible evidence, physical evidence for the first time in history.

0:29

Something that the world is going to recognize, maybe it will take the world 20 years or 50 years.

0:37

But we are fortunate to be the first pioneers who see this evidence and realize what God is telling us.

0:48

There is a definite message from God to all of us, giving us the most vital information that we need.

0:56

And I will try to draw a picture of the whole thing in this KHUTBAH

1:01

to summarize for all of us the things that we've been witnessing for the last few years,

1:07

and also for our guests to catch up with this... a summary of the whole thing.

1:14

God created us and He did not leave us without support.

1:19

He didn't just leave us in the wild without direction or guidance.

1:23

He did quite a few things to help us attain our objective

1:31

which is one of the things that most people don't know.

1:36

People in the street, they don't know what our objective is.

1:38

So, God sent messages and messengers and told us exactly the things that we need.

1:49

The first thing that God did was

1:52

that He gathered all of us, all the human beings

1:57

who came to this earth and will come to this earth

2:00

and that was before creation of the Heavens and the Earth,

2:04

and He had us witness, bear witness that He alone is our Lord,

2:08

that we'll worship God alone.

2:13

God called all the people, said, "do you bear witness that I am your Lord?"

2:17

And we said "yes."

2:18

So, this constitutes natural instinct in each one of us.

2:23

So, each one of us comes to this world, we are born with a natural instinct to worship God alone,

2:28

and not to worship or idolize anybody else.

2:32

We are born... born with the knowledge and recognition that God is the One who created us,

2:39

that He's the One who provides for us.

2:41
He decides exactly how many dollars we're going to get.
2:45
And God is the One who terminates our life when the specific time comes.
2:51
And God is the One who will resurrect us
2:53
and God is the One who will put us in Heaven or Hell depending on our work.
2:57
Therefore, we must owe our allegiance to God alone
3:01
and not to any creature.
3:03
So, this is one of the important things that God did for us.
3:08
So, what does the average human being need out there in the street? The average person?
3:16
The most vital information that first and foremost is "who are you?"
3:20
God tells us in this mathematically coded message who we are.
3:25
Ask the average person out there "who are you?"
3:28
And they will look in the mirror.
3:30
Which is wrong.
3:33
Because they think this is us.
3:38
We come to realize now that each one of us consists of two entities,
3:44
distinct entities: a body and a soul.
3:47
And then the soul is the real person,
3:50
that the body is not the person.
3:52
The body is a garment that we are wearing.
3:55
So, that's who we are.
3:57
How many people out there know this?
3:59
They have to read God's message with the tangible physical evidence and realize who we are.
4:06
Actually this is an easy matter.
4:08
You can logically prove it to anyone.
4:11
They realize this body is not us.
4:14
They realize there's a difference between a living person and a dead person.
4:18
The dead person that is not moving, still, does not have a person in it.
4:25
It's just a body, a garment.
4:27
Something is gone.
4:29
And this leads to some very important facts.
4:36
One fact is, I gave my body breakfast, lunch and dinner yesterday.
4:41
What did I give myself?
4:43
And this makes us realize that the real person is probably starving.
4:50
The real person needs breakfast, lunch and dinner.
4:54
And this is provided in the message that God sent to us.
5:00

So, this is the first, one of the first items. Who we are? And now we know.

5:07

The second point that the average person doesn't know out there is "Why are we here?"

5:15

"What is the whole idea?"

5:17

Are we here to go to school and study hard and take tests?

5:21

And put up with parents and teachers and colleagues,

5:26

And then get out and do some work,

5:29

work hard from 8:00 to 5:00, go home, watch the TV and then,

5:33

go to sleep, get up in the morning, go to work

5:38

back from work, watch the TV,

5:40

sleep, get up in the morning, go to work... is this what...I mean

5:44

Is this what we are here for?

5:46

What is the whole idea? Why are we here?

5:49

And we know the answer from God's message

5:54

that we are here to prepare for the real life

5:58

eternal life.

5:59

We know that everyone of us is gonna leave here.

6:03

We are here temporarily.

6:04

Let us say for a 100 years

6:06

just to be optimistic or pessimistic, anyway you wanna look at it.

6:13

If we are here for 100 years, we know that we're gonna go on to something else.

6:17

What is this something else?

6:19

God tells us what it is, specifically.

6:22

And what it looks like.

6:24

And how to prepare for it.

6:32

What do we need is another question.

6:35

What do we really need?

6:38

The average person out there is taking care of his or her body.

6:42

Whatever the body wants.

6:44

The body wants a nice home.

6:45

The body wants nice clothes.

6:47

The body wants food.

6:49

And they are doing that.

6:52

But they are totally neglecting the real person.

6:57

So, what do we need?

6:58

God told us exactly what we need.

7:03

God didn't just leave us without support.

7:06
He gave us the natural instinct to worship Him. He told us who we are,
7:09
why we are here,
7:10
where we're going,
7:12
what does it look on the other side,
7:14
and most importantly, how to attain perfect happiness here and forever.
7:21
This is the most illusive goal for the average person out there: Perfect Happiness.
7:29
As it turns out, there are lots of problems in this world.
7:32
At home, husbands and wives are fighting.
7:36
At work, colleagues are fighting with each other. They're jealous of each other. They don't like each other.
7:44
Nations at war.
7:46
There are lots of problems out there.
7:49
So, what everyone out there is looking for, this most illusive objective:
7:55
how can we attain perfect happiness here and forever?
7:59
And God tells us exactly how in this message.
8:03
We now know the secret of happiness because God told us what it is.
8:09
TOOBOO ILLA ALLAH, Repent.
8:24
ALHAMDU LILLA AH WA ASHHADU AN LA ILAHA ILLA ALLAH WAHDAHU LA SHARIKA LAH.
8:27
We praise God and we bear witness that there is only One true God.
8:32
The whole thing started billions of years ago
8:34
when Satan thought that he is powerful enough to be a god besides God.
8:42
So, here's God with His angels and one of them saying "I can be a god, too."
8:49
So, how do you prove him wrong or right?
8:51
There's only one way to find out:
8:54
By making him a god, with a small "g".
8:59
And this is what God decided to do.
9:00
So, He gave Satan a dominion, the planet earth, and constituents, the human beings,
9:08
us, the human beings.
9:11
We escaped. Ok. Not us but we escaped from Satan, God willing.
9:18
But the human beings who choose Satan as their god are Satan's constituents.
9:24
So, now we have a demonstration going on.
9:27
And this is one of the things that God teaches us:
9:30
why we are here.
9:32
There is Satan with a dominion, a piece of land, the planet earth, and constituents, the humans who choose him.
9:41
So, every human being you look at is either in God's kingdom or in Satan's kingdom.
9:47
And Satan is already proven to be incompetent.
9:52

He should by now declare that he cannot be a god besides God.

9:58

I mean, if he doesn't know it by now, he will know it before the end of the demonstration,

10:03

Satan will declare that "yes, I cannot be a god."

10:07

So, this is what we're here for:

10:09

to provide constituents for Satan.

10:12

But the people who choose God as their god are not in Satan's kingdom.

10:18

And this is where the distinction is being drawn between God's kingdom and Satan's kingdom.

10:25

God's kingdom has no problem whatsoever.

10:30

When we step out of God's kingdom, then problems begin.

10:36

Satan's kingdom is full of problems: diseases, cancer, AIDS, accidents, personal problems.

10:45

And these are nonexistent in God's kingdom.

10:48

And there's a mechanism for it that God gave us also in the message.

10:54

What is the mechanism for attaining perfect happiness?

11:00

We've been talking about this and we now know that the secret of perfect happiness is a well-developed and nourished soul.

11:09

A well-developed and nourished person.

11:13

Just as you give your body breakfast, lunch and dinner, the real person, your soul needs breakfast, lunch and dinner.

11:20

So, God tells us exactly how to feed the real person.

11:23

We are doing one of them right now. This is one of the major meals,

11:27

comes once a week, the Friday prayer.

11:30

But the five daily contacts with God are the five daily meals for the person, for the soul, the real you.

11:39

This is one way of attaining this perfect happiness.

11:42

At the same time, you're preparing for the real life

11:46

because that day is going to come

11:49

when you begin the real life and you'll be assigned an eternal rank depending on your degree of development and growth.

11:59

And you know the other things that are written in this brochure:

12:02

the five daily contact prayers, the charity,

12:09

taking from your body to give to the poor. Your body loves money.

12:12

The body wants money.

12:14

So, the charity is designed to take from this body and give away to the poor.

12:22

Fasting is designed to make you the boss over your body.

12:27

A lot of people out there, most of them are enslaved to the body. Whatever the body wants, they go after it.

12:32

The body wants food. "Ok."

12:35

The body wants sex. "Ok."

12:37

No bounds.

12:38

The body wants clothes. "Yes sir."

12:41

So, these commandments from God are designed to make us happy, to make us the boss over the body.

12:51
 So, fasting, you'll tell your body "you're not gonna eat or drink until sunset, in a specific period."
 12:58
 And then the fifth is pilgrimage to commemorate Abraham's exemplary submission to God.
 13:09
 So, this, in a nutshell, the picture of what God did to inform us,
 13:16
 and like I said, we are fortunate that the information that comes to us from God is supported by the evidence that it is from God.
 13:25
 There is so much information out there, you don't know which one is correct and which is man-made.
 13:33
 Is it the book of Mormons? Is it the book of the Bahai's? Is it the Gospel? Is it the Bible? Is it the Torah? Is it the Psalms? What is it?
 13:40
 So, some of those are books of God and they have the mathematical code in them.
 13:46
 And we are fortunate to have the complete and intact message from God
 13:50
 that let's us have 100% confidence in it.
 13:54

 ALLAH AKBAR, ALLAH AKBAR, LA ILAAHA ILLAA ALLAH.

29 Friday Sermon by dr Rashad Khalifa The Meaning of Life Discovering the Miracle Satan Created Reli

Allahu Akbar
 0:11
 La Elaha Ella Allah
 0:25
 Alhamdu Lillah. We praise God. Wa Ash-hadu Alla Elaha Ella Allah Wahdahu La Shareeka Lah.
 0:33
 And we bear witness that there is no god except the one true God.
 0:38
 It all began a few billion years ago when an angel named Satan
 0:46
 entertained supercilious thoughts that he can be a god besides God.
 0:53
 And God decided that one way of letting Satan find out is to call his bluff
 1:02
 and make him a god. Now, a god cannot be a god without two things: a dominion and constituents and to
 1:16
 provide Satan with a dominion, God created a billion galaxies containing a billion trillion stars
 1:29
 contained in a universe that is 26 billion light years across.
 1:39
 And to emphasize the insignificance
 1:44
 the insignificance of Satan's dominion to be which is the planet Earth,
 1:52
 God created six other universes even bigger than this one.
 1:58
 And then eventually, God told Satan that this little mote in the smallest and innermost universe
 2:05
 called planet Earth will be your dominion. God equipped the planet Earth with the means
 2:13
 to support life for plants, animals and humans. No other place in the universe is so equipped.
 2:23
 And to provide Satan with constituents, God created a minute creature from
 2:31
 clay, a lowly material, named him Adam and then God ordered the angels to fall prostrate before
 2:40
 Adam. They all did except for the haughty one. He refused. Now, this is God's mercy.
 2:51
 Had God punished Satan for his supercilious thoughts without exposing them, the angels
 3:02
 would have been really perplexed. Why... What did God do this for? Satan didn't
 3:07
 do anything because the angels are not aware of Satan's innermost thoughts like God is.
 3:19

So, God exposed Satan as a haughty rebel.

3:26

And then told him that he will have this dominion and these constituents

3:35

the descendants of this creature Adam who happen to agree with Satan's point of view

3:40

namely that God alone is not enough. We have two points of view: God's point of view that

3:48

God alone is the absolute Lord and Master, no one else and then we have the other point of

3:57

view that God alone is not enough that we can have some other lords and masters besides God.

4:07

So, all the human beings, the descendants of Adam, who agree with Satan's point of view

4:14

were destined to be Satan's constituents.

4:19

Satan's constituents were not assigned to him

4:25

involuntarily. God consulted each one of us. He asked us "do you want to take a test where you

4:33

choose between My point of view and another point of view? Do you want to take a test where you choose

4:40

between Me as your only Lord and Master or to have another lord and master besides Me?"

4:51

Every constituent of Satan was consulted. Every single human being was consulted.

4:57

And we said "yes." The human being said "yes." Other creatures said "no." They were afraid.

5:05

We... there must have been incentives that made us agree to take the test.

5:15

One incentive is the fantastic, the awesome reward for those who make it, those who pass the test.

5:22

That is a positive incentive. The other reason probably was that we overestimated

5:27

our intelligence. We said "of course, we're gonna choose You. You know, it's gonna be

5:34

stupid if we choose anybody else. We're gonna take the test." You and I said that.

5:43

So, Satan's constituents were assigned to him after they... they chose with their

5:53

free will to take the test and after they decided to side with Satan's point of view.

6:02

Now, once this was agreed on, the agreement stipulated that every

6:09

human being will be born into this world with instinctive God-given knowledge about God.

6:19

In addition to this, God will send messages

6:23

and messengers to continuously remind the human being to worship God alone.

6:32

The other side, Satan is given, is allowed to reproduce every time a human being is

6:40

born. Every time a baby is born, Satan is allowed to reproduce. Another baby of Satan is

6:45

also born, at the same time. And will attach... this piece of Satan will attach itself to

6:53

the human being from birth to death and will continuously talk Satan's point of view to you

7:03

and me to the human being saying "God alone is not enough. You have to have Muhammad

7:10

or Jesus or Mary or this saint, also. They can help you, too. God alone is not enough."

7:18

And you with your instinctive knowledge and with the messages that you receive

7:24

are supposed to talk Satan's ambassador, representative who is your... he has your name.

7:33

You're supposed to talk Satan's representative into worshipping God Alone that Satan is wrong.

7:41

This companion is a descendent of Satan and he can go any way, either way, he or she. Same with you.

7:52

So, this is the agreement and this is the test that is happening, right now.

7:58
Immediately, Satan went to work on Adam

8:03
and Eve. They were living in paradise during their innocence

8:11
and you and I and all of us, we were in Adam and Eve.

8:20
And Satan fooled us and made us break God's law.

8:28
When I wrote a script for a movie, I showed this Universal conference of all the human beings

8:38
who are destined to come on this planet Earth

8:42
bearing witness that God alone will be our Lord and Master and then, I showed all these souls, all of

8:51
the human beings combining together. Symbolically, I made it look like a DNA molecule. All the souls

8:57
combined together in a DNA molecule and then this one United soul was thrust into Adam's clay body.

9:05
So, we were all... this is my understanding, my comprehension... we were all in Adam

9:13
and we all broke God's law. This is why we are here and this is exactly how the plan was to work.

9:21
So, eventually Satan fooled Adam, tricked him, made him break God's law and then Adam, Eve, Satan and

9:27
and all those who agreed with Satan... there seems to be a number of other angels maybe

9:34
who also fell with Satan became jinns. The definition of a jinn is a fallen angel. Your

9:43
companion is a jinn, a descendant of Satan, the father of all the jinns, or the first jinn.

9:56
Adam, Eve, Satan and anyone who agreed with Satan's point or who broke God's law

10:02
or agreed with Satan's point of view were sent to prison. Their prison is this universe, our universe, 26 billion light

10:12
years across. This is Satan... Satan's prison cell and it's too small for him.

10:20
He can't go... he and his descendants cannot go beyond the smallest and innermost universe.

10:28
This is his prison cell.

10:33
And we read in the Quran that they continuously try to break, escape,

10:37
break out of it and go listen to the secrets in the other universes

10:42
and they can't because this is... this is a well-guarded universe, our universe.

10:51
Our universe again has a billion galaxies

10:56
and our neighbor galaxy next door is two million light years away. So, this shows you

11:05
the insignificance of Satan's dominion. The earth and everything on it, if it disappeared right now,

11:16
nothing will happen to God's domain. Nothing. You go to the edge of our galaxy, the Milky Way,

11:23
you will not even see the solar system let alone the planet Earth. You cannot see the

11:27
solar system which is four million miles across. You cannot see it from the edge of our universe.

11:36
Now, what I want to share with... this is an introduction only for the second KHUTBA

11:41
I want to share with you a personal experience that teaches all of us the limitations of Satan

11:51
and the whole idea of creating these seven universes and the whole human race.

11:58
Tooboo Ela Allah. Repent.

12:12
Alhamdu Lillah, we praise God. Wa Ash-hadu Alla Elaha Ella Allah Wahdahu La Shareeka Lah.

12:18
and we bear witness that there is only one God. We worship only one God. We side with God's point of view

12:23

that God Alone is our Lord and Master, that there is no other creature, no
12:27
saint, no prophet, nobody can help us or harm us, dead or alive. Only God is our Master and only God
12:36
hires and fires and gives health and happiness. Only God. What I want to share with you
12:47
is a conclusion
12:52
that is... that is very solid in my mind and the minds of most of you that Satan decided
12:59
since he is to whisper to us and talk us into accepting his point of view. This is the agreement.
13:10
That, he instead of wasting his time with the followers, he will capture the leaders.
13:18
the Pope. 900 million Catholics listen to the Pope. So, why should he waste his time with
13:24
900 million people when you can just capture one?
13:30
In Muslim countries religious schools
13:35
Al-Azhar in Egypt, for example
13:39
Children start going from... from first grade. Al-Azhar has from first grade to the Ph.D. level
13:47
and certain children will start Al-Azhar from the first grade and
13:52
Satan knows that these children will grow up to be "religious scholars"
13:59
who will lead the people and will teach them the religion.
14:05
The Imams that... I'm talking about the Imams of jurisprudence, Shafi'i, and Malek and Ibn Hanbal and those.
14:13
Millions of people follow them... followed them. So, why should he waste his time with
14:20
individuals when he can catch the leader and mislead the millions by misleading one leader?
14:29
So, this is his method. So, this... this has been his tactic ever since
14:38
he came down to this earth was to look for the leaders and catch them, possess them.
14:47
And it's very easy in the... in the Muslim countries, there is the Islamic University
14:53
in Medina and everybody's going there is going to teach other people.
14:57
So, he's always gonna take these people, he and his assistants or just him by himself.
15:01
He possess all those kids, all the students. So, they graduate into his lap
15:10
and they do his orders. They carry out his commands. Now, my personal experience
15:19
the miracle of the Quran
15:23
has grown to overwhelming proportions. It is going to overwhelm the world and I'm
15:29
going... let me interrupt here and give you the latest development. This was discovered
15:33
yesterday or the day before yesterday and it's very quick but it shows you how the miracle is
15:38
growing to undeniable proportions. It's going to overwhelm even the enemies of the Quran.
15:47
What was discovered yesterday or the day before yesterday was that the Quran contains numbers
15:53
1, 2, 3, 4, 5 up to 12 and then 19 and then 20, 30, 40, 50, 60, 70, 80, and then after 80
16:02
comes 99, and then 100, 200, 300, 1000, 2000, 3000, 5000, 50,000, 100,000.
16:10
These are all the numbers in the Quran without repetitions, of course, as you know. When
16:15
you add these numbers, the total is 162,134. I may be mistaken I think it is 16... 162,134
16:24
Maybe not, but after the KHUTBA, I can give you the correct number. The total is

16:29
fixed. It doesn't matter if I make mistakes or not. It is fixed. It is in the Quran. It is a multiple of
16:34
19. It is 19 times 8534. This is the latest discovery and let me add one more
16:43
minute of elaboration on why this is miraculous. For example, the number 50, there's only one number 50 in
16:49
the Quran. And it is written like this: Noah lived with his people 1,000 years less 50. So, it was not
16:57
written 950. Another place says "We summoned Moses for 30 nights and increased them by 10." So, you can
17:06
see how the numbers stay independent and how they add up to a divisible total. If you do not make a
17:15
sacrifice under certain conditions during Hajj, sacrifice of an animal, you're supposed to fast
17:21
three days during Hajj and seven days when you go home which adds up to ten where the Quran says
17:27
that. Of course, we know three and seven is 10, but that's essential to have the number 10. So, you
17:32
can... you can see how the mathematical composition of Quran and how miraculous it is beyond human
17:38
capability. So, this miracle is growing to overwhelming proportions and Satan knew about it.
17:50
And I assure you he did everything possible in his capacity to stop it from coming out
17:57
because now the cat is out of the bag like they say. He can do nothing now. It's too late.
18:06
I believe he even started a whole new religion based on the number 19 just to divert. Because
18:13
this did divert some people from the number 19, some Muslims, so-called Muslims. So, he did the impossible.
18:23
So, how did God hide it,
18:29
this miracle to surprise Satan? If Satan catches the people going to Al-Azhar
18:36
schools or the religious schools and possesses them, why can't he
18:41
possess the person who is working on the miracle of Quran? Now, here's what happened.
18:51
At the time... at the time, I started computers for the first time. I was working for Monsanto
18:57
Company. I was a senior research chemist at Monsanto Company and they decided to
19:03
computerize their chemical research. So, they gave us a crash course in computer six months.
19:10
And they told us to practice anything, do anything with the computer just to practice and this
19:16
happened to coincide, "coincidence", with my desire to know what A.L.M. is and these
19:23
letters in the Quran. So, I said okay let me write the whole Quran in the computer and see if these
19:28
letters have any mathematical relations. So, I did... I wrote the whole Quran. I got all the results, all the counts, the
19:36
raw data. I have the raw data with me and there was an American Chemical Society meeting in Chicago
19:47
that was in August 1970, August 1970. I don't usually remember
19:54
the dates, but God made me remember some crucial dates because it's...
20:00
So, at this meeting, this man comes to me and he says "we want you to work for us."
20:09
"Who are you?" "I'm Robert Seely. I'm director of research for Anheuser-Busch." I said "forget it."
20:18
I didn't say that. I said "Sorry. Thanks but no thanks." He said "we'll give you twice as much money." I said "sorry. It's
20:25
not a matter of money. It's just in my religion, we're against alcohol and it'll be hypocritical of me to... to
20:32
work in the biggest brewery in the world when my religion prohibits it. And I happen to
20:41
be strongly religious." He said "well, I assure you this has nothing to do with alcohol. I mean, rest
20:48

assured this will give you twice as much money and you'll have nothing to do with alcohol."

20:54

I said "what is it?" In fact, I said "no thanks, still. You know, I just don't wanna be

21:00

connected with the name Anheuser-Busch, the biggest brewery in the world." It's in St. Louis. It's a fact.

21:10

So, he explained to me. He said "this is in the food research department and it has nothing

21:17

absolutely nothing... it has to do with eggs, vitamins, carbohydrates, processed foods, has nothing to do

21:24

with alcohol at all." I said "thanks but no thanks." He said "you know, here's a report from the United Nations

21:33

that the people in your country, in Egypt, your home country..." I was not even a citizen then...

21:40

"are going to starve in about 10 years. Don't you want to save them?" Well, he's trying this angle,

21:48

good old Bob Seely. Okay. I said "so, exactly what is the nature of my job there?" He said "Okay. We throw away

21:58

this amount of waste, this amount of oats, this amount of barley, this and that and we

22:04

want to save it from waste, wanna transform it to food." They have baker's yeast and they have brewer's

22:13

yeast and I can choose to work with the either one. They throw tons of yeast. Yeast is rich in protein.

22:21

And this is my specialty as a biochemist. Anyway, to make a long story short,

22:26

I accepted the job at Anheuser-Busch. I took my raw data. I left Monsanto company, August 31st

22:34

1969. We have a witness here, Douglas. And I started with Anheuser-Busch on September 1st

22:43

1970.

22:46

Took all my raw data with me and for the next four years, the miracle of

22:53

the Quran was produced in the biggest brewery in the whole world and this

23:01

is how... what I'm trying to share with you is Satan's limitations.

23:08

And some of you may have been played... playing a game as children where you hide something

23:16

and go and find it. And the best place to hide it, if I'm the person to look for it, is in my

23:22

pocket, right? If you can slip it in my pocket, I can't find it. I will look around everywhere else

23:30

but this is... this is one of the things that many children used to do. They hide the object

23:35

in the pocket of the person who's looking for it. So, imagine Satan looking at the planet earth

23:42

and he sees Al-Azhar. "Oh, these people are gonna grow up and lead millions to teach them

23:48

about Islam and the Quran and so on. Let me get them." And he will look and see Anheuser, the biggest

23:53

brewery in the world. "Nah, this is mine. This is my pocket. Forget it." But inside that biggest

24:02

brewery was the miracle of Quran came out. What does this tell us? It tells us that Satan, it

24:10

has limitations where he cannot, it does not know everything that's happening on the planet Earth.

24:17

God knows

24:19

what the heart of an ant out there is doing.

24:26

"Every, every atom in the universe... this is a quotation from the Quran... not a single atom is out

24:33

of God's vision or control." But you can see Satan unable to detect a significant event like this.

24:44

It was hidden from him. So, he couldn't put up any obstacles against me.

24:52

And this is what I wanted to share with you.

24:54

Aqem Al-Salat

24:56
Allahu Akbar

30 Friday Sermon by dr Rashad Khalifa Who is GOD Understanding Our Universe 1988 08 04

ALHAMDU LILLA AH, We praise God

2:43

WA ASHHADU AN LA ILLAAHA ILLAA ALLAH, WAHDAHU LAA SHARIKA LAH

2:47

And we bear witness that there is no god except the One God.

2:50

It is very important for any person to know who God is

2:57

to really appreciate why millions of people fall into idol worship.

3:02

Why do they leave God and idolize Muhammad, or Jesus, or Marry or St. Francis or St. Jude or some helpless creature?

3:14

And the main reason is that the people do not know who God is. They do not appreciate the greatness of God.

3:21

So, my purpose in this sermon is to share with you some idea about the greatness of God.

3:29

And to appreciate the greatness of God, we have to think of this universe that we are living in.

3:38

Our planet earth is part of the solar system, as you all know.

3:43

And by the way, I'm gonna talk to you strictly about scientific facts,

3:49

established scientific facts.

3:54

This earth is part of the solar system.

3:56

It is the only planet in the solar system that has life.

4:01

We went to the moon and we didn't see a single tree there or a mouse, nothing.

4:07

We sent cameras to Mars and we didn't see a creature there

4:11

unless those rocks are creatures, as we saw in one of the cartoons.

4:16

There is no life in the solar system except here, on the planet Earth,

4:20

Our Sun, the center of this solar system is 93 million miles away.

4:30

Now, I want you to watch these distances.

4:33

93 million miles away from us, the Sun.

4:38

And the light comes to us from the Sun in 4 minutes.

4:42

So, remember this relationship.

4:44

The light travels from the Sun to the Earth 93 million miles in 4 minutes.

4:51

The solar system itself spans a distance of 2 billion to 4 billion miles.

5:01

This is our solar system.

5:03

So, when you go to the edge of our solar system, if you travel 2 billion, with a "b", 2 billion miles away,

5:15

how big is the planet Earth, from that point?

5:17

It will seem small.

5:20

OK. Let us now go a little further.

5:23

Let us talk about the galaxy, our galaxy.

5:26

As you know, it is called the Milky way galaxy.

5:30

And the solar system is one... the Sun of the solar system is one of one billion suns or stars in our Milky way galaxy.
5:46
It will take 4 minutes for the light to travel from the Sun to the planet Earth, 93 million miles.
5:53
You know how long it will take to cross the Milky way galaxy?
5:58
If you travel at the speed of light, you will cross the Milky way galaxy, our galaxy, in 100,000 years.
6:09
Not 4 minutes, or 10 minutes or 1 hour or 10 hours or 10 days or 10 years.
6:16
It will take you 100,000 years to travel across the Milky way galaxy, our galaxy.
6:26
Now, so, if you go to the border, the edge of the Milky way galaxy and try to find the planet Earth, where is it?
6:35
It is minute. Isn't it?
6:36
Just a tiny mote.
6:38
You know, when you look at the Sunlight and see these little things flying,
6:42
those are called motes.
6:44
And the Earth is not even that within the Milky way galaxy.
6:50
Well, let us travel. Let us go on a little further.
6:54
Let us go to our next door galaxy, our neighbor.
6:59
You know how far it is, our neighbor galaxy?
7:02
2 million light years away.
7:07
So, if you're cooking something and you wanna borrow some salt or some sugar from your neighbors, don't go to the next door galaxy.
7:17
It will take you 2 million years going at the speed of light, and 2 million years coming at the speed of light
7:24
and your cooking will be all gone.
7:31
So, 2 million light years from our galaxy to the next door galaxy.
7:41
Now, so, if you go to the next door galaxy and try to find the planet Earth in the Milky way,
7:46
how... what are your chances of seeing the planet Earth?
7:50
Using the strongest, possible, imaginable telescope,
7:54
can you find the planet Earth?
7:56
How about your house? Or you? Or any human being, like Jesus or Muhammad?
8:03
Can you see them from that galaxy, our next door galaxy?
8:10
Shall we move a little further?
8:14
There are one billion galaxies in our universe.
8:20
This is one billion with a "b".
8:26
A billion trillion stars in our galaxy
8:31
in our universe, excuse me.
8:34
There are one billion galaxies in our universe.
8:37
A billion trillion stars in our universe.
8:44
Our universe now has distances of 10, 15, up to 26 billion light years, distances within our universe.
8:55
And you can easily imagine this now. If our next door galaxy...
9:00
And these are all, I remind you, these are all scientific, established scientific facts.

9:09
26 billion light years within our universe.
9:14
You have to agree with me that when you go to the edge of our universe,
9:21
It is hopeless to try to find the planet earth.
9:28
It is such an insignificant spec in God's kingdom.
9:36
It is an established physical fact that when you go, if you go to the edge of our universe,
9:43
you cannot possibly see the planet Earth. You cannot possibly see the Sun of our solar system, let alone the planet Earth.
9:54
So that's our universe.
9:56
Before we leave our universe, that's the next step,
10:00
I would like to remind you that, in fact, I will do a calculation thing with you right now.
10:10
Let us say the number of stars in our universe is not a billion trillion.
10:16
Let us just take a smaller number, quintillion.
10:19
Quintillion.
10:21
That's a smaller number of stars in our universe.
10:24
And let us count from one to quintillion, taking one second per count.
10:33
It's like... let us say, we're counting the stars: one, two, three, four, ...
10:39
one second per count.
10:41
So, you take one quintillion, divide by sixty,
10:44
you get the number of minutes it will take you to count from one to quintillion.
10:50
Then, you take this number and divide it by sixty, again,
10:54
you get the number of hours it will take us to count from one to quintillion.
10:59
Now, we take this last product and divide by 24,
11:03
and you get the number of days it will take you to count from one to quintillion.
11:12
These are physical facts
11:14
as you see, just a simply dividing by the seconds, the minutes, the hours and the days.
11:19
Divide by 7, you get the number of weeks.
11:22
Then, you divide by 4, you get the number of months.
11:25
Divide by 12, you get the number of years, it will take you to count, just count a quintillion stars.
11:33
You know how long it will take you? How many years?
11:37
This is a mathematical physical fact.
11:40
It will take you 32 billion with a b, 32 billion years, just to count a quintillion stars in our universe.
11:52
And God created them.
11:55
God didn't just count them. God created them.
12:00
And we are talking only about stars in our universe.
12:04
We're not talking about the planets that go with those stars.
12:07
We're not talking about the uncountable decillions of heavenly bodies and meteorites that are in our universe.
12:18

We're talking only about stars.

12:20

The Sun is one of the stars, our Sun.

12:24

By the way, it is one of the dim stars.

12:29

The bright stars, the definition of a bright star is it must be at least one million times as bright as our Sun.

12:42

Look outside and see how bright the Sun is.

12:44

A bright star has to be a million times as bright as this, as our Sun

12:52

We had a conference here at the University of Arizona that dealt with bright stars only

13:00

and the Sun was not one of them

13:01

because by definition a bright star is a million times as bright as our Sun.

13:06

So, it will take you 32 billion years just to count, not to create, just to count a quintillion of the billion trillion stars we have in our universe.

13:18

That's our universe.

13:19

Now, prepare for a shock.

13:22

This universe, our universe, vast as we can imagine is only one of seven universes.

13:34

And it is the smallest and innermost of the seven universes.

13:40

This is a fact that is in the Quran proven by the Quran's mathematical code.

13:47

We are all now familiar with the Mathematical code of the Quran that prove that every word is from God.

13:54

That it is not written by a human being.

13:57

That it is God's message to the world.

14:00

And these mathematically proven statements say

14:05

that our universe with its billion trillion stars, a billion galaxies, 26 billion light year distances is the smallest and innermost of seven universes.

14:23

Can you imagine how big the second universe is

14:26

if our universe is 26 billion light years across?

14:29

The second universe, can you imagine how big it is?

14:32

How about the third universe?

14:34

The fourth that is around these?

14:37

You can imagine seven balls inside each other.

14:40

The fifth universe, I don't think we can imagine the size of the fifth universe.

14:45

How about the sixth universe, and the seventh?

14:50

I can tell you right now there is no number in the world that can describe or measure the circumference of the seventh universe.

14:59

Actually the first universe.

15:01

We are the seventh universe, the innermost of the seventh universes.

15:04

There is no number that will describe the circumference of the first universe.

15:12

Now, prepare for another shock.

15:14

Most of you are familiar with that statement in the Quran in Sura 39

15:18

where God says He is holding the seven universes within the fist of His hand.

15:27

In Arabic in the Quran: وَالسَّمَاوَاتُ مَطْوِيَّاتٌ بِيَمِينِهِ

15:32

God is not holding the seven universes like this in two hands.

15:38

God is holding the seven universes in one hand

15:41

and this is allegorical description to give us an idea about the greatness of God and who God is.

15:52

It's an allegorical idea to make us appreciate the greatness of God

15:58

and to make us appreciate and realize the blasphemy of saying that such great God has a human son on the tiny tiny spec called the planet earth.

16:16

I mean how can that be?

16:19

We are a fortunate generation in that with the established scientific facts we can appreciate the greatness of God.

16:29

And God tells us who He is in His message to the world, the Quran.

16:35

And with the sciences we now accomplished, we appreciate that greatness.

16:41

And therefore, we can appreciate the grossness, the blasphemy of saying that God had a wife or a mother or a son.

16:51

We can appreciate, we can realize how blasphemous, how terrible it is to say that God has a partner, another god with Him.

17:01

How can we idolize Muhammad, the tiny human being who existed on a tiny planet called Earth in a tiny solar system.

17:11

What was Muhammad's role in deciding the speed of rotation of the moon, for example?

17:18

The moon rotates around itself and around the Earth.

17:23

Yet, we always see one side of the moon, the same side of the moon

17:29

because of the perfect synchronized movement of the moon around itself and around the Earth,

17:36

we see only one side.

17:38

And if that movement was off by one second, we would see the other side of the moon.

17:44

This precision in God's creation,

17:49

what was the role of Muhammad or Jesus or Mary or Saint Francis in deciding that speed rotation of the moon?

17:57

This elaborate system, everything going in its orbit precisely.

18:03

We know exactly what time the Sun will rise in the year 2025, July 4th, 2025.

18:13

We know exactly in Tucson, Arizona, for example, we know exactly when, what time will the Sun rise and from what spot

18:22

because the Sun follows God's laws, God's creation and follows the exact orbit.

18:28

God is holding the 7 universes in His hand.

18:33

That's who God is.

31 Friday Sermon by dr Rashad Khalifa Who is Your GOD Majority of Believers Are Going to Hell 1988 1

Wahdahu La Shareeka Lah. We praise God and we bear witness that there is no god except He.

0:19

The title of this KHUTBA is "who is your god?"

0:25

and I bet you anything quite a few of you will be shocked because the natural answer,

0:34

the immediate answer is "what do you mean who is my god? God is my god, the One who created me."

0:43

But the Quran is full of verses that tell us that millions of people would say that their god is God.

0:55

You're familiar with the verses that say "if you ask them who created the heavens and the earth? They will say "God" but they're going to hell."

1:06

The verses that say "if you ask them who is the Lord of the Heavens and the Earth and

1:12

the Lord with the great Dominion and the great throne? They will answer "God."

1:19

But they're going to Hell. You ask them "who created you?" They will say "God." So, these are millions of

1:26

people who recognize God as the One who created the Heavens and the Earth, the One who created

1:32

them. The One with the great Authority. The Lord of the Heavens and the Earth, but they're still going

1:40

to Hell. Now, I know this is your answer "who's your god?" And you're gonna say "God is the One God who created

1:48

me." But we have this... this KHUTBA is to examine this question and for you to examine your answer.

2:00

We know that your happiness in this world and forever depends on knowing who your god

2:09

is and worshipping God. God guarantees you perfect happiness in this world and forever.

2:19

And this is repeated in the Quran 23 times. Perfect health, perfect wealth, perfect peace of mind guaranteed. God is the One who runs the

2:30

universe and He's guaranteeing this for you. No problems whatsoever. "Read my lips" like

2:35

Bush says. No problems whatsoever if you are worshipping God alone, worshipping your god.

2:47

And you and I are going to detect flaws in us as we examine this question: who is your god?

3:05

It turns out... I'm gonna give you the answer first then we'll discuss the specifics... it

3:11

turns out that whatever is preoccupying your mind the majority of the day that is your

3:18

god. Whatever you are thinking of in your mind, this is your god. And the Quran explains this

3:27

very clearly in specific terms. If you are preoccupied with yourself, what you look like

3:36

you're shaved, your make-up, your dresses, your hair. If you are preoccupied with yourself, what the people think

3:42

of you, "he is a nice guy, she's a nice lady." If this is your concern the majority of the day, then you

3:51

are your god. You are worshipping your ego and we see this in SURA 25, verse 43. 25:43 says

4:01

"Have noted the one whose god is himself or his desires or his wishes or literally "his self?"

4:12

Now, the answer that whatever is preoccupying your mind most of the day is

4:21

your god is backed up by many many verses in the Quran. If you are preoccupied with

4:27

your job most of the day, that is your god, not God who created you. You can say that

4:35

the One who created the Heavens and the Earth is God but your god is your job.

4:42

If your spouse is preoccupying you more than God then that is your god, your wife or your husband.

4:58

If your property or the dollar, the mighty dollar's preoccupying you, that is your god. Now, let

5:08

us look at the Quran and see what backs up this idea. In SURA 33, verse 41, we say... it says

5:15

"O, you who believe commemorate God or remember God or mention God a lot." Okay. Now, the prayer is

5:23

mentioned 5 times, the fasting is one month in the year, the ZAKAT is two and a half percent of your income and so on. Everything is limited but when it comes to commemorating God or mentioning

5:35

God or thinking of God, there is no limit. It says KATHIRAN, a lot. And the following verse says

5:40

(33:42) وَسَبِّحُوْهُ بُكْرَةً وَّاَصِيْلًا and glorify Him day and night. Remember God or mention God or

5:47

think of God a lot. Glorify Him day and night. And I will discuss with you how to do this

5:56

We see in SURA 3, verse 191, a description of the believers who are going to Heaven.

6:03
 God says "they are the ones who think of God or mention God or commemorate God
 6:08
 standing or sitting or on their side." So, this covers all your positions, standing
 6:14
 up, sitting down or laying down, you think of God.
 6:20
 We see in SURA 2, verse 200 that you should think of God or mention God
 6:27
 or commemorate God just as you mention or commemorate or think of your parents, your own parents, even more. So, you can see "even more" is an addition.
 6:40
 In SURA 2, verse 165, the believers are described as loving God the most. You see the comparison? You
 6:50
 can love your spouse, you can love your children, you can love your job even as long as God is in your mind
 6:56
 the majority of the time. Then, that is... whoever you're thinking of the majority of the time is your god.
 7:07
 In 64:14, there's a statement that says "your spouses and your children can be your enemies."
 7:18
 How could that be? By becoming preoccupied with them.
 7:24
 Ironically, if you want a good spouse and good children, you should give your attention to God not to them. Cause God is with your kids as they ride the bicycle in the street, not you.
 7:36
 So, if you are with God, God will be with your kids and with your spouse. God controls your spouse's
 7:43
 mind and heart. And you can guarantee a good spouse if you are good with God.
 7:52
 Look at this in SURA 63, verse 9, God is talking to the believers. Says "O, you who believe do not be
 7:58
 distracted by your money and your children from commemorating God or mentioning God
 8:03
 or remembering God" The world is ZIKR-O-ALLAH, in Arabic. "Do not be distracted by your
 8:10
 money and your children from commemorating or mentioning or remembering God." And this is
 8:18
 directed to the believers. In 64:15, we are told that your children and your spouses are a test
 8:28
 cause you become attached to them.
 8:34
 So, one of the common gods is yourself, being preoccupied with yourself.
 8:45
 Another common god is your job, your property, the dollar and we see this in SURA 18.
 8:53
 Let me back up a little bit about worshipping yourself or your self being your
 8:58
 god. In SURA 18, verse 28 we say... there's a commandment to the believers. "Do not obey
 9:07
 those whose hearts are diverted from commemorating or mentioning God." Again
 9:15
 the same word ZIKR-O-ALLAH, throughout these verses is ZIKR-O-ALLAH, otherwise, I will... I will tell you
 9:21
 if it is different. It says "do not obey, do not follow, do not go with, do not mix with
 9:30
 those whose hearts are diverted from commemorating God
 9:36
 or mentioning God because they will drag you with them into thinking about something else.
 9:44
 You can already see that God is not your god seven days a week. Maybe, one
 9:51
 day a week, maybe two or three days a week, maybe zero. I don't know. You're the judge.
 9:57
 But this is the definition. You just divide the day into 100 units instead of 24 hours, 100
 10:05
 units, and see how many of these units, you are thinking of God. Is it more than 50%?
 10:15
 You judge. This comes as a shock to many of us but it is also a
 10:22
 great blessing cause God wills that we know because you can fix it right now.
 10:28

If there is a problem, if I discover that I am... that God is my god one day a week, I
10:34
can fix it right now. And I can pledge that God will be my god every day of the week.
10:43
The answer to this question may answer your common question: why am I having problems.
10:54
Also, it will be a good indicator for you
11:00
when you have a problem, why am I having a problem. If you dig deep, you'll find that you didn't
11:06
think of God the majority of the day. And I'm going to discuss with you how if I forget
11:12
reminding because I don't have it written here: how to think of God the majority of the day.
11:17
So, speak up if I finish the KHUTBA. Sometimes, I get distracted. We have to find out how we can think of God the majority of the day.
11:31
Okay. It is now 12:30. I believe everybody's here. So, for those of you who came late, I'm gonna
11:36
update this for you very quickly. The subject of the KHUTBA is: "who is your god?" And the answer is
11:47
whoever you are thinking of or whatever you are thinking of the majority of the day, whatever is in your mind, whatever preoccupies you. OK.
I mentioned "yourself."
11:59
In SURA 18, verse 42, we're told that your job, your property, your boss can be your god.
12:08
Your boss says "we have an emergency here at work and you must come here 3 o'clock in the morning for the next 10 days." Are you gonna
go at 3 o'clock in the morning for the next 10 days?
12:22
God tells you to pray the morning prayer before sunrise. Are you gonna pray the
12:28
morning prayer before sunrise? I mean, these are... you have to ask yourself these questions.
12:36
You don't have... Yes, you have... you have to pray the morning... every morning before sunrise. What I wanna say is that God says you
cannot possibly do it
12:45
every day because sometimes you're too tired, sometimes you're sick, sometimes you're traveling sometimes you have unusual
circumstances. So, unless you have unusual circumstances
12:56
if you don't pray the morning before sunrise, God is not your god. You have some other god.
13:04
The criterion is very very easy. SURA 18, verse 42, remember the fellow who had two gardens and
13:13
he was very boastful and happy, happy with them? "I'm fixed. I won the lottery. I'm fixed for life."
13:20
Sure enough a tornado came and wiped out the two gardens. But we learn from that that... by the way, I'm
13:27
gonna interrupt my KHUTBA here and say whatever you god is other than God, you're gonna lose it, guaranteed. If you worship your job,
you're gonna lose it. If you worship your spouse, you're gonna lose her or him
13:40
and so on. It's guaranteed. Whatever you worship other than God, you're gonna lose it, guaranteed. So... and we learn from SURA 18, verse
42
13:54
because this... this tornado came and wiped out the two gardens of this guy who was so... he thought he was fixed for life.
14:02
So, if you idolize your job, give it more attention than God, I guarantee you, you're gonna lose it.
14:11
In SURA 7, verse 190, we see that the children clearly can be your god. In this verse, I will
14:18
remind you, verse 190 of SURA 7, it says "this couple... the wife gets pregnant and they pray. Please,
14:25
give us a good baby, good healthy baby. Please, God give us a good baby. And God
14:30
gives him a good baby. Then, they make the baby their god." What does this mean? It's what the verse says. End of quotation. This means
they gave the baby more attention than God.
14:42
The principle holds that whatever preoccupies your mind the majority of the day is your god.
14:53
Again, to get all these things, to get the good children, the good job, the good money, the good
14:59
health, the good happiness and peace of mind. You know the answer. I'm gonna remind you again
15:06

of the Gospel of Luke 12:29 to 31. "Seek God's kingship over you and everything else follows."

15:18

If God is your god, you're guaranteed all of these things.

15:26

Tooboo Ela Allah, repent.

15:37

Alhamdu Lillah, we praise God. Wa Ash-hadu Alla Elaha Ella Allah Wahdahu La Shareeka Lah, and I bear witness that there is no god

15:44

except the One God. I hope in your repentance, you pledged that your god will be God, the One

15:50

who created you. Because if you had any deficiency in the past, you had better fixed it right now. With...

15:58

with this repentance. And you mean it every day. You can take account of what you're doing in the day.

16:05

OK. Now, we wanna talk about how... how you go about making God your god. The Quran teaches us.

16:19

When you see your children, or your car runs nicely, you say "Mā Shā Allāh", this is God's blessing. God

16:26

gave me this. When you see a beautiful flower or a beautiful sunset or your own fingers, you

16:34

say SUBHAN ALLAH, God be glorified. OK. Let me start from the beginning. Let me go back, now. You're

16:41

asleep and you're getting up in the morning. When you get up, you get up in the name of God

16:47

Bism Allah Arrahman Arraheem or say it in any language you want. The minute you open your eyes, you say Bism Allah Arrahman Arraheem, in the name of God, Most Gracious, Most Merciful. La Elaha Ella Allah, there

16:57

is no god except the One God. This is the first thing you must say. This is the first thing as I mentioned to you before

17:03

that everybody will say on the Day of Resurrection. When they get up, they will say - 99% of them - "Oh, shit!" 99% of them.

17:11

99% of the people will say that. It's not a dirty word anymore. So, I allowed myself to say for the first time in the KHUTBAH.

17:20

I mean, you can see it on the TV all the time.

17:29

99% of the people, they wake up and look at the clock and say "Oh," You have to rush to work. And this is exactly what they will say on the Day of Resurrection.

17:42

So, I hope this you reminds you that the first thing to say in the morning

17:48

is what you're going to say on the Day of Resurrection and it must be Bism Allah Arrahman Arraheem In the name of God. La Elaha Ella Allah.

So, there's your mentioning God

17:57

the first thing you open your eyes. You go do your ablution and do the morning prayer. Now, the five prayers, we're told in Quran, the five prayers

18:08

are designed for you to remember God. It says that, says "do the SALAT in order to remember

18:13

Me." God says that. And it is the most powerful. It is concentrated mentioning of God. I believe

18:20

of God. I believe that the five minutes of prayer make up for, maybe, a couple of hours. Don't take

18:25

my word for it and don't take any chances. But you must do the five prayers. You don't do the

18:31

five prayers, you're in trouble already. So, you get up first thing in the morning and you mention God.

18:38

There comes breakfast, you say Bism Allah Arrahman Arraheem. You open... you open the breakfast. You start before the first bite.

Remember there's a verse

18:45

in Quran that says "do not eat from that upon which the name of God is not mentioned."

18:52

"do not eat from that" and the word "that" covers apples and eggs and bread,

18:58

everything. So, mention the name of God. Don't forget. You'll forget for the next month or so, but keep blaming yourself until every time, you eat anything or

19:10

drink anything, you say BISM ALLAH. So, there and again, you're mentioning God's name.

19:18

Then, you're feeling good. You're feeling healthy. You say Alhamdu Lillah. Even if you don't

19:24

feel good, even if you don't feel healthy, say Alhamdu Lillah. Thank God or praise God. Just... just

19:29
find any excuses for heaven's sakes, to mention God. Think of God. You see your spouse,
19:37
you see your children, say Mā Shā Allāh, Alhamdu Lillah, thank you God. God be glorified. God be praised.
19:45
Continuously, just find any excuses to do... the sunrise and you think of the Earth rotating
19:51
and you say "glorify God" , "God be glorified." This is how. just... just make sure... the Quran teaches you
19:59
to mention God in every occasion, for reason or for no reason.
20:06
So, I'm going to end the subject here. I probably forgot a few things, but we can discuss it tonight in the Quranic study IN SHAA ALLAH. But
what I have here now, the table that I have is
20:15
I remember specifically Naghmeh came to me and said "how come I don't get straight A's?" you know.
20:21
She's a good believer, Alhamdu Lillah. And many other students wonder how come we don't get
20:28
straight A's and my answer to them always was and is that you will get... yes, John, I'm not gonna embarrass you, you know. It's OK.
20:39
I'm not gonna mention it. The answer always is that where it counts, God will give you the straight A's, when it
20:45
counts. And I experienced this in my life, my own personal life, where it counts. And the example
20:53
that we're going to see here is a typical example. This is the last game of the season.
21:04
The last inning, the last out. OK. Two outs and the ninth inning. I believe most of
21:11
you understand baseball, understand baseball and understand the ninth inning and two outs and two strikes. You know what this means.
This means the
21:19
game is over, right? Almost. So, this is now... This was Sammy's finale in this season and it is a typical
21:31
story as far as your courses are concerned and even... even what is happening to you in life is
21:36
concerned. This is a typical example of the believers, what God does with the believers.
21:45
I'm... OK. I'm starting at this point where the second out in the 9th inning is going to happen. OK.
21:57
and that I think it's self-explanatory.
22:42
Did you hear the statement? The season rests while Khalifa...
23:35
(Sammy) Khalifa
25:46
Sammy Khalifa
27:46
From the depth of despair to the high of ecstasy, all in two consecutive plays
27:51
with a base hit by Khalifa
28:25
almost... almost done. special thank you, once again, to all the people who supported us and for you and a very special thank you to our
comrade in the truck.
29:29
It's longer than I thought.
30:13
So, this is the idea. God will give you victory in the crucial times.

32 Friday Sermon by dr Rashad Khalifa Classification of Creatures Loving GOD Hell is not Enough 1988

Allahu Akbar (God is Supreme) x4
0:40
La Elaha Ella Allah (There is no god except the one God.)
0:41
Alhamdu Lillah, Wa Ash-hadu Alla Elaha Ella Allah Wahdahu La Shareeka Lah.
0:49
We praise God and we bear witness that there is no god except the One God.
0:58
I will be just chatting with you since I did not really prepare anything.

1:03
And I want to talk about loving God.
1:10
A rhetorical question: Should we love God? And why?
1:16
And to understand this why we should love God and how much
1:22
The Quran describes the believers as loving God the most,
1:26
that is more than anything else.
1:28
And I will try to share with you the logical reasons why we should, we must love God.
1:39
So, if we go back in history, a few billion years, we had billions of creatures of God who were not classified.
1:52
They were not angels or humans or jinns yet.
1:59
It was God and His kingdom.
2:02
And then one of the creatures developed this blasphemous idea that challenged God's absolute authority.
2:12
Satan thought that he can be also a god,
2:16
he has enough power and enough qualifications, he thought, for him to serve as a god in his own right.
2:25
So, he initiated this blasphemy.
2:28
Among the creatures were some who were also as egotistic and as proud, almost, as egotistic and as proud as Satan.
2:41
And they said to themselves "yeah."
2:45
Satan, those creatures were almost equal, almost, there were some stronger than others by virtue of whatever God gave them.
2:56
But they thought that yes Satan has enough qualities, enough qualifications to be a god besides God.
3:06
These creatures were also egotistic.
3:10
They had ego. They had pride.
3:13
And subconsciously they were thinking that yes we too, you know, we're close to Satan. We're almost equal.
3:23
So, we too can be gods maybe, but this was all in their heads.
3:28
So, they committed the blasphemy but not to the same extent as Satan.
3:33
They blasphemed against God.
3:37
They thought mentally that they can challenge, or they challenged His absolute authority.
3:43
Now, God's absolute authority is not an egotistic practice on the part of God, SUBHANAHU WA TA'AALAA, may He be glorified,
3:53
but because it is the truth.
3:55
The truth is that only God can run a kingdom where He is the God.
4:03
This is the truth.
4:04
The truth is that there is no one else who can run a kingdom.
4:11
So, God decided, as we've been talking about this to put Satan to the test.
4:22
He said "the one who initiated the blasphemy will, will... I will make him a god and see what he can do."
4:32
Prove that he is incompetent, that he cannot do it.
4:35
Because this is the best way to find out.
4:37
If you claim to be able to fly a plane, the best thing to find out is to put you in a plane and say "here, go ahead and fly."
4:45
And this is what God decided to do with Satan
4:48

And all those creatures who agreed with Satan were destined to become his subjects and to witness his incompetence.
5:02
And suffer his incompetence, as a matter of fact.
5:06
But anyway, God, now at this moment, the creatures became classified.
5:12
The creatures who without hesitation, without any question accepted God's absolute authority, they became angels
5:23
or they were angels.
5:24
Satan who challenged God's absolute authority became a jinn
5:30
became a fallen angel.
5:32
He received a judgement, a sentence, to be confined to the innermost universe,
5:40
This comes later, of course.
5:42
and to be put to the test.
5:45
And then, his descendents, Satan's descendents are all the jinns.
5:50
And the creatures who mentally agreed with Satan are you and me, became humans.
5:56
These became the human beings.
5:59
Now, the angels, as you know from the Quran, from Sura number 2, when God said "I am gonna put Satan to the test.
6:10
I am gonna send these creatures, give them a second chance."
6:13
God is giving us a second chance to denounce the blasphemy of challenging His absolute authority,
6:21
and to come now in these circumstances where we start it clean. We're born into this world, forgetting everything else, starting all over again.
6:31
And now we can denounce any SHIRK, any idea of having another god besides God
6:39
and believe in the absolute authority of God alone.
6:46
If we can do this, then we go back to the kingdom of God.
6:51
So, God willed that we get another chance.
6:56
What did the angels say?
6:58
They said "send them all to Hell."
7:01
That's what the angels said.
7:03
They said "are You gonna put on earth those who are going to corrupt it and shed blood?"
7:08
Remember that from Sura number 2?
7:11
So, in effect what are they saying?
7:14
God said "I'm going to give these creatures a chance to come back to Me."
7:19
The angels said "send them all to Hell."
7:23
Should we love God or not?
7:27
If it were up to the angels who believed in God's absolute authority, we will be now in Hell.
7:38
There would be no test, no seven universes, no planet earth.
7:43
It will be just Hell.
7:44
We'll be dismissed from God's Kingdom.
7:46
And you and I will be now in Hell.
7:48

But God who describes Himself as Arrahman Arraheem, the Most Gracious, Most Merciful said "I'm giving them another chance to come to Me."

7:59

You think we should love God?

8:02

Should you not love God for that?

8:05

This is why we should love God.

8:08

I just found some basis for this.

8:14

I mean, we find this dispute in the High Society in Sura 38, verse 69.

8:23

And I also found traces of it, maybe not even traces, maybe the same thing in the Bible, in the previous scripture.

8:39

Romans 3:23, which is a multiple of 19, chapter 3, verse 23, as you know, ...

8:51

guess I didn't write the verse here,

8:58

talks about,

9:02

Oh, yeah, ok, I didn't write it here, but now I remember it.

9:06

It says "we have all sinned."

9:08

Talks about the fact that we have all sinned.

9:14

We have all challenged God's absolute authority.

9:20

We have committed a crime. This is why we are here.

9:23

A terrible, terrible crime for which the angels saw that we should go to Hell right away.

9:32

You probably have seen this in Roman 6:23 where it says, "the wages of sin is death"

9:40

Very famous statement: "the wages of sin is death."

9:44

Because what happened as a consequence of this rebellion, Satan's rebellion and yours and mine,

9:56

the system that God designed called for putting all those creatures to death.

10:01

You and I were dead before we came here.

10:05

And that God created death, as a consequence of that blasphemy.

10:12

So, the wages of sin is death.

10:14

It comes from that origin.

10:16

And then in Hebrews 1:3, we read that talks about "purging our sins."

10:24

Purging our sins means denounce our idolatry,

10:30

Idolatry being the idea that there may be a god besides God.

10:34

So that we could become "sons" of God

10:40

which means going back to the Kingdom of God.

10:45

Tooboo Ela Allah. Repent. Let's try to get back.

11:02

Alhamdu Lillah. We praise God,

11:05

Wa Ash-hadu Alla Elaha Ella Allah Wahdahu La Shareeka Lah.

11:08

And we bear witness that there is no god except He.

11:15

We committed that blasphemy

11:17

and to put it bluntly, the angels said "send them all to Hell."

11:24

And God said "I know what you don't know."
11:30
God said "I am gonna give them another chance."
11:34
But when we look around us, we see how bad we are
11:41
how bad the human race is.
11:44
They're so bad, it's not even funny.
11:47
They're so bad.
11:52
There is not a single mosque in the world, other than this mosque and a few associated with it, where God is commemorated alone,
12:04
where God is the absolute God.
12:08
Every single mosque in the world is violating the commandment in 72:18 that says:
12:15
The mosque belongs to God, do not call on any other name but His name.
12:22
And try to tell, try to ask them to say, La Elaha Ella Allah, There is no god except God.
12:27
We have a mosque right here. Let's try it.
12:29
Let's go there and tell them. I mean,
12:31
it's not even three miles from here.
12:35
Tell them La Elaha Ella Allah (There is no god except God)
12:37
and they beat you up.
12:38
They will actually get violent.
12:41
That's a typical mosque.
12:44
And they beat you up because we're in America here because this is civilized world.
12:49
Over there, they'll kill you
12:50
for saying La Elaha Ella Allah (There is no god except God).
12:53
No kidding!
12:55
They're so bad.
13:00
Every church in the world, the biggest ones, the cathedrals, all those beautiful buildings, they're all blaspheming against God saying:
13:13
"Jesus God or son of God, or the father, the son, the holy spirit."
13:19
See, this is who we are.
13:22
Initially we challenged God's absolute authority.
13:27
And we are the few that God told the angels "I know what you do not know."
13:38
I was writing a footnote in the new translation on why did God allow two verses, false verses to be injected in the Quran for 1400 years.
13:50
Why did He permit it for 1400 years?
13:57
And it's because just a few years after the prophet's death, they reverted to idolatry.
14:05
The Muslims reverted to idolatry.
14:10
Only this time around, their idol was the prophet who defeated them.
14:13
The prophet won the war, and they became Muslims.
14:18
But a few years later, they reverted to idolatry.
14:23
They did not deserve the Quran.

14:25
And they killed Ali and his family which is the prophet's family.
14:31
They killed the prophet's family because of these two verses.
14:35
And I have the documents. You're gonna see the documents in the footnote.
14:43
I didn't mean to get into this subject but since I got into it...
14:46
During the time of Uthman,
14:53
the Khalifa formed a committee to make copies of the Quran,
14:58
take the original Quran that the prophet wrote with his own hand,
15:02
make copies from it and send it to the new lands.
15:06
They opened new lands in Syria, Iraq and so on
15:12
and they wanted to send these copies there.
15:14
Now, Sura 9 was the last Sura revealed in Medina.
15:19
The prophet had written all these Suras with the instructions as to where each one goes.
15:25
And that so, one of the scribes or maybe two suggested "since these copies are going to new lands, let us honor our prophet
15:35
and add a couple of verses praising him."
15:39
Ali was a member of that committee.
15:42
The members were Uthman, who's the supervisor, he was the Khalifa. He was just talking. Ali was a member. Zeid Ibn Thaabet was a member and Ubayy Ibn Ka'ab was a member, and maybe some others.
15:55
So, when the suggestion came up, Ali was outraged.
15:59
And then, as a consequence of that suggestion, Uthman was killed, Ali became the Khalifa.
16:05
The supporters of the two verses waged war on Ali.
16:09
Fifty years of war came after that because of these two verses.
16:16
And they culminated in the battle of Karbala where Hussein and the whole family of the prophet were wiped out, except for women and children.
16:23
They killed them all.
16:27
And then the first ruler to come after this war was Marwan Ibn Al Hakam.
16:31
The first thing he did was what? He burnt the Quran that Muhammad wrote with his own hand.
16:36
He was afraid war will start all over again.
16:39
So, these people did not deserve the true Quran.
16:45
And for the last 1400 years,
16:48
there was not... I mean, I'm astounded that we came to this conclusion by God's grace that we shall worship God Alone, that we follow the Quran.
17:00
And God is giving us a present, gifts.
17:03
God is flooding us with presents including the true Quran,
17:09
which should be printed, IN SHAA ALLAH, for the first time in 1400 years.
17:14
We're going to have the true Quran without the two false verses.
17:18
And I have now the footnote available for any of you to read the evidence, all the proof and it is irrefutable
17:26
about the two verses.

17:29
In the last few weeks, Abdullah and Mahmood have been busy.
17:36
The pipeline had been open through them, and Ihsan.
17:40
And the proof has been coming very fast.
17:45
Just so to be included in that footnote.
17:48
It's unbelievable.
17:50
Abdullah walked in with some more miracles this afternoon.
17:54
I thought I was printing the final footnote.
17:57
He said "it's not the final."
18:02
So, those people... God permitted those two verses because they did not deserve the Quran.
18:14
They're so bad that we will understand the verses.
18:18
In Sura 22, verses 19 to 22, they say that
18:26
- These are very harsh verses,
18:27
and if you see those people, you will understand that God is very Merciful to punish them just that much in Hell.
18:38
They say... these verses say that clothes of fire will be tailored for them.
18:43
Something like Sulphuric acid be poured on top of their head,
18:50
-the sulphuric acid of the Hereafter which is much stronger than the one we have now-
18:55
that will melt their inside out.
18:57
They will be confined in pots of iron or cells of iron.
19:02
Whenever they want to leave from the misery, they'll be forced back in,
19:06
I mean they're very harsh verses.
19:08
But when you meet these people, you'll see that God is Merciful.
19:13
because they insisted on going to that retribution,
19:18
but they really deserve a lot worse.
19:21
We met one of them, as I told you in the last KHUTBA, in Los Angeles,
19:27
when just before me came a professor from Chicago theological institute,
19:32
to tell us that the Quran is hallucination of Muhammad, internal hallucination of Muhammad,
19:38
that it is fallible.
19:39
And then, I came immediately after him, presenting physical irrefutable evidence that the Quran is divine and it's from God.
19:48
Then, these people, some Arabs, so-called Muslims,
19:56
they stood up and attacked me.
19:58
They didn't attack they guy who said the Quran is internal hallucination.
20:01
And you look at them and you know that this punishment is not enough for them,
20:06
that God is very Merciful.
20:08
Really, I mean, if I am going to oppose somebody and I'm a Muslim,
20:14
and I hear someone say that Quran is internal hallucination, I will change my plan.
20:20

I will attack the guy who says "Quran is hallucination"
20:23
and I will take this fellow on the side and beat him up with something, but on the side, not in public.
20:33
They didn't do that.
20:37
On the Day of Judgement, they will call on the guardian of Hell, Mālek,
20:41
and they will say "tell your Lord to finish us off."
20:44
And Mālek will say "sorry, you're gonna last forever."
20:48
Because they insisted on it.
20:54
This, in Sura 40, it says that these people argue with falsehood to defeat the truth.
20:59
And these people came with, I mean, what is clearly falsehood.
21:05
They came with things fixed in their mind.
21:08
They say "you counted the letter in this way, but they should be counted in another way,"
21:13
which is a wrong way.
21:14
However, when I presented the paper, I gave them numbers, not even letters.
21:21
They can take the letters, but they should have changed their minds then, because there's no argument against the numbers.
21:27
If you take all the numbers in the Quran and add them up, you have a multiple of 19.
21:31
This has nothing to do with letters.
21:34
But God says the reason they insisted on going to hell,
21:40
and the reason they're subjected to that terrible retribution which is not enough for them,
21:45
is because we have given them the truth, but they hated the truth.
21:54
Aqem Al-Salat.

33 Friday Sermon by dr Rashad Khalifa What About Previous Generations Messenger of the Covenant 1988

Allahu Akbar Allahu Akbar
0:24
Allahu Akbar Allahu Akbar
0:46
La Elaha Ella Allah
1:02
Alhamdu Lillah.
1:04
We praise God.
1:06
Wa Ash-hadu Alla Elaha Ella Allah Wahdahu La Shareeka Lah.
1:10
And we bear witness that there is no god except the One God.
1:17
As you know, I have been working on the main, the new translation, now
1:24
down to the serious business of preparing the pages for the printer.
1:30
So, this seems to be final developments.
1:32
And there is a lot of information that is developing right now.
1:37
There's a lot to be learned.
1:39
But I want to share with you, the developments as they are happening.
1:46
One of the main questions that people always asked, since the time of Moses, "What about

1:51
all those people in the past? They had the wrong information."
1:56
Remember that question Pharaoh asked Moses?
1:59
"What about all those people of the past generation?"
2:03
And Moses said, "their knowledge is with my Lord. My Lord is never wrong."
2:10
So, this question keeps coming up. "What about all those millions of people in the past?"
2:16
So, I wanna just do some statistics with you. If we divide the population of the world,
2:23
if we just draw a bar like this and divide it into 15 sections.
2:45
These are 15 sections.
2:48
From the time of Adam, from the beginning; the first man until now, we occupy this section here.
2:57
These are the people who lived on Earth, from the time of Adam until now. About 6 billion people.
3:07
And from now, from 1989... Happy New Year... to the end of the world, 2280, there will be this many people, 75 billion.
3:28
So, as you see, we're still at the beginning of humanity. And the vast majority of human beings will receive the message, the complete message, all put together.
3:44
So, God is not neglecting all those people in the past
3:49
because they represent a very small minority as you can see graphically. This is simple statistics.
4:00
The other thing that I wish to share with you is the...we talked about the three categories of creatures
4:12
how God's creatures became classified as a result of the Heavenly dispute.
4:20
The dispute in the High Society of SURA 38, verse 69.
4:26
Satan thought he can be a god, due to his ignorance and the fact that only God possesses the power.
4:35
And that, it is not egotistic on God's part or anything like that. God be glorified. It is simply a fact
4:45
that God alone can control every atom in the universes, while no other creature can do that.
4:53
And we have seen examples, how Satan cannot even see big things in this world. I have shared this with you before.
5:04
So, because of Satan's ignorance and arrogance, he thought that he can rule as a god somewhere.
5:09
and God gave him this tiny mote called the planet earth to rule. Now, going back to the classification of the creatures.
5:22
There's a category at the University of Arizona called non-classified student.
5:27
This is the student that goes in and he's neither or she's neither undergraduate or graduate, the non-classified student.
5:34
Classification happened as a result of this dispute.
5:38
Number one, the first group was the angels. And those are the intelligent creatures.
5:43
Those are the ones who knew or believed or decided with their own free will that God alone possesses all power
5:51
to control every atom in the universe. They never, never had a doubt or question. So, they became classified as angels.
6:01
The second group of people actually believed that Satan can be, can act as a god.
6:08
He possesses enough qualifications and power to be a god. Those are the Satan and his tribe, the jinns.
6:16
Those became jinns. This is why your jinn is always asking you, telling you that Muhammad also has some power, that Jesus has some power,
6:24
that Saint Jude has some power, that Ali has some power. This is your jinn's telling you that all the time because your jinn represents Satan,
6:35
Satan's point of view. The jinns made up their mind, that Satan can be a god.
6:40

The third category of people, you and me, didn't make up our minds. We were wishy-washy. And this is why God does not accept wishy-washies, now.

6:51

If you show any sign of idol worship and Satan claims you, God will give you to Satan.

6:56

If Satan points at you, points at you and says "this person idolizes something" for the slightest reason, God will tell him "take him or her."

7:09

"This is yours." So, this is why we have to run away as far as possible from any hint of idol worship.

7:17

Anyway, so the third category of people, of creatures, became humans. Those are the ones who didn't make up their mind.

7:26

They said "yeah, maybe Satan can do it." In other words, they were not soled on God's absolute authority. They were not firm.

7:36

They didn't say "only God possesses all power." And this is why we are here to help us make up our minds.

7:45

But basically, this is a horrendous crime, not to appreciate God's absolute authority. And this is why we are here.

8:01

OK. So, God decided to give us this chance to help us make up our minds and to help us to be redeemed.

8:14

The angels who are completely soled on God's absolute authority said "send them all to Hell. Don't give them another chance."

8:25

But God, the Most Merciful, decided to give us that chance. We talked about this, but as you see, you and I are developing this

8:33

understanding together and there's a lot more to be learned, IN SHA ALLAH.

8:38

This verse here is 255 of SURA 2 says "God releases His knowledge in accordance with His will."

8:46

So, this knowledge is coming to us in accordance with God's will bit by bit.

8:53

Now, this brings us to the question of "send them to Hell." And it seems from studying SURA 19, verses 71 and 72, that this is Hell.

9:05

By definition, this is Hell. This is... let me qualify this... this is a temporary mild Hell.

9:13

The Hell that will start on the Day of Resurrection is a lot worse. And this is what I'm gonna discuss with you now.

9:20

If you read 19:71-72, it says "every single one of you is going there" will go to Hell. Then, we save the righteous.

9:31

In verse 72, God says "then, we save the righteous and leave the transgressors there." So, this a half-way house, between Heaven and Hell.

9:49

You may call this a Purgatory if you wish in those...in that term.

9:55

Verses 19:71 and 72 that say "every single one of you is going there." Now, what is the definition of Hell?

10:03

The definition of Hell is simply the absence of God. If God is not here, this is Hell. And God teaches us in the Quran, that He is not here

10:15

physically. Moses wanted to see God and God said "you cannot see Me. Look at the mountain, if it stays in place you will see Me."

10:24

And then, God manifested Himself to the mountain. And the mountain crumbled. This Earth cannot stand the presence of God.

10:31

Therefore God, even though, He controls every single atom in the universes, He's not here physically. He doesn't need to be here to control every atom.

10:42

So, the absence of God means Hell. This is Hell.

10:52

In verse 21... In SURA 21, verse 101, we see that the righteous will be taken away from Hell.

11:04

So, all these problems and airplane crashes and the earthquakes and the headaches and the problems is because this is Hell.

11:13

And it is Hell because Satan is running it, in accordance with God's will.

11:20

However, this is a mild Hell because God didn't completely throw us into Hell.

11:29

Like I said it's a halfway house. For example, God provides. In the real Hell, God will not provide.

11:37

And we see this in verse, that I wrote down here, in SURA 7, verse 32.

11:44

God says "the provisions are only for the righteous on the Day of Resurrection" in the Hereafter, exclusively.

11:52

And you recall in SURA 2, verse 126, when Abraham said "please God provide for those who believe in God and the Last Day."

12:00

And God said "and also for the disbeliever." Because this is... God wants to give them a chance to redeem themselves.

12:08
So, God interferes. God is the only Provider in this world, not Satan. That's not Satan's job. Satan's only job here
12:16
is to take care his constituents other than provisions and to run his kingdom with those constituents.
12:26
But God does interfere to provide for the believer and the disbeliever. This is not so in the Hereafter.
12:33
In the real Hell or the Hell, the eternal Hell of Hereafter, Satan will be in Hell and there will be no provisions for anybody in Hell.
12:53
So, these are some of the thoughts that I wanted to share with you.
12:58
So, let us repent and redeem ourselves. God redeems us on request. Tooboo Ela Allah.
13:19
Alhamdu Lillah. We praise God.
13:22
Wa Ash-hadu Alla Elaha Ella Allah Wahdahu La Shareeka Lah.
13:26
And we bear witness that there is no god except the One God.
13:31
You can see...
13:50
What was I saying before I get interrupted?
14:06
OK.
14:13
OK. In this KHUTBA, I would like to, to steal some of Abdullah's ideas. We're gonna give you the details in the next Friday. IN SHA ALLAH.
14:22
But I think, he discovered the ultimate miracle in the Quran. And I haven't look at it yet. But this is what I understand from what they told me.
14:33
I was not available when he came. But I don't even need the board. When Abdullah... what he did, he took all the numbers in the Quran.
14:46
We have SURA number 1, 7 verses. SURA number 2, 286 verses.
14:54
Hmm?
14:56
The un-initialed ones. They're not the whole... OK. The un-initialed include the SURA 9.
15:02
So, SURA 1 and then, SURA 4, 5, 6 and then you skip the initialed SURAs.
15:08
What he did was, he put all the numbers you see in the un-... SURA 9 is an un-initialed SURA, as you know.
15:15
So, If you take SURA number 1 and you put verse number 1, verse number 2, verse number 3, 4 and so on, to verse 7.
15:27
And you do the same thing with all the SURAs in the Quran, put the numbers next to each other.
15:32
Of course, when you get to SURA 9, you go only to verse 127, not 129. This will give you a number that is, I think, about 3 miles long.
15:42
And it is a multiple of 19. If you add the false verses 128 and 129, it is not a multiple of 19.
15:53
As you know, this is the principle that's been laid down before. You know, the Morning prayer is 2 verses.
15:59
The Noon prayer is 4 verses, 4 RAK'ATs or 4 units. The Afternoon prayer is 4. The Sunset is 3. And the Night is 4. This number here is a multiple of 19.
16:15
So, this is putting the numbers next to each other. And this tells us that these are the correct prayers, correct numbers of RAK'ATs.
16:24
The Morning is 2 RAK'ATs, 2 units. And this is universal in the whole world. This is why the Sunset is 3
16:31
and not 4. If it was 4 or 5 or 2, you'll not have a multiple of 19. So, Abdullah will give you the details next, next week, but this a preview of it.
16:44
And I wanna share with you, what the Bible says about the Messenger of the Covenant. Now, with this fact here
16:55
that from the time... the beginning of the world until now, this is the amount of population that we have.
17:03
And the majority of people are yet to come. It makes sense that someone should come to put the message together,
17:10
clear out all the falsehood, the junk, the innovations that were added to it and put the messages of all the prophets in one unit.
17:19
And here is what... it's the amazing that the Bible should speak about the Messenger of the Covenant. And I happened talking to some enlightened Christians
17:30

about this and got really some profound information. This is the last book of the Torah, the book of Malachi, in chapter 3.
17:43
The Messenger of Covenant in the Quran is in SURA 3, also.
17:48
But chapter 3 says "Behold, I will send my Messenger, and he shall prepare the way before Me. And the Lord, whom you seek,
17:57
shall suddenly come to His temple, even the Messenger of the Covenant, whom you delight in. Behold, he shall come,
18:05
says the Lord of hosts.
18:09
But who may abide the day of his coming? And who shall stand when he appears? For he is like a refiner's fire, and like fullers' soap.
18:21
Then, the verses go on talking about cleaning, refining gold. So, the believers will come out like gold.
18:28
Remove all the dirt and the things. And also, he will burn. He will be burning the others and hurting them
18:39
even though he's very kind. I'm talking, I'm just reading the... summarizing the other verses for you.
18:50
And this make us think, you know. What is it that we do wrong and the people are so averse to it?
18:58
Why do they pick on Apamea and Naghmeh? And why do they go to this mosque and this kind of thing? What are they doing?
19:05
They're worshipping God Alone. They say "worship God Alone. Worship the One who creates you. Do not idolize powerless humans."
19:14
But it shows you how the human being is basically bad. The human being is basically criminal.
19:21
And even though I say mild things or saying the right things, or saying "La Elaha Ella Allah," it hurts them.
19:29
Because we purify. Let me read another version. You can look it up in any Bible, in Malachi, chapter 3. Malachi, the last book
19:44
in the Old Testament. And Malachi is one of the prophets of Israel, the last one. The subtitle is the Messenger of the Covenant in this
19:58
issue here and says "Lo, I am sending My messenger to prepare the way before Me. And suddenly, they will come to the temple, the Lord
20:06
whom you seek and the Messenger of the Covenant whom you desire. Yes, he is coming says the Lord of hosts.
20:12
But who will endure the day of his coming? And who can stand, when he appears? For he is like the refiner's fire or like the fullers' lye.
20:22
He will sit refining and purifying. And he will purify the sons of Levi" meaning the people "refining them like gold or like silver
20:33
that they may offer due sacrifice to the Lord." And that goes on that this purification process and seems like our generation is doing this.
20:44
Purification process. Now, what do the Christians believe? Most Christians believe, that the Messenger of the Covenant
20:54
is John the Baptist because he came immediately after Jesus. And it doesn't make sense because they are coming from
21:01
the claim that Jesus is god or the lord. See, listen to what it says in the beginning of the chapter. "Behold, I will send My Messenger.
21:11
This is the book of... this is in the Old Testament before Jesus was born. And they're thinking that this is Jesus speaking.
21:18
You can see the fallacy of it. They claim that Jesus is saying "behold, I will send My messenger." And they're wrong.
21:28
The Messenger of the Covenant; God wills that he should be mentioned in the Bible and in the Quran.
21:36
Aqem Al-Salat.
21:37
Allahu Akbar Allahu Akbar La Elaha Ella Allah

34 United Submitters International Conference Explaining the Fulfillment of the Covenant 1988

Sheikh Al-Banna had a particular slot on Cairo radio where he read the Quran.
0:15
All the others were changed. The times, the dates changed but not sheikh Al-Banna. He always recited
0:22
Quran at six o'clock in the morning every Tuesday on Cairo radio for as long as I
0:29
lived in Egypt and after that. So, here I have a time, six o'clock in the morning, and the day
0:36
Tuesday. OK. So, I went to Mecca for, for the pilgrimage. My parents were with me and we
0:48

prayed the morning, the Fajr at the Kaaba and then we came back to our room.

0:56

and I was preparing... that was Tuesday... I was preparing to hear my favorite reciter on Cairo radio.

1:04

So, I got my little radio and I sat in bed. My father, my mother sat in the same room in

1:10

their beds and I turned the radio to Cairo and sure enough, here comes sheikh Al-Banna and I can tell you

1:21

the reason I know I was fully awake is I never never never never fall asleep when sheikh Al-Banna is reading

1:28

Quran. And when I... when I went for Hajj from here, I took with me a hundred cassette tapes and I gave them to my

1:38

brother Atef and I told him, specifically, I want you to record anything that Al-Banna comes

1:44

whenever it comes on the radio or the TV or anything, record it. This hundred tapes. I want them full

1:49

of recitations of sheikh Al-Banna. OK. So, in Mecca now... back to Mecca, Tuesday, I'm sitting in my bed

1:58

turning the radio to Cairo radio. There comes sheikh Al-Banna and he recites SURAT Al-Rahman

2:05

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

2:06

الرَّحْمَنُ (55:1)

2:07

عَلَّمَ الْقُرْآنَ (55:2)

2:07

خَلَقَ الْإِنْسَانَ (55:3)

2:09

and I am in ecstasy.

2:13

and then, I didn't hear Al-Banna anymore. I was taken to some place in the universe

2:23

and I... and I know I was fully awake but here I am somewhere and I saw these... at the time

2:33

nothing was explained to me. "It is none of your business now but you are here

2:39

for some reason." And I was... I saw... all I was told was that these are all the Prophets: Jesus, Moses

2:47

Muhammad, David, Solomon, Jonah, Lot, Noah, all of them. I was told this is all of them and they

2:56

appeared like those oval pictures that many of us have, except these are alive people that people...

3:06

God showed them to me the way they looked in this world because I probably would have freaked out

3:11

if God showed them to me in any other way and they have their different dresses, different

3:17

turbans and different robes but the person was ovally was down from, like, the head to

3:27

the knees. And one by one... they came in one by one and they looked straight in my face and they shake their

3:35

heads approvingly. Something like this, approvingly. And then the person would go like that.

3:40

And another one will come this way and so on. They kept going like this and I didn't know which is which.

3:49

Only Abraham was identified to me. When Abraham came, I was told "this is Abraham."

3:57

And he's the only one identified to me and I didn't know what this was all about. Then, this ended. And when I

4:05

came back, I looked at my father and I said "guess what! I just... I just met all the prophets and Abraham

4:12

was identified to me and he looks like us." Because it struck me, the resemblance, I remember what

4:19

they look like. Well, I can't tell which is which. So, I told him "Abraham looks like

4:27

us, the Khalifas, you know what I mean. Look at me. Look at my brother. Look at my sister. There's a particular look and

4:33

Abraham looked like that." So, but the first thing that my father said was "what did Muhammad look like?"

4:42

I said "sorry dad. I don't know which one was he but when I see him I recognize him again and we'll tell him what the name is."

4:53

OK. So, I just... I enjoyed it very much and I told my... my parents and I told my friends. I think

5:03
I mentioned it, maybe, to Soad in passing. It was not important to me. It was just... cause like I said it

5:09
was done like "it is none of your business. This is just something to be done." So, to make a long story

5:14
short, four months ago, this was all explained to me and this is why I've been telling you that

5:23
ALLAH SUBHANAHU WA TA'ALA has been Merciful and Graceful towards us and that in SURA 3, verse 81, it was explained to me

5:32
that this is in fulfillment of this verse. That in retrospect what happened was that God took the

5:40
person, the Rashad Khalifa, to that place somewhere in the universe and the prophets, they were told "this is

5:48
the person who is to confirm all your messages and to confirm all of you. Do you approve? Do you

6:00
fulfill your pledge to Me that We took before creation?" And every one of them was now

6:05
explained. Now, that it is explained, I know what happened. So, they come in and they look in my

6:10
face and they say "yes, we do. Yes, we we agree. We support him. We believe." And this is the

6:17
explanation that came to me. So, specifically, verse 81 of SURA 3 is what makes me dwell on that

6:26
verse because we are told and God told us now. I believe there are many many many messengers

6:34
because of what the Quran says. You know that if I tell you anything that is not Quranic,

6:40
you tell me "get out of here." And I'll be the first to denounce that. But God says, in SURA 16

6:48
يُنَزِّلُ الْمَلَائِكَةَ بِالرُّوحِ مِنْ أَمْرِهِ عَلَىٰ مَنْ يَشَاءُ مِنْ عِبَادِهِ أَنْ أَنْذِرُوا أَنَّهُ لَا إِلَهَ إِلَّا أَنَا فَاتَّقُونِ (16:2)

6:58
Excuse me, I mixed this with SURA 4.

7:01
يُنَزِّلُ الْمَلَائِكَةَ

7:02
He sends down the angels

7:04
بِالرُّوحِ

7:04
with inspiration or revelation or information.

7:08
This is what a RUH is

7:10
يُنَزِّلُ الْمَلَائِكَةَ بِالرُّوحِ مِنْ أَمْرِهِ

7:12
in accordance with His commands

7:14
عَلَىٰ مَنْ يَشَاءُ مِنْ عِبَادِهِ

7:16
upon whomever He wills from among his servants. Servants. Plural.

7:22
أَنْ أَنْذِرُوا

7:24
that you shall preach

7:25
أَنََّّهُ لَا إِلَهَ إِلَّا أَنَا

7:27
that there is no god...

7:28
لَا إِلَهَ إِلَّا اللَّهُ

7:30
that there is...

7:31
أَنََّّهُ لَا إِلَهَ إِلَّا أَنَا

7:33
فاعبدون

7:33
or

7:34
فَاتَّقُونِ

7:34

I forget now

7:37

The other verses in SURA 40

7:42

where He says, in the present tense, now this is in the present tense

7:48

and the verse in SURA 40 I have to try to remember it now.

7:54

It's in the beginning of SURA 40. Edip will get it. But there's another verse in another SURA that says

7:58

اللَّهُ يَصْطَفِي

7:59

You know this one very well.

8:01

(22:75) اللَّهُ يَصْطَفِي مِنَ الْمَلَائِكَةِ رُسُلًا وَمِنَ النَّاسِ

8:05

God chooses from among the angels and from the people رُسُلًا, messengers.

8:14

There are many kinds of messengers. And I've got news for you. You are

8:18

messengers. You deliver the message: LA ILLAHA ILLA ALLAH.

8:24

Every one of you when you meet someone and you tell them to worship God alone, you are

8:29

messengers. Many many messengers. And you know you are. You are delivering God's message but

8:35

this particular instant makes me just one of you, but makes me one who is named or just given

8:43

a special, not special, specific, a specific mission. But we are all doing this and God

8:51

says this in SURA number two. He said

8:54

(22:78) لِيَكُونَ الرَّسُولُ شَهِيدًا عَلَيْكُمْ

8:56

So, the messenger will be a witness among you

8:59

(22:78) وَتَكُونُوا شُهَدَاءَ عَلَى النَّاسِ

9:01

and you be witnesses among the people.

9:05

This is in the Quran. Every one of you serve as witnesses, messengers. And the same word equally

9:13

used in that verse.

9:15

(22:78) لِيَكُونَ الرَّسُولُ شَهِيدًا عَلَيْكُمْ وَتَكُونُوا شُهَدَاءَ عَلَى النَّاسِ

9:19

The messenger will serve as a witness among you and you serve as witnesses among the people. So, you

9:24

have a fantastic responsibility and I know you're doing it pleasantly and tirelessly.

9:33

The verse... the verse in SURA 40...Oh, this is in Mu'minûn. What is this?

9:41

Oh, yes.

9:42

اللَّهُ يَصْطَفِي

9:43

Yeah, I said that one.

9:44

This is in SURA 23

9:45

(22:75) اللَّهُ يَصْطَفِي مِنَ الْمَلَائِكَةِ رُسُلًا

9:47

This is in the present tense.

9:50

Some people say that the inspiration or revelation ended by Muhammad. It's not true because this is in

9:57

the present tense. This is the final message. Everything is here. And we do not do anything

10:03

that is not here. But there is so much information here, it will keep coming until the end of the

10:08

world. Information that our parents did not know. Information that we do not know, and information

10:14
that our grandchildren only are destined to know. It's all in here. Nothing new, but it is all

10:21
in here including the end of the world and things that outrage the disbelievers.

10:26
The verse in SURA 40 that also explains this... this turned out to be a very important discussion here.

10:34
Ismail: Of course! What are you talking about?!

10:47
So, it may take time, but I'd like to read it correctly. It's right here.

11:14
It's very possible that I misplaced the verse, but I can't find it in SURA 40. But the

11:20
evidence is abundant that God uses, as you know, the Quran is mostly in the past tense

11:27
because God is telling us things in our future that are not future to God. They're

11:32
past as far as God is concerned. So, most of the Quran is in the past tense but when

11:38
it comes to selecting messengers, plural, in the Quran, it is in the present tense.

11:45
So, especially, in your case being the first... the first group, the pioneers of restoring

11:53
all God's messages of the past, you have a special responsibility. There are many many messengers and

12:00
this also confirms or is confirmed by the verse in Quran that says "there is not a village that does not

12:10
have a messenger." So, this tells us how many messengers there are. But this incident that Carlos

12:16
asking about, just gives me a specific responsibility and makes us know precisely

12:25
what the deal is. Cause if you... if we are, if we are believers in the Quran,

12:32
we read in SURA 3, verse 81 that after all the prophets have come, after all the

12:40
prophets have come including Muhammad as you see in later on, God set a trap on the disbelievers.

12:49
After all the prophets have come, a messenger will come to confirm them. This is an established

12:55
Quranic fact. And if we are believers in the Quran, we have to be open to this. Not only open to

13:02
this, we have to know that there will be a messenger who will come and confirm all the prophets.

13:07
and we will have no aversion at all to this idea. In fact, we'll expect it and we'll agree with it

13:13
readily. We happen to be the lucky generation or the fortunate generation that witnesses the

13:18
fulfillment of this verse and I'm talking as, as one of you. You know, I distinguish in the Quran

13:24
between Muhammad, the messenger, and Muhammad, the man. And I'm telling you Rashad, the man, is very excited

13:30
about all the information that comes, so Rashad, the messenger. I'm just... I'm just... Along with you I cry and

13:38
I'm excited and they see me jump up and down in the mosque when the information comes and we all

13:46
jump together. Because it is just beautiful. God is teaching us and we are very fortunate to be born

13:52
now, at this time. Yeah, it sounds right. What does it say, Mohtasham?

14:11
Yes.

14:14
Exactly. Yeah, this is it.

14:20
Exactly. So, as you see the Quran goes out of its way to mention this

14:24
in the present tense because it is a continuous process until the

14:29
end of the world. Every village, every community is going to have messengers.

14:35
Look at Leila Intefaq. See. She is a messenger of God. When she goes to her college and she talks to

14:41

the people about God or worshipping God alone, she is a messenger of God and nobody can dispute that.

14:48

So, I hope this clarified the... and this is why you see the opposition vicious as they are,

14:54

they never never said Muhammad is the last messenger. They cannot say that. They

14:58

know it's a fabricated lie. This is why they didn't come up with it. That's right. All they're trying

15:04

to do is that his name is not Rashad.

15:06

Ismail: They are trying to discredit you.

15:10

But they cannot come up with

15:11

any fact or any proof. They can only call me names which is exactly what the Quran says

15:19

and it is really miraculous. It is really miraculous. They called me the names that the

15:25

Quran says, specifically. It's like, you know, God is showing us that He knows what they're going to say.

15:33

Where I get this telegram from Ahmad Deedat addressed to Rashad Khalifa, AL-KAZZAB. OK. This is in

15:40

English, but he writes the Arabic word that is in the Quran. OK. And then we read in SURA, in SURA 38

15:49

and in SURA 54 the same word. They say "how come in all of us, he's the one who's getting the message

15:59

and inspiration. He is KAZZAB." And then God goes on in Quran and says "they will find out tomorrow who

16:06

is the KAZZAB." But they had to... I mean this is Western Union folks. OK. And they wrote down

16:12

K A Z Z A B. OK. It's not an English word. But it's exactly what God wrote in the Quran in SURA 38 and in SURA 54.

16:22

Ismail: Except that God spelled it correctly.

16:25

Exactly. It's KATHAB (كتاب) not KAZZAB (كذاب). They cannot do that.

16:30

But it's ironic. So, as you know, the minute the person calls you names, they lost the argument. They have

16:36

no evidence. When they start calling you "stupid" and this kind of thing. Then, you know they lost the argument.

16:46

Ismail: OK. We have time for a couple more questions.

16:49

Brother Azhar has...

16:52

Azhar: I just want you to come back on... there are a lot of verses that say the messenger has been destined to prevail, so that Islam will prevail over all religions. Can you just come back on that?

17:06

This is a prophecy in SURA number 9 and SURA number

17:09

48, that Islam will prevail over all religions and will go to all corners of the world.

17:17

And I believe... not I believe that... I know that. You know, this will happen. And IN SHA ALLAH, it will happen in our

17:24

generation. Brother Edip, yesterday, said that SURA 110 that talks about

17:31

(110:1) إِذَا جَاءَ نَصْرُ اللَّهِ وَالْفَتْحُ

17:32

When God's victory comes

17:36

and you see the people embracing God's religion in great numbers

17:40

(110:3) هُفَسِّحْ بِحَمْدِ رَبِّكَ وَأَسْتَغْفِرْهُ

17:42

Glorify your Lord and seek His forgiveness.

17:45

(110:3) إِنَّهُ كَانَ تَوَّابًا

17:46

These are 19 words. The generation before us know nothing about 19. We

17:52

are the generation of 19 and we are the generation that will witness this great victory IN SHA ALLAH.

17:58

And this is why this is the new world that did not receive a message before.

18:04

All the messengers came in the Middle East. So, the message had to come here to America. And

18:12

it is going to Japan. You just look at Naoko there. See, Naoko. Why did God send person from...?

18:20

Are you from Tokyo, Naoko? Are you from Tokyo or where else? From Tokyo. From the heart of Japan. So, you know

18:27

that the message will go there. And now when Naoko goes back, there's going to be true Japanese believers.

18:33

I think that's the last frontier and it will be in fulfillment of this prophecy of SURA 9 or SURA 48.

18:40

Ismail: Don't forget Mexico and Latin America.

18:48

We have the whole world covered. I think we'll have a break before lunch.

35 Friday Sermon by dr Rashad Khalifa Remember GOD Constantly Submitter vs Objector 1989 01 13

La Elaha Ella Allah (There is no god except the one God)

0:24

La Elaha Ella Allah

0:44

La Elaha Ella Allah

1:05

Alhamdu Lillah, We praise God.

1:10

Wa Ash-hadu Alla Elaha Ella Allah Wahdahu La Shareeka Lah.

1:14

And we bear witness that there is no god except the one God.

1:19

I started the machine here and all it said was "La Elaha Ella Allah."

1:22

It was not planned this way.

1:24

But La Elaha Ella Allah is the greatest statement.

1:27

It is the statement that will redeem us and will take us back to God's kingdom.

1:32

God will accept us back if we believe the statement, La Elaha Ella Allah.

1:38

In words and in deeds.

1:41

And yesterday, Mahmood made a discovery,

1:43

I hope I'm not stealing his Khutba next week, but

1:47

La Elaha Ella Allah, you know in Arabic looks like this: لا إله إلا الله

1:55

What Mahmood did, he put the gematrical value of these...

1:59

L is 30, Alif is 1, 1, 30, 5, these are the numerical values of these letters next to each other

2:09

30 1 1 30 5 1 30 1 1 30 30 5 = (19 X 1,584,897,436,901,595)

2:22

This is La Elaha Ella Allah next to each other,

2:26

expressed in numbers.

2:27

And this is a multiple of 19.

2:29

It's quite a discovery.

2:33

Cause as you know, God's stamp on everything is the number 19.

2:40

On you, the number of bones in your body is $19 \times 14 = 266$.

2:48

Excuse me, number of bones is $209 = 19 \times 11$

2:52

and you were in your mother's womb, if you were a full-term baby, 266 days.

3:00

This is what we have in the science books.

3:03

The embryology textbook at the school of medicine right here.

3:07

266 days for a full-term baby.

3:10

and La Elaha Ella Allah, the gematrical value is 19 multiple.

3:16

I want to reflect together with you, myself and you on the question "who was your god last week?"

3:31

Who was your god last week?

3:33

Don't answer me. Don't even shake your head. This is between you and yourself.

3:37

We're gonna, together, reflect on it, me and you.

3:40

Let's start last Saturday.

3:42

Who was your god on Saturday?

3:47

Did you think about God the majority of the time on Saturday?

3:53

When you got up in the morning, did you say Bism Allah Arrahman Arraheem on Saturday?

4:02

Lydia, I said "do not shake your head."

4:04

Now, I know you did. Ok.

4:06

It's between you and yourself.

4:10

Did you do the morning prayer on time on Saturday before Sunrise?

4:18

Who was your god on Saturday?

4:23

You got up in the morning, you mentioned the name of God, Bism Allah Arrahman Arraheem, the first thing when you got up?

4:29

Did you make Wudu (ablution)? And prayed the morning before sunrise?

4:34

This is what God wants you to do. If He is your god, you did that.

4:42

Then, you put on your clothes, you had breakfast. Did you think about the milk? It came from blood.

4:50

There is those glands in the cow that go to the blood as the source and takes out the protein, a whole bunch of vitamin, the right percentage of fat.

5:04

You know you cannot have vitamin A without fat.

5:08

The word fat has a bad meaning these days, but really you cannot have vitamin A without fat.

5:15

It is bound in the fat.

5:17

So, you have to have a percentage of it.

5:20

And those glands of the cow, God created them so they will go and get the right proportion.

5:28

This is why they supplement the milk with vitamins A and D

5:31

because the fat has to have those two vitamins, connected, bound in the fat.

5:37

Did you think about the milk?

5:39

How white it is.

5:40

The standard white is milk.

5:43

We use it as a standard for the color white.

5:46

And it came out of what? Red blood.

5:50

Did you think about this and praise God?

5:53

Was God your god?
5:55
How about the cereal where you put the milk on?
5:58
Where did it come from?
6:00
Did you think about God for the grain go in the ground, germinating,
6:05
giving you seven hundred grains or whatever of wheat or barley or oats or corn or whatever your cereal was or rice?
6:15
Did you praise God for that?
6:21
Maybe, you put some strawberries or bananas on top of the cereal or peaches.
6:26
Do you think about God's creation of the flavor, the texture, the smell, the taste?
6:32
God made those.
6:35
You finished your breakfast. Did you say Bism Allah Arrahman Arraheem before you started to eat?
6:40
There is a commandment in the Quran that says "do not eat from that upon which God's name was not mentioned."
6:46
It's a commandment.
6:48
And if God was your god on Saturday, last Saturday,
6:53
you said Bism Allah Arrahman Arraheem before you ate.
6:58
You see, God is helping you to grow and to develop
7:04
You finished eating. You changed your clothes.
7:10
Did you think about the textiles that make up your clothes, the cotton or the wool or the plastic?
7:17
Whatever it is. God made it all.
7:21
As you dress.
7:25
I bet you forgot to thank God for the heater.
7:30
You got up and it was very cold outside. You take it for granted, you get up
7:34
you take your shower, and you do your prayers and you eat. You're not thinking that the environment in your house is perfect.
7:40
It's not too cold, not too hot.
7:43
You take it for granted, but God, God provided that.
7:48
And then you got in your car to go to work,
7:52
Did you say Bism Allah Arrahman Arraheem before you started the engine?
7:56
Was God your god on Saturday?
8:02
When you came to that traffic light, you said "please God keep it green, as you approached."
8:09
When you crossed on red and you saw that policeman waiting right there, did you say "please God make him blind"?
8:24
I mean you have to think of God the whole time. If God was your god, you'll do that.
8:31
And if God was your god, that policeman was blind. He didn't see you cross on red.
8:35
You become invisible to the police. It's true.
8:44
And during work, did you think about God?
8:48
Very important.
8:49
Because there is too much at stake.
8:55
Your happiness here now and forever depends on that.

9:00
Remember Luke 12: 29-31,
9:03
says "seek God's kingship over you and everything else follows."
9:07
Everything else is fixed for you.
9:11
We are now in an era of distinction between Satan's kingdom and God's kingdom.
9:17
There's a distinction. God's kingdom is perfect.
9:21
If you want to have perfect health, perfect wealth, perfect peace of mind and happiness, you have to be in God's side.
9:34
God is running everything. It's not even funny.
9:39
He left for us just one issue to deal with: whether to be in God's kingdom or in Satan's kingdom. That's it.
9:47
The rest is not even funny. The things, the words we say.
9:52
And we are speaking from experience.
9:55
I just don't know how to express it to you that God is doing everything.
9:58
It's a very difficult concept to understand.
10:01
But first you have to believe it, then God will show you.
10:04
First, you believe. Then, God will show you and prove it to you in a very practical way, in a way that you cannot miss.
10:24
Was God your god on Sunday, Monday, Tuesday?
10:32
There's a system that you have to follow in the Quran.
10:35
Did you tell somebody, I'm gonna do something tomorrow or in two hours, without saying IN SHAA ALLAH (God willing)?
10:41
Or did you say IN SHAA ALLAH?
10:43
God willing.
10:48
Were you afraid that people may laugh at you?
10:50
Or did you say, God willing?
10:57
Did you see something you liked and you said Subhan Allah (Glory be to God)?
11:00
A flower, or the sunrise or the clouds.
11:06
You say Subhan Allah. God be glorified.
11:09
You don't have to say it in Arabic. You can say it in your language. God be glorified.
11:18
Anything that you like, your health, you're eating something and you taste how delicious it is and you enjoy it.
11:26
You thank God for the taste.
11:33
Taste, we take it for granted.
11:35
But when you taste anything, a piece of candy or a piece of meat, you thank God for it.
11:42
Jim Brady, Reagan's press secretary, when he was shot, one of the things he lost was the sense of taste.
11:53
He cannot tell fish from apple.
11:59
This is a blessing that we have and we take for granted.
12:02
When you taste anything, did you say "thank you, God?"
12:05
God be praised.
12:08
This is what it means, God is your god.
12:11

This is why the Quran repeats all those people who do know that God is the Creator of the Heavens and the Earth,
12:17
the one who created them, provides for them,
12:20
but God is not their god. They're going to Hell.
12:22
Why does the Quran repeat that?
12:28
You know, it's gonna take us two, or three or four months to really get into this act and really have God as our god.
12:36
And I'm counting myself for you.
12:38
This is why we have to keep reminding ourselves.
12:42
Don't feel bad that you forget
12:45
or that God was not your god in the last week.
12:48
We're gonna work on it. It's gonna take us a few months
12:56
because Satan is after us.
12:58
So, if you went through this with me and found that God was not your god in the last week, don't feel bad about it.
13:08
Just work on it next week.
13:12
To do that, let us repent.
13:13
Tooboo Ela Allah. (Repent)
13:27
Alhamdu Lillah, (Praise be to God)
13:29
IN SHAA ALLAH, (God willing)
13:33
There are two kinds of people in this world
13:36
and no third.
13:40
A submitter and an objector.
13:42
Every human being you look at is either a submitter or an objector.
13:46
There is no in-between.
13:48
The submitter accepts everything that God does and is happy with it.
13:52
He tells "God, if this is what you want, I accept it cheerfully."
13:56
And he or she means it. They are cheerful.
13:59
They're very happy.
14:00
Remember the sign: Happiness in Submission to God.
14:03
Sometimes, I feel like putting it back, Submission instead of devotion.
14:09
Submission: accepting everything that God is doing.
14:12
The objector objects. He or she doesn't like what God is doing.
14:18
So, the rule is really very simple:
14:22
There are two kinds of people: a submitter who's always happy.
14:26
And an objector who's always miserable.
14:30
And there's no in-between.
14:32
You can also put it the other way around.
14:34
There are two kinds of people:

14:37
A continuously happy person who is a submitter
14:39
or a continuously miserable person who's an objector.
14:43
It's interchangeable. It's the same.
14:47
A submitter is always happy because he or she accepts whatever God is doing.
14:52
Whatever is happening, he or she understands that God has a good reason for it.
15:02
The objector doesn't like what God is doing
15:05
and that's too bad for the objector.
15:06
So, remember that and remember to be a submitter.
15:10
I don't know which comes first, the egg or the chicken,
15:15
but a submitter is always happy.
15:18
And the happy person is a submitter.
15:22
Now, I have a question for you.
15:24
And you can answer me. What is the longest Sura in the Quran?
15:27
Sura number 2.
15:31
And what is the name of it?
15:33
Al-Baqarah, the cow,
15:37
literally in Arabic, the cow.
15:38
Now, Sura number 2, the longest Sura in the Quran, it is full of laws,
15:44
the laws of marriage, divorce, Hajj, prayer, fasting, war, prayers.
15:53
It is full of rules and laws, but what is the name?
15:56
You know who gave the names to the Suras?
15:59
God did.
16:01
So, why did God pick out the cow?
16:04
Of all these subjects in the longest Sura in the Quran, why did God pick out this name, which is rather outlandish, the cow?
16:14
You know, the Heifer in English sounds nice... nicer,
16:17
But Al-Baqarah, it's in Arabic, the cow.
16:20
And in some translations, you've seen the cow.
16:23
Why? We have to think about it together.
16:29
Because it reflects or it teaches us total and absolute submission to God.
16:34
God told the Israelites "sacrifice a cow."
16:40
They didn't say "yes, Sir." They argued. "What kind of cow?"
16:51
And the answer came back "it's a cow that is not too old, not too young."
16:56
And they said "what color?"
17:00
They argued back and forth.
17:04
So, it became more and more difficult for them.
17:12

But do you understand the point
17:14
why did God pick out that name for the longest Sura?
17:21
You tell the Arabs, there's not a single one here. You tell the Arabs "the Wudu (ablution) is 4 steps."
17:27
They say "what's wrong with 9?"
17:30
You tell them God says "do not make distinctions among the messengers."
17:35
They say "what kind of distinction? Distinction on what?"
17:39
This is why God told, the name of the cow, gave the name of the Sura as the cow.
17:47
There's a great lesson there.
17:50
When God says "the Wudu is 4 steps"
17:52
That's it. The Wudu is 4 steps. "Yes, Sir."
17:56
And out of all the commandments in the Quran,
17:59
after the Commandment "Do not make distinctions among the messengers."
18:03
God says "the believers will say we hear and we obey."
18:09
They don't argue back.
18:11
They don't say "distinction in what?"
18:13
They all say that "distinction is what?"
18:19
They're insisting on going to hell.
18:24
So, God is teaching us very early in the Quran,
18:26
that whatever he says, we say "yes, Sir."
18:29
And we do it.
18:31
Without argument.

36 Friday Sermon by dr Rashad Khalifa Revelation of Quran to Revelation of Miracle Importance of Daw

La Elaha Ella Allah
0:29
Alhamdu Lillah.
0:30
We praise God.
0:31
Wa Ash-hadu Alla Elaha Ella Allah Wahdahu La Shareeka Lah.
0:35
And we bear witness that there's only one God. We worship the one God who created the Heavens and the Earth.
0:41
Douglas was supposed to give this KHUTBAH, but somebody called and apologized on his behalf. So, I'm stuck with the KHUTBAH.
0:49
I just chat with you. I will have to go through a lesson in history for a while. Carl Skinner called from Canada
1:00
yesterday. He was talking about Islam to a bunch of students and one student asked him
1:09
He was talking about the miracle in the Quran and how the Quran is mathematically composed beyond
1:15
the human ability on the basis of the number 19. Every letter, every word in the Quran
1:21
mathematically composed beyond the human ability, so we know that this is a book from God. So, that was
1:26
the topic of his lecture. One student asked him "how long was it from the time the Quran was
1:37
revealed to the time the miracle was revealed?" And this is what I'm going to go through with you.

1:45
The prophet Muhammad was taken to Heaven, to the seventh Heaven and the Quran
1:54
was placed in his heart in one night, the blessed night that's mentioned in
1:58
SURA 44, specifically in the month of Ramadan. So, let's call this time zero.
2:07
This is revelation of the Quran.
2:18
The prophet was sent back in the same night and the Quran was with the person, with the soul
2:27
not with the body which requires a process to have released from the person to the body. You
2:34
may have information with you. It is not in your body. It has to be released from your soul to your body.
2:40
It comes in your physical brain. Then, you can... you'll be able to express it by talking and writing or whatever. So,
2:47
the angel Gabriel did this process of mediating the release of the Quran from the soul to the body
2:55
and the prophet started to preach the Quran slowly, three verses at a time and started telling the
3:02
people to worship God alone and, of course, he was persecuted. They told him "you are crazy. You want
3:10
us to worship one God." They threw garbage at his house and at him. They threatened him. They called him all kinds
3:20
of names. Some of them are documented in the Quran. And the people started to believe in
3:28
him secretly. This went on for three years, three years secretly, preaching secretly, hiding, sneaking in,
3:37
praying to God alone, mentioning the name of God alone in their prayers and then when they became known
3:47
inevitably, the people boycotted the believers. They called them all crazy. "You worship God alone."
3:57
"What do you mean God alone?" Sounds familiar, doesn't it? And all the believers were persecuted and
4:04
they were boycotted. They told them not to stay in Mecca. So, they went out of Mecca in
4:08
tents about a couple of miles out of Mecca. They were forbidden from going to the Kaa'ba.
4:14
This is Muhammad and the people with him. And this lasted for, I believe, a year and a half
4:22
or two years. You know, the people of Mecca said you cannot trade with them. You cannot
4:28
talk to them. You cannot marry from them, from their families. Just a total boycott. This ended
4:39
let's say, two years. So, this makes it five years. Three years in secret, two years of boycott. They
4:46
were banished outside of Mecca. So, this makes it five years. And then, Omar joined the Muslims.
4:53
Omar was one of the strongest disbelievers and then became one of the strongest believers. When
4:59
Omar joined, they were able to come out of the closet, so to speak. They became public and then
5:12
the number of believers increased. This is inevitable. The number of believers always
5:17
increase. If you move to another town and you start a Quranic study based... or a place of
5:23
worship based on worshiping God alone and you're all by yourself, you're guaranteed to
5:30
grow. Somebody would come out of nowhere and join you and this will keep happening. When
5:36
you have four people and one of them leaves, two people will come or ten. So, the believers
5:43
increased and the movement became too strong for the disbelievers to stand, so they decided
5:49
to kill Muhammad. And, of course, God protects His messenger and on that night, he was
6:00
inspired to, to emigrate. That was thirteen years after the revelation of Quran. It's called Hijra.
6:15
This is emigration from Mecca to Medina and this is very well documented.
6:23

The dating of the Islamic calendar started from this point. So, this was
 6:30
 year zero for Hijra. From the Hijra, this year is 1409.
 6:38
 We are now in 1409 of the Hijra calendar. Now, when Carl called them asked "when what
 6:49
 was that length of time from the revelation of the Quran to the revelation of the miracle?"
 6:54
 I went back to my documents, here. I have published my magazine called "Islam." It was very luxurious
 7:03
 beautiful colors. Every issue had a different color and beautiful paper. And so, I went broke
 7:10
 after three issues. All I have is three issues. In fact, I started to be cheap after the
 7:17
 two first two issues. I put number three and four together if you... you probably all of you saw that
 7:23
 but anyway I went back to those documents. Now, I know why God made me publish
 7:27
 that magazine with that year: 1974. I also went to the publications in Egypt where I have written
 7:36
 about the miracle and we put it in the biggest... God mobilize all kinds of forces who put it in
 7:44
 the biggest magazines that have the dates on it: the Hijra dates and the regular dates.
 7:50
 And I was able to pin down the time of the revelation of the miracle to one month when the number 19
 8:00
 as the common denominator throughout the Quran became a reality. That was January
 8:08
 1974
 8:16
 And this corresponded to the.. to what... the last month. This is the first month of 1974 corresponds to
 8:23
 the last month of 1393. This is from this point from Hijra, 1393 of Hijra.
 8:36
 So, from the time of revelation of the Quran, you just add 13.
 8:43
 So, here we have three dating systems which gives us happily, three years divisible by
 8:51
 19, every every 19 years. But anyway, we have the Christian Era from the time of Jesus
 9:02
 1974, from the time of Hijra 1393. From the time of revelation of the Quran, this time
 9:10
 here, we can call it Quranic calendar, Hijra calendar, or Christian calendar. So, when
 9:16
 you add these to get from time zero, revelation of the Quran, the total is 1406.
 9:27
 This is the time of revelation of the miracle and this equals 19 times 74.
 9:41
 You can see... you can see the connection, don't you? And 74 is the SURA where the number 19 is mentioned.
 9:51
 So, this pins it down. For the last
 9:57
 couple of weeks, Sammy has been saying 1974. This is the year. This is the SURA. This is the number.
 10:03
 And I'd say "what's he talking about? you first..." I'm not thinking of exactly when the miracle
 10:08
 was discovered. Cause I started the research in 1968 and this was going on and Sammy was saying
 10:14
 "1974 is the year." And I thought he is off by a few years, but turns out he is exactly right. January 1974.
 10:23
 So, what does this tell us? This tells us that all history of Islam from the very beginning
 10:29
 from the revelation of Quran to the revelation of the miracle of the Quran and all these
 10:32
 things have been predestined since before the creation of the Heavens and the Earth.
 10:38
 God put them... I mean, look at the Christian date and the Quranic date. It's 1406 which equals 19 times 74.
 10:52
 So, I think this is enough for one KHUTBAH. So, I am asking you to turn
 10:57
 to God and repent and clean the slate. Tooboo Ela Allah. Repent.

11:15
Alhamdu Lillah, Wa Ash-hadu Alla Elaha Ella Allah Wahdahu La Shareeka Lah.

11:25
We praise God and we bear witness that there is no god except the one God.

11:33
I want to... before I go to another subject... like I

11:37
said I'm just chatting with you, not supposed to be giving this KHUTBAH.

11:44
I want to emphasize the dawn prayer. The dawn prayer. You have no idea how important the dawn... dawn prayer is.

11:52
It dawned on me. No pun intended. It just came out. I was reading the Quran the other day and it dawned on me that

12:03
God used the word the dawn prayer and when we were growing up they taught us to do the morning prayer

12:14
and I noticed that even until now I say I intend to do the morning prayer, SALAT AL-SOBH, in Arabic. That is

12:22
wrong. If you miss... if the sun rises before you do the morning prayer you've missed the dawn prayer

12:30
because the Quran calls it the dawn prayer which means it must be done at dawn and ironically, this

12:39
morning, there's a commercial now, you can hear it. If you listen to the radio, you're gonna hear this

12:44
commercial about a truck driver who... listen carefully, Iman... a truck driver who... he's complaining... it's an Anison

12:54
commercial... and complaining that he's driving long distances and then he becomes stiff after a long

13:00
distance. So, again the commercial's saying "don't stay in the same position for a long time. Get out

13:07
and stretch in order to evade arthritis." And God is telling us to do the dawn prayer for our benefit

13:18
Cause if you want your mental health before your physical health, you have to get up at dawn

13:26
and stretch your... and lubricate your joints at any cost. And we had this problem in Canada when I

13:33
was visiting ten days ago and people were saying how the alarm... they just shut the alarm

13:39
off and go back to sleep and I told them "get the biggest and most obnoxious alarm and put it

13:43
far away... far away from you at the other end of the room cause it's what you needed to do at the

13:49
beginning." The beginning, it is difficult to do the dawn prayer which is an indication to you

13:57
that your soul is too weak and is unable to control your body. This... this gives... this is a thermometer for you

14:07
cause as you do the dawn prayer, as required by God, your soul will grow and your body will become

14:15
become obedient to you. And then it will become easier and easier and then you'll enjoy

14:23
actually getting up for the dawn prayer, but it is for your physical benefit and for your mental

14:29
benefit. Do the dawn prayer. Also if you're here in masjid Tucson, you're a very special person.

14:38
I assure you, you have no idea how special you are and you must... you know the slightest must be perfect.

14:48
You have to do the five prayers. You have to do the dawn prayer cause your responsibility is also great.

14:55
God has given you a great opportunity and, and a great responsibility comes with the deal. So, you

15:06
have to do the, the dawn prayer, please. The five prayers, but I'm emphasizing right now the dawn

15:14
prayer because this is how it is mentioned for your physical health and your mental health.

15:23
The next subject is I sense that some people didn't like Mahmood Abib's KHUTBAH because he was

15:29
talking about another human being emphasizing the miracles... Is Mahmood here? OK. I hope your

15:37
feelings are not hurt. A couple of people maybe didn't like your KHUTBAH last time. The reason is

15:45
Mahmood is presenting a lot of physical evidence that has to do with God's... God... God likes to send...

15:51

God's system is to send information to all of us and it is very exciting and I'm excited along
15:57
with you and the believer that God is sending to us a lot of information, fantastic information
16:04
and God picks out one person to distribute this information and He gave us the evidence
16:11
to do that. So, I want to say that... remind you that Ibrahim was a very good believer.
16:20
God calls him his friend, one who never was an idol worshiper. You and I have been idol worshippers
16:27
some time in our life, but he never was an idol worshiper, Abraham. And this is repeated in the
16:33
Quran so many times. This makes him special and I'm only stating the Quranic facts.
16:42
It's not idol worship when you state Quranic facts since God is the one who said that because when we read the Quran and
16:47
mentions names, God is the one who's mentioning those names. So, Abraham asked God to show him how
16:55
God revives the dead and a rhetorical question was asked "don't you believe?" This is to teach
17:03
us that it does not reflect disbelief or lack of faith but Abraham said "I want to assure
17:11
my heart." So, God is sending all this physical evidence to assure our hearts to strengthen
17:18
our faith and we cannot say "we don't need it, you know, cause we've been convinced long time ago."
17:27
But for 8 years, it was my opinion not to make any announcements or any declarations,
17:36
for eight years. I was resisting that and I was saying "I'll just... together, we will just
17:43
worship God alone and uphold the Quran alone and this is enough." But
17:49
it turns out to be a very important test. In SURA 17, verse 94, God says
17:58
"what prohibited... what stopped the people from believing was that they said that God sends a
18:06
human messenger." In other words, a human being like us being a messenger. The exact words say "what forbade
18:15
the people from believing and asking God for forgiveness is that they said "did God send
18:21
a human messenger?" And those were believers who dropped out. So, it turns out that that
18:28
announcement was a very important test because we are here to sift away... sift away the drop-outs.
18:37
I mean something happens and then that will sift away some people because basically we committed
18:47
a horrendous crime back billions of years ago and this is why we are here to redeem ourselves.
18:55
The original sin is very much a fact, a Quranic fact. And it is not Adam eating freely from
19:02
the tree, either. It goes billions of years before that. So, you notice that God designed the world so the Sun
19:10
will rise at 7:15 like in the last two months to see how many people will pray the dawn prayer.
19:20
So, let's say a hundred people pray when the sun rises at 7:00, 7:15. At 7 o'clock, they're doing their dawn
19:27
prayer. It is perfect. And then the design of the world is that the sun will rise at 6 o'clock in about a month. Then
19:36
15 people will drop out and we have only 85 people praying the dawn prayer because now the Sun rises at
19:42
6 o'clock, too early for those 15. And then in about 4 months, the Sun will be rising at 5
19:50
o'clock and 25 people will drop out and we have 60 people left doing the dawn prayer. The Sun rises at 5
19:58
o'clock and they are doing the dawn prayer, 60 people. And then, in about 6 months I think, the Sun
20:06
will be rising at 4 o'clock and there'll be only... 40 people will drop out and be only 20 who are doing the
20:13
dawn prayer. These are the 20 that God wants back into His kingdom. The other 80 dropped out. The same with
20:22
the fasting of Ramadan. It's just... it's a sifting process, elimination process. God wants in His

20:30
kingdom those who are the real believers who will carry out God's commandments, no matter what.

20:37
And I may be a believer. I'm telling myself "I believe in God and in the Hereafter" and then doing the

20:42
five prayers. I'm doing the commandments, but God knows that there's something in me that must be

20:49
brought out. So, He tells me this person is God's messenger. "Oh, come on." "No, I don't accept that." Then, I

20:56
drop out. I become a drop-out. It's a very important test that is stated in 17:94 and in 14:44. 14:44 God

21:07
says "on the Day of Judgment, there's a whole bunch of people who will say "please God send us back and we'll

21:12
believe in the messengers and follow them." It is not the person. It is God's information

21:17
that we are following all together. It is not the person. In SURA 3 verse 164, God says "it is

21:26
a blessing from God that He's sending information through one of you to distribute this information

21:31
and recite God's revelation." But I realized that that announcement was very important for that purpose.

21:40
I was ignorant. I didn't realize it was necessary. And God has been teaching me that it is necessary

21:47
for that purpose. Because I see people whom I thought were perfect believers, all over the

21:54
world. Let me mention one name, Kassim Ahmad, for example, in Malaysia. A beautiful person. I

22:03
still think he will be saved but at this time he says "I can accept everything but I can't accept

22:09
I cannot accept that you're God's messenger." So, he is temporarily dropped out, but he is a perfect believer

22:18
in my opinion, let's say before the announcement. He was a perfect believer upholding the Quran alone,

22:27
doing the prayers, the duties, the commandments. But then the announcement came and this he dropped

22:35
out. I still have hope for him but he stopped from the political point of view. He says "you were doing

22:42
fine. I did... I don't think the announcement was necessary." I said "this is how I thought, how I

22:47
felt for 8 years." I thought it was not necessary, but God has His system. We cannot go against the system.

22:57
And as you know the announcement started by firing me. I was fired. I was told

23:06
"You're a chicken. You cannot do it. I'm gonna find somebody else. You're going to Hell." And I reached

23:13
the conviction that I was fired. I was lost. I was going to Hell. I really believed that. And I cried

23:20
as I never cried in my life on that night. I remember the date as I remember everything.

23:27
And then, I started repenting and when I reached that point, of course, you don't care anymore. I

23:34
said "I'm gonna make the announcement even if my my children tell me "you're a crazy man. Get out of here."

23:39
Even if I lose my children, my family, my friends. I don't care if I lose everything. When I reached the

23:46
conviction that I will make the announcement without any fear without any hesitation

23:52
and without any fake modesty. Cause modesty if you... if you... if you live a lie that

24:02
is... that is actually arrogance. It's not... it's not modesty. You're a

24:08
civil engineer and you say you're a civil engineer. That is not arrogance.

24:14
It'll be arrogance if you think that this will alienate the people around you by saying

24:20
you're a civil engineer and you hide it. And you say I'm a poor uneducated person like you guys.

24:25
I mean, in a situation for that civil engineer who wants to be friend of the laborers, for example.

24:32
Maybe, I used a bad example but that will be arrogance on his part to say that.

24:40

Also, God wants to teach us that the messengers were just human beings who are not better than anybody around them.

24:52

We have the great lesson from Moses, one of

24:57

the great messengers of God, a prophet who brought the Torah.

25:04

but not just a messenger. A messenger and a prophet and God gave him fantastic miracles: parting the Red

25:10

sea and all these things. And then God sent him to one of Our servants to teach him a

25:16

few lessons. Remember that in SURA 18? So, we learn... it is very important to learn that the messenger

25:26

is a human being who's just as silly as we are. And you can kid around with him and wrestle with him.

25:35

Why are you laughing Lydia?

25:51

So, Mahmood Abib's KHUTBAH was necessary for us to reassure our hearts.

26:03

And you go to Lydia after the KHUTBAH to explain to you why she was laughing.

26:09

I don't wanna have anything mysterious here. So, and she will tell you. Today, IN SHAA ALLAH

26:18

tonight, we'll celebrate Soad's birthday and Hamid's birthday. Who's the cake maker?

26:27

Flory, the best cake makers of... and the Erishen's anniversary. Three occasions.

26:36

And they will only have... we only have happy occasions in this place. This is God's promise. So,

26:44

Aqem Al-Salat. Allahu Akbar. Allahu Akbar.

37 Friday Sermon by dr Rashad Khalifa Original Sin Only GOD Guides Majority of Believers Are Going t

Subhan Allah, Wa Alhamdu Lillah, Wa La Elaha Ella Allah (God be glorified, praise be to God, There is no other god besides God)

0:19

Allahu Akbar, Allahu Akbar (God is the Supreme X2)

0:37

Allahu Akbar, Allahu Akbar (God is the Supreme X2)

0:59

La Elaha Ella Allah (There is no other god besides God)

1:16

La Elaha Ella Allah (There is no other god besides God)

1:37

Alhamdu Lillah, We praise God

1:43

Wa Ash-hadu Alla Elaha Ella Allah Wahdahu La Shareeka Lah.

1:46

And we bear witness that there is no god except the one God.

1:50

The Creator of the heavens and the Earth.

1:55

As you know by now from Sura 38, verse 60 and 69,

2:00

A few billion years ago, we committed a horrendous crime by not upholding God's absolute authority

2:10

and the creatures who, without hesitation, upheld God's absolute authority, the angels, they became angels,

2:24

suggested that all those creatures who did not uphold God's absolute authority should go to hell.

2:33

But God, Arrahman, Arraheem, the Most Merciful told them "I know what you don't know."

2:43

God decided to give us another chance.

2:47

He could have very easily put us in hell.

2:51

That's the only just thing to do, actually,

2:56

but not as far as God was concerned.

3:02

The idea was that there was God and His kingdom,

3:06
and God simply said "those among you who do not uphold My absolute authority, go find yourself some other kingdom."
3:12
And we did not uphold God's absolute authority when Satan started that idea.
3:20
However, this Quranic information tells us or explains to us why people are so bad.
3:34
In Sura 12 verse 103, God says:
3:39
Most people, no matter what you do, will not believe.
3:43
So, now we know why.
3:45
Because basically, we are the bad creatures who did not uphold God's absolute authority.
3:50
And then, two verses later, in 106, God says:
3:56
that of those who believe, which is the minority now, the majority will idolize something besides God.
4:07
So, therefore, a precious minority of a minority will be redeemed,
4:14
and this is why this whole universe, a billion trillion stars, and all these designs,
4:21
the butterflies, and the cattle and the dogs and the horses, and the computers and the cars and the jobs,
4:29
all these things were made just for these precious few to be redeemed.
4:40
People are bad.
4:42
Repeatedly, throughout the Quran, God says only a few of the human beings are appreciative.
4:50
You go and you tell them worship God alone, "God alone", La Elaha Ella Allah
4:56
And they are so averse.
4:58
There is so much resistance to it.
5:02
They're so bad. They're holding... God is giving them a chance to redeem themselves,
5:09
and they refuse it.
5:16
So, we decided here to worship God alone.
5:19
And we decided to denounce our crime
5:23
and not to set up anything besides God, no prophets, no imams, no saints,
5:30
just God alone.
5:31
This is how we get redeemed.
5:33
And we are convinced. We know that God alone possesses all power.
5:39
We know that God alone can help us or wills that we get into adversity.
5:49
God alone.
5:50
We know that the prophets, the messengers, the imams, the saints are all dead.
5:54
And even if they were alive, they were powerless. They can do nothing.
5:58
We know that. We are convinced.
6:00
We denounced our crime.
6:02
and we are very few in the world.
6:08
So, why are we so fortunate?
6:14
I mean, fortunate does not describe God's blessings on us.
6:20

This is like winning a lottery, where...

6:29

We had a fellow here, one of the brothers who had a lottery. He didn't know that lottery was HARAAM (Forbidden by God)

6:35

and he was showing me how four of the six winning numbers were matching.

6:40

And you can imagine when the numbers were coming out on the TV,

6:44

and he's holding this lottery ticket in his hand,

6:46

and the number, the first number matches "Hmm, good sign."

6:49

Then, the second number matches. "Alright!"

6:52

And the third number matches and he gets excited,

6:56

And the fourth number matches "I'm gonna be a millionaire."

6:59

This is four out of six matching numbers, he was getting excited.

7:04

Now, when you decide, when you denounce our ancient crime and decide to worship God alone,

7:13

you've won a lottery with a million numbers.

7:15

It's exactly like that, even more than a million,

7:21

but let's say, take a million numbers.

7:23

And you're sitting... Imagine sitting watching the TV, and you're holding a lottery ticket with a million numbers.

7:30

and the first number matches. These are random numbers. The first number is 17,

7:34

the next one is 732.

7:36

The third number is 816.

7:38

The third number is 1009.

7:41

and the next one is 6 and so on.

7:44

The first number matches. The second number matches. The third number matches and,

7:48

you have one million matching numbers.

7:50

So, this will give you an idea

7:54

since the word "fortunate" will not describe how fortunate we are.

8:01

What I'm trying to share with you in this Khutbah now is,

8:06

why are we so fortunate?

8:09

There is a reason.

8:11

and hopefully, as we share this together, you will understand why you were born at this time in that house, at that place,

8:23

And what brought you here.

8:24

What are the seemingly weird circumstances that put you in this place.

8:30

Why are you here?

8:31

You're gonna understand all this.

8:37

In Sura 21, verse 51,

8:40

Well, let me go back. Let me back up to that incident,

8:44

that Feud

8:46

when we fell into that crime and we decided not to uphold God's absolute authority.

8:54
 Did God - This is a rhetorical question-
 8:58
 Did God know which ones are really bad and deserve to go to hell,
 9:04
 and which ones are really, were swept in the crowd and they deserve to go to the high heaven,
 9:11
 and which ones are so so and they deserve to go to the lower Heaven? Did God know that?
 9:19
 Of course, He knew that.
 9:21
 So, and then the test came, after all the agreements and all the things that most of you know.
 9:28
 Babies are being born in this world and being assigned persons, from that pool of creatures, assigned to the babies,
 9:37
 As they are assigned, God knows if this person is going to the high Heaven, or the lower Heaven or Hell,
 9:45
 So, in essence, you can imagine an invisible stamp on each one of us, that says high Heaven, low Heaven or Hell.
 9:55
 Already stamped.
 9:57
 And here's the proof, in Sura 21, verse 51, God says,
 10:02
 "We granted Abraham his intelligence, or his guidance for we were aware of him,"
 10:11
 Ok, in Arabic, maybe you can grasp a few words:
 10:15
 وَلَقَدْ آتَيْنَا إِبْرَاهِيمَ
 10:17
 We have given Ibrahim, رُشْدَهُ his guidance
 10:20
 مِنْ قَبْلُ before that
 10:23
 وَكُنَّا بِهِ عَالِمِينَ and because we knew.
 10:26
 We knew what?
 10:30
 We knew that he's one of the people who deserve the high Heaven,
 10:33
 And this is why God gave him the understanding, the intelligence, the guidance,
 10:38
 So, Abraham looked at the star, and the moon and the sun and decided to worship God alone,
 10:43
 But it's already,
 10:46
 he didn't, he didn't do anything on his own.
 10:48
 It's kind of difficult to explain.
 10:51
 God gave him the guidance
 10:53
 because God knew that he deserved that.
 10:59
 So, we're not here because we're intelligent,
 11:03
 or because we're smarter than anyone out there in the street.
 11:05
 We are here because we are really fortunate because
 11:10
 obviously we were swept in the crowd when those billions of creatures deviated.
 11:17
 And God knows that.
 11:19
 And this is why you were born at this time, in that house, in that place,
 11:25
 and this is why all those weird circumstances that led you here and made you sitting here in this mosque now.
 11:30
 Because God wanted you... God wanted to give you your intelligence and your guidance.
 11:42
 In Sura 12, you know this verse very well.
 11:45

Yousuf, Joseph, God says... I'm quoting the Quran

11:50

"he almost fell for her and she almost fell for him. If it were not that he saw His signs, his God's, his Lord's proof or sign."

12:03

يُرْهَانَ رَبُّهُ he saw something from God that made him stop.

12:08

So, was it Joseph that was so good that he resisted the seduction, the temptation of the governor's wife?

12:16

or is it...in fact, the next verse says

12:19

"We thus diverted from him sin,"

12:22

We protected him.

12:25

So, does Joseph get the credit for not falling for the governor's wife, or abstaining from sin?

12:33

Obviously not. God is telling us "I diverted him from sin."

12:37

Why?

12:41

Because Joseph had a stamp there, saying "high Heaven."

12:44

Because God knows that he deserves.

12:48

That he was one of the fortunate ones.

12:51

More profound is in Sura 28, verses 68 and 69:

12:58

I'm gonna read this in Arabic and translate it. It says:

13:03

وَرَبُّكَ your Lord,

13:04

يَخْلُقُ creates

13:06

مَا يَشَاءُ whatever He wills,

13:08

وَيَخْتَارُ and He chooses.

13:10

لَهُمُ الْخِيَرَةُ مَا كَانَ لَهُمْ nobody has a choice in this respect.

13:22

We make the decision.

13:25

This is very difficult to explain. I will not explain it. You yourself just read it:

13:30

God creates and He chooses.

13:32

With this introduction that I presented to you,

13:35

you understand now that God knows already, who are the people coming into this world who deserve to go to high Heaven,

13:42

who deserve to be given the guidance and given the understanding.

13:48

It says, nobody, nobody does the choosing. God is the one who does the choosing.

13:52

This is why your read in the Quran "you cannot guide the ones you love."

13:56

The stamp is already there. What can you do?

13:59

It doesn't matter. This is why God says if you cause this Quran to move mount Lemmon from the east to the west, they still will not believe.

14:08

You know I go like this bzzzz, you know, using Quran.

14:11

I'm gonna move mount Lemmon for you folks.

14:14

And you move mount Lemmon like that to the other side of the city.

14:17

They say "magic."

14:19

They say "go join Copperfield's union."

14:24

They will not believe.

14:27
It doesn't matter what you do. They're already stamped.
14:34
The next verse after, God says "God creates whatever He wills."
14:40
This means that He assigns whatever babies in whatever places.
14:47
You know, Kathleen's grandson, Michael, little Michael, cute, white, a real Muslim IN SHAA ALLAH,
14:56
He was assigned to that body in that place, at that time,
15:01
and his grandmother, undoubtedly will sneak in a few pieces of information
15:05
because God knows that he deserves. He deserves to receive some understanding and certain guidance.
15:13
God knows exactly who is to be assigned where.
15:20
This is what this verse means, 28:68
15:24
You can look at it later.
15:25
And in 69, it clarifies the whole thing.
15:29
It says "and your Lord knows what their hearts hide and what they declare."
15:36
And on that basis, God grants the guidance and the understanding.
15:48
So, hopefully,
15:49
with this half of the Khutba, I hope you understand...
15:52
if you just quickly go through your life, and see why you are here,
15:57
you'll understand why these strange things happened and brought you here.
16:01
So, let's turn to God and not only repent but also thank Him for giving us this chance.
16:08
Tooboo Ela Allah, Repent.
16:27
Alhamdu Lillah, We praise God,
16:31
Wa Ash-hadu Alla Elaha Ella Allah Wahdahu La Shareeka Lah.
16:34
We bear witness that there is no god except the one God.
16:37
Only a few years ago, because all our life is just a few years anyway,
16:42
but a few years ago, we were praying wrong,
16:45
we were doing everything wrong.
16:50
We were continuing to commit the same crime, putting names next to God,
16:57
in opposition to this book where every page tells you God Alone, God Alone, God Alone.
17:02
When you pray, the name of God alone.
17:04
The mosque belongs to God, worship God Alone.
17:07
Keeps saying this.
17:08
But we were doing everything wrong.
17:12
And God granted us the understanding and the guidance as He did with Abraham.
17:20
We read throughout the Quran, people,
17:26
You know, all those Muslims, who are not really Muslims, and all those Christians, who are not really Christians,
17:32
and all those people who say they believe in God,
17:39

They're described in the Quran: We ask them "who created the Heavens and the Earth?" They say "God."
 17:43
 They really believe in God, but they don't know God.
 17:48
 And the Quran continues saying "they are going to Hell."
 17:51
 And you're gonna read in my translation, even the old one,
 17:55
 that the majority of believers in God are going to Hell.
 17:59
 This is what the Quran says in several places.
 18:04
 You tell them who is the Lord of the Heavens and the Earth or the Lord of عَرْشٍ عَظِيمٍ or the great authority, the great dominion?
 18:12
 They say "God." But they're going to Hell,
 18:13
 because they don't know God.
 18:15
 And they don't understand this granting of the guidance,
 18:19
 and they don't understand that God is doing everything.
 18:27
 That... an important part of this universe is exposing Satan as an incompetent god with a small "g".
 18:37
 An incompetent temporary god.
 18:39
 So, these constituents of Satan had to be there in order to prove his incompetence.
 18:47
 So, you present all this evidence to a lot of people that God is doing everything. God is in full control,
 18:56
 and the person in front of you is not a believer. There's a stamp here saying "Hell" on them.
 19:02
 and you're presenting all this evidence,
 19:05
 And what will they say?
 19:09
 You show them verse 17 of Sura 8,
 19:12
 8:17 that says "God is doing everything."
 19:14
 You know what they say?
 19:15
 The Quran got their number.
 19:17
 They say they blame God for their idolatry, and for prohibiting things.
 19:22
 Twice in the Quran, God says that idol-worshippers will say
 19:27
 "if God willed then, we will not be idol worshipping, and we will not prohibit things that He did not prohibit."
 19:36
 And by the way, this shows you how important it is not to prohibit things that God prohibited.
 19:40
 They prohibit the meat in the market.
 19:42
 They prohibit hushpuppies and hair brushes that are made of pig hair.
 19:49
 You know, I recommend that they don't eat the brush, you know
 19:54
 but even then, God prohibited only the meat.
 19:57
 But twice in the Quran, God says "the idol worshippers say if God wills, we will not do this."
 20:04
 So, they blame it on God.
 20:05
 "I didn't get up for the morning prayer, Fajr, because God... if God wanted me to get up, I would have gotten up.
 20:11
 God is doing everything."
 20:13
 So, it's a cop-out.
 20:15
 And God got their number.

20:28

I pray to God that He gives us the understanding and the guidance and continues to lead us out of darkness into the light, all the way to the high Heaven.

38 Friday Sermon by dr Rashad Khalifa Purpose of Messengers the Advent of the Pure Quran 1989 03 17

ALLAH-O AKBAR

0:18

ALHAMDULILLAH. We praise God. WA ASHHADU AN LA ILAHA ILLA ALLAH, WAHDAHU LA SHAREEKA LAH.

0:27

I was hoping today that the sermon would be given by General Spooner, but he didn't make it yet. He'll be here tonight.

0:38

Meanwhile, I'm stuck. Cause he graduates this morning... he graduated this morning, 4 hours ago.

0:48

And I was hoping I was gonna catch him to tell us about his experiences in the Marines.

0:55

I don't know if he'll call me "sir" when he comes here. On the telephone he said "no way!"

1:06

And I notice we have a new member. She just joined us. And her name is Rashide, by the way.

1:14

That's a dangerous name these days. Salman Rushdie, and Rashad Khalifa. Now, we have Rashide. What's your first name? What do they...

1:21

Hafiza Hafiza? Rashada Rashada? Rashada. Oh, that's even more dangerous.

1:32

Rashada is the first name? The middle name. The first name is Hafiza. Hafiza Rashada. We welcome the new member to the masjid.

1:41

Mahvash, will you push that door? The noise will...

1:49

So, I'm stuck to give this KHUTBAH and I have no idea what I'm gonna talk about, but I... I put down...this will help me a lot.

1:59

This is something that I distributed last week and I will just go through it with you. It is the May issue of the Muslim Perspective

2:15

which reminds me that month of Ramadan begins on April 7th. So, I congratulate you because this is a big feast for the soul.

2:26

We'll spend the whole day fasting which means you'll be remembering God. And your soul, in one month, will fulfill one of the 5 pillars of Islam.

2:39

I think, inadvertently, it is also a feast for the body. Every Friday, we have that, A feast here. An international potluck every Friday in Ramadan.

2:52

So, this is just to give you some psychological preparation before the Ramadan is here. The issue of May 1989 of the Perspective

3:07

is... the main title is "why did God send his messenger, now?" And we read in SURA number 2 verse 151, that among

3:18

the ways God perfects His favor on us is to send a messenger to recite God's revelations, God's new information to us

3:31

and new wisdom that He adds to our intellect. I'm trying to remember the verse and to teach us new things. This is verse 151 of SURA 2.

3:50

In SURA 43, we read the modes of communication between God and us; how does God communicate with the human beings.

3:59

And we are given 3 different ways. The first one is direct inspiration, that God inspires you directly to do something.

4:10

You're just walking about, going about your life, normally and God inspires you to do something, directly.

4:18

The other method is from behind a barrier like when God spoke to Moses through the burning bush.

4:29

God... God... only God's voice was felt by Moses. Moses didn't see God. He could not see God, but he heard God's voice.

4:40

And the third method is to send a messenger to disperse the information, God's... through the messenger, God will send a lot of

4:50

information. These are the three modes. Now, this issue's one year later after the big announcement, last year.

5:06

And, why did God send his messenger, now? The answer as taken from verse 151 of SURA 2. Cause God loves you and wants to save you.

5:16

And I give here some major reasons for sending God's messenger of the Covenant. Number 1 is that the vast majority of human beings

5:24

are yet to come to this world. If you recall, I put in the introduction and may be still hanging there

5:34

a graph showing how many people came to this world and how many will come between now and the end of the world.

5:40

And I projected that 70 million... 70 billion people will come to this world between now and the end of the world while only

5:51
6 billion came from the time of Adam until now. So, the people who will show up between now and the end of the world are 14 times as
6:00
many as the people who came in the past. So, God is putting the message together, the message of all the prophets together. As we
6:09
see in SURA 3 verse 81. All the prophets came. All the prophets delivered the scriptures. The Quran was the last scripture
6:18
through Muhammad, the last prophet. The last message-bearing messenger was Muhammad. And
6:27
after all... all of them have come and all the messages have been delivered, God tells us in SURA 3 verse 81 that He will send
6:35
a messenger to put all these together in one and crystalize, purify - this a chemical term by the way - crystallization is the highest form of
6:47
purification of any material. And this came inadvertently, but it's to put the messages together represented to this
6:55
vast majority of the world. Vast majority of people. Number 2, the pure Quran that God intends for the world never existed.
7:09
Think about that. The pure Quran never existed. When the prophet Muhammad died, what did he leave?
7:17
He left the Quran written with his own hand in the chronological sequence. In other words, if you open the first page,
7:28
he had SURA IQRA at the beginning, not Al-Fātehah. The first revelation was there.
7:34
And besides it was the instructions as to where it goes in the final Quran that God intends for the world.
7:44
And then, the whole book was written down in that chronological sequence. The last SURA revealed was SURA 110
7:53
"when God's victory comes" (110:1) **إِذَا جَاءَ نَصْرُ اللَّهِ وَالْفَتْحُ** And then the prophet died only a few months after that.
8:01
And he left the Quran in that chronological sequence which is not the sequence intended for the world.
8:10
Abubakr came and he was busy with the wars of reversion. People reverted from Islam and rebelled against him.
8:20
And so did Omar, also. And after Omar came Uthman. Omar had expanded the Muslim world beyond Arabia.
8:33
And it became necessary to write down the Quran in the right order that God intends for the world. So, Uthman appointed a committee
8:47
to carry out the prophet's instructions. They took that original copy in the chronological sequence and they read the instructions and
8:53
they put the Quran together in the sequence that we have today starting with Al-Fātehah and ending with SURA Al-Naas.
9:01
Now, Satan did not leave them alone. When they finished... now the last revelation before SURA Al-Nassr was SURA... SURA
9:11
last SURA revealed in Medina was SURA number 9
9:16
So, after they finished, they said "yeah, let's go celebrate." Somebody said "hey, let's add a couple of verses to honor the prophet."
9:25
So, they added those two verses. And I think you know the story very well. And so, the Quran was written down with two extraneous
9:34
verses in it. Two satanic verses. Satan had to put his... his seed there. And they stayed there suspected
9:44
And all the believers I know were all suspicious of these two verses. They didn't like them. They didn't fit text-wise, meaning-wise
9:54
with the Quran. So, for the first time, next month, IN SHA ALLAH, the Quran will be restored. So, this is another reason, another major reason
10:06
for sending a messenger, now that the pure Quran that God intends for the world never existed. It will exist for the first time
10:15
next month, IN SHA ALLAH. Number 3, Islam has been distorted by the Muslims into a Satanic cult. The Islam around the world, you can see,
you can tell
10:30
from what they're doing. I think I announced today that they know now the person who put the bomb on Pan American flight
10:41
where 270 innocent people died and that person is quote, unquote a Muslim. He made the whole world angry. He gave Islam a bad name.
10:54
We know what Khomeini is doing to the freedom of expression, speaking in the name of an Islamic Republic, a Muslim leader
11:03
and we know what Ben Baz say about the Earth being flat. They're just setting all the examples that Satan wants to set for a religion.
11:14
It turned into a Satanic cult. According to their religion, which is no longer has anything to do with the Prophet Mohammad
11:24
you kill the person who does not pray the 5 daily prayers, you kill the person who drinks alcohol for the 4th time, you kill the adulterers

11:35
you kill the person who reverted, according to the measures from Islam. So, this takes care of 99.99% of the Muslim world itself. Kill, kill, kill.

11:47
And, this is... this justifies why they could kill any time they want to cause according to their laws, there is always a reason to kill

11:54
somebody. "Just give me anybody, and I give you a reason to kill them."

12:00
That's a Satanic cult. Number 4, the Muslims are doing everything wrong in defiance of the Quran.

12:11
For example, I put this under number 6. They do the call to prayer, AZAN, wrong.

12:18
You know they say اشهد ان لا اله الا الله - اشهد ان محمد رسول الله - اشهد ان لا اله الا الله - الله اكبر - الله اكبر - اشهد ان لا اله الا الله - الله اكبر - الله اكبر

12:23
Right there they already violated the commandment that the mosque belongs to God. You should mention God's name only in your practices of worship

12:32
and depends on where you are, you can also go on اشهد ان على ولي الله اشهد ان اهل البيت حجة الله

12:40
So, it all depends on where you are, but either way there is not a single mosque in the Muslim world

12:46
that follows this commandment that the mosque belongs to God, you shall mention only God's name.

12:53
Number 7, they do their ablution wrong and if you don't believe it, ask Abdullah when waiting in line for ablution in Turkey.

13:01
You know, the people have already started the prayer and these people are going through their 9 steps of ablution

13:07
trying to get every hair, you know, because there is a hadith that says... there's a hadith that says if you leave a hair dry

13:14
it will go to hell. They separate this hair or something, sending it to hell. So, they make sure that everything is wet.

13:33
Number 8, they do their contact prayers, the SALAT, wrong. God says in SURA 20

13:38
(20:14) أَقِمِ الصَّلَاةَ لِذِكْرِي Singular. Observe the contact prayer to commemorate Me. Singular.

13:45
But all of them, they mention Muhammad, ALE Muhammad, Ibrahim, ALE Ibrahim, Muhammad and his family. Abraham and his family.

13:52
in their contact prayers. And this is by definition polytheism or SHIRK, idol worship.

14:00
Number 9, they do their ZAKAT, obligatory charity, wrong. According to their laws, now, they give their charity

14:12
2.5% of your savings above 50 dollars that are one year old, once a year. This is the law of charity over there

14:21
which means the poor will die of starvation by the time you do that. Now, if you look in the Quran

14:28
in SURA 6, we learn that charity must go out whenever you receive money. Any money that enters your pocket and is yours, the net

14:37
you take 2.5% out of every 100 dollars. 2.5 dollars, you give them away to your relatives not to anybody else.

14:49
This is the ZAKAT, the obligatory charity. If you wanna build a school or a mosque or a hospital, that is general charity. That's something else.

15:00
But 2.5% of your net income must go to the poor immediately. Which means a continuous flow of money from people to the relatives

15:08
their parents and their cousins and their sisters and brothers and so on. That's the correct way of doing ZAKAT.

15:16
And the Quran gives the ZAKAT so much importance, God says "My mercy encompasses all things, but I will designate it for those who give the ZAKAT."

15:28
So, this shows, in other words, if you don't give the ZAKAT, you're out of God's mercy. It is very important and they don't do it.

15:40
Number 10, they do the fasting of Ramadan wrong. Just watch what they're starting fasting in the other place.

15:47
They never start on the right day. They never end on the right day because a hadith says "you must see the moon with your eyes."

15:53
Well, if you see the moon with your eyes, it's too late. It's already past the time.

16:00
And then, they turn into the most obnoxious creatures during fasting, they become on being hungry and thirsty

16:07
almost fighting. You're supposed to be the nicest person during Ramadan because you don't wanna nullify your efforts.

16:16
When you're driving in the street, you're not gonna rush in front of somebody. You don't wanna offend anyone

16:23
because you're very careful not to ruin your fasting. All that month, you're the nicest person in the world to everybody.

16:35
Number 11, they do their Hajj pilgrimage wrong at the wrong time. Pilgrimage, in the Quran, is month, 4 months. Not one day.

16:48
The government of Saudi Arabia want you to do it in one day and get it over with. "Get them out of here." But it is supposed to be 4 months.

16:56
How do you jam 2 million people in one city in one day? Well, you can imagine, you know.

17:04
You can imagine... when I did the pilgrimage with my parents, I told them "you stay here. Then, I'll do it on your behalf."

17:09
Certain things were in the crowds. Because they will die. People die. They're trampled under the feet.

17:17
And they have the stoning of Satan's ceremony or whatever. They're just gruesome. I was worried about myself.

17:29
Also, they ruin the pilgrimage by going to visit the prophet's tomb. The prophet is not there. Not even his dust is there anymore.

17:39
They go... I don't know what they go for. And I wrote in the Perspective, you know, "tear down the prophet's tomb."

17:47
And some fanatic Saudi Arabian, very angry, very hot called and left a message on the telephone machine trying to prove that

17:55
the prophet is not buried in his mosque. He's buried in his house. So, there's a hadith that said

18:03
There's a hadith, ironically, that the prophet said "God cursed the Jews and the Christians because they made their prophets'

18:11
tombs into mosques" which is not really the case. The case is the opposite. The Muslims are the ones who did that.

18:19
So, he was trying to convince me that the prophet is buried in his house, but it's the people who put the house in his mosque.

18:26
in a mosque. So, either way, the Muslims are wrong in their pilgrimage.

18:32
Number 12, I put, if the Muslims continue as they are, they will go to hell. OK. So, these are some of the major reasons.

18:40
Why now... Just look at yourself and myself when we were doing the SALAT wrong and the fasting wrong and the ZAKAT wrong.

18:50
And God is looking at us. If He cared about you, would He not send somebody to correct you or some instructions, somehow?

18:58
If He really loves you, He will say "hey you're doing this wrong. You're not making contact with Me. You're wasting your time."

19:06
"This is how you do it right." So, verse 151 of SURA 2 explains that. "I'm perfecting My blessings on you by sending a messenger."

19:17
And this is throughout the times. But now especially, when you look at all this

19:25
because God really loves the people and is giving them a chance to redeem themselves, He did not just sit and watch them go wrong.

19:36
God decided to send corrections to you and to me and so... so, we don't waste our time. Obviously, God knew

19:47
that we are sincere. We are seeking Him. We want to worship Him. And we want to redeem ourselves. And obviously, we deserve

19:55
these instructions, but God says that in the Quran that He knows the innermost thoughts and accordingly, He guides

20:03
the people who deserve to be guided and He keeps away the people who don't deserve to be guided.

20:19
I am mentioning in the front of page of this issue that as detailed on page 2, every single reason listed above is supported by irrefutable

20:26
physical evidence from the Quran and from its formidable mathematical code. Then, at the bottom, I put another note

20:37
"during the last 12 months, I presented overwhelming Quranic mathematical proofs that I am God's messenger of the Covenant."

20:44
and NOT a single Muslim scholar came up with a single reason why I could not be God's messenger. Their silence is very significant.

20:54
Why can't they come up with one reason? TUBU ILLA ALLAH, repent.

21:12
ALHAMDULILLAH. We praise God. WA ASHHADU AN LA ILAHA ILLA ALLAH, WAHDAHU LA SHAREEKA LAH.

21:18
And I bear witness that there is no god except the one God. With this second year, the new year... the first year was rather harsh just to shake somebody and to warn them and wake them up.

21:41
But IN SHA ALLAH, we will enter into a period of... of love and tranquility and compassion and we'll see

21:52
hopefully, it will work to save a few people. There will be no more anger cause we did the work.

22:06
 In the last... in the last many years in the past, we started out by being very nice and it didn't work. And then, I got louder and louder.
 22:18
 But this... this is the way, God wants it if you see the Quran and the sequence of the progression of the message.
 22:29
 It is simply because you see somebody... there's a big ditch here. And somebody's going to fall in it. So,
 22:37
 you first say "hey! you're gonna fall in the ditch." But the person doesn't hear you and keeps going towards the ditch.
 22:43
 You're gonna shout louder. "Hey! you're gonna fall in the ditch." If he ignores you, maybe, he's deaf. Then, you start to get physical.
 22:53
 You'll go there and try to pull him. You're trying to save him. So, but this is how the progression is.
 23:03
 Now, the Quran tells us. Let me get a Quran and share a couple of verses with you.
 23:19
 43:21
 23:33
 The response to every messenger was this. What they said was "we found our parents doing this and we simply follow their footsteps."
 23:46
 They don't want to change what they inherited from their parents. "Thus, whenever We sent a warner to any community,
 23:55
 the leaders said "we found our parents following certain practices and we are following their footsteps."
 24:02
 In other words, we don't want to change.
 24:07
 The messenger would say "what if I showed you better guidance than that of your parents?"
 24:13
 "They said we reject whatever you bring." Consequently, We punished them. Note the consequences for the rejectors.
 24:24
 It seems in the Quran that this always happens. And we are certainly seeing it although not as bad as in the past, actually
 24:37
 as I will share with you in a few moments. In SURA 23, verse 44
 24:46
 "Then, We sent our messengers in succession. Every time a community received their messenger, they rejected him." Every time.
 24:57
 And this is past tense. "Consequently, We annihilated them one after the other and We turned them into history.
 25:04
 Doomed are the people who do not believe." In SURA 40, verse 5
 25:17
 "Rebelling before them were the people of Noah and communities after them. Every generation persecuted their messenger
 25:26
 seeking to neutralize him and they argued with falsehood to make it dominate the truth, but I overtook them. How terrible
 25:34
 was My retribution."
 25:46
 So, this seems to be the general trend. There's something different this time.
 26:06
 I'm slowing down for Mohtasham and Frank to come back.
 26:27
 In the end of SURA 40, we read the following verses. "When their messengers went to them with clear revelations" or clear miracles
 26:34
 or clear signs, "they were satisfied with the knowledge they had." They said "this is what we like. This is what we know now."
 26:42
 "The very thing they ridiculed caused their doom. Then, when they saw our retribution, they said "now we believe in God alone
 26:53
 and we reject the idols we have set up." But it's too late. See, once the retribution is here, it is too late. "But alas their belief is no longer
 27:02
 useful once they see Our retribution. This is God's system that is never changeable. The disbelievers are always losers."
 27:13
 Now, we see throughout the Quran. I don't need to go through these verses with you. But we see guarantees of victory for the believers
 27:21
 and for the messengers, God's messengers. And especially, in the last SURA of the Quran, last SURA revealed chronologically.
 27:31
 which says "when God's victory comes and you the people embracing God's religion in great numbers."
 27:37
 This SURA consists of 19 words. And the first verse consists of 19 letters which means what? Means this is intended for us.
 27:47
 And from all signs that this message of worshiping God alone, people are receptive everywhere in the world, all over the world.
 27:56
 There are so many people. I'm really surprised how receptive people are. And you can see the sincerity in their writings, their letters
 28:04

their telephone calls, in their behavior. I mean, I don't think it ever happened before in history that in the lifetime of the messenger
 28:17
 he delivered the message to this... this many people. Certainly, never. I mean, the message, this message, worshiping God alone
 28:25
 upholding the Quran alone has been delivered to more people than the people that Noah, Abraham, Moses, Jesus and Zachariah
 28:33
 and John and all these people delivered in their lifetime combined multiplied many times over. I'm talking about just the delivery
 28:41
 of the message. But the people who believed are overwhelmingly even more. You know how many people were with Jesus when
 28:49
 he... when he finished... when he completed his message. He had a dozen of people... a dozen people.
 28:54
 And you see in our conference, we have hundreds of people. ALHAMDULILLAH. And this last conference were 150 people
 29:02
 approximately. And these are sincere believers. I mean, I screened them. There may be two or three exceptions there.
 29:11
 But these are really people who believed in worshiping God alone, devoting their worship to God alone. They corrected their practices.
 29:20
 And they uphold the Quran alone. So, this is really victory. And we should be thankful to God that...
 29:29
 that it is not any more popular than this. I don't know how to put this but because we'll have... we will have no time to do anything else
 29:39
 but as it is, we have time now to get the translation out, to get the principles out, to get the information out.
 29:47
 And we don't need any secret service or crowds out in the street or anything like that.
 29:58
 I believe that every messenger's really for the future generations not for his generation.
 30:04
 But all these people who are... this is very pleasing to our hearts to see so many people now believing and worshiping God alone.
 30:14
 And this is the criterion that tells you that you are right. Because the Quran said that every party is happy and pleased
 30:22
 with what they. And we have to... to... to examine ourselves as to are we right or wrong? Are we fooling ourselves?
 30:33
 So, your criterion is with your worshiping God alone, upholding the Quran alone. AQEM AL-SALAT ALLAH-O AKBAR. ALLAH-O AKBAR.

39 Friday Sermon by dr Rashad Khalifa Why Announce Messengership 1989 08 11

Subhan Allah, Wa Alhamdu Lillah, Wa La Elaha Ella Allah
 0:27
 Allahu Akbar (x4)
 1:09
 La Elaha Ella Allah
 1:26
 La Elaha Ella Allah.
 1:32
 Alhamdu Lillah, We praise God.
 1:35
 Wa Ash-hadu Alla Elaha Ella Allah Wahdahu La Shareeka Lah.
 1:40
 And we bear witness that there is no god except the one true God.
 1:47
 Mat was supposed to give this Khutba but he was kind enough to make an exchange with me.
 1:52
 So, he will give the Khutba, IN SHAA ALLAH, next Friday.
 1:55
 And I will give it today since I'll be out of town, IN SHAA ALLAH.
 2:04
 Also, there are some exceptional circumstances, I think,
 2:08
 in my opinion,
 2:10
 where there has been... the question has been increasingly bugging me
 2:19
 because it is, some of my best friends, some of the people that I love very much are asking the question
 2:27
 "Why announce messengership?"
 2:29
 "Why does Rashad say that he is messenger of God?"

2:33
And I want to deal with this question.
2:38
"Why can't we worship God alone and forget about messengers, and messengership and all this business?"
2:46
And it is a very good question.
2:50
A very important question.
2:52
But I want to start out by saying that,
2:55
when you walk through this door,
2:59
you carry a great responsibility,
3:03
you are either extremely fortunate or extremely miserable.
3:08
And hopefully, if our destiny Inshā Allah is Heaven for worshiping God alone,
3:15
we will not see any of our friends become extremely miserable.
3:19
We have to be all, we must all catch up with being extremely fortunate.
3:27
The Quran describes "the Elite of the Elite" or the extremely fortunate ones, are those who are close to Us.
3:34
When you walk in this mosque and you get this message first-hand,
3:40
there's a great responsibility that goes with it.
3:44
When you walk through this door, you are applying for the highest position in the Hereafter for eternity.
3:55
And you can just imagine the responsibility, if you think of what do we go through in this life to be an engineer or a pilot or a doctor or a lawyer.
4:09
We have to go to school. We have to spend nights up. We have to take tests.
4:14
We have to flunk a few times and struggle.
4:19
And this is for a job that will last 20 years, will last nothing, will last zero mathematically.
4:28
Cause if you compare any number divided by infinity, you have zero.
4:32
Even if you go to this university of Arizona to get a degree to be an engineer,
4:39
you get a job for a thousand years, let's say,
4:42
That's zero.
4:45
When you come here, you are applying for the best position for eternity.
4:50
Therefore, the test is not easy.
4:53
It is not easy to accomplish that test.
5:03
I don't wanna miss anything because the question is very important.
5:06
"Why make the announcement that Rashad is a messenger of God?"
5:10
"And why dwell on it?"
5:13
Well, first of all, it's not my idea.
5:17
As you know, I tried to evade it for eight years.
5:22
because it's not easy for me either.
5:25
And I did not make the announcement until I was fired.
5:29
And I was scared to death. And I cried. I cried as I never did in my life.
5:35
So, I was thrown into it, into this announcement.

5:44
"Why can't we just worship God alone and forget about the messenger and the messengership?"
5:50
"What's wrong with that?"
5:52
You see, belief in God implies believing God and what God says.
5:58
If you believe in God, and you worship God alone, this means you believe everything that God says.
6:05
And God says in the Quran, I am sending... I have angels. There are angels.
6:10
If God says there are angels and we believe in God, then we must believe that there are angels.
6:17
God says "I sent down scriptures."
6:21
And if you... if we believe in God, you believe that God sent scriptures.
6:26
And God said "He is sending messengers."
6:29
Then, you must believe what God says, that He sent messengers.
6:34
God said "I sent Moses." Then, we must believe that.
6:37
Because if we believe God, we have to believe God, what God is saying.
6:41
God said "I sent Jesus."
6:44
This means we have to believe that Jesus is a messenger of God.
6:48
And we see this in verse 285 of Sura 2:
6:53
God says "the messenger and the believers believe in God, His angels, His scriptures and His messengers."
7:02
This does not violate the principle of worshipping God alone.
7:06
On the contrary, it affirms it.
7:11
Because, if you believe...
7:12
You cannot say, I'm gonna worship God alone but I don't believe everything He says.
7:17
You have to believe what God says.
7:29
God said that Muhammad was the last prophet, the last message-bearing messenger,
7:35
but not the last messenger.
7:36
He said that. We have to believe that.
7:38
In Sura 33, verse 40, and in 33:7
7:46
In 3:81, God said that after all the prophets, God will send a messenger.
7:50
We have to believe that.
7:53
We cannot say "we're gonna worship God alone and forget about any messenger that He sends."
7:58
In fact the verses after 81 say,
8:02
"Anyone who does not accept this is out of the religion of Islam"
8:07
using that word "Submission," the word "Islam."
8:18
I want to share with you the verse 15 of Sura 49,
8:22
because it is very powerful and very straightforward dealing with this subject.
8:29
"Why does Rashad announce his messengership?"
8:34
49:15 and 16 say:
8:38

that the real believers are those who believe in God and His messenger, then have no doubt.

8:45

They have no doubt.

8:48

And God said, **يَا لَلَّهِ وَرَسُولِهِ** God and His messenger,

8:53

Therefore, it is a tremendous test.

8:58

We cannot fool God.

9:00

If there is anything in our heart, if we are not really believers, real believers, we cannot just say it with our mouth.

9:10

We cannot fool God. God will have to bring this out.

9:13

And I believe this is why God forced me to make that announcement,

9:17

because some people had to be tested.

9:21

Some people already dropped out.

9:23

They don't deserve that high position that we are all applying for.

9:28

Don't get me wrong though. It is perfectly alright to have doubts.

9:32

But you must conquer those doubts.

9:35

Verses 15 and 16 of Sura 49 say:

9:40

You are a submitter. Do not say you are a real believer, yet.

9:46

So, this means, for as long as you are a submitter, or in Arabic, Muslim, you have doubt.

9:52

Perfectly alright.

9:54

But don't let the doubts conquer you. You must conquer the doubts.

9:58

Because the verse after this says:

10:00

That the true believers are those who believe in God and His messenger and have no doubts.

10:04

I'm gonna say it in Arabic:

10:06

إِنَّمَا الْمُؤْمِنُونَ The real believers

10:09

الَّذِينَ ءَامَنُوا بِاللَّهِ وَرَسُولِهِ ثُمَّ لَمْ يَزِيدُوا

10:14

Those who believe in God and His messenger, then have no doubts.

10:17

We are a family. We are one family in this mosque.

10:24

There are no strangers here.

10:27

We have been like this for a while because we went so fast that nobody, anybody who walks in here, they feel so much stranger. They cannot stand it.

10:37

So, this is why you see the same people continuously.

10:41

And until we became a family, which is in Sura 49 also.

10:45

God says the believers are a family.

10:47

إِنَّمَا الْمُؤْمِنُونَ إِخْوَةٌ The believers are brothers and sisters.

10:51

So we've become a family and we care. We want all of us to be at this highest position in Heaven.

11:00

Because if we come this close and drop out, we're gonna be in the most pain.

11:06

We're gonna be in the worst Hell in the Hereafter,

11:10

And being one family, we don't want any of us to do that. We don't want this to happen to any of us.

11:16

In Sura 57, I'm gonna... This is scary.

11:25

Again verses 15 and 16, same verses as in Sura 49, same number of verses,

11:34

It says "the hypocrite men and women on that day, on the day of Judgement, will tell the people in Paradise, let us look at you so we can derive some of your light."

11:49

The believers in Heaven will have the energy, the provisions,

11:57

and the believers will tell them go back and get light somewhere else.

12:04

Now, the scary verse is verse 14, excuse me, Sura 57, it says:

12:11

"They will call on them and say, were we not with you?" We were with you.

12:17

The hypocrite men and women will say to the believers, we were with you. Were we not with you?

12:23

أَلَمْ تَكُنْ مَعَهُمْ in Arabic. Were we not with you?

12:26

And the believers will say "yes, but you deceived yourselves,

12:35

waited," you know, dillydallied, in the colloquial English, dillydally around,

12:42

"And you had doubts,

12:46

and you were deceived by wishful thinking, until God's command came."

12:52

OK. So, can this happen to us? I mean, It has to happen, it has to happen to... to... in connection with us,

13:03

We're going to grow in the future.

13:06

And there will be hypocrite men and women who will come here, who'll be with us.

13:10

And they will ask this question on the Day of Judgment and eternity. They will say "were we not with you?"

13:14

"We came to the Quranic study with you. We came to the Friday prayer with you. We sat with you and we were friends."

13:20

And the believers will say "yes, but you had doubts."

13:25

Therefore, you must work on your doubts,

13:28

and you must conquer those doubts.

13:31

And God made it connected with God and His messenger.

13:35

And I learn from this, why the announcement.

13:38

I have seen the people who dropped out

13:42

And they were invariably the people that I have known all along that they don't belong.

13:47

And when the announcement came, the sifting process started which is very necessary.

13:56

"Why can't we just believe in God alone, worship God alone and forget about the message, the messenger, or everything else? God alone."

14:03

Satan can deceive you through that statement.

14:08

We must be wise because worshiping God alone implies believing everything God says.

14:16

And God says very clearly certain statements including:

14:22

that Muhammad would be the last prophet but not the last messenger,

14:27

that a messenger comes after all the prophets,

14:30

a consolidating messenger who will put the messages all together into one, present it to the world.

14:36

The Messenger of the Covenant.

14:39

And the verses after the Messenger of the Covenant are very strong and saying:

14:44

"Those who do not believe this are out of Islam."
14:47
God is saying all this.
14:49
and God spelled the name of the Messenger of the Covenant, Rashad Khalifa.
14:53
God spelled it in the Quran.
14:54
And if we are to worship God alone, we have to believe what God said.
15:01
Edip and I were talking yesterday on the index to the Quran,
15:04
which ironically was published, printed and published, one year before I was born,
15:10
and in it, the root word "Rashada" is 19 times.
15:14
And I thank God that I didn't discover that.
15:17
It wasn't me. It was Edip actually who discovered it.
15:19
First person ever.
15:21
And if you remember the Khutba, those of you, the old timers, remember the Khutba that I gave about that.
15:26
And I was thankful that I didn't discover it. I was afraid of my ego.
15:30
that I may say, it's my ego, I was looking for it. I didn't even look for... I was afraid to look for that.
15:36
So, it came from the other side of the globe.
15:46
If we want to worship God alone, we must believe everything God says.
15:50
Tooboo Ela Allah. Repent
16:09
Alhamdu Lillah. We praise God
16:11
Wa Ash-hadu Alla Elaha Ella Allah Wahdahu La Shareeka Lah.
16:14
I'm gonna borrow this example from Edip again.
16:19
If you get ill and you go to somebody and he says "take these pills."
16:27
and you take the pills and you're healed,
16:32
and this happens again two or three times and every time he gives you some medicine, you're healed.
16:38
Then, you will make a conclusion saying "this person knows medicine."
16:43
You're gonna have doubts for some time.
16:47
You're not sure if he is a witch doctor or a real doctor or is it coincidence or what.
16:54
But if he is a certified doctor and he gives you the medicine, then, you'll have... you'll trust this person.
17:04
You don't have these doubts anymore.
17:06
And this is why God ordered the announcement.
17:14
It was... I was... I was promoting this opinion "let's worship God alone."
17:20
Spread the word in the world that we're gonna follow the word of God alone, the Quran alone and worship God alone."
17:24
Why? Why the announcement?
17:27
I actually believed this for a long time.
17:29
And I remember I was talking with Ismail Barakat
17:36
Some of you who participated in the noise of the first conference in San Francisco,
17:42
and Ismail was very angry,

17:46
and he determined to ask me, point-blank, "are you a messenger of God?"
17:52
Now for eight years, I was praying to God that nobody would ask me that question, point-blank.
18:00
Some people did ask me "Are you a prophet?" And I said "Muhammad is the last prophet."
18:05
I was very clever and I avoided that for a long time.
18:09
And I was praying that nobody would ask me the question.
18:13
Now, when that noise happened in San Francisco,
18:15
and Ismail, he's gonna be here in a week or two. He's getting here very soon,
18:20
I'm gonna ask him to tell you that story
18:22
because he swears that he was determined to ask me, point-blank, "are you a messenger of God?" in San Francisco.
18:30
And when that noise happened, I prayed very hard, as I never prayed before.
18:34
"Please God, don't let anybody ask me that question"
18:37
Because Susan Ray, if you remember, made an announcement and said "Rashad Khalifa is a messenger of God."
18:42
I wasn't ready for it.
18:44
And I prayed very hard.
18:46
And Ismail until today would say "I don't know how it happened, but I didn't ask that question."
18:52
So, I guess my prayer was stronger than his determination.
18:57
Because I wouldn't, I would have told him "yes" at the time.
19:02
Because I knew it for eight years.
19:04
And I evaded it for eight years. It was not my idea.
19:08
So, why? why would anybody...
19:13
I want to deal in this Khutba with the question "how to overcome the doubts?"
19:18
So, don't let me finish without answering the question. How can you overcome that doubt?
19:23
But before I say that, I want to explain why does the person flunk and drop out if he does not believe that Rashad Khalifa is God's messenger of the Covenant,
19:36
Or if he is annoyed by this repetition or dwelling on it.
19:42
It is not a fact in his or her mind.
19:46
And the answer is in Sura 45, verse 23
19:49
which tells us the last god that we may have besides God.
19:54
It says: "Have you seen the one whose god is his ego?"
19:58
his or her ego.
20:01
If God is saying there is a messenger after Muhammad, what does he look like? What are his qualifications?
20:08
What are his qualifications?
20:10
Is he gonna be somebody with wings?
20:13
A strange-looking person or what?
20:17
Is he gonna be a human being like us? one like us?
20:20
Maybe even a silly one.

20:22
Why are you laughing?
20:28
What will he look like?
20:30
So, why then should we not believe God?
20:33
when He's telling all these things and spelling the name in the Quran.
20:39
If you read appendix two of the new translation,
20:41
you'll see how much evidence there is. God is not subtle. God is not subtle.
20:47
God's evidence is so powerful, it's not even funny. It's so overwhelming.
20:52
So, this helps the believers remove all doubt,
20:56
but the ego would be the only thing.
21:00
"Why, you know, why, why does he say he's messenger of God?"
21:06
It's only the ego because the ego is there.
21:10
This is why in the beginning of the Quran, it tells you to kill your ego.
21:14
"Kill your ego."
21:15
Because this is we're applying for the highest position in the Hereafter.
21:20
Ok. How do we overcome the doubt?
21:28
What is the source of the doubt?
21:30
If you know the source, you'd know how to counter it.
21:33
That the source of the doubt is your companion, your jinn companion.
21:37
Your jinn companion is lagging behind slightly, usually slightly behind you.
21:44
You come. You look at the evidence. You look at the circumstances and as a human being, you make a decision: I believe.
21:52
But your companion is behind and he will raise those questions.
21:56
And the way to counter those doubts is to counter with questions.
22:02
You must have this debate going on in your head with your companion.
22:07
Ask him or her questions like:
22:12
What does Rashad advocate?
22:15
What is he advocating?
22:18
And debate it with your companion, your jinn.
22:21
We're all advocating the worship of God alone, upholding the word of God alone. We can't go wrong.
22:29
The Quran repeats that the only unforgivable offense in the Quran is idol worship.
22:34
Therefore, we run from idol worship as fast as we can.
22:40
And we have come to the pure worship of God alone.
22:44
We know that only God possesses all the power.
22:48
We know that.
22:49
Nobody else possesses any power.
22:52
And it's between you and God. God will heal you. God will provide for you. God will make you content and happy. Sura 54:
23:01

God is the one who controls your happiness or misery.
23:04

God is the one who controls your income.
23:06

God is the One who makes you reach or poor: **وَأَنَّهُ هُوَ أَغْنَىٰ وَأَقْنَىٰ**
23:11

God is the only one who makes you rich or poor.
23:13

Nobody else.
23:15

Not the lottery, not the person who hires you for a job, nobody.
23:20

We know that.
23:22

This is what we advocate.
23:23

So, ask your jinn companion that question: what does Rashad advocate?
23:28

Ask him: Is this wrong?
23:33

What we're doing, is it wrong to worship God alone, to uphold the word of God alone?
23:38

Should we go to the words of men?
23:44

And the Quran prohibits that.
23:47

I think I shared with you the great miracle of the word: Alone.
23:51

The word "Alone" happens in the Quran six times.
23:57

5 of them refer to God.
23:59

Worship God Alone.
24:01

And one of them refers to the Quran.
24:03

And the Sunnis and Shias and the other sects claim that that "alone" in Sura 17:45 refers to "God Alone" in the Quran.
24:14

It says "when you preach God Alone in the Quran, they run away in aversion."
24:22

which is they take the word "alone" and put it after God, instead of after the "Quran."
24:27

What it says really is "when you preach God using the "Quran alone", they don't like it, they run in aversion."
24:33

Now, if you add the Suras and the verses of the 5 references to God,
24:39

you'll have a total of 361 = 19 X 19
24:42

This is the most powerful commandment in the Quran.
24:46

And it is in the book, the index.
24:48

You just look at the Sura and the verses and they are 361.
24:52

If you add the one that refers to the Quran, you don't have anything.
24:55

The system collapses.
24:57

What does it tell us? It tells us that God says "you follow the Quran alone." And this is what we do here.
25:03

You ask your jinn companion: Is this wrong?
25:06

Number 3: you ask your jinn companion, does Rashad have any proof?
25:12

Also, what's the difference between a real messenger and a fake messenger?
25:17

The real messenger advocates the worship of God alone,
25:21

possesses proof. God gave him proof that you must have no doubt that this proves that this person is a messenger of God.
25:29

And challenge yourself and challenge your jinn companion.

25:33
 What kind of proof is this? Is this real? Is it fake?
 25:38
 Is it solid? Is it physical evidence?
 25:40
 Is it through the Quran? Is it manipulation?
 25:44
 Or is it straightforward?
 25:46
 You must attack these doubts,
 25:49
 and end them once and for all.
 25:51
 The third Question: Is he making money from this? Is Rashad Khalifa making money from this?
 25:56
 Because this is a condition that is attached to every messenger in the Quran.
 26:01
 If the person is making money from the message he's advocating, there is another issue here.
 26:09
 The issue is business and money.
 26:12
 And this is why this is one of the most important questions, you must ask your jinn companion. Is he making money from this?
 26:19
 And unless the claimant meets all these criteria, you have to conclude he's a fake messenger.
 26:27
 Now, for our benefit as a family, I must tell you that I see to it
 26:33
 that what comes out of my pocket is more than what comes in my pocket in all this.
 26:39
 If I print Qurans and I spend a certain amount of money on it, and then we sell it for prices, I make sure that what I spend is more than what I get.
 26:49
 And I go out of my way through all kinds of painstaking efforts to do that.
 26:53
 So, this is... this is for our own information.
 27:01
 And I think this covers the whole issue.
 27:03
 There maybe other questions in your mind but we'll always talk about issues in the future.
 27:08
 Aqem Al-Salat.
 27:09
 Allahu Akbar. Allahu Akbar.
 27:11
 La Elaha Ella Allah.

40 Friday Sermon by dr Rashad Khalifa Proving Every Verse Word Letter with Irrefutable Evidence 1989

SUBHAN ALLAH. WA ALHAMDULLILAH. WA LA ILLAHA ILLA ALLAH.
 0:30
 ALLAH-O AKBAR. ALLAH-O AKBAR. ALLAH-O AKBAR. ALLAH-O AKBAR.
 1:06
 LA ILLAHA ILLA ALLAH. LA ILAHA ILLA ALLAH.
 1:44
 LA ILLAHA ILLA ALLAH.
 1:46
 There's an extra LA ILLAHA ILLA ALLAH.
 1:56
 ALHAMDULLILAH. We praise God.
 2:00
 WA ASHHADU AN LA ILAHA ILLA ALLAH, WAHDAHU LA SHAREEKA LAH.
 2:03
 And we bear witness that there is no God except the One God.
 2:09
 I think I have to explain this first. This is a gift from Naomi. And she got the biggest size they have. Extra large. She thinks I'm fat.
 2:20
 So, may God bless her and send her a wonderful husband INSHA ALLAH.
 2:30
 She and Apamea are inseparable. Edip is having rough time.

2:40
 Today is really a fantastic day because we are going to share together God's gift to us as a result of the
 2:47
 conference. As you know, God always gives us a gift every time we do something which is actually a
 2:57
 gift from God. The conference itself is a gift from God but each one of us underwent efforts
 3:03
 and financial sacrifices and time sacrifices and God sends... God is so generous. So, He sent us a gift
 3:14
 that is two great miracles. Each one of them makes the parting of the Red Sea a tiny miracle. They're
 3:21
 all God's miracles, the parting of the Red Sea, miracles of Jesus and all the miracles we... we see
 3:29
 in the Quran are all God's miracles, but this miracle God specializes... I mean, honors especially by
 3:38
 calling it one of the great miracles with a... with a very strong assurance in the Arabic language
 3:44
 إِنَّهَا لِأَخْذَى الْكُبْرِ (74:35)
 3:47
 إِنَّهَا لِأَخْذَى الْكُبْرِ
 3:48
 is one of the great miracles but
 3:50
 إِنَّهَا لِأَخْذَى الْكُبْرِ
 3:51
 it is indeed, most assuredly, one of the great miracles. And this is in SURA, as you know it has to do
 4:00
 it is based on the number 19. I would ask you to situate yourself where you can see this.
 4:07
 It is in SURA 74, verse 35. It is one of the greatest miracles 7 plus 4 is
 4:16
 11 plus 3 is 14, plus 5 is 19. This adds up to 19. And we're going
 4:23
 to witness this together in addition to this miracle that you see in the wall.
 4:33
 and before I start explaining this, hopefully, make it clear to you
 4:39
 I want to share with you how God collectively inspires the believers because in this miracle
 4:46
 on the wall here, we have the first SURA in the Quran consists of seven verses, as
 4:53
 you know. And then, we wrote the number of every verse in the Quran. This is... these are the verses
 5:00
 in the first SURA. one, two, three, four, five, six, seven. So, this represents the first SURA. It consists of seven
 5:10
 verses and these are the verses in it. one, two, three, four, five, six, seven. The next SURA consists of
 5:19
 286 verses. So, you write this next to this number and then the number of every
 5:29
 verse in the SURA. 1 2 and so on 286. This will represent SURA number 2. Now, you're putting
 5:39
 putting all these numbers next to each other until you go to the end of the Quran and... and
 5:45
 you end up with the number of digits each one of these is a digit. The number of digits is
 5:53
 12,692 which is a multiple of 19. This is the number of digits in this long number
 6:01
 and the long itself is a multiple 19. OK. So, we know about this miracle on the wall.
 6:07
 Everyone who walks in this masjid can witness a perpetual miracle that anyone can witness
 6:14
 anywhere in the world. Now, the collective inspiration of the believers is that you
 6:20
 know, you met Ali Fazeli from New Mexico. Dr. Fazeli, a physicist who I was talking to...to
 6:28
 Abdullah and to a number of us and he said. OK. This is the first SURA. It has seven verses. This is
 6:37
 the first verse. BISMILLAH AL-RAHMAN AL-RAHIM. This is the second verse. ALLHAMDULLILAH RABI AL-AALAMIN.
 6:42
 This is the third verse and so on. Then, the next SURA is 286 and this is the first verse says
 6:50

"ALIF LAM MEEM." So, what happened to BISM ALLAH AL-RAHMAN AL-RAHIM? It is not... it is not being
6:58
considered here. So, Ali said "why don't you put a zero for BISM ALLAH AL-RAHMAN AL-RAHIM?" Put a zero here.
7:10
And this is the first miracle we're going to witness today cause Abdullah went to his computer
7:18
and he put zero for every BISM ALLAH AL-RAHMAN AL-RAHIM. As you know, the first BISM ALLAH AL-RAHMAN AL-RAHIM
7:26
the first verse, number one, has a number. So, there is no zero in the first SURA and SURA 9 does
7:33
not have BISM ALLAH. So, it will not have a zero. So, when you come to SURA 9, it will look like this.
7:40
This is now SURA 9. You put the number of the SURA and there you don't put a zero. You start with
7:45
the verse one right away. One two three and so on. With the other SURAS, you put the number of
7:52
verses. You put the number of the SURA followed by the zero.
7:56
Edip: Instead of 9, it must be total number
7:59
of verses. It's not checking on.
8:10
You put the number of the SURA. You put the total number of
8:13
verses. Yes. So, you put...you put also the number of the SURA here because the disbelievers say "why do
8:18
you ignore the number of the SURA?" Anyway, with this miracle anything that the disbelievers want
8:24
God gave them. He left no excuse for them. But the idea here is that we... Ali suggested the
8:33
zeros and sure enough when we put the zeros in for BISM ALLAH, the end result was a multiple 19.
8:44
Now, these colors are supposed to be erased easily.
9:00
So, let's take a number that represents SURA number one
9:03
at the beginning of SURA number two. SURA number one has... is number one. It has seven verses. Then
9:14
you put the numbers of verses. 1 2 3 4 5 6 7 and then you put SURA number
9:22
two has 286 verses. Then, the BISM ALLAH has a 0 and then 1 2 and so on to the end of the SURA.
9:33
And you go like this to the end of the Quran. Now, these zeros... they're not zeros because they are
9:39
in the middle of the number. You have 11. If you have 11, it's 11, right? You put the 0
9:50
in the middle of the number, it becomes 101. There is no connection mathematically between 11
9:56
and 101. So, these zeros were inserted in that big number and the end result is a very
10:07
long number that is 13,038 digits and is divisible by 19.
10:14
A woman: And the digits are divisible by 19?
10:16
The messenger: No.
10:17
The number of digits is not divisible by 19.
10:30
OK. This will take us to the second miracle which is even greater than this
10:38
one if you can believe that. So, let us all collectively fall prostrate before God.
10:48
I would lead you in the prostration and then we'll make... we'll repent to God and ask Him to guide us.
10:54
TUBU ILLA ALLAH.
11:02
ALLAH-O AKBAR
11:14
ALHAMDULLILAH. We praise God.
11:17
WA ASHHADU AN LA ILAHA ILLALLAH, WAHDAHU LA SHAREEKA LAH.

11:20
And we bear witness that there is no other god besides God.

11:26
These miracles that we're witnessing are mathematical... strictly mathematical or structural

11:31
miracles. They have nothing to do with the literary miracle in the Quran. As you know,

11:37
there is a literary miracle that has to do with the distribution of every letter. This

11:42
is... you know... you know the the Quranic initials. ALIF LAM MEEM at the beginning of SURA number

11:48
two. The counts of ALIF and LAM and MEEM are mathematically controlled. The counts of HA MEEM

11:56
in the seven HA MEEM-initialed SURAs are mathematically controlled. Every letter in the Quran

12:01
is mathematically controlled. I'm talking about letters. Also, words are mathematically controlled

12:08
in the Quran. We are talking about the literary mathematical composition. The word God, as you

12:15
know, there's 2698 times in the Quran. And if you add the numbers

12:21
of verses wherever the word God is mentioned, there's 118,123 which is also a multiple 19.

12:29
The word Quran happens in the Quran 57

12:31
times. 19 times 3. When you add the SURAs and verses wherever the word Quran is

12:37
found, the total is 44008. 4408.

12:42
4408 which is also a multiple 19. So, we're talking about a giant

12:49
Rubik's Cube which is consisting of literary... two sections: a literary mathematical composition

12:57
where the letters and the words are mathematically composed and distributed far beyond human ability.

13:04
In SURA 17, verse 81, it says "if all the humans and all the jinns banded together to produce

13:09
a Quran like this, they cannot do." And it has nothing to do with literature. It has to do with this

13:15
this impossible mathematical composition which is very simple to understand but very impossible

13:22
to imitate. But what we're talking about today is strictly mathematical numbers. You take any book

13:30
from the library. Every book in the library has chapters and sentences and take those chapters

13:36
and number the sentences and see if there's any mathematical pattern in them. You will not find any.

13:44
If you find anything, it will be by coincidence and maybe one one chance of some some kind

13:51
of of the... like... for example the number of sentences may be divisible by the number of

13:57
chapters by accident in one of the books. But that that would be the extent of it. So, we're talking now

14:04
by strictly mathematics. It has nothing to do with the literary sense. The second miracle that we are witnessing.

14:14
Let us take the Quran from the first verse to the last verse and give these verses numbers that

14:21
Abdullah called a sequential number. So, BISMILLAH AL-RAHMAN AL-RAHIM... we have so number one.

14:27
BISMILLAH AL-RAHMAN AL-RAHIM is the first verse.

14:29
الْحَمْدُ لِلَّهِ رَبِّ الْعَالَمِينَ (1:2)

14:32
الرَّحْمَنِ الرَّحِيمِ (1:3)

14:33
مَلِكِ يَوْمِ الدِّينِ (1:4)

14:34
إِيَّاكَ نَعْبُدُ وَإِيَّاكَ نَسْتَعِينُ (1:5)

14:37
اهْدِنَا الصِّرَاطَ الْمُسْتَقِيمَ (1:6)

14:39

صِرَاطَ الَّذِينَ أَنْعَمْتَ عَلَيْهِمْ غَيْرِ الْمَغْضُوبِ عَلَيْهِمْ وَلَا الضَّالِّينَ (1:7)

14:42

These are the first seven verses of the Quran. And then we go to BISMILLAH AL-RAHMAN AL-RAHIM of the second SURAH.

14:48

This'll be number 8 and then the first verse of SURAH number two says ALIF LAM MEEM. That will be number 9.

14:56

Are you following me? So, we'll keep going to the end of the Quran. The last verse is number six three

15:03

four six (6346) which is a multiple of 19. This is the... all the verses of the Quran including

15:10

BISMILLAH AL-RAHMAN AL-RAHIM in every SURAH. SURAH 9 does not have any BISMILLAH AL-RAHMAN AL-RAHIM. OK.

15:17

Now, of course, this is verse number one. This is number two. This is number three. This is number

15:25

four. This is number five six seven zero because this is the first BISMILLAH of SURAH number two and this

15:36

is verse number one of SURAH number two. And this is verse 6 of the last SURAH of the Quran. So, here

15:43

we have two sets of numbers. We have the number of the verse and it's sequential number in the Quran.

15:51

So, the last verse in the Quran is number six of the last SURAH. It is verse number six. But

15:57

it is number six three four six in the whole Quran. Is this simple? Everybody's following this. Very easy.

16:04

So, what Abdullah did; he put all these numbers next to each other to form one very long number

16:12

but he also put the number of the SURAH before every SURAH. So, before the numbers of SURAH number one

16:19

he put... the number of the SURAH which is one. So, now the number representing the first SURAH of

16:25

the Quran will be 1 1 1 2 2 3 3 4 4 5 5 6 6 7 7 and then we put SURAH number two

16:35

and then 0 8 1 9 2 10 3 11 4 12... are you following me? No. OK. The first

16:45

the first SURAH in the Quran is 7 verses. And they are verses number 1 2 3 4 5 6 7.

16:54

If you... when you arrange them from the beginning of the Quran sequentially, they are also

16:59

number one two three four five six seven and then the BISMILLAH of SURAH number two is number eight. The

17:06

first verse in surah number two is number 9. So, what we're doing in this column here

17:12

we're just giving a number to every verse of the Quran from the beginning to the end. So, if you

17:17

go to the middle of the Quran, for example, verse number one of the last SURAH in the Quran. When you count

17:25

from the beginning of the Quran, it becomes number six three four one. 6341. In other words, up to

17:33

the first verse of the last SURAH, we have six thousand three hundred forty one verses. When

17:38

you go to the last verse of the Quran, it is verse number six in the last SURAH.

17:44

وَمِنَ الْجَنَّةِ وَالنَّاسِ (114:6)

17:46

this this number six here says the last verse of SURAH number 114 and it is number

17:55

6346 from the beginning of the Quran. It is number 6 from the beginning

18:00

of the SURAH. It is number 6346 from the beginning of the Quran. OK. So far... so far so good?

18:06

So, Abdullah put the number of every verse and the number of this verse from the beginning of the Quran.

18:14

So, verse number seven in SURAH AL-FATIHA, SURAH AL-HAMD is verse number seven and it

18:21

is also the seventh verse from the beginning of the Quran. And then BISMILLAH AL-RAHMAN AL-RAHIM

18:26

of SURAH number two is number zero, as you know and it is the eighth verse from the beginning of

18:32

the Quran. The first verse in SURAH number two is the ninth verse from the beginning of the Quran. So, these

18:38

numbers you put next to each other to form one big number, except the number of every SURAH was at

18:46
the beginning of every SURA. So, this is SURA number one. The number representing SURA number

18:51
one would be...here it is... will be SURA number one verse number one in the SURA. It is verse number

19:03
one in the whole Quran and then verse number 2 is also number two from the beginning of the Quran.

19:10
three this was also three. Four... this all one number. 4 4 5 5 6 6 7 7. Then, we go

19:23
to SURA number 2. We continue the numbers. It is SURA number two and we have the BISMILLAH AL-RAHMAN AL-RAHIM is number zero.

And it is the

19:34
eighth verse. See? This one is the seventh verse. The eighth verse from the beginning of the Quran and then

19:41
verse number one of SURA number two which is the ninth verse from the beginning of the Quran. And

19:47
then verse number two is the tenth verse from the Quran and so on to the end of the Quran. We end up...

19:58
Now, I want you to observe this with me. This number of the SURA is one number. The number of the other verse

20:06
another number and so on. Now, we come here to the double numbers. The second verse of SURA number

20:12
two was number two but from the beginning of the Quran, it is number 10. So, this is a number and

20:20
this is a number. If you count the numbers in the long number, they are... there... they are... let me see...

20:39
12,806. Twelve thousand eight O six number. This is a multiple 19. This is the

20:48
number of numbers. See, this is one number. It's ten and this here also is one number. This is the last

20:56
verse in the Quran. This is verse number 6 3 4 6 in the whole Quran. It is verse number six in the

21:02
last SURA. So, this is the number. This is a number. This is a number. The number of these numbers is

21:08
12 8 0 6 which is a multiple of 19. Now, if you count the digits meaning there are two digits here. This

21:18
is ten, has 2 digits. These are four digits: one two three four. Four digits. It is one number, but 4 digits.

21:25
When you count the digits in this long number, you have 3 7... Excuse me... 3 7 0 8 8. This

21:40
is the number. This is one long number that has... has 37,088

21:46
digits in it. This number of digits is a multiple of 19 and the long number itself is also multiple of 19.

21:53
ALLAH-O AKBAR. SUBHAN ALLAH.

21:57
The whole world should be a Muslim tomorrow. So. Is this... I mean, maybe this clarifies it.

22:17
Yes. This adds... this adds up to 19 and it is a multiple of 19. This is the total number of verses in the Quran. It is 19 times 334.

22:44
The number of digits in that number, the basic number which has the number of verses followed by the number of every verse.

22:51
This sheet of paper on the wall has the number of every verse in the whole Quran.

22:56
And the number of digits there is exactly twice as much as the number of

22:59
verses in the Quran. There is no... it's not necessary to have that

23:02
connection, but it is true. Now I don't wanna confuse you anymore. But is there anything else you can think of Abdullah

23:14
you need to point out?

23:18
Abdullah went to the computer to put the zeros in there and then he walks out with this

23:23
piece of paper, casually. I said "Oh oh, Abdullah, you have a piece of paper in your hand." All I said was we want to start a new translation

23:34
of the Quran to be ready in case the demand increases and we have to print some more, maybe a few Millions

23:39
INSHALLAH. At the minute, the suggestion of the new translation came, the flood was beginning already.

23:55
It's just awesome. I don't know what... there's something I need to say but I forget what it is.

24:02
This really leaves us speechless. Is there anything that is mysterious to anybody who'd be embarrassed to... if you
24:08
wanna clarify any point. Otherwise, we will do the prayer and as we prostrate to God, we remember
24:14
these miracles. Oh, this is what I wanna say... as you know, SURA 9 had these two
24:22
false verses and if we include these two false verses 128 and 129 in that number,
24:32
you don't have anything. You don't have it divisible by 19. The whole thing collapses and here we're
24:40
adding the zeros inside for BISMILLAH AL-RAHMAN AL-RAHIMs. We're putting in zeros for each one
24:45
and you still have a divisible... If you include the 2 false verses, the whole thing
24:52
collapses. You have nothing. So, right now, we have something to talk about, something awesome
24:56
When we inject these zeros... Where is it? This is a zero. BISMILLAH AL-RAHMAN AL-RAHIM of SURA number two.
25:08
When you come to SURA 9, there's no BISMILLAH. If you put the zero, this...
25:13
this is worth erasing...here we're struggling with these
25:17
numbers. They are big. I just want to demonstrate for you SURA number nine.
25:31
OK. Open your eyes, now. The number where we inject the zeros
25:34
which is the first miracle we talked about. We put the SURA number. 9.
25:42
And then you put the first verse in it which is number 1.
25:47
Put the verse numbers? 127?
25:51
Abdullah: The previous miracle? Yeah. You put the one under... First one you put 100
25:57
The messenger: Yes. 127, right?
26:02
We put the verse numbers. This is the total number of verses in the SURA. If you put 129 which include the two false
26:09
verses, of course, the whole thing collapses. And then you put verse number one two, we go on to 127
26:17
and this will represent SURA number nine and then after that we get to SURA number 10. We put
26:25
the number of the SURA right after that and then you put the number of verses which is 106
26:35
for SURA number 10 and then you put BISMILLAH AL-RAHMAN AL-RAHIM, a zero and then the first verse and
26:41
then the second verse and so on to 106. Now, SURA number 10, the number of verses and BISMILLAH AL-RAHMAN AL-RAHIM
26:51
has a zero. SURA number 9 does not have BISMILLAH AL-RAHMAN AL-RAHIM, so there is no zero. If
26:58
and at the end, the end result is a very long number that is a multiple of 19. If you
27:05
put BISMILLAH AL-RAHMAN AL-RAHIM in SURA 9 and you put a zero here the whole thing collapses.

41 Friday Sermon by dr Rashad Khalifa the Heavenly Feud the Importance of Killing the Ego 1989 09 29

Allahu Akbar (God is the Supreme) X 4
0:53
La Elaha Ella Allah (There is no other god besides God)
1:29
ALHAMDU LILLAH, We praise God
1:34
Wa Ash-hadu Alla Elaha Ella Allah Wahdahu La Shareeka Lah
1:38
And I bear witness that there is no other god besides the One God.
1:44
This is a... this is a very important Khutba, so I am going to stall a little bit for the rest of the late ones to be here.

1:57
This Khutba is so important that you are definitely a very select group of people who are destined to be here at this time.

2:07
But before I say anything, were is Ahmad Boruni?

2:11
You are his wife!

2:15
Good for you. Good for you.

2:22
Ok just to stall, I'm going to share with you Edip's discovery of last Khutba.

2:27
Give a chance to the late ones to be here.

2:30
It is an awesome discovery.

2:33
And it tells us that the Contact Prayers, God prescribes Al-Fātehah, Sura number 1,

2:41
no more and no less, for the Contact Prayer.

2:44
It confirms what we have been doing for a few years, that is reciting only Sura number 1.

2:51
The mathematical evidence that God gives us, gave us,

2:56
and Edip discovered last week, or gave us last week

3:00
has to do with the physical structure of Sura number 1 and also the literal composition.

3:06
The physical structure, just that some of you may have missed the miracle last time, so I'm repeating it.

3:13
The physical structure is that the Sura is number 1 and it has 7 verses:

3:19
1 2 3 4 5 6 & 7. This is the physical structure of the Sura and this number is a multiple of 19.

3:32
Just putting the number of the Sura and the verses next to each other.

3:37
Now, you know that the morning prayer is 2 units, the noon is 4, the afternoon is 4,

3:47
the sunset is 3 and the night is 4.

3:50
And this number is a multiple of 19.

3:53
Putting the number of units next to each other.

3:55
19, of course, is the number that God Himself picked.

3:59
When people tell you why 19? Tell them "because God said so in Sura 74."

4:05
God said it is the number 19 that will prove that the Quran is not human-made.

4:10
74:25 says "some people will say the Quran is man-made."

4:15
And 74:30, God says "19 will prove to you that it is not man-made."

4:19
and 74:35 says "it is one of the greatest miracles."

4:25
So, this is... this proves also the sequence of the prayers:

4:31
Morning, Noon, Afternoon, Sunset, Night,

4:34
And it is a multiple of 19,

4:36
and it is universally recognized, worldwide. There're no differences.

4:41
Now, the literal composition of the Sura is confirmed by the fact that

4:48
instead of the verse number, we put the number of the letters.

4:52
So, you put the Sura number which is 1,

4:57
The first... the first verse as you know is 19 letters,

5:05

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

5:08

the second verse: الْحَمْدُ لِلَّهِ رَبِّ الْعَالَمِينَ is 17 letters

5:15

You put 17 instead of 2.

5:16

The third verse is 12.

5:21

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ, الْحَمْدُ لِلَّهِ رَبِّ الْعَالَمِينَ, الرَّحْمَنُ الرَّحِيمُ

5:30

إِنَّا نَحْنُ وَإِلَهُكُمْ يَوْمَ الْقِيَامِ is 11

5:35

right!

5:36

11 letters.

5:39

وَأَيُّكُمْ تَعْبُدُ وَإِلَّاكَ تَسْتَعِينُ

5:41

about the most important expression in the Sura:

5:44

"You alone we worship. You alone we ask for help" is 19.

5:49

We put 19.

5:53

and أَهْلِيْنَا الصِّرَاطَ الْمُسْتَقِيمَ is 18.

5:57

صِرَاطَ الَّذِينَ أَنْعَمْتَ عَلَيْهِمْ غَيْرِ الْمَغْضُوبِ عَلَيْهِمْ وَلَا الضَّالِّينَ is 43 letters.

6:05

And this number also is a multiple of 19.

6:12

So, there you have it. Physical evidence.

6:14

Just in passing, we just received the Aramco magazine,

6:25

-The Arabian oil company-

6:27

And on the front cover, they have the last two verses of Sura 9, Satan's verses.

6:31

The Satanic verses on the cover

6:32

and inside they had Al-Fātehah, written in the colloquial Arabic, not in the Quranic Arabic

6:40

where there was three extra letters.

6:42

So, they are trying hard to destroy God's miracle, but it is not working.

6:46

It's too late. The cat is out of the bag.

6:49

So, I hope you appreciate this miracle now and it is very clear.

6:54

Now that Abdullah is here, it means everyone is here.

6:59

So, I'm going to start my Khutba now.

7:02

Alhamdu Lillah, Wa Ash-hadu Alla Elaha Ella Allah Wahdahu La Shareeka Lah.

7:05

This is a very important Khutba in that God is revealing so much information.

7:10

I'm going to repeat the assertion that you are a select group of people. You are destined to be here at this time.

7:15

The information that God is sending to us puts us an eternity ahead of anyone else living on Earth today.

7:24

The subsequent generations will catch up with us.

7:27

But today, on the planet earth, we are an eternity ahead of the rest of the world.

7:35

The picture of why we are here is emerging very clearly now.

7:42

And there is a lot more to be known but this is the time that God wills to send this information to us.

7:48

It is relevant to our generation.

7:50
And what this additional information, you know most of it, but the additional information shows how bad the human being is,
8:02
and how fortunate we, in this Masjid, are.
8:07
These are the two things, the subject of this Khutba:
8:10
How bad the humans are
8:12
and how fortunate we are.
8:16
It was Satan's ego, E G O, remember this word.
8:22
that made him think that he can be a god besides God.
8:25
And this triggered a division in the Heavenly community.
8:31
Some creatures agreed with Satan.
8:34
And this constituted the Heavenly Feud that we see in Sura 38, 19 x 2, verse 69, the Heavenly Feud
8:44
or the Feud in the Heavenly Community.
8:47
The vast, vast, vast majority disagreed with Satan.
8:52
They stood on the side of God's absolute authority, and those are the angels.
8:58
They never questioned the fact that only God can be a god.
9:03
And their number is unknown to anybody. Only God knows.
9:06
Sura 74, verse 31.
9:08
It says "no one knows the number of God's soldiers, the angels, except He."
9:14
Even the angels do not know what their population is.
9:18
So, don't be tricked by the fact that 150 billion creatures agreed with Satan.
9:25
Those are a very very small minority.
9:31
So, now we have a minority, the criminal element in the Heavenly society that's you and me and the jinns,
9:39
failing to make a stand on God's absolute authority.
9:47
God, the Most Merciful, offered this criminal element another opportunity to renounce their crime and to submit to God.
10:00
And the majority of these creatures, the vast vast vast majority took advantage of that opportunity,
10:10
which we see in Sura 33, verse 72
10:12
and those are the animals, the mountains, the stars, the trees
10:18
You remember in Sura 22, verse 18, God says "do you not realize that the mountains, the trees, the animals prostrate to God and some people."
10:28
Remember that verse?
10:29
In Sura 55, verse 6, God says "the stars and the trees prostrate."
10:35
What does this mean?
10:36
It's because they decided, they took advantage of that second opportunity to submit to God.
10:43
The horse is a submitter to God. He was one, the horse is one of those creatures.
10:49
They committed that initial blasphemy and took advantage of the second offer.
10:54
The horse is a perfect submitter.
10:57
He comes to you on four, you know like this,

11:01
ego, remember ego? The word ego.
11:03
The horse comes to you like this and says ride me.
11:07
And the horse will let a poor person ride him.
11:12
or a rich person. A child will lead the horse wherever the child wants.
11:19
The horse is a perfect submitter.
11:21
And this was the deal that the animals accepted to come here in a subservient, obedient function.
11:30
And in return for this obedience are redeemed to God's kingdom in the Hereafter.
11:36
That was the deal.
11:38
The dog wags his tail to the homeless.
11:43
You see a homeless person walking on the street, very poor
11:45
And he is taking along a dog with him and the dog loves him, wags his tail.
11:51
The president of the United States has dogs also and they wag their tails to the president.
11:55
Not because he is the president; they do not even know that they live in the White House.
12:02
They can live in the street with the homeless or in the White House and they are submitting, they wag their tails.
12:07
When God asked you and me "do you want to go to the world?"
12:17
God told us about the plan.
12:19
"Do you want to participate in this plan as a horse?"
12:22
"The poor will ride you. The rich will ride you. A child will lead you."
12:27
And you and I said "no way!"
12:31
"Me?! Go as a horse?!"
12:34
Ego, remember?
12:35
This criminal element...
12:37
It is the ego that brought us here.
12:40
And it is the ego that stands, as an obstacle, between us and redemption.
12:51
There were so many of the creatures who decided to take advantage of the second offer,
12:56
that they could not all come here as animals. We'd be over crowded.
12:59
So, God made them stars and the stars prostrate. They go on the precise orbit.
13:06
The Sun rises and sets at exactly the same times.
13:12
Today, September 29, the Sun rises 6:16.
13:17
It's not 6:15 or 6:20. 6:16.
13:21
And next year, it's going to rise at 6:16.
13:24
If you watch the horizon at the east at 6:16, there comes the Sun disk; see it coming up, submitting.
13:32
It's going to set at 6:11, not 6:10.
13:37
And this is, this is eternal. This is eternal calendar.
13:41
The moon synchronized around the earth, following, following exactly the orbit.
13:47

Halley's comet comes every 76 years.

13:50

They wait for it and, sure enough, here it comes every 76 years.

13:54

It goes, God knows where, but 76 years, it comes back to the Solar system and we see it.

14:00

We refused. We are so bad.

14:05

The human being is so bad. This explains why all these people are oblivious to God.

14:10

And you can see that their ego is preventing them.

14:15

God says in 33:79,

14:20

That the human being was unjust, stupid

14:24

ظالوماً جهولاً

14:25

Ignorant. God calls it ignorant.

14:28

But I'm not as polite as the Quran. But it really is... this is the most fitting word.

14:34

When God told the horse "you go as a horse and you'll be redeemed to God's kingdom." He said "I'll take it. I'll take it."

14:41

And they come here and perform their functions.

14:46

And they go back.

14:48

Even our bodies are submitting.

14:50

Because the body is part of the earth.

14:53

The earth is submitting to God.

14:56

The body is a garment made of the earth,

14:59

just like this came out of the oil from the ground.

15:02

A garment.

15:04

And your heart. You cannot control your heart. It is out of your control.

15:08

Your peristalsis, the intestines, moving. They move like this.

15:15

They push the food all the way to your stomach until you digest it.

15:19

You don't control that. Miles and miles of your intestines are moving right now in a precise motion.

15:26

The lungs are breathing.

15:29

You do not control that.

15:31

Because the earth is submitting to God. Your body is part of the earth.

15:35

And you cannot control it.

15:38

But the human being is so bad.

15:44

If I draw a line of God's creatures in the Heavenly community, like this.

15:54

And Satan... Satan's ego told him that he can be a god besides God.

16:03

By the way this, this minor rebellion proves to us that God's creatures have a freedom of choice.

16:12

This is the usefulness or the purpose of this rebellion.

16:15

The humans say "why did God create rebellious creatures?"

16:17

And God takes this into consideration.

16:22

And this is why millions of people die before the age of 40 and are redeemed.

16:26
Obviously they deserved it, but they participated in this very important function.

16:33
The hardcore enemies of God will end up in hell.

16:38
And I love Ismail Barakat's expression yesterday

16:41
When we were talking about what you read in the perspective about changing the name of Muhammad, even their idol, to five letters, Muhamamad محمد.

16:48
Instead of محمد, just to oppose the miracle.

16:54
He said "they are storming the gates of hell."

16:58
This is what he said. "storming."

17:01
God builds fences around hell, and very strong gates and they're storming the gates of hell.

17:08
So, when Satan did this, the vast majority of God's creatures agreed,

17:14
but a small minority...

17:15
Can you see this back there?

17:20
This is the criminal element in the Heavenly community.

17:24
Now, if we expand this here.

17:36
When God offered the second opportunity for them to submit, the vast vast majority of them submitted.

17:41
And the real bad ones - we were just about this much -

17:46
That's you and me, the humans and jinns. We refused

17:53
because you know how many horses there are in the world, and how many mosquitos and cockroaches, Edip... and bees.

18:06
So, the vast majority took advantage of the second.

18:09
These are the real bad ones.

18:11
"Me, go down as a horse?! No!"

18:15
You know, this is ego. We thought we are smart enough to make the right decision.

18:20
See, God told us that if you make the right decision, you come back to the high heaven, which is fantastic.

18:26
And this is the second part of my sentence how fortunate we are.

18:31
This is how bad, this is how bad the humans are.

18:38
TOOBOO ILLA ALLAH. Repent.

18:50
Alhamdu Lillah, Wa Ash-hadu Alla Elaha Ella Allah Wahdahu La Shareeka Lah.

18:55
What you just did now, repent, means you said you are sorry for doing this.

19:00
We made a mistake, we want to be redeemed back to God's kingdom.

19:03
We do not want to be exiled from God.

19:06
We were exiled because of our ego.

19:08
The reason, you and I refused to come here as a dog or a horse or a mosquito

19:15
was that we thought that we, "oh, it's easy. It's a piece of cake. We're gonna... we'll choose God. We will not choose Satan."

19:38
My thought got interrupted here.

19:42
Yes, I want to mention that, since it is the ego that is preventing us, the obstacle between us and God's kingdom,

19:57
"Kill your ego is one of the first commandments in the Quran."

20:00
"Kill your ego."
20:01
2:54. Sura 2, verse 54. In the first 10 pages of the Quran, it says, "Kill your ego."
20:13
And kill means "dead".
20:15
You see how the horse is.
20:17
We are supposed to kill our ego, as far as God is concerned.
20:21
Killing the ego is not that somebody comes, slaps you in the face and you turn the other cheek. No.
20:29
You stand. In fact, God says the believers are not whims.
20:32
They stand up for their rights.
20:34
But as far as God is concerned, you must kill your ego.
20:38
Because I'm telling you the ego is what is preventing millions of people today from going to Heaven.
20:44
And what let some of us to drop out is when God willed that I announce my messengership.
20:51
The only reason they refuse is the ego
20:55
because God gave them so much evidence and gave them zero evidence against it.
21:03
We're still waiting for one reason, good or bad.
21:07
They can't come up with one. There is no reason
21:11
that say "you are not God's messenger." There is no reason.
21:15
But it's the ego. And they can't come up and say it.
21:20
They can't say "it's my ego that is... It is because of my ego I don't wanna recognize you as God's messenger."
21:25
And it seems to me now that this is part of the test. Not it is part of the test, but I mean it is a difficult test
21:34
that God puts us through in order to kill our ego.
21:41
"He is one of us who claims to be God's messenger."
21:44
"How are we gonna... And then God says obey God and obey the messenger in the Quran. How am I gonna do this?"
21:49
"He's just like me."
21:50
It's ego, our ego.
21:52
I actually sympathize with those people.
21:54
It took me 8 years to accept that.
22:01
And I don't wanna give myself a test. I have enough of my own.
22:07
but I do wanna ask myself "if I were in their shoes, what will I do?"
22:12
But it is definitely the ego and God is fair.
22:16
If they flunk, they deserve it.
22:20
It is strictly ego.
22:28
What is the reason? What is their reason?
22:31
You know they could have come with a reason saying "God says Muhammad is the last messenger in the Quran." And this should be over, be finished.
22:40
But they don't come up with a reason like that because there is no such thing.
22:43
The Quran says "Muhammad was the last prophet, a message, scripture-bearing messenger but he was not the last messenger."

22:52
The Quran makes it very clear.
22:54
I don't know, they could have come with a hundred reasons.
23:01
Edip: Chicago conference.
23:06
The messenger: Yeah. Things are brewing now. This may change their direction
23:10
But I think I said everything I wanted to say any way.
23:12
There is many more that we'll discuss tonight Insha Allah, and in the next months and years, Insha Allah.
23:17
We'll be discussing these.
23:18
God will send more information.
23:20
But the highlight is that I wanted to point out this how bad the human being is and how fortunate we are.
23:30
They established something called the counsel on the preservation of the finality of prophethood.
23:40
And this includes the top witch in the Muslim world:
23:42
The Pope of the Sunni Muslims, Sheikh Al-azhar, the head, the imam of the Ka'ba, the Mecca Masjid, the head of the Muslim world league
23:55
And they are holding a conference, an urgent conference in Chicago, October 7. It is two weeks from now.
24:06
It's called world conference on the finality of prophethood.
24:14
And they are trying to confuse the people. Remember the verse in Quran that says "they distort the words out of context."
24:20
They are trying to confuse the people as far as the definition of prophet and messenger are concerned.
24:25
And since Edip brought this up, I'm gonna read the letters to you that I wrote to them.
24:57
This is their flyer.
24:59
And it says "World Conference on Finality of the Prophethood and Significance of Hadith."
25:07
And they say, conference will start on Saturday October 7th. There is no Insha Allah.
25:12
You will not see the name of God in this sheet.
25:14
There is not a single word, God, on this sheet. There is no Quran on this sheet.
25:20
There is Hadith and there is a picture of prophet's mosque which he never saw.
25:26
Right here.
25:28
And it gives you the names, the Sheikh Al-azhar and so on.
25:31
And you know something, we will be there.
25:34
We'll be represented there. I'm gonna give them a lot of trouble.
25:36
Herbert Hill, you know him from Chicago. He was here for the conference.
25:40
He's taking his brother who used to be a Sunni and he's... he's being saved.
25:45
And maybe some other people, and they will go there and will ask some crucial questions.
25:51
Like "what is the difference between Prophet and Messenger?"
25:54
Tell me "where in the Quran does it say, Muhammad is the last messenger?"
25:57
"Who is the messenger of the Covenant that is in 3:81?" Et Cetera. Et Cetera.
26:03
We have 19 questions for them.
26:09
Oh, the letter that I wrote to them:
26:12

I sent it to each one of the top leaders and I said:

26:19

to these people from Rashad Khalifa regarding world conference on finality of the prophethood.

26:24

Dear brothers, As-Salamu Alaykum. No one is questioning the fact that Muhammad was the final prophet "Nabi." Quran 33:40.

26:32

According to 3:81, 33:7 and 33:40, he was not the last messenger "Rasool."

26:37

As Muslims, we are required to believe Almighty God when He so states in His Holy Book.

26:42

The Quranic assertions that Muhammad was the final prophet but not the final messenger,

26:47

are God's commandments to us through the prophet Muhammad.

26:50

I trust that you stand ready to obey God and His final prophet.

26:54

You will readily agree with me that those who refuse to accept these Quranic truth are no longer Muslims, Quran 3:81-85.

27:05

As God's Messenger of the Covenant, supported by overwhelming physical evidence,

27:10

it is my obligation to invite you to examine these Quranic truths.

27:14

and examine the evidence God has given me to present to you and to the world.

27:19

You are cordially invited to Masjid Tucson at any time you choose to discuss this matter and examine my evidence.

27:27

Thank you and may God bless you with His guidance and infinite mercy.

27:31

Forgive me for saying this "your brother in Islam, Rashad Khalifa."

27:36

There has to be some diplomacy there.

27:39

Aqem Al-Salat.

42 Friday Sermon by dr Rashad Khalifa Proving Salat al Juma the Righteous Go Straight to Heaven 1989

Alhamdu Lillah.

0:12

We praise God.

0:14

Wa Ash-hadu Alla Elaha Ella Allah Wahdahu La Shareeka Lah.

0:18

And we bear witness that there is no other god but the one God.

0:22

Last Friday, Abdullah presented to you evidence that the Friday prayer is mathematically coded. That it is required by God

0:34

to drop all business and come to the Friday prayer. He also presented evidence that the 2 sermons of the Friday prayer

0:41

are part of the prayer. They're counted as... in addition to the two units.

0:48

They complete the 4 units. So, I'm going to ask you to face this way. If you're not facing this way, to face this way. So, can you turn this way?

0:58

Cause...as if you are in the prayer. You can stay on the chair. Ihsan, you can stay on the chair. As long as you are facing this direction, it's OK.

1:11

I have fantastic news for you, but I will keep it for the second KHUTBAH to ensure that everyone who is supposed to be here

1:18

will be here. Meanwhile, I will... I want to thank many of you... most of you... all of you for wishing me a happy birthday last Friday.

1:29

And I want to use this to reflect on God's omnipotence. And the predetermination of the world

1:45

so that we have the freedom of choice at the same time.

1:55

A submitter, by definition, submits to God and believes whatever God says. The opposite, the non-submitter will follow what the parents

2:07

taught him or her. And this is repeated in the Quran in verse... SURA 2, verse 170. SURA 31, verse 21, and SURA 43, verses 22 and 23.

2:19

When they are told, the disbelievers, the non-submitters... when they are told "follow what God says"

2:25

They say "no, we follow what our parents told us." So, this is the difference between a submitter and non-submitter.

2:32
Because when you are born, you are a new generation. And in your lifetime, God will reveal new information and new knowledge.

2:41
Knowledge is increasing in this world. And you are required to look at all this new knowledge and sift through it and accept or reject

2:52
whatever is... whatever God wants us to accept or reject. But God tells us in the Old Testament and the New Testament

3:05
and the Final Testament, the Quran, that He will send the Messenger of the Covenant. So, I'm going to read some of these with you.

3:20
In the last book of the Old Testament. Here's the New Testament. In the last book of the Old Testament, Malachi, chapter 3

3:38
under the subtitle, the Messenger of the Covenant: "Lo, I am sending my messenger to prepare the way before Me.

3:47
And suddenly there will come to the temple, the Lord whom you seek and the Messenger of the Covenant whom you desire."

3:54
In the New Testament, in Luke 17:22. I'm gonna read it for you. Jesus's prophesying the coming of the Messenger of the Covenant.

4:16
Jesus said to the disciples "a time will come when you will long to see one day of the son of man, but you will not see it.

4:25
They will tell you he is to be found in this place or that. Do not go running about it excitedly. The son of man in his day

4:33
will be like the lightning that flashes from one end of the day to the other. First, however, he must suffer much

4:44
and be rejected by the present age. As it was in the days of Noah, so it will be in the days of the son of man.

4:52
They ate and drank. They took husbands and wives right up to the day Noah entered the Ark. And when the flood came

5:01
it destroyed them all. It was much the same in the days of Lot. They ate and drank. They bought and sold. They built and planted.

5:14
But on the day, Lot left Sodom, fire and brimstone rained down from heaven and destroyed them all.

5:22
It will be like that on the day of the son of man... It will be like that on the day the son of man is revealed.

5:30
On that day, if a man is on the rooftop and his belongings are in the house, he should not go down to get them.

5:38
Neither should the man in the field return home. Remember Lot's wife. Whoever tries to preserve his life will lose it.

5:48
Whoever loses it keeps it." And this is relevant to the second sermon... second KHUTBAH.

5:56
"I tell you on that night, there will be two men in one bed. One will be taken and the other left.

6:04
Two women will be grinding grain together. One will be taken and the other left. Also in Mathew 24:27.

6:18
24:27. As the lightning from the east flashes to the west, so will the coming of the son of man be.

6:29
So, it's gonna be every person on Earth is going to hear about God's plan and the Messenger of the Covenant.

6:41
In the Final Testament, you're all familiar with the verse... verse 81 in SURA 3

6:47
where God says that after all the prophets have delivered their messages, God will send the Messenger of the Covenant

6:54
to consolidate the messages, purify them, and deliver the one message, the one unified message

7:03
and preach the one unified religion acceptable by God. This is in the Quran 3:81.

7:15
From these looking at the Old Testament, the New Testament and the Final Testament and seeing that God is telling us

7:20
that He will send the Messenger of the Covenant. And for us to be fortunate to be born at this time.

7:27
I mean, when will he come, the Messenger of the Covenant? It's gonna be some day, like a Tuesday of a week

7:37
a certain day of a month. We just happen to exist at the time when God is executing this plan.

7:44
And as submitters, we are required to believe God. And I want to say that the difference between believing God, in this respect

7:55
and disbelieving is the difference between the highest heaven and the lowest pit of hell.

8:02
Therefore, it is my responsibility to help you and help myself strengthen our faith

8:09
strengthen our belief in this regard so long as we have the absolute proof, the physical evidence.

8:18

And this is what I wanted to share with you.

8:32

Edip, where are the markers?

8:42

I talked to my mother this morning and I told her and I told her... I asked her "what time was I born?"

8:50

And she said "don't ask questions like that."

8:55

I said "OK, Mom. Did the midwife come during the day or during the night?"

9:01

She said "they came in the middle of the night." Anyway, she's still giving me instructions, you know.

9:08

Doesn't matter how old you are, you're still a baby.

9:18

November 19. That was the Birthday and I was thanking you for celebrating it with me.

9:29

And this is a calendar that gives the number of every day of the year. It just happens that November 19 is the only day of the

9:38

year whose number is a multiple of 19, also.

9:44

Now, January 19 is the 19th day of the year. So, you don't count that. It's just like saying 1 is divisible by 1.

9:52

You know 1 is 1 and is not divisible. So, February 19 is the 50th day. It's not divisible by 19.

10:03

March 19 is the 78th day. It's not a multiple of 19. The 19th of April is the 109th day. It's number 109.

10:17

It's not a multiple of 19. The 19th of May is 139. Number 139, not a multiple of 19. The 19th of June is number 170

10:32

missed by 1. The 19th of July is number 200. The 19th of August is number 231. The 19th of September

10:50

is number 262. It's not a multiple of 19. The 19th of October is 292. It's not a multiple of 19.

11:03

November 19th is number 323. The multiple of 19. 19th of December is number 353. It's not a multiple of 19.

11:13

So, November 19 is the only day of the year whose number is a multiple of 19. What does this tell us?

11:20

And my mother was sterile for 4 years before I was born, by the way. So, this means God designed, you know

11:30

This tells us about God's power that He knew in advance that this baby is gonna grow up and is assigned to him

11:40

finding the code 19 in the Quran which is very simple, existed in the Quran for 1400 years. And

11:49

I want to quote Batool Karmally's very simple rebuttal of people who say who don't believe

11:56

She says "so just explain why did he find the number 19, the code 19?" So, God knew in advance who He was assigning this to

12:06

and He picked out the only day in the year that is dated 19 and its number is a multiple of 19.

12:14

There's something else I wanted to say. What is it? Yes. Now, this means 266 days before this date, there has to be a conception.

12:28

I mean, God planned the pregnancy and the birth and this is before we come to this world.

12:37

and this is... this is a time also to share with you a discovery by Azhar Khan.

12:47

These are the Arabic alphabet and the gematrical value of the Arabic alphabet.

12:56

As you know, we tell the people that 19 means 1. The gematrical value of the word... of the number 19 or the word 1 is 19.

13:07

And 19 is God's signature. We're gonna find 19 is God's signature in all His creation, the Sun, the moon, you.

13:17

You have 209 bones in your body. 19 times 11. Dr. Sabahi gave us a lecture on the elements in the universe.

13:25

And the maximum number of electrons is 114. A multiple of 19.

13:32

So, Azhar Khan put the gematrical values... Oh, when we tell the people, the skeptics

13:40

that 19 is the numerical value of the word "One", that God is proclaiming there's only one God. You shall worship God alone.

13:49

The first commandment in the Old Testament, the New Testament and the Final Testament, they tell you "how do we know that

13:56

19 is the value of "One?" OK. Azhar Khan put the values of these, the gematrical values of all the letters

14:04
up to 1000 which is the letter... the last letter غ and he found that this number is a multiple of 19. So, this validates

14:14
the value of every alphabet letter in the Arabic language. And this tells us that God designed

14:22
the Arabic language and designed the Quran with the code 19 in it before the Earth was created.

14:31
Therefore, it is not too much to also the student who is to research this code 19 is born on the 19th day

14:42
of a month, the only day in the year, that is also divisible by 19. The purpose of sharing this with you

14:54
against my own personal tendency is because I want to strengthen your faith and my faith.

15:02
This is one of the things that God associates with the number 19 in SURA 74.

15:06
(74:31) وَيُزَادُ الَّذِينَ ءَامَنُوا إِيمَانًا

15:08
the believers, they increase in faith.

15:13
There's another thing. We were using this same alphabet yesterday. My sister compiled my name. She numbered them consecutively

15:24
regardless of the gematrical value. And she calculated my name and it came out to 114, the total of the letters.

15:33
So, all this tells us that God predetermined and predesigned all these things and all you can say SUBHAN ALLAH, glory be to God

15:43
that He is omnipotent. And I better stop at this point to leave some room for the great news coming up.

15:52
Tooboo Ela Allah. Repent.

16:13
Alhamdu Lillah.

16:14
We praise God.

16:16
Wa Ash-hadu Alla Elaha Ella Allah Wahdahu La Shareeka Lah.

16:19
And we bear witness that there is no other god except the one God.

16:23
The great news that I have for you started out with a few questions by Lisa and the discussion that followed. And then,

16:32
as I will share with you the verses in the Quran we have been reading them hundreds of times, but you will see how

16:40
how logical and beautiful they fold together. The great news is that the righteous go straight to heaven.

16:48
This is the great news. Then, I'm gonna give you the evidence. In other words, they do not... the unrighteous go to death. They die.

16:58
The unrighteous do not really die. They certainly move from one stage to next stage in a gentle way.

17:09
There's a SURA that says... that says that the angels of death snatch the souls of the disbelievers

17:18
and they beat them up by the time of death. In verses... in SURA 8 verse 51. In SURA 47, verse 27

17:27
God is telling us that the angels who are guarding us now and serving us.

17:32
When the time comes and the person who dies a disbeliever, they beat the person, specifically on the face and the rear end.

17:41
You can imagine. Also, they snatch the soul because obviously this disbeliever is going to hell.

17:53
But before that there is a period of death and a continuous nightmare. This is what the Quran teaches us.

17:58
In SURA 40, God says "they see hell everyday, but they do not enter it until the day of... the day of Resurrection... the day of Judgement.

18:08
because hell is not here yet. Now, look at God's wisdom and mercy.

18:20
God's wisdom and mercy is that He created heaven, first before we were brought here and He put Adam and Eve there.

18:32
The Earth was here. Yes, it is egg-shaped. And Adam and Eve were up here in heaven connected with their bodies down here.

18:45
This is some kind of invisible connection. But the souls of Adam and Eve - this is all allegorical - were up there in heaven enjoying heaven.

19:01
Therefore, heaven exists. When they broke God's law, they were brought down here. They were sucked back into their bodies.

19:09

But heaven exists and this is where we go the moment of death. It is exactly like when we sleep. When you and I sleep, the righteous
19:20
their soul voluntarily roams around. And this is exactly how the righteous die.
19:27
They just leave their bodies here on Earth. Through the bodies disintegrate and go away, but that doesn't matter
19:33
because we're gonna be coupled again with new bodies on the day of Resurrection. But the righteous go straight to heaven.
19:41
Now, here's the startling evidence. In the same SURA, where God tells us that the angels of death snatch
19:51
death is a painful process for the unrighteous. And the angels snatch their souls out of their bodies. They're resisting.
20:01
And they're being beaten up cause this is the day they receive the bad news. At the time of death, every person knows whether
20:12
he or she is going to heaven or hell through these very clear verses. In the same SURA, God says that the angels invite the righteous.
20:24
It's an invitation. And it's met by joy. It's like the angel come at you and say "now, you can go to heaven." You say "really! Is it time?"
20:36
So, in the... so, we're told that eagerly the righteous move on to the next stage. And it is beautiful.
20:46
As the descriptions in SURA 2 verse 25. Now notice
20:53
these things that we read hundreds of times but this is the time that God wants to inform us, tell us this good news.
21:00
God says "give good news to those who believe and lead a righteous life that they have deserved gardens with flowing streams.
21:08
When provided with a provision of fruits therein, they say "this is what was provided for us previously." The key word here is provision.
21:17
OK. Now, God says... this is a commandment... in SURA 3 verse 169... well, let me go in the same SURA 2, first.
21:28
SURA 2 verse 154, God says "do not say about those who are killed in the cause of God that they are dead."
21:38
Do not say that they are dead. Because "for they are alive at their Lord." In this verse says "they are alive but you do not perceive."
21:50
Now, this is one. In SURA 3 verse 169, God says "do not think that those who are killed in the cause of God are dead
22:00
for they are alive at their Lord being provided. The same word is used as in 2:25, provision.
22:08
And then we are told in a number of verses that it is not just... you don't have to fight in the cause of God and get a gun or something
22:15
and get killed. That... when the righteous die, also, that death as a righteous or... or... or being killed in the cause of God, either way
22:27
is the same. And we see this in SURA 22, verse 58, for example, 22:58.
22:43
That's a good one.
22:46
That's 4:69. 4:69
22:51
Now, looking at 22:58, says "those who emigrated for the sake of God, then got killed or died," either way
23:01
"God will surely shower them with good provisions." The same words are being used.
23:06
(22:58) لَيَرْزُقْنَهُمُ اللَّهُ رِزْقًا حَسَنًا
23:08
The same repetition of the same words in the same verse. So, God says: do not say about those who
23:16
who died or get killed in the cause of God as dead. We cannot say that. They do not die. The righteous do not die. They simply move on
23:26
from this world to another stage on a very joyous and very happy day. Here's another clue that is really strong.
23:34
And this is in 44:56.
23:47
Now, we read about the two deaths and two lives, right? These are the disbelievers. In SURA 40 verse 12
24:00
The disbeliever says "our Lord, you put us to death twice and you gave us two lives. Is there any way out of hell?"
24:08
The disbeliever say that. In the beginning of SURA 2, God says "how can you disbelieve in God when He...
24:16
when He... when you were dead and He gave you life. Then, He puts you to death. Then, He gives you life."
24:21
But this is talking to the disbelievers. Now, watch what the believers say. SURA 56... 44:56

24:30
They never taste death therein beyond the first death. He has spared them the retribution of hell. Now, this is... this is a very powerful clue.

24:41
In Arabic

24:42
(44:56) لَا يَذُوقُونَ فِيهَا الْمَوْتَ إِلَّا الْمَوْتَةَ الْأُولَى

24:45
Except the first death.

24:50
So, the second death for the righteous is not death at all. It's just like going to sleep and it is...and the angels come and invite you

25:00
to go on to a fantastic place. And it is... it is met with joy and happiness. Is this great news or is this great news?

25:10
Alhamdu Lillah.

25:13
Let's see what else did I forget, here.

25:18
Oh, this is very important. I'm getting forgetting it because now I'm gonna impress on you. Cause you will never forget it.

25:25
This makes it special. And it is very important. In SURA 36, verse 20. And you can read it again. 36 starting from 20 to 27.

25:38
This gives the whole story away. I mean really proves it. 36:20

25:49
SURA YA SEEN.

25:52
OK. It says "a man coming...came running... a man came running from the other side of the city saying "O, my people

26:01
follow the messengers. Follow those who do not ask you for any wage and are guided.

26:06
Why should I not worship the One who initiated me and to Him is your ultimate return?

26:13
Shall I set up besides Him powerless gods? If the Most Gracious willed any harm for me, the intercession will not help me one bit.

26:22
Nor can they rescue me. Then, I will be totally astray.

26:29
I have believed in your Lord. Please, listen to me." Now, this is a man who's asking his people to worship God alone.

26:36
Number 26. "(At the time of his death,)" this is in parentheses, my... my own words. This shall be in the final translation, IN SHAA ALLAH.

26:47
do not... I'm not using this word "death." "he was told..." Listen to this. "enter paradise" or enter heaven. "he said O, I wish my people knew.

26:59
that my Lord has forgiven me and made me honorable." Now, why would he say "I wish my people knew"? Because obviously

27:08
his people are there on Earth. He's up here in heaven.

27:12
His people are down here, but they do not know. Remember the verse? "But you do not perceive."

27:17
So, he's up here in heaven and he says "I wish my people know."

27:22
But it is God's... it is the test and it is God's wisdom that Khomeini cannot come back and tell us where he is now. People

27:32
People, once they cross that line, they cannot come back here and tell us. But God is telling us. And this man obviously went to heaven

27:41
and he's saying "I wish my people knew that my Lord has forgiven me and made me honorable."

27:48
So, is that in Old Testament or New Testament?

27:51
This is the Final Testament.

27:53
Aqem Al-Salat.

27:54
Allahu Akbar. Allahu Akbar. La Elaha Ella Allah.

43 Friday Sermon by dr Rashad Khalifa Miracle of Miracles al fateha Proving the Five Salat 1989 12 0

Subhan Allah Wa Alhamdu Lillah Wa La Elaha Ella Allah
0:51
Allahu Akbar Allahu Akbar Allahu Akbar Allahu Akbar
1:29

La Elaha Ella Allah

1:47

La Elaha Ella Allah

2:06

Alhamdu Lillah. We praise God Wa Ash-hadu Alla Elaha Ella Allah Wahdahu La Shareeka Lah.

2:12

And we bear witness that there is no other god beside the one God.

2:17

Are we gonna have fun today? I'm giving 3 KHUTBAHs on behalf of three people.

2:26

I'm giving KHUTBAH on behalf of Edip and a KHUTBAH on behalf of Soad and a KHUTBAH on behalf of Saeed Talari from Newhampshire.

2:37

I'm presenting to you some things that they discovered in the last week. And they're all fantastic. You have all witnessed

2:50

the last month or so the miracle of miracles. We witnessed the

2:55

miracle of miracles that has to do with the first SURAH in the Quran and the five daily prayers. And just a quick review. This miracle of miracles begins with the number of units of our prayers.

3:11

The Morning is 2 units. The Noon is 4 units. The Afternoon is 4 units. The Sunset is 3

3:17

units and the Night prayer is 4 units. And this is a multiple of 19. The sequence

3:22

and specific numbers have to be this way. More... More sophisticated than this is you put

3:32

the two units of the morning and then you put two Fātehahs. Now the asterisk can be any

3:38

representation of SURAH number one. For example, this is one of them. This representation of SURAH

3:44

one includes the number of the SURAH, one, the number of verses in the SURAH which is 7

3:50

the number of words... letters in the whole SURAH, 139 and the gematrinal value of all the letters

4:00

added up. The whole SURAH. This means you take the value of every letter add it up and you get one hundred... ten thousand forty three. Put them next to each other like this you have a multiple of

4:10

nineteen. And this is what the asterisk is. Or you can make it more complicated than this by

4:19

putting the gematrinal value of every individual letter. You can also add the gematrinal values

4:25

of the whole verse. You can add the number of verses... excuse me, the number of letters in every verse

4:31

and so on. All of them... these representations are multiples of 19 and all of them can be used here.

4:37

So, just think of this as Al-Fātehah or SURAH number 1. Any of these numbers can represent SURAH number

4:47

one. So, you put the two units of the morning prayer followed by two Fātehahs and then the four

4:54

units of the noon prayer followed by 4 Fātehahs and then the four units of the afternoon prayer

4:59

followed by four of this number or any other number representing Al-Fātehah. The sunset prayer is three

5:07

units followed by three Fātehahs and then the night prayer is 4 units followed by 4 Fātehahs.

5:18

We... we tried... we... we really tested this very hard and we... as you'll see, we even imposed very harsh

5:30

conditions and still God gives us multiples of 19. One of the most profound conditions

5:39

was to reverse the numbers from right to left. There was one representation of... of SURAH Al-Fātehah

5:50

that can be used in there as to replace the asterisk. Like I said you can use any number

6:06

representatives of SURAH number one. Here's one of them and I just wanna give you

6:11

how an example of how we stretch it too far and God goes along with us, gives us

6:16

multiples of 19, still. You put the number of the SURAH, 1, the number of the first

6:22

verse is 1, the number of letters in the first verse is 19. The gematrinal value

6:28

of the first 786, verse number 2 has 17 letters and the value is 581

6:41
Verse number three... now this is one continuous number, remember that... verse number three has 12 letters

6:50
And the value of 6 1 8.

6:55
verse number four has 11 letters and the value is 241, verse number 5... we're still continuing...

7:07
has 19 letters and the value is 836, verse number six has 17 letters and the value is

7:17
1072, the gematrical value. The last verse number seven has 43 letters

7:28
and the value is 6 0 0 9. OK. This... this is almost all the parameters of SURA number

7:38
one, the number of the SURA, the number of every verse followed by the number of letters in every verse followed by the value of every verse. OK. This number is a multiple 19. It also

7:48
it consists of 38 digits, nineteen times two. So, what we did, we reversed this order

7:54
backward, every component we put this at the beginning and then this after which is a crazy

8:01
way of doing it but some Arabs will use that as an excuse. They say we write from right to left. Well, still came out a multiple of 19. So, this is really the miracle of miracle.

8:16
Now, Saeed Talari... OK. Some smart-aleck, most probably an Arab will...

8:25
will tell you "why did they make it 2 SUJUDs in every unit? Why not 3 or 4?"

8:31
We do 1 RUKU'. This is RUKU', per unit and we make 2 SUJUDs per units. So, this smart-aleck

8:39
a disbeliever will tell you "why do you make 1 RUKU' and 2 SUJUDs?" And God is ahead of them.

8:47
So, this is Saeed Talari's discovery because... from New Hampshire... here's what Saeed did.

9:08
In the five prayers... in the five prayers, we read only one SURA which is SURA number one.

9:21
OK. Now, prayer number one; what do we do in prayer number 1? Here's prayer number 1.

9:26
What do we do? We read 2 Fātehahs, right? And we make 2 RUKU's

9:35
2 bowings, 4 prostrations, 1 TASHAHUD, right?

9:41
Ash-hadu Alla Elaha Ella Allah Wahdahu La Shareeka Lah. OK. Now. We get to prayer number two. What do you do in prayer number two?

9:49
We read 4 Fātehahs, we make 4 RUKU's, we make 8 SUJUDs, and we read 2 TASHAHUDs

9:59
in the sitting position. Then, we get to the third prayer, prayer number three where we read for 4 Fātehahs

10:07
four RUKU's, 8 SUJUDs, 2 TASHAHUD. Oh, excuse me this is 3.

10:17
That's right. That's right. Then, we go to prayer number 4 where we read 3 Fātehahs... see the changes in number?

10:27
And this is the only way it will be divisible by 19. We read 3 Fātehahs, we make 3 RUKU's, 6 SUJUDs, 2 TASHAHUD.

10:38
And the night prayer is number 4... is number 5. Excuse me.

10:45
In it, we read 4 Fātehahs, we make 4 RUKU's, 8 SUJUDs, 2 TASHAHUD.

10:53
This is a multiple 19. So, it pins down how many RUKU's, how many SUJUDs in every prayer, in the 5 prayers.

11:03
Now, is this miraculous or is this miraculous? We were very happy. We were... we were very happy about

11:09
this except we have in this mosque a troublemaker called Edip. We'll have one more in about seven

11:18
months. I mean, how we're gonna handle it. This troublemaker said "why..." Well, see, we have to be ahead of

11:31
the rascals of the... of the Arabs and the disbelievers. So, this is... we do this on purpose. So, it's a fantastic service.

11:39
He said "we read SURA number one. They will say "why don't you put it before every prayer?" And then he went home.

11:47
And he left Mahmood... and he left Mahmood to struggle with it. So, what Mahmood did... he put

11:53

one. OK. Here is SURA... prayer number two. He put one here. So, now we have the SURA
11:58
number ahead of every prayer. This is prayer number one. This is prayer number two he put 1, the SURA that we read in the noon prayer.
Before the ASR prayer, he put 1.
12:12
Yeah. This is the third prayer. In the fourth prayer, he also put 1. And before the fifth prayer, he put 1. This excuse was that we read SURA
number
12:25
one in every prayer. So, why don't we put 1 there? God said "OK. It's divisible."
12:31
SUBHAN ALLAH. It's really incredible because when you have a number like this...
12:47
OK. this number... this number is divisible by 19. This is 8.
12:54
OK. This number is divisible by 19 if you add one, it's not divisible anymore. if you put... if you put it anywhere else here, it's not divisible by
19.
13:05
I mean, if you change it, you have a completely different number when you add 1.
13:13
So, these are all physical impossibilities but God made them possible.
13:21
I hope there are no scientists sitting here thinking how can physical impossibilities be possible. Edip: I think if you put anywhere else these 4
one, it will not be divisible.
13:30
The messenger: Of course not. If you... if you put a one here or here. Put it anywhere else...Yes.
13:40
There's been a flood of miracles in the last month and to use Catherine's expression
13:48
We are light years ahead of the rest of the world because it's gonna take them quite a few years to catch up with these.
13:54
I mean, after 50 years, they'll say...It'll take them maybe this much.
14:06
OK. This is Saeed Talari's discovery with Edip Yuksel's challenge and discovery.
14:21
I have to go a little faster. Edip's discovery.
14:31
The... the disbelievers, normally Arabs have been giving us rough time about Bism Allah Arrahman Arraheem.
14:41
Is it nineteen letters or not? Of course, it is 19 letters. I keep telling them "what your eyes see you
14:46
count." They say "oh, there is a stress in this letter, we must count it twice." Like Muhammad, the whole Muslim
14:54
world wrote it 4 letters. Muhammad. They say "since you stress the second M, you must write Muhamamad."
15:01
Then, there are five letters instead of 4. Even their Idol, they mess up with his name. So, what Edip
15:08
discovered is that when you read SURA AL-HAMD, Al-Fātehah. SURA number one, your lips meet exactly
15:15
19 times. Now, this has nothing to do with the spelling or or how many letters or stress or
15:23
anything. This really nullifies their excuse. For example, when we say BISM. That's 2. Let's say it together.
15:32
BISM that is... that is 2. Here is BISM. ALLAH. AL-RAHMAN. There is 1. AL-RAHIM. There is 1. AL-HAMD. There is 1.
15:44
LILLAH. RAB. There is 1. AL-ALAMIN. There is 1. AL-RAHMAN. AL-RAHIM. MALIK. YAWM. AL-DIN.
15:56
IYYAKA NABODO WA IYYAKA NASTA'IN. IHDINA AL-SIRATA AL-MOSTAQIM. 2 of them. MOSTAQIM. SIRATA AL-LAZINA
16:07
AN'AMTA ALAYHEM. QAYR AL-MAQDHUB ALAYHEM WA LA ZALLIN. How many are these?
16:17
These's 1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17.
16:30
Hold it. BISM. ALLAH. AL-RAHMAN. AL-RAHIM. AL-HAMD-O LILLAH. RAB. AL-ALAMIN.
16:40
AL-RAHMAN. AL-RAHIM. MALIK. YAWM. AL-DIN. IYYAKA
16:45
No. BISM. ALLAH. AL-RAHMAN. AL-RAHIM. AL-HAMD-O LILLAH. RAB. AL-ALAMIN. AL-RAHMAN. AL-RAHIM. MALIK. YAWM.
16:59
AL-DIN. IYYAKA NABODO WA IYYAKA NASTAIN. IHDINA AL-SIRAT AL-MOSTAQIM. SIRATA AL-LAZINA AN'AMTA ALAYHEM.
17:10
QAYR AL-MAQDHUB ALAYHEM WA LA ZALLIN.

17:17
AL-MAQDHUB is 2. OK. Because there are... watch this! 4 Bs and 15 Ms.

17:30
In the Arabic language, these are the only letters where... where your lips meet. The B and the M. In English or in Farsi, there's also P.

17:41
The letter P as in... as in...

17:48
It has to be Pill, backward. OK. The B... the value of B is 2 and the value of M is 40 in Arabic.

18:02
So, 15 times 40 is 600 and 4 times 2 is 8. The total 608. It's also a multiple of 19.

18:17
How do you like that? These miracles come in pairs. They have no excuse.

18:36
Oh, okay. Now, we get to Soad's discovery

18:42
Edip: Second KHUTBAH, Rashad.

18:49
Soad numbered the alphabet in a conventional manner. That is from 1 to 28. We have 28 letters in

18:58
alphabet. She counted 1 to 28. The gematrical value is when you get to 10, you don't count 11. You go to 20. 10 20 30 40... and when you get to 100, you don't go to 101. You go 100 200 300. Then, 900 1000.

19:11
Our system was 1 2 3 all the way to 28 which was used by Lisa also couple of years ago. OK. She... she looked at the word Nooh (نوح)

19:25
Noah in Arabic. The value of N is 14.

19:32
Excuse me. I didn't mean to write so small. 14 and the U or WOW in Arabic is 6 and the H or the HA is 8.

19:47
It gives 28, the value of Noah. Now, if you look in the Quran to SURA Noah, you'll find that it consists of 28 verses.

19:57
OK. Now, she went to Abraham.

20:03
And she found that the A is 1. The B is 2. The R is 20.

20:14
The A is 1. The HA is 5. The I, here, EBRAHIM is 10. And the N is 40. This is 42.

20:29
What? Oh, excuse me. 40 is the gematrical value. It's 13. Confused the two systems.

20:38
The total of IBRAHIM is 52 and this is the number of verses in SURA IBRAHIM. How do you like that?

20:46
OK. Then, she went to Muhammad and the M is 13. The HA is eight. Same letters as here, see? And then

20:58
thirteenth is the other M and the D is 4. The total is 38. This is the number of verses in SURA Muhammad.

21:08
How do you like that? So, she calculated the value of NOOH. It was 28 which is the number of verses

21:14
in SURA NOOH in the Quran. She calculated IBRAHIM... IBRAHIM, the value is 52 and this is the number of

21:21
verses in SURA IBRAHIM. She calculated Muhammad. The value is 38. This is the number of verses

21:26
in SURA Muhammad. And then she found out... that was this morning... that SURA NOOH is number 71 in the Quran

21:37
IBRAHIM is SURA number 14. What is the difference?

21:47
57. 19 times 3 which means between the two SURAs, Noah and Abraham, 57 SURAs and outside

21:56
also 57 SURAs and then she calculated Rashad Khalifa and the total came to 114.

22:06
There's no SURA in the Quran whose verses are 114. 114 is the whole Quran.

22:13
So, she concluded that Rashad's job is to confirm all 114 SURAs.

22:20
Tooboo Ela Allah, repent.

22:33
Alhamdu Lillah. We praise God Wa Ash-hadu Alla Elaha Ella Allah Wahdahu La Shareeka Lah.

22:39
And we bear witness that there is no other god besides the one God. We pray to God that

22:47
He guides us to appreciate His miracles because these are also miracles that will cause mountains

22:55
to crumble, literally. This is what God says and makes our hearts tremble. In this KHUTBAH,

23:06
I want to share with you that God is using me as an example for all of us and to teach all of us.

23:19
So, I want to say that I'm a happy guinea pig. God is using... using me as an experiment in a profound way. You read in SURA

23:33
41 that those who believe in God and lead a righteous life, the Angels descend on them saying

23:40
what? Douglas, what do the angels say to the believers? Have no fear and no grief. This is your favorite verse.

23:51
They also say peace. Yeah. That's another SURA... another SURA. No fear and no grief.

23:59
(41:30) لَا تَخَافُوا وَلَا تَحْزِنُوا In Arabic. Have no fear no grief. And we had a profound example in the last two weeks.

24:07
Do you remember what I talked about last time when I was here? Anybody remembers? Yes. about

24:15
the righteous do not die. Dr. Sabahi remembers. I'm sure all of you remember. The KHUTBAH was

24:21
a revelation. It started with a question from Lisa as to what happens to righteous and as you know in the

24:29
Quran, God repeats YASLOONAKA "they ask you" QOL "say" They ask you. Say. When a question is posed

24:36
God sends the revelation through Gabriel to tell us what the answer is or if we are speculating

24:46
then God will send Gabriel with assurance as to what is the correct answer to the question.

24:53
So, I shared with you last time that the righteous do not die. They go straight to

24:59
Heaven and I wrote it down in the Perspective and I mailed it to everybody. So, even yesterday...

25:12
Was it yesterday or the day before yesterday, the Saudi guy calls from Chicago?

25:17
The day before yesterday, he called and talked to me for an hour and sarcastically he said

25:29
"Okay. What was Gabriel's latest revelation?" He was ridiculing and mocking. I thought the last

25:37
revelation Gabriel came was that the righteous do not die. They go straight to Heaven and after I finished talking with him. This was quite a reminder.

25:47
Then, I called Egypt and I found out that my mother went to Heaven on Monday which is the day that Soad made that discovery.

25:56
And she considered it to be the happiest day of her life. It's an assurance from God. He sent the

26:04
angel. He says "have no fear. Have no grief." And then, you know that your mother made it to Heaven. She

26:11
didn't die. She simply... also the information that I got are very assuring. OK. She tell the

26:19
servant go make me a cup of tea. Servant comes back in two minutes and she's gone. So, she's in a good

26:26
mood. You usually ask for a cup of tea when you're perfectly happy. You're gonna sip the tea, watch the TV

26:33
or something. And if you remember what I told you in the last KHUTBA. I said the angels come and

26:40
invite the righteous person to go to Heaven and says "yeah! Really?!" They go. They probably told her "you're not gonna wait

26:46
for the cup of tea?" "What?! Are you kidding?!" So, there were many many many strange signs that happened to assure me. OK.

26:59
In order to do the funeral prayer, they went to the mosque and in that mosque, there were only two believers that we know

27:08
and one of them at least would be here for the conference in September.

27:14
His name is Mustafa Sherbat. They... they already pushed a known KAFIR to lead the prayer, you know a disbeliever whom I know

27:25
also, an idol worshipper and then Mustafa... Oh, Mustafa opened the Quran when he went

27:31
in and the verse that came out was "God cites the example of Pharaoh's wife."

27:39
That's an example of the believers, Pharaoh's wife. "She prayed to God please build a mansion for me

27:45
in Paradise with You and save me from the wicked people." So, that was the verse he read. This is the

27:52
first sign. And then Mustafa said "I don't know why all of a sudden they put the other

27:58
guy and they pushed me and to lead the prayer. So, Mustafa, a believer, went in to lead the

28:06
prayer. We're gonna have a prayer immediately after the Friday prayer. We'll have a prayer for her.

28:13
So, a believer was chosen to lead the prayer and he said... now this embarrasses me a little bit but

28:18
I have to say it. I'm sharing it with you. But he said "the intention that came out I didn't want to say it

28:25
I had no intention of saying it but this is how it came out." He said نويت مصلى على روح ام عبدك و رسولك رشاد خليفه " He said

28:34
This is what came out of his mouth. He said "I intend to pray for the soul of the mother of your servant and your messenger Rashad Khalifa." Mustafa is a

28:43
believer anyway, but he said he had no intention at all of saying this. OK. So, they go for the

28:52
burial and they made ZIKR around the... after the burial and they're both, the two believers, Mustafa and Sharif,

29:01
They told me on the phone "we were amazed at the number of La Elaha Ella Allah that we said" around her.

29:06
They were just saying La Elaha Ella Allah for about an hour and nothing else. Just La Elaha Ella Allah. So, what I'm saying is

29:13
that God is teaching us through one of us cause that, of course, the unbelievers who will say "oh, he wrote

29:24
this because his mother died." Whatever they're gonna say. But we you... we know that I said it

29:30
last Friday, two weeks ago and I printed it and I made it and after this, we give the news.

29:37
So, the angels, literally, the angels come down to you and tell you "have no grief and have no fear."

29:50
I think I have to mention my father here who was... I tried with him very hard to believe but

29:56
he refused to believe. The family had decided to bury my mother with my father. He decided

30:04
and She decided. Everyone decided. But my father is an idol now himself by his followers. And

30:11
I know for a fact... there's something else... that he died as a disbeliever and I was taken from here

30:16
literally... taken... carried from here, there just before he died to give him the last warning even

30:24
though I didn't intend to. I had no intention of talking to him about religion, but he insisted and I... God let me know that he died as a disbeliever. God also let me know that my mother died as a

30:34
believer. I think I failed to mention this but all her life since I was 2 years old, I heard her say to

30:41
my father "those saints are helpless and powerless. They're dead. Only God can help you, God alone."

30:46
She was saying. She was saying "God alone" all her life. So, I... I know for a fact that she's a believer and this

30:53
all fits the... the total picture. So, when they went to bury her according to the family's wishes

31:00
his followers or idol worshipers who want to build a mausoleum around him and worship him, they didn't

31:09
want anybody else with him. They think... they thought that she will pollute the grave or something. So, God saved her

31:18
from that situation and she's buried with her mother whom I know also to be a believer. It's just

31:24
all the things that happened are just fantastic. Now, here is the trick. When my father died, I was

31:30
sad because he died a disbeliever and he is a man I loved very much. When he died, I was sad. When my

31:37
mother died, I'm happy, I was happy because of what God sent down that the righteous do not die. They

31:43
go on to... to Paradise. So, immediately after the Friday prayer, we will pray the two RAK'ATs of the

31:50
funeral... you know how to do it now because of Maya's circumstances. Aqem Al-Salat.

31:58
Allahu Akbar Allahu Akbar La Elaha Ella Allah If you want to mention a name, you can just say Rashad's mother. God will know what you're doing, but her name is Zeynab.

44 United Submitters International Conference Friday Sermon by dr Rashad Khalifa 1989

We praise God.

0:06

WA ASHHADU AN LA ILLAAHA ELLAA ALLAAH, VAHDAHU LAA SHARIKA LAH

0:09

and we bear witness that there is no god except the one God.

0:15

Since I was not scheduled to give the Friday KHUTBA, I did not prepare anything. So, I will just chat with you.

0:24

And I will mix my Friday sermon with my scheduled welcome for all of you. It is really

0:38

a privilege and an honor for me to welcome the most important people on Earth. You are the most important people on Earth.

0:47

You have come to the realization that God is omnipotent, omniscient and he sees the path ahead of us

1:00

and can make better choices than we can do. Then, you decided to submit all your affairs in God's hand.

1:11

God repeatedly says in the Quran that only those who possess intelligence will come to me.

1:17

As you know from your own experiences by now, it is not easy to worship God alone

1:28

to uphold the word of God alone. You have come to realize that you are a privileged minority of a minority

1:37

Better, better expression is elite of the elite.

1:41

In the Quran, it is

1:42

السُّبْقُونَ السُّبْقُونَ (56:10)

1:44

In SURA 56, God described the very special people who come to the realization that God alone possesses all power

1:54

and decide to live their lives devoted to God alone. God is the only priority in their lives.

2:07

So, you can see why it is indeed an honor to me to welcome the most important people on Earth.

2:16

You've succeeded in attaining this worshipping God alone

2:22

and upholding his word alone. God says in the Quran in SURA number 3

2:28

God ordered us to say...

2:30

قل say

2:31

اللَّهُمَّ

2:33

our God

2:34

say

2:35

اللَّهُمَّ

2:36

our God

2:38

يَتْلِكَ الْفُلُك

2:41

God describes Himself as

2:43

يَتْلِكَ الْفُلُك

2:44

Possessor of all possessions

2:46

Possessor of all things. I repeat the statement in the Quran

2:52

لِلَّهِ مَا فِي السَّمَوَاتِ وَالْأَرْضِ

2:53

to God belongs everything in the heavens and the Earth.

2:59

God is

3:00

مَلِكُ الْمَلِكِ

3:03

the Owner of all kingship.

3:07

Nobody owns anything in the heavens or the Earth. So, any intelligent creature will associate

3:17

himself with the One who possesses everything. He's the One who possesses all the provisions.

3:27

He's the One who controls your health, your wealth, your happiness. And this is stated very

3:34

clearly in SURA 54.

3:36

وَأَنَّهُ هُوَ أَغْنَى وَأَقْنَى (53:48)

3:38

He is the One who makes you rich or poor.

3:43

He is the one who decides whether you're happy or miserable.

3:48

وَأَنَّهُ هُوَ أَصْحَكَ وَأَبْكَى (53:43)

3:50

He is the One who makes you happy or miserable. With the understanding that God does not make us miserable.

3:57

God's law dictates that we can make ourselves miserable according to God's law but nobody can make you happy or miserable.

4:08

Only God. This is precisely why God says only those who possess intelligence will come to Me.

4:19

God says "say"

4:21

إِلَهُكُمْ مَلِكُ الْمَلِكِ

4:22

Our God, possessor of all possessions, Owner of everything in the heavens and the Earth.

4:29

مُؤْتَى الْمَلِكِ مَنْ تَشَاءُ

4:31

You'll give possessions to whomever you will or You give kingship to whomever you will.

4:37

وَتَنْزِعُ الْمَلِكِ مِمَّنْ تَشَاءُ

4:38

You remove possessions or remove kingship from whomever you will or remove power from whomever you will.

4:47

وَتُعِزُّ مَنْ تَشَاءُ

4:49

You give dignity to whomever You wish. God is the only source of dignity and respect

4:56

وَتُذِلُّ مَنْ تَشَاءُ

4:58

And You humiliate or to...You remove... You remove dignity from whomever You will.

5:05

بِيَدِكَ الْخَيْرُ

5:06

In Your hand is all provisions, all good things.

5:12

God is teaching us to say this of God.

5:16

إِنَّكَ عَلَى كُلِّ شَيْءٍ قَدِيرٌ

5:17

You are omnipotent.

5:19

So, God is teaching us that, in very simple terms, repeated throughout the Quran that He's

5:25

the only one who possesses all power. So, what... what... what are we doing depending on anybody else?

5:34

You are the people who decided God is

5:38

مَلِكُ الْمَلِكِ

5:40

and as I will introduce you to each other

5:44

you're gonna see that in each one of you, in the light of each one of you, there are because you

5:48
have been put to the test and you are being put to the test. In the life of each one

5:54
of you, there are demonstrations and proof that you know that only God possesses all powers.

6:05
You've come across the people

6:10
who will try to divert you. Satan... you are the number one target of Satan and this is in accordance with God's law.

6:25
People will try to divert you and will use all kinds of tricks

6:31
and Satan will always work on you. It is not interested in those people out there or idol worshippers or disbelievers.

6:43
and one of the tricks they will use....

6:48
... so it doesn't distract us.

7:03
The verse number 2 of SURA 29 says "do the people think they'll be left to say

7:08
we believe without being put to the test? We have tested those before them for God

7:16
will surely distinguish those who are truthful from the liars." So, this is why you have to be tested

7:25
and we... we never cease to be amazed at how efficient the test is.

7:34
Recently, at the mosque of Tucson

7:39
if we have the number of people whom I just fell in love with, wonderful people.

7:48
And I always wondered "are they strong believers who will make it?" We were always praying for the people

7:55
to make it, to pass the test and we're pulling for them. At the same time, we're also interested in

8:04
in having God's test take place in order to sift away those who do not belong among us.

8:15
It is not something bad. It's been happening all the time that this sifting process

8:23
cause only the pure diamonds remain. Everything else of home blows to the top and is removed.

8:34
This very seemingly very strong people were subjected to tests recently.

8:40
They... they were called

8:44
"Rashad is bad. Rashad is manipulating you." And this is by people who are sipping whiskey as they say that. "Don't listen to Rashad."

8:55
It's surprising how the... the people are influenced.

9:01
They're tending to worship God alone, follow the word of God alone. Then, somebody who is sipping whiskey are telling them

9:08
"Rashad is bad." "Oh, you're right. Rashad is bad. Bye." They flunk the test so easily. This happens.

9:18
Satan will work on your ego and will say "you... you're following Rashad Khalifa.

9:25
And you know better and I know better,

9:28
You do not follow Rashad Khalifa. We do not follow Muhammad or Jesus. We do not follow any human being.

9:33
We follow God. We know that. This is why we smile when they say that. But this is just about one of their last straws.

9:44
"You follow Rashad Khalifa" is the polite way. But usually they say "you follow the crazy Rashad Khalifa.

9:51
They have to add some adjectives to just work even harder on our egos.

9:57
But we make it very clear we follow

9:59
عَلَيْكَ الْمُلْكُ

10:00
the Possessor of all kingship.

10:03
We follow only God. We follow only the word of God.

10:07

And as you know, I'm the first one to tell you, if it is my opinion

10:14

if it is Rashad Khalifa, don't follow him. Cause you'll probably do the wrong thing. If it is you

10:21

must... you must be sure you're following God and following the word of God and we'll go to

10:27

wary extend to make sure that we are following God and the word of God and not following the words of any human being.

10:37

TUBU ILLA ALLAH, repent.

10:52

ALHAMDULLILLAH. WA ASHHADU AN LA ILLAHA ELLAA ALLAAH, VAHDAHU LAA SHARIKA LAH

10:57

Praise God and we bear witness that there is no god except the one God.

11:03

At this rate, it seems like I will finish the Friday sermon and finish the Friday prayer before Ismail Barakat is here.

11:12

Cause at 2 o'clock, we have the introductions and the welcome.

11:24

God says only the intelligent come to me.

11:30

and when we look in the Quran almost every place says the only unforgivable offense

11:36

maintained until death is idol worship. There's only one forgivab...

11:41

unforgivable offense at the time of death. When a person dies and had committed

11:46

murders and lies and cheats and theft and adultery and aggressions. All these are forgivable.

11:56

God gave us examples in the Quran.

12:01

Moses killed somebody. One of God's great prophets

12:08

There's only one unforgivable offense at the time of death and that is Idol worship. Idolatry.

12:19

Any person with the smallest amount of intelligence will say to himself

12:23

or herself if this is the only unforgivable offense, I'm going to avoid any suspicion of it

12:32

for the rest of my life, while I'm alive. Any hint of idol worship, I'm gonna get rid of it.

12:39

We look in the Quran and it says in SURA 3 verse 18 that God... God begins with Himself

12:48

شَهِدَ اللَّهُ

12:49

God bears witness

12:52

أَنَّهُ لَا إِلَهَ إِلَّا هُوَ

12:54

that

12:54

لا اله الا الله

12:55

This is the SHAHADA according to ALLAH SUBHANAHU WA TA'ALA.

12:58

According to God, the SHAHADA is

13:00

لا اله الا الله

13:01

وَالْمَلَائِكَةُ

13:02

and the angels. God lists the angels after Him.

13:06

وَأُولُوا الْعِلْمِ

13:07

and those who possess knowledge.

13:10

So, there is the SHAHADA in plain language, in any language, in any translation. "God bears witness that the SHAHADA is

13:18

لا اله الا الله

13:20

and so do the angels and those who possess knowledge. Therefore, if I say

13:24
لا اله الا الله

13:26
I'm right.

13:29
So, they tell you "OK. put next to it

13:32
محمد رسول الله

13:35
Where... where did this come? Maybe, it's perfectly all right. Maybe. But "maybe" is a maybe.

13:42
Maybe, it's idol worship. Maybe, it's perfect but we're not sure and any intelligent person who knows

13:50
that the only unforgivable offense is idol worship will say since

13:54
لا اله الا الله is correct

13:56
and لا اله الا الله محمد رسول الله is

13:59
maybe. I'm gonna stick with لا اله الا الله

14:03
After all these are the words that came out of Muhammad's mouth.

14:07
He would certainly he would not blame me for saying "لا اله الا الله" on the Day of Judgement. I'm talking about God will not blame me.

14:14
And this is consistent through the Quran. In SURA Muhammad, SURA titled "Muhammad", number 47, verse 19 says

14:24
فَاعْلَمُوا أَنَّهُ، لَا إِلَهَ إِلَّا اللَّهُ

14:27
you shall know that

14:29
لَا إِلَهَ إِلَّا اللَّهُ

14:31
The Muhammadans took it and they put

14:34
فَاعْلَمُوا أَنَّهُ، لَا إِلَهَ إِلَّا اللَّهُ محمد رسول الله

14:38
They added it and you'll see it here in this appendix.

14:44
They said know that

14:46
لَا إِلَهَ إِلَّا اللَّهُ

14:46
There is no god except ALLAH and Muhammad is RASOOL ALLAH, His messenger.

14:51
They added it.

14:53
And they put it in the calligraphy that looks like the Quran to the point that people who memorized the Quran were fooled.

14:59
They thought it is Quran.

15:02
Cause this kind of idolatry became so common that it became part of parceling the people's beliefs.

15:11
God says in the SURA entitled "Muhammad"

15:13
فَاعْلَمُوا أَنَّهُ، لَا إِلَهَ إِلَّا اللَّهُ

15:16
So, why are they trying to push their idolatry on us? It doesn't make sense. Any intelligent person

15:23
knowing that idol worship is the only unforgivable offense will... will... will run away from any suspicion of idolatry.

15:34
So, then they turn against all you and they say "why don't you believe that Muhammad is RASOOL ALLAH?"

15:41
Well, the fact that you uphold the Quran is the biggest proclamation that we know that Muhammad is RASOOL ALLAH, God's messenger.

15:51
And we have examples that utterly destroyed their argument.

15:59
The Quran is the word of God and consistently God puts His scriptures ahead of the messengers and the prophets in the Quran.

16:09
God is talking to believers and those who believe in God

16:12

بِاللَّهِ وَعَلَايِكُمْ وَكُنْ بِهٖ وَرُسُلُهُ

16:14

God, His angels, His scriptures and His messengers. The scriptures, the word of God, comes ahead of the messengers always

16:21

in the Quran. So, you can ask them "don't you believe... you believe the Quran is the word of God?" They'll say "yes." Then, OK. You should say LA ILLAHA ILLA ALLAH in Quran

16:33

كَلَامُ اللَّهِ

16:34

Why don't you say? "Don't you believe Quran is كَلَامُ اللَّهِ, the word of God? Why don't you say LA ILLAHA ILLA ALLAH, the Quran is the word of God?"

16:43

You see it's the same. This completely shuts them up.

16:48

They accuse you of being... hating Muhammad which is the exact opposite. They hate Muhammad.

16:56

And the Quran says "only the hypocrites say Muhammad RASOOL ALLAH.

17:00

They added to that. They put Muhammad's name next to God's name. You can take this further and say

17:10

Why not say "LA ILLAHA ILLA ALLAH, the sunrise is from the East?" You know, there's no end to this.

17:16

Why? Don't you believe that the sunrise is from the East?

17:20

So, there are millions of statements that we can put next to LA ILLAHA ILLA ALLAH that are absolutely correct.

17:25

but this is not the point. Verse 18 of SURA 3 says "God bears witness that LA ILLAHA ILLA HU."

17:36

I lost my notes.

17:44

When they tell you "you follow Rashad Khalifa" if they're light or "the crazy Rashad Khalifa" if they are normal

17:54

You tell them "we follow God. We follow God alone and follow the word of God alone."

18:03

The principle is very easy. If it is not in the Quran, we don't... we have no consideration for it.

18:14

In this conference, you're gonna hear lots of views, personal views of many people.

18:20

Anybody can say anything they want.

18:24

But your criteria is the Quran. If it is not in the Quran, don't believe it.

18:30

No matter who is talking to you.

18:35

Very simple principle. Because this is what we follow.

18:46

Even in this conference, Satan has to be represented especially in this conference

18:53

Satan has to be represented and you're going to hear some views and that are contrary to the Quran

19:03

and if you believe them, you deserve to believe.

19:07

Then maybe two or three people who will... who will be influenced.

19:11

Because the purpose of these people who are bringing views other than the Quranic views is to at least put doubt in your heart.

19:18

and if you as long as you have doubt in your heart, you are in the lowest rank of, of submission.

19:28

Remember the verse in SURA 49? Verse 11, I believe. It says

19:34

قَالَتِ الْأَعْرَابُ ءَاَمَنَّا (49:14)

19:35

They said "we are believers." God says "do not say you're believers. Say you are Muslims" until all doubt is gone.

19:47

So, their job is to put even a little bit of doubt in your heart

19:53

and when this happens, you know that God is testing you and that... unfortunately

20:01

if the doubt comes in my heart, unfortunately, I still have some doubts.

20:05

I'm still in the lowest rank. I'm still on my way. It's not hopeless yet.

20:12
But you must be aware of this principle. This is our principle. If it is not in the Quran, I don't believe it.

20:21
May or may not be correct. But if it is not in the Quran, I'm not following it.

20:37
We have time now to do the Friday prayer and then go into...

20:44
I can't linger any longer until Ismail is here. So, we'll just go prepare for the Friday prayer

20:51
and I'm sure Ismail will get his chance to express his views. He had prepared a very good KHUTBAH on the ink and paper.

21:00
But this... this is... this is not the Quran. The ink and paper, the physical book is not the Quran.

21:05
The Quran is in your heart. When the prophet Muhammad was taken to the seventh heaven to receive the Quran,

21:11
God did not give him a book. Ismail's here?

21:14
A man: No. I waited and I waited.

21:17
The messenger: Oh, he was supposed to come with you.

21:19
A man: Yes.

21:27
The messenger: How about the Washington group?

21:50
And where is Abdulwahid?

21:53
Brother Abdulwahid, is that you? Welcome to the conference.

21:58
So, looks like Ismail... we do believe that he'll be here for his own funeral. And now, it is confirmed.

22:06
AQEM AL-SALAT.

45 United Submitters International Conference Final Speech by dr Rashad Khalifa 1989

BISM ALLAH, ALRAHMAN, ALRAHIM In the Name of God, Most Gracious, Most Merciful I seek refuge in God from Satan

0:19
I have a lot to say. I don't know why but it all came to my head.

0:25
And it is very important. Actually, I had a lot to say and I was anxious to change the schedule.

0:34
So, when we were ahead of the schedule in the morning and Shahnaz was speaking here. We decided to change the schedule, right?

0:41
But this is destiny. It is destined that I speak now at this time with you, certain people, in this hall, now.

0:50
Because when we attempted to change the schedule. What happened?

0:56
We couldn't do it. And the rain was only here around the... on the dining hall.

1:02
It was rain here only. The rain and the lightening were only here.

1:08
So, we had to go back to the original schedule because it is destiny that I speak now.

1:14
When you go to school, and enroll in a course and they find that you are deficient in some information,

1:24
they send you back to school to take some prerequisites. You go and take physics or physical chemistry, and then you find the formulae or formulas

1:39
that how things go, differentiation and integration and funny signs.

1:44
And you don't understand a thing and they say "oh you didn't take calculus?" You say "no." So, they send you back to school, say "go take some calculus and come back."

1:54
And we are, this is what happened to us. We were in God's kingdom and some deficiency was discovered in us.

2:05
And some fellow creatures suggested that we'd be flunk, failed and send them all to hell.

2:13
And God said "I am gonna send them back to school, give them a textbook"

2:18

You see the textbook. "And then they are tested, and if they make it, they can come back."
2:27
Go take some calculus and come back.
2:36
After making this statement, I'm realizing that we are here in school to take some additional courses.
2:43
We are receiving a lot of information and we are going from test to test.
2:49
I want to congratulate you, most of you, for making it
3:00
because you have passed the most difficult test.
3:05
The most difficult test is to have one of us, a human being like us, claim that he is a messenger of God.
3:14
It's a very difficult test. And I can see now why God calls them AS-SABEGHOON, those who are the elite of the elite,
3:26
السَّابِقُونَ السَّابِقُونَ the elite of the elite. But it's a very difficult test, and I myself went through it. So, I am speaking from experience.
3:38
God says they are ثلة من الأولين, many from the first generation.
3:43
We are the first generation. وَقَلِيلٌ مِنَ الْآخِرِينَ and few from the later generations.
3:49
We are the ones who took the difficult test.
3:55
Many will be jumping on the wagon in the near future and thousand and millions are going to join us in the future,
4:03
but they don't deserve as much credit as you. I was staying at Farima and Amir Koleimi's house at San Francisco a couple of months ago.
4:16
And Farima and Amir, like myself, who grew up with the traditional Islam:
4:25
they taught us that Muhammad was the last prophet, the last messenger,
4:32
but Farima and Amir passed the test, and they accepted me as God's messenger. They looked at the evidence,
4:40
And they believed me. They actually believed God,
4:47
Because God said لَا يَمْسُئُهُ إِلَّا الْمُطَهَّرُونَ God said, none can touch this book of mine except those who are worthy of it.
4:55
And they said since God revealed the miracle of Quran through this man, then he must be, he cannot be a liar.
5:03
And they concluded that God is telling the truth. It's not as easy as I am telling you now. But it's a difficult test. They passed it very easily.
5:12
A couple of days later, after I stayed with Farima and Amir,
5:17
the neighborhood children came to ask what is that messenger of God. Because Farima and Amir's children went around saying "guess who is sleeping in our house?"
5:28
For the children, for the new generation- Now God says He promises الحسنة, the beauty and enjoyment and Heaven for all of the believers,
5:41
But Farima and Amir's children cannot get the same credit as Farima and Amir.
5:46
These are children. They are growing up. They have no hang-ups. They say... their parents say this is God's messenger and we believe it and for them it's easy.
5:59
Can you see the difference? So, I congratulate you. The test is very difficult.
6:07
And I said, I passed it. I mean I went through it.
6:13
Alhamdulillah, I did pass it because I am like you. We are in the same boat. I am required also to believe that Rashad Khalifa is a messenger of God,
6:23
and it took me 8 years. Some of you are probably better than me in that respect. It didn't take you that long, but it took me eight years.
6:32
And this gives me a chance to make it up to some of my most beloved friends.
6:40
Edip, where is Edip?
6:46
This man is the most curious creature on earth. He is very curious. He knows your grandmother's name by now.
6:52
You might not know that he knows, but he is very curious.
6:58

and he comes to me and

7:03

I mean he goes to the supermarket and reads all the pamphlets and all the bulletin boards, everything, is very curious.

7:09

It doesn't make it easy when he comes to me and says "how does the revelation come to you?"

7:15

"Do you see Gabriel?" "What does he tell you? what do you tell him? In what form?"

7:21

And it is very difficult to convey this to him, and I can see the disappointment in his face.

7:27

He is very dear to me because he is a believer. Feroz Karmally is also very curious person.

7:34

Batool will tell you that. Very curious and he asked me the same question.

7:39

And he is, he is very very dear to me, Feroz Karmally and the disappointment in his face just breaks my heart.

7:46

I don't know how, what to tell him, so I am going to tell you now. I see the disappointment on Edip's face and I see it in Feroz's face.

7:56

I don't know if I can satisfy their curiosity or not, but I try. There is a precedent in the Quran, as you know Gabriel appeared to Maryam.

8:07

He told her he was Gabriel, but what did she say? She said, *إني أعوذ بالرحمن منك*

8:14

I seek refuge in God from you. *إِنْ كُنْتَ تَقِيَا* So, she assumed that he is Satan or an agent of Satan or something bad.

8:23

And before we jump to any conclusions, I want to set some records straight. Gabriel is a messenger of God.

8:35

He is the messenger who carries the revelations, he is an angel and God calls him *روح الأمين*

8:41

The Honest Bearer of Revelation *روح الأمين*

8:48

And he is...we may have human... human visions of Gabriel.

8:57

and we may convey on him human characteristics. Like, he may say "you're God's messenger." I say "get away from me, you are Satan."

9:09

We would think that he'll get mad and say "I'm telling you you are God's messenger." No, he doesn't. He is very mild

9:17

very understanding, very gentle and very respectful.

9:23

And he never never utters the things that we would utter

9:32

Like I'm telling you you'd better do the announcement or listen. It is amazing, of course, God gave him certain powers. They see certain things.

9:41

and they have a tremendous understanding, the angels do. So, they're really angels. The word "angels" as we understand it is very fitting.

9:51

Now, I went through the test because,

9:57

the way the revelation comes, Feroz and Edip, is that when... when God is sending information to us, Gabriel seems to just take over my brain, completely, and nothing else.

10:16

I can do nothing else except deal with the piece of information that is coming.

10:21

So, I stated in the perspective one time that Sura Y.S. (36): verse 3: *إِنَّكَ لَمِنَ الْمُرْسَلِينَ*

10:30

I said it that most assertively Gabriel told me that *إِنَّكَ لَمِنَ الْمُرْسَلِينَ* verse 3 applies to you. "Surely, you are one of the messengers."

10:38

And I tried to avoid that because it's a very... it's a very strong statement.

10:47

And I grew up saying Y.S. (*يا سين*), I was even told that Y.S. is the name of Muhammad.

10:53

But my brain was taken over and "you are one of the messengers."

11:00

I said "go away, you are Satan" which is what Mary said.

11:05

And then a very mild and very gentle debate will go on. "Why do you think I'm Satan?"

11:11

Didn't you, Didn't you say *أَعُوذُ بِاللَّهِ مِنَ الشَّيْطَانِ الرَّجِيمِ* I will actually say this. I would say *أَعُوذُ بِاللَّهِ مِنَ الشَّيْطَانِ الرَّجِيمِ* I seek refuge in God, from Satan the rejected.

11:21

And I would say *رَبِّ أَعُوذُ بِكَ مِنْ هَمَزَاتِ الشَّيْطَانِ* my Lord, I seek refuge in you from the whispers of the devil.

11:28

وَأَعُوذُ بِكَ رَبِّ أَنْ يَحْطُرُونِ and I seek refuge in you, my Lord that they come close to me.

11:35

And the debater will say "you said these statements, don't you believe God?"

11:41

"He protects you." "I am not Satan." And this is, when Maryam said "I seek refuge in God from you." She said أَعُوذُ بِالرَّحْمَنِ مِنْكَ

11:54

I seek refuge in the Most Gracious from you إِنْ كُنْتَ تَقِيًا if this means anything to you. In other words, you'll understand what I'm saying if you are really Gabriel.

12:05

Gabriel appeared to Maryam in the form of a human being. This did not happen in my case.

12:12

My case is strictly here. So, I dismissed the thought, but then I'm, I'm totally incapacitated.

12:19

As far as thinking is concerned, or doing anything. So, I ignored the thought. And then I said, I'm gonna read some Quran.

12:25

Then, I opened the Quran and my brain is taken over. "You are one of the messengers."

12:30

Sura Y.S., 3 applies to you. So, this is... I hope I satisfied at least some of the curiosity of Edip.

12:38

I know tomorrow he will come up with some other question. But it was very difficult.

12:44

I also... I think I need to make a correction, also. I was never asked to make the announcement.

12:50

And I think the way I put it down, I may not have expressed myself.

12:56

I was not, I was never ordered until the time of the announcement, and the 8 years before that, I was not ordered, but it was implied.

13:06

Like I said, there is gentleness and mildness and obviously there was destiny. There was a certain time for that announcement.

13:14

But I was just told in this fashion of all the information that "you're God's messenger."

13:21

And I went on my many ways, saying "I will preach the word of God Alone, the worship of God Alone. We don't need any announcements."

13:30

I said "ok. Fine. Ok. I know I'm God's messenger. Fine. Leave me alone." These kind of things. And then, in the first conference, Satan wanted to spoil that and jump the gun and do something.

13:51

And Susan Rey kind of let the cat out of the bag on pure speculation.

13:59

And then at that time, because Ismail is here, I am gonna relate his part,

14:08

Kathreen Colton was just telling me that when that happened and there was a big commotion, She went in a room and she found Ismail Barakat and Ghasem Ahmad of Malaysia, and Mehri and Mahmood Pirooz conferring about this disaster,

14:25

And Ismail Barakat was pacing the room. He was very angry and he made a statement that Kathreen heard.

14:33

Ismail is here and he said "I'm gonna ask him point blank if he is God's messenger or not."

14:39

He was whispering, by the way, but Kathreen heard him loud and clear.

14:47

And he was determined to ask me.

14:53

At the same time I was praying very hard. Said "please God don't let anybody ask me point blank, are you God's messenger?"

14:58

Because I would have told them. I would have said "yes" at the time. Edip: Rashad, I asked you a question but you didn't answer me.

15:07

The messenger: What was that? when? Edip: I said "your name has been mentioned in Quran 19 times." I said "it is significant." What's your idea about this?

15:17

The messenger: That was correspondence, right? So, I didn't answer you. That was easy.

15:25

Then, I was in San Francisco and people were in a lot of turmoil. Many of you were there.

15:31

And here is Ismail Barakat, a hard-headed Egyptian, determined, I mean really determined

15:39

He'd back me up To ask me, point-blank "are you God's messenger?" And I was... Kathreen said that she was watching me and I was very quiet.

15:49

What she didn't know, maybe she knows now, that I was praying very hard. "Please God, don't let anybody ask me that question. I don't need anything like this. I'm gonna preach Your word alone and worship of You Alone."

16:01

And what happened Ismail? I give you two minutes. You were determined, yeah.

16:09
And we discussed it with Ghasem Ahmad and we had gone to San Francisco to knock down idols. We didn't know of any new ones,
16:23
you see. So, we looked through the Quran and to us a messenger was one who receives scripture.
16:32
And this guy didn't receive any scripture. Not as far as we know and if he says that he's received scripture, he is a liar.
16:38
So, I was determined to ask him point blank and get the thing over with. And God is my witness. I couldn't open my mouth to ask that question.
16:47
Thank you, sir.
16:58
later, some time later, Ismail was telling me "I can't explain why I was so determined to ask you and what made me. Just I didn't do it."
17:09
So, obviously God answered my prayers. And the time went by and I had to make the announcement.
17:17
And I said some of you may be ahead of me because
17:23
I really agonized over that Khutba, the sermon of Friday. "How will I tell my friends, brothers and sisters about this announcement?
17:32
How many of them will I lose?" I love them very much. I wanted them to go with me, Insha Allah to heaven.
17:39
And I dreaded losing any of them. So, I, I had a sleepless night.
17:47
Then I go for the Khutba on Friday And very eloquently, as eloquently as I can, I delivered the Khutba,
17:53
And I tell them that I'm ordered to announce that I'm God's messenger. Then, then I go to Kathreen Colton, for example, and
18:06
Oh, I have to, I have to bring to you my condition at the time. I'm sweating away. "What do you think of this Kathreen?"
18:18
She said "I knew that all along." "What is the big deal?"
18:25
Then, I turned to Mohtasham and Susan and they said "what took you so long?" Here I am... I'm out of breath and sweating away and these guys knew all along.
18:35
The funniest one, I went to Lory also and she said "well, so, what's the big deal?"
18:42
I'm about to die, have a heart attack or something, and all these guys already knew, somehow.
18:50
without announcement, just like I knew without an announcement. The funniest one was Ihsan Ramadan. Where is she?
18:56
Where is Ihsan? Raise your hand. Ihsan was going to our children saying "this man is a messenger of God. I knew he's a messenger of God but does he know?"
19:06
"I wonder if he knows." "How can I break this news to him?"
19:19
Well, these guys were ahead of me. And of course, I told you what my daughter said. This is the toughest test.
19:29
It is very tough and I congratulate you. That's why I went into length.
19:39
We also trying to take account of this conference and I have lost some of my dearest friends because I was subtle.
19:54
But so I'm not gonna be subtle. Mahmood read the verse that says "they are merciful among themselves and harsh on the disbelievers."
20:02
I'm going to name names. I'm gonna be direct and straightforward. After congratulating most of you, there are a few individuals who I'm afraid may go to hell.
20:19
If they're guided, they will love me for saying... for saying this.
20:25
If they're not guided, they will hate me. which doesn't make any difference. So, I was standing in the lunch line, and Lydia said "how nice and smooth the conference is going."
20:38
And Kathy Robinson took the words out of my mouth "it's not over yet."
20:43
So, Olivia almost jumped and said "what do you mean?" I said "yeah, it's not over yet. Wait till you hear me." So, I may cause a lot of turmoil.
21:00
I need to remember the test. Yes, the test is very difficult
21:06
but If the person is not a believer, it is amazing how flimsy the test can be and they flunk.
21:15
And this happened to some of my dearest friends because inside their heart, they were not disbelieve... they were not believers.

21:27
 Flimsy, by flimsy, I give you an example. This is not what happened, but it is an example. They will come to the masjid. They will look at the miracle. They will the translation. They will discuss the matter with me. They say "worshiping God alone is reasonable. This is what we believe."

21:43
 "Following the words of God is fine, it is what we believe." Then, they go out and a block away, they meet somebody who tells them "guess what?"

21:51
 "Rashad Khalifa picks his nose." They say "he does?! I will never go there again!"

22:04
 That's how flimsy the test can be. Yeah.

22:09
 I mean here, I've given, shown them the miracle that God revealed throughout... through us the believers, a whole bunch of us,

22:17
 and then for a flimsy reason, they would flunk the test. It's a very difficult test, but then it reflects their belief or disbelief inside.

22:28
 We had many people come to the mosque, to the Masjid Tucson.

22:34
 They'd come to the Quranic studies. They'd come to the Friday prayers, and they would be seemingly good believers.

22:40
 Now, this is what actually happens. And then, of course, they have to be tested.

22:48
 Sura 2....Verse 2 of Sura 29: "Do the people think they would be left to say we believe without being put to the test?"

22:55
 We will surely test them to distinguish the truthful from the liar.

23:02
 They have to be tested and it is in my best interest. But I happen to fall in love with people easily especially when they say, we're believers.

23:11
 I was telling you that Edip is very dear to me, Feroz very dear to me. And I explained to you this matter of revelation.

23:19
 Even though it is really impossible to convey. I want to tell you anything. I want everything to be open. I don't want anything to be mysterious.

23:27
 And I don't want you to hesitate. If there's anything mysterious, or taboo or something, don't.... there is no taboo and there is no mystery. You come forward and ask.

23:43
 But why are they dear to me? It's because they're believers.

23:48
 One of the best advantages of being God's messenger is that I get to know the believers through believers.

23:58
 It's such an honor because believers are a rare precious commodity. God said so in the Quran.

24:06
 God says "most people no matter what you do will not believe and most of those who believe will fall in idol worship" (12:103-106).

24:12
 So, it is in my best interest that people go through the test and the hypocrites are sifted away.

24:20
 But like I said I happen to fall in love with these people. So, we have these people come to the masjid, appear to be nice, good believers,

24:30
 and then the test: And Satan sends a man who is very eloquent and very clever, a man who does not do the five prayers, claims to be a muslim

24:44
 And as he sips his whiskey. He tells them "Rashad Khalifa is bad."

24:49
 It's not exactly he picks his nose, but he doesn't keep his word, or he scratches his left ear occasionally, some flimsy really.

25:00
 and they would say "oh, ok. Then, we'll not go to the mosque. OK?" So, it reflect... it hurts me, but again it explains why I congratulate you for passing the test.

25:17
 The most difficult test is the test of messengership.

25:29
 I don't wanna miss anything. I wrote some notes very quickly here. God says "I will divert from my revelations those who are arrogant."

25:36
 And the only reason people flunk this very difficult test is ego.

25:49
 And God goes out of His way in the Quran and repeats that "say I am a human being like you."

25:56
 "I am a human being like you." And you know what you are. You're not perfect, nor is God's messenger whoever he... whoever it is.

26:08
 I'm a human being like you. The key word is "like you." But what is God's messenger? It's a person through whom God is sending information.

26:19
 And the messenger himself is required to listen to this information and is required, like you, to look at it and believe it or disbelieve it.

26:32

and it's the same difficulty that you're going through. but it is information from God.

26:42

This is why God say **مَنْ يُطِيعِ الرَّسُولَ فَقَدْ أَطَاعَ اللَّهَ** whoever obeys the messenger is obeying God.

26:47

This doesn't mean idol-worship which is used frequently to flunk some people.

26:58

"You're idolizing Rashad." We know better than that. We're listening to the information that's coming from God.

27:08

There is another verse that says, **فَلَا وَرَبِّكَ** it's a very strong verse

27:13

God is saying, "No, by your Lord," **فَلَا وَرَبِّكَ لَا يُؤْمِنُونَ** "they are not believers."

27:19

حَتَّىٰ يُحْكُمُوا "until they ask your judgement."

27:25

فِيمَا شَجَرَ بَيْنَهُمْ "in whatever opinions they dispute." **ثُمَّ لَا يَجِدُوا فِي أَنفُسِهِمْ حَزْبًا** "and then, they find no hesitation in them whatsoever,"

27:34

وَيُسَلِّمُوا تَسْلِيمًا "about your judgement." very powerful word: "and submit completely."

27:47

This **فَلَا وَرَبِّكَ لَا يُؤْمِنُونَ** "by your Lord, they are not believers."

27:58

There is a lady from Vancouver. Her name is Christina. She stopped me this morning.

28:05

Christine or Christina, I'm not sure. and she told me "I believe in God Alone. I worship God Alone. I believe the Quran, the Quran Alone."

28:16

"I don't believe you're a messenger of God." Christie: I didn't say that. Definitely, didn't say that.

28:23

The messenger: "What did you say?" Christie: I believe you are a messenger and message, number 19 as a code and I appreciate that. And I also said that....and I certainly never said you weren't a messenger. I believe you are."

28:46

The messenger: We had the same incident in Vancouver where privately, between her and me, she said "I don't believe you're a messenger of God."

28:55

And then when I said it, she came out in public like this and said "I believe you're messenger of God."

29:00

Christie: I do and I appreciate The messenger: So, what were you telling me this morning? Christie: I said that I believe that you should teach the brethren, all of us the meaning of Quran ourselves, meaning the Quran and do prayers

29:14

and not make decisions in their own personal lives the way you have been making. I think it's a dangerous action.

29:21

I came out of a church when he did that and the minister that was the head of church, Herbert W. Armstrong, years ago because led

29:29

into schism and I believe it's with us. He did not teach the people believing on God Alone.

29:37

The messenger: I believe he did, actually. Herbert W. Armstrong was a great man and I believe he did not believe Jesus was God, or son of God and I believe he is a Muslim.

29:45

Christie: In the beginning, he did. He led the people by God alone, but at the end of his life, he was teaching people in doom what he said and that was the problem in that church.

29:58

The messenger: OK. So, you're telling me what to do? Christie: No, I was trying to warn you privately not to be...

30:05

A man: Who the hell are you to warn him? Christie: I was trying to explain to you the pitfalls of that, and I was trying to ask you to see....

30:22

The messenger: Ok. I want to... I want to read the last verse of Sura 58,

30:31

A man: warn him?! This is...!

30:39

The messenger: under the subtitle "run for your life", it says, "you will not find people who believe in God and the Last Day befriending those who oppose God and His messenger,"

30:48

"even if they were their parents, or their children, or their siblings, or their tribe."

30:54

You will not find people who believe in God and the Last Day befriending those who oppose God and His messenger.

31:02

Do you believe I'm God's messenger? Christie: Yes. Yes.

31:08

The messenger: do you do the contact prayer the way I do? Christina: yes A man: No, you don't. The messenger: Does she do the prayer the way I do?

31:14

A woman: NO. A man: No, they don't The messenger: Thank you.

31:20

The messenger: Well, if you received letters in Vancouver from all over the world.

31:26

Raymon: I have my copies of letters in my... in my possession. The messenger: OK. Can I have them? I will read them. Can I have them?

31:33

The messenger: You can never do enough for God and this is one problem...

31:40

The messenger: OK. I'm glad you brought this up because I remembered this Satanic principle of "Do not judge."

31:47

OK. I want... so, be aware of this statement: Do not judge!

31:52

This...One of the names of this book is AL-FURQAN "the Criterion" with which we are to judge.

32:01

This is Satan's most famous principle and we hear it everyday: Do not judge! By God we can judge because we have the law.

32:08

They judge by the human laws, and we can judge by God's law. When God says that the disbeliever will go to hell; we can say the disbeliever will go to hell.

32:18

When God says you do not find the people who believe in God and the Hereafter befriending those who oppose God and His messenger,

32:26

and you see some of your most beloved friends breaking this criterion,

32:31

and constantly associating with enemies of God and God's messenger, you have to worry about them.

32:40

And as I said in the beginning, what I'm...what I'm about to say, if the people are guided, they will love me for it; if they are not guided, they will hate me for it.

32:48

Christie: Rashad, are you saying that I am the enemy?.....is that what you are saying?

32:55

The messenger: No, you told me this morning, I do not believe you're God's messenger which is, I don't care about this myself, but you're blaspheming against God.

33:01

Because God says: "None can touch the Quran, except those who are sincere." (56:79)

33:06

So, in other words, you're saying I'm a liar. If I'm a liar, you know what it means if I'm a liar? It means that I'm a person that does not believe in the Hereafter,

33:17

a person who does not believe that, some day, he will face God and he will be asked, why did you do this, why did you say that?

33:23

Christie: You're either lying or you made a mistake or you forgot. The messenger: All of them are bad. I'm either a liar and made a mistake or I forgot. but this is a very serious...this is a very serious matter.

33:38

The messenger: Now, Susan Ray is about to get into the act. Susan comes all the way from Europe to tell the people that she knows better Arabic than me, that my translation is wrong,

33:47

and therefore, we have to have representation of the other side,

33:55

And you thought this conference was going peacefully. May I interrupt for one second?

34:02

I need a volunteer to take Farzin, Farima and Zarin to the airport.

34:09

The messenger: I'll be with you in one minute. Just one minute. Do we have a volunteer to take them to the airport? Ok, take my keys.

34:34

I'm sorry, but they have to catch an airplane.

34:41

Sophie and Raymond and Susan, I hope you don't mind my frankness, but I...

34:48

Sophie: ...I just have to say if I ever hurt you or if my family ever hurt you, I seek refuge in Allah from Satan the rejected one, and I repent.

That's all I can say.

35:07

And may Allah guide us to the right path if we are guided by Satan.

35:12

The messenger: Sophie, I'm in the same boat with you. I'm striving to make it to Heaven, Insha Allah,

35:18

and I want you and Raymond, I know you're striving to make it to Heaven, but I think I love you too much maybe,

35:28

You've been in this movement from day one. You've been solid, but you associate... in fact, Satan is waiting for you in Vancouver right now. Don't you know that? You know that.

35:38

You know some enemies of God and God's messenger who'll be waiting for you in there.

35:45

And you're gonna treat them very nicely. You'll probably invite them to your house. When I was in Vancouver, you had LuLu Maknoon in your house, even though she was blaspheming against me and lying about me.

35:55

It is this kind of thing. You're doing this out of kindness, Sophie. I'm not attacking you or Raymond. You believe that these are right things.

36:05

Sophie: Rashad, when you came to my house, everybody was telling me he was a disbeliever. The messenger: Who was a disbeliever?

36:10

Sophie: When you was coming to my house, everyone said to me he was a disbeliever. Messenger: Who was a disbeliever?

36:16

People: You. Messenger: Oh, ok. Sophie: ...I said, Rashad, you say LA ILAHA ILLA ALLAH; even though I was brought up, I was very impressed with Sunni Islam.

36:29

I said, you say LA ILAHA ILLA ALLAH, you're welcome in my home and you don't go stay in a hotel.

36:35

If you remember that time, you were facing the Saudis... the Saudis at that time.

36:42

When LuLu Maknoon came to my home, she came and she said that she wanted to see you, and she wanted to meet with you.

36:50

This Hadith thing she wrote, I did not know about it. I explained to you ...

36:57

I discussed it with Lulu, I said, Lulu, you're mistaken.

37:06

She wanted to meet with you. The way I see it, you guys could meet and if there was a misunderstanding between believers, Allah says "you should reconcile."

37:15

That's the way I look at it. I never looked at it, in the sense that I was supporting a disbeliever.

37:22

The messenger: Well, fine. I didn't see... you can explain it as much as you want... as much as you want but I can't help worrying about you when you have people opposing God and opposing God's messenger in your house.

37:36

Sophie: Rashad, when you told me how you felt about it, the girl was on a bus the next day and she was on her way to Alaska.

37:45

Is this not a fact? The messenger: Yes, ..., I love you for it. I'm happy. See, this is why I'm doing it because I hope you won't do this in the future.

37:54

but you will not associate with them in the... In other words, you treat them... you treat them as God wants us to treat them.

38:02

God says لَا تَرْكَبُوا إِلَى الَّذِينَ ظَلَمُوا (11:113) Do not lean to those who are doing wrong

38:09

Susan Susan: Can I ask you a question, Rashad? Dr. Khalifa, excuse me!

38:16

Is there... Was there any mistake, if it was rather for language, or interpretation in your first translation of Quran?

38:33

The messenger: The first translation is an authorized translation. This translation, every word here is the word of God. This is not my word. This is not my translation; this is God's translation.

38:48

There are certain things that I hope you understand. Before we opened the first box of this Quran, I told the people in Masjid Tucson "this is already obsolete."

39:00

Because God sent His message in stages, even in the original Quran that the prophet Muhammad delivered,

39:08

and I have many examples to show you. So if you find - just a minute - I want to share a principle with all of you,

39:18

that, like I said, God says "say I'm a human being like you" which means I'm not perfect,

39:26

just like you, I pick my nose. A third woman (jokingly): You? No! Is that true!? Is that true!? Please! He picks his nose!

39:39

The messenger: No, no. There is something I want to say. What I want to share with you is, if you see me as a bad person, then it is your tough luck.

39:53

If you see me as a perfect person, it's because God wants to guide you; however, the truth is, I'm not a perfect person,

40:01

but every one of you have gone through this experience. You meet somebody,

40:07

and you are really dumb and stupid and you could not say a thing to this person to help him

40:13

and as soon as this person leaves, you remember all the verses in the Quran and the things that you needed.

40:18

It's tough luck for that person. That person would leave thinking that you're a stupid person.

40:24

And many times you meet somebody and you will be very eloquent and all the Quran verses will come, the right, you'll say the right words,

40:32
And it's because that person, God wants to guide that person. So, the way you perceive me depends on whether God wants to send you away or to bring you to the message.

40:42
This is a very known principle in the Quran.

40:48
Susan: May I ask you a question? The messenger: ok, you wanna prove that I made mistakes in this translation and the other translation?

40:55
Susan: No The messenger: Ok, what are you trying to prove? Susan: Dr. Khalifa, please. I was the first one who told all these people that you are the messenger of God.

41:05
and this can never, no one take it away from you. because it is something which is done. You have brought the key to the mathematical code of Quran.

41:18
This is absolutely undiscussable. The messenger: but? Susan: Ok. I just asked you because this is getting a very very dangerous situation.

41:28
I was the one about 1986, that I swear, in front of God, that I am going to back you up until my last drop of blood and this I meant it.

41:45
But, I am going to back up the messenger of God. The messenger means exactly what this message is.

41:57
Your message is absolutely untouchable. You are the messenger for that message.

42:05
But the situation is getting very dangerous because today... today, I was seeing... looking in the last edition of Quran you translated and I found that there was a difference of meaning.

42:22
And then when I showed this to one person, this person said "do you know better than he does?"

42:31
Exactly what you were saying that Susan Ray knows better Arabic than I. This is not the point.

42:38
Because we are human beings. We are able to make mistakes,

42:44
And this if I am showing, it's because this edition should be corrected too, as you are doing it now.

42:53
But the person is dangerous, because this person tells me, if you are saying that this is wrong, you are an unbeliever.

43:06
This is the danger that I'm talking about. I'm not criticizing you.

43:11
This is getting very dangerous, Dr. Khalifa. You have got to do something about this.

43:18
You are the one who said "first is the Quran and the messenger is Quran."

43:25
We have got.... God says that you have one Ummah. It means one line and this is this Quran.

43:32
The messenger: you're dividing it Susan, you're dividing the Ummah and this is... Everybody knows that.

43:38
You know, if you're really sincere and you're really worried about the message and the messenger,

43:46
you would come to me and ask me because I'm the one who made that change, if I made it.

43:51
Susan: What change? The messenger: Whatever you're asking and showing the person that I made a mistake or I made a change.

43:57
You would come to me and discuss it with me because I'm the only one concerned.

44:04
You're subverting the message. You're telling people. You're putting doubts in their hearts.

44:10
Susan: This is the danger because every time that I said that there might be a mistake, these people, they told me I'm against you. This is ridiculous.

44:21
The messenger: What is the purpose of telling that there's a mistake, when you could have come to me and then together we could share it with everybody?

44:33
if I am unaware of it. Susan: And last year, I experienced something that I don't want to go through it again because I couldn't speak. Because they were over me. They were thinking I'm your enemy. I'm not your enemy.

44:48
The messenger: Susan, if you're not following the Quran, the whole Quran, nothing but the Quran,

44:54
See if you don't... Susan, Susan, last year, you spoke and you said lots of things that I'm not in the Quran. Our principle, our principle here....

45:04
Susan: We should have discussed, Rashad. The messenger: Our principle here is, if it is not in the Quran, we do not follow it, we do not believe it, if it is not in the Quran. You have to get rid of all those things.

45:14

Susan: We have got to sit, discuss and show each other if we are out of Quran or we are not.

45:27

Edip: Susan Ray may have some good points, may have some mistakes. Last year, she insisted on a point. She claimed something very strange

45:39

that... Last year, we had a discussion, round discussion here with you and one of your claim, that now I remember... can you hear me? One of your claim that I remember now that at the end of 88, somebody will come

46:01

and from darkness we'll pass through light. Now, I...

46:06

The messenger: Edip, Edip...

46:19

Edip: BISM ALLAH, ALRAHMAN, ALRAHIM Edip: Susan, last year we had a discussion and we discussed, on YAWM AL-DDIN (Day of Resurrection)

46:29

and also, you made some interpretation on Sura AL-Noor (the Light), Light will come, and

46:36

I received a letter from you in Turkey. When I was in Turkey, you claimed also... I think you claimed here, I don't remember exactly, but

46:46

I remember that you claimed that you are very sure at the end of 88, these will come. I don't know somebody asked it will come

46:59

Now, I want to change the subject. I want to ask you "what has come?" If it is so important, I want to give you a chance. I will ask

47:08

Rashad to give you a chance. What had come at the end of 88 that should have changed... supposed to be change everything in the Earth?

47:20

It is a mistake, but you made a lot of trouble at time. You were claiming and you were so...

47:27

Susan: Why trouble? Edip: Yes, we discussed... Susan: This is the only place that we have the liberty from God to speak.

47:37

Edip: Sure. Susan: And this is what I have hoped that our security would be different from the others.

47:45

Edip: If this is our vicious idea, if anybody can subject and AYA from Quran. "This year it begins. I'm sure. You must believe in this."

47:55

Or I understand... Susan: You tell Susan Ray, I'm not gonna believe what you say. Who's gonna make you?

48:02

Edip: Excuse me? Susan: Who's gonna make you, force you? Edip: Not force, but... The messenger: Edip, I want to get you married.

48:09

Edip: We are here, must be... must be... must agree on subject and... Thank you.

48:27

The messenger: We're not going to subvert to anything or think behind anybody's back. I want to bring everything out

48:35

and I want you to know that I love Raymond and Sophie very much and I know they are believers. There are things I worry about them, like I worry about

48:44

my brother or sister or parents. I just worry, Raymond. You know I love you very much and they know I want you to be in a vanguard

48:54

of the believers. I see, it is also dangerous because if you are sucked in anything that God does not want you to do,

49:03

you influence a lot of people around you who may listen to you, also. Raymond: I can assure you it took me a lot of struggles in many years to get where I am today. And it will take something far far greater than

49:15

Christie or anything to trick me toward evil to get to my soul. My soul, Insha Allah, is going to the one place.

49:29

The messenger: This is my hope and I know, Insha Allah, God will help you achieve that. I think I'd better close and maybe leave it to questions

49:39

but I want to close with a verse in SURA 49 that says... First of all, I'm not a popularity seeker. I don't care if I am all by myself.

49:48

This is... this is God's business. It's not my business. I have nothing to do with it. This is God's business.

49:55

But it is my duty to share with you this verse that says, in SURA 49, إِنَّمَا الْمُؤْمِنُونَ

50:01

إِنَّمَا is an exclusion letter meaning the only believers. إِنَّمَا الْمُؤْمِنُونَ

50:07

The only believers الَّذِينَ آمَنُوا بِاللَّهِ وَرَسُولِهِ are those who believe in God and His messenger

50:14

وَلَمْ يَرْتَابُوا and then harbor no doubts, whatsoever. This is the definition of the believers.

50:23

Now, because of what is happening in our generation, we have a tremendous responsibility and with it there is tremendous blessings

50:33

that will include us in the elite of the elite, but also tremendous responsibility that brings the worst disaster.

50:44
 If I'm right in my assessment of Christie and what she told me this morning, and unless she is saved by God's mercy

50:54
 She will be the sorriest person on the Day of Judgment because she came so close. This coming very close, they being in the same room

51:03
 with God's message and God's messenger listening and witnessing. And on the Day of Judgement, we see this in SURA 57,

51:12
 I'm going to read this quick. I mean, have you ask the questions. When you come so close, it is very dangerous.

51:22
 There are only two extremes in this room. There are only two extremes. The extremely fortunate

51:29
 (41:35) وَمَا يُلْقِنَهَا إِلَّا ذُو حُظٍّ عَظِيمٍ Those who are fantastically fortunate.

51:34
 And then there is the worst disbelievers. There is no in-between in this room. You're gonna go either to the top or to the bottom and it is your neck.

51:48
 The truth is evident and falsehood is evident and you make the choice. I'm not interested in numbers or popularity or how many

51:56
 billions. I really... I really don't care. I'm amazed how many people are believing. I'm amazed! I'm gratified and I'm very happy.

52:08
 SURA 57, starting at verse 13, "On that day" on the Day of Judgement "the hypocrite men and women"

52:22
 These are hypocrite meaning people who claim to believe but in their hearts, they're not believers.

52:28
 "the hypocrite men and women will say to those who believed," will say to the elite of the elite. "Please allow us to absorb some of your light."

52:38
 In other words, we need energy. We need food. We're hungry. Give us some of your food, some energy, some light.

52:45
 It will be said, "Go back behind you, and seek light." A barrier will be set up between them, whose gate separates mercy on the inner side, from retribution on the outer side.

52:59
 [57:14] They will call upon them, "Were we not with you?" Remember that day in Oracle, we were all sitting in the same meeting hall.

53:08
 "Were we not with you?" And "They will answer, "Yes" You were with us. "but you cheated your souls, hesitated, doubted, and became misled by wishful thinking,"

53:30
 "until GOD's judgment came. You were diverted from GOD by illusions."

53:37
 So, you don't... just by being here doesn't mean you're gonna make it to the elite of the elite.

53:43
 God does not want wishy-washies or doubtful people. God wants solid believers. I know them and you know them. But

53:57
 They're people that are not very much and I want them all to be the elite of the elite. I want you all to be the elite of the elite.

54:04
 And I want to end this preach with a happy note that in this hall here exist the most important people on Earth.

54:15
 And the most important people in the Hereafter for eternity, the elite of the elite and I congratulate you from my heart.

54:24
 Congratulations! Are there any questions or discussions? Can we give it 10 minutes Ismail?

54:31
 Ismail: Yeah. We have 10 minutes. If there are any objections, complaints. Anything unclear. Cecilia.

54:48
 Cecilia: Salāmun 'Alaykum everyone. I will start. Yesterday... yesterday Mohammad came in and he said that he saw his son going down this direction and we know to pray this way and I told him I was not sure of his... you know we pray this way. I asked him to see that.

55:19
 The messenger: Ok. Let me save time. Let me save time. Cecilia: and then today this morning, the same subject came up.

55:25
 The messenger: Yeah. Let me save time. I'll tell you what the deal is. You can fly this way and go to Mecca. You can also fly this way

55:31
 and go to Mecca. So, both directions are correct. I'm aware that this is west. But especially, here on the west coast

55:38
 we can go this way. It's perfectly alright. However, if you go that way, you face the kitchen and the noise. You face this way, you're facing

55:46
 the stage. So, it's OK. Don't worry. (2:115) فَإِذَا بَيْنَنَا وَتَوَلَّوْا فَنُنَبِّئُكُم بِوَجْهِ اللَّهِ God says. Wherever you pray

55:53
 Wherever you pray, there is the presence of God. Other issue?

56:01

Hear item 2. Invocation pledge of allegiance.
0:27
The invocation of this evening will be given by Imam Rashad Khalifa of the Islamic mosque of Tucson.
0:33
Will you please remain standing for the pledge of allegiance to the flag?
0:42
In the name of God, the Most Gracious, the Most Merciful.
0:46
Praise be to God, Lord of the universe.
0:49
The Most Gracious, the Most Merciful.

47 Excerpts From a Radio Debate With dr Rashad Khalifa

We have invited into our studio professor Jeff Clark is with Arizona State University as an
0:24
anthropologist and he maintains that creationism isn't a science and therefore doesn't belong in
0:29
scientific classes. On the other hand, we have Dr. Rashad Khalifa. He is a biochemist and of course
0:38
he takes the opposite stand. And again, we're going through our phones open for your opinions about it.
0:44
It's a hot issue. It is going to be one that is you're going to be viewed with a great deal of
0:49
interest by the people in the United States in the various states and we're going to find out
0:54
how this thing is going to evolve. Well, Bob I have to make a correction here in that I will approach
1:00
the method from a scientific point of view. I agree with most of the things that Jeff
1:05
just mentioned in that science is our means to ascertain what the truth is and we have a
1:12
very powerful tool, objective and scientific tool to ascertain what events in the world are
1:20
probable and what events are not probable and this powerful tool is mathematics. Mathematics
1:26
is the most powerful, the most scientific of all of... of all the sciences and it represents the ultimate in
1:33

scientific proof. I realized that nobody can ever imagine a proof that will prove either
1:42 evolution or creation but there is something new and very exciting and I'm here to present it
1:48 to you. Well, we have... So, in... in essence, we are talking about a mathematically coded message
1:53 from outer space. You... if you read the Carl Sagan's "contact", he is talking about a... novel fictitious
2:00 message from outer space. Now, this is not fiction anymore and that's why I have come here with... you're going to
2:06 have to put that in your pipe and smoke it. Yes, that's right. Yeah, that's right. So far is the particular aspect
2:14 of the Old Testament that's of issue here i.e., the book of Genesis. It's an origin myth like any other
2:20 origin there. It's not a greater nor lesser than... but you keep going back to the Genesis... the book of Genesis existence. The reason
2:29 I say that is I believe that underlies scientific creationism since it's espoused by Henry Morris.
2:35 Now, it's obvious Dr. Khalifa does not agree with Dr. Morris. Sorry, and he's not here right now. I'm debating with you. That's quite
2:43 true but who has written the texts on scientific creationism? Henry Morris and who is the founder of the Institute
2:50 for Creation Research? Henry Morris. How long ago was that? There... there... well he goes back about
2:55 20 years. Well, we're talking about now, Jeff. As soon as this program is over, I will show you irrefutable mathematical evidence that
3:02 we have a document from outer space, from the Creator telling us exactly how things... How are you gonna
3:07 prove that to the Supreme Court for heaven's sake? Absolutely, I'll prove it in any court. All right
3:11 Hold your point. We have to take some calls. This is really getting interesting. Messages
3:14 from outer space... Absolutely... to absolutely prove the creation is a fact. Yes, sir. Is it possible that
3:22 there is some sort of gigantic protoplasm somewhere out in the cosmos with all the
3:28 ingredients and all of this energy that can in fact create things? I'm not talking about an old
3:33 man enrolled with a beard and... and pearly gates and things like that. I'm talking about, is there
3:39 a possibility with our limited knowledge to envision some sort of humongous thing that thinks that can
3:47 create things? Bob, you can envision anything that you want and they have obviously not in
3:53 the strict and rigorous sense. You're not saying this about God... Oh, yes. Gods are... gods are the servants of
3:59 the societies and the cultures that create them. They have no existence apart from the societies
4:05 that... Even if it is proven to you. Well, I'd like to see somebody prove it to me. I'd you like to see it
4:10 because I can show it to you. Bob, there is no escape now that there is a super-intelligent
4:15 out there either through the theory of evolution ironically or the theory of creation.

48 World News Bulletin

Ladies and gentlemen. My name is Rashad Khalifa and what I'm about to share with you is the
0:37 most important news in the history of the world. Because this is the most important
0:43 news, it comes with something unique, something never witnessed before, a built-in irrefutable
0:51 proof of authenticity. The world's leaders are invited as well as each and every one
0:58 of you invited to examine the evidence, then take action in accordance with this news. Here are the
1:07 headlines: this year, 1986, is the last year to experience the world as we know it today. A new
1:17

worldwide era or worldwide system will begin sometime between September, 6, 1986 and August
1:27
25th, 1987. We are recording this bulletin on May 15th, 1986. The new era will last 303 lunar years which
1:42
is equivalent to 294 regular years after which the world will come to an end.
1:50
In other words, after 300 years of a new era, the world will end in the year 2280.
2:28
Up until now, the world has served as the testing ground for Satan's
2:34
claim that he can be a god besides God. Up until now, the world has been Satan's domain.
2:43
Satan's incompetence as a god has been proven by the abundance of misery, disease, famine, divorce
2:52
oppression and wars in this world. In the new era, Satan will throw up his arms and declare
3:01
his failure. For thousands of years, Satan has been trying very hard to make his domain, the
3:10
planet Earth, a perfect place where everyone enjoys perfect health, perfect wealth and
3:17
perfect peace, but he just couldn't do it. While Satan's Kingdom is plagued with misery, disease
3:27
famine, poverty, oppression and wars, the upcoming era of God's kingdom is characterized by perfect
3:36
health, perfect wealth and perfect peace and joy. To become a member in the upcoming kingdom of
3:45
God, you must satisfy three minimum requirements. First, you must believe in the one true God as
3:54
the omnipotent, omniscient and omnipresent Creator and sustainer of the universe. You must believe in
4:03
the one true God the specific one who actually created you. You must believe in the one true God
4:11
alone without idolization of any creature of God such as Jesus or Mary or Buddha or Muhammad or the
4:21
saints. The definition of idol worship is believing that anyone or anything other than God can benefit
4:30
you. The second requirement for membership in the upcoming kingdom of God is to believe in
4:37
the Hereafter, resurrection after death, heaven and hell. The third requirement is to lead a righteous
4:47
life and this means that you are a person who is honest, truthful, nice, one who never hurts anyone.
5:30
So, these are the three minimum requirements for membership in God's kingdom. First, to
5:37
believe in God alone without setting up any idols. Second, to believe in the
5:43
Hereafter. Third, to lead a righteous life. This news bulletin confirms
5:51
the conclusions of the outstanding Christian scholars who thoroughly researched the Bible
5:57
then concluded that Jesus is neither God nor the son of God, but a great teacher and the
6:04
messenger of God. They published their findings in the famous book "the myth of God incarnates."
6:29
The next headline is actually an invitation and a challenge to the world's leaders to
6:36
examine the evidence, the incontrovertible physical evidence that comes to the world
6:43
built into this message. I invite them to examine the evidence, then take whatever action they deem
6:52
necessary to save their own necks and the necks of millions of people who follow them.
6:59
I invite Billy Graham to examine the evidence then repent and save himself and his millions of
7:07
followers. One of Dr. Graham's favorite statements is "I know I am going to heaven." Well, I have news for Dr.
7:17
Graham. He will see heaven only if he repents and reverses the mobilization of millions of
7:25
people against Jesus Christ and the teachings of Jesus Christ. I have no doubt about the sincerity
7:33
of Dr. Graham. But I can show him physical evidence proving that he has been used by Satan to oppose Jesus Christ.

7:57
 I invite Billy Graham, Pat Robertson, Jerry Falwell, Robert Schuller, Oral Roberts, Jimmy
 8:06
 Swaggart and all evangelists to join God's kingdom by upholding the teachings of Jesus
 8:13
 Christ and by abstaining from offending Jesus by calling him God or son of God. I invite the
 8:22
 Pope to join God's kingdom before it's too late. I call on Pope John Paul II to examine the
 8:31
 evidence then lead his 1 billion followers out of Satan's grip and into God's upcoming kingdom. The
 8:41
 Pope is in contempt of God so long as he idolizes Jesus, Mary and the Saints against their will.
 9:10
 Rabbi Kushner of Boston has published a book entitled "when bad things happen to good
 9:17
 people." This book exposed Rabbi Kushner's denial of God's omnipotence and revealed the reason
 9:26
 why Satan had victimized Rabbi Kushner and his late son. I invite Rabbi Kushner
 9:35
 to break away from his persecutor, Satan and to join God's kingdom by professing
 9:43
 God's omnipotence and by taking whatever action necessary to retract his blasphemies against God.
 10:06
 This bulletin declares that the Muslim world has been in Satan's camp for 1,200 years. The Muslims
 10:15
 en masse have abandoned the word of God in favor of man-made fabrications. I invite the leaders of
 10:24
 the Islamic world to stop misleading their 1 billion followers and to join God's upcoming
 10:32
 kingdom by upholding the word of God and nothing but the word of God.
 10:59
 I must point out that no one should ever think that I am judging anyone. Only God is judge. What I uttered in this bulletin was
 11:11
 God's judgment, not my judgment. And God's judgment is supported by its built-in proof of authenticity
 11:20
 that anyone can examine and verify. May God guide us all towards membership in his eternal Kingdom.

49 The Creators Signature

Man has always believed in some kind of a god.
 0:24
 This need to believe in a supernatural and omnipotent being led many to search for a
 0:31
 god, start wars in the name of a god, even create a god if they had to. Hello. My name is Bill Buck.
 0:40
 In this report, we are going to present you what we call the ultimate miracle. You see, when man
 0:45
 chose to believe in gods, most of these gods had one thing in common. It was required that
 0:50
 they be feared, worshipped, served and revered. Numerous religions sprang up to serve these
 0:55
 gods. Some of the oldest religions still exist, today, namely Buddhism, Hinduism and Shintoism. Some
 1:04
 of these religions believe in many gods for example, a god of fire, a god of water, a god of
 1:09
 love, a god of prosperity and so on. Then, came the monotheistic religions. Those that believe in one
 1:19
 God. All of which are considered major influences in global history and affairs. These are Judaism
 1:25
 Christianity and Islam and significantly they share a common belief in one... global history and
 1:31
 affairs. These are Judaism, Christianity and Islam and significantly they share a common belief in
 1:38
 one supreme God. Perhaps, the best way to portray these is to look at Jerusalem where all three
 1:44
 religions mingle. We have a historical account of biblical and other prophets and the miracles that
 1:50
 they are credited with having performed. There was Moses who we are told talked to God and led the
 1:56
 Jews out of bondage and brought them the Ten Commandments. He even parted the Red Sea when
 2:02

pursued by Pharaoh and his troops, according to the Bible. There was Jesus Christ who is the son of the
2:07
living God to Christians. Through him Christians entered into a new covenant with their Creator. Lastly
2:14
there was Muhammad. Muslim history tells us that in Mecca, God revealed to him the Quran, the Muslim
2:21
holy book which is recited fervently and followed by one-fifth of the world's population. For many
2:29
centuries and in spite of man's experience with religion, there still remain many mysteries. The
2:34
most baffling and complex mystery of all remains the identity and the concept of this God that man
2:40
has never seen and yet believes in so religiously. This sea of religious confusion has been swelling
2:47
all the time. Many religions all claiming to be right began to break into sects. During all this
2:54
time, man was advancing economically, socially, militarily and intellectually. Man continued to
3:01
advance technologically at an unprecedented pace. But in terms of religion, he was still in this sea
3:08
of confusion often misled by tricksters and deeply disappointed with his unanswered prayers to this
3:14
unseen God. Disappointment and confusion led many to lose their belief. Agnosticism and atheism have
3:23
become widespread. Many now openly reject or at least question the existence of this God who
3:31
has been so popular throughout the ages. The theory of Darwin became the accepted opinion
3:37
of many scientists and scholars who were able to draw supportable conclusions from the proof
3:42
and arguments presented. But now most scientific and religious thinkers realized that there are
3:47
deeper questions. So, where does that leave us? Are there any real solutions to this religious
3:55
dilemma? On the one hand, man cannot accept the illogical practices that religion dictates to him
4:01
yet by denying God, man still doesn't find the answers to some of his most burning questions
4:07
such as "Who am I? Why am I here? Is there a god? What is the purpose of life?" Just when man's
4:16
tolerance to manual labor reached a limit and the Industrial Revolution lay around the corner, now an
4:22
intellectually enlightening revolution seems to be around the corner. Previous generations were
4:27
converted to believe in God by means of miracles. However, modern man cannot believe in God because of
4:33
these. He has watched men walk on the moon. He is presented daily with the latest technological
4:40
marvel. He has come across too many false claims, fake miracles and fake prophets. He has become very
4:48
cynical especially when it comes to ancient myths and beliefs. With some arrogance, he believes that
4:54
he knows more than his forefathers let alone those ancient reporters of fantastic events. He wonders
5:01
what they would have thought of some of today's miracles. Today's man needs something substantial.
5:07
He needs an ultimate miracle. All the miracles that were supposed to have converted man over the ages
5:13
were limited to a particular geographical location or a time period. By definition an ultimate miracle
5:19
would be something that is perpetual not limited to a certain century or a geographical location.
5:23
It would be for all of the people to see all of the time. It would be something that is physical
5:30
touchable, examinable, verifiable and irrefutable. A few years ago, noted scientist and television
5:38
personality, Carl Sagan, in his best-selling novel, talked about a mathematically coded message from
5:45
outer space. On page 431, the author states "my fondest hope for this book is that it would
5:51
be made obsolete by the pace of real scientific discovery." Well, it seems that Carl Sagan's fondest

5:57
hope has come true. Research over the past few years has uncovered just such a mathematical
6:02
code in a document that is over 1,400 years old. There are other miraculous aspects to this
6:08
document. For instance, only in the past 20 years has science been able to witness the development
6:14
of the fetus in the very early stages. However, 1,400 years ago the development of the fetus in
6:21
the first 28 days had already been documented and with such graphic accuracy that it left
6:28
Dr. Moore, chairman of the anatomy department of the University of Toronto, utterly amazed. For at
6:34
this stage, the embryo is only about one tenth of a millimeter long and would appear like a dot to
6:41
the human eye. To discern its shape would require a powerful microscope. However, microscopes were
6:49
not developed until the 17th century and yet 1,400 years ago we find the following: "there after
6:57
we created of the drop a thing which clings, a leech-like structure." Dr. Moore confirmed that
7:06
the embryo does in fact cling to the wall of the uterus. Another passage describes the
7:12
stages of fetus development. "God makes you in the wombs of your mothers in stages one after
7:20
another within three veils of darkness." Dr. Moore confirmed the accuracy of this description, also.
7:29
He explained that the three veils could reasonably be interpreted to mean the mother's abdominal wall
7:34
the wall of the uterus and the amnio chorionic membrane. It goes on. We've all heard about the
7:41
Big Bang Theory but who would expect to find an account about the Big Bang Theory 1,400 years ago
7:47
but there it is. "Do the disbelievers not realize that the heavens and the earth used to be one
7:55
entity. then We parted them?" The separation process resulted in the formation of multiple worlds. The
8:05
mention of these worlds has made several times in the document. Also, it would seem that the
8:10
modern discovery of bridges of matter which are present outside organized astronomical systems
8:15
is referenced in the verse which reads: "God is the One who created the heavens, the earth and
8:22
what is between them." "Today we will only preserve your body to set you up as a sign for subsequent
8:29
generations. Indeed most people are heedless of our signs." Miraculously, it seems that the
8:38
Egyptians were exclusively gifted with the science of mummification. In 1898, Laurier discovered the
8:44
mummified body of Ramses II of Thebes in the valley of kings where it had lain untouched for 3,000
8:51
years. He had it transported to Cairo where it may be seen to this day. The medical study of
8:57
the mummy of Merneptah, Pharaoh of the Exodus, has yielded further useful information on the possible
9:03
cause of this Pharaoh's death. The lack of signs of deterioration of the body proves that the body
9:09
did not stay in water for a prolonged period of time. And in the heavens, for many centuries it was
9:16
believed that the moon had its own light. Science discovered not too long ago that the moon really
9:22
did not generate its own light, but acted only as a reflector of the sun's rays. "God is the one who
9:30
made the Sun luminescent and the moon a light and He designed its phases to provide you with the
9:37
timing device. God did not create all this in vain." "God is the One who created the night the day the
9:46
Sun and the moon. Each one is traveling in an orbit with its own motion." Today, it is known how the
9:55
celestial organization is balanced by the position of stars in a defined orbit and how the interplay
10:02

of gravitational forces is related to their mass and speed of movement, each with its own motion.
10:08
Sir Francis Drake proved the Earth to be round when he sailed around it in 1597. "Are you more
10:16
difficult to create than the heaven that he built? He raised its masses and perfected it. He made its
10:24
night dark and its morning visible. Thereafter, He made the Earth egg shaped." That was written almost a
10:34
thousand years before Columbus. We know now that the Earth's atmosphere acts as a filter to prevent
10:40
harmful radiations from reaching the surface. Short wavelengths like x-rays and ultraviolet rays are
10:47
filtered out at high altitudes. Protection from these rays is vital to the existence of life on
10:53
Earth. "And We made the sky a protected ceiling." Then, there is the affirmation of the modern idea that
11:03
the origin of life is aquatic. "And We made water a requisite for every living thing." Water is the
11:13
simplest chemical compound of importance to all the living things. Most organisms consist of 50 to 95
11:19
percent water. Scientists know that absolutely every living entity known to man requires water
11:26
for its existence. Many properties of water make it essential to life's processes. Its ability to
11:33
dissolve a great variety of substances is vital because most chemical reactions within organisms
11:39
can occur only in a water solution. Take the field honeybee busy bringing in nectar from
11:47
flowers. On entering the hive with a full honey sac - which is an enlargement of the esophagus -
11:53
the field bee regurgitates the contents into the mouths of young workers called house or
11:59
nurse bees. These, in turn, deposit nectar in a cell and carry out the tasks necessary to
12:05
convert the nectar to honey. This we have known for about 80 years. "And your Lord inspired the
12:13
bee. Build homes in the mountains and the trees and what the people build for you. Then, eat
12:21
from all kinds of crops and obediently follow the designs of your Lord." "Out of their bellies comes a
12:29
liquid of various colors wherein there is healing for the people. This should be a sign for those who reflect."
12:39
Remember, this statement was made 1400 years ago. How in the world could somebody have known 1400
12:45
years ago that honey came from the belly of the bee? This document also claims that there is a
12:51
healing property in honey. Honey does in fact have mild antiseptic properties. The Russians
12:57
used honey to cover their wounds in World War II. The wounds retained an amount of moisture
13:02
and left very little scar tissue. Because of its density, no fungus or bacteria could grow
13:08
in the wound. It is also known that if a person suffering from allergies from a certain plant is
13:14
given honey produced from that plant, that person builds up certain resistance to the allergy. 1000
13:22
years before the discovery of the circulation of blood and roughly 13 centuries before it was
13:28
known what happens in the intestine to ensure that the organs are nourished by the process
13:33
of digestive absorption, we find a verse in the document. "From between the urine and blood comes pure delicious milk."
13:45
Only recently, was it found that from what the cow eats, there is a separation of nutrients into the blood and
13:51
the urine and the remainder ends up as milk. Progress in botany 1400 years ago was nowhere
13:59
advanced enough for it to establish as a rule that plants have both male and female parts.
14:05
Nevertheless, we read in the document: "God is the One who sent water down from the sky and thereby
14:14
brought forth pairs of plants each separate from the other." Today, we know that fruit comes from

14:23
plants that have sexual characteristics even when it comes from unfertilized fruits like bananas. "Of all fruits God
14:32
placed on the Earth two of a pair." This document stated to early man the remarkable premise that mountains
14:41
move like the clouds. We know this to be true now since the earth rotates around its axis and around
14:48
the Sun, but to an ancient what could be more contradictory to the obvious than that mountains
14:54
move and yet... "When you look at the mountains, you may think that they are standing still. But they are
15:03
moving in the same manner as the clouds. Such is the creation of God. We know now of continental
15:11
drift of folding which forms mountain ranges. The Earth's crust is like a solid shell on which we
15:18
can live while the deeper layers are hot and fluid. "Have we not made the Earth an expanse and the
15:26
mountains stakes?" The stake like stability of the mountains is linked to the folding phenomenon in
15:34
that the folds provide the foundations for the reliefs that form the mountains. From this aspect,
15:41
they are indeed like tent stakes driven deep into the ground. "He makes his chest straightened like
15:49
one who climbs towards the sky." Fingerprinting became a scientific method of identification in
15:56
the 1880s with the research of Sir Francis Dalton. Dalton calculated mathematically
16:01
that no two persons could have exactly the same fingerprint patterns. "We can even reconstruct the
16:11
tip of his finger." All of these scientific phenomena have been taken from the same book. Other examples contain
16:19
infinitely more precious data which directly relate to facts discovered by modern science
16:25
but it took modern computers to discover them. It is only now that the numerous verses of this text
16:31
have finally become comprehensible. Dr. Maurice Bucaille, an eminent French scientist says that
16:39
it is impossible to explain how a text produced 1400 years ago could have contained ideas that
16:46
have only been discovered in modern times. Many other scientific phenomena: the barrier between
16:51
salt and fresh water, the branch-like progression of combustion, all were mentioned 1400 years ago.
16:57
In a notable recent experiment conducted by Nova, it was found that at the exact moment of death
17:05
there is a slight weight loss in humans, but not animals. This document states that at the moment
17:12
of death, God takes the soul away. And now we come to the most incredible significance of
17:19
these discoveries. Remember, we said that modern man needs an ultimate miracle to release himself
17:25
from the bondage of religious frustration and confusion about his Creator. Well, it so happens
17:31
that this ultimate miracle does exist in this document the identity of which we are about to
17:37
reveal. This ultimate miracle exists in the form of a scientifically proven mathematical code that
17:45
is touchable, examinable, verifiable and utterly irrefutable. Not only does it prove that the author
17:53
of this divine document is God Almighty, but it also serves as the first physical evidence for
17:59
the very existence of God. And it serves as a means for preservation for the document itself
18:05
so that the reader knows that every word indeed every letter is from God Almighty. This document
18:12
is the Quran and the ultimate miracle is the perfect and unchallengeable mathematical
18:20
code. This mathematical code, this signature of the Creator has always been here in the Quran
18:27
for all to see but only recently was it revealed and then only with the help of a modern computer
18:34

by Dr. Rashad Khalifa, the Imam or minister of the mosque of Tucson. Briefly, let me explain. The Quran
18:42
consists of 114 chapters. 29 of these chapters are prefixed with letters that remained mysterious for
18:51
1400 years. Nobody knew what they meant until now. Before we go into details of this, let us look at
18:58
a simple example that will allow us to realize the magnitude of this miracle. Take a simple
19:04
sentence like Jack and Jill went up the hill. There are seven words and twenty four letters
19:10
in this sentence and this is called the simple mathematical structure of this sentence. Now let
19:15
us try and change this mathematical structure, but still try and convey a specific meaning in
19:21
good English. Let us say we want to convey the same meaning with a sentence containing seven
19:26
words and 26 letters. We must pad two letters in Jack and Jill went up the hill. In trying to do
19:34
this, we soon see that the word Jack and the word Jill cannot be changed. The word over cannot be
19:41
substituted for up because it conveys a separate meaning. Similarly, the word the cannot be replaced by
19:48
a because a hill refers to any hill. In other words, it becomes pretty difficult to change the
19:56
mathematical structure of a simple sentence and still have an accurate and acceptable statement
20:01
in English. Now, how about if we try and group sentences that conveys specific meanings into
20:07
a mathematical pattern not only controlling the count of total letters but also the count
20:12
of specific letters within words. Suppose we want to take Jack and Jill went up the hill to fetch a
20:18
pail of water and change the total number of A's plus the total number of I's to 9 instead
20:26
of 8. There are seven words containing the letters A and I that make perfect English and
20:32
cannot be changed. So, we can only try and change the rest of the words but this will again convey
20:38
a different meaning to the sentence. It quickly becomes apparent that changing this structure
20:43
to fit a pattern is almost impossible for just one sentence. Prepare for the shock. The document
20:51
the Quran, contains an exquisitely sophisticated control of letters across chapters, within chapters
20:58
in combination of letters between words, in total number of sentences, in total number of words, all
21:04
interlocking with one another, rendering it impossible to duplicate even with the most
21:09
powerful computers. Yet, it remains very simple to understand. For example, 29 chapters roughly 160,000
21:18
letters are prefixed by mysterious letters. Chapter 50 starts with just Q. Chapter 2 has ALM. Chapter 19
21:29
has 5 letters as a prefix K H Y 'A S. Please note that we have chosen English equivalents of the
21:37
Arabic letters for simplicity of illustration. It was found that the letter Q occurs in chapter 50
21:43
exactly 57 times or 19 times 3. The A's L's and M's in chapter 2 occur a total of 9899 times.
21:52
and so on without a single exception in all the initialed chapters
21:57
with the occurrences in those of the number 19. At the same time that the A's L's and M's are
22:05
controlled in seven chapters that have ALM as a prefix, the A's and the L's are part of the
22:11
Arabic word for God. he occurrence of which is also being controlled as you will soon see. At once,
22:17
we realized that there is a deliberate superhuman design that binds the books' chapters, verses, words
22:24
even letters. For if one letter was changed, deleted or added, the whole system collapses. And the fact
22:32
that this system was discovered 1400 years after its creation proves that it has been

22:38
perfectly preserved. The foundation of this mathematical code is the opening statement.
22:44
In the name of God, Most Gracious, Most Merciful. And this contains exactly 38 alphabets or 19
22:51
times 2. In the language of the Quran, Arabic, it contains exactly 19 alphabets and 4 words. These
23:00
4 words namely name, God, most gracious, and most merciful appear in the whole book 19, 2698,
23:09
57, and 114 times, respectively. All these are multiples of 19. The total number
23:21
of verses are 6346. The total chapters are 114. Again multiples of 19. We are beginning to
23:32
see that this unique code must have been pretty difficult to construct. "On it are 19. Indeed by
23:39
the moon, by the night as it passes. by the morning is it shine. this is one of the greatest miracles."
23:47
Greatest miracle, indeed. And now we realize that 19 is the Creator's signature on everything He
23:57
created. For example, you and I have 209 bones in our bodies: 19 times 11. A full-term fetus
24:06
remains in the mother's womb 266 days: 19 times 14. The Sun, the Moon, the earth line up in the
24:14
same position every 19 years. And on and on and on. The viewer may wonder why 19. Well, using our
24:24
ancestral system of numerology, the Arabic and Hebrew word for one has a value of 19. And this
24:32
is what the message of Quran is one. One God and one Brotherhood of Nations under God. The Quran
24:40
was written under God's direction. One thing is clear. No human being could have written
24:48
such a complicated and perfectly mathematically coded text not then, not now, even with the aid of
24:56
computers. One of the most important functions of the Quran's mathematical code is that it proves
25:03
and authenticates by physical evidence all the miracles of the previous prophets and messengers.
25:09
Moses parted the Red Sea. Jesus revived the dead and healed the hopelessly blind and the leprous
25:15
and so on. Now, these miracles are mathematically composed within the Quran and proven by this code
25:22
to be true. God was the witness. His words are divine and what He has proven by means of the
25:28
ultimate miracle is that the Quran is indeed His word, the word of God. Therefore, let us look to it
25:37
to answer some of our most crucial questions such as why are there famines, disasters and diseases.
25:43
And what is the overall purpose and meaning of life? And what of peace? That elusive dream of the
25:51
righteous universal man. Given now that the message of the Quran is one, One God, one Brotherhood. Think
26:01
of it. All the power and love in the universe in one supreme being who has assured us that
26:09
He not only exists but communicates without question to those who believe and seek out
26:15
the truth, His laws and commitment. Imagine what can be achieved by following His laws and directions.

Arabic Language Lessons - By Dr Rashad Khalifa Ph.D.

The messenger: Our teacher is Catherine. The new translation, page 573.

0:06

Catherine: And if you don't have your new translation, it's page 415 in Quran.

0:15

Bism Allah Arrahman Arraheem. [72:19] When GOD's servant advocated Him alone, almost all of them banded together to oppose him.

0:24

[72:20] Say, "I worship only my Lord; I never set up any idols besides Him." [72:21] Say, "I possess no power to harm you, nor to guide you."

[72:22] Say, "No one can protect me from GOD, nor can I find any other refuge besides Him.

0:40

[72:23] "I'm here to deliver proclamations from God as well as His messages." Those who disobey GOD and His messenger incur the fire of Hell, wherein they abide forever.

0:51

[72:24] Once they see what is awaiting them, they will find out who is really weaker in power, and fewer in number.

0:57

[72:25] Say, "I do not know if what is promised to you will happen soon, or if my Lord will delay it for awhile."

1:03

[72:26] He is the Knower of the future; He does not reveal the future to anyone. [72:27] Only to a messenger that He chooses, does He reveal from the past and the future, specific news.

1:14

[72:28] This is to ascertain that they have delivered their Lord's messages. He is fully aware of what they have. He has counted the numbers of all things.

1:25

Verse 19, [72:19] When GOD's servant advocated Him alone, almost all of them banded together to oppose him.

1:35

All of God's servants have said the same thing and say the same thing "worship God alone."

1:44

They never asked that people worship them, follow them, do as they do, act as they do, speak as they do. They only say "worship God alone, no other idols beside Him."

2:00

Why people become uncomfortable with the message is we know the reason but it's

2:06

still a puzzle when we run into people who seem uncomfortable with that statement

2:12

we all have family and old friends and colleagues who are surprised by us when we state that message and state that that's what we believe.

2:24

There are verses in the Quran and one in particular which says that when God alone is advocated, the hearts of disbelievers shrink in aversion and you can watch that

2:34

happen. It is though people shrink. They become smaller almost in a very real sense. And it's their ego that gets in the way. It's here. Something so simple as God alone is so frightening to so many people. They believe that they have to have control and they have to understand and they have to know and they have to be the one who calls the shots.

3:01

In addition to that, if someone like themselves is saying this message, it's an excuse and an easy way to avoid the message for many people. Again, the ego takes over and will say

3:15

"why this person? I'm no different from this person or that person is no better than me. I don't have to listen to them." And so the message is rejected. We are fortunate enough, and I mean

3:30

very fortunate enough. Speaking for myself, I have no idea why I was chosen to be here in Tucson. I know how I came. I can relate that story to...

3:41

but there are many of us who have the same story to tell. I know why I am very fortunate to

3:50

be here where this perpetual miracle continues to unravel before our eyes.

3:58

Rashad said the other day that he didn't... God has thickened our skin over the last 10 years and if we don't

4:06

faint or lose consciousness every time something like this incredible numbers on the wall or the things that Abdullah explained today or explained to us. We just sit here. Now we nod our heads and some of us get teary but we stay conscious

4:21

And we say "oh, this is just more of the same." And I went home, my own self today is saying "it seems that no matter what we do with the numbers, they're always gonna be a multiple of 19."

4:31

And that the complexity of this code is so great that it can never be understood by us. And that's why it's given in piece after piece after piece. And so many of us, how fortunate, are able to be part of discovering another part of the prism.

4:49

The message is "worship God alone." It's so loud at this point that it's almost hard to pay attention to those people who don't wanna listen to the most elementary statement of "worship God alone."

5:05

The servants of God carry the message "I worship only my Lord. I never set up any idols beside Him."

5:15

They also always say "I am a human being like you. Do not worship me." And they point out their humanness. "I possess no power to

5:27

harm you nor to guide you. No one can protect me from God, nor can I find any other refuge besides Him."

5:34

"I am a human like you. I make no superhuman claims. I have no magic." Because, however, the servants of God have been given special information

5:45

and special (unintelligible), they're more vulnerable and their responsibility is even greater than for those of us who have not had that opportunity, who have not been chosen. And also the servants of God, and Rashad is a wonderful

6:01

example but so were the others in the Quran, are also less vulnerable because God protects these people. And we've seen that all the way through Quran, Moses, Jesus, all of them, Elias, John. They've all been protected by God as long as they carried the one message.

6:17

They never claimed to be anything more than a messenger. So, the humanist is constantly poor people and still they shrink and still they say

6:28

to the message, messenger, when it was Noah, was Rashad, or he or you "Uh-uh, who're you? You're a human being. You don't bring anything special. And I don't see any miracle." Well, it's a sorting process, thank God it is. It is always a place where pattern never changes.

6:49

Verse 23 [72:23] "I'm here to deliver proclamations from God as well as His messages." Those who disobey GOD and His messenger incur the fire of Hell, wherein they abide forever.

7:00

The only unforgivable sin is idol worship, the only. And God is so clear that we have so many chances. As long as we live, we have chances to repent and to come back to God and get on God's path.

7:14

If we worship anything other than God, anyone other than God, God never will forgive this. This verse is not a threat by a human being, by a messenger.

7:26

This is from God Almighty saying always within Quran, whether it is a quote out of a messenger's mouth in a verse or whether it is a description in a narrative.

7:38

Hell is where the idol worshippers will go.

7:45

Once they see what is awaiting them, they will find out who's really weaker in power and fewer in number. It's too late. It is.

7:54

Once you see it's too late if an angel was sent down with all of this wonderful stuff that we don't lose consciousness over every week, we wouldn't have needed any of it.

8:08

It's too late once you know. Rashad was talking about the fact the other day that people know at the time of their deaths where they're going. It is too late

8:18

for people to say "let me go back. Let me have a second chance. I understand now what I'm supposed to do."

8:24

No, because God knows that once we're put back here, we revert to the same thing, the same forgetful mind that we came here with in the first place. And the phrase "who is really weaker in power and fewer in number"

8:37

we know that it is the minority of the minority of the minority, I mean, it's as long as a tunnel into the few that will make it into Heaven as it is in this code itself. It seems to be a mirror image.

8:52

Those few people that do make it even to Purgatory, that's, if you're hanging on by your toe nails in Purgatory, you made it. Those few people are really the strong ones, they're really the mightier in number. No matter how else it appears, but it counts in the real world.

9:13

[72:25] "I do not know if what is promised to you will happen soon, or if my Lord will delay it for awhile." [72:26] He is the Knower of the future; He does not reveal the future to anyone.

9:24

Again, pointing to the fact that all messengers are human beings. They are not God. Only God knows the past, the future. We read history books and think that we have history. We think we understand what's happening. I'm willing to bet anything

9:41

that in the Hereafter when we discover what history really was in that whatever particular era that we think we know so much about,

9:49

all the little details that we didn't have access to. It's going to be vastly different and much (unintelligible), at the same time. I have... when I was reading this over this past week, I wrote that human being does not have

10:04

any idea what he wants. The human being doesn't know the future. Jesus didn't know the future. Jesus doesn't know this is happening now. We know who were them, Noah, Jesus, Moses and all of those that have gone before us sitting in this room. We know them well.

10:23

We have all the pieces, I think, unless (unintelligible), I mean,

10:29

we have so much more. How much greater is our responsibility? How much more less we have to search? I mean, this is irrefutable proof, touchable, examinable, verifiable. We have all the miracles that have gone for those who came after Noah. We know that now. Noah doesn't. We know about those who came after Moses and Moses doesn't

10:53

The human being doesn't know what he thinks he knows. What he is, he makes up. His own security is made up. And to predict the future is foolish. It's absolutely foolish.

11:08

[72:27] Only to the messenger that He chooses, does He reveal from the past and the future, specific news.

11:14

Other examples besides Rashad's own experiences, Joseph knew about the future. It was revealed to him that his father and mother and brothers would bow down to him later in life and he knew that even after his experience in the well and in prison.

11:33

Moses' mother was given information about him being saved and what would become of him.

11:42

Those are tests. Those are provisions for God's very special messengers. They remove the doubts of those chosen by God who are going to be delivering the message and facing incredible odds

11:56

and provide for insights for believers when they are doubting themselves and they have this ammunition put at their disposal. When Joseph announced to the people "I knew this was going to happen, you were going to be here, you were going to bow down."

12:13

There had to be more than just "oh thank God, he's not gonna kill us" in their minds. These people had to have understood God chose Joseph and this was all part of the plan for Joseph.

12:28

God tells us in 28 that He gives specific news and specific information to ascertain, make sure the messengers have delivered their Lord's

12:36

messages, that they've done it correctly. He's fully aware of what He has given them

12:42

to deliver and He has counted the numbers of all thing. It's already done.

12:49

Counting the numbers of all things always makes me think of the Khutba that Abdullah gave when he was talking about the trees and the leaves and the numbers of the leaves on trees and he got... at least for me, I got very

13:01

involved in counting the leaves of the one tree that he was describing and when he got all done with that, it took very long time. He moved on to just one other tree. It was awesome at that point to even contemplate counting. So, that reminds all of the words that we speak and we receive with our ears and see with our eyes.

13:23

And those things are all designed ahead of time. We think which we are choosing the words we're saying or not, it's part of the design for our lives to test to be efficient for all of us.

13:35

The messenger has the greatest responsibility of all of us due to the large quantity of proof provided to him. And that can be awesome and frightening.

13:49

Unless, of course, the messenger knows that he's fully supported by Allah alone in which case this is (unintelligible) lifetime

13:58

I can't imagine (unintelligible). I wanted to share with you before I stopped at this section talking about

14:08

messengers and God's servants. I overheard someone say, in trying to make a joke

14:13

recently, that their favorite saying was that God so loved the world He sent His only son. He didn't send a committee. And I remember... as I walked by, I

14:23

remember just kind of shuddering thinking "oh, yes, He did send a committee, a large committee of messengers and servants with many more to come (unintelligible)."

14:37

And I thought I would share that with you because there are many people who think that there's no committee around here. There's such a large committee ranges alone.

14:48

And therefore, (unintelligible). Are there any comments, questions, I hope?

15:12

It's different. These pages are from the new translation. Now, all of us have them. There weren't enough copies to go around. This is... the book that you're

15:22

using is the most recent. This one is going to be published very soon. And it's going to be the first time when the correct Quran has been in human hands in 1400 years.

15:34

So, we're opting to use the few pages until book comes out. You might wanna share with someone.

15:50

No, absolutely not. but says the same thing. Says "worship God alone."

16:15

The messenger: It's a long story. But it comes true as we explain these verses.

16:21

Why are we here. Why are we here. He wants to know why we're here.

16:33

(Unintelligible).

16:43

Mā Shā Allāh. Mā Shā Allāh. We're here, maybe, because we committed a crime.

16:52

When we were in the Heavenly Society, we sided with Satan. Satan wanted to be a god besides God and we did not oppose that. We did not make a good, firm stand with God, absolutely free.

17:08

So, this is why we're here to redeem ourselves and to change our way and denounce that stand by going back to upholding God's absolute authority

17:18

by knowing that nobody has any power to do anything except God. This is God's absolute authority.

17:25

People who think that Muhammad or Jesus or Mary or saints can do anything are in the same trap of committing the same crime and they will go on all the way to Hell.

17:36

We can be redeemed only if we change that and worship God alone. "Worship God alone" means knowing that God only has power to do anything.

17:52

You must know that God is the One who hires and fires. God is the only One who decides how many dollars are in your pocket. You must know that. You think that your boss is the one who hired you or fired you, or may fire you, provides for you. Then, you're in the same trap. So, this is why we are here for.

Size of the soul.

18:17

I wanna go to the verse, it says, "once they see what..." that's 24 [72:24] Once they see what is awaiting them, they will find out who is really weaker in power, and fewer in number.

18:32

Cause out of all of Tucson, half a million people, only about 50 people come here to this mosque to worship God alone.

18:41

So, in this city, we appear to be 50 among half a million people.

18:48

There may be 50 more out there worship God alone under the name of Christianity or Judaism

18:56

but they do believe that God alone has all the power. So, that's 100 out of half a million.

19:02

This appears to be a minority. You see, you're walking around with your body that is visible.

19:10
They say "this is Catherine Robinson." But they don't see what she really looks like, what size she is.

19:17
We learn from Sura 17 that the differences in the Hereafter are far greater. The difference between Iman and Gatut is 40, but in the Hereafter the differences

19:33
are far more greater, Sura 17. So, your real size is as big as the city of Phoenix, for example. You're walking around, you see this size. Their size, the people who are not worshipping God alone, they actually shrink.

19:51
Their soul actually shrinks to the size of a cat. So, there are 100 people whose size is as big as the city of Phoenix, each one of them.

20:01
And half a million size ants. "who is really weaker in power, and fewer in number."

20:12
One man and a million ants, which one is really stronger? Where is the majority? Is it

20:18
the one, one person or the million ants? When you walk out the mosque, you can see one million ants sometimes.

20:27
Did you see them today? So, where is the majority? This is what this means because once they see what is awaiting them...

20:43
Because right now they cannot see. We do not see ourselves. We only see our bodies. Catherine.

20:50
(Unintelligible).

21:16
The messenger: They're after everything (unintelligible). You're walking around you're a hidden queen. You're walking around, people don't know what your size is, who you really are

21:33
which is a lot of fun because you don't need secret service or guards or anything. You can walk in the market and buy apples, and meat and eggs.

21:45
Yes, secret secret service. That's the best secret service. You do have secret service.

21:53
(unintelligible).

22:20
The messenger: Also, in terms of... cause if you think of believers and unbelievers, how many unbelievers there are and how many believers there are, we cannot count. And even in those terms, when you have a huge entity

22:34
and a small entity, the huge entity is the majority. The one person and one million ants, I mean, the one person is the majority.

22:45
(unintelligible).

One Angel in charge of Hell.

23:20
The messenger: Except 19 is not the angels of Hell as they think. 19 is not the angels of Hell as they think.

23:29
Edip: Angels of Hell. There are angels of Hell.

23:40
The messenger: I don't know. It seems like there's only one angel in charge of Hell. His name is Mālek.

23:52
The messenger: His name is mentioned in the Quran, Mālek. Edip: (unintelligible)

23:57
The messenger: How would you get that? Now, don't speculate. Edip: There are some angels in Quran. The messenger: Where? Who? No, where?

24:22
The messenger: There is only one angel. As far as guarding Hell is concerned, only one angel and his name is Mālek. Now, هَلْوَ is where?

24:34
(67:8) هَلْوَ يَأْتِكُمْ نَذِيرٌ (67:8) سَأَلَهُمْ خَزَنَتُهَا أَلَمْ يَأْتِكُمْ نَذِيرٌ

24:42
The messenger: Sura 67

24:50
The messenger: No, no, no. خَزَنَتُهَا is plural.

25:01
The messenger: This is set of mysterious things, God hasn't revealed yet, exactly the details of how many...how, what is the system because

25:14

﴿67:8﴾ كَلَّمَ الْقَىٰ فِيهَا فُجُجَ سَأَلَهُمْ خَزَنَتُهَا أَلَمْ يَأْتِكُمْ نَذِيرٌ

25:20

Now, are these angels outside Hell or inside? The one who's taking care of Hell is Mālek or what? They will say "O Mālek, let your Lord finish us off."

25:33

He will say, "You are staying forever. [43:77]

25:49

The messenger: No, but see, here, it's not connected with Hell. At the end of the verse, it says "nobody knows..." you're right, but "nobody knows what the number is." And that's not... this is a general statement. Also at the beginning it says

26:08

﴿74:31﴾ وَمَا جَعَلْنَا أَصْحَابَ النَّارِ إِلَّا مَلَائِكَةً أَصْحَابَ النَّارِ؟ مَلَائِكَةً, angels Who are أَصْحَابَ النَّارِ? What does أَصْحَابَ النَّارِ mean?

26:18

companions of Hell, the guards of Hell, the owners of Hell, friends of Hell. We do not know what expression it is, still mysterious, but there is timing for everything.

26:31

And obviously, God doesn't want us at this time to know exactly what the arrangement is in Hell.

26:39

E dip: (unintelligible).

26:45

The messenger: That's possible but that's not what the Quran says.

26:56

The messenger: No, but you see, you have to... we know now... see those numbers in the Quran, we know that every letter in the Quran is accurately placed.

27:07

Now, it does not say that the guards of Hell are 19. It gives a general statement.

27:13

E dip: (unintelligible).

27:21

The messenger: That's the number that is عَلَيْهَا The number that is on it. E dip: Yes, on, on, on...

27:28

The messenger: On what? E dip: on سَقَر (74:26) The messenger: Right. E dip: سَقَر is a punishment.

27:33

The messenger: Right. E dip: Yes. The messenger: Is it Hell? See, we don't know. It could be here. E dip: but the أَصْحَابَ النَّارِ

27:43

The messenger: The next verse E dip: Next verse did explain if it could be Hell or not.

27:48

The messenger: No, it doesn't. There's no depiction at all. The messenger: It gives us as a certain statement. It says "we made أَصْحَابَ النَّارِ, the companions of Hell, angels.

28:07

So, it's a general statement. It does not say "19 angels." It does not say that. (74:30) عَلَيْهَا تِسْعَةَ عَشَرَ It says "on it are 19." It doesn't say 19 what.

28:16

E dip: (unintelligible).

28:36

The messenger: Then, at the end it says "nobody knows what this number is." E dip: Nobody knows the soldiers of God. The messenger: Yes.

28:48

E dip: (unintelligible).

28:58

The messenger: Well, maybe God wants you to believe that there are 19 guards of Hell, at this time. Obviously, it's not relevant to (unintelligible).

29:07

(unintelligible).

29:20

The messenger: This is a Hadith that says when you die, two angels will ask you "who is your god? And who is your prophet? What did you do?

29:30

Then, they beat you (unintelligible).

29:38

The messenger: It's a Hadith.

29:44

The messenger: And they have all kinds of stories. Are there any questions? We read a lot.

30:09

The messenger: Yes. New translation has counted the numbers of all (unintelligible). Everything is based on mathematics.

30:39

The messenger: Both are correct. It was more general in the last translation, but in new translation, it's more specific. Because in this Sura 27... 72, God gave us a lot more proof that this Sura specifically must be for our age.

We are the early generations – Quranic proof will dominate the world ensuring later generations get the pure message.

31:07

Edip: Last translation is accurate, also. (Unintelligible).

31:36

The messenger: But both are correct. Both translations are correct. The messenger: Speaking of numbers, I just wanna pass on a thought to you that we think that we are on the advanced

31:48

Earth and everything now. The world is so technical, technologically advanced, but up until now only

31:58

less than 7% of people have come to this Earth from Adam until now. From now to the end of the world, still more than 93% of the people [will come]. So, we are... the earth is still an infant. And we are among the early generations.

32:18

To the people 200 years from now, we're gonna be the cave age, cave people. So, just think about it. The message, we're very early in human history. The message is being consolidated and it's being... will be delivered to the vast majority of the people.

32:37

All this past and the nonsense that happened in Christianity, the trinity and Jesus, son of God, and all this nonsense and the things that happened in Judaism, Rabbi Kushner and what he said

32:48

The nonsense that's happening in Islam, all these things are happening within a very brief period in time, relatively and involves a very small number of people.

33:03

But the new generations are enlightened. They are rebellious. They don't listen to their parents. They are free to think. And they will get the message supported by physical evidence, as you'll see.

33:15

And Satan will be really defeated. Satan is destined to be defeated. So, this message with the physical proof that you see on the wall over there.

33:26

On the wall, you see every single verse in the Quran, physical evidence. And this will be presented to more than 93% of the people in the world. Think about that! It's a lot of people who say, you know, they think "all this nonsense involved a lot of people."

End of the world.

34:05

The messenger: I'm sorry I missed that.

34:20

The messenger: Perhaps, God made a point in the Gospel that when Jesus was asked "when is the end of the world?" He said "I don't know." And I call this (unintelligible). And when Muhammad was asked, it's also in the Quran, "when is the end of the world?" He said "I don't know."

34:34

But God wanted us to know in this generation. So, I will have an appendix, appendix, what, "end of the world."

34:44

appendix? One of the appendices. It's entitled "end of the world." It gives you evidence as when the world will end. We know that the world will end 2280.

34:57

And the mathematical code. This is one of the things that God gave us (unintelligible).

35:20

The messenger: [72:25] Say, "I do not know if what is promised to you will happen soon, or if my Lord will delay it for awhile." This is to tell the disbelievers that they're gonna be punished. I don't know when.

35:31

It's for the disbelievers.

35:37

No, no, no, it's for here.

35:44

The messenger: Nothing in this Sura is for Muhammad.

35:54

The messenger: You should know that. Edip: رَجَّحْ أَمَدًا (72:25) The messenger: Yes.

36:10

The messenger: It has nothing to do with the end of the world. This has to do with here. It has to do with this world. It is...

36:18

The messenger: There is nothing in this Sura that applies to Muhammad. If you look at the footnote here. You add the gematrical value of Rashad plus the gematrical value of Khalifa plus Sura number plus the verses 28, then you have a multiple of 19.

36:36

And also this Sura has the maximum number of Rashada, 4. And this is not my personal decision. (Unintelligible).

36:50

Eidip: (unintelligible).

36:58

The messenger: Why do you say this is Muhammad? You're the one who discovered it. **وَالَّذِي لَا يَرْفَعُ رُتُولًا** (72:27) Eidip: Yes. I know.

37:07

See, [72:27] Only to a messenger that He chooses. In Arabic, it's **وَالَّذِي لَا يَرْفَعُ رُتُولًا** (72:27) If you calculate the gematrical value of this phrase, it's 1919. And Eidip Yuksel is the one who discovered that. And there's a whole bunch of mathematical proof that is...

37:27

I'm afraid to be embarrassed because... I'm afraid to be embarrassed until you are experiencing it. So, I can't afford to be embarrassed or ashamed or shy or modest. It's not modesty if you're a civil engineer to say "I'm a civil engineer."

37:41

It is not arrogance when you're stating the truth.

37:46

In this whole Sura, nothing in it has anything to do with prophet Muhammad. There may be other places but not this Sura.

37:56

The mathematical evidence is overwhelming. We will see it in the appendices, footnotes in new translation. And when I tell you this, either I'm a very very bad person or I'm really a messenger of God.

38:12

Because nobody will fabricate lies against God, attribute it to God in this flagrant manner unless he's really really a disbeliever who doesn't think he will face God one day on the Day of Judgement.

38:25

So, take your pick. There are only two extremes here, either a very bad person who claims to be receiving information from God or a true messenger of God. You can judge by our circumstances.

38:48

God gave us the mind to distinguish. Are there any questions on this that are not so embarrassing?

38:59

The messenger: Go ahead.

39:26

The messenger: Well, that person really does not know anything. It's a pre-requisite that the person knows what the mathematical proof is.

39:35

The messenger: A person who doesn't know the code will not understand anything, will be like a person who's born 100 years ago.

Mathematical code is a requirement for understanding a lot of things.

39:50

The messenger: No, it doesn't intend "Muhammad." Lots of codes, they are not for Muhammad. Lots of codes are for you.

39:57

(112:1) **إِنَّمَا إِلَهُ الْبَنَاتِ هُوَ اللَّهُ أَحَدٌ** It's not for Muhammad. It's for you. (114:1) **إِنَّمَا إِلَهُ الْبَنَاتِ هُوَ اللَّهُ أَحَدٌ** It's not for Muhammad. It's for you.

40:04

In fact the vast majority of codes is not for Muhammad. A lot of codes in the Quran are for the Quran itself. Proclaim

40:14

(3:31) **قُلْ إِن كُنْتُمْ تُحِبُّونَ اللَّهَ فَاتَّبِعُونِي يُحْبِبْكُمُ اللَّهُ** [3:31] [Say]: "If you love GOD, you should follow me." GOD will then love you,

40:20

This is the Quran. According to the Quran, then God will love you. If you love God, you follow the word of God, not the words of men.

40:29

So, I don't know where that expression's call is for Muhammad

40:40

Because it's not. It's very clear if you saw it. QOL means "say." QOL means "say." The majority of QOLs in the Quran are not for prophet Muhammad.

40:53

There are also many things in the Quran that are in the future not for the prophet Muhammad. Some of them are clearly stated in future tense.

41:07

So, Quran is valid for all times. OK. Shall we move on to Sura 73? Please, Catherine.

41:19

Catherine: Sura 73: Cloaked In the name of God, Most Gracious, Most Merciful

41:26

[73:1] O you cloaked one. [73:2] Meditate during the night, except rarely. [73:3] Half of it, or a little less. [73:4] Or a little more. And read the Quran from cover to cover. [73:5] We will give you a heavy message.

41:37

[73:6] The meditation at night is more effective, and more righteous. [73:7] You have a lot of time during the day for other matters. [73:8] You shall commemorate the name of your Lord, to come ever closer and closer to Him. [73:9] Lord of the east and the west; there is no other god besides Him. You should choose Him as your advocate.

41:55

[73:10] And remain steadfast in the face of their utterances, and disregard them in a nice manner. [73:11] And let Me deal with the rejectors, who have been generously blessed; just give them a little time. [73:12] We have severe punishments, and Hell. [73:13] Food that can hardly be swallowed, and painful retribution.

42:14

[73:14] The day will come when the earth and the mountains will quake, and the mountains will turn into a weightless pile. [73:15] We have sent to you a messenger, just as we sent to Pharaoh a messenger. [73:16] Pharaoh disobeyed the messenger and, consequently, we punished him severely. [73:17] If you disbelieve, how can you evade a day so terrible that it makes the infants gray-haired?

42:33

[73:18] The heaven will shatter therefrom. His promise is true. [73:19] This is a reminder; whoever wills, let him choose the path to his Lord.

42:43

[73:20] Your Lord knows that you meditate during two-thirds of the night, or half of it, or one-third of it, and so do some of those who believed with you. GOD has designed the night and the day, and He knows that you cannot always do this. He has pardoned you. Instead, you shall read what you can of the Quran. He knows that some of you may be ill, others may be traveling in pursuit of GOD's provisions, and others may be striving in the cause of GOD.

43:07

You shall read what you can of it, and observe the contact prayers (Salat), give the obligatory charity (Zakat), and lend GOD a loan of righteousness. Whatever good you send ahead on behalf of your souls, you will find it at GOD far better and generously rewarded. And implore GOD for forgiveness. GOD is Forgiver, Most Merciful.

43:29

The name of this Sura is Cloaked. A cloak or cover can be a protection for us against weather

43:38

inclement weather, for instance. Or it can be a barrier or a veil, something that blinds us or deafens us.

43:51

And keeping that in mind, looking at verses 1 through 7, the night was designed for our rest.

44:00

There are no distractions during the night for us, certainly not like there are during the day when the world seems to wake up and pick up speed and get itself up to 300 miles an hour before the sunset.

44:13

This is a special time with Allah for us. It is a time when we, our own bodies and our own minds are winding down and there is space and peace about our...

44:24

The messenger: (unintelligible) Excuse me.

44:40

Catherine: And God is telling us that here any time that we spend reading the Quran, meditating is for our own good here.

44:51

God doesn't need for us to do this. God is in no need at all. And He's giving us an opportunity, guiding us to take advantage of an opportunity during our busy days in our lives

45:06

to spend time with Him. In verse 8, the reason for the guide, the hint of provision of day

45:15

we're working, night, we rest, for example, is God's consciousness, at 24 hours a day, is our goal, commemorating the name of our God 24 hours a day, every minute

45:30

so that every cell in our body, every thought in our mind is preceded by Allah. Alhamdu Lillah. Subhan Allah. Every chance we get out loud, no matter where we are.

45:43

What I have found to be amazing about that is when that became a habit of mine and I'm not quite sure when that was, sometimes someone will ask me what I'm saying.

45:55

Well, I can tell you how weird that is. Very few people ask me what it is I'm saying. Very few people are interested. I write Bism Allah on my checks, all of them.

46:10

Well, a lot of the things that I have to remember God for 24 hours a day, no matter what we do, no matter when we do it.

46:19

Verse 9, you should choose Him as your advocate. There is no other god beside Him. No one and no thing does anything. And if we don't know that then we do not know God. If we do not know that God is doing everything and therefore logically and rationally

46:38

the only One to call upon any help, for any provision, for any understanding, for any guidance, for any relief is God alone, we've gone astray somewhere.

46:49

And we may never get back if we don't strive to understand that God does everything. Not to be confused with, again, putting your finger in the fire. And I've heard that when I went back to, 2 years ago, 1987, I happened to be away and I asked Rashad "please take probably a Khutba" at that time and he had to give it.

47:13

It is a marvelous Khutba when it is there that I first heard Rashad talk about putting your finger in the fire and how the fire was created for us to be in our service. We would use it to cook, I think the phrase was "a delicious raw steak to a fine meal or we could put our finger in it and burn ourselves."

47:32

God created them all, the fire, the food and our nerve system. But it was our free will that we determined how we used it and what path, if we could use that as a metaphor, we would choose to be on.

47:47

We have to know that God is doing everything. We have to know that if we need anything, asking anyone for anything, whatever comes to us from anyone, bad, good or indifferent comes from God and it's for our own good.

48:03

They're reminders, they're tests, they're provisions, whatever it is, a comment you don't wanna hear, a criticism you don't wanna hear, it's from God. God is correcting you, asking you to think, maybe not to correct yourself based on the criticism, but to rethink what it is you're doing to remind you that God is doing everything.

48:27

Verse 10 [73:10] remain steadfast in the face of their utterances, and disregard them in a nice manner.

48:33

God is saying if we know that God is doing everything, we're not to falter and that believe, no matter what we hear. We're also not to judge others. We have no way of knowing who's gonna make it and who's not.

48:45

We don't know that something we say is going to be the turning point for something else down the road. And we need to be consistently steadfast with our beliefs.

48:58

We were consistently admonished as how to treat other people. We are not to judge them. We are not to treat them nastily.

49:06

We are not to force them. We are not to be angry and again I go back 2 years ago to that Khutba which was amazing because Rashad say that

49:15

"and I'm talking to you" and he did with every one of us sitting here, including himself. And said if we get angry at anybody for anything, we're challenging God, we're objecting to God.

49:26

It's so simple now. I can tell how often I (unintelligible) that. Riding down the road the other day with my son, someone caught him, you know how people drive in Tucson, someone just cut in front of him within inches and he yelled at them

49:47

in our car. He yelled at them "stupid." He was very angry, prepping the wheel trying to maintain control. And I said "God did that. You shouldn't be yelling at that person." Well, that person was stupid and he... we've been working on this for two days, that is. Dealing with anger, objection and provocation.

50:05

He said...now we got him coming around to say "well, I wasn't really objecting to God. I was just blowing off steam (unintelligible)." (unintelligible) when you get angry.

50:16

And this is true about the people that have been rejecting what we have to say or reject how we choose to live our lives based on what God has told us.

50:25

We're not to aggress against them with our minds, with suspicion, with words, with behavior.

50:34

We're to remain steadfast because of our own beliefs. Do you have a pledge to hear? Yeah?

51:00

The messenger: Why did they hate you on it?

51:15

The messenger: You have to go ahead of that and find out why... what provoked this person. You have to find out what you did to provoke that person.

51:29

The messenger: But you're starting the middle of the story. Somebody came punched me in the face, right? This is the middle of the story. Go to the end of it.

51:43

The messenger: What you see, the fist fight is always for something. What is it?

51:54

The messenger: You're not supposed to get in a fist fight to start with.

52:07

The messenger: Somebody punched me in the face. I will not get angry at that person. I will get angry at myself for provoking him.

52:17

The messenger: I will not... I would ask "how did this happen?" and find out what did I do to make him so angry.

52:25

You know, it's a sin in Islam if you annoy anybody, if you hurt anybody. You committed a sin.

52:33

So, obviously you made that person so... you've hurt him somehow that he came and punched you in the face. You committed a sin and you paid for it. So, it should be objective... it should not be objective to (unintelligible).

52:48

Yes. (Unintelligible).

52:59

Say, how would he aggravate you and annoy you? He said "I don't like you because you're Iranian," for example. Did somebody say "I don't like you because you're a Khomeini man?"

53:14

If somebody says "I don't like you because you're a Khomeini man." Then, you know he's a stupid person. Because he's passing judgement on you. It would be like you're walking on the street and a dog barks at you. What would you do?

53:26

You just look (unintelligible) at that person. You don't get into a fight.

53:40

Catherine: But you also mentioned aggression against your family and protection of yourself and your family. That's a different issue. You have the right and God tells us we do to protect ourselves. We do not have the right to aggress first. You have the right to protect yourselves.

53:58

The messenger: In Sura 42, it says "you stand up for your rights."

54:16

The messenger: No, it's better not to get to that stage where he swings at you. I would ignore that. It actually takes more strength.

54:25

It takes more strength not to (unintelligible). I'm thinking solely because Sammy got in a situation like this and if I were in Sammy's place, I would be flunking the test. I would have punched the guy. He was stronger. He did the right thing. I could not oppose it.

54:50

(Unintelligible).

55:17

The messenger: You should not get into any fist fights. Just ignore it. It takes more strength to restrain yourself than to get provoked into a fist fight or... You'll be a bigger man if you walk away.

55:35

Yes. Quran says you have the right to stand up for your right. He punched you in the face, you can punch him back. It's your right, but God tells you it's better to be stronger if you can restrain yourself.

55:52

Yes, of course. Self defense is always justified.

56:08

A man: Sometimes my parents told me that fighting is wrong.

56:59

The messenger: Yeah, (unintelligible) takes more strength than joining a fight. Hamid.

57:28

The messenger: I wanna tell you. If you are with God, nothing will happen to you. You're gonna be a winner. When you are a person of God, you'll be a winner all the time. Don't worry.

58:15

The messenger: I think, maybe Catherine should have used the word sadness, disappointed, not angry. You don't become sad and depressed. That's objection. Happiness is devotion to God. Happiness is submission to God.

58:36

The opposite of that path is objection. If you're sad, you're objecting. So, maybe anger is not the correct word.

58:54

Yes, exactly. الْكَاطِمِينَ الْغَيْظَ (3:134) Suppressors of anger.

Quranic night starts at sunset – All prayers especially dawn important.

59:01

One of the characteristics of a believer is the suppressor of anger. It's just you understand life. When you read the Quran, you read God's message and understand what life is all about. You know that it is not worth it to get in a fist fight, be angry because of what somebody said.

59:18

Especially if it is something stupid.

59:26

You definitely have to defend yourself. If you can avoid, you can forgive and forget, you'll be much stronger. Back to Catherine and finish this Sura.

59:37

The messenger: Can I make a comment also on the first few verses? Excuse me, I take it back. Two more minutes. I want you to understand what the night is. The Quranic night begins at sunset.

59:47

So, when it says [73:2] Meditate during the night, except rarely. [73:3] Half of it, or a little less.

59:52

You're commemorating God when you pray the Sunset, when you pray the Night, when you mention the name of God before you sleep, when you get up for Dawn prayer,

1:00:03

you already covered half the night like that. Because the night begins at 7 o'clock. It's sunset right now.

1:00:11

We pray the Night at 9 o'clock. We get up at 4 o'clock or 5 o'clock for the Dawn prayer, 5 o'clock.

1:00:18

So, 9 to 5, you already covered a good portion of the night. Quranic night, the Torah night, in the old scriptures, night begins at sunset.

1:00:29

And the day begins at sunrise. So, it's roughly 12 hours for the night.

1:00:37

What this is telling you is you must never, must never miss the Dawn prayer, the Fajr prayer.

1:00:47

I'm always surprised when I visit many places and find that half the people or more than half don't do the Dawn prayer. You're not being fair to yourself.

1:00:57

See, we were swept in the crowd when we were in the Heavenly Society. You don't wanna be swept in the crowd again, here. You don't wanna repeat the same mistake.

1:01:06

The people are so obvious to God that when we do a little bit, we think we're doing a lot.

1:01:12

Because compared to them, you do one prayer a day, you're doing a lot. But don't be swept in the crowd and don't measure what you're doing by what is happening in the world.

1:01:27

Cause the world is just totally oblivious to God. And this makes you think that you stepped up, you're doing a lot. That would be on my Khutba next. But don't be swept in the crowd, IN SHAA ALLAH.

1:01:43

The messenger: Yes.

1:01:54

The messenger: Idol worship.

1:02:01

The messenger: Yes, Anything is forgivable. Murder is forgivable. Stealing, lying, cheating, all these things are forgivable, but idol worship is not if the person dies an idol worshipper.

1:02:15

Yes, you can clean your record any minute by repenting. Repentance cleans your slate as if you are a newborn baby.

1:02:25

The messenger: Yes.

1:02:33

The messenger: No, it's you (unintelligible).

1:02:40

The messenger: Yeah, again that's a famous (unintelligible) but it is really... oh you most (unintelligible) meditate during the night except rarely.

1:02:53

When you're covered up with your blanket, you're cloaked.

Read Quran during the night and Dawn.

1:03:16

The messenger: Yes.

1:03:26

The messenger: The Fajr prayer. We've come a long way towards that but I would recommend reading the Quran every night and every Fajr.

1:03:39

No, no, but you're covering, you're covering that period. See, the prayer is not just the time that you're doing the prayer.

1:03:44

The times of anticipation is also commemoration of God. You look at the clock and you say "I'm gonna pray the Night in 10 minutes, IN SHAA ALLAH."

1:03:56

The messenger: Right. Right. Absolutely, yes. Yes.

1:04:04

This is why the 5 prayers are so important. Cause it's not just the few minutes, it's not just the few minutes that you're doing them.

1:04:14

The messenger: OK. Back to verse 20. Catherine: Verse 20? The messenger: Excuse me, wherever you are.

1:04:21

Catherine: Verse 11, [73:11] let Me deal with the rejectors, who have been generously blessed; just give them a little time. [73:12] We have severe punishments, and Hell. [73:13] Food that can hardly be swallowed.

1:04:31

Give them enough rope, you know, hang themselves is what comes to mind. They will either pass or be rejectors, will either pass or fail the test that God gives them,

1:04:42

knowing that God gave them as many chances in the past as He gives every other person. God knows who will pass and who will not. He's the Perfect Designer. We need to worry for our own selves.

1:04:54

And this is related to the verse 10 and how to treat other people. Let God take care of those who reject the message.

1:05:03

Line 14, [73:14] The day will come when the earth and the mountains will quake, and the mountains will turn into a weightless pile.

1:05:08

There are other mentions on descriptions of the Day of Judgement when the Earth will change its appearance. The Earth and mountains are considered, perceived by our senses to be the most solid of all things.

1:05:24

And so this is a really good metaphor for one who thinks about, just the one sentence that God is telling us what's gonna happen. The inside of the Earth is molten lava. There's not solid at all about it.

1:05:39

Recently, I had an illness too which has made this solid Earth, the solid world that we touch, smell, feel each day of our lives, distorted that.

1:05:53

And, and erased the illusion of this world. And it would be a quite interesting experience that you feel you are floating. And that's all I can think of to describe it. And it can be frightening at the same time. I imagine at the same time what the astronauts are feeling in space.

1:06:11

That's when then there is some way to connect to something. I think...

1:06:16

The messenger: Your soul is growing. Catherine: I hope so. I desperately hope so. The messenger: You're like weightless. Catherine: In any case....not sure you'd notice.

1:06:27

Catherine: In any case, this is a really good metaphor for what will happen. Those... and for the (unintelligible) then this world is an illusion, this life is temporary play. And it's all set up just... God is so Merciful to give us another chance when we blew it the first time.

1:06:45

And we did blow it first time. There's no debating about it.

1:06:51

[73:15] We have sent to you a messenger, we sent Pharaoh a messenger. [73:16] He disobeyed. We punished him severely. [73:17] If you disbelieve, how do you expect to evade a day so terrible that it makes the infants gray-haired?

1:07:03

I don't know the name of the illness but there's a rare illness, and I think, Rabbi Kushner's son had this illness. I just don't know the medical name for it where children age. Infants age and die of old age when they are still young children.

1:07:19

It's a very rare illness. I don't know if it existed when the Quran was revealed. However, this is also a good metaphor for how our lives are gonna be dear to us, how the Day of Resurrection as we live one hour, one minute.

1:07:34

The messenger: But this is a... this... in English you say "scared and went white." I don't know why. Catherine: Absolutely.

1:07:42

Catherine: That happens The messenger: What's happens? Catherine: Progeria (Hutchinson-Gilford Progeria Syndrome (HGPS)).

1:07:49

The messenger: It's just a... I think it's just a proverb.

1:07:57

The messenger: The reality is that this happens, but it's also a metaphor for the brevity of our lives.

1:08:07

[73:18] The heaven will shatter therefrom. His promise is true. The guarantee is always there, built in. This is a reminder. Whoever wills, let him choose the path to his Lord. The human being has complete freedom. This is the human affliction and it's the human blessing and the hope of redemption.

1:08:26

If we choose Allah alone, God will be with us always. If we don't, and the tendency of the human being is not to, the tendency is to worship ourselves. That's the last bastion.

1:08:41

When we dealt with money, children, wealth, status, power, fame, we get back to ourselves. So, it's a constant balancing act. If you choose Allah alone, this narrowest path may save you from falling from it.

1:08:54

And again, I remember someone saying to me who he once "shame on... shame on you," told me twice. Shame on me. This is my second time.

1:09:05

And it will be shame on me if I don't get it right this time.

1:09:14

Verse 20 [73:20] Your Lord knows that you meditate two-thirds of the night, or half of it.

1:09:21

He knows that you cannot always do this. And He has pardoned you. God made us. He knows what our limitations are. He knows we have to sleep some time. And that we can't stay up all of the night long reading Quran and meditating all nights through all of our lives.

1:09:38

So, Mercifully provides for us and says "You shall read what you can." And allows for illness and allows for traveling and allows for the necessities of this life, constantly reminding us that we need to be cognizant of God 24 hours a day.

1:09:53

There's a verse here, part of the verse "You shall read what you can of it and observe the contact prayer."

1:10:00

They way the contact prayer is spoken of in Quran is... it's spoken of as though everyone knows of it, as everyone does. When the time the Quran was revealed, Salat was a common practice. (Unintelligible) a common practice. And this is why we don't find a

1:10:20

description of Salat by detail in Quran. "Give the obligatory charity (Zakat), and lend GOD a loan of righteousness. Whatever good you send ahead on behalf of your souls, you will find it at GOD far better and generously rewarded."

1:10:38

This is the PRA (Post Retirement Account) that Rashad talked about. And it's a wonderful reality based on simple way to understand what it is we do, Post Retirement Account. We get 10 for 1 here, folks, guaranteed.

1:10:55

10 for 1. You don't have to do much for that, a lot of righteous in it, God alone.

1:11:03

And our souls do grow and they do expand. We even have no idea how big they are.

1:11:09

When Rashad gives these numbers like 10-dollar parking tickets because you don't pay (unintelligible). That's, you know, that's not a joke. I would be whammed because it relates to all of us when we park (unintelligible), but it's the truth.

1:11:28

So, again, 24-hour God consciousness being the goal and righteousness and living according to the Quran's instructions, God willing, we won't have too many (unintelligible).

1:11:43

That's... and implore God for forgiveness. God is forgiver and Most Merciful. Everyday, I talk to Dave and say that God (unintelligible). We're so conditioned in that state.

1:11:56

There's no condition if you call upon Him when you're wearing a blue dress and it's 5 in the afternoon. There's no condition. God hears those who call upon Him alone. That's unconditional. (unintelligible). He's always there for us. All we have to do is (unintelligible).

1:12:15

I need to stop. Are there any comments or questions? The messenger: God bless you. Excellent job. Mā Shā Allāh.

Fajr prayer Important – We could be pardoned if we miss it once in a while (once a month).

1:13:14

The messenger: My soul doesn't eat.

1:13:25

The messenger: This has to do with missing the Fajr prayer once in a long while. God says "you cannot do it all the time." Maybe, once a month you miss Fajr.

1:13:34

Really this is a minimum, the 5 prayers including the Dawn prayer. It's very important for you to do the Dawn prayer. You must set the alarm to get up.

1:13:44

Right now, you must do it before 5:15 in the morning. Many drop out because the days gets longer and longer. You don't wanna be a drop-out.

1:13:57

5:15, before 5:15.

1:14:04

This means you're tired. You're very tired and cannot... you didn't get up for the Fajr prayer because you're tired. You're doing extra effort.

1:14:16

Yes, traveling or your time is mixed up.

1:14:21

You travel from New York, you leave there at 12 midnight and you come here and the Dawn is 2 o'clock New York time

1:14:31

So, this is two hours of sleep. Most, most probably, you will miss Fajr on that day.

1:14:48

No, no. It's saying "business." You're doing your business. You may be tired because of business, because of something you have done. You were digging ditches all day until 3 o'clock in the morning.

1:14:58

Chances are you're gonna sleep through the Fajr in that night. Traveling in pursuit of God's provisions means business. You're doing business.

1:15:09

I think we have to stop. Our teacher, next week, will be Dr. Sabahi, so we can see what the Farsi translation is saying.

1:15:17

Nothing at... you can sit by your dad, Amir, and give him a few pieces of information. OK.

1:15:31

Dr. Sabahi will take Sura 74, 75, 76. So, keep your

1:15:38

new translation. Don't forget it! We have to read a lot of Al-Fātehah for birthdays, today. Lydia, Annie, Douglas, who's the fourth one?

1:15:57

The messenger: Amir. See, I forgot Amir. How can I forget Amir? Amir is the most important person in this room. Why? You tell us why. How can I forget Amir? OK. Amir and Annie and Douglas and Lydia

1:16:17

we're gonna recite Al-Fātehah to give them a great year, coming up, and a greater year every year

1:16:22

after that. It is a characteristic of the believers that things only get better.

1:16:29

Things get better for the believers. Every day is better than the previous one. Also, when we recite Al-Fātehah, Mahvash may be going to

1:16:37

Iran soon and we wish her success and God will give her a good trip, IN SHAA ALLAH. God never turns us down when we read Al-Fātehah.

1:16:48

And Catherine mentioned illness that makes her hide. So, we want to read what God says **إِيَّاكَ نَعْبُدُ وَإِيَّاكَ نَسْتَعِينُ** (1:5) We worship you alone and ask Him to make her healthy.

Virginity and perfect happiness.

1:17:04

And each one of you, your dearest wish. I want you to ask God for it, also. God loves it when you pray to Him.

1:17:12

Before we read Al-Fātehah, I want to remind you that I just finished the appendix entitled "virginity." And it begins by saying "the sons and daughters of the believers are taught persistently and for their own happiness that they must keep themselves for their spouses,

1:17:31

the people who would be married to them. So, I'm urging all the parents to take a copy of that. It's only one page. Take it and show it to your children. It may be an embarrassing subject to you but it is a very important subject.

1:17:44

And it is never too early, never too late to ask for that page and take it and leave it with your children. And now for all Al-Fātehahs that were requested. We're gonna turn to God and recite Al-Fātehah.

1:17:59

Bism Allah Arrahman Arraheem (1:1) Al hamdu Lillahi Rabbil 'Alameen (1:2) Arrahman Arraheem (1:3) Maliki Yawm Eddeen (1:4) Eyyaka Na'abudu Wa Eyyaka Nasta'aeen (1:5) Ehdina Al-Serata Al-Mustaqeem (1:6) Serata Al-Lazeena An'amta 'Alayhim Ghayri Al-Maghdoobi 'Alayhim Wa Laddaalteen (1:7)

1:18:18

Before we close, I'm gonna remind you of just a couple of verses in Sura 54 that says "God is the One who makes you happy," controls your happiness or miserable. God doesn't make you miserable. We make ourselves miserable.

1:18:29

But God controls our happiness and our misery. In Arabic,

1:18:34

وَأَنَّهُ هُوَ أَضْحَكَ وَأَبْكَى (53:43) He makes you laugh or cry. **وَأَنَّهُ هُوَ أَعْنَى وَأَقْنَى** (53:48)

1:18:40

He's the One who controls your wealth. He's the One who makes you rich or poor.

1:18:47

So, you remember that. God is one who controls your happiness and joy. God is the one who controls your wealth. Which means that if we follow God's law, we're guaranteed perfect life, perfect happiness. Congratulations. God bless you.

02 Quran Study From Azhar 2 Sura 95 & Sura 96 By M Sabahi Two Verses Of Sura 9 Dropped Out To Demons

أَعُوذُ بِاللَّهِ مِنَ الشَّيْطَانِ الرَّجِيمِ The messenger: We seek refuge in God from Satan. He's after us. We are his main targets.

0:08

He doesn't care about the people who are out there drinking and gambling. They are disobeying God. He doesn't care about them. He doesn't bother with them. He's after us. God tells us so in the Quran.

0:21

"I will sit on their straight path, the right path." We seek refuge in God from him.

0:28

In the name of God, Most Gracious, Most Merciful. Our teacher tonight is Dr. Sabahi and his assistants are Dan, Ali and Amir.

0:37

A woman: No way!

0:44

The messenger: And we start with Sura Dr. Sabahi: 97. No, sorry, sorry. 95. I was just checking.

1:21

أَعُوذُ بِاللَّهِ مِنَ الشَّيْطَانِ الرَّجِيمِ بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ In the name of God, Most Gracious, Most Merciful.

1:30

Dr. Sabahi: The Suras that we're covering tonight start with 95, Fig (Al-Teen).

1:43

It consists of 8 AYAs, overall. And one of the short Suras of the later, latest parts of the Quran.

1:55

When I was looking at this Sura and the previous Suras that we covered, I realized that there are quite a few Suras that God starts with

2:12

different things that He's swearing by them. And I tried to see what are those and thus far,

2:22

we have covered up to Sura 93 which was "The Forenoon," which is the one that God starts with [93:1] By the forenoon.

2:33

And then [92:1] By the night. And then, I went back and tried to check, see what other Suras God has done

2:38

this. At least the ones that I came up with, there were 12 Suras that God starts with

2:46

the swear to different things. And I tried to see whether there is any relationship or why, why is God doing this and what is He trying to tell us.

3:01

There were some of them that one starts with the Sun, the moon, with the bright star, sky, the earth, galaxies, all the things that

3:10

we see around us. We see the sky and... around us. And then, there are others that God uses to changes that we see during the

3:23

every 24 hours, by the Dawn, the Forenoon, the Day, the Night, the Afternoon and the Dusk. And then

3:32

we have Sura 100 that is the Runners (The Gallopers (Al-'Aadeyaat)) which is a subject by itself. And we have a Sura The Town (Al-Balad).

3:39

And we have in Sura 91, we have "the soul." It's something that we don't see. The things that we had

3:49

up to this point, these are the things that we see and God is swearing by them. But by "the soul" or "even and odd"

3:58

and "Promised Day" and "witness, and witnessed." These are the things that I found, they could reveal the latest parts of the Sura,

4:06

Suras of the... since 80, I think it is Sura 81. And if you look at those Suras, the only Sura that God has given a plant's name and also starts with

4:22

starting by the fig and the olive, this is the only Sura that we have. So, there should be something significant, I guess, about these two plants that God is swearing to. And overall, what I understand from this is that God is telling

4:45

us to look around and look at what is going on around us and try to see what are the changes

4:54

and try to understand, try to use our intelligence, try to see and try to understand what is going on

5:04

and see the signs that are all over the place. So, with that I go back to Sura 95.

5:14

In the name of God, Most Gracious, Most Merciful. [95:1] By the fig and the olive. [95:2] By the Mount Sinai. [95:3] And this honored town (Mecca).

5:23

And this honored, sorry. [95:4] We created man in the best design. In the new copy that we have AYA 5 is (unintelligible).

5:36

So, [95:4] We created man in the best design. [95:5] Then, we reverted him into lowliest of the lowly.

5:42

[95:6] Except those who believe and lead a righteous life; they receive a reward that is well deserved.

5:48

[95:7] Why do you still reject the faith? [95:8] Is GOD not the Most Wise, of all the wise ones?

5:56

So, we go back to verse [95:1] By the fig and the olive. There's a footnote here that is saying that fig, olive, Sinai and Mecca, they symbolize the prophets, Adam, Jesus, Moses, Abraham and Muhammad

6:15

which since there's not more in the footnote, I guess Dr. Khalifa is the one who can explain. From the town, I know it relates to Muhammad, Ebrahim. And Mount Sinai, it relates to Moses, but fig and olive that relates to Adam and Jesus

6:38

And he can explain to us, what does it mean? The messenger: Well, basically, it is universal that the fig leave... the thing that is clear is it reminds us of Adam and Eve in Paradise. They covered themselves with leaves of Paradise. But, universally, this seems to be related to Adam and Eve, the fig.

7:02

The olive, now the olive and Jesus are related. And Mount Sinai and Moses, Mecca with Abraham and Muhammad.

7:13

So, this represents the volume of the same message that came to us through different messengers, Adam to Muhammad, and the fig to Mecca.

7:25

Dr. Sabahi: OK. So, after the first three verses, God says [95:4] We created man in the best design.

7:32

What is the meaning of that is something that we can think of. What is, what is the best design? What is this best design that God does? Because man is different

7:45

from the rest of the creatures. The only difference is that he has the brain and he can think and he can make decision and God has

7:56

given us that design and then we have decided to make a decision. We made a decision and then went along

8:06

and then God tells us that He created us in the best design and then diverted us to the lowliest of the lowly.

8:18

And then this is, this is one step the best design, the second step is the lowliest of the lowly.

8:25

So, we start on the high, we go down to lowest and then there's a chance for those who believe and lead a righteous life

8:35

to receive the reward that we deserve. So, it is up on us. God has given us the chance to change ourselves from the lowest

8:46

of the lowly to go, to do something that we can get out of that lowliest of lowly and then go to a place that is better than the lowliest of the lowly. Ask my senior assistant, Hamid

9:02

to talk about fig and... to talk about fig and olive, I guess, that is referred to tell us what is the significance of these plants that

9:16

some botany work, I guess. Hamid: (unintelligible) I have information that may not be as relevant but just information regarding the plants themselves.

9:35

One of the things that's most common is that figs and olives are very common in almost every part of the world.

9:42

Everybody's nourishing on them and they're both very good source of nutrition especially fig (unintelligible) and especially in parts of the world where I come from (unintelligible).

10:05

Figs are a very good source of iron. (unintelligible).

10:44

The messenger: They have figs here, they're the sweetest figs in the world. (unintelligible). And I read his thoughts...

11:01

Hamid: (unintelligible).

11:15

Hamid: (unintelligible) two times in the year. and olives every other year. They don't even bloom one year. (unintelligible).

11:32

(unintelligible).

11:50

The messenger: Does everybody know that the olive oil actually reduces the cholesterol? Unlike any other fats, all other fats increase the cholesterol. Olive oil actually reduces cholesterol.

12:04

A man: a lot of oil contains a lot of (unintelligible). All the other oil is not pure oil (unintelligible).

12:34

The messenger: And I have another thing here is... Dr. Sabahi's excellent explanation

12:41

that I think touched on spiritual design, this design. And I just want to mention the best visible design as well with the human being

12:53

which is (unintelligible) 24 ounce of (unintelligible) mustard right here. I will try

13:01

to pick it up with 4 fingers. See, God designed our thumbs. So, if my design was just 4 fingers, (unintelligible) picked up, right?

13:11

How will you pick it up without this? So, this is the physical design of God.

13:22

Yeah that's very awkward, isn't it? It's very difficult. We take it for granted that it goes like this. (unintelligible). Also, we took for granted that we walk on 1 leg. Did you know that?

13:40

At any given moment, we walk on one leg. Now, if you design something, you will not design it to walk on 1 leg, see. It's always on one leg.

You don't realize that but there is some little fluid in your ears that keeps your balance

13:56

and if it's messed up, you can't walk. You don't think about it. We take it for granted

14:04

that you're always on one leg. When you're walking, you're always on one. And normally, if you think about it, will you design

14:10

something yourself, you won't design something to go on one leg. But this is the perfect design, God gave to the human beings.

14:22

Dr. Sabahi: Dan.

14:45

Dan: Actually, when I look at this verse, I think about... I've been in our souls

14:52

before we came here and then He created the best possible way to move, come back to this life.

15:00

He created us, as you said, figures and things like that. Our soul, I don't know if this is true will be basically is low.

15:11

It's lower than what it was before we came here. We started in the ground. It's up to us to make

15:18

it grow in this life like in line six [95:6] Except those who believe and work righteous; they enjoy a well-deserved recompense.

15:29

So, we have this kid and his soul is so pure but he's starving.

15:35

It's up to us what we grow to make our, to feed our soul by praying, by following the commandments and things like

15:42

that. And these are growing and growing and if you don't do that, people might...

15:51

How can I say it? People sometimes people may think that they have a good life like some of people

15:58

who think that because they're getting money, they have the best life some for example

16:04

some movie stars. They will have money, cars, everything. Their souls don't have anything. There, you don't know

16:11

if that they have a really good life or not. It's up to us to actually make it grow

16:17

but everybody departs from, from the bottom. So, nobody can say 'well, I had an advantage, no, no.

16:24

Everybody can agree now. And when a person actually believes in God, I mean,

16:36

there's only One God. Some people might be pushing to some other direction, but for some reason

16:45

I only see everybody, you know, always before they even turn to that path, I would

16:51
see everybody stopping in that path where everybody meets. And that enables to see

16:56
the right path and the wrong path, he's walking to the wrong one. I don't know, for some reason,

17:02
I just feel everybody, you know, kind of when equal, in equal point in this kind of when they're waiting

17:07
And then he finds the right path. So, I feel that I mean this is up to us to watch we're doing. So, everybody

17:14
I feel that everybody starts from, from a point that God made it that way some (unintelligible).

17:21
and you know, that's why.

17:33
(unintelligible).

17:43
Audience: Other animals, they didn't have a brain, they had a brain but they didn't have a decision

17:51
(unintelligible).

18:00
A tree would grow as tall as it possibly can. And if you take a redwood. Redwoods grow as high as it possibly can knowing that it doesn't realize, you know, the sky, how the sky is "Oh, is it unattainable? Is it unreachable?"

18:12
It will grow as tall as it possibly can and it seems to me that man is the only one who does

18:21
not develop on to try to achieve (unintelligible).

18:40
Audience: I mean, I don't know much about irrigation of those kind of trees like something like water irrigation of vegetables

18:48
if you want everything, you have those (unintelligible).

18:58
(unintelligible) harvest in summer the loose leaves (unintelligible).

19:07
all winter (unintelligible).

19:18
A man: Most of trees do that. (unintelligible).

19:33
Some people (unintelligible).

19:42
(unintelligible). Because as far as my understanding the olives get harvested every year.

20:04
The messenger: They have got something called alternate bearing. Crops are very heavy one year, very light the next year. So, this actually happens in (unintelligible), but we don't notice it.

20:14
You keep harvesting from different trees. These individual trees will do that.

20:21
But one tree will be heavy. The next one would be light. And then, they alternate next year. So, he's getting into botanical particulars.

20:32
Audience: I don't know about (unintelligible). when I studied botanics (unintelligible). with genetic engineering (unintelligible).

21:04
Audience: I didn't generalize it. (unintelligible). Audience: I understand. What I'm saying is these kind of trees, it's not like water-irrigated everyday (unintelligible). They almost grow wild.

21:24
Dr. Sabahi: She asked a question. No, she asked a question. A woman: (unintelligible). souls

21:36
Dr. Sabahi: From what I understand it's like chemists (unintelligible). There are 3 steps. You were first created

21:48
the best design which I go through my notes and I think there's another chapter that... chapter 87, God mentions that

22:03
[87:1] Glorify the name of your Lord, the Most High. [87:2] He creates and shapes. [87:3] He designs and guides.

22:08
So, He says that He designed us the best design. So, there's something like the ancients. We were the best like the rest of the creation among the best. And then based on what Rashad has quite frequently discussed that we made the decision to

22:30
 give it a try, see, go with Satan, give it a try and made that decision. So, we went to the second step which is the lowliest.

22:40
 We came down, left at eye level of life and then when we came down to see what it's like here.

22:49
 And then see whether we can fight with Satan and succeed and go back to, try to reach the high level again. And I think the third step

22:59
 is when you try to change, to get away from Satan, to lead to the right path and succeed in getting back to the High life, to get to the Heaven. This is the way I see it.

23:14
 Audience: 2 questions. In Sura 4, (unintelligible).

23:33
 Audience: Secondly, what is the meaning of "we" in verses 4 and 5? God says [95:4] We created man in the best design. And says [95:5] Then, we reverted him.

23:43
 Does it really imply participation of angels, other forces in creation of man in the best design, Satan's involvement that is born to the lowest (unintelligible)?

23:58
 The messenger: Dr. Sabahi just explained it, but also reverting lowliest of lowly applies also to this life as far as the disbelievers are concerned.

The Quran is not the physical book.

24:08
 We read in Sura 6, God says that they are worse than animals. The disbelievers and idol worshippers are worse than animals because they made a stupid decision not to be with God.

24:26
 (unintelligible).

24:45
 The messenger: No. This is actually, I'm glad you brought this up. There's a lesson from God to teach us that the Quran is not the ink and the paper. It's not the physical book. We have a verse number five in Arabic, dropped out.

24:58
 Sura number two and verse number five names in this Sura, dropped out.. So, we have 2 verses

25:05
 dropped out by mistake, one Arabic number 5, one English number 5 and the 2 false verses removed.

25:13
 We have mathematical proof that verse 5 in Arabic, and verse 5 in English and other ones dropped out

25:21
 belong in the Quran. But they have no evidence that the two false verses belong in the Quran. Are you following me?

25:32
 There's evidence on the wall there, all this long number, 12692 numbers

25:42
 they glued every verse in the Quran but not the two false verses. And that number is divisible by 19. If you include the two false verses, the whole thing collapses. We don't have anything.

25:52
 As it is, we have a fantastic miracle now. So, God is telling us that you remember that you are living in an age of books, see?

26:01
 This is probably a very primitive thing that a hundred years from now, they will laugh at us. They'd show movies where people looked in a book like this. Cause a hundred years from now, there'll be probably no books.

26:12
 So, this is not the Quran. It's not the ink and the paper. When the prophet Muhammad went to the highest heaven to

26:18
 receive the Quran, God didn't give him a book. "Here's a book, Quran." Quran is in the heart.

26:25
 And obviously God is making the point that because they say that falsehood cannot enter this book, so how come the Quran has the two verses entered in it?

26:37
 They forget that the Quran is written in many different ways

26:43
 And a lot of people printed it with the Suras mixed up, rearranged the verses.

26:50
 They added things and dropped things, but this doesn't mean that God did not preserve the Quran because the Quran is not this physical book.

26:57

And we're having this demonstration with new translation. So, we will fix it. We will add the verses. After we receive the book,
27:05
we will add these two verses that dropped out by mistake. Also, we write the Quran in the computer electronically, so
27:13
what is, what is that? So, the Quran is in the heart. We know exactly what... we know exactly every letter that belongs in the Quran and
anything
27:26
strange is added to it, we know that, too. If anything drops out, we know that. This is obviously God's will to teach us this lesson. The ink and
the paper is not the Quran. Back to Dr. Sabahi.
27:44
Dr. Sabahi: OK. One word before I go to Sura 96
27:53
The plants are overall one of the most amazing chemical factories that exist on the earth. For a while I was, before coming to US, I was
involved with research on plants and
28:10
drugs that are derived from plants. And as a chemist, I was amazed to see how complex
28:23
these molecules are that you can take from a plant. As an example, I can tell you now is that the most effective cancer research
28:35
and the most effective compounds or agents against cancer thus far are the ones who have origins from plant materials. And China is one of
the
28:48
leading countries in that respect. They invest a lot in national fund and research. And recently, there was a symposium. So, what happens is
that the plants as time goes
29:01
by, they synthesize these things and you don't need too much chemistry to understand that the only
29:07
chemicals that are available to the plants are carbon dioxide, hydrogen from the ground and water. So, you have carbon, hydrogen, nitrogen
and oxygen, these 4
29:19
basically nature elements and some possible other things that come from the ground. And this plant as you seed it and it grows,
29:28
starts to put these things together. And then after a while, you take it to chemist, leaves goes to lab
29:36
and tries to extract these chemicals out of it and then spends a lot of time, years maybe,
29:42
to see what is the structure. It started being one nitrogen, one oxygen, one hydrogen, billions of this in small pieces and then this plant has
put these
29:51
together to gigantic molecules, all that patched together. First of all, human beings have a lot of trouble to identify
29:59
what the structure is because the definite structure of the plant is something that you need to know as a
30:07
chemist or as a pharmacist. So, after they find the structure of, they know the potency, they
30:15
try and say "OK. This is effective against this infection or cancer or whatever." Then, they wanna make you buy it so that they can introduce it
to the market and give it to people. So, should they go and kill all the plants?
30:28
No, the chemists come into play. So, OK, they're gonna synthesize it, do this thing that the plant does slowly. It's designed to do it. And so
they do it in the lab and start. One of the the third grade synthetic
30:42
chemists that was here a few month ago. He said "they have been working for 5 years. I mean, they have been, a group of top-notch
scientists, working to synthesize the molecule that would be, as we've shown, has been tried out. And
30:58
as we've shown in the past that it has the potency against cancer. So, it took them at least five years and they had one step to do and that is
the difference was the molecule that they were
31:10
synthesizing, was like the right glove of your hand that you can't put on your left hand. There's a difference. There's no way you can put on
both your right and left hand,
31:23
or better understand, you cannot put a right glove on your left hand. Have you ever realized this?
31:29

That is a concept chemists call it Plurality. And that's one of the most amazing things that, in creation. And this is the only molecule, one molecule which is the right-handed molecule. It's really effective. The left-handedness is not effective at all.

31:45

The only difference is that if you look these are the mirror. If mirror is here, this is kind of exactly this hand's mirror image of... these molecules are mirror images of itself. But

31:57

one of them is as the cocaine as that property. If you take the same, exactly the same number of carbon, nitrogen, whatever. But the only difference is that the right glove instead of the left glove. It doesn't have to say if you take a pill out of it, you get high.

32:12

And so I think when I read that that plants are such an amazing creatures that do things that, you know, we take for granted, we realize it

32:29

And this is another sign, another one of those signs. There's a reason that God is swearing by a plant, by the fig and the olive that obviously have significance as Dr. Khalifa mentioned and also from chemist's point of view.

32:48

So, by that I go back, start Sura 96. بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

32:55

You have a question? (unintelligible).

33:53

The messenger: Actually, you have excellent varieties of figs and olives, you do have in Afghanistan. We have fantastic varieties of olives in Libya almost everywhere.

If God is all merciful and knows the humans would make the same mistake – Why bother with all this – Answer = to save those who would make it to heaven.

34:06

(unintelligible). The messenger: Hey Robert, you wanted to say something. Robert: I remember asking you a question earlier about (unintelligible).

34:32

(unintelligible).

34:39

(unintelligible).

34:49

The messenger: Well, you see, God gave us the chance that when we blow that chance then we're really... one of the reasons for creating

34:55

this world is that creatures who end up in Hell will not say "you didn't give us another chance

35:02

or you didn't tell us how bad hell is." All these things, all their excuses are being nullified now, here.

35:10

So, the creature was given a second chance. He's really stupid, you know, if he doesn't take advantage of it.

35:17

You give somebody a key to a prison and he or she throws it away. Then, you give him or her another chance.

35:25

You give him a key, again. You say "there's a treasure in this box. Don't throw the key away. Go open the box." And they still

35:31

throw the key away. This really... this really is stupid. So, this is lowliest of the lowly. It's worse than animals.

35:38

Here's the answer to the question. Did I get your question right?

35:44

Robert: Yeah, that answers that question. The messenger: What's the other question? Robert: Well, you just said that God knew that the human race, in general, was stupid. You know, that they were gonna take that key and throw

36:01

it away the second time. And I know that free will comes in....

36:16

The messenger: So, OK. You didn't catch my other part of the answer, then. This is to nullify the excuses. So, they will not say "You didn't give us another chance."

36:25

Robert: No, I got that part. I just didn't understand. Human beings will suffer for eternity

36:31

and God knowing this will happen, why was he created?

36:40

The messenger: But you see, if we didn't have this second chance and we were thrown in hell, we will say "You didn't give us another chance."

36:49

Now with this invitation in this world, you cannot say this is (unintelligible). (unintelligible).

37:14

Robert: God knew that we're gonna need a second chance... what I'm saying is that God knew that we're gonna go wrong. So, why would He...?

37:20

The messenger: No, no, no, there's so many millions of us who sees. All the people who died before 40 and all the people who.... there's still millions of us. So, for this relative few, it was worth it to create all this universe (unintelligible).

37:38

Robert: OK. That answers the question. The messenger: There's still, I mean. Think of all the... you and I, hopefully will make it to Heaven. You think of all the millions who died before 40. They would have been in Hell.

37:52

But as it is because of the creation of this universe, they're going to Heaven, instead.

37:58

So, God's mercy is saving all these millions of people.

38:04

Robert: So, the answer is that to worth it for the few to receive (unintelligible).

38:11

The messenger: I don't feel it's a few. If you think of it, If you're asking Mahmood Abib, he'll tell you the majority of Somalians are going to Heaven because they all die before 40.

38:23

The messenger: (unintelligible) is killing them before they get to 40 and this is a blessing.

38:34

A woman: (unintelligible).

39:11

The messenger: Under all circumstances. Yes. A woman: (unintelligible).

39:37

The messenger: And by this mercy millions of us are being saved who would have otherwise gone to hell. (unintelligible). This is a good enough reason.

39:48

Robert: (unintelligible).

39:57

Dr. Sabahi: You can't ask a question. You have to answer the question.

40:02

A man: I mean, when everybody was over there before we came here. Did everybody actually said, when God asked us (unintelligible), "do you believe in Me or not?" Did everybody say "no" or "yes" or every said "yes (unintelligible)."

40:22

The messenger: No, we said "we'd like to see a demonstration. Maybe, Satan can do it." Robert: Oh, that's what most people said?

40:33

A man: Let's say that God is in planet Mars. We were all there. This is a whole galaxy, a whole planet. Then, we made a mistake. This is exactly what we did. But God said "OK. You guys, you criminals, you made a mistake. I'm not gonna send you yo hell. I give you guys another chance."

40:51

He put us all on a starship, sent us out here, (unintelligible) said "OK. I'm gonna give you this body for all of you, this number of years. And I'm gonna test you guys. When you're done with this body, dispose this body. You can come back to me." (unintelligible).

41:09

The messenger: Those who redeem themselves can come back and join My Kingdom. Those who don't want, join Satan.

41:16

(unintelligible).

41:35

(unintelligible).

41:43

Dr. Sabahi: And I guess after discovering this point, I can go to the next Sura, Sura 96

41:53

Muhammad was going to this cave for praying, and whatever reason he was going there and what is happening in this Sura

42:03

which is the first five verses which were revealed to him were the first verses that from the Quran that was revealed to Muhammad.

42:12

So, the story's that he... one day, he was in the cave and he heard a voice that told him to read which is the beginning of the Sura and he panicked and he thought that he's hallucinating and things like that and...

42:32

And then he heard the order to "read." And Story is that he said that "I can't read. How can I read?" And then Gabriel told him "read in the name of your Lord who created."

42:50

So, that's the story that I read, that I have heard it before, more or less the same. I don't know how true it is.

42:58

The messenger: It's not true. Dr. Sabahi: But this is the story that I read in a book that this is the way it happened to Muhammad in that Gabriel told him to read and he said "I can't read."

43:10

And he said "OK. Read." Then, I'll go to the Sura now. In the name of God, Most Gracious, Most Merciful

43:18

[96:1] Read, in the name of your Lord, who created. [96:2] He created man from an embryo.

43:28

[96:3] Read, and your Lord, Most Exalted. [96:4] Teaches by means of the pen. [96:5] He teaches man what he never knew. [96:6] Indeed, the human transgresses.

43:39

[96:7] When he becomes rich. [96:8] To your Lord is the ultimate destiny. [96:9] Have you seen the one who enjoins. [96:10] Others from praying?

43:50

[96:11] Is it not better for him to follow the guidance? [96:12] Or advocate righteousness? [96:13] If he disbelieves and turns away.

44:00

[96:14] Does he not realize that GOD sees? [96:15] Indeed, unless he refrains, we will take him by the forelock.

44:08

[96:16] A forelock that is disbelieving and sinful. [96:17] Let him then call on his helpers. [96:18] We will call the guardians of Hell. [96:19] You shall not obey him; you shall fall prostrate and draw nearer.

44:21

The first five verses which are the the first revelations and as you see in the footnote, the code number 19 is all over those 5 verses and

44:35

also the whole Sura which are, which is consistent of 19 verses, overall. And it is a miracle in itself

44:53

God tells Muhammad [96:1] Read, in the name of your Lord, who created. [96:2] He created man from an embryo.

45:06

Whatever... this is, this is embryo which is the translated word for 'Alaq. People have used this in different ways.

45:24

The way everyone to his own understanding of maybe the universe, the biology or whatever it was or

45:36

whatever they got in understanding Quran. They have defined it or interpreted it in different ways.

45:48

But what is clear, here God is saying that read and read in the name of the One who created you

46:01

and the whole universe and He created man from an embryo which I thought a lot about it. What does, what

46:14

does that really mean, the embryo? Is that really the physical meaning of the formation of the embryo

46:24

in an animal, any animal that leads to creation of the human being?

46:37

Or does refer to anything else? I couldn't come up with anything else unless it's something else, Dr. Khalifa.

46:47

This referring to, to Muhammad and us, if we limit this Sura to the time

46:59

that's one problem that exists is that since this was revealed to Muhammad, everyone tries to interpret

47:05

the Sura to exactly the same time and what God gave at the time. But since this is the book which is for all times and at any time of history that I think people can understand

47:19

it in its ways and if you stick with the facts that you do thirteen or fourteen hundred years ago where

47:27

you didn't know a lot of things as science and then you get yourself into trouble. But what it

47:35

means is that God created the man from nothing, something that He knows how He does it and from nothing that

47:43

was nobody else can do the same thing that God is doing. And then in verses 2, 3 to 5, He's telling us and

48:02

prophet Muhammad that read, He's teaching, God is teaching you by the means of the pen and He teaches man

48:11

what he never knew. I think from these Suras up to this point, I came to the understanding that if we as Muslims

48:26

have read Quran and thought about it a little bit more carefully, I think, we should have been later in science more because there are so many facts that God is giving

48:41

us, you know, giving us the light. Says "Ok. Look at the sky. Look at the Sun. Look at the Dusk." You know, one day, sit outside and

48:47

see how (unintelligible) changes and think. But you kept saying that the world is flat. And then, He tells us about the plants.

48:58

He tells us about how beings are created and He tells us that He's creating man from an embryo.

49:06

So, we took it as "okay. This is God said so. So, don't worry it." And then, Says [96:3] Read, and your Lord, Most Exalted.

49:17

[96:5] He teaches man what he never knew. So, if you don't read it... that's what I tell Ali all the time. Read the books. Do your homework.

49:24

If you don't read it, you'll never know what's going on. But it is true that a very simple explanation

49:39

understanding of the AYAs that I have is that you start reading, God is coming and teach you. And also

49:51

God teaches by means of pen, it has some other, I guess, some other (unintelligible)

49:57

that people who are dealing with pen have a very great responsibility because those are the people who

50:04

can have a great effect because a lot of people read. So, you can write something that you can mislead. You can write something

50:13

that you can lead. And I have seen that very clearly that after revolution or before revolution what aspects

50:23

religion is concerned, after revolution in our country. And a simple thing, a simple one sentence

50:30

or one paragraph how that simple one written document can change a whole nation, change the whole, in fact the whole, the life of the world and that is

50:50

another indication that God is teaching you by the means of the pen and it teaches you what you never knew but

51:00

you have to be a little bit willing to put in a little bit hard work on it and then God helps you. And I think I'll stop at

51:13

these first five verses and...

51:19

(unintelligible).

51:35

Audience: You know, we were just a clot, an embryo. We started in that. Looking at this verse that says [96:1] Read, in the name of your Lord, who created

51:45

He definitely created us. He created man from an embryo from something. It's where we started.

51:51

[96:3] Read, and your Lord, Most Exalted. [96:4] Teaches by means of the pen.

52:01

The way I look at it in Quran that we start learning from God. Actually, we got the first step to take.

52:10

First time, I actually came here, before I came here my brother gave me a Quran and I said I mean

52:16

my brother came here and I was over there waiting and I sit sit on the couch and started reading it. It felt like, you know, after that I felt like myself I was an embryo

52:27

I was something that you know, I'm just, I'm just starting. I started reading it and I started seeing

52:32

things that I never saw, that I always asked when I went to Catholic school that I used to ask questions They were never actually answered. In there, they were there. So, I mean I just felt like I was being

52:42

born. Like I was being created right and then. For some reason, I mean, I just feel that those five

52:50

will be for the Quran. A person is too weak and the person who reads it and God wants him to be

52:56

a believer. He will create them right and there into a believer. He's not no longer a normal person

53:03
I am no longer a normal person. I feel like I'm something, that I am here something

53:11
Quran, I mean, teaches us by the mean of the pen. I don't know if 20 years from now, that will

53:17
be, you know, go be the same thing. They can put it in the computer and it will be computer. Right now,

53:22
everything is written down. In back then, it was written down, too. I don't know if it was before.

53:28
So, I think that that's what it means what the Quran said. He wants us born

53:33
right then. Dr. Sabahi: Thank you. Ma Sha Allah. David: (Unintelligible). Let me ask you a question. (Unintelligible).

53:59
(Unintelligible)

54:04
The messenger: You're thinking of zygote, David. David: OK. Well, zygote is still way before an embryo

54:10
The messenger: Right. Zygote is an embryo, also.

54:15
David: I'm not sure because... (Unintelligible). You know, an embryo is way... (Unintelligible).

54:35
Dr. Sabahi: I don't know Arabic but I looked up the meanings of 'Alaq. I think one of them is clot. And...

54:44
The messenger: It's not clot. That's not an accurate... the literal word means something that is hanging.

54:51
(Unintelligible).

55:08
The messenger: You know I met Dr. Bucaille. You know Dr. Bucaille? He wrote "The Bible, The Qur'an and Science." I met him in Algeria and he was very angry at the word "clot." Clot is a piece of clot that is like jelly and he said "that is not what the human embryo is." And he was really angry. He "never use clot again."

55:30
(Unintelligible).

55:37
The messenger: No, no. The word literally means "something that is hanging." (Unintelligible).

55:51
The messenger: Right. It has cells but it's not a clot. It's a very active, very living group of cells that is dividing very fast. Clot is not even living, dead blood cells.

56:06
Dr. Sabahi: Does 'Alaq mean "Leech" too? The messenger: Right. Yes. (Unintelligible).

56:18
Dr. Sabahi: Yeah, I read... I read in a Farsi translation or little bit interpretation that says "maybe, this is because leech and sperm are somehow similarly shaped. This may be something that God is saying that He created man from whatever it is."

56:43
David: (Unintelligible).

Translation debated – the word "clot" Vs "embryo".

57:05
The messenger: David, technically an embryo is immediately after fertilization of the ova. You have an embryo, technically.

57:16
David: (Unintelligible). The messenger: I know. That's why the zygote, embryo, and fetus, all these are called embryos, technically. The definition of an embryo is fertilized ova. Is that correct?

57:33
The messenger: Yeah. Zygote is an embryo. (Unintelligible). Embryo covers a wide range, zygote to the fetus.

57:51
The messenger: Clot is not accurate at all. What is a clot?

58:00
(Unintelligible).

58:52
The messenger: But you see, David, there are two things against the word of "clot." The first thing is clot is a dead object. Second is clot is not what the word is. In first translation, I thought clot would be accurate but it was not. Let's go back to Dr. Sabahi.

59:30

Audience: How come everybody always, everybody's arguing about one word, one sentence? How come they don't look at the whole picture, the whole sentence? Everybody is always arguing about the translation of one word. One word doesn't mean anything. It's the whole picture that it's giving.

59:46

(Unintelligible). Audience: Well, because if it's the translation in a better way but it becomes clot or embryo, the way I look at it even though it is clot or embryo. The way I look at it (Unintelligible).

59:58

David: I'm looking at the big picture. I'm looking at the big picture but I'm also looking at, you know, if I see something or you see something that you think doesn't really fit, then I think we should express it.

1:00:15

David: You know what I mean? Cause otherwise, why are you (Unintelligible)? And I don't need anything more than just this right now. This is the big picture.

1:00:28

The messenger: The choice of the translation reflects the growth of the translator. (Unintelligible).

1:00:37

Dr. Sabahi: Yeah, going back to comment on what you said and also to mention what Dr. Khalifa was saying. I think one of... that's why Arabic version of the Quran is so valuable and it is so important that you can read it because one part that we miss is the music. I don't know how to say it, the music and the way it's written.

1:01:02

Because in Arabic if you read it, you see that every... especially these short Suras. The size of the Sura, verses

1:01:09

the way they sound, the music that goes with it, they change. So so beautiful that you can, you know, in English it's partial.

1:01:18

And that one word is another thing that makes it translation and things like that very difficult as Dr. Khalifa mentioned. It's something that goes to

1:01:29

to perfection. From these discussions and arguments, you know, we just learn, move on... (Unintelligible). But as the Arabic

1:01:42

word is very difficult to put it in one English word and say the same thing that is said there. One thing that I wanted to add to

1:01:50

(Unintelligible). OK. Another picture that you can get the first five verses reading the name of

1:02:07

your Lord created and creation is that the whole creation is evolved.

1:02:14

You can look at it as a whole. You don't have to be able to read what is written here like being literate.

1:02:22

You can see and read without moving your lips. You can see these things. So, God is... that's what makes it

1:02:30

so beautiful that even for people who can't read. If you hear it and then even if you don't hear it, if you are willing enough to look at the

1:02:39

things that God is telling you. He's telling you that He created and He created these things. So, the whole creation

1:02:46

is a big look. You just go out there that you can go, read it, and understand it. There are a lot of things

1:02:53

that is created from science. That's what the scientists do. They do see a lot of things. But they read it as you say it in English. You read it in the lines. I think creation is something that you can read

1:03:07

from between the lines if you are willing to, if you pay attention, we will accept the fact that

1:03:13

one night go out and look at the beautiful sky is that (Unintelligible) and you can read it and from a lot of other

1:03:19

things that God is saying here. I'm gonna move on, verse 6 and 7

1:03:27

[96:6] Indeed, the human transgresses. [96:7] When he becomes rich.

1:03:32

Whenever human beings feel that they are rich in anything, that money and only money, you will feel that you are rich in a lot of other things and then that's the time that

1:03:43

you start worshipping yourself or your ego or whatever you have accomplished in the world. And that's the time that you start to transgress.

You start

1:03:52

to move away from God, forget God and go to the wrong path. So, if God is helping you to get rich and I said in any way that you can be rich

1:04:06
and then you have to be very careful because, as has been said repeatedly, that it is not you. It is your

1:04:14
work, you are working hard, you are putting a lot of effort into it, but God is helping you to become richer

1:04:22
in whatever you're doing, but be careful not to transgress. But God is saying that human beings, this is

1:04:28
a nature of them. They just transgress. But He mentions in 8 [96:8] To your Lord is the ultimate destiny.

1:04:35
Don't forget. Whatever you get, whatever you accomplish, you have to finally die. You'll die and they put you

1:04:42
depending on where you die, they're gonna put you in a coffin or they just put you in the ground and put a lot of dirt on you. And there you are and you can't take anything with you down there.

1:04:54
Then, God is again reminding us. [96:9] Have you seen the one who enjoins. [96:10] Others from praying?

1:05:04
And this is one of the very interesting few verses that comes together and we see very

1:05:09
easily that there was a time that back in my country before revolution, praying was something

1:05:17
that if you did, was something out of civilization. You were old-fashioned, you believed in something which is not civilized, westernized

1:05:26
and things like that and so people tend to say "why you pray? If you wanted to pray, at least if you want

1:05:36
to pray publicly because something that a lot of people will tell you, make fun of you, but then after revolution

1:05:43
it became forced. If you didn't pray, then you were in trouble. There were times that at 12 o'clock, they would bring

1:05:50
you out, everyone was supposed to go to the mosque and pray which was another problem, you know. Whether you're praying for God or you're praying to show your

1:05:57
boss that I'm a good Muslim because it would have good effects on your salary or where you go in the future. But God is asking [96:9] Have you seen the one who enjoins. [96:10] Others from praying?

1:06:14
[96:11] Is it not better for him to follow the guidance? [96:12] Or advocate righteousness? Clearly, God is putting in question, question fashion [96:13] If he disbelieves and turns away.

1:06:28
[96:14] Does he not realize that GOD sees? And this is one thing that a lot of people don't realize or they may know it but they

1:06:37
they try to look the other way. God, again, is warning us, giving us some warning and cautioning us. Don't you think that God sees all what you do? And whatever you do is wrong, you know, He sees you.

1:06:52
And then in 15, God is getting tough. [96:15] Indeed, unless he refrains, we will take him by the forelock. [96:16] A forelock that is disbelieving and sinful. [96:17] Let him then call on his helpers. [96:18] We will call the guardians of Hell.

1:07:11
[96:19] You shall not obey him; you shall fall prostrate and draw nearer. So, in these last 5 verses, God is telling us story of the people who go the wrong path and God is telling us what He's gonna do with those and how they're gonna suffer in the

1:07:38
future that would come and they don't choose the right path which is the path of righteousness and the path of God. Overall, if we look at these verses starts with a lot of people may have for they see it just as

1:08:01
very disconnected, but it is very much connected as you see the whole story of the human being, the life, the way he's created, the way he transgresses, the way he becomes stingy, the way he drowns into materialistic things and then, you know,

1:08:21
goes away from God's path and becomes astray and then God is warning us at the end of the Sura that "don't do this. Do whatever is required of you to do

1:08:34
and don't follow the crowd as has been said frequently and try to stick to what is right which is in the book, in Quran and follow (unintelligible)."

1:08:56
Dr. Sabahi: Do you have something? Audience: OK. Line 7 [96:8] To your Lord is the ultimate destiny.

1:09:09

Those lines actually remind me of what Dr. Khalifa keep saying, keep saying (unintelligible) and you (unintelligible).

1:09:20

The first thing, I mean, the thing that you most thought about during day. For some reason

1:09:29

humans tend to always look at themselves but I'd like what I came today, I missed work. Somebody's

1:09:35

working for me right now. And they say "how come, how come you come late from your breaks and you're always

1:09:40

praying? How come you don't work and you get money?" I said "well, actually

1:09:46

that's you think you do much better for yourself because you don't know what you're saying but I think for me to be there praying, it would be much better for me." They would look at the money

1:09:57

for themselves always buying nice cars, buying nice clothes even thought (unintelligible)

1:10:05

I mean, yes it is. People actually see that and plus when they see other people

1:10:12

praying and things like that, they get (unintelligible). They think they are more inferior. Right now for some reason, Church

1:10:21

even though people are saying nice things, like going down, the new generation who goes to the churches are offering and

1:10:28

they're not gonna get anywhere with it. They go and try to go to college and try to become lawyers.

1:10:33

and they never wanna see the instructions very good. I mean, I hear you showing them that's that's stupid.

1:10:39

You have to actually do your soul and you, cause if you did that, God's gonna give you everything.

1:10:44

I mean, you can become whatever you want. Dr. Sabahi: Any other comments? We have 2 more minutes like this. Any other suggestions?

This is a very... we didn't have

1:10:55

enough time, but it's a very important Sura. I definitely urge it at least somebody could read it in Arabic because it is beautiful. I know it is a privilege for people who know Arabic. Cause I don't know Arabic.

1:11:10

I can read it but I don't understand it. The messenger: Language doesn't matter. You're right. Quran has a beautiful, powerful and extraordinarily excellent literary, very enjoyable, but God says "to the believers, it doesn't make any difference."

1:11:28

So, I guess we will pause for tonight and we will have a number Fātehahs to read. Today is August 4th. We read Sura 96.

1:11:41

Next Friday is August 11th, IN SHAA ALLAH, we'll finish, maybe, 97, 98, 99, 100, up to 105, let's say. Following Friday is August 18th, and we should finish the Quran, then. And Friday August 25th, we'll have the new translation. We'll start Al-Fātehah.

1:12:05

So, we have to get it this way. The next week, IN SHAA ALLAH, we'll finish up to Sura 105 and we have to help our teachers do that. And the following Friday to finish so that we'll start Al-Fātehah with the new translation, IN SHAA ALLAH.

1:12:22

So, our teacher next week will be Dr. Mahmoud Sabahi and his assistant, Dan. You're so good. You did a very good job this evening. Ma Sha Allah.

1:12:42

He's an excellent teacher. By the way, he presented to you the chemical (unintelligible). The stories in his life and job (unintelligible). And chemistry is a good (unintelligible). He made it so easy. He's a talented teacher. I can feel that. So, IN SHAA ALLAH, we'll make use of him more often. Philip?

1:13:05

Philip: (unintelligible) (unintelligible) She is now traveling.

1:13:19

go to Oregon to take care of some business.

1:13:32

The messenger: 31st of July

1:13:45

The messenger: Our teacher, don't worry. But Lory will be our teacher next week, finish to Sura 105. And then Ahmad Rayan, IN SHAA ALLAH, will be the following Friday to finish from 106 to 114, IN SHAA ALLAH. We need to read Al-Fātehah for (unintelligible).

1:14:10

And Catherine, you forgot that your birthday's tomorrow. Catherine's birthday.

1:14:19

Martha is not here so (unintelligible).

1:14:28

but she's not here tonight. We read Al-Fātehah for Philip and his wife, Emily

1:14:37

We read Al-Fātehah for Maryam. She wants to read it

1:14:49

overdue because of Poopak and Maryam, they're so sincere and God loves them and showering them with His blessings.

1:14:59

We would read an Al-Fātehah of thanks. So, for Ibi Abib, son of Mahmood Abib and Linda Abib, for Catherine's

1:15:10

birthday, for Martha's birthday, for Philip and Emily, for Maryam, we turn to God, and for all of us. All of us whatever

1:15:22

your dearest wishes in your heart, you ask God and He will give you. Al-Fātehah Bism Allah Arrahman Arraheem (1:1) Al hamdu Lillahi Rabbil 'Alameen (1:2) Arrahman Arraheem (1:3) Maliki Yawm Eddeen (1:4) Eyyaka Na'abudu Wa Eyyaka Nasta'aeen (1:5) Ehdina Al-Serata Al-Mustaqeem (1:6) Serata Al-Lazeena An'amta 'Alayhim Ghayri Al-Maghdoobi 'Alayhim Wa Laddaalleen (1:7)

03 Quran Study From Azhar 3 Sura 10;79 92 & Sura 23 By Rashad's Khutba 01 19 1990 Sura 3;110 117 By

(Unintelligible). Ismail Barakt: Salāmun 'Alaykum. Salāmun 'Alaykum. (Unintelligible). You take it and spread it out all over the place. I will spread it here.

0:15

The messenger: Yes. 218. Page 218. Ismail Barakat: How about 228? Let's make it a complete set of numbers.

0:30

The messenger: This is right?

0:36

The messenger: He's a member of the Quranic study, Fajr Quran study group. Look. He laughs. Ismail Barakat: And he just sits there and reads, yeah? The messenger: Yes.

0:47

He follows us. He asks questions sometimes. A woman: Like "where is my breakfast?"

0:56

Ismail Barakat: I think the person who's answering Emily, she understands Islam. The messenger: Yes, she speaks (unintelligible).

1:05

The messenger: You know, Ismail lowered his volume, his voice, yesterday. But still, Behrouz woke up and came here to say "what's happened?"

1:13

5 minutes after Ismail arrived, Behrouz comes. A woman: There was somebody in there, but I thought it was him, I thought maybe this was a fight about something.

1:21

The messenger: And that was when you were in your apartment, right? A woman: No. The messenger: No?!

1:26

Ismail Barakat: Right. See, I shouted from the other end when you got the message on your recording.

1:32

The messenger: You know, in Iran, the first commandment is that you must be in a state of grief continuously, and Behrouz recording our meetings, so far, there's nothing but laughing.

1:45

Ismail Barakat: What do they do when they meet each other? The first thing? "Ah, it's nice to meet you. Oh great."

1:57

A man: Yeah. You didn't hear about the Ayatollah. What Ayatollah does? Behrouz will tell us. The messenger: Oh, yes.

2:04

The messenger: You'd better see this. Khomeini, Khomeini is always serious in public and the people. When he goes to room, what does he do? Ismail Barakat: He breaks out.

2:14

Behrouz: "You should sit up there, and you're like this, and you're like that. And then I see him,..." (unintelligible).

2:20

Ismail Barakat: Because he kept telling me, come home, come home, and I say, "well, you know, I'm too busy."

2:25

The messenger: The only reason he came in because I told him "suppose you have a heart attack and die right now, who's gonna take care of the office?" He said "yeah, you're right." I said "OK, consider that you're dead." And then he's coming here. I mean, this is...

2:37

Ismail Barakat: In fact, that's what I told Karl. I told him "if anybody asks, say "he kicked the bucket." The messenger: He's right. Ismail Barakt: He died. I don't know when he's coming back.

2:46

The messenger: أَعُوذُ بِاللَّهِ مِنَ الشَّيْطَانِ الرَّجِيمِ بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

2:51

The Truth Prevails [10:79] Pharaoh said, "Bring to me every experienced magician."

2:58

[10:80] When the magicians came, Moses said to them, "Throw whatever you are going to throw."

3:04

[10:81] When they threw, Moses said, "What you have just produced is magic, GOD will nullify it. GOD does not support the transgressors' work."

3:13

[10:82] GOD establishes the truth with His words, despite the criminals. [10:83] The only ones who believed with Moses were a few of his people, in spite of fearing the tyranny of Pharaoh and his elders. Surely, Pharaoh was much too arrogant on earth, a real tyrant.

3:30

[10:84] Moses said, "O my people, if you have really believed in GOD, then put your trust in Him, if you are Muslims."

3:37

[10:85] They said, "We trust in GOD. Our Lord, save us from the persecution of these unjust people."

3:43

[10:86] "Deliver us, with Your mercy, from the disbelieving people." [10:87] We inspired Moses and his brother. "Maintain your homes in Egypt for the time being, turn your homes into sanctuaries, and observe the Contact Prayers (Salat). Give good news to the believers."

4:02

[10:88] Moses said, "Our Lord, You have given Pharaoh and his elders luxuries and wealth in this world. Our Lord, [the Saudis] only use them to repulse others from Your path. Our Lord, wipe out their wealth, and harden their hearts to prevent them from believing, until they see the painful retribution."

4:23

By the way, Muhammad and Jafar did some investigations on Eric and they found the telephone number that he had in his briefcase was

4:31

the Saudi embassy in Paris. Yep. Just like we suspected. I should've called Ihsan. I will.

4:41

He just sent me a letter very nice. Will it be very nice to the person who kicked him out, in that way? So, really, it's far.

4:52

89 Behrouz: Well, he missed the million dollars. The messenger: Yeah.

4:58

The messenger: All the signs were that, that he was far. He always complained about that business is bad, he is running out of money, he's very poor, he sleeps in a small room with a tiny bed, things like that, very perfect for his plan.

5:12

Ismail Barakat: He must be an accountant. The messenger: Accountant.

5:18

Behrouz: Well, at first glance, he had a small room. The messenger: Yes, prison. Saudi is known only for his plan. It's what they do. Too much money. 89.

5:30

[10:89] God said, "Your prayer has been answered (O Moses and Aaron). This means "your" directs to two people.

5:40

[10:89] so be steadfast, and do not follow the ways of those who do not know." [10:90] We delivered the Children of Israel across the sea. Pharaoh and his troops pursued them, aggressively and sinfully. When drowning became a reality for him, he said, "I believe that there is no god except the One in whom the Children of Israel have believed; I am a Muslim."

6:02

[10:91] "Too late! For you have rebelled in the past. You have been wicked. [10:92] "Today, we will preserve your body, to set you up as a lesson for future generations." Yet, many people are totally heedless to our signs.

6:20

Some important lessons you learn from here, first of all, imagine yourself

6:25

yourself, you, running away and somebody was running after you. And then you hit shore of the ocean,

6:34

but God is with you. So, what will happen? God will send a helicopter or something.

6:42

This is what happened to the Children of Israel. An army of Pharaoh was following them and they hit

6:49

the Red Sea, but God delivered them across the Red Sea. This shows you God's time. Some smart-alecky, he's a geologist,

6:58

explained that this is possible, geologically, because the rocks move this way and this way and the water will part. And you will have dry land between the water,

7:15

but he forgot a minor detail. Why did this happen when Moses and his people were there... Ismail Barakat: ...at that specific instance? The messenger. Right.

7:25

Ismail Barakat: And it might take years for the rocks to do what he's talking about. A man: How come it didn't happen again? The messenger: Right. Why on that moment?

7:35

The messenger: Best of timing. Even that... So, this tells you and me if we are

7:49

believers, we must trust in God that there is no obstacle or problem. Sura 72

7:56

فَمَنْ يُؤْمِنْ بِرَبِّهِ ۖ فَلَا يَخَافُ بَخْسًا وَلَا رَهَقًا (72:13) Those who believe in their Lord shall fear no injustice and no suffering. None.

8:08

You must have confidence... we read before yesterday, or the day before how God told Moses mother "if you're afraid, throw him on the river."
8:15

Ismail Barakat: Yeah, I know. It takes, it takes (unintelligible) in that position where you're told "you have faith." And you're told to throw your baby in the water." The messenger: Right.

8:31

Ismail Barakat: Subhan Allah. She must have... but Allah Subhanahu Wa Ta'ala says that He strengthened her heart.

8:37

The messenger: Because (unintelligible). Ismail Barakat: Because... For me I would say "hold it. Anybody else up there?" Astaghfirullah. I hope this never happens to me. You say it, I have to get tested.

8:58

The messenger: You already gave yourself a test. Ismail Barakat: Huh? The messenger: You already gave yourself a test. Ismail Barakat: Astaghfirullah. The messenger: Yes. Ismail Barakat: I have to go through that.

9:05

The messenger: You have to repent. No, you already did it. And you flunked. You said "if it were me..."

9:10

The messenger: Well, I have told all the folks here not to even answer a question like that. Don't put yourself in those positions. Ismail Barakat: I know, I know, I know, I know, I know, I know, I know, I know,

9:19

Ismail Barakat: This is why... The messenger: This is why you're in Tucson. Ismail Barakat: How do we think this back? A man: The angel is here. The messenger: You repent. Ismail Barakat: Astaghfirullah.

9:28

A man: The angel is here, you know. Take it seriously.

9:37

The messenger: Cause Satan tried to mimic God's voice, like you do it every time, and tell you to go to the highest building and then jump.

9:44

Ismail Barakat: Yeah, but if He says that, I'll tell Him "no."

9:50

The messenger: I'm just telling you. God is saying that. Ismail Barakat: I still tell Him "no." God will not order me to do... The messenger: Exactly. Because of the law. God says

10:00

"God does not advocate (vice)" *إِنَّ اللَّهَ لَا يَأْمُرُ بِالْفَحْشَاءِ* (7:28) God does not advocate things like that.

10:09

The messenger: Get where you sit, Amir. A man: Actually, it was a test for Moses' mother, too. The messenger: Yes, of course.

10:18

The messenger: She was a believer, as stated in the Quran. The other lesson is... Ismail Barakat: Hold on one moment. Allah Subhanahu Wa Ta'ala didn't just tell her to throw, dump him in the river. The messenger: Right.

10:29

Ismail Barakat: He said *لَا تَخَافِي وَلَا تَحْزَنِي إِنَّا رَادُّوهُ إِلَيْكِ وَجَاعِلُوهُ مِنَ الْمُرْسَلِينَ* (28:7)

10:37

The messenger: Hey, you're memorizing the Quran now. Ismail Barakat: Wallahi, I'm not memorizing, just this one. The messenger: This is what I'm saying.

10:45

The messenger: This is what I'm saying. The messenger: When I met this guy, he didn't know (unintelligible) was in the Quran. Ismail Barakat: I think that's what I said.

10:52

Ismail Barakat: She got a lot of... The messenger: I should have recorded you before and after. Even his Arabic was broken, you know. Pharaoh died a believer – BUT did not nourish his soul via the worship practices.

11:00

A man: It's recorded. The messenger: Yes. That's right. The messenger: The second great lesson that we learn from here is that Pharaoh died a believer. He really was a believer,

11:15

but he didn't have time to develop his soul. This is why (10:91) says "too late!"

11:23

This is very important and this is consistent in the Quran. It says "on the Day of Judgement, it will not benefit

11:28

any believing soul its belief if it did not gain from its belief by developing the soul."

11:38

لَمْ تَكُنْ ءَامَنَتْ مِنْ قَبْلُ أَوْ كَسَبَتْ فِي إِيمَانِهَا خَيْرًا (6:158) In a soul that did not believe and earn from the belief, this growth and development which is the 5 Prayers, the fasting of Ramadan, commemorating God most of the day, etc. etc.

11:54

(Unintelligible). The messenger: No. No. (Unintelligible).

12:09

The messenger: But no, he really believed. He really believed. Ismail Barakat: Well, with this kind of evidence who wouldn't believe. The messenger: Yeah, I mean, he's dying. Ismail Barakat: Even Rasool would.

12:20

The messenger: Yeah. It's too late. The messenger: In fact, this is what they all say at the time of death "just send me back." This is after the angels beat them up.

12:30

And they discover they were wrong. Or Pharaoh said it. Yes, for the angels.

12:39

When drowning became imminent.

12:46
And the third big lesson is in (10:)92 that tells us that God's miracle of preserving

12:52
Pharaoh's body. Have you seen his body in the...? Did you go to mummies' room? Did you see that? Bloody awful. Why?

13:05
Ismail Barakat: I'd much rather disappear than look like that. The messenger: Oh, I see. Yeah, but I mean the (unintelligible) said "you enjoyed visiting it" or were you...

13:13
Ismail Barakat: Wallahi, there is a... The messenger: How old were you? (unintelligible).

13:22
Ismail Barakat: Well, you know, partly because there is an aura of death and what's the word I'm looking for, in that room. The messenger: awe.

13:31
Isamil Barakat: It's you're happy to be out of there. The messenger: If you ask me, I enjoyed it. I definitely loved it.

13:39
Ismail Barakat: No, no, The messenger: Sammy got a pick at it. Isamil Barakat: Yeah, I would imagine. Behrouz: How did it look like? How did the body look like?

13:47
The messenger: Dried up, dried up bodies. The messenger: They uncovered the faces of some of them. You can see the teeth and the hair. Yes. Just dried up, slightly freeze dried human human blood.

14:01
The messenger: The skin is all dried up.

14:06
The messenger: Don't be afraid. Don't be afraid. Ismail Barakat: Like leather. The messenger: The short fellow. Cause they had salt...

14:17
Isamil Barakat: Ramses? The messenger: Not Ramses. Merneptah. Ismail Barakat: Everybody identifies this Pharaoh as Ramses. Ramses II. The messenger: No, it's not Ramses.

14:29
Isamil Barakat: Although the most, I'm sure I didn't see anybody else. Cause He is the one, at least that is the one I know. The messenger: Yes, I know him very well. They took him to Paris

14:40
Ismail Barakat: Because it was rotting. The messenger: He was ill. Ismail Barakat: You know, when they took him there, when he arrived, they fired the 21-gun salute.

14:55
Ismail Barakat: Because he is a king after all. The messenger: Yep. I don't know... Ismail Barakat: There was a military

15:02
guard of honor and they fired the 21-gun salute. The messenger: He was a very important king. Ismail Barakat: He was a king. That's right. He was rotting. He was sick.

15:15
The messenger: You've heard this joke about this statue that in fire, because it is standing up? Ismail Barakat: Standing up for what? 4000 years?

15:22
The messenger: No, but in Cairo standing up in the middle of railway station. Ismail Barakat: And he's peeing on the people.

15:30
The messenger: This is what Sammy used to say. Because there's a fountain of water coming under him. The messenger: Sammy was only 3 years old. He said "Ramses is going wee wee." Ismail Barakat: And on all these people. And on these people.

15:46
The messenger: Right. Every time, never failed. He said "Ramses is going wee wee." This is what he used to say when going to the bathroom.

15:57
"I wanna go wee wee but..." "Ramses is going wee wee." So, the joke is that he told the prime minister

16:05
"I'm getting tired of this. (unintelligible) is sitting down, so camel and the horse, this and that"

16:10
"from standing up, I'm getting tired. So, get me a horse or something." So, the prime minister thought

16:16
it was very serious matter. So, he went and talked to the president, Mubarak. And then Mubarak said

16:21
"well, let's answer him personally." So, here comes the prime minister with Hosni Mubarak. "I said a horse, not a bald donkey."

16:37
"coming back with a donkey."

16:43
The messenger: In Arabic, it's much funnier. Ismail Barakat: No, it's equally funny. The messenger: In English, too.

16:51
So, before we close here because let the people who work go to work. You don't go to work, right?

17:00
92. Ismail Barakat: It's a good excuse to go late.

17:06
So, (10:)92 says "Today, we will preserve your body, to set you up as a lesson for future generations."* And there is an asterisk here.

17:14
The footnote says... excuse me. *10:92 God endowed the Egyptians with the exclusive knowledge of mummification. Today, Pharaoh's mummified body is on display at the Cairo Museum.

17:29
This is really profound cause only in that era, that period of time that they were mummifying the bodies and look what God is saying. The Arabs had no idea about this.

17:40
Ismail Barakat: The Arabs, they had no idea about anything. The messenger: about anything...

17:46
The messenger: Cause it says [10:92] "Today, we will preserve your body... see? (10:92) قَالَتِوَم نُنَجِّيك بِبَدَنِكَ "your body" God is saying. We're gonna preserve your body to be a lesson for future

17:56
generation. Oh, yes, yes. Ok. Tell her to have a bon voyage. Are these your thoughts? Behrouz: Yes. I'll be back.

18:07
The messenger: You're taking your wife to the airport, right? Oh, oh, you're picking breakfast. OK. Hurry up. Susan and Lisa... Be back here Behrouz.

18:15
(unintelligible).

18:22
The messenger: I'll open this door for you. I will open that for you.

18:29
The messenger: OK. Ask Isamil any questions you want. Cat said

18:37
"Ok, guys, if you don't wanna... (Unintelligible)." "Sure I'm slow, but you should have some patience."

18:47
"After all we have nothing to do. I have the easy mission."

19:00
A man: Little cat come here. Little cat. It's trying over lap. He sits there, especially.

19:23
A woman: Yeah, you invited it. (unintelligible)

19:34
A man: Ok, little cat. Little cat. The messenger: He's investigating, investigating the surroundings. "Sure, I'm slow, but you should have some patience." You know, I have a lap computers. (Unintelligible), he's a lap cat.

19:57
A woman: There's a command that I give my dogs. When Dinky picks something up and I tell her to laugh and she gets up on my leg. The messenger: Mā Shā Allāh.

20:10
The messenger: What type is it that change and grows to 300 pounds?

20:15
A woman: I think she's done her growing unless I make her fat. IN SHAA ALLAH, I think she's growing.

20:23
The messenger: أَعُوذُ بِاللّٰهِ مِنَ الشَّيْطٰنِ الرَّجِيْمِ بِسْمِ اللّٰهِ الرَّحْمٰنِ الرَّحِيْمِ In the name of God, Most Gracious, Most Merciful

20:30
[23:1] Successful indeed are the believers; [23:2] who are reverent during their Contact Prayers (Salat). [23:3] And they avoid vain talk.

20:39
[23:4] And they give their obligatory charity (Zakat). [23:5] And they maintain their chastity.

20:45
[23:6] Only with their spouses, or those who are rightfully theirs, [as in common law marriages] do they have sexual relations; they are not blamed.

20:56
[23:7] Those who transgress these limits are the sinful ones. [23:8] When it comes to deposits entrusted to them, they are trustworthy. And they honor their agreements.

21:08
[23:9] And they observe their Contact Prayers (Salat) regularly. See, how important the Prayers are? They're repeated twice.

21:16
The beginning of reverence in the Prayer, and here to regularity of the Prayers.

21:24
The latest miracle of the Contact Prayers is: 17171717171715. It's a multiple of 19. So, if you miss one, it's gonna be 17171617171715.

21:45
A woman: How many do you need to miss then if you miss one so you can make contact? The messenger: We need to do research on that. Actually, it's a very interesting question.

21:55
A man: If you miss Maghrib, it will be 14... if you miss another one, it will be 13. And if you miss, Fajr, it will be 15. The messenger: 14, yes.

22:07
A man: Not 16, never 16. The messenger: Yeah, I know. The messenger: 12 A man: 13

22:14
The messenger: Edip joined us but forgot one Rak'at, so it became 16. A man: Yeah. That time, too.

22:21
The messenger: Were you here? A man: No. The messenger: Who was here?

22:29
The messenger: When Edip joined us after one Rak'at but he forgot to... So, if you all forgot, it would be 16. So, 16 is possible.

22:39
A man: 16 is possible. Yeah, sure. The messenger: It's really amazing. It's so simple, simple mathematically. I mean, this is now covering every aspect of the Prayer,

22:56
the number of Ruku's, the number of Sujuds, the number of Tashahuds.

23:04
number 9 [23:9] And they observe their Contact Prayers (Salat) regularly. number 10 [23:10] Such are the inheritors.

23:12
[23:11] They will inherit Paradise, wherein they abide forever. And then there's a report of accurate embryology.

23:21
12, this is what Behrouz was asking about yesterday.

23:26
[23:12] We created the human being from a special kind of mud. This is the initial creation.

23:35
[23:13] Subsequently, we reproduced him from a tiny drop, that is placed into a well protected repository.

23:44
[23:14] Then we developed the drop into a hanging (embryo), then developed the hanging (embryo) into a bite-size (fetus),

23:53
Maybe "a bite-size" is not very good. The messenger: Is it true, the bite? Yeah.

24:04
The messenger: I think that is a good translation for that.

24:10
The messenger: The fanatic Muslims say it looks like something you bit.

24:18
(Unintelligible). A man: tiny, tiny fetus The messenger: Yeah. smaller. Yeah. Small fetus, tiny fetus.

24:34
A man: What stage is that? 14 days, the egg and still... The messenger: Ok. This is like 2 months.

24:45
A man: 2 months. 2 months is when the (Unintelligible) and the shape... but you cannot tell which animal it is. All animals are the same at that stage.

24:58
The messenger: Is that right? A man: All animals are the same.

25:05
The messenger: [23:14] into a bite-size (fetus), then created the bite-size (fetus) into bones, then covered the bones with flesh. Then, produced a new creature. Most blessed is GOD, the best Creator.

25:22
The messenger: It's one of the amazing things that we witnessed at first (unintelligible), remember?

25:36
The messenger: I love your reaction to my question. Such supportive sister. Like yesterday, seems like yesterday.

25:55
A man: When we were born, God assigned a soul. A soul came from the world of souls, then how come we don't remember at that stage?

26:08
The messenger: Cause that's not the only time you don't remember. Remember when you were a year and a half and your mom spanked you?

26:15
A man: No, that's what I mean. The first 2 years, probably 3 years. The messenger: Yeah. Because there is a capacity of memory in your brain.

26:23
(unintelligible).

26:30
The messenger: You need to add memory cards, if you want to remember everything.

26:37
The messenger: Some hardware. A man: The soul needs some other tools. Yes, like the brain.

26:43
The messenger: Yes. But the soul uses this physical body to grow, this wild horse. As you do more important things, other things are pushed away out of your memory.

26:55
But actually, they never go away. You know of the subconscious. It goes into a storage, like the tapes that Lisa plays back and forth. It's that storage, memory.

27:15
But you know, really we were just one cell. Each of us was one cell and differentiated,

27:21
divided and differentiated into kidneys and livers, hearts, lungs. One cell, nose, eyes.

27:34
Look at the eyes, how the eyes move. Such sleepy eyes. Some bright eyes.

27:45
It's a ball with pressure with liquid inside that is precise pressure.

27:51
If it's a little bit more, the eyes will bug out, like Barbara Bush. I mean, slightly, if it's slightly less, it's a problem.

28:07
A woman: She has, what, the Graves' disease? The messenger: Yes. A woman: That's her thyroid.

28:15
The messenger: It's caused by the thyroid at that point. A woman: Do you have something about memory storage, you know, to the beginning of life? Because I do remember

28:28
The messenger: It's all there. A woman: There was a reaction, I can't fast forward and rewind, but...
28:34
The messenger: Yes, as you get more things, other things are pushed down into subconscious, the storage.
28:39
Everything is there. Actually, it's out there in the atmosphere, every voice, every picture.
28:47
A woman: And the angels have the recordings. And I always thought the angels were being turned to my body, but then I realized it was because my heart pumps, when all those things happen, by the will of God, the angels must be involved in it.
29:13
The messenger: No, it's a mechanism. I couldn't turn the car engine on, if there is no engine here. There's a mechanism. There is a gas that the fuel pump.
29:29
The messenger: Yes. As a matter of fact, when our cars break down, when the mechanism fails, then God provides another mechanism, which is your engine.
29:37
But there is a mechanism, when the starter works, when the fuel pump pumps fuel,
29:45
when the pistons spark, when fire... there's something. So, this is the way our body works. Subhan Allah.
30:01
A woman: I'm just trying to make the connection between the recording angels and the video tape.
30:09
The messenger: This is simplifying it, a dramatization. A woman: Yes.
30:17
The messenger: Our heart is an incredible pump. (Unintelligible).
30:25
I think still, you know, recently. (Unintelligible). This is their function. They are happy about it.
30:42
If you take the heart by itself, you can have it work properly. In fact, heart transplant doctors could do that.
30:48
(Unintelligible).
when the Miracle is presented – why do people not respond. Miracle of the word GOD explained.
31:01
10, 15 college students came here and Edip spoke to them from, from Pima College and he explained to them the miracle,
31:16
that there's a message from God to the world and gave them all the details they wanted about an hour and a half,
31:25
wanted them to ask questions and he told them "we have a Quranic study tonight. So, would you... if you have
31:35
any questions, you can come and discuss the matter further, but they never showed up, not but one. Not one of them
31:41
showed up. We have high school kids. He presents the miracle to them give them details, but there is no
31:49
response. And we're just wondering what is wrong with the people. Here's a message from God, proven to
31:56
be from God, it tells us who we are, why we're here, where we're going and how to attain perfect happiness
32:04
now and forever, but they're just like... they're under hypnosis. Nothing moves them and we're just
32:14
wandering. It's a kind of amazing phenomenon. So, we're working on, on simplifying this and working
32:23
on ways and means of perfecting the message and how to present it to the people to motivate them,
32:31
make them realize that there is a message from God, the first physical evidence in history, and all the
32:40
benefits that follow from this. So, I'm going to share with you these simple but powerful facts.
32:49
They're very simple to understand, simple to present and simple to appreciate. And hopefully this, we will perfect the
32:56
message somehow. So, what I'm going to talk with you today is just the word "God" in the Quran.
33:05
It's a very simple, very simple matter. There's a scripture from God. The most important word in it is the
33:14
word "God." I'm gonna look just at that which is only one millionth of the total miracle.
33:22
OK. Number one: the occurrence of the word "God" in the whole book. All of you know this. 2 6 9 8.
33:36
19 x 142. Ok. Then, you take every verse in the Quran wherever you see the word "God", it is very simple
33:51
as you see, and add the numbers of these verses, ok, all the verses in the Quran that have the word
34:07

"God" in them, just add their numbers. They give you 1 1 8 1 2 3.

34:17

19 x 6217. You know, this alone really, this alone tells us that this book is from God. It is not human-made.

34:30

Who designed this? And I have gone through length to show you how we, college graduates, are unable

34:41

to keep track of these. I mean, the message is already here, it's already written down. It's in front of

34:46

us but we're having a heck of a time keeping track of the words and the sentences. And we keep

34:56

screening mistakes. It's very simple. Sometimes we just reverse 3 2, make it

35:01

23, when we count or when we add. But this alone proves that the book is from God.

35:15

OK. Next. This is a new discovery by Muhammad Abib. Now that we see there's 19 as a common

35:28

denominator, he looked at all the verses in the Quran that are number 19 or multiples of 19 and

35:38

counted the word "God" in them. Very simple process. These are the 19 multiples verses. So, it's in Sura Al-Baqarah, number 2

35:55

looks at verse number 19 and counts the number of the word "God" in it. Then, goes to verse number 38, number 57 and so on. And he did this in the whole Quran. Now, the word

36:06

"God" in those verses 133. Nobody in the whole world knows except the believers, know this.

36:23

This is a new discovery. It's been already faxed to India, Canada and some other places. As soon

36:30

as these things come up, we have a fax machine now, and it's... everything is faxed around the world.

36:37

But anyway so, now, we carry this miracle one step further and it shows the more intricacy

36:46

of the miracle. It should convince anybody that we have a book from God. But the word "God" is very

36:55

important. So, it doesn't stop here. The next item, the sum of all the occurrences of the word "God" in

37:05

the verses whose numbers are not multiples of 19, it follows. 19, not multiple verses,

37:20

and it only follows from that. It's 1 1 7 9 9 0. Yes. This is a mathematical property, says Edip.

37:36

Even though it is a mathematical property, I was... I was oblivious to it for a while, then I said

37:41

"yeah, since the verses that are multiples of 19 have a multiple of 19 number words of "God"

37:47

then it follows, you just subtract this from this and you have that. But it still is an important fact for us

37:54

to remember even though it is a mathematical property. It doesn't stop here. The Suras

38:02

whose number of verses is divisible by 19, this also is a new discovery by Muhammad Abib, the Suras whose

38:09

number of verses is divisible by 19, that is any Sura that has 19 verses or 38 verses,

38:15

the only these 2 kinds. There are Sura's number 47 which has 38 verses, Sura 82 which has 19 verses

38:23

Sura 87, 19 verses and Sura 96 consists of 19 verses. The word "God" occurs in these

38:30

Suras 27 times, one time, one time and one time, respectively. By adding these Sura numbers plus

38:39

the occurrence of the word "God", the total is 342. So, Suras, first occurrences 342, 19 x 18.

39:03

These are all the Suras in the Quran that consist of a number of verses that is divisible by 19, and again we are counting the word "God" in them. The next item,... take care to erase number 1 here.

39:26

It's just the word "God."

39:31

Number 6. Ok. The first set of Quranic initials is, as you know, A.L.M. in chapter 2,

39:40

we get to A.L.M. The last initial is in chapter 68. It's a natural

39:47

division in the Quran. Let's call this the initialed section from Sura 2 to Sura 68,

39:54

and count the word "God" in it. Sure enough, it's a multiple of 19. Initialed section from the first

40:02
 initialed Sura to the last initialed Sura. The number of the word "God" is 2 6 4 1, (19 x) 139.

40:25
 Now, these are physical facts. It is nobody's opinion. Nobody can say "in my opinion, the number

40:33
 the number of occurrences of the word "God" in the initiated section of the Quran is 2641." Nobody can say that. It's a physical fact just like the sun rises from the east.

40:45
 Nobody can argue about it. Maybe, the Arabs do. It follows since the total in the whole Quran is

41:00
 a multiple of 19, it follows that outside the initialed section, the number of occurrences

41:06
 of the word "God" is 57, 19 times 3. Not only that, you take those 57 occurrences outside the

41:14
 initialed section, add the Suras and verses, the total, yes, it's a multiple of 19.

41:27
 And now we have interlocking the word "God" with the last two sentences in Sura 9. As you know,

41:35
 they are fake. The idol worshipers were trying to honor the prophet Muhammad in the

41:45
 same way as the Christians try to honor Jesus. They made up those two verses. So, Sura 9 is either

41:59
 129 verses, as we inherited from the fabricators. Or now, we know it is 127.

42:10
 Which one is it? The word "God" gives us a clue. Because if you take all the Suras whose number of verses ends

42:22
 with the digit 9, just look at the whole Quran and take all the Suras where the number of

42:33
 verses end with this digit, 9, and count the word "God" in them, without Sura 9. Let us assume

42:41
 that the right number is 127. Well, you can include it if you want, but if you include Sura 9 in the

42:49
 in this group, the number of the word "God" is not divisible which tells us this is the wrong number

42:56
 of verses. If you put 127, it is divisible. Let me, let me... it's stronger than that. The Suras that

43:09
 end with the digit 9 are Suras number 10, 15, 29, 43, 44, 48, 52, 57, 81, 82, 87, 96 and 104.

43:21
 They consist of 109 verses, 99 verses 69, 89, 59, 29, 49, 29, 29, 19, 19, 19 and 9. So, you can see that all of them

43:34
 have a number of verses that ends with the digit 9. When you count the word "God" in these, you have 190.

43:45
 19 x 10. Now look in the Quran and take all the Suras in the Quran

43:52
 whose number of verses ends with the digit 7, including Sura 9, and these of Sura's numbers.

44:03
 Sura number 1 is 7 verses, as you know. 1, 9, which is 127, 25, 26, 45, 86, and 107. Their number of verses are 7, 127, 77,

44:17
 227, 37, 17, and 107. You count the word "God" in them and you get 209. This is 19 x 10.

44:35
 This is 19 x 11. So, the word "God" just like the mathematical code guards, protects

44:46
 the Quran from any distortion. The word "God" by itself does that because it tells you that

44:54
 Sura 9 consists of 127 verses, not 129. Because if you take what we inherited

45:00
 from the fabricators, this, this phenomenon will disappear. Yes, both of them will disappear.

45:13
 The number of occurrences of the word "God" from the beginning of the Quran to the end of Sura 9,

45:22
 from the first verse in Sura 1 to the last verse of Sura 9 which is 127, the occurrences

45:32
 of the word "God" is 1 2 7 3. This is very unusual because this is not true of every Sura in the Quran

45:47
 but God saw to it that at the end of Sura, verse 127 of Sura 9, the total occurrences of word "God" is a

45:56
 multiple of 19. Ismail Barakat: Not only that, but it is also 127. The messenger: Yes. 1 2 7 3. So, if

46:07
 we take the 129 verses that we inherited from the falsifiers, you'll have 1 2 7 4,

46:14
 not a multiple of 19. Finally... the only one... one word "God" in the last 2 verses, right?

46:29
Yeah, the last item here, add the number of Sura 9, oh yeah, let's add the number of Sura 9
46:48
plus the number, the correct number of verses 127 plus the number of occurrences of the word "God"
46:59
168, the total is 304. 19×16 . This is just the word "God." And there are, of course, many other
47:14
crucial words like the word "Rasool", the word "Quran", the word "one." It just goes on and on, but this
47:23
is just the word "God." And when I simplify... Abdullah? Did you just discover that? You discovered it.
47:33
Where else will you have miracles (unintelligible) on you? Ok. Abdullah, what is it? Mā Shā Allāh
47:41
Abdullah: There are 85 chapters that have the word "God" in it. And if you take chapter number, no, no, no, don't add that... chapter number
47:56
and the last verse that "God" occurs, for each chapters, add them up. Divisible.
48:04
The messenger: Is that the same one that we have in appendix or different? Ok. Abdullah: For example, chapter, chapter 1, the last word that
"God" occurs is number 2.
48:14
The messenger: Yes. Abdullah: So, 1 plus 2 is 3. If you take chapter 9, the last verse is 127 not 129.
48:22
The messenger: Right. Abdullah: You have 9 plus 127. And that's for all 85 chapters. The messenger: Yes.
48:28
Abdullah: I think the result is 9101. I'm not sure but it's divisible by 19. The messenger: Yes. 9101 is divisible.
48:39
The messenger: OK. I'm gonna repeat just in case you, you missed it. The word "God" occurs... this is very... this is a good one, beautiful.
48:49
The word "God" occurs in 85 Suras in the Quran. You take the number of the Sura and add it to
48:56
the number of the last verse where you see the word "God" in that Sura. For example, in Sura Al-Fātehah
49:01
Bism Allah Arrahman Arraheem (1:1) Al hamdu Lillahi Rabbil 'Alameen (1:2)
49:06
is number 2. So, 1 plus 2 is 3 for Sura 1. You do this in every Sura of the 85
49:12
Suras where the word "God" occurs. The number of the Sura plus the last verse where
49:18
you see the word "God." And this, of course, has to do with the Sura 9. When it comes to Sura 9, you add
49:25
127 and not 129. And you do this in all 85 Suras, add up. The total is 9101 which is a multiple of 19.
49:36
Tooboo Ela Allah. Repent.
49:50
Alhamdu Lillah. We praise God. Wa Ash-hadu Alla Elaha Ella Allah Wahdahu La Shareeka Lah.
50:03
Last week, Mohtasham gave us an excellent Khutba. Let me, let me come back to this. But I just always forget
50:15
this new discovery that came to us in the mail from Turkey and it has to do with verse 3:81. This
50:25
happens quite often in the Quran where you have a statement in the Quran and the opponents will come up
50:33
with something contradictory to it. But then God puts the answer to their claims somewhere else
50:43
in the Quran. For example, verse 3:81 talks about the Messenger of the Covenant.
50:50
It says that after all the prophets, and this is any translation will tell you about it. After all the prophets have
50:56
come to this world and delivered their scriptures and the messages, a messenger will come to
51:01
unify, purify, consolidate these messages into one. This is verse 3:81. When you show this to the
51:10
idol worshipers, they say "that one is Muhammad. That messenger of the Covenant is Muhammad."
51:17
Even though the verse is very clear that it is not Muhammad because it begins by saying "God made
51:24
a covenant with the prophets." We all recognize the Prophet Muhammad as a prophet, even they do.
51:32
He was the last prophet. Therefore, he must be included in that statement because God did not say "He
51:39
made a covenant with the previous prophets or the prophets before you." God said "He made a

51:45
covenant with the prophets." So, the answer to this claim is in 33:7 where God says "I made the covenant
51:56
with the prophets including you, Muhammad." So, this is at the very... at the other end of the Quran. So,
52:04
it shuts them up. Now, the discovery that Edip Yuksel made... Ismail Barakat: No, it doesn't, Rashad. It doesn't. The messenger: Oh, I'm sorry.
Yeah. It doesn't shut them up, but
52:11
shuts up that particular item. Edip's friend in Turkey counted the verses from 3:81 to the answer to their
52:22
claim 33:7 and found that the number of verses is a multiple of 19. 3192.
52:29
The messenger: Yes. The Basmalah are verses. The Basmalahs are unnumbered verses, as we know, from this miracle on the wall where we
did not
52:40
count them and the whole number is a multiple of 19. And when our brother, Ali Fazeli,
52:46
suggested that we put 0 for every Basmalah in the Quran, we thought this whole thing will
52:51
collapse. We shouldn't have thought that. But we put the zeros there and sure enough it still was
52:57
a multiple of 19. Ismail Barakat: Subhan Allah. The messenger: We are the luckiest people on earth. There is no question about it.
53:08
Anyway, with your help, all of us together... pardon? Shakira. We know we are lucky? A woman: Only we know that we are lucky. The
messenger: Yes. That's what counts.
53:21
The messenger: Anyone who believes will discover that too because they will join the lucky, luckiest.
53:28
I mean to be born at this particular time in this particular place and all the circumstances that
53:33
brought us together. When you reflect on your circumstances, you can see how God directed
53:39
you to this particular situation. Obviously, because you deserve that. OK. Mohtasham gave us an excellent
53:47
Khutba, last week. And he talked about the responsibility which goes with the extreme
53:53
great fortune that God bestowed upon us. His blessing and grace comes with responsibility.
54:01
What is our responsibility towards us, our souls, the real persons? Because God spreads it out to us,
54:11
He tells us exactly what to do. So, I want to add to what Mohtasham said is that we now recognize that
54:20
the human being consists of the soul, that's the real person, and the body. The soul... when a baby
54:32
is born, the soul is assigned to that body. And the first thing that as soon as Shakira
54:42
pulls the baby out, the baby cries. Then, she gives him a spank. You spank the babies when you deliver them?
54:48
No? Do they cry anyway? They always cry. Sometimes they don't cry? They all cry.
55:01
I see. It helps them breathe. I think they cry because they get trapped. But, really I'm curious. All of them
55:08
100 percent of them cry. Or do you get sometimes the baby that's still under anesthesia or something? Shakira: No, if there is a problem,
they don't cry. The messenger: Oh, I see. When the baby comes, if the baby doesn't cry "uh-uh."
55:24
Ismail Barakat: There's another thing. Wouldn't you cry if you came to this place? The messenger: Yes, that's the whole idea.
55:37
The messenger: So, what do we do... what do we do for the body? Ok. Let's say what are our responsibilities to the body?
55:49
We go to school. We study and take exams. Just ask, Farhad, how he likes that. Today, it is big, big prelim test.
56:04
And how many years we go to school? So many years we go to college.
56:12
Is college fun, Beth? All the tests and the studying, how hard it is. Then, you go to grad school "oh no."
56:29
I used to get mad at people who tell me "it's cool. It's fun." You know, how... I said "you wanna take my
56:36
place." Ok. Then, after that, we work. Every morning, we set the alarm. We go to work, we drive in the traffic.
56:52
And in Tucson, it's not as bad as other places. We drive in the traffic and we go to face the boss. Everyone hates the boss. I don't know why.
57:07

And work until five o'clock. A woman: We don't hate you. The messenger: I'm not the boss. This is a whole different system here.
57:17
In Heaven, there's no jealousy. There's competition and everybody is helping his competitors to go ahead.
57:24
This is in God's system. God removes all jealousy and hatred from His people.
57:30
But this is what we do for the body. And why all this? Why do we do all this for twenty or thirty years
57:37
for forty years? You start working when you're 30 and retire when you're 65, okay. 35 years. We do all
57:44
this because we want to support ourselves, have a nice home, a nice spouse, nice children, nice clothes,
57:51
nice food for the body for 35 years. Okay. What do we do for this? You know, after, after this 35
58:04
years, what happens to the body? Ismail Barakat: Cancer. The messenger: Now, it is the soil. It vanishes. Here the soul doesn't
58:16
vanish. You can think of the soul at the time of birth as a baby. What do we do for the soul? This
58:24
is the responsibility that Mohtasham mentioned last week. God tells us that we must do the five
58:33
prayers. We must feed the soul. Ask the average person on the street "What did you give your body today
58:39
for meals? What did you give you, the soul, today for meals?" They'll have to think long and hard. Tell them, ask them
58:47
not today, say "for the last years, how many meals did you give to yourself?" They feed the body, they do
58:56
all this work for the body. But for the soul, they do nothing. Do you have a question? A woman: Yeah. You know, I was thinking
59:04
about this when I was coming in the plane because this was going on in my mind, that we have a system
59:10
where we give credits. I mean like, if you do Zakat, you get 50% and then for Salat you have
59:16
25% and for Hajj you have, you know? The messenger: Yes, you accumulate credits. You accumulate credits as you go right and left.
59:24
Every time you say "Subhan Allah." You see, this is... in fact, this brings me to the next one. Thank
59:30
you for reminding me and this involves Mohtasham, also. Yesterday, I made a terrible terrible
59:36
mistake. Anyway, you get the idea here that this is an eternal entity. This is the real soul and
59:44
in proportion to this work we should do, work for the soul except God is just and He doesn't give
59:52
us even one hundredth of this work that we do for the body to survive 35 years. This eternal
Dr. Rashad Khalifa makes a terrible mistake – Advises a follower "these two pills will remove your flu" – major error was not invoking God
when giving the pills.
1:00:00
entity doesn't take much to develop and God makes it very easy as long as you, you observe God.
1:00:09
And this is, bring me to the mistake that I did with Mohtasham yesterday. Mohtasham was not feeling good.
1:00:15
So, anyway, I repented. I fell prostrate and I asked for forgiveness. But I went and got him
1:00:23
two pill and I told him... listen to this. I said "these two pills will remove your flu, will heal you."
1:00:34
Yousuf, Joseph, the prophet, said the same thing and he stayed in the prison for a few years.
1:00:40
Ismail Barakat: 7 years. The messenger: Well, we don't know how many. I mean, this is a remark I want to... you are very special people.
1:00:51
And you have a lot of responsibility. And you must watch what you're saying. And I bet you anything... I mean, how
1:00:59
many, how many years you think we should go to prison for... when we think about it?
1:01:06
So, immediately, I caught myself. Actually, I scared him to death because I came back and said Mohtasham
1:01:12
"where are the pills?" And he looked and "I swallowed them already." I said "I made a terrible mistake."
1:01:26
Ismail Barakat: I gave you the wrong pills. The messenger: "We deserved it cause you didn't tell me this is wrong." Alright. You know, we
didn't say "by God's
1:01:35
grace and His help these pills..." Well, how many, how many of us make this mistake?
1:01:41

How often? Don't answer me.

1:01:47

Tonight, IN SHAA ALLAH, we are on page 64 starting at verse 110. And our teacher is Dr. Mahmood Sabahi.

1:02:06

Just make sure to keep the children quiet. Dr. Sabahai: أَعُوذُ بِاللَّهِ مِنَ الشَّيْطَانِ الرَّجِيمِ بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

1:02:18

As usual we ask God to help us to understand His words better and remove all the barriers from our hearts.

1:02:29

verse 110, I start from verse 110 page 64.

1:02:35

[3:110] You are the best community ever raised among the people: you advocate righteousness and forbid evil, and you believe in GOD. If the followers of the scripture believed, it would be better for them. Some of them do believe, but the majority are wicked.

1:02:54

111 [3:111] They can never harm you, except for insults. If they fight you, they will turn around and flee. They can never be victorious.

1:03:06

112 [3:112] humiliation is their lot wherever they go, unless they abide by GOD's covenant, and the people's covenant. They incurred wrath from GOD, consequently, they were committed to disgrace. This is because they rejected GOD's revelations, and used to kill the prophets unjustly. This is because they disobeyed and transgressed.

1:03:31

113 [3:113] They are not all the same; among the followers of the scripture, there are those who are righteous. They recite GOD's revelations through the night, and they fall prostrate.

1:03:47

114 [3:114] They believe in GOD and the Last Day, they advocate righteousness and forbid evil, and they hasten to do righteous works. These are with the righteous.

1:03:59

115 [3:115] Any good they do will not go unrewarded. GOD is fully aware of who the righteous are.

1:04:10

[3:116] Surely, those who disbelieved can never be helped by their money or their children against GOD. They have incurred Hell, wherein they abide forever.

1:04:21

117 [3:117] The example of their spending in this world is like a violent wind that hits the harvest of the people who wronged their souls, and wipes it out. GOD never wronged them; it is they who wronged themselves.

1:04:38

I stop at 117 and go back to 110.

1:04:49

I believe as far as I could look through the verses that we have studied up to this point from the

1:04:57

beginning of the Quran that this is the first verse that God is talking about the community.

1:05:09

God is saying that you are the best community ever raised among the people and you advocate

1:05:20

righteousness and forbid evil. If we review what we have seen through, through the Al-Baqarah, this

1:05:30

second Sura and third up to this point, what we have been told, what we have been taught is that

1:05:42

what we have to do as individuals basically, what we have to do to be righteous,

1:05:49

how do we have to behave in, in the society and how to take care of ourselves as far as we are

1:05:57

concerned and our own interests are concerned. Now, we are seeing God telling us about a community.

1:06:04

I go to the verse 84 of this same Sura not too far. It's page 61. The title of it is:

1:06:16

Make No Distinction Among God's Messengers. I see a relationship between this community that God

1:06:23

is saying that we raised among you people. These people who are in this community, they are saying

1:06:31

[3:84] "We believe in GOD, and in what was sent down to us, and in what was sent down to Abraham, Ismail, Isaac, Jacob, and the Patriarchs, and in what was given to Moses, Jesus, and the prophets from their Lord. We make no distinction among any of them. To Him alone we are Muslims."

1:06:52

In this community if you look at this verse 84, it almost covers everyone that you can see around you in this world

1:07:04

at the current time. If someone can believe and can uphold this verse and see the world and see the

1:07:16

people as all people who only believe in God and what was sent down to the people from Him, then

1:07:27

you won't see any, any problem in the world. So, this is one characteristic of those people who are

1:07:34

in that community. Then, I go to two verses, 103 and 104, the same just page 63.

1:07:46

Unity: a trait of the believers [3:103] You shall hold fast to the rope of GOD, all of you, and do not be divided.

1:07:53

So again, another characteristic of these people, this community, the people in this community is that they are... all of them hold fast to the rope of God because He is the One that everybody is holding to.

1:08:08

And do not be divided. This is a very important thing, you know, don't be divided. How, why people get divided?

1:08:15

What is the reason for the world being such a nasty place to live in? What is all the division? What is it for?

1:08:23

You see, in the book, in this book, in Quran, you don't see any trace of race, color, nationality

1:08:30

whatsoever or whatever we can think of. So, even religion, everybody, all the people who are part of

1:08:37

that best community, they are all the same because they hang on to the rope of God and they follow

1:08:45

what He tells them to follow. So, in this community, there is room for everyone regardless of what

1:08:51

shape they are, what color they are, what race they are. There is nothing except believing in God and

1:09:00

being righteous. I continue on 103. God says you used to be enemies and He [(the God)] reconciled your hearts. By His grace, you became brethren. You were at the brink of a pit of fire, and He saved you

1:09:17

Look, you look around in the world everywhere you see, there's fire, there's bloodshed, there's killing,

1:09:24

there's unrest, there is disease. [3:103] GOD thus explains His revelations for you, that you may be guided.

1:09:31

I think 104 is a good one, too, related to same, to the same issue.

1:09:37

[3:104] Let there be a community Here God says "let there be a community" [3:104] ...of you who invite to goodness, advocate righteousness, and forbid evil. These are the successful ones.

1:09:48

In this one, in this verse, God is telling that He puts, lays the conditions. If there wants to be a good community of you, you have to invite to goodness, advocate

1:10:01

righteousness and forbid evil. And then, God says that you are the best community ever raised. This

1:10:10

is something current, it's at the present time and the future. He's talking to some people. He's

1:10:17

telling them "you are the best." If one... if we think we are, then we have to analyze ourselves every

1:10:25

day and see whether we are upholding what I read to you from those verses that which is related to

1:10:32

the conditions. You cannot say that okay, I go to this mosque, I do my prayers and I'm one of the

1:10:41

ones who is the happiest, who is the best. We have to self-analyze ourselves all the time and to be

1:10:47

able to be part of that community to advocate righteousness and forbid evil. These two words

1:10:54

"advocating righteousness and forbidding evil", it is part of the responsibility of the believers,

1:11:03

the people who believe in God. Because up to this point, whatever you saw was something related to

1:11:08

your personal duties by praying, like fasting, like Hajj, like Zakat, whatever. But now, you are part of a

1:11:17

community. This is your social responsibilities to advocate righteousness. How do you, how do you do it?

1:11:24

God doesn't tell you how to do it. So, you have to find a way to do it the best way possible.

1:11:29

If you are part of that community that God is saying that you are the best ever raised among

1:11:35

the people, then the responsibilities that go with it is huge. And how you approach it, how you do it,

1:11:43

it's something that it depends on personal views and how you approach it. But if you keep God

1:11:50

only as your final goal and you could get rid of all the egotistical issues, if you can break

1:12:00

down that part of you who is not clean or it's not purified, then you can do a good job. So,

1:12:14

you have to work on yourself and then you can do the rest of it much easier. And if the followers of the

1:12:24

scripture believe, it will be better for them. So, if you face other people from other religions,

1:12:36
if they follow, if they follow or they accept what you tell them, that's good for them. If not, so be it. Some of
1:12:46
them do believe but the majority are wicked. I go to 111. God is promising you that the people that this
1:12:57
community who He is, who He is raising and is the best community, He promises them that they can never
1:13:08
be harmed. You know, nobody can harm you. They can insult you, they can probably possibly make some
1:13:18
hardship for you which would be passing, it's not gonna last, but God says that
1:13:24
[3:111] They can never harm you. If they fight you, they will turn around and flee. They can never be victorious.
1:13:31
This is a promise that the victory is for the people who are worshipping God alone and are righteous and they forbid evil.
1:13:41
[3:112] Humiliation is their lot wherever they go, unless they do abide by GOD's covenant, and the people's covenant.
1:13:48
If you see 112, I guess it's for the first time. Forgive me if I'm not, I'm not right but I think back to my memory, I think the first time that God
mentions the people's
1:14:03
covenant in addition to God's covenant. It's just right after that. So,
1:14:09
[3:112] Humiliation is their lot wherever they go, unless they abide by GOD's covenant, and the people's covenant.
1:14:16
So, if you are part of that community, if you are a member of that best community ever raised among the people, then
1:14:25
you have to abide by God's covenant, first God alone, worshiping Him alone, and people's covenant.
1:14:32
What does that mean? The understanding that I have and definitely it's open for discussion
1:14:38
is the fact that if your faith... if you are part of that community, if you belong to that community, if
1:14:47
you have all those characteristics, then you make a covenant. You have to be faithful. We
1:14:54
have to be like brothers and sisters and it's the family. It is a community, as I said, regardless of
1:15:01
all the issues that cause, in this world, all the division and all the hatred and the wars and the fights and the battles.
1:15:09
[3:112] They incurred wrath from GOD, consequently, they are committed to disgrace. This is because they rejected GOD's revelations, and
[used to] kill the prophets unjustly. This is because they disobeyed and transgressed.
1:15:23
At this part of the verse, God is telling us "those who violate any,
1:15:32
violate any of those two covenants, this is what is happening to them." If you wanna see a little bit
1:15:39
more from what we have studied up to this point, I go to Sura 2 verses 60 and 61 which is page 9.
1:15:51
This is about Moses and the children of Israel. [2:60] Recall that Moses sought water for his people. And we said, "Strike the rock with your
staff." Whereupon, twelve springs gushed out therefrom. Thus each tribe knew their own water. Eat and drink from GOD's provisions, and do
not roam the earth corruptingly.
1:16:13
[2:61] Recall that you said, "O Moses, we can no longer tolerate one kind of food. Call upon your Lord to produce for us such earthly crops as
beans, cucumbers, garlic, lentils, and onions."
1:16:28
He said, "Do you wish to substitute that which is inferior for that which is good? Maybe, you should go back to Egypt, where you can find what
you asked for."
1:16:40
They were condemned to humiliation, and disgrace, and they incurred God's wrath.
1:16:45
That is because they used to disbelieve in GOD's revelations, and killed the prophets unjustly. That is because they disobeyed and
transgressed.
1:16:53
So, what this seems and God is telling us about what has happened in the past
1:16:59
is that if you become fortunate enough to become part of that community and then you cannot uphold your
1:17:10
covenant, then you're gonna be humiliated. God is gonna reject you and humiliate you.
1:17:24
And if you go and take a look around, especially it doesn't matter in different religions. Muslims
1:17:36
who have the Quran. What is going on in the Muslim world these days?

1:18:00
 We see, we see that the people who were given this scripture, who God sent the messenger for them and who they
 1:18:13
 believed, the people who believed that they are the ones who are the Muslims in this world,
 1:18:21
 they are going through the most difficult times right now and the only reason, I think, I can find
 1:18:32
 for this is not holding up the God's covenant and not holding the people's covenant although
 1:18:39
 they try, at least, they think they're trying but they are going the wrong way to create that best
 1:18:50
 community because they are aware of this verse and similar verses in the Quran, but they are missing
 1:18:57
 the main point which is God's revelations and God and worshiping God alone and getting rid of all
 1:19:05
 the idols that jump up from everywhere in those countries. I go to 113. Here, God talks about as the
 1:19:17
 title says: Righteous Jews & Christians. [3:113] They are not all the same; meaning the Jews and Christians from the other, the followers of
 the other scriptures. Among, ok.
 1:19:31
 [3:113] They are not all the same; among the followers of the scripture, there are those who are righteous. They recite GOD's revelations
 through the night, and they fall prostrate.
 1:19:39
 So, this is another good example of a community which all the boundaries are broken. If there are Jews or Christians who are upholding the
 1:19:55
 God's scripture, they believe in God and they prostrate and God is telling us, you know, I don't have
 1:20:01
 to go and find it. There are people who are Jews and Christians in the world who are righteous,
 1:20:08
 who recite God's revelations. How they do it, I don't know. But God is telling me that they do that. So,
 1:20:14
 they could be part of that community, that good community that is raised among the people, the best community.
 1:20:20
 [3:114] They believe in GOD and the Last Day, Two major conditions of being a believer.
 1:20:25
 [3:114] ...they advocate righteousness and forbid evil, The same 2 duties that I mentioned in 110, God is mentioning in 110.
 1:20:37
 [3:114] ...they advocate righteousness and they forbid evil, and they hasten to do righteous works. They are with the righteous.
 1:20:47
 115 [3:115] Any good they do will not go unrewarded. GOD is fully aware who is righteous.
 1:20:54
 Clear, there is no explanation for this, very clear said. 116
 1:21:00
 [3:116] Surely, those who disbelieved will never be helped by their money or their children against GOD. They have incurred Hell, wherein they
 abide forever.
 1:21:14
 I take you to verse 10 of this same Sura, Sura 3
 1:21:23
 Disbelievers always ultimate losers. See the difference in the language of the two verses.
 1:21:31
 [3:10] Those who disbelieve cannot be helped by their money, or children, against GOD. They are the fuel of Hell.
 1:21:39
 But here God says "surely those who disbelieve will never be helped by their
 1:21:44
 money for their children against God." Over there in verse 10, it seems to me at least that God
 1:21:52
 is telling us "they cannot be helped", but it seems that a door is left open for them so that the
 1:21:59
 righteous people can go, do their duties, you know. Tell them to forbid evil and they can advocate
 1:22:08
 righteousness, tell them what the right is what the wrong is. But if you do and and you see examples I
 1:22:15
 guess every one of us has that experience that you try, you try to give the message and try
 1:22:24
 to tell them what is right, what, what God wants them to do, but they don't, they don't listen. And here
 1:22:33
 God says surely those who disbelieve will never be helped by their money or that this is
 1:22:38
 the ultimate or by their children against God. They have incurred Hell wherein they abide forever.
 1:22:48

And 117 [3:117] The example of their spending in this world is like a violent wind that hits the harvest of people who wronged their souls, and wipes it out. GOD never wronged them; it is they who wronged themselves.

1:23:04

I had a little bit of a hard time to exactly understand what this verse means but

1:23:10

I give you what my understanding is from it. It seems that it is alluding to the fact that people

1:23:27

who have a lot of money that they can spend and they spend it and they try to spend it for

1:23:35

in the, in the, in... as they're considering for God or they... the donations, they go on TV and donate \$1,000,000 to

1:23:45

this good cause because it's tax-deductible and they make sure that they show the numbers on

1:23:51

TV and everywhere. And they do these things and then they go and corrupt the... using the Quranic

1:24:04

warning, they corrupt the earth and then expect, they expect that God should give them back something.

1:24:10

They donated a million dollar or hundred dollar or one dollar for God and then, you know, why they

1:24:18

didn't get anything back. And I think God is saying that whatever... God never wrongs them. God

1:24:25

doesn't want bad for anyone. So, whatever we do is a consequence of what... whatever we get is a

1:24:33

consequence of whatever we have done. And God says very clearly He "never wrong[s] them; it is they who [do wrong] themselves."

1:24:42

I wanna stop here and let go for some discussions and comments

1:24:48

and questions but before that I have to mention something about... because this is about the best

1:24:55

community and I was watching 60 minutes last Sunday and if you ask people who have traveled

1:25:05

around the world, at least, if you say "give me a country that is one of the best ones I can

1:25:11

go and live there" usually Switzerland is one of the names that comes out. You know, whoever have...

1:25:16

I have been there once with you about five days, especially Zurich is a beautiful place. It's so

1:25:21

clean. First time I was there, I thought that people wash their cars three times a day because it's

1:25:28

so clean and so nice, no police in the streets. You can go out anytime you want. And of course,

1:25:35

all the money in the world is the free banking system. All the money from everywhere goes there.

1:25:41

The program that I saw in the 60 minutes, there is a beautiful park around the lake in the middle of

1:25:48

Zurich and this park has become the center for drug users and drug addicts. It was so so sad,

1:26:00

so tragic to see those. What they have done is that young people in the ages of 15 to 30, very young

1:26:09

they come to this park and using drugs in that park, dealing it is free, although drug dealing

1:26:16

and using in Switzerland is, against the law. But the government, according to CBS, has

1:26:23

let this area to be an area for drug use and drug dealing because they think with this

1:26:31

they're containing the problem in that one area. And the documentary was saying that the number

1:26:38

of these people in this place has risen in the last years so so much. And then, what they do as

1:26:49

third and advocating righteousness and, you know, forbidding people from doing evil,

1:26:54

they distribute clean needles. The government sponsors that because they wanna stop the spread of the

1:27:00

AIDS among those. So, they are free to come and get free needles to use it for injecting drugs

1:27:08

in their body and they were interviewing some of these young people who were 20, 18, 21

1:27:15

years old and asking them, you know, "what you live for?" They said "nothing. The only thing that I live

1:27:23

for is my next injection, my next round of drug." And they asked one of these kids who was the

1:27:35

son of one of the big shots in the government and I think it was Mike Wallace asked him "okay, what does
1:27:42
your dad, you know, how does your dad does do this? You know, he has so much money." And he
1:27:48
said "doesn't he feel that, you know, these empires with so much money can do anything about this? Where is the morality?" And he
answered that when he goes he is a moral man but when he goes
1:28:00
to work, he leaves his morality at home because business doesn't have anything to do with the morality. That's business, so he has to do
his job. But when he comes home, he's worried about what
1:28:10
happens. But that was a very good example of what is, what is really happening to the, the youngsters
1:28:19
of this, this world and in the heart of a country, in a city that is known as one of the
1:28:28
best places that, you know, the heaven of the rich, the heaven of the people and this was
1:28:36
an example of which I thought is... was very moving and very ironic. So, I stop here and ask for any
1:28:48
questions or comments.
onsequence of losing the 5 daily prayers.
1:29:01
The messenger: I think I will open this... somebody asked about this. I open the discussion with verse 115 where it says
1:29:10
[3:115] Any good they do will not go unrewarded. GOD is fully aware of who the righteous are.
1:29:17
It's talking about the righteous Jews and Christians. As we learned from Sura 19, they lost their contact prayers, for example.
1:29:28
They do not do the five prayers. Five prayers are very very very, infinite very important
1:29:36
because they go a long way towards proving that God, the Creator of the heavens and the earth, is our god.
1:29:42
They remind us of God and, you know, benefits that we just cannot overestimate, overemphasize.
1:29:50
So, the Jews and Christians do not have the 5 daily prayers. These righteous Jews and Christians described here, they recite
1:30:01
God's revelations through the night and they fall prostrate, they advocate righteousness, they forbid
1:30:07
evil and they hasten to do righteous works, charitable works, and so on. And this is why God is
1:30:14
saying that these things will not go unrewarded. So, they'll be rewarded for this, but it is nothing
1:30:20
compared to the specific steps of rites that God prescribes for us, the Prayers, the fasting of Ramadan.
1:30:29
As you know, within our lifetime, the Christians, for example, lost the fasting. First there was no
1:30:35
meat on Friday and in Easter or, what is it, the Lent, they used to give up important things. Now, they give up
1:30:46
Macadamia nuts. So, they lost the fasting. They lost the contact prayers. And these are the important
1:30:57
things that cause our souls to grow and develop. So, I just... this is a very important verse 115.
1:31:04
The implication from the Arabic text, and I hope this is reflected in the English,
1:31:09
is that these are all good things. They recite God's revelations, they fall prostrate, they are righteous, they advocate
1:31:15
righteousness, they forbid evil, they have high moral standards, they are truthful and honest, but
1:31:21
all these things, all these things combined will be a small fraction of what we get from the five
1:31:29
daily prayers, for example. The five daily prayers are so important that... Shakira: Are they the most important of all the prayers? The
messenger: Definitely.
1:31:39
Shakira: So, if...

04 Quran Study From Azhar 4 Sura 37 By Rashad Shakira Present Astroid 01 21 1990 Sura 3;118 129 By S

Shakira: My God, you guys eat too many sweets. Can't you think about your cholesterol? The messenger: Whose fault is it? Who got these?
Shakira: But that is one. The messenger: Whose fault is this? You need sweets.
0:21
Shakira: I am sweet enough to eat sweet. The messenger: But you said you need sweets for you.

0:26
(unintelligible). The messenger: Haven't you seen this before? Documented proof. I cannot believe he's a liar. Shakira: I know. Can you believe this? Where did they take the

0:41
picture? The messenger: God knows. Shakira: They have to be in front of something. Ismail Barakat: The scale of the lies. A woman: I can't believe it.

0:49
The messenger: I know. Did you read the details? Shakira: Yeah. The messenger: I have the English translation. They say they went to Rashad Khalifa's mosque and

1:00
investigated him. Ismail Barakat: And they found that he's a good liar. The messenger: Established once and for all that he's a liar. And here's proof.

1:08
I have a picture in front of his mosque.

1:15
The messenger: أَعُوذُ بِاللَّهِ مِنَ الشَّيْطَانِ الرَّجِيمِ بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ 448

1:23
Oh, I love this. This is my favorite. Let's go to 447. What the heck? Let's start from the beginning of the Sura.

1:33
This is my favorite part. The people of Heaven visit their relatives and friends.

1:41
It's true. Every one of us has some relatives and friends who'll derail. We're gonna go visit them. Shakira: We won't feel sad?

1:48
The messenger: No. Because, did you know... oh, you missed the ways people go to hell. You wanna survey?

1:57
Yeah, Shakira? It's Mahmood's specialty, he surveys the methods of going to hell. Go ahead, number one.

2:05
Mahmood: Number one: They duck under the fence. The messenger: This is number one. Number 2? Shakira: I don't understand.

2:12
Ismail Barakat: No, no, no, number one is the storming of the gates. The messenger: The storming of the gates? Ok. The storming of the gates of hell. You know, they...

2:21
The messenger: A group of people are carrying a big log and there's the gates of hell. And They are storming the gates to go in. Shakira: And these are the disbelievers? The messenger: Yes.

2:29
(unintelligible). The messenger: They are insisting on going in. So, this is number

2:34
one, storming the gates. Number two is tunneling their way under the fence. Shakira: Is it in the text? The messenger: Number 3...

2:40
The messenger: Almost. We'll get to that later, but listen to this first. This is what we realize on the

2:47
Day of Judgment. This is why you will not be sad. Shakira: Storming the gates and then tunneling under it. The messenger: Wait, wait. This is to answer your question "are we gonna feel sad for the

2:55
people in hell?" This is your question. Here is the answer. We're going to find out on the Day of Judgment, this is how they got to hell. Some of them stormed the gates.

3:04
Number two, some of them tunnel their way under the fence. Ismail Barakat: They tackle the 19 angels who guard hell and try to beat them. The messenger: Number three, listen.

3:13
A man: They pole vault? The messenger: Pole vaulters. Shakira: Ok. What? The messenger: Pole vaulters. Shakira: Oh, Pole vaulters.

3:21
The messenger: And, you know, they jump over it. "Oh, I barely made it." And as soon as they fall down, they raise their arms. "Made it."

3:33
Ismail Barakat: Because Allah Subhanahu Wa Ta'ala built solid walls around hell to keep people from getting in. And they get

3:40
in by fighting their way in. This is what they are saying. The messenger: Exactly. A woman: And the final wall was 19.

3:46
The messenger: Yes, 19 walls, 19 fences. Shakira: So, now tell me pole vaulting, tunneling and bargaining?

3:54
A man: Next one is one big, huge one. (unintelligible). The messenger: Seesaw in a circus. Shakira: Ok. Seesawing it. The messenger: No, wait. No, no, we didn't. (unintelligible).

4:06
The messenger: Coming up. You know, the circus, we jump on this and they go up, way up. Somersault.

4:12
The messenger: Somersault their way "hey, I made three somersaults." A man: The problem is who will take the big one, now?

4:19
The messenger: The next one, number five. Ismail Barakat: No, no, the big one, you see, they open the gates and let him in.

4:27
Shakira: Because there are seven gates. The messenger: Yes, number five, there are seven gates. A man: They all go in cannon.

4:34

The messenger: The cannonball, human cannonball. A man: And they fire it. Shakira: Now, where did you get all this from? A man: Sura 115. The messenger: Sura 115.

4:49

Shakira: If your imagination is not...

4:56

The messenger: Even if gets very scary. Shakira: No, but in the Quran, it says that the people will try to come towards Heaven. And then they can't, they won't be able to stand it and they'll go back.

5:05

They'll keep going back, they'll try to go and come back and try to go and come back. And here they're pole vaulting. The messenger: Yes, no, we're talking, but now they are doing this, see. Now they're

5:14

like for example, how do you explain, the guy, we tell him "Sura Qāf has 57 Qafs." He says "no, the word فَحَق because there is a Shadda on it, it's two Qafs. It's FAHAQAQA.

5:25

It's not 57, it's 58, there is no miracle there." How do you stop this guy? Now this guy is trying a cannon. Ismail Barakat: No, no, no, God doesn't want them to go to hell. God wants all to go to paradise.

5:37

The messenger: In fact, Sura 39 says, God does not like it. Shakira: They insist on going to hell, that's what it says. They insist. The messenger: There you go, that's the answer to your question.

5:43

The messenger: So, we will not be sad because we will realize that they tried all these methods to force themselves into hell. I usually, I used, they jumped the fence. This is the

5:54

only thing I used, because this is what I used to do. When there was a soccer ball in my hometown, and they are fighting for the final championship, and they have, at the club,

6:04

the soccer balls, the two champion teams coming to my hometown. And they have police on horses

6:10

patrolling the fence out there. I was there, an expert in jumping fences. That was a

6:15

high fence, like 7 feet, with the things pointing and the head like that. So, I waited until two

6:21

horses were facing the other way, and then.... And I'm in the club to watch the game.

6:27

Must have been 7 years old. Shakira: You know, in India, they have walls with a glass on top of it.

6:33

Ismail Barakat: Right, they have the same thing in Egypt. It doesn't stop them, though. Shakira: I used to climb over it and go and steal grapes. And one day, the guy came behind me. You know, my grandfather,

6:45

he's the dean of Osmania University, my grandfather. And I used to do these terrible things.

6:50

My sister and I, we jumped it, and we went into the grape garden, and we stole the grapes,

6:56

and we jumped back. The man came behind us with a stick. The messenger: You never forget that. Shakira: He came behind us with a stick

7:02

and my uncle, you know, the Nizam of Hyderabad. He is the architect for the Nizam of Hyderabad.

7:09

And they were constructing this big thing for the Nizam, my uncle. And he took us there, and this is what we were doing. He was so ashamed of us that he just said "these people don't

7:21

belong to me." The messenger: "I don't know them. I never saw them in my life, these grape thieves."

7:26

Shakira: We were little kids. "I don't know these people. Who are these people? I don't..."

7:32

Shakira: Oh, my God. The messenger: So, I used to jump the fence to get into the soccer game. And these people in hell, we will realize

7:38

that they insisted. They jumped so many fences to go to. hell. Shakira: Yeah, they insist on going to hell. Ismail Barakat: But you see, what you did,

7:45

you waited until the guards weren't looking. These guys are gonna attack the guards. The messenger: Yes. Exactly.

7:51

The messenger: In fact, they said that if "19 of the guards of hell, leave them to me, some big guy."

7:57

Shakira: So your imagination, he used his imagination to do five things? The messenger: Yes. Behrouz: No, he has 19.

8:04

The messenger: We are thinking of the ways and means that they are forcing themselves. Shakira: Yeah, some of them can

8:11

go in a tank. The messenger: How about balloons? Shakira: You don't have a tank? Hot air balloons.

8:20

Ismail Barakat: Balloons are not very good, because you see hot air rises. The messenger: He's talking about the kite. A man: Oh, yeah, they were not balloons

8:27
Ismail Barakat: It keeps going up. The messenger: But he will let go. He'll jump from it or something. The messenger: Yeah, the kite. He's talking about the kite. A man: The kite, no, that's the hang glider.

8:38
The messenger: Isn't it a kite also, same name? Ismail Barakat: Yeah, this is an excellent subject for Mad Magazine.

8:46
A man: Hang glider, yes. And they can use trampoline. The messenger: There's a profound word coming up here that also adds to jumping

8:57
the fence. Something that's happened to Ismail. It gives an example of the disbeliever jumping

9:02
the fence into hell. Because the second verse here uses the word **قَالُوا جَزَاءُ جُحِيمٍ** (37:2) which I translated here as "the blamers." Some guy came to Ismail and said "what is **جَزَاءُ**?"

9:12
You know, he leaves all the straightforward verses in Quran "can you tell me? If you are so clever, you and Rashad and your people, "what **جَزَاءُ** is?"

9:21
Ismail said "goats. Will this satisfy you now? Okay, now what?" It's a strange word. You see, **جُحِيمٍ** means to blame.

9:33
جَزَاءُ, the blamers. But he picks out this strange word and says "okay, if you are so clever,

9:39
tell me, what does it mean, **جَزَاءُ**?" He said "goats." Ismail Barakat: If he knows the meaning of **جَزَاءُ**,

9:46
he'd be a good believer. The messenger: Yes. "Now here's the meaning, okay, now what?"

9:53
أَعُوذُ بِاللَّهِ مِنَ الشَّيْطَانِ الرَّجِيمِ بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ. In the name of God, Most Gracious, Most Merciful. [37:1] By the arrangers in columns. [37:2] And the blamers of those to be blamed.

10:04
Now, we're talking about angels here. Because we have in another verse, in another Sura,

10:10
the angels say "we are the arrangers." Actually, it is in this Sura, excuse me. It's coming later. Yeah.

10:16
"We are the arrangers." So, apparently the angels will play a role in the resurrection process and arranging all the people. Shakira: That's gonna take a long time. The messenger: Who cares?

10:27
We have infinity. She's thinking in appointments, you know, "how many patients, today?"

10:35
Shakira: If they make me comfortable, that's okay. IN SHAA ALLAH. The messenger: Right. And the blamers of those to be blamed, because

10:41
the angels, remember, they're gonna beat up the disbelievers. They'll blame them, you know. "We served you. God gave you so many chances and you still disbelieved. You're unappreciative."

10:51
Smack, smack. What is hitting? Smack is a kiss. A woman: No, Smack is also a hit. The messenger: So, also a hit. Okay. Smack, smack, kick, kick.

11:01
Shakira: But these are blaming each other, right? And the blamers of those to be blamed. The messenger: No, no, no. They blame the disbelievers. Shakira: Yeah, they're blaming each other.

11:09
The messenger: The angels are blaming the disbelievers. The arrangers and the blamers are angels. Also the reciters of the messages.

11:16
Shakira: Mā Shā Allāh. That's why we have you. We have you with us, I mean. The messenger: Angels. These are all... The messenger: These are all angels, the arrangers, the blamers, the reciters.

11:25
So God is stating these profound facts, three of them, and then God says the result of, the result:

11:32
[37:4] Your god is only one. [37:5] The Lord of the heavens and the earth, and everything between them, and Lord of the easts.*

11:40
I'm having a heck of a time, Ismail, translating (37:5) **الْمَشْرِقِ** easts. Because what it really means is the Sun rise, the Jupiter rise, the Saturn rise,

11:49
the Mars rise. Ismail Barakat: Ah, I see, I see. The messenger: These are the easts. It's not east, it's the rises.

11:55
But how do you translate it to English so the people understand? Ismail Barakat: There is a technical term, I think. A woman: Rising term? Ismail Barakat: Yes. There is an astronomical term.

12:07
The messenger: I'm making this known to everybody so they come up with a good word. As soon as you wake up, Lydia, think about this.

12:21
If you talk about the sun and the moon, yes. If you talk about the sun and the moon.

12:30
The messenger: Oh, you go to the airport? You're going now? Ok. Good luck to you.

12:37

Ismail Barakat: Salāmun 'Alaykum A man: Wa 'Alaykum Salām Shakira: KHODA HAFEZ. Who is she? The messenger: This is my sister. She's going now to take her medical exam. ECFMG.

12:46

The messenger: ECFMG. Shakira: I didn't see her yesterday. The messenger: Yes, she was here. She's very... she hides. She's very shy. I mean,

12:55

I should have brought her to you. Shakira: Well, I'm sure she'll do a good job. Is she giving her ECFMG? The messenger: IN SHAA ALLAH. Yes.

13:03

Shakira: What is it now? It's January? Yeah, they have it in January. The messenger: Yeah, it's January 20th. Yeah, tomorrow. Shakira: Yeah, this is the day.

13:11

The messenger: No, 23rd, Tuesday. Yeah. Shakira: Mā Shā Allāh. She's a monk. The messenger: Yeah, your god is only One.

13:23

The messenger: So now, the Lord of the East, you know what it means now. One time, I was in Washington, D.C.,

13:32

and the question of Ramadan came up. So, I reached for the newspaper, the Washington Post,

13:42

to show the person that the new moon, he could see the new moon in the paper, and

13:48

it will tell you when the new month is. You don't need to go out and look through the clouds for the moon, which is very thin, it's impossible to see with binoculars and all this. Especially

13:58

if you're blind like Ben Bez and try to decide when the, you know. So, you know what One of the followers announces they are colour blind.

14:03

I found in the Washington Post? You can pick it up at any drug store. They have the moon...

14:09

...all solar system. Ismail Barakat: Yeah, and in the paper, in Vancouver Sun. The messenger: Yeah, but I was really amazed.

14:18

The messenger: Yes, yes, we have the sun and the moon here. Yes. But at the Washington Post and probably the New

14:25

York Times, the major newspapers, I know the Washington Post does it every day. I mean,

14:31

if you wanna see what time Saturn rises, and the new Saturn, it's just a...

14:40

Ismail Barakat: They don't even know what Saturn looks like. The messenger: Which one has the rings? Saturn has the rings on it.

14:46

Ismail Barakat: You can't see it with the naked eye. You need telescope. A man: Mars is red, you can see it.

14:52

Ismail Barakat: Yeah, but I'm color blind. To me they're all alike. A man: And also the time they rise is different.

15:00

Ismail Barakat: Yeah, of course. The messenger: Those people are so behind, you know. Behrouz: But this is all according to our sun.

15:08

The messenger: Yes. Yes. The earth. Because we are sitting in a place that's half light and half dark.

15:13

So, we have the rises, and we're rotating. So, we have the rises of all these planets.

15:20

As far as anything in the heaven is concerned, there's rise and set because of our rotation.

15:28

Behrouz: Yeah, because there's no one else. The messenger: Why do I do rotation like this? Actually, it's like this.

15:36

It doesn't matter, we may be upside down. Let's say we're sitting upside down right now.

15:41

Behrouz: But there's another time... The messenger: This (unintelligible) doesn't fall off. Ismail Barakat: It never does.

15:47

A woman: I didn't understand when I was little, you know, we talked about everything around us. I was wondering how

15:52

come nothing fell. I didn't understand gravity. I was very little. The messenger: Gravity. The messenger: The way to understand it is to imagine an ant walking in this globe. An ant is walking around, it's cool,

16:02

in this globe. A woman: Yeah, I understand it now. A man: Upside down. A woman: No, I was a little kid. I understand it.

16:09

The messenger: So, this is the way we are. A woman: Yeah, but it's wonderful. But I was little and I was fascinated by it.

16:15

The messenger: Sorry, Behrouz, I interrupted you. Behrouz: So, one time you talked about the two Easts and two Wests.

16:22

The messenger: Right. That's the sun and the moon. Yeah, sun and the moon. Two major things.

16:27

Behrouz: Two majors for the humans and jinns. The messenger: Right. Ismail Barakat: What's that again? Behrouz: I like that one better.

16:33

The messenger: Or the sunrise for the humans and the jinns. Ismail Barakat: So, it's the same thing.

16:39
The messenger: Yeah, but you see... Behrouz: For jinns must be, I mean, might be something different.

16:45
The messenger: Well, the jinns on earth, they will have the sunrise and the sunset. Ismail Barakat: The same thing as ours. The messenger: No, but God wanted to make a point that there

16:50
are two sets of creatures on earth. Sura Al-Rahmaan, for example, is directed to the two, two, I mean, الثَّقَلَيْنِ, these are called, الثَّقَلَيْنِ, the humans and the jinns. So, God is talking to them separately because they have

17:03
separate needs. For example, a jinn will not care about steak, but you would. And you

17:10
do not care about a box of matches for dinner. But they like it, maybe to them. I mean, I don't know

17:17
what they like for dinner. So, if God describes heaven to them as fruits and rivers of milk

17:24
and honey and they don't care about these things, they say "oh, we don't want to go there." So, that... what was that? A man: Fatiha on Tuesday. Don't forget that. A man: Fatiha on Tuesday.

17:33
The messenger: Soad again? Oh, boy, she's nervous about the test. She'll call us from the airport.

17:41
The messenger: Don't forget, Fatiha on Tuesday. Ismail Barakat: But the Qur'an, I think, is directed to us, not to them.

17:49
Ismail Barakat: Essentially, it's directed to us. The messenger: No, no, to us and the jinns. قُلْ أَوْحَىٰ إِلَىٰ أَنَّهُ أَسْمَعَ نَفَرٍ مِّنَ الْجِنِّ فَقَالُوا إِنَّا سَمِعْنَا قُرْءَانًا عَجَبًا (72:1)
Quran is for the humans and the Jinns.

18:00
وَإِذْ صَرَّفْنَا إِلَيْكَ نَافِثًا مِّنَ الْجِنِّ (46:29) We'll send the jinns to you to listen to the Quran. It's to them, also.

18:06
فَلَمَّا فَضَىٰ وَلَوْ إِلَىٰ قَوْمِهِمْ مُنْذِرِينَ (46:29) So, they went to their people. They are jinns, also.

18:16
All the jinns in the world now know about this message and the miracle of 19.

18:24
Shakira: So, what does it mean when it says "Lord of the two easts and two wests?"

18:30
The messenger: Again, it's the sunrise and moonrise, sunset, and moonset. Ismail Barakat: Or according to Behrouz... The messenger: Ismail, do you ever think of that term, that astronomical term?

18:41
The messenger: Maybe, you can call the astronomy department again and see what this means. How can you express it in an English word?

18:49
Ismail Barakat: There's one word that says exactly that.

18:56
The messenger: Yes. We have the best astronomy department here, one of the best in the world. Yes.

19:01
OK, since you're familiar with them by now. Keep calling them.

19:09
Ask them "how can you express in one English word the rise of Saturn and Jupiter and Mars and Venus and the moon?"

19:19
Shakira: Can't you say rise of the planets? The messenger: Yes, that will explain it. Ismail Barakat: The planet rising, so we say sunrise, moonrise, sunset, moonset. The messenger: Yes, the rise of the planets is a good expression.

19:30
We're getting there. Except it's not just the planets, stars. Ismail Barakat: Actually, probably, Rashad, the best way to express it is the (unintelligible), I think, the rise of the planets.

19:37
The messenger: The rise of the stars and the planets. The rise of the heavenly bodies. Ismail Barakat: Yeah, if you use the technical term, people... it will distract people.

19:45
Shakira: But they won't know. Heavenly bodies will confuse them. The messenger: Yeah. Well, let's see what they come up with. It may turn into a

19:51
beautiful word, very expressive. Yes, that's a good idea, also. But anyway, this is what

19:57
easts means in number 5. Number 6, [37:6] We have adorned the lowest heaven with beautiful stars.

20:09
Those billion, trillion stars are in the lowest, innermost, and smallest of the seven universes. And number 7, [37:7] and guarded it from every evil devil. Our universe is the prison cell for the devil and his Angels

20:18
This is the prison cell for Satan and all his angels, the devils. Satan and his angels. It's a good expression.

20:25
Shakira: What do you mean, Satan and his angels? The messenger: Because Satan is a temporary god here, and the devils are his angels.

They help him, they work for him. Shakira: But we shouldn't call them angels. The messenger: Well, Satan's angels. Yes, you can use this expression. For example, God calls the believers, the believers say

20:37

كُفِرْنَا بِشِرْكِكُمْ We are KAFIRs of their idolatry. But the word KAFIR

20:43

is generally used for a disbeliever, a pagan. So you can use that. Actually, it's a very

20:48

expressive term. Shakira: Yeah, it is very expressive, but it is confusing if somebody doesn't already know a lot about the Quran.

20:56

The messenger: Well, but when you say "Satan's angels", it's understandable. Once you say Satan's angels. Actually, it paints a picture of a god with a small "g" and his assistants.

21:10

Shakira: Hell's angels. The messenger: Motorcycle gangs. Okay, number 7, [37:7] guarded it from every evil devil. [37:8] They cannot spy on the High Society; they get shot from every side.

21:22

[37:9] They are doomed; they have incurred an eternal retribution. [37:10] If any of them ventures to charge the outer limits, he gets struck with a fierce projectile.

21:32

[37:11] Ask them, "Are they more difficult to create, or our other creations?" We created them from wet mud.

21:40

Of course, it is from the evolution point of view, wet mud is significant because it's water.

21:46

Shakira: You know, Reshma told me that. Because God keeps repeating that He created us, life came from water and then He says He made us from clay. The messenger: Mā Shā Allāh.

21:53

Shakira: So, I said "my God, you know" and Reshma said "mummy, how simple it is. He just took clay and he mixed it with water and He made you." He told me that. The messenger: Yes.

22:05

The messenger: Good thinking. Evolution is a divinely guided process. Number 12. [37:12] While you are awed, they mock.

22:14

The messenger: How true this is. Shakira: Yeah. The messenger: Cause we are awed of what God created, and they mock and ridicule.

Shakira: Yeah, worried for our necks. The messenger: Yeap.

22:23

[37:13] When reminded, they take no heed. [37:14] When they see proof, they ridicule it. [37:15] They say, "This is obviously magic! [37:16] "After we die and become dust and bones, do we get resurrected?"

22:36

Now, this is number 16. I always emphasize. Because if you take the total picture of the Quran, this is not what they utter audibly.

22:44

It's something in their mind, inside their heart. Even they are not aware of it. Shakira: I used to think like this, too. Even though, you know, I'm a Muhammadan. I used to be a Muhammadan. I used

22:56

to think exactly "how am I going to be reborn?" And it's not, you know. The messenger: Well, it's a natural question for a growing person. And that's why God gives us 40 years to think about it

23:07

to ask these questions. 17. Yes? Behrouz: Red mud. Mud is, you know, when you think about mud, you know

23:19

it's red. Hard and heavy. Using the same mud. The messenger: (37:11) طِينٌ لَّزِبٌ The messenger: It means a lot of water. Mud that has a lot of water in it. طِينٌ لَّزِبٌ

23:35

The messenger: Ok. Let's take, you have clay, you hold the clay in your hand. If you add water to it, what happens?

23:42

Behrouz: It becomes mud. The messenger: It is mud already. It is mud already. If you hold it in your hand, you add more water, what happens?

23:51

Shakira: It becomes some wet mud. He wants you to say that. The messenger: No, it becomes softer. You can't even hold it in your hand. Ismail Barakat: More malleable so you can mold it.

23:58

The messenger: That is the description here. طِينٌ لَّزِبٌ here means you cannot hold it in your hand. You can put it in a glass. Very soft. Wet mud. Where are we, 17?

24:16

[37:17] "Even our ancient ancestors?" [37:18] Say, "Yes, you will be forcibly summoned." [37:19] All it takes is one nudge, whereupon they (stand up) looking.

24:28

[37:20] They will say, "Woe to us; this is the Day of Judgment." "Oops" is gonna be a very popular word. To be nice about it.

24:40

Shakira: Like that.

24:47

The messenger: Don't show him your hand. Because Mahmood will show you "Like this."

24:54

Shakira: Like this. The messenger: Ouch.

25:01

21. 21.

25:06

[37:21] This is the day of decision that you used to disbelieve in. [37:22] Summon the transgressors, and their spouses, and the idols they worshiped [37:23] beside GOD, and guide them to the path of Hell.

25:18

Don't worry about spouses. It's rarely that two spouses make it. It's very rare. It's rare that we have two people in the same town make it. Let alone...

25:32

[37:22] Summon the transgressors, and their spouses, and the idols they worshiped [37:23] beside GOD, and guide them to the path of Hell.

[37:24] Stop them, and ask them:

25:41

25 [37:25] "Why do you not help one another?" What happened to you? [37:26] They will be, on that day, totally submitting.

25:50

No more temporary godhood to anybody. Cause the test is over.

25:57

Mutual Blaming, 27. [37:27] They will blame one another, The messenger: Yes. Sure. Shakira: They cannot spy on the High Society means guarded above the lowest universe.

Explains verses 37:8 they cannot spy on the high society.

26:09

The messenger: Right. Beyond the first universe where there are major decisions being made. For example,

26:15

For example, one angel is charged with sending an asteroid to hit Saudi Arabia. Ok. And that angel is coming on the way and they're talking to each other. The jinns, if they have access to that area, they will hear it.

26:30

And they'll come and do something about it. Shakira: You say like that, but then in the Quran, it says the jinns are so dumb sometimes.

Because remember

26:38

when Solomon died, they couldn't even make out that he was dead for a while. The messenger: But when he fell down, they knew, right?

Shakira: Then they knew. The messenger: Right. So, well, yeah. Obviously, one angel is telling the other one, he is going a million times the speed of light, telling his friend "where are you going? You want to send an asteroid to Saudi Arabia?"

26:54

Everybody will hear that. Everybody in the vicinity. Ismail Barakat: Oh, no, they may be communicating mentally. And these guys can... The messenger: Mentally, exactly. Yeah, I'm just putting it in our terms. They can intercept communication.

27:11

Shakira: You tell this to the people, they think we are crazy. The messenger: Yes, they just can't comprehend.

27:18

Ismail Barakat: They don't believe, look, let me tell you something. Most people, most people don't really believe that they are going to die.

27:24

Shakira: No, no, they know they are going to die. The messenger: You're quoting the Quran. Shakira: They believe they are not going to die.

Ismail Barakat: In their heart. The messenger: Yes

27:31

(Unintelligible). Ismail Barakat: If it crosses their hearts, if it crosses their minds, that they are going to kick the bucket. The messenger: Not me. Yeah.

27:37

A woman: (Unintelligible). The messenger: Right.

27:43

Ismail Barakat: It happens all around them and they forget it very quickly. The messenger: Yes. The messenger: It's always somebody else.

Ismail Barakat: So, when you tell them they're coming back, The messenger: "Forget it."

27:56

You know, it amazed me when we calculated the end of the world. It amazed me how many people were really upset.

Question asked "why did God create our Souls."

28:03

I never forget the Mufti of Syria, you know, he was announcing Algeria in the conference, and this guy was pounding, I'm sure he broke a few bones in his hand. He was pounding on the thing and said

28:13

يَأْتِيكُمْ إِذَا بَغْتَةً (7:187) It comes to you suddenly. It comes to you suddenly. Ismail Barakat: Yeah, it comes to him suddenly, yeah. For him, it's going to come suddenly. The messenger: I told him that.

28:21

The messenger: I said "for you it will." Ismail Barakat: All of a sudden. The messenger: Thirteen times in the conference, only for the disbelievers it will come suddenly. Because he was quoting this expression in the Quran.

28:29

And consistent in the Quran "only the disbelievers, it comes to them suddenly." And that guy went through fits, you know.

28:36

Ismail Barakat: Yeah. Because really they don't believe in it. The messenger: Some kind of active epilepsy. Shakira: Why did He create us? I don't understand. Why He created us?

28:44

Behrouz: Why did He what? Shakira: Why did He create us in the first place? I mean, just even a soul, why?

28:50

The messenger: God? Shakira: Yes. Why? The messenger: Are you related to Edip? No. Why? We will know why.

29:00

Shakira: Maybe because He turned to the vast, lightless universe and said "be." Why?

29:06
The messenger: Well, I have to quote God's quotes from the Quran "you don't ask Him why."
29:11
The messenger: (21:23) لَا يُسْأَلُ عَمَّا يَفْعَلُ "Why You did that" The messenger: For the sake of knowing. Ismail Barakat: The creation of the universe is for this test.
29:20
The messenger: Yes, I know that. But, no, she meant even initially. Ismail Barakat: Initially? The messenger: Yes. Shakira: This is already too far gone. Ismail Barakat: You know the answer. The answer I always give, Shakira "on the Day of Judgment, ask." Shakira: I will, IN SHAA ALLAH.
29:33
The messenger: Well, of course, on the Day of Resurrection we'll know, we will know anyway. Everything will be known. The purpose.
29:42
The messenger: But even as far as this universe is concerned, no, He does say why. "We did not create the heavens and the earth except for a specific purpose."
29:50
Shakira: And also not for us to play. Repeatedly, it says not to play. Not to play, but for hard work. He didn't create it for playing. The messenger: This purpose is stated in Sura 67. Yes. Right.
30:00
Shakira: It's for hard work. We have to work hard. The human being has to work hard.
30:07
Ismail Barakat: Is that what is meant? No, I think... Shakira: No, the word "hard work" is used. The messenger: (90:4) لَقَدْ خَلَقْنَا الْإِنْسَانَ فِي كَبَدٍ
30:13
The messenger: For example, why are you awake now, Ismail? Why are you awake now? Why are you awake now? Ismail Barakat: Because I'm here. If I've been elsewhere, I've been fast asleep.
30:22
The messenger: No, you still wake up for Fajr. Ismail Barakat: I think what Shakira is saying, Rashad, is that Allah Subhanahu Wa Ta'ala, I don't know where, the quote, but He says that He did not create this universe...
30:37
Ismail Barakat: He says that life on earth is nothing but fun, games and it's not to be taken seriously.
30:45
Shakira: I don't understand what you're saying. The messenger: You're not supposed to play. (90:4) لَقَدْ خَلَقْنَا الْإِنْسَانَ فِي كَبَدٍ In other words,... Yes. And this is why, this is why you are up now. Shakira: I'm sure we know, understand it exactly like that. And possibly we understand the same thing.
30:59
Shakira: We are working hard right now. We are working hard right now. The messenger: Yes.
Rising for Fajr is difficult but should get easier. Discussion of Ramadan during summer months (Indication of Astronomical timing used).
31:05
Ismail Barakat: I'm not working. Shakira: We are having a good time, Mā Shā Allāh. But exactly, that's why. The messenger: No, but if you didn't come across this message, you'd be fast asleep at this moment, right now.
31:15
Shakira: So, according to God, this is work. The messenger: Most people out there... Here comes my favorite impersonation. They're all...
31:21
Shakira: He says in the Quran that it is very hard for you to get up in the morning and pray. I know that it is hard for you to get up and pray in the morning, but not so for the believers. He says you will get up if you're a believer. It will not be hard for you. So that's why you say like that, The messenger: Exactly.
31:36
Shakira: because you're a good believer and it's not hard for you to get up. It's no longer hard for you. It used to be, but it is not, Mā Shā Allāh. The messenger: It used to be. I had to beat him up.
31:49
Shakira: And He specifically says about the morning prayer. The messenger: You see, Ismail, especially Ismail, because he's a night owl. He goes to bed like two or three in the morning and in Vancouver the night is half an hour.
31:59
Shakira: But you know, I'm sure it's the same with everybody. But you know that sometimes I'm so afraid to miss one NAMAZ (Contact Prayer). I'm so afraid. The messenger: Yes. God bless you. Mā Shā Allāh.
32:08
Shakira: I just panic. I have to be up, otherwise I panic. The messenger: It gets easier and easier.
32:15
The messenger: You see, at first, it's difficult, then it becomes easier. But for Ismail, you missed what I said that the night in Vancouver is half an hour.
32:21
Ismail Barakat: Half hour. The messenger: You pray ISHA and then you shouldn't sleep. You stick around for 20 more minutes and you pray Fajr. Ismail Barakat: That's what I do.
32:33
A woman: The night is short. The messenger: In the summer. Shakira: You know when, when, you know, I was in Alaska in July, it never became...
32:42
Ismail Barakat: It's getting darker. A woman: I have a picture that I brought in to Rashad. They had a time-lapse photography of the sun just touching the horizon and going back up. But how do you get sunset, the night and sunrise in there? It's two seconds. Shakira: That picture is from Alaska.
32:56

when it just touches the horizon. The messenger: July 21st, June 21st. Shakira: I was in Vancouver in July. Ismail Barakat: It's not July? Shakira: Yeah.

33:04

The messenger: Oh my God, you should have met our people there. Shakira: But in July I was not a believer. The messenger: Oh, yes, yeah. 33:11

The messenger: Next time, next time, be sure to give Ismail your phone. Shakira: Yeah. We went to Alaska. We went up to the Arctic Pole, you know. We went up to Denali National Park and Fairbanks. The messenger: She's been aflame since then.

33:23

Shakira: It was so beautiful. Anchorage is so beautiful.

33:28

The messenger: So in Ramadan, we have just barely enough time to drink.

33:34

Ismail Barakat: You know, In fact, it's impossible for me anyway. It's impossible for me to eat two meals.

33:40

The messenger: Yes, I know. Even I ate one meal in Ramadan. Shakira: That is going to be (unintelligible) because I eat so little that if I don't eat it every day, it's hard for me.

33:51

The messenger: You'd better make it easy. You'll be a bit surprised. Ismail Barakat: Just like getting up for Fajr. It's the same thing.

33:58

The messenger: The first three days are gonna be difficult but that's it. Shakira: I'm totally accepting that. Behrouz: Ziba was saying that she was listening to the talk show on radio and doctors were talking about this diet, like you start eating certain things.

34:13

They come to the conclusion that after 13 or 15 hours, your body does not get any food

34:20

anymore. It's like a chemical, the body provides like an antibiotic that cures the whole body. The messenger: Yes. Mā Shā Allāh.

34:30

Ismail Barakat: What does it do? It cures the whole body? Shakira: What did he say? The messenger: It cleanses the body. Like a hormone.

Shakira: What did they find? The messenger: This doctor was speaking.

34:41

Behrouz: They found out after 14 hours, if you do not eat anything, the body provides something that cleans the whole body. The messenger: Like an antibody or the hormones

34:53

The messenger: It's like a Roto-Rooter and cholesterol. Behrouz: If you use it, it's good for you. The messenger: The body produces the Roto-Rooter to clean the veins. I believe it.

35:10

The messenger: Ramadan will be, it's getting shorter and shorter every day. It's gonna be March. This year, it will be March 27th.

35:16

Ismail Barakat: Now, Ramadan in Vancouver around Christmas time is fantastic.

35:22

The messenger: Yes, the day is half hour. A man: The day would be half hour.

35:29

Ismail Barakat: You know, all I used to do was, I don't usually eat a big lunch anyway, but I used to, all I did was miss my coffee in the morning and my coffee in the afternoon. That was the extent of it.

35:41

The messenger: These guys laugh at me all the time when I get in Vancouver because I'm all confused about the times. That's why I ask (intelligible). What I ask, he said "we still have four hours left.

35:52

A woman: When I go up there in the summer, it's real strange. I normally go to bed early. I tend to go to bed and then wake up and pray the Night because I've already gone to bed before the Night.

36:03

I have to wake up and pray the Night and then go back to bed. Ismail Barakat: I used to do this a lot in summer. I'd go to bed and then wake up for ISHA and then stay up for Fajr and then go to bed. A woman: No, I wouldn't do that.

36:19

The messenger: It's a lot of fun anyway. Lydia visits DC every year. Shakira: Definitely, Ramadan is starting on 27th? The messenger: IN SHAA ALLAH, yes. Shakira: IN SHAA ALLAH.

36:28

Shakira: But why do they make such a big deal of the moon and this and that? I mean, every year there's a big hassle. There's a big hassle. I mean, they can never... The messenger: Because of Hadith. This is the whole idea. Isamil Barakat: Hadith.

36:36

The messenger: You can tell the Ramadan... Ismail Barakat: They screw up every year, every year. The messenger: Yes, they never pass...

Shakira: Every year. Always, you know

36:44

Shakira: India has one Eid and Pakistan has another Eid. All the time. Every single time.

36:50

Shakira: They never had a shot of the same thing. Ismail Barakat: In Egypt now, I understand, Rashad, they use astronomical means. The messenger: No, they don't. They write it down. Astronomically, Ramadan will begin on March 27th. But the stupid Mufti has to tell them it's the 28th or the 26th. It's never the right day.

37:07

I mean, he seems to go out of his way to oppose the astronomical. Shakira: And Eid will be on 25? 26th. The messenger: 26th. Last day is 25. April 25.

37:17

Ismail Barakat: And you know, they come up with the dumbest obfuscation "that it is impossible to determine when the moon appears." What are you talking about? Darn Americans put a guy at a certain spot within two feet of the spot

37:30

on the moon where it's supposed to be. And you guys can't even see it. Jesus Christ.

37:37

Shakira: Is it OK to say Jesus Christ? The messenger: No. Shakira: But I say it all the time. Jeez. I say Jeez all the time.

37:47

The messenger: Jeez, yes, maybe. I say it "cheese" so it's mine. Shakira: I can't say Jesus Christ? The messenger: No. Better to avoid it.

37:58

The messenger: Why? Shakira: Because you grew up with it. The messenger: I know, but I'm asking why you say Jesus Christ. It's a commemoration.

38:07

Ismail Barakat: But usually you say it in negative terms. The messenger: But Satan doesn't know that. Satan will point at you and says "he's commemorating Jesus Christ." Because Jesus is dead. Really. Jesus will take the appearances.

38:21

Ismail Barakat: I stop this one. The messenger: Yes. Definitely. Ismail Barakat: God willing, it's the last time with Satan. The messenger: Yeah. You see, Satan hates you. You know that. And he will play dumb. Says "Ismail Barakat is commemorating Jesus Christ."

38:35

The messenger: God will tell Satan "you know what he means and I know what he means." "I don't care." Satan. Crybaby. He's the biggest crybaby. Yes. The biggest crybaby.

38:45

And invariably God will grant him, because we give him the excuse. So, God grants him his excuse. He says "It's OK. Go fix Ismail."

38:56

Shakira: I'll say something, but do you mean everybody has to, God has to forgive me. And then I think He was getting bored.

39:03

The messenger: Who? Shakira: God. Ismail Barakat: No, no, no The messenger: No. The people in Heaven, this way she said, God forgive me.

39:10

The messenger: Because even in Heaven the creatures will never be bored. This is... two things that would never happen in Heaven: being bored and being tired. Shakira: He didn't say "bored."

39:20

Shakira: He said "I will take away your worry. I will take away your jealousy. I will take away your tiredness." He didn't say "I'll take away your bored." The messenger: Yes. Yes. Bored, yes.

39:27

Shakira: Bored? The messenger: He takes away being bored. You'll never be bored. Shakira: It says that in the Quran? Mā Shā Allāh. The messenger: Yes, in 14 or 15, I forget. Shakira: OK. Don't worry about it. So long as we can be happy. The messenger: Yes, take my word for it.

39:39

Ismail Barakat: But it'll be awfully boring, you know, because you've got a couple of trillion years. Shakira: I know.

39:44

Shakira: I keep thinking I'll do pelvic there. The messenger: Yep, anything you want. Shakira: Oh, my God. A man: Every day will be different.

39:56

The messenger: There are no days. One last day. Shakira: We'll be everlasting.

40:05

Shakira: We don't know whether it will be day or night or what. The messenger: One last day. Shakira: Will we sleep? I don't know.

40:13

The messenger: It'll be fun. Shakira: Everything is... The messenger: Mutual Blaming, 27. [37:27] They will blame one another. [37:28] They will say (to their leaders), "You used to come to us from the right side."

40:23

Meaning pretending to be righteous. From the right side. 29.

40:29

[37:29] They will respond, "It is you who were not believers. [37:30] "We never had any power over you; it is you who were transgressors.

40:36

[37:31] "We incurred our Lord's wrath; and now we have to suffer. [37:32] "We misled you, only because we ourselves were misled."

40:43

[37:33] Thus, they will all suffer the retribution on that day together. [37:34] This is how we requite the guilty.

40:49

Now why are they in this bad position? Because of the following verses. [37:35] When they were told, "Lā Elāha Ella Allāh [There is no other god beside GOD]," they turned arrogant.

41:00

This is invariably the case. Tell them Lā Elāha Ella Allāh, they beat you up. In fact, I have it on video. Did you watch this video of Bilal Phillips? I have this video of Bilal Phillips. He says "now Rashad Khalifa exposed himself. He says, Lā Elāha Ella Allāh, and that's it. Can you imagine that?

41:21

All he says is Lā Elāha Ella Allāh." Doesn't this guy think? Ismail Barakat: No, the thing is that the Hadith that he accepts says, if you say Lā Elāha Ella Allāh, you are guaranteed paradise. The messenger: Yes, even the Quran, even the Jews and the Christians, according to Quran, who say Lā Elāha Ella Allāh, they make it to heaven.

41:35

You know the theme of this Quran at the very beginning? If you believe in God,... Ismail Barakat: Sura 2:62. The messenger: Exactly.

41:42

So, even the Jews and the Christians obviously don't recognize Muhammad at all. Even the Jews who say Lā Elāha Ella Allāh, they go to heaven. And this guy, I have it here on the video. Anybody can see it. And he is saying "Rashad Khalifa has gone completely bananas now. All he says is Lā Elāha Ella Allāh."

41:58

I mean, what is this? Ismail Barakat: Well, he says "Lā Elāha Ella Allāh... Lā Elāha Ella Allāh, Muhammadan Rasoolu Allah." The messenger: Yes.

42:06

Shakira: You know I have such a habit for it that sometimes I automatically say and then I just (unintelligible). The messenger: It takes you a few months to get rid of it. Shakira: Yeah, that's true.

42:14

Shakira: SHAHADA, what does... SHAHADA mean "witness?" The messenger: Yes. Shakira: SHAHADA is witness. The word SHAHADA means witness. The messenger: Did Pari share with you her discovery?

42:22

Shakira: No, what? The messenger: That was a very significant discovery when she was here the last time. Shakira: Why? The messenger: She said, in the Quran, we witnessed God, Sura 7.

42:34

But we never witnessed any of the messengers. Shakira: Yes, of course we witnessed God

42:39

because it says very clearly. The messenger: Yes, and that's why God states the SHAHADA in the Quran in 3:18 as Lā Elāha Ella Allāh. And here it is again.

42:47

35, while they are in this dilemma, [37:35] When they were told, "Lā Elāha Ella Allāh [There is no other god beside GOD]," they turned arrogant. [37:36] They said, "Shall we leave our gods for the sake of a crazy poet?"

43:00

Wow, this is what this guy said. Shakira: But in that verse God says, remember He brought us all in front of Him. And then, so it's very clear there that we saw Him and He told us that. The messenger: Yes.

43:13

The messenger: Yes, and the word SHAHADA is used. Do you bear witness I am your Lord? And we said we bear witness.

43:19

(7:172) قَالُوا بَلَىٰ ۖ شَهِدْنَا I mean, God uses the same word. Oh, you didn't hear this before but that was a very good point that Parivash brought up.

43:28

Ismail Barakat: The word SHAHADA only applies to God. The messenger: No, but it's a fact. In Quran, God says

43:34

(7:172) وَإِذْ أَخَذَ رَبُّكَ مِن بَنِي آدَمَ مِنْ ظُهُورِهِمْ ذُرِّيَّتَهُمْ وَأَشْهَدَهُمْ عَلَىٰ أَنفُسِهِمْ أَلَسْتُ بِرَبِّكُمْ قَالُوا بَلَىٰ ۖ شَهِدْنَا

43:41

So, this is in the Quran that every human being on earth witnessed that God is our Lord. We never witnessed that Muhammad is a messenger of God or ISA (Jesus) is a messenger of God or anybody is a messenger of God.

43:56

So, to say "اشهد ان محمد رسول الله" is a lie. In fact, this is why God says when the hypocrites say "اشهد ان محمد رسول الله", God says God knows you are His messenger and God knows they are liars, because they are stating a lie.

44:10

Even though the body is witness, but the person, the soul, has never witnessed that. So, it's a very good point.

44:18

Number 36, [37:36] They said, "Shall we leave our gods for the sake of a crazy poet?" [37:37] In fact, he has brought the truth, and has confirmed the messengers.

44:27

[37:38] Most assuredly, you will suffer the most painful retribution. [37:39] You only pay for what you did. [37:40] Only GOD's servants who are absolutely devoted to Him alone (will be saved). [37:41] They have deserved provisions that are reserved specifically for them.

44:43

[37:42] All kinds of fruits. They will be honored therein. [37:43] In the gardens of bliss. [37:44] On furnishings close to one another. [37:45] enjoying Cups of pure drinks. [37:46] Clear and delicious for the drinkers.

44:54

[37:47] Never polluted, and never exhausted. [37:48] With them will be beautiful [or handsome] companions. [37:49] Protected like fragile eggs.

45:04

The people of Heaven visit the people of Hell [37:50] They will confer with one another. [37:51] One will say, "I used to have a friend. [37:52] "He used to mock: 'Do you believe all this? [37:53] "After we die and turn into dust and bones, we get resurrected?"

45:20

[37:54] it will be proclaimed, "Just take a look!" [37:55] When he looks, he will see his friend in the heart of Hell. [37:56] He (will go to him and) say,

45:28

Now, number 57, wow, because 57... Sura 57 is where we see the disbelievers begging for some energy, some light from the believers in hell. You know those light bugs, Ismail? Those light bugs.

45:46

When the believers go to visit their friends, because the main feature of hell is darkness. They will be like fireflies, the light bugs.

45:57

And the 57, the disbelievers are begging, let us have some of your light. They will be starving for energy. And we see it here again at 57.

46:07

56 [37:56] He (will go to him and) say, "By GOD, you almost ruined me. [37:57] "If it were not for my Lord's grace, I would have been with you now. [37:58] "Do you still believe that we die, [37:59] "only the first death, then we never are requited?"

46:32

60 [37:60] Such is the greatest triumph. [37:61] This is what every worker should work for. [37:62] Is this a better destiny, or the tree of bitterness? [37:63] We have rendered it a test for the transgressors.

46:46

[37:64] It is a tree that grows in the heart of Hell. [37:65] Its flowers are like the devils' heads. [37:66] They will eat from it until their bellies are full. [37:67] Then they will top it with a hellish drink.

46:56

a couple of Bloody Marys.

47:03

[37:68] Then they will return to Hell. [37:69] They followed their parents blindly. So I'm gonna stop right here, if there are no questions...

47:20

Page 214.

47:30

أَعُوذُ بِاللَّهِ مِنَ الشَّيْطَانِ الرَّجِيمِ بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

47:35

A woman: Salāmun 'Alaykum The messenger: 'Alaykum Salām

47:40

[10:43] Some of them look at you, but can you guide the blind, even though they do not see? [10:44] GOD never wrongs the people; it is the people who wrong their own souls.

47:50

[10:45] On the day when He summons all of them, they will feel as if they lasted in this world only one hour, during which they met. Losers indeed are those who disbelieved in meeting GOD; and they are not guided.

48:07

[10:46] Whether we show you some (of the retribution) we promise them, or terminate your life before that, to us is their ultimate return. GOD is witnessing everything they do.

48:20

46 is a repeated verse in the Quran, and it really means that the people who advocate God alone will be ridiculed always by somebody until the last day of of their lives. It is what it means.

48:42

[10:46] Whether we show you some (of the retribution) we promise them, or terminate your life before that, to us is their ultimate return. GOD is witnessing everything they do.

48:53

[10:47] To each community, a messenger was sent. Once their messenger comes, they are judged equitably, without the least injustice.

49:04

I may have to go back and re-translate this, make it clearer. Community, people think community like eastern hills subdivision, something like that.

49:21

I think community in the Quran means like the Christians, Jesus, the Jews, Moses, you know, the Muslims, Muhammad. This is what it really means.

49:36

So, it is not a community or a generation, or a congregation. It could be the congregation, to each congregation a messenger. People have the Baptists, the Presbyterians, they are different congregations.

49:58

Yeah. Something like that.

50:05

What is Ummat in Farsi? What is the impression you get? Behrouz: A group of people. This is Arabic, we just use it.

50:16

The messenger: But you do have the word Ummat. So, when you hear it in Farsi, how big a group is it? How do you apply it in Farsi?

50:27

Behrouz: It's just a big group. The messenger: Oh, Ok. In the Quran, this is what it means. Behrouz: This word in Farsi is not used except in the translation of the Quran.

50:44

The messenger: Oh, Ok. Not in your daily language. Like the Ummat must listen to this.

50:57

The messenger: Yes, The Ummat is in trouble. This means the whole Muslim Ummat. It means all the Muslims in the world. 48.

51:08

[10:48] They challenge: "When will this [asteroid come to hit us], if you are telling the truth?"

51:13

The Messenger Possesses No Power [10:49] Say, "I possess no power to even harm myself, or benefit myself;

51:19

It is God who will decide that. [10:49] ...only what GOD wills takes place." Each community has a predetermined life span. Once their interim comes to an end, they cannot delay it by one hour, nor advance it.

51:36

[10:50] Say, Now here, each community has a predetermined lifespan. Community here is like the Roman Empire, for example. There is a time for it, the Byzantine Empire, the American Empire.

51:56

It is like a whole nation, a country.

52:06

[10:50] Say, "Whether His retribution comes to you by night or by day, why are the guilty in such a hurry?"

52:13

[10:51] "If it does happen, will you believe then? Why should you believe then when you already had challenged it to come?"

52:20

They may be like Pharaoh, when they see the asteroid coming. (unintelligible).

52:29

Oh, really? Oh, wow. (unintelligible).

52:37
 You're kidding? And you're sitting there in the corner, quiet? He is not sitting there. Look what it is. (unintelligible).

52:44
 The messenger: Well, how do you know? Behrouz: How did you know?

53:04
 The messenger: He's just sitting there. A man: One hour of broiling. The messenger: Wow. One hour of broiling. H. J. Melosh believes a meteor may have hit the planet, sparking a firestorm that destroyed most life on earth.

53:30
 The messenger: This is the guy who published an article. He even has pictures and illustrations. A man: Look what it hit, the Arabs. The messenger: No, that's Europe.

53:42
 The messenger: A comet or asteroid slams into earth. Oh, I wish I could put this in the...

53:48
 Behrouz: (unintelligible).

53:53
 The messenger: Vaporized rock and debris caused by the impact shoot into space. Vaporized smoke, vaporized rock. As the debris re-enters the atmosphere, each of the trillions of grains of sand will generate 1800 to 2000 degrees Fahrenheit incoming debris with surface.

54:25
 That is the incoming debris. Thermal radiation cloud, source H. J. Melosh. Who is he? Imagine the entire sky erupting with fire. Smoke from the sky.

54:42
 ۞ فَارْتَقِبْ يَوْمَ تَأْتِي السَّمَاءُ بِدُخَانٍ مُبِينٍ (44:10)

54:48
 The messenger: Now feel the heat from such a horror. Ten times hotter than high noon on a July day in the Arizona desert. Hot enough to ignite much of the world's forests, like so much timber. Hot enough to broil steaks, dinosaur steaks.

55:11
 So, this is U.A. planetary scientist, H. J. Melosh and his colleagues say in an article published this week in Nature. OK, this is what has been mentioned last week in Nature.

55:26
 Mahmoud: I'll get the nature magazine. The messenger: Yes, timing and the picture.

55:38
 The messenger: Yeah, I have to rewrite that article now. Thanks, Mahmoud for informing us. Thanks for your job. Great job. "Stand there, no customers, what to do? Oh, the paper is here. Let me glance through what happened to Somalia. Is Siad Barre still alive?"

56:00
 51. أَعُوذُ بِاللَّهِ مِنَ الشَّيْطَانِ الرَّجِيمِ بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

56:06
 [10:51] "If it does happen, will you believe then? Why should you believe then when you already have challenged it to come?" [10:52] It will be said to the transgressors, "Taste the eternal retribution. Are you not requited precisely for what you earned?"

56:23
 [10:53] They challenge you to prophesy: "Is this really what will happen?" Say, "Yes indeed, by my Lord, this is the truth, and you can never escape."

56:31
 I think these verses are applicable to both of, for the perspective, because this is a crucial perspective.

56:40
 What Price Faith, 54. [10:54] If any wicked soul possessed everything on earth, it would readily offer it as ransom. They will be ridden with remorse when they see the retribution. They will be judged equitably, without the least injustice.

56:57
 The thing about these asteroids is that they can come in any sizes, you know. This is what he says killed the dinosaurs.

57:14
 So, it doesn't have to be this size. It can come in any size that God chooses. Everything will be measured. And the description of Sura 34 is that, obviously, it will not end life on earth.

57:25
 Mahmoud: And also it hit different places on earth. The one that he says killed the dinosaurs hit so many areas, the whole earth became ignited. It hits only one area.

57:37
 The messenger: Yeah, this will be just in Arabia.

57:47
 They don't say what he's holding in his hand. (unintelligible).

58:03
 The messenger: No, no, it's an odd-shaped rock. A woman: (Unintelligible).

58:09
 A woman: 95% iron and 5% metal. The messenger: I mean, we just one as big as this mosque inside Arabia. That will do it.

58:19
 Mahmoud: (unintelligible) Behrouz: This is what we don't know. I'm sure it depends to the velocity of the object and the size that how much area is gonna...

58:34
 Mahmoud: 40,000 miles an hour, speed. Behrouz: 40,000?

58:40
 The messenger: It should be the same. Velocity will be the same.

58:46
 Behrouz: And it's coming from the, I mean, 2 planets hit each other.

58:54

The messenger: No, no, they don't have to. Behrouz: They don't have to? So, what is it...? The messenger: When they hit each other, it will be a number of them. Because they break into pieces and all the pieces will fall.

59:06

Behrouz: So, this is where they're coming from. 2 planets hit each other... what else is it? The messenger: No.

59:12

The messenger: Pieces of meteorites float in the space, billions of them.

59:17

One of them will come and there's one now that intersects the orbit of the earth. You know what this means? Did you hear the test of it? The earth's orbit around the sun is like this.

59:27

So, the earth is here, the asteroid goes in the orbit like that. And then comes back and hits the orbit like that. It keeps doing this. So, one of those times the earth would be in that spot.

59:47

The messenger: The five daily prayers are so important that... Shakira: Are they the most important of all the prayers? The messenger: Definitely.

59:55

The messenger: This is a daily... Shakira: If one individual just prays 5 times a day, that person will reach a very high rank and another person who does all the other four duties but is not praying regularly, is that...

1:00:12

The messenger: You can't really divide it like this. A righteous person will do all of it. Shakira: But I have a feeling he has a computer and he puts everything in it and comes out easily.

1:00:22

The messenger: Yes, yes, that too. Every time he says "Subhan Allah", the computer clicks and reads it for him (unintelligible). And this is exactly what 115 means that Whatever righteous work they do,...

1:00:42

Dr. Sabahi: [3:118] O you who believe, do not befriend outsiders who never cease to wish you harm; or wish to see you suffer. Hatred shows through their mouths and what their chests hide is even worse. We have clarified the revelations for you, that you may understand.

1:01:00

119. [3:119] Here you are loving them, while they do not love you, and you believe in all the scripture. When they meet you they say, "We believe," then as soon as they leave they bite their fingers out of rage towards you. Say, "Die in your rage." GOD is fully aware of the innermost thoughts.

1:01:25

120. [3:120] When something good touches you they hurt, and when something bad happens to you they rejoice. If you steadfastly persevere, and maintain righteousness, their schemes will never hurt you. GOD controls everything they do.

1:01:41

I'm stop here because I think these three are related to each other under the title: Do Not Befriend Hypocrites.

1:01:53

This is another lesson which we can relate it to that best community ever raised among the people. That God is telling us that be aware of the outsiders

1:02:11

who never cease to wish you harm and wish to see you suffer. The only person or people who can be like that, to suffer, to wish harm and want to see other people suffer,

1:02:30

they should be devilish. There is no humanity involved because that is the time that you have completely

1:02:44

given up your soul to the Satan. Because these are the things which are satanic, wishing other people harm and suffering. A righteous person, a person who believes in God

1:02:58

and is leading a righteous life, he or she never wants suffering or harm for anybody else.

1:03:11

God is saying that hatred shows through their mouths and what their chest hide is even worse. That's very interesting. People who are like this, people who enjoy seeing other people suffer,

1:03:24

they harm themselves. They hurt themselves. They suffer more than the others because you live your life, you believe in God, you are living a life that you think you believe is the righteous life,

1:03:38

but those people who have nothing else to just watch you and suffer because they suffer with the way that you walk, the way you talk, the way you eat.

1:03:52

They just, whatever they do, they are the ones who are looking for something. They just all the time are, because they are full of so much hatred, which God says hatred shows through their mouths

1:04:08

and what their chest is hiding is worse. I have seen it through my own life that no matter what you do, sometimes you are even unaware of the fact that some people are watching you and are suffering because of what you do.

1:04:26

You are just doing it naturally because of your beliefs, but others who are watching you, they get hurt. It's just, either it's unacceptable to them or for no reason. For example, if I go and tell a friend that I go to

1:04:43

Friday prayers, first of all they look at me and say "hey, what is wrong with you? you know. What are you up to? Why you go to..." Because it is the tradition in the Muslim world that

1:04:58
either you are stupid and follow God's revelations, especially among the educated, or you are after something. Other than that, there is no reason for you to go to a Friday prayer

1:05:10
or go and spend your time reading the Quran. This is the fact. So, as soon as they hear that, their receivers in their radars start collecting all the signals.

1:05:22
And You wouldn't believe how many channels they have to receive. You are emitting on one channel, but they have a million channels receiving.

1:05:31
So, they are the ones who worry about it. You don't worry, you're just leading what, you're doing what you believe is right, and hopefully it is, but they are the ones who are worrying

1:05:46
what is going on. Because they, although they say that they don't want to follow you, they don't wanna do the same thing that you do, but somehow, for some reason,

1:05:59
they are so much interested. They wanna see it. You know, they wanna know why. And when you tell them, then it's like talking to a stone wall.

1:06:11
[3:118] it's for you, that you may understand. [3:119] Here you are loving them, while they do not love you, and you believe in all the scripture.

1:06:21
This is why you love everyone else, as God says in the verses that they refer to. A righteous person, a believer, doesn't see any distinction among anybody else, and sees everyone the same.

1:06:37
That is what we have a lot of discussion with my own kids, who are sleeping, both of them, more or less, about racial issues, you know, how we can blame other people for being racist,

1:06:51
how we can blame other people looking at us differently, rather than looking, you know, similar to everybody else. But the fact is, I have to go first back to my own system,

1:07:04
and see whether I see anybody else differently, whether I see a white person from a black person, an oriental from an Iranian, and so on and so forth. If I can do, if I can clean myself,

1:07:20
if I can purify my own soul, to see everyone else the same, then I won't have any problem with other people, because if they look at me, and

1:07:30
they think that I am a different race, or they are racist, I look at them and I see that they are suffering, as God is saying exactly, they are the ones who are suffering

1:07:41
because they think that they want you to suffer, they enjoy it, but if you purify your own self, and get to the point that you are a righteous person, you don't see any difference between any other people

1:07:57
and then you don't care about what the other people see, and that is what is expected from you.

1:08:06
[3:119] ...When they meet you they say, "We believe," I think most of us have that experience.

1:08:13
[3:119] ...then as soon as they leave they bite their fingers out of rage towards you. Say, "Die in your rage." GOD is fully aware of the innermost thoughts.

1:08:24
So, this is, I'm not gonna talk more about it, it's very clear, and 120.

1:08:33
[3:120] When something good touches you they hurt, and when something bad happens to you they rejoice. If you steadfastly persevere, and maintain righteousness, their schemes will never hurt you. GOD controls everything they do.

1:08:46
God is giving assurance to us, that if we put all of our faith in Him, and follow what He tells us to follow, then we have nothing to worry, that's the best expression.

1:09:02
Nothing to fear, nothing to grieve, and the people who are hurt, who grieve, who are jealous,

1:09:15
they are suffering, let be it. I have nothing to do with it. That's the life that they chose.

1:09:21
That's the way that they are going, and this is the way that I am going. So, God is assuring us that He is aware, and He is controlling everything they do.

1:09:33
And so I don't have to worry about it, and think too much about it. It's a very, very good lesson that I don't mean,

1:09:46
don't get me wrong, that you don't have to do your responsibilities, because God is

1:09:53
exactly telling us that if you are part of that community, you always have to be aware.

1:09:59
You have to be advocating righteousness and forbidding evil, which is part of the community work,

1:10:04

work or part of your social responsibilities, but if you put too much emphasis on what other people say about you, or think about you, then that's the time that you are in trouble. I stop here,

1:10:16

before starting 121, for questions and discussions again.

1:10:25

A man: Verse 119, where God says, that as soon as they leave, they bite their fingers out of rage. In Sura 25, verse 27 on page 362, God says

1:10:41

[25:27] The day will come when the transgressor will bite his hands (in anguish)...

1:10:46

What I think is interesting here, very beautiful and interesting, is that God says that he knows what is in the chest, and He says, in Sura 3, verse 119, He's fully aware of your innermost thoughts.

1:11:00

This tendency to bite one's hands in an abnormal way, and bite the fingers, is very common in a person's anger and rage, and suffering.

1:11:12

They may appear to be otherwise, but this is something that can actually recognize, if possible, one kind of indication that a person has this anxiety and anguish, and God knows it.

1:11:23

And I see these two verses where we're talking about anger, rage, and God knows what is in the heart,

1:11:30

and He knows what human beings do, certain habits they develop as a function of whether

1:11:35

or not they're in a state of peace, or they are in a state of anguish or rage. So in that

1:11:42

sense, God is, He is aware, He knows the relationship between behavior, certain habits, the things

1:11:51

we do, and what's happening inside us. And we see the major thing here, of the anguish, the rage and the suffering.

1:12:05

The messenger: I wanna talk about John 18, well, I mean, actually there are three of them. We are people who decided that God knows best, and we don't go to anyone else for what is good for us, what is bad for us.

1:12:18

and we are His servants and creatures, and we decided we're gonna obey what He tells us. And God has a very good reason for any of these commandments.

1:12:28

Now here, He's telling us, all you who believe, do not befriend outsiders, etc. etc.

1:12:34

He says "Do not befriend them." Why is God telling us this?

1:12:39

From the experience we've seen in the last 12 years in this Masjid, it's because these people, the outsiders,

1:12:49

these people may take you away. And we know what this means. Actually, they will do everything possible

1:12:59

to stop you from being here, from continuing to worship God and follow His commandments.

1:13:07

And this is the biggest disaster that can ever happen to anybody. And we've seen it happen,

1:13:12

and we've seen it happen, we've seen the consequences for those people. And then God is giving criteria and descriptions of these people.

So, a good subtitle here will be: Run for your life.

1:13:28

When you meet these people and sense that they are not totally

1:13:33

in agreement with following God's commandments, for example if they mock the Friday prayers,

1:13:40

I'm telling you, I've seen people who were dismissed from God's grace because of not doing the Friday prayers.

1:13:46

They didn't have excuses. You have a very good excuse, a very good excuse.

1:13:53

But God knows. It's between you and God, that you cannot possibly make the Friday prayers, that's fine. But these are people who, in their mind, it is not important to do the Friday prayer.

1:14:03

When God says "when the Friday prayer comes, go to the Friday prayer and drop all business." God is saying this.

1:14:09

So, I mean, we're either believers who follow God and obey him, or will not. There is no in between.

1:14:15

God is saying "O you who believe, do not befriend outsiders who," etc, etc, all the descriptions. What is God's interest in this?

1:14:23

Our welfare. Because if we mix with them, they will influence us.

1:14:31

And there is that chance or that possibility that may take us away from the path of God, and this is the biggest disaster.

1:14:38

Especially, when you come this close. When you're sitting here at noon witnessing miracles, right? Witnessing miracles, greater than Moses' miracles when he threw down the staff.

1:14:51
 So, after seeing all this, when you see God's commandment, God says "do not befriend them." Maybe you can talk to them. But befriend is a very dangerous disobedience of God.

1:15:07
 Mahmoud: According to Quran, believers have the most powerful truth, and they do not (unintelligible) with people on the subject.

1:15:17
 But those people here, who don't have any base or any discretion. Those people, they are not mischievous people.

1:15:27
 They are playing in both sides. And for this reason, those people, to befriend these people will not

1:15:34
 give you anything. You will not gain anything from them. They will not gain anything from you because really they are not sincere.

1:15:41
 The messenger: Even disastrous. Mahmoud: Yes, only they will give you bad things.

1:15:46
 The messenger: Of course, you can try to help them, guide them, but once you have done this, you delivered the message, you tried to help them, and then you find that they are not responding,

1:15:57
 and they continue their defiance of God and mocking you and so on. Run for your life.

1:16:05
 It's a very important commandment. You will not take God's orders lightly. "O you who believe, do not befriend outsiders who never cease to wish you harm, etc." Now, you take this seriously.

1:16:24
 The messenger: Back to Dr. Subahi and one... Dr. Sabahi: Abdullah, I think. Abdullah: I have a comment.

1:16:32
 Abdullah: Believers are recognized, righteous people are recognized by the people who don't believe in the Hereafter. And the reason they want, although they say they don't believe in what you're doing,

1:16:51
 deep inside they think you might be right. And they are scared. They want you to be in the same pot with them.

1:17:04
 And the only way they can see is that you're wrong, there's something bad that happens to you, and they look forward to something bad will happen to you, but it never happens.

1:17:20
 If it happens, they rejoice. If it doesn't happen, they're outraged inside.

1:17:31
 It's just because deep in their heart, they think you might be right and they'll be in

1:17:44
 real trouble. And they wanna tell you what to do to be in the same pot, same problem. Abdullah is

1:17:52
 The messenger: Abdullah is quoting 4:89, you know. Let's look at it, 4:89, it's exactly what God is telling us. It's a very good psychological analysis.

1:18:06
 Page 92 says, [4:89] They wish that you disbelieve as they have disbelieved, then you become equal.

1:18:12
 to be in the same boat with them.

1:18:20
 It's just they feel that, I don't know, I have a feeling that they sense your soul, the size of your soul, it kind of bothers them. You have a strong soul, you go there and you'll take over.

1:18:35
 So, they want you to be in the same boat as they are. Ok. 121, The Battle of Badr.

1:18:45
 Dr. Sabahi: 121, The Battle of Badr. [3:121] Recall that you (Muhammad) set out to assign to your people their positions for battle. And GOD is Hearer, Omniscient.

1:18:59
 122. [3:122] Two groups of you almost failed, and GOD was their Lord. In GOD the believers shall trust.

1:19:09
 [3:123] Thus, GOD gave you victory at Badr, even though you were weak. you shall observe GOD, to show your appreciation. [3:124] You told the believers, "Is it not enough that your Lord supports you with three thousand angels, descending?"

1:19:24
 [3:125] Yes, if you steadfastly persevere and maintain righteousness, then they attack you suddenly, your Lord will supply you with five thousand* angels, well trained.

1:19:37
 126. [3:126] GOD gives you, this good news, to assure your hearts. Victory comes only from GOD, the Almighty, Most Wise.

1:19:47
 127. [3:127] He thus annihilates some disbelievers, or neutralizes them; so they end up in failure.

1:19:56
 128. [3:128] It is not up to you; He may redeem them, or punish them for their sins.

1:20:02
 129. [3:129] To GOD belongs everything in the heavens and everything on the earth. He forgives whomever He wills, and punishes whomever He wills. GOD is Forgiver, Merciful.

1:20:15
 I stop here. 121 to 129 is, as the subtitle says, is about the Battle of Badr,

1:20:27
 which, I think, it is the first battle that Muhammad and his followers had to fight against disbelievers. God is reminding Muhammad that when you

1:20:48
 were assigning people in the position for battle, they knew that they are going to attack them in their town, that community that they had, and there were this bunch of, this group of

1:20:59
 believers with the prophet, and they were ready to defend. And of course, it seems that

1:21:09
 not all of those people were at the same level of belief. There were some who were better believers, they were stronger believers, and maybe there were people who had some

1:21:23
 some doubts in how far or how much God can help them. So, God is reminding Muhammad that when you

1:21:32
 were assigning your people for the positions for the battle, two groups of you almost failed,

1:21:42
 and God was their Lord. Although two groups of you failed, since I don't know the exact

1:21:51
 history of the Battle of Badr, I don't know if this failure is in the real battle

1:21:57
 that they went out and fought and failed, or they failed the test, because this was a test of

1:22:04
 how much you believe. Imagine that something happens outside, you know, now we have to go

1:22:11
 and put our lives, say, okay, this is for God, and God wants us to go and fight these people who are attacking this mosque.

1:22:20
 And then, that's the real test. This is one of the most precious things that you like, is your life. You have to go and risk your life

1:22:29
 in the cause of God, you know, it is for God. So, it seems that if people have different

1:22:35
 levels of belief, some people may doubt it, say "is this real battle? Is this really Muhammad, right, that this is for God?" And then you question.

1:22:47
 And God is saying that two groups of you almost failed in that,

1:22:53
 because those people didn't trust or didn't believe that God can help them with his angels.

1:23:00
 And then, God is saying in 123, that [3:123] GOD gave you victory at Badr, even though you were weak.

1:23:06
 you know, outnumbered, weaker, maybe the other side had better arsenal. And God is reminding them that you shall observe God to show your

1:23:18
 appreciation. He helped you. He made you victorious over the disbelievers, and you should remember, you have to always remember God.

1:23:28
 [3:124] You told the believers, "Is it not enough that your Lord supports you with three thousand angels?"

1:23:35
 [3:125] Yes, if you steadfastly persevere and maintain righteousness, then they attack you suddenly, your Lord will supply you with five thousand angels, well trained.

1:23:44
 This clearly shows that how a believer, as Rashad just very, I think, beautifully put it, if you are a believer, you have so much strength, you have something you

1:23:59
 that even at the everyday life causes that strength. It shows in your system. You know, you walk, you talk with more strength, with self-confidence, because

1:24:14
 as was mentioned in today's Khutba. Since you believe in God, you believe in someone Who is the Superior Force, who is the Creator of the whole universe.

1:24:27
 So, you see everybody else the same. You don't worry about your boss. You don't worry about anything. You, your soul has grown so big,

1:24:38
 hopefully, that if you go in a room with some disbelievers, then there is not enough room, they just get pushed, they get squished.

1:24:47
 So, and that's the time that God comes to your help. You go in a community and you see that. This reminds me of a story that I was told, I don't know whether I told you this or not.

1:25:02
 Tariq is here. I was talking to his parents, because they are Muslims. And they were saying that the first time they were exposed to Islam,

1:25:11
 through Elijah Muhammad, in Brooklyn, New York, before that they were just normal people.

1:25:19
 They were always thought that they are inferior to other people and so on and so forth.

1:25:28
 But when they went through and they were introduced into what was told to them that this is Islam,

1:25:35
whatever it was, that there is a God, Allah, you have to follow Him, you believe in Him, and if you follow that, you do your prayers, then you are strong. And they were saying that after they even got that close to the real thing, which is believing in God,

1:25:53
which then, as we know the history of the black Muslim movement in this country, which I'm sure

1:26:02
Douglas is in a better position to tell us about it, but the thing that was interesting

1:26:11
to me was the strength that they said they felt with this. They said that all of a sudden

1:26:16
they felt that God is giving them so much strength that they would go to places that

1:26:21
they never imagined that they could go. They would go to places which were drug dealers

1:26:27
with shotguns, you know, and they were saying that they would go to these places, and all of these

1:26:32
nastiest people in the world that live in that area were afraid of them. Even they had shotguns, even they had knives, even whatever. And that shows, this is an example, but God

1:26:46
is telling us exactly that if you believe in Him, He's going to support you. The angels,

1:26:53
the numbers that are given here, which in the footnote, you can see that the numbers that are in the Quran are multiple of 19. God is giving these numbers and telling us that

1:27:07
in everyday life and also in the real battles that have happened in the past, and

1:27:13
may happen in other forms. It doesn't have to be battles that you fight with bombs and

1:27:20
guns and so on. Everyday battle with believers, which nowadays is mostly through, through communications,

1:27:30
then God is going to help you to be winners. 126,

1:27:36
[3:126] GOD gives this you good news, to assure your hearts. Victory comes only from GOD, the Almighty, Most Wise.

1:27:42
This is the reassurance that God has given us, the good news. [3:127] He thus annihilates some disbelievers, or neutralizes them; so they end up in failure.

1:27:53
[3:128] It is not up to you; He may redeem them, or punish them for their sins.

1:28:00
After you have done your work, you have done your job, it is not up to you. I don't know why always when I teach one of these verses come up, that it's not up to you. He may redeem them or punish them for their sins. So, you have to do your homework,

1:28:17
you have to do your job. The rest of it is up to God to decide what He wants to do with the disbeliever.

1:28:25
[3:129] To GOD belongs everything in the heavens and [everything on] the earth. He forgives whomever He wills, and punishes whomever He wills. GOD is Forgiver, Merciful.

1:28:35
I stop for discussion and questions here.

1:28:41
The messenger: Well, I have lots to say here. Are there any questions before I say that? First of all, I urge you or encourage you to go to any public library

1:28:51
and look up the Encyclopedia Britannica under Badr. B A D R. And in the Encyclopedia Britannica they give you

1:29:01
the numbers of equipment on both sides, the disbelievers and the believers.

1:29:06
And you can see according to those numbers from history, that the disbelievers vastly outnumber the believers for at least ten times as much in every category.

1:29:16
I mean seventy camels against seven things, actually more than that. Look it up in the Encyclopedia Britannica.

1:29:25
And then you look at the outcome of this battle and they say that militarily

1:29:30
it doesn't make sense. The outcome doesn't make sense. Of course, they couldn't count the invisible force of the three thousand.

1:29:39
If you don't see the three thousand angels on the side of the believers. So, this will be quite a point.

1:29:48
A woman: How did they describe each side? Did they describe the believers and disbelievers? The messenger: Yes, they described the Muhammad side and the pagan side.

1:29:56
The messenger: It's quite fair, what I read. It was many years ago when I read it. They

1:30:01
(unintelligible). The messenger: So, just go and look for it in any public library, in Encyclopedia Britannica, under Badr and you'll see this.

1:30:11
A woman: It's in the history of Islam also, the life of the Prophet Muhammad. The messenger: See, Britannica is a neutral, it pretends to be neutral.

1:30:21
But the history of Islam, we'll see they're biased. But Britannica is in a public library. Everybody reads it. It's written by the most outstanding authorities on the subject, fully presented.

1:30:37
The other thing I wanna say is, you notice this is specifically the time of the Prophet Muhammad that was...

1:30:44
I maintained that the time of Jihad was then, but now the battle is completely mental.

1:30:51
However, I wanna share with you a few instances where there may be this simulation of Jihad or something.

1:31:00
For example, in my first visit to Canada, I don't know if you still have the scar there.

1:31:08
But there were so many threats against my life before I went, and Satan participated heavily in that

1:31:15
to the point that I left Canada knowing that I will die there. This is the impression that I...

1:31:22
There were very strange things happening. For example, the day before I left, I'm sitting peacefully watching the TV at home, and all of a sudden my wife says "you have insurance on your life?"

05 Quran Study From Azhar 5 Sura 56;75 & Sura 57 By Lisa 02 17 1989

Lisa: أَعُوذُ بِاللَّهِ مِنَ الشَّيْطَانِ الرَّجِيمِ
0:21
Lisa: بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ Lisa: As Rashad said we're starting with verse 75.
0:34
In Sura 56, verse 75,
0:42
The Honorable Quran
0:48
[56:75] I swear by the positions of the stars. [56:76] [and it] is an [awesome] oath, if you only knew.
0:55
I'd like to stop there for just a second, because we could talk about that all night.
1:04
We know now, though it was not known 1,500, 1,400 years ago, how awesome an oath this truly is.
1:15
1,400 years ago, they could see the stars and looking up in the sky being awed by them
1:21
as we are today. But for us, having the knowledge that we have, we know that what you can see in the night
1:29
sky is just the minutest fraction of the stars there.
1:34
I'd like to read just a little bit of passage, talking about how big our galaxy and the universe really is.
1:48
I don't wanna go too far with it, but just to give us a little bit of a feel again of
1:54
how awesome an oath this truly is, because it is a more awesome oath than we can really
1:59
comprehend, even though intellectually we can try. It's beyond our comprehension.
2:09
Our sun is only one of perhaps a million stars within our galaxy, the Milky Way.
2:15
The size of the Milky Way is awesome. It would take us 100,000 years at the speed of light to cross it from one end to the other,
2:26
bearing in mind that the sun's light travels 93 million miles in four minutes.
2:39
We can appreciate the vastness of the Milky Way. It's 100,000 light years across.
2:46
From the outer limit of our galaxy, how significant is the planet Earth of the solar system?
2:53
Our next door, neighbor galaxy, the closest galaxy to our Milky Way, is 2 million light
3:02
years away. These are all established scientific facts that a civilized and highly educated generation
3:09
is fortunate to know. If we go to the center of our neighbor galaxy, can we visualize the planet Earth of the Milky Way galaxy?
3:19

How significant is it at that distance? By moving away from our galaxy to the nearest galaxy to us, we are already talking about
3:29
incredible distances, millions of light years, yet our universe contains a great number of galaxies.
3:36
Back in the 1950s, Shane and Wharton drew the first map of the universe and its galaxies.
3:44
1,000 galaxies were surveyed then. And since then, scientists have discovered 1 billion galaxies, more than a million times
3:54
what was known 30 years ago.
4:00
Can you imagine the vastness of our universe with its billion galaxies and billion trillion stars?
4:05
We are now talking about billions of light years within our universe.
4:15
Have you lost track of our planet Earth? How significant is our planet Earth?
4:35
It is very important to keep this size and our significance, or perspective, in order to appreciate the significance or insignificance
4:45
of teeny creatures who inhabited this planet for a brief period of time.
4:52
And then we have one of the Psalms. This is from Psalm 8.
4:57
When I behold your heavens, the work of your fingers, the moon and stars which you set
5:03
in place, what is man that you should be mindful of him, or the son of man that you should care for him?
5:17
And yet we get up in the morning and we think, we're so important.
5:23
This is truly an awesome oath. And God is swearing. [56:75] I swear by the positions of the stars. [56:76] [and it] is an [awesome] oath, if you
only knew.
5:34
[56:77] This is an honorable Quran. [56:78] In a [perfectly preserved] book.
5:40
[56:79] None can [touch] it except the [righteous]. [56:80] A revelation from the Lord of the universe.
5:48
We have in our hands the only thing that we need.
5:53
God has blessed us with this incredible blessing. This is our roadmap back to God.
6:01
And we know that it is an honorable Quran, and it has been perfectly preserved.
6:09
We in this mosque know that better than any people on earth. We've been incredibly blessed, incredibly blessed.
6:21
The miracles continue to come, flooding us, absolutely flooding us, showing in no uncertain
6:32
terms that this book is perfectly preserved, and that not only is it perfectly preserved,
6:38
but it is so incredibly coded that there is no way that any human being could have even
6:43
approached, to the slightest degree, approached writing even one Sura.
6:50
It's beyond us, truly, for me.
6:56
And we know now also that none can touch it except the righteous. What does that mean?
7:02
I mean, that doesn't mean physically touch it, but it means that no one can get from this Quran unless they are righteous, unless they are truly
seeking God.
7:11
And beyond that, and more importantly for us at this point, we know that no one could
7:17
discover this miracle without being righteous. There is no way. This miracle is as awesome as anything we can imagine.
7:26
God has already sworn by the position of the stars that this is enough, this Quran is honorable
7:34
and it is perfectly preserved. And that is overwhelming. It's absolutely overwhelming.
7:41
So, we know, first of all, we know that this Quran has been preserved, but we also are given very clearly, the strongest of proofs, that the
discoverer of this code is indeed
7:56
righteous, which is something that of course we will all hear it otherwise, because that's
8:03

the way Satan works. That's the way we all get trapped. But we know very clearly that the miracle and the revelation itself had to have come from God.

8:20

There is no way we could have made it up, or could have been tricked from God,

8:28

that anyone could have tricked God to discover the miracle any more than they could have tricked God to be the prophet whom the revelation was given.

8:42

Verse 81, [56:81] Are you disregarding this [message]? [56:82] Do you make it your [share] that you [reject it]?

8:51

[56:83] (your soul) [will] reach your throat— [someday] [56:84] [then] you will look around. [56:85] We are closer to it than you are, but you [can] not see.

9:02

[56:86] If you do [have] any [power]— [56:87] you [should reclaim] (your soul), if you are truthful?

9:09

Look at how many people are fighting, fighting this miracle.

9:14

These verses to me are specifically directed to them, as well as obviously to those who rejected the Quran.

9:24

Are you evading this message? God has already said that the Quran is perfectly preserved, that none can touch it except the righteous,

9:33

and yet there are those who say that they are Muslim, who say that they have

9:38

studied the Quran, and yet they reject the numerical code. And they do it out of ego, because they don't like what it leads to, which is worshipping

9:48

God alone, and leaving all the tradition, all of the falsehood, all of the garbage, and coming back to the very simple truth.

9:57

It is very simple. It's not easy until you make it easy, until you allow it to be easy.

10:05

It's very simple, and it's very straightforward and clear-cut.

10:12

Those who are evading this message, and that's truly what it is, I mean, anyone who reads this, reads this Quran, has to evade it or follow it.

10:22

If you follow it, there's no way you can follow the Hadith and Sunnah, there's no way you can accept all the other garbage if you are following the Quran.

10:30

So, if you're reading it, and you're still following the Hadith and Sunnah, you are evading

10:36

the Quran.

10:42

[56:82] Do you make it your [share] that you [reject it]? Well, it takes a lot of work, I think, on some level, not to accept the truth.

10:53

You have to work at rejecting the truth, and I think that when you tend to do that,

10:58

or when you do that, then you become fanatic about it. Personally, that's a lot of what we're seeing.

11:09

And it's very clear from the next verses that none of us control our lives. None of us can

11:16

stop death when it comes. God is closer to us than our jugular vein.

11:23

He stands between us and our hearts. We know that God is in control of every, the minutest detail in the universe.

11:34

He controls every atom, every subatomic particle within our body, within the rest of the universe.

11:44

That power is so awesome and so incomprehensible to us that it's probably easier for most people

11:51

to ignore it, because it's too scary to realize that there is a power that is that great.

12:00

And yet, we're here to come back to that realization. We're here because we did not remember that when we were in God's presence on the heavenly

12:14

plane, and we're here again, as Laurie so beautifully expressed, we're here again to

12:23

try and come back within a second chance.

12:28

Should I, can I stop here? Are there any questions or comments?

12:47

Oh, I'm sorry, I don't know when we are because of the meeting. Not sure.

12:53

I'm sorry, thank you. Excuse me.

12:58
The footnote: the Quran is by no means a regular book. Only the sincere seekers of the truth will be allowed to understand it.

13:06
See 41:44. The insincere will be prevented from acquiring any knowledge from the Quran.

13:13
In fact, those who are prevented by God from learning the Quran claim that this verse means

13:18
that no one can physically touch the Quran unless he satisfies certain ablution requirements.

13:23
Obviously, this distortion is a clever satanic plot to prevent people from studying God's

13:29
message to them. Our salvation is in reading, studying, and heeding the Quran.

13:37
The messenger: It's not really "touch", the English word... the Arabic word does not mean touch in English.

13:42
I will have to find another word. But still in English, you can say that means that nobody can derive anything else from the Quran unless they are sincere.

13:59
But in Arabic the word is يَمَسُّهُ And it's different from يَمَسُّ يَمَسُّ is physical touch but يَمَسُّهُ is touch in this meaning that they cannot take, derive, understand anything from its letters, you see.

14:16
Because your teacher is God. When you read this book, you're directly being taught by God,

14:22
as we read in Sura 55. It's not a regular book. That's why you read it over and over a thousand times, and you still find new things every time.

14:32
Unlike a novel, you read a novel and that's it, you throw it away, you don't wanna see it again.

14:38
So, because every time you look in it, God gives you new information.

14:44
This is, in verse 77, the Quran in Arabic is described as KARIM.

14:49
In other places, it's called Quran 'AZIM. And in Sura 50, it's described as Quran MAJID, glorious. 'AZIM, great. KARIM, honorable.

15:00
So, these are actually attributes of God Himself.

15:05
This is awesome, to describe the Quran with the same names of God.

15:11
'AZIM, MAJID, KARIM. It tells you how great this book is. Your salvation is in this book.

15:19
And we're really, really fortunate to be studying it every week. And in the Quran itself, hopefully you're reading it every day, at least one verse every day. Make it a duty upon yourself.

15:32
Because it's a tremendous blessing. [56:79] None can [touch] it except the [righteous].

15:39
And we have an international observation to prove this.

15:47
In the miracle of Quran that is coming out of this mosque, that it is a miracle that is

15:54
like the Quran, ranges from the very simple to the very complex.

16:00
Yet, nobody was allowed to make any discovery in this miracle except those who are connected with us,

16:07
connected with believers, only believers, who believe like we do.

16:12
We believe in worshipping God alone, and upholding the word of God alone.

16:18
Just look at the people who made discoveries. I want to pass this around. Let's do it very fast. Just take one and pass it on to the next one.

16:25
This is a summary of the miracle in one page.

16:31
And when you look on the back, under other features of the miracle, you'll see that the first verse is 19 letters, the number of Suras is 114, 19 times 6.

16:39
Is this simple enough? The first verse is 19 letters. The number of Suras is a multiple of 19.

16:47
The first revelation was 19 words. The last revelation 19 words.

16:52
These are famous first revelations and famous last revelations. And they are very simple. They don't require a computer.

17:00
But not a single person outside the fold of believers was allowed to touch it.

17:08

It's a monopoly. You look at the people who made the major discoveries, Abdullah, Mahmoud, Ihsan, Lisa, many others, Feroz, Ismail

17:22

These are the people that we know. They are all, Gatut, all people who firmly believe like we do.

17:32

And for a long time I was surprised, why doesn't anybody else find these things, you know? Because I needed some support.

17:39

It's very simple. When you look at the back, you'll see how simple it is.

17:45

From the missing BISMILLAH to the extra BISMILLAH, 19 Suras. Is this difficult? I mean, the consistency and repetition of the number 19 is so simple.

17:56

Yet, nobody, there are a billion Muslims in the world, but none of them was allowed to

18:04

find these very simple facts unless they have heard the Quran alone.

18:12

If they believed in Hadith and Sunnah and mentioned other names in their prayer,

18:18

they are not permitted to touch it. This is verse 77.

18:25

By the way, on the front, you see a very complex miracle. In the circle, this was... it's no longer the biggest number in the world, because this is already obsolete.

18:39

Abdullah on his birthday, yesterday, made it obsolete. In that circle, the number begins with the first verse in the Quran, 1.

18:48

So, if you look on the left, there is an asterisk on the left side of the circle.

18:53

And you see, right, we start by 1, 2, 3, 4, 5, 6, 7. These are the verses of the first Sura, 7 verses.

19:00

Followed by the total number of verses in the Sura, which is 7. Then you move on to the next Sura, 1, 2, 3, 4, 5, 6, all the way to 286,

19:09

the number of verses in Sura 2. Then you put the total number of verses in Sura two, 286. And you do this all the way to the end of the Quran.

19:17

When you get to the end of the Quran, if you look on the right side, you see this big arrow that says total number of verses in the Quran. You put that.

19:24

Now, you have a very long number, that is, I like it in the metric system, it's one kilometer long.

19:31

And it consists of 12,696 digits. And it is a multiple of 19.

19:38

If you go on, if you see now, if you look on the right side of the circle, in the middle of it,

19:45

with the big arrow that says total number of verses in the Quran, after the asterisk comes the total number of verses in the first Sura, which is 7.

19:53

And next to it, the 7 verses, 1, 2, 3, 4, 5, 6, 7. Then, you put the total number of verses in Sura number 2, and so on.

20:02

So, what we're doing in the lower half is we are reversing the position of the total number of verses. Instead putting it at the end of every Sura, we are putting it at the

20:10

beginning of every Sura. And brothers and sisters, the number is divisible when you go to the end.

20:16

So now, this is a circle, and connect the two numbers, you have what was, until

20:22

yesterday, the day before yesterday, the longest number in the world, 25,388 digits.

20:29

And that's a multiple of 19. Now, what Abdullah did to make this number obsolete, he added the number of every Sura.

20:38

Okay, let's go now to the asterisk on the left side of the circle.

20:43

It begins with the numbers of the verses of the first Sura, 1, 2, 3, 4, 5, 6, 7, followed by the total number of verses in this Sura, which is 7.

20:52

Now, between the two 7s there, he put the number of the Sura, 1. And he did this with every Sura, and you guessed it, the number is still divisible.

21:02

It's just incredible. And there is more. If you put the number of the Sura at the beginning, or at the end, or in the middle,

21:11

it's still divisible. So, this will be in the Ramadan issue. In the Muslim perspective, you're gonna get more details.

21:22

So now, I don't know how many digits there are from the first Sura to the last Sura, the numbers.

21:28

1, 2, 3, 4, you counted the digits. 114, from the Sura 1, Sura 2, Sura 3, Sura 4, all the way to Sura 114.

21:37
Do you know how many digits?
21:44
474. You add that. A man: Why are you adding 1 and 2 and 3 up to 114?
21:56
The messenger: That's because you put them next to each other, not adding This, this is a by-the-way miracle.
22:03
1, 2, 3, 4 all the way to the end of the Quran, 114. We're putting the digits next to each other.
22:09
474 digits and it's a multiple of 19. So, you put that, you add this to this number which is 25,696. You add 474. Now, we have the biggest number in the world.
22:23
And it is out of this Quran. 2, 4, 25, 3, 88, plus 4 is 70
22:31
So, it's about 25,800 numbers, digits.
22:36
That is divisible. A woman: Can you put it through at the beginning or at the end, or in the middle?
22:41
The messenger: In the middle, meaning between the last verse and the total number of verses. If you look on the left side of the circle, you see the asterisk.
22:49
And above it, you see the number of verses in Sura Al-Fātehah, number 1. 1, 2, 3, 4, 5, 6, 7
22:56
Followed by the total number of verses in the Sura, which is another 7. So, if you put the 1 between the two 7s that you see there, that's the number of the Sura,
23:05
And you do this in all the Suras, it's divisible. If you move the number of the Sura and put it at the beginning, so you have 1, 1, 2, 3, 4, 5, 6, 7, 7
23:13
That's divisible. And if you put the total number of verses at the beginning, so you have 1, 7, 1, 2, 3, 4, 5, 6, 7,
23:19
You still have a divisible number. So, it sounds like almost a physical impossibility, but it locks every verse.
23:31
Somebody called today and said, how do you know it's only the two verses in Sura 9? If you notice that Sura 9 is mentioned here.
23:39
If you look at the upper right corner of the circle, it says "total number of verses in Sura 9." You have to use 127.
23:46
This fellow was calling from Louisville, Kentucky, and he said "how do you know it's only the two verses in Sura 9 that violate the code?"
23:53
So, I told him, because every single verse, what we see here is every single verse in the Quran is authenticated as Divine from God.
24:01
Every single one, except these two. So, it is fitting to mention why God swears by the position of the stars that this is a Quran KARIM.
24:19
By the way, Al-Quran Al-Karim has a numerical value that's 684, a multiple of 19.
24:24
The numerical value of this, the official name of the Quran, Al-Quran Al-Karim.
24:32
Just to change the subject and make it a little bit light-footed. Do you know how they count the stars?
24:37
I'm sure some of you do. But anyway, they go out in the night and take a picture of the sky.
24:42
They just take a picture. They put it in a computer, and the computer will count the number of stars in that area, in that picture.
24:51
And there's a formula that tells you what the circumference from the inside of a circle is.
24:57
And then you can tell from this picture how many are in the whole circumference of the whole sky.
25:06
And you do this a hundred times, and then you take the average of the hundred times, and you have exactly, almost exactly, the number of stars, A billion trillion of them.
25:16
And these are the ones that we see. Because of this, if our Sun is in the next galaxy, we will not be able to see it, because it is one of the dim stars.
25:27
What you see are only the bright stars.
25:32
This is how we counted them. [56:75] I swear by the positions of the stars.
25:38
Because they are in perfect position, in perfect orbits. They don't crash into one another.
25:52
There was something else, I also wanted to mention here.
26:01
I think this is it. Are there any questions?

26:07
A man: I'm not sure. If you have two numbers, what is the quantity of (unintelligible)?
26:18
The messenger: Yes.
26:27
Right, right. We have two halves that are divisible by 19. So, what I'm doing here is just making them into a circle.
26:34
Well, the upper half is a multiple of 19, and you have the total number of verses at the end of each Sura.
26:42
The lower half is a multiple of 19, and the connecting them has nothing to do with anything.
26:48
But in the lower half, you have the number of verses at the beginning of every Sura. If you look on the right side of the circle, look at the right side of the circle at the
26:57
big arrow that says total number of verses in the Quran. Below that, you see Sura Al-Fātehah with the total number of verses, which is 7, at the beginning, not at the end.
27:06
So, you have 7,1,2,3,4,5,6,7 instead of 1,2,3,4,5,6,7,7.
27:14
Both of them are independently divisible by 19. I just put them next to each other.
27:23
And it's because the upper half was a discovery by Feroz Karmally in Canada.
27:29
And he ended up putting the total number of verses in the Quran at the end of the number.
27:37
The lower half is Abdullah's discovery, and the total number of verses comes ahead of the Sura.
27:44
So, the total number of verses in the Quran fits right there ahead of the whole Quran.
27:52
So I put it in a circle. This circle is now obsolete. Great, but obsolete. We have better circles now.
28:03
Lisa: It's a sphere. The messenger: Any other questions? The messenger: Ok. Back to Lisa and verse number what?
28:10
Lisa: Verse number 88.
28:16
[56:88] [thereafter] If he is one of those close to Me— [56:89] then [happiness], flowers, and gardens of bliss.
28:22
[56:90] And if he [belongs with those on] the right— [56:91] [then] peace [to you from] those on the right.
28:28
[56:92] But if he is one of the [rejecters], the strayers— [56:93] then an abode of [retribution]— [56:94] and burning in Hell.
28:35
[56:95] This is the [inevitable] truth. [56:96] You shall glorify the name of your Lord, the Great.
28:44
Verse 88 and 89, actually all of these verses refer back to the beginning verses of this
28:53
Quran, of this Sura, where it talks about the High Heaven, the Lower Heaven, and Hell.
28:59
And we see again in 88 how beautiful the Highest Heaven is. We know, of course, that these are all allegorical descriptions, that God uses allegory because
29:09
there is no way that we, in our present states, can even begin to understand really what is in store for us.
29:16
But we know from the allegory of the Highest Heaven that it is truly bliss.
29:24
And that it is wonderful beyond our dreams. God says that anything we wish for, anything those who are in the Highest Heaven, IN SHAA ALLAH we'll be there, anything they wish for and even more.
29:38
So, God's grace is even greater than anything we can comprehend or desire, wish for.
29:48
And then those on the right, those in Lower Heaven, for them also it's incredibly beautiful.
29:58
And it's peace. [56:91] peace [to you from] those on the right.
30:04
An incredible, incredible triumph to be among those on the right.
30:09
[56:92] But if he is one of the [rejecters], the strayers— [56:93] then an abode of inferno— [56:94] and burning in Hell.
30:20
We know, again, that we can't comprehend really the awfulness of Hell.
30:28
We have a slight idea because we are as far from God as anything in the universe at this point.
30:36

And we know how hellish this world is and how awful it is, particularly when you step out of God's Kingdom.
30:42
We're incredibly blessed to be in God's Kingdom, IN SHAA ALLAH But as soon as you step out, you know what an incredible hell that is.
30:52
And that is nothing compared to the ultimate Hell.
31:00
[56:95] This is the [inevitable] truth. [56:96] You shall glorify the name of your Lord, the Great.
31:08
Mā Shā Allāh Are there any comments or questions on these last verses?
31:17
This was so beautifully discussed earlier, last week and the week before, because we've had those verses before.
31:27
The messenger: Yes, yes, go ahead. Who's next? A woman: I was just so particularly impressed by the ending, the way you end it beautifully.
People who die before 40yrs.
31:40
The messenger: The verses 88 and 89 refer to you, to special people.
31:47
And I say this with thanking God and God says "speak up of God's blessings on you." You're a very rare, fortunate and blessed group of people.
31:57
And 90 refers to all the people who died before the age of 40.
32:05
It says [56:90] And if he [belongs with those on] the right—
32:12
Those people will be very happy because they will go to the Lower Heaven.
32:20
God knew that they deserve, they do not deserve to go to Hell, they deserve to go to the Lower Heaven
32:26
because of circumstances that only He knows. That's why He took them at that... they were children that came here to perform a function.
32:36
They were assigned souls that God knows deserve to go to the Lower Heaven.
32:41
Well, they lived until the age of 39 or just before 40, when God takes them at that time
32:47
because had they lived, they would have been swept by circumstances.
32:56
Which brings me to a point that I will be talking about, IN SHAA ALLAH, in the Khutba two weeks from today, IN SHAA ALLAH.
33:06
Where very quickly, IBRAHIM, God says "we granted Abraham his understanding, for we were fully aware of him."
33:16
This verse tells you it was not Abraham's intelligence that led him to discover God.
33:21
God granted him the understanding, because God knew that Abraham deserved to go to the High Heaven.
33:30
And the other verse that I wish to share with you is Joseph, when Joseph almost fell for the governor's wife.
33:37
And then God said "if it were not that he saw a sign from his Lord", then God says "we thus divert sin from him."
33:45
So, was it Joseph who was so great that he didn't fall in sin, or was it God that protected him from sin?
33:51
It was God that protected him from sin. By the way, the verse goes on and says مِنْ عِبَادِنَا الْمُخْلَصِينَ (12:24) that he was one of our devoted servants.
Believers who were "swept in the crowd."
34:00
Because he was one of God's devoted servants, God diverted him from, protected him from sin.
34:07
So, what I'm saying is that when we agreed with Satan billions of years ago,
34:16
some of us were swept in the crowd. And God knew that.
34:21
This is what God meant when He said to the angels, the angels said "put them all in Hell." And God said "I know what you do not know."
34:29
So, God knows that we were swept in the crowd, some of us were swept in the crowd, and do not deserve to go to Hell.
34:37
This is why God granted Abraham his understanding. God granted you the fortune to come across the true message, to worship Him alone and upholding His word alone.
34:50
It's not because you're clever, or because I'm smart. It's because apparently God, not apparently, obviously, God knew that some of us were swept
35:01
in the crowd somehow, and we agreed with Satan, and we deserve the chance to come here to be redeemed.

35:11
 So, the people who are taken, like Martin Luther King, taken only a few months before his 40th birthday.

35:18
 Malcolm X, being taken two months before his birthday, his 40th birthday.

35:23
 And all the other signs that we have seen. In fact, if you look at verse 41, where you're holding the book now, you see 41 is the beginning of Hell.

35:34
 So, those of you who make the decision, if you look at the previous Sura, verse 41,

35:40
 we know from this circle here that these numbers of verses are designed, divinely designed for a reason.

35:49
 And we have all these mathematical proofs. Once you get into the age of 41, you better be worshipping God alone.

36:00
 Just a second. I don't wanna forget what I'm saying. So, had God left Martin Luther King to live beyond the age of 40, he would have been swept,

36:10
 that's the word that brought me to Khutba two weeks from now. Whether being swept by his environment and his circumstances into, maybe, mentioning Jesus and things like that,

36:19
 for so long he was a pastor in a church, I think, but in his heart, and even vocally,

36:26
 he never said anything about Jesus. Not that I heard of, in his vast amount of recordings, he always talked about God.

36:34
 So, this is why God chose to take him, at that time, to protect him from going beyond

36:42
 to this number 41, and be swept by his environment and his circumstances into Christianity.

36:50
 So, it will be like we see here on verse 90, [56:90] And if he [belongs with those on] the right— [56:91] [then] peace [to you from] those on the right.

36:59
 And you can be sure that God's justice put these people exactly in the right place.

37:04
 He deserves to be in the Lower Heaven. When Satan made that blasphemy billions of years ago, there were degrees of convictions among us

37:16
 to go from the jinns who completely agreed with Satan, to the majority of humans who

37:21
 were wishy-washy, to some who were swept in the crowd. And hopefully that's us.

37:30
 So, now Kathy has a question.

37:37
 Kathy: And I want to go to the earlier verses, I have a question about the conversation from the entire Heaven. It's obvious we are the later generation now.

37:47
 The messenger: We are the first generation. Kathy: Ok. The messenger: You were not here last week, were you? That's what you get for missing a Friday.

37:59
 Kathy: I had one or two episodes. The messenger: I was just explaining to you why you missed that.

Description of "special" and "first generation" Believers.

38:07
 Kathy: Is there going to be another two generations from this generation or two generations, the higher generation here?

38:21
 The messenger: OK, you're talking about the very special group of people who will be in the closet to God on the Day of Judgment and they are very special people.

38:30
 And this will be like when the Prophet Muhammad started to preach... Well, let's go to Abraham. Abraham started Islam.

38:41
 And then there were people who were with him when the others would throw him in the fire.

38:47
 And then by the time the Prophet Muhammad came, they became idol worshippers. Then, the message was renewed by revealing the Quran through the Prophet Muhammad.

38:55
 And he was secretly preaching. And there were people with him. Those are very special people. This is the first generation.

39:02
 And then Muhammad became victorious and he opened Mecca and all the people in Mecca became believers.

39:07
 They jumped in the wagon. But they do not deserve the same credit as the people who were with him when he was being

39:13
 persecuted and having stones thrown at him and he was cast and called names and persecuted.

39:22
 Does this make sense? So that was a first generation at the time of Abraham, at the time of Muhammad.

39:29
And then ten years ago, Islam was totally corrupted. There is not a single mosque in the world that upholds the commandment to mention only

39:38
the name of God in the mosque, in the worship practices and so on.

39:43
And then God renewed the message with this miracle. So, now we are a first generation.

39:50
And the people who are in this movement, while it is being persecuted and the names and the

39:56
insults and so on, are very special people. Now, ten years from now, we will probably have millions, maybe twenty years, fifty years from now.

40:04
And everybody will jump in the wagon, but they do not deserve the same credit as you do. So, these very special people will be multitudes from this generation.

40:13
After that, when it is famous and successful and it is the thing to do, they don't deserve the same credit. They will not be in the same rank.

40:23
This is what we did last week when you were absent.

40:30
Any questions? A man: The thing between age 40 and the stuff that is related to the messenger being at age 40. The messenger: No.

40:40
The messenger: We don't even know if he was really 40 or not. They didn't have birth certificates then. They're just guessing that the Prophet was 40 when he was awakened and given the Quran. But it has nothing to do with that.

40:52
It is in the Quran, in Sura 46, verse 15, it says...it's what it says. It's based on that.

41:01
Any other questions? We're back to Lisa and Sura 57.

41:10
Lisa: بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ In the name of God, Most Gracious, Most Merciful.

41:17
[57:1] Glorifying GOD is everything in the heavens and the earth. He is the Almighty, Most Wise.

41:24
Everything glorifies God, whether willingly or unwillingly, because God controls every minute atom and subatomic particle in the universe.

41:36
So, physically everything glorifies God. And everything glorifies God mentally except the human beings, who are absolute idiots.

41:47
We are the only ones who chose, who accepted the freedom of choice.

41:53
And so even our bodies glorify God, but unless we make the conscious choice of worshipping God alone

42:02
and accepting and realizing His awesome omnipotence and all of His incredible qualities, we do not... our minds do not glorify God.

42:18
[57:2] To Him belongs the [dominion] of the heavens and the earth. He controls life and death. He is Omnipotent.

42:26
And yet there are those of us who do not glorify Him. [57:3] He is the [First and the Last]. He is the Outermost and the Innermost. He is fully aware of all things.

42:38
[57:4] He is the One who created the heavens and the earth in six days,* then assumed all authority. He knows everything that enters into the earth, and everything that comes out of it, and everything that [descends] from the sky, and everything that [ascends] into it. He is with you wherever you may be. GOD is Seer of everything you do.

43:00
He truly is in absolute control of the universes.

43:07
This verse to me expresses it very, very clearly and very, very beautifully.

43:15
Verse 5, [57:5] To Him belongs the [dominions] of the heavens and the earth. [God is in full control of all things].

43:23
These verses again and again are saying absolutely what we've been saying, that God does everything.

43:31
And yet it is so hard for us to accept that. I mean, you can hear it and you can say "yes", but then, you know, you get sidetracked.

43:43
"Oh, if I don't take my vitamins, I'm gonna get sick." You aren't gonna get sick unless you deserve to get sick.

43:51
That doesn't mean you shouldn't take your vitamins, because God has given us the vitamins, given us the medicine.

43:58
But we have to remember that God is the One who is controlling everything, who is doing everything.

44:04
God controls our bosses. God controls our neighbors. God controls our spouses. He controls not only the physical things,

44:12
He controls the emotions, the hearts and the minds of those around us and of us.

44:18

As Rashad pointed out so beautifully, God bestowed on Abraham his righteousness, his understanding.

44:25

Well, God says very clearly that He bestows on all of us our righteousness. It's not us. It's not ours.

44:31

We, you know, God gives it to us. He controls our hearts and our minds if we make that one choice. The only thing we really control is that one choice of whether we worship God alone or not.

44:45

Once we've made that decision, He goes from there. He takes it from there. And there are a lot of verses that talk about God misguiding those who disbelieve.

44:56

Well, they've made that choice to disbelieve, and He helps them along in that choice.

45:01

Those who believe, He helps them along in that choice. And each and every one of us, I know, have experienced that very thing of God giving us strong signs. We've made a decision.

45:13

Okay, we've repented. We've made a decision. And suddenly, God, I mean, just showers us with strong reassurance.

45:23

It's there because we made the choice, but God is the One who's giving it to us.

45:29

All we can really do is to make that choice. A man: I was wondering if God grants righteousness after we've passed the test, and become a little bit more enduring, or what?

45:48

I know like prophet Joseph was a man, and Joseph said on his deathbed, he said "Thank God, I've granted righteousness" to contribute to his success.

Submission nursery rhymes – singing with children.

46:09

The messenger: This helps.

46:16

A woman and a group of children: As each little rabbit had each last bag, remembering God should be first on our mind.

46:28

We know that everywhere our eyes can see, there are God's creation and signs to observe.

46:39

So, when you see a flower, say "Mā Shā Allāh."

46:45

You want something tomorrow, say "IN SHAA ALLAH." Before you start at anything, say "Bismillah."

46:53

In everything you try to think, say "Alhamdu Lillah."

47:00

Think of God as you go through each day, appreciate His power, His mercy and grace.

47:08

We must remember God, so God remembers us. Every moment that you can, remember God, remember God.

47:20

And when you see a flower, say "Mā Shā Allāh."

47:25

You want something tomorrow, say "IN SHAA ALLAH." Before you start at anything, say "Bismillah."

47:34

In everything you try to think, say "Alhamdu Lillah." When you see a flower, say "Mā Shā Allāh."

47:42

You want something tomorrow, say "IN SHAA ALLAH." Before you start at anything, say "Bismillah."

47:52

In everything you try to think, say "Alhamdu Lillah."

48:23

The messenger: Is that it? I missed the beginning of it, I want you to do it again from the beginning.

48:38

A woman: Can you guys sing a little louder?

48:47

A woman and a group of children: As each little rabbit had each last bag, remembering God should be first on our mind.

48:57

We know that everywhere our eyes can see, there are God's creation and signs to observe.

49:07

So, when you see a flower, say "Mā Shā Allāh."

49:12

You want something tomorrow, say "IN SHAA ALLAH." Before you start at anything, say "Bismillah."

49:21

In everything you try to think, say "Alhamdu Lillah."

49:27

Think of God as you go through each day, appreciate His power, His mercy and grace.

49:36

We must remember God, so God remembers us. Every moment that you can, remember God, remember God.

49:46

And when you see a flower, say "Mā Shā Allāh."

49:52
You want something tomorrow, say "IN SHAA ALLAH." Before you start at anything, say "Bismillah."
50:01
In everything you try to think, say "Alhamdu Lillah." When you see a flower, say "Mā Shā Allāh."
50:10
You want something tomorrow, say "IN SHAA ALLAH." Before you start at anything, say "Bismillah."
50:18
In everything you try to think, say "Alhamdu Lillah."
50:31
The messenger: And we're supposed to say "Mā Shā Allāh."

06 Quran Study From Azhar 6 Sura 59 By Donna PRA Invisible Giants Hypocrites 03 10 1989

Donna: Okay. So, in verse 5, it goes along with that idea.
0:14
Whatever you do, as long as you submit it to God, you're doing what God wants you to do.
0:25
Okay, and God doesn't even allow the disbelievers to do things that He doesn't will.
0:34
He's in control of the actions of the disbelievers, too.
0:45
One of the ways He does that is that He sends angels to protect the believers from the disbelievers' actions.
0:53
Okay, so if He knows that something needs to be protected, He'll send angels, and it says that in verse 6.
1:04
Then, we go on to verse 7. [59:7] Whatever GOD restored to His messenger from the (defeated) communities shall go to GOD and His messenger (in the form of a charity). You shall give it to the relatives, the orphans, the poor, and the traveling alien. Thus, it will not remain monopolized by the strong among you. You may keep the spoils given to you by the messenger, but do not take what he enjoins you from taking. You shall reverence GOD. GOD is strict in enforcing retribution.
1:36
[59:8] (You shall give) to the needy who immigrated. They were evicted from their homes and deprived of their properties, because they sought GOD's grace and pleasure, and because they supported GOD and His messenger. They are the truthful.
1:49
Okay. I'll stop there. What shifts the gears again. We read about the spoils of war and how we shouldn't... the spoils of war shouldn't be given to the rich to make them richer and more powerful, you know.
2:08
There are people that need things, and they should be given to them so that, you know, it could be fair.
2:15
It's... you know, I think about, like in World War II again, how Hitler and all the people, they were taking all the riches from the places that they invaded.
2:30
And, you know, the rich got richer and more powerful, and, you know, the poor were left on their own.
2:42
And God is most fair, and so He says "give it to the poor and those who need it."
2:54
Are there any comments on this page so far? The messenger: Okay, let me comment here on this Exodus.
"invisible giant" protects you, example given wars during the days of Prophet Mohammad also XRAYs, UV and infrared given as examples of invisible forces.
3:03
Okay, we hear over and over again, God is telling us that He controls the minds and the hearts
3:09
of every single creature, every single ant, every single elephant, every single human being on earth.
3:17
And over and over again, He's telling you that you have an invisible giant standing
3:23
by you to protect you as one of God's people. There's an invisible giant standing, going wherever your children go, anything connected with you.
3:36
When you go take a test, there's an angel with you, an invisible giant. And they know everything about nuclear physics, mathematics, geography, psychology.
3:46
And they deal with your kids. Here we have an example of the enemies of the...
3:54
The believers were overwhelmed. They were a small minority, and all the tribes banded together to finish Islam once and for all.
4:01
And finish Muhammad, and finish all the people who believed with him. And they were a very small minority.
4:07
The armies were huge. Now, these are all the tribes of Arabia, united, to wipe out Islam once and for all.
4:17
And they went around Medina. And they had allies inside the city, in the hearts of the, among the believers.

4:26
But they couldn't do it. There's no way they can do it. God puts terror in their hearts, and you just hear Exodus, they just left their homes on their own accord.

4:36
They were terrified, because it's not them. It's not up to them.

4:43
So, they had to leave their homes on their own. They left their lands, their homes, their properties, and they just fled.

4:52
The believers didn't do anything. They didn't need to. And if you recall from Sura 33, the battle of the Partisans, the angels took care of

5:01
all those parties that were surrounding Medina to finish Islam, and the Prophet, and the Muslims, once and for all.

5:07
Violent wind blew them away, literally blew them away. And they had to leave.

5:14
And this is, you read in the Quran consistently, that God's system does not change.

5:21
There's an invisible giant standing by you to protect you, to serve you, to tell you "I'm your friend."

5:28
And to go with your children wherever they go.

5:33
You have grown up girls, don't think they are not chaperones, they are chaperones. They are protectors.

5:39
You don't have to worry about a single one of them. And this is no longer just a bunch of talk.

5:47
We have here, in this mosque, we have a track record, right here. And we've seen examples. We've seen both sides of the coin.

5:55
So, we know what we're talking about. I mean, we are living the Quran.

6:04
Even if God did not decree exodus for them, He would have punished them in this life anyway.

6:11
Because those who sided against God, they just have no chance. The Quran repeatedly says "do not be impressed by their apparent successes, their apparent temporary successes."

6:24
Their very success becomes the source of their misery in this world. They're not happy. Do not be impressed by their apparent successes if they are successful.

6:38
So, I hope I'm impressing on you enough that you have confidence in God that He is sending His forces with you.

6:46
The Quran consistently talks about invisible soldiers. These invisible soldiers, they are with the believers.

6:56
And the problem with those people out there in the street, they don't believe in the invisible. They only believe in the visible.

7:01
And our visible range is very limited, by the way. In fact, this light, the visible range, there are only seven colors? Seven colors in the visible range.

7:11
And it's a very narrow range. Beyond that, we don't see. And there are things that we know exist. The X-rays exist. The ultraviolet exists.

7:22
Ultra is on one end, and the X-rays is on the other end. No, excuse me, they're both on the same end, but the X-rays are shorter than UV. Infrared is on the other side. You do not see the infrared.

7:40
We were talking about the infrared one time, and we said "you can take a picture of that couch after David and Frank leave, and you'll see them there, after they leave."

7:49
And if one of them punches the other in the face, we'll know who punched who. After they leave, because of the infrared.

7:58
But the UV and X-rays are invisible. UV is what hits you when you sit in the sun too long.

8:05
And we're all aware of the X-rays. We don't see them, but they are powerful.

8:12
So, this is just a tiny sample of the invisibles. You have an invisible giant standing by you.

8:20
If somebody comes to punch you on the nose, you can imagine what will happen to them. Unless you deserve it. Then, the punch will come through. Measured.

Spoils of war – abused Verse 59:7, Sects of Islam.

8:41
The spoils of war. Of course, only the strong, young, powerful, able will go to war, and they will get spoils of war.

8:50
So, God is saying, to be fair and distribute them at least one-fifth of them must go out.

8:59
In the Shia sect, they take advantage of this one-fifth business.

9:04

And it is common in the Shia village that a man with a black turban will go to the house

9:10

and say "give me one-fifth of everything you own. I'm a descendant of the Prophet." And they would give him one-fifth of everything they own. This is what some people told me.

9:23

خميس they call it. One-fifth. So, it is a misinterpretation of this law for abuse.

9:34

One of the most abused verses in the Quran is verse 7, where it says, whatever

9:42

the Messenger gives you, you shall take, and whatever he forbids you, do not take.

9:47

It has to do with the spoils of war, but they make it to mean Hadith and Sunnah.

9:55

So, there is abuse in all the sects of Islam, so-called sects. Of course, in Sura 6, verse 159, it says "If you divide yourself into sects, you do not belong with God or with the messenger."

10:09

So, both sects, the Sunnis and the Shias, are not Muslims. By their own admission. You ask "what are you?" "I'm a Sunni."

10:16

Who's gonna say that in the Day of Judgment? "What are you?" "I'm a Sunni." "What are you?" "I'm a Shia."

10:23

You don't say Muslim. So, both of them abuse these verses in this particular Sura.

10:35

And you know something? I do go along with them. I say "okay, what the messenger gives you, take, and what he forbids you, don't take."

10:41

He gave you the Quran. He uttered only the Quran. So, even though they abuse the verse, I do go along with them.

10:53

Are there any questions on this? Are you gonna forget that you have an invisible giant behind you?

11:02

And with your kids, with your affairs. Don't forget that.

11:13

Okay, we'll go back to verse 9, Donna

11:19

Donna: [59:9] As for those who provided them with a home and a refuge, and were believers before them, they love those who immigrated to them, and find no hesitation in their hearts in helping them. In fact, they readily give them priority over themselves, even when they themselves need what they give away. Indeed, those who overcome their natural stinginess are the successful ones.

11:40

[59:10] Those who became believers after them say, "Our Lord, forgive us and our brethren who preceded us to the faith, and keep our hearts from harboring any hatred towards those who believed. Our Lord, You are Compassionate, Most Merciful."

11:56

Okay, these are fairly straightforward. You know, people that, when a person comes to you and they're in need, a Muslim is gonna

12:08

help out, you know, when you see that there's a real need, you know.

12:14

And they even go out of their way to help a needy person, as long as it doesn't interrupt their worshipping God alone.

12:24

That always comes first.

12:31

And then it says, the immigrants who come later, you know, they ask God to help them, well, it

12:44

says, forgive those who preceded them to Islam. But then it says, to remove any hatred from their heart. Ok?

12:53

And the believers should always hang together.

13:00

Okay, there was... what is it? There's a verse. I wrote it down, 3:103.

13:11

Sura 3, 103.

13:19

[3:103] You shall hold fast to the rope of GOD, all of you, and do not be divided. Recall GOD's blessings upon you—you used to be enemies and He reconciled your hearts. By His grace, you became brethren. You were at the brink of a pit of fire, and He saved you therefrom. GOD thus explains His revelations for you, that you may be guided.

13:36

And the believers should be united, you know, and there shouldn't be hatred.

13:43

And we should ask God, you know, to help us, you know, not be enemies or to remove any hatred between us.

14:00

Then, it goes on to verse 11. The hypocrites said to their allies...

14:05

The messenger: Let me give you a little rest here on these two verses, 9 and 10.

14:15

Yeah, I want to... this gives me a chance to thank God and be proud of something that our community has done. It's a perfect example of living the Quran. You all know Emily.

14:27
She works Friday nights, unfortunately, but soon God will give her time to work here. But she packed everything in New York and she moved here.

14:36
And she had, there was a period of time when she was looking for a job. And she had no means of support.

14:43
And I tell you, during all this time when she needed help, this drawer was full of envelopes with Emily's name on it.

14:50
People were pitching in and helping her. And she kept her on her feet until she was standing on her own feet.

14:57
I don't know who all those people are, but, you know, we're a small community. We're not wealthy.

15:05
But this drawer had enough support for Emily. There were sealed envelopes with her name on it. And I passed them on to her and that helped her.

15:14
Just like she didn't feel bad. But this is an example of immigrants who joined the believers.

15:23
And the people who are established helped them. And I know, I mean, this is not the only example. I was giving good examples.

15:30
This will always happen. This always happened in the past. And it happens naturally.

15:36
When you're a believer, God guides you into doing these things. So, I just wanted to note this.

15:42
And also I want to go back to the protection and give you, I think we learn best by the real-life examples of things that happened to us.

15:53
I'm sure Lori will not mind mentioning her accident sometime back. But this is an example of an invisible giant who is with you.

16:02
Lori was in an accident. She was thrown out of the car.

16:08
And then she took care of the driver. Her sister was driving. And her sister went to the hospital. Now, nothing happened to her.

16:15
She took care of her sister. Now, if you're thrown out of a car, you will hit something or something will hit you. But no, nothing.

16:23
I mean, you can imagine the invisible giant was carrying her outside in perfect safety.

16:29
And this was a nearby track record. There are many, many examples. That was one of them. Real-life examples.

16:39
And we thank God for teaching us the real-life and through the Quran.

16:47
Go ahead. A man: It says, removing our hearts from hatred toward believers. What's it saying there?

16:59
The messenger: Which verse is this? 10? That's for the immigrants who came later to Islam. God removes hatred from hearts of believers.

17:06
They say "our Lord, forgive us and forgive those who preceded us to Islam. Remove from our hearts any hatred for us.

17:13
These were people who were fighting each other. They were trying to kill each other.

17:19
And then the disbelievers became believers and joined the camp of them. And these are people who killed my brother, my cousin, my father in war.

17:29
They were engaged in war. And now they joined. I mean, they know that this guy killed my father or this guy killed my brother.

17:36
And now he's a believer. And God did remove hatred from their hearts and they became like a family.

17:44
I mean, you have to take (unintelligible) to those days and understand what was going on. A woman: Rashad, even today, we hear so much in the news that's bad, negative about Muslims, that in this

17:56
culture, in this country, you can come to think of Muslims as being horrible people.

18:02
And then God chooses to guide you to this. Then, all of a sudden you know the difference and have that.

18:09
(unintelligible) But it is easy to have a wrong impression on Islam due to the so-called Muslims. The messenger: Exactly. Yes.

18:20
The messenger: They did a good job giving Islam a bad name. A woman: Yes. The messenger: I don't really blame the Americans.

18:27
Donna: But also, it doesn't have to be a deep-seated hatred. It can be just differences between people.

18:33
There's always gonna be differences between, well, just personalities.

18:39
And, you know, you've kind of gotta make compromises and so forth.

18:45
 So, the believers are united and stay together as a family.

18:51
 The messenger: It's a very nice prayer. (Unintelligible).

18:58
 Donna: Okay, are we ready to go on? Okay. [59:11] Have you noted those who are plagued with hypocrisy, and how they said to their companions in disbelief among the people of the scripture, "If you are evicted we will go out with you, and will never obey anyone who opposes you. If anyone fights you, we will fight on your side." GOD bears witness that they are liars.

19:22
 [59:12] In fact, if they were evicted, they would not have gone out with them, and if anyone fought them, they would not have supported them. Even if they supported them, they would have turned around and fled. They could never win.

19:39
 [59:13] Indeed, you strike more terror in their hearts than their fear of GOD. This is because they are people who do not comprehend.

19:45
 [59:14] They do not get together to fight you unless they are in well-shielded buildings, or behind walls. Their might appears formidable among themselves. You would think that they are united, when in fact their hearts are divided. This is because they are people who do not understand.

20:02
 [59:15] Their fate is the same as their counterparts who preceded them. They suffered the consequences of their decisions. They have incurred a painful retribution.

20:11
 [59:16] They are like the devil: he says to the human being, "Disbelieve," then as soon as he disbelieves, he says, "I disown you. I fear GOD, Lord of the universe."

20:20
 [59:17] The destiny for both of them is the Hellfire, wherein they abide forever. This is the requital for the transgressors.

20:28
 I'll go back to verse 11, here. And this set of verses is talking about hypocrites and disbelievers and lump them together.

20:38
 And the hypocrites are saying to the disbelievers "okay. we are with you, we are with you." You know. And you know, "we'll go with you."

20:49
 If they do get banished, they don't go with them.

20:54
 Hypocrites, you know, they stay in one place. They're just hypocrites. You know, that's the reason God has saved the best place in Hell for them

21:04
 because they don't go with that group, they don't go with that group. You know, they just stay on the fence post.

21:14
 Ok. And they fear everybody else, the hypocrites do,

21:23
 instead of God, as they should. They are worried about what everybody else is gonna think about them, you know.

21:32
 We wanna be with this group, but we wanna be with this group. It doesn't work that way.

21:40
 Ok. And they won't fight. It says in verse 14, they won't fight unless they are behind some big wall, thinking that that's gonna protect them, you know.

21:50
 And you already found out over here, in the first set of verses, that, you know, it doesn't protect you from God.

21:57
 If God's will is for them to be destroyed, then nothing will protect them.

22:09
 Also in this verse 14, it says you would think they were united, but in reality, they are all divided.

22:17
 You know, it's just like the Muslims now. You think they're all one group, especially the Christians, that don't know anything about Islam. You know, they think all Muslims.

22:27
 You know, there's a whole lot of them. There's a whole lot of them. You know, they are striking terror and everything.

22:35
 But there is Sunnis, there is whatever.

22:40
 I can't even think of them all. You know, even between those, they are fighting. And one guy believes something and one guy believes something else.

22:48
 You know, and that's one reason why it's nice for the believers to be united

22:53
 because, I mean, the way they are so divided, one united group of believers is more than this divided group and this divided group, you know.

23:04
 It also shows their disbelief and their arrogance. They always wanna follow their own way.

23:11
 And so, you know, it's like a two-step this morning, you know. They kick each other's butt.

23:41
 A man: What are the causes for human being to be a hypocrite?

23:46
The messenger: The causes? A man: The choice, is it by himself or herself, given to him by God? Why the person chooses to be a hypocrite?
24:12
The messenger: Hypocrisy is lack of belief. The belief is not there.
24:18
And what they're doing is going along with whatever group they're with.
24:23
So, they're really worshipping their own ego. A man: Is it a choice that they're making on their own? The messenger: Yes, of course.
24:31
The messenger: It's a choice that they're making. A man: So, why some are making, some are not? Is there anything with God, or genetically or naturally or is there any second power behind their mind?
24:46
The messenger: It's a conclusion that they reach on their own. It's a decision they make.
24:52
We study our surroundings, and we look at the universe around us, and we decide to believe
24:57
in God, disbelieve in God, or go along with the crowd, wherever we are. So, these are the three kinds of people:
Definition of a hypocrite.
25:04
believers, disbelievers, and hypocrites.
25:14
A man: مجاهدين المنافقين
25:21
The messenger: Yeah, they're called Mojahedin Khalq (مجاهدين خلق)? A man: Yeah, those are the people, they're confused. They say they are Mohajed.
25:38
A man: to the time of Muhammad...
25:48
A man: What are the definition of a person.... Mojahed and Munafiq?
25:57
The messenger: Ok. The definition of a hypocrite is one who says that he's a believer when in his or her heart are not believers.
26:05
They say they are believers, and usually they don't know that they're not believers.
26:13
So, God gives us criteria in the Quran. For example,
26:20
I know now for a fact that they are forbidden by God from saying "La Elaha Ella Allah"
26:26
without saying "Muhammad Rasulallah." I mean, I did my own experiments.
26:32
I used my education to run some experiments, and I find it true.
26:38
I mean, the last time I challenged the person, I said "you are forbidden by God from saying La Elaha Ella Allah."
26:47
And he could not say "La Elaha Ella Allah" without saying "Muhammad Rasulallah." He was unable to say it.
26:53
So, here's a person who claims to be a believer, but he's not. So, God gives us the criteria.
26:59
One of them is when God alone is mentioned, they don't like it. When Muhammad is mentioned with him, or somebody else is mentioned with God, then they like it. This is in Sura 39, verse 45.
27:10
So, there are criteria in the Quran that will tell the person whether he or she is a believer or not.
27:18
So, the definition, now a disbeliever is one who says he doesn't believe. That's a disbeliever.
27:24
And the Quran writes about them two verses. But a hypocrite is one who says that he or she is a believer when they are not believers.
27:33
And this is why the Quran writes 13 verses about them.
27:39
Because they are more damaging than the disbelievers. The disbeliever, you know, you know the position.
27:47
But the hypocrite is a person who claims to be a believer. What can you do?
28:06
They didn't call themselves Munafiqun. They never called themselves Munafiqun.
28:13
There's nobody on earth who thinks that he or she is going to Hell. But we know from the Quran that the majority of people are going to Hell.
28:26
Hamid: Dr. Khalifa... The messenger: First, before you say anything, I confused you with Mohsen Bilyani.
28:32
Hamid: Oh, Really? The messenger: I called you Mohsen. I forget your name. Hamid: Because you just... it's okay if you confuse me with Mohsen.

28:41
The messenger: You say you and Mohsen are very close. So, well, do you wanna introduce yourself?

28:47
A man: Why did you come with him here? The messenger: Yeah, I know. The messenger: I just discovered recently that I confused you with Mohsen. That I called you Mohsen.

28:56
The messenger: But your name is? Hamid: He's not here. The messenger: Yeah, he is here. Hamid: Is he? The messenger: Yeah.

29:02
I just saw him the other day. This is when I said "hey, wait a minute. This is Mohsen."

29:07
Hamid: Doctor, I'm not losing my hair. The guy doesn't have any...

29:20
The messenger: Give me your name first. Hamid: I'm Hamid. The messenger: Hamid, okay. The messenger: Go ahead.

29:25
Hamid: Now, going back to our discussion, does Quran categorize the hypocrites worse than non-believers? The messenger: Yes.

29:35
Hamid: Is that the reason that there are more verses about them? The messenger: Yes. The messenger: Yeah, there's a statement in Sura 4 that says the hypocrites are in the lowest pit of Hell. Hamid: Right.

29:45
The messenger: Now, a good example of the hypocrites, if I may say so, is Khomeini, for example. Hamid: Right.

29:53
The messenger: He's a person who thinks he's the leader of the Islamic revolution. Hamid: He's the biggest hypocrite of all. The messenger: Exactly.

30:00
The messenger: But he really, he believes, he sincerely believes that he is a believer. But he doesn't act according to the Quran. Hamid: You know what?

30:10
The messenger: Go ahead. Hamid: Basically, my brother was mentioning about what was going on in Iran. They use it in their own benefit. And I think the line is very fine line.

30:30
It's sometimes even confusing for the ordinary people to really recognize that, you know, who is who, and which is which.

30:41
And that makes it a little bit, unfortunately, hard.

30:47
Sometimes very painful and costly, like what we are witnessing in the case of, you know, what they offer.

31:36
The messenger: No, the Quran definitely says that the hypocrites are worse in the lowest pit of Hell.

31:42
Cause here, I mean, before the whole world, the whole world looks at them as Muslims. They're acting in the name of Islam.

31:49
I mean, the last four weeks, they executed 400 people in Iran because of drugs, supposedly.

31:56
Hamid: Yesterday, according to BBC, 85 people, yesterday alone was executed The messenger: Yes. This makes it 400 in 4 weeks. Now, the trial takes one week.

32:06
And, I mean, they don't, maybe some of these people are insane. Maybe they have pain and they need to take drugs. Actually, they don't even take drugs. This is the name of Islam.

32:16
Parivash: No, I had a letter from my mom. And she said that was the worst. And the drug dealer, they were anywhere. They saw them in any street anywhere.

32:28
And they were so scared because they had young kids. And they were so scared because of this.

32:34
And they don't like somebody was killed because of that. But I had another letter. They said "yeah, when they killed some of these, at least they can't see it anywhere, these drug dealers."

32:48
And that's because we are here. We don't know. That's what my mom doesn't, she's not in this, any politics or anything of this.

32:56
That was the letter I have from her. And we don't, we are here. And we don't know what's going over there. If they keep, the drug is over there because of this situation.

Drug addicts and dealers – Quran does not advocate the killing of them.

33:05
Because the young people, they don't have anything over there. And the drug is all over there in the country. And this is easy.

33:15
When you wanna buy a drug, it's cheaper than if you buy a cigarette, a pack of cigarettes.

33:21
The messenger: You're talking about hashish? Parivash: No, heroin. The messenger: Heroin. Parivash: Yeah, that's the worst thing. When you can buy it, cheaper than that...

33:31
The messenger: It's all over the place. Parivash: Yeah, it's all over the place. The messenger: But who said that drug addicts or drug dealers should be killed? Parivash: That is not from the Islam.

33:41
Parivash: They do it because they want to save...I don't know. I am not talking about... The messenger: To save the country. Praivash: To save the country.

33:47
The messenger: The country needs to be saved from them. Parivash: I don't know. That is not something...

33:57
When you are living over there, you have kids. You wanna protect them. The messenger: Yes.

34:03
The messenger: From heroin? Parivash: Yeah, this is one of the worst things, I think. Hamid: Well, ironically, you have written... I'm sorry, I just don't wanna interrupt you. This business actually may be a waster of time for some other person The messenger: No, no, go ahead.

34:20
Hamid: But the situation is really worsening every day. And we hear, here, also.

34:27
We know Iran is going through its darkest period right at this time.

34:33
And hopefully we will come out of it, IN SHAA ALLAH The messenger: IN SHAA ALLAH. Hamid: But It was even mentioned in one of the regime's newspapers that one family sold their daughter and son in the southern part of Iran next to Pakistan.

34:50
He sold, because he was addicted to heroin, he sold his daughter for 35,000 Toman and

35:00
for his son 35,000 Toman and his daughter for 5,000 Toman which is probably like \$250

35:08
to \$200 just to give an app.

35:17
The messenger: This is a regime newspaper. I don't know if I believe it or not. Hamid: Well, I'm saying once in a while they can't even...It is happening. This is one man from a hundred. But, you know, they can't really deny the whole thing.

35:36
They try to minimize it, but it is really... The messenger: It's a mess anyway. Hamid: It is so a mess

35:41
even the United States told its allies not to give this government the money that they wanted. But it is very unstable.

35:56
The messenger: Maybe this proceeds true Islam. True Islam will come to Iran, IN SHAA ALLAH.

36:01
Hamid: And one more, just a second. 10% of the population will be addicted to drugs. 5 million, according to the United States.

36:12
The messenger: They're addicted to drugs? Hamid: 10% of the whole population. The whole country.

36:21
The messenger: Well, I don't know. A woman: 10% of the young people, not the old people. This is the whole thing.

36:26
The messenger: Well, 10 or 15% of the Egyptians have been smoking hashish for the last three years.

36:33
The messenger: And nothing has happened to them. This is their problem. A man: Why is nothing happening to them? The messenger: Right.

36:41
The messenger: Okay, back to Donna and verse 12. Donna: 13 Donna: Well, I'd like to point out that we refer to verse 16 where it says that Satan says

36:50
"disbelieve" and then he says, when, you know, then when the person disbelieves, he says "okay, you know, I fear God myself, you know."

37:02
I don't have anything to do with you, you know. A man: Bye. Donna: And it's a very strong verse. I would like to point that out. And we refer to it quite often.

37:14
Satan himself knows who really controls things, and he fears himself. Okay.

37:22
And on to verse 18. [59:18] O you who believe, you shall reverence GOD, and let every soul examine what it has sent ahead for tomorrow. You shall reverence GOD; GOD is fully Cognizant of everything you do.

37:34
[59:19] Do not be like those who forgot GOD, so He made them forget themselves. These are the wicked.

37:42
[59:20] Not equal are the dwellers of the Hellfire and the dwellers of Paradise; the dwellers of Paradise are the winners.

37:52
Okay. As Muslims, even on a daily basis or even every hour or moment, every time you can remember,

38:04
think about what we're doing, you know. Make sure that it's what God wants, you know.

38:11
And make sure that we're on the right track.

38:18
And our prayers help us do that, you know. By praying, we get back on the right track and back to thinking about God.

38:27
It keeps us from falling into sin. And then in verse 19, it says "Do not be like those who forgot God."

38:40
There's a verse in the (unintelligible) that we say all the time, you know "remember God so that He may remember you."

38:46
Well, if you forget God, it's like Abdullah was talking about one time and said "you pick your own Lord", you know.

38:55
If you pick your job or whatever is the one that you occupy your mind with the most, well, you've forgotten God.

39:05
You know, that job becomes your God. That's the one you worry about, think about the most.

39:12
And so when you think about something other than God, or I'll say "if you occupy your mind with something other than God, then you forget to feed your own soul", you know.

39:30
You aren't thinking about God so that He can help you in your daily life and you remember God.

39:40
It's just like an equation, you know. It's a balanced kind of equation. You remember God and He remembers you.

39:48
You forget God and you starve your soul and you pick some other god other than God.

39:58
And those that pick other gods, you know, are the losers in the Hereafter.

40:07
Their souls are starved and they won't be able to withstand the presence of God.

40:16
And only those who have fed their souls and remembered God are gonna be the winners and be strong enough to be close to God.

40:26
Donna: Ok. Are there any comments about those beautiful verses? The messenger: Any questions?

40:35
A man: Verse 18, the Lord says "for each one who examines what he or she has advanced for the coming day", we now understand...

40:51
we have to frequently examine where we stand.

40:57
And hopefully each day, at the end of each day, we look at what we have done, whether it's in accordance with what God has commanded us, or we've been breaking any laws,

41:13
so that we don't get into the wishful thinking that we believe and we'll make it. We have to examine our actions frequently and see if we're in the right path because

41:30
it's very easy to deviate from the right path and still think that we're being guided, but we may not be.

41:37
So, and God gives us how we do that, like whether what we're doing is in accordance with the Quran and this is our guidance.

41:47
And if we examine neutrally, what they're calling it, just look at what you've done every day or every week, then you can see whether you're on the right path.

42:03
But a lot of people, they say they believe and they never think what they are doing. And that's what God is saying.

42:11
We should examine what we see or advance for the coming days because whatever we are doing is for the Hereafter.

42:22
And this world is temporary and we are working for the Hereafter and we have to examine what we're doing for the Hereafter.

42:34
The messenger: Right. Finished? Right. A man: Yes. A man: My question was aimed to the same verse. I guess...

42:44
I don't know. I feel, I guess it's like, you know, where I will be faithful, you know, you can just get right on the side of it. Analogy of working for this life Vs. working for the Hereafter.

43:15
The messenger: That asking God for forgiveness in itself is an act of remembering God.

43:20
I want to give you an analogy from this life, okay? Just think about what David Dixon is doing to guarantee a good life between the age of, say, 30 and 65, 35 years.

43:35
He goes through school, and this applies to all of us, I'm just using David as an example,

43:40
And because he's having such rough time, it's really rough, medical school is very difficult.

43:46
You go to school, grade school, junior high, high school, college, examinations, tests, staying up all night, homework, and this is to prepare for 35 or 40 years.

44:03
Now, after that comes retirement, say 10, 20 years, for which people prepare their IRA, individual retirement account, and they're very worried, you know, what they will have.

44:17
Okay, what comes after that, after retirement? Let us say, not 40 years, let's say 40 million years. It's forever, 40 million years.

44:27
So, what are we doing for those 40 million years? For 40 years, you go through all this studying and homework and all this rough, you told me today it's rough, and every student now at the university knows how rough it is.

44:44

And this is just for 20 or 30 or 40 years. But God is telling us in this verse "examine what you have advanced for the coming day, an eternal day."

44:57

The day of resurrection is an eternal day, 40 million years. How much are you going to need then?

45:04

In your 40 years here, you need, let's say \$20,000 if you're really poor. \$20,000 in 40 years is \$800,000. This is what you need in this life.

45:18

And for these \$800,000, you go to school and you work hard, and you're very polite to your teachers, so they give you a good grade, and they do anything they say.

45:31

"Come here 3 o'clock in the morning, we're having a special class." Then, you go at 3 o'clock in the morning.

45:37

"We're having a field trip." You'll go to the field trip. "You study all night." You're gonna study all night.

45:43

You do all this for the \$800,000 that you need in this world. Now for 40 million years, God told you exactly what to do for your PRA, post-retirement account.

46:01

You have to advance the funds for your PRA, the most important period of your life.

46:10

Every prayer, every Contact Prayer, God gives you, let's say, a million dollars. It's actually more than that.

46:18

But God puts in your account a million dollars. And every time you remember God, you make a deposit.

46:26

So, examine, and this verse here means you ask yourself every day "how much does it put in my PRA account?"

46:35

You must examine yourself every day, because on that day, when you wake up for the Day of Resurrection, you're gonna open your PRA book and say "how much do I have?"

46:46

That will decide what you're going to be for eternity.

46:51

I mean, here you go to school and you work very hard to have a nice, decent life here. You have to do the same for eternity.

47:00

Are you gonna have a decent life there forever? Are you going to be an honored person? Are you gonna be a humiliated person?

47:07

It is all in your hands. God left it up to you. You can make deposits as much as you want.

47:15

In this world, when you get your check, you go to the bank and you make a deposit in your savings account or your bank account.

47:24

And God gave you infinite amount of deposits that you can make.

47:30

You have the five Prayers. There's the five deposits every day that you make in your account over there.

47:36

And it is literally, this is what it says "O you who believe, beware of God, and let each of you examine what he or she has advanced for the coming day.

47:51

How many deposits did you make today? Examine that. And then it tells you how to make the deposits.

48:00

You shall observe God. This is how, in the same verse. You observe God by doing the five, this is the minimum, the five daily prayers, by being honest, truthful, being kind to the people,

48:17

being an exemplary person. For God is cognizant of everything you do, meaning, every deposit you make is gonna be multiplied many folds

48:34

because you're building up interest. God's interest is very high, 7000%. That's God's interest. That's the minimum, excuse me. Because God says "He gives even more than that."

48:49

So, the Quran puts things in perspective and makes us aware that the most important part of our life comes after death.

49:02

Yes, the CD (Certificate of Deposit) account, and by the way, you can draw benefits now, not you can, you have to. You draw benefits now.

49:13

I think Hamid missed the part about the invisible giants that we have. This is part of the benefits that you draw. Because you benefit from the account right now.

49:25

And 19 tells you "do not be like those who forgot God." So again, it's telling you how to make deposits into your most important account, by remembering God.

49:37

"Do not be like those who forget God, then He makes them forget their own souls", meaning, they forgot to make deposits for their souls.

49:47

You're going to need that deposit when you get there, because you have the eternity ahead of you. And this is the only time you can make the deposits. Now is the only time.

49:59

Over there it's too late. If somebody opens the account and there's zero in it, you can't come back here to make deposits. This is the only time.

50:15

Are there any questions? The messenger: We'll go back to Donna and 21 or 20. Donna: 21. The messenger: 21.

50:25

Greatness of the Quran [59:21] If we revealed this Quran to a mountain, you would see it trembling, crumbling, out of reverence for GOD. We cite these examples for the people, that they may reflect.

50:39

[59:22] He is the One GOD; there is no other god besides Him. Knower of all secrets and declarations. He is the Most Gracious, Most Merciful.

50:46

[59:23] He is the One GOD; there is no other god besides Him. The King, the Most Sacred, the Peace, the Most Faithful, the Supreme, the Almighty, the Most Powerful, the Most Dignified. GOD be glorified; far above having partners.

51:02

[59:24] He is the One GOD; the Creator, the Initiator, the Designer. To Him belong the most beautiful names. Glorifying Him is everything in the heavens and the earth. He is the Almighty, Most Wise.

51:19

These verses are very strong verses, and they're my favorite verses. Me and Abdullah, we used to listen to these. We had a tape of them and we would listen to it every Ramadan.

51:30

These three verses always remind me of Ramadan. When we were younger and could stay up more at night, we would just listen to these. We would listen to these in the Arabic.

51:43

And, you know, this Quran, you know, it's the word of God, and nothing can match it. And, you know, the mountain, it does what God wants it to do.

52:01

And it knows who God is. It knows the power of God. And it sounds kind of silly, but we should strive to be like the mountain, you know.

52:15

I think about how the angels, you know, it may sound a little bit funny, but you should try to be an angel, I mean, they do what God wants them to do. They're the ones that made the right decision in the first place.

52:28

And they submit to God and do what God wants them to do. And you know, the mountain knows that, and angels know that. And God's trying to tell us, here, what to do, what He wants us to do.

52:44

He spelled it out for us through what He calls here "examples for people that they may reflect." This book is a no nonsense history. It's full of examples that we should learn from, you know.

52:57

History is useless unless you learn from it. And God's given us a concise but exact history here, and we should learn from it, learn to be like the mountain and the angels.

53:14

And it says clearly here "La Elaha Ella Allah." And there's nothing after it, except God's names here. And He knows all our intentions, all our secrets, all, He's all Knowing by definition, I know it.

53:30

And when I was going to the U, in our philosophy class, we learned that God by definition is All Knowing, and All Powerful, you know.

53:43

But people don't stop to think about that, you know. They don't even stop to think what God means. And so then, they get these things, well. "We gotta help God, and we gotta do this for God", you know.

53:58

God can't do it Himself, you know. But God by definition is All Knowing, and Almighty, and All Powerful, by definition alone. And then, it goes on to say He's Most Gracious, Most Merciful, you know.

54:13

He's given us a chance here on earth to, a second chance, you know, to do what's right, to be like the angels in the mountains, because we were so stupid in the beginning.

54:30

And then again, it says "La Elaha Ella Allah." And then, it goes on to name God's names again. And it says "the King." And in our class, we taught the kids, you know, if

54:43

if God is your King, then wherever you, then you're always in God's Kingdom, you know.

54:49

if God is your king, you know, because God is everywhere, so wherever you are is God's Kingdom, as long as God is your King. He's the Sacred, the Peace. There's no peace without God.

55:03

Happiness can only be achieved through God, and happiness is true peace inside. Oh, I skipped over the Sacred. He's, you know, the Highest, the Most Holy.

55:17

And then it says He's the Faithful, and if you turn to Sura 2, verse 186, it's a section on Ramadan, again.

55:33

It says "and when My servants ask you about Me, I am always near. I respond to the call of any caller who calls on Me. Therefore, they shall respond to Me, and believe in Me, that they may attain guidance."

55:48

God's always there when we need Him, you know. And, you know, He's just there to help us all the time. He's the Supreme. He's the Best, the Almighty, the Powerful, by definition, you know, and the Dignified.

56:08

We're told in the Quran that in the Hereafter, we'll be humble, because we're nothing compared to God, you know.

56:15

All dignity belongs to God. And we're nothing. We're dust particles and less than dust particles in comparison to God.

56:28

God be glorified over and above anything they idolize. And we went over these verses with the kids tonight, and we were talking about how there's, whatever is good here on earth, whatever is,

56:40

you might say something that is terrific or the best or something, God is always better, you know. God is always the Greatest. He's always a step above anything here we have on earth.

56:53

So, anything that you idolize here on earth, God is always better than that, you know.

56:58

I mean, like I just said, we're all only dust particles and everything here on earth, it's just nothing also. So, God has to be greater because He controls it all.

57:11

He's the one God, the Creator, the Initiator, the Designer, and it doesn't miss words here, it doesn't say that He was the Constructor, you know, the Quran is very precise here.

57:24

All God had to say was "be", and He initiated the creation. His design, you know, He designed it, and all He had to say was "be", and it was. And to God belongs the most beautiful names,

57:41

A lot of these names, a lot of Christians and Muslims both put to their idols, like,

57:48

I know for example, it's not here, but some people call Jesus the healer. Now, you would say

57:58

"no, Jesus isn't the healer." And they'll "ah", you know. They'll go into convulsion or something, you know.

58:04

But you say "God isn't the Healer" and "okay, well, we accept that", you know.

58:10

They are insulted by this, like Gatut was saying today in the Khutbah, you know,

58:20

"they aren't insulted when you lessen God, you know, but you lessen their idols, and that's not to be."

58:31

Yeah. Then, it uses the same phrase here "glorifying Him is everything in the heavens and the earth. He is the Almighty, the Wise." It's the same phrase here at the beginning of the Sura.

58:51

And I know I always think "well, the disbelievers, do they glorify God?" You know, and I got to thinking about that this week, and, you know, they glorify God

59:03

in making this come true, because their actions and everything show the believers that this is the truth, you know. You sit here and you read about the hypocrites and their allies, the disbelievers and so forth, and they say, you know, "that's those people."

59:18

And so, they show the glory of God by showing that His words are true here, you know, in the Quran.

59:29

Are there any more comments? The messenger: I meant to tell you to take two Suras, but I forgot.

59:35

Donna: Yeah, you did, but there's not much time to go. The messenger: I'm gonna stop here. It's Ok. God bless you. You did a very good job.

59:41

Abdullah. Abudullah: Is this (unintelligible) and (unintelligible) Did you take all the Suras up to this point, all the Suras in the rest of the Quran?

1:00:12

If you take this side, to the left side, you add them all the verse numbers and chapter numbers,

1:00:19

they are divisible, and if you take the rest of the Quran, you add the chapter numbers and verse numbers, they are divisible.

1:00:30

It even mathematically designed

1:00:35

The messenger: This is why the mountains will crumble.

1:00:41

Abdullah: If you take all the verse numbers, with the chapter numbers, you add them up, I can't remember the numbers now, it's divisible.

1:00:52

You know, if you come to, all the way from the beginning of Quran to the verse 21,

1:01:01

then if you take the next following 61 and all the rest of the Quran, you do the same thing, it's divisible.

1:01:11

A man: Add them all? Abdullah: Add them all with the chapter numbers.

1:01:18

The messenger: I just want you to reflect with me on the Designer, something we take for granted.

1:01:24

See, now I'm scratching her ear, and when she did this, in the process, you just look at the design of the arm.

1:01:32

You can take your arm like this to your ear, and then you go like this.

1:01:38

How did God design this? It's a very important thing, you know. She did this without even thinking. But it's quite a design.

1:01:46

Now, more complicated are your teeth. How are your teeth fitting together? The upper and the lower, how are they fitting together?

1:01:54

Perfectly. You did something wrong, Hamid.

1:02:01

There are cutters in the front. You have these cutters in the front. And the eyeteeth, it's very important also, so you can pull on the stick if it is tough.

1:02:14

And then back there are the molars that grind. They're flat, and they fit in each other perfectly. Every hole or cavity has something on the other side, unless you take too much sugar.

1:02:26

But the two jaws are fitting together perfectly, except Hamid.

1:02:32

You know, we take our fingers, who designed the nails? What are these nails for?

1:02:38

Very simple things, and they keep growing and you keep cutting them, and they keep growing. God's design, the Designer.

1:02:46

Why two eyes, two kidneys? One mouth and two ears, which means shut up and listen.

1:03:00

God is teaching us to listen a lot, not to talk too much, because we get in trouble.

1:03:08

One mouth and two ears, there's a message there. This is the design. Okay, well, we thank Donna for her good job. Next time will be three Suras.

1:03:22

And today, tomorrow starts the spring, today started the spring break at the university.

1:03:29

And I know that my daughter will miss homework, so she's gonna be our teacher next week. She's gonna do homework.

1:03:38

Suras 60, 61, and 62.

1:03:45

So, she'll be our teacher next Friday. Three Suras, because we don't wanna take just one Sura every time, or it will take forever.

1:03:57

And, Robert? Robert: This goes back to the verse on when we were talking about the hypocrites, and it says in the Quran that they are the ones who disbelieve and believe, disbelieve and believe, and then

1:04:13

fall deeper into disbelief, and they are the ones who...

1:04:20

The messenger: No, these... Robert: They're with one side, they're with the other, and they go with one side and with the other. They're the people that never make up their minds. They want this and they want that.

1:04:30

And in terms of us, when we make our covenant, like the hypocrite never knows they're a hypocrite.

1:04:37

The disbeliever never knows they're a disbeliever. Okay, so everybody, when it came right down to it, nobody thinks they're going to Hell.

1:04:46

So, when you look at this, like you said "Ayatollah Khomeini thinks... or he's a hypocrite." But yet, because he thinks he's a believer, but then, again, the Christians... That's bad to say that.

1:05:03

Certain Christians, or some Christians... The messenger: Actually, it's common to all human being. Robert: I don't wanna generalize, because you get in trouble if you do something like that. But saying certain people... Okay, if somebody idolizes Jesus, that's the best way to say it, then that person

1:05:19

may well think they are a believer, is an idolater. Okay, even that's where that makes them a disbeliever. Would that also make them a hypocrite? Well, no.

1:05:29

The messenger: Yes, he's a hypocrite because he thinks he's a believer and he thinks he's going to Heaven.

1:05:34

Robert: But nobody thinks they're going to Hell. The messenger: Well, the disbeliever just doesn't even think... he thinks Hell doesn't exist, you see.

1:05:43

But the hypocrite says he believes in God, and he knows there's Heaven and there's Hell. And he knows he's going to Heaven.

1:05:50

Robert: Well, then in that case, the only people who would be a disbeliever would be some atheists. The messenger: Yes, exactly.

1:05:55

Robert: So then, all people are hypocrites? The messenger: Yes. The vast majority are. Yes.

1:06:05

The messenger: That's why in Sura 12, God says "Most people, no matter what you do, will not believe."

1:06:12
And then, most of those who believe will fall in idol worship.

1:06:19
So, the vast majority are hypocrites.

1:06:25
A man: My question does not relate to what was discussed. The messenger: It's okay.

1:06:31
A man: In Sura 53, in the footnote, the cross says (unintelligible) of Muhammad. Quran (unintelligible). And it says that Muhammad was unconscious, when he was (unintelligible).

1:06:53
The messenger: No, that's wrong. This is what is written in the history books. But it is not true. I don't believe it.
Explanation\History of written Quran.

1:07:11
The messenger: Muhammad was very much conscious, and he wrote the Quran with his own hand. These are things that we didn't know at the time of making this translation.

1:07:21
A man: Then, (unintelligible) from the new Quran. Those verses that (unintelligible). What was the reason for gathering Ayahs, and having every Ayah to be verified?

1:07:41
The messenger: No, no, no, that didn't happen either. This is what they said. This is what they wrote in their books.

1:07:47
According to them, they collected the Quran, and they had every verse witnessed by at least two witnesses,

1:07:55
except the last two verses in Sura 9. They found it only with a late Muslim, Medinan Muslim.

1:08:02
And then the Hadith supported him by saying that his testimony equals two. And this is all nonsense, of course. This is the idea.

1:08:11
But the Quran was written by the Prophet, with his own hand, and the instructions were on the side as to where every piece goes.

1:08:19
And the committee that was putting the Quran together during Uthman's time were using that. They didn't need any witnesses.

1:08:26
But I'm narrating what they wrote in Bukhari and the Sunnah books and all that, because it's a bunch of nonsense.

1:08:32
A man: Then was that being used as an evidence that the two verses were doubtful?

1:08:40
The messenger: Right, because, you know, the thief feels something and exposes himself.

1:08:47
A man: But if that was nonsense, then how could that be used as an evidence?

1:08:53
The messenger: Because it indicates that they were suspicious of their own crime. They knew their crime. You know, there is a famous story in the Middle East.

1:09:03
I don't know if it is also known in Iran or not, but this king or something, one of his precious birds was stolen.

1:09:13
So, he got all his servants and he lined them up in a line. And he said "I want the person who stole my precious bird to come forward and confess, and I will forgive that person. I'll forgive him."

1:09:26
Nobody came forward. So, he kept saying "I know who the person is, but if he comes forward, I'll forgive him. I want him to confess on his own and bring my precious bird back."

1:09:37
Nobody came forward. Then he said "you see, I know because that person has a feather on his head." So, one of them went like this.

1:09:45
So the guilty person always exposes himself in this manner.

1:09:56
And they made up these stories reflecting their suspicions of the two verses. So, I reported them as it is written in Bukhari.

1:10:09
Maybe, I should point out that the fact is... A man: Yeah, it doesn't say that. The messenger: Okay. Good point.

1:10:20
The messenger: Any other questions? Okay, we're gonna wish Matt a happy birthday. His birthday was Wednesday. We're gonna pray to God to give him the happiest year of his life coming up, and every year after that to be even better.

1:10:35
And as you recite, turn to God and ask Him to fulfill your dearest wishes. Al-Fātehah

1:10:41
Bism Allah Arrahman Arraheem (1:1) Al hamdu Lillahi Rabbil 'Alameen (1:2) Arrahman Arraheem (1:3) Maliki Yawm Eddeen (1:4) Eyyaka Na'abudu Wa Eyyaka Nasta'a'een (1:5) Ehdina Al-Serata Al-Mustaqeem (1:6) Serata Al-Lazeena An'amta 'Alayhim Ghayri Al-Maghdoobi 'Alayhim Wa Laddaalteen (1:7)

1:11:00
The messenger: Congratulations. You just deposited 10 billion dollars in your PRA account, no kidding.

1:11:08
You're all worth it.

The messenger: I think I need to start by making a momentous announcement.

0:08

As you know, the true Quran, the pure Quran, never existed in the past.

0:19

The Prophet Muhammad received the Quran and wrote it with his own hand. And the last Sura revealed, Sura number 110, was revealed in his Hajj pilgrimage

0:36

only a few months before he died. The last Sura revealed in Medina was Sura number 9.

0:46

So, the Prophet had the Quran written with his own hand in the chronological sequence,

0:54

with instructions on the side saying where every piece goes. That's all the Prophet had.

1:01

It was not the Quran that God intended for the world. 19 years later, during the era of Uthman, Islam had gone to Syria, and Iraq, and Egypt,

1:16

and Uthman wanted to make copies to send to those new Muslims in new countries.

1:23

So, he appointed a committee to carry out the Prophet's, God's instructions, to take that

1:32

original copy. By that time, it was with the Prophet's wife, Hafsa, Omar's daughter.

1:40

Uthman sent for it, and he gave it to the committee to carry out the instructions.

1:45

This piece goes here, this piece goes here. And put the Quran in the order that God intends for the world.

1:53

And I think you know the rest of the story where, when they finished, and they came to

2:00

the last Sura revealed in Medina, Sura 9, someone suggested to add a couple of verses

2:05

to honor the Prophet. So, they committed that big crime that caused the war between Ali and Uthman, and then the

2:17

war against Ali and his family, the Prophet's family, that ended with the eradication of

2:24

the Prophet's family in Karbala. And the winners were the Umayyads who put the two verses in the Quran.

2:36

So, the version that came to us about the war and the history of the Quran is the version of those so-called winners.

2:45

They thought they won the war. So, the announcement I want to make is that this is the last time we use this.

2:54

As of next week, we'll use the new translation. This is the announcement.

2:59

So, it will not be in the book form yet, but you will be handed the new translation to study.

3:07

This is the last time we use this. It's a historical day. But the new translation is gonna come out. It's gonna be hardcover. It's gonna be luxurious.

3:17

You see the page there? This is a very hazy cover. It's not a good one.

3:23

But it's gonna be sharp and it will be in gold stamp. The cover itself, the hardcover outside will be dark blue.

3:34

And it will be, for the first time in history, the pure Quran, in Arabic and in English.

3:42

So, as you know, some of you read the small booklet about the two verses. And...

4:01

I mentioned many of the reasons why God did not let those people have the pure Quran,

4:07

because they simply did not deserve it. Because only 19 years after the Prophet's death, they corrupted the religion.

4:14

They started to worship Muhammad against his will, in the same way the Christians do with Jesus.

4:22

They're all humans. The Christians are humans and the Muslims are humans, and both of them fell for the trap

4:27

of Satan, and they started to idolize the Prophet against his will.

4:32

They invented an Azan that has... does not have the name of God alone.

4:39

The Prayer became distorted and did not have the name of God alone. And just to make a long story short, they did not deserve the pure Quran.

4:48

Now, there are people who devote their worship to God alone, and they uphold the Quran alone,

4:54

and these are the true Muslims. The true Muslims will have the true Quran. And this is really a historical event.

5:05

As you know, the famous statement in the Quran is that the month of Ramadan is when the Quran was revealed.

5:15

And this is exactly when the Quran is going to be completed and will be purified.

5:21

And it's gonna come out, gonna be sent to the press in Ramadan, IN SHAA ALLAH. And I know you believe me when I tell you that I didn't plan it this way.

5:31

It was not planned this way. As a matter of fact, I was slowed down so many times, I was frustrated due to my ignorance.

5:38

I shouldn't be frustrated. You should know that God is arranging the time.

5:43

And all these delays were designed so that the pure Quran would come out in Ramadan.

5:52

So I'm glad to share this with you. Now, we go to our teacher, Catherine, and we'll start at Sura 62.

6:03

Catherine: We're on page 397. بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ.

6:10

[62:1] Glorifying GOD is everything in the heavens and everything on earth; the King, the Most Sacred, the Almighty, the Most Wise.

6:18

[62:2] He is the One who sent to the gentiles a messenger from among them, to recite to them His revelations, purify them, and teach them the scripture and wisdom. Before this, they had gone far astray.

6:29

[62:3] And to many generations subsequent to them. He is the Almighty, Most Wise. [62:4] Such is GOD's grace that He bestows upon whomever He wills. GOD is Possessor of Infinite Grace.

6:41

[62:5] The example of those who were given the Torah then failed to uphold it is like the donkey carrying great works of literature. Miserable indeed is the example of people who rejected GOD's revelations. GOD does not guide the wicked people.

6:57

[62:6] Say, "O you who are Jewish, if you claim that you are GOD's chosen, to the exclusion of all other people, then you should long for death if you are truthful!"

7:06

[62:7] They will never long for it, because of what they have committed. GOD is fully aware of the wicked.

7:13

[62:8] Say, "The death that you are trying to evade will catch up with you sooner or later. Then you will be returned to the Knower of all secrets and declarations, then He will inform you of everything you had done."

7:26

[62:1] Glorifying GOD is everything in the heavens and everything on earth; the King, the Most Sacred, the Almighty, the Most Wise.

7:35

If we take that thought through all of our day, God will be our god all day long.

7:41

Because everywhere we look and everything we do, everything we hear, everything we see,

7:47

is submitting to God, including our bodies, our minds, and our hearts.

7:56

Donna said recently that we should strive to be like the animals and the rocks and the mountains and the trees. And when she said that, I agreed with her.

8:09

This is gonna sound funny. I've always been fascinated by rocks, mountains.

8:16

And when I was in Ireland, Alhamdu Lillah, for a short period of time, I was fascinated even more because the people live on a rock.

8:24

They have to carry dirt and put it between rock crevices to grow food, and then it blows away and they have to repeat the process again.

8:31

The rocks remain and the people go. They've worked out a compromise with God, as it were, and they have in the example of

8:40

the rocks around them, the mountains and the boulders, what they should be striving to be like,

8:46

yet steadfast as the rocks and the trees and the animals that never change. The messenger: Do you have a pet rock?

8:52

Catherine: No.

8:58

They're all pet rocks. I thought it was gonna sound funny.

9:03

It's part of the reason that I'm comfortable in Tucson, too. I have to say that. And green things and all living things.

9:11

We have so many reminders around us that there's no way that we could ever say that we did not know that there was one God and that all things submitted to God.

9:22

[62:2] He is the One who sent to the gentiles a messenger from among them, to recite to them His revelations, purify them, and teach them the scripture and wisdom. Before this, they had gone far astray.

9:30

This is incredible mercy from God. He did not have to do this for us. We blew it the first time around.

9:36

We just totally blew it. We missed. And this is a time when closest is only good in worship. This is a real big miss.

9:45

God has no reason to do anything for us. He doesn't need us for anything. He doesn't need us to know him. He doesn't need that.

9:55

And yet, He sends messengers, consistently sends messengers, spends 1,400 years purifying His final message.

10:05

He didn't have to do that. I mean, He gave it once. Why spend 1,400 years sending even more messengers and purifying the message?

10:16

For the very few who hear it. Incredible mercy.

10:21

God just did not have to do this for us. We live in a world where not too many people are given second chances.

10:29

You either pull your own weight or you're jettisoned like so much luggage or baggage.

10:36

That's not God's pattern. Not only are we given one chance, but multiple chances throughout our lives to come to the truth.

10:43

And so many messages and so many messengers in so many ways. The mercy that is described in the next verse as unlimited is beyond anything that we can understand.

10:55

We have limits. We can give people multiple chances, but at some point, we're gonna turn around and not give them another chance, and we're going to walk away.

11:05

But God doesn't leave that person. We do. God doesn't leave that person, or us in those times.

11:14

We cannot imagine what unlimited grace or mercy is. And I don't think we will until we die.

11:21

And we know the extent of Hell and Heaven and love and mercy and peace that waits for us.

11:30

Others among them refuse to join. This is verse 3. He is the Almighty, the Wise.

11:35

There's a verse and this one I do know, Lisa. It's 81:29, and you don't have to turn to it. I'll read it. It says

11:43

[81:29] Whatever you will is in accordance with the will of GOD, Lord of the universe.

11:49

For some time, the realization that whatever thoughts I had were not my own has been a mind-boggler for me.

11:59

The only thing I do is choose God alone. After that, this is an illusion, as I've spoken of before, including the illusion that I did something, that I thought something, that I had this idea.

12:14

As Rashad said "God arranges everything, including the thoughts in our minds." Those of us who are going to invent some new and exciting tool to make a job easier,

12:24

when we do that and we discuss it with those fellow people, fellow colleagues, and say "look what you thought of, look what I thought of, look what it will do."

12:32

Never have thought that God did that. You didn't do that. God put the thought for the invention in your mind and brought it to reality.

12:41

Every thought we have is in accordance with God's will, whether we are believers or not

12:48

God tailors each of our lives and experiences according to our original decision before we came here.

12:54

So that verse, which pops up as I read through so much of the Quran, is a constant reminder for me

13:03

that whatever I will is according to the will of God, meaning I don't do it, I don't think it.

13:11

[62:4] Such is GOD's grace that He bestows upon whomever He wills. GOD is Possessor of Infinite Grace.

13:19

[62:5] The example of those who were given the Torah then failed to uphold it I often wish when I'm talking to people that I could remember funny jokes that I've heard

13:28

or these really great lines from the comedies on television. There are some really funny lines, and I don't have that kind of mind.

13:36

This is one of those lines that I do remember from Quran. A donkey carrying great works of literature.

13:43

There's another verse in Quran that refers to the ugliest voice being that of the donkey,

13:49

which I remembered when I was reading this, I just don't know where it is.

13:54

The Quran is of no use to a disbeliever. It's totally sealed from them, from their understanding. They won't understand it.

14:02

They can read it. They can read the concrete words, and they're very simple. They're attainable and understandable by everyone.

14:08

And they don't see or hear what they just read. When you ask them "what does that mean?" Instead of ABC, you'll get some foreign language back that has no relationship to what people have read.

14:21

God prevents Quran and the truth from getting to those people who are not believers.

14:30

They are like donkeys carrying great works of literature. Or on the next page, where the metaphor of a wooden log is used "Incapable of understanding."

14:41

On the other hand, a donkey submits to God totally, absolutely totally.

14:47

And doesn't have need of a great work of literature. The donkey's already there.

14:53

So, it's an interesting group of words "A donkey carrying great works of literature."

14:59

And sometimes I feel like that. When I'm trying to work on something new or hard, or something that has been a part of me that needs to be purified, I feel like a donkey a lot of the time.

15:10

I don't feel like I'm going anywhere, and I'm sitting down in the middle of the road. So, this verse created a whole bunch of pictures for me when I read it. I thought it was wonderful.

15:22

[62:5] ... Miserable indeed is the example of people who rejected GOD's revelations. GOD does not guide the wicked people.

15:28

Again, whatever we will is according to the will of God. If we choose not to be guided, we won't be guided. God gives us exactly, exactly what we want.

15:40

We get impatient. We want it now. We want it next week. But God gives us what we need, in what form we need, when we need it,

15:49

including the wicked people who reject God.

15:55

They won't be able to say anything on the Day of Resurrection. Then, they won't have to.

16:04

Verse 6, [62:6] Say, "O you who are Jewish, if you claim that you are GOD's chosen, to the exclusion of all other people, then you should long for death if you are truthful!"

16:11

[62:7] They will never long for it, because of what they have committed. GOD is fully aware of the wicked.

16:18

You don't have to be Jewish. There are lots of people who seem to feel that they are chosen for one thing or another.

16:27

We all know the history of the Jewish people, but there are so many others.

16:33

God is aware of each and every one of them who lives their lives according to their ego

16:38

and their personal needs, which they focus on. And they really don't believe that God is going to do what God says.

16:47

That there will be a Day of Resurrection and that they will be held accountable.

16:52

So, for those people who put themselves above other people and those people who put themselves

16:59

ahead of other people, I pray to God I'm not behind them on the Day of Resurrection.

17:07

All of us are in the same boat. We're all responsible for our own necks, no matter whether we're Jewish, Christian, Muslim, or anything else.

17:20

And I'm not sure that I can say right now that I long for death. I think I need a lot more work.

17:29

Verse 8 says, [62:8] Say, "The death that you are trying to evade will catch up with you sooner or later. Then you will be returned to the Knower of all secrets and declarations, then He will inform you of everything you had done."

17:42

I read a book a while ago, a long while ago, when my children were little. It was about one of those pop psychiatry kinds of things, psychology things.

17:51

It was about child psychology and about sibling rivalry and about children who fight with each other and drive parents crazy because they argue over everything and nothing.

18:00

And the only thing I got out of this hundreds of pages of book was a really cute scenario

18:08

about these kids squabbling in a room and the din being so loud at home And a man suggested that the parents go to the door of the room.

18:17

Of course, the kids would not notice that because they would be involved in their fight. And simply say, I saw that. And wait.

18:26

Because both children, or all children, would then turn around and look up at the parent and begin to spill out at once. Three voices at once.

18:34

"What happened?" "He did this to me." "No, he did that to me." And if you just waited for five minutes, you'd have the whole story.

18:39

And you'd be able to put it in the right order and make a judgment that would be correct.

18:45

And when I read this verse, "then you will be turned over to the knower of all secrets and declarations," I see it like that.

18:52

We don't know when our death is going to come. And when it comes, the Quran tells us many of us won't even know that we've died. We'll wake and be with God. Without God.

19:05

And I see God standing there saying "I saw that." And I don't have to say anything. Because we did that.

19:15

And that's not an uncomfortable feeling. That's a very comfortable feeling. To know that God is always with me.

19:22

That God sees my mistakes and works on me to correct those mistakes. And that the things that I may have forgotten about I'll be reminded about, hopefully in this world. And forgiven for in the next.

19:35

Does anybody have any comments or questions?

Explains the term "God's Chosen" and the misapplication of the term.

20:12

The messenger: Right. The messenger: See, they cut it a bit too far, God did choose them and give them the scripture, saved them from Egypt and split the sea for them.

20:29

So, not just they were chosen, they were God's chosen, but they made it exclusive.

20:37

Also they exaggerated it way beyond reason.

20:45

First, they were God's chosen. Then, they became almost equal to God, you know, hands around His shoulder, walk around like friends.

20:53

Then, God became like a child, Subhan Allah, God be glorified. In Rabbi Kushner's book, where he talks as if God is a child. He says "it's okay, we forgive You."

21:06

Literally, I'm not exaggerating. He said "are you ready to forgive God for what He did to you because of His inability?" I mean, your hair will stand up if I tell you what he likes.

21:16

And this is, I mean, the extreme arrogance of the majority of them.

21:22

So, this is what happened... the distortion of the concept of being God's chosen.

21:31

They distorted it and exaggerated it too much.

21:39

We have the synagogue, they send their kids here maybe once a year to talk.

21:47

And one time, the sign out there was "happiness is submission to God," and I was talking to those Jewish children here.

21:56

And I was telling them that anyone who submits to God is a submitter, regardless of the name, Jewish, Christian, Muslim, or what.

22:05

So, one of the teachers objected "we do not submit to anybody." I said "not even to God?" "Not even to God."

22:13

So, this is almost typical of the majority. It just turns out that the majority of Jews, the majority of Christians, the majority of Muslims have been tricked by Satan.

22:24

So, this verse here, 6, is talking about the distortion of God's choosing.

22:32

So, the key word would be to the exclusion of all others. And also to make it like it's guaranteed. It doesn't matter what they do.

22:41

This is why God says "why don't you long for death?" And like Catherine said "we don't long for death because we know that the longer we worship God, the greater, the bigger, the more developed is our soul."

22:53

And also, we're not that arrogant. You have to be really arrogant to long for death.

23:01

But if you feel that you need to develop and grow your soul, that you need to atone for past sins, and you want to make up for the past, and things like that, you will not long for death.

23:13

A man: I don't think that the Jews, they are going to long...

23:19

The messenger: Yes.

23:26

The messenger: Yeah, they do.

23:33

The messenger: Yeah, actually a lot of them do think that automatically, you know, Muhammad will take the (unintelligible) out of them.

23:40

Which is a wrong concept. It's the exact opposite.

23:51

When you talk about sibling rivalry, I guess these people didn't know about Apamea and Naghmeh.

24:00

These two go to the bathroom together. Apamea: It's not me!

24:10

The messenger: I mean, they destroy all concepts of sibling rivalry.

24:15

Actually, I have noticed it with the Iranians a lot. The messenger: People from, I don't know what it is, but maybe... A woman: Not girls in general? The messenger: Not girls in general.

24:25

A man: Is it the same? The messenger: No.

24:33

I'm talking about going to the bathroom together. No rivalry, and they don't fight. A woman: They never fight?

24:42

The messenger: I'm just giving an example of how much we love each other. And I've seen this many times also. It's genuine. It's not only here, right? You don't act. You're like this at home, right?

24:55

A woman: Yes. The messenger: See. The messenger: Mā Shā Allāh

25:04

Any other questions? A man: It's wicked, at the end of the verse 7, therefore indicates to... On the surface, it indicates to the Jews. It refers to the verse 6.

25:20

But as you mentioned, there are some laws (unintelligible). Therefore it's the wicked who also in general terms (unintelligible). The messenger: Right.

25:41

The messenger: See, here, we don't say we're the only ones. We raise that verse in Sura 2, verse number 62, it says that anyone who worships God alone is our brother or sister.

25:55

Regardless of what they call themselves. Because our objective is worshiping God alone. Anyone who does that, we love them and respect them for it.

Explains How Jews/Christians can be submitters. They must follow their religious commandments.

26:05

So, this is actually a very important criteria. If you go any place...

26:11

The messenger: Right.

26:17

Back to Catherine. And number 9. A man: If a person is a Christian and worships God alone, he does a certain thing that he's not supposed to do. He doesn't pray 5 times a day.

26:32

The messenger: No. Did he read the Quran? A man: Excuse me? The messenger: Did he read the Quran? A man: Him? The messenger: Yeah.

A man: Yeah. The messenger: Well, it's alright. He goes to Heaven. It's 2:62.

26:44

The messenger: He worships God alone. You see, that person, if he comes across the Quran, he will agree with it, wholeheartedly. He will find nothing objectionable.

26:54

Absolutely. I mean, the verse 62 names Christians by name. Jews, Christians.

27:01

Then, it says "anyone who worships God alone and believes in the Hereafter, the Day of Judgement, and is righteous will make it to Heaven."

27:10

The messenger: Martha. Martha: In a verse Quran says that God chose to make us in one congregation and there are different rules for different different congregations. Everyone follows their own rules. The messenger: Yes.

27:21

The messenger: 5:48, yes.

27:35

For example... I'll explain it to you. You can be a Jew if you want to and go to Heaven.

27:41

But if you decide to be a Jew, you have to follow the Jewish law. You have to honor the Sabbath. On Saturday, you don't work. You don't answer the telephone. You spend the day worshipping God.

27:53

You follow their diet system according to the Torah. You follow their laws. You pray three times a day. You do the Jewish law. You worship God alone.

28:06

But now that you've seen the Quran and the completion of the message, it will not be very smart to go back in time because God...

28:13

The scripture, the message from God, evolved with the human being.

28:18

But the Quran tells you that anyone who's following even one of these systems, the divinely revealed systems, it's all right.

28:27

A man: But didn't you mention in verse 62:7, you have to believe in the concept of Towhid and to get out? The messenger: Yes. Yes.

28:39

A man: As I understand the laws of Judaism, even though those who kept kosher and dairy and non-dairy and all those, Sabath and all nine yards, they don't believe in the...

28:57

The messenger: No, they're not Jewish then. They're just believers. A man: We are actually telling, in another word, we are telling them what the laws are. The messenger: No, the Torah, God tells them.

29:10

The messenger: God tells you. If they do not believe in the Hereafter, they are not following the Torah, they're not Jewish. Just like the Muslims who follow Hadith and Sunnah, they don't believe in the Hereafter according to the Quranic criteria.

29:23

They're not Muslims.

29:30

See, when I say Jewish, I mean Jewish. When I say Christian, I mean Christian. When I say Muslim, I mean Muslim. So, A Christian who does not believe in the Hereafter, Heaven and Hell, is not a Christian.

29:42

Because he's not following what Jesus said. And the Jew who does not believe in the Hereafter is not following the Torah, or what Moses said.

29:50

A man: So, you can't say what you can't guess. Christianity as defined today, you can't define Christianity as someone who follows what Jesus taught, rather than Christianity as it exists. The messenger: Well, by definition...

30:03

A man: Christianity, like you said, (unintelligible). Well, you can't do that because you go to church and it all operates and functions around, you know, the worship of the Trinity or God, Jesus, and the Father. The messenger: That's not Christianity.

30:25

A man: But as it exists today. The messenger: That's actually Paulism. A man: That's an example. The messenger: No, see, by definition, a Christian is one who follows Christ. The so-called Christianity today is really Paulism. It's not Christianity.

30:38

A man: Yeah, I've read that. A man: I mean, is there a Jewish Christianity in existence today? The messenger: Sure. Yeah.

30:50

The messenger: The Christians who do not..... The messenger:the messenger of God, they're Christians. Yes.

30:55

The messenger: Actually I... A man: In Judaism also? The messenger: Yes. They're Jews.

No conflict with worshipping God alone under different religions.

31:04

The messenger: All kinds. Jews of all kind, with Orthodox Jews, Reform Jews, Conservative Jews, who are true Muslims.

31:12

A man: That's kind of funny, because it's all types. So you can consider everybody a true Christian, because Jesus preached to all about God. So, you can say we're Christian. The messenger: Sure. A man: So, you know....

31:28

The messenger: One religion. The messenger: That religion is worshipping God alone. Yes, one religion is practiced by Jews, Christians, Muslims, Hindus, Buddhists. But it is one religion.

31:40

A man: So, it is evolving. The messenger: Well, the message evolved with the human race.

31:51

The messenger: No, there's no conflict at all. If you read the Bible, the Torah, read Deuteronomy, it's beautiful. Just like the Quran. Read the Psalms. Like the Quran. Isaiah. Proverbs.

32:07

Read the Bible, you'll find it identical. Really, the original scripture started with the Torah.

32:13

Then we have, after this, the Psalms, and Isaiah, and (unintelligible), Proverbs, which is Solomon's book.

32:23

They're all identical to the Quran. There's no conflict at all.

32:29

Where is the conflict? Give me an example of conflict. Hamid: If it is more information in the Quran than what is told in the Christian Bible, it's going to be...

32:47

if we are saying we are stretching the knowledge to unlimited depth knowledge of the Quran, the is one criteria.

32:59

And the other fellow, which is the Christian, he limits it all the way to the Hebrew Bible, and ignores the rest. But you see the conflict.

33:09

The messenger: But that's... Where is the conflict? Do they all worship God alone?

33:15

Hamid: Well, at the beginning, I said, if this is more... it supersedes the other books. There has to be...

33:32

Hamid: I see it now. I'm sorry, I just explained it the way I could. I think there is a conflict there.

33:40

The messenger: Oh, Ok. There is no conflict at all. All of them advocate the worship of God alone, and all of them give you a system to develop your soul.

33:49

Hamid: The basics are the same. Three religions, they all worship God and God alone. The messenger: Right. That's it.

33:56

Hamid: But that is not enough, I think. The messenger: That's it. That's enough. It's the whole thing. Hamid: If that was enough, what was the reason of three big religions? The messenger: Because of God's mercy.

34:12

The messenger: It's verse two. [62:2] He is the One who sent to the gentiles a messenger from among them, to recite to them His revelations, purify them, and teach them the scripture and wisdom.

34:23

Gentiles are the people who did not have a scripture. God did not want to leave them alone. He didn't leave them lost. He wanted to guide them.

34:34

A woman: Also, God knew that the other scriptures were touched by human beings and changed, and were altered.

34:41

And then we got the Quran, which is never, you know, it's being, it never touches, and it's preserved.

34:50

And it just gave the Arabs a different set of guidelines than it gave Jews and Christians. And that's all that it is.

34:58

But the one that, why it came after everything else is that God knew that this one was never gonna be touched.

God allowed previous scriptures to be altered as the Quran will dominate and remain unaltered. Islam will dominate within 50yrs from 1989.

35:06

The messenger: Okay. Actually, this is the chicken and the egg. God permitted the distortion of the other scriptures because this is the one that is gonna be in the whole world about 50 years from now. The others will be history.

35:22

But this is the only scripture, this is untouched, this is God's complete message to be given to the vast majority of the human race.

35:30

I mean, even 50 years from now, we'll still have 65 billion people coming to use this as their message.

35:41

This is God's message to come to supersede and take the place of all the others. A woman: If God didn't permit the scriptures to be such the way they were, it still preserves the correct message.

35:54

And it's a test for those people to get the right information out of it because some do, and some really don't see the conflict. So it's a test then. The messenger: Yeah, exactly.

36:06

But all those scriptures are supposed to vanish. This is why we have these overwhelming physical proofs that will simply take over the world, the whole world.

36:19

Just give the world 50 years from now, maybe less.

36:31

The messenger: This is God's law. He said We're gonna come... it would be... look at page 396, right there in front of you, verse 9.

36:46

[9:33] He is the One who sent His messenger with the guidance and the religion of truth, and will make it dominate all religions, in spite of the idol worshipers.

36:53

This is God's law. This is not wishful thinking. Hamid: And it indicates this date also and saying the time, 50 years, what I'm saying is, this doesn't mention anything about 50 years.

37:11

Hamid: And I think it will remain with us as mankind until the end of the life, Judaism and Christianity. It has been with us and it will.

37:35

The messenger: Well, Islam will be the dominant, like America will be a Muslim country if you wanna look at it this way. It will no longer be a Christian, a Judeo-Christian country.

37:45

It will be a Muslim country. And this is God's law. The messenger: I mean, today, can you call America a Muslim country? A man: No.

37:53

The messenger: Okay, 50 years from now, America will be a Muslim country. And it's not wishful thinking.

38:01

Hamid: You are actually saying something that is based on your desire.

38:06

The messenger: No, it is not. Apparently, you don't know what the miracle is, so I suggest that you read the miracle of Quran and look at it carefully. Then, you will agree with me.

38:15

Hamid: You say 50 years? The messenger: Maximum, maximum 50 years. Probably be less than that. It'll be more like 20 years.

38:22

Things are gonna happen very fast in the next 20 years. But I'm giving myself a long time just to be careful.

38:30

The messenger: Mahmoud?

38:45

The messenger: Yes, yes. It's 19 x 19 x 32 The messenger: Hamid?

38:51

Hamid: I was just saying, in 20 years or 50 years, or whatever it is, it's an estimate that hopefully, IN SHAA ALLAH, by this time, we will realize the real message and the truth.

39:02

The messenger: Yes, things are gonna happen very fast, folks. Hamid: So, it is estimated then? The messenger: Like I said, 50 years is maximum. But it's most probably 20 years. In your lifetime.

39:15

The messenger: IN SHAA ALLAH.

39:21

The messenger: Hamid, do you know that the sun will rise tomorrow? Hamid: Yeah. The messenger: How? How do you know that?

39:27

Hamid: Because we have seen up to now that it did every day. The messenger: Right. Because there are certain signs that indicate. See, look at the clock, it is 8:15.

39:38

In 12 hours from now, it will be 8:15 in the morning. So, you know that the sun will come. This is a sign that the sunrise is approaching.

39:45

And the same with, if you read the miracle of the Quran and understand it, you'll know that this country will be Muslim within 20 to 50 years.

39:56

And I show you, it is God's law, I have it in front of you. 61 verse 9. This is the verse that is repeated 3 times in the Quran.

40:06

Back to Catherine. We've taken the whole thing from her. Verse 9.

40:13

Catherine: [62:9] O you who believe, when the Congregational Prayer (Salat Al-Jumu'ah) is announced on Friday, you shall hasten to the commemoration of GOD, and drop all business. This is better for you, if you only knew.

40:23

[62:10] Once the prayer is completed, you may spread through the land to seek GOD's bounties, and continue to remember GOD frequently, that you may succeed.

40:32

[62:11] When some of them come across a business deal, or some entertainment, they rush to it and leave you standing! Say, "What GOD possesses is far better than the entertainment or the business. GOD is the best Provider."

40:45

I think most of you know that I am employed in a crisis center. And, Mā Shā Allāh, I haven't missed a Friday Jumu'ah since going to work there. Actually, that coincided with a commitment on my part not to miss.

41:02

And you can't organize crises. As you all know, they just kind of fall out of the sky. And every Friday, thank God, I've been able to walk out of there.

41:13

And no one calls me back, and the building is still standing when I get back there, and no one says anything.

41:20

It's very important that we understand how important it is that we come and join together on Friday. There is nothing that should keep us from that.

41:30

What I wrote in the margin, and I don't know when it was I wrote it, but I wrote in the margin of those three verses, illusion and unreal, and we need to leave it as easily as we turn off the television, because this is what's real.

41:44

Coming together at Jumu'ah and to study Quran and be with believers is real.

41:49

The rest of the world we live in is the illusion that God created to sustain us and guide us and teach us and extend His mercy to us.

41:58

But it's set up entirely for us. It's like some giant playground. Some people get injured on the playground, and some people have a wonderful time. But it is an illusion, and this is the real thing.

42:11

There's nothing that should keep us from this. Absolutely nothing.

42:16

Does anyone have any comments on the last three verses?

42:37

The messenger: How would you have a group of people meet in your house?

43:08

The messenger: What does it say? A woman: [62:9] ...when the Congregational Prayer (Salat Al-Jumu'ah) is announced on Friday, you shall hasten to the commemoration of GOD...

43:16

The messenger: Ok. What is Friday in Arabic? The messenger: And Jumu'ah means what?

43:26

The messenger: Right. A group of people

43:33

A woman: Even 2 people have a... The messenger: Yeah.

43:44

The messenger: It came from Abraham. Since the time of Abraham.

43:52

The messenger: Yeah. Yeah. That's what it means. What do you mean it came first? Are you talking about two things? What are the two things?

44:07

The messenger: Is there a first and second in your mind? I just wanna understand your question.

44:16

The messenger: You said "which came first?" What do you have in mind when you say "which came first?" Which and which? What and what?

44:22

A woman: The word for Friday, which means coming together. (unintelligible). The messenger: No. No.

44:44

The messenger: It hasn't always been that. There was a time when there was no names of the weekdays. Like the Sabbath. You mean Sabbath?

44:56

The messenger: Yeah. Sure. They had the Friday Prayers before Muhammad.

45:02

The messenger: Well, you don't know that all the practices of Islam came through Abraham.

45:12

All the practices came from Abraham. Look at 16:123 will tell you.

45:17

Hamid: But wasn't the Prayer different from the Prayer at the time of Abraham? The messenger: No. Hamid: Five times Prayer? The messenger: Exactly the same. Yeah. Hamid: It's exactly the same? The messenger: Yep.

45:27

Hamid: And you think the prayer caused... I think your question was this way. If you wanna learn science, you go to university to learn it or you wanna learn it and then university is just a tool.

45:43

I think the Prayer is important and for that purpose you go to mosque. Or you have to go to mosque in order to Pray.

45:52

The messenger: Okay? Hamid: That was the question. Which comes first? Hamid: You can pray... The messenger: No. That's not the question. That is wrong.

46:17

The messenger: This is wrong. No, that's wrong. There's no "when you're called." That's not in Arabic.

46:25

The messenger: When the Salat is announced. There's no "you are called" in Arabic.

46:35

It's a passive... I don't know what the English grammar is. It's a passive statement. It doesn't say that. It doesn't say "when you are called."

46:47

Back to Catherine and the next Sura. Oh, let me emphasize.

46:56

Absolutely. This is what I was gonna say now. It is unfortunate that my generation, for example, in Iran, they grew up with the lack of the Friday prayer.

Better to abandon a business deal of \$10Million and attend Friday Prayer.

47:07

And it is not as firmly implanted in them to do the Friday Prayer until the Khomeini Revolution came and they started to do the Friday Prayer.

47:18

And I found it disastrous from my observations. There are many fortunate people like the Sabahis and the Moinis.

47:26

They came to the Friday Prayer readily. God is guiding them. And they did it easily. But it was not easy for many people to do the Friday Prayer. And I found it disastrous for them.

47:38

Just the Friday Prayer. Because they didn't do it. They caused their dropout.

47:45

I mean, I know that. I'm just trying to emphasize the extreme importance of the Friday Prayer. God is saying here "and drop all business."

47:56

It is very important. And it says "this is better for you." If you are waiting for somebody to sign a deal with you that will give you 10 million dollars. And that is at the time of the Prayer, God is telling you "go to the Friday Prayer and leave those 10 million dollars, and it will be better for you."

48:12

Because God will give you 20 million. It is very important, and it is difficult for... If we grew up like the last generations of Iran, if we grew up without the obligatory Friday prayer, it becomes more difficult to adapt to the Friday Prayer.

48:30

And at the same time, the reward is also doubled. Actually, multiplied many-fold for doing that.

48:39

A man: I have been to other Middle East countries, but I imagine it is more or less the same.

48:44

I have, in this verse, I have the personal experience in Turkey.

48:49

And generally, women do not go to the Friday Prayer. And I asked someone in Iran, over there, and I said "why don't women go to the Friday Prayer?"

49:00

And he told me that it is because of a certain Hadith that decree that women shouldn't go.

49:08

And when I mentioned this verse, he couldn't say anything to me.

49:13

The messenger: It doesn't say "O, you believing men." A man: It says "O, you who believe." So, I mean, the verse is for both men and women.

The messenger: Yeah.

49:21
A man: So, I guess, but they have a base in Hadith that the women aren't going to come to the Friday prayer. So, I think that "O, you who believe" is maybe "O, you men."

49:38
The messenger: There is a Hadith that says that women should not go to the Friday Prayer. And the next Hadith says that women are deficient in religion because they don't go to the Friday Prayer.

49:50
I mean, what a catch-22.

49:55
A woman: In the article that was in the newspaper, they said that it's obligatory for the men to go, but it's optional for the women to go.

50:03
The messenger: In the paper, you mean the Islamic Center? No, they said "we discourage that." They said "we don't want women to go." Because they follow Hadith.

50:13
But, obviously, here, verse 9 says "O, you who believe." It doesn't say men or women. This is an obligatory duty for men and women.

50:22
It's very, very important. Hamid: Why is it important? Why does it emphasize the importance of that?

50:30
The messenger: Because it's a commandment. This is a commandment from God. It says, [62:9] O you who believe, when the Congregational Prayer (Salat Al-Jumu'ah) is announced on Friday, you shall hasten to the commemoration of GOD, and drop all business.

50:40
This is a commandment from God. Hamid: Well, I can say a few reasons for why it is that particular day, the Friday. I think it is the end of the week. And, therefore, you can't...

50:57
The messenger: There's no excuse. Hamid: What? The messenger: Sorry. Hamid: So, you can actually go through the problems of the whole week and have a calm and answer the problems and then try to solve it within the community.

51:15
The messenger: That's not the purpose. The purpose is not solving problems. The purpose is to commemorate God in a group of people.

51:25
The messenger: That's the purpose. Hamid: I have a comment here. The messenger: Yeah. Hamid: I think, as a Muslim, it's very important to ask God's (unintelligible). Any particular action (unintelligible). He wants the excuse of "O, you who believe."

51:42
The messenger: That's fine. Hamid: Why they are even where they were placed at home. Also, why they are doing when. The messenger: Right.

51:51
Hamid: And, going back to what you were saying earlier, emphasizing, why Friday, I guess, I would say, in most of the Islamic countries, Friday is the end of the week.

52:08
The messenger: You can make Wednesday the end of the week if you want to. Hamid: There is a good power here. As you know, we have a good power in the Muslim world. And, so, it goes from that.

52:20
The problems of the Muslim society and the dangers that modern society are going to face from the other non-believers and non-Muslim societies are to be discussed.

52:35
Because the majority of the people get together. And, since we all live in a society that is not facing great respect to all the people.

52:46
The mass of the people, the number of the people. And, these mass of the people are the ones that can prove their value. And, they have their own conclusions. And, they have their own problems.

52:58
It's not the way the society is now. Particularly, I would say, it's not yet the way to discuss the problems, discuss their actions...

53:10
The messenger: Yeah, this happens automatically. If you carry out a commandment, this will happen automatically. That's exactly the purpose of the Friday Prayer.

53:17
We all get together and we know each other. Hamid: It's not only to get together and pray to God. You can pray to God at our home. You know, one, two, three, four, five, six, seven, eight. But, there, in a place, there's 100,000 people...

53:28
The messenger: So, you agree with the Friday Prayer that this is important, right? Hamid: Yes, of course. The messenger: You do agree.

53:35
Hamid: ...acceptance. You know, why Friday, and you can only go on Friday and pray and don't talk about problems will take the concept away. What if, maybe it's nonsense, you shouldn't go. If the Imam is just talking nonsense, you'd better stay home.

54:01
The messenger: Then how will you change the situation if you stay at home? Hamid: You're not going there. You have to talk about the situation. You have to discuss the problem. You just, you just, I was just...

54:14
The messenger: What if the Imam is giving fantastic lessons that will save your life? Why do you assume the negative?

54:20
Hamid: The Imam cannot give us a fantastic lesson. We discussed it. You have show Showrunner. You have lots of people from different societies, from different beliefs, you know, discussing a problem.

54:29

You see what's happening. What has happened to you from Shanbe to Jumu'ah, from Saturday to Jumu'ah (Friday). What are the problems? It could be cultural problems, economic problems, social problems, cultural problems

54:38

The messenger: Yeah. That's fine. Hamid: And all these problems must be discussed... you are free. So, that's why you're have a Jumu'ah Prayer.

54:45

The messenger: I agree with you. Martha: The Jumu'ah Prayer could be a Monday (unintelligible) Wednesday (unintelligible). Hamid: Oh, no.

54:57

Martha: I think, I think, in Arabic....I don't know why you said that. It just makes no real sense. The name itself preserves that.

55:08

No matter what day of the week it calls on, in other languages, in Arabic, you just have to get around it. That's all you need. It's the name of the day.

55:17

You can give it a name from the fact that it's Friday. The messenger: I don't think anyone is objecting to do the Friday prayer on Friday.

55:24

Martha: No. I mean, the idea is that, this Friday is because that, that allows you to discuss and be free on Friday.

55:34

The messenger: Well, people are free to say what they want. Hamid: Well, Friday, you're emotionally ready. You don't have any classes. You don't have any work to do. We all have business, family on Saturday, yeah. (Unintelligible).

55:47

Martha: In a Muslim country, if the day of gathering together were on a Wednesday, everything should be adjusted. All the companies should be closed.

55:57

The messenger: Oh, Martha, Martha, please, let's not discuss nonsense here. I mean, not you. Please Just, we can go on discussing the vain talk. Let's go back to Catherine and Sura 62. 63.

56:09

We can make an assumption and go on discussing it, you know. What if the sky is green? You know, let's discuss that.

56:16

63. Catherine: The Hypocrites (Al-Munaafeqoon) In the name of God, Most Gracious, Most Merciful

56:23

[63:1] When the hypocrites come to you they say, "We bear witness that you are the messenger of GOD."* GOD knows that you are His messenger, and GOD bears witness that the hypocrites are liars.

56:34

[63:2] Under the guise of their apparent faith, they repel the people from the path of GOD. Miserable indeed is what they do.

56:40

[63:3] This is because they believed, then disbelieved. Hence, their minds are blocked; they do not understand.

56:47

[63:4] When you see them, you may be impressed by their looks. And when they speak, you may listen to their eloquence. They are like standing logs. They think that every call is intended against them. These are the real enemies; beware of them. GOD condemns them; they have deviated.

57:01

[63:5] When they are told, "Come let the messenger of GOD pray for your forgiveness," they mockingly turn their heads, and you see them repel others and act arrogantly.

57:08

[63:6] It is the same for them, whether you pray for their forgiveness, or not pray for their forgiveness; GOD will not forgive them. For GOD does not guide the wicked people.

57:16

[63:7] They are the ones who say, "Do not give any money to those who followed the messenger of GOD, perhaps they abandon him!" However, GOD possesses the treasures of the heavens and the earth, but the hypocrites do not comprehend.

57:28

[63:8] They say, "If we go back to the city, the powerful therein will evict the weak (and we will be victimized)." (They should know that) all dignity belongs to GOD and His messenger, and the believers. However, the hypocrites do not know.

57:41

Verse 1, the footnote says "even though the hypocrites are uttering a truth, God calls them liars.

57:48

He teaches us that we must reject all fabrications attributed to the prophet in the name of Hadith even if such Hadith narrates a truth.

57:56

The fabrication of a good Hadith is the bait that Satan uses to cover a deadly hook.

58:03

There are many people who are very talented with words in their individual languages.

58:10

And how scriptures and Hadiths and the oral traditions in Jewish faith and so on came to be

58:20

was those human beings who were very talented with words took the truth and elaborated upon them to the point where they became

58:28

man-made laws, regulations, suggestions, traditions,

58:34

to the point where those became the truth that people followed as opposed to the real message which was at the core originally.

58:41

There is some truth, some veracity to what we hear in all things.

58:47

The test is to figure out where it is and what it is. If you know what the truth is from the beginning, you can recognize the distortions.

58:55

Sometimes they're so well done that it's hard to argue with people. Because you're not as articulate as they are for instance.

59:04

Some people are very articulate, very well versed with the words and very good abstract thinkers if I can use that phrase. And I'm not.

59:12

I just know what the truth is, thank God. And when it starts, it's so complicated that it's hard to find it in what I'm hearing,

59:19

I have to stop that and I have to say "no." There is a fine line here.

59:24

God says "even if there's truth in what we hear mixed in with the distortion, we're to discard all of it because it is a game and it's Satan's game. It isn't a person's game that's talking to you."

59:36

It's Satan's game. Satan's out to bring us on those things that we're perhaps not as sure about, not as able to argue about

59:46

to get us to go to him and forget God alone. And this is really difficult because this is in the media, this is in the newspaper. It's everywhere.

59:55

It's everywhere. It's in comedy. It is on free time. I mean, the distortions are everywhere, and the truth is always buried in there somewhere.

1:00:04

It's almost like playing chess, you know, when it's your turn to move, you have to walk very carefully to the next square

1:00:11

because there's so much of that stuff all around us. And it's stuff, don't laugh.

1:00:21

Chess. Ok.

1:00:27

[63:2] Under the guise of their apparent faith, they repel the people from the path of GOD. Miserable indeed is what they do.

1:00:32

[63:3] This is because they believed, then disbelieved. Hence, their minds are blocked; they do not understand.

1:00:37

Once a person has believed and then disbelieved, they're done. God will continue to support that person throughout their life here, and give them even the things that they want, but they'll never get to the truth.

1:00:52

Once they had had it, and gave it up, they won't be able to come back.

1:00:57

And God is very definite in this verse about that. And then goes on to describe them as if they were wooden logs. And we may be impressed, as I said earlier, by their appearance, by the way they look.

1:01:12

Verse 8 says that [63:8]all dignity belongs to GOD and His messenger, and the believers. However, the hypocrites do not know.

1:01:21

We are provided for. Everything we need is provided for. So, when people who don't understand that plot and scheme to prevent us from getting the things that we're supposed to get,

1:01:33

it's totally useless. We get what we're supposed to get from God, not from anyone else.

1:01:38

So, those schemes and plans to disrupt or disband or fight with don't go anywhere. They're diffused before they ever get off the ground.

1:01:49

What they do do is keep those people occupied and out of our business while we go about it.

1:01:56

Because they're busy doing things that are fruitless. And that's a form of protection for us as well.

description of intercession and repentance.

1:02:02

Because we know that we can't be hurt by them.

1:02:07

Does anyone have any comments, additions, subtractions on that section?

1:02:15

The messenger: Abdullah?

1:02:21

Abdullah: When verse 6, where the messenger has to give (unintelligible)

1:02:38

If that's the case, when people ask "why do you ask?" (Unintelligible). Does God mean that when you ask something like that, it doesn't matter what he asks?

1:02:55

The messenger: No. What this means is that God will accept the prayer for forgiveness for the believers, but not for the hypocrites.

1:03:04

The messenger: That's what it's telling us. They are too arrogant anyway, and they don't have the belief in their hearts. So they think it's all nonsense anyway.

1:03:15

The messenger: Pardon? Dr. Sabahi: So, it doesn't have anything to do with SHAFAT (Intercession)? The messenger: No, it actually proves there is no SHAFAT (Intercession).

1:03:25

Because it's only the believers who will be helped, and the believers are going to Heaven anyway.

1:03:33
The disbelievers and the hypocrites cannot be helped, so what's the use of SHAFAT? So, this was the Quranic position.

1:03:40
The Quranic position is that every one of us, IN SHAA ALLAH, when we go to Heaven, will say "please God, I want my mother with me."

1:03:49
"I love her very much." Ok? And this is SHAFAT. You will say it. I will say it. Everyone will say it. IN SHAA ALLAH in Heaven.

1:03:58
Now, this SHAFAT is useful if the mother is a good person that is already going to Heaven.

1:04:06
If the mother was not to go to Heaven, this SHAFAT will not do any good. Therefore, it is really useless. But we will say it anyway, out of emotion.

1:04:15
So, this is the understanding of SHAFAT. And this is exactly what this verse was saying.

1:04:20
It is saying when the messenger asks for forgiveness, it will be accepted for the believers, but not for the hypocrites or the disbelievers.

1:04:31
Exactly. Because it's true.

1:04:37
Catherine: It's our human nature to do it. The messenger: Not because it's something that is... Because it's a fact.

1:04:49
The messenger: Yes. The messenger: Anybody can repent. I think this is a point that Catherine raised.

1:04:57
But if a person goes back from belief to disbelief, they can always repent and come back to it.

1:05:02
There are other verses in the Quran. In Sura 4, verse 137, it says, you can believe, disbelieve, believe, disbelieve, and so on.

1:05:14
So, the Quran is talking about the period when they are disbelievers.

1:05:25
The messenger: No, there is no such thing as God cannot. Repeat.

1:05:30
Rephrase your question.

1:05:38
No, no, no. There is no such thing as God cannot. Now, rephrase your question.

1:05:47
There you go. Yeah. Now, you can have it. Go ahead.

1:05:59
Yeah. This is the end of the verse. Look at it. Verse 6. "God does not guide the wicked people."

1:06:06
They are already wicked, so He does not guide them.

1:06:12
Yes, they can, because this is our free decision.

1:06:17
God will (unintelligible) to their repentance. The minute they change their decision to believers, they are believers.

1:06:26
Not as long as they're hypocrites or disbelievers. Only when they make a decision to believe.

1:06:31
Right. As soon as they make a decision to believe, they step into God's Kingdom.

1:06:37
Right. As long as they are hypocrites and disbelievers, they are outside of God's circle.

1:06:43
The messenger: Douglas? Douglas: In these verses, God is revealing to us (unintelligible). He's revealing to us so otherwise we will know. We could see they are liars. They cannot understand. They do not know. God is revealing to us but otherwise we may not be able to see.

1:07:07
The messenger: Cause we don't see Douglas: Cause we don't see. The messenger: God says "I know them, you don't know them." Douglas: Right.

1:07:13
Douglas: The other point I wanted to make is basically, when we use this example of wooden logs, does this mean, for example, like food, clothing and water, it's all service? The messenger: No.

1:07:25
Douglas: I'm just asking. How logs (unintelligible).

1:07:31
The messenger: No. Can you communicate with a wooden log?

1:07:44
The messenger: In fact, there's an Arabic, there's an Egyptian, excuse me, there's an Egyptian proverb and an English proverb.

1:07:50
It says "they're standing there like a log." Is this in English? Turkish. Yes. And in Arabic, too. And English. And Egyptian.

1:08:05
Did we finish Sura 63? Go ahead and finish it. Catherine: Verse 9. [63:9] O you who believe, do not be distracted by your money and your children from remembering GOD. Those who do this are the losers.

1:08:17

[63:10] You shall give from our provisions to you before death comes to you, then you say, "My Lord, if only You could delay this for a short while! I would then be charitable and join the righteous!"

1:08:27

[63:11] GOD never delays the appointed time of death for any soul. GOD is fully Cognizant of everything you do.

1:08:37

The easiest thing in the world to do is to be distracted by those that we care about the most. And God warns us against that. In other verses, He says that these may be enemies of ours, and we do need to be cautious of that and avoid idolatry.

1:08:51

Spending in charity is so easy if we know that nothing we have came from us or will go with us anywhere.

1:08:57

It comes from God. It's not ours to start with. And if we give it in charity, we give it only where it was meant to go.

1:09:03

Verse 11 says [63:11] GOD never delays the appointed time of death for any soul....

1:09:10

And there's nothing more that you can do after the Day of Resurrection. But there is so much mercy from God, and we have so many chances before that day. So many. They're limitless.

1:09:20

As long as we live, we have a chance, an opportunity God constantly provides those opportunities for the hypocrites to repent, for us to continue to work right up until the last moment.

1:09:31

That verse 11 sounds very final, but when we know the mercy of God and what He provides for us on a minute-to-minute, second-to-second basis in this world, it's extraordinary.

1:09:44

And it doesn't need to frighten us. We just need to know that there is a limit. And once we've reached it, it's over. We have no more to do.

1:09:54

Any other comments and questions? A man: May I ask a question?

1:10:01

The messenger: Yeah. Go ahead. The messenger: Let's just thank Catherine for an excellent Quranic study.

1:10:07

Catherine: I can go to 114 in 10 minutes if you say you want me to go.

1:10:12

The messenger: Now, we'll get to general questions. The messenger: Farhad?

1:10:20

Farhad: ...Many, many, many decisions have to be made and why? Sometimes a group of people think as (unintelligible), toward a Sura and Aya (verse) (unintelligible). What is the criterion to to order of what this was more important than this?

1:10:46

(unintelligible). Is there any criteria like that? Or that's my suggestion.

1:10:55

The messenger: Everything God said, excuse me... Farhad: The number of times that a subject involves being mentioned, is that important? Being a good person without observing the commandments is in vain.

1:11:05

The messenger: That's a good sign, yeah. But all of them are important. All the laws are important.

1:11:11

I wanna go back to the Friday business. Remember that the title of the Sura is named after the Prayer, "Friday."

1:11:19

It is a Sura in the Quran entitled "Friday." And the commandment is there saying "O you who believe when the Salat Prayer's announced on Friday, go and drop all business." That's the commandment.

1:11:31

All the commandments of God are important.

1:11:36

Farhad: Why is "La Elaha Ella Allah" more important than anything else? The messenger: Cause this is the basic requirement, you know. I mean, if it's not there, nothing else exists.

1:11:46

Everything else will be in vain. I mean, a person can be truthful and honest and is a very nice person but he does not believe in God, and all his work is in vain.

1:12:00

So, "La Elaha Ella Allah" goes without saying. Then after that, all the commandments are very important. Every single one of them.

1:12:13

Farhad: For example, can you say Salat is more important than Zakat? The messenger: No.

1:12:19

Farhad: Because it's mentioned more than Zakat. The messenger: Actually, they are both usually mentioned together, Salat and Zakat.

1:12:27

Farhad: Or Fasting. The messenger: Fasting is very important. The messenger: You're disobeying God if you don't fast. You're disobeying God if you don't do the Zakat. You're disobeying God if you don't do the Prayer. You're disobeying God if you lie or cheat.

1:12:40

So, take your pick. It's very expensive if you... A woman: But also, I think it's important to say that God knows what's true and what we have to do and God always gives, you know, people who can't do it, gives us alternatives.

1:12:54

The messenger: Well, it's our choice, you know. You can put your finger in the fire or not. It's up to you.

1:13:01

I mean, God left it up to us.

1:13:10
 You heard Jehan today. If he doesn't wanna do the push-ups, he will think that God is doing everything, not him.

1:13:20
 So, it's as simple as that. We're celebrating Laila's birthday today.

1:13:29
 I don't mean to embarrass you. But her birthday was the 19th of March, is that so?

1:13:38
 And she didn't even know that her address was a multiple of 19.

1:13:46
 So, this is why she came to Tucson. Celebrating her birthday with us.

1:13:52
 There are so many things that we need to do. We read Al-Fātehah for Soad, remember? Because of her tests. Congregation asked to recite Fateha for someone's exam.

1:14:01
 Well, she passed.

1:14:10
 But there's another big test coming up.

1:14:17
 And she's greedy again. And she wants us to read Al-Fātehah for her.

1:14:23
 God never turns us down. And Ahmad needs that we ask Allah Subhanahu Wa Ta'ala to help him with his PhD exam. It's Monday?

1:14:37
 Yes, of course. Yes, you better. You better ask.

1:14:46
 God is generous. God is generous. And we have a perfect record so far, Alhamdu Lillah.

1:14:53
 God never turns us down. Strange things we asked for. And He never turned us down.

1:15:00
 We even overturned governments. We did that.

1:15:06
 What else? You're supposed to remind me. Who else asked for Al-Fātehah?

1:15:15
 Yes, we recited Al-Fātehah for Linda Baroni because she had some infection in the hospital. But she's alright.

1:15:23
 We want to take advantage of Jahan's presence so he'll be our teacher next week.

1:15:31
 He wants to go AWOL.

1:15:37
 Serious?

1:15:49
 Let's read Al-Fātehah so he stays. Ok?

1:15:58
 Okay, so let us recite Al-Fātehah and ask Allah Subhanahu Wa Ta'ala to give Laila a happy year coming up, every year to be happier than the previous year.

1:16:09
 And we're gonna recite also Al-Fātehah for Soad for her coming test, and for Ahmad Rayan.

1:16:17
 And Al-Fatiha to keep Jahan here in Tucson for at least a few weeks.

1:16:25
 As you recite Al-Fātehah, turn to God and ask Him for your own personal wishes, anything you want.

1:16:31
 Al-Fātehah Bism Allah Arrahman Arraheem (1:1) Al hamdu Lillahi Rabbil 'Alameen (1:2) Arrahman Arraheem (1:3) Maliki Yawm Eddeen (1:4) Eyyaka Na'abudu Wa Eyyaka Nasta'aeen (1:5) Ehdina Al-Serata Al-Mustaqeem (1:6) Serata Al-Lazeena An'amta 'Alayhim Ghayri Al-Maghdoobi 'Alayhim Wa Laddaalleen (1:7)

1:16:51
 Congratulations, you special people.

1:16:56
 Yes, of course. Was I supposed to?

1:17:01
 (78:34) وَكَأَيُّهَا دِهَاقُهَا لَا تَسْمَعُونَ فِيهَا لَغْوًا وَلَا كِدًّا (78:35)

1:17:13
 (78:36) خِرَافٌ مِّن رَّبِّكَ غِطَاءٌ جَسَدًا

1:17:22
 (78:37) رَبِّ السَّمَوَاتِ وَالْأَرْضِ وَمَا بَيْنَهُمَا الرَّحْمَنُ لَا يَمْلِكُونَ مِنْهُ خِطَابًا

08 Quran Study From Azhar 8 Sura 65 & Sura 66 By Lori Encourage Children To Do Salat Hamid Argues 04

Lori: [65:10] GOD has prepared for them severe retribution. Therefore, you shall reverence GOD, O you who possess intelligence and believed. GOD has sent down to you a message—*

0:10

Okay, these verses, again, the words, every word in the Quran is specific and is there for a reason.

0:16

It's not just there to take up space. Here the past tense is used because we know that the decision was made before we ever came into this dimension.

0:30

So, we possess, those of us who possess intelligence, even though we blew it because we wavered,

0:36

we didn't take an absolute stand for God, still we didn't do what the jinns did and just totally disbelieve.

0:45

We just showed some intelligence and we believed. And God sends us reminders. He sends us the messages. He sends us the scriptures and the messengers to

0:57

recite the scriptures and to clarify things as reminders because

1:02

just because we made that initial decision doesn't guarantee that we're not going to make mistakes and go out of God's Kingdom. So, we have to be constantly reminded

1:15

about God's laws, about how to exhort each other to be righteous. We have to remind each other to do certain things, to give charity.

1:25

We have to remind each other and ourselves because it's really easy to forget in your day-to-day life when you're out in the environment where people disbelieve.

1:36

And it's very easy to fall into that and to forget and we need that constant reminder.

1:44

Are there any questions so far to this point?

Explains divorce.

2:04

The messenger: Yes.

2:09

The messenger: No, it says provide, you pay, because it's your responsibility.

2:20

A nursing mother? Because, see, the divorced wife may want to refuse to nurse the children, say "I'm not gonna do anything anymore. You take care of the baby."

2:33

Then, you can hire a nursing mother. So, you have to think of the circumstances of divorce.

2:39

They're really straightforward instructions.

2:47

The messenger: Yes. Because you're telling her "you cannot get married." You're telling her "since you're carrying my baby, you cannot get married."

2:57

When you say that, then you have to put your money where your mouth is. This is how we say the expression.

3:05

When you say that, you have to provide for them.

3:14

She may be doing a favor because maybe she can't stand the circumstances, or you, or the house, or, you know, she may go on strike.

3:23

It's her right. We're coming to, which verses did you finish, 11? Why don't you finish the whole Sura and then I have a couple of comments.

3:34

This is Sura 65. Lori: Verse 11. [65:11] a messenger* who recites to you GOD's revelations, clearly, to lead those who believe and work righteousness out of the darkness into the light. Anyone who believes in GOD and leads a righteous life, He will admit him into gardens with flowing streams; they abide therein forever. GOD will generously reward him.

3:59

Again, we're told here that the messenger recites God's revelation. He's just the disburser of information, the clarifier, the warner, the reminder.

4:08

The revelations are God's. The commandments are God's. The laws are God's laws.

4:14

And the messenger is sent as a mercy to us to lead us out of the darkness and into the light. Because otherwise,

4:20

we wouldn't do what we were supposed to do, and we're going to be held accountable. And God is so merciful that He doesn't do that.

4:27

He doesn't hold us accountable unless He gives us every chance that He can possibly give us. So, we have the scriptures. We have the messengers.

4:35
We have all of these things at our disposal to make the right decisions.

4:40
And when we do it, then we're guaranteed not only in this life happiness, but eternal happiness forever.

4:48
And the rewards are generous. We don't have to worry about it at all. And

5:00
It's just so clear. And I think these verses, even though they're only a few, like Rashad said, are so profound because

5:08
you can't find any fault in any of them. You may not personally agree because you have a different outlook or something, but you can't find fault in any of these verses. They make perfect sense

5:19
because they're from God. God is Omniscient.

5:25
Verse 12. [65:12] GOD created seven universes and the same number of earths. The commands flow among them. This is to let you know that GOD is Omnipotent, and that GOD is fully aware of all things.

5:38
And if you look at the footnote at the bottom of the page, it says..., this page, I don't know about your page The messenger: It's Ok.

5:47
Lori: It says *65:12 Although God created six other planets that are identical to our Earth, there is life only on our planet. Thus, the evolutionists will be shown on the Day of Judgment that life did not just "evolve" on the planet because of its particular circumstances. Explains "rebellious" against God's Law. Explains "leading a righteous Life"

6:03
We know that the earth was created as Satan's dominion. And that's why there's life and we are his constituents.

6:11
And we are here temporarily to repent for our initial transgression and to develop our souls

6:18
to be able to return to God and withstand His presence. And that's not necessary in any of the other universes. So, life is just on earth.

6:38
Lori: Any comments? The messenger: Questions? The messenger: Okay, the comments that I wish to make on Sura 65, verse 8, 9, 10, 11, 12.

6:50
Okay, number 8 is rebelling against God's laws and commandments. Messengers come to remind us of these laws, like "the mosque belongs to God, do not mention any other name besides God." This is a law.

7:06
And when they rebel, it's a sign that retribution is coming to them fast.

7:14
This is what verse 8 is saying. Many a community rebelled against God's law and against his messengers.

7:20
Consequently, we held them strictly responsible or accountable and afflicted them with a terrible retribution.

7:27
So, it's coming to all those who are not following God's law. Number 10,

7:34
[65:10] GOD has prepared for them severe retribution. Therefore, you shall reverence GOD, O you who possess intelligence and believed. GOD has sent down to you a message—*

7:47
Now, number 11 is really the one that I want to emphasize here, because it's written, I don't know if I put it in past tense here, 11, past tense, believed.

8:00
Okay, here I don't have it in past. It is in the past tense that the messenger leads those who believed and led a righteous life out of darkness into the light.

8:12
So, these are people who believe and work righteousness, but they are still in the darkness.

8:19
The messenger cannot do anything to those who don't believe. But he helps those who did believe and did lead a righteous life out of darkness into the light.

8:29
This is a very important concept.

8:35
Anyone who believes in God and works righteousness, God will admit him into gardens of flowing streams.

8:40
This fits with verse about 11 in Sura 10, that says that God guides those who believe because of their belief.

8:48
So, when we make a decision to believe in God, then God will create circumstances and will help us to lead us out of darkness into the light.

8:57
And this follows believing and leading a righteous life.

9:04
Explains Evolution. "Species created independently". Explains other Earths and we are "believing evolutionists".

9:10
Number 12 is very important in this age of evolution, creation, debates.

9:15
Evolution is a divinely guided process. Evolution is a fact.

It is a scientific fact and it is a Quranic fact. I'm gonna have an appendix on it.

9:20

When you read the appendix, you'll see that evolution is perfectly all right. But it is a divinely guided process.

9:29

The fly has 4,000 lenses in each eye. 4,000. It did not evolve into 10,000. It didn't evolve into x-ray vision.

9:38

For millions of years, for millions of years, it is 4,000 lenses in each eye.

9:46

But there are varieties of flies. Within the same species, there is evolution, within the same species.

9:54

We got the navel orange out of the regular oranges. All of a sudden, we have this wonderful orange without any seeds, tastes good.

10:04

But it came from another orange tree, not from an apple tree. So, it's from the same species. There is evolution within the species.

10:11

But every species was created independently. But the point that I want to emphasize here that you need to remember is that God created seven earths identical to this earth.

10:22

And the statistical laws bear this out. But there is no life on them.

10:30

Because on the Day of Judgment, which is the most important day, that's the Eternal Day, when all the people past, present, and future will be there,

10:40

we will all be there and we will all witness that there were six other earths like this one, but no life on any of them.

10:47

Because what the evolutionists, the atheist evolutionists say, because we are believing evolutionists. They are atheist evolutionists.

10:58

The atheist evolutionists say that life evolved out of nothing here on this earth.

11:04

Because of the circumstances, because of the amino acids, the lightning, the ethylene, and all the other nitrogen and stuff.

11:13

A man: Is that the Big Bang Theory? The messenger: No, it's not the Big Bang Theory. The Big Bang Theory is confirmed in the Quran.

11:20

The evolution, Darwin's theory, that life evolved on this earth, and

11:27

and this is how our eyes came into being, that this eye was a depression in a photosensitive cell, a depression in the skin that kept evolving until it gave the eye.

11:39

But I wonder why we have the eyes here and not in our hands, for example.

11:46

So, this is the purpose of creating six other earths, identical to this one.

11:53

Pardon? Laila: Because the eyes are walking... The messenger: You have eyes in your feet, Laila?

11:59

Laila: I think so. I didn't even breathe. The messenger: Well, that's a step in evolution, but still within the species.

12:09

You're still a human being.

12:14

Any questions on Sura 65?

12:22

Oh, yes. This is... where is Poopak? Poopak.

12:27

How come you're so quiet? Poopak discovered a mistake in the new translation on this page, 559.

12:38

And, of course, you know the rule. God doesn't make mistakes. If there's any mistake, it's our mistake.

12:45

To be specific, it's my mistake. Ok. I forgot to put one word "God" here. The count at the bottom of the page is alright. It's right.

12:56

But as you know, at the bottom of the page, I have the count of the word "God" on the left side, and the total after this page on this side.

13:02

So, the reader can participate in the mathematical code of the Quran and realize this is God speaking to him or her.

13:09

So, I forgot, there's one statement...

13:18

Huh? I forgot where it is now.

13:24

Hmm? Number 8? [65:8] Many a community rebelled against the commands...

13:30

A woman: It says here it says God's law. The messenger: Okay, yeah, so that's it. It's in verse 8, I believe. But anyway, we will fix it. These are unedited pages.

13:40

Lisa hasn't got to that point yet, right? Lisa and Emily. Oh, Emily marked it.

13:45
So, we're still working with unedited pages.

13:51
But the count is perfect, and we just made a typing error. A man: Yeah, I would like to make a regression to verse number 7. The messenger: OK.

Explains divorce and observing God's laws leads to happiness.

14:03
A man: Specifically, aside from what I understand, aside from the net, like it works that way,

14:10
of the house he provided to the wife, he gave the man, asked what he was.

14:16
I don't see, I mean, I can't present my mind thinking somehow rationale more than spiritual. I try to stretch my spiritual.

14:23
You know, I go through my rationale anyway. And I see, for example, in verse 7, I mean, there is so much room for interpretation in the case of divorce.

14:34
And even as to what is rich and what is poor. The messenger: Yeah. Thank God. A man: You know, that's where you go to the woman and go to the man.

14:42
The messenger: Thank God. A man: There's so much room for interpretation. I'm just wondering how, I mean, practical conflicts are being resolved.

14:53
The messenger: Well, it's really straightforward, but you said it is the rationale, it is common sense. There's a rich man and a poor man. When there is divorce, there's compensation. You must compensate the wife, the divorced wife.

15:05
And you must provide for her for at least one year. This is in Sura 4. A man: Let's assume there is difference between the opinion...

15:13
The messenger: Okay, there is a husband who is a millionaire and a husband who is hand to mouth.

15:19
So, how will they provide this alimony?

15:24
Right. That's what the verse is saying. It's according to your... It's strictly between you and God, really.

15:32
You don't have to apply any of these laws, but you bear the responsibility, see? A man: ...Who arbitrates the conflict? How are...

15:42
The messenger: It's strictly between you and God. It's like everything else, like praying or fasting or drinking or gambling.

15:52
All things are strictly between you and God. God is telling you these laws. If you want to be happy, follow them. If you wanna be miserable, don't follow them. It's as simple as that.

16:01
So, if you are rich and you divorce your wife, you must provide according to your wealth.

16:08
If you are poor, then God is Merciful. He's telling you that you can only provide as much as you can. A man: But there is no immediate remedy as to whether it's fair or unfair. There is no immediate remedy to that.

16:20
The messenger: It has to be fair. A man: I understand, but if it's not, there is no immediate remedy to that.

16:28
The messenger: Well, in Sura 4 there is arbitration. Sura 4, not verse 4, Sura 4. Yeah.

16:35
In Sura 4, there is arbitration. There are provisions for everything. There are details. Sura 4 is the second longest Sura in the Quran. And it has a lot more details.

16:48
But see, these are basic rules. And just like you said, we really use our rationale, our common sense. We're doing alright. Use your rationale.

16:58
A man: I can't, you know, whenever I start, I try to use only my spiritual. Somehow I end up, you know, using my rationale at the same time.

17:05
The messenger: There is no contradiction. Spiritual and rationale must go together.

17:11
But we have a tendency to make things difficult for ourselves. The Quran says that. The Quran says

17:18
"if we listen to you, you'll make things more miserable and difficult for yourselves."

17:25
So, God said "the rich compensates according to his wealth and the poor compensates according to his abilities."

17:33
And this is...It's merciful that He didn't say you have to give this much or this proportion. A man: But when I was in Saudi Arabia, I knew that there were some cases that were dealt with by religious judges. The messenger: Judges, yeah.

17:47
The messenger: What did they do? A man: Well, basically they referred, you know, to the Quran to resolve these kind of issues. You know, it's very much comparable to, you know, I mean, the...

Knowledge brings us closer to the Quran.

18:04

The messenger: ...Western laws. Did you see anything... A man: You know, ...to written laws. These are, I mean, the Quran is taken as a written law.....

18:15

The messenger: But you see, the more the human being is educated, the more he comes closer to the Quran. The more, yes, the more knowledge they acquire,

18:25

the more, I mean, they're just about to prohibit alcohol, for example. Here's a drunk captain who polluted Alaska because of alcohol.

18:34

The whole country knows the evils of alcohol. So, when they look at the Quran, they say "alcohol is prohibited."

18:42

It matches the common sense. It matches their knowledge.

18:48

I mean, this man had a ten mile wide channel. They said a child can maneuver this super tanker through those ten miles.

18:58

But he's not even a child. I mean, he's passed out.

19:08

I bet you the crew was drunk also.

19:15

I think it takes a clever captain to hit those rocks.

19:23

No, they wouldn't do that. The guy was drunk, you know. So, what I'm saying is that the more knowledge the human being acquires, the closer they get to God's laws on their own.

19:34

Hamid: Aren't you gonna go as far as getting the advice of the judges because after all we are humans.

19:44

And when it comes to dividing your own wealth, you may, it will be better (unintelligible). So, I just listen to you and (unintelligible).

19:59

If someone has to pass a judgment on the wealth of a guy, if it's left up to the first man,

20:07

which is the man who is very wealthy, if someone has to step in and the wife brings the checkbook,

20:17

what do you think this would mean?

20:23

The messenger: Well, remember that believers' affairs are decided by consultation. We're talking about believers.

20:30

If they're believers, they will be fair, and they will consult, and they will maintain...

20:36

Again, in Sura 4, like Lori mentioned, God emphasizes the amicable relations.

20:42

So, a husband and wife didn't get along together and decided to part. They don't have to be enemies.

20:48

In fact, God says "you must maintain the amicable relations among you." So, there will be mutual consultation and mutual contentment.

20:57

Hamid: But realistically, you mentioned about alcohol. Yeah, it shouldn't be there. It should be prohibited. The messenger: Right.

"Islamic Judges".

21:04

Hamid: But the reality, I'm talking about... the nowadays life. I'm just imagining this.

21:14

The messenger: Hamid, you're hung up on the time of applicability of the Quran. The Quran is applicable through any time, till the end of the world. Not nowadays.

21:22

Hamid: Are you saying we do not need Islamic judges? Is that the content of the argument? Should we go to Istanbul?

21:33

The messenger: No, actually, we do need Islamic judges. I didn't say that. Yeah.

21:39

Because the general public will not be as familiar with the Quran as they should be, or as they need to be. So, the Islamic judges are needed.

21:48

I hit somebody's car, and then so how much do I compensate that person? Then, we both go to the Islamic judge, and the person whose car I hit, he will say "this cost me \$800 to fix, and I lost 8 hours of work, and this and this."

22:03

Then, the judge will calculate that, and will tell me to compensate the person.

22:08

Hamid: I thought you said that if we are a believer, which is (unintelligible). The messenger: You'll do that, too. But then, if there is, you know, remember the judge is needed when there is dispute.

22:19

The judge is needed when there is dispute. If the person knows what he's doing, you don't need a judge.

22:24

Maximum freedom is guaranteed in the Quran, also. Let's go to 66 and Lori. Anybody is saying something?

22:35

Yes. 66.

22:44

Lori: Verse 1. [66:1] O you prophet, why do you prohibit what GOD has made lawful for you, just to please your wives? GOD is Forgiver, Merciful.*

22:54

[66:2] GOD has decreed for you the laws dealing with your oaths. GOD is your Lord, and He is the Omniscient, Most Wise.

23:00

[66:3] The prophet had trusted some of his wives with a certain statement, then one of them spread it, and GOD let him know about it. He then informed his wife of part of the issue, and disregarded part. She asked him, "Who informed you of this?" He said, "I was informed by the Omniscient, Most Cognizant."

23:17

[66:4] If the two of you repent to GOD, then your hearts have listened. But if you band together against him, then GOD is his ally, and so is Gabriel and the righteous believers. Also, the angels are his helpers.

23:29

[66:5] If he divorces you, his Lord will substitute other wives in your place who are better than you; submitters (Muslims), believers (Mu'mins), obedient, repentant, worshipers, pious, either previously married, or virgins.

23:43

[66:6] O you who believe, protect yourselves and your families from the Hellfire whose fuel is people and rocks. Guarding it are stern and powerful angels who never disobey GOD; they do whatever they are commanded to do.

23:57

[66:7] O you who disbelieved, do not apologize today. You are being requited only for what you did.

24:04

In the first verse of the Sura, in the footnote, it says that Mohammedans around the world believe that Muhammad was infallible. This verse teaches us that he was indeed a fallible human being.

24:16

And there are a number of verses cited that will back this up.

24:24

The messenger is given the responsibility to deliver the messages, and when he does that, he is

24:31

in accordance with God's laws and those things are preserved.

24:38

But the messenger is also a human being and is subject to the same test that everybody else is subject to, an even greater test, because with the responsibility comes, you know, the test.

24:51

And God made it this way so that we would not worship the messenger. That's God's system.

24:58

If the messenger was perfect, then he would be god.

25:04

So, it doesn't make any sense. The messengers are just humans. Their only job is to deliver the message, to clarify.

25:11

They are sent as a mercy from God to give the information to the rest of us. So, they're going to make mistakes.

25:18

And again, this is to weed out those who would turn away because the messenger isn't perfect. Do you know the history of Moses?

25:29

And he went to Pharaoh and Pharaoh said, you know, "why should I listen to you? You stutter. You know, you're one of our slaves."

25:36

Even though, you know, Moses showed him all these miracles, it didn't make any difference.

25:42

But that was God's will. We have to believe God and now the messenger. And we know what happened.

25:51

The Christians, you know, who worshipped Jesus because it wasn't enough that he was a messenger. They wanted to make him a god besides God.

26:00

And it's the same thing with Muslims who worship Muhammad and they think that he was perfect. And there are all these myths and stories and legends about him that don't even make any sense. He was just a man.

26:13

And God is very careful in the Quran to point out his errors, too, not to scandalize him.

26:20

I mean, God doesn't get anything from that. But to make us realize that he was a man and don't worship him. He was just a man.

26:25

Listen to the message. It doesn't make any difference. The messengers all come with the same message, every one of them.

26:33

And it's God's intent that they do make mistakes and they are imperfect so that we won't worship them.

26:41

And to weed out those who will not listen to the messenger because they don't like him or they think that he's not perfect.

26:56

And the next verse is, again there isn't anything. I remember from one time in one of our discussions in Quranic study many, many years ago. There were some people from

27:07

another mosque and they were talking about the Hadith and Sunnah. The importance of it was because it was history.

27:13

And you know, if you read the Quran, the Quran is the greatest history.

27:18

We know what people think. We know what people thought. We know what they did under the tree and they got together and think that were in their mind. It's the greatest history.

27:27

And we know here about what happened to his wives. He just told them something and they went and spread it. I mean, this is God telling us this. And it's a lesson for all of us.

27:38

And we're not supposed to be mean. We're not supposed to gossip. We're not supposed to slander. You know, if something is entrusted to us, we're supposed to respect that and take heed.

27:52

And you can't hide from God. You know, she asked "how did you know?" And he said "I know from God."

27:58

You can't get away from anything. God is Omnipotent. He's Omniscient. He told in verse 4 to repent and that the messenger is protected against these things.

28:10

And even if everybody banded together against him, God is saying that God is his ally and so are Gabriel and the righteous believers.

28:20

And as far as reasons for divorce, if he divorces you, you know, in this case because of the

28:28

their behavior, then God will make it up to him. He'll give him a better wife.

28:34

You know, what we were talking about earlier is that with difficulty there is ease. And if you

28:40

have to suffer in some way for the cause of God, it's always made up to you. You're always rewarded because God is the Most Gracious.

28:49

And in verse 6, we're admonished to protect ourselves and our families from the hellfire.

28:55

And how do we do that? We do it by, number one, being responsible for ourselves, obeying God's laws,

29:03

obeying the commandments, fulfilling all of our religious duties, but also think to it that our families do the same thing.

29:11

You know, parents have to make sure their children know how to do the Prayers,

29:17

make sure that the children do the Prayers when it's time for them to fast, to make sure that they fast.

29:23

Spouses have to, you know, help each other do the right thing. We're all... we all need to help each other because we all have the same weaknesses.

29:35

And we're told here that once we get to the Day of Judgment, there are angels who never disobey God.

29:44

And every command will be carried out and nobody will have any power to do anything else.

29:53

And on that day, we'll be told, well, God willing, not we, but those who disbelieve will be told not to apologize, that they're just being repaid for what they did.

30:04

Again, it all comes back to us. God has given us free will. The decision was ours.

30:10

Once we made that decision, He helped us along in whatever that decision was.

30:15

If we chose to disbelieve, He helped the disbelievers disbelieve. He actually leads them astray.

30:23

If this is their decision, then He helps them in that decision. If we choose to believe, then He helps us in our belief. He gives us the messages, the revelations, the steps to do what we have to do.

30:37

And God is just. We're only requited for what we did. We're not held responsible for anybody else's sins.

30:45

A wife is not held responsible for her husband's sins. You know, parents aren't held responsible for their children's sins. We have to be responsible for ourselves and everybody else...

30:57

Any questions or comments on this section?

31:02

A man: (unintelligible), can we go, should we go, as far as pursuing the kids, I don't know, to Praying, or fasting, or anything?

31:18

Lori: Well, obviously, you can only do so much. You can tell them to do it. You can set the example. You can make sure they do it up to a certain point.

31:29

But at some point, everybody is responsible for themselves. But, you know, if you want your children to get up and pray the Morning prayer,

31:39

and it's hard for them to do it, you might have to really work with them to do it. Maybe, not allow them to have their breakfast or something until they do their Morning prayer, or, you know.

31:50

Hamid: When you have children, and they are not responsible, I find it (unintelligible). If we go as far as waking them up, and lining them up and say "well, pray."

Enjoin children to do Salat.

32:00

The messenger: Do you have the translation, this translation with you? Hamid: The new one? The messenger: That's the one out here, you have there? Hamid: No.

32:08

The messenger: Okay, open page 218. That's the answer to your question. The old one, the book, 218, page 218.

32:15

Verse 132, it's very important, actually. This is Hamid's question, it's very important. Remember it, and do it.

32:24

What do you do with your children? Do you wanna read it for us, Hamid? Hamid: Pardon me? The messenger: Read verse 132.

32:33

Hamid: 132. [20:132] You shall enjoin your family to observe the contact prayers (Salat), and steadfastly persevere in doing so. We do not ask you for any provisions; we are the ones who provide for you. The ultimate triumph belongs to the righteous.

32:52

The messenger: Well, there's the answer to your question. It says "you order them, exhort them to pray and persist in doing so."

32:59

Now, because you're doing God's commandment, God controls your heart and their hearts, and everything will go just wonderful.

33:05

But you just have to exhort them. You have to keep telling them. My children are grown up now, but when they were young, I would ask them.

33:14

They're willing to do the prayers, but I had to remind them every day. If I...

33:19

If I don't carry out God's commandment, and I wait until two in the afternoon and ask them "did you pray the Noon?"

33:25

"No, we'll go pray." So, but there were no problems. Here's one of them.

33:34

Hamid: They were under your umbrella, economically. The messenger: Yes. Hamid: But you didn't actually give them a choice. Taking the circumstances into account, they didn't have a choice. The messenger: Yes, they did. Yes, they did.

33:51

The messenger: They could have said "no, we're not gonna do it." But they didn't. It just didn't come up.

33:56

I always said "let's pray." And they prayed. Like I said, God controls the whole situation.

34:02

You just do your part, and God will do the rest. Hamid: But I can't really go along with this decision. We are not in control. The messenger: Don't. You don't have to.

34:12

Hamid: No, I realize... every time I come here, you say, well, "this life is pre-recorded, and we have absolutely no power, decision-making power, and we are not responsible because everything is pre-recorded."

34:33

The messenger: I didn't say that, but it's..., go ahead. Hamid: I believe, I think every day you come to make decisions. You have to make a decision. You have to pass a judgment. The messenger: Right.

34:42

Hamid: And you are... The messenger: Okay, your question is "what do I do with my children," right? Hamid: Right.

34:48

The messenger: The answer is right there in verse 132. It says "you exhort them to pray and persist in doing so."

34:54

Hamid: But at that point, I'm saying, can you really say that? The messenger: What else are you gonna do?

35:02

The messenger: What? I mean, why are you being negative? Why don't you... are you assuming that they will say no, right?

35:08

Hamid: I'm playing the...

35:16

Hamid: I'm saying the guy says "I don't wanna pray." The messenger: Well, no...

35:22

The messenger: If they say that, then come back and ask me the question. But I say "when you do your part, they will..." because this is what... this has been my experience.

35:30

Hamid: But do you leave the choice to him or not? The messenger: Yes. Hamid: So, if he has a choice to say "well, I ain't gonna pray." The messenger: Absolutely. But they never said "no."

35:41

You have to keep saying... I mean, it's just, it just never came up that they said "no, we're not gonna pray."

35:52

The messenger: Those circumstances will not happen if you carry out God's commandment. Brothers and sisters, we are living experience, okay? It is, we speak from experience God provided.

36:02

Not just my experience, all our experiences. I raised two kids, right? One of them is right there. They're all grown up now.

36:09

But, throughout their life, I carried out this commandment. I told them to pray.

36:14

And it was never, never once did they say "no, we're not praying." We didn't have... it just didn't come up.

36:21

So, what I'm saying is "you just do the, do the commandment that God gave you, and everything goes fine."

36:28

However, if I was lax in doing this commandment, if I'm not persisting in doing it, they will go without prayer.

36:37

So, I will ask them, I tell them to pray, and they wait three or four days. And if I don't say pray, I will notice that they, they passed up the time for prayer.

36:45

Hamid: Well, as much as I admire your children, and I agree with what, basically what you said, but still, in our lives, there are points, there are certain times that they reject

37:00

even the God. Even we reject it, say "well, I have some doubt."

37:05

The messenger: You're, you're entitled to do that. Hamid: Well, you, okay, that's, that, those are the, actually, the points I was making my argument.

37:12

The messenger: You're talking about you or the children? Hamid: Well, anybody. Haven't you ever doubt God? The messenger: Me? Hamid: In your, in your evolution?

37:21

The messenger: I don't think I ever did. The messenger: But, but, I wasn't right the whole time. I was an idol worshiper for a long time. But I never doubted God.

37:30

However, anybody is entitled to doubt God, or question God, or be an atheist. So am I. I mean, but it just, it just happened that I didn't.

37:41

The messenger: Okay. So, let's take a time when you doubt God. You say "God doesn't exist." Hamid: Ok. Therefore, you're not gonna pray.

The messenger: Right. Nor are you going to carry this commandment. You're gonna... you will not do this commandment.

37:53

The messenger: Your life will be a mess. Hamid: Not necessarily. The messenger: Oh, yes, necessarily. Hamid: No, if you doubt God.... The messenger: It's in the same Sura, the same Sura...

38:07

Hamid: Well, let me, while you're finding that, let me remind people that God... The messenger: Tell her to keep them for 20 more minutes, we'll pay her more. Yeah.

38:18

Hamid: God's law as I understand... The messenger: See, there is a law, Hamid, let me give you the Quranic law, Okay. God says "you follow my laws, you're gonna have a happy life.

38:28

You disregard my message, you're gonna have a miserable life." This is what God says. Hamid: Exactly. The messenger: So, there is no way around it.

38:35

Hamid: He is the authority. He gave you the mind which He never gave to none of His creatures. The messenger: Right. So, when...

38:41

Hamid: And that is the choice that in your lifetime you are going to make, back and forth.

38:50

The messenger: Okay. Hamid: You get to as close as you can get to Him. In this process, as we just noticed, like yourself, you were atheist or I, in my....

39:01

The messenger: No, I was not an atheist. I was never an atheist. I never doubted God. No.

39:06

The messenger: Hamid, I don't like the fact that you ask a question and then we go on to other things. Now, your question was

39:11

"what do I do with the children," right? I gave you the answer from the Quran.

39:17

Quran is "you exhort them to follow the commandment and persist in doing so." This is your part.

39:24

If we're gonna go into other philosophical questions, it goes into something else. So, let's wait until the occasion comes up

39:30

Just for the sake of the people, just for the sake of the other people, so. Yeah, Susan what's...

39:38

Susan: We can look at the kids in our own lives. Well, I mean, I'm always, you know, (unintelligible) and I are reminded to pray. Then, she wants to get up on her own. We don't even have to tell her anything. She wants to get up to pray. She does her prayers smooth.

39:55

And there are other kids, you know, (unintelligible). We have kids, you know, Aisha Baruni passed the today's...

40:05

The messenger: Mā Shā Allāh. A woman: 8 years old. Susan: Sarah wants to pass tomorrow. A man: Cool. That doesn't happen, like me, Ok. I have a little sister. I tell her to pray and come to the mosque. She doesn't wanna come, but I keep saying to her.

40:18

I think someday she'll come here. The messenger: Yes, you bet.

40:28

The messenger: if you watch our children here in the mosque, you see them eagerly and joyfully praying. They join the prayers. So, it's no problem.

40:36
Hamid: Doctor, I was just mentioning the choice. I was just emphasizing on that, underlining that. A kid's choice lives up to the adult. They can make their own decision even though it's not agreeing with my own as their guardian.

40:53
The messenger: See, it is your duty to do this commandment. Ok. Hamid: Just pass the message to them and leave it up to them, if they wanna follow it up, or if they wanna fail. The messenger: That's right.

41:04
The messenger: That's right. But it is your responsibility and your job to point out to them why they should pray, why is it necessary.

41:11
You see, it is your obligation. You have duties towards your children and your family.

41:18
You can't just come out of nowhere and say "get up and pray." They're gonna tell you "why?"

41:23
You see, I mean, it's a whole life story that you're doing. You're carrying out God's commandments.

41:34
From all... Beth? Beth: I just wanna make it clear to you that Sam and I are no exception, because, I mean, when we were real little, we prayed because we felt so guilty when you asked us to pray,

41:46
I don't wanna lie. So, I mean, that was the only reason we prayed. And then when we got a little older, if we didn't wanna pray, we didn't pray.

41:54
You know, I mean, it just wasn't something that was important to us, and even for a long time we missed it.

42:00
You know, we missed the Friday prayers and the Quranic studies, and I mean, he didn't argue with us. I mean, he told us, you know, what we should do, but, you know, he didn't punish us if we didn't do it.

42:12
And it just came to the point when we got a little older that we found out for ourselves, you know, what was the best, what the best thing was for us.

42:21
And it just comes to you in your heart. Your parents can't interfere with what's between you and God, and I think it comes to a certain age where you find out for yourself.

42:31
The messenger: Actually, if you punish them, they'll hate it. You don't want them to hate religion and prayer and all that.

42:37
See, all you need to do... The messenger: All you need to do is carry out, you do your part.

42:45
And this is at the beginning of the Quran, God says "you do your part, I'll do my part."

42:52
A woman: Is that a good idea, Rashad? The messenger: What? You say the Prayer. A woman: You tell them "OK, time to get up for prayer." And then I went for jumping up there.

42:59
But he did say the prayers out loud, so they have to hear it anyway? The messenger: Whatever you need to do to carry out the commandments, God says here.

43:07
A woman: ...when I'm to start Prayer is too loud or too quiet though? The messenger: No, she doesn't mean loud, real loud, you know. Just audible, she means audible.

43:20
OK, where are we now? Lori: Verse 8.

43:29
The messenger: Verse 8. The messenger: Let's finish Sura 66.

43:38
Lori: OK, we're on verse 8. The Believers Repent. [66:8] O you who believe, you shall repent to GOD a firm rep...

43:49
The messenger: A firm repentance. Did you read this before? Lori: No? No. OK. The messenger: OK.

43:56
Lori: [66:8] O you who believe, you shall... Lori: [66:9] O prophet, struggle against the disbelievers and the hypocrites and be stern with them. Their abode is Gehenna, and a miserable destiny.

44:09
In verse 8, we're told here to repent, because repentance is our chance.

44:15
Every day, every hour, we have the opportunity to repent, to wipe out our sins, and to start new again.

44:22
God has given that to us. So, what Hamid was saying earlier that it's a daily decision to stay in God's Kingdom.

44:29
And He knows that we make mistakes. He knows that we break His commandments.

44:37
And He gives us a chance to overcome that by repentance.

44:43
And if we do repent, and sincerely repent, which means you don't ever do it again.

44:49
And you really try to change. Then, God will remit your sins, and admit you into gardens of flowing streams, you in the Hereafter.

44:59

On that day, God will not disappoint the prophet and those who believe with him. We've been given a promise by God that if we do our part, which is what we were just talking about earlier. If we do our part, God does His part.

45:12

And we've talked about this before, there is no better guarantee or warranty than God's.

45:18

This is proven. We don't have to worry about it. If we do our part, God will do His part.

45:27

In the Bible, we've talked about the verses in Luke where it says "Seek God's Kingship over you and all else follow." That's all you have to do.

45:34

It's just do your part and everything else falls into place. And the light will radiate in front of them and to their right.

45:42

And we know that the light is knowledge, the presence of God. We don't want to be in the darkness. And one of the reasons for the messenger being sent to us is to help us out of the darkness and into the light.

45:54

That's one of God's mercies. The light is mentioned many, many times in the Quran.

46:01

And if you just think about it, it's a wonderful allegory because in the darkness, you're lost,

46:07

you can't see. There's fear, confusion. And when you leave that into the light, then everything is made apparent to you. You know what's going on. There's no more fear.

46:22

And there's some verses in the Quran that on the Day of Judgment, the disbelievers who have been

46:29

destined for Hell will beg for some of that light. They'll be in eternal darkness.

46:35

And the believers will ask God to perfect that light for them and to forgive them and acknowledge that God is Omnipotent.

46:45

And in verse 9, it's an admonition to the prophet, but again to all of us, to struggle

46:53

against the disbelievers and the hypocrites and be harsh with them. A lot of times, people misunderstand what we do in this mosque.

47:02

They think that because we say the things that we say, that we're being very unfair, we're being very harsh, we're closed-minded, we're...

47:13

and some of the other things, they think, but you're right. This is what God is telling us to do because it's our responsibility.

47:20

It's the responsibility of those who have the knowledge to give it to others, okay, and to fight because it's not your fight, it's God's fight.

47:28

And if God, you know, sensitizes the disbelievers, that doesn't mean you go out and you do anything

47:35

necessarily violent, but there's ways to struggle with the truth.

47:42

Rashad publishes from this mosque the...

47:48

The messenger: Muslim Perspective. Lori: And some of the things that are said in there... The messenger: It's fasting, Lori. It's fasting does that.

47:56

Lori: Oh, right. I don't know. The messenger: Go ahead. And the things that are said in there are really profound, and they just get everybody upset, you know, but they have to be said.

Believers make mistakes – be Stern with disbelievers so they "don't fall in the ditch".

48:06

It has to be said for those who might choose to listen to it. They have the right to hear God's messages, and they have the right to have the message clarified for them, whether they're leaders, like it or not.

48:19

It's everybody's right to have that, and it's a constant struggle.

48:26

And when you think about it, you're really doing them a favor, because if there's any chance that they might hear and listen and repent, then they'll be spared that terrible destiny of Hell.

48:36

So, it's for their own good even though they dislike it. That's just human nature.

48:45

Lori: Do you want me to go on? The messenger: Yeah, let's finish this. Lori: Okay. The messenger: Let me just comment since...

48:50

The messenger: It's very important to notice in verse 8 that it says "O you who believe, repent to God a sincere repentance."

49:00

This is directed to the believers, because the believers make mistakes.

49:06

And the disbelievers, that's a hopeless case, but it is the believers who repent and strive against the disbelievers and the hypocrites.

49:17

It's for their own good, like Lori said. In another Sura, God says, in fact, it's Sura 4, it happens to be. God says "here you are defending them in this life. Who's gonna be their advocate in the Hereafter?"

49:30

So, it is to their own good that if somebody's gonna fall in a ditch, that you hold them by their clothes and shake him up.

49:38

Be stern, otherwise they'll fall in the ditch. The messenger: Okay, go ahead. Lori: The Myth of Intercession Shattered

49:46

[66:10] GOD cites as examples of those who disbelieved the wife of Noah and the wife of Lot. They were married to two of our righteous servants, but they betrayed them and, consequently, they could not help them at all against GOD. The two of them were told, "Enter the Hellfire with those who deserved it."

50:02

Examples of the Believers Pharaoh's Wife [66:11] And GOD cites as an example of those who believed the wife of Pharaoh. She said, "My Lord, build a home for me at You in Paradise, and save me from Pharaoh and his works; save me from the transgressing people."

50:16

Mary [66:12] Also Mary, the Amramite. She maintained her chastity, then we blew into her from our spirit. She believed in the words of her Lord and His scriptures; she was obedient.

50:27

We're told here that there is no such thing as intercession, that each one of us is responsible for our own actions.

50:35

Here are the wives of Noah and the wives of Lot. Okay, they were prophets. They were righteous, and it doesn't make any difference.

50:45

Their husbands cannot intercede on their behalf. Nobody can intercede on their behalf. They're going to Hell because of their actions, for rejecting the messages that the messengers brought, even though they were their husbands. It didn't make any difference.

51:02

The messenger: Sorry about that. Lori: That's okay. Lori: And that's very specific. And then in the next verses, it's the opposite.

51:10

Pharaoh, who was, you know, God just said the most wicked person on earth. He was just so evil and wicked and just transgressed on earth,

51:18

and this woman was married to him, and it didn't make any difference. She was there. She was stuck in that situation. She couldn't leave, but it didn't make any difference. She believed, and her prayer was for God to give her a place at paradise.

51:33

You know, and it's okay. You can believe under any circumstances, and she's an example for us.

51:40

And Mary, the mother of Jesus, she held up as an example for all the women. She went through incredible tests.

51:51

I mean, you know, to have a son and a messenger and all of these things that she had to go through.

51:59

And she, in her time, she was an example. She maintained her chastity, and she believed in God's word. She didn't doubt Him.

52:08

When the angel came and said "you're going to have a child." And she said "how can I have a child? No man has touched me."

52:15

And, you know, what a thing. Just think of it were you, and this happened to you. I mean, you know, talk about panic, and just, you know, and she didn't.

52:23

She just persevered, and she did what she had to do.

52:30

The messenger: And in those days "you're pregnant, kid." Lori: It was a terrible thing that she had to go through. And she was accused of terrible things, and, you know, she just persevered and was steadfast, and she will have her reward.

52:43

I mean, she is cited as an example for all time, to all people, as an example of a believer.

52:49

What better reward for her that she, you know, has this place in God's history.

52:59

Lori: IN SHAA ALLAH. The messenger: IN SHAA ALLAH. Good job, as usual. God bless you. Congratulations.

Reciting the Key for Birthdays.

53:05

The messenger: We have to... Ben, Ben, sit down. Hey, hey, hey. We're not done yet.

53:14

The messenger: We're gonna recite Al-Fātehah twice today. First, Farhad Moini's birthday will be Thursday. So, we're gonna celebrate

53:22

today and next Friday, IN SHAA ALLAH, because it's closer to his birthday. But we're gonna grab this chance to recite Al-Fātehah, so God will give him and his wonderful family

53:31

a great year coming up, and every year to be greater than the previous year, IN SHAA ALLAH.

53:36

God never turns us down. Al-Fātehah Bism Allah Arrahman Arraheem (1:1) Al hamdu Lillahi Rabbil 'Alameen (1:2) Arrahman Arraheem (1:3) Maliki Yawm Eddeen (1:4) Eyyaka Na'abudu Wa Eyyaka Nasta'aeen (1:5) Ehdina Al-Serata Al-Mustaqeem (1:6) Serata Al-Lazeena An'amta 'Alayhim Ghayri Al-Maghdoobi 'Alayhim Wa Laddaalleen (1:7)

53:56

We read Al-Fātehah for Soad and Ahmad Rayan, and both of them passed. They made it. Alhamdu Lillah

54:02

And we need to read Al-Fātehah now for Frank who's gonna take the state exam, and he needs one of those big Fātehahs, so he'll pass, IN SHAA ALLAH.

54:11

Al-Fātehah Bism Allah Arrahman Arraheem (1:1) Al hamdu Lillahi Rabbil 'Alameen (1:2) Arrahman Arraheem (1:3) Maliki Yawm Eddeen (1:4) Eyyaka Na'abudu Wa Eyyaka Nasta'aeen (1:5) Ehdina Al-Serata Al-Mustaqeem (1:6) Serata Al-Lazeena An'amta 'Alayhim Ghayri Al-Maghdoobi 'Alayhim Wa Laddaalleen (1:7)

54:29

Congratulations, everybody. IN SHAA ALLAH.

54:37

Don't lose your Quran now. For the next time, we're gonna start at 67. Next week, our teacher will be Gatut. Gatut.

09 Quran Study From Azhar 9 Sura 70 By Edip Chastity Worry Edip Wanted Rashad To Change Rich Believe

The messenger: أَعُوذُ بِاللَّهِ مِنَ الشَّيْطَانِ الرَّجِيمِ We seek refuge in God from Satan, whose end is nearing, IN SHAA ALLAH.

0:17

Bism Allah Arrahman Arraheem In the name of God, Most Gracious, Most Merciful.

0:22

Tonight, we start with Sura 70, and maybe beyond, depending on our teacher, Edip Yuksel. Take it away.

0:36

Edip: Should I read the Arabic or you want me to read the English? The messenger: No, no Arabic.

0:42

Edip: [70:1] A questioner may question... The messenger: Sura 26 prohibits reading Quran in Arabic for non-Arabic people.

0:50

The messenger: Sura 26. Edip: What?! 26? The messenger: You didn't know that?

0:58

The messenger: Alhamdu lillah. He knows everything, that's why.

1:04

Yeah. Sura 26, remember this. It says do not... prohibits the reading of Quran in the language other than what the people understand.

1:14

Because it says, in fact it says, no it doesn't say that.

1:21

I was gonna say it sounds Chinese to them. It sounds like a different... God says "they will not be blamed if they don't believe if you read it to them in a different language.

1:32

Ok, back to Edip. Edip: [70:1] A questioner may question the inevitable retribution. [70:2] For the disbelievers, none can stop it.

1:44

[70:3] From GOD; Possessor of the highest Height. The messenger: Height. Edip: Height.

1:50

Edip: [70:4] The angels, with their reports, climb to Him in a day that equals fifty thousand years.

2:06

This question has always been questioned to every messenger about the Last Day, about the end of the world.

2:18

And always people has been ridiculed this day, but in the future, when we be close to the end of the world, for example, about 200 or 250 years later,

2:39

this question will be very widespread and everybody will ask this question.

2:46

And millions or billions of Muslims will discuss this subject with disbelievers.

2:53

And all verses about the end of the world will become a real fact and the believers will know the end of the world and the unbelievers will ridicule this, will mock at them.

3:12

And they will create a great dispute between believers and unbelievers.

3:21

But we now also discuss this matter and when we say the end of the world will be in that time, unbelievers will ridicule us.

3:39

They will ask when. Here, God, our God, gives us the relativity of the time.

3:54

He says a day, a day of your, a day of Heaven, Divinely day is equal to 50,000 years, your years.

4:13

In other words, we see that it may be 1,000 years.

4:18

These two different scales show us that time is not absolute, it is relative.

4:31

For example, I think everything is relative to us. For example, heat is relative to our heat.

4:45

We have 37 Celsius degree. If the weather is more than this, it is heat to us.

4:55

But if less than this, it is cold to us, the weather. For example, the density of our meat, what do you say, flesh, the density of our flesh,

5:16

it has a density. Edip: And if we touch something that has more density, we say it is hard, solid. The messenger: Solid.

5:26

Edip: And if less than it, we say it is soft. Edip: And we compare, we compare with, we get information about our environment by our possessions, The messenger: Standards. Edip: Standards, yes, thank you.

5:47

And also our standard is our life. We live about 70 years in this world.

5:55

Our scale is this 70 years. A fly, the standard of a fly is 3 months, about 3 months.

6:04

3 months of a fly is equals our 50 years.

6:13

The messenger: How old are dogs, Lydia? The messenger: The oldest one is how old? In human life is?

6:24

Ok. So, this is what Edip means. So, the dogs escape.

6:32

Edip: And here, in the verse 4, there is a word that has 2 or 4 meanings, 2 or 3 meanings.

6:44

Word RUH (روح). It has been translated as report, reports, or revelation.

6:53

In Quran, we can find these words used for revelation, or for Gabriel (جبريل), an angel.

Role of Angel Gabriel – explanation of theory of relativity – Angels speed – Speed of light is Slow.

7:05

It has both 2 meanings. And here, Rashad has translated it as "their reports."

7:21

Do you have any questions about these 4 verses?

7:27

Edip: May I? The messenger: I think we should point out here that Gabriel is the only, this is his only job, and he is the only one who does the job of carrying revelations from God to the world.

7:38

Any new information, or new revelations, something that was never known before, comes from God to this world through Gabriel.

7:48

So, this is why one of his names is the spirit, or the revelation.

7:57

Because when God says "I blew into Adam from My spirit, it's a word." Jesus called the word a word from God, because he was created by a word.

8:08

"Be" a word from God. "Be" and he was. The same with Adam. And Gabriel brought that word to Mary, if you remember.

8:17

So, here the angels go to the first universe, carrying reports about things happening here, as well. So...

8:31

And we're given the relative speed. You know, just like Lydia said "the dog is 10 years, but in human terms, it would be 60 years."

8:42

We're told here that if you travel a distance in one day, the angels.... in 50,000 years, the angels will cut it in one day.

8:51

In Carl Sagan's last novel, he concluded that the speed of light is very slow.

9:00

It really is, because nothing will be done in the universe if things were happening at the speed of light.

9:06

Our favorite example here is the Prophet Muhammad's ascension to the first universe.

9:12

If he were traveling at the speed of light, he would still be in one hundredth of the Milky Way galaxy and still be going on his way.

9:21

Of course, that did not happen. He went and came in the same night. God took him up in the same night.

9:29

Edip: There is a famous equation about the relativity of the light. And according to this equation, when you exceed the speed of light, there is no time.

9:41

The time becomes zero. The messenger: So, this is the theory of relativity, for instance.

9:48

If you travel at the speed of light, time disappears.

9:54

If you travel faster than the speed of light, you can go into the negative. Edip: It's wrong.

10:01

Edip: It may be wrong. The messenger: No, not wrong. The messenger: Let us say... Let me explain it very quickly.

10:09

Our pictures travel at the speed of light. If you turn the light on, I will see it at the speed of light.

10:16

So the person, Mahmoud, will see this later than me, because there is a fraction of a second.

10:21

So, once I turn this light on, I will see it first and Mahmoud will see it, because it is traveling at the speed of light.

10:28

Our pictures travel at the speed of light. If the sun is turned off for a second, we will see this after 8 minutes, because it will take 8 minutes for the light. So,

10:41
the picture of anything travels at the speed of light. So, let's say Edip scratched his ear and then sneezed.

10:50
Scratched his ear and then sneezed. Now this, somebody has taken a picture from a mile away. Let's say somebody can take a picture from a mile away.

11:00
When he scratched his ear, after a fraction of a second, the camera will see that and take a picture,

11:07
because his picture is traveling at the speed of light. Yes? So, at the speed of light from here to there, it will take a certain amount of time,

11:16
and then after that he would sneeze. So, let us say I am here and I'm gonna travel with this picture at the speed of light.

11:23
So, if he's scratching his ear and I'm traveling with that picture at the speed of light, I will always see him frozen in that position there.

11:31
This makes sense? Because I'm traveling with him at the speed of light, that picture will be still. So now,

11:38
Oh, let's say he sneezed before he scratched his ear. So, if I go faster now at the speed of light, I will see his picture when he sneezed before that.

11:50
Did I confuse everybody? So, I'm traveling with him at the speed as he was scratching his ear.

11:57
So, but if I travel faster than the speed of light, I will see his picture when he sneezed, which was a few seconds before he scratched his ear.

12:04
So, I go in the past, because I'm going faster than the speed of light.

12:09
If I go even faster than that, I will see him put his glasses on, which is something that happened before he scratched his ear.

12:16
So, let's say even if I walked in the room as he was scratching his ear and then I take off with his picture at the speed of light, I will see what happened in the past before I came into the room.

12:28
Edip: Rashad... The messenger: This is how I'm trying to simplify it. I have complicated it.

12:34
Edip: Let me... The messenger: But this is what... if you go at the speed of light, then time will stand still.

12:40
I will always see him holding his... If I travel at the speed of light, time stands still.

12:48
Yes, if I go faster, I will see what he did before I came into the room. The messenger: He sneezed, he put his glasses on, whatever happened before. Edip: May I give you an example?

12:58
The messenger: Okay, confuse us more.

13:05
Edip: 100s... 1,400 years, light years far away from us, that thing star. There are many stars that are far away, farther away.

13:18
From this star, let's think that there is a civilization or we went there. Just now, we are there. And

13:27
we are taking the photo of this earth with a very sophisticated telescope and detailed,

13:35
we could get the picture of people, persons. And we could take the picture of Muhammad and the battle of BADR from that star.

13:48
Edip: It is possible, but impossible. The messenger: Yes, those pictures are traveling in space now. Edip: Yes. Edip: Because, just it will... The messenger: To reach that star only now. Edip: Yes, only now.

13:59
The messenger: Things, that were happening on earth 1400 years ago, are reaching objects in heaven that are 1400 light years away.

14:08
It's true. The messenger: Also, if that star explodes right now, we will not see it for 1400 years. Edip: Yes.

14:15
The messenger: Because that's how long it will take for the speed of light to come here. The speed of light is very slow.

14:22
And what we're told here in verse 4, that the angels travel, what we spend 50,000 years traveling, our maximum speed, the speed of light, the angels will do it in one day.

14:41
And by the way, this is not a fixed relationship, because it can be different.

14:47
It depends on where you are in the universe. For example, you go to the moon, your day will be 14 of our days.

14:55
This is something we can do now. We can go to the moon. And you're gonna have 14 of our days in continuous day light.

15:02
And then 14 nights. 14 days that equal one night on the moon. If you go to Jupiter, you're gonna have 365 days of light. The day equals one of our years.

15:15

And even on earth, if you go to Alaska, you're gonna have 6 months day. No, but this is different. So, it depends on where you are in the universe, that our day is different compared to their day.

15:29

Back to Edip. Edip: Verse 5, [70:5] Therefore, you shall resort to a gracious patience.

15:38

You must be patient. "A gracious patience." [70:6] For they see it far away.

15:45

[70:7] While we see it very close. [70:8] The day will come when the sky will be like molten rocks.

15:54

will be like lava. [70:9] The mountains will be like fluffy wool.

16:00

[70:10] No friend will care about his close friend.

16:05

[70:11] When they see them, the guilty will wish he could give his own children as ransom, to spare him the retribution of that day.

16:16

[70:12] Also his spouse, and his brother. [70:13] Even his whole tribe that raised him.

16:24

[70:14] Even all the people on earth, if it would save him.

16:32

Here, we see the horror of that day, that people will give up from everything that he likes, he loves.

16:46

But that day there is no ransom.

Those who gave up God for their children\spouse in this world would give them up to spare them the retribution.

17:01

And also this describes the selfishness of disbelievers.

17:06

They are selfish and they will want to change everything, to give as a ransom everything that they love, that they have.

17:17

The messenger: They probably gave up God in this world for the sake of their spouse or parents or children or whatever.

17:25

The messenger: But on the Day of Judgment, they want to give up those people. Edip: The love of disbelievers, when they love something, their love is because of their selfishness.

17:37

They love, for example, their children because they have benefit.

17:46

They do not love anything, they don't expect benefit.

17:52

For example, they do not do anything secretly, good things, because they are in fact selfish.

18:02

But apparently, they may not see it. Any people who do not believe in Hereafter, they are selfish in this world.

18:17

Let's go on, 15. [70:15] No; it is aflame.

18:23

[70:16] Eager to burn. [70:17] It calls on those who turned away.

18:30

[70:18] Those who hoarded and counted. [70:19] Indeed, the human being is anxious.

18:40

Verse 17 tells us that Hell will call, will invite people.

18:52

In Quran, we find that Allah personalized the substances.

19:02

Understand? For example, in chapter 41, verse 21, we see, God makes everything speak up. Makes everything speak up

19:18

For example, in 41:11, we see earth and heaven speak. In chapter 23, verse 62, the record speaks.

19:28

And chapter 50, verse 30, Hell speaks. And chapter 27, verse 82, computer speaks.

19:40

God makes everything speak up. But what is speaking in our language?

19:45

Speaking, you may understand speaking is only by words.

19:51

But Quran explains the word "speaking."

19:56

The word "speak", in 3:41, we see gesture, symbols, also is another way for speaking.

20:09

Allah says for Zakariya (Zachariah), your sign is not to speak with anybody for three days except

20:19

except gestures, by symbols you just speak. Exceptions show us that symbols or anything that symbol gestures are also a way of speaking.

20:33

The messenger: Signals. Edip: Signals, yes.

20:41

Edip: Verse 18, [70:18] Those who hoarded and counted. is one of the important character of disbelievers.
20:51
They hoarded and... verse says "they (unintelligible)" And they are so... they are very careful about the substances of this world.
21:09
And also we can see this character in chapter 74, verse 12, 15.
21:20
And verse 19 is very interesting. [70:19] Indeed, the human being is anxious.
21:30
In Arabic, we see it has been created as anxious.
21:38
The word is "has been created." I search about this because Allah says in chapter 95, verse 4, 5.
21:51
(95:4) اَلْاِنْسَانَ خَلَقْنَا فِيْ اَحْسَن تَقْوِيْمٍ [95:4] We created man in the best design.
22:02
Allah, in another verse, please open chapter 32, verse 7.
22:20
He perfected everything He created. He perfected everything He created. Allah's creation is perfect.
22:27
But here we see that human being has been created anxious.
22:35
Apparently, we may see a contradiction between those verses.
22:43
But if we carefully research on the word KHALAQA (خَلَقَ), we see in Quran, when God say about our creation,
22:55
when mention about our creation, He says, خَلَقْنَا الْاِنْسَانَ , we created.
23:02
And Allah, when mention about His creation, He says always to create in best manner.
23:10
But here it is KHULIQA (خُلِقَ), has been created. Not we created.
23:17
How do you say in English for this? KHULIQA (خُلِقَ). Unknown. The subject is unknown here.
23:25
The messenger: Passive. It's passive tense. Edip: Passive. Yes. Passive Tense. For example, we can see the passive tense in chapter 4, verse 28.
23:34
It describes the weakness of human being, خُلِقَ الْاِنْسَانُ
23:39
You can see that verse. And also the human being has been created hasty, chapter 21, verse 38.
23:50
And when Allah describes the weakness and anxiousness and hastiness of the human being,
24:00
He always describes this as KHULIQA (خُلِقَ), not KHALAQA (خَلَقْنَا). This shows us with our free will, we change our creation.
24:11
The messenger: Where is Martha? Is Martha here? What is the linguistic term for something that "was created", instead of "I created?"
24:24
Oh, OK. So, Passive is right. I wasn't sure.
24:38
The messenger: No, but the human being can make himself worried, as you will see in the next verses.
24:44
In other words, the INSAN, the human being is made that something. It's made by the human, not by God.
We create our own misery.
25:00
The messenger: Yeah, right. Edip: We can see in Quran, (23:14) فَتَبَارَكَ اللهُ اَحْسَنُ الْخَالِقِيْنَ
25:05
Allah is the best of the creators. The best Creator of creators.
25:12
اَحْسَنُ الْخَالِقِيْنَ There are many creators.
25:17
The messenger: In fact, in other words, we can create our own misery, or our own happiness.
25:24
But God instructs, they follow God's laws, they carry out God's laws.
25:31
Edip: اَلْقَدْ خَلَقُوا - Also, they create The messenger: This is just to bypass this linguistic tricks.
25:51
The messenger: Dark gray car with the lights on. Small dark gray...
26:11
The messenger: You'll get the makeup required next time, not now.
26:23
The messenger: Emily will find out.
26:31
The messenger: Ok. Go on, Edip. Edip: Yes. Verse 20. [70:20] If touched by adversity, despondent. [70:21] If blessed by wealth, stingy.

The messenger: What kind of car is it? Edip: [70:22] Except for the worshipers. [70:23] Who always observe their contact prayers (Salat).

[70:24] Part of their money is set aside. [70:25] For the poor and the needy.

[70:26] They believe in the Day of Judgment. [70:27] They reverence their Lord's requital.

[70:28] Their Lord's requital is not taken for granted. [70:29] They keep their chastity.

[70:30] (They have relations) only with their spouses, or what is legally theirs— [70:31] anyone who transgresses these limits is a sinner—

[70:32] And the believers keep their word; they are trustworthy. [70:33] Their testimony is truthful.

And it ends with the same close statement.

[70:34] They consistently observe their contact prayers (Salat), on time. It is like the same verse 23.

There are some qualifications, some behaviors of Muslims, important behaviors.

First, they observe their Contact Prayers.

And we see this statement also in 23, verse 2.

And there are many common verses between here and the beginning of chapter 23.

The messenger: Did you make a note also this for the index? Says for the believers.

Edip: [70:24] Part of their money is set aside. Word by word translation, they have a part in their money.

A part there is known. Known by people. This show us that charity, the amount of Zakat, is known by people.

The messenger: Specified. Edip: Specified. (70:24) 24 مَعْلُومٌ

[70:24] Part of their money is set aside. The amount of the charity is known by people.

The messenger: Also again, it describes this verse. Specified, also. Edip: Yes. The messenger: Specified portion of their money is set aside.

Edip: Specified. مَّعْلُومٌ

And there are parallel verses here between 23 and chapter 23.

For example, you see the parallel verse in 23, chapter 23, verse 4.

It says, it specifies Zakat, just word Zakat.

Different forms of marriage i.e. common law wife.

Verse 30, [70:30] (They have relations) only with their spouses, or what is legally theirs—

Edip: This is about captives of war. The messenger: No, it is not. Edip: It is not?

Edip: In chapter 4, verse 25, Allah gives us permission to marry with captives of the war. The messenger: No, He is not.

Edip: Please open chapter 4, verse 25. The messenger: Look in the new translation.

The messenger: Edip inherited some of the old stuff, where they have wars with captives.

The messenger: What is legally theirs covers all the methods of marriage in the world.

There are places where there is no marriage. But a man and a woman will live together forever and have their children, and the society will know that these belong to each other.

You don't have anything lik. that anywhere. So, the Quran covers all the situations.

There are common law marriages in this country, and the Quran recognizes that.

It's what "legally theirs" means.

And, is there any question about this?

The messenger: I have a few comments. Edip: Let me talk about...

31:51

The messenger: 4:25 talks about slaves. The messenger: 4:25 talks about slaves. Edip: Yes, slaves, you can marry with them. The messenger: Right, but not war captives.

Worshippers who do not observe Salat are always worried – Being worried, despondent and stingy you do not belong with the believers. Salat remedies all these things. Traits of the believers.

32:02

Edip: Ah, Ok. The messenger: Ok, this is very important to note that the people who do not...the worshippers who do not observe the Contact Prayers are anxious.

32:19

Anxious, I really want a stronger word than anxious. In Arabic, هَلُوْعًا is worried, always worried.

32:27

Nervous and anxious and worried, always worried. A human...huh? Yeah. Jittery and worried.

32:35

Worried, depressed, and anxiety and worry.

32:42

[70:20] If touched by adversity, despondent. [70:21] If blessed by wealth, stingy.

32:47

OK. Now. You can ask yourself this question. Do you worry?

32:54

Number 2, do you become despondent when something bad happens to you?

33:00

Number 3, are you stingy when you have money? If you have these three traits, then you do not belong with the worshippers, the believers.

33:13

I remember my father's teacher had a debate with some of the mullahs.

33:19

And he trapped him into this. He said "do you worry a lot?"

33:24

He said "yeah, we're humans. We worry." He said "if something bad happens to you, do you become upset?"

33:30

He said "yeah, we're human beings, we do that." And then he said So, he said "well, then you don't belong with the worshippers who observe the Salat prayer."

33:40

Because in verse 22, it says (70:22) إِلَّا الْمُصَلِّينَ

33:45

except those who observe the Salat prayers. So, the lesson is that if you do observe your Contact Prayers, this will cool you down. You will not worry. You will have nothing to worry about.

33:55

No fear, no worry. And you will not be despondent when adversity happens.

34:04

You will remember what the Quran says that you may dislike something which is good for you. You may not get the job that you want, but God knows it is not good for you, and you accept that.

34:15

So, you will not be despondent. You will not be miserable because you didn't make it in the job interview.

34:22

So then, we have a bunch of traits of the believers.

34:27

They always observe their Contact Prayers, verse 23. 24, a specific portion, 2.5% of their net income is set aside for the poor and the needy, 25.

34:40

26, they believe in the Day of Judgment. These are all traits of the believers.

34:45

27, [70:27] They reverence their Lord's requital. They worry about it. In other words, they don't want it. They know how bad it is, just making God angry.

34:58

God doesn't get angry, by the way, but I mean, violating His commandments.

35:04

27 28 [70:28] Their Lord's requital is not taken for granted.

35:11

In other words, when you look at this, you'll be severe against yourself. You will not be lax.

35:21

You will judge yourself according to these criteria and make sure that you're a believer.

35:30

You will be strict with yourself.

35:36

Number 29, [70:29] They keep their chastity. So, I mean, you look at this verse 29 and you keep your chastity.

35:44

You'll not be lax or careless.

35:52

Keeping the chastity is something that is unusual in this country. Because the society evolved so much in the last few decades.

Chastity.

36:05

Maybe, I should get you the piece of paper that Phil handed me. Just one second.

36:11
It's appropriate to this.

36:22
It's for all those born before 1945, which probably includes you only.

36:33
Okay, but here it says "we were certainly not before the difference between the sexes was discovered. But we were surely before the sex changed. We may do with what we had."

36:48
"And we were the last generation that was so dumb as to think you needed a husband to have a baby."

36:55
"No wonder we are so confused and there is such a generation gap." "But we survived." OK.

37:07
I think there are some other points here that along the line that "we were the last generation

37:12
that was so dumb as to think you needed a husband to have a baby." So, in other words, what happened in the last few decades is really very harmful to the people.

37:26
And we see what happened with AIDS, the spread of venereal diseases,

37:36
yes, lesbian mothers. Things that those born before 1945 never heard of these things.

37:43
But verse 29, the believers do not take it lightly, 29.

37:50
I'm writing an appendix on chastity and virginity for our children.

37:58
Our children better be different from the other children. It is your responsibility to teach your children for their own good that they must be virgin on their wedding night.

38:11
And I'm talking about boys and girls. And I'm going to show in the appendix how the happiness of your children depends on that.

38:21
The price is just too high if they don't follow this verse, this very short verse, 29.

38:31
[70:29] They keep their chastity. The price is really too high.

38:36
Now, even from the physiological and the physical point of view, the boys and the girls, when they mature first and they are ready for... they are not ready.

38:49
I mean, physiologically, they may have their menstruation, or they may... the voice may change, the boy's voice may change.

38:58
But physiologically and anatomically, they are not really ready for sex.

39:03
But in this country, they delve into sex without being ready, and they hurt themselves.

39:09
And they pay the price when they grow up. This is from the purely physical and physiological point of view.

39:16
But from the practical point of view, God sees to it that those who violate this...

39:23
Our boys and girls must be taught not to violate this. That they must keep their chastity, because when they do that, they pay from their happiness.

39:35
They will not have a happy marriage. They will not have a happy life. And, mind you, it is not easy. You must teach them that it is not easy to keep your chastity, especially in a society like this.

39:48
Joe Sobran is a reporter with the Los Angeles Times, and he had a wonderful commentary only yesterday, or the day before.

39:57
He says "these boys, they go out and they have sex as if there are no consequences.

40:03
But the consequences are abortions, dangerous things that happen to... And the children who have...

40:09
These boys have no intention of raising them or supporting them. They create a lot of misery."

40:16
That was Joe Sobran's commentary, and he is not a Muslim. But here we are reading the Quran, and God knows what is good for us.

40:22
He is telling us that the believers must keep their chastity.

40:33
You know, all of you are young, and you have children who are growing, and I want to repeat

40:40
and emphasize and re-emphasize that it is your responsibility. If you just do your part, God will do the other part.

40:48
You cannot just leave them to the world out there. You have to do your part by teaching them what the Quran is saying, what God is saying.

40:56

Because if you really love them, you want them to be happy when they grow up. And one source of misery will be to break these laws.

41:06

They are not physiologically ready. They'll be breaking God's law, and the price is too high.

41:16

And if you... I know you do want them to be happy. So, I'm going to write this appendix in detail, and you can use it.

41:26

OK. Use me to give them these instructions. It is very difficult to be a father or a mother, and you talk to children about sex.

41:37

It's kind of awkward. But if you use the Quran, tell them "this is what God says. Here is the appendix, read it."

41:44

And God will help you and will protect them.

41:50

So, and emphasize to them that it is not easy. You must exert, tell them they'll have to exert a lot of control.

41:57

Because the temptation is so great out there. And you are helping them this way when you tell them "it is not easy." But you must exert for your own happiness and your own good.

42:07

You must exert a lot of control. You must resist. You know, they have a big thing saying, "say no to drugs." But you never say "say no to sex."

42:16

Even though it is disastrous.

42:25

Subhan Allah. OK.

42:33

Yes, this is a shock.

42:44

Yes. The messenger: Because this, I think it was Valentine's Day at the university, and they distributed free condoms.

42:51

It's like telling them "go have sex," you know. They don't realize what they're doing and how much unhappiness they're causing to these kids.

43:00

But this is good news. Now, God is forcing. God says in Sura 41, verse 53, that God will show them His signs in the horizons and within themselves until they realize that this is the truth. This is good for us.

43:15

There is a big campaign in the country against alcohol. They don't do it because God said so. But they are forced by the disasters, the social disasters, and the broken families,

43:28

and the depression that is caused by alcohol, the hangovers and headaches, diseases.

43:33

Now, the book, there's a book in the market, a new book, that is called "You Are What You Drink." I mentioned it before.

43:40

And it lists unbelievable disastrous health problems from alcohol.

43:46

Because it dissolves your brain. I mean, I'm talking about cancer, blood pressure, heart disease, established, scientifically established.

43:55

The messenger: Hmm? A woman: Liver disease. The messenger: Liver disease, of course, yes, it was known a long time ago. And the same is happening with violating this verse 29.

44:04

[70:29] They keep their chastity. The same thing is happening. There are unheard of diseases coming out.

44:13

AIDS is one of them. Uncurable.

44:18

skin cancer (unintelligible) You're telling me that now the... Naomi, you're thinking that now the females have a disease that is similar to AIDS. I heard about it a couple of weeks ago. You're gonna tell us more?

44:28

Naomi: There's a cancer that, you know, how many (unintelligible).

44:35

The messenger: Young girls who are sexually active, because they are not physiologically... they are not physiologically ready.

44:43

It takes maybe 10 years after the voice in the boy changes and the menstruation of the girl, maybe 10 years to really be ready to be pregnant and to be in a marriage relationship.

44:56

So God knows. God created us and knows what is good for us.

Believers children are in God's hand.

45:03

So, if you think I spend too much time on this, it's deliberate. Because you have a lot of responsibility. There are lots of beautiful, wonderful kids running around here. And they must be protected.

45:13

Like I said "don't worry. You just do your part." You must know that your children are in God's hand.

45:21

You can't be with them every time. But God chaperones your children. You are a person.

45:27

You are a person of God. And you must have that confidence. You must know that God is with your children wherever they go.

45:35
 If they are riding a bicycle in the middle of the street, or they are out with other people subjected to all the temptations of this society.

45:43
 Don't worry. Drugs or sex or accidents, your children are in God's hand and you must have that confidence.

45:52
 And being the oldest of you, I raised two kids, I know that. I know, I'm speaking from experience.

45:58
 They've seen how much God's protection is marvelous. And they have seen how you just do your part and God will do His part in the most magnificent ways.

46:11
 So, I didn't have relations with anybody else. In fact, this is repeated in verse 30. It says, [70:30] (They have relations) only with their spouses, or what is legally theirs—

46:23
 So, there is a lot at stake. It is just not worth it, violating these laws.

46:30
 These are very very harsh. The punishment is very harsh. It seems out of proportion.

46:39
 So, do you want to test it? Go ahead. You're gonna pay through the nose. If you want to abide by God's law, then you attain a lot of happiness and you avoid lots of problems.

46:50
 Okay, any questions?

46:58
 Yes.

Charity and showing off.

47:13
 Right, they're being selfish. Like the fellow who donated a million dollars to the cancer center, but it had to be announced over the microphone in the stadium.

47:22
 This is showing off and he's doing it for selfish reasons, maybe, maybe.

47:28
 I mean, he has to be a believer in God to give things secretly. But the criterion is whether the person is cutting a portion of his money and giving it to the poor or not.

47:39
 The minimum is 2.5%. If the person is giving away at least 2.5% of his or her money to the poor, then they're alright.

47:49
 Farhad.

We must observe "Umrah and Hajj".

48:08
 Yes. This is verse 30.

48:14
 Yeah.

48:20
 Yes. Or is very important. Yes. Yes.

48:25
 This is... the Quran is so accurate that you have to pay attention to what Farhad is just saying. OR or AND.

48:31
 There is a verse that says "you shall observe Hajj and Umrah. And I have translated it, maybe even in the old translation, OR Umrah.

48:40
 But we're supposed to observe... in pilgrimage, there are two things that must be observed, Hajj and Umrah. They must be done.

48:46
 So, this is a similar... the difference is just a dash.

48:52
 WA (وَا) or AW (اَوْ). That's the difference. You really have to pay attention to these things. Edip: Yes. Here, if you have spouses, you don't have negligence.

49:01
 The messenger: Right. The messenger: See, because you either got married or you either got together without the benefit of marriage.

49:10
 I don't wanna tell you that joke again. The guy in Africa, he wanted to know the secret of happy marriage. And somebody said "what is marriage?"

49:18
 So, there are places in the world where there is no marriage. Edip: What is "legally theirs"?

49:25
 The messenger: Yeah, "legally" means, there may be societies where, when the people reach the age of 21,

49:34
 they are actually engaged at the time of birth in some of those societies.

49:40
 They had a boy in the family and said "this will be for my daughter." The tribe chief or something.

49:45
 Because the daughter is not born yet, maybe. But these are political connections.

49:52
 So, when they reach 21, they ship the boy and the girl into their new house and they become husband and wife forever.

49:58
 She is legally his and he is legally hers. But there was no marriage ceremony and no such thing as marriage.
 Common law marriage and problems in marriage. Forced marriage against Quran.

50:06
 So, the Quran must cover all situations. They legally belong to each other. In this country, common law marriages are legal as far as God is concerned. There are two people who decided to live together forever and raise a family.

50:23
 The intention is for being together forever. They don't go through the state and the papers and the priest or Justice of the Peace or anything.

50:31
 But they live together forever and that's legal as far as God is concerned.

50:38
 A man: Many (unintelligible). The average has the most serious relation problems. (unintelligible). Technically, they are children of him. So, there are illicit, like, a lot of illicit sexual activities.

50:58
 A man: (unintelligible). They don't have this sense of genuine love. (unintelligible).

51:08
 A man: They can't see their parents loving each other. These are the ones that in fact are the most serious.

51:17
 A man: I haven't... God knows, I haven't come in contact with a single case. Can't they see these relation problems or this type of thing that has not included some kind of adultery or disregard for marriage.

51:37
 The messenger: By the way, I must clarify that when I talk about problems in marriage, there are all those problems in marriage.

51:43
 But for people who keep their chastity until their marriage, they will have the regular problems of

51:52
 bickering over the budget and what to be spent where and which house to pick out and

51:58
 which room should be the living room and which room should be... These are normal problems. I'm talking about serious problems that are the price of the improper marriage.

52:15
 A woman: So, you just mentioned that the parents (unintelligible) children. (unintelligible).

52:42
 The messenger: No, this is inheritance of the things that the wife possessed.

52:47
 It's not inheriting the person. I think I clarified this in the new translation.

52:55
 "You shall not inherit your wives forcibly" means you cannot force her to write a will giving you everything, giving the husband everything. This is what it means.

53:04
 But arranged marriages are done all over the world and a lot of them are very successful.

53:22
 Well, this is prohibited in the Quran. Marriage against anybody's will is prohibited in the Quran anyway.

53:27
 So... If a man inherits the wife in the sense that you are saying and she is happy and he is happy and they get married, fine.

53:36
 Widows can get married. There is no problem.

53:44
 There is a Jewish tradition about the brother marrying his brother's widow. This is an old tradition in Judaism.

53:52
 There is nothing wrong with it if everybody is happy.

54:01
 Yeah, well, No, this is against the Quran. Pardon?

54:07
 Speak slowly. Yes, a few societies...

54:19
 Actually, in this society, you find everything here in this society.

54:27
 Any other question? Pari? Parivash: (unintelligible) marriages (unintelligible) legally. They live together. When they wanna leave, they say "(unintelligible)." Then, because they don't wanna be legally (unintelligible).

54:47
 The messenger: It's only okay if they decide that they are together forever and that they will raise a family, the children and everything as a couple forever. The intention must be forever.

54:58
 They may break up next month or next year, but if the intention was they're getting together forever, then it is okay.

55:07
 It is not okay to get together with the intention that if things don't work out, goodbye.

55:14
 Parivash: Because most of them, they don't wanna have that responsibility. The messenger: Right. Parivash: If they wanna live and maybe they can have a baby, but maybe it was...

55:26
 Parivash: I think they don't want that they have that responsibility, but maybe they live for 15 or more than that.

55:36
The messenger: Like I said, if the intention was that they live together forever, then it is perfectly alright.

55:41
A woman: Some get married and they don't want the responsibility. Edip: It was his intention.

55:50
The messenger: Some people get married and one or both have the intention of not being together forever. That's prostitution.

56:04
The messenger: Back to Edip and verse number? What? Edip: 32. 33. Verse 33.

56:11
[70:33] Their testimony is truthful.

56:17
Edip: The verse contains another meaning, also. They stand firm in their testimony and their testimony is truthful.

56:32
They stand firm in their testimony even if it causes loss or trouble for them.

56:41
And the most important testimony is testimony for one's own God and also there are many other testimonies in this world.

56:55
And they stand firm and they are truthful in their testimonies. Verse 34,

57:01
[70:34] They consistently observe their contact prayers (Salat), on time.

57:07
Meanwhile, I want to tell you an interesting event in my life about this verse.

57:16
The verse chapter 29:45. It is over here. Chapter 29:45.

57:34
[29:45] You shall recite what is revealed to you of the scripture, and observe the Contact Prayers (Salat), for the Contact Prayers prohibit evil and vice. But the remembrance of GOD (through Salat) is the most important objective.* GOD knows everything you do.

57:56
This summer, I was preparing a book about the mistakes in Turkish translations.

58:05
I was dealing about 40 verses, important verses.

58:12
I gave the original to the... for the copy, to be copied on film.

58:23
The person gave me back. I found that he missed two verses.

58:33
He forgot to copy two verses and only one verse is by mistake he had taken it copied. The verse was this verse, verse 29:45.

58:46
And I told him that you must take these two verses that you have forgotten and not this.

58:55
This is wrong because I wanted verse thirty-nine chapter forty-five.

59:02
He supposed that I wanted chapter twenty-nine. He mixed thirty-nine with twenty-nine.

59:11
I corrected it. Later, I received the three films but I found that also he had mistake on this verse.

59:23
Instead of 39:45, he made the same mistake on 29:45.

59:31
It was very interesting because that time, a few time, I delayed my Salat

59:37
and I was not good that time about my prayer and Allah reminded me about Salat because God is fully aware of everything you do.

59:52
You must observe your Salat.

1:00:00
Let's go on. 35. He couldn't understand.

1:00:08
A man: Verse 23 and 34 add up to 57. God says [70:34] They consistently observe their contact prayers (Salat), on time.

1:00:19
That consistent means (unintelligible). Another thing here is that we can see that Salat protects.

1:00:28
As God says he keeps the believers away from violating these laws of God.

1:00:36
Edip: Verse 24? Chapter 24? A man: No, no. A man: In the Sura we are reading, verse 23 and 34 add up to 57.

1:00:50
Salat helps and protects the believers to be on the right path.

1:01:01
Verse 35 [70:35] They have deserved a position of honor, in Paradise.

1:01:07
[70:36] What is keeping those who disbelieved from joining you? [70:37] To the right, and to the left, they flee.

1:01:14
[70:38] How can any of them expect to enter the blissful Paradise? [70:39] Never; we created them, and they know from what.

1:01:32
Verse 40, [70:40] I solemnly swear by the Lord of the easts and the wests; we are able—
1:01:41
Rashad, I want to ask you a question about the Quran in the parenthesis.
1:01:47
(Unintelligible)
1:02:00
[70:40] I solemnly swear by the Lord of the easts and the wests; we are able— [70:41] to substitute better people in your place; we can never be defeated.
1:02:14
The messenger: God, God speaks. Edip: God swears by Himself.
1:02:23
Lord of the Easts and the Wests position of stars and position of moon and sun also their rotation.
1:02:36
Allah governs all the universe and Allah says
1:02:45
(56:75) فَلَا أَقْسِمُ بِمَوْقِعِ النُّجُومِ [56:75] I swear by the positions of the stars. The messenger: position.
1:02:57
Here, swearing is personal. "I"... with "I" But, the second verse we see "we."
1:03:06
[70:41] to substitute better people in your place; we can never be defeated.
1:03:12
And we here can understand that Allah has many soldiers from angels and believers.
1:03:23
And they cannot be defeated.
1:03:28
[70:42] Therefore, let them blunder and play, until they meet the day that is awaiting them.
1:03:34
[70:43] That is the day they come out of the graves in a hurry, as if herded to the (sacrificial) altars.
1:03:44
[70:44] With their eyes subdued, shame will cover them. That is the day that is awaiting them.
1:03:56
The messenger: Thank you very much. Good job. Are there any questions on the whole Sura or anything?
1:04:04
Dr. Sabahi: Yes, I just want to go back to what Eric asked you. He asked if there is... just wanna first make sure it's actually in the Quran and according to the teaching of the Quran.
1:04:20
Dr. Sabahi: Does Quran require a Muslim to get married? Some specified rules (unintelligible).
1:04:32
The messenger: Yes, the Quran consistently talks about marriage and making it official and everything.
1:04:38
Yes, but I'm talking about generally in this country, people who never saw the Quran, never came across the Quran.
1:04:45
Dr. Sabahi: You are a Muslim and you are obligated to go through marriage according to the rules that...
1:04:52
The messenger: Marriage is a very organized institution according to the Quran. Because God tells exactly who we can marry and who we cannot marry. And it's an elaborate and divine institution that is very organized.
1:05:07
Believers are Hard honest workers. They are not lazy. Rich Vs. Poor believers.
1:05:13
I'm glad you pointed this out. Dr. Sabahi: Yes, I got the wrong impression.
1:05:25
Dr. Sabahi: The other thing was when you keep talking about God provides you, God loves you, God knows what you're gonna do and things like that.
1:05:39
Especially the younger ones, they may not think that "okay, if God wants me to get this job, I'm gonna get it. So, I will sit down here. I'm not gonna work, I'm not gonna try."
1:06:02
The messenger: That will be against the Quran. The messenger: We're going against the Quran. The true believer is the hardest working person and the best producer in his job or her job, wherever they go.
1:06:08
And they enjoy every minute of it. Believers are very hard workers and the most honest workers.
1:06:22
And they are the best producers and they enjoy every second of it.
1:06:33
They are not lazy. God doesn't want the lazies. He wants people on the ball in His Kingdom.
1:06:40
Our teacher next Friday is Apamea. And she's gonna take the next 19 Suras, from Sura 70 to Sura 89.
From Sura 71 to Sura 89.

Yes, Robert? Robert: What's the motivational factor? You talked about this before. The motivational factor is wanting to better yourself, do better financially. The messenger: Very good.

1:06:53

The messenger: Sura 16 says "the rich believer is better than the poor believer."

1:06:58

And Edip wanted me to change this for possible misunderstandings. But I did not, because God meant that.

1:07:06

Remember it says "the rich believer and the poor believer, both are believers." Both are equally believing.

1:07:12

But one of them is able to do things, is able to give to charity, is able to

1:07:18

further the cause of God and spread the word of God and do things that will make a difference.

1:07:26

So, this is a motivation. Robert: But isn't it also a natural thing in every case to want to better your own services, to want to say...

1:07:37

The messenger: Without being frustrated, yes. Yes. Yes.

1:07:42

Absolutely. Because of that principle in Sura 16.

1:07:48

You wanna.... you want to do things. You want to buy a million dollar ad in the Wall Street Journal to say to the people "worship God alone."

1:07:57

And you cannot do that unless you better your own circumstances.

1:08:04

Dr. Sabahi: I have one question. You alluded to something, that some people have changed the type of verses in the Quran.

1:08:18

What is the reason? How do we know that these are the verses in the way of preparation of the Quran?

1:08:23

(Unintelligible) ...that these number of verses in the Quran, the verses that are part of one Sura, and then another part of another Sura.

1:08:34

How do we know that these are the verses in the Quran? The messenger: Just buy a copy of the new translation.

1:08:45

The messenger: That's it. A woman: The number 19 The messenger: Yeah. It's gonna be mathematically solved. Edip: Mathematically, rather, it shows us that it's correct. Dr. Sabahi: No, before the mathematics.

1:08:58

The messenger: Yes, there are authorized printings. And they are the closest to the truth.

1:09:05

They have... we know the mistakes in them. There are three mistakes in them. In the authorized versions of the Quran printed in Saudi Arabia or Egypt.

1:09:14

Avoid the ones printed in Iran. They misspelled them and messed them up.

1:09:21

Dr. Sabahi: Can it be verses, the numbering of the verses? The messenger: That's possible. But I know that they "simplified" the Quranic Arabic, and they wrote it in the modern. Edip: In Turkey, also.

1:09:35

The messenger: Also in Turkey? Edip: Yes. Misspelling. The messenger: So, the first Quran ever in history that is the way God wanted it to be printed, from here, come out of here in the next few weeks, IN SHAA ALLAH.

1:09:52

The messenger: Farhad? Farhad: You mentioned the Persian translation is developing. Another translation is the introduction in the Persian language.

1:10:06

Farhad: Another translation is in Arabic translating into Persian. The meaning of this is hugely important. The messenger: Yes. Farhad: Another translation...

1:10:21

The messenger: Well, I have good news for you. There is a Farsi translation being done now from my translation.

1:10:26

So, you should have it in a year or so, IN SHAA ALLAH.

1:10:31

We have authorized the Farsi translation. The messenger: No. The messenger: Susan Ray? No.

1:10:40

It's done by Behruz. Did you meet Behruz? Behruz Mofidi Shirazi.

1:10:47

He's doing this, just going very fast. Martha, did you say something?

1:11:07

The messenger: You are not reading your Muslim perspective, you are (unintelligible). You are not reading your Muslim perspective.

1:11:16

The messenger: Not maybe. You're not reading your Muslim perspective. It's right there. That's the answer to your question, yes.

1:11:24

Perfect answer to question in details. Go read it, now.

1:11:30

Any other questions, while Martha is reading the answer to her question?

1:11:38

Can you what? What did she say now?

1:11:44

A woman: I said "any other questions that Rashad can avoid tonight (unintelligible).

Compilation of the Quran. Explains release of Quran to Prophets Memory.

1:12:00

The messenger: Well, it takes a minute, but it answers your question perfectly. The answer is yes. The Prophet Muhammad was given specific instructions.

1:12:08

Every time Gabriel released Quran from Muhammad's soul to Muhammad's memory, he gave him instructions as to where these three or four verses belong.

1:12:18

And he wrote down those verses and he put instructions next to them.

1:12:23

So, when he died, he left the complete Quran, but not in the order that God wanted for the world.

1:12:30

He left the Quran with instructions on the side as to which Sura goes after what Sura and which verse goes after which verse.

1:12:42

The messenger: Exactly. They followed the instructions. They put the Quran together, but then Satan tricked them into adding two verses.

1:12:48

And that was during Uthman's time. And this triggered the war between Ali and his family and the Umayyads.

1:12:56

A woman: That's the thing that you're referring to in the... I read that part. The part about Ali and his family.

1:13:04

The messenger: Right. There were 50 years of bitter war, but unfortunately the Umayyads won.

1:13:11

So, we got their version. We didn't get the version of the believers.

1:13:17

A woman: Did Jesus have a (unintelligible)? The messenger: No. (Unintelligible).

1:13:27

The messenger: He was an angel.

1:13:34

The messenger: No, he didn't see him as an angel. A woman: Did he just dream it? The messenger: No, no, no, he didn't dream. Gabriel comes and takes and becomes part of Muhammad's body and releases the...

1:13:45

Gabriel did a connection between Muhammad's soul and Muhammad's physical body.

1:13:52

He didn't need to see him.

1:13:57

The messenger: No, not like that. When... in possession, you lose your... In the possession, you lose your identity completely.

1:14:04

If you... if we are possessed by an angel or a demon or whatever, Naomi disappears and the other entity takes over completely.

1:14:11

And you have no consciousness at all. But Muhammad was fully conscious.

1:14:16

He just had these words come to him and he would write down the verses. It comes to his memory.

1:14:22

Just like you're remembering something. You remember that you took a final exam three days ago and the questions were this, this, and this.

And you can write them down.

1:14:31

So, this is how he received them. Oh, yeah.

1:14:39

Okay, well, whatever your dearest wish is, turn to God and ask him for it.

1:14:44

The best wish being to stay on the right path. Al-Fātehah Bism Allah Arrahman Arraheem (1:1) Al hamdu Lillahi Rabbil 'Alameen (1:2) Arrahman Arraheem (1:3) Maliki Yawm Eddeen (1:4) Eyyaka Na'abudu Wa Eyyaka Nasta'een (1:5) Ehdina Al-Serata Al-Mustaqeem (1:6) Serata Al-Lazeena An'amta 'Alayhim Ghayri Al-Maghdooibi 'Alayhim Wa Laddaalleen (1:7)

1:15:06

By all means, look at that miracle on the wall and thank God because there is no doubt that we are the luckiest people on the face of the earth.

1:15:15

Alhamdu lillah. Congratulations.

10 Quran Study From Azhar 10 Sura 71 & Sura 72 By Afameh Chastity Jinns 05 19 1989

The messenger: أَعُوذُ بِاللَّهِ مِنَ الشَّيْطَانِ الرَّجِيمِ We seek refuge in God from Satan.

0:11

Yes we did. Bism Allah Arrahman Arraheem

0:16

In the name of God, Most Gracious, Most Merciful.

0:24

Tonight, Friday the 19th, 1409.

0:33
And we're starting at where? A woman: Chapter 71, page 578.

0:38
The messenger: Oh, Sura 71.

0:44
From the beginning of Sura 71. And our teacher tonight is Apamea Bashar.

0:50
The messenger: So, we're going to put all the microphones by her to make her nervous. Apamea: Yes.

0:57
The messenger: And wish her luck. Apamea: IN SHAA ALLAH. The messenger: Ok.

1:03
Apamea: Bism Allah Arrahman Arraheem اَعُوْذُ بِاللّٰهِ مِنَ الشَّيْطٰنِ الرَّجِيْمِ

1:08
Apamea: Sura 71, Noah. [71:1] We sent Noah to his people: "You shall warn your people before a painful retribution afflicts them."

1:17
[71:2] He said, "O my people, I am a manifest warner to you. [71:3] "To alert you that you shall worship GOD, reverence Him, and obey me.

1:26
[71:4] "He will then forgive you your sins and respite you for a predetermined period. Most assuredly, GOD's appointment can never be delayed, once it is due, if you only knew."

1:37
[71:5] He said, "My Lord, I have invited my people night and day. [71:6] "But my invitation only increased their aversion.

1:44
[71:7] "Whenever I invited them to be forgiven by You, they placed their fingers in their ears, covered themselves with their clothes, insisted, and turned arrogant.

1:53
[71:8] "Then I invited them publicly. [71:9] "Then I proclaimed to them loudly, and I spoke to them privately.

2:00
[71:10] "I said, 'Implore your Lord for forgiveness; He is Forgiving.

2:07
Apamea: Should I go ahead read the whole thing? The messenger: You're the boss.

2:14
[71:11] "He will then shower you generously with rain. [71:12] "And provide you with money and children, and orchards, and streams."

2:19
[71:13] Why should you not strive to reverence GOD? [71:14] He is the One who created you in stages.

2:25
[71:15] Do you not realize that GOD created seven universes in layers? [71:16] He designed the moon therein to be a light, and placed the sun to be a lamp.

2:35
[71:17] And GOD germinated you from the earth like plants. [71:18] Then He returns you into it, and He will surely bring you out.

2:43
[71:19] GOD made the earth habitable for you. [71:20] That you may build roads therein. [71:21] Noah said, "My Lord, they disobeyed me, and followed those who were even more corrupted when blessed with money and children.

2:56
[71:22] "They schemed terrible schemes. [71:23] "They said, 'Do not abandon your gods. Do not abandon Wadd, Suwaa', Yaghouth, Ya'ooq, and Nasr.'

3:05
[71:24] "They misled many. Therefore, let the wicked plunge deeper into loss."

3:11
[71:25] Because of their sins they were drowned and assigned to the hellfire. They found no helpers to protect them from GOD.

3:18
[71:26] Noah also said, "My Lord, do not leave a single disbeliever on earth. [71:27] "For if you let them, they will only mislead your servants and give birth to nothing but wicked disbelievers.

3:29
[71:28] "My Lord, forgive me and my parents, and anyone who enters my home as a believer, and all the believing men and women. But do not give the disbelievers anything but annihilation."

3:40
The messenger: Mā Shā Allāh.

3:53
Apamea: I think that this Sura is very clear. It, basically, really reminds us what's truly important and what God has given us and what God has provided for us.

4:07
And a true example of the past, and an entire chapter dedicated to Noah

4:12
who lived 950 years, which we're told in one of the chapters.

4:17
And it's the longest that any of the messengers lived. And he was the messenger who came after Adam.

4:26
And he was with the people for a long period of time. And he was chosen by God to clearly give the message for a long time to the people.

4:37
And he implored the people so much and tried to teach them and preach to them what's really important.

4:44

And to basically open their eyes and tell them that this is what God has provided you.

4:51

And he gives them examples from what's around them, everything that they see.

4:58

For instance, what stares at them during the day, which is the sun. And God has created that, like, as a lamp.

5:06

And the moon at night, especially when it's full, like last night or whatever, and you cannot miss it, the beauty of it, the light of it.

5:14

It just brightens everything. I woke up in the middle of the night, last night. I just saw it and it was just through the curtain, it was just real bright.

5:24

So here, these creations are placed, you know, around us.

5:30

And how blind these people are not to notice it, not to realize it, not to even think about it.

5:37

Like Abraham did and he looked at the sun and the moon and thought "oh, that was God." "No." The sun went down and now the moon is up. "That must be God."

5:46

"No." You know, so on and so forth. He sought and he found because he wanted to find God and God helped him.

5:54

Now, these people are so blind and deaf and they basically just refused any invitation

6:00

from Noah and any teachings that he was trying to give to them.

6:06

And he was telling them "hey, God is Merciful. He will forgive your sins. All you need to do is repent and ask guidance from Him."

6:16

And people basically just closed their ears and just covered themselves and didn't want to hear it.

6:22

However much he insisted, publicly, privately, he did his best and he loudly told them and he quietly told them.

6:32

However, he mentioned the message, they wouldn't accept.

6:38

And this reminds me of a Khutba that we had by Dr. Khalifa and he was giving us the example

6:45

in regards to this same message that when you see someone going towards a cliff

6:53

and you know that the cliff is present there and the person is gonna fall off of it

6:59

and hurt themselves badly or die or whatever, but that person is not aware. First, you inform them when that person is with you like miles and miles away when you can't even see that cliff.

7:09

You tell them "hey, listen, so many miles away there is a cliff there. Watch out for it." OK. Then, you just observe the person going that direction.

7:17

The closer they're getting, it's just because you care about that person. You don't want them to fall off. And then the closer they're getting, you shout louder and louder and then you just wanna run to them and hold them from falling off.

7:30

This is clearly what I remember from Khutba and this is what I get, this message from this surah that here is this man trying to shake these people.

7:38

First, he gives them the message and he basically tries to do his best, you know, to carry on the message

7:45

and relay it, but these people are just deaf and blind. And he tells them that God has created you in stages and this is the most beautiful part.

Aya 17, it says

8:02

[71:17] And GOD germinated you from the earth like plants. And this is what I find about the Quran. It's a book of laws.

8:11

It's a book... it teaches us about so many things, about the past, the future, the present.

8:16

It also has poetry in it and this is what really touched me. Also, Aya 16 which is

8:24

[71:16] He designed the moon therein to be a light, and placed the sun to be a lamp. [71:17] And GOD germinated you from the earth like plants.

8:31

And this is so true because God created us from the pottery clay. And here is a plant that you see every day.

8:38

If you have a plant and take care of it and water it, you see how it germinates and how it just basically comes up. And new leaves that you see, it's bright, you know, green and then it turns dark green and it gets bigger.

8:49

And this is how we are. We were a baby. And we grow up and all these beautiful children that we have here. These are all signs from God.

8:57

And again, people are blind to see all these beautiful things. And God has created this earth and He has made it habitable for us.

9:08

And these roads and we see new highways coming, new freeways and wonderful roads that we have always building on and on and on and on.

9:17

And these are everything that we have been blessed with by God.

9:23

And He clearly says "obey Me and follow Me." Obey God and follow this message and you will be taken care of.

9:35

You will have a wonderful life, you know. God will shower you generously with rain. What is rain? It's a sign of bounty.

9:44

Rain comes and, you know, all the plants grow and we have food.

9:49

And the money that's provided and the children that we'll have, IN SHAA ALLAH, and orchards and streams, all of these are beautiful.

9:59

We sit by a stream and we enjoy the beauty of it by the greenery or whatever, anywhere in the nature.

10:06

So, why shouldn't you, as Aya 13 says, [71:13] Why should you not strive to reverence GOD?

10:12

Why shouldn't you? These are all these wonderful things that God is promising you. And these are all the facts that I'm telling you about, the moon and the sun and, you know, how you germinate like plants

10:23

and how you are created in stages within the womb and outside as we grow into adulthood.

10:30

Why not do it? And again people wouldn't listen. So finally, he gets so frustrated and he just turns to God and says in Aya 21,

10:40

[71:21] ... "My Lord, they disobeyed me, and followed those who were even more corrupted when blessed with money and children.

10:45

Here we go, money and children. We see many examples of this in this society, any society.

10:54

You think that's the only thing that's important. Then, you have children and they become the center of your life.

11:01

And you strive so hard for them. You don't have any rest at all sometimes because you're working night and day for your children and to money and the greed.

11:11

And you just basically may forget about God. God willing, we'll always stay on the path that we walk.

11:18

So, he says "God, if these people go on without any retribution, they're gonna keep on being corrupted with money and children.

11:28

And they will have terrible schemes" as it says in Aya 22. And they didn't wanna abandon their god. They didn't wanna let go of their own idols.

11:37

And God...in the Sura...in Aya 23 it says, "Do not abandon Wadd..."

11:44

and I think, I don't know what those things are, but I think they're idols.... or something

11:51

The messenger: The names of their idols.

12:00

Apamea: And people were just trying to mislead each other and preach to each other and try to tell each other that "hey, don't let go of these idols. These are the ones that are important to you."

12:17

And again, as it says in 24, [71:24] "They misled many. Therefore, let the wicked plunge deeper into loss."

12:23

They'll just go deeper and deeper into what's worse for them, the worst things that could happen to them.

12:29

And they will always stay in their sin. So, what's waiting for them is the hellfire.

12:38

And there will be no helpers at all to protect them from God. Because God's wrath is great and God's promise is great.

12:47

His bounties are fantastic and He tells us "hey, either go the way of righteousness

12:54

or you go the way of sinfulness and being a disbeliever and idol-worshipping."

13:02

And you will deserve hellfire. And so Noah turns to God and says, [71:26] "My Lord, do not leave a single disbeliever on earth.

13:11

He really did his best to try to preach to these people and let them know about this good information.

13:17

And what will happen, if these people stay on, [71:27] "....they will only mislead your servants and give birth to nothing but wicked disbelievers.

13:26

And we are told at the mosque here how the children are assigned to particular parents

13:32
and how parents are responsible to teach the good word, you know, what they know about God to their children and pass on the information.

13:41
And to let them, to always remind them of their prayers, that they have to do their prayers on time and read the Quran.

13:49
But in a family that there are with disbeliever parents, what do you expect from these parents?

13:54
They're not gonna sit there and talk about God in front of the children. Obviously the children are not going to be informed at all.

14:00
And so what's gonna happen, these idol worshippers, these disbelievers will mislead

14:08
the servants of God possibly and give birth to nothing but wicked disbelievers.

14:14
And the chain will just go on and on and on. And so he asks forgiveness for himself and his parents and other people who have come to

14:25
who have come to his home and try to accept, you know, they accepted the word.

14:31
And the believing men and women. And Noah says in Aya 28, [71:28] "...But do not give the disbelievers anything but annihilation."

14:41
Basically just puts it straight. Annihilation will be awaiting them.

14:47
And as we know, the flood came. Even his wife and son were the disbelievers there among the crowd.

14:57
And as we learned in the other chapters that God told him "make the ark and you'll have a pair of the animals.

15:09
And the believers all went with him and they were saved. And that was God's promise to all these believers.

15:15
And so he told his son "come on with us." And his son thought that he could be safe on top of whatever it was, on top of someplace high.

15:27
And he thought that he could be safe from this flood. But the flood came and destroyed everything.

15:35
And Noah and the believers were all saved. So, I think that this Sura was very self-explanatory, very direct, poetic in some areas.

15:47
And basically put us in touch with our creation. And, you know, how hard this messenger was truly working to inform the people of the good message.

16:02
The messenger: Poopak?

16:15
The messenger: Any questions on Sura 71?

16:20
Okay, I have a couple of comments, as usual.

16:56
Are you concerned about these fellows? A woman: It reminds me of the....
Noah's disbelieving people and their example repeated today. Message one and the same.

17:18
A woman: It says "those who enter my home as a believer." So, if they enter his home as a believer, we don't know what (unintelligible). The messenger: It means "join." It means "join."

17:27
The messenger: But he was 950, it's better to (unintelligible) 1,000.

17:35
They're pretty old. They're over 40.

17:45
Okay, well, I think every one of you is a Noah. You've all gone through this experience.

17:50
And what we learn from this Sura is that the human being is a human being is a human being.

17:56
From the very first day, from the time of Adam, the human beings have been the same.

18:03
Each one of you have gone through the same experiences that Noah went through.

18:10
You can be as young as Naomi, and you can go through a lot of the same things that Noah went through. Naomi is not 1,000 yet, or even 700 years.

18:19
But she went through it. She was telling me about this law school student and how she... He's only one of many that she talked to, I know that.

18:28
And the reaction... she talked about a message from God that's mathematically coded, superhuman, definitely from God,

18:35
tells us exactly how to be saved. And then he says "oh, this is good for you, but for me, I would like to see this and that."

18:43
So, his response was the same response that Noah got.

18:50
And you notice in verse 7, he's saying, [71:7] "Whenever I invited them to be forgiven by You,..."

18:56
For heaven's sake, you're inviting the people to be forgiven. You're inviting them to be perfectly happy in this life and forever.

19:04
You're not asking them for money, but they are... oh, I got this here for you.

19:11
I cleaned this two days ago. This is the live picture outside the mosque.

19:17
And there are here now about 76 bugs.

19:22
Some of them are pretty big, you know. You don't know how they got in there. They worked so hard to go in there and burn in Hell.

19:29
This is what the people are doing. They work so hard to avoid Heaven and to go to Hell. They pay whatever price it takes to go to Hell.

19:40
And they work very hard for it. So, this is... God gave us this as an example.

19:46
It's very difficult. On your way out, just look at it and see how they got in there. They had to work very hard to burn and go to Hell.

19:54
And this is what the people are doing, since the time of Noah. Now, Noah was the most probably the first... well, he was the first prophet and probably the first messenger after Adam.

20:07
All the people on earth were living around what is the Dead Sea is now.

20:13
The Dead Sea is the remnant of the Noah's flood. So, this gives an idea how primitive, how early in history this was.

20:22
And the human being was exactly the same.

20:29
Another thing, the message, another lesson we learn is that the message has been almost one and the same.

20:38
You see it here in verse 3. Worship God alone.

20:44
Reverence Him, and obey, obey Him. So, this is the message that every single messenger said "Worship God alone", "Worship God alone", from day one to the end of the world.

20:55
This is the only message that God is sending to us in order to be redeemed. In order to make up for our crimes we committed billions of years ago.

21:04
So, this is the other lesson. But the message is one and the same from that time. And then there is a scientific miracle that Apamea didn't emphasize enough, or maybe didn't notice.

21:19
In 16, God says, [71:16] He designed the moon therein to be a light, and placed the sun to be a lamp.

21:26
There's a difference. A lamp is a source of light.

21:32
But if I have a mirror here, and the mirror reflects this light, the mirror will give light.

21:37
I can send light to that dark room over there, but the mirror will not be a source of light.

21:42
So, it's very clear in verse 16.

21:49
God is telling us, and this is consistent throughout the Quran, that the sun is a source and the moon is reflective.

21:55
The material of the moon is very special. This grayish material is very reflective. And this is what Neil Armstrong and Buzz Aldrin said when they landed on the moon.

22:07
They held it in their hands, in their gloves, excuse me, and they said "it's quite reflective."

22:13
It's a strange material, but God made it that way. God designed it so Apamea can see it through her curtain.

22:20
And it's amazing how much light comes and is reflected by the moon.

MOC "I wish I could have translated it better".

22:31
What else?

22:37
There's another significant matter in 25. We learn a very good lesson here. 25 says,

22:44
[71:25] Because of their sins they were drowned and assigned to the hellfire. They found no helpers to protect them from GOD.

22:54
Now, the Arabic, I wish I could have translated it better. I like this translation.

23:03

It's better than the first one, to me. But I wish it was better, because the verse implies that they knew, which is true.

23:11

People know at the time of death, if they're going to Heaven or Hell.

23:17

They know, and then after that it is either a nightmare, continuous nightmare, from which there is no awakening.

23:24

In fact, the awakening is worse, because they wake up to the real Hell. Or, it's a beautiful dream, depending on how they redeem themselves or not.

23:35

So, verse 25 teaches us that the people know at the time of death. And this is... throughout the Quran, we learn that.

23:45

The angels tell the person, the angel of death tells the person whether he or she is heading for Heaven or Hell at the time of death, so they know.

23:55

Are there any questions on this Sura? A man: Do we have any information on what language is throughout the new and old Testaments? Most probably Aramaic language used during time of Noah. Salat did not exist during Noah time.

24:07

The messenger: Most probably Aramaic. The messenger: Aramaic is the oldest scriptural language, and it is a different language even now.

24:17

I have a tape here that teaches Aramaic, and it's very close to the Arabic. It's the same alphabet, the same order as Arabic, and the words that we use here in this mosque, a lot of them are Aramaic.

24:33

For example, the name of God, Allah. That was the name in Aramaic. This is the name that all the prophets and messengers used. This is a very good question, so pay attention.

24:44

All the prophets used the same name for God, Allah. Noah, Job, Abraham, Moses, Jesus.

24:53

The tape I have specifically is about the language of Jesus, and I have a book that was with me, and God's name was Allah.

25:02

This is what all the prophets and messengers used for the name of God, from Adam until the end of the world.

25:08

The prayer was Salat. In Noah's language, in Adam's language, in Abraham's language, in Jesus' language, in our language, there are many things in common.

25:20

I have a book here, if you want to see it later, or hear the tape I just left you here.

25:25

So, most probably the language is Aramaic.

25:36

So, not the Sabbath. Not the Sabbath. In fact, this is another good question, because you do not see the order to observe Salat before Abraham.

25:47

You notice here, Noah did not say "I want you to observe the Salat prayer and the Zakat charity, like Abraham.

25:54

You see it only for Abraham and (unintelligible). You don't see it before Abraham at all.

26:02

You notice here, verse 2, [71:2] He said, "O my people, I am a manifest warner to you.

26:10

[71:3] "To alert you that you shall worship GOD, reverence Him, and obey me. [71:4] "He will then forgive you.... And so on.

26:15

So throughout the Quran, Noah was always saying "just believe in God" because the people were so primitive

26:21

that believing in God would have assured them enough growth to make it to Heaven.

26:31

But then the duties in Islam came through Abraham, or the Jews, or Christians, and us.

26:41

A man: Noah was one of the messengers or prophets? The messenger: Yes, he's named in the Quran as a prophet.

26:49

A man: (unintelligible).

26:57

The messenger: Scripture-based. Adam was a prophet because he delivered the message, a new message which was not in existence before.

27:10

A woman: So, because Noah delivered this new message, he's referred to as a prophet?

27:16

The messenger: He had a new message. He had new information that the people didn't have before. He delivered it to them.

27:25

He's named in the Quran as a prophet.

27:43

You mean the words? Yes. Yes.

27:53

Maybe, it was Al-Fātehah. We don't know. The word that we know couldn't mean Al-Fātehah, because the Ibrahim Al-Fātehah is very close to what we read Al-Fātehah now, the sound and meaning.
new world had "no bacterial viruses".

28:10

What we're taught is that Adam was given words, so he would be redeemed. And I'm sure he passed on these words to his children, and grandchildren, great grandchildren, great-great-great-grandchildren.

28:23

There's somebody. They had no bacterial viruses, those people, they had a clean world.

28:42

If there are no more questions, Professor Bashar will go on to 72.

28:52

Apamea: Bism Allah Arrahman Arraheem [72:1] Say, "I was inspired that a group of jinns listened, then said, 'We have heard a wonderful Quran.*

29:04

[72:2] "It guides to righteousness, and we have believed in it; we will never set up any idols besides our Lord.

29:12

[72:3] "The Most High is our only Lord. He never had a mate, nor a son.

29:18

[72:4] "It is the foolish among us who used to utter such nonsense about GOD.

29:24

[72:5] "We thought that neither the humans, nor the jinns, could possibly utter lies about GOD.

29:30

[72:6] "Human beings used to seek power through jinn beings, but they only afflicted them with a lot of adversity.

29:37

[72:7] "They thought, just like you thought, that GOD would not send another (messenger).

29:44

[72:8] "We touched the heaven and found it filled with formidable guards and projectiles.

29:50

[72:9] "We used to sit there in order to spy. Anyone who listens is pursued by a powerful projectile.

29:57

[72:10] "We have no idea if something bad is intended for the inhabitants of Earth, or if their Lord wills to redeem them.

30:06

[72:11] "Some of us are righteous, and some are less than righteous; we follow various paths.

30:12

[72:12] "We knew full well that we can never run away from GOD on earth; we can never run away and escape.

30:19

[72:13] "When we heard the guidance, we believed therein. Anyone who believes in his Lord will never fear any injustice, nor any affliction.

30:30

[72:14] "Among us are the submitters, and among us are the compromisers." As for those who submitted, they are on the right path.

30:37

[72:15] As for the compromisers, they will be fuel for Gehenna. [72:16] If they remain on the right path, we will bless them with abundant water.

30:46

[72:17] We will surely test them all. As for him who disregards the message of his Lord, He will direct him to ever increasing retribution.

30:55

[72:18] The places of worship belong to GOD; do not call on anyone else beside GOD.

31:07

These jinns... this is also mentioned in some other places in the Quran where these jinn are saying,

31:17

"we heard this wonderful Quran," and to me, I think that these jinn are the jinn from

31:27

the people who were Muslims, who were believers, and who were converted to Muslims.

31:33

You know, these jinns were converted to Muslims, Islam. And here they are talking about how they heard this wonderful Quran and about its guidance to righteousness.

31:56

And they're basically talking about everything that, for instance, a messenger would tell us, you know, how God doesn't have a mate nor a son, and how foolish our people are to utter such nonsense about God.

32:19

Here, this Sura is very important because we have the messenger of God here with us.

32:28

And "Rashada" is mentioned here, as we see it in the footnote in the second page, four times in this Sura.

32:39

And it's in Aya 2, which is righteousness, the word righteousness.

32:49

Also, Aya 14, on second page, which at the end is "the right path."

32:57

And Aya 21, which we'll cover later, at the end, "guide you."

33:02

And Aya 24, is it? No, wait a minute.

33:16

Oh yeah, "redeem." So, the root "Rashada" is mentioned here 4 times.

33:27

And here, anyhow, these are these jinns talking about God and saying how ignorant some of these human beings were.

33:35

They gave power to jinns and tried to go to them and get some strength.

33:43

The messenger: (unintelligible) correction. (unintelligible) correction. 2 mathematical codes...

34:03

The messenger: I'm sorry. Go ahead. Apamea: That's Ok. Apamea: To go back to... I'm jumping around here. To go back to Aya 3,

34:13

[72:3] "... He never had a mate, nor a son. [72:3] "The Most High is our only Lord. He never had a mate, nor a son.

34:21

This is so clear. In Iran, we were taught in the school, you know, we had the class of Deen, which was religion. But we were only studying Islam.

34:32

And we were always taught that there's only one God and he has no children.

34:37

And to me, and I didn't really know anything about Christianity when I was in Iran until when I was 13.

34:44

And then I learned about it. And to hear the fact that Christians have made Jesus, you know, so big and the son of God.

34:55

And you ask them, you know, "you're referring to Jesus as the son of God." And then they go on talking about Christianity and all of a sudden they say "the Lord."

35:04

And I said "who's the Lord?" "Jesus Christ." And I said, wait a minute, wait a minute. You were just telling me that you're saying "Christ is the son of God." And now you're saying "he's God."

35:13

He can either be the son or he can be God. You cannot be, you know, two things in one.

35:20

And they were saying "oh, that's different." But God and Jesus are different. And you can't even compare this to a simple example of "hey, you can't be two people" and you know...

35:30

So, that was really outrageous to me. And to this day, I still have discussions with Christians who practice their faith.

35:37

And it just goes back to the same thing. "Hey, listen" and I say "God has no son, no mate, nothing," you know.

35:45

It just goes back and forth and we never get anywhere. Because they just believe what they believe. But here's a jinn. You know, the jinns are saying

35:52

[72:3] "The Most High is our only Lord. He never had a mate, nor a son. It makes me feel so good when I read about these jinns because, you know, these jinns are Muslims, you know. And I think...

36:03

And so many times at the mosque here, we're taught that, IN SHAA ALLAH, we'll turn our jinn into a Muslim.

36:10

You know, our worth of righteousness.

36:16

So that's the point for the Christians, the Aya 3. And again, how these foolish people utter nonsense about God.

36:25

And how they go to the jinns and they want strength from them. And, you know, to seek power from the jinns reminds me of devil worshippers.

36:38

I don't know, maybe I'm wrong, but I think of it like witch power, you know.

36:43

All that stuff that people do when you see on TV, all these talk shows. They concentrate on it so much for a couple of months.

36:51

And it makes you aware of what's really going on. Someone that you may be dealing with every day. You don't know what their practices are.

And this person from Pima College, you know, the director.

37:04

And here they are showing on TV now, you know, that she practices devil worshiping and this and that.

37:12

So they're trying to get power from the jinns. Or getting strength from Satan. But it's all nonsense.

37:26

And every time people think that there's never gonna be another messenger.

37:32

And they don't appreciate the messenger until the messenger is gone. Like when you don't appreciate a talented actor, you know, or singer or something until they're gone. And then you just basically make them so big.

37:47

And this is really like that. Who was it... after Joseph? Well, no... who was it... after some messenger

37:54

that they thought there was gonna be no other messengers. The messenger: It was Joseph, yeah.

37:59

But that is not true. And we see it continuously, messenger after messenger, prophet after prophet.

38:06
 So, these jinns are trying to go towards Heaven and peek in and see what's going on there.

38:13
 And there are guards there and projectiles. And they try to listen and "boom," there's a projectile coming to them.

38:22
 And they basically cannot get in and it's just impossible.

38:30
 But you know, this makes me wonder. It says on Aya 9,

38:35
 [72:9] "We used to sit there in order to spy. Anyone who listens is pursued by a powerful projectile. But these jinns are talking about how they enjoyed this wonderful Quran, how foolish among us were the ones who used to utter nonsense about God.

38:51
 And the ones that go to jinns to seek power. And here they're saying "we used to sit there in order to spy." They're still not allowed even though they accept it.
 Explains Jinn's spying.

39:02
 The messenger: They are talking "the bad ones who tell us about their power, what powers they have, what characteristics. And "used to" is in the past.

39:12
 The messenger: "We used to." This means they can travel billions of light years. "To spy" means to get some information. For example, Apamea: So, "we used to" before they were...

39:23
 The messenger: we went through a period of a year and a half or two years where we could not send any rockets into space.

39:31
 The limit was 74 seconds. In Europe, in Japan, United States, we went through that period. Something mysterious. They hit something.

39:40
 74 seconds. Including the shuttle. The space shuttle. 74, actually 76 seconds.

39:48
 And this is... the jinn would see that, see what happened. Something obviously came close to the Earth during that time and prevented any of our rockets from penetrating.

40:00
 Now, the jinns could see that. So, this is what "spying" means. They get some advanced information. They see something happening.

40:10
 The messenger: I'll come back to this. Apamea: There's so much information in this Sura. The messenger: There's a lot of information here.

40:16
 The messenger: When you finish this section, I will go back to the beginning. This is a lot of fun. We're gonna have a lot of fun with this Sura, IN SHAA ALLAH.

40:24
 Apamea: It teaches us so much. Because my teacher taught me a lot today. And I just, I never realized all this, all these things. The messenger: There's a lot.

40:35
 Apamea: Ok. Aya 10, [72:10] "We have no idea if something bad is intended for the inhabitants of Earth, or if their Lord wills to redeem them.

40:44
 Of course, they have no information. They don't know anything. And here they are mentioning us, the Earth, the inhabitants of Earth.

40:52
 And what God's plan is for us. They don't know. We don't know. And later on, we learn that not even Muhammad knows what's gonna happen to us. All they do is give us the message and tell us what's awaiting us.

41:06
 But they don't know what's gonna happen to each one of us, particularly. And the jinns say "some of us are righteous and some of us are less than righteous and follow various paths."

41:28
 I don't know, I kind of find this interesting how you sort of perceive jinns as bad guys.

41:34
 And here are the bad guys that are turning good.

41:40
 And the good group are saying "some of us are righteous and some are less than righteous." Again, they're dividing again.

41:51
 You know, it's just division within division to me. And we're following various paths.

42:01
 And they are so aware. They know that they can never run away from God on Earth or anywhere else. You cannot get away from God. God is there. God is with you, everywhere you are.

42:13
 Through goodness in life, through adversity in life, God is always with us.

42:19
 And the angels that are assigned to us will always remain with us. And these jinns are very well aware of that.

42:29
 [72:13] "When we heard the guidance, we believed therein. Anyone who believes in his Lord will never fear any injustice, nor any affliction.

42:37
 This is such a reassurance to me again and again, you know.

42:45

We have the guidance here and we believe in it. And what a wonderful feeling it is. And I can feel what these jinns are saying. They're spirit, you know.

42:57

How wonderful they feel. You know, they're so happy about what's happened to them. And they are so sure about it.

43:06

And they're saying anyone who believes in his Lord will never fear any injustice.

43:13

So many times through life, recently for me for instance, a few things may happen that are a few headaches. And as believers we think "okay, wait a minute. What did I do wrong?"

43:26

I've had this cold for two weeks, you know. And I've taken a whole thing of penicillin or whatever. And it's still staying in my nose. And it's driving me wild, you know.

43:37

And I know what was the problem. And as I let go of thinking so much about that particular problem, which is with my education.

43:45

Some problems happened with the committee and this and that. And I was so preoccupied with it. And I would cry about it.

43:51

And I was like "oh, my life is ruined now." And you think like "this is it. This is it."

43:56

Just because this process in my life has been delayed for a period of time, which is unknown to me,

44:03

My life is ruined. My future is ruined. I will not have any career. I'll just, you know, be at the hospital doing what I'm doing. And this injustice.

44:12

The lady drops out of my committee just like that. And that was an injustice to me, you know. And I was fearing that.

44:22

You know, I fell into it for a while. And my cold came on. And I was like "boom, this is it. This is what's happened to me."

44:28

And two weeks later, three weeks later, I feel like I've let go of it. And I feel like "okay, whatever happens, happens. I'm not gonna worry about it."

44:37

And here I'm trying to be a submitter again and saying that I will not fear any injustice nor any afflictions.

44:45

And God willing, things will clear away for me. And for the believers, this is the chance that we have. This is the privilege, you know.

44:52

And we can... God's promise is always true. And He never fails us.

44:58

So, again, I can put my trust into this Aya here. And, again, it will give me strength. Thank God.

45:12

Aya 14, [72:14] "Among us are the submitters, and among us are the compromisers." As for those who submitted, they are on the right path.

45:23

This is, again, a factual type of a thing. Staring at us here, you submit and you're on the right path. Compromising will not get us anywhere.

45:33

And, as it says in ayah 15, [72:15] As for the compromisers, they will be fuel for Gehenna.

45:39

A person, a lay person out on the street, if they come and read this book, I mean, it just informs you about the past, the present of what you're supposed to do, and what's gonna happen to your future.

45:51

And, thank God for me, it was very clear. And the more I read it, the more it gives me guidance and strength to follow Islam, to follow God.

46:01

And it basically tells us, here's a jinn telling the story of, you know, "some of us are true submitters and some of us are compromisers, but we know what's gonna happen to the compromisers."

46:11

They're gonna be fuel for Gehenna. And who wants to be....?

46:16

Apamea: Water gives life. Water gives life.

46:22

During the month of Ramadan, we were basically thirsty rather than hungry, and I noticed that.

46:30

So water is, again, the source of life here. We will be tested, definitely. And we know that.

46:39

Throughout the chapters, we are, it's mentioned to us several times, testing and even little quizzes as one of the brothers mentioned.

46:50

And if we disregard, [72:17]As for him who disregards the message of his Lord, He will direct him to ever increasing retribution.

47:01

And that is so clear. And who wants that retribution? I mean, if we have a bad day here, a headache, this and that, we think it's horrible.

47:13

And just to imagine that it's magnified so much for eternity, the retribution,

47:23

I don't know, or a nightmare. You get up in the morning and you think about the nightmare that you have and the problems that you felt in your night.

47:32

And just imagine that you would be living in that nightmare for eternity. That's just incredible to me.

47:38

And I don't want to be there. And I don't know how some people are so deaf and blind, knowingly.

47:45

This...You put them, this in front of them and they don't believe in it. They think it's just a myth. Or they can't think that far. Like Naghmeh was telling you about her friends.

47:53

They can't think that far as to Heaven and Hell. And some Muslims call it, some people like in Iran, you know, they call themselves Muslims, but they say "oh, we don't believe in Heaven or Hell."

48:03

So, you don't know. But you tell them "this is the Quran." And they were raised with the Quran.

48:10

But then again say "I don't know. I don't believe in that stuff. This is the life. This is it. This is the real thing."

48:17

And they try to hold on to what they've got. But even at the hospital, I see this every day.

48:23

You see a doctor, a patient there who was a doctor, and they're ill.

48:30

What happened to all that dignity? What happened to all that money? Sometimes you don't see one single parent or family member there, one single friend.

48:38

They're just laying there without any food. They can't eat. Tubes are just, you know, all over the place. And what happened to their diet?

48:47

You know, it's not important. And I come home and I tell Naghmeh "your health is the most important thing."

48:52

You know, being in Islam is so good. And what I tell my patients every day is "thank God this, thank God that." And God willed he'll get out, and the patient will get out today. And this and that.

49:04

And that, amazingly enough, that gives a lot of people a lot of strength. And sometimes I see tears coming down their eyes.

49:12

Because all of a sudden they're reminded of God again. And that's the whole story.

49:17

Just believe in God, and He'll promise all these wonderful things. And you submit, and you're guided to the right path. And hey, everything's gonna work out.

49:25

Your health is gonna be there. Your happiness is gonna be there. Even you're gonna have a wonderful family and children. You're gonna have a wonderful job.

49:30

You're not gonna have any headaches. You're not gonna have any colds that will last for two or three weeks. And you don't have to take any pills twice a day. And this is a promise to us.

49:41

And finally, Aya 18. [72:18] The places of worship belong to GOD; do not call on anyone else beside GOD.

49:47

Any other other name. This is very clear. Extremely clear.

49:52

As we mentioned to the Mohammedans, we know. I've never been to the mosque, and I don't wanna claim that I have been. But this is what I've heard.

"Keep your Chasity" explained.

50:00

The name of Muhammad is mentioned besides God. And if they claim that they read this Quran and they know it so well, they should look at this Aya. And this is a sign for us.

50:13

Sometimes when we encounter people who worship prophet Muhammad, we can just refer them to this Aya.

50:21

[72:18] The places of worship belong to GOD; do not call on anyone else beside GOD. And thank God that this is what we know.

50:30

The messenger: I'm gonna come back and explain a little more about this. It's really very clear.

50:38

The location of this Sura is here, this mosque. I'm gonna talk to you about that. But before this, I see Amir is falling asleep.

50:45

He's joining the sleeping corner there. I'm gonna give him a quiz. Because the subject I'm gonna talk about 10 more minutes. Last time, we didn't talk about it enough. Amir asked me a question. I knew it was coming.

50:56

He said "what does it mean to keep your chastity?" I knew it was coming. So, I answered him. I wonder if he remembers.

51:04

I have the quiz for you, Amir. What does keep your chastity mean?

51:16

The messenger: Well, listen. Your dad doesn't know. I don't care. Your dad is old enough. I don't care if he knows or not. I wonder if you know.

51:29

Sometimes the older people don't know, Amir. See, this is... You know, Amir reminds me of a joke when...

51:37

This shows the generation gaps. How much more educated the new generations are.

51:43

This father, his son reads, is coming close to the age of maturity. So,

51:50

he puts his hand on the shoulder of his son and says "son, I think it is time now to talk about the facts of life."

51:57

And the boy said "okay dad, what do you wanna know?" So, Amir is saying the same thing.

52:03

Okay, Amir, what is keep your chastity? I thought so.

52:12

Try to remember. You can give me any idea. Do you have any idea about it?

52:18

This is why I wanna talk about it for ten more minutes. Ok. I'm gonna repeat it and I'm gonna ask you again next week, okay?

52:24

So, you better remember. Keep your chastity means you keep yourself for your wife.

52:30

You're gonna grow up someday and have a wife and children, right?

52:36

And you want that person to be very special. So, you want to keep yourself for your wife.

52:41

You're not gonna have any relationship with any other girl until you meet the girl that you're going to marry that is your wife.

52:49

This is what keep your chastity means. Because in this country, we live in a strange environment here.

52:57

As soon as the children hit five, they start talking about boyfriends and girlfriends.

53:03

Now, they can do this, but they will pay a lot. It's too expensive for them.

53:08

Because when they do this, they're breaking God's law. And they have to pay for it when they grow up. They have a miserable life with their spouses.

53:17

So, this means the boy keeps himself until he doesn't go for all this dating business and boyfriend business and girlfriend business.

53:25

You have to resist that temptation. You're gonna be under a lot of temptation in the next years or so, even maybe now.

53:33

Do you have girls who like you at school? No?

53:41

Do you like any girls at school? See, this is what I mean. See, this is what I mean. You have to resist the temptation to reach for those girls and touch them.

53:52

See, because you want to keep yourself for the one that will share your life forever.

53:58

And if you do this, which is very difficult, it's not easy. You do this, God will guarantee you a perfect life.

54:07

Our girls also have to keep themselves until they have the man that will be their husband.

54:17

See, I know Poopak is listening. Don't be embarrassed. We all grow up and we get married.

54:24

But because we want you to be happy, you have to forget about the traditions of this country.

54:30

They pay a high price for this. They call for the temptation, the boyfriend and the girlfriend and all this business.

54:37

And they think they're having fun, but then they pay dearly for it. When they grow up, we have to pay for all breaking God's law. Every time we break God's law, we have to pay for it.

54:48

So, if you want to be happy, and we want you to be happy, you must resist the temptations in this country.

54:55

And you must have your own... God's law rules your life. Because, see, verse 13 here says when... No, not 13.

55:05

Yes, 13. [72:13] "When we heard the guidance, we believed therein. Anyone who believes in his Lord will never fear any injustice, nor any affliction.

55:17

So, if you want a life that doesn't have any fear, no affliction, no misery, you must be very strong.

55:25

You must resist all temptation to fall for the things that happen around us here and in other places.

55:33

[72:13] "When we heard the guidance, we believed therein... This is the guidance from God, and he's telling us "you must keep yourself with your spouse."

55:41

If you're a boy, you must keep yourself, you don't touch another girl until the person will be your wife forever.

55:48

And if you're a girl, you keep yourself untouched until the person that will be your husband.

55:55

Then, you'll have a very happy life. You'll be proud of yourself. If you fall for the temptation, you're gonna be ashamed of yourself for the rest of your life, if you didn't keep yourself with the one that married you.

56:08

So, this is what verse 13 means. And God wants you to learn this. Last time, remember the commandment, "you must keep your chastity." This is what it means.

56:18

It was verse 29 of the last Sura. And now in verse 13, God is telling us, [72:13] "When we heard the guidance, we believed therein.

56:26

The guidance is "you don't follow the traditions other than God's law."

56:32

You're gonna be in school. You're gonna hear about boyfriends and girlfriends, and they will come and invite you.

56:38

They will want to touch you and all these things. But you must tell them "I follow God's law and I cannot go along with these traditions. I have my own traditions."

56:49

And if you're strong, then you're guaranteed a perfectly happy life. And pass it on to all your Muslim friends.

56:57

If you really care for them and you want them to be happy, this is what you pass on to them. Okay?

Jinns visited the Masjid. Quranic Events past and future.

57:04

These are the 10 minutes. I'm gonna ask Amir next week and maybe ask the two of you. So, you remember that.

57:10

No, no, no, no. I don't wanna scare you away. Don't worry. I know you'll never forget because you want to be happy.

57:17

Okay, Sura 72 teaches us about the jinns.

57:23

And it has to do with our mosque here because of the following reasons.

57:29

You see, verse 4 tells us that these jinns were companions. I want to correct something that Apamea may have missed, again.

57:35

Remember, jinns are free companions of humans.

57:42

Our companions are not called jinns yet. They will be when we die and they are free, they become jinns.

57:49

So, the jinns that heard this Quran were passing by on 6th street and they decided to walk into Masjid Tucson.

57:54

And they heard the Quran. And they are jinns who were companions of Christians, believing that God had a mother, Mary, and a son, Jesus, and so on.

58:07

Because verse 4 says, [72:4] "It is the foolish among us who used to utter such nonsense about GOD.

58:12

The nonsense is in verse 3. [72:3] "The Most High is our only Lord. He never had a mate, nor a son.

58:18

They are surprised. They walked in here. And they heard the Quran and they heard about the mathematical coding.

58:24

And they noticed the truth. And they believed. And they now realized that this nonsense that God has a mate and a son is really nonsense.

58:39

And only the foolish will believe that. So, this Sura has to do with us.

58:47

And... [72:1] Say, "I was inspired that a group of jinns listened, then said, 'We have heard a wonderful Quran.*

58:58

You can say here, "Say (O, Rashad)..." if you wanna be accurate. I can't afford to be subtle about it anymore.

59:07

The Quran did not exist during the Prophet Muhammad's time. Did you know that?

59:14

Therefore, this does not apply to that time. The Prophet lived until he was 40 without any Quran, not one letter.

59:23

And when he was 55, he had only about one third of the Quran.

59:29

Quran was still being revealed until a few months, maybe weeks, before he died.

59:36

The Quran was not in the format that God intended for the world. It was written in the chronological sequence.

59:43

This Sura has the root name "Rashada" four times, more than any other Sura.

59:48

And if you add the gematrical value of Rashad Khalifa to the number of verses... the number of Sura, and the number of verses, you have a multiple of 19.

59:57

Rashad (رشاد) is 505, Khalifa (خليفة) is 725, the number of Sura is 72, and the number of verses is 28.

1:00:04
 So, we have a lot of mathematical confirmation that this Sura is about us, for this mosque here.

1:00:11
 That the jinns wandered in here, and they are here with us now, listening. They are very regular as far as the Quranic studies are concerned.

1:00:22
 I don't wanna spook out anybody, but they love it. This is why you read that among us are the Muslims, and among us are the compromisers.

Verse 14.
 1:00:38
 And Muslims means total submitters to what God says. There is no compromising.

1:00:49
 The messenger: Yes.

1:00:58
 No, it was applicable. It was information about jinns. It was a lot of knowledge. But it will not apply to a place in Egypt, for example, or in Iran, or in Pakistan.

1:01:08
 It was the jinns who are walking around there, will not believe that God has a mate and a son, generally.

1:01:18
 The Quran is valid for all times, but there are certain things, for example,... For example, Rabbi Judah the pious is mentioned in 46:10.

1:01:28
 Rabbi Judah was in the 11th century. The Quran came down in the 7th century.

1:01:35
 So, there were 4 centuries before Rabbi Judah. There is a Sura about the smoke, which hasn't happened yet.

1:01:42
 But it's still valid, and it is consistent with the punishments that came to the previous generations.

1:01:49
 Gog and Magog has not reappeared yet.

1:01:55
 The splitting of the moon happened only in 1969. So, all these things are still valid and there is a lot of information in all of them.

1:02:05
 But this Sura now, this Sura is about Masjid Tucson.

1:02:36
 These are the jinns who wandered in here, they know the truth. There are jinns who are lost and ignorant and just as Christians, as any Christian, or Jewish as any Jew, or Atheists as any Atheist.

1:02:49
 The messenger: This is a group of jinns who came in here and they believed. A woman: These are jinns who not converted...

1:02:55
 The messenger: No, they were converted afterwards. Yes. So, the jinns do change afterwards.

Jinns giving more time to explore. Jinns explained in detail.

1:03:02
 I was wondering about this for a while. Because the jinns are so strong with Satan, initially. They need... God gave them a longer period of time and more chance of seeing the universe.

1:03:18
 See, this whole creation is for the humans and the jinns to redeem themselves.

1:03:25
 We were kind of marginal, but the jinns were still firmly with Satan.

1:03:32
 So, their opinion is stronger on the side of Satan. And God is giving them more of a chance.

1:03:40
 Because on the Day of Judgment, the humans and the jinns who go to Hell will not have any excuse.

1:03:47
 The jinns will not say "if you gave us enough time we would have abandoned our strong alliance with Satan."

1:03:52
 They cannot say that. A woman: So what is... when you say they read the Quran when they... Because it is also in the Quran. I understand this that they read the Quran...

1:04:08
 The messenger: No, this is a result of them reading the Quran.

1:04:13
 The messenger: They knew... in other words, they reached the conclusion that is... A woman: Oh, they reached the conclusion? The messenger: Yes.

1:04:19
 A woman: Ok. So, it's not going to happen... more like they now... The messenger: They knew as a result of reading the Quran because the first verse says

1:04:29
 [72:1] "...a group of jinns listened, then said, 'We have heard a wonderful Quran.*"

1:04:34
 Now, when they heard the wonderful Quran, they learned a lot. Those were ignorant jinns walking around believing in Christianity, the trinity.

1:04:44
 They were companions of Christians. And when they were freed, they had that belief in them.

1:04:51
 Then, they found Masjid Tucson. They walked there and they discovered the Quran. They discovered there is a miracle on the wall.

1:04:59

And they have more capabilities to understand the code easier than us.

1:05:07

So, these are converted jinns. I mean, it's really very clear. [72:1] Say, "I was inspired that a group of jinns listened, then said, 'We have heard a wonderful Quran.*

1:05:18

We are a generation that when we were born, the Quran was in existence.

1:05:24

During the Prophet Muhammad's time, people were born and there was no Quran.

1:05:29

[72:2] "It guides to righteousness, and we have believed in it; So, they changed.

1:05:37

[72:2]we will never set up any idols besides our Lord. Now, notice the things that we say here in this mosque and they repeat.

1:05:43

Like in verse 13, this is something we always say at this mosque and they believe it now.

1:05:49

They are simply repeating what we say here. [72:13] ".....Anyone who believes in his Lord will never fear any injustice, nor any affliction.

1:05:57

They actually go back to their people and they say this. And they heard it here.

1:06:09

Some of these verses also are to teach us some characteristics of the jinns. [72:11] "Some of us are righteous, and some are less than righteous;

1:06:17

Because they go and talk to their Christian jinns and they tell them "oh, this is nonsense. The Lord Jesus will save us. He died for our sins."

1:06:25

Same things that you go through. And they do talk some of them into coming with them back here and say "come and listen."

1:06:36

So, some are guided and some are not. "We used to listen to the sky," it tells us what kind of power they have also.

1:06:52

It's a very confusing subject so don't be...

1:07:09

No, no, no, they're talking about their kind. You think they are bad humans?

1:07:16

Are they bad human beings? No? No? Do you think they are bad human beings?

1:07:24

Ok, so if you talk about the human race, if you talk about the human race, you can say "some of us are righteous and some are less than righteous."

1:07:31

They're talking about the jinn race. They're talking about the jinn beings, not talking about themselves.

1:07:37

Ok, is that clear now? Now, 12, [72:12] "We knew full well that we can never run away from GOD....

1:07:43

As a result of studying the Quran, they know now that they will be gathered for the Day of Judgment.

1:07:50

Yes, the ones... Yes.

1:08:00

Right. You can imagine yourself talking about the human race after reading the Quran. It's exactly the same.

1:08:12

And you will find the same thing is applicable. What God is teaching us here is that the jinns are like us.

1:08:17

Some of them are Muslims, some are atheists, some are Jewish and so on. Beth?

1:08:27

Those are future jinns. Those are future jinns. They are trapped in our body until we die.

1:08:36

They are companions. They are companions.

1:08:42

They are not part of your soul. Your soul has an independent person called "Beth Khalifa." And the companion is an independent person called "Beth Khalifa."

1:08:52

That... it's freed also. When you die, then the other Beth Khalifa becomes a jinn.

1:08:57

And stays around here about for 600 or 700 more years.

1:09:02

In your case, 300 years. Beth: So, we don't know what they're doing. Is it part of us...?

1:09:09

The messenger: Oh, you mean after we die? Beth: Yeah. The messenger: Yeah. They're just floating around. Beth: They're not part of us?

1:09:15

The messenger: No, no. They're not part of us anymore. Now, they are part of us. They go wherever you go and...

1:09:23

Beth, this is very important. The companion is your number... is the major witness for or against us on the Day of Judgment

1:09:34

because this is a companion that's with you from birth to death, always, wherever you go. And she knows everything about you.

1:09:44
 So, she makes a perfect witness. She's an eye witness, from inside out. I mean, what more perfect witness than that.

1:09:53
 And the Sura 50 explains that. Sura 50. Parivash: Can we kill them? Can they watch us and we kill the (unintelligible) or something like that? Sometimes, can we kill? Can we...

1:10:05
 The messenger: Your guards will not allow them to do that. Now, your companion is inside of you. you can kill the...

1:10:12
 Like the example I use is you're watching TV and the Noon prayer comes.

1:10:17
 And it's your companion that's telling you "wait until the news is over." Then, you will miss the Prayer.

1:10:23
 A woman: You know from examples like this, let's say I'm not (unintelligible), and it is almost like my body is just (unintelligible).

1:10:33
 The messenger: All the evil. Yes, yes, yes, exactly, exactly, you're right, yes.

1:10:46
 No, no, no. Ok. Right. Right, you're continuously changing them hopefully. Or you're totally submitting to them.

1:10:56
 Your jinn is Satan's representative in your body, Satan's representative.

1:11:02
 So, she is continuously telling you not to worship God alone, to worship (unintelligible), and so on.

1:11:11
 So, this is what she's doing, to stop you from the five Prayers, to discourage you from fasting in the month of Ramadan,

1:11:18
 to tell you to follow the social system, have a boyfriend or a girlfriend,

1:11:23
 like they do in this country and so on. She is always telling you to do the bad things. Now, you are supposed to represent God's point of view, worship God alone, develop the soul, grow,

1:11:35
 do the five Prayers, fast the month of Ramadan, follow the moral system that God dictates,

1:11:43
 There is continuous debate in your head between you and your Satan representative.

1:11:49
 Now, when this body dies, then both souls are freed, and we go to the world of souls and the jinn stays around for a few hundred more years.

1:12:00
 So this, the word "jinn" implies they are free companions.

1:12:25
 A woman: Is the number of the humans equal to the number of jinns who are virgins that get assigned to humans?

1:12:34
 The messenger: Yes, the number of human and number of jinns are equal, but not at this time on Earth. There are jinns from the past generations.

1:12:51
 roughly yes, roughly equal.

Ranks in Heaven.

1:13:10
 No, no, no, not necessarily.

1:13:23
 Yes, higher than some angels. Yes. The angels will be distributed in the Heaven at all levels,

1:13:30
 just like...see, when we go back, we need to go back, rejoin God's Kingdom in the way we were before, before the feud happened, before the great feud.

1:13:41
 But we can exceed where we were, depending on how much we develop our soul.

1:13:48
 See, we were in Heaven, and we were in a different rank. I mean, in a particular specific rank.

1:13:56
 And then we committed that crime, so we fell here. Now, our job is to redeem ourselves.

1:14:02
 And we can redeem ourselves to the same rank, or to higher, or lower, depending on how hard we work, or how much we develop our soul.

1:14:13
 So, when we go back, we're gonna fit back into God's Kingdom among the angels. We just go back to the same situation as before the feud, only with a new rank, depending on what we did.

1:14:26
 Does that clarify this? So, some of the angels will be lower than us, if we develop ourselves sufficiently.

1:14:38
 If you develop yourself to the max, you can be at the highest level, with the highest angels, archangels.

1:15:01
 Yes, it's possible to be in a different stage, but this will affect the weakness of the human.

1:15:11
 Apamea: Dr. Khalifa, what is this in the first Aya, it is "I was inspired?"

1:15:27

The messenger: See, the "say" is to a messenger. [72:1]"I was inspired that a group of jinns listened,...

1:15:35

Actually, I find that I said this before I made the connection between the Sura and myself.

1:15:42

I said this in the past. As long as 10 years ago, when we read this Sura, I said that the jinns come in here and they listen to us and they make this connection.

1:15:56

Edip: Also, during the time of Prophet Muhammad, Muhammad has been addressed that say "I was inspired."

1:16:06

Edip: Because Prophet Muhammad is the first person that received these verses from God, but this now happens a second time.

1:16:17

Edip: And there are many prophecies here, but we cannot say that Prophet Muhammad has not been addressed.

1:16:29

The messenger: We cannot say that he has either. Most probably, he was not, because there was no Quran.

1:16:35

Edip: But Quran, now we do Quranic study. If we recite a part of Quran, we can say this is Quran. For verses of Quran, we can say Quran.

1:16:47

They didn't hear all the Quran, but part of the Quran, we can say Quran.

1:16:53

(72:1) سَمِعْنَا قُرْءَانًا عَجَبًا or some verses from Quran. The messenger: Ok. (unintelligible).

1:17:10

It's very possible. No, I didn't hear the whole question.

1:17:15

I didn't hear the whole question. They don't know the future.

1:17:32

They'll be at the same stage as the people around the Prophet. Same stage as the Prophet and the people around him.

1:17:43

Yes. No. Okay.

1:18:04

This is demon possession. Some of them are mischievous.

1:18:14

Yes. This is a rare thing. Has anybody here seen a demon possessed person?

1:18:23

See, it's rare. Only if you want to, see the movie "Exorcist." It's a great exaggeration based on a true story.

1:18:34

Ok. Back to Apamea. Only ten minutes.

1:18:43

Yeah.

1:19:20

The messenger: No, this is, the place of worship is in the act of worship. When you do the prayer, or the fasting, or the Hajj must be devoted to God alone.

1:19:31

In the Khutba and in the Quranic study, in the Quran and so on, the Quran itself says "mention in connection with the scripture, Abraham, Mary, Pharaoh." The Quran itself says that. So,...

1:19:54

No, I would, since it is places of worship.

1:20:15

See, if you read Sura 19, it tells you (19:16) وَإِذْ نُكَتِبَ ذِكْرَكَ فِي الْمَقَاتِلِ. Mentioned in the book, or any connection with it.

1:20:22

It mentions Mary, or Jesus, or Pharaoh, and so on, and Abraham, those names.

1:20:30

So, when you study the Quran, or you're learning from history, you have to mention these names.

1:20:37

Only because God said so. But when it comes to the act of worship, you must devote it to God completely.

1:20:48

Yes. Edip: Rashad, you mean mentioning, there are difference between two mentioning.

1:20:58

Edip: For example, when you praise God, you are praising God, b. t if you mention somebody else, he's mentioning his worship.

1:21:07

Edip: Allah avoid us this kind of mentioning.

1:21:15

Edip: For example, in Islam, you praise God, and you call to God, and you add somebody's name,

1:21:23

for example, Muhammad or Ali's name, and also you are calling for prayer.

1:21:28

Prayer is a connection with God, a contact with God. Edip: And here, in this situation, when you mention other names, this is a position of worship.

1:21:44

The messenger: It must be devoted to God alone, the act of worship. But here we are studying, like now, for example, we are studying the Quran.

1:21:52

The Quran said, tells you to mention these names to learn from the history.

1:21:59

So, mentioning it then in this context is okay. I see your point, Edip.

1:22:09

I wanna make it as difficult as possible, because no matter what understanding or interpretation you may reach, you'll be taking a chance if you mention anybody else's name in the acts of worship.

1:22:26

Like, we do the prayer in the desert sometimes, a lot. Driving, we go in the desert, we go to the picnic area, and what this means in the picnic area, we should not mention Sharif or Mehdi?

1:22:37

A woman: I do not see the motivation for you to avoid this issue. There are people that really call on you to be a follower of the Prophet.

1:22:45

A woman: They always have the argument that you are not (unintelligible). So why do you refrain from doing this? Because it is a claim to avoid any possibility at all. It just seems to me like it is an enemy of the religion here.

1:23:00

The messenger: But the key words here are place of worship, or position of worship.

1:23:05

So, in the specific practices of worship, like Salat, and fasting, and Zakat, and Hajj,

1:23:13

and sacrificing animals, whatever, this must be devoted to God alone.

1:23:20

When you mention the name of God when an animal, it must be the name of God alone, no other names.

1:23:26

And I wanna go back to, when you do the prayer in the picnic area, when you stand up for the prayer, you mention only the name of God in the prayer.

1:23:35

As soon as you say Al-Salaamu 'Alaykum, you say "congratulations, Douglas." So, you mention Douglas. But it is not part of the worship.

1:23:44

So, I want to make this very strict, but it goes without saying that when you are outside of the

1:23:50

the acts of worship, you can... the Quran itself says "mention those names to learn from their history."

God teacher of the Quran.

1:24:37

Okay, but you see, Rami, you have a very good point here, but remember that the teacher of Quran is God.

1:24:45

And for the sincere believers, God will see to it that they will reach the right conclusion, just like we are reaching it right now.

1:24:54

I'm not... they don't need me. I'm not the one who's teaching the Quran. God is teaching all of us right now.

1:25:01

Rami: But we are having some kind of contradiction...

1:25:13

The messenger: Well listen, if God guides them to mention no other name in the mosque under any circumstances,

1:25:20

we may be able to build a mosque right here in this area where there is a prayer hall where there is no other name is mentioned.

1:25:26

And our Quranic study will be in a place where we have chairs and a movie screen or a big TV or something.

1:25:33

That will be for the Quranic study. And when we go to the prayer hall, no other name will be mentioned in that hall.

1:25:38

If they do that, more power to them. They'll be wonderful. We may be able to do this some day, do it some day. But this is where the word compromisers comes in the picture.

1:25:48

As you see, it's only four verses before that.

1:25:55

If the message reaches, no. Remember that God is the teacher of the Quran to every generation.

1:26:02

And for the sincere believers, God sees to it that they reach the correct conclusions.

1:26:08

The insincere will always be sent astray, no matter how clear you can be.

1:26:14

So, this is a law in verse 18 that we can never compromise it.

1:26:27

Now, remember there is a law in the Quran that says if you are forced by circumstance

1:26:32

without being malicious or deliberate, you are committing no errors. So right now, our circumstances dictate on us that we use this same hall for prayer and for Quranic study and for potlucks and so on.

1:26:43

But the day will come when we're rich enough, IN SHAA ALLAH, we will have a complex

1:26:49

on this block where there is a prayer hall. But nothing goes on in it except prayer and only the name of God.

Sermons "khutba" not part of the contact prayer.

1:27:01
 Pardon? Yes.
 1:27:07
 Yes. Yeah, but the Khutba follows the instructions of the Quran. (19:16) وَأَذْكُرْ فِي الْكِتَابِ إِبْرَاهِيمَ (19:41) وَأَذْكُرْ فِي الْكِتَابِ مَرْيَمَ
 1:27:15
 and use their history as lessons. This is Sura 28. Cause we're following the Quran in the Khutba.
 1:27:21
 Now the Khutba, the people are sitting listening. This is not part of the Contact Prayer.
 1:27:28
 Yes.
 1:28:08
 Yes, but that word has many meanings depending on the context.
 1:28:17
 When you say the name of Muhammad in the AZAN, you are worshipping Muhammad.
 1:28:23
 So, we can use "mention" or "worship" interchangeably in this situation.
 1:28:28
 When you mention Muhammad, 'ALE (آل) Muhammad, Ibrahim, 'ALE (آل) Ibrahim in the contact prayer, you're worshipping them.
 1:28:37
 The messenger: So, there is no difference. Dr. Sabahi: So, basically, I can agree....
 1:28:50
 The messenger: Do you have the Farsi translation there?
 1:29:01
 The messenger: I wanna go to the extreme and make it as difficult as possible to mention any other name under any circumstances in the mosque.
 1:29:09
 The messenger: But If I find it necessary, then this will fall under the Quranic law that if we are forced by circumstance, without being deliberate or malicious, we're not committing a mistake.
 1:29:20
 Edip: The word ذَكَرَ yes, has many different meanings in Quran. Edip: Not so many different nuances.
 1:29:28
 For example, in chapter 3:61, أَتَيْنَاهُمُ وَأُتِينَاهُمْ (3:61) أَتَيْنَاهُمُ وَأُتِينَاهُمْ
 1:29:39
 Yes, ذَكَرَ "mention" than "call", not "worship of." The messenger: Invite. Edip: Invite.
 1:29:45
 Edip: Allah says to Muhammad "say to them, let's invite."
 1:29:51
 (3:61) أَتَيْنَاهُمُ وَأُتِينَاهُمْ Allah commands him worship your children, not worship, to call. And there are some different meanings, here.
 1:30:02
 The messenger: It's a word with multiple meanings.
 1:30:20
 Rami: ...To make it tougher to mention other than God during the Contact Prayers to worship Him.
 1:30:32
 Rami: But you are trying to make it more difficult to mention other names in the masjid grounds. We are not talking about disinvolving anything. Masjids, mosques, places of worship, mosques have traditionally been places of discussion.
 1:31:19
 The messenger: No, no, I want a separate hall for the Quranic study and a separate hall for the prayers.
 1:31:26
 I said "ideally." Rami: So, we pray in our living rooms and we pray in our bedrooms. And we pray everywhere. The messenger: Right.
 1:31:37
 The messenger: What are you suggesting, Rami? Rami: Well, the translation as it is in Arabic is very clear. We should not mention other than God according to verses. The messenger: Right.
 1:31:51
 Rami: But the place of worship has nothing to do (unintelligible)
 1:31:58
 The messenger: OK, I wanna put you in the same position I was in. Go ahead and translate it. You see, the statement of the Quran is very....

11 Quran Study From Behrouz 111 Sura 23;60 88 & Sura 16 01 18 199001 23 1990 Morning Before 01 31 19

A man: Wow! The messenger: Right. (unintelligible). A man: Look at this whole place! The messenger: ...millions.
 0:05
 A man: What the hell is wrong? The messenger: It's too late for Russia.
 0:11
 A man: (Unintelligible). The messenger: Oh yeah! The messenger: This is why they have the picture like that! A man: Yeah.
 0:17
 The messenger: Look at that! Yes. Millions of people! A man: Butterflies!
 0:25
 The messenger: Yes. The messenger: This is... I mean, Gorbachev cannot fill all these.
 0:33
 The messenger: 21st century. The messenger: People in Russia are revolting.
 0:39

The messenger: It's the most...

0:44

The messenger: You know, when they have a great number of people like this they always encourage each other. A man: Oh yes.

0:51

A man: No fear. The messenger: Yes.

0:57

The messenger: In fact, they were in Moscow, then they're gonna occupy Moscow. A man: Where do we start? The messenger: 346.

1:18

أَعُوذُ بِاللَّهِ مِنَ الشَّيْطَانِ الرَّجِيمِ بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ Descriptions of the believers

1:25

[23:60] And they give their charities, while their minds know full well. For they will be summoned before their Lord,

1:31

[23:61] These are the ones who hasten to work righteousness; they're always far ahead.

1:36

The Disbelievers Unappreciative [23:62] We never burden any soul beyond its means, and we keep a record that presents the truth. No one will suffer injustice.

1:46

[23:63] Because their minds are oblivious to this, they commit works that do not conform with this; such are their works.

1:54

[23:64] Then, when we afflict their leaders with retribution, they complain.

2:01

[23:65] Do not complain; today, you cannot receive any help. [23:66] My revelations were recited to you, but you turned back on your heels.

2:11

[23:67] You were too arrogant to accept them. You disregarded them. [23:68] Have they not reflected on this scripture? Have they attained something never attained by their ancestors?

2:22

[23:69] Have they failed to recognize their messenger? Is this why they are disregarding him?

2:27

[23:70] Have they decided that he is crazy? Indeed, he has brought the truth to them, but most of them hate the truth.

2:39

[23:71] Indeed, if the truth was to follow their opinions, there would be chaos in the heavens and the earth and everything in them. We have given them their reminder, but they are disregarding their reminder.

2:52

The reminder here is the mathematical code. Because the word Zikr, the word Zikr. This is 438.

3:10

Yeah. It's 453.

3:17

She told them but they under-contained the messenger. She told them that Quran does contain a gift, the mathematical code,

3:26

a distinct code in Quran. The same word is used here.

3:41

72 [23:72] Are you asking them for any wage? Your Lord's wage is far better. He is the best Provider.

3:49

[23:73] Most assuredly, you are inviting them to a straight path. [23:74] It is those who disbelieve in the Hereafter and deviate from their path.

3:58

This is consistent with the criteria in the Quran about those who disbelieve in the Hereafter.

4:03

They follow other than the Quran. They don't like the Quran alone. They follow Hadith and Sunnah. When God Alone is mentioned, their hearts shrink with aversion.

4:13

[23:74] It is those who disbelieve in the Hereafter and deviate from their path. [23:75] Had we showered them with mercy, and relieved their adversities, they would have plunged deeper into their transgression.

4:26

[23:76] Even when we afflicted them with retribution, they never turned to their Lord. They never implored.

4:32

[23:77] When we showered them with the well-deserved retribution, they were shocked.

4:37

[23:78] He is the One who granted you the hearing, the eyesight, and the brains. Rarely are you appreciative.

4:44

[23:79] He is the One who established you on earth, and before Him you will be summoned.

4:50

[23:80] He is the One who controls life and death, and He is the One who alternates the night and day. Do you not understand?

4:58

[23:81] They said what their ancestors said. [23:82] They said, "After we die and turn into dust and bones, we get resurrected?"

5:09

[23:83] "Such promises were given to us and to our parents in the past. These are no more than tales from the past."

5:18

It's funny because in those ignorant generations, they demanded that their ancestors be brought back to life as a demonstration of resurrection.

5:30

This is what even today is happening, Susan Rey. Someday, people will come back to life, Hussein and Ali

5:39
and Fatima. She wants to see them come back to life. A man: She is expecting them. The messenger: Um-hum.

5:47
In fact, maybe in this Sura, ironically, the verse in this Sura which she uses to prove to her

5:59
that Ali, Hussein, Hasan, and Fatima, and others come back to life in this out of the dead.

6:24
It happens in every generation.

6:35
A woman: Can you talk about the retribution showering? Because the English showering is from above. The messenger: Um-hum.

6:46
When we showered them and they deserved retribution, they were shocked. 77.

6:56
They had quite a few problems like in 76. [23:76] Even when we afflicted them with retribution, they never turned to their Lord. They never implored.

7:04
Beirut, Lebanon is being used as an example in the midst of the Arabs. Beirut is the Ka'bah of the Arabs. They go there for fun.

7:13
They are a symbol of civilization, the closest thing to Europe Civilization.

7:20
Even from Iran, they used to go to Lebanon in the time of...

7:25
So, it was the center for all the Arab countries.Rome....

7:30
(unintelligible). over a long period of time.

7:36
(unintelligible) Sodom and Gomorrah. (Unintelligible)

7:42
Because Beirut was the center of evil, like Las Vegas Casinos, gambling, drinking, prostitution, drugs and shows.

7:52
The same shows as Las Vegas (unintelligible) in the whole world.

8:01
A man: Actually, Tehran was... night life. The messenger: Night life? A man: Yeah. The messenger: During the Shah. A man: Yeah.

8:24
The messenger: God loves Iran.

8:37
The messenger: God changes (unintelligible) from disbelievers to believers (unintelligible).

8:43
So, we can see both.

8:55
84, Most Believers are Destined for Hell*

9:00
How many believe in God?

9:05
[23:84] Say, "To whom belongs the earth and everyone on it, if you know?"

9:11
[23:85] They will say, "To GOD." Say, "Why then do you not take heed?"

9:16
See, it's no big deal to God. If you just believe in Him, He doesn't care. But the idea is God's Absolute Authority.

9:25
In fact, and it's not ego either or arrogance. It's the fact. No one can be a god except God.

9:34
No one is qualified to be a god except God. It's just the (unintelligible) truth, fact.

9:46
And I think this demonstration is Satan's (unintelligible).

9:58
such as Satan's dominion. At the same time compare with God's Kingdom who

10:06
(Unintelligible) and Who gives provisions: bananas and pineapples and mangoes and lobsters and fish and beef and lamb and etc, etc.

10:23
The messenger: You're right. This is after the insistence (unintelligible).

10:29
So, there is the (unintelligible).

10:34
Behrouz: Every country feels like they have a cover... (unintelligible). The messenger: The cover is (unintelligible).

10:44
The messenger: Exactly. The messenger: "Hey, what's happening to us?!"

10:50
(unintelligible).

10:56

The messenger: Also, (unintelligible). This is God's work, nobody else. Because there is no reason whatsoever why Czechoslovakia and Romanians didn't do the same thing.

11:07

In fact, Ceaușescu insisted on keeping Romania the same way for 40 years now.

11:14

The messenger: He is probably still beating them up. A man: No. The messenger: It's a long... a long...

11:23

A man: (Unintelligible).

11:29

The messenger: No, (Unintelligible).

11:40

86 [23:86] Say, "Who is the Lord of the seven universes; the Lord of the great dominion?"

11:46

And these people [23:87] ...will say, "GOD." Say, "Why then do you not turn righteous?"

11:51

Because of the idols. 88, Who possesses kingship over all things? [23:88] Say, "who possesses kingship over all things, and He provides support, but needs no support, if you know?"

12:01

[23:89] They will say, "GOD." Say, "Where did you go wrong?" But look at the footnotes 23:84-89. Belief in God is valid only if one recognizes God's qualities

12:13

such as the fact that God controls everything. Believers who do not know God are not truly believers.

12:21

Most believers nullify their belief by idolizing prophets and saints.

12:29

Let's read Al-Fātehah for Soad. Her test is today. She needs to sit here.

12:35

(Unintelligible). Al-Fātehah Bism Allah Arrahman Arraheem (1:1) Al hamdu Lillahi Rabbil 'Alameen (1:2) Arrahman Arraheem (1:3) Maliki Yawm Eddeen (1:4) Eyyaka Na'abudu Wa Eyyaka Nasta'een (1:5) Ehdina Al-Serata Al-Mustaqeem (1:6) Serata Al-Lazeena An'amta 'Alayhim Ghayri Al-Maghdoobi 'Alayhim Wa Laddaalleen (1:7)

12:58

What did you say? What did you say? I mean, (Unintelligible).

13:04

(Unintelligible) you listen you'll be speaking in Arabic words? So, we're in Tucson, in Arizona desert. A woman: 6:30 in the morning.

13:19

A woman: I was like what? What did I do? The messenger: Right. The messenger: Yeah, I was listening to her and "Ehdina Al-Serata Al-Mustaqeem (1:6) Serata Al-Lazeena An'amta 'Alayhim..."

13:32

We have recorded this (unintelligible). A woman: I sent my sister a copy. The messenger: Yeah, good for you.

13:40

A woman: And my... I don't know. I haven't talked to her since then. The messenger: You're putting in the shelf for a couple of years...

13:47

A woman: And my parents are at the same address thought. IN SHAA ALLAH, those hear, too. The messenger: Yeah.

13:52

The messenger: Maybe in 3 or 4 years you're going hear "wow!"

13:57

A woman: And then they will call you on the phone.

14:06

A woman: I wanna send one to my brother, too. The messenger: IN SHAA ALLAH. A woman: IN SHAA ALLAH. The messenger: Ok workers Come on in.

14:16

The messenger: Now, it is.

14:22

The messenger: I saw a horrified look on Behrouz's face. How did you know it was not working? Behrouz: Because I was washing it.

14:28

The messenger: Francisco used it as a pillow.

14:35

The messenger: Head of the sleeping section.

14:43

[16:66] ...From the midst of digested food and blood, you get pure milk, delicious for the drinkers.

14:49

The messenger: If anyone says he doesn't like milk, I will give him rough time.

15:00

The messenger: You didn't say it, right? You drink milk? We want you to grow tall.

15:09

We don't want you to be stunted. A man: (Unintelligible).

15:15

The messenger: Yeah, see. Exactly. Wow. This is profound. You actually (unintelligible) it.

15:22

A man: Now, I stick the chocolate milk.... The messenger: Chocolate milk The messenger: As long as milk is there. Chocolate is only a flavor.

15:35

From the midst of a machine. And push button.

15:42

A man: Actually, It's a good chocolate milk. The messenger: Yes.

15:48

The messenger: No, cause most city boys think... and girls think that milk comes from the refrigerator.

15:58

They have no idea what cows are. 67,

Explanation of the Bee.

16:04

More Proofs about God [16:67] And from the fruits of date palms and grapes you produce bad things like intoxicants, and good things as well. This is the sign for people who understand.

16:18

The Bee [16:68] And your Lord inspired the bee: build homes in mountains and trees, and in (the hives) they build for you.

16:29

Now, the bee kingdom; this is the name of the Sura. The bee kingdom is quite elaborate.

16:36

It has a queen that is absolute authority in the bee hive. Only one Larva, the queen, she rules the whole hive. She is the mother of the whole hive.

16:50

And then there are the workers. They are her entourage, always serving her

16:55

cleaning around her, guarding her. You can recognize the queen, you can see her with a lot of activity around her, you know.

17:08

She is very important. She goes around laying eggs. She goes around laying eggs. And then there are the workers

17:14

who supposedly provide food for the new babies. They go out. They are scouts.

17:21

They go look for food. They don't do anything else. They just scout. Then, they come back and they tell the rest of the workers where the food is.

17:29

To go northwest, 62 degrees For 3.3 miles, this is what they tell them.

17:37

So, the workers, sure enough, they rush 62 degrees, northwest, 3.3 miles.

17:45

Sometimes they mistake 3.2 miles, they find nothing. They "hey, they said 3.3 miles." So, they go 0.1 more mile and sure enough, there's a cotton field.

17:56

They get their food, the nectar and the pollen. Two things that they get, nectar and pollen.

18:04

The nectar, they absorb in their stomach. Not their stomach, it's a place for... Maybe, it is the stomach.

18:13

I think it is the stomach. They take the nectar in the stomach. And the pollen, this is really something. They have pockets in their legs. Are you aware of this?

18:24

Most of you. They have pockets that are empty in their legs. And they have hairs like my hairs.

18:31

So, they get the pollen in the hairs and then they go like this to fill the pockets.

18:36

If you watch the bees, you can see them filling their pockets. And when the pocket gets really full, like this, you can see something with their legs, real big.

18:46

Then, they go back to the hive and they empty all this. They empty the nectar and the pollen, enter the enzymes in it, make the honey.

18:55

How about that for a design? Now, one bee will produce a tiny amount of honey, right?

19:02

But ten million bees... Again, like the carbon chain with this paper or this one. Billions of tons of paper, from the air.

19:20

A man: The queen dies. The messenger: The queen dies? A man: Yeah. The messenger: Then, the hive dies.

19:27

The messenger: They make false queens. A man: The eggs, they have special oil jelly. And then they make a queen.

19:33

The messenger: Oh, you mean the workers? A man: Yeah, the workers immediately go to work even though there is a (unintelligible) the hive.

19:40

The messenger: There are also false queens if the hive is not attended.

19:45

Sometimes inadvertently a new queen, of course not inadvertently, but this is to produce more hives, another queen will show up.

19:54

No, one of them will run away and they will go on a tree, you can see they are flying around the queen, all of them. And they don't sting.

20:02

You can take them and put around the place. See pictures of people with the beard of bees?

20:10

They are swarming. So, they can take it, get an empty hive, put them there, and they have a new hive.

20:21

And they know their hive, the place. They can go around the whole five-mile radius and they come back to their hive. They recognize it.

20:29

It's quite a...I took a course in bees and bee language.

20:37

Behrouz: They are normally, they put these boxes all together (unintelligible). The messenger: Um-hum.

20:44

The messenger: I know, but they know their own hive. 69.

20:52

[16:69] Then eat from all the fruits, following the design of your Lord, precisely. From their bellies....

20:58

Oh, there are also the males. They just sit around. They do nothing. Just mate with the queen when the time comes.

21:08

Only one of themCause only one of them gets the job. The rest are killed. Kicked out.

21:16

"We don't need you anymore." You can see them all dead around the hive outside after the mating.

21:22

This is the one time that the queen leaves the hive. And then it's a race.

21:28

Because she's very strong. So, the strongest drone, or male, is the one who can catch up with her.

21:37

Then, the rest are killed. Including the king. A man: Including the king? The messenger: Yes. A man: It's not worth it.

21:48

The messenger: It's not worth it, no? 69.

21:56

[16:69] Then eat from all the fruits, following the design of your Lord, precisely. From their bellies comes a drink of different colors, wherein there is healing for the people.

22:08

It was only discovered five or six years ago that honey will heal allergy.

22:15

If you're allergic to local pollen, you have to eat local honey. If something happens, it heals the allergy.

22:25

This was scientifically established. [16:69]This is a proof for people who reflect.

22:32

A man: Wow. It says milk and....what I mean, some milk and honey... milk and honey, they're both very good for mixing together though."

Cause I used to do that. Cause it's a laxative.

22:43

The messenger: Yeah?

22:49

The messenger: I think you've got the wrong correlation there. No, I think when you drank that milk and honey, you went to McDonald's and had a bad hamburger.

22:58

Diarrhea. That's what you think.

23:04

Behrouz: So, I guess it's different with other people. Some people, they get that way when they drink hot milk, or (unintelligible) milk or oatmeal.

23:14

(Unintelligible). It has different effects on different people.

23:21

The messenger: No, you see, he probably had one bad experience, so he generalized. He can do that.

23:29

Behrouz: You know, I'm always happy, but not that happy.

23:35

The messenger: You drink honey and milk almost every morning. A man: Quite often. I know. A man: (unintelligible) The messenger: No, probably not.

23:44

The messenger: Mr. Somalia, what did you say? A man: You don't need honey for that. The messenger: You don't need what? Really? A man: No.

23:53

The messenger: Do you know what the percentage of fat in it? A man: It's a lot of fat. Not bad.

24:03

The messenger: Is it thick or light? The messenger: It's like skim milk, huh?

24:09

A man: (unintelligible).

24:29

Number 70. [16:70] And GOD created you, and He terminates your lives. He lets some of you live to the oldest age, only to find out that there is a limit to the knowledge they can acquire. GOD is Omniscient, Omnipotent.

24:44

[16:71] And GOD has provided for some of you more than others. Those who are given plenty would never give their properties to their subordinates to the extent of making them partners. Would they give up GOD's blessings?

24:58
71 in the new translation. Sorry Jahan, this is an old translation.
Explains why God does not have partners.

25:04
In the new translation, they put a subtitle there. Because God is giving us an example. Why should we set up idols beside him? He said, we will not do that. We will not

25:16
give your servant half of your property or make him a partner to the point that you have to pay allegiance to your servant

25:22
as much as he or she pays allegiance to you. So, why should God give His benefit to His servants, Muhammad or Jesus?

25:33
72. [16:72] And GOD made for you spouses from among yourselves, and produced for you from your spouses children and grandchildren, and provided you with good provisions. Should they believe in falsehood, and turn unappreciative of GOD's blessings?

25:51
See, all these are profound. You can take one of these and look, just reflect on the greatness of it and give you proof of God.

26:00
The spouses, the children, all this is just profound signs.

26:14
You have to reflect on how the embryos are made, half cells. The reproductive cells are exactly half of the regular number of chromosomes.

26:28
So, if you take a cell from anywhere, it has 46 chromosomes. But if you look at the reproductive cells, it has 23.

26:41
Two reproductive cells get together to make a new human being, a new creature, whatever the creature is.

26:48
I mean, who designed that? Why do the cells are cut in half in the reproductive system and they stay that way?

27:01
Subhan Allah. Okay, this is our one page. Go back to sleep, John.

27:09
The messenger: Are you come in earlier like (unintelligible)? A man: He did. Yes.

27:28
The messenger: 226.

27:39
أَعُوذُ بِاللَّهِ مِنَ الشَّيْطَانِ الرَّجِيمِ Bism Allah Arrahman Arraheem

27:51
[11:38] While Noah was building the ark whenever some of his people passed by him, [just like Bill Cosby said,] they laughed at him. He said, "You may be laughing at us, but we are laughing at you, just as you are laughing.

28:09
"How long can you stay on water? Ha ha ha."

28:17
That was a Quranic tale. 39. [11:39] "You will soon find out who will suffer a shameful retribution, and incur an everlasting punishment."

28:27
[11:40] When our judgment came, and the atmosphere boiled over, we said, "Carry on it a pair of each kind, [a male hippo and a female hippo], together with your family, except those who are condemned. Carry with you those who have believed," and there were only a few them.

28:48
'Alaykum Al-Salam. [11:41] He said, "Come on board. In the name of GOD shall be its sailing, and its mooring. My Lord is Forgiver, Most Merciful."

29:00
[11:42] As it sailed with them in waves like hills, Noah called his son, who was isolated: "O my son, join us; do not be with the disbelievers."

29:11
[11:43] He said, "I will take refuge on top of a hill, to protect me from the water." Noah said, "Nothing can protect anyone today from GOD's judgment; only those worthy of His mercy (will be saved)." The waves separated them, and he was among those who drowned.

29:29
[11:44] It was proclaimed: "O earth, swallow your water," and "O sky, cease." The water then subsided; the judgment was carried out. The ark finally rested on the hills of Judea.* It was then proclaimed: "The transgressors have perished."

29:47
[11:45] Noah implored his Lord: "My Lord, my son is a member of my family. Your promise is truthful. And You are the wisest of the wise."

29:56
[11:46] GOD said, "O Noah, he is not of your family. It is unrighteous to ask Me for something you do not know.* I enlighten you, lest you be ignorant."

30:10
[11:46].... It is unrighteous to ask Me for something you do not know..... It's a significant statement.

30:17
We shouldn't say things that we do not know. (unintelligible) about God.

30:24
When God said that (unintelligible) is not infinite physically, we cannot... Satan will push us in that direction.

30:34
We cannot claim for God what He did not state.

30:41
We're talking about the issue of "be and it is", again. God said to Adam and to Jesus "be in the world."

30:50
So... yet, when it comes to Adam, God says "I blew into him from My spirit." When He picked Jesus, He sent Adam....Gabriel to Mary.

31:01
He said "we blew into her from our spirit." But this is "be" and "it is."
31:23
A man: (unintelligible).
31:32
A man: Be and it is A man: Sent for whom, Mary? God sent angel to Mary The messenger: Gabriel
31:45
The messenger: This is the story of Noah just like what is happening now in Eastern Europe and the Soviet Union. God made a decision.
31:53
Then, (unintelligible). Just like people, even a small company, where board and director sit on the board and he says "let's do this. Let's do that."
32:04
God runs the world. There's a government running the whole world, the whole universe.
32:10
God runs every detail in it.
32:22
47. [11:47] Noah said, "My Lord, I seek refuge in You, lest I implore You again for something I do not know. Unless You forgive me, and have mercy on me, I will be with the losers."
32:40
[11:48] It was proclaimed: "O Noah, disembark, with peace and blessings upon you, and upon nations who will descend from your companions. As for the other nations descending from you, we will bless them for awhile, then commit them to painful retribution."
32:57
[11:49] This is news from the past that we reveal to you. You had no knowledge about them—neither you, nor your people—before this. Therefore, be patient. The ultimate victory belongs to the righteous.
"This is God's system" – disbelievers given a chance to see the message.
33:10
So, what does this mean, "be patient"? "The ultimate victory belongs to the righteous."
33:16
For a nice thing, this is God's system. So, just don't be in a hurry to have the disbelievers wiped out.
33:23
Be patient. Cause God has given them a chance to receive the message. Look at it. Make a decision.
33:31
The longer, the longer we are given a chance, the worse the retribution is.
33:37
But this is God's inevitable system. The disbelievers will have to be wiped out.
33:43
Hûd Number 50. [11:50] To 'Âd we sent their brother Hûd. He said, "O my people, worship GOD; you have no other god besides Him. You are inventing."
33:54
[11:51] "O my people, I do not ask you for any wage. My wage comes only from the One who initiated me. Do you not understand?"
34:03
[11:52] "O my people, seek forgiveness from your Lord, then repent to Him. He will then shower you with provisions from the sky, and augment your strength. Do not turn back like the guilty ones."
34:17
[11:53] They said, "O Hûd, you did not show us any proof, and we are not abandoning our gods on account of what you say. In you, we are not believers."
34:32
54, [11:54] "We say that some of our gods have afflicted you with a curse." He said, "I bear witness before GOD, and you bear witness that I disown the idols you have set up—"
34:44
[11:55] "—besides Him. So, give me your collective response, without delay."
34:49
[11:56] "I have put my trust in GOD, my Lord and your Lord. There is not a creature that He does not control. My Lord is on the right path."
34:59
[11:57] "If you turn away, then I have delivered to you what I was sent with. My Lord will substitute other people in your place; and you cannot harm Him in the least. My Lord is in control of all things."
35:13
See these two verses. One of them says "there is not a creature that He does not control."
35:19
And the Arabic is even stronger than that, much stronger. It says (11:56) مَا مِنْ دَابَّةٍ إِلَّا هُوَ آخِذٌ بِنَاصِيَتِهَا
35:27
مَا مِنْ دَابَّةٍ Each fly or ant, mosquito, or lion
35:34
God is fully controlling every single creature on earth. That's why Satan cannot be a god.
35:42
He couldn't even control (unintelligible).
35:50
Huge (unintelligible) (unintelligible). on every creature. Every creature is controlled by God.
35:57
How much the heart pumps, how much blood goes in veins. How big a headache.

"Headaches" inflicted by Satan – controlled by God. If a nuclear explosion used to wipe out disbelievers, God will always save the believers somehow.

36:03

Of course, God doesn't bring the headaches. But even that is decided. God tells Satan "you can go only this far."

36:13

"You can't step into Migraine." "Only a little headache."

36:19

Satan has to abide by that. There's not a creature that is not controlled by God.

36:25

And, 57, 56, 57 says,

36:32

[11:57].... My Lord is in control of all things." So, think of the carpet as a creature.

36:39

He is in control of every atom. Subhan Allah. 58,

36:45

[11:58] When our judgment came, we saved Hūd and those who believed with him, by mercy from us. We saved them from a terrible retribution.

36:53

This, again, is God's system. The believers are saved, whether they are one or one million.

36:59

God always saves the believers first. And then smashes the disbelievers.

37:08

So, even if God is punishing disbelievers by a nuclear explosion, somehow the believers will be protected.

37:19

I think AIDS is a good example because it hits certain people.

37:28

59, [11:59] Such was 'Ād—they disregarded the revelations of their Lord, disobeyed His messengers, and followed the ways of every stubborn transgressor.

37:38

[11:60] Consequently, they incurred condemnation in this world, and on the Day of Resurrection. Indeed, 'Ād rejected their Lord. Indeed, 'Ād, the people of Hūd, have perished.

37:50

Congratulations, you lucky believers. God bless you. Page 228. A man: How long they say Noah's rain was then?

38:02

The messenger: Probably 24 hours. A man: How long did the...? The messenger: 40 day. A man: 40 days? The messengers: 40 days and 40 nights.

38:08

The messenger: I don't know what the big deal is. 40 days and 40 nights. They always say, 3 days and 3 nights.

38:14

40 days and 40 nights. Congratulations.

38:23

A man: This afternoon was good. The messenger: Yes. Healthy sleep.

38:31

A man: Salāmun 'Alaykum 212.

38:37

212.

38:46

So, how was Palm Desert? A woman: Alhamdu Lillah. It was beautiful. The messenger: Yes, I noticed the weather was good. A woman: Yes.

38:54

The messenger: IN SHAA ALLAH. 212.

39:00

Yes, 212.

39:13

A woman: I am not sure about this.

39:26

The messenger: أعوذ بالله من الشَّيْطَانِ الرَّجِيمِ Bism Allah Arrahman Arraheem Heaven and Hell are Eternal

39:31

[10:26] As for the righteous, they have deserved a reward, multiplied manifold. Never will they suffer any deprivation or shame. They will be the dwellers of Paradise; they abide therein forever.

39:47

[10:27] As for those who earned sins, their requital is equivalent to their sin. Humiliation is their lot, and nothing other than GOD can protect them. Their faces will seem like masses of dark night has surrounded them. They will be the dwellers of Hell; they abide therein forever.

"Masses of dark night" – eight universe may not be adorned with stars....when believers visit hell, they would bring light with them.

40:13

Actually, this may not be an allegory, masses of dark night surrounding them.

40:20

Because I think the most important feature here is darkness.

40:25

It's going to be far away from... I don't think the 8th universe will be adorned with stars or sun or moon, nothing.

40:37

It's gonna be darker. When we go visit our relatives and friends, we will provide some light.

40:44
 Idols Disown Their Worshipers 28, [10:28] On the day when we summon them all, we will say to those who worshiped idols, "We have summoned you, together with your idols." We will have them confront each other, and their idols will say to them, "It was not us that you worshipped."

41:07
 I'm gonna stop here because I put it together with other verses in the Quran. They were worshiping nothing.

41:13
 They go to the tombs of saints and prophets. And they ask them for health and wealth and children and so on.

41:21
 But they are really imploring nothing. There's nothing in them.

41:28
 Whatever is left is the bodies of those saints. It becomes like part of the tomb, part of the earth.

41:38
 So, they're imploring nothing. 29. [10:29] "GOD suffices as a witness between us and you. We were completely oblivious of your worshipping us."

41:48
 Number 30. [10:30] That is when each soul will examine everything it had done. They will be returned to GOD, their rightful Lord and Master, while the idols they had fabricated will disown them.

42:01
 [10:31] Say, "Who provides for you from the heaven and the earth? Who controls all the hearing and the eyesight? Who produces the living from the dead, and the dead from the living? Who is in control of all things?" They would say, "GOD." Say, "Why then do you not observe righteousness?"

42:23
 First question in 31 is who provides for you from the heaven and the earth? God is the only provider.

42:28
 Of course, most people are not aware of this.

42:34
 Who controls all the hearing and the eyesight? These are nice things that you enjoy.

42:42
 The hearing and the eyesight. God controls them.

42:48
 Last night, Stephanie and I went for our 27th anniversary.

42:54
 Next to us was sitting an old gentleman. Obviously a lady was taking care of him. Old people/parents, loss of hearing or eyesight.

43:00
 And he was with, maybe, a hearing aid. And his helper was yelling at him all the time. That's right.

43:11
 It was very nice. Very nice sentences but in a very loud voice.

43:18
 It's amazing what happened, when we got help. God gave us the eyesight and God gave us...

43:25
 We take these things, we take for granted. We are walking around. You always hear and see. This guy was very old. Obviously, he must have been in his 80s or 90s.

43:35
 And he lost most of his hearing. God controls that.

43:42
 A woman: God is very merciful, too. Because my parents are both... My mom is about 80 and my dad is 85.

43:48
 And my dad has lost a lot of his hearing. And my mom is losing her eyesight.

43:54
 A woman: So, between the two of them they can take care of each other. The messenger: Yeah. Right. The messenger: 80 is when everything goes weak.

44:01
 A woman:merciful and wonderful help, Mā Shā Allāh. The messenger: Yes. The messenger: Good parents are assisted.

44:08
 And also parents here in (unintelligible). A woman: My mom and my dad (unintelligible).

44:17
 (unintelligible). The messenger: Yeah, but (unintelligible) a picnic. That's why (unintelligible).

44:23
 A woman: Yeah, because she saw me from (unintelligible). Alhamdu Lillah. The messenger: Right.

44:29
 That's why God gave us two eyes.

44:35
 And they are in their 80s. So, your father is 80 and your mother almost 80.

44:44
 And they're not even believers. I mean, not the way we are. They don't know about the Quran, you know.

44:49
 They don't know the details of the miracle of 19. Probably because of you that they are in much better shape than most people.

45:02
 Just for your sake, God will make them good. A woman: (unintelligible).

45:10
The messenger: Yeah, (unintelligible). See, four cats, right? Double, two cats at least.

45:16
You've seen double. Or after the operation. A woman: Well, afterwards... The messenger: You've seen four or two after the operation? A woman: Depends on what I look at.

45:27
The messenger: Before the operation? A woman: Sometimes I was before the operation to be honest. This side was going to the side.

45:34
The messenger: So, you were seeing Mahmoud when you were looking at me?

45:40
A woman: No, but you knew what she was looking at.

45:50
The messenger: That was funny. We had a professor... In fact, he is the same professor who (unintelligible).

46:03
And his eyes were going like this, so you can't tell who he is looking at. And we took advantage of this.

46:08
Because when we used to... For oral examination, he'd have two people. Okay?

46:14
He's asking us oral questions. (unintelligible).

46:20
And whoever knows... We made agreement, whoever knows the question, answer it.

46:25
Because he didn't know...

46:33
We made an agreement with ourselves. When he asks a question, whoever knows the question, answer it.

46:40
And we'll just say that you were looking at him?

46:45
"I was asking you." "But you were looking at him." "Oh, okay." The messenger: Poor guy. I think we probably gave him a complex.

46:52
A woman: It wasn't always obvious when he looked. What I am saying is it was getting worse. And it was putting a lot strain on... and I couldn't... I liked to read, but I had trouble reading.

47:02
A man: And then two people said and answer the same thing. The messenger: That was my next statement.

47:09
The messenger: Then, there comes a situation where he asks a question none of us will know. And the two of us will just sit there and not answer.

47:14
"I'm asking you." "Oh, you're talking to me?" We'll create a scene until he forgets the question.

47:29
That's the true story. Alhamdu Lillah.

47:34
Thank God. (Unintelligible) the hearing and the eyesight. [10:31] Who produces the living from the dead....

47:45
Of course, there is also the literal production of the living from the dead, but also there is the...

47:55
Like when a chick comes out of the egg. When the embryo is dormant, you can consider it dead.

48:03
You caught somebody innocently eating an omelet, you know. So, it gets digested.

48:09
So, it is dead for all practical purposes. But if you leave it alone, you can have a chicken come out of the egg.

48:18
That's the living from the dead. And the dead from the living is because after a while, you eat the chicken.

48:24
The chicken is dead. The messenger: Go ahead. Behrouz: Is the embryo an ALAQ?

48:31
The messenger: ALAQ is a stage of embryo. Behrouz: Stage of embryo. Behrouz: And NOTFA (نطفه) is tiny water... The messenger: Also, a stage of embryo.

48:39
Behrouz: Which one is tiny water? The messenger: Bite-size. The messenger: Tiny water? Behrouz: Uh Huh.

48:45
The messenger: This is even before the... Behrouz: (unintelligible). The messenger: No, not first, first. Behrouz: Tiny water.

48:52
The messenger: A drop... a drop of semen. Behrouz: And then ALAQ is the embryo?

49:00
The messenger: First stage of embryo. The messenger: When the... The messenger: You fertilize the egg, it gets to the side of the fallopian tube.

49:11
Behrouz: And then what was the other one in Arabic? The messenger: NOTFA (نُطْفَة) Behrouz: NOTFA. The messenger: MOZGHA (مُضْغَة), MOZGHA (مُضْغَة) Behrouz: MOZGHA The messenger: Bite-size

49:19

The messenger: Bite-size fetus. The messenger: Some people's bites are bigger than others, but still. The range.
49:33

[10:31]. They would say, "GOD." [but they are disbelievers] Say, "Why then do you not observe righteousness?"
49:40

32, [10:32] Such is GOD, your rightful Lord. What is there after the truth, except falsehood? How could you disregard all this?
49:54

[10:33] Thus does the decree of your Lord determine the fate of those who decide it to be with them. They cannot believe.
50:01

Otherwise if they decide (unintelligible) to God, God blocks them out. They cannot believe.
50:07

They cannot see all this obvious sign.
50:13

Reflect on Your Idols To the disbelievers [10:34] Say, "Can any of your idols initiate creation, then repeat it?" Say, "GOD initiates the creation, then repeats it."
50:31

You know, they have big, huge companies, engineers and decision development departments.
50:36

And they end up making stuff that looks like this stuff.
50:42

They are very proud. They get to make a big deal out of it.
50:48

It doesn't have eyes that can see. Sometimes they forget the whiskers, which are important.
50:56

These whiskers are very important. Did you know that? (unintelligible). Cats and many things
51:03

The messenger: RADAR A man: I don't think it's time for that today.
51:12

A man: I wouldn't want to.... The messenger: The stuffed animals they make and the dolls, they don't have the tongue.
51:22

A woman: They don't recognize their owner and come and sit on their lap. The messenger: Exactly. Mā Shā Allāh.
51:28

Behrouz: What about the genetic (unintelligible)?
51:37

The messenger: Yeah, but they haven't done anything yet. They have been playing around with cells and taking out of them and adding things to them, components, cell components.
51:49

Behrouz: We also saw on TV that they make facial parts.
51:55

But (unintelligible) that was on the front of the dog (unintelligible).
52:09

A woman: White. A man: White? A woman: Yes. A man: I don't know.
52:15

The messenger: They made a plant? A man: Yeah. A man: They first made potato and something else.
52:23

The messenger: 6 or 7 years ago. A man: Yeah. A man: Probably FDA refused to.... The messenger: No, it's not FDA. They cannot breed it.
52:32

The messenger: They come out. They not reproduce. A man: They also made strawberry.
52:40

The messenger: Oh. A man: Yes. The messenger: Now, that's breeding. But genetic engineering, they actually go in the cell and add chromosomes and things. A man: Yeah.
53:00

The messenger: But still, they're using God's material. And then, they make the cell. The messenger: They use pre-existing things that God created. A man: Yeah.
53:10

The messenger: They're learning. They're learning about God's engineering. Subhan Allah. See, what a system.
53:17

See, the cell has Ribosomes and Chromosomes. Every chromosome has, of course, millions of tiny molecules called genes.
53:28

And every gene controls something in us, the size of your nose, the size of your ear. That could be a big gene.
53:41

Actually, your nose is very good looking. Since you like to joke about it, I'll joke about it.
53:46

The color of your hair, you know. What kind of hair you have, straight or curly.
53:53

All these genes decide everything, your height, your weight, the number of your toes.
Article about genetic diseases.
54:01

The messenger: The people with six toes, that could be a gene. A woman: There was just an article in the New York Scientist about a boy who had four different
54:10

A woman: very strange diseases that are genetically transmitted. And he lived long enough, they took parts of his cells and they separated them out and they did all this matching with The messenger: to find out...

54:19

A woman: normal cells to find out what gene it was that was missing. A woman: And that's why they think that he had changed, muscular dystrophy was one of them.

54:26

A woman: And they think they've isolated the gene that causes that so that they can now do genetic tests on a fetus and find out if it's predisposed to that.

54:35

And it was just so beautiful because the article said "he lived long enough for this." And I thought that was his purpose.

54:41

The messenger: Exactly. A woman: You know, that's why he was here. A woman: He was to give them this information. And then he's gone to Heaven.

54:47

He died at like 17, so Mā Shā Allāh. A woman: He's gone to heaven. The messenger: Mā Shā Allāh. A woman: And some advances have probably been made. The messenger: Exactly.

54:55

The messenger: But this is, you know, look at God's design. We're creatures walking on earth because of these.

55:02

They're very tiny. There are things that are all sub-microscopic. I don't see them.

55:09

A man: (unintelligible). The messenger: Exactly. A man: They're trying to find the master gene that tells the genes to be what they are.

55:16

And some of the cells that make up the ears are different from (unintelligible).

55:23

The messenger: It would be funny if you had ears that are tall. A woman: What?

55:29

The messenger: I said.... A man: So, someone is telling all the master gene is controlling them and giving them instructions.

55:38

The messenger: That's a whole different issue. A man: Yes, really. It's amazing. The messenger: Yes. The messenger: This is after deciding the characteristics of the human being in the genes.

55:46

These are in the reproductive cell of the man or the woman. They have the characteristics. They get together like a new creature with new characteristics.

55:57

"He looks like his mom." "No, he looks like his dad."

56:03

The messenger: Yes. It is. It's called a genetic code. That's why they have a whole course that they put in Grad school.

56:12

A man: Is it the same as DNA? The messenger: It is the same, yes. A man: What is the DNA? The messenger: DNA? A man: DNA.

56:20

The messenger: Deoxyribonucleic acid. Deoxyribonucleic acid.

56:26

This is my famous joke, another famous joke. You've probably heard a hundred times.

56:32

It's about the two schools of thought in teaching because there's so much knowledge around,

56:37

Some people say "it starts from the basics and goes gradually to the complex issues." And some people say "let's teach the complex issues and students will grab the basics as they go."

56:47

They are two valid schools of thought, actually. So, Watson, who discovered the DNA, the helical structure, he got a Nobel Prize. He was sitting in the plane one time. This is a true story.

57:01

Well, modified. I'm making a joke. He was sitting next to a guy, and this guy was studying DNA and here's the man who discovered DNA's structure and everything about DNA, the most expert in the whole world about DNA.

57:15

And this student happened to be one of the people who followed the second, who grew up in the second school of thought that teaches the complex and forget the basics. "They'll catch it up."

57:26

So, Watson volunteered. He couldn't resist. He said "well, if you... I know something about this if you need any help or anything."

57:33

He said "well, I know everything about deoxyribonucleic but what is acid?"

57:42

Congratulations.

57:47

The messenger: It's a very basic thing. A woman: (Unintelligible) then said "the only word in there that I know..."

57:53

The messenger: Oh, you followed another school of thought. A woman: Yes, yes I saw the basics and never got any farther.

58:00

The messenger: Ok. Mā Shā Allāh The messenger: Okay, workers.

Behrouz: Alhamdu Lillah, Wa Ash-hadu Alla Elaha Ella Allah Wahdahu La Shareeka Lah.

0:11

Behrouz: The reason for this Khutba is because we had a visitor from San Francisco. And

0:17

she came by to check us out and unfortunately she got shocked because of the way we were treating the God's messenger.

0:26

According from Quran, the verse is 6:8 says

0:33

[6:8] They also said, "If only an angel could come down with him!" Had we sent an angel, the whole matter would have been terminated, and they would not have been respited.

0:47

6 Chapter 6, verse 9 says, [6:9] Had we sent an angel, we would have sent him in the form of a man, and we would have kept them confused.

1:00

43:53 and 6:50 say the same thing, [6:50] Say, "I do not say to you that I possess the treasures of GOD. Nor do I know the future. Nor do I say to you that I am an angel. I simply follow what is revealed to me." Say, "Is the blind the same as the seer? Do you not think?"

1:24

6:158 says, [6:158] Are they waiting for the angels to come to them, or your Lord, or some manifestations of your Lord? The day this happens, no soul will benefit from believing if it did not believe before that. So, "Keep on waiting; we too will wait."

1:49

[2:210] Are they waiting until GOD comes down to them in dense clouds, with the angels? The whole matter will then be terminated, and to GOD everything will be returned.*

2:09

They are waiting for the angels, 16:33, [16:33] They are waiting for the angels to come to them, or until your Lord's judgment comes to pass. Those before them did the same thing. GOD is not the One who wronged them; they are the ones who wronged themselves.

2:27

11:12 [11:12] You may tend to disregard some of that which is revealed to you, and you may be annoyed by it. When they may say, "How come no treasure comes down to him, or an angel?" You are only a warner; GOD controls all things.

2:51

15:7 says, [15:7] "Why do you not bring down the angels, if you are truthful?"

2:57

15:8 says, [15:8] We do not send down the angels except for specific purpose. Otherwise, no one will be respited.

3:05

17:92 says, [17:92] "Or unless we cause masses from the sky to fall on us, as you claimed. Or unless you bring GOD and the angels before our eyes.

3:17

17:95 says [17:95] "If the earth were inhabited by angels, we could have sent down to them from the sky an angel messenger."

3:27

[25:22] The day they see the angels, it will not be good news for the guilty; they will say, "We are irreversibly confused."

3:38

[43:60] If we willed, we could have made you angels colonizing the earth.

3:48

Behrouz: I wish to God that among us there would be anyone that would not believe in God's messenger

3:53

because God's messenger, Alhamdu Lillah, is alive and well among us and we just have to obey.

4:05

And constantly he goes around repeating "you have to believe in God and obey His messenger."

4:11

Right after "God" comes the word of messenger. You have to follow the messenger.

4:16

Excuse me. Obey the messenger.

4:24

Now, a couple of weeks ago, our brother Mohtasham talked about the responsibility, but today,

4:31

God willing, I'm gonna specify our responsibilities, which is God's will that's the time we are in this world now.

4:39

And believe me, anything happens in this Masjid, I have seen it with my own eyes.

4:45

Just last week, in computer room, Dr. Khalifa was writing the new perspective,

4:51

and there was a word, it would not go to the computer. That was not God's will.

4:57

Behrouz: It took some time, either it was shorter or a long. That it took some times til it eventually went into computer, That was God's will, Alhamdu Lillah.

5:04

So, anything happening over here, Alhamdu Lillah, it's just like God is looking at us, all of us, right in here, and it's a very, very crucial moment.

5:16

Now, so we have to obey this responsibility.

5:22

Now, God is telling us how to fulfill this responsibility about our messenger.

5:29

We shall not argue with the messenger. There is no way whatsoever we can argue with the messenger.

5:35
That's arguing with the word of God, with God's messenger. And when a verse says that after, if you die before age of 40, you go to Heaven, that's it.

5:49
We cannot ask him why. If you have any problem, you can ask God, because his job is to just deliver the message.

5:58
6:33 says, [6:33] We know that you may sadden by what they say. You should know that it is not you that they reject; it is GOD's revelations that the wicked disregard.

6:14
Unfortunately, last week, that is fortunate actually, Dr. Shakira came from San Francisco,

6:22
and she was, she is a beautiful, Mā Shā Allāh, a very, very strong believer.

6:28
If she was not, she would have left the message, Masjid because she actually said it herself that

6:35
"I am confused", the way we are treating the messenger.

6:41
We cannot have any opinion or any suggestions. It's just the word of God.

6:48
And if you all remember the story of Moses and his teacher, he kept interrupting him,

6:55
"Why did you kill that? Why did you make a hole in the ship?" We are not supposed to ask these questions.

7:02
When the right time comes, we will find out ourselves, IN SHAA ALLAH. 49:1 says, O you who

7:08
49:1 says, [49:1] O you who believe, do not place your opinion above that of GOD and His messenger. You shall reverence GOD. GOD is Hearer, Omniscient.

7:20
The reason is because we might help the messenger. 9:61 says [9:61] He is a mercy for those among you who believe." Those who hurt GOD's messenger have incurred a painful retribution.

7:38
33:57 says, [33:57] Surely, those who oppose GOD and His messenger, GOD condemns them in this life, and in the Hereafter;

7:49
[33:69] O you who believe, do not be like those who hurt Moses, then GOD absolved him of what they said. He was, in the sight of GOD, honorable.

8:04
61:5 says, [61:5] Recall that Moses said to his people, "O my people, why do you hurt me, even though you know that I am GOD's messenger?" When they deviated, GOD diverted their hearts. For GOD does not guide the wicked people.

8:25
[49:2] O you who believe, do not raise your voices above the voice of the prophet,* nor shall you shout at him as you shout at each other, lest your works become nullified while you do not perceive.

8:45
[49:3] Surely, those who lower.... This is 49:3, [49:3] who lower their voices at the messenger of GOD are the ones whose hearts are prepared by GOD to become righteous.* They deserve forgiveness and a great recompense.

9:06
[49:4] As for those who call on you from outside the walls, most of them do not understand.

9:16
We cannot call "Dr. Khalifa, come over here. We wanna go, let's do the prayer."

9:23
We cannot do that. This is, it doesn't bother him personally, but this is, it's going to nullify our work, whatever we have done.

9:36
God says on 49:5 [49:5] Had they been patient until you came out to them, it would have been better for them. GOD is Forgiver, Most Merciful.

9:48
As for any communities, this community, we have to have discipline.

9:54
Discipline according to the God's law that we have to follow.

10:00
Now, I'm just gonna give you an example, that is an outside example.

10:07
It's probably the human and devil kingdom, but you cannot and you will not call President Bush by his first name.

10:19
Have you seen anyone call him by his first name? If he was here right now with us, we would wear all suit and tie,

10:26
he had millions of bodyguards, and you would be sitting just like that. Now, but messenger is a position that God has given, and this is the highest point position in this world.

10:42
And we have to follow God's word. God called him messenger.

10:48
For the newcomers, they come outside, they see us, we have Friday classes.

10:57

When they leave, they don't know who was the messenger, who was the student, who was the teacher. Everybody is laying down, some people are sleeping.

11:05

Please, we have to cut this off, because this is against God's law, against God's rules.

11:12

Please, over here, this side of this door, be very formal.

11:19

When you go outside, when you go inside to RASOOL ALLAH, just call him Rashad, or whatever you want as a friend.

11:27

But when we are here, on this side of the door, please let us be example for the newcomers.

11:34

We don't want someone, as a reporter, come over here, calling RASOOL ALLAH, and then call him, Rashad.

11:39

Don't you feel funny when there is someone coming from outside, they tell us what to tell him?

11:45

But God already called him RASOOL ALLAH. God positioned him as a RASOOL ALLAH.

11:50

So, we have to, I mean, this is up to everybody, whatever they want, we think about it, but

11:57

this is God's rule. This is God's law. This is the rule we should have among us.

12:03

This is a very, very crucial moment that we have to take heed, and understand it.

12:08

We are so busy with the miracle of 19, we forgot the small things over here.

12:14

And one is, please, you can call him RASOOL ALLAH, Mr. Khalifa, Dr. Khalifa.

12:20

Please, when you are having a study group, don't call by the first name.

12:25

First name is me, or you, or others, but he is RASOOL ALLAH.

12:35

God is teaching us everything, even the manners, how to treat each other, and RASOOL ALLAH, His messenger.

12:48

Last conference, that was my first conference, I didn't know many people, I only knew Dr. Khalifa, and Susan, Lisa, and a few other people, because of my last visit for a couple of days.

13:00

At the time of conference, I was sitting on the right hand side, facing the microphone,

13:06

I was leaning to the bookshelf, and I was watching the whole group, there was a gentleman among us.

13:17

He would not leave the meeting. He would not come in unless Dr. Khalifa turned to him, or accidentally see him, he said "can I go?"

13:25

And he would go. And that gentleman was Sammy. That is his son.

13:31

And we all, I just have to thank you, this is the thing that every one of us, we have to know this, to learn it.

13:38

We have to learn this system. This is my, and all of you, I'm sure, is the first messenger.

13:46

We do not know how to treat. And last time, I probably said something wrong, and I called Dr. Khalifa, I said "I'm very

13:56

sorry, you are my first messenger, and I have no experience about it, just forgive me, please."

14:01

And so as for all of us, it's no problem, we just don't know, but that doesn't mean that

14:08

we just have to keep following whatever we have been doing.

14:14

Now, God says on 24:62, [24:62] The true believers are those who believe in GOD and His messenger,* and when they are with him in a community meeting, they do not leave him without permission.

14:31

Again, God says exactly the same thing, [24:62].... Those who ask your permission are the ones who do believe in GOD and His messenger.

14:44

He put the God and His messenger first sentence, and then get the permission, and then the second sentence,

14:50

He said "these are the ones, they believe in God and His messenger." I mean, this is very, very crucial and important.

14:56

And just from this verse, we get millions of things about how to treat the messenger.

15:04

It's just completely different with anyone else on this earth.

15:15

My brother, Mahmoud JAN, just mentioned to me, verse 7, Sura 7:31.

15:31

God says, [7:31] O children of Adam, you shall be clean and dress nicely when you go to the mosque. You shall eat and drink moderately. God does not love the excess

15:47

Now, please again, brothers, sisters, just, I love you, that's why I'm talking about this.

15:54

If there was someone outside, I would not. I would tell my children, I would tell my mom, because I care about them.

16:02

And please, when you come in, freedom, it's a beautiful word.

16:11

But when you are in a group, when you are in a society, when you are in this community,

16:17

it's completely freedom. But having respect is different. So please, I wanna ask you, I love you, especially the ones, I know they have the same feeling about me too, but this is the word of God. Please do not lay down.

16:32

We have the, I know for some of us, it's very uncomfortable to sit down. But believe me, it's very uncomfortable in the hell too.

16:40

It's only two hours. And if you are sleeping, please sleep at home. And come later. It's not bad.

16:49

I'm sorry. Please don't get mad at me, because we all, we don't notice.

16:58

We just do not notice these things. We think, if you go to a class, do you lay down and make a position like you are in Hollywood and take a movie?

17:10

If you just sit down properly, the teacher is over there, we have to follow him. Believe me, back home, we could never ever put our feet on the top of the table.

17:21

Every time we put it down. So, these are the rules. Please, this is, we learn it from each other, from the society, from God, especially forgive me, God, that we have to follow for, especially for our messenger.

17:42

And also something else I wanna give as the parents.

17:47

Believe me, if you are in that room, if one child runs from here to there, it's like an airport over there.

17:54

Believe me. I was there two days ago, in the afternoon, there was no one in the office, I was taking care of

18:00

Ahmad's children, beautiful, but they just went to get the pillow, bring it back over here and sleep. And they slept.

18:06

I couldn't believe it. But as soon as they run over there, it's... I don't know what happened, the reaction over there, it's just like an airport.

18:16

Now, Friday nights, RASOOL ALLAH, Susan, Lisa, Emily, they are here, they work 19, 20 hours a day.

18:27

They need the rest. Now, after this last meeting, everybody, all the kids, they get up, they bring the pillows, they have fun over here. Please take care of them.

18:37

Please let them... have them, quiet them down.

18:48

Now we repent.

19:01

Alhamdu Lillah, Ash-hadu Alla Elaha Ella Allah Wahdahu La Shareeka Lah.

19:07

Last time, I forgot on my notes that today I have everything from (unintelligible).

19:13

The other point, the subject that I wanna talk about is, it's about ego, the ego as a god.

19:19

[45:23] Have you noted the one whose god is his ego? Consequently, GOD sends him astray, knowingly and seals his hearing and his mind, and places a veil on his eyes. Who then can guide him, after such a decision by GOD? Would you not take heed?

19:42

Please, this is a very very sensitive point, very sensitive action that most of the time,

19:51

without knowing it, we just pass through it, then later on we find out about it, then we're gonna be sorry about it.

20:01

The other point is, out there, there is a word, they call it intelligent, smart, entrepreneur, so and so, genius, whatever.

20:12

This is not this place's word. This is not God's word. Behrouz: The only intelligent to God is repeated in 1,2,3,4,5,6,7,8,9,10,11,12,13,14,15,17...16,17. The messenger: 16, 17.

20:33

Behrouz: About 18 verses that I could have find that God calls intelligent only to the one they believe in God and follow God's system.

20:43

That's it. God doesn't... He doesn't care if you are in real estate, you make billions of dollars, good for you, if you are genius, good for your parents, that's fine.

20:53

But when you come to this masjid, please, as you take off your shoes, please take off you ego,
21:00
take off your genius, hang it on a tree and come in. I am just telling you as a friend, because I try my best to do it, and believe me, every night when I go home,
21:10
I repent and I ask God, if I did something wrong today, please forgive me.
21:15
I ask God for four months to be in here in this masjid, to be close to His messenger.
21:21
And Alhamdu Lillah, He granted it. But now I'm just going by the rule that please God, if I make something, some mistake, please let me know.
21:30
So, if someone tells you this and that, this is because we are brothers, we are sisters,
21:36
and I really appreciate the ladies, we, men, have to learn from them, please become a gentleman.
21:44
Because I haven't seen any ladies to lay down. I just love them.
21:50

23:33
Al-Salaamu 'Alaykum Al-Salaamu 'Alaykum
23:43
The messenger: Congratulations. Dr. Sabahi: Rashad, I have to make some comments before what he said, on this Khutba before I go.
23:54
The messenger: Okay, go ahead. Dr. Sabahi: Just, listen please. No, Quranic study is not the place because other people come in.
24:03
What this Khutba reminded me was the Islam that I have been giving away all my life.
24:13
This reminded me of my teacher in my grade school who told me to shut up.
24:18
"Put your intelligence outside and come in and listen to what I tell you and what God is telling you."
24:24
We are intelligent people. We have....I tell my friend, Behrooz, you are just a newcomer.
24:30
Dr. Sabahi: Sit down. Listen. This system is working. If you wanna make changes, don't push it.
24:36
Don't ask us to change everything overnight and go to a system that is all the religious establishment outside is like that.
24:44
You go to any religious establishment, you can't see the guy, whoever it is. You have to go through steps to see the person.
24:51
You wanna create that, we have it outside, we don't have to come here. I don't agree with 99% of what he said personally and I would love to hear Rashad.
25:02
I usually call him Dr. Khalifa to come out and say whether he really believes that this is the system he wants.
25:14
I don't object to Quran. I can sit down and read Quran and follow it and see whether I am doing something wrong.
25:22
But if I come here and I see Khalifa, Dr. Khalifa is available for me, this is something
25:28
that people see different from others. I'm not saying that I can insult him. Have you seen me treating him or calling him?
25:34

But other things that you put your intelligence outside and come in. That is asking me to be a follower, eyes closed, ear closed and just follow.

25:45

Behrouz: No, God describes intelligence different. Dr. Sabahi: This is not right. Ego, yes. Dr. Sabahi: I say ego, yes.

25:51

But intelligence, this is what God gave to me and to everyone to do that.

25:57

The messenger: We'll discuss it tonight and there's very good reason for saying what he said and like Susan said "he only read Quran."

Clashes about how to refer to Dr. Rashad Khalifa. Explains purpose of Sura 2. Correcting our rebellion.

26:04

So, together we're gonna read this and our choices to follow what God is saying. Dr. Sabahi: I would love to hear what you have to say about this.

26:09

If you wanna put it in Quranic study to discuss, that would be great. The messenger: I'll discuss it for about 10 minutes. Behrouz: I'm not breaking the rules. I just read it from the Quran.

26:17

E dip: Nowhere in the Quran doesn't say don't call with name. We call Muhammad with his name. We call Moses with his name.

26:24

The messenger: No, it's not true. It's not true. (24:63) لَّا تَجْعَلُوا دُعَاءَ الرَّسُولِ بَيْنَكُمْ كَدُعَاءِ بَعْضِكُمْ The messenger: It's in the Quran.

26:30

E dip: But we shouldn't say that Muhammad only by itself. We shouldn't say Moses by itself. E dip: We shouldn't make distinction between messengers. The messenger: They're not here. They're not here.

26:37

The messenger: I will discuss it... I will discuss it tonight. But you can leave your ego outside or stay with it.

26:45

If you have any ego, don't come in here. Stay with it outside. E dip: I want to discuss the subject because.... The messenger: Tonight, we'll discuss it, E dip

26:53

The messenger: Humans insisted on it. So, the human being generally is just a hard core criminal.

27:02

And we have to know that...

27:09

....in order. to solve our problems. Obviously, we have a problem that caused our dismissal from God's kingdom,

27:20

not once or twice, but a few times.

27:26

And then God gives us lessons in the Quran to teach us that we are rebels.

27:36

Otherwise, why does God put in the Quran those lessons, those examples from life?

27:45

The biggest Sura in the Quran, the longest Sura, is entitled the Heifer.

27:53

Even though it's a Sura that is full of, all the five so-called pillars of Islam are in Sura number two.

28:04

The order to pray, the orders to fast Ramadan, the orders to give Zakat, the orders to make pilgrimage,

28:19

the rules of marriage, divorce, war, they're all in Sura number two.

28:24

But the title indicates the importance of the subject that is within every Sura.

28:33

And God chose the title "the Heifer." So, what is the Heifer?

28:39

The Heifer symbolizes the people who are with the messenger, but they are rebels.

28:50

And they give the messenger a hell of a time. This is what the Heifer is all about.

28:57

So, if we are fortunate, we will learn from this. And we will catch our rebellious nature and correct it in order to be redeemed back to God's kingdom, to get rid of the rebellion, and to correct it.

29:18

Moses told his people "God orders you to sacrifice a Heifer.

29:27

So, what did they do?

29:34

They said "are you kidding?" He said "I seek refuge in God, lest I be that ignorant."

29:48

And you know the rest of the story. I'm not gonna tell you the story of the Heifer again. But why is God putting it there? Why God is putting so much importance on it?

29:58

And giving the name of the title of the Sura from that incident, why?

30:04

It's for us to learn. The same story happened this afternoon.

30:11
 Very similar story. And the fortunate ones are the ones who learn from their God-given lessons.

30:28
 I mean, we love each other very much, and we know that we are in the purification process.

30:36
 We're being purified. I love Hamid very much. I don't know if he's here or not.

30:42
 But today, after a discussion with some people about the way he was dressed.

30:51
 He was dressed in a short and a sweatshirt.

30:58
 And then they asked me "what does God say about dressing for the mosque, for the masjid?"
 Dress code for the Masjid.

31:05
 I said "there are two things in the Quran, one of them says "dress up for the mosque."

31:12
 And one says "dress modestly."

31:18
 Okay, so God says "sacrifice a Heifer."

31:24
 God says "dress up for the mosque." So, what did he say? He said "how do you dress up for the mosque?"

31:34
 It's the same answer that was given to Moses, right? We are human beings. Those who are human beings. And these are human beings.

31:44
 You know, we're applying for a job in God's kingdom.

31:50
 This is why we're trying to go back, and we are applying for a job.

31:55
 So, if you have an interview for a job, how will you dress?

32:02
 Will you go in a short and slippers? Of course, we don't wanna be that formal, but I mean, we have to be reasonable.

32:15
 So, I have to explain how you dress up for the mosque.

32:24
 God says, (7:31) **يَا أَيُّهَا النَّاسُ خُذُوا زِينَتَكُمْ عِنْدَ كُلِّ مَسْجِدٍ** He says "O children of Adam,..." "dress up" is a good translation for that.

32:36
 "Every time you go to the mosque." Why?

32:42
 Why is God telling us to dress up every time we go to the mosque?

32:52
 I mean, is God, is He finicky or what? I mean, Astaghfirullah.

33:02
 Why is He telling us to dress up for the mosque? How would you like to go to the mosque and find that everybody looks terrible and stinks?

33:13
 How will, what will happen? I mean, this is what....

33:21
 What we're doing, we're not following God's commands.

33:29
 So, we have to learn from our lessons that God has given us.

33:37
 There are reasons for calling it the Heifer and emphasizing this story.

33:42
 And over and over and over throughout the Quran, we see the children of Israel, the story of the children of Israel. Believe me, it's happening. Everything they did.

33:52
 This is why God put the children of Israel in the Quran. Because we are doing the same things. And these are God's chosen people.

34:03
 What color is she? These are God's chosen people. We are not talking about the rebels of the rebels.

34:11
 We're talking about the chosen ones among the rebels.

34:18
 So, with this introduction, I'm going to have, see how we, all of us collectively feel about this.

34:27
 Laurie: I think I can see that a word that to me is very important. (unintelligible)

34:34
 Men have to be modest, too. We're here at Quranic sitting, we're at Juma'. And it's really hard when people are speaking,

34:40
 and you look around and all you see is legs. You know, just bare legs.

34:46
 So, you turn away, over here is another pair of bare legs. And you look over here and there's another pair of bare legs.

34:52

And the shorts are short and it's like... You know, women have the same feelings as men.

34:57

And, you know, if we all came in shorts, nobody would be able to concentrate on anything. And this is such a similar time.

35:03

So, I'm just so glad to hear it finally brought up that modesty in men is just as important, you know, as it is for women.

35:12

Laurie: And it's been, you know, very distracting. And sometimes it's really hard to concentrate because you can't see them. All you see is somewhere is legs.

35:20

The messenger: And God addressed both the men and the women to subdue their eyes, both of them. So, God wants us to help each other in this way.

35:30

Linda.

35:43

Speak louder. Linda: Are you saying.... The messenger: I think the same thing that Laurie is saying. Oh.

35:51

Right. They can be distracted as well. Linda:, Rashad. I really, really think, I think the first responsibility lies with each one of us, with our eyes.

36:06

(unintelligible) any kind of distraction. The messenger: Right. Linda: And that, I mean, the fact that we see that right, we need (unintelligible) in order to help each other. We need not to present situations. Especially, The messenger: Right.

36:20

Linda: within our community, it will hinder each other because we are brothers and sisters. We need to recognize our weaknesses and help each other not to be in situations where the devil can bring our weaknesses out.

36:33

The messenger: Um-hum. Mā Shā Allāh Edip: Rashad, (unintelligible) the reason I want to (unintelligible) is because... The messenger: Yeah, go ahead.

36:44

Edip: I (unintelligible)... that some people know and some people doesn't know (unintelligible) and some people The messenger: That's right.

36:53

Edip: I know they are (unintelligible) and they are brightened and

36:59

just really very disturbing. Edip: I just want to share with you this few pages. First of all, honestly I am a sincere believer. I know myself. I will say it. It's not ego.

Edip Yuksel complains and accuses Dr. Rashad Khalifa of flaws.

37:16

You know, if you are sincere, people around me can judge that we are sincere.

37:21

In Turkey, when I heard this message, thank God, from Rashad, God put me in the greatest.

37:29

I gave up everything that I had until that time. I gave up from my thousands of readers.

37:37

I gave up from my job. I gave up from my family, from my father, mother, sisters, each friend.

37:46

And I accepted when I first heard that Rashad says "I'm a messenger of God", I accepted without any doubt. I said "yes, okay."

37:56

I had no ego in this case. And now some people just want to accuse me that I have great ego and I am idol worship.

38:06

I worship my ego. It is very easy accusation. Oh, somebody who takes questions or discuss a subject if he doesn't understand.

38:15

"Oh, you are egoistic. You are worshiping your ego." It is very easy. Edip: And for some people, they want to show that they are protector of the messenger. From whom? From believer.

38:26

And backbite a believer and accuse a believer. At that time, show yourself,

38:32

you are protector of the messenger. You love messenger more than everybody. What kind of race is this?

38:38

Is that righteous race? I want to share some verses from Quran. Bism Allah Arrahman Arraheem أَعُوذُ بِاللَّهِ مِنَ الشَّيْطَانِ الرَّجِيمِ

38:46

[2:269] Only those who possess intelligence will take heed. God always says "intelligent people will take heed."

38:55

The other verse, [17:36] You shall not accept any information, unless you verify it for yourself. I have given you the hearing, the eyesight, and the brain, and you are responsible for using them.

39:10

These are two verses from Quran. And God says in Quran "believers are brothers."

39:16

And, [49:12] O you who believe, you shall avoid any suspicion, for even a little bit of suspicion is sinful. You shall not spy, nor shall you backbite one another; this is as abominable as eating the flesh of your dead brother.

39:33

Because he cannot defend himself when you are backbiting him.

39:39

Now in this, Rashad, if I have your permission, just I want to talk on the Khutba.

39:45

There are some points which I want only to ask questions.

39:51

First, Behrouz brother said "we shouldn't call him by his name, as Rashad."

39:59

Which, there is a mistranslation of verse 24:63. Which, could you please open it?

40:06

24:63. It doesn't say "don't call him by name like you each other."

40:14

"Don't take his invitation, his request like your invitation."

40:19

Because he is leader, he is messenger of God, you must obey him. But in respect of calling him with name, it is human being like us.

40:28

And all messenger has been called with their name. And even now you call Muhammad as Muhammad, Moses as Moses.

40:35

God says "they are human being like you." Which, what kind of difference God show us?

40:40

Which respect is they are different we must respect? And which respect they are like us?

40:46

They are walking in the city. They eat like us. Edip: This is not what which is mistranslated.

40:56

[24:63] Do not treat the messenger's requests as you treat each others' requests.

41:01

And also in the context if you look, some people they do not take serious invitation of the messenger. And they are wavering.

41:10

And the second point, "we shouldn't discuss with him", brother said. Why?

41:16

Doesn't he make mistakes? Only God doesn't make mistakes.

41:22

What about verses 60:12?

41:28

What about that verse 60:12?

41:34

Here, from Hadith... Quran, Hadith and Islam, the verse 60:12, the title is "Obeying the messenger is conditioned" (underlined).

41:46

(60:12) وَلَا يُعْصِيكَ فِي مَعْرُوفٍ Nor disobey you when you are right.

41:55

That means, believers sometimes they may see something wrong and they can criticize.

42:01

Even they can, that time they can disobey. This is conditioned.

42:06

A woman: 60 Edip: 60 and 12.

42:12

A man: What chapter? Edip: Chapter 60, verse 12. Edip: 60.

42:18

A man: 6 0. Edip: Yes, 6 0. A man: 6 0? Edip: Yes.

42:23

Edip: Here, in this book, it is underlined, "Nor disobey you, nor disobey you, messenger, when you are right."

42:32

Or in the translation I'm reading, "righteous command." Obeying the messenger is conditioned.

42:40

What is the condition? God says "anything good that happens to you is from God, and anything bad that happens to you is from you."

42:48

That's messengers, like human, they make mistakes, and these are not from God. These are from themselves, and God may change later, forgive them.

43:01

A woman: Is it okay if we discuss this briefly?

43:07

There are some differences between discussion and argument.

43:13

Laurie: And what would happen if... Edip: I'm coming to the subject, thank you. Edip: Laurie, you are right, I'm coming to the subject.

43:21

Edip: What about verse 3, chapter 3, verse 159?

43:27

God says, messenger must consult people around him. This is duty of messenger.

43:33

And if people around him are zero, they have no idea, they don't, frankly, they don't say

43:42

their idea, they're only, they just, messenger whatever he says, okay, accept, true.

43:48

Messenger, 1 plus 0 is 1. Messenger says 12, 12 plus 0 is 12.

43:56

6, messenger says 6, he says 0. 6 plus 0 is 6. There is no change.

44:03

What is the reason of consultation of messenger with believer? According to Quran, believers has also personality.

44:11

They have all their idea. They are not fool people. The messenger: Wow! Wow!

44:18

A woman: Wow! The messenger: Mā Shā Allāh People: Wow!

44:26

The messenger: Mā Shā Allāh. Congratulations! It worked. It worked Come here.

44:32

A man: Don't go over there. Come here. Behrouz: Mā Shā Allāh.

44:38

E dip: The other point, we must, one lady, one sincere lady, believer, because of last week,

44:48

we had discussion with Rashad. I, this my (unintelligible), really according to Quran, we made mistake and I repented because of this.

44:56

But, I will tell you something, more important than this mistake, more important than this mistake, but we forget this, we want to cover the subject.

45:08

Why a person shouts? Every shouting person are not the same.

45:15

If you punch.... person comes here, shout, because he is....

45:22

E dip: So, God needs angels for other things.

45:31

Third claim, third verse, God is the Alpha.

45:41

(57:3) هُوَ الْأَوَّلُ وَالْآخِرُ He is the beginning. And also this verse 57:3, and other verse, God is the Creator, is the Creator of everything.

46:02

There are many verses about this, for example, 13.16.

46:08

E dip: God didn't create, did not create, or could not create hydrogen, Hydrogen. A woman: What?!

46:22

E dip: Yes. A woman: What does it have to... E dip: Wait. Wait.

46:29

E dip: In that discussion, we made. The messenger: Who said all those black things? E dip: Behrouz said, and you accepted, Rashad.

46:37

The messenger: So, I said, I said that God is not Omnipotent? E dip: Excuse me? The messenger: You heard me say "God is not Omnipotent."

46:44

E dip: God.... no, no, I don't say you didn't say God is Omnipotent. The messenger: Wait, wait, wait. The messenger: Does anybody in this room believe that God is not Omnipotent? Raise your hand, please. Anyone?

46:52

E dip: I only want... The messenger: Wait, wait. Hold it. Hold it. The messenger: Does anyone in this room believe that God is not Omnipotent? He is able to do anything.

46:59

Does anyone here believe that? Okay, the first issue is finished. The messenger: There is nobody here who does not believe.... E dip: But God is, Rashad, the only is (unintelligible).

47:08

The messenger: There is nobody in this room who believes that God is not Omnipotent. So, this is finished. E dip: What about this God cannot do this, this, without this. If we say God cannot do, even if He wants, cannot do this.

47:18

E dip: Isn't this really reduced God's condition, the omnipotence of God?

47:24

E dip: This contradicts itself. The messenger: No, you have to go talk to some people who don't believe that is Omnipotent. We all believe God is omnipotent.

47:30

E dip: Okay, can we say God can do whatever He wants? The messenger: Yes. E dip: Alhamdu Lillah. Thank God.

47:35

E dip: Please, we erase this, this problem. Ok. E dip: This was the discussion.

47:41

The messenger: This was always the case. It was never otherwise. A woman: That's right. The rest of us that were at the discussion, indeed, didn't take it that way.

47:48

The messenger: Go ahead, what was the second point? E dip: Okay, thank God. Yes, I want to be liar. Really, I want to be, in this case, liar. Because I don't want to make trouble.

47:57

But God knows. God knows everything. E dip: IN SHAA ALLAH, even if Rashad said he must repent, if he doesn't remember, it is better for him.

How to treat the messengers Request & Opinions. Edip argues with Dr. Rashad Khalifa and accuses the Dr. Rashad Khalifa of not believing in God's omnipotents.

48:05

But I remember, I heard from my ears, the discussion was about this. Anyway, God needs angels. We cannot say this, IN SHAA ALLAH. That's correct?

48:15

Behrouz: You're missing the point. Let's bring up the subject that we were talking about.

48:20

Chapter 15, starting from 74 to 78. Just read the whole thing.

48:26

Behrouz: It's gonna tell you that God turned upside down the city of Lot by the angels. That is God's system. God's system never change. And that's it. You wanna go into it....

48:39

The messenger: [49:1] O you who believe, do not place your opinion above that of GOD and His messenger. You shall reverence GOD. GOD is Hearer, Omniscient.

48:49

[49:2] O you who believe, do not raise your voices above the voice of the prophet,... This is the Prophet Muhammad, and it is set as an example for us.

48:58

[49:2] nor shall you shout at him as you shout at each other,.... Why is God saying this? Why? He tells us why.

49:05

[49:2].... lest your works become nullified while you do not perceive.

49:11

Why will my work be nullified if I shout at the messenger? Or if I raise my opinion above the opinion of the messenger? How will my work be nullified?

49:20

"I pray five times a day. I fast the month of Ramadan. I worship God alone." What God is telling me "if you place your opinion above that of God and the messenger, your works are nullified."

49:34

What is the mechanism of nullifying my works by doing this?

49:39

Here's the mechanism. Because when I do this to the messenger, and there is an outsider who will come and see this,

49:46

now the outsider comes and sees that one of the closest persons to the messenger is telling him

49:52

"you don't believe in God's Omnipotence. You don't believe that this and that."

49:57

So, the outsider will leave. Okay, and become a disbeliever, for example. If I do this and drive the outsider away, I will carry this person's sins.

50:08

This is how my works will be nullified. Why is God saying this?

50:13

Is God advocating idol worship, or what? Of course not. So, there is a reason for it.

50:19

But, see, you see now what the point is. Edip came to a certain conclusion, and he made an opinion, and he didn't wanna give it up.

50:30

He still doesn't want to give it up. Edip: I just....Rashad, this is correct, this is wrong. This is...

50:38

Whatever people you ask, if some person, if any being... The messenger: Okay, you're still on number one. So, let me go to number one.

50:46

Edip says that I say that God is not Omnipotent. The messenger: Of course, I never said that. Edip: No, no, the second one.

50:51

Edip: The second one contradicts God. The messenger: I said that God cannot turn Sodom upside down without the angels. The messenger: Is this what you are saying?

50:58

Edip: Excuse me? Edip: If God was, He is Omnipotent, He can do without angels. The messenger: without angels.

51:04

The messenger: Okay, then let us look at this. Let's see what God says, and we cannot be more godly than God. I'm going to use an example that is identical.

51:14

And this, God says that the creation of Jesus is like the creation of Adam, equal to the creation of Adam. We're all familiar with this verse.

51:22

And then God goes on in the verse and says "I said to him, be, and he was." So, this is how God gets things done. God can get anything done, by saying "be", and it is, right?

51:35

Yet, we look at the Quran consistently about the creation of Adam. We see that God says "I blew into Adam from My spirit."

51:43

Because that was up there in the first heaven. Adam was up there. God was up there. And God blew into Adam from His spirit.

51:52

Now, the identical creation of Jesus, God said to Jesus, "be", and he was.

51:57

God said "be" and he was. But God tells us in the Quran, He sent the angel to Mary, carrying this command "to be."

52:10
And God speaks in the plural. The messenger: He said "we blew into Mary from our spirit."

52:15
Edip: There's a question, Rashad. Does He... The messenger: So, therefore, therefore, God is teaching us that there is a system of be, and it is.

52:23
God didn't just sit up there in the first universe, He said "be", and Jesus was.

52:31
The mechanism was that the angel Gabriel came down to the planet earth, which cannot stand the physical presence of God, and Gabriel carried that command.

52:42
And "we blew into her from our spirit." So, this is the difference. God tells us about the system. Now, I cannot say that God said, be, to Jesus, and Jesus was, without the intervention of the angel.

52:56
I cannot say that, because it will be a lie. Satan, when Satan failed to stop you from worshipping God, he will push you to the other extreme.

53:07
He will make you demand of God more than what God Himself said.

53:14
So, this is the situation that we have here. In other words, God said He sent the angel to create Jesus, and then we say "God doesn't need the angel."

53:25
Well, who am I to decide that? God Himself told us that He sent the angel with the command. These are two identical things.

53:34
And you can... God also said He sent the angels to turn Sodom upside down.

53:39
So, I cannot say otherwise. I have to abide by what God said.

53:46
If God said He sent the angels to turn it upside down, I can't say that God can sit up there and say "be", and it is upside down.

53:55
God is teaching us that there is a system, there is a mechanism. But the point that Behrouz is talking about is nullifying our works. "Nullifying our works".

54:05
And it brings out this very serious idol worship that is idolizing our opinion.

54:12
We must give up our opinion in favor of God's opinion. God said He sent the angel to blow into Mary from God's spirit, through the mediation of the angel, we have to believe that.

54:25
Edip: Rashad, did I say, please, did I say "God didn't send angels?" Did I say "God doesn't use angels?"

54:31
I only say "God uses angels, but this doesn't mean God needs angels." God has obligation, needs them.

54:39
Edip: God doesn't need anybody. But God.... may God select the angels. The messenger: What did you say now?

54:45
A woman: I think maybe it's the difference between the words, God wants to use the angels, and maybe God won't control without angels, but it's not that God cannot.

54:58
A woman: Do you know what I mean? God can do everything, but God has chosen His system, and He will use them. The messenger: We have a linguist here.

55:06
The messenger: What is the difference between "want" and "need", Martha?

55:11
The messenger: No, I want you to answer this first, then go on. Edip: God wanted this, or God needed this. Martha: I think we don't need a linguist to answer that question.

55:20
The messenger: OK. Tell us what you think. Martha: Can I just back up? The messenger: No, just tell us the difference between "need" and "want", first.

55:28
Martha: Need implies a certain dependency on something else.

55:34
Martha: Want is something that you have a decision about meaning you're choosing to do one thing as opposed to another.

55:43
The messenger: Okay, what's the question? A woman: I wasn't here for the original thing, right.

55:48
A woman: I just have this fear that what's happening is the devil is just kind of getting in between us here based on just a real, maybe a misunderstanding. The messenger: Yes.

56:00
A woman: Are you saying that Rashad said, number one, two, and the ones that are in black there?

56:08
Edip: The black is what Rashad said. A woman: Ok. Wait a second, wait a second.

56:13
A woman: Rashad, did you say those things? The messenger: No. A woman: It's the end. Edip: You didn't say that God cannot control without angels, cannot do this without angels, Rashad, that day. Lisa, he didn't say this?

56:25
Edip: He didn't say this? Thank God. You forgot. Alhamdu Lillah. Edip: I will forget. The messenger: No, we didn't forget.

56:33
A woman: You're the only one that said that. The messenger: Ahmad? Ahmad: There is another Aya in the Quran that says that God wants all the big people to believe, He can do it. Right?

56:43
Ahmad: So, there is a difference between me and God. Edip: Sure. Mā Shā Allāh. Ahmad: So, He can want, He can do all of these things without angels, but His system specifies angels to do this. Edip: Sure.

56:56
Ahmad: And to do that, and to do that. The messenger: That's exactly what we were saying. That's what I said.

57:03
A man: I think the whole problem with everything that's being said is that everybody in this room believes number one. Everybody does.

57:09
We don't believe number two. Hold on, hold on, hold on, hold on, hold on. So then, verbs like we use, can, or need, or has to, they don't apply.

57:22
You can't say, like Rashad said,....

57:30
....God in a different way, or can do things, or needs to do things. These are verbs that don't apply to God.

57:36
A woman: I don't think any of this.... Edip: Okay. Edip: This was the discussion, this was the discussion, and many times has been used word can. You can't call...

57:47
Edip: Alhamdu Lillah. A woman: No, but we're all worried, right? The messenger: Right. You hit the nail on the head

57:55
Apamea: Okay. And there are many people here that cannot speak it. And his people, does he believe, are his brothers, turn against him. Dr. Rashad Khalifa says "Edip Yuksel has a serious problem and we are trying to help him"

58:03
A woman: Nobody is turning against him. Behrouz: No one is turn against him. Behrouz: No one is racing with him. He's making up these things. I am not racing with him. None of us over here, we're racing with him.

58:15
Apamea: Edip is not the kind... Edip: Okay, Rashad, what is the... The messenger: Edip has a severe problem, and we're trying to help him.

58:21
A man: Yeah. Behrouz: That's all. The messenger: We are his brothers, we are his brothers and sisters, and we're trying to help him. He has a real, he has a severe, has a very severer problem that may destroy... Edip: Rashad, why don't you... in the last question... my last question. I shouted at you, Rashad, please. Apamea: He needed to know that he heard you right.

58:36
Behrouz: Now, the one thing happened. Wait, wait. How come Ismail Barakat does not have any linguistic problem?

58:42
His English is perfect. He understood it, and he repented. He said "I'm sorry." Edip: No, you all didn't accept... in fact, you cannot use Behrouz: Come on.

58:51
Edip: "God cannot do this." Behrouz: He, at latest, he said "I'm sorry" Edip: Oh, he did not... he actually shouted at messenger. Behrouz: Well, his English is perfect.

58:58
The messenger: He shouts at everybody. Ok, the man is... Edip: Rashad, one question.

59:04
Edip: Why don't you worry about this brother? You worried about me because I shouted at you because I may misunderstand, I may understand according to Quran, I see....

59:15
The messenger: No, I worry about you because you worship your opinion to the point of destroying you. Dr. Sabahi wants to say something. Edip: Ok. Last question. Excuse me, only this part is not....

59:23
Edip: Did you say that God did not create hydrogen? Did you say that day? God is witness.

59:28
Behrouz: Edip, JAN, you were telling me millions of crazy things. You brought it from your mind. I don't know where.

59:34
Edip: Rashad warned me, but you said "God cannot create, He didn't create hydrogen." The messenger: Nobody will say that, Edip. Nobody will say that. Nobody will say that.

59:43
The messenger: You thought he said. You thought he said that. Behrouz: The only reason I'm worried about you is because I love you. The messenger: God created everything.

59:50
Behrouz: I love you and I know you know a lot. Edip: Did he say... Behrouz: I sit over there, I ask you all the Arabic. Edip: Did he say it or not?

59:55
The messenger: No, he did not. I was there. Edip: Please, for the (unintelligible) of God.

1:00:00
The messenger: There's a statement in the Quran. Hold it. Okay, Mohtasham. Edip: I give up. I lied. The messenger: Mohtasham. Edip, Edip. Edip, Behrouz.

1:00:10
There's a statement in the Quran says, (39:62) **وَاللَّهُ خَلَقَ كُلَّ شَيْءٍ** Okay? God is the Creator of all things.

1:00:16

The messenger: Everybody believes that. We all believe that. Edip: Subhan Allah. Mā Shā Allāh. Edip: God is witness, he said this. The messenger: You think He said this.

1:00:21

Edip: No, he said. From His face, you understand he's lying now. Behrouz: No, I'm not lying. You said, you said, you said "God create everything from nothing."

1:00:32

And I said "so if something created from nothing, that must be nothing." That was your reason. The messenger: Yes. Behrouz: Did you understand it? So, God is nothing.

1:00:40

Behrouz: You said "God is nothing." Edip: No. The messenger: See? Behrouz: Come on. The messenger: It's the same... It's the same problem. Behrouz: It's the same thing.

1:00:48

The messenger: You can take a statement out of context. Behrouz: I don't understand. The messenger: Dr. Sabahi.

1:00:55

A woman: It's just a misunderstanding of the words. We all agree that the black things there are not correct. And whoever... Someone here heard it wrong or used the wrong vocabulary, but we all agree that the black is not right. Edip: Alhamdu Lillah. There's no problem.

1:01:07

A woman: and that the red is in the Quran and it's the right thing. So, we all agree. The messenger: Right. Mā Shā Allāh.

1:01:13

The messenger: Dr. Sabahi. Dr. Sabahi: I wanna read Sura 114

1:01:20

أعوذ بِاللّٰهِ مِنَ الشَّيْطٰنِ الرَّجِيْمِ Bism Allah Arrahman Arraheem [114:1] Say, "I seek refuge in the Lord of the people. [114:2] "The King of the people. [114:3] "The god of the people.

1:01:33

[114:4] "From the evils of sneaky whisperers. [114:5] "Who whisper into the chests of the people. [114:6] "Be they of the jinns, or the people."

1:01:44

I just speak in interpretation for yourself. I was the teacher last Friday. And I read verse 110, Sura 3.

1:01:57

The Best Community. And then I referred you to verse 103.

1:02:03

[3:103] You shall hold fast to the rope of GOD, all of you, and do not be divided. Recall GOD's blessings upon you—you used to be enemies and He reconciled your hearts. By His grace, you became brethren. You were at the brink of a pit of fire, and He saved you. GOD thus explains His revelations for you, that you may be guided.

1:02:25

[3:104] Let there be a community of you who invite to goodness, advocate righteousness, and forbid evil. These are the successful ones.

1:02:33

[3:105] Do not be like those who became divided and disputed, despite the clear proofs that comes to them. These have incurred a terrible retribution.

1:02:43

[3:106] The day will come when some faces will be brightened (with joy), while other faces will be darkened (with misery). As for those whose faces are darkened, they will be asked, "Did you not disbelieve after believing? Consequently, taste the retribution for your disbelief."

1:02:59

I guess if you are good students of the Quran, this would never happen to us.

1:03:07

The messenger: That's right. Dr. Sabahi: Believe me, I call you Rashad, Dr. Khalifa, before this (unintelligible), I didn't know anything about what has happened.

1:03:21

And tonight, when he explained, Edip, I didn't see a big thing about it.

1:03:27

Because what I understood is a misunderstanding, and the rest of it is whispering and making it big.

1:03:34

Looking at Edip and this mosque for the last year and a half or so, or even more, I know that

1:03:43

we put God's Omnipotence above everything else. I know what you stand for, and I know what everybody here, most of the people, at least

1:03:53

the ones that I stand for, and I think I know what Edip stands for.

1:03:59

And if he has an ego, I guess all of us have more or less.

1:04:04

But at the same time, I guess, I never doubt his belief in the Quran or in God's Omnipotence or you as being the messenger.

1:04:16

But if something comes up, and we make it bigger and bigger, I'm surprised, I agree with Naghmeh.

1:04:24

As someone who doesn't know anything, how can all of a sudden things turn from day to night?

1:04:32

You know, if you're telling me that somebody's shouting at Rashad, he's gonna think that what is going on in here.

1:04:40

Imagine if somebody comes in, last week he was sitting next to Rashad, he was giving

1:04:46

all the opinions, and he's a knowledgeable person, all of a sudden, now we don't even let him talk.

1:04:51

I don't, I don't support this anger, this excitement, you know, but, you know, what I'm saying is, if we believe that we are believers here,
1:05:04

respect each other, as God is saying in this "don't dispute among yourselves."

1:05:10

Dr. Sabahi: Edip does something wrong, you have to call him in, sit down, and try to, he's a logical person. The messenger: Exactly, that's what we're doing here.

1:05:16

Dr. Sabahi: So, now, I'm telling the truth, this is not the feeling that I get from sitting here for about 45 minutes.

1:05:25

Everybody is, you know, attacking him, at least the people who have seen his outbursts in that day.

1:05:30

It is not fair. A man: It is A woman: (unintelligible) Dr. Sabahi: No, that is... I agree. Is she... That's why I objected very strongly to Behrouz's Khutba because we didn't know it was Quran.

1:05:43

You come in and you drop the bomb. If something went on... The messenger: He read the Quran. He read the Quran. Dr. Sabahi: No, I agree. But I didn't like... The messenger: No, let's...

1:05:51

The messenger: Okay, let me say something here, because we just witnessed a commandment of God being broken, and we...

1:05:58

Whatever you do, you're nice words will not fix the wound that he's been stabbed with. This is a very nice, very gentle man.

Edip accuses a follower of being a "liar". Dr. Rashad Khalifa explains this is wrong.

1:06:04

And somebody told him "you're a liar." And we're all sitting here indifferent. How can we fix his wound now?

1:06:10

The messenger: You think everything will be alright? We read, we read here. Edip: Rashad, I have one... The messenger: Let me finish. See what God is saying Edip: God....

1:06:21

"tell my servants,..." this is 287, [17:53] Tell My servants to treat each other in the best possible manner, for the devil will always try to drive a wedge among them. Surely, the devil is man's most ardent enemy.

1:06:34

Now, I want you to put yourself in Behrouz's place, and somebody is calling you a liar.

1:06:40

The messenger: (unintelligible). Is this what God is saying "Tell my servants to treat each other in the best possible manner"?

1:06:45

He's getting deeper and deeper in trouble with God. And what you just read is to advocate righteousness and forbid evil.

1:06:53

We cannot sit indifferently and watch Edip blaspheme against God and hurt one of our people, his brother, in this way.

1:07:06

I mean, do you think Behrouz will sleep tonight? I mean, do you have any consideration for his feelings? Edip: What about my feelings? The messenger: Can we just pass it up?

1:07:13

The messenger: Can we pass up the fact that he was called a liar unjustly? Or even justly?

1:07:21

Edip: Rashad. The messenger: So,... yes? A woman: I think the messenger has some feelings. You are a human being and he was (unintelligible).

1:07:29

The messenger: There is one of the witnesses there. Edip: Rashad, excuse me, Rashad. There is one person who has not listened to this conversation. The messenger: Who?

1:07:37

Edip: Ismail Barakat. He doesn't know whatever I say or Behrouz says. Just like record, ask him what was the conversation, what we discussed, why he shouted at you like me.

1:07:48

The messenger: Well, first of all, you owe Behrouz an apology because you committed a breaking of the commandment right here. Edip: First of all, Behrouz, I am ready.

1:07:54

Edip: I know that now I say and you are here, I know exactly Behrouz said "God didn't create hydrogen."

1:08:02

Edip: I will shoot like my belief. Edip: If you let witness God... The messenger: Ok. I can tell you God says here...

1:08:08

Edip: Are you ready? Are you ready that you say... I'm ready. A man: No, no, no. Don't shout. Don't shout. Edip: I'm ready. I leave, I leave to God. I will not speak English. I leave to God.

1:08:18

Edip: Whoever is liar, God will curse him. A man: No, don't say that. Edip: This is accusation.

1:08:24

The messenger: No, see, I can tell you what God said. OK? You want to see what God said in the Quran?

1:08:35

A woman: God knows what he said. Edip: He must repent, he must repent like me. I repent to God.

1:08:41

Behrouz: You did? Edip: Yes, sure. Behrouz: For this past seven, eight days? Edip: Sure. Behrouz: None of us saw it. And you didn't show anything. You didn't talk to any of us. Edip: I didn't bless him...

1:08:49

Behrouz: OK? Apamea: I've seen him at home, Behrouz. I've seen him. He's been suffering as much as everybody else.

1:08:55

Behrouz: I know he is. The messenger: Ok. Behrouz: But Why...? Apamea: I have been suffering along with him. Behrouz: Why all this didn't help him? The messenger: OK, God said, God said in the Quran "after the people die and they turn into dust and bones, they come back to life? This is ridiculous." This is what God said.

1:09:09

The messenger: Is it true? The messenger: God said, this is what you're saying Behrouz said.

1:09:15

Edip: This is quotation. The messenger: Because God is saying in the Quran, The messenger: I can show you, God said "after the people die and become dust and bones, do they come back to life? This is ridiculous."

1:09:26

The messenger: So, you think God said that? Edip: Yes, God is quoting. The messenger: Right, this is how you are misquoting Behrouz, because we were all there.

1:09:34

We all know that God created everything. It is not fair to take something out of context just to defend your opinion.

1:09:42

You just wipe out your friends and your brothers just to hold you to your opinion. You don't wanna say you're wrong.

1:09:48

Edip: OK, I accept I'm wrong. The messenger: Ali. Edip: Alhamdu Lillah, The messenger: Ali. Edip: But God knows what happens. The messenger: But who's but?

1:09:56

The messenger: Ali. Ali: I thought it was just something else. Ali: He saw there was maybe something wrong and he just kind of stepped back and let it build up.

1:10:04

Maybe if there was something wrong, you know, he brought it up. Ali: He brought it up in front of all of us. The messenger: Yes. Ali: He didn't say anything behind your back or his back.

1:10:12

Ali: He just said it right here. The messenger: Well... Ali: No, I'm just saying. He said there was something... He thought there was something wrong.

1:10:18

I don't even know what it's about. But he thought there was something wrong. I don't know if it is or it's not. And I'm not taking sides.

1:10:24

And he got up and he talked. And I think about courage to talk in front of people. Then, all of a sudden, all you people whispering, saying that he's laughing at, smiling, going, ha ha, this is your right.

1:10:34

Ali: They said "he's confident." Of course, he... The messenger: Who told you we were whispering? Ali: Man, I can look. I can understand.

1:10:40

How many times do you think all the great men of our century, the people who stood up for their rights, guys, I mean, if Martin Luther King didn't stand up, what would have happened?

1:10:50

You know, if all those people didn't stand up for their rights, what would have happened? He stood up and he saw something, maybe something was wrong, and he tried to fix it before it got bigger.

Dr. Rashad Khalifa says "Edip Yuksel's god is his opinion" – Dr. Rashad Khalifa says Edip Yuksel will end up in hell.

1:11:00

Ali: And I think you guys should be thankful for this man for being here and standing up and saying... The messenger: No, you got to pull it off, sir.

1:11:05

Ali: I don't think that you should be mad at him. Ali: I think if there is... The messenger: Yeah, I'm not...

1:11:10

A woman: Edip is making false accusations... Ali: No, if there's false... Then what? Ali: How do you know it's false? A woman: Because I was there. I was there. Behrouz: There were seven people seated over here watching.

1:11:19

Ali: Also, we're all human beings, we're all allowed to make mistakes. Ali: To me, it just means to make one mistake isn't...

1:11:26

A woman: It was serious mistakes in the Quran. Ali: So, we're all humans. A woman: The most serious is... A man: No excuse, no compromise.

1:11:34

The messenger: That's exactly what he's doing, Apamea. This is exactly what he's doing, idol worship. He's worshiping his opinion.

1:11:39

My estimate of the situation from all the things I learned in my life is that Edip is in a serious, serious trouble.

1:11:46

He idolizes his opinion. And unless he changes, he's gonna go to Hell.

1:11:52

This is just the summary of the whole thing. His opinion has more value than God Himself.

1:11:59

This is what we see in Sura 25, I forget the verse. Remember... Edip: Please state the verse.

1:12:05

The messenger: Remember, do you know the person whose opinion is his god? And in Arabic, which he understands very well,

1:12:11

(25:43) أَرَأَيْتَ مَنْ اتَّخَذَ إِلَهَهُ هُوَنَ His god, right now, is his opinion and I'm hoping that

1:12:17

he will snap out of it someday and give in to God's opinion.

1:12:22

This is what was happening. Edip: Mahmoud also at that time was witness of conversation.

1:12:28

He is a sincere believer also. Edip: Why not ask him or ask...

1:12:33

The messenger: About what? The messenger: Ask him, go ahead. Edip: Please, I'm suffering now because there is something which, Rashad, is not clear.

1:12:41

The messenger: Ask him, ask him. A man: Edip, you are making (unintelligible). Edip: No, no, what happened? Did somebody say "God cannot control this?" Did somebody say "God didn't create?" Am I lying? Let's ask this guy...

1:12:51

The messenger: Well, did God say "after we died, we're resurrected? This is ridiculous"? Edip: If I am lying, ask Ismail Barakat, he will not hear my lie.

1:12:57

Edip: Please ask Isamil Barakat "what happened?" He will say exactly what I said. Edip: There is a truth.

1:13:03

The messenger: The fact.... Edip: I am ready for this truth. A woman: Maybe you heard it wrong, Edip, and you were... Edip: Isamil Barakat heard it wrong?

1:13:10

A woman: At least now we know that the fact is God did create hydrogen. Edip: I'm happy, if I agree, I am happy. I accept that they made a mistake, now they repent.

1:13:19

The messenger: Behrouz never said "God did not create hydrogen." Behrouz never said that. Edip thought that Behrouz said that.

1:13:26

The messenger: Or Edip misunderstood what Behrouz is saying. As simple as that. Apamea: Why did he say that? The messenger: Nobody.... Apamea: Ok. Edip: Rashad,

1:13:33

The messenger: What? Edip: Are just next to him, you were there, Rashad? You cannot witness what he said The messenger: Yes.

1:13:39

The messenger: Listen, I don't have, I don't have really, I really don't have to be there to know that Behrouz will never say "God did not create hydrogen."

1:13:48

The messenger: Dr. Sabahi. Dr. Sabahi: I guess, Edip, you are making a few mistakes because you are speaking to something that you've already decided.

1:13:57

Dr. Sabahi: You don't give even a one part per million or billion chance that you may be wrong, or you may have heard it wrong, or Satan might have intervened. The messenger: Exactly.

1:14:08

The messenger: Exactly. Dr. Sabahi: And if you dig more and more into it, it is gonna turn ugly.

1:14:13

Dr. Sabahi: Because you want him to say that he said so so that you will be relieved. The messenger: Right.

1:14:20

Dr. Sabahi: And he say that he didn't say so. Edip: Alhamdu Lillah, Dr. Sabahi: Listen, listen, you say that and then again you get... It's not fun but I may... The messenger: Right.

1:14:30

Dr. Sabahi: You have to seriously, all of us, have to seriously think about this and analyze the situation. The messenger: Yes.

1:14:36

Dr. Sabahi: And if you really, really deep down believe that God is the Omnipotent, then He's gonna take care of it.

1:14:43

If somebody is doing something wrong, if somebody has wrong beliefs, He's gonna be exposed The messenger: Exactly.

1:14:48

Dr. Sabahi: if people think that God is capable of it. So, we don't have to take it in our hands. So, let it drop.

1:14:54

You can, you know, cool down, get to your work, and let's, you know, you can discuss the issue, discuss it, find the problem.

1:15:04

But you cannot find the guilt if this is not the cause. The messenger: Exactly. Dr. Sabahi: You cannot find someone. Let God take care of it.

1:15:10

If things are clear, the things that you were worried about, that God is not Omnipotent, I can't see what you think.

1:15:17

The messenger: Mā Shā Allāh. Dr. Sabahi: So, I was surprised that you brought that up. From what I understand this is not the case, here.

1:15:23

These are.... Sometimes you may hear something, I wait, and then say "oh, I made a mistake." You hear it, or somebody made a mistake.

1:15:31

Let them correct themselves. But you are asking too much now. You want someone to come out and say "I made this mistake. I'm sorry. You are right." No, this is not gonna happen.

1:15:43

Behrouz: And I have to I wanna... The messenger: Mā Shā Allāh, I have to, I have to compliment you for... You found out exactly what the problem is.

1:15:50

And you just, you put it really better than anyone can possibly put it.

1:15:59
The messenger: Were you talking? Behrouz: Excuse me. I want to tell Apamea that we all love Edip. And all over the world, they know Edip.

1:16:10
He is knowledgeable. We appreciate it. And I appreciate it myself because I sit there, and he gives a lot of knowledge to me.

1:16:18
Ok? And believe me, I suggested to Mahmoud and Mohtasham from the day that happened, that let's, guys, sit... let's sit down and talk to him.

1:16:30
But God is witness. That was not a day that we could get him by himself.

1:16:36
You were here. We didn't wanna talk to him in front of you. And we all wanted to talk to him, three of us together.

1:16:43
Because if someone talked to him, all the things he says, he says "no." Whatever you say, he says "no."

1:16:49
And then it takes him two days and half "I found out." That say "okay, you're right." But us, me to him, I'm just a stupid.

1:16:58
I don't know nothing. Okay, now see, this is the impression everybody's getting. Everybody to him, everybody does not understand but him.

Ok, thanks.

1:17:07
Now, we tried to help him. Three days in a row, we tried to get him in a corner.

1:17:13
"Hey, this is it, brother." We are worried about you. "Let's repent and forget about it."

1:17:20
And there were seven people witnessing that day. I'm not taking sides. I'm not politician.

1:17:26
If I was, I wouldn't be here. I would have a beautiful job. I would make a lot of money like the others are doing.

1:17:33
I'm not the smart outside. I'm just, my heart is very open.

1:17:40
You will find out later on. And I think this is the reason that I'm here. This is the reason he's here. But when you get over here, you wanna say "hey, I'm this and that." You're gonna lose it.

1:17:49
And this is what's gonna happen. It's going to happen. But we care about him. We don't want this to happen to him.

1:17:55
And I'm sure as much as us, you worry about him more. And so as Naghmeh and other friends.

1:18:01
Apamea: I'm his wife, and I have never seen him opinionated with me. Behrouz: Because you're his wife. Right. Apamea: If anyone he's opinionated with, it's me. I would be the one all the time and he humbles me.

1:18:10
Behrouz: Yes, that's the love. Behrouz: But the love between you and him.... Apamea: So, I can't comprehend the fact that he's being blamed for being opinionated.

1:18:17
Apamea: Because he is so humble. Behrouz: To you it is. Apamea: And he is... Behrouz: If I was his wife, he would be humbling.

1:18:24
The messenger: Edip is in deep trouble. Behrouz: This relationship is different. Behrouz: This is different. The messenger: OK. Behrouz: But to him and me and us sitting over here. We're not proving anything that "I'm smart, you're smart. No, I'm God's...."

1:18:36
Behrouz: Well, unfortunately, this is the impression everybody is getting. The messenger: They cannot... it's Ok. Ok. Let me... The messenger: Let's see what God is saying. Let's see what God is saying.

1:18:44
Wait a minute. Let's see what God is saying.

1:18:49
I wanna reiterate what Behrouz said that we all love Edip. We're trying to step him out of it. He's in deep, deep trouble.

1:18:56
Satan, remember Satan believed in God. Satan knew God. But he was kicked out of God's kingdom because of ego. "If you ever commit idol worship" – Idolizing one's own opinion.

1:19:05
We read on page 465, verse 65, Sura 39.

1:19:10
[39:65] It has been revealed to you,.... And this means every messenger.

1:19:17
[39:65]and to those before you..... every messenger [39:65] that if you ever commit idol worship, all your works will be nullified, and you will be with the losers.

1:19:30
To idolize one's opinion is stated in the Quran as idol worship. Stated very clearly.

1:19:36
Idolize one's opinion means you hold fast to it. Just like Dr. Sabahi spotted it.

1:19:44
And nothing will stand in the way of your opinion. You just hold fast.... This is idol worship.

1:19:52
Everybody knows Edip is a believer. Everybody knows Edip is knowledgeable.

1:19:58
Everybody knows he's sincere. But the danger he's in now is that he may fall into this, 65. He may nullify all his works.

1:20:07
We have to remember that Satan believed in God. And out of love, all of us, we are trying to help him. In fact, they made a committee, Behrouz, Mohtasham and Mahmoud. And they wanted to talk to him.

1:20:20
The messenger: To help him. Not to attack him. Edip: Rashad, what you didn't inquire...

1:20:25
The messenger: Dr. Masoud is trying to talk for a long time. The messenger: Go ahead. Dr. Masoud: As a new believer, Alhamdu Lillah.

1:20:32
One of the side attractions of this place, I call it side attraction, Because the main attraction here for me is God's word, God's message.

1:20:41
The side attraction for me here was the closeness, Dr. Masoud: the family atmosphere that I saw with you. The messenger: Yes. Right.

1:20:48
Dr. Masoud: You know, being from Iran, being a Shia, Shia that they taught us,

1:20:54
I haven't seen anything like this. And this was very, very attractive for me. I brought all my family over here.

1:21:01
But what I saw today in the Khutba, and what I saw today here, is completely different

1:21:07
from what I have been thinking during these past two months of coming over here.

1:21:13
You taught me that the Prophet is a human. I really never thought that the Prophet was human.

1:21:18
I thought Prophet was walking with a halo, you know, over his head. You couldn't see his face. All these things.

1:21:23
I came over here and I saw that the Prophet is somebody like me, and somebody like you. You can talk to him.

1:21:30
You can go and ask him questions. Dr. Masoud: But now you are just completely different people. And this is really, really disappointing. The messenger: This will never change. This will never change.

1:21:37
The messenger: What do you think Behrouz said, and what do you think should be done? Dr. Masoud: I cannot judge on that because I don't know really. I cannot be proactive in what happened over there. So I'm not going...

1:21:46
I'm going to leave these two together. But we are going to go back to the community that Dr. Sabahi was in.

1:21:52
We are going to love each other. We are going to respect each other. And we are going to apologize to each other, every one of us.

1:21:59
For what happened over here today and what we are teaching to our children. The messenger: This is exactly what Behrouz was calling for. He doesn't want... He wants to follow what God is saying

1:22:09
to ensure that we are a family. Because God said the believers are a family. The messenger: Douglas.

1:22:14
Douglas: In Sura 39, verse 18, God says [39:18] They are the ones who examine all words, then follow the best. These are the ones whom GOD has guided; these are the ones who possess intelligence.

1:22:27
And I think that one of the things that Satan's doing here is that he is making people feel that their words are better than someone else's.

1:22:36
What we are supposed to do is that whenever we discuss anything or follow the messenger of God or what have you, the ultimate is always God's words.

1:22:45
Another verse in the Quran is in Sura 58, verse 10. It says, [58:10] Secret conspiracy is the devil's idea, through which he seeks to hurt those who believed.

1:22:55
He seeks to hurt those who believe. [58:10] However, he cannot hurt them against GOD's will. In GOD the believers shall trust.

1:23:03
And I think we all should remember that God says in the Quran that He's aware of the innermost thoughts.

1:23:09
And He will cause to come forth in us all of our weaknesses.

1:23:14
That He will bring out our weaknesses according to His will and that when these weaknesses come out,

1:23:21
if we are really sincere and we worship God alone, we will pray to Allah to face them in ourselves and we will follow what is best.

1:23:31
We will follow and examine the words and follow what is best and we will not try to defend our own weaknesses and our own opinions and our own words.

1:23:41
Because I think all of us do and God knows this. This is an extremely critical time.

1:23:47
Not just this situation, but in a very short time and I think all of us feel this.

1:23:54

The miracle in the Quran, the awareness that Rashad is the Messenger of the Covenant is going to spread like wildfire.

1:24:03

It is going to spread like wildfire. It's almost as if we are on the verge

1:24:08

Douglas: of major events and so the family has to be prepared. The messenger: And Satan doesn't like this. Satan doesn't like it.

1:24:15

Douglas: When you know that people are coming to your house, what do you do? You run and pick up the trash and straighten up and try to make it look good.

1:24:21

We have to be prepared for what is about to take place.

1:24:26

The messenger: Alhamdu Lillah. Let us now turn to God and ask him. God never turns us down. We're going to recite Al-Fātehah that He may keep us all in His path and not a single one in this place,

1:24:35

not a single one is to be driven away from the path of God.

1:24:41

So, we leave it in God's hand. He is the only one who can solve our problems. Al-Fātehah

1:24:46

Bism Allah Arrahman Arraheem (1:1) Al hamdu Lillahi Rabbil 'Alameen (1:2) Arrahman Arraheem (1:3) Maliki Yawm Eddeen (1:4) Eyyaka Na'abudu Wa Eyyaka Nasta'aeen (1:5) Ehdina Al-Serata Al-Mustaqeem (1:6) Serata Al-Lazeena An'amta 'Alayhim Ghayri Al-Maghdoobi 'Alayhim Wa Laddaaleen (1:7)

1:25:06

Our teacher tonight is Apamea. And we are at verse...

1:25:11

What is the verse? Apamea: Only I don't wanna teach... The messenger: Yes.

1:25:17

The messenger: We are at verse number what? Apamea: 130 The messenger: Page 66. Verse 130.

1:25:28

Apamea: Bism Allah Arrahman Arraheem.

1:25:34

أعوذ بِاللّٰهِ مِنَ الشَّيْطَانِ الرَّجِيمِ Apamea: Verse 130.

1:25:40

[3:130] O you who believe, you shall not take usury, compounded over and over. You shall observe GOD, that you may succeed.

1:25:49

[3:131] Beware of the hellfire that awaits the disbelievers. [3:132] You shall obey GOD and the messenger, that you may attain mercy.

1:26:00

I'll stop here. We have discussed in great detail about usury a few weeks ago.

1:26:09

But going back to one of the verses, chapter 2, verse 275.

1:26:17

There is a section about this. [2:275] Those who take usury are in the same position as those who are controlled by the devil. This is because they claim that usury is the same as trade. GOD has made trade lawful, and has made usury unlawful. Whoever heeds this commandment from his Lord, and refrains from usury, he may keep his past earnings, and his judgment rests with GOD. As for those who persist, they incur Hell, they abide therein forever.

1:26:48

This is exactly what God is telling us here. And we should realize what the difference is between trade and usury.

1:26:54

Where usury is lending money at excessive interest and taking advantage of the situation.

1:26:59

Especially in this section where God is teaching us about the war. It was war time.

1:27:05

We have talked about the battle of Badr last week. And some people, because of the economic situation, could very much take advantage of that.

1:27:15

And hurt others. And God teaches us that that is evil.

1:27:21

And the people who commit this wicked act, their place is in the hellfire and they are disbelievers.

1:27:31

And definitely this is given to us many times from God and the messenger confirms it.

1:27:38

And we should attain certainty about it and have... so that we can have mercy from God.

1:27:51

Do you have any comments? A man: I have a quick comment. A woman: He has a comment.

1:27:56

A man: The very concept of usury. Usury as a practice...

13 Quran Study From Behrouz 313 Sura 7;12 By Rashad Adam & Eve's Body 12 24 1989

Dr. Khalifa: أعوذ بِاللّٰهِ مِنَ الشَّيْطَانِ الرَّجِيمِ Bism Allah Arrahman Arraheem The Test Begins.

0:07

[7:12] God said to Satan, "What prevented you from prostrating when I ordered you?" He said, "I am better than he; You created me from fire, and created him from mud."

0:24

So, this verse obviously is after the rebellion, and after deciding to give the human being

0:32

a body, this body that's made from the earth's material, and giving Satan a body made from energy,

0:40

or made from fire, literally. If you go many, many years before that, Satan thought he can be a god beside God, and this

0:54

created the different opinions among God's creatures in God's kingdom, where the vast majority upheld God's absolute authority, and the tiny minority agreed with Satan to different degrees.

1:08

And after that, God decided to call Satan's bluff, and make him, give him a dominion and constituents.

1:15

Those who agreed with him are to become his constituents, and the planet Earth is to become his dominion.

1:24

And the plan called for, in fact, this was after putting all those creatures to death.

1:32

And then, this verse here has to do with telling the angels that they will serve the human beings

1:45

on this earth. They drive the wind, guarantee the provisions, guard them, serve them,

1:52

because they serve us. Angels serve us, even though we are the rebels, and they are the ones who upheld God's absolute authority, but they are participating in the plan that God is carrying out.

2:04

And this is exactly why we were talking about this last night, where they beat up the disbelievers at the end.

2:13

Because they served them with the hope that they will come back to God's kingdom.

2:18

They will redeem themselves. They will repent. They'll apologize for the mistake they committed.

2:25

But then, when the life comes to an end, and the person is a disbeliever, then they beat him up, because

2:31

they served him all this life, they provided him with all the means to redeem himself,

2:39

but then at the end he died as an unappreciative of God. So, we understand all this by looking at this verse.

2:49

So, "what prevented you from prostrating" means you are not cooperating, you are not participating

3:00

in serving the human being.

3:06

This may indicate also that Satan did not want to guarantee the happiness and welfare of any human being.

3:14

He wanted to keep his options open, because he is supposed to act as a god,

3:22

meaning, he is supposed to make everybody happy and wealthy and healthy and perfectly alright.

3:29

But he didn't want this guarantee. He wants to be free to punish whomever he wills, persecute whomever he wills, and help

3:38

whomever he wills. So, this is why he did not prostrate before the human being.

3:49

When God told him that he will be a temporary god, this meant that he was supposed to take care of his constituents and make them perfectly happy.

3:55

So, maybe he wanted some exit in case he cannot do it. "oh, I'm just persecuting god."

4:03

But of course, his failure is glaring now. Number 13, [7:13] God said, "Therefore, you must go down, for you are not to be arrogant here. Get out; you are debased."

4:18

So, this is a confirmation of his dismissal from God's kingdom. Number 14,

4:26

[7:14] Satan said, "Grant me a respite, until the Day of Resurrection."

4:33

[7:15] God said, "You are granted a respite." [7:16] He said, "Since You have willed that I go astray,* I will skulk for them on Your straight path.

4:54

In this verse 16, Satan acknowledges that everything happens in accordance with God's will.

5:00

And it is God's will that we will, that we have a free choice. God willed that we will.

5:07

And that all His creatures will, because this rebellion indicates that God's creatures have freedom of choice.

5:15

In fact, the very first verse we read indicates that God's creatures can say "no."

5:24

God said "fall prostrate," and Satan said "no, I will not." So, it indicates, if this did not happen, we would never know that God's creatures have freedom of choice.

5:39

So, Satan said, in number 16 here, [7:16] "Since You have willed that I go astray,* I will skulk for them on Your straight path.

5:46

[7:17] "I will come to them from their front, from their back, from their right, and from their left, and You will find that most of them are unappreciative."

5:59

Okay, 17, 7:17, remember this verse, because you will see it.

6:06

We experienced it, and we see it all around us, that Satan comes to the human being from

6:11

his front, back, right, and left, and never runs out of tricks to divert us.

6:24

This place right here is his number one target. Because people come here, and what do they come here for?

6:31

They come here to worship God alone, uphold the word of God alone. This is exactly what Satan does not want.

6:37

And he will put up all kinds of obstacles, and all kinds of tests, persecutions, in many, many different and strange ways.

6:54

It is good, because this guarantees that all God's people are solid believers.

Satan wants to show "some humans are worse than Satan" example how people argue about Quranic letter counts.

7:01

They're unshakable, no matter what happens, or who says what.

7:10

[7:17] "I will come to them from their front, and from their back, and from their right, and from their left, and You will find that most of them are unappreciative."

7:18

I think one of Satan's objectives is to show God that some humans are worse than he is, than Satan.

7:26

And it's true. Some humans out-satan Satan.

7:33

Satan is hoping that God may have mercy on him when He sees that some creatures are worse than he is.

7:46

I recall this fellow, when I was talking in Los Angeles, and this

7:53

professor at Chicago Seminary came out and gave a talk that the Quran is hallucinations by Muhammad.

8:00

And immediately after him, I gave a talk that the Quran could not be the word of human being. It has to be

8:06

the word of God, and here is the physical evidence. And I gave some details of the miracle, including the total of the numbers in the Quran.

8:18

When you take all the numbers mentioned in the Quran and add them up, the total is divisible by 19. So, these people from the American Islamic College in Chicago, also the same city,

8:33

they stood up and instead of attacking Dr. Hamilton, they attacked Rashad Khalifa. They attacked me.

8:40

The guy who said "the Quran is hallucinations by Muhammad" is okay. But the person who stood up to say "the Quran is the word of God," they attacked me and they said

8:51

"you didn't count the Shadda (geminate), Arrahman. There is a Shadda on the RA. You must count two RAs.

8:57

"Muhammad (محمد) is five letters." Well, he had written before that, that Muhammad is five letters.

9:06

And I think his objective was because in the appendix 2 or I had published that if you add Ibrahim, Muhammad, and Rashad, the values of this and that, so they want to mess this up.

9:17

And he wants Muhammad (محمد) to be written Muhamamad (محممد). You know, two Ms. So, when he stood up and mentioned his name, I said "oh, you're the fellow who thinks Muhammad should be five letters."

9:27

And even the Americans laughed, who are not Arabic speaking people. He said "yes, if you put five coins on top of each other and you look at them, how many do you see?"

9:38

The messenger: I said "it depends on the angle." A man: It was very quiet, just hundreds. The messenger: Yeah.

9:44

A man: By the way, the sequence of talk was just, I mean, Dr. Hamilton was talking before Dr. Khalifa and nobody knew,

9:56

I mean, everyone was gonna talk about. He went and talked about

10:03

Quranic hallucinations of Muhammad, exactly before Rashad talked, and then Rashad went

10:11

immediately after him. I mean, who put that order? Dr. Khalifa: Who planned it this way? A man: And how many people were talking, that was three days seminar or something. Dr. Khalifa: Yes.

10:19

A man: It was three days and they put people at random. You know, they didn't organize it. It was not the chairman who organized it, they didn't even know who he was.

10:28

Dr. Khalifa: Yeah, they thought the, they thought the chairman of the session was me.

10:34

They were about to kill him, you know. Atif was there and Ihsan was there. A man: So, he finished all his games and just he was expecting everybody to be angry and mad and he gets Rashad.

10:45

And he throws his last coin and said "oh, aren't you the one who's saying you are a messenger?"

10:51

And he got up while everybody's sitting there, then he goes and said "repeat." "You gotta give me one", you know. And he said "yes." He did it. And you know, I think the guy was just,

11:00

you know, not getting for what he did. "Oh, he was the one who's saying he's a messenger of God."

11:06

You know, I was just listening, and I'm sure the guy was shocked. He was expecting a revolution, a coup, and all that.

11:16

I think he finished all his arguments and no response from the audience, he said "oh, you're the one who's saying you are a messenger.

11:22

Dr. Khalifa: You're right. A man: He was looking for that. He was trying to get his point... Ihsan: But then he ran away, you remember, when he didn't see anything.

11:30

Dr. Khalifa: He rushed out so fast, Ihsan thought he was going to get a gun or something and she got worried, and I said "don't worry, Ihsan. I think the angels gave him a diarrhea or something." Because he rushed so fast.

11:41

Ihsan: I will never saw him, again. Dr. Khalifa: He rushed so fast, he had a blind man with him. of course they're all blind, but this one, also his eyes are blind, not just his heart.

11:50

And he was helping this blind man. He left his blind friend and ran, and never saw him again.

11:58

Dr. Khalifa: Rasool. A man: Some of the audience was very (unintelligible).

12:05

A man: Because every time (unintelligible) Rashad, (unintelligible) he did

12:10

If you look in the Quran, you count Qaf, for example, two halves are in the Quran (unintelligible).

12:15

So, you count them, let's say, 59. Khalifa counted 57,

12:21

You see in this way, let's say you're right. But he's also right. Now, Rashad Khalifa's 57 has a miracle with it. He counts 59, he has no miracle with it.

12:30

So, if you go really fair, if you count it Rashad's way, it's 57, if you wanna count it your way, you can count it your way.

12:37

A man: It doesn't come out... Dr. Khalifa: You have nothing. A man: There is no Qaf there to count. A man: I feel it was so fair, at least one of them found it. Dr. Khalifa: Yeah.

12:45

A man: Don't be upset, he counted that he was right, it was 57. And you wanna count it, he counted 59, but it...

12:50

Dr. Khalifa: Yeah, he said "if you consider there are two methods of counting. One of them is what your eyes see, which is what Khalifa is suggesting.

12:56

And one is your way. If you wanna count the Shaddas as 2, fine. Go ahead and do it.

13:02

Dr. Khalifa: Because some... he looked Pakistani or Afghani or something, one of the professors.

13:08

Ihsan: I think he was Iranian. Dr. Khalifa: Could be. Ihsan: His accent was Iranian, he looked Iranian. Dr. Khalifa: Yeah, Anyway, so he said... it's like having two boxes, one is full of jewels, one is full of garbage. Open the one you like.

13:20

You open this box, there's lots of jewels. You open this one, there's a lot of garbage in here.

13:29

A man: (89:14) إِنَّ رَبَّكَ لَبِالْمُرْصَادِ Dr. Khalifa: So, this fellow is worse than Satan. He would out-Satan Satan. That's for sure.

13:35

I mean, what are we trying to say? We're trying to say "the Quran is from God, and here is physical evidence." What is he trying to do? He's trying to destroy it.

13:43

Now, I mentioned the numbers specifically, because it has nothing to do with spelling. A man: Yeah.

13:51
Dr. Khalifa: Yeah, no, Edip's discovery of the Al-Fātehah has nothing to do with spelling or writing. It was nothing.

13:56
Because sometimes they say "oh, the Quran is oral." Well, it's right there, written.

14:02
One of their big things, I'm sure you heard that, they say "the Quran is oral." Have you heard that argument? A man: Yeah, "It was memorized."

14:10
Dr. Khalifa: Yeah, transmitted orally. A man: Orally, and then later on... Dr. Khalifa: Right, so I asked him "what was the first word they were revealed in the Quran?"

14:20
(96:1) اقْرَأْ Read. What is it, read lips? Even now, if they read lips, it's 19 times when you read Al-Fātehah.

14:31
So, God is killing all the excuses. The first revelation... excuse me.

14:37
A man: It could be all of us. You can count them. A man: (unintelligible) to count them right. Dr. Khalifa: Yeah.

14:43
A man: But Edip's discovery is blown out. Dr. Khalifa: Right. A man: And I think it was probably because he was tampering because he was describing some (unintelligible)

14:53
one day, who will find more and more. Dr. Khalifa: The first revelation spoke about IQRA' and the pen. A man: Yeah.

15:01
Dr. Khalifa: (96:4) اَلَّذِي عَلَّمَ بِالْقَلَمِ He taught by means of the pen. Dr. Khalifa: So, what do you do with the pen? A man: Yeah.

15:06
(unintelligible). They have... and the second revelation was entitled the pen.

15:15
The first revelation is "read", and it had "the pen" in it. And the second revelation was the pen. Obviously, God knew they will say that.

15:23
So, they will do anything to destroy God's miracle. A man: They have a Hadith that says, "read." "I can't read." Dr. Khalifa: Right. Yes.

15:34
Ihsan: We found it in the Bible, by the way. Dr. Khalifa: Yes. Dr. Khalifa: (unintelligible) The Bible, the book of Isaiah.

15:42
It said "the angel came to the unlearned man" or something, "and told him, read." "He said I cannot read."

15:49
A man: Very strange. Dr. Khalifa: Very strange. A man: Book of Isaiah? Dr. Khalifa: Yes. Keikhusro found it. The Book of Isaiah. Ihsan: Yeah, I have a copy with that.

15:56
Dr. Khalifa: It's exactly the story they gave us in Hadith. They probably took it from there.

Hadith's taken from Bible stories. Talk of out of body experience.

16:03
There were many things taken from the Bible. Ihsan: Yes, in a book of Hadith about Heaven having...

16:10
Dr. Khalifa: Like the Hadith about Heaven having, what, an eye never seen, and the ear never heard, and never imagined by a human being.

16:17
Word for word, I saw it in the Bible. Ihsan: Then, God said "okay, go and study, come back."

16:25
Dr. Khalifa: Go learn how to read and write, and come back. 18

16:32
[7:18] God said, "Get out therefrom, despised and defeated. Those among them who follow you, I will fill Hell with you all.

16:40
[7:19] "As for you, Adam, dwell with your wife in Paradise, and eat therefrom as you please, but do not approach this one tree, lest you transgress."

16:50
Now, we know that all descriptions of Paradise or Heaven are allegorical.

16:56
So, "do not approach this one tree" is probably a law that God gave to Adam and Eve to uphold.

17:02
And the law is symbolized by the tree. But we learn from this, 19, 7:19, that Heaven exists.

17:15
It was created. Then, when God created the seven universes, and it still exists today, and the righteous go straight to it. They do not die.

17:26
20 [7:20] The devil whispered to them,... Satan started to work on them.

17:33
[7:20]in order to reveal their bodies, which were invisible to them. He said, "Your Lord did not forbid you from this tree, except to prevent you from becoming angels, and from attaining eternal existence."

17:47
So, one of the tricks of Satan is lying. He's a liar. This is a lie.

17:56
And this is why those who are fighting us are lying right and left.

18:03
It's God's law that they argue against the truth with falsehood.

18:09

In other words, they're following their teacher, Satan.

18:26

This is good. If you look at page 467, verse 5 says,

18:35

[40:5] Disbelieving before them were the people of Noah, and many parties after them. Every community attacked their messenger to neutralize him. And they argued with falsehood, to defeat the truth. Consequently, I punished them; how terrible was My retribution!

19:01

So, they're just following the steps of their master, Satan.

19:08

[7:20] The devil whispered to them, in order to reveal their bodies, which were invisible to them. He said, "Your Lord did not forbid you from this tree, except to prevent you from becoming angels, and from attaining eternal existence."

19:23

So, what is the story of their bodies? Where were their bodies? They were down here on earth.

19:29

They were up in Heaven, and their bodies were here on earth. And this is something that happened to me personally, I'm passing on this information to all of us.

19:40

But apparently it happened often. It happened when the Prophet Muhammad was taken to receive the Quran,

19:48

He was taken to a different place, which is even farther than Paradise, but he also visited Paradise.

19:56

We see this in Sura 53:17, 18.

20:04

17 where he saw the tree that Adam and Eve ate from.

20:17

It happened to Ihsan. This definitely happened to you when you were fired from your work.

20:26

Dr. Khalifa: Do you know the story of Ihsan? A woman: No. Dr. Khalifa: She was working, she was talking to Aunt Margaret in Sweden on the telephone.

20:35

And all of a sudden, people came in, they saw her incoherent.

20:45

So, they took her to the hospital. They called her children. Both of them are doctors, and of course they're thinking in terms of this world, what was it, a stroke? Is it a heart attack? Is it....?

20:56

But she was like she's not here. She was walking. She walked with them, went to the hospital.

21:02

Meanwhile, she... what did you see? You saw a gathering of a lot of people, and a tall, huge figure that she understood to be Abraham.

21:16

This is interesting because the only prophet who was identified to me was Abraham, also.

21:23

And when she came to, she was in the hospital, and she.... now take it from there. What did you see?

21:30

Dr. Khalifa: What happened? Ihsan: I think it's a confirmation for us, because, no, because then when I told him that, then he told me about it.

21:39

They were taking me now where there were all the prophets and (unintelligible).

21:45

Ihsan: And Behrouz also saw the same big figure. Dr. Khalifa: But that's....

21:52

Dr. Khalifa: We always have confirmation, Alhamdu Lillah. This coming Friday, Behrouz will give the Khutbah, and he will tell us about confirmation of how the revelation comes.

22:02

That's another issue. But when you came, in the hospital, you opened your eyes and you were in the hospital. Then what was the first... your first question was what?

22:10

Ihsan: I never told.... I was talking to them. I talked to my daughter, called her on the phone. I was in the....

22:17

She told me that I told her.... Dr. Khalifa: No, you didn't call her on the phone. You gave the phone number to somebody and they called her.

Ihsan: Yeah, but they called, they put me on the phone. I (unintelligible)

22:25

They couldn't even write anything, sign anything. They have no idea what I was in there at all.

22:31

My body was there. I was talking, but at the same time I was somewhere else like, My soul was somewhere else.

22:38

And I saw a gathering of all, it seems like they are all prophets and messengers, I think.

22:46

I could see their faces. They were taking someone that was huge, and very tall, and very proportionate, like the statue of liberty, or maybe more.

22:58

And they were all saying five words, almost the same, clothes, and poems, or fashion.

23:07

Everyone, I mean, always, and he was back, but I knew that he was talking to them.

23:15

Dr. Khalifa: But they were not prophets, Ihsan. You said they were just people, millions of them. Ihsan: Yeah. A lot of people, but he was the one speaking. I think now that maybe they are.

23:26

Dr. Khalifa: There aren't, there aren't that many messengers. Ihsan: They were like a square, (unintelligible). And the guy came, and he was talking to them.

23:39

And I was, and to me at the same time, I was talking to (unintelligible)

23:49

I didn't see my parents, but I was... yeah.

23:55

Dr. Khalifa: What was the first question when you came to in the hospital? I just wanna say what, how the bodies on earth feeling.

24:02

Ihsan: (unintelligible) Ihsan: (unintelligible) "You killed us" "you're killing me."

24:09

Dr. Khalifa: He scared us to death. Ihsan: They were all crying. I have...

24:15

"I don't know. Why am I...? What is this? Who's sick?"

24:21

He said "there's one in hospital, there" Dr. Khalifa: "Why am I in the hospital?" Ihsan: Yeah, I don't know what it was.

24:28

There were two things happened at the same time, something with me and something on the earth.

24:35

Dr. Khalifa: So, you were talking to Anne Margaret on the telephone. Ihsan: Yeah. Dr. Khalifa: Next thing you know, you're in the hospital.

Ihsan: Yeah. So, you told them "what is going on? Why am I in the hospital? What's happening?" What did they say?

24:45

Ihsan: They said that I was... that "they were called and they talked to them" they said. And they put me in the car and took me to the hospital.

24:55

I mean "what's happened? what's happened? (unintelligible)"

25:01

I said I told something to my son but he was not quite awake yet.

25:06

(unintelligible)

25:15

Dr. Khalifa: Did you get scared? Did you get scared? Ihsan: Yeah. Ihsan: I didn't know what was going on. I had to call everybody and tell them "I'm not...What did they tell you the last thing?"

25:24

She said "I have to go. I have to go." I have to go enjoy, but I had already prayed.

25:29

(unintelligible) I said "I didn't have to...." (unintelligible).

25:36

We were talking to three people. She said "we were crying, crying, crying, crying and you said "I have to go."

25:46

Dr. Khalifa: Ok. There was some example of having good formation of having the body here and the soul somewhere else, wherever that is.

25:54

A man: So, when the God asked the Satan to prostrate, He's basically saying "prostrate with just the body, not the soul." Dr. Khalifa: Right.

26:07

Dr. Khalifa: This is the idea of prostrating to the human being. (Unintelligible).

26:16

Dr. Khalifa: Well, the plan was clear to everybody and so.... because from this, the information that God gave us, everybody knew what the plan was.

26:30

A man: And what was the plan? Dr. Khalifa: That all the rebels are put to death and will be brought to this world and the angels will serve them

26:40

and guard them and then after the test is over, everybody will be either redeemed to God's kingdom or sent to Hell.

26:50

A man: If it was the plan, Satan was also part of the plan and then as he said "God willed him to be like this", so he's really innocent.

27:00

Dr. Khalifa: He's what? A man: He's really innocent. God willed him.... Dr. Khalifa: Yes, he's trying to blame it on God.

27:06

Dr. Khalifa: But God gave him the freedom to choose. Because everything ultimately is in accordance with God's will.

27:16

In other words, he's telling God "You could have made me obedient." God doesn't want robots.

27:23

And it's not up to Satan to decide that. And we know the law that God does not inflict an atom's worth of injustice.

27:39

So, as God is revealing more and more of His information and we're understanding the total picture

27:45

more and more, but what in 20, "the devil whispered to them in order to reveal their bodies"

27:52
because their bodies were down on earth and he wanted them to get out, get evicted from Heaven and go down to their bodies which actually happened.
Debate on location of Adam and Eve's body.

28:02
The minute they broke God's law, they were sucked into their bodies down here on earth.

28:10
Also at the beginning of the plan, since Adam and Eve didn't do anything wrong under the new circumstances,

28:17
they deserved to be in Heaven until they committed disobedience.

28:24
In other words, they listened to Satan. Therefore, they belonged in his kingdom which was prepared down on earth.

28:30
As long as they listened to God, they were in Heaven. The minute they listened to Satan and ate from the tree, they went down to Satan's kingdom.

28:39
A man: Also, their bodies (unintelligible) Dr. Khalifa: Yeah.

28:47
A man: (unintelligible) Dr. Khalifa: That's a good point.

28:57
Dr. Khalifa: That's a good point. Let's see, [7:21] He swore to them, "I am giving you good advice."
29:05
which is a lie. [7:22] He thus duped them with lies. As soon as they tasted the tree, their bodies became visible to them, and they tried to cover themselves with the leaves of Paradise....

29:18
A man: (unintelligible).

29:25
Dr. Khalifa: No, of course, there were gardens here on earth as well, but we have to,

29:30
we have to look at this (7:22) وَالْجَنَّةِ the expression in Arabic is الْجَنَّةِ which is the same expression where they were.

29:40
(unintelligible).

29:51
Yeah, maybe their bodies were up there in Heaven not down on earth. Ihsan: But also جَنَّة was mentioned for garden.

30:00
Dr. Khalifa: No, but see, the word that's the same word that is used. Yeah.

30:05
الْجَنَّة The Jannah, the Paradise.

30:13
Also,... (unintelligible).

30:19
Go down there from. Just that the way I have it in the movie script that I wrote that God sent the angels to bring a couple hundred pounds of

30:31
of mud from the planet earth and took it up there. And who was asking about falling prostrate before the body, (unintelligible)?

30:45
So, this had to be up there. A man: Yes, the body must be up there because after this, God says "go down on the earth."

30:52
Dr. Khalifa: This, Ihsan just said in Arabic, yeah. So,... A man: (unintelligible) Dr. Khalifa: Yes.

31:00
A man: But no, actually, (unintelligible). A woman: If the prostration happened in the Heaven, then they can go down.

31:11
Dr. Khalifa: Then, we shouldn't put physical limitations on the body going up there or coming down here. If God wants to

31:18
move the bodies from the earth to Heaven, He'll do that.

31:23
So, we have to just keep this, reconsider this the position of the bodies whether they are down here on earth or up there in Heaven.

31:31
But this is a good point, Asif, that covering their bodies with the leaves of Paradise.

31:38
A man: Would the Arabic word for body have a different meaning or is it very specific?

31:44
Dr. Khalifa: No, it's very specific here. This word is used in a few places like when Adam's sons, one killed the other one, they said "bury the body."

31:53
It's the same word. A man: They mistranslated this one. Dr. Khalifa: سَوَّءَ Dr. Khalifa: Hmm? A man: Other Tafsirs translated this..., other Tafsirs.

32:01
Dr. Khalifa: What did they say? A man: They said here (unintelligible). Dr. Khalifa: Oh.

32:16
(unintelligible).

32:23

Dr. Khalifa: Okay, in 24 it says "go down as enemies of one another." It says "go down." So,
32:30
obviously this is after the... after they saw their bodies.
32:37
So, this is shaping up as having the bodies up there. Then, maybe my movie script is correct.
32:48
A man: (unintelligible) Dr. Khalifa: IN SHAA ALLAH.
33:02
Dr. Khalifa: No, it's good. Dr. Khalifa: (unintelligible). The word is (unintelligible). A man: (unintelligible) soul. body. When the body... Dr.
Khalifa: Yeah.
33:16
Dr. Khalifa: No, but the body was invisible to them. Their bodies were invisible meaning they were in a different dimension.
33:24
It's like we don't see the angels or the jinns now who are right here with us. But they are in different dimension.
33:30
A man: You know, when God created Adam, (unintelligible).
33:35
When He (unintelligible) Adam, you know. Well, Subhan Allah (unintelligible) body. So, when He told angels "I'm creating..."
33:46
Dr. Khalifa: A human from clay. A man: (unintelligible) He makes the body from the mud
33:54
Dr. Khalifa: Yeah. Now I'm... looking at this that they cover themselves with leaves of Paradise is very significant
34:01
and then followed by "go down as enemies." So, go down after seeing their bodies means their bodies are up there.
34:08
A woman: Isn't that like when we go to the space, we don't feel our weight but we have the weight?
34:15
Dr. Khalifa: No, but see the body has to be protected somehow. Of course, God will do that. A woman: I mean they had the body but they
didn't know that. I mean, they couldn't...
34:24
Dr. Khalifa: They couldn't see them. Yes. Their bodies were invisible to them. This is... A man: Also, when you were taken up, something you
saw the other prophets, you know, their bodies...
34:36
Dr. Khalifa: Yes, they looked like the way they looked here on earth. Edip: Rashad, the Arabic expression
34:43
لِيُبَيِّنَ لَهُمَا مَا وَدَّعْنَهُمَا مِنْ سَوْءٍ تَهُمَا وَقَالَ مَا تَهْنَكُمَا (7:20) رَبُّكُمَا
34:54
Edip: Their bodies. Maybe, part of their bodies, that's why they see their bodies.
35:01
Dr. Khalifa: No, that's because.... Edip: Because there's a reason (unintelligible).
35:06
A man: (unintelligible) (7:20) لِيُبَيِّنَ لَهُمَا مَا وَدَّعْنَهُمَا مِنْ سَوْءٍ تَهُمَا A man: Some parts was, you are aware of how the.... some parts you are aware of.
35:17
Dr. Khalifa: Yes, what you're thinking, yes. No, it... A man: (unintelligible).
35:25
Dr. Khalifa: No, because when you go back let's see... Dr. Khalifa: (7:22) بَدَتْ لَهُمَا سَوْءُهُمَا means the body was invisible. The whole body was invisible.
35:31
didn't say: (7:22) بَدَتْ لَهُمَا سَوْءُهُمَا means the body was invisible. The whole body was invisible.
35:40
Because if you look, if you look at what's the verse number here?
35:46
27, 22 excuse me, 22 says "their bodies became visible to them."
35:53
(7:22) بَدَتْ لَهُمَا سَوْءُهُمَا Edip: Oh, yes. The thing means... Dr. Khalifa: But مَا وَدَّعْنَهُمَا does not imply a part of the body.
36:03
Edip: (unintelligible). Dr. Khalifa: Right. So, their bodies, their whole bodies were invisible to them. They were in a different dimension and
we're talking about souls.
36:15
Until they ate from the tree or until they broke God's law, then their bodies became visible to them.
36:20
They moved to another dimension. In this dimension, they can see us, we cannot see them.
36:33
A man: Who's them? Dr. Khalifa: Angels, jinns, God.
36:42
It's in another dimension. But it's interesting that they could not see their bodies.
36:49
A man: (unintelligible).
36:55
Dr. Khalifa: Their bodies were far from them. A man: I just wanna (unintelligible) for the body (unintelligible).
37:05
Dr. Khalifa: Ecstasy. A man: Yeah, ecstasy. (unintelligible)

37:11
Dr. Khalifa: You know, we're in this dimension, if we have out-of-body experience, we'll see the body.
37:16
A man: (unintelligible)
37:21
A woman: Is it actually invisible or (unintelligible)? Dr. Khalifa: No, hidden from you. The word is hidden.
37:33
A man: Some interpretations, they say the eating the apple (unintelligible). Allegorical.
37:48
Dr. Khalifa: Yeah, they knew that Satan lied to them. That's for sure. Edip: Yes, (unintelligible).
37:59
Dr. Khalifa: I would leave the location of the bodies hanging until God... Maybe, God will want us to know exactly where their bodies were, but
38:10
it seems like they were up there, but maybe in a different location up there. A woman: If it wasn't there, we wouldn't have the "invisible." When
it says "invisible", it should be there.
38:22
Dr. Khalifa: Yeah. A woman: It's like I have a hat. When I wear my hat, I'm invisible.
38:27
When I'm invisible, it doesn't mean I'm not here, I am here, but I am invisible. Dr. Khalifa: Well, it could be anywhere, but the fact that they
cover themselves leaves of Paradise and after that God is telling them, in 24, "go down",
38:42
this means it happened, it all happened upstairs. Alhamdu Lillah.
38:48
A man: One more question. We're created from mud...
38:55
Dr. Khalifa: and water. A man: (unintelligible) Adam
39:06
Dr. Khalifa: "because You created him from mud." like I said, the God's plan was already known.
39:11
So, God said "I will give him bodies made of clay. I will give you bodies made of fire."
39:18
So, they knew that difference. A man: (unintelligible).
39:28
Dr. Khalifa: Before that, we were all creatures of God and I'm sure we were of different ranks
39:34
or jobs, put it this way, responsibilities, different degrees of...
39:41
A man: (unintelligible).
39:50
Dr. Khalifa: God created the heavens and the earth. The whole earth was new, came from nothing and so did the human bodies.
39:57
Even the souls were created. (39:62) **قُلْ اللَّهُ خَالِقُ كُلِّ شَيْءٍ** God is the Creator of all things.
40:04
A man: (unintelligible). creating Adam
40:21
Dr. Khalifa: Say it again. Say the question again. A man: The souls were there, souls of Adam and Eve were there...
40:27
Dr. Khalifa: Oh, yeah. Definitely. Because God gathered all, all of us and had us witness Him as our Lord and Master.
40:37
A man: (unintelligible). Dr. Khalifa: God assigns... Let's think of a human being being born right now. God takes one of the souls
40:47
that have been put to death and assigns it to that body.
40:52
So, the process is happening now. It happened then except Adam and Eve had to be... Adam had to be created initially.
41:01
And then after that is the human reproduction and baby that is born gets a soul assigned to him or her. Obviously, God wanted this story to
41:15
the details to be revealed over a long period of time. Every piece of it is timed.
41:22
And usually God puts the details in such a way that it will give to every generation a satisfactory explanation.
41:31
A woman: (unintelligible).
41:38
Dr. Khalifa: [7:27] O children of Adam, do not let the devil entice you as he did when he evicted your parents from Paradise. He removed their
garments to expose their bodies. He and his tribe see you, while you do not see them. We appoint the devils as companions for those who do
not believe.
41:56
What do you understand, Cecilia, from this? Cecilia: (unintelligible).
42:09
Dr. Khalifa: Well, the government of righteousness, remember? Cecilia: And so the government of righteousness (unintelligible).
42:29

Dr. Khalifa: Well, let's read... yeah, go ahead. A man: I was reading in the book a few years ago and this reminds me in that book,
42:41
it was going to explain how our physical body in this three dimensional world is actually that
42:51
quality or the lowly part of all qualities when we are saying, when we are attached with this
43:01
three dimensional world like a person in the ocean that he wants to swim and talk and have some oxygen,
43:09
I mean like a person that is like a big (unintelligible).
43:17
Now we're saying that we were in Paradise and we were like a soul.
43:24
And as soon as we disobey God's law and we eat from that tree, right there, as a punishment of that work
43:37
A man: (unintelligible) Dr. Khalifa: Yes. Dr. Khalifa: That's a good simulation. A man: Their body was
43:45
A man: ...exposed, our body, as if it was something that made trouble for us and as a punishment appeared with us and
43:55
we became a physical being instead of a soul.
44:02
Dr. Khalifa: Well, I think let's, just for the, it will be, I think, sufficient for us. Maybe, this is what God wants us to know at this time is that they
were out of their bodies.
44:13
Their bodies weren't visible to them. They were in Heaven. Everything was perfect.
44:18
The minute they broke God's law, they were back into their bodies. Then, their bodies became visible just like as we are now.
44:27
But before this happens, until they broke God's law, they were free, they were in Heaven. Because the body is not anything really, so...
44:37
like when the righteous go to Heaven, what happens? They leave their bodies and they go to Heaven. And Heaven is fantastic. They're having
a lot of fun.
44:47
So, this is the way Adam and Eve were. When they broke God's law, they were trapped into their bodies.
44:56
And then their bodies became visible to them. Now, what we were not sure about was where exactly were their bodies
45:05
that were not visible to them. We didn't pay attention to that. Edip: Rashad, this Paradise, Heaven may be changed to earth at that time
because...
45:19
Dr. Khalifa: No, no, no, there's no possibility of that because people go to Heaven now. So, where do they go?
45:26
Edip: There are many Paradises now. Dr. Khalifa: No, it's Al-Jannah. It was one Jannah that Adam and Eve went to.
45:40
Dr. Khalifa: There's no Jannah on earth. I can tell you that. Edip: There's one another question that always I wonder.
45:50
What is the answer to this? What is the existence of Adam? The existence of Adam starts from creation of
46:04
(unintelligible) or before that.
46:10
God doesn't mention the first creation before Adam.
46:15
Edip: Because our first understanding is that... Dr. Khalifa: 172 in this same Sura
46:25
[7:172]They all said, "Yes. We bear witness." Thus, you cannot say on the Day of Resurrection, "We were not aware of this."
46:32
When did this happen?
46:37
Dr. Khalifa: Yeah, Edip. When did this happen? 172.
46:52
Edip: It's not the creation of Adam. Dr. Khalifa: No, it couldn't be.
46:59
See, at the creation of the body of Adam, the clay body of Adam, all the humans were dead. They were already put to death as we see in Sura
67.
Explains why God created death and the REAL LOCATION of the body – the issue is settled.
47:10
Ok. We have, we have to put the pieces together. Now, Let's look at 67, page 562 verse 2.
47:31
[67:2] The One who created death and life for the purpose of distinguishing those among you who would do better.*
47:39
So, God created death. Now, the way I see it now, understand it now, is
47:48

when we rebelled against God, God put us all to death, the first death, remember?

47:57

Two deaths for the unrighteous, one death for the righteous. We were all put to death with the stipulation that we'll be brought into this life at the specified time

48:06

and given the chance to redeem ourselves. So, when you go back here to 172, God says He summoned all the human race before Him.

48:18

Obviously, they were not dead yet. And He told them "am I not your Lord? And we all bore witness that He is our Lord.

48:27

So, these are some of the things that happened before the creation of Adam's body.

48:36

And Adam was included in this 172. He was just one of the human beings.

48:41

So after this was done, and the natural instinct of worshipping God alone was put in us, we were all put to death,

48:49

and then the plan, the execution of the plan started. God created the body of Adam from clay, told the angels "fall prostrate before this body. You're gonna serve."

48:59

And then, God assigned one of the humans, who happens to be Adam, to this body.

49:04

Then, Eve was assigned to the clone. God cloned a body from Adam's body,

49:11

and assigned the second human being, Eve, to that body, and then told them... you know the rest of the story.

49:19

Edip: There's a word that's confused, Rashad. There's a word "creation." "Creation", I don't know.

49:25

Dr. Khalifa: No, I said "create the body." Edip: Right. Yes. Edip: But when we translate in Turkish, "creation" means just from nothing, just create. The creation of Adam starts from this... Dr. Khalifa: Right. Right.

49:39

Dr. Khalifa: No, remember the body, create the body of Adam. But before the creation of the body of Adam, Adam existed.

49:45

Edip: I think it's not a form of Adam, because KHALAQA... Dr. Khalifa: No, the creation of body, the creation of Adam's body, yes.

49:54

Creation of Adam's body, I'm very careful with this, because before the creation of Adam's body, Adam existed.

50:01

If you wanna go back to the very beginning, God created Adam, and you and me, and every other creature, initially.

50:08

And we were all wonderful in God's kingdom until the great feud happened.

50:14

Edip: Now, I found an answer to this question. Dr. Khalifa: Let's have it.

50:20

Edip: Adam didn't exist before the expression would be in this way, God created the creatures, and then named him Adam.

50:29

Dr. Khalifa: Right, there you go. There you go. Yes. Edip: I think this is it.

50:34

So, when we put all these pieces together, it's obvious that God created all the creatures.

50:40

They were all in His kingdom. Everything was going nicely, until the feud happened. The feud happened when Satan had these ideas, and then the creatures had different opinions,

50:52

the vast majority upholding God's absolute authority, a small minority agreeing with Satan.

50:59

And then, this small minority was given another chance to submit.

51:05

The animals and the stars and the trees submitted, but the humans continued to defy God and agree with Satan.

51:17

And then the creation or the execution of the plan, which is, we're all familiar with now.

51:25

I think the location of the bodies, obviously is not relevant, where the bodies were.

51:35

The point is they were invisible to them until they broke God's law. Then, they were sucked into their bodies and sent down here to Earth to start the test.

51:45

Dr. Khalifa: Yes. A man: (unintelligible).

51:50

A man: The second goal is the idea that the souls are hurled into the body, that each body,

51:59

each soul has its identified body, and it's put into it because of what it has done. Dr. Khalifa: Right. Yes.

52:07

A man: (Unintelligible) A man: And their Lord called down to them, you know, and said that they had not followed what He said,

52:20

(unintelligible) from that tree, and warned them that the devil is their most ardent enemy.

52:25

That was just to let us understand that each body, that the bodies, souls are assigned to their bodies, their physical bodies, and we have (unintelligible) to the souls.

52:35

Dr. Khalifa: What is the first thing we do when we come to this world? Dr. Khalifa: Right.

52:41

Dr. Khalifa: The soul is assigned to the body, and the first thing we do "oh, no!" And on top of that you get a spank.

52:52

Everywhere, they cry. A man: I think that's what she's saying, I think (unintelligible) just threw me out of the body, and there (unintelligible).

53:01

So, that's why she doesn't see, at the minute, she (unintelligible). Dr. Khalifa: It doesn't matter. Yes.

53:08

A man: (unintelligible). Dr. Khalifa: Yes. A man: (unintelligible). Dr. Khalifa: Yes.

53:16

A man: (unintelligible). Dr. Khalifa: What happens? Yes. A man: (unintelligible). Dr. Khalifa: Exactly

53:29

Dr. Khalifa: Yeah. That's why I asked you, what was the first thing you asked when you came back?

53:35

"What is happening? Why am I here? Why are you here? What are you doing here? What happened?"

53:40

Ihsan: I couldn't have done anything with my body. Dr. Khalifa: Yes. Ihsan: She said the police stopped her because she didn't know how to put the lights on in the car

53:48

and help her to go to the hospital, and I had no idea. I was sitting in the back of the car and I had no idea what was going on.

53:55

Dr. Khalifa: Did he tell her, why don't you turn the lights on? The police told her (unintelligible).

Talk of out of body experience.

54:00

Atif: (unintelligible). Dr. Khalifa: Right.

54:19

Dr. Khalifa: Wait a minute. Slow down. Slow down. Because this is wonderful, also. I forget that Atif has all these experiences.

54:25

He's telling about somebody who had an out-of-body experience. And they were operating on the person?

54:30

Atif: They were having some dental work on his teeth. Dr. Khalifa: Oh, dental work. Ok. Go ahead.

54:35

Atif: He didn't know. All the work on his teeth is when he got out of his body. His mother was sitting out in the waiting room.

54:42

And as soon as he got out, you know, "the guy doesn't move, doesn't talk, doesn't do nothing."

54:48

So, they called for (unintelligible) an emergency.

54:53

And they got the team and they started pumping his chest and giving him fluids. Dr. Khalifa: And he was watching.

54:59

Atif: And they were rolling around having fun watching him. And these kids (unintelligible) about to die.

55:06

You just think "usually people don't die in the dental office.

55:12

But the doctor was so nervous. (unintelligible) He went outside in the waiting room

55:20

And his mother was sitting there. And he lifted the bottle in his hand, giving him fluids, trying to get him back. And he went there (unintelligible).

55:27

I went there. And then I went by my mother. I (unintelligible) her left shoulder. I'm looking. That's not the way you say it. (unintelligible).

55:35

I looked in the (unintelligible) magazine. Actually, I wanted to see what she was reading. And then after a while, I decided to go back.

55:42

So, I went back. (unintelligible) I went back to his body. So, he revived. So, the doctor and the nurse got him back. They never got him back. He was just outside.

55:52

And after he finished, he went to his mother. And of course, after they got him back, the doctor went to his mother and said "oh, we're so sorry your son

56:01

was in a different room. We almost lost him. But we worked hard and got him back.

56:06

And we're so happy. And, you know, before what happened, so after his mother took him back, he told her, you know

56:14

"all this stuff happened. I was out of my body. I was just roaming around." Of course, she's happy. "What are you talking about?"

56:19

You know, I told her "yeah, I was out. You were sitting in the chair by the window. I was right here on your shoulder."

56:25
 "And you were looking at the magazine." She said "yes." "And you were reading an article about so and so." She said "yes. How did you know that?"

56:31
 "Because I was out there. I was looking at you." So, I said "you know, the time was out."

56:36
 He didn't care about what they were doing to his body. He put needles on him. They beat him up. Atif: He was having fun. He was having fun. Dr. Khalifa: Exactly.

56:44
 I was thinking, you know, it could be like you said. Adam had been outside having so much fun in Paradise, my God.

56:49
 He didn't care about small things (unintelligible).

56:55
 Dr. Khalifa: Besides, he had never seen his body before that. Atif: Yeah, that's another thing. That was a shock. Dr. Khalifa: Yeah. Talk of Jesus and crucifixion.

57:00
 A woman: Rashad, (unintelligible).

57:06
 A woman: had no record or impression of the needles, the pain, and whatever. Dr. Khalifa: There's no pain.

57:13
 Dr. Khalifa: There's no pain. A woman: When he goes back in, he has no record of... Dr. Khalifa: Actually, this tells us exactly what Jesus felt when they crucified him.

57:20
 A woman: That's what I was thinking. No,... Dr. Khalifa: Yes. Dr. Khalifa: Because Jesus was gone. This is, I mean, God is... look how God is teaching us. A woman: Right.

57:27
 Dr. Khalifa: Real life experiences. This is a physical scientist, a surgeon, you know. He's not spiritual.

57:33
 He's also very spiritual. Yeah. I don't mean it that way. But, I mean, he's a scientist. He's very critical. (unintelligible).

57:42
 God is teaching us by... There's a book, of course, that puts all these stories in one book, about out-of-body experiences. Some of you may have seen the book.

57:51
 There are many people who doctors are operating on, and they say exactly the same thing. They watch the doctors operating their bodies, and then they decide to go back.

58:00
 Of course, that's not death. I mean, obviously, this fellow was destined to live beyond that point.

58:07
 But God is teaching us, telling us exactly what the deal is. And this is what we're reading here.

58:12
 Adam and Eve were out of their bodies. They were having fun in Paradise. When they disobeyed God's law, they came to this body, which tells us

58:20
 this is how you go to Satan's kingdom. Since you listened to Satan, you didn't listen to God, you belong in Satan's kingdom. So, goodbye.

58:27
 Which we see in 26. 24,

58:33
 [7:24] He said, "Go down as enemies of one another. On earth shall be your habitation and provision for awhile."

58:40
 Which is undergoing the (unintelligible). A woman: (unintelligible). Dr. Khalifa: I think, yes, we have a very clear picture, with a few little details that God didn't let us know yet,

58:53
 and are not relevant to our generation anyway. A man: Can I ask you a question? Dr. Khalifa: Yeah, go ahead. You've been very quiet.

58:58
 A man: At the time of the feud, all those, all the rebels were put to death? Dr. Khalifa: Rebels.

59:10
 Dr. Khalifa: Not at the time of the feud. There are certain things that happened after that, including this bearing witness that God is our Lord and Master, putting a certain instinct in us.

59:20
 And you notice, and go look carefully again at 172, this same Sura.

59:34
 It says [7:172] Recall that your Lord summoned all the descendants of Adam... So, God had only the human race bear witness that He is Lord and Master, but not the jinns.

59:46
 See, your companion represents Satan's point of view. Your companion will never tell you to do the Noon Prayer, or to worship God alone.

59:54
 Your companion will do the exact opposite. So, but God gave us the nice instinct of knowing about God, knowing that He alone is our Lord and Master.

1:00:05
 The jinns were the half of the creatures who were closest to Satan's point of view.

1:00:11

And they're being assigned to us. A man: When was the time that Satan was exposed?
1:00:16

Dr. Khalifa: You mean as a rebel? A man: As a rebel. Dr. Khalifa: This is in 38:69.
1:00:24

Dr. Khalifa: This is the very beginning. This triggered the whole thing. 38:69 is in page 457.
1:00:37

It says, [38:69] "I did not possess any knowledge about the feud in the High Society. And you notice after this, again, we're told the story of Satan, eating from the tree."
1:00:49

So, you can see the connection. Do you see the connection? Let's read it. Starting at 67. [38:67] Say, "Here is awesome news. [38:68] "That you are totally oblivious to. [38:69] "I did not possess any knowledge about the feud in the High Society. Feud in the High society."
1:01:03

Which is called (38:67) مَبْرُؤًا عَظِيمًا in Arabic. (38:67) هُوَ مَبْرُؤٌ عَظِيمٌ It's an awesome, it's a crucial incident in the history of the universe.
1:01:15

69, [38:69] "I did not possess any knowledge about the feud in the High Society. [38:70] "I am inspired that my sole mission is to deliver the warnings to you."
1:01:22

[38:71] Your Lord said to the angels, "I am creating a human being from clay. [38:72] "Once I perfect him, and blow into him from My spirit, you shall fall prostrate before him."
1:01:31

[38:73] The angels fell prostrate, all of them, [38:74] only Satan refused; he was too arrogant, unappreciative.
1:01:37

[38:75] God said, "O Satan, what prevented you from prostrating before the one I created with My hands? Were you too arrogant? Have you rebelled?"
1:01:46

[38:76] He said, "I am better than he;.... So, this is what, the same thing we read, except we see it connected with the Great Feud.
1:01:54

And you see the Great Feud ahead of this, the Great Feud that triggered this whole business.
1:01:59

Now before the Great Feud, what was happening? Adam and Eve and you and I were in existence, the angels and the jinns and everybody.
1:02:06

And there was no feud. Everything was wonderful. Then the Feud happened with the rebellion.
1:02:15

(38:69) اَلْمَلَاِ الْاَعْلٰى اِذْ يَخْتَصِمُوْنَ The High Society feuded.
1:02:20

You can pick up in Farsi some of this. اَلْمَلَاِ الْاَعْلٰى is the High Society. اِذْ يَخْتَصِمُوْنَ - Do you have KHISAM?
1:02:28

So, Alhamdu Lillah. This is what triggered the whole thing, this rebellion.
1:02:35

So what does God do with the rebels? The angels suggested "put them in Hell."
1:02:42

The angels said "put them all in Hell." God said "I know what you do not know. I'm gonna give them another chance."
1:02:47

A man: (unintelligible).
1:02:53

Dr. Khalifa: So, the plan calls for putting all of them to death, bringing them in this earth,
1:03:01

having no recollection at all of what happened in the past. It's about the fresh start. It's a whole new chance.
1:03:12

And we are given God's message and Satan's message. We're making a choice.
1:03:18

As you see, the vast majority of humans are still sticking to their old rebellion.
1:03:23

Why are the people hostile to this?
1:03:28

They're not even indifferent. They're hostile to this. You should talk to some of the people that call us on the telephone.
1:03:35

I mean, why? They curse me and my mother. Why? I mean, they never saw my mother.
1:03:41

A woman: They never saw you. Dr. Khalifa: They never saw me. And I tell them "what did I do to you?" I mean, and Ihsan, I put her on the telephone. I put her through this the last time.
1:03:52

And she said "we are saying La Elaha Ella Allah. Why are you so upset?" And she said "don't you have any neighbors who are saying Jesus is God or son of God? Why don't you go bother them? Why are you bothering us?"
1:04:03

We are saying "La Elaha Ella Allah. So, it's just fine. Go say what you want and we say what we want. Why are you so upset?"
1:04:09

What else did he say? I forget. Ihsan: He said "Muhammad Rasulullah."
1:04:17

Dr. Khalifa: Oh yes, that was wonderful. Ihsan: (unintelligible).

1:04:29
Ihsan: He said... I said "when was the last time you said Saleh Rasulallah?" He said "no. Is that mean if I don't said Saleh Rasulallah, that I don't acknowledge Saleh?"

1:04:40
I said "exactly. If we don't say Muhammad Rasulallah, that we don't acknowledge Muhammad?" Dr. Khalifa: Yes, that was a very good point. She told him

1:04:47
"when was the last time, she said, God said, don't make distinction among the messengers." "When was the last time you said La Elaha Ella Allah Rasulallah?"

1:04:54
He said "just because I don't say Saleh Rasulallah, does not mean I don't recognize Saleh as Rasulallah. She said "exactly. Just because we don't say Muhammad Rasulallah, does not mean we don't acknowledge Muhammad as Rasulallah."

1:05:04
Dr. Khalifa: She got him. Parivash: I had a dream 2-3 weeks ago, and I, in the dream, I was teaching, I was to Iran, and teach some Molla (religious scholar), very famous Molla there.

1:05:17
And I, in my dream, I was teaching him something that in my... God wants to teach me something because in...

1:05:27
when I wake up, I say "oh, I have never idea of this." And I ask him "ok, when you say, Ash hadu an Muhammadan Rasulallah, ok, tell me what does it mean, the Shahada?"

1:05:39
And he told me "ok, everything that you see." And I say "ok, we say Shahada, every time that we use the Shahada, even in the court or something, you have to see something...I was"

1:05:51
And the Sura 7:172, we saw the God. That's why we can say, Ash-hadu Alla Elaha Ella Allah. Dr. Khalifa: We witnessed God.

1:05:59
Parivash: But have you ever seen Muhammad with your eyes? Dr. Khalifa: Did you see Muhammad? Mā Shā Allāh. Dr. Khalifa: Mā Shā Allāh. It's fantastic.

1:06:05
Cause "Ash-hadu" is witnessing. (unintelligible). Parivash: And when I was telling somebody, and he said "no, because you can say of the Quran, is this Shahada enough?"

1:06:19
Because Quran is the shahada." I said "no." Just imagine, if you go to the court, and you have to see something and say, yes, I saw it.

1:06:28
But if you have the evidence, still you cannot say "I am witness that this happened."

1:06:33
You can say "I have a lot of evidence," but evidence, witness, that is, you cannot say "I am witness."

1:06:42
Dr. Khalifa: Mā Shā Allāh. This is beautiful. This is a breakthrough. When you say "Ash-hadu Alla Elaha Ella Allah", I bear witness, or I bore witness,

1:06:50
I am an eyewitness to the fact that there is no god except God, and we have it in 7:172 here.

1:06:56
Because God said "I gathered all the humans, and they all bore witness that I am their Lord and Master.

1:07:01
Have you bore witness that Muhammad is Rasulallah? Mā Shā Allāh. In a dream, mind you.

1:07:07
A man: When in that Sura, I'm thinking that's why God called them liars. Dr. Khalifa: Yes. Yes, exactly. A woman: Yes. God called them liars.

1:07:14
It says, (63:1) نَشْهَدُ إِنَّكَ لَرَسُولُ اللَّهِ We bear witness that you are God's Messenger, because they... yeah, this is...

1:07:21
Parivash: Yeah, even you, after I tell someone in a dream, I said "no, still you can say, because of the evidence."

1:07:28
Okay, you can say that we have evidence that he is the (unintelligible) but not you. Dr. Khalifa: Yes.

1:07:35
A man: (unintelligible). Dr. Khalifa: Yes. Because we were eyewitnesses that God is La Elaha Ella Allah, He is the only God.

1:07:41
But we were never eyewitnesses to the fact that Muhammad is Rasulallah. A man: Now that they say this, they are lying. Dr. Khalifa: Yes, exactly.

1:07:48
Dr. Khalifa: Because they did not bear witness that Muhammad is Rasulallah. Did you catch this? Edip: I know. In addition, I'm thinking on this.

1:07:56
Edip: Just accept the... Edip: (unintelligible).

1:08:03
Edip: How can a person be eyewitness that he is messenger from the evidence? Dr. Khalifa: Right.

1:08:08
Edip: No, no, how? Dr. Khalifa: Right. I was gonna say that. No, I am criticizing the subject, and during the time of Prophet Muhammad when he is alive also,

1:08:19

how can it be possible to see that he is messenger? You don't see that he received the WAHY and also from clues. Dr. Khalifa: Exactly. Revelation. Yes.

1:08:31

Dr. Khalifa: This is what I'm saying that even at the time of the Prophet Muhammad, that's what the others brought up. Even at the time of the Prophet Muhammad, they could not witness the fact that he is Rasulullah.

1:08:39

Just he's saying he's Rasulullah. And then you think about it, examine the evidence, whatever, and make a decision.

1:08:46

Dr. Khalifa: But they don't witness the revelation coming down, or Gabriel coming down. This is nothing to witness. Edip: Yes.

1:08:54

Dr. Khalifa: Therefore, the only thing is the Shahada, is La Elaha Ella Allah. You're sitting there quiet, you've been here almost 24 hours, you didn't tell us about this.

1:09:03

Edip: But in another verse, Rashad.... A woman: Yesterday, something came up and yeah... Edip: 22, The last verse of 22 says, Dr. Khalifa: Yes.

1:09:14

وَجَاهِدُوا فِي اللَّهِ حَقَّ جِهَادِهِ هُوَ اجْتَبَاكُمْ وَمَا جَعَلَ عَلَيْكُمْ فِي الدِّينِ مِنْ حَرَجٍ مَلَّةً أَيْبِكُمْ يَتْرَهُمْ هُوَ سَمَّاكُمُ الْمُسْلِمِينَ مِنْ قَبْلُ

1:09:23

(22:78) Edip: About what?

1:09:30

Dr. Khalifa: About the man I talked to in Canada, for example, I bear witness that he was a disbeliever.

1:09:36

I bear witness that I gave him the message and he did not agree with it.

1:09:41

You will bear witness that you talked to the guy who was here for three hours telling him "God alone, Quran alone," and he wouldn't listen to you.

1:09:49

This is what (22:78) وَتَكُونُوا شُهَدَاءَ عَلَى النَّاسِ You bear witness. We will be called to bear witness on those people.

1:09:57

That we gave them the message of God alone and they refused it. Edip: Rashad, that means that at the same time to exit, maybe.

1:10:09

Dr. Khalifa: Bear witness. When I bear... Let's talk in court. You say "yes, I gave him a hundred dollars."

1:10:16

Alright, so this person gave this person a hundred dollars. Bearing witness.

1:10:22

Obviously, there will be disputes on the Day of Judgment. And the Quran says "they will deny idol worship, even though they were idolaters."

1:10:32

So, there'll be witnesses. A woman: (unintelligible). Dr. Khalifa: Yes, yes.

1:10:41

Dr. Khalifa: So, everything will be very clear. Atif: Also, (6:24) كَذَبُوا عَلَى أَنْفُسِهِمْ

1:10:47

Dr. Khalifa: Yes, (6:24) كَذَبُوا عَلَى أَنْفُسِهِمْ They lied to themselves. Wonderful, wonderful. I think we'll stop right here and just continue discussions and questions.

1:10:57

Dr. Khalifa: These are very heavy verses. Atif: That's what's Eve creation. Was it really mentioned that Eve was created from Adam?

Adam's creation was the "master plate" – everyone else cloned from that i.e. Eve.

1:11:04

Dr. Khalifa: Yes. (4:1) خَلَقَ مِنْهَا زَوْجَهَا I remember that. Atif: But this means Eve was created from Adam.

1:11:10

Dr. Khalifa: Cloning with feminine creatures. Atif: But nothing mentioned, at least from creating....

1:11:16

Dr. Khalifa: Also, God says. (31:28) يٰۤاَيُّهَا خَلْقُكُمْ وَلَا تَبْغُوا إِلَٰهًا كُنْتُمْ إِحْدًا Your creation, your resurrection is of one person.

1:11:24

Adam is the master plate. You know, in printing, they make a master plate. They make copies from it.

1:11:33

A man: Eve's own body was created from (unintelligible). Dr. Khalifa: Exactly.

1:11:40

Dr. Khalifa: But Eve and... Eve was through cloning. Atif: (unintelligible).

1:11:50

Dr. Khalifa: I mean, cloning now is theoretically possible. In fact, they do have cloning from other creatures.

1:11:58

I did some cloning myself, by the way, of carrots, of carrots. I published it in Nature.

1:12:07

I forget that I was a scientist some day. Nature magazine is a very respected magazine, and they don't publish anything unless they go through a lot of quality screening.

1:12:19

I have cloned some carrots. tissue culture system. Pictures are published there. I mean, I have some copies.

1:12:28

(unintelligible) is not the only scientist around. A woman: (unintelligible).

1:12:36

Dr. Khalifa: No, no, that's another one. That's a hormone, a growth hormone. They put it in a gel block on one side, cause this side to grow faster than this side, so it curves.

1:12:48

All of them curve. The one that was not treated continues to be (unintelligible). A man: Let me ask you a question. You know what? August 2010. You pick somebody's heart. The guy is dead, but his heart is still alive.

The Human is a BODY – SOUL – SPIRIT.

1:13:03

What kind of life is that? I mean,... Dr. Khalifa: (unintelligible).

1:13:09

Dr. Khalifa: The body is still alive. Are you talking about the soul?

1:13:15

A man: The soul is gone. The guys gets in a car accident. You pick his heart, his kidney, his eyes.

1:13:20

And he has to be alive also. The difference between a dead heart and a live heart. So what's actually... what's life? I think about this a lot.

1:13:27

A man: What's the life? What's the life in there? Dr. Khalifa: Ok. I think what... Dr. Khalifa: I think what you're talking about, the entities of the human person, the components of the human person.

1:13:35

And they always eliminate this part. But if you wanna really be more specific, the human is a body, a spirit, and a soul.

1:13:45

So, a body is this, but it's without life. The spirit makes the heart pump and the lungs breathe.

1:13:52

Dr. Khalifa: The soul is the person. Atif: Ok, I just wanna focus here. I just remember the guy who was telling you the story about his body.

1:13:59

So, he was already out of his body, but his body is still alive. But his soul was free. I mean, he played with it. He could take his heart

1:14:05

He squeezed it and everything. He also... Dr. Khalifa: The spirit is part of the physical being. Atif: Ok, so, his organ was living, but he was really.... soul was out.

1:14:12

(unintelligible) There's no, there's no, there's no activity in the body then

1:14:20

a body with activity in it, and then a body was a tree. Dr. Khalifa: Look at Jesus. Just look at what happened to Jesus. Jesus, the person, left.

1:14:29

He left the spirit and the body. They put the body and the spirit as part of the physical being.

1:14:35

They put the body and then the body breathes. Then, mechanically, there's no blood to pump.

1:14:40

So, the spirit leaves. The body is being left. A man: So, the spirit leaves the body. Dr. Khalifa: The soul. Right. The soul. The person leaves.

1:14:49

A man: Yes, the soul leaves. Dr. Khalifa: Then, the spirit is... Dr. Khalifa: You have two entities, the spirit and the body.

1:14:55

A man: Then, the body dies. Dr. Khalifa: Then, the spirit leaves. The body dies. A man: The spirit is a separate entity or?

1:15:01

Dr. Khalifa: The spirit is... You can think of it as the word of God that goes... Atif: That's the thing. Well, you can think of it as a symbol of somebody's dying. Just somebody dies (unintelligible)

1:15:11

He's been alive for 20 years. (Unintelligible) Dr. Khalifa: They keep the heart alive.

1:15:17

A man: But why separate the spirit and the body? Dr. Khalifa: There are two components of the physical being.

1:15:25

But they're two separate components. A man: But when God says that I blew into him from My spirit, then what does that mean?

1:15:32

Dr. Khalifa: That's the spirit that caused life. A man: That causes our body to function. Dr. Khalifa: Right.

1:15:38

Atif: Now, you can think of anything as a physical growth. You can think of it as a piece of skin. (unintelligible).

1:15:44

Growth from your own cells. Big pieces put back in your body. (unintelligible).

1:15:51

A man: So, spirit is just like the body but it has... I mean, Like the soul, obviously, you know, the...

1:15:57

Dr. Khalifa: It's the person. A man: It's the person and the right and wrong and all that... Atif: It's the right thing. It is actually the thinking one

1:16:05

Dr. Khalifa: Oh yeah, the intellect is in the soul. Atif: Yeah, because the body... the heart of somebody who is already dead. It's still functioning.

1:16:12

Dr. Khalifa: There's no intellect in it. Atif: (unintelligible). A man: Once I noticed that all of us, all nations, different languages, without realizing, we admit that

1:16:24

when I say "I", I'm not my body. Because if you notice, you say "my hand, my face, my head." Dr. Khalifa: Yes. Yes.

1:16:33

A man: My whole body is, for instance, hurting. Dr. Khalifa: Yes. A man: And Also, if you realize, what happens if one of my hands gets, actually, they cut it.

1:16:45

Dr. Khalifa: You're still there. Yes. Atif: It's still you. A man: So, actually, when we say "my, I, my body, my face", actually, we are admitting that...

1:16:55

Dr. Khalifa: that I'm separate. A man: The person is that. Dr. Khalifa: Yes. A man: I... Dr. Khalifa: The hand that belongs to me, right. A man: To me.

1:17:02

Atif: (unintelligible). You see, I remember a few people in accidents being paralyzed from the knee down.

1:17:08

And their whole body is sitting there giving sores and troubles. And the guy is saying

1:17:14

"I know everything. You know, you go to college, you graduate, have PhDs. And..." Dr. Khalifa: She was talking about (unintelligible).

1:17:19

Atif: That's right. (unintelligible). Atif: A year ago, there was a guy from some kind of university in Europe was completely paralyzed. He was a genius in mathematics.

1:17:28

And also he was against God. He just was sitting this way. And he's sitting there. A man: (unintelligible).

1:17:33

Atif: Cause the guy, he talked through special aids. And he's paraplegic and moved nothing.

1:17:39

And he's there, you know. And he's so angry because his whole body is down here. And I think he realized, that's not him, I mean.

1:17:46

(unintelligible) You can be up to here, but still you have your soul. (unintelligible).

1:17:53

A man: Is that Stephen Hawking? Dr. Khalifa: Yes, Hawking. Do you know (unintelligible)? A man: For Hawking? Dr. Khalifa: Yes, the computer talks for him. Exactly.

Discussion about Steven Hawkins.

1:18:00

Atif: And he goes all over the world talking about his experience at talks. He goes all the way...

1:18:06

Dr. Khalifa: Yesterday, what he said was "if the rate of expansion of the universe was one millionth

1:18:16

of the speed faster, we will have nothing. It would be just space now.

1:18:21

And if it was one millionth of the speed slower, we will be compact and life cannot exist.

1:18:31

We will not be here. He said the rate of expansion of the universe is precise, is so precise.

1:18:37

But he doesn't recognize God. Atif: He doesn't know God. A man: And he's sitting there. And he's Dr. Khalifa: Yes.

1:18:43

Dr. Khalifa: He's just a little soul hanging on his head, you know. He really is a genius.

1:18:48

Atif: Yeah, yeah, it's funny. Yeah, it's funny he mentioned his soul, he's just speaking to this blue piece of (unintelligible). And everything is lost.

1:18:54

And I think it, I think it shows how much blessing we get because he's a guy with the biggest brain in the whole world now. And he's absolutely prevented from living there. He just...

1:19:06

A man: Just recently, in San Francisco, some person died. Just one person died.

1:19:12

A man: He donated six different organs to six different people. Atif: Yes. A man: Who do you think it is?

1:19:18

(unintelligible) to donate (unintelligible).

1:19:27

Dr. Khalifa: I wouldn't do it mainly because of maybe (unintelligible) Because of the humiliation the body goes through.

1:19:33

Because I've seen it. A man: What's the difference if you're dead and gone? What is... Dr. Khalifa: It doesn't make any difference. I want my body cremated and flushed down the toilet. I don't want it, I don't want it pulled around with it.

1:19:42

They hang it, they hang them like a cow from a ceiling. And It's really mistreated.

1:19:48

Atif: They don't do that. Dr. Khalifa: Yes. Yes, they do that. Because that's what they do. Listen. Ok. Listen to...what do they do?

1:19:56

They want to... A man: Rashad, (unintelligible). A man: Before you get into that, there was a scandal in England that over-enthusiastic, you know, doctors would kill a person.

1:20:08

Dr. Khalifa: Oh, my God. A man: Yes. A man: When you said "I would like to (unintelligible)", you're not already dead.

1:20:16

Dr. Khalifa: Just hurry up. A man: They need a heart somewhere. Dr. Khalifa: (unintelligible). A man: And through their enthusiasm they'll just finish you off. That's what they do. A man: Business, business, yeah.

1:20:22

A man: This happened in England. It was a scandal. Atif: That was a rumor. But I was at this...

1:20:27

Some of the patients in the ICU were very sick, very sick patients. They had a breathing machine, everything, medication for the heart, and everything.

1:20:37

And I felt so bad about it. And We had orders. (unintelligible) Well, half of the family told us to donate the organs.

1:20:45

And I feel so bad about it. Some people just don't take it well. You know, somebody... If a family member is still alive and you told him "can I take your heart?"

1:20:55

Atif: It's just a terrible thing. And there's so much burden on me. Dr. Khalifa: (unintelligible). And I remember this guy was so embarrassed. Almost that could not even talk. He wanted to talk to his wife.

1:21:05

And I told him, you know, "if something happens to him, we need to do this or that." And he was so angry, almost so (unintelligible).

1:21:13

She responded so fast. I was so suspicious. She was hoping to finish him.

1:21:19

She was just giving information so fast. And I remember. I got shocked. My God, this woman was finishing him.

1:21:27

I was so attached to the patient. I didn't want him to get over this and recover. Dr. Khalifa: Oh, she hated him. Atif: Oh, yes. She hated him. She had so much (unintelligible), she was gonna get out of here. (unintelligible).

1:21:37

(unintelligible). Atif: Some people do have this syndrome. "Yeah, finish him. Yeah, (unintelligible)."

1:21:43

Dr. Khalifa: "Where do I have to sign?" "Can you do it yesterday?"

1:21:49

A woman: "You need to take the organs."

1:21:57

Atif: "You need to take the organs" They have to take everything. Atif: It's just like your surgery, they keep you breathing and everything, they open you and take everything out, everything.

1:22:06

A woman: What if he's still alive? I mean,... Atif: (unintelligible) could be, I mean... Of course, it's very difficult to define the moment of death.

1:22:15

There have been meetings and meetings, conferences and could nobody knows exactly when the moment of death is.

1:22:21

Who defines death? Who says this guy is dead or not? And I think the final thing he decided to do is check the brain.

1:22:27

And he issues a brain electricity wave.

1:22:33

And if he lost his wave in the brain location, he declares him dead.

1:22:39

And we always know here that people have been on the breathing machine for years and they just rise there and they just don't function. Their brain's dead.

1:22:47

And we see a lot. So, if the brain is dead, your body actually... your heart is still beating, your kidneys are still functioning.

1:22:53

And it's amazing when people have their brains dead, their body is in excellent shape. If they ever get to the point where they can transplant the brain, this is the moment when you get somebody back. It just never happened anyway because it's so complicated.

1:23:06

Atif: which actually, you know, most probably the brain is the soul, you know. If you get somebody's brain transplanted, you actually need to transplant a soul in this body.

1:23:13

It's a perfect body, except the brain is dead. So, these are the people, young, healthy guys in a car accident.

1:23:21

(unintelligible) And these are the guys who have everything clean. You just take the heart, kidneys, everything and give it to somebody else.

1:23:29

So, the soul is gone. A man: The soul must be in brain. A man: connected with the brain.

1:23:34

Dr. Khalifa: No, no. The brain is just the physical... Atif: The physical part that expresses the soul.

1:23:40

Probably. What's that? Dr. Khalifa: It's the physical tool. It's like you and the computer. You can think of the brain as a computer.

1:23:46

Atif: You're not running the computer. Dr. Khalifa: You have to run it. Atif: If you don't know how to run a computer, you'll think they're all the same.

1:23:53

Edip: What stimulates brain to work? Dr. Khalifa: See, the brain is only but electrons moving around, just like the computer exactly.

1:24:01

Of course, it's a clumsy representation of the brain. A man: But I've read articles that you can add or remove some hormones. You can do different stimuli. Dr. Khalifa: Yes.

1:24:18

Dr. Khalifa: Because they affect the function of the brain, but the brain is strictly physical.

1:24:23

Atif: Yes, of course, there's a map of the brain. This is the foot, this is the hand, this is the ear, and mechanically or electrically

1:24:31

you touch these areas and make what you want, which is the physical part. But like you're saying, you, the real person, you, is the soul.

1:24:41

Cause you're just using these organs for your benefit, using the eyes, using the ears

1:24:47

Dr. Khalifa: Including the brain. Dr. Khalifa: I thank God for my out-of-body experience that I had many years ago cause

1:24:53

I was looking at my body down there and it was just like a piece of rock.

1:24:58

Edip: Amount of hormones, who determines that hormone? What determines the amount of the other hormones, that hormone?

1:25:04

And there must be all of them that determines the amount of hormones in the brain and their stimulation.

1:25:10

Dr. Khalifa: There is a maestro. A maestro orchestrates the levels of hormones.

1:25:21

Edip: Or the physical, it destroys the physical by itself or from others but that soul cannot communicate with our world through this.

1:25:35

Edip: One receiver, radio, we have a receiver or the other station that radiates.

1:25:42

And one of them - how do you say it? - it doesn't work.

1:25:48

Dr. Khalifa: Nothing happens. Edip: Nothing happens Dr. Khalifa: You'd have to have a transmitter and a receiver.

1:25:53

A woman: That's when you say the brain is dead. But here, that's my understanding of what I already know. That's every function we do. That's all that comes from the brain?

1:26:05

Atif: A lot of organs have their own, what we call, also mechanisms. You know, the heart can keep beating with a special built-in mechanism.

1:26:13

A woman: Does it come from there? Atif: The heart will regulate certain things, certain things, like how fast it goes, which one to, you know,

1:26:22

which to pump more blood and which to pump less blood. There's a control, of course, but some organs have their own built-in mechanism.

1:26:31

But the brain has to balance it. You have to balance the kidney with the heart with the whole balance system.

1:26:37

If you can... one work more than the others, then you lost everything. So, the brain has that but you know, you see, like the computer, you have to set exactly for the second, for millionth of second,

1:26:48

how much blood comes out and how much the heart beats would go and how much goes to your

1:26:54

big toe and how much goes to your feet. So, all this is exactly controlled. If you lose the brain, this is what really controlled very much.

1:27:00

But the heart, I think, we all have seen it in chicken, when you cut their neck completely

1:27:07

and let it go, it's gonna run for a little bit, you know, until the brain is completely... A woman: Yeah, for a little bit, but if it's for a long time, can they...

1:27:15

Atif: No, no, for human beings, (unintelligible). So, these people, they have to kill the machines. What the machine does is just keep bumping things with the heart and make it come back.

1:27:23

They have to keep putting oxygen down the lung against the will and go up. We have to have things work for the kidney.

1:27:29

And also for a period of time. After a while, everything is deteriorating because you can never balance, do the balance as much as the brain.

1:27:39

Your chemistry is completely screwed up when the brain goes away. Edip: Sometimes they are still alive when they make brain surgery on birds and take their brains (unintelligible).

1:27:52

Dr. Khalifa: Yeah, the lungs are the same way as the heart. It's all mechanical. Atif: When we were little kids, we used to get things like the goose lung and a blow on it to make fun of it.

1:28:03

You can see the whole thing like a balloon in and out. You do the same thing with that guy. (unintelligible).

1:28:08

You just want to be up (unintelligible) and his heart is pumping, you know, the blood goes, the oxygen goes back.

1:28:15

And then they have equipment where they put special pumps inside the heart and just keep all the blood closed and just pump the blood from the heart.

1:28:25
All kinds of fancy stuff. A man: I don't understand. For example, if brain does not work properly, the body's malfunction, the speech malfunction, or the soul's malfunction?

1:28:41
Dr. Khalifa: Just the body.

1:28:47
Atif: You know, most probably, (unintelligible), we can procure organs for them.

1:28:53
We do have some functions of the brain that keep things (unintelligible) going.

1:29:00
But the part which really does do the thinking and the real living, which is the soul, it's, you know, I'm sure if you open his head, most of them can find a little bruise on it. This is what qualifies the rest of the brain as OK.

1:29:11
But actually, we look at it this way, the brain is dead, which actually means the soul is out.

1:29:16
The brain might have been OK, but we don't know that. I mean, you can physically say the soul is out.

1:29:21
You can do that. All you can say is that the brain is dead. The brain is dead is actually the soul is out. The brain is intact? Dr. Khalifa: (unintelligible).

1:29:27
Atif: Yeah, but I think (unintelligible) the brain is intact. The soul is out. It doesn't work. So,... A woman: (unintelligible). When the brain is dead, the person actually is dead.

1:29:40
Dr. Khalifa: The person is gone. A woman: gone. A woman: But maybe there is some function. Atif: Oh, yeah, the (unintelligible) is functioning. A woman: But the brain is dead, is dead.

1:29:49
Atif: I think brain.... Dr. Khalifa: Sometimes the brain is not dead and the person is gone. Like, in case of Bill Schroeder who lived 19 months without the soul.

1:29:59
Dr. Khalifa: The body was functioning. The person was eating and drinking and going to the bathroom. But he didn't recognize... A woman: See, because I knew... I don't know.

1:30:08
A woman: I can't remember the name of this guy, you know.

1:30:14
A woman: He had some surgery. And after, during the time of surgery, when the surgery finished, he was asleep at that time.

1:30:25
And then he woke up. Wake up and after that... But for a long time, 10 or 15 years, he was in that situation.

1:30:37
And he was dead. Actually, he was dead. Dr. Khalifa: What happened after the 10 years?

1:30:43
A woman: And then he, yeah, came, yeah. Dr. Khalifa: Came back? Atif: You know what this was (unintelligible).

1:30:48
Ask me I have more experience. (unintelligible)

1:30:55
Dr. Khalifa: No, this would be like the people of the cave. They went to sleep for 300 years.

1:31:03
A woman: Because of that, everybody knew about him. Atif: I heard about a few days would be this. You know (unintelligible). In one of these days, she came back.

1:31:13
Dr. Khalifa: Perfect. And that's why nothing happened. A man: Did she come back? Atif: I don't know. I was just reading about it. I have no experience with her.

1:31:20
(unintelligible) the same way. But that's why so many families, when they have a loved one in a similar situation, already brain dead, they always have been for this minute when

1:31:32
their loved ones will come back, like these little stories we hear. And most of the time, it doesn't. Most of the time, your body deteriorates.

1:31:39
Sitting in bed, you get a great sore, you get pneumonia, you get all kinds of infections. And you keep (unintelligible) your body, waiting for it to come back.

1:31:47
And nobody knows if you ever come back. And you start seeing your loved ones getting in terrible, miserable shape. I mean, you have (unintelligible)

1:31:56
Dr. Khalifa: But we have this in the Quran. People of the cave were asleep for 309 years.

1:32:02
Atif: But did anybody walk in this cave? Dr. Khalifa: They came back and said "let's have lunch. Here's some money. Go get us some lunch. They took this ancient money to the market.

Dr. Khalifa: The equivalence of going from a baby to a young person, a teenager.

0:10

If we started out as babies, we are now teenagers.

0:16

That's how powerful the ZIKR is. It's God's absolutely most beloved form of worship, according to the Quran.

0:27

And it is the most... it is the steak and lobster dinner for the soul

0:40

And if we are to visualize the importance of Zikr, you can imagine the Day of Resurrection

0:46

and people being resurrected as babies. Imagine a person staying a baby all their lives because of not feeding the soul.

1:00

That is very important.

1:07

I was gonna say "too bad that we don't see what happens to the soul because it is obscured

1:12

by the body," but you can imagine it. It's not too bad because this is God's design.

1:19

The test requires that things be obscured and hidden.

1:25

So, you rely completely on your logic and your belief, your faith.

1:33

So each one of us deserves congratulations for coming to this fantastic meal, feeding the soul, commemorating our God.

3:58

I guess it doesn't hurt to seek refuge in God twice. I didn't mean to do that.

4:10

Just to pursue that idea of healing the soul and developing the soul. You can imagine an adult in a community of babies.

4:17

What a situation, I mean how, how will they look up to that adult?

4:23

That would be an approximation of what happens on the Day of Resurrection.

4:31

And people are resurrected. Adults are resurrected. Young people are resurrected. Babies. The vast majority.

4:40

People are resurrected who neglected their soul.

4:50

As you know, the goal of our life is to recognize that God Alone we should worship.

4:57

And to declare that there is no god except the One God. La Elaha Ella Allah لَا إِلَهَ إِلَّا اللَّهُ (There is no god except the One God.)

5:02

So when you say it, close your eyes and concentrate. And let every cell in your body say it and mean it.

5:11

And absorb it. Until it becomes the dominant thought.

5:18

La Elaha Ella Allah لَا إِلَهَ إِلَّا اللَّهُ (There is no god except the One God.) La Elaha Ella Allah لَا إِلَهَ إِلَّا اللَّهُ (There is no god except the One God.)

The deeper intention of meditation the more one grows.

8:11

The more you say it, the more you mean it, the more you grow with the consequences, enjoyable consequences.

8:20

La Elaha Ella Allah لَا إِلَهَ إِلَّا اللَّهُ (There is no god except the One God.) La Elaha Ella Allah لَا إِلَهَ إِلَّا اللَّهُ (There is no god except the One God.)

Meditation could be equivalent to a 100 salat, mentioning the name of Allah wipes out sins. Good way to make hopefully wipe away missed Salat.....

14:50

God speaks in the first person singular in the Quran saying you shall observe Salat for the purpose of commemorating Me.

15:00

وَأَقِمِ الصَّلَاةَ Observe the Salat (Contact Prayers) يَذْكُرِي for commemorating Me

15:06

So when we make Zikr in this way, it is equivalent to making a hundred Salat or maybe more.

15:14

And every time we say "Allah", the name of God, we wipe out God knows how many sins,

15:20

how many of our sins are wiped out from the past. So, we make up for all the past years when we missed the Salat and we wipe out all the mistakes and sins that we have committed in the past.

15:31

Every time we say "Allah." So, let it come out of your heart and be big enough to travel across the universe and reach for God, go up there.

15:38

Let your soul go. Close your eyes. Concentrate. And enjoy saying the name of God.

15:46

Allah ﷻ (God) Allah ﷻ (God)

16:54

Allah ﷻ (God) Allah ﷻ (God)

18:13

Let's start with a whisper. Allah ﷻ (God)

20:26

When you say "Qayyum", you recognize God as the Absolute and Eternal King.

20:33

Qayyum قَيُّوم (Absolute and Eternal King) Qayyum قَيُّوم (Absolute and Eternal King)

22:07

Allah ﷻ (God)

24:16

Subhan Allah سُبْحَانَ اللَّهِ (God be glorified) Subhan Allah سُبْحَانَ اللَّهِ (God be glorified)

26:51

Alhamdu Lillah الْحَمْدُ لِلَّهِ (GOD be praised) Alhamdu Lillah الْحَمْدُ لِلَّهِ (GOD be praised)

28:30

Allahu Akbar أَكْبَرُ اللَّهُ (God is great) Allahu Akbar أَكْبَرُ اللَّهُ (God is great)

Humans are the only creatures in the universe who can freely chose God, this results in a great achievement. Dr. Rashad Khalifa uses the allegory of praying a 100 times a day or giving up ones eyesight, God did not put that on us. Watching moments of yourself worshipping God on the day of Judgement will make you pleased.

30:30

God teaches us in the Quran that everything, the seven universes and. earth and everything in them glorifies God.

30:38

The word is Subhan Allah. That's glorification of God. And it is because they decided to recognize God as the Absolute Master and they had no choice.

30:51

But we, the human beings, are the only ones in the universe that have the choice.

30:56

So when you make the choice to glorify God on your own, with your own free will, you attain a great achievement.

31:06

When people fail to glorify God, saying Subhan Allah, and praise God by saying Alhamdu Lillah, they are described in Quran as stupid and ignorant, stupid and ignorant, unjust or unappreciative.

31:24

God gave us our eyes. A human being will do anything

31:29

if somebody holds a gun to his head and demands his eyes or pray a hundred times a day, then they will say "OK, I pray a hundred times a day and keep my eyes."

31:42

But they are unappreciative of God. God gave them the eyes in advance without any requirements. The requirement is, you have the free choice to worship God and glorify Him or not.

31:51

So, the human being who fail to glorify God, as we just said, is described as stupid and unjust and unappreciative in the Quran.

32:01

So...But Alhamdu Lillah, we thank God that we succeeded in making that decision with God's help.

32:09

On the Day of Judgment, when you review your tape, and watch this moment where you're glorifying God and praising God, and you watch the

32:20

the nonsense that we say throughout the day, you will be glad for this time.

32:26

You'll be happy that the proportion of your utterances that glorify God and praise God is a little higher than the others.

32:35

That will distinguish you. So, this calls for celebration.

32:40

(unintelligible). Celebrate.

32:45

Allah, Allah, Allah, Allah, La Elaha Ella Allah - لا إِلَهَ إِلَّا اللَّهُ (God, God, God, God, There is no god except the One God.)

32:54

Allah, Allah, Allah, Allah, La Elaha Ella Allah - لا إِلَهَ إِلَّا اللَّهُ (God, God, God, God, There is no god except the One God.)

34:58

That kind of song is a song that also commemorates God. And declares that there is no god except Him, the one God.

Best songs are ones that commemorate God. Humans tend to make the Boss or money their God.....Highest form of Freedom is declaring God is our master.

35:05

For those of you who are not familiar with the word Mawlana (مولانا), our Master.

35:11

Some people make their job their master, their boss, their master. And those are insignificant creatures, the boss, the job, or whatever.

35:23

But the people, most people choose. But we choose our Master, the One who's holding the seven universes in His right hand.

35:32

The most Powerful, the Omnipotent, Omniscient, Omnipresent, King of the universe.

35:38

So in this, our national anthem, we declare that only God is our Master, which is the highest form of freedom.

35:48

Because no one in the world controls your life or can touch you in any way.

35:56

So, we're gonna chant happily our national anthem.

36:03

Allah, Allah, La Elaha Ella Allah, Mawlana مولانا - لا إِلَهَ إِلَّا اللَّهُ (God, God, There is no god except the One God, our Master)

36:11

Allah, Allah, La Elaha Ella Allah, Mawlana مولانا - لا إِلَهَ إِلَّا اللَّهُ (God, God, There is no god except the One God, our Master)

37:42

As we chant that God is our only Master, God mobilizes His forces to be with you.

37:49

Remember we talked about the invisible soldiers and we saw them in the Quran, written in the Quran. The invisible soldiers will be with you and help you and see that everything that you do is guided. You make an application for a job, or the immigration department, or whatever. God mobilizes his forces to grant ones righteous requests. Your soul could be half the size of Arizona post meditation.

38:04

And the application will be carried through by angels. Because you said that you are with Him.

38:12

Let us whisper it. Allah, Allah, La Elaha Ella Allah, Mawlana مولانا - لا إِلَهَ إِلَّا اللَّهُ (God, God, There is no god except the One God, our Master)

38:21

Allah, Allah, La Elaha Ella Allah, Mawlana مولانا - لا إِلَهَ إِلَّا اللَّهُ (God, God, There is no god except the One God, our Master)

40:50
We close with Al-Fātehah I'm gonna try to (unintelligible). Al-Fātehah

40:55
Bism Allah Arrahman Arraheem (1:1) Al hamdu Lillahi Rabbil 'Alameen (1:2) Arrahman Arraheem (1:3) Maliki Yawm Eddeen (1:4) Eyyaka Na'abudu Wa Eyyaka Nasta'een (1:5) Ehdina Al-Serata Al-Mustaqeem (1:6) Serata Al-Lazeena An'amta 'Alayhim Ghayri Al-Maghdoobi 'Alayhim Wa Laddaalteen (1:7)

41:22
Whether you know it or not, your soul is up there (unintelligible).

41:29
Alhamdu Lillah Probably, your soul occupies half of Arizona. Our souls are just overlapping, hugging each other.

41:45
Dr. Khalifa: The big souls love. The small, small souls hate. A man: Alhamdu Lillah.

41:50
Dr. Khalifa: We read the paper every day and we see that there are murders and fights in bars and nightclubs every day.

41:55
So, their souls are shrunk and breaking God's law and they're always fighting and angry and mad and shouting and shooting each other. A big soul is LOVE, other faiths can produce righteous submitters.

42:07
In the paper every day and the TV and the radio. (unintelligible).

42:13
But the big souls love. Even in temples and churches and synagogues and mosques.

42:21
Even though they may be off, at least they mention the name of God.

42:27
Even though along with other idols, which is very wrong. (Unintelligible)

42:33
You don't hear about murders in a church or synagogue or a mosque.

42:41
Out of those places come individuals who make it.

42:47
Alhamdu Lillah

43:02
Arrahman Arraheem Bism Allah Arrahman Arraheem بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ (In the name of GOD, Most Gracious, Most Merciful.)

43:10
Bism Allah Arrahman Arraheem بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ (In the name of GOD, Most Gracious, Most Merciful.)

Dr. Rashad Khalifa clarifies Night of Destiny happens every year. By God's decree Angels can fix things in our bodies.....

47:05
As we read in the Sura Al-Qadr, at the beginning of this great night, we read in...

47:12
God is telling us that the angels descend in this night to carry out every command. So, when they descend tonight and find people commemorating God, they will see what your dearest wish is.

47:27
And they will see to it that if there's anything wrong beginning in your body or whatever, you know, they'll fix it.

47:35
And God will shower you with blessings just for commemorating His name in this great night. The angels are here. They're eager to help anybody who commemorates God.

47:46
Let us now try this Allah Allah four times, La Elaha Ella Allah. Allah, Allah, Allah, Allah, La Elaha Ella Allah لَا إِلَهَ إِلَّا اللَّهُ (God, God, God, God, There is no god except the One God.)

47:59
Allah, Allah, Allah, Allah, La Elaha Ella Allah لَا إِلَهَ إِلَّا اللَّهُ (God, God, God, God, There is no god except the One God.)

54:43
Allahu Lana اللَّهُ لنا We belong to God. Falana Al-hana. فلنا الهناء So, happiness belongs to us.

54:49
Allahu Lana اللَّهُ لنا We belong to Allah Falana Al-hana. فلنا الهناء So, happiness belongs to us.

54:56
Allahu Lana, Allahu Lana, Allahu Lana, Falana Al-hana. اللَّهُ لنا - اللَّهُ لنا - اللَّهُ لنا (We belong to God. We belong to God. We belong to God. So, happiness belongs to us.)

55:07
Allahu Lana, Allahu Lana, Allahu Lana, Falana Al-hana. اللَّهُ لنا - اللَّهُ لنا - اللَّهُ لنا (We belong to God. We belong to God. We belong to God. So, happiness belongs to us.)

59:42
Before the creation of the heavens and the earth, our souls bore witness that only God is our Lord.

59:48
So now, our body and soul is going to declare that only God is our Lord.

59:55
Allah, Allah, La Elaha Ella Allah, Mawlana مولانا اللَّهُ - لَا إِلَهَ إِلَّا اللَّهُ (God, God, There is no god except the One God, our Master) Only God is our Lord.

1:00:00
Body and soul. And we mean it. Allah, Allah, La Elaha Ella Allah, Mawlana مولانا اللَّهُ - لَا إِلَهَ إِلَّا اللَّهُ (God, God, There is no god except the One God, our Master)

1:00:11
 Allah, Allah, La Elaha Ella Allah, Mawlana ﷻ - ﷻ (God, God, There is no god except the One God, our Master)
 1:03:41
 Everyone of these statements deposits a hundred million dollars in your post-retirement account.
 1:03:48
 You're gonna need every penny of it for eternity. But these are heavy statements, and heaviest of all is La Elaha Ella Allah.
 1:03:59
 La Elaha Ella Allah ﷻ (There is no god except the One God.)
 Quran tells us commemorating God brings health, wealth and perfect happiness.
 1:07:11
 We would commemorate God because we appreciate His greatness, because we love God.
 1:07:18
 We would do it for nothing. It just happens that this is God's law, 23 places in the Quran, that He will pay you for commemorating Him
 1:07:25
 health, wealth and perfect happiness, guaranteed dignity.
 1:07:31
 But we do it because we appreciate God. We would do it for nothing.
 1:07:37
 La Elaha Ella Allah ﷻ (There is no god except the One God.)
 1:10:24
 Allah ﷻ God
 1:12:32
 Let's turn to God and ask Him to accept our Contact Prayers, our Zakat charity and our fasting, and to continue to guide us in the right path.
 1:12:39
 Al-Fātehah Bism Allah Arrahman Arraheem (1:1) Al hamdu Lillahi Rabbil 'Alameen (1:2) Arrahman Arraheem (1:3) Maliki Yawm Eddeen (1:4) Eyyaka Na'abudu Wa Eyyaka Nasta'een (1:5) Ehdina Al-Serata Al-Mustaqeem (1:6) Serata Al-Lazeena An'amta 'Alayhim Ghayri Al-Maghdoobi 'Alayhim Wa Laddaalleen (1:7)
 Dr. Rashad Khalifa talks of night of destiny being repeated.
 1:13:04
 This is the greatest of all nights. This is the night that God mentioned in Quran, in Sura 2, verse 186, that He accepts the prayers, IN SHAA ALLAH. Congratulations.
 1:13:14
 God bless you. God loves you. We'll take a break and take it from there.

15 Quran Study From Behrouz 515 Sura 54;23 By Rashad Sura 55 & Sura 56 & Sura 51 Age 40 & First Gen

Dr. Khalifa: 23. [54:23] Thamūd... another group of disbelievers
 0:06
 [54:23] rejected the warnings. [54:24] They said, "Shall we follow a man like us? We will then be wrong and stupid.
 0:15
 25. [54:25] "Was he chosen out of all of us to receive the message? He is a flagrant liar."
 0:24
 26. [54:26] They will find out tomorrow who the flagrant liar is.
 0:29
 27. [54:27] We sent the camel as a test for them. Just watch them and be patient.
 0:35
 28. [54:28] Tell them,.... This was directed to their messenger, Saleh.
 0:41
 28. [54:28] Tell them that the water shall be shared between them at specific times.
 0:47
 29. [54:29] They consulted their leader and after receiving the message, he slaughtered the camel.
 0:54
 [54:30] How terrible was my retribution and warnings. 31. [54:31] We sent upon them one strike, whereupon they became like harvested hay.
 1:04
 [54:32] We have made the Quran easy to remember. Is there anyone who wishes to learn? As you know, God's signs suited every age.
 1:16
 In that age, a camel that knew when to eat and when to drink on what day was a miracle for those people.
 1:23
 They were dealing with camels a lot. At the time of Moses, magic was a big deal.
 1:28
 At the time of Jesus, healing the sick was a big deal.
 1:34
 At the time of Muhammad, the literary excellence was a big deal. They had the literary competitions.
 1:42
 Now, the computer is a big deal, and now we have a computer miracle.
 1:48
 Computer... a miracle that is suitable for the computer age.
 1:55

How can you divide the number that Abdullah did, when you take the number of verses
2:03
and put the number of each verse in every Sura in the Quran, you end up with a half-mile-long number.
2:14
12,692 digits. This number of digits is a multiple of the common denominator of the Quran, the number 19.
2:24
And also that number is a multiple of 19.
2:30
When the Quran was revealed, the biggest number they heard of was a thousand. That was the biggest number. Well, 50,000.
2:36
But then any multiples of thousand, anyway. So, how can you read this number?
2:42
12,692 digits. If you go to the mathematics department at the university, tell them "read this number." "Get out of here."
2:54
But it's true. The number is here, conforms to the code.
3:02
So, this is the computer age. You have to have a computer to know about this number.
3:09
I can bring you the computer printout that Abdullah wrote in. This thick papers.
3:17
Just solving this one problem, about this one number, dividing it into 19, and it is divisible.
3:32
So during the time of Thamûd, the camel was the sign.
3:39
During the time of Moses, he threw down the staff and it became a serpent, and swallowed the serpent, the other snakes of the magicians.
3:48
This is what they believed, because they realized this is no magician. They are the experts.
4:01
Before we go to the people of Lot, are there any questions? Number 33,
4:08
[54:33] The people of Lot rejected the warnings. [54:34] We showered them with rocks. Except Lot's family; we saved them at dawn.
4:19
[54:35] That was a blessing from us; we thus reward the appreciative.
4:25
[54:36] We had warned them of our strike, but they doubted the warnings.
4:31
[54:37] They negotiated with him about his guests; we had blinded their eyes. They have deserved my retribution and warnings.
4:42
[54:38] On the following morning, they were hit by devastating retribution.
4:47
[54:39] They have incurred my retribution and warnings. [54:40] We have made the Quran easy to remember. Is there anyone who wishes to learn?
4:58
So as you see consistently, the warnings, there were enough warnings followed by the retribution.
Neglecting the Soul – Homosexuality "talk them out of it". Divine Warnings. New translation changes "Deserved" to "Incur".
5:04
So in other words, God is telling the people "you're neglecting your souls. You're neglecting yourselves. You're going to incur retribution."
5:17
The people of Lot were wicked homosexuals.
5:24
You're not doing the homosexuals any favor by giving them their "rights."
5:33
You have to talk them out of it, somehow.
5:38
The last 10 years, they have been demanding their rights until they got AIDS.
5:45
Because now you can't just take San Francisco and turn it upside down like Sodom and Gomorrah. There are many good people in San Francisco.
5:53
But this AIDS hits selectively the homosexuals.
6:17
Well, if you're doing everything right, why should you be warned?
6:24
Which verse is that?
6:30
I like "incurred" better than "deserved." They have...
6:38
I don't know. I have to look it up. They have deserved my retribution and warnings.
6:55
Well, if you're doing everything right, you don't deserve a warning.
7:02

As a matter of fact, wherever you're working, you'll get a warning only before you get disciplinary action.

7:09

But if you're doing everything perfect, you don't get a warning, do you? Warning, you're doing everything perfect.

7:28

In the new translation, I'm using the word "incurred" in place of "deserved."

7:34

Because we learn that people incur whatever happens to them.

7:40

Remember the law in the Quran, that nothing happens to you except as a consequence of your own actions?

7:46

Nothing happens.

7:54

Did you ever get a warning where you work? That there's something going...

8:08

It's okay. I don't care about linguistics as long as.... The warning is a negative thing.

8:16

Yeah, warning: you're gonna be demoted next month.

8:21

That's negative, you know. Unless you straighten up, you're gonna be demoted.

8:30

That's a negative.

8:37

Any other questions? This Sura is short, but it sure is full of lessons.

8:52

The Arabs have been warned. I can tell you right now, we're gonna witness a terrible, terrible disaster coming up to the Arabs.

Arabs received warnings – Disaster for the Arab world.

9:03

Today in the mail, I just got a newspaper where they had the headlines telling them that they're not following the Quran. They received the warnings.

9:17

This time they didn't put my negative. They put the real picture.

9:24

They're calling me names and everything, but at least they didn't put the negative.

9:34

So, they received warnings.

9:45

I don't know what will happen, but the Quranic teachings point at a terrible disaster happening to the Arab world.

9:53

Of course, they have been incurring a lot of humiliation and problems in the last 40 years.

10:00

But now the warnings have been really concentrated to them.

10:10

They have been told that every single mosque does not uphold the commandments of the Quran, not a single one.

10:20

So, we'll see. Hmm? Uh-hum.

10:27

I just got a newspaper that is very popular there, and there's quite a prominent display of the warnings.

10:38

It's not the first time either.

10:45

Which newspaper? Warnings that the Islam they're following has nothing to do with the Quran or the Prophet Muhammad.

10:55

Yeah, yeah, "(unintelligible) Al-Islam", it's called.

11:03

But it's been in almost every newspaper over there.

11:08

It's magazines, big, the most famous magazines.

11:14

The average Egyptian heard about the miracle of the Quran at least, yeah.

11:25

Yeah. You met the wrong people.

11:39

It's been really intense. It's been intense.

11:46

Publications and the warnings, everybody heard about it, almost.

11:53

No, it's been in Akheru Sa'a (آخر ساعة). You know what Akheru Sa'a looks like, Rosol Yusuf. I have the copies here.

12:02

Al-Ahram (الأهرام), Al-Ahram, every day in Ramadan, they publish something, for the last three years.

12:30

Right. A woman: You know, you can also have Christians who read the Bible daily about Christ, and Christ says repeatedly in the Bible that he's the son of man.

12:45

A woman: The whole message in the Bible (unintelligible) There are a few distortions in the message there, but they don't get it.

12:51

It's probably the same thing. A woman: I just (unintelligible) distortions, you know. The more I find myself looking and rushing into them, the more I find them.

Gospels "mostly truth".

13:00

Dr. Khalifa: But everything you told us, everything you mentioned, Martha....

13:07

Martha: The whole thing, the whole thing is about faith in Jesus Christ. We have Jesus Christ, salvation through Jesus Christ.

13:15

It's just I always thought it was just one or two really famous ones, like none should come to (unintelligible) without having the son of God.

13:23

Or else (unintelligible).

13:31

Dr. Khalifa: Well, the epistles are now..... they have a Jesus conference every year.

13:36

And they announced that only the first two epistles are correct, the rest are junk, they said.

13:44

They have no confidence in them. So, but if you look at the Gospels, look at the Gospels, the majority is truth.

13:49

A woman: You get 99% of Christians who'd never hear that either. A woman: same as the Muslims (unintelligible). Dr. Khalifa: Yes, exactly.

13:56

A woman: They won't hear it. A woman: And (unintelligible), you know, if they heard somebody say that, they wouldn't hear it. Dr. Khalifa: They will not recognize it. Yes.

14:02

But it's in newspaper every year, the Jesus conference every year. In fact, these most famous statements, they declared they were fake.

14:12

Like Don just mentioned "I'm the way. I'm the life and the way and this and that." "None goes to the Father except through me." That's a fake one.

14:20

And this is coming out of the Christian scholars. A woman: So, if you look at the Gospels, (unintelligible) majority?

14:29

Dr. Khalifa: 99% is truth. For example, none of them says "Jesus son of God" except John.

14:36

And in John it is only four times. John is the most recent of the four. But the other three don't say "Jesus son of God."

14:44

A woman: (unintelligible). Dr. Khalifa: Those are epistles.

14:51

They all agree that they're all fake except for the first two. If you read the book, Jesus, Lisa wrote, she gives a report on all of these.

15:03

Have you read that book? We have an office copy, you can get there. We'll put you in there and lock you in and have you read it.

15:14

Are there any questions on Jesus? They're not to be....By the way, this Sura, this is the only Sura in the Quran,

15:24

this is a certain piece of information on the side from the computer facts,

15:31

This is the only Sura in the Quran where the name of God is in every verse. At least once.

15:38

This Sura here, the only one in the whole Quran where every verse has the name of the word "Allah" in it, at least once.

15:45

(unintelligible). Dr. Khalifa: Say it again. A man: 57 "God." 57 times.

15:53

Dr. Khalifa: Really? Oh, my goodness. Here's another piece of information.

(InAudible) Debate about age of 40 – "piece of information".

16:03

So, these are the... It's a blessing, yes. See, what is happening

16:10

when there is a messenger, God is sending information to the whole group through the messenger.

16:16

And the messenger himself is benefiting from this information, so it will save us a lot of trouble if we obey.

16:25

This includes the messenger and the people because this information comes to everybody.

16:31

Actually, I see this in my last trip to Canada, for example.

16:42

I mentioned the issue of the age of 40. And I assumed that everybody accepted it.

16:49

But they didn't. And I ended up wasting so much time on it. And it's a blessing if the people have the understanding of, for example, this verse.

17:00

They'll be so comfortable if they have the conviction and understanding. They will not waste so much time arguing back and forth.

17:08

"Why 40?" "How can a person who's 35 go to Heaven who did this and that?"

17:15

It's a piece of information that God sent to us and gave us the proofs and the evidence and a number from the Quran.

17:22

So, a person who has, who's blessed God says "it's a blessing because it saves us a lot of time.

17:28

It's finished. It's closed. When we say "God said, up to 40, everybody goes to Heaven.

17:35

And here's the number in the Quran, and here are the proofs. Here are the signs." Then, we're convinced.

17:40

So, it's a blessing. So, I appreciate the fact that this verse deals specifically with disobedience to the messenger.

17:53

It's obedience in matters that have to do with God and information that's coming from God.

18:00

(unintelligible) It's not personal obedience. It's obedience to God. It is the information that's coming from God.

18:10

And we have, in history, the history tells us they were having a battle or something and the prophet Muhammad said "let us camp here"

18:19

and they went to him and said "is this message from you or from God? If it's God, we'll do that."

18:24

He said "no, it's from me." He said "this is a stupid idea."

18:30

So, once he said "it's from me", they were free to not obey.

18:36

So, the obedience is really to God. This is actually written in history. They were all ready to obey you.

18:44

And they did move on to some other place.

19:24

Okay. Just we do have time for general questions.

19:30

"General questions."

19:42

Now, listen to this. Are you gonna get (unintelligible)? Thank you. The word, they said that Saleh, now this is between.... the old timers will remember this.

19:55

They said... now Saleh, he said "this is God's camel." "Let it be, have its own drink in some places."

20:04

And then, they slaughtered the camel. So, the word, people under-aged, excuse us, but they said that they had sex with the camel.

20:12

(unintelligible)

20:22

This is what they said. They said "the word did not mean... ." They wanted a specific word, it means "slaughtering."

20:33

And actually the word that's specific enough (unintelligible).

20:39

So, this is one of the examples of the conspiracies from the devil.

20:44

And they actually came back and they argued with me. They said "why did you translate this "they slaughtered the camel"?"

20:51

So, we really are living the Quran. Dr. Khalifa: Conspiracies from the devil. The devil gave them (unintelligible).

20:59

Atif: Also, the people were reading from the... They were translating from the Quran in Arabic to English. They were not using this.

21:10

Dr. Khalifa: I think they used both, Arabic and English. They had some other translations. A man: (unintelligible).

21:16

Dr. Khalifa: Yes. (Unintelligible)

21:23

(Unintelligible) The word is Aqaroo (7:77) عَقَرُوا

21:28

(unintelligible) It is slaughtering the camel. So the word in the Quran, what they did to the camel was slaughtering.

21:39

So, they said "Aqaroo" means "they're having sex with the camel, not killing."

21:45

I mean, perverts.

21:50

That's what they are. Conspiracies of the devil. This is what happens

21:55
if we, if we separate ourselves from the believers. The world ends.

22:03
Ok, back to Robert. Robert: Especially the part that God may make room for you.

22:09
I thought that I was (unintelligible). Dr. Khalifa: Actually, it's happening now with Feroz.

22:15
Did you find a place to sit down? Did you ask somebody to move? Did you have to ask somebody to move?

22:22
Feroz: No. Dr. Khalifa: Great! Dr. Khalifa: (unintelligible).... that if you want, when he come in, there's nobody, ask them to make some room.

22:31
(unintelligible). Jack Roberts said. Edip: (unintelligible) Dr. Khalifa: Exactly.

22:38
Edip: Be kind to others. Dr. Khalifa: Be considerate to others. It's a general principle.

22:45
That is if you are nice to the people, (unintelligible) A man: (unintelligible) Dr. Khalifa: (unintelligible) be kind to you...

22:53
If they all come and say "no" Don't be inconsiderate.

23:02
A man: Is this why they did it? Dr. Khalifa: Yeah, they allied themselves with the enemies of (unintelligible). Actually, we have some examples of these.

23:13
People who, for example, ally themselves by somebody who goes to the Islamic Center.

23:23
In the Islamic Center, they (unintelligible) the worshipers, they don't devote their prayers to God alone.

23:31
And you know, they anger God (unintelligible). They will not accept, La Elaha Ella Allah, (unintelligible) because they can't.

23:46
(unintelligible) They're criticizing me for saying that (unintelligible) to have the freedom of expression.

23:55
And in that letter they say "we agree to admire, we applaud the Catholic Church for making a stand against Salman Rushdie.

24:07
(unintelligible) They're attacking me and applauding the Catholic Church.

24:15
I say "La Elaha Ella Allah." The Catholic Church says "praise Mary, mother of God."

24:23
So, it is not an issue of worshipping God. It's politics.

24:28
How can they applaud the Catholic Church for anything? Because the Catholic Church itself practiced the same thing that (unintelligible).

24:35
They don't like people to write about their "Shroud of Turin" and all the nonsense that they have.

24:42
They have (unintelligible) censorship. They excommunicate people right and left because of their opinions.

24:50
So, they are (unintelligible).

24:58
Dr. Khalifa: Right. And the Catholics... A woman: (unintelligible).

25:08
Dr. Khalifa: You can see how will God look at people with this, applauding people who are saying "praise Mary, mother of God."

25:19
(unintelligible) Mary, mother of God.

25:24
And condemning somebody who says "La Elaha Ella Allah."

25:30
So, anybody who allies himself with those people, God is angry with them.

25:35
This is verse 15. [58:15] GOD has prepared for them a severe retribution. Miserable indeed is what they used to do.

25:41
Robert: (unintelligible) there are those who ally themselves with people who have angered God.

25:53
Dr. Khalifa: We seek refuge in God from Satan. Bism Allah Arrahman Arraheem. In the name of God, Most Gracious, Most Merciful.

26:02
Tonight, we're starting at Sura 54. 55, excuse me.

26:09
And our teacher tonight will be Lori, right? But before we start, I want to make some corrections.

26:16
In my Khutba today, I make some boo-boos sometimes. Sometimes I say things that appear to be not very tactful.

26:25
For example, we have, here, a great team of cake bringers and cake makers and when I asked, and Rahima was

26:33
Rahima's turn, Lori's turn, I said the best. So, this... they're all, they're all great makers of cake, bringers of cake.

26:42
And this appears not to be tactful, but I had to explain to you that each believer is the best.
26:49
So when I say the best, I'm referring to every single one of them.
26:55
Because we're all, I hope I don't make it worse. No, honestly, I...
27:02
Because you people are so special that every one of you is the best. And when I say that, I just want to pay you the highest possible compliment without infringing on the other's properties.
27:18
Because they are the best, each one of them.
27:26
Every single... Did I describe your cake as the best when you brought it in?
27:36
Now, how do I get out of this one? Help! I think I get out by saying "okay, take it over, Lori."
27:49
Lori: It was really a test for me, because I just wanted to know. And I never understood the jinns. It's just like...
27:55
You know, I read it, and I knew because it was in the Quran, I had to believe it.
28:01
But I didn't know what they were, and nobody could explain it to me. You know, and I got really wild explanations of what the jinns were.
28:11
And it always troubled me, but I just forced myself to submit. And in the second chapter of the Quran where it says that the believers are those who believe in the unseen, and this was part of the unseen.
28:26
And I knew that, IN SHAA ALLAH, at the time, that God would explain it to me.
28:32
And one of the blessings of being in this mosque is having things explained to us.
28:37
And as Rashad said in the Khutba today "it's the mercy from God that He sends a messenger from among us to explain to us."
28:45
The knowledge is here in the Quran, and all of us have read the Quran. You know, I read it once a month from front to back, and every time there's something new.
28:54
And we get what we need at the time we need it.
29:00
And we, in this mosque, are just developing so far. It's just amazing. You know, Rashad and Lisa and Hasan went to Canada, and there where the people believed the way we do,
29:10
there's still (unintelligible) behind us in the knowledge, because we're here every Friday night, learning and studying.
29:16
We have the input of all these believers here and learning and studying. We have the input of all these believers here.
29:24
And we have a messenger that is given the knowledge that is passed on to us.
29:29
Lori: And we're responsible for the information in this mosque. Dr. Khalifa: This was directed to the humans and the jinns.
29:35
Well, there were two kinds of creatures, creatures that sided with Satan completely, the jinns,
29:44
and the creatures that did not... they were neutral, didn't make a stand with God. That's you and me.
29:51
God decided to give us the body of man, originally of the same material as the earth.
29:59
We are earth now. But the jinns have a body of fire, fire. It's the difference.
Satan and jinn's invisible to us so they can whisper – Jinn's travel faster than speed of light. Jinns given a chance to see more of the universe.
30:06
We are in dimensions and they are in different dimensions. Because the agreement called for Satan to remain invisible, just like God is invisible.
30:15
Satan wanted to whisper to us while being invisible.
30:21
Therefore, they had to be made of a different material in a different dimension. Also, the jinns, they're made from energy. It gives them the abilities to travel a lot faster than the speed of light, millions of times the speed of light.
30:38
They can go to the outer limit of our universe, 26 billion light years.
30:44
So, this gives them more to see, more evidence. God is giving them more evidence because they made a hard stand against God.
30:55
So, when they go to Hell in the Hereafter, it seems like this whole life is really to nullify the excuses
31:06

of the humans and the jinns, the creatures who did not make a firm stand on God's absolute authority.

31:15

In other words, had God listened to the angels initially and said "okay, all those who didn't make a stand

31:22

on My absolute authority are banished, are out. Go to Hell", they would have said "oh, you didn't give us another chance. We didn't know how bad Hell is. You didn't give us warnings."

31:34

So, this life is designed so that when the people insist, that the jinns insist on going to Hell, they will not be able to say that.

31:43

They will not be able to say "you didn't give us a chance. You didn't give us warnings. We didn't know what we were doing.

31:51

If You told us how bad it is here in Hell, we would have made a difference." God told us everything, the humans and the jinns.

31:58

He told us how bad Hell is, how to get out of it, how to redeem ourselves, how to make it back to God's kingdom.

32:06

So, the jinns, because they have this strong stand, they are given a chance to see more of the universe.

32:14

And to convince them to redeem themselves. We were wishy-washy and this is the extent that we need to make that decision and to redeem ourselves.

32:26

We have these different bodies. A woman: (unintelligible) Dr. Khalifa: This is it.

32:33

A woman: (unintelligible) Dr. Khalifa: Of course. Dr. Khalifa: We have....In the museum, there was one show on the Friday show before the elections. (unintelligible).

32:47

And they had this magician, a fellow who uses jinns, I'm sure.

32:52

And before the elections, two weeks before the elections, on the show, they decided to put, he said "I'm going to put in this envelope

33:02

who's going to win the elections and how many votes." And he sealed the envelope. That was two weeks before the elections.

33:10

And he said "on the election day, the next day, they would open the envelope and they would see

33:16

that he wrote down two weeks back, two weeks ago, who won the elections and how many votes."

33:23

How would he do that? Can you guess? What did they do? A woman: (unintelligible) Dr. Khalifa: No. A woman: So, what did they do?

33:33

Dr. Khalifa: Ok. They don't know the future. The jinns don't know the future. They're just like us. But what they did, they waited until the newspaper came out and they said "Reagan won and here are the number of votes." Then, they go in the envelope and they write.

33:46

That's right. That's how they do it. Because this is the number of votes.

33:52

So, what I'm saying, what I'm saying is they go into envelope (unintelligible). A woman: But tell me this now...

33:58

Dr. Khalifa: (unintelligible). A woman: On the news, they showed pictures of Mars and this is why they said that the Russians (unintelligible).

34:05

And they found two faces on Mars and they thought it was a shadow.

34:10

So, they did a close-up and then they did a computer enhancement and saw teeth.

34:16

The eyes and the teeth, they understood. Dr. Khalifa: No. A woman: I'm thinking about it (unintelligible) about Rashad

34:24

Rashad said "the jinns went there because they can leave early (unintelligible). Right and they can go up there and plant these things for us to see. And they prove to us (unintelligible). Dr. Khalifa: No.

34:35

And while we're busy worrying about this little thing on Mars, they sneak up, you know what I'm saying?

34:41

Dr. Khalifa: They have (unintelligible). They cannot do anything without God's will. So, if God wants us to be fooled in that way, He will allow it.

34:50

But they cannot slap you in the face, for example. They're sitting there and (unintelligible). First of all, each one of us has one.

34:58

Those are not free yet. And then, there are the ones that have been freed of the dead people, our grandparents.

35:06

They come here regularly and listen to Quranic studies. It is recorded in the (unintelligible). There's a person that says "some jinns heard the Quran and went to their families and friends and told them "we heard a wonderful Quran.""

35:24

So, this is one. We have this kind of body and the jinns that kind of body.

35:30

(unintelligible). This says "use me, O Lord, in Thy work."

35:38

And in parentheses, especially, in an advisory capacity.

35:46
Okay, anything else? There was something here about death. I want you to think of death as getting rid of this lousy body
35:56
and getting a new body that does not get sick or die. That's what death is, smooth from stage to stage.
36:05
And usually it happens when you're sick and tired of this one. And you want a new one.
36:28
Dr. Khalifa: (unintelligible). You see, the balance in number seven can be understood by different generations, but now we understand the environmental balance, for example.
36:39
Why do we have so many rabbits? What do they reproduce so much? The wilderness.
36:45
You see, the foxes need food. There's an environmental balance. Foxes.... The coyotes did not need the rabbits to be invaded.
36:54
There are hundreds of rabbits right here. So, I mean, this is a type of balance, well known.
"Cheating cost you a lot" – new heaven new Earth in the Bible.
37:02
It was studied in school. (unintelligible) that there was some biological balance in the world.
37:09
But this balance covers everything.
37:16
And worrying has to do with cheating. It's a very important commandment. So,
37:21
Prophet Shu'aib was sent just for that particular commandment, not to cheat in trading.
37:29
When we break this commandment, it costs us a lot.
37:35
You cheat in paying your rent, collecting your rent, doing your work, or whatever, it will cost you a lot, more than you cheat.
37:50
So, this is God's commandment. It's one of the very important commandments. I believe what is an ideal person in honesty and truthfulness.
38:07
Okay, if there are no questions, we'll go to 37.
38:13
A woman: What would that mean? Dr. Khalifa: The sky is blue now, right? A woman: Right.
38:18
Dr. Khalifa: So, the Hereafter will be pink, will be rosy. It will be almost like Cherie's blouse, a little lighter.
38:27
With a beautiful sky at the sunset or the sunrise. So, they studied (unintelligible).
38:35
Psychologists, psychiatrists said that the most peaceful color is this, this color
38:40
In fact, they suggested that people who are tense to get a piece of this color (unintelligible) for a couple of minutes.
38:47
The sky will be like that on the Day of Judgement.
38:56
By the way, Laurie mentioned substitution of the earth with a new earth, the heavens with the new heavens
39:04
And we see this in the Old Testament and the New Testament as well. Most of the prophecies, in the Old Testament, are in the book of Isaiah.
39:12
And if you want to put this (unintelligible) and put down Isaiah 65:22, it talks about substitution of a new heaven, a new earth.
39:22
65:22 Isaiah. Also, in 66:7.
39:29
66:7 That's the very end of the book of Isaiah.
39:34
And also in the New Testament, you find it in the second book of Peter 3:13.
39:40
3, the verse number is 13. Both of them talk about substitution of a new heaven, new earth.
39:49
The Quran and the Old Testament. The Old Testament and the New Testament and the Final Testament are identical in that respect.
39:58
This is, this is one fact that God wants you to know. On the Day of Judgement, the color of the sky is going to be rosy.
40:16
Is this something about Mars?
40:23
I remember one of the cameras that went to Mars (unintelligible).
40:33
You know, the reason our sky is blue is the diffraction of the light. You know, (unintelligible).
40:42
And the blue happens to hit the atmosphere of the earth at such an angle that it gets deflected.

40:48
(unintelligible) So, this is God's design.

40:53
So, it's blue. Now if the... If the sunlight becomes a little, changes just the angle hitting the atmosphere, some other color will be deflected.

41:03
Dr. Khalifa: It's a very simple matter. A man: The reason we see the sunset as being pinkish or red is because of the sun (unintelligible)....

41:17
A man: that it's the reflection of the sun (unintelligible). Dr. Khalifa: Right.

41:22
A man: And say, you know, (unintelligible) Dr. Khalifa: Also, the deflection is different, at sunrise and sunset.

41:31
I'm glad you brought this up. There's a deflection and reflection and diffraction.

41:42
When you go fishing and you put a stick in the water, you see the stick go like this.

41:49
It's a great stick, but you can see it's called...

41:54
I forget now (unintelligible), reflection, diffraction and all those terms.

42:00
But the sunlight hits the earth atmosphere and this happens to it. It depends on which angle, which light (unintelligible) This is what changes the colors.

42:11
So anyway, one of the things that God wants us to know is that the sky is rosy.

42:17
It's very pleasant only to the believers, pleasant to the believers.

42:26
Laurie: In verse 39, we're told that on the Day of Resurrection that neither jinns nor humans will be asked about their sins because it won't be necessary.

42:37
We know from other verses in the Quran that everything that we've done in our lifetime has been reported

42:43
by reporters that are honest and never miss anything at all. And it's recorded and we know now with the development of the videotape that that's what it's going to be like.

42:56
We can see everything exactly as it was as it took place. Everything we said, all the thoughts that we had, everything we did will be recorded.

43:05
And for those of us who are fortunate enough to have developed our souls to the extent that we're worthy of having our sins remitted, we'll have the power to edit our tapes, which will be so nice.

43:17
And everybody else won't. And we've been told in many verses in the Quran that we don't have to even...

43:24
We won't even be asked about our sins because everything will testify to them, our skin, you know, everything will...

43:31
We've been reporting everything that we've done all this time. A man: (unintelligible)

43:41
Dr. Khalifa: I don't know if he knows that. (unintelligible).

43:47
See verse 40 says, well, 39...

43:55
Verse (unintelligible) "We won't be asked..." Oh, 39, yeah.

Size of the soul on day of Judgement.

44:00
[55:39] Humans or the jinns will not be asked for their sins. Nobody will need to ask anybody about anything because the believers develop their souls

44:11
and the disbelievers fail to develop their souls. And in Sura 17, we're told that the differences in the Hereafter, I mean...

44:19
In this room, the differences in our sizes are within a few inches. But in the Hereafter, the differences will be like the difference between a mouse and the city of New York, city of Tucson, let's say.

44:31
So, when you see somebody the size of the city of Tucson, he or she has developed the soul sufficiently.

44:39
This is why they will be able to come closer to God. When you see somebody the size of a mouse, you don't need to ask, you know "what did you do wrong?"

44:48
You know, that is... This is why nobody will need to ask anybody for their sins.

44:54
It is so obvious. There'll be no question. Also in Sura 17, we're told that everybody will be the judge for him or herself for the sins.

45:04
Because in that dimension, we will see what we really look like, how much we really develop, and how much we lack development.

45:15

So, 41, [55:41] The guilty will be recognized by their looks;...

45:20

They'll be undeveloped. They'll be shrunken. It's like being born without arms and legs, deformed.

45:28

They will be born into the Hereafter deformed, undeveloped, aborted.

45:36

But they'll be alive. They will (unintelligible). Very alive, Not well.

45:46

Also, God lets us understand, as Laurie explained about 44, how they will try to sneak into Heaven and they'll find it worse than Hell.

45:57

They will sneak into the Lower Heaven. They'll find it worse than Hell, because they do not stand to come any closer to God.

46:08

See, God takes it completely up to us, completely. This is why God does not inflict an atom's weight of injustice.

46:15

It's absolutely up to you. You can be as close to God as you want in the High Heaven, or you can be as far from God as you want.

46:25

It's completely up to us. So, the conclusion is that God does not put a single person in Hell.

46:32

It is the people who insist or choose, and they insist on going to Hell.

46:38

The whole thing will be automatic in the Hereafter. This is why it is important to do, for example, the five Prayers a day.

46:47

You don't do the five Prayers every day, you are in trouble. That's the minimum that you can do.

46:54

Because those are the meals for the real person.

47:00

Just imagine if you don't feed... your body is dry and you don't feed it and run for two months.

47:05

What will your body look like? There is no death in the Hereafter.

47:11

Just imagine not eating for two months. And the people out there in the street, they don't feed their soul for years and years and years.

47:22

Can you imagine what they look like? Can you imagine what they look like? Just bring it to our dimension here and think of bodies that didn't eat for years.

47:32

You see those skeletal pictures of the starving people in Central Africa, Ethiopia, Sudan?

47:39

What do they look like? You can see their ribs, the shank, the skin and bones.

47:46

And this happens to the soul. The soul is not fed. The body eats every day.

47:54

[55:41] The guilty will be recognized by their looks;...

48:02

You can tell who is starving in Africa and who is not by looking at them.

48:08

In the Hereafter, you'll be able to know who is starving and who is not.

48:14

Except it will be by choice. Dr. Khalifa: So, now I'll go back to Laurie and number 46, the Higher Heaven. Laurie: Yes.

48:24

Laurie: [55:46] For those who reverence the glory of their Lord, there will be two Paradises. [55:47] Which of your Lord's marvels can you deny?

48:31

[55:48] With abundant vegetation. [55:49] Which of your Lord's marvels can you deny? [55:50] Two springs run freely therein.

48:39

[55:51] Which of your Lord's marvels can you deny? [55:52] They will have two kinds of every fruit. [55:53] Which of your Lord's marvels can you deny?

48:46

[55:54] They will relax on furnishings lined with silk, while the fruits of the two gardens are brought near.

48:51

[55:55] Which of your Lord's marvels can you deny? [55:56] They will have magnificent spouses therein, never before touched by any human or jinn.

History of Abrahamic/Islamic/Submission faith. "Special People", Persecution, MOC says "disown me if you go to the Middle East". Believers ridiculed. Early Generation.

49:00

[55:57] Which of your Lord's marvels can you deny? [55:58] They will look like gems and coral.

49:05

[55:59] Which of your Lord's marvels can you deny? [55:60] Is the reward of righteousness anything but the best blessing?

49:11

[55:61] Which of your Lord's marvels can you deny?

49:18

A woman: Action. Dr. Khalifa: Verse 13, I have some very good news for you.

49:26
I'm not flattering you. You are very, very special people. You've got to go to the Highest, Highest, Highest Heaven. I'm gonna explain to you why.

49:36
When Abraham started the religion of Islam, according to God's instructions, he and the people around him were worshipping God alone.

49:48
And as time went by, Satan sneakily and gradually added idol worship until the time of Muhammad came.

49:58
Some centuries later, by the time Muhammad came, they were worshipping lots of idols,

50:06
Allaat, Manaat, Al-Uzzah and all that. They were in the Ka'bah that Abraham built.

50:12
And you've read how many verses in Quran that say "Abraham was never an idol worshipper." And yet there is the Ka'bah that he built that was full of idols.

50:21
And then, God renewed the message, sent the Quran to Muhammad, and sent Muhammad to tell the people "the idols are bad. Worship God alone. Worship God alone." So, what happened?

50:32
Now, Muhammad and his company were persecuted severely. They threw on them all kinds of dirt and bones.

50:42
Then, they banished them when they grew. There were about 10 or 15 people for about 3 years.

50:49
Then, they grew to about maybe 25 or 30 people. Then, they thought they were getting too strong. So, they banished them out of Mecca, boycotted them.

50:59
Now, and those people were abused. So, those have to have a special place in Heaven.

51:08
They went against the current. They were worshipping God alone in an ocean of idolatry.

51:14
You can easily see that they are very special people. They will be in the highest place in the High Heaven.

51:21
Because even within the High Heaven and the Low Heaven, there'll be ranks. Ok, now, 20 years ago, you see how it says here "few from the later generations," the later generations after Muhammad.

51:37
1400 years after Muhammad, there is not a single mosque in the Muslim world that was worshipping God alone.

51:44
That is upholding the commandment "the mosque belongs to God. You shall not mention other names with God."

51:54
And then God renewed the message, right now.

51:59
And the message went loud and clear, ringing throughout the whole world "worship God alone. Say "La Elaha Ella Allah",

52:05
not "La Elaha Ella Allah Muhammad Rasulallah." And "devote yourself to God alone. Uphold the commandments of the Quran. Purify your worship. Your Prayer is wrong,

52:15
Your fasting is wrong. Your Zakat is wrong." These are, these are all blessings from God that He sent to our generation.

52:24
And again, we are subject to the same persecution, the same ridicule, lucky us.

52:34
Yours truly cannot go into any country in the Middle East. I'll be shot within 24 hours.

52:41
Just stabilize it. And if you go to the Middle East, you better disown me. I'm asking you to do that.

52:47
I mean, God says, even disown God, if you are under those circumstances, as long as your heart is filled with faith.

52:54
If you don't wanna get into trouble, you better tell them "I don't know Rashad Khalifa" on purpose. But this is... you are very, very special people.

53:05
You've gone through the mill of ridicule and mocking.

53:11
Today, Tasneem calls you from New York, and she was talking to some relatives of her in Chicago, who are very active in the so-called Islamic Center.

53:19
And she told them "I'm devoting myself to God alone. I only say "La Elaha Ella Allah."

53:25
And guess what they said? They said "Tasneem went to the dogs." She's worshipping God alone.

53:32
I mean, this is ridicule, right? They ridiculed her. You know, you're saying "La Elaha Ella Allah." You're saying "worship God alone."

53:40
"You mean, God alone. That's all you have, God?" I mean, do you see the logic? They're ridiculing her.

53:47

Mahmood was working the other night, and some so-called Muslims walked in the store.
53:53
And they saw the label, it says "Muhammad" on Mahmood, on the label. They said "are you a Muslim?" He said "yes."
53:59
They said "how come we don't see you at the mosque?" He said "how come I don't see you at the mosque?"
54:08
So, they said "oh, you mean, you go to that mosque?" Because the mosque that worships God alone, right?
54:15
Now, Noah, if you remember in the Quran, Noah said, cause Noah was building the ark, with the
54:21
flat, float, whatever you call it, water raft.
54:28
And they were laughing at him. And he told them, he said "you're laughing at me, but I'm really laughing at you." And that's what Mahmood was actually doing in the store.
54:35
Because they said "oh, we never believed in mathematics. A woman: Oh, God.
54:42
Now, on that day, they probably had an exam in calculus, right? In university.
54:48
And they had to follow the formulas and the equations, and otherwise they would flunk.
54:55
So, they believe in mathematics. But if it comes to God and the Quran, and worshiping God alone, they don't believe in mathematics.
55:02
So, they were looking at Mahmood, you know, ridiculing him, and of course, in his heart, he knows "fool souls."
55:08
Just like Noah, he was ridiculing them. Just like, I mean, he was laughing at them, just like they were laughing at him.
55:15
But this makes Mahmood a very special person. This is what it means, "multitudes from the early generations."
55:24
We are the first generation of renewing the message. And we see it very clearly. Every one of us is in the light, and we can see it.
55:35
Just go in any mosque in the world and say "La Elaha Ella Allah," they will beat you up.
55:41
You are saying "worship God alone." So, you can see what happens after centuries, from the first generation.
55:51
Abraham was a first generation. And those people, I mean, they threw Abraham in the fire, right?
56:00
In those days, there was no America for Abraham to run to.
56:05
They threw him in the fire, so what did God do? He turned the fire into a cool and safe place.
56:12
Because God, God says "do not think that I will abandon my messengers.
56:17
God creates exits for them. So, the exit for Abraham was a cool and safe fire.
56:23
And the people who were with him, they were persecuted. They had to be special people, because the easiest thing is to go along with the masses, with the crowds.
56:34
You think this shook Mahmood? Not one hair. And this is why he is very special.
56:40
I'm just using Mahmood as an example. Muhtesem went to a grocery store to buy some Middle Eastern stuff.
56:47
And he met some Arabs there.
56:52
They're just totally ignorant. They know nothing. But he says "yes, we saw too much in Tucson. We worship God alone."
57:00
And they almost beat him up. If he wasn't big enough and strong enough.
57:06
And a Turk. He would have been beaten. So, why do you have to take all this abuse?
57:13
And all this ridicule. Do you think it shook him up? Did it affect his faith?
57:18
If anything, it strengthened his faith. Because he knows that those people are off. He knows they're ignorant.
57:24
He knows they're not worshipping God alone. He knows they lost the Prayer. They probably never prayed.
57:29
These people, do you think they prayed? Muhtesem: (unintelligible) Dr. Khalifa: Right. Right. They don't know?
57:38
Dr. Khalifa: They don't know? Muhtesem: (unintelligible)
57:52

Dr. Khalifa: And they don't know how many stories are in the Quran. Muhtesem: (unintelligible) Muhtesem: (unintelligible) Dr. Khalifa: All of them. They're missing this.

57:58

Dr. Khalifa: The Bashar couple. The Bashar's, they ridiculed them so many times.

58:05

"Do you really go to that mosque?" And the answer is "show me a place where they worship God alone that I go."

58:14

"We go to that place." I will go to that place. Any place where they worship God alone, we'll go.

58:20

God is the One (unintelligible). God is the One who created you. God is the one who provides for you.

58:26

God is the One who controls your health, your welfare.

58:31

God is the One who controls your happiness. God is the only One who controls your success.

58:37

Muhammad is dead. The saints are dead. Jesus is dead. Powerless. Even when they were alive. They had absolutely no power.

58:49

So, (unintelligible). Because you are going through. This is the first generation. We are,

58:57

We are so lucky. We are a first generation, just like Abraham's generation, Muhammad's generation.

People who follow the crowd "jumping on the wagon" of an established belief. Believers get a pinch when they stray off the path.

59:05

Muhammad's generation are ones who went through the ridicule, the abuse. And they had to leave their city, Mecca and go to Medina.

59:12

The persecution they went through. Because of this, God reserves a special place for them.

59:18

God is reserving a special place for us. I'm saying it by God's grace.

59:23

So, I have this very good news for you. What you are, you fit here in verse 13. Multitude from the early generations.

59:31

In 50 years, I assure you, in 50 years, there'll be millions of people worshipping God alone, upholding the Quran alone and praying the correct way.

59:40

Millions. In just 50 years. But they will be following the crowd.

59:46

They cannot be like you. They will be protected by their numbers.

59:53

Right at this location, right here, there'll be thousands on this block, in this mosque.

59:59

And there'll be powerful, the people jumping on the wagons. But they don't deserve the same position or the same credit as you.

1:00:12

So, this is what it means. "Multitude from the early generations, but only a few from the last generations."

1:00:19

Because these are the far ahead, in Arabic, (56:10) السَّابِقُونَ السَّابِقُونَ These will be the closest to God. They are very special.

1:00:27

And that is you. And you start collecting benefits now.

1:00:34

And we've seen it. We have a history already. We have a track record in this mosque for 10 years.

1:00:39

We have a track record, a perfect track record. In this life.

1:00:45

It's guaranteed by God. You may have a pinch here and there, but it's because we make mistakes.

1:00:54

The tests are brief for you. But if you stray off the path, you know you're gonna get the pinch.

"Angels have wings 2, 3 and 4". Those who except ridicule and persecution for their belief are special people and attain the high ranks. Satan hates you.

1:01:01

And you get the pinch and say "thank You, God", and come back to the path. You are very special people.

1:01:10

You deserve a lot of congratulations. God says in Sura 35 that the angels have wings, two, three, and four.

1:01:20

Two, three, and four, because the angels closest to God will be the most powerful, the highest in rank.

1:01:29

You'll have more wings. This is figuratively speaking. And these (56:10) السَّابِقُونَ السَّابِقُونَ

1:01:36

these far ahead people. Like (unintelligible), you'll be there.

1:01:41

I mean, all those are angels, but still, they have ranks. And 50 years from now, the thousands of people will be in this location, IN SHAA ALLAH. They will go to the High Heaven because they worship God alone

1:01:54

and they will pray the correct way. And they'll go to the High Heaven, but they cannot attain your rank, because you're the ones who are taking the abuse.

1:02:02

The people who take the abuse and the ridicule have a very special position in the Bible and in the Quran.

1:02:09

I had a little thing that I hang in there for a while that says "congratulations to those who are persecuted."

1:02:15

Well, the prophets also have been persecuted, remember that verse? I had it hanging here.

1:02:21

And this is God telling you "congratulations." (unintelligible)

1:02:27

So, we are very, very lucky. And I'm stressing, I keep stressing this, because I cannot stress it enough.

1:02:36

Just so we can thank God and be appreciative, so you know who you are.

1:02:42

Satan will always put doubts in your mind. Always will tell you "you're nobody." He hates your guts, okay?

1:02:51

Because it's going to be deep, deep in Hell. You hear that, Iman? You're asking about Satan and the Hereafter?

1:02:57

He will not be in Heaven, no. He will not even come close. He and his troops will be way deep down in the lowest pit of Hell.

1:03:08

And he'll be beating them and they'll be beating him. They're gonna spend eternity doing that.

1:03:16

So, he will try to tell you "you're a nobody", but you speak back to him.

1:03:21

You tell him "I believe God." And I believe that I am in this group, multitudes in the early generations.

1:03:27

Because this is a first generation.

1:03:32

I mean, I couldn't believe it myself. For a long time just "it couldn't be just us here worshipping God alone. There must be millions in the world."

1:03:41

But I discovered that I'm naive, that the human being is really bad.

1:03:46

I was talking to my nephew, Sharif, in Egypt. He said "I'm the only one in Egypt."

1:03:53

He really is a believer. You can tell the people who believe, because they are in the light. They understand.

1:04:02

And he's the only one that I know in Egypt, (unintelligible). He said "really, I believe."

1:04:08

IN SHAA ALLAH, he will come for the conference. He's only 20.

1:04:16

He was born two weeks before Beth. And he's the only believer in all of Egypt.

1:04:25

I mean, I was really naive. I mean, I said "there must be millions in Egypt to worship God alone." Nope.

1:04:32

Wrong. So, this is why I'm speaking so strongly. And I'm telling you "you're very special." And when Satan tells you "you're not", you tell him to shut up.

1:04:43

You're very special This is the verse that talks about you.

1:04:49

Congratulations. Dr. Khalifa: Yes. Dr. Sabahi: (unintelligible).

1:04:55

Dr. Khalifa: At this time Dr. Khalifa: At this time, right now. Dr. Khalifa: refers Muhammad's time, Ibrahim's time, and this time, our time. We are a first generation.

1:05:05

Right now. Because we are the fortunate generation that is renewing God's message, restoring it, cleaning out all the junk and innovations.

1:05:16

When you go back to Iran you'll be, which town will you be in? Tehran?

1:05:25

I think you'll be the only one in Tehran who's praying the correct way, you and (unintelligible), the kids.

1:05:32

You'll be the one, and they'll laugh at you. When you tell them, and they "Sharooz" "I just say the name of God alone."

1:05:37

"So, you mean, you don't mention Muhammad, or Ahlul Beyt or Ali?"

1:05:43

See, this is what we cleaned out. We cleaned out all the creatures. (unintelligible)

1:05:49

And this is historic. You are a first generation. Dr. Khalifa: Does this make you special or not? When you're the only one in Tehran who's praying the correct way.

1:05:59

Lisa: How beautiful the Highest Heaven is. We know, of course, that these are all allegorical descriptions that God uses allegory because there is no way

1:06:07

that we in our present state can even begin to understand really what is in store for us.

1:06:14

But we know from the allegory of the Highest Heaven that it is truly bliss.

1:06:21

And that it is wonderful beyond our dreams. God says that anything we wish for, anything those who are in the Highest Heaven, IN SHAA ALLAH, we'll be there,

1:06:32

Anything they wish for and even more. So, God's grace is even greater than anything we can comprehend or desire, wish for.

1:06:45

And then those on the right, those in the Lower Heaven, for them also, it's incredibly beautiful.

1:06:54

And it's peace. [56:91] Peace to you from those on the right.

1:07:01

An incredible, incredible triumph to be among those on the right. [56:92]. But if he is one of the rejecters, the strayers, [56:93] then the retribution [56:94] and burning hell.

1:07:16

We know, again, that we can't comprehend really the awfulness of hell.

1:07:24

We have a slight idea because we are as far from God as anything in the universe at this point.

1:07:32

And we know how hellish this world is and how awful it is, particularly when you step out of God's kingdom.

1:07:38

We're incredibly blessed to be in God's kingdom, IN SHAA ALLAH. But as soon as you step out, you know what an incredible hell that is.

1:07:48

And that is nothing compared to the ultimate hell.

1:07:56

[56:95] This is the inevitable truth. [56:96] You shall glorify the name of your Lord, the Great.

"Special people" and those who die before 40 explained. "Some of us were swept in the crowd" to agree with Satan. Earth is our chance of redemption. Martin Luther King as an example.

1:08:04

Mā Shā Allāh Are there any comments or questions on these last verses?

1:08:12

Dr. Khalifa: 38 and 89 refer to you, you special people.

1:08:19

And I say this with thanking God and God says "speak up of God's blessings on you."

1:08:24

We're very rare, fortunate, and blessed group of people. And 90 refers to all the people who died before the age of 40.

1:08:37

It says, as, as... [56:90] and if he belongs with those from the right -

1:08:44

Those people will be very happy. Because they will go to the Lower Heaven.

1:08:51

God knew that they deserved... they do not deserve to go to hell. They deserve to go to the Lower Heaven

1:08:57

because of circumstances that only He knows. That's why He took them at (unintelligible)

1:09:03

The children that came here to perform a function. And they were assigned souls that God knows deserve to go to the Lower Heaven.

1:09:12

Well, they lived until the age of 39 or just before 40. And then God takes them at that time.

1:09:18

Because had they lived, they would have been swept by circumstances.

1:09:27

Which brings me to a point that I will be talking about, IN SHAA ALLAH, in the Khutba two weeks from today, IN SHAA ALLAH.

1:09:37

Where very quickly, Ibrahim, God says "we granted Abraham his understanding, for we were fully aware of him."

1:09:47

Ok. This verse tells you it was not Abraham's intelligence that led him to discover God.

1:09:52

God granted him the understanding because God knew that Abraham deserved to go to the High Heaven.

1:10:01

And the other verse that I wish to share with you is Joseph. When Joseph almost fell for the governor's wife.

1:10:08

And then God said "if it were not that he saw a sign from his Lord." Then, God says "we thus diverted sin from him."

1:10:15

So, was it Joseph who was so great that he didn't fall in sin? Or, was it God that protected him from sin?

1:10:21

It was God that protected him from sin. By the way, the verse goes on and says, (12:24) إِنَّهُ مِنْ عِبَادِنَا الْمُخْلَصِينَ

1:10:26

That he was one of our devoted servants. Because he was one of God's devoted servants, God diverted him, protected him from sin.

1:10:37

So, what I'm saying is that when we agreed with Satan billions of years ago,

1:10:46

some of us were swept in the crowd. And God knew that.

1:10:52

This is what God meant when he said to the angels. The angels said "put them all in hell." And God said "I know what you do not know."

1:10:59

So, God knows that we were swept in the crowd. Some of us were swept in the crowd and do not deserve to go to hell.

1:11:07

This is why God granted Abraham his understanding. God granted you the fortune to come across the true message,

1:11:15

worshipping Him alone and upholding His word alone. It's not because you're clever or because I'm smart.

1:11:23

It's because, apparently, God, not apparently, obviously God knew that some of us were swept

1:11:30

in the crowd somehow. And we agreed with Satan. And we deserve the chance to come here to be redeemed.

1:11:40

So, the people who are taken, like Martin Luther King, taken only a few months before his 40th birthday,

1:11:47

Malcolm X, being taken two months before his birthday, his 40th birthday,

1:11:53

and all the other signs that we have seen. In fact, if you look at verse 41, where you're holding the book now, you see in 41, it's the beginning of hell.

"Once in the age of 41 you better be worshipping God alone."

1:12:04

So, those of you who make the decision, we look in the previous Sura, verse 41.

1:12:10

Well, now we know, we know from this circle here that these numbers of verses are designed, divinely designed, for a reason.

1:12:17

And we have all these mathematical proofs. Once you get into the age of 41, you'd better be worshipping God alone.

1:12:29

Just a second. I don't wanna forget what I'm saying. So, had God left Martin Luther King to live beyond the age of 40,

1:12:38

he would have been swept. That's the word that brought me to the next Khutba two weeks from now. He would have been swept by his environment and his circumstances into maybe mentioning Jesus and things like that.

1:12:48

(unintelligible) He was a pastor in a church, I think. But in his heart, and even vocally, he never said anything about Jesus.

1:12:56

Not that I heard of. In his vast amount of recordings, he always talked about God.

1:13:02

So, this is why God chose to take him at that time to protect him from going beyond to this number 41, and being swept by his environment and his circumstances into Christianity.

1:13:18

So, he will be like we see here on verse 90. [56:90] If he belongs with those on the right - [56:91] Then, peace to you from those on the right.

1:13:26

We can be sure that God's justice put these people exactly in the right place.

1:13:32

He deserves to be in the Lower Heaven. When, when Satan made that blasphemy billions of years ago, there were degrees of convictions among us.

1:13:43

To go from the jinns who completely agreed with Satan, to the majority of humans who were wishy-washy. They didn't...

1:13:51

to some who were swept in the crowd. And hopefully, that's us.

1:13:58

So, now Cathy has a question.

1:14:06

You're talking about a very special group of people who will be the closest to God on the Day of Judgement. They are very special people.

1:14:13

And this will be like when the Prophet Muhammad started to preach.

1:14:19

Well, let's go to Abraham. Abraham started Islam. And then there were people who were with him when the others were throwing him in the fire.

1:14:30

And then by the time the Prophet Muhammad came, they became idol worshippers. Then, the message was renewed by revealing the Quran through the Prophet Muhammad.

1:14:38

And he was secretly preaching. And there were people with him. Those are very special people. This is the first generation.

1:14:45

And then Muhammad became victorious and he opened Mecca. And all the people in Mecca became believers.

1:14:50

They jumped in the wagon. But they do not deserve the same credit as the people who were with him when he was being persecuted and having stones thrown at him. And

1:14:59

he was cursed and called names and persecuted.

1:15:05

Does this make sense? So, that was a first generation at the time of Ibrahim, at the time of Muhammad.

1:15:12

And then ten years ago, Islam was totally corrupted. There is not a single mosque in the world that upholds the commandment to mention only the name of God in the mosque,

1:15:22

in the worship practices and so on. And then God renewed the message with this miracle.

1:15:29

So, now we are a first generation. And the people who are in this movement, while it is being persecuted and the names and the insults and so on, are very special people.

1:15:41

Now, ten years from now, we'll probably have millions. Maybe twenty years, fifty years from now. And everybody will jump in the wagon, but they do not deserve the same credit as you do.

1:15:50

So, these very special people will be multiplied from this generation. And after that, when it is famous and successful and it is the thing to do, they don't deserve the same credit. They will not be in the same rank.

1:16:05

This is what we did last week when we were absent.

1:16:11

We didn't even know if it was really for you or not. We didn't have birth certificates then. By just guessing that the Prophet was holy, who was awakened and given the Quran.

1:16:20

But it has nothing to do with that. It is in the Quran, Sura 46, verse 50, it says... It's what it says there.

1:16:30

It's based on that. Dr. Khalifa: Any other questions? Lisa: [57:4] He is with you wherever you may be. God is Seer of everything you do.

1:16:39

He truly is in absolute control of the universe.

1:16:47

This verse, to me, expresses it very, very clearly and very, very beautifully.

1:16:54

Verse 5, [57:5] To Him belongs the dominion of the heavens and the earth. God is in full control of all things.

1:17:02

These verses again and again are saying absolutely what we've been saying that God does everything.

1:17:09

And yet it is so hard for us to accept that. You can hear it and you can say "yes", but then you get sidetracked.

1:17:22

"Oh, if I don't take my vitamins I'm gonna get sick." You aren't gonna get sick unless you deserve to get sick.

1:17:30

That doesn't mean you shouldn't take your vitamins. Because God, you know, God has given us the vitamins. He has given us the medicines. He has given...

1:17:37

But we have to remember that God is the One who is controlling everything, who is doing everything.

1:17:43

God controls our bosses. God controls our neighbors. God controls our spouses.

1:17:48

He controls not only the physical things. He controls the emotions, the hearts and the minds of those around us and of us.

1:17:56

As Rashad pointed out so beautifully, God bestowed on Abraham his righteousness, his understanding.

1:18:03

Well, God says very clearly that He bestows on all of us our righteousness. It's not us.

1:18:08

It's not ours. We... God gives it to us. He controls our hearts and our minds.

1:18:15

If we make that one choice. The only thing we really control is that one choice of whether we worship God alone or not.

1:18:22

Once we've made that decision, He goes from there. He takes it from there.

1:18:27

And there are a lot of verses that talk about God misguiding those who disbelieve.

1:18:34

Well, they make..... A woman: Yeah. Any questions about the Lower Heaven?

1:18:42

How? 41.

1:18:47

Hell goes right after 41. Wait, what?

1:18:53

It's 41. My God. Yeah. Dr. Khalifa: This has a meaning.

1:19:00

Dr. Khalifa: Yep. 41 means hell. If you don't make that decision.

1:19:07

Dr. Khalifa: If you don't make that decision by that time. A woman: Okay.

1:19:12

A woman: That's clear. I mean, wait a minute. Dr. Khalifa: 41 and higher.

1:19:18

We didn't make the decision. A woman: Subhan Allah. Dr. Khalifa: Remember the circle?

1:19:24

This circle here means every verse in the Quran is numbered according to a system, God's system.

1:19:37

Dr. Khalifa: أَعُوذُ بِاللَّهِ مِنَ الشَّيْطَانِ الرَّجِيمِ We seek refuge in God from Satan, who was the basic cause for us being here in this world.

1:19:49

And, in fact, may God make it backfire on Satan and give us happiness in this world and forever

1:19:57

through believing in God alone. Bism Allah Arrahman Arraheem In the name of God, Most Gracious, Most Merciful.

1:20:08

We are gonna start with Sura 51, page 366.

1:20:15

And our teacher tonight, I forgot his name. I don't know if you remember. What's your name, sir?

1:20:21

Douglas: Rashid Dr. Khalifa: What's your name? Douglas: Rashid.

1:20:26

Dr. Khalifa: I'm serious. We actually forgot. Dr. Khalifa: Rashid? Douglas: Douglas.

1:20:33

Douglas: It's Douglas. Douglas Brown. Dr. Khalifa: Douglas Brown? Douglas: Yes. Dr. Khalifa: You're sure? Douglas: I'm sure of that.

1:20:38

Douglas: You'll find out later when I... Dr. Khalifa: He's a very nervous teacher today.

1:20:50

The Sura. You know, a believer appreciates God differently from people who are unaware or who are not strong believers.

"Imagine sending astronauts into space" explains verses of the Quran. We are Astronauts on spaceship Earth. Oxygen levels.

1:21:02

You can see here that the title of the Sura is "the Winds." And we learn from the first few verses that the winds, their main job is to carry clouds and bring bounties.

1:21:14

We need that water. So, in order to appreciate God and these simple words, just imagine yourself sending 10 astronauts to space.

1:21:25

You sending 10 astronauts to space. And you tell them "Okay, you're gonna be out there for three years. And when you need water, I made an invention in the spaceship so there'll be these clouds on top of you and they will give you water."

1:21:40

You're sending them into space. And you devise that system that will give them water, clean water.

1:21:49

When they pollute the water they have on the spaceship, it's gonna... you know, one of the... number one purification processes is distillation.

1:21:59

So, when they pollute, their own water is gonna evaporate. It's gonna be pure water and come down again. So, you tell them that, so, to assure them that they will have enough water supply for three years or five years, ten years, whatever

1:22:11

you're sending them. Just imagine that. See, God sent this spaceship with five billion astronauts. You and me, we are astronauts.

1:22:19

That's right. And God gave us this system. God devised this system where the water evaporates and then comes down by... the wind drive the clouds here.

1:22:31

How far are we from the ocean? We're far from the ocean. But these clouds came to us from the ocean, by the wind.

1:22:40

It's a traveling system. And that sends down pure water. You appreciate God if you think.

1:22:48

But if you imagine sending ten astronauts in space and you tell them "I'm going to give the exact

1:22:54

percentage of oxygen for you to breathe." Now, in 1967, we were technologically advanced people. In 1967.

1:23:04

But we put three astronauts in a capsule in an atmosphere of 100% oxygen.

1:23:11

Pure oxygen, right? To breathe. And all it took was a spark.

1:23:16

And the three astronauts were combusted. Ed White, Gus Grissom, and Roger Chaffee.

1:23:23

They're not with us today because of that. We were really advanced in science.

1:23:31

But when you put anything in pure oxygen and light a match, everything would be combusted. Everything.

1:23:37

Everything organic, that is. In fact, this is for chemists.

1:23:43

If any chemist is here, this is the last thing you do to find out if there is, for example, radioactivity in the ashes of anything.

1:23:50

You put it in a closed thing there. You fill it with 100% oxygen.

1:23:55

And you create a spark. And everything will be combusted into ashes.

1:24:01

This is what happened to the three astronauts. And this is why God didn't give us 100% oxygen. We have 20% oxygen. The rest is nitrogen.

1:24:11

And this is what they do now when they send astronauts into space.

1:24:17

But we learned the hard way. So, despite our...

1:24:23

I mean, we were sending people to the moon. And we couldn't give them the correct atmosphere.

1:24:31

So, these few verses here will make us appreciate God if we think of sending our own astronauts into space.

1:24:44

Of course, you know how the oxygen is generated for us. We breathe it and we get out carbon dioxide, which is not good for breathing.

1:24:52

So, God designed the trees so they will take carbon dioxide and turn it into apples and give us the oxygen.

1:24:58

They take the carbon and give us back the oxygen. How do you like that for a system? Can you do that for your astronauts?

1:25:08

You tell your 10 astronauts, you're gonna be out there for 10 years and you're gonna breathe out carbon dioxide. So, I'm gonna give you

1:25:14

a couple of... I invented these plants or something that will take your carbon dioxide, turn it into food for you, and you'll get the oxygen back.

1:25:26

That's what God's created. And you think it's all evolution, right?

1:25:37

Are there any questions on these, the winds and the rains? (unintelligible)

1:25:44

We're talking only about the 5 billion human beings. Don't forget the 10 decillion ants and about 200 billion mice. Ihsan.

1:26:01

There may be a few of them in this mosque running around.

1:26:06

The name scares her this way. OK, back to Douglas. Yes, Cathy.

1:26:13

Cathy: (unintelligible) and we do it. 3-year-old children, 2-year-old children. I mean, language is just amazing. (unintelligible)

1:26:29

Dr. Khalifa: This is mentioned specifically as a great miracle in the Koran, the language. Just go to Europe.

1:26:36

Cathy: Well, We don't doubt it. Dr. Khalifa: Where...

1:26:41

Dr. Khalifa: Within a radius of 50 miles, not 50, 20 miles in Europe, you can come across 15 languages.

1:26:48

Czechoslovakia, Hungary, Austria.

1:26:53

Within Czechoslovakia, there are several languages. And it's just amazing how these people understand each other, but these people don't understand them. They understand each other.

Abraham had two sons and Christians distorted that.

1:27:07

It's a miracle. It's still amazing.

1:27:17

Douglas: Any questions or comments?

1:27:26

Dr. Khalifa: There you said it, his only son. Isaac was never the only son.

1:27:32

You said the truth right there.

1:27:40

This is how they justify it. It didn't say "take your only legitimate son." It said "take your only son."

1:27:46

Even if he's illegitimate. But he was not illegitimate.

1:27:51

Did it say "you take your only son or your only legitimate son?"

1:27:58

No. Somebody.... of course, the Jews and the Christians believe it was Isaac.

1:28:05

But that's a racial, that's a racial distortion. They said "take your only son, Isaac,...."

1:28:13

So, they made a boo-boo there, because Isaac was never the only son. So when you tell them, when you confront them with that "only son" business, because Ishmael was 14 years older than Isaac.

1:28:25

They tell you "oh, because Isaac was the only legitimate son. I said "OK, let's look at the Bible." And the Bible consistently calls Ishmael Abraham's son until Ibrahim dies. And then they say

1:28:35

"when Abraham died, his two sons, Ishmael and Isaac, buried him."

1:28:41

So there's no way out.

1:28:47

No. No, he didn't. No, you read it in some novel.

1:28:55

From who? No, no, it's not in Genesis, no.

1:29:05

OK, Abraham had, I mean, Sarah was sterile. She didn't have anything but Isaac.

1:29:15

There are lots of novels that he said, we married this and that.

1:29:28

Many other children are irrelevant, because the Quran and the Bible mention only Ishmael and Isaac.

1:29:35

Nobody else. In Genesis 22, in Genesis 22, around 25, it says "when Abraham died, his two sons, Ishmael and Isaac, buried him."

1:29:49

So, Ishmael was Abraham's son. He was the only son of Abraham for 14 years.

1:29:56

Isaac was never the only son.

1:30:03

Isaac is the father of the Jews. Ishmael is the father of the Arabs. Dr. Khalifa: The Jews wrote about.... I mean, played around with the Genesis, the Torah.

1:30:12

A woman: So, the idea is that they just wanted a miracle to be a miracle to Isaac?

1:30:20

Dr. Khalifa: Right, they didn't want anything Ishmael to have anything to do with anything.

1:30:26

So, they made a big mistake. It's just like....

1:30:31

So, they made a big mistake. It's just like the two verses in the Quran. Exactly, they made a glaring error.

1:30:40

And they tried to correct it in the newer editions of the Bible. They say "take your only one."

1:30:48

Trying very hard, but they make it worse. The only one what? Donkey or....?

Homosexuality brought on by parents taking their children out of God's protection.

1:31:02

A woman: You're talking about (unintelligible).

1:31:09

Dr. Khalifa: They don't learn, do they? They haven't learned a thing.

1:31:15

People bring their destruction on themselves. We know that Sodom and Gomorrah, they were all corrupted beyond reform.

1:31:24

And this is the one thing that.... and they brought it on themselves. So, it is God's law that when they do this, they are destroyed.

1:31:34

Nowadays, when homosexuals are spread in the society, you cannot just destroy the city of Tucson because there are

1:31:41

a thousand homosexuals in it. But you can send a virus to pick them out.

1:31:49

This is what's happening now.

1:31:55

Their parents brought it on them. Right, they brought it on themselves, their family.

1:32:03

Their family take the children out of God's protection. This is what happens.

16 Quran Study From Behrouz 616 Sura 64 By Rashad Nothing Happens Except Sura 70 By Edip Worry Chast

Dr. Khalifa: For the benefit of the people outside of Tucson, I'm gonna repeat that we seek refuge in God from Satan. Bism Allah Arrahman Arraheem. In the name of God, Most Gracious, Most Merciful. We're

0:10

starting today on Sura 64. And, where is, where is Lisa? She's over there.

0:17

(unintelligible) Oh. See there. Just go around. Go around with us. See, they raised their hands. First, I wanna welcome Salim and his wife.

0:35

She's here for the first time, and he was here last week. So, I'm glad you came. Thanks, Stephanie.

0:43

And also, I didn't get a chance to welcome Philip's wife. She was here two or three times,

0:51
and I was wondering who she was. Finally, he told me. So, welcome to the group. You notice
0:59
in the new translation, the word "GOD" is written in bold, big letters. And at the bottom of the page,
1:07
on the left side, you see the number 9? This is the number of occurrences of the word "God" on
1:13
this page. If you count them easily, 1, 2, 3, 4, 5, 6, 7, 8, 9. This is the total, the word
1:23
"God" on this page. And on the right side is the total up to this page, from the beginning of the
1:28
Quran. The objective of this is to let the reader participate in the mathematical code of the Quran,
1:36
which proves to the person that he is looking at God's message to him or her. And this is not a
1:42
human-made book. Muhammad didn't just invent it and make it up. You are reading God's message,
1:50
and this mathematical code gives you the confidence that God is speaking to you,
1:56
not any human being who's trying to fool you. The total number of the word God in the Quran,
2:03
as you know, is 2,698, which is a multiple of 19. 19 being the common denominator throughout the
2:11
Quran. And I'm using just this word as an example. But every letter in the Quran is mathematically
2:20
coded, mathematically composed, and the whole system is easily superhuman, as all of you know.
2:30
So, this is one observation I want to make about the translation. Of course, the Arabic will go in the empty rectangle here. We don't have the
Arabic yet. So IN SHAA ALLAH, we'll be sending it to
2:43
the press around mid, the end of April, towards the end of April. No, towards the end of May,
2:55
or the beginning of May. I'm trying to calculate when the night of power is. We're gonna send it off,
Dr. Rashad Khalifa talks of the night of Power.
3:01
IN SHAA ALLAH, on the night of power, which is April. May 3. Right, okay, there we go. I was adding
3:11
April 7 plus 27. It comes to April 34th. So, that's very late in April, or very early in May. It will
3:27
take six or seven weeks to print, and then we'll have the Arabic and the complete book with us.
3:34
In the name of God, Most Gracious, Most Merciful. [64:1] Glorifying God is everything in the heavens and everything on earth. To Him belongs
all kingship, and to Him belongs all praise, and He is Omnipotent.
3:47
This is a heavy verse right there. Glorifying God is everything in the heavens
3:55
and every thing on earth. And this includes things, includes the bodies of the disbelievers. Because
4:04
the disbeliever does not control his heartbeats. There's a specific number of heartbeats. And the
4:11
disbeliever does not control that. God controls that. So, the human body is glorifying God. Every
4:17
atom in your body, every atom in this carpet, in this wall, is glorifying God. They follow... We have chemists and
4:25
physicists here, and they know that every atom in the wall or the floor or the ceiling, inside this
4:33
light, every atom has a nucleus and a certain number of electrons, and they're continuously
4:39
moving in a specific way. It's just, it's a microcosm of the cosmos.
4:50
[64:1] Glorifying God is everything in the heavens and everything on earth. To him belongs all kingship.
4:58
God is the one who hires you or fires you. God is the one who determines how many dollars you get. Not anybody else. God
"God is the one who hires you and fires you" – "if you do your part God will do his part" God guarantees your happiness. Word "Omnipotent"
backs up this Truth.
5:06
decides the provisions. Somebody was telling me today that they wanted... they were getting another child,
5:15
and somebody asked "can you afford it?" That's the wrong question. The question is not, can you afford it? The question
5:23

is "can God afford it?" Because God is the one who brings the people into this world, and God is the one who provides for them. When a child is born, God provides for that child. Not you.

5:39

[64:1] To Him belongs all kingship, and to Him belongs all praise. He is Omnipotent.

5:46

And God....these are all important attributes of God that we must know. Omnipotent means He backs up His guarantee. And He guarantees

5:58

you perfect happiness if you are in His domain. If you follow... if you do your part, carrying out the commandments,

6:04

God will do His part. Perfect happiness, success in everything you do. Guaranteed. God's guarantee

6:11

or warranty is much better than General Motors' guarantee or warranty. When you have a warranty

6:19

from Lee Iacocca, you have confidence in it. Because he backs up his warranty. Seven years or

6:28

7,000 miles. And you take this piece of paper, and you're happy with it. Well, God is Omnipotent, and

6:34

He guarantees your happiness. It's true. God is giving you a warranty in this Quran. And He says

6:45

"if you do your part, I will do My part." This is in Sura 2, at the beginning, as you know. It says,

6:50

(2:40) أَؤْفُوا بِعَهْدِي أَوْفِ بِعَهْدِكُمْ "do your part, I'll do My part." And our part is nothing. What is it? Five Prayers a day,

6:59

fasting the month of Ramadan, the things that are good for us. This is our part. It's like God is saying "come, you're gonna be happy, and I'm gonna give you all the money

7:08

you want and all the health you want, on condition that you do your part." A lot of people say "no,

7:14

I don't wanna be happy and healthy. I wanna be miserable." You don't wanna... Yes.

7:23

Now, God's part is overwhelming. It's great. Verse number two. So, the word "Omnipotent" backs up this

7:34

guarantee. The guarantee is outright in the Quran, 23 times in the Quran. God guarantees you perfect

7:41

health. For example, in Sura 10, verse 62. I'd like to go back to this, because a lot of people

7:48

can't envision. They can't envision that. But God controls every atom in their bodies and can decide

7:55

how much health they have. When God tells you "I'll give you perfect health, when you do your

8:02

part", God, the Omnipotent, means that. You have to share the new Quran, Greg, with somebody. Yeah.

8:15

This is the importance of Omnipotence. Okay, in Sura 10, verse 62, God says "absolutely, God's allies,

8:24

or God's people, have nothing to fear, nothing to worry about."

8:30

(10:62) لَا خَوْفٌ عَلَيْهِمْ وَلَا هُمْ يَحْزَنُونَ And then it gives you a description of these people. It says "those who believe and lead a righteous life." Those who believe in

8:39

God and they lead a righteous life. They are nice people. They are honest, truthful, and God is their god. God is always in their mind, in everything they do, everything they say.

8:53

Those who believe and lead a righteous life. "For them is happiness in this world." I'm quoting now.

Hadith claims the most miserable are the most righteous. There are categories within Satan's Kingdom and God's Kingdom. Talk of Appreciation i.e "the Eyes".

9:00

I'm quoting those verses. Verse 62 of Sura 10. "For them is happiness in this world." And this

9:05

is God speaking. "and in the Hereafter." So, this warranty or guarantee from God is repeated 23

9:13

times in the Quran. Now as you know, Satan tricks the other people who deviate from the Quran and

9:25

they have other sources like Hadith and Sunnah and God knows what, all kinds of sources besides the

9:31

Quran. Their number one Hadith goes like this. "The most righteous among you is the most miserable."

9:39

This is a very famous Hadith. Because Satan knows that he cannot give them happiness.

9:45

And actually the Hadith goes on and says "the most miserable are the prophets, and then the saints, and then the believers." That's right. So, and this is an authentic Bukhari Hadith. It goes directly

9:58

against the Quran. The Quran says otherwise. Says "those who believe and lead a righteous life are guaranteed happiness." I'm gonna go back a little bit again and talk about the title of the

10:11

Sura, Mutual Blaming. Mutual Blaming is one of the names of the Day of Judgment. It's called the

10:18

Day of Resurrection. It's called the Day of Judgment. It's called the Day of Reckoning.

10:24

It's called the Day of Mutual Blaming. Because this is the day when a lot of people will be blaming each

10:29

other. "You're the one who told me this." "No, you're the one who told me this." "You took me out of this

10:36

place." "You took me into that place." So, there'll be mutual blaming. In fact, the people of

10:44

hell will spend eternity beating each other. And thanking each other for beating each other. "So, if

10:52

you give me 10 kicks, I'll give you 10 kicks." Okay. Mutual Blaming. One of the names of the

10:59

Day of Judgment. Verse 2 says [64:2] He is the one who created you. Then among you there is the disbeliever and the believer. God is fully seer of everything you do.

11:14

There are only two kinds of people. People in God's kingdom and people in Satan's kingdom. There's nothing else. No other

11:23

choices. Although there are categories within each section. For example, Satan's kingdom has the

11:30

disbelievers and the hypocrites. And both of them fall under the bigger category of disbelievers.

11:38

Other names for believer and disbeliever is appreciative and unappreciative. These are other

11:44

names. Appreciative of God or unappreciative. And we're gonna get to this in Sura 76. Not today.

11:55

But these are the other synonyms of believer and disbeliever. Appreciative and unappreciative. Because God gave you a lot of good things in advance. Then, He asked you to show your

12:08

appreciation. Let us take for example your eyes. Just your eyes. And I've shared this with some

12:15

of you before. If you're walking out in the street and somebody puts a gun to your head. And he says

12:21

"your eyes or five Prayers a day." What will you do? Not your eyes or your money. You're gonna say

12:28

"you either give me your eyes or promise me to do five Prayers a day." What will you choose? If this

12:34

A woman: Five Prayers a day. Dr. Khalifa: If this is real... Dr. Khalifa: That's right. Easily. Right? So, God gave you your eyes in advance. If you want

12:43

to appreciate them, just close your eyes for a couple of minutes.

12:50

It's something that we take for granted. I hope none of you is color blind. But if you look around and you see the red,

12:58

the blue and the green and all these nice colors. God's people are perfect anyway. You notice.

13:11

Alhamdu Lillah. Thank God we all have two eyes each. So, God gave you these eyes in advance and He

13:17

said "you do five Prayers a day." Appreciative and unappreciative. The people who are not worshipping

13:24

God alone are not appreciative. I didn't mentioned the lungs or the kidneys. Nobody will want to

13:39

substitute God's kidneys for the technologically advanced artificial kidneys that they have.

13:46

They're small now. They're only about six feet tall and four feet wide and three feet deep.

13:53

And these are the most advanced kidneys. They take the patient blood completely into the machine.

People ask "why did God send me here". Dr. Rashad Khalifa explains.

14:02

And it's not as good. You should see those people. So, we thank God. He gave you all these things in advance. Number three.

14:17

[64:3] He created the heavens and the earth for a specific purpose. Designed you and perfected your design. Then to Him is the final destiny.

14:30

Footnote 64:3 says "we are in this world due to God's immense mercy and

14:37

Most Gracious will to redeem us after we committed the gross blasphemy. See the introduction and

14:45

appendix 7." You know, a lot of people say "why did God bring me here? I didn't wanna come here." Because they
14:52
don't understand why we are here. If they read the Quran, they will know why we are here.
14:58
And they will realize that we committed a gross crime billions of years ago. And God decided to give
15:04
us a chance to redeem ourselves, to denounce idol worship. But the majority of people insist on idol
15:13
worship. The vast majority of Christians insist on worshipping Jesus. And the vast majority of
15:19
Muslims insist on worshipping Muhammad. It's just the human nature. They're all humans.
15:26
And the Quran makes that statement in advance. It says "most people, no matter what you do,
15:32
will not believe." Because God knows these are the creatures who committed that blasphemy billions
15:38
of years ago. And I don't wanna bore you with repetition of what it is.
15:46
And then God says that of the minority that will believe, the majority will fall in idol worship. Because God knows...
15:57
I mean, this is what brought us here. We did not uphold God's absolute authority. And this is
16:04
why we have that tendency to idolize saints and prophets. The vast majority of people fall in that
16:12
trap. So, He created the heavens and the earth for a specific purpose, which is redeeming those among
16:20
us who deserve to be redeemed. So, we can go back and join, rejoin God's kingdom. If we fail, then we'll
16:32
be exiled from God's kingdom, and that is hell. It only makes sense, like I told you at noon today.
16:41
If you're a chairman of the board of a company, you don't want the lazy employees. It will cause the company to lose. And instead of God
firing us completely, He said "I'll give you a chance
16:53
to educate yourselves, redeem yourselves, and then come back to me. This is the specific purpose. God
17:02
designed you and perfected your design. And the design of the human being is fantastic, and
17:11
we never tired from describing it. Like I was using somebody the other day to give the example. Well, we can
17:23
use Greg now. See, Greg is scratching his face. Ok. His hand is like this, but it goes like that,
17:29
and then it turns and scratches his face. He takes it for granted. But this is quite a design. There
17:36
are two bones in your arm here that can go around each other, so it can go like this.
17:42
I mean, how many times do you take it for granted? You go like this. You don't even think. God perfected our
17:49
design. Can you scratch every part of your body? This is God's design. Your arm is not too short.
Crippled bodies are victims of Satan.
18:02
You can reach every inch of your body. Not me, but... If I maintain the natural weight,
18:11
I will. So, it's my fault. If there is any flaw in your design, it's your fault.
18:30
Designed you and perfected your design. Anything that goes wrong... This is very important,
18:41
because people will tell you "how about the person who's crippled?" It's very important to
18:47
understand that that person is a victim of Satan. Something, something, they removed themselves from God's protection,
18:56
and that caused Satan's victimizing them. And the perfect example that we know, and we talked
19:02
about it before many times, is Rabbi Kushner of Boston. Rabbi Kushner of Boston. His book is
19:11
full of blasphemies against God, unfortunately. Not all the Jewish people are like that, but he
19:17
is a rabbi, and he should know better. He wrote this book "When Bad Things Happen to Good People"
19:24
and he totally misunderstands... He does not understand Satan's role at all. And he says that
19:30

the bad things happen because God cannot control everything. God is not Omnipotent, according to him. His book is just full of blasphemies. Now, what happened to him... his son was born

19:41

with this progeria disease, rapid aging disease. And in 14 years, he died. So, what happened was,

19:50

Rabbi Kushner, by blaspheming against God in this manner, he removes himself from God's protection.

19:56

And Satan fooled around with the embryo, with his son, when he was inside the mother.

Angels are the best surgeons – God promises to protect you.

20:05

And the child was born defective. So, whose fault is it? The child was victimized by Satan.

20:15

And Rabbi Kushner was victimized by Satan, in the same way. Because God guarantees your health through

20:25

the angels, God's angels. God has some of the best surgeons in the world. If you are to.... anything wrong happens

20:32

in your body, they can go in your body and fix it. 'Alaykum Al-Salaam. And Satan has the same ability,

20:38

because he was an angel. So, remember that anything, any flaw is a result of Satan's interference. But when you

20:50

look around here, this is the basic design of God. "designed you and perfected your

20:56

design. Then, to Him is the final destiny." He gave you two eyes. Because some people have accidents,

21:03

they lose one eye. So, they have another spare. Even though everyone is perfectly guarded,

21:12

nothing happens against the will of God. And God promises to protect you as long as you

21:18

are in His domain. He gave us two kidneys in case one of them stops for some reason. And remember,

21:28

two ears and one mouth. I should learn from this and stop talking. And put on the spot here,

21:37

because General Spooner went AWOL. He was supposed to be here talking. He called from Memphis today.

21:45

He is alright by the way. Okay, verse 3 ends by the statement "to Him is the final destiny." Okay,

21:58

so every one of us is gonna go back. And if we did our part, we'll be prepared to join God's

22:04

kingdom. If we did not do our part, and we did not develop ourselves, we will not be able to be there

22:12

physically. God forbid. The people who did not prepare themselves will go to hell on their own

22:20

volition. God will not put anybody in hell. They will go to hell on their own volition. And we have

22:28

examples. The bugs. You put the light fixer on and you screw it in very tight, and still the bugs,

22:36

they work very hard to work through this thread, and go inside to die. This is how the human beings

22:42

do. They work very hard to go to hell. So, God gives us lots of examples in this world. Number 4, verse 4,

22:58

[64:4] He knows everything in the heavens and the earth. And He knows everything you conceal and everything you declare. God is fully aware of the innermost thoughts.

23:09

Did you ever come across people who think that God is not aware of them? They say "Who am I? God doesn't pay attention to me."

23:17

They think God doesn't see them. But this verse here is telling us God is fully aware of

23:23

every single ant. There are some termites in this building somewhere. We are not aware of them, but

23:30

God is. And He knows how much they're supposed to eat and when to stop them. God is fully aware

23:40

of every single creature, every single atom. He knows everything in the heavens and the earth and

23:49

He knows everything you conceal and everything you declare. We just cannot have a complete

23:57

comprehension of God's Omnipotence and Power. Look how He created you and the blood pumping

24:05

in your body in a perfect, perfect design. If you sleep in your arm for a couple of hours at night and

24:15

the circulation is not right, you know, you get a nightmare or something to move you. Because the circulation has to be perfect.

24:32

He knows everything you conceal and everything you declare.

24:46

So, if you do your part, God is aware of it. Everything is recorded. Consciousness of God is very important. Wherever

24:56

you go, just remember God is with you. You must be conscious that God is with us here right

25:03

now. He's aware of everything we're doing. He is aware that you are here to study His message. You

25:09

want to redeem yourself and go back to God, join His kingdom. God is aware of that. And These are heavy

25:18

verses. Verse number five says,

25:26

[64:5] Have you noted those who disbelieved in the past then suffered the consequences of their decision? They incurred a painful retribution.

25:39

God is teaching us from the past history. And these are factual observations. We know that Pharaoh drowned in the sea.

25:49

We know that. We know that Moses and the believers crossed the Red Sea. There were no bridges then,

25:57

no Golden Gate Bridge. But they crossed the Red Sea from Egypt to Sinai. We know Pharaoh

Believers go through a purification process but will emerge a Gem. God will take each one of our flaws and "polish" us. The end of the disbeliever's life always bad.

26:08

drowned and his body is full of salt in the Cairo Museum. "Have you noted those who disbelieved in

26:17

the past then suffered the consequences of their decision?" And usually it is the end that counts.

26:29

The believers may go through a purification process, a polishing process, like the stone that

26:37

goes through a lot to become a gem. But there is these machines, these polishing machines that are

26:42

very severe. So, the believer may go through that, but he or she will emerge like a gem in the end.

26:51

And we have, we have... all these guarantees will be fulfilled. The purpose of the purification process is just that,

26:58

purification, to make you a perfect human being, a person who does not lie, cheat, trustworthy,

27:09

righteous. Purification. And God will take each one of these at a time and cleanse you

27:17

from it through a polishing process. Remember Jahan's Khutba on Friday when he didn't wanna

27:27

do the push-ups? See, he's young and he's going through the polishing process. But he

27:36

will emerge like a gem. Purification process done by the Master Purifier. But those who disbelieve,

27:48

their end is always bad, always. Their last 15 or 20 years are the most miserable years

27:55

of their lives. And the opposite is true with the believers.

Nothing happens to you except as a consequence of your works i.e. Dr. Rashad Khalifa talks of his Nephew. We must learn "Correlation" between a "pinch" and making a mistake. God's pinches are restorable i.e. loss of money or a headache.

28:05

I think tonight we're gonna come to the law that says that "nothing happens to you except in accordance with God's

28:13

will." This is one of the two important laws. The other law says "nothing happens to you except as

28:18

a consequence of something you have done." These are negative, negative. "Nothing except." "Nothing happens except

28:25

as a consequence of your work."

28:35

I was talking to my nephew this morning in Egypt. And he was telling me that he's doing everything right and he wonders why he gets some problems. So, I went

28:48

with him through a typical day or something and discovered he doesn't do the Morning Prayer. Maybe

28:54

once a week he does the Morning Prayer before sunrise. So, I taught him the law. I said "the law is

29:00

nothing happens to you except as a consequence of something you have done." I taught him that

29:06

God loves him and wants him to do the Morning Prayer. This is probably what God is choosing at

29:13

this time to purify him. Every time he misses the Morning Prayer, he gets a pinch until he does the

29:24
correlation and realizes that God is aware of him and like he's watching as if he's the only one on earth.

29:31
And whenever he misses the Prayer, he gets the pinch. The correlation is immediate. And this is

29:37
why we have also the other law that says "worship God in order to attain certainty." This is how you

29:44
attain certainty. Because with this immediate correlation, you're gonna realize that God is watching you as if you're the only person in the universe. And when you make a mistake, you get

29:57
a pinch. It's a kind pinch. It hurts, but it gets your attention. It doesn't hurt permanently. It is

30:12
the kind that is restorable. God's pinches are all restorable. You don't lose a finger, for example,

30:18
because you cannot restore that. But you get a pinch that is restorable. You get a headache,

30:25
for example, because headaches go away. You lose a few dollars. You can get them back

30:31
multiplied manifold. So, this verse, number five, reminds us of these two laws, two important laws.

30:45
Don't forget them. I think we're gonna get to the one that says "nothing happens except in

30:51
accordance with God's will." I believe it is in this Sura. Oh, Ok. And the other law says

30:58
"nothing happens to you except as a consequence of your work." Nothing happens. I mean, it's quite a

Following the messenger is following God's instructions. Registering the mathematical Code, talks of errors and tracking numbers.

31:05
statement. It begins with the statement, nothing. (64:11) مَا أَصَابَ مِنْ مُصِيبَةٍ إِلَّا بِإِذْنِ اللَّهِ

31:12
It starts with a negative. Number six,

31:17
[64:6] This is because their messengers went to them with clear proofs, but they said, "shall we follow humans like us?" They disbelieved and turned away. God does not need them. God is in no need, Praiseworthy.

31:34
See, they made a mistake when they said "shall we follow humans like us?" Because the messengers are not

31:41
are not the ones that are being followed. It is God's instructions that are being followed.

31:48
The messenger is one of the people around who is the same as they are, and he himself is required to

31:55
follow the instructions. So, we're all following God when we look at God's teachings and follow them.

32:05
But here, their ego is an important test. So, we're told that the painful retribution

32:13
that is in verse five came to these people because their messengers went to them with clear proofs.

32:21
I mean, Moses threw the staff, became a serpent in front of Pharaoh and swallowed everything else. He still did not believe. God made the Nile into blood in front of them. They couldn't drink

32:35
for seven days. And they told Moses "ask your God to give us water again, we will believe." As soon

32:44
as it became water again, they said "NA, NA, NA, NA, NA, NA. We will not believe." I mean,

32:52
what is this? Frogs, lice, locusts, nine plagues. And every time they said "ask God to relieve this,

33:03
and we will believe", and then they reneged. So, God is fair. When they drowned in the Red Sea,

33:12
they deserved that. But God gave them enough warnings.

33:19
[64:6] This is because their messengers went to them with clear proofs.

33:25
In this day and age, we have the mathematical code of the Quran, proving this is God's word. But they still make all kinds of excuses to avoid it.

33:46
For seven, well, God's... I will go back to six, God's proofs are always clear and overwhelming, as we are experiencing

33:56
right here in this mosque. The mathematical miracle of Quran, as you will see, I'm writing

34:02
it now in appendix one, is just overwhelming. I'm using here just the word God as an example,

34:10
and this alone is enough to prove that this is not human made. Because the word God, now here we

34:18
are in the 20th century, using computers, and we are sophisticated, educated people, three of us,
34:26
Lisa, Emily, and myself. We're working on these numbers, the number of the word God. We are not
34:31
writing them. We're not inventing anything. We're just counting them, keeping track of them. And you
34:37
have no idea how many mistakes we make. Computers and all. So, it makes us appreciate the miracle
34:48
even more. I was typing a number, 2492, 2492, for example, and I switched the 9 and the 2, make
34:59
it 2429. So, I was off by about 70. And there are many other examples where I was off by one or two,
35:07
but the Quran is perfect. 2698 of them, that is 19 times 142, and if you take the verses,
35:19
wherever you see the word God, for example, in this page we have verse 1, 2, 4, 6, 7, 8,
35:27
and 9. You take these numbers. In the whole Quran, wherever you see the word God, and add them up,
35:34
the total is 118123, which is also a multiple of 19. And this will be printed on the last page of
35:40
the Quran. This alone proves that this is not human made. I just don't see how they will face
35:49
God on the Day of Judgment, people who can look at this and still reject it. I'm just trying to
35:57
emphasize the words "clear proof", so clear. Muhammad couldn't do this. How will he keep track
Making a choice, Rising for Fajr or staying a sleep. Size of the soul. "Angel can hold the Earth in his hand".
36:04
of the word God in the Quran without computers when we made mistakes? And it's already in front of us.
36:17
Verse 7, [64:7] Those who disbelieved claim that they will not be resurrected. Yes, indeed, by my Lord, you will be resurrected, and you will be
held accountable for everything you have done. This is easy for God to do.
36:35
And God set the system, so it is automatic. Tomorrow morning, before sunrise,
36:42
you're gonna have two choices to make. You have a decision to make. You're gonna get up before sunrise and do the Morning Prayer, or
you will not. Only two choices. If you force your body
36:54
to get out of bed and do the Morning Prayer, you will grow. Your soul will grow. And to put it in
37:02
our world's terms, you will make a deposit in your post-retirement account, a few million dollars,
37:12
just with that one Prayer tomorrow. It's actually more than that. I'm just using these numbers of
37:17
this world. The other choice is that you become a slave of your body and you sleep,
37:22
because your body is telling you "oh, it's so much fun to be in the pillow." Your body is telling you
37:28
that. So, if you're a slave of your body, you're gonna sleep, and you lose, because the body
37:35
is gonna go to dust. You are gonna live on with your growth and development or your shrunken
37:42
condition. God made it automatic. So, in the very end, you're gonna be born into the Hereafter
37:49
what? Either developed, complete person, or a deformed, shrunken person. It's in your hand.
38:09
[64:7] Those who disbelieved claim that they will not be resurrected. Yes, indeed, by my Lord....
38:14
Remember, these are mathematically composed letters. God is telling them. "Yes, indeed, by my Lord..."
38:23
This is the Quran speaking, by the way. "Yes, indeed, by my Lord. You will be resurrected, and you will be
38:31
held accountable." You'll be held accountable in this manner. Remember in Sura 17 where it says
38:37
"nobody will need to be asked, what wrong did you do?" It'll be obvious who developed and who did
38:42
not develop. In Sura 55, remember the verse that says "on that day, the guilty will not
38:51
be asked about any of their guilt or their sins?" You don't need to. Also, in Sura 17,
39:00
we learn that the differences in the Hereafter will be fantastic, will be great. See, the

39:10
 difference between Hani, a child, and his father, is five feet. In this world, five feet. But in the
 39:19
 Hereafter, the difference between the people will be like, somebody will be as big as a cat,
 39:25
 and the other will be as big as Phoenix, Arizona, or the state of Arizona. So, the person as big
 39:30
 as a cat "you're gonna ask him, what did he do wrong?" I mean, it's obvious. The difference will be huge.
 39:41
 See, we're really tiny. We are very tiny. An angel can hold the earth in his hand, see, and you can
 39:50
 be as big as that. Remember, we were all in the same company, billions of years ago.
 40:06
 "Yes, indeed, by my Lord, you will be resurrected and you'll be held accountable for everything you have done.
 40:11
 This is easy for God to do." In fact, it's already done. On the Day of Judgment, when God comes to
 40:20
 our world, the people will be automatically stratified according to their size or degree
 40:27
 and development. If you're strong enough, you'll be able to stand the presence of God,
 40:32
 and you will enjoy it. You'll be in Heaven. If you fail to develop yourself, I'm not talking to you,
 40:40
 of course, it's the people on the street who need to know that. But the people who fail to develop themselves will have to run away from
 God. They cannot stand the presence of God,
 40:51
 too much energy. And this is why God is advising us to do the Five Prayers, to fast the month of Ramadan,
 God did not ask for Fajr to annoy us. Rising early Alleviates Depression.
 41:00
 to be charitable, do all this. He gave us specific things to develop our soul for our good, because
 41:08
 see the end of the verse? Verse 6, excuse me. Because God is in no need. He doesn't wanna bother you and
 41:18
 have you get up before sunrise just to annoy you. Why does God want you to get up before sunrise?
 41:29
 What does He benefit from that? Nothing. It's you who will benefit from that.
 41:45
 As a matter of fact, my nephew was complaining what... specific problem was the depression, that gets depressed
 41:52
 once a month or so. And this is directly related, if you remember Douglas' Khutbah, it is directly
 42:00
 related to being up in the morning early. Remember the hat with the light? And that research that was
 42:07
 done indicated that people who had extra light in the morning, not at night.... Is this right,
 42:13
 Douglas? In the morning. So, it's not just.... you cannot lengthen the day from the night side. It
 42:19
 is getting up early in the morning that induces certain chemicals in your head and causes the
 42:26
 depression or not. There is a direct correlation. Those who study statistics, the correlation is 1.0
 42:38
 between sleeping too much and headaches and depression. You sleep more than 8 hours a
 42:44
 day, you're guaranteed to have headaches and maybe depression. So, God is advising you for
 42:56
 your own good. God is in no need. Number 8,
 43:03
 [64:8] Therefore, if you are smart, you shall believe in God and His messenger, and the light that we have revealed herein, God is fully
 cognizant of everything you do.
 43:18
 It's God's message to the people. After showing us the positive incentives
 43:27
 and the negative incentives, God is giving you the conclusion. "Therefore, you shall believe
 43:32
 in God and His messenger." Why does God want you to believe? He doesn't need us. It's because He
 43:40
 loves us. God loves you. He wants you to believe and follow this light of the Quran to be redeemed,
 43:50
 to be saved, to be happy here in this world and in the Hereafter. You see this verse that talks
 43:57
 about retribution in verse 5? You see, a lot of people make a mistake thinking that they have

Happiness and retribution start here.

44:06

to die first and go to the grave for millions of years and then get up before they receive their

44:12

reward or their punishment. And they say "oh, forget it, come on." For millions of years,

44:20

they think. They don't realize that the happiness and the retribution happen here. It is repeated so

44:26

many times throughout the Quran that we pay here. It starts here. When you make deposit in your

44:33

post-retirement account, you draw interest here and benefits in this world.

44:45

[64:8] Therefore, you shall believe in God and His messenger and the light that we have revealed herein. God is fully cognizant of everything you do.

44:53

Number 9, [64:9] The day will come when He summons you to the Day of Summoning. That is the Day of Mutual Blaming....

45:00

Here you have two names of the Day of Judgment. The Day of Summoning, we will be summoned. It is as sure as the sunrise tomorrow morning. All of us, past,

45:13

present, and future generations will be summoned before God. And that is the Day of Mutual Blaming.

45:22

[64:9]..... Anyone who believes in God and leads a righteous life, God will remit his sins and will admit him into gardens with flowing streams. They abide therein forever. This is the greatest triumph.

45:38

So, our part is so easy. And this is why Mutual Blaming causes people who did not believe will

45:47

find someone who misled them, took them away from the Redemption.....

46:00

Edip: And also this describes the selfishness of disbelievers. They are selfish and they will want to change everything, to give

46:11

as a ransom everything that they love, that they have.

46:16

Dr. Khalifa: They probably gave up God and this world for the sake of their spouse or parents or children or whatever. But on the Day of Judgment, they want to give up those.

46:28

Edip: The love of disbelievers, when they love something, their love is because

46:34

of their selfishness. They love, for example, their children because they have benefit.

46:45

They do not love anything they don't expect benefit. For example, they do not do anything secretly,

46:55

good things, because they are in fact selfish. But apparently, you may not see it. Any people who do

47:06

not believe in Hereafter, they are selfish in this world. Let's go on, 15.

47:19

[70:15] No; it is aflame. [70:16] Eager to burn. [70:17] It calls on those who turned away. [70:18] Those who hoarded and counted. [70:19] Indeed, the human being is anxious.

47:39

Verse 17 tells us that hell will call, will invite people. In Quran, we find that

47:52

Allah personalized the substances. Understand? For example, in chapter 41, verse 21, we see God makes

48:12

everything speak up, makes everything speak up. For example, in 41:11, we see earth and heaven speak. In 23, chapter

48:23

23:62, the record speaks. And chapter 50, verse 30, hell speaks. And chapter 27:82,

48:34

computer speaks. God makes everything speak up. But what is speaking in our language?

48:44

We're speaking.... You may understand speaking is only by words. But Quran explains the word "speaking." The word speak,

48:56

in 3:41, we see gestures, symbols, also is another way for speaking. Allah says for Zakariya,

49:09

your sign is not to speak with anybody for three days except, except gestures, by symbols you

49:19

can speak. This exception shows us that symbols or anything that symbol gestures are also way of speaking.

49:32

Dr. Khalifa: Signals Edip: Signals, yes. Thanks. Verse 18,

49:40

"Those who hoarded and counted" is one of the important

49:48

character of disbelievers. They hoarded the earthly goods and they are very careful about the
50:05 substances of this world. And also we can see this character in chapter 74, verse 12, 15. And
50:18 verse 19 is very interesting. "Indeed the human being is anxious." In Arabic, we see it has been created
50:32 as anxious. The word is "has been created." I searched about this because Allah says in chapter 95, verse 4 and 5.
50:49 (95:4) **وَلَقَدْ خَلَقْنَا الْإِنْسَانَ فِي أَحْسَنِ تَقْوِيمٍ** We have created the human being in the best manner. Allah, and in another verse,
51:02 please open chapter 32, verse 7.
51:18 He perfected everything He created. He perfected everything He created. Allah's creation is perfect. But here we see that human being has
been created anxious.
51:33 Apparently, we may see a contradiction between those verses. But if we carefully research on the
51:44 word "KHALAQA", we see in Quran when God says about our creation, when mentioned about our creation,
51:55 He says **"خَلَقْنَا الْإِنْسَانَ"**, "KHALAQA", we created. And Allah when mentioned about His creation,
52:04 He says always "we created best, in best manner." But here it is KHOLIQA, has been created,
52:12 not "we created." How do you say in English for this? KHOLIQA, unknown. The subject is unknown here.
52:22 Dr. Khalifa: Passive, Is it passive tense? Edip: Passive, yes. Passive tense. For example, we can see the passive tense in chapter 4:28. It
describes the weakness of human being.
52:34 (4:28) **خُلِقَ الْإِنْسَانُ** You can see that verse. And also the human being has been created hasty, chapter 21:38.
52:47 And when Allah describes the weakness and anxiousness and hastiness of the human being,
52:57 He always describes this as KHOLIQA, not KHALAQA. It shows us with our free will,
53:05 we change our creation. Yes. OK, what is the grammatical, Dr. Khalifa: Where is Martha? Is Martha here? Martha: Yes.
53:10 Dr. Khalifa: Ok. What is the term, linguistic term for something that was created? Instead of I created.
53:19 Martha: Yes. It's passive voice. Dr. Khalifa: Oh, OK, so, passive is right. I wasn't sure.
53:24 Martha: But I'm not sure if I (unintelligible).
53:34 Dr. Khalifa: No, but the human being can make himself worried, as you will see in the next verses. In other words, the INSAN, the human
being is made something, it's made by the human, not by God.
53:49 Martha: (unintelligible)
53:56 Dr. Khalifa: Yeah, right. Edip: We can see in Quran, (23:14) **فَتَبَارَكَ اللَّهُ أَحْسَنُ الْخَالِقِينَ**
54:02 Allah is the best of the creators, the best Creator of creators. **أَحْسَنُ الْخَالِقِينَ** There are many creators.
54:13 Dr. Khalifa: In other words, we can create our own misery or our own happiness. Martha: But the angel talks to us.
54:20 Dr. Khalifa: Well, God instructs. They follow God's laws. They carry out God's laws.
54:27 Edip: (Arabic unintelligible) Also they create lies. Dr. Khalifa: This is just to bypass these linguistic tricks. Edip: Ok.
54:47 Dr. Khalifa: Dark grey car with the lights on. Small, dark,...
55:07 Dr. Khalifa: Eula, get the make of the car next time, not now. But....
55:17 Dr. Khalifa: It could be. But Emily will find out.
55:27 Dr. Khalifa: OK, go on, Edip. Edip: Yes, verse 20. [70:20] If touched by adversity, despondent. [70:21] If blessed by wealth, stingy.
55:39 Dr. Khalifa: What kind of car is it? No. Edip: [70:22] Except for the worshipers.
55:46 [70:23] Who always observe their contact prayers (Salat).
55:53 [70:24] Part of their money is set aside. [70:25] For the poor and the needy. [70:26] They believe in the Day of Judgment.
56:02

[70:27] They reverence their Lord's requital. [70:28] Their Lord's requital is not taken for granted. [70:29] They keep their chastity.
56:18

[70:30] (They have relations) only with their spouses, or what is legally theirs— [70:31] anyone who transgresses these limits is a sinner—
56:28

[70:32] And the believers keep their word; they are trustworthy. [70:33] Their testimony is truthful.
56:36

And it ends with the same close statement.
56:43

[70:34] They consistently observe their contact prayers (Salat), on time.
56:48

It's like the same verse 23. There are some qualifications, some behaviors of Muslims,
57:00

important behaviors. First, they observe their Contact Prayers. And we see this statement also
57:11

in 23, verse 2. And there are many common verses between here and the beginning of chapter 23.
57:24

Dr. Khalifa: You see, I'm making a note of this for the index. Traits of the believers. (unintelligible). Ok. Go ahead.
57:38

Eidip: Part of their money is set aside. Word by word
57:44

translation, they have a part in their money. A part there is known, known by people. This shows
57:55

us this charity, the amount of Zakat is known by people.
58:02

Dr. Khalifa: Specified. Eidip: Specified. Eidip: (70:24) حَقِّيْ مَغْلُوْمٌ Eidip: 24.
58:09

[70:24] Part of their money is set aside. The amount of the charity is known by people.
58:24

Dr. Khalifa: So, give me this back to printing. Specified portion? Eidip: Ok. Yes. Dr. Khalifa: Specified portion of their money is set aside. Eidip:
Specified. مَغْلُوْمٌ
58:39

And there are parallel verses here between 23 and chapter 23. For example, you see the parallel verse in 23, chapter 23,
58:51

verse 4. It says, it specifies this as Zakat, just the word Zakat.
59:07

Verse 30, [70:30] (They have relations) only with their spouses, or what is legally theirs—
59:17

Eidip: This is about captives of war. Dr. Khalifa: No, no, it is not. Eidip: It's not?
59:26

Eidip: In chapter 4:25, Allah gives us permission to marry with captives of the war. Dr. Khalifa: No, it is not.
59:35

Eidip: Please, open chapter 4, verse 25. Dr. Khalifa: Look in the new translation. Eidip inherited some of the old stuff,
59:46

where they had wars and captives. And "what is legally theirs" covers all the methods of marriage in the world.
59:56

There are places where there's no marriage. But a man and a woman will live together forever and have their children, and the society will
know that these belong to each other.
1:00:05

You don't have anything like that any.... So, the Quran covers all the situations. There are
1:00:11

common-law marriages in this country. And the Quran recognizes that. This is what legally theirs means.
1:00:33

Eidip: And is there any question about this?
1:00:39

Dr. Khalifa: I have a few comments. Eidip: Let me talk about...
1:00:45

Dr. Khalifa: 4:25 talks about slaves. 4:25 talks about slaves. Eidip: Yes, slaves, you can marry with them.
1:00:53

Dr. Khalifa: Right, but not war captives. Eidip: Oh, ok.
Human beings who don't observe Salat "always worried". Traits of Believers. Chastity. Talk of Various translations.
1:01:00

Eidip: Ok. This is very important to note that the people who do not.... the worshippers who do not observe the
1:01:09

Contact Prayers are anxious. Anxious, I really want a more stronger word than anxious. In Arabic,
1:01:18

HALU'A is worried, always worried. Nervous and anxious and worried, always worried. A human... huh?
1:01:26

Yeah. Jittery and worried. Worried, depressed and anxiety and worry.
1:01:36

If touched by adversity, they become despondent. And when blessed with wealth, they are stingy. Ok, now, you can ask
1:01:44

yourself these questions. "Do you worry?" Number 2, "Do you become despondent when something bad happens to you?"
1:01:53
Number 3, "Are you stingy when you have money?" If you have these three traits, then you do not belong
1:02:00
with the worshippers, the believers. I remember my father's teacher had a debate with some of the
1:02:11
Mullahs. And he trapped him into this. He said, "do you worry a lot?" He said "yeah, we're humans,
1:02:18
we worry." He said "if something bad happens to you, do you become upset?" He said "yeah,
1:02:24
we're human beings, we do that." And then he said... So, I said "well, then you don't belong
1:02:31
with the worshippers who observe their Salat prayer because in verse 22, it says,
1:02:37
(70:22) إِلَّا الْمُصَلِّينَ Except those who observe the Salat Prayers. So, the lesson is that if you do observe your Contact Prayers,
1:02:45
this will cool you down. You will not worry, you'll have nothing to worry about. No fear, no worry. And you will not be despondent when
adversity happens. You'll remember what the
1:02:58
Quran says, that you may dislike something which is good for you. You may not get the job that you
1:03:04
want, but God knows it is not good for you, and you accept that. So, you will not be despondent,
1:03:10
you will not be miserable, because you didn't make it in the job interview. So, then we have a bunch of
1:03:18
traits of the believers. They always observe their Contact Prayers, verse 23. 24,
1:03:25
A specific portion, 2.5% of their net income is set aside for the poor and the needy, 25. 26,
1:03:33
[70:26] They believe in the Day of Judgment. These are all traits of the believers. 27,
1:03:39
[70:27] They reverence their Lord's requital. They worry about it. In other words, they don't want it. They know how bad it is,
1:03:48
just making God angry. God doesn't get angry, by the way, but, I mean, violating His commandments.
1:03:57
27, eh, 28, [70:28] Their Lord's requital is not taken for granted. In other words, when you look at this, you'll be
1:04:08
severe against yourself. You will not be lax. You will judge yourself according to these criteria,
1:04:17
and make sure that you're a believer. You will be strict with yourself. Number 29,
1:04:30
[70:29] They keep their chastity. So, I mean, you look at this verse 29, and you keep your chastity.
1:04:37
You will not be lax or careless. Keeping the chastity is something that is unusual in this country,
1:04:49
because the society evolved so much in the last few decades. Maybe, I should get you the piece of
1:04:59
paper that Phil handed me. Just one second. It's appropriate to this. Let me. It's for all those
1:05:15
born before 1945, which probably includes me only. And...Okay, but here it says "we were certainly
1:05:32
not before the difference between the sexes was discovered. But we were surely before the sex changed. We may do with what we have.
And we were the last generation that was so dumb as to think
1:05:44
you needed a husband to have a baby." No wonder we are so confused, and there is such a generation
1:05:50
gap. But we survived, okay. I think there are some other points here that along the line that
1:06:03
"we were the last generation that was so dumb as to think you needed a husband to have a baby." So,
1:06:09
in other words, what happened in the last few decades is really very harmful to the people.
1:06:18
And we see what happened with AIDS, the spread of venereal diseases, lesbian mothers, things
1:06:29
that those who were born before 1945 never heard of these things. But verse 29, the believers do not take it
1:06:39
lightly, 29. I'm writing an appendix on chastity and virginity for our children. Our children
1:06:51
better be different from the other children. It is your responsibility to teach your children for
1:06:58
their own good that they must be virgin on their wedding night. And I'm talking about boys and

1:07:04
 girls. And I'm going to show in the appendix how the happiness of your children depends on that.

1:07:13
 The price is just too high if they don't follow this verse, this very short verse, 29, they keep

1:07:22
 [70:29] They keep their chastity. The price is really too high. Now, even from the physiological and the physical point

1:07:30
 of view, the boys and the girls, when they mature first and they're ready for... they're not ready.

1:07:40
 I mean, physiologically, they may have their menstruation, or they may... the voice may change,

1:07:47
 the boy's voice may change, but physiologically and anatomically, they are not really ready for

1:07:53
 sex. But in this country, they delve into sex without being ready, and they hurt themselves,

1:08:01
 and they pay the price when they grow up. This is from the purely physical and physiological point of view. But from the practical point of view, God sees to it that those who violate this...

1:08:13
 Cause you know, our boys and girls must be taught not to violate this. That they must keep their chastity,

1:08:21
 because when they do that, they pay from their happiness. They will not have a happy marriage.

1:08:28
 They will not have a happy life. And, mind you, it is not easy. You must teach them that it is

1:08:34
 not easy to keep your chastity, especially in a society like this. Joe Sobran is a reporter with

1:08:42
 the Los Angeles Times, and he had a wonderful commentary only yesterday, or the day before.

1:08:49
 He says "these boys, they go out and they have sex as if there are no consequences. But the

1:08:54
 consequences are abortions, dangerous things that happen to... and children who these boys have no intention

1:09:02
 of raising them or supporting them. They create a lot of misery." That was Joe Sobran's commentary,

1:09:08
 and he is not a Muslim. But here we are reading the Quran, and God knows what is good for us. And He is telling us that the believers must keep their chastity. You know, all of you are young,

1:09:16
 and you have children who are growing, and I want to repeat and emphasize, and re-emphasize that it is

1:09:33
 your responsibility. If you just do your part, God will do the other part. You cannot just leave them

1:09:40
 to the world out there. You have to do your part by teaching them what the Quran is saying, what

1:09:45
 God is saying. Because if you really love them, you want them to be happy when they grow up.

1:09:52
 And one source of misery will be to break these laws. They are not physiologically ready. They'll be

1:09:59
 breaking God's law, and the price is too high. And I know you do want them to be happy. So, I am going

1:10:12
 to write this appendix in detail, and you can use it. Ok. Use me to give them these instructions. It is

1:10:21
 very difficult to be a father or a mother, and you talk to children about sex. It's kind of awkward.

1:10:30
 But if you use the Quran, tell them "this is what God says. Here is the appendix. Read it." And God

1:10:36
 will help you, and will protect them. So, and emphasize to them that it is not easy. You must

1:10:43
 exert, tell them they have to exert a lot of control. Because the temptation is so great out there. And you are helping them this

1:10:53
 way when you tell them "it is not easy. But you must exert for your own happiness and your own good, you must exert a lot of control. You must resist." You know, they have a big thing saying

1:11:02
 "say no to drugs." But you never see "say no to sex." Even though it is disastrous. Is there?

1:11:15
 Well, Subhan Allah. Ok.

1:11:23
 Yes, this is a shock. A woman: If you have 20 hours, they say, you know "use contraceptive whenever (unintelligible). Dr. Khalifa: Yes.

1:11:36
 Dr. Khalifa: Because this, I think it was Valentine's Day at the university, and they distributed free condoms. It's like telling them

1:11:42
 "go have sex", you know. They don't realize what they're doing, and how much unhappiness they're

1:11:47
causing to these kids. But this is good news. Now, God is forcing. God says in Sura 41 verse 53,

1:11:56
that God will show them His signs in the horizons and within themselves until they realize that this is the truth. This is what is good for us. There is a big campaign in the country

1:12:06
against alcohol. They don't do it because God said so. But they are forced by the disasters,

1:12:13
the social disasters, and the broken families, and the depression that is caused by alcohol,

1:12:21
the hangovers and headaches, diseases. Now, the book, there's a book in the market, new book,

1:12:26
that is called "You Are What You Drink." I've mentioned it before. And it lists unbelievable

1:12:32
disastrous health problems from alcohol. Because it dissolves your brain. I mean, I'm talking

1:12:38
about cancer, blood pressure, heart disease. Established, scientifically established.

1:12:44
A woman: Liver disease. Dr. Khalifa: Liver disease, of course, it's known long time ago. And the same is happening with violating this verse 29,

1:12:54
[70:29] They keep their chastity. The same thing is happening. There are unheard of diseases coming out. Made aware of AIDS affecting Females.

1:13:03
AIDS is one of them. Uncurable. Skin cancer exposure. You're telling me that now, the... Naghmeh, you're telling me now the females

1:13:13
have a disease that is similar to AIDS. I heard about it a couple of weeks ago. Do you wanna tell us more? A woman: There's a cancer (unintelligible).

1:13:34
Dr. Khalifa: Young girls who are sexually active. Because they are not physiologically, they're not physiologically

1:13:39
ready. It takes maybe 10 years after the voice in the boy changes and the menstruation of the girl,

1:13:47
maybe 10 years to really be ready to be pregnant and to be in a marriage relationship. So, God

1:13:55
knows, God created us and knows what is good for us. So, if you think I spend too much time on this,

1:14:03
it's deliberate. Because you have a lot of responsibility. There are lots of beautiful, wonderful kids running around here. And they must be protected. Like I said "don't worry." You just

1:14:13
do your part. And you must know that your children are in God's hand. You can't be with them every

1:14:20
time. But God chaperones your children. You're a person. You're a person of God. And you must

1:14:27
have that confidence. You must know that God is with your children wherever they go. If they're

1:14:33
riding a bicycle in the middle of the street, or they're out with other people subjected to all the

1:14:39
temptations of this society. Don't worry. Drugs or sex or accidents. Your children are in God's hand

1:14:46
and you must have that confidence. And being the oldest of you, I've raised two kids. I know that.

1:14:53
I know. I'm speaking from experience. They've seen how much God's protection is marvelous.

1:15:00
And they've seen how you just do your part and God will do His part in the most magnificent ways.

1:15:08
So, I don't have relations with anybody else. In fact, this is repeated in verse 30. It says

1:15:15
[70:30] (They have relations) only with their spouses, or what is legally theirs—

1:15:21
So, there's a lot at stake. It is just not worth it violating these laws. These are very harsh. The punishment is very harsh. It seems

1:15:34
out of proportion. So, if you want to test it, go ahead. You're gonna pay through the nose. If,

1:15:42
if you want to abide by God's law, then you attain a lot of happiness and you avoid lots of problems.

1:15:48
Okay. Any questions?

1:15:57
Yes.

1:16:12

Right. They're being selfish, like the fellow who donated a million dollars to the cancer centre but it had to be announced over the microphone in the stadium. This is showing

1:16:22

off and he's doing it for selfish reasons. Maybe. Maybe. I mean, he has to be a believer in God to

1:16:29

give things secretly. But the criterion is whether the person is cutting a portion of his money and

1:16:35

giving it to the poor or not. The minimum is 2.5%. If the person is giving away at least 2.5%

1:16:42

of his or her money to the poor, then they're alright. Farhad.

1:17:06

Yes. This is verse 30.

1:17:12

Yes.

1:17:18

Yes. OR is very important. Yes. This is...The Quran is so accurate that you have to pay attention to what Farhad

1:17:27

is just saying. OR or AND. There's a verse that says you shall observe Hajj and Umrah. And I have

1:17:35

translated it, maybe even in the old translation, OR Umrah. But we're supposed to observe, in

1:17:40

pilgrimage, there are two things you must observe. Hajj and Umrah. They must be done. So, this is a

1:17:45

similar... The difference is just a dash. WA or AW. It's the difference. You really have to pay attention to these things.

1:17:55

Edip: Yes, here, if you have spouses, you don't have legally. Dr. Khalifa: Right. See, because you either

1:18:03

got married or either got together without the benefit of marriage. I don't wanna tell you that

1:18:09

joke again. The guy in Africa who wanted to know the secret of happy marriage. And someone said "what is marriage?"

1:18:16

So, there are places in the world where there is no marriage. Edip: What does legally mean?

1:18:23

Dr. Khalifa: Yeah, "legally" means that there may be societies where when the people reach the age of 21, they are actually

1:18:34

engaged at the time of birth, in some of those societies. They had a boy in the family and said,

1:18:39

"this will be for my daughter." The tribe chief or something. Because the daughter is not born yet,

1:18:46

maybe. But these are political connections. So, when they reach 21, they ship the boy and the

1:18:53

girl into their new house and they become husband and wife, forever. She is legally his and he is

1:18:58

legally hers. But there was no marriage ceremony or no such thing as marriage. So, the Quran must

1:19:06

cover all situations. They legally belong to each other. In this country, the common law

1:19:12

marriages are legal as far as God is concerned. There are two people who decided to live together forever and raise a family. The intention is for being together forever. They don't go through the

1:19:25

state and the papers and the priest or the Justice of the Peace or anything. But they live together

1:19:30

forever. And that's legal as far as God is concerned.

1:19:36

A man: In many places like psychiatric hospitals and (unintelligible), the adolescents have the most serious emotional problems. (unintelligible).

1:19:47

Typically, they're children of parents who were illicit. They engaged in a lot of illicit

1:19:53

sexual activity. They committed adultery. A lot of these young people, they don't have any sense of

1:19:59

genuine love or affection. They, in fact, even at times,

1:20:04

express hatred and resentment toward their parents. Because they can't see their parents loving each other. These are the ones that are, in fact, the most serious.

1:20:15

I haven't, God knows, I haven't come in contact with a single case of an extremely serious emotional problems.

1:20:24

You know, this type of thing that is not included sometimes in adultery or, you know, disregard for marriage. (unintelligible).

1:20:36

Dr. Khalifa: By the way, I must clarify that when I talk about problems in marriage, there are all those problems in marriage. But for people who keep their chastity until their marriage,

1:20:48

they will have the regular problems of bickering over the budget and what to be spent where and

1:20:54

which house to pick out and which room should be the living room and which room should be... These are normal problems. I'm talking about serious problems that are the price of the improper marriage.

1:21:13

A woman: You just mentioned that parents (unintelligible) children (unintelligible).

1:21:22

There's a verse in Sura 4, verse 19, is Quran saying that, you know, it's commandment "They can't do that. They can't get in here unless quiet?"

1:21:33

(unintelligible).

1:21:39

Dr. Khalifa: No, this is inheritance of the things that the wife possessed. It is not inheriting the person. I,

1:21:49

I think I clarified this in the new translation. "You shall not inherit your wife's forcibly" means

1:21:55

you cannot force her to write a will giving you everything, giving the husband everything. That's what it means. But arranged marriages are done all over the world. And a lot of them are very successful.

1:22:20

Well, this is prohibited in the Quran. Marriage against anybody's will is prohibited in the Quran anyway. So, this...If a man inherits the wife in the sense that you're saying, and she's happy and he's

1:22:32

happy and they get married, fine. I mean, widows can get married. There's no problem.

1:22:42

There's a Jewish tradition about the brother marrying his brother's widow. It's an old tradition in Judaism.

1:22:49

There's nothing wrong with it if everybody's happy. A person: (unintelligible).

1:22:59

Dr. Khalifa: Yeah, well, no, this is against the Quran. Pardon?

1:23:05

Speak slowly. A woman: There are quite a few societies... Dr. Khalifa: Yes. There are a few societies there.

1:23:17

Dr. Khalifa: Actually, in this society, you find everything here in this society.

1:23:25

Any other questions? Pari. Parivash: (unintelligible) legally because many people here, they leave, when they wanna leave, they say, they suddenly leave because they don't wanna be legally and that's...

1:23:45

Dr. Khalifa: It's only okay if they decide that they are together forever and that they will raise a family, the children and everything, as a couple forever. The intention

1:23:55

must be forever. They may break up next month or next year, but if the intention was they're

1:24:01

getting together forever, then it's okay. It is not okay to get together with the intention that if things don't work out, goodbye.

1:24:12

Parivash: Because most of them, they don't wanna have that responsibility. Dr. Khalifa: Right. Parivash: If wanna live and baby, they can have a baby. But I think they don't want that they have responsibility.

1:24:29

And maybe they live for 50 years or more than that. Years.

1:24:34

Dr. Khalifa: Like I said, if the intention was that they live together forever, then it's perfectly alright. Yeah. Right. Some

1:24:39

A woman: Some people get married (unintelligible) and they don't wanna (unintelligible) Dr. Khalifa: Yeah. Right.

1:24:46

Etip: People's intention. Dr. Khalifa: Yeah, some people get married and one or both have intention of not being together forever.

1:24:53

That's prostitution. Yeah, the Quran consistently talks about marriage and making it official and

1:25:03

everything. Yes, but I'm talking about generally, in this country, for people who never saw the Quran, never came across the Quran. Dr.

Sabahi: Ok, that's what I wanna...

1:25:09

Dr. Khalifa: Marriage is a very organized institution, according to the Quran, because God tells exactly who we can marry and who we cannot marry. And it's an elaborate

1:25:21

and divine institution that is very organized, yes. I'm glad you point this out. Dr. Sabahi: Yeah, I got the wrong...

1:25:27

Dr. Khalifa: Against the Quran. Dr. Sabahi: Which is something that I wanted... Dr. Khalifa: We're going against the Quran. The true believer is the hardest working person and the

1:25:35

best producer in his job or her job, wherever they go. And they enjoy every minute of it. Believers
1:25:45
are very hard workers and the most honest workers. And they are the best producers. And they enjoy
1:25:54
every second of it. They're not lazy. God doesn't want the lazies. He wants people on the ball in
1:26:04
His kingdom. It was very good. Sura 16 says "the rich believer is better than the poor believer."
1:26:12
And Edip wanted me to change this for possible misunderstandings. But I did not, because God
1:26:19
meant that. It says "the rich believer and the poor believer, both are believers." Both are equally
1:26:26
believing. But one of them is able to do things, is able to give to charity, and able to further
1:26:33
the cause of God and spread the word of God and do things that will make a difference. So, this is a motivation.
1:26:42
A man: Is it also (unintelligible) Edip: Allah. Dr. Khalifa: Yes, there are authorized printings and they are the closest to the truth. They have
1:26:54
one of the mistakes in them. There are three mistakes in them, in the authorized versions of the Quran printed in
1:27:00
Saudi Arabia or Egypt. Avoid the ones printed in Iran. They misspelled them and messed them up. You
1:27:09
Dr. Sabahi: Even the verses, the numbering of the verses? Dr. Khalifa: That's possible, but I know that they "simplified"
1:27:18
the Quranic Arabic and they wrote it in the modern... Edip: In Turkey also. Dr. Khalifa: Also in Turkey?
1:27:24
Edip: Yes, misspelled. Dr. Khalifa: uh-oh. Yeah. Dr. Khalifa: The first Quran ever in history that is the way God wanted it to be printed.
1:27:34
From here, come out of here the next few weeks, IN SHAA ALLAH.
1:27:41
Dr. Khalifa: Farhad? Farhad: You mentioned about Persian translation. Another, another translation, its introduction in Persian language.
Another translation is in
1:27:57
Arabic. Translating into Persian is convenient because they use it a lot. Dr. Khalifa: Yes.
1:28:10
Dr. Khalifa: Well, I have good news for you. There is a Farsi translation being done now from my translation. So, we should
1:28:17
have it in a year or so, IN SHAA ALLAH. We have authorized Farsi translation. No. Susan Ray? No. It's done by
1:28:30
Behrooz. You meet Behrooz? Behrooz Mofidi Shirazi. He's doing this. He's going very fast. A man: Mā Shā Allāh.
1:28:39
Dr. Khalifa: Martha, did you say something?
1:28:57
Dr. Khalifa: You are not reading your Muslim Perspective (unintelligible). You are not reading your Muslim Perspective.
1:29:04
Martha: Maybe. Dr. Khalifa: Not maybe. You are not reading your Muslim Perspective. It's right there. It's the answer to your question. Yes.
It's perfect answer to your question in detail. So, go
1:29:17
read it. Now. Any other questions? While Martha is reading the answer to her question.
1:29:28
Can you, can you what? What was, what did she say now?
1:29:34
A woman: Me? I said, any other questions that Rashad can avoid tonight by telling us to read them.
1:29:40
A woman: (unintelligible). That's actually very efficient, especially since it's five o'clock at night. Dr. Khalifa: Yes.
1:29:51
Dr. Khalifa: It only takes a minute, but it answers your question perfectly. The answer is "yes." The Prophet Muhammad was given specific
instructions. Every time Gabriel released
1:30:00
Quran from Muhammad's soul to Muhammad's memory, he gave him instructions as to where these three
1:30:06
or four verses belong. And he wrote down those verses and he put the instructions next to them.
1:30:14
So, when he died, he left the complete Quran, but not in the order that God wanted for the
1:30:19
world. He left the Quran with instructions on the side as to which Sura goes after what Sura
1:30:25
and which verse goes after which verse. Martha: (unintelligible).
1:30:32
Dr. Khalifa: Exactly. They followed the instructions. They put the Quran together, but then Satan tricked them into adding two verses. And
that was during Uthman's time. And this

1:30:43
 triggered the war between Ali and his family and the Umayyads. Martha: If that's the thing that you're referring to, I read that part. The part about Ali and his family. I've read that part. Dr. Khalifa: Right.

1:30:57
 Dr. Khalifa: There were 50 years of bitter war, but unfortunately, the Umayyads won. So, we got their version. We didn't get the version of the believers.

1:31:09
 A woman: Did Gabriel come down from the sky to Prophet Muhammad? Dr. Khalifa: No.

1:31:18
 Dr. Khalifa: He was an angel. No, he didn't see him. A woman: Did he saw him? Dr. Khalifa: No, he didn't see him as an angel.

1:31:27
 A woman: Did he just dream him? Dr. Khalifa: No, no, no, he didn't dream. Gabriel comes and takes and becomes part of Muhammad's

1:31:35
 body and releases the... Gabriel built a connection between Muhammad's soul and Muhammad's

1:31:41
 physical body. He didn't need to see him.

1:31:46
 A woman: So, I mean like did he talk to them? Dr. Khalifa: No, not like that. When... the possession, you lose... In the possession, you lose your

1:31:54
 identity completely. If you are possessed by an angel or a demon or whatever, Naghmeh disappears

1:32:01
 and the other entity takes over completely. And you have no consciousness at all. But Muhammad was

1:32:07
 fully conscious. He just had these words come to him and he would write down the verses. It comes

1:32:13
 to his memory. It's just like you're remembering something. You remember that you took a final exam three days ago, and the questions were this, this, and this, and you can write them down. So,

1:32:23
 Dr. Khalifa: this is how he received it. A woman: But he knew that all along it was a spiritual thing. Dr. Khalifa: Oh, yeah.

1:32:31
 Dr. Khalifa: Ok. Well, whatever your dearest wish is, turn to God and ask him for it. The best wish being to stay

1:32:38
 on the right path. Al-Fātehah. Bism Allah Arrahman Arraheem (1:1) Al hamdu Lillahi Rabbil 'Alameen (1:2) Arrahman Arraheem (1:3) Maliki Yawm Eddeen (1:4) Eyyaka Na'abudu Wa Eyyaka Nasta'een (1:5) Ehdina Al-Serata Al-Mustaqeem (1:6) Serata Al-Lazeena An'amta 'Alayhim Ghayri Al-Maghdoobi 'Alayhim Wa Laddaalleen (1:7)

1:32:58
 By all means, look at that miracle on the wall and thank God because there is no doubt that we are the luckiest people on the face of the earth. Alhamdu Lillah. Congratulations.

17 Quran Study From Behrouz 717 Sura 90 & Sura 91 By Rashad Sura 82 & Sura 83 By Edip 07 21 1989No 7

أَعُوذُ بِاللَّهِ مِنَ الشَّيْطَانِ الرَّجِيمِ
 0:09
 Bism Allah Arrahman Arraheem In the name of God, Most Gracious, Most Merciful.

0:17
 Dr. Khalifa: This morning about 9 o'clock, Lisa asked me "do you know that you're giving the Khutba?"

0:23
 It was quite a surprise as you realize. Then after the Khutbah, Lydia came to me and said "do you know you're giving the Quranic study?"

0:32
 And she took the beating on behalf of Lisa. Actually, Lisa sent her to tell me that.

0:39
 So, here I am. First of all, we welcome a new member to our masjid.

0:45
 This person here. I forgot his name.

0:54
 This is the former, and still is, Muhtesem Erisen, the one and only. Mā Shā Allāh Welcome back.

Position of the Arms during Salat – does not matter. Direction of Qibla.

1:04
 Before I start, there is also one more point that I wanted to mention.

1:09
 Thanks to our Iranian brothers and sisters. There is a little bit of confusion now about your arms, what to do with your arms when you pray.

1:17
 Keep them like this and put them straight down. I would like to establish first, once and for all, that it doesn't make any difference,

1:25
 whether you go like this or put your hands down. But generally, what I do is I follow what the Imam is doing.

1:34
 The person in the front, whatever the person in front is doing, I do what he's doing. And I recommend that for you.

1:47
 IN SHAA ALLAH, we'll be doing Sura 90, The Town.

1:52

And whatever we can afterwards. At 8:30, the children will practice on us.

1:59

You know, they'll be singing at the conference. So, we'll give them maybe 20 minutes, 20 minutes to 9.

2:06

20 minutes enough? 20 minutes to practice a new song on us.

2:12

It should be enjoyable, IN SHAA ALLAH.

2:17

Sura 90, The Town. In the name of God, Most Gracious, Most Merciful.

2:23

[90:1] I solemnly swear by this town. [90:2] The town where you live.

2:31

[90:3] The begetting and the begotten. [90:4] We created the human being to work hard (to redeem himself).*

2:39

[90:5] Does he think that no one will ever call him to account? [90:6] He boasts, "I spent so much money!"

2:46

[90:7] Does he think that no one sees him? [90:8] Did we not give him two eyes?

2:53

[90:9] A tongue and two lips? Number 10, [90:10] Did we not show him the two paths?

3:00

[90:11] He should choose the difficult path. [90:12] Which one is the difficult path?

3:06

[90:13] The freeing of slaves. [90:14] Feeding, during the time of hardship.

3:11

[90:15] Orphans who are related. [90:16] Or the poor who is in need. [90:17] And being one of those who believe, and exhorting one another to be steadfast, and exhorting one another to be kind.

3:24

[90:18] These have deserved happiness. [90:19] As for those who disbelieved in our revelations, they have incurred misery.

3:31

[90:20] They will be confined in the Hellfire. So, that's the whole Sura.

3:38

I go back to the beginning, swearing. God usually starts many of these short Suras with a profound statement.

3:48

And this town, meaning Mecca, is profound. Because God made it sacred by putting His shrine there

3:56

to serve as the focal point. or a point of organization for all believers around the world.

4:02

When we stand in Prayer, we don't fight as to which direction we should face.

4:08

God already decided for us that we're gonna face the direction of Mecca. So, every believer, every Muslim around the world is praying and facing that point.

4:22

So, the first verse is simply a profound statement, as in many other Suras.

4:28

And it is the town where the Prophet Muhammad lived from whom this Quran was revealed.

4:35

"The begetting and the begotten" is a profound statement again. All these profound statements precede an important proclamation.

4:45

The begetting and the begotten, this is a profound fact of life.

4:54

Take for example birds. The bird laying an egg.

4:59

The egg has been fertilized by two parents, through two parents.

5:04

One half, a reproductive cell is half a normal cell. One reproductive cell from the male and one half, the other half comes from the female.

5:15

They combine to form an embryo. In birds, the egg is laid, it is fertilized.

5:21

And then, the fact that the birds sit on the eggs, you know they take turns, the male and female in most species.

5:32

Taking turns sitting on the egg. Why do they do that? Who taught them to do that?

5:39

And what's happening inside that shell, the egg?

5:45

After a period of time, that it is becoming obvious more and more that it's a multiple of 7. 21 days in some birds.

5:56

21, 7 times 3. The human fetus now is in the mother's womb 266 days.

6:04

It is now established scientifically. 266, not 265. 266 and that's 19 times 2 times 7.

6:12

That's still a multiple of 7.

6:18
Gestation period, is it called the gestation period? Is that the period inside the womb?

6:24
Ok. In many other species, I know it is a multiple of 7, but I'm being distracted now.

6:30
However, "the begetting and the begotten" is a profound statement.

6:35
After 21 days, the bird inside breaks through the shell and comes out.

6:43
Then, they're walking around. If they're ducks, they go in the water and they swim. You know, as if they've been here forever.

6:48
As if they know everything. Walking around, following their mother in the water.

6:54
You can go to a random spot and see them. They just came out of the egg. And they're full of wisdom, you know, just following the mother wherever she goes. And sometimes they go independently and pick at something in the water.
"Created the human being to work hard to redeem himself" explained.

7:06
And they're identical to their parents. With beaks and eyes. Where did this come from?

7:15
And you can do this with any kind of species, any begetting and begotten.

7:22
Now here comes the proclamation. Number 4. [90:4] We created the human being to work hard (to redeem himself).*

7:31
As a result of that crime that we committed millions of years ago,

7:36
where we did not make a firm stand with God's absolute authority, we are here.

7:43
And God designed our plan to work hard, to redeem ourselves, to denounce that crime,

7:50
to prove that we are on the side of God's absolute authority.

8:00
What do you call getting up in the morning before sunrise? It's not easy, is it? At the beginning, especially when our soul is still small and weak.

8:08
The soul cannot wake up the body initially. Because the soul is weak.

8:15
It is hard work. And you are rewarded by growth, nutrition, and strength of the soul.

8:28
[90:4] We created the human being to work hard..... The lazy person who does not work hard and does not get up before sunrise, what is the result?

8:39
He or she ends up with a shrunken, weak soul that will not amount to anything in the real life, the Eternity.

8:50
They will be born into Eternity deformed.

8:56
And we see this in Sura 68 where they cannot fall prostrate.
Dr. Rashad Khalifa Explains Initially difficult to do all prayers especially for the young. Missing prayers.

9:01
On that big day when God comes physically to our universe, they will not be able to, they have no legs.

9:08
I mean, this is symbolically. They are deformed. A stump cannot fall prostrate.

9:15
They are deformed. It is lack of growth.

9:20
To get up in the morning before sunrise and do the Morning Prayer is a gift from God. If we deserve it, God will guide us into waking up before sunrise to do the Morning Prayer.

9:34
For the young people, I don't want you to be alarmed because it may be difficult for you, but eventually

9:41
you will be able to train your body to get up in the morning before sunrise. If you are unable to do it now, don't be too disturbed.

9:51
It is normal. Let me tell you this because I don't wanna be too hard on you. It is normal to start out by doing one prayer a day.

9:59
Let us say the Morning Prayer as soon as you get up at 10 or 11 in the morning.

10:04
Then, it will be two prayers a day. Then, it will be three prayers a day.

10:10
Then, you will do the Morning Prayer before sunrise and you will enjoy it.

10:16
The ideal situation is to do the five Prayers with the Morning Prayer done before sunrise.

10:24

Also, God tells us in the Quran that we cannot do it every day. You're gonna miss once in a while.

10:31

So, always think of the positive and be glad, be happy with the achievements that you do.

10:37

If you miss one time a week or something, don't feel too guilty. Be glad that you did six out of the seven days, Morning Prayers before sunrise.

10:48

Ideally, you will not miss anything. You will do the Morning before sunrise and you will do the other four Prayers as well.

10:54

[90:4] We created the human being to work hard (to redeem himself).*

10:59

There's a footnote here that says "see the Introduction and Appendix 7 for the purpose behind our creation.

11:05

Redeem ourselves. Go back to God's kingdom where we were. We got ourselves out by being interested in Satan's theory that others besides God can have power.

11:22

And the people are doing the same mistake now. They think Jesus can have power, or Mary, or Saint Jude, or Muhammad, or Ali, or Hussein, or Mahdi, or whatever.

11:33

People are repeating the same mistake. We did. God saved us.

11:39

This is how we get redeemed. By upholding the words of God alone and worshipping God alone.

11:50

Number five talks about those who fail to redeem themselves. [90:5] Does he think that no one will ever call him to account?

11:58

See, everything we do here is credited to us or held against us, whatever we do here.

Dr. Rashad Khalifa explains Original sin. Idol worshippers repeating what they did in the high society. "Prayers take a back seat" for some "Muslim".

12:09

And anything is forgivable except idol worship

12:15

if maintained until death. That's the unforgivable crime, because this is why we are here.

12:24

We are here for just one reason, to establish the fact that we know that only God possesses all power.

12:31

And so number five is telling us that every one of us will be called to account.

12:39

With the majority of people, they'll be asked "why didn't you develop your soul? How come you fed your body three meals a day, but you failed to feed yourself, your soul?"

12:51

Most people go through their whole life without feeding the real person a single meal.

13:00

This is repeated in the Quran. Most people, no matter what you do, will not believe.

13:05

And most of those who believe will fall into idolatry, into idol worship.

13:12

And we see this everywhere, don't we? Just think of any mosque in the world that says the Adhan, for example, the call to prayer, devoted to God alone,

13:21

without the name of Muhammad or Ali or somebody besides God.

13:28

In all of Iran or Pakistan or Egypt or Saudi Arabia, there isn't a single one mosque

13:33

that is devoted to God alone, which goes against the commandments of the Quran.

13:39

What happened to their brains? They're just repeating what they did in the High Society.

13:52

[90:5] Does he think that no one will ever call him to account? [90:6] He boasts, "I spent so much money!"

13:58

Isn't this what most people do? They're preoccupied with the almighty dollar.

14:10

In the meeting with our brothers and sisters in New York, I was asking them "when you get up in the morning, what is your list of priorities?"

14:19

"Are you going to have three meals today?"

14:24

Just when you open your eyes in the morning, ask yourself these questions. "What am I gonna do today? I'm gonna have three meals today?"

14:31

That's about 30 minutes, at least. "Am I going to the bathroom today?"

14:37

Two or three times. "Am I going to work today?"

14:43

Four to eight hours. "Am I going to exercise today?"

14:48

Thirty to sixty minutes. "What else will I do? Will I watch the TV today for one or two hours?"

14:56

"Will I give God twenty-five minutes? Will I do my five Prayers today?"

15:02

Even with some Muslims, the five Prayers take a back seat to everything else.

15:09

You ask them "why don't you come to the Friday prayer?" "Why don't you do the five Prayers?"

15:15

They will say "I had an appointment here and there, and I did this and that, and there was no time for the Prayer."

15:25

But we thank God because all of us here, we work our schedules around the Prayers, the five Prayers.

15:31

That's the proper thing to do. It should be that when we get up in the morning, on top of the list will be the five Prayers, at least.

15:42

On top of the list. Then, if there is time for anything else, we will do that.

15:48

This is why the verse that says "most of those who believe, fall in idol worship."

15:54

Because when you give priority to anything else, that's your idol. Now, don't get me wrong. There are situations where you are forced by circumstances to miss

16:04

a Prayer or two, or a Friday, an occasional Friday. And I don't want you to feel guilty about that either.

16:10

Because God Himself in the Quran gives you, knows what's in your heart, and gives you excuses.

16:16

But generally in your life, you're giving priority to God and your duties towards God,

16:21

which are actually a gift from God to you. So, when you get up in the morning, you think, I'm gonna have three meals today.

16:29

I'm gonna give my body at least a half hour for eating.

16:34

Eating, drinking, snacking, more. You're really taking care of your body.

16:40

How about your soul? The believers have their priorities in the right order.

16:48

When I open up my eyes in the morning, the five Prayers, this will take precedence over everything else.

16:59

Number six, [90:6] He boasts, "I spent so much money!" Because they're devoted to that. Money is the god of most people, unfortunately.

17:11

If the boss says "you're gonna come tomorrow at three o'clock in the morning", they will set the alarm at two o'clock.

17:18

They will get up at two o'clock, very energetic, put on their clothes and go

17:23

to that field trip at three o'clock in the morning. Yet, their job or their boss does not give them that money. It is God who is giving them the money.

17:39

I want to share with you an important verse, so I go get my index. Speaking of money, in verse six, it's a very important verse that we should all be very familiar with.

17:55

I think it is in Sura 29, I'm not sure, but I will give you the correct Sura and verse right now.

18:15

Yeah, it is Sura 29, verse 17.

18:23

Let me have the whole Quran. Lydia, are you gonna read it for us? Dr. Khalifa: 29:17.

18:30

Lydia: [29:17] "What you idolize besides GOD are idols from your creation; you." Whatever idols you set up possess no provisions for you. Therefore, seek provisions only from GOD. Worship Him alone, and be appreciative of Him; to Him will be your return.

18:44

Dr. Khalifa: It's a very important verse you must all remember, 29:17. It says "the idols you set up besides God", and it appears here that specifically the

18:53

money idol, the almighty dollar, do not possess the power to provide for you.

18:58

Therefore, seek provisions from God, because God is the Only Provider.

God assigned the "dollars" (Money) in your life. We are being "video recorded" explained. Believers know no virus can attack you – tests may permit this, health restored.

19:04

And as believers we know that. We must believe that. No one else is the provider.

19:10

Many of you have gone through this experience and they know that the people who interview you and give you jobs and so on, they have no power whatsoever.

19:19

God is the One who's running them.

19:25

This is why verse 7, verse 6 illustrates the stupidity of most humans.

19:31

[90:6] He boasts, "I spent so much money!" Or I made so much money, you know, same thing.

19:38

The dollars assigned to you have been already assigned to you by God before you were born.

19:46

And I know the argument. You say "you mean I'm gonna sit down and money will come to me?" "Yes, you'll sit down and money will come to you."

19:59

I mean, God will see to it, as a believer you will work and you will make money. God will provide for you through the right and proper way.

20:08

Because if you sit and do nothing, after 4 or 5 hours you're going to be hungry, you have to eat. So, how will you eat?

20:14

You will go look for, dig a ditch or something to make some money to eat. So, you will work, and God will provide you through that.

20:21

So, there is a system, a divine system that we know.

20:26

Number 7, another question, [90:7] Does he think that no one sees him?

20:35

In other words, everything is recorded. Just think that there is a video camera going with you wherever you go.

20:42

And you're gonna find that video tape hanging in your neck on the Day of Judgment.

20:51

That will keep you on your toes.

20:57

Ironically, the believers do this automatically, they don't... They know God is with them the whole time, and they know there are video specialists

21:09

with the most sophisticated video cameras. I mean, the cameras themselves are invisible, but they take 3 dimensional pictures.

21:19

It's the most sophisticated video tape, and you're gonna have it hanging in your neck on the Day of Judgment.

21:26

As a believer, you have the privilege of editing it. You're gonna have a perfect tape.

21:36

[90:7] Does he think that no one sees him? What is the implication here?

21:44

The believers are aware of the invisible forces and God's invisible soldiers.

21:50

This is what the believers, when God tells them, they're guaranteed perfect life, perfect protection.

22:00

They know they're perfectly protected by God. No virus can attack you. You're protected.

22:11

You may go through some tests. You may be allowed to be invaded by viruses or bacteria or

22:18

headaches or whatever as a test, but you will be restored.

22:23

You know you'll be restored. We're all aware of the tests, and all the tests for the believers are restorable.

22:33

Not the tests themselves, the believer is restorable. Whatever happens, there are things that can be erased completely, but you are fully protected.

22:45

Number eight tells us, [90:8] Did we not give him two eyes?

22:52

I'm looking for somebody who recorded that discovery program about the eyes.

22:58

That should make a believer of anybody, that program.

23:05

I don't know if anybody recorded it. I think I asked Phil Traverse to record it for me, and chances are he did when I was away.

23:16

In that case, I will share it together on one of those Fridays. But I don't need to tell you how incredible the eye is.

23:27

Just the muscles that focus the lens of your eye immediately.

23:32

I mean, how fast does your eye move from this to this? It focuses immediately.

23:40

I look at the paper and I'm focused. Excuse me, I have to put my glasses on.

23:47
My eye focuses with the glasses and I can see the reading here. Then, I look at Edip and it focuses on Edip. It's not out of focus.

23:54
In a fraction of a second. The muscles, if you look in the mirror, you can see your muscles working.

23:59
Does anybody do that? Does anybody do that? You look in the mirror and you turn the light on to catch your pupil as it goes like this.
Dr. Rashad Khalifa talks about the "incredible" tongue (Banter). Talks about mosquito incident (banter)

24:10
How many people... I did that. Those who laughed, they know it. They know what I mean.

24:17
I must have been ten years old or something and I went to the mirror with a flashlight to look in there.

24:25
Right. And then I surprised my eye and turned the light on and I could see the pupil goes like this.

24:32
These are muscles that work. [90:8] Did we not give him two eyes? [90:9] A tongue and two lips?

24:40
That was Mahmoud's last Khutba. That tongue is an incredible thing.

24:47
We cannot eat without it, actually. Because it keeps the food under the grinders, those things, your teeth.

24:55
The tongue pushes it. You confuse the tongue sometimes if you eat on both sides. Then, you bite your tongue.

25:05
If you're greedy and you don't follow the Quran and the food is too good.

25:10
God said "eat and drink but not extravagantly."

25:16
You can confuse your own tongue if you eat on both sides at the same time. Then, the tongue doesn't know where to push and you end up biting your tongue.

25:24
But it's an incredible... that tongue is an incredible thing. You cannot talk without it, either.

25:33
Just try to say anything and be conscious of the movements of your tongue.

25:38
Up and down and to the side as you talk.

25:45
Everybody wants to say something, right? Just say the word "talk" and you can see where your tongue moves from up.

25:53
Because the T, when you say T, your tongue is up. "Talk", your tongue goes down.

26:00
You cannot talk without your tongue. Even the language is called tongue sometimes.

26:06
What a design! So, God is telling us about His greatness which is incomprehensible.

26:15
God's greatness is immense. It's not just controlling your tongue, but also the mosquito that's flying in the air.

26:23
The heart of that mosquito is being controlled by God. The amount of nutrition that is assigned to that mosquito, which includes some of your blood

26:34
is also recorded. And it is computerized to coincide with something wrong you did.

26:46
Then, you get a bite. Or to give you some entertainment, like on our way to San Francisco for example, and

26:53
we went to pray in a rest area. Boy, did we beat ourselves.

27:00
That was the fastest Prayer we ever did. There were five billion hungry mosquitoes waiting for us.

27:08
And they were so sly. You know, they waited until we said "Allahu Akbar."

27:21
That was really something. I think God wanted to give us more rewards, but no really, that was struggling, striving in the cause of God.

27:34
And we wondered why the rest area was so empty, you know.

27:40
We said "wow, this is reserved for us." Now, we know.

27:49
So, God controls the provisions for not just your, controls the heart, not just your heart, or the heart of billions of people,

27:57
the heart of every creature on earth.
"Did we not show him the two paths". Choosing the difficult path. "Break the initially barrier" to enjoy guidance. "Waking for Salat without an alarm. Anonymous charity.

28:04
Number ten is a great blessing, a great blessing. [90:10] Did we not show him the two paths?

28:12
Right and wrong. We come to this world perfectly unaware of the incidents in the High Society.

28:20
We start out clean in this world. And then, we receive two messages. A message of God alone, a message from God.

28:28
And a message of God and somebody else from Satan. That's it. There is no other path.

28:35
The path of worshiping God alone. And you remember the statement in the Bible, that path is very narrow and straightened.

28:41
straightened and what? Difficult? Just look how much persecution we're subjected to.

28:50
Which is a blessing because you get rewarded for it. And the other path is wide?

28:55
Look at all the cathedrals in the world. The Crystal Cathedral in Anaheim.

29:01
They all belong to Satan. All the big mosques and the big cathedrals.

29:10
The wrong path is wide and conforming with the crowd.

29:15
Look how many people meet the Pope.

29:23
One of you, one of the most important people on earth, would go to Los Angeles, nobody will even know.

29:30
When the Pope goes to Los Angeles, there's security and arrangements and a Pop Mobile and all kinds of things.

29:40
But when you go to Los Angeles, nobody hears about it. Yet you're a very very important person.

29:49
Such is this world, Satan's kingdom.

29:56
[90:10] Did we not show him the two paths? And here's God's recommendation on number 11.

30:01
[90:11] He should choose the difficult path. Because this is how you train your wild horse, your body.

30:10
God is recommending that we choose the difficult path. Again, we talk about getting up in the morning before sunrise.

30:19
It's not really so difficult, I don't know. But...

30:42
Yes, Sura 65. A man: If you look at from outside, once you accept it, God makes it easy.

30:51
Dr. Khalifa: Exactly. God makes it easy and enjoyable. But you see, you have to break that initial barrier.

31:02
It is enjoyable. I'm theorizing that our companion enjoys it too.

31:11
Because I don't set the alarm anymore and I suspect this is true with most of you.

31:17
I just don't set the alarm and in the last few weeks, I traveled into different time zones,

31:23
Central and Eastern and all this. And it doesn't matter where I am. Before sunrise, something wakes me up.

31:29
And I suspect it is the companion. So, he must enjoy it. Thank God.

31:36
Maybe an angel. I don't know. But there comes a time when you don't need, you don't need an alarm.

31:46
You don't need anything to make you get up and enjoy it. So, God does make it easy.

31:53
Sura 65, God says "those who observe God's commandments, God makes things easy for them."

31:58
This applies to everything though, everything in life. And this will include the gift from God of doing the Five Prayers, the Zakat, the Zakat Charity.

32:15
It's not a popular thing, taking money from your pocket to give it away.

32:24
I came back from a two week absence and they opened this drawer. And there were Zakat envelopes from anonymous people, you.

32:33
You know, these are people who really believe in God, because where do they get the credit? Because they believe in God.

32:43
I say to Lisa "whose handwriting is this?"

32:49
I haven't cracked that yet, but I know that they are people that God loves.

32:59
He should choose the difficult path.

33:07
 God's commandments. Taming the wild horse.

33:12
 You know, Discipline. When we are praying, this is discipline.

33:18
 Did you see Amir praying? Actually standing still for about five minutes. I mean, that's a miracle.

33:27
 And he's rewarded generously for that. This is discipline. I mean, at his age, I'd be running around all over the place, jumping up and down.

33:36
 But to be standing still like this, bowing and prostrating before God, it's a tremendous blessing.

33:42
 And a lot of discipline. This is what God means here. Why he should choose the difficult path.

33:51
 Number twelve. A definition of the difficult path. [90:12] Which one is the difficult path?

33:57
 And we have examples of it. [90:13] The freeing of slaves. In the past, what was the civil war all about?

Freeing the slave. Traits of the believers. Happiness now and forever.

34:05
 Anybody enlighten me with Civil war? The historians? Lydia? Put down the tab and tell me.

34:12
 What is the civil war all about? Lincoln? Was it in Lincoln's time? Does it have anything to do with freeing the slaves?

34:18
 Lydia: A little, yeah. Dr. Khalifa: What was it all about? The North was fighting the South. Lydia: (unintelligible) Social problems. But there was also (unintelligible) freeing the slaves was the basic underlying issue here.

34:32
 Dr. Khalifa: Ok. Why was it an issue? The North was fighting the South, right? What is...

34:38
 A man: (unintelligible) The Southern economy is powerful.

34:43
 Dr. Khalifa: Oh, Ok. The South resisted. A man: So, the idea that the North got involved in the Civil War to freeing slaves is a pretty (unintelligible) idea. They got involved in the war to destroy the economy of the South. (unintelligible).

35:00
 Dr. Khalifa: Okay, Matt? Matt: (unintelligible) very economy of the North. (unintelligible)

35:05
 Dr. Khalifa: Hey, Rashada, hey, hey, hey, kid. Matt: The North (unintelligible)

35:14
 Southern economy (unintelligible). The Southern economy (unintelligible)

35:21
 So, actually, the freeing of slaves was a big issue for 50 years before the war started.

35:26
 But it was mostly for religious purposes and other stuff. It was a side issue.

35:33
 Dr. Khalifa: So, part of it was that the South was resisting the law to free the slaves. Matt: They wanted to protect the social (unintelligible).

35:38
 Dr. Khalifa: They did not want to free the slaves. Dr. Khalifa: Whatever the reasons, they did not want to do it.

35:45
 And therefore, it is given here as an example of something that the human being does not want to do.

35:52
 Yes, number 13 says, [90:13] The freeing of slaves. is indicated as a difficult job that must be done by believers.

36:00
 A man: In the United States, we still have a system where the vast majority of workers support

36:05
 a very small percentage of people who have a large amount of money. Dr. Khalifa: Yes. A man: So, economically, there's a situation of... Dr. Khalifa: slavery.

36:14
 Dr. Khalifa: But it is not the same as the slavery that existed at the time of the revelation of the Quran until a hundred years ago in this country.

36:25
 I mean, you can see, you can actually see traces of it until now. I think the racism that we still see in this country is the tail end of consequences of slavery and so on.

36:40
 Dr. Khalifa: Number? A man: The idea is that the (unintelligible) should always have a group of people. Dr. Khalifa: Yes.

36:48
 Dr. Khalifa: (Unintelligible), yes. A man: It's not limited to one group. It's not limited to blacks.

36:54
 Dr. Khalifa: But you can certainly define slavery as exploitation of other humans. And it is indicated by the Quran as a vicious, terrible crime.

37:02
 A man: But I think many people think that slavery is a sin. Dr. Khalifa: Yes.

37:13
 Dr. Khalifa: Right. Dr. Khalifa: This is why one of the laws of the Quran is "oppression is worse than murder."

37:21

Oppression is worse than murder. The freeing of slaves, number 14, feeding the hungry.

37:28

Feeding or charity. Feeding symbolizes being charitable during the time of hardship.

37:35

[90:15] Orphans who are related. [90:16] Or the poor who is in need. Number 17,

37:40

[90:17] And being one of those who believe,... It's not easy to believe.

37:47

Muhteshem can tell you a few things about his encounter with disbelievers in Turkey. Tell us something.

37:54

What is the majority reaction in Turkey to your ideas of the Quran and worshipping God alone, the Quran alone?

38:01

What was the reaction? Take a hundred people. Out of a hundred, how many people agreed with you? Muhteshem: None.

38:08

Dr. Khalifa: Zero. All right. Were they violently opposed to you? Or were there degrees of violent reaction?

38:18

Muhteshem: They insulted me literally, looking down on me.

38:23

Dr. Khalifa: They insulted him because he says "follow the Quran alone." Looking down on him, because this is all in the Quran.

38:34

Yep. We know that Edip, don't we?

38:42

And it seems to be that "these Muslims," are the ones who are doing this.

38:47

Christians are not, the atheists are not insulting the believers.

38:56

So, number 17, being one of those who believe, is not easy.

39:04

[90:17]and exhorting one another to be steadfast, and exhorting one another to be kind.

39:11

at the same time

39:16

[90:18] These have deserved happiness. We're not talking about happiness in the Hereafter only. We are talking about happiness now and forever.

39:26

Happiness now and forever. More and more, God is strengthening these ideas in our minds through real life examples.

39:36

Our own life, right here in this mosque.

39:41

Number 18 says, [90:18] These have deserved happiness. See the period there?

39:50

It means now and forever. Number 19, [90:19] As for those who disbelieved in our revelations, they have incurred misery.

40:03

Now and forever. [90:20] They will be confined in the Hellfire.

40:10

So, these short Suras are loaded, as you see.

40:15

Just one short Sura, 20 verses, and it's loaded with information. Any questions?

40:23

Dr. Sabahi. Dr. Sabahi: Verse 4 in Arabic, (unintelligible)

40:37

human beings (unintelligible)

40:43

Dr. Khalifa: To suffer. Dr. Sabahi: (unintelligible) Dr. Khalifa: Yes.

40:55

Dr. Khalifa: Not necessarily, but you see, KABAD (كَبَد) is effort, work. Dr. Sabahi: Right. Dr. Khalifa: TAKABADA, the verb TAKABADA, in Arabic, means "exert himself, effort.

41:06

What does the Farsi say there? Is that a Farsi translation? Or a... Dr. Sabahi: This is a different translation than...

41:13

Dr. Khalifa: English? Dr. Sabahi: No, Farsi. Dr. Khalifa: Oh, Farsi. So, what does it say there? Dr. Sabahi: It says that human beings were created

41:25

(unintelligible) Not in pain but pain and suffering is part of it.

41:31

That is the way you're just, you're born. That's how everything was nice and easy for you.

41:39

But you would never appreciate what you get. So, but it is that you go through this pain and suffering and then you learn and then you appreciate it.

41:49

The good thing is that then you would be on the right path. And you appreciate more and you go to the right path

41:56
 So, you've created this pain, and you keep working hard to finding it in all these problems.

42:01
 Dr. Khalifa: That's a typical interpretation of non-believers, actually.

42:10
 Satan is trying to justify the pain and misery that his clients go through.

42:16
 It is not the correct translation, because you understand from that that it means the human being must be in pain and suffering, right?

42:23
 Dr. Sabahi: No, no, that's why I said (unintelligible). Dr. Khalifa: What do you understand when you read it?

42:28
 If you can convey it to us in English. Dr. Sabahi: I can't relate to the pain the way it is.

42:34
 (unintelligible) You're not born, (unintelligible)

42:41
 You make the wrong decision at the beginning. You decided to go through this suffering.

42:48
 (unintelligible) something like this, that you made the wrong decision when you said (unintelligible)

42:56
 in these conditions. These conditions are tough, but the ones who are believers who are on the right path,

43:03
 they can succeed, and overcome all these miseries and pain. (unintelligible)

43:09
 Dr. Khalifa: No, that would be incorrect interpretation. Therefore, this is the correct translation here.

43:17
 [90:4] We created the human being to work hard (to redeem himself). * Because there is no pain and suffering for the believers.

43:24
 Dr. Sabahi: While the Arabic says (فِي كَيْدٍ). FI (فِي) means "in." Dr. Khalifa: Not necessarily. Not necessarily. (فِي كَيْدٍ) would be

43:32
 Because of the word KABAD, it would be "to work hard."

43:42
 There are other FI (فِي) words that do not mean "in."

43:49
 For example, when they say, (فِي شَكٍّ مِّنْهُ مُرِيبٌ) (11:110) means "they have doubts."

43:55
 So, it is not exactly "in." Sometimes it is "in."

Explains pain and suffering during tests.

44:03
 So, KABAD is a very clear word. I think even the old translation said that. What did the old translation say, Catherine? Verse 4.

44:12
 Catherine: It said (unintelligible) Dr. Khalifa: Ok. Work at it.

44:21
 It's "exertion." KABAD. TAKABADA. It's to exert himself.

44:26
 Thank you for this point, anyway, because it reflects what they're always thinking of pain and suffering.

44:32
 Because they try to justify their life, which is full of pain and suffering.

44:38
 The believers' life has no pain and suffering. It may have... even in the periods of tests,

44:43
 they realize that this is a test that they'll be restored, and the pain and suffering will be gone.

44:50
 Do you remember the pain and suffering you went through when you were one year old? The shocks that went through, do you remember those?

44:57
 Nope. They're gone.

45:02
 So, the pain and suffering in tests will be something that is simple and will go fast.

45:08
 It will be forgotten, and you'll be restored. Other questions?

45:14
 David?

45:19
 You look like you wanna ask a question. Ok. Sura 91 is entitled "The Sun."

45:25
 Dr. Sabahi: I have a comment that (unintelligible). Dr. Khalifa: Ok. Go ahead. We missed you for a few weeks. How was Italy, anyway?

45:31
 Dr. Sabahi: (unintelligible) One thing that (unintelligible)

45:40
 It's amazing (unintelligible) but it is a clear indication of how religion (unintelligible) but

45:50

I was thinking of how many people died because (unintelligible). So, I think it's a clear example of (unintelligible).

46:03

Dr. Khalifa: You've seen the statue of Jesus where the foot is all worn down from touching it? You see that one, the main building of the Vatican, and you walk

46:12

about 50 yards to the right, they have a statue of Jesus, and people touch the foot of it, and it's worn down.

46:18

Half the foot has got dropped, right? Just from touching it, it's worn down.

46:23

And they're proud of that, actually. They show it off. Have you seen that clip? You went to the Vatican.

46:32

That's, you know, an amazing demonstration of idol worship. And then they have the tombs of some saints in the basement.

46:39

Did you go to those, Mahmoud? In the basement of the Vatican, they have some tombs of Peter and some other saints.

46:49

You ran away fast.

46:54

I investigated the whole thing. It was just repulsive, just as repulsive as the Prophet's Mosque in Medina.

47:01

Go ahead. Dr. Sabahi: (unintelligible)

47:15

Dr. Khalifa: Exactly, yes. Dr. Sabahi: (unintelligible) Dr. Khalifa: Yes.

47:26

Dr. Khalifa: It's beautiful, yes. Yes. Dr. Sabahi: (unintelligible)

47:32

Dr. Khalifa: Yes, very good point, Mā Shā Allāh. Don't be a slave of your job, your spouse, your children or...

47:40

Be a slave of God alone.

47:48

Okay, we're ready for Sura number 91. In the name of God, Most Gracious, Most Merciful

47:56

[91:1] By the sun and its brightness. [91:2] The moon that follows it. [91:3] The day that reveals. [91:4] The night that covers.

48:02

[91:5] The sky and Him who built it. [91:6] The earth and Him who sustains it. [91:7] The soul and Him who created it. [91:8] Then showed it what is evil and what is good.

48:13

[91:9] Successful is one who redeems it. [91:10] Failing is one who neglects it.

48:19

[91:11] Thamoud's disbelief caused them to transgress. [91:12] They followed the worst among them.

48:26

[91:13] GOD's messenger said to them, "This is GOD's camel; let her drink."

48:32

[91:14] They disbelieved him and slaughtered her. Their Lord then requited them for their sin and annihilated them. [91:15] Yet, those who came after them remain heedless.

48:43

Again, we see in the first verses, some of God's profound signs that remind us of God's greatness.

48:49

And why we should be worshipping God alone. [91:1] By the sun and its brightness.

48:54

Do you have any idea how hot the sun is? How bright it is?

"Mohammad or Jesus had nothing to do with creating the sun"

49:05

93 million miles away. And you go out at noon there, and with a lens you can actually burn anything.

49:14

You can put a piece of paper in the lens, in the focal point, you can burn the paper.

49:20

It's very bright and very hot. And Muhammad or Jesus had nothing to do with creating that sun.

49:31

Saint Jude had nothing to do with creating that sun, or adding a single atom to it.

49:37

Yet, the people thank him for their successful operations.

49:44

[91:1] By the sun and its brightness. [91:2] The moon that follows it.

49:51

What is the moon? It's something hanging in space. That we flew to the moon and we went around it.

50:00

Something that's hanging in space. And synchronized the movement with the earth.

50:06

So, you see only one side of the moon. These are the profound signs that God gives us to remind us of His greatness.

50:13

[91:2] The moon that follows it. [91:3] The day that reveals.

50:18
You can see everything during the daylight. [91:4] The night that covers.
50:25
The night and the day are other profound signs of God.
50:31
In fact, last night, I saw that phenomenon of the night rolling over the day and the day rolling over the night.
50:39
I left St. Louis about 8 o'clock at night.
50:45
And I watched the part of the... If you travel after sunset, you can see it.
50:52
You can look in the window in this area and there is light and that area it's pitch black. It's very dark.
50:57
And you can see the night rolling over the day. And you can imagine the earth turning.
51:08
The sun set and the night overtaking the day. These are profound signs of God.
51:16
And the miraculous things in the Quran and the infallibility of the Quran is manifested in the fact
51:21
that God says "when the world ends half will be at night and half will be in the day."
51:26
God says "our command will come to it during the day or the night." Cause half the earth will be daylight and half the earth will be at night.
51:35
If it was a human written book, they would have made a stupid mistake. "Our command will come at 12 noon."
51:45
Well, 12 noon New York time or Tucson time. It's an infallible book.
51:54
Another profound sign number 5, [91:5] The sky and Him who built it.
Saudis insist on seeing the new moon. "Redeeming our souls" explained. Nicest people in the world neglect their souls.
52:01
Trillions, decillions of heavenly bodies in precise orbits, never crashing with one another.
52:09
By the way, you opened, we opened the... Ihsan Ramadan, I was in her house the day before yesterday.
52:16
And we got the newspaper to see what time is sunrise, what time is sunset, the Washington Post.
52:21
You can get the Washington Post here, even the library. And as it turns out, they give you the rise and set of every member of the solar system,
52:29
Venus and Mars and Jupiter, the moon, the sun. They give you the sunrise and moon and sunset.
52:36
The moon rise and moon set, everyday. The Mars rise and the Mars set. The Venus rise and the Venus set.
52:43
We know it by fractions of minutes. And the dummies in Saudi Arabia still want to watch the moon to fast Ramadan.
52:52
They have to see the moon to fast Ramadan. Every morning in the Washington Post, you can just check it in the library.
52:59
They give you the sunrise, the moon rise, the Venus rise, the Mars rise, the Jupiter, Saturn.
53:05
It's under the list called the solar system. Rise and set.
53:11
That's how precise God's system is. And we're just talking about the solar system, which is a minute mote in our universe, within the Milky Way galaxy.
53:23
There are billions of suns in our Milky Way galaxy, and ours is one of the tiny ones.
53:32
[91:5] The sky and Him who built it. Muhammad or Jesus or Mary had nothing to do with the Mars rise and Mars set, every day.
53:43
Number 6, [91:6] The earth and Him who sustains it.
53:52
Have you seen the big trees in the Redwood National Park, North California?
54:01
Those are fantastic creatures that God sustains. Was it 1,500 years, the big tree? Edip. What was it?
54:11
You didn't set the camera right, so we don't have the picture. of the big tree.
54:17
Was it 1,500 years? Oh, A little older than your grandfather.
54:23
1,500 years. Yes, that's another one. (unintelligible) Yes.
54:28
A man: Interestingly enough, the oldest, you know, living organism (unintelligible) Dr. Khalifa: Yes, yes.

54:34
A man: (unintelligible) years. I mean, 10,000 years (unintelligible). Dr. Khalifa: Wow.

54:44
Dr. Khalifa: That's older than America, isn't it? A man: That's older than everything.

54:50
Dr. Khalifa: That big tree in the Redwood National Park, 1,500 years. So, that's 1,300 years before America was born,

54:58
when that tree started. And it's huge.

55:05
We tried to make Lisa surround the tree with her arms.

55:18
Even if we put Frank next to the tree, he will look like a tiny person there.

55:24
It's the amazing creature that God sustains. [91:6] The earth and Him who sustains it. Number 7,

55:29
[91:7] The soul and Him who created it. God created the soul and made it invisible.

55:38
Number 8, again the message. [91:8] Then showed it what is evil and what is good.

55:44
What is evil is idol worship and what is good is worshiping God alone. It's as simple as that.

55:50
[91:9] Successful is one who redeems it. That's the objective of our life, right there.

55:55
Number 9, redeem your soul by feeding it every day, Five Prayers, being charitable, being righteous.

56:05
Never lie, cheat, be a person of your word. You must be an ideal, exemplary person of moral behavior.

56:20
In every respect. [91:9] Successful is one who redeems it. [91:10] Failing is one who neglects it.

56:30
See, it's mostly neglect. Most people out there in the street, they're neglecting their soul. They can be the nicest people in the world, but they're neglecting to feed their souls.

56:40
They have to worship God alone to grow and develop.

56:46
And then we're given examples from 11, 12, 13, 14 and 15 of Thamoud and how they didn't listen to God's messenger and they ended up incurring retribution.

56:57
And number 15 tells us to learn from those examples and thank you very much and God bless you. We're gonna have the children sing for us.

57:04
Unless you have any questions about Sura 91 and let's see who's gonna give the Quranic next time and the Jumu'ah.

57:13
You're gonna be stuck with it. Catherine, you wanna give the Quranic study next week? And the Jumu'ah prayer, Douglas, you wanna give the Jumu'ah Khutba? Ok. This is all set.

57:24
Where is Sarah? Is Sarah here?

57:31
And where is Alia? Where is Alia? Is she here? Come here. Come here. Come here. You're birthday girl. You wanna sit here?

57:38
Sarah, you wanna sit there? Because we're gonna give you a big prayer. These two girls are having birthdays this week. When was your birthday?

57:47
Dr. Khalifa: Yesterday? A girl: Yesterday. Dr. Khalifa: Yesterday was your birthday. Yours is Monday? Mā Shā Allāh. You're growing so fast. Slow down.

57:55
Mā Shā Allāh. We're gonna read Al-Fātehah for these two beautiful girls because of their birthdays that God gives them a very happy year coming up

58:03
and every year will be happier than the previous year, IN SHAA ALLAH. Al-Fātehah Bism Allah Arrahman Arraheem (1:1) Al hamdu Lillahi Rabbil 'Alameen (1:2) Arrahman Arraheem (1:3) Maliki Yawm Eddeen (1:4) Eyyaka Na'abudu Wa Eyyaka Nasta'aeen (1:5) Ehdina Al-Serata Al-Mustaqeem (1:6) Serata Al-Lazeena An'amta 'Alayhim Ghayri Al-Maghdoobi 'Alayhim Wa Laddaaleen (1:7)

58:25
Congratulations. You're gonna eat the first cupcakes, Ok?

58:31
Ok. You wanna call the kids and we're gonna listen to them. A woman: We have four new songs and we're gonna do a couple of the old ones also for the conference.

58:41
We have a couple of old ones and (unintelligible).

58:54
Edip: Bism Allah Arrahman Arraheem [82:1] When the heaven is shattered.

59:03
[82:2] The planets are scattered. [82:3] The oceans are exploded.

59:09
 [82:4] The graves are opened. [82:5] Every soul will find out what caused it to advance, and what caused it to regress.
 59:20
 [82:6] O you human being, what diverted you from your Lord, Most Honorable?
 59:27
 [82:7] The One who created you, designed you, and perfected you.
 59:32
 [82:8] In whatever design He chose, He constructed it. [82:9] Indeed, you disbelieve in the religion.
 59:40
 [82:10] Oblivious to the fact that there are (invisible) keepers around you.
 59:46
 [82:11] They are honest recorders. [82:12] They record everything you do.
 59:51
 [82:13] Surely, the pious have deserved bliss. [82:14] While the wicked have deserved Hell.
 59:58
 [82:15] Will incur it on the Day of Judgment. [82:16] They never leave it.
 1:00:04
 [82:17] Awesome is the Day of Judgment. [82:18] What a day; the Day of Judgment!
 1:00:11
 [82:19] That is the day when no soul can help another soul, and all decisions, on that day, will belong to GOD.
 1:00:26
 Also, this chapter starts with a description of ending of the world and the resurrection.
 1:00:36
 And then asks a question in the verse 6, asks a question about diversion of people and then inform us
 1:00:54
 recorders that record every action, our every speech, every word, then in verse 9 and
 1:01:10
 15, we find the same word but in different meaning where the DIN (دِينَ) in Arabic in the verse 9
 1:01:21
 it is in the...its meaning is "religion" but in verse 15, we find it as the Day of Judgment Yawm Al-Din (يَوْمَ الدِّينِ).
 1:01:34
 And the description of Yawm al-Din excludes all, excludes all intercession, all kind of intercession.
 1:01:48
 That day, the dominion, everything will be... the decision will belong to God. Nobody will help each other.
 1:01:59
 It is the only chapter that ends with word "God." The word "God" only here is the last word and it is in 19th, in the verse 19.
 1:02:14
 And from the end, it is also the 19th word of "God." (unintelligible).
 1:02:22
 Dr. Khalifa: Can I explain that? Edip: Yes. Dr. Khalifa: Can you explain that? Edip: Here, this chapter is the only chapter that ends with "Allah", with word "Allah." You can find near 19 word "Allah."
 1:02:36
 And this is the 19th verse, the verse number is 19, and if you count from the end of the Quran, the word "Allah",
 1:02:44
 and you will come here this... you find this, this is the 19th word "Allah" from the end. Dr. Khalifa: (unintelligible).
 1:02:54
 Dr. Khalifa: Mā Shā Allāh. Dr. Khalifa: Do you have any question?
 1:03:10
 Edip: Yes. Dr. Khalifa: The word "God"?
 1:03:22
 Dr. Khalifa: It's a piece of information. This is the only Sura that ends with the word "God."
 1:03:27
 And this happens to be in verse 19 and it ends with the 19th word "God" from the of the Quran.
 1:03:34
 This is on top of the last 19 words "God" in the Quran. If you count from here to the end of the Quran, the word "God",
 1:03:41
 you'll find 19 of them. And this is also verse 19. So, there's a a unique... there's something special.
 1:03:50
 Yes. Is this a human design? Dr. Khalifa: Is it possible that a human being designed it this way?
 1:03:58
 So, the significance is that this is a super human design. In other words, you know that God is speaking to you, not Muhammad or somebody trying to pull your leg
 1:04:09
 So, it just meshes in with the interlocking of this mathematical system.
 1:04:17
 If you look at the bottom of the page, you see the number 1 on the left and 2680 on the right.
 1:04:23
 This is the....there's only one word God on this page and this is recorded on the left side. The total, up to this page, is 2680.
 1:04:30
 And you know, at the end, the total is 2698. So, if you count this word "God" as one, the last one will be 19.
 1:04:40

And this is verse 19. So, who made this design? This is the significance of it. That it is a super human design. It could not possibly be Muhammad who designed it this way.

1:04:56

Edip: And I want to point out something. About Yawm Al-Din, we see in Sura, chapter, Fātehah that we always reciting our Prayers,

1:05:08

we say "Maliki Yawm Eddeen", the king of the Day of Judgment and here Quran explains the

1:05:18

"Yawm Al-Din" Day of Judgment, Quran explains the terms and expressions in Quran that never used before.

1:05:38

Dr. Khalifa: Okay, Sura 83. A woman: You know, (unintelligible) This is English phrase. (unintelligible).

1:05:54

Dr. Khalifa: Because it doesn't mean "religion." A woman: For DIN? Dr. Khalifa: DAYN. How about DAYN? What does DAYN mean?

1:06:05

Dr. Khalifa: No. Edip: Double meaning. DIN. Dr. Khalifa: What is DAYN?

1:06:13

You know what DAYN is? No, DAYN, not DIN. DAYN.

1:06:18

A woman: Debt. Dr. Khalifa: Right. Right. Edip: Right. Mā Shā Allāh. What is debt? This is the day where you pay your debt, or you get paid.

1:06:29

It's the day you get paid. Yawm Al-Dayn or Yawm Al-Din. It's all related.

1:06:37

It's the Day of Religion, the Day of Debt, where you pay your debt, so you get paid for your...

1:06:42

A woman: The Day of Judgement before... Dr. Khalifa: Where you open your PRA book. A woman: Right? The Day of Judgement is basically what you could thinking toward the Bible which is described (unintelligible).

1:06:53

Dr. Khalifa: There's nothing wrong with that. It's the same Author. A woman: Right. No, no, I realize....

1:07:00

Dr. Khalifa: But Dayn is... Dayn is debt. Some people look at it this way.

1:07:06

So, this is a hybrid between Dayn and Din. Yawm Al-Deen.

1:07:12

I mean, "religion" means Din, but also means "judgment." Edip: Day of judgment is a very good (unintelligible).

1:07:19

Dr. Khalifa: There are others specific, using this same word, and it's much more specific.

1:07:24

I can find it for you. Edip: For what? Dr. Khalifa: ...throughout the Quran. Dr. Khalifa: For Judgment. Day of Judgment. Edip: Is it Yawm Al-Haq?

1:07:31

Dr. Khalifa: No, Yawm Al-Din. Edip: Yawm Al-Talaq?

1:07:42

Dr. Khalifa: Yawm Al-Din. A woman: Just the word "judgement." Dr. Khalifa: Din.

1:07:48

In the Quran, yeah. A woman: But in the language you were talking about, the judgment.

1:07:56

Dr. Khalifa: But that will be not the context of the Day of Judgment, even in the Bible.

1:08:03

Judgment in the Bible, most of the word, the usage of the word Judgment in the Bible means punishment.

1:08:10

In the Bible. It's not a day of punishment. It's a day of receiving recompense, or paying for your sins, either way.

1:08:33

Dr. Khalifa: No, but the Day of Judgment in the Bible is not the same way as the word "judgment" throughout the Bible.

1:08:39

We have two usages of the word judgment in the Bible. But I'm for using the same terms in the Bible. I'm trying to harmonize the Bible and the Quran.

1:08:51

Not the other way around.

1:08:58

What would the day of religion mean?

1:09:05

Dr. Khalifa: (unintelligible) if you use the... No, that's not what it says, no.

1:09:14

Would you like tea/tee? You do? You play golf a lot?

1:09:20

So, why do you like it, then? I'm talking about golf. Tee.

1:09:26

You tee off in golf? That's it?

1:09:32

Well, I'm asking you. I'm asking you. I used the same word. A woman: You said "do you like to tee off?"

1:09:38

A woman: I would have understood exactly what you meant. Dr. Khalifa: Yes. Dr. Khalifa: Well, I was deliberately vague.

1:09:44
A woman: No, I get your meaning that there are... Dr. Khalifa: You never play golf, yet tee/tea is okay.

1:09:52
Dr. Khalifa: Let me think of something else. A woman: No, no, I know what you mean. Ambiguity of language, certainly, or double meaning.

1:09:58
Dr. Khalifa: Multiple meanings. Yes. A woman: Yeah, but it just seems to me that this particular word, in Arabic, is the only time that means judgement in both expressions of the Quran.

1:10:07
Dr. Khalifa: No, that's not true, yeah. This is what I'm saying. There are places in the Quran where it is clear. I'll find them for you.

1:10:15
But I wanna find the English expressions that are in multiple meanings. A woman: In Arabic language, the only place where this word is translated as judgement is in this expression.

1:10:29
Dr. Khalifa: Yeah, but the Quran is the Arabic language. A man: But you can play also that (unintelligible) Day of Judgement.

1:10:34
Dr. Khalifa: This is the Day of Reckoning. A man: Yeah. Dr. Khalifa: The Day of Reckoning. A man: Yes.

1:10:40
Dr. Khalifa: It's different. (Unintelligible) Dr. Khalifa: No, what does the Day of Religion mean?

1:10:46
Edip: It has no meaning. Dr. Khalifa: Right. Edip: Yes, it has no meaning. See. So, therefore, this is not... if you say "I drink... I tea off at the golf", meaning you put a cup of tea on the thing and you hit it with a club,

1:10:59
Dr. Khalifa: you know, that would be the wrong usage. Edip: Yes. Dr. Khalifa: So, if you say the Day of Religion, it would be like that.

1:11:17
A woman: ...It means you disbelieve in the religion. The day of the religion, the day when your religion (unintelligible) is (unintelligible). I mean, I can understand (unintelligible).

1:11:30
Dr. Khalifa: So, why don't you use the Day of Judgement? Dr. Khalifa: So, why not use the Day of Judgement? A woman: Because it is not an accurate translation.

1:11:38
Dr. Khalifa: No, it is. Yeah. Dr. Khalifa: It is not accurate to say Day of Religion. A man: I don't know Arabic, but you know Arabic, right?

1:11:47
A man: But when you read that, it's probably (unintelligible).

1:11:52
If you understand the Arabic so when you say that you translated it literally, for example

1:11:59
(unintelligible) because you also know the Arabic, but we don't know the Arabic If you put something, when you're making a translation, if you put it literally, okay, we may not get the meaning in the other languages.

1:12:12
But you can because you also know the original. A man: I don't know if you actually get the...

1:12:18
Dr. Khalifa: Yes, this is true in some other places. But this happens to be the literal translation of Yawm Al-Din is the Day of Judgement.

1:12:25
I'm still thinking of English equivalents. Huh?

1:12:32
Yeah, what does... A man: Separate meanings. Dr. Khalifa: Yeah.

1:12:38
Okay. Let's find simpler words. Think of multiple-meaning English words.

1:12:46
That's a good one. This is a good one. Come on, Lydia.

1:12:51
Give us multiple-meaning English words. Like tea/tee.

1:12:57
Lydia: Read/Red Lydia: Read a book. Dr. Khalifa: Yes. Read/Red. Edip: Sea/See, Rashad. Dr. Khalifa: Yes, very good. Red/Read.

1:13:04
A woman: Sea, like the ocean Dr. Khalifa: Sea/See. Sea, the ocean and see with your...

1:13:09
Edip: In translation. A man: (unintelligible). Those are spelled differently. You know like, See/Sea is S E E and S E A. Dr. Khalifa: Yes.

1:13:17
A man: Read/Read/Red is spelled differently. Dr. Khalifa: Yes. No, I want words that spell exactly the same way.

1:13:23
A man: Read and Read. Dr. Khalifa: Yes. A man: (unintelligible). Dr. Khalifa: Right. A woman: But they're a bit ambiguous in a sense since one of them is noun and one of them is verb.

1:13:33
A man: Well, to an extent, there's a word like (unintelligible).

1:13:39
A woman: It doesn't matter. I didn't mean... I don't dare to... How about meet? Okay, meet.

1:13:46
Dr. Khalifa: Is there a word that meet a judgment? A man: Yes. "Meet" means fair or just. It also means, you know, to meet, to encounter.

1:13:56

Dr. Khalifa: Is it M-E-E-T, both of them? A man: Yes, they're both M-E. Dr. Khalifa: Okay. A man: Although MEET is equitable to fair is not used anymore.

1:14:04

A woman: It's very archaic. That's very archaic.

1:14:10

Dr. Khalifa: Well, this is 1,400 years old Arabic. A man: Okay.

1:14:17

Edip: I'm going on, people. Dr. Khalifa: Yes. Edip: Chapter 83.

1:14:23

The Cheaters Bism Allah Arrahman Arraheem [83:1] Woe to the cheaters.

1:14:29

[83:2] Who demand full measure when receiving from the people. [83:3] But when giving them the measures or weights, they cheat.

1:14:38

[83:4] Do they not know that they will be resurrected?

1:14:43

[83:5] On a tremendous day? [83:6] That is the day when all people will stand before the Lord of the universe.

1:14:54

[83:7] Indeed, the book of the wicked is in Sijjeen. [83:8] Do you know what Sijjeen is?

1:15:00

[83:9] A numerically structured book. [83:10] Woe on that day to the rejectors.

1:15:06

[83:11] They do not believe in the Day of Judgment. [83:12] None disbelieves therein except the transgressor, the sinful.

1:15:15

[83:13] When our revelations are recited to him, he says, "Tales from the past!"

1:15:21

[83:14] Indeed, their hearts have become shielded by their sins.

1:15:27

[83:15] Indeed, they will be isolated, on that day, from their Lord. [83:16] Then they will be thrown into Hell.

1:15:35

[83:17] They will be told, "This is what you used to deny."

1:15:52

Here, God blames those people who cheat people and this is an example of cheating, but you can,

1:16:11

you can, from this example, you can derive many other examples.

1:16:19

And God reminds them the Day of Resurrection because they will be (unintelligible) from their every minute acts.

1:16:32

And that day, the Lord of the universe only be the Judge.

1:16:41

And in verse 9, we see a description of Sijjeen, a book of the wicked people that's called Sijjeen.

1:16:55

It's a numerically structured book.

1:17:00

And God says "whenever they hear the revelations or the signs or the miracles recited to them,

1:17:10

they say, "Tales from the past."

1:17:19

It's noteworthy that for the miracle 19, in Turkey, they published a book that they criticized. They object (to) this miracle.

1:17:35

The name of the book was "Tales from the past."

1:17:40

The name of the book. And "19; Tales from the past."

1:17:49

AFSANE Do you know word AFSANE? Yes. And they just use the same expression that's described in Quran.

1:18:00

In Turkey, we have many words to condemn miracle 19.

1:18:05

They have many words. But they're stuck just in this unique expression that's prophesied in Quran.

1:18:16

It's a prophecy of Quran. I think in verse 13, "When our revelations", instead of "revelation", if a word that has double meaning used would be better.

1:18:33

Edip: Because in Quran, in original text, word AYAT has been used, which means either miracle and revelations, both of them. Dr. Khalifa: Miracles.

1:18:46

Edip: include miracle and also revelations, but in English, it becomes narrow.

1:18:57

And let's go. There is an interesting difference between righteous people and wicked people on the Day of Judgment

1:19:08

in connection with the books, Sijjeen or Elleyyeen. Let's go on. I'm verse 18.

1:19:15

[83:18] Indeed, the book of the righteous will be in 'Elleyyeen. [83:19] Do you know what 'Elleyyeen is?

1:19:22

[83:20] A numerically structured book. It is the same book.

1:19:27

The description is the same, Elleyyeen or Sijjeen, but it's different.

1:19:32

For the wicked people, a book called Sijjeen. But God says "what is Sijjeen?"

1:19:38

[83:9] A numerically structured book. And for the righteous people also, there is a book called "Elleyyeen." The name is only different, but the description is the same.

1:19:48

[83:20] A numerically structured book. (83:20) **كِتَابٌ مَّرْقُومٌ**

1:19:54

Let's go on to find an answer to our question. [83:21] To be witnessed by those close to Me.

1:20:02

[83:22] The righteous have deserved bliss. [83:23] On luxurious furnishings they watch.

1:20:08

[83:24] You recognize in their faces the joy of bliss. [83:25] Their drinks will be spiced with nectar.

1:20:15

[83:26] Its spice is like musk. This is what the competitors should compete for.

1:20:22

[83:27] Mixed into it will be special flavors. [83:28] From a spring that is reserved for those close to Me.

1:20:30

[83:29] The wicked used to laugh at those who believed. [83:30] When they passed by them, they used to poke fun.

1:20:38

[83:31] When they got together with their people, they used to joke. [83:32] Whenever they saw them, they said, "These people are far astray!

1:20:46

[83:33] "They have no such thing as (invisible) guards." [83:34] Today, those who believed are laughing at the disbelievers.

1:20:54

[83:35] On luxurious furnishings they watch. [83:36] Most assuredly, the disbelievers are required for what they did.

1:21:07

And now I'm going back on verse 19 and 20.

1:21:14

And I repeat my question to you. Can you notice the difference between Elleyyeen or Sijjeen that's described in verse 7?

1:21:25

What is difference?

1:21:32

Excuse me? Yes.

1:21:39

What? Where? Where? Oh.

1:21:46

Why do you add three of them? You can add four or...

1:21:56

The description is the same. Yes. A man: One interpretation is probably (unintelligible) talking, to be spoken to hear it one sense of (unintelligible) in terms of doing business.

1:22:15

In one sense, a very structured book is a person keeping records of what sort of money he'd

1:22:21

be taking in and what he'd be paying out, and things like that. He'd certainly be an idol. In his entire life, he'd be worshipped.

1:22:29

But in another sense, Elleyyeen, of course, refer to miracles God.

1:22:37

We know He exists today. Or in another sense, it's just a literal application of the individual person.

1:22:54

Edip: Thank you. Edip: I have a comment on this, or understanding. In verse 20 to 21, Allah, God describes the difference.

1:23:06

The difference is, righteous people could read Elleyyeen, their book, their numerically structured book. They can read.

1:23:15

[83:21] To be witnessed by those close to Me. But wicked people, they cannot understand. They cannot read numerically structured book.

1:23:23

Their book will be written in numerical code. Their deeds will be recorded in numerical code. They are not familiar with this.

1:23:33

In this world, they always deny, used to deny, to object this numerical code.

1:23:40

But believers, they are familiar, they can read. And this is the only difference here.

1:23:46

Dr. Khalifa: I thought you'll say something else. I thought you were gonna say something else. So, I will say it. I think the numerically structured book is the Quran.

1:23:54

Dr. Khalifa: But the wicked will call it "tales from the past", and the righteous will be able to see it. Edip: Mā Shā Allāh. "numerical structured book" is the Quran, explained.

1:24:01
Dr. Khalifa: Because God uses the same word as the elite of the elite. Al-Muqarrabun (الْمُقَرَّبُونَ), those who are close to Me.
1:24:07
He said "only those, only the elite of the elite, will be permitted to see the miracle of the Quran.
1:24:12
It's right here. Only the elite of the elite will be able to see it.
1:24:18
Dr. Khalifa: It's a physical miracle. Edip: Mā Shā Allāh. Yes. Edip: It is Quran, Rashad. Dr. Khalifa: But the definition in 9 and in 20, same, same description. "A numerically structured book."
1:24:33
The wicked will call it "tales from the past", and the righteous will witness it. Edip: Mā Shā Allāh.
1:24:39
Dr. Khalifa: You agree, eh? Edip: Good. Edip: Just wonderful. Mā Shā Allāh. Yes. Edip: It solves all things, Mā Shā Allāh.
1:24:48
Dr. Khalifa: It's the same book, but also this ties in with the verses that you know, where it says that the Quran increases their wickedness.
1:24:57
Or in other places, the Quran causes them to plunge deeper in disbelief.
1:25:03
Edip: Their book, they record also in Quran, Rashad. Quran describes all offenses and their punishment.
1:25:09
Dr. Khalifa: Yes. Edip: This is their book, our book, also. Yes. Dr. Khalifa: Exactly. Yes. Dr. Khalifa: Yes, go ahead.
1:25:16
Dr. Khalifa: No. Dr. Khalifa: But it necessarily refers to the Quran.
1:25:23
Edip: No, no, necessarily refers to Quran, yes. Edip: Mā Shā Allāh. Yes. Good.
1:25:29
Because there is difference. Only difference, righteous people can understand this. The other will say "tales from the past."
1:25:37
Dr. Khalifa: You know how the disbelievers say "the Quran is full of Hell and fire and brimstone?" Well, that's what they see.
1:25:46
But it is, as you know, half and half. So, it depends on which half you see.
1:25:52
Edip: Mā Shā Allāh. Dr. Khalifa: Oh, we better quit.
1:26:00
Edip: And let's go on. I have another.... Edip: No, no, no.
1:26:05
Edip: On this Sura, verse 29, they used to laugh at believers, but now, do they laugh at us, Rashad?
1:26:19
Dr. Khalifa: Sure do. Edip: They must be more crazy. They do not laugh too much.
1:26:26
It is interesting. Dr. Khalifa: Yes, they do laugh at the believers.
1:26:31
Edip: Ok. Let's go. Dr. Khalifa: But we will laugh at them for eternity. Dr. Khalifa: Thank you very much. God bless you. Good job.

18 Quran Study From Behrouz 818 Sura 61 & Sura 87 & Sura 94 By Rashad Sura 81 By Edip No 8

Dr. Khalifa: You see this word only for prophet. This is a clue that it's just a... the lesson to learn from it as a history, as a historical event.
0:07
The thing that happened during the Prophet's time. Because they needed those rules also in those days, for a few hundred years.
0:16
That these rules apply, applicable to war specifically. In our case, we derive the general principles.
0:25
Right? Why would women or men secretly do this? A man: Well, I'm just saying, it would be like, first of all, (unintelligible).
0:34
Saying, you know, (unintelligible). Dr. Khalifa: No, okay, I understand now what you're saying. See, verse 12 is the testing process.
0:46
This is how you test them. This is the title of the Sura. Tested woman.
0:52
So, if a woman comes and joins the believers in war, this is how you test them.
0:58
You make them pledge that they will not idolize... where is it? Never set up idols besides God, nor steal, nor commit adultery,
1:06
nor kill their children, nor invent any falsehood. Nor disobey the Prophet's righteous orders.
1:13
So, this was the testing process. Which criteria? How do you test them? This is how you test them.
1:20
"Do you pledge you'll never set up idols beside God?" "Yes." "Do you pledge you'll worship God alone?" "Yes." (unintelligible)
1:25
So, this is how we decide not to send them back to disbelievers in the case of war.

1:32
Philip? Philip: I think I got my answer. Dr. Khalifa: I'm glad you brought that up.

1:37
This is a very important statement because it says "o, you prophet..." And as you know, the Sunnis claim that you must obey the Prophet, whatever he says.

1:47
This tells us that not all his orders should be obeyed, only his righteous orders.

1:54
Or the good things that he says. That he can say wrong things.

2:00
And I have this in the book Quran, Hadith and Islam. It is one of the strongest proofs against Hadith and Sunnah.

2:10
Dr. Khalifa: Was that your question? A woman: Yes. Dr. Khalifa: Very good point. I wanted to test this, but unless it came out.

2:18
It is, it is Sura 61.

2:23
Dr. Khalifa: The Column A woman: The Column A woman: In the name of God, Most Gracious, Most Merciful.

2:30
[61:1] Glorifying GOD is everything in the heavens and the earth. He is the Almighty, Most Wise.

2:36
[61:2] O you who believe, why do you utter what you do not do yourself? What? Dr. Khalifa: It's like the invention of Hadith.

2:43
And the list of prohibitions and lies about God.

2:52
What's more, the fellow who came to save me, his wife, you could see only her glasses.

2:59
She was completely covered. And she would not utter a voice because they teach them that the voice is like getting naked. Tyrannical dress code for woman.

3:08
That's what they teach them. So, she just couldn't talk.

3:15
Yes. Completely covered. It was hot on that day. It was 95 or something outside.

3:22
This is really mistreatment. So, this is inventing lies because her husband told her that this is the way you're supposed to dress.

3:34
"Who is more evil than one who invents lies about God?" And he's telling her "God tells you this is the way you're supposed to dress."

3:41
So, it's unfair. It's so unfair.

3:47
A woman: Okay. Verse 8. Dr. Khalifa: Right. Go ahead.

3:52
The miracle of the Quran is coming out. John. John: God is mentioning the number 19.

4:00
One of the greatest miracles in the Quran. And they can speak the language that the Quran was revealed in their own language. They can't see it.

4:10
Dr. Khalifa: Yeah. They were stuck in the first letter of the Qur'an. B, B, B, B, B, B

4:19
John: Ba Dr. Khalifa: They didn't go to the S. And while stuck in the B,

4:25
God put (unintelligible) them under their feet and turned the miracle into numbers, completely.

4:31
So, now they're stunned. They really are. They didn't know what to do. They're completely silent.

4:39
Not a sound. Cause it's utter silence. After all these numbers came out at this time.

4:46
So, this is a perfect example of God perfecting His light. Also, it has to do with verse 9.

4:52
Because I assure you the whole world will be Muslim in about 50 years. Because of the mathematical facts that are coming out of the Quran.

5:04
So, as pioneers, you better familiarize yourself with these physical facts.

5:09
You see these numbers of the verses in the... Look at the page. Page 396, for example. You see verses 1 to 14.

5:19
In one of the mathematical miracles of the Quran, you put these numbers 1, 2, 3 next to each other.

5:25
Somewhere in the line. These numbers put next to each other at the very...

5:30
They complete number is a multiple of 19. The number of digits themselves is a multiple of 19.

5:36
So, these are the factors that will make Islam prevail over all religions.

5:43
Just give the America 50 years and the whole world will be Muslims. I'm talking about true Muslims.

5:49
And this journalist keeps writing that these are the true right Muslims.

5:56
She repeated it so many times in the newspaper. We didn't tell her that. She just did it on her own.

6:02
No. She just invented the name on her own.

6:08
(unintelligible).

6:15
Dr. Khalifa: No, because Muhammad is a messenger, too. A prophet and a messenger. But more important is that God didn't say whose name is Muhammad.

6:23
A man: Why? Dr. Khalifa: Why? Dr. Khalifa: Because Muhammad's name is mentioned in there. A man: This is referring to you.

6:33
Dr. Khalifa: You have to look up the mathematics in the appendix. It will be coming in the new translation.

6:39
Because there are many mathematical relations here. There's just no time to mention all of them.

6:44
And they will be detailed in appendix 2 of the new translation.

6:53
Yeah, verse 13 is telling us that you don't have to wait for the Day of Judgment to enjoy the benefits. God's protection, Invisible Giants, "Scheming against you".

7:00
You can enjoy the benefits now. You have a perfect life now.

7:06
Guaranteed victory, health, wealth, here, in this life.

7:12
That's very important. And I think, again, we're not speculating. We're living this experience.

7:19
We know that I published all over the Muslim world that Hadith is satanic innovations.

7:26
And I have it printed here since 1982, in the Brown Book that is widely distributed.

7:34
It's been summarized in many newspapers and criticized and reviewed. But what happened to Salman Rushdie didn't happen to me.

7:44
Because he's... You see, he's in hiding. He's afraid. He has all these people up in arms.

7:52
And he didn't say half as much as I did. So, but, I mean, we live these experiences, because God's Word is true.

8:02
How do you explain that? Except by the Word of God. We have to thank God, Alhamdu Lillah.

8:09
You don't (unintelligible) any ideas. However, it doesn't matter, even if you get ideas.

8:16
Remember that you have an invisible giant standing next to you.

8:22
And it's not just a giant. It's a giant who can hold the whole earth in one hand.

8:27
So, if somebody's plotting against you in Stockholm, Sweden, your giant will be there

8:34
taking care of them, just as they plot and scheme. It is true, you better believe it.

8:40
Because it's mathematically proven in the Quran. And this is the importance of verse 13.

8:47
We're told that you do your part. And your part in 11 is you believe in God and His Messenger and struggle in the cause of God with your properties and your lives.

8:58
This is your part. Getting up for the Morning Prayer before sunrise, this is striving. Tests explained i.e. Job.

9:05
You dedicate, you devote yourself to God. That's your part.

9:10
Now, God's part is overwhelmingly far better than our part.

9:17
Because God will give you eternal happiness. And then verse 13 tells you "this begins here and now." Now or forever.

9:25
Back to verse 14. No, that's not what I'm talking about. That's not what this verse is talking about.

9:32
It happens automatically. All your resources, everything will be dedicated to God.

9:39

What happened with Job was Satan said that if You take Job's properties, he will blaspheme against You.

9:46

Job and Solomon are mentioned together as the two extremes of testing.

9:51

And again, this is something that doesn't happen now. It's a new era. But it's an example of testing and believing in God under all circumstances.

10:01

Being devoted to God under all circumstances. So, striving with your life and your properties in the cause of God, it's something that happens automatically.

10:10

Upon understanding who God is and why you are here and where the provisions come from.

10:18

They belong to God anyway. It's an extreme example of tests that was OK in those days.

10:30

He was restored anyway. Everything was restored and twice as much.

10:35

So, this is to make us understand when we lose something small.

10:43

As much. But everything will be restored and twice as much.

10:49

Because Satan may say "Robert will blaspheme if you destroy his car against You."

10:57

And God will tell Satan "OK, go get his RX-7, but you cannot touch him."

11:04

So, he took your RX-7, but he couldn't touch you. That was a miracle, by the way.

11:12

I mean, Robert's car was forced under a truck. And after he left the car, he wondered how he was alive in there.

11:18

That was really miraculous. And this is a perfect example. So, what happened to you is what happened to Job.

11:27

And, of course, God gave you a better car later on.

11:34

Yeah, you think how it came to you? It has to be God who gave you that.

11:40

That's a perfect example. You like your new car better than the RX-7?

11:46

Robert: Wow. See? It's exactly Job's story.

11:54

Dr. Khalifa: Any other questions? A man: Yes. A man: أَعُوذُ بِاللَّهِ مِنَ الشَّيْطَانِ الرَّجِيمِ

12:01

Bism Allah Arrahman Arraheem We seek refuge in God from the rejected devil. In the name of God, Most Gracious, Most Merciful.

12:09

We are tonight, IN SHAA ALLAH, it's gonna be in Sura 87.

12:14

Entitled "The Most High."

12:20

[87:1] Glorify the name of your Lord, the Most High. [87:2] He creates and shapes.

12:30

[87:3] He designs and guides. [87:4] He produces the pasture. [87:5] Then turns it into light hay.

12:39

The title of this Sura is The Most High. And we see in verse 1 that we are commanded to glorify the name of God, the name of our Lord.

12:57

And this is a reminder also, which I think is never enough.

Follower talks about evolution.

13:04

We have to keep reminding ourselves that we have to remember God every chance we got.

13:13

There was a very good explanation. And when I watched that program, I said "I wish Rashad was there to explain this thing" because

13:22

there was one moment where one professor of biology from University of California sat in front of this group.

13:31

And this group of Institute of Creation Research was represented by one PhD also in biochemistry,

13:37

graduated from the same school Rashad graduated from, University of California, Riverside. So, it was very interesting, but

13:42

he brought the argument up to the point that he couldn't further it. But if he had heard that, what Rashad gave in the Khutba, that would be very interesting.

13:51

Because, at one point, that professor of biology from UC Berkeley said "we are 99% similar to the apes."

14:01

That's what Rashad mentioned also. 99% and that's very close, you know.

14:07
But we know that based on what we learned here, 99% similar means there is 1% difference.

14:19
And 1% difference represents 1% of 300 billion nucleotides that form the genes.

14:26
Which they say that the evolution says the same. And that is 3 billion.

14:31
And you have 3 billion combinations. And we know that 84 combinations is zero. The probability is zero that you have a certain combination having 84, you know, items.

14:41
And we have... we are talking here about 300, not 300, 3 billion nucleotides.

14:47
And so based on theory of probability, that's zero. But unfortunately in that program, this PhD from UC Riverside didn't say that.

14:59
He just said "well, you know, there's still a chance and this and that." So basically, I would say that this discussion will be further, you know, in the future that

15:07
God willing, most people will grab the idea. And they will see that even though the evolution is also a fact, because God says, and we learn from the Quran, that God creates.

15:19
And in terms of our scale, then the creation undergoes evolution.

15:24
And this will merge the two theories and will bring the Quranic light into the discussion of creation and evolution.

15:36
[87:2] He creates and shapes. He shapes because God knows the need of every individual, every living being that He creates.

15:49
One example that was shown in that program was there was a species of bird who lived in a remote island.

15:56
And eventually evolved into many different, you know, within the same species, they look different.

16:02
The beak, one of them is longer, one of them is shorter. The longer beak because they need to get, you know, the nectar from the flower and all that.

16:09
So, they say "they evolve according to the need." But we know that God knows the need of each individual.

16:14
And then He creates over time the changes in that shape of the beak, for instance.

16:21
And so, when we see that example, you know, we wonder about that example and we say "well,..."

16:28
Immediately, we remember God. And we go back to the first, before that, verse number one, we glorify God. We say "Alhamdu Lillah. Subhan Allah."

16:35
When we see that program. But most people who believe in evolution, who do not believe in God, they say "well, it evolves.

16:41
The brain or the bone in the back becomes smaller and smaller and smaller. And over 1,000 years or 10,000 years, it becomes, you know, smaller and the jaw becomes larger and all that."

16:52
But we know that all that is designed by God. And we say "Alhamdu Lillah."

17:00
Edip, say something. He's facing you now, so you have to say something.

17:08
"Overwhelming." This is the title of Sura 88. In the name of God, Most Gracious, Most Merciful.

17:16
[88:1] Are you aware of the Overwhelming? [88:2] Faces on that day will be shamed. [88:3] Laboring and exhausted. [88:4] Suffering in a blazing Hellfire.

17:28
[88:5] Drinking from a flaming spring. [88:6] They will have no food except the useless variety.

17:35
[88:7] It never nourishes, nor satisfies hunger. [88:8] Other faces on that day will be full of joy. [88:9] Satisfied with their work. [88:10] In an exalted Paradise.

17:47
[88:11] In it, no nonsense is heard. [88:12] In it, a spring flows. [88:13] In it, there are luxurious furnishings.

17:53
[88:14] And drinks made available. [88:15] And pitchers in rows. [88:16] And carpets throughout.

18:01
[88:1] Are you aware of the Overwhelming? This is another word or term that is used in the Quran to describe the Day of Judgment.

18:11
We've seen in the previous Suras. I think we can go back, even though we have done it probably two weeks ago.

18:17
I can quickly go back to Sura 82, 81. I think 81 and 82 started with the description of the Day of Judgment. 82 says,

18:30

[82:1] When the heaven is shattered. [82:2] The planets are scattered. [82:3] The oceans are exploded. [82:4] The graves are opened.
18:35

[82:5] Every soul will find out what caused it to advance, and what caused it to regress.
18:40

Similar expression in Sura 81. [81:1] When the sun is rolled. [81:2] The stars are crashed into each other. [81:3] The mountains are wiped out.
18:48

[81:4] The reproduction is halted. [81:5] The beasts are summoned. [81:6] The oceans are set aflame. These are all overwhelming.
18:54

I mean, these are heavy events.
19:00

And this will happen in front of everybody. In other words, there will be a real terror on that Day,
19:10

a real terror for most people. It's a real terror, except for the believers. Because God says that He will send the angels to protect the believers from the event of that Day.
19:18

But this is the beginning of the Day of Eternity. So, this is the day that will have no end. This is the day that will have...
19:29

How would I say it? An Eternal Day. So, there is no end to it. It started with all this destruction of the universe.
19:36

As we know from all these verses I read from 81 and 82, what happens would be the implosion of the universe.
19:43

Now, we know the universe started with a big bang. And we are now still "explode."
19:49

We are moving away from each other. I mean, we are in the same solar system.
19:57

And the solar system is part of the galaxy. But the galaxies are actually moving away from each other.
20:03

Because we are now still, if we think of a bubble, of a balloon, we are riding in the skin of balloon.
20:10

And as the balloon is, you know, being...we blow into the balloon, the balloon is getting bigger and bigger. And every point in that surface is getting farther apart.
20:18

On the Day of Judgment, the opposite will occur. Everything will come back as if somebody is pulling it and will crash, you know.
20:24

We will crash into each other. And that's why the stars crash and the sun is rolled and the planets disperse.
20:31

Those are all the descriptions of the Overwhelming. Ocean explodes or ocean is set aflame.
20:39

I remember something that I read from a geology book recently.
20:50

That in 1883, most of you probably have heard of Mount Krakatoa.
20:56

It is actually a small mountain in the middle of the sea, really.
21:03

But when it exploded in 1883, the whole caldera collapsed. And we know what a volcano is. Volcano is
21:09

actually a plug to the hot magma chamber. So, when a volcano forms, it really actually separates the magma chamber from the surface.
21:20

So, when that mountain exploded, the whole thing collapsed. And
21:26

millions of tons of seawater comes straight into the magma chamber. And the result is a tremendous explosion that was heard 5, 6 thousand miles and caused 3 years of winter in the northern hemisphere.
21:41

It's a very tremendous occasion. The Day of Judgment will be like, God says "the mountains are all wiped out."
21:47

So, it will be Krakatoa on the grand scale. I mean, the whole universe.
21:52

I mean, we're not talking just about the earth, but actually this is the whole universe. A man: About verse 17, I was watching a program on television entitled "Ship of the Desert."
22:01

Some of you all may have seen it. I'd like to share some of the characteristics of the camels. It's fascinating.
22:07

One of the reasons why people suffer or die in the sand or desert is because they can't step.
22:13

You can't put your feet on anything solid. Every time you step, your feet, they just sink in the sand.
22:20

So, Allah constructed the shape of the camel's foot so when he steps, his feet do not sink
22:26

in the sand, but they actually lay on top of the sand a few seconds to give him the stability or the animal the stability to walk.
22:34

That's one attribute of the camel in terms of the shape of its feet. Another one is that during a sandstorm, a camel can close its notched nostrils so no sand will bleed in its nose, and

22:47

it has an alternative air source. So, you know, here we are out here and we've got these devil storms and sand storms and we're rolling up windows on cars, and all a camel does is this.

22:58

It just keeps going, you know. A man: Without a finger. A man: Right, without the fingers, I mean, you know, without fingers, and you know,

23:05

sitting up, you can't help but feel humble while watching this program, it's just incredible.

23:10

And so it closes its nostrils. Everybody else is taking blankets and everything, covering themselves.

23:17

Another one is that the hair on the body is primarily just a little hair over the top and right over the sacks,

23:24

to reflect some of the heat, to prevent the water from evaporating.

23:30

So, these are some of the characteristics, and now people have these land rovers.

23:35

I mean, can you think of all the mechanical engineers who were trying to design vehicles to go long distance over the deserts?

23:42

No one can design like Allah. Camel closes its nostrils, able to put its feet around, and what have you.

23:50

I thought I share, it was fantastic, watching that. A man: I think there was another thing about the camel's milk.

24:00

A man: How much you know about it? A man: Yeah, the milk, when the camel dehydrates,...

24:05

(unintelligible) It takes about 57 days for the camel to be without water.

24:15

And when it dehydrates, every animal, like cows, for example, when they dehydrate, you take their milk,

24:23

the milk is so salty and it's undrinkable after it's dehydrated.

24:30

But the camel's milk stays the same from the first day to the fifty seventh day, the milk, the condition of the water, the nutrition, always the same.

24:41

Also, when it dehydrates, all animals, when they dehydrate, if we take water, when we take food,

24:50

the cell cannot hold all that water at the same time. The cell is gone, and you will die unless you take water slowly.

25:00

The camel can take 400 gallons of water, and the cells will come back better than the way they were.

25:08

Well, so, (unintelligible).

25:15

A man: Is there anybody here? (unintelligible) No?

25:25

A man: Okay, the camel is the only animal whose milk, when the animal dehydrates, like the cows or something,

25:37

their milk becomes salty, so salty, you cannot drink it.

25:42

But the camel's milk, the content stays the same for 57 days.

25:50

I guess that's one of the reasons that it lasts 57 days.

25:55

So, for a long period of time, still, you drink the milk.

26:01

The other thing, almost the same.

26:07

When we dehydrate, if we drink water real fast, then our cells will explode because they cannot take the water.

26:16

But the camel is not like that. They... God designed in such a way, even when the animal dehydrates, can drink as much as 400 gallons of water and

26:31

these cells will be in the same shape with all the water.

26:37

So, that's why God mentioned camel. That's also a scientific miracle, because they didn't know anything about the camel.

26:50

The only thing you know is that camel can go over the desert. But they didn't know so complex things about the camel at that time.

27:05

Any other comments? Edip, do you have a comment?

27:38

89. "Dawn" In the name of God, Most Gracious, Most Merciful.

27:45
 [89:1] By the dawn. [89:2] And the ten nights. * [89:3] By the even and the odd. * [89:4] By the night as it passes.
 27:52
 [89:5] A profound oath, for one who possesses intelligence. Again, we see here that the dawn, the ten nights, the even and the odd, by the night as it passes. These are all, this is a profound oath.
 28:06
 God is making an oath by all these things that He created.
 28:11
 But we know that the dawn is sure to come. I mean, every morning, it will never fail. It will come and sun will rise and then will set and come again.
 28:23
 That's one thing that we can take for granted that, you know, this is 5 o'clock tomorrow morning, the sun will rise.
 28:31
 And during the winter months it's probably 7 o'clock. People have means to calculate that by now.
 28:41
 The ten nights, these are the last ten nights of Ramadan as we see in the footnote,
 28:46
 wherein many believers retreat to the mosque. Sura 2, verse 187.
 28:59
 These are, you know, in Sura Al-Baqarah. These are, of course, that talks about the fasting that is instituted
 29:07
 by God since Abraham, then, we find in the Quran to allow intercourse between the spouse during the night of Ramadan,
 29:17
 except when one decides to retreat to the mosque during the last ten days of Ramadan.
 29:23
 So, we know that the ten nights is the last ten nights of Ramadan.
 29:29
 The even and the odd, we are talking here about mathematics as we know the proof that God
 29:35
 has chosen to use to prove His word is through mathematics.
 29:40
 Even and odds are numbers. We are talking about the numbers. And number 19 is the number that proves that the Quran is the word of God.
 29:49
 And therefore, the oath by this, even and the odd, these are all numbers that constitute
 29:56
 you know, mathematical structure and composition of the Quran.
 30:03
 Indeed, this is an awesome oath. [89:4] By the night as it passes. So, we know why this is a profound oath.
 30:12
 God says that for people who possess intelligence, people who dare to use their thinking to think about the Creator
 30:21
 and find that there is a profound proof behind it. Then, these are people who possess intelligence.
 30:28
 [89:6] Have you noted what your Lord did to 'Ād? [89:7] Erum; the town with tall buildings.
 30:34
 [89:8] There was nothing like it anywhere. Number 9, [89:9] Also Thamūd, who carved the rocks in their valley.
 30:41
 [89:10] And Pharaoh who possessed might. [89:11] They all transgressed in the land. [89:12] They spread evil throughout.
 30:48
 [89:13] Consequently, your Lord poured upon them a whipping retribution. [89:14] Your Lord is ever watchful.
 30:55
 15, [89:15] When the human being is tested by his Lord, through blessings and joy, he says, "My Lord is generous towards me."
 31:02
 [89:16] But if He tests him through reduction in provisions, he says, "My Lord is humiliating me!"
 31:08
 [89:17] Wrong! It is you who brought it on yourselves by not regarding the orphan. [89:18] And not advocating charity towards the poor.
 31:16
 19, [89:19] And consuming the inheritance of helpless orphans. [89:20] And loving the money too much.
 31:25
 So, we've seen here the history of the previous generations, what they did and what the consequences that they received from God.
 31:38
 One thing that is interesting to me is, Pharaoh is mentioned in the Quran many times.
 31:44
 But I think, I haven't done a serious research on this, but I think 'Ād and Thamoud is mentioned very often.
 31:50
 Almost, you know, every time there is a mention of the previous generation, there is 'Ād and Thamoud. And we also know for instance Sodom and Gomorrah, you know, the people of Lot.
 32:01
 They're also mentioned in the Quran but not as often. And I used to wonder about that. And I see that probably, you know, what we see around us happening, you know, tornado, flood, or...
 32:16

these are all that happens to, you know, the people of, you know, 'Ād and Thamoud, earthquakes.

32:22

Something that happens very often that most people don't think anymore as God's retribution. They think this is a natural phenomenon.

32:29

People don't see the parting of the Red Sea anymore, or the city turned upside down.

32:35

But people see tornadoes. People see floods, earthquakes. And I wonder whether that is probably connected to why 'Ād and Thamoud is mentioned more often than others.

32:45

Because these are something that, to us, it is the action of God.

32:50

And things that happens not without any cause, there is.... whether that is probably connected to why 'Ād and Thamoud is mentioned more often than others.

32:59

Because these are something that, to us, it is the action of God. And things that happens not without any cause,

33:07

there is something behind it, why the earthquake happens in the place where the majority of people are idol worshippers.

33:14

I mean, people who are killed in the earthquakes, if we record the number of earthquakes, I have a book.

33:20

How many people killed in this earthquake, in that place. Either they don't believe in God or they are idol worshippers.

33:26

So, that seems to me a reminder that, you know, don't take it for granted. This is a punishment from God.

33:33

Most people don't believe it, but it is. Also, tornadoes and these are things that happened to 'Ād and Thamoud.

33:50

A man: Number 15, and 16, and 17, and on up to number 20 is....

33:58

A woman: It is better when it says "in every situation there is relief." It is a little softer than "with pain, there is gain." However,...

We must give God's commandments priority – everything else is a "waste of time". Happiness explained.

34:06

Dr. Khalifa: I think this is the effect of the gymnasium. A woman: Yeah, "no pain, no gain." Dr. Khalifa: They have a big sign there. Everybody look to "No pain, no gain."

34:16

I can see it now. They affected me.

34:22

A woman: I'll always, I have to confess, think of it as with difficulty there is relief. Dr. Khalifa: That has to be true, though.

34:27

For example, you mentioned the mosquitoes that (unintelligible). us in San Francisco.

34:33

And this happens to be one of the most memorable things that happened because many...

34:38

A woman: (unintelligible). Dr. Khalifa: Number 7 is telling you, you must grab every chance you can get to heal your soul.

34:45

Every chance that has to do with God, you must grab it. You must remember that anything you do in this world that has nothing to do with God is a waste of life.

34:55

It is a terrible waste of time. We do it only out of necessity. The reason we go to work is to make a living.

35:02

But if there is anything that has to do, that does not have to do with God, it's a waste of time.

35:07

So number 7 here, [94:7] Whenever possible you shall strive. It means you must never pass up a chance that you'll strive in the cause of God,

35:17

a Friday Prayer, a lesson, a meeting, a Quranic study.

35:23

This is God's advice to you and me. [94:7] Whenever possible you shall strive.

35:29

You must give God's commandments priority over anything else.

35:35

Then, if you have time, you do the other things, go to work, make a living.

35:42

And God guarantees that you'll make more money if you give up... If you give up an hour of work, for example, for the sake of Friday Prayer,

35:50

God guarantees it in the Quran that if you give up, you'll make more money. So, it should be a material gain as well as spiritual gain.

36:00

God is the only One who dispenses provisions.

36:05

[94:7] Whenever possible you shall strive. [94:8] Seeking only your Lord.

36:12

Fortunately, we are the people who hear this advice. It's other people who need this advice.

36:18

Because we automatically do this. Alhamdu Lillah. 'Alaykum Al-Salaam.

36:24

We have three profound introductions. The day and the night are profound signs, as you know.

36:34

They remind us that the earth is hanging in space. And the male and the female.

36:41

So, these three profound verses tell us that... actually this short Sura tells the secrets of happiness.

36:48

So, it is very important to know which path will lead you to happiness in this world and forever,

36:54

and which path will lead you to misery in this world and forever. So, you see in verse 7, the path to happiness... in Sura 54, if you remember, God says "He directs you to happiness and misery."

37:09

He controls that. And it is now established that mere success does not bring happiness.

37:16

So, your works are of various kinds, and they will lead you to either path, happiness or misery.

37:25

And what I wanted to emphasize is verses 5 and 18. Both of them talk about charity.

37:33

In this short Sura, two verses talk about charity. It's because it's a continuous process.

37:41

Just like we feed, God wants to remind us that just because we continuously feed our body... how many times did we drink today?

37:48

You drank water or coke or something today. You drank. You ate.

37:54

You really take care of your body, your garment. So, God is reminding us to take care of the real person, of you.

38:03

To take care of you is a continuous process, just like the eating and the drinking and the sleeping, and the showering, the things that you do for your body.

38:12

It is a continuous process and like the Five Contact Prayers, continuous process.

38:19

Charity also is a continuous process because you continuously make money.

38:24

And you have to set aside 2.5% for your relatives, your parents, and so on.

38:31

(unintelligible). The three verses, three profound signs. This is common in the short Suras.

38:40

Receive something that's very important. And here the important thing is the secret of happiness.

38:48

Dr. Khalifa: If you do these continuous processes, that develop your soul, God promises you happiness now and forever.

38:56

Edip: So, these three verses are consistent, but in 8, God says in the fourth verse, [92:4] Your works are of various kinds.

39:05

Dr. Khalifa: (unintelligible) Edip: Yes, because (unintelligible) from our life, a good life, and then you are (unintelligible).

39:22

Dr. Khalifa: I think we're getting... I remind myself. I need to remind myself not to be lax in doing it.

39:32

Every time I receive money, I just have to cut out 2.5%. It's a very good investment.

39:38

But the reason God repeats it is because God knows that we tend to forget or neglect to do it.

39:48

We seem to do the Five daily Prayers easily. But charity is something that we tend to forget because we get involved in spending all the money we've got.

39:59

We didn't set aside the 2.5%.

Professional beggars. Do not reprimand the beggar. Charitable Organizations.

40:06

Dr. Khalifa: So, the reason this is... also repetition is psychologically important.

40:14

Dr. Sabahi: This is a comment. Because God knows the human beings (unintelligible) Praying (unintelligible).

40:24

Dr. Khalifa: Circumstances. A man: Yeah. Dr. Khalifa: Sometimes when able-bodied people with perfect qualifications, somehow they just go weeks, maybe months without, without a job.

40:37

It doesn't seem to be able...

40:45

You have to be extremely kind to them. There may be exceptions.

40:51

Some professional beggars (unintelligible).

41:07

Different issue. Maybe. You have to use discretion, except remember, you cannot be suspicious.

41:14

Then, you have to know.

41:34

Tucson is the food bank.

41:39

In Tucson, there's a food bank. But, sometimes you meet these people in the street. They come to your door.

41:46

You have to act. There's a commandment here not to recommend the beggar. So, you'd better be careful. I'd rather be a (unintelligible) than breaking a commandment.

42:01

Right. Right. I mean, this is the least... The least you can do is not reprimand the person

42:08

Because, unless you know personally what he or she is doing.

42:15

You have to start with the surroundings though. So, your parents, your relatives. And if there's somebody here at the mosque that need it, that will, you take priority over...

42:25

A children's organization probably takes a lot of money from United Way.

42:30

And they have a lot of professionals living off of that, too. I investigate. I find that the food bank is very clean.

42:38

They don't have (unintelligible), organizers. And they really do give food to the poor. So, this is...

42:45

But there are some other organizations that take millions of dollars that goes to the children, abused, to the battered wives, abused, this and that.

42:53

United Way pays the millions of dollars. And there are organizers and administrators who take up to 90% of that money.

43:00

(Unintelligible). So, you're paying salaries.

43:11

(unintelligible) A woman: There's nothing wrong with giving that, if you don't use it as, like, over and above Zakat to any of those things.

43:18

Because I give to a lot of animal organizations. But I don't count that as Zakat. Dr. Khalifa: But the system of the Quran is, you start with your own family. Then, you go further and further.

43:27

Priorities are stated in the Quran. It is something that...

43:40

This is your family...

43:49

Dr. Khalifa: Ok. I'm glad you brought this up. Some people think that this was directed to Muhammad personally.

43:55

Because of "your Lord will give you..." [93:7] He found you astray, and He guided you.

Verses explained "we found you astray".

44:03

You will not get the Mohammedans to confess that he ever was astray.

44:11

Ahmad Rayan is laughing because I had my father, he was for 4 months here and I wanted him to say it

44:19

"Muhammad was astray" and he wouldn't say it. We had a lot of funny encounters.

44:26

Because when I showed him all the other verses showing that Muhammad did make mistakes, he would say "ok"

44:32

"So, he was astray." And then five minutes later he changed his mind. So, we...

44:40

The way he said "ok, he was astray, but became a..." Something with (unintelligible) I remember.

44:48

But anyway, "He found you" and they will not agree that he was astray.

44:54

So, I chose to make the translation general. [93:8] He found you poor, and He made you rich.

45:02

Because it's applicable for everybody. If they want to apply it... Ironically, most of them, almost all of them, apply to Muhammad but they will not accept verse 7.

45:15

Dr. Khalifa: In almost all the Tafseers and interpretations, they interpret this Sura as if God is talking to Muhammad only person.

45:21

Etip: They misinterpret this verse. Verse 7 is a problem, a very big problem for them. Dr. Khalifa: Yes.

45:28

Etip: Because their eyes have become (unintelligible) Prophethood (unintelligible).

45:35

And then they want to interpret... one of the most famous interpretations is, when he was a child, he lost his way, God showed him his way.

45:46
Dr. Khalifa: (unintelligible). Dr. Sabahi: That's exactly what Rashad said that he was poor and God made him rich. That's exactly what it says.
45:56
Edip: (93:7) وَوَجَدَكَ ضَالًّا فَهَدَىٰ They say "God lost his weight when he was a child."
46:09
I'll say a very short translation. This is the reason. Dr. Sabahi: No.
46:16
A woman: Also, you know, all of us will be orphans at one time or another, unless we die before our parents do.
46:23
But God always provides the home.
46:31
Dr. Khalifa: It can't apply to everyone. Most of the next Sura will do the same thing.
46:37
But it can't apply to everyone because...
46:50
Dr. Khalifa: We were excitable and glorious (unintelligible).
46:56
Just when you believe, then you put your trust in God. When you submit, submit to God.
47:01
As submitters, we realize that God knows what is best for us, and we put everything in God's hands. So, we don't worry anymore.
47:08
And you (unintelligible). You find that it is not worth it to get angry.
47:15
There's nothing in this world that is worth getting angry at.
47:22
So, this can be also general. So, we go to Catherine and Sura 94.
47:29
Catherine: In the name....
47:36
Dr. Khalifa: أَعُوذُ بِاللَّهِ مِنَ الشَّيْطَانِ الرَّجِيمِ We seek refuge in God from Satan, the rejected.
47:44
Bism Allah Arrahman Arraheem In the name of God, Most Gracious, Most Merciful. Tonight, we start at Sura 81.
47:51
And our teacher is Edip. He's gonna start right away. Go ahead.
47:57
Edip: Bism Allah Arrahman Arraheem [81:1] When the sun is rolled. [81:2] The stars are crashed into each other. [81:3] The mountains are wiped out.
48:10
[81:4] The reproduction is halted. [81:5] The beasts are summoned. [81:6] The oceans are set aflame.
48:18
[81:7] The souls are restored to their bodies. [81:8] The girl who was buried alive is asked: [81:9] For what crime was she killed?
48:29
[81:10] The records are made known. [81:11] The heaven is removed. [81:12] Hell is ignited.
48:36
[81:13] Paradise is presented. [81:14] Every soul will know everything it brought.
48:47
Here, there is a general description of end of the world and resurrection.
48:54
But I think there is no sequence between these events.
Dr. Rashad Khalifa states IMPLOSION of the universe due to God coming to our Universe.
49:00
Only description of both events.
49:17
God's Messenger of the Covenant Edip: [81:15] I solemnly..... Dr. Khalifa: Wait wait, you wanna explain the stars crashing into each other?
49:31
Dr. Khalifa: We can read it. Edip: Yes, I know, but it is so obvious. What can I say?
49:38
Dr. Khalifa: [81:3] The mountains are wiped out. Edip: Yes, because the harmony, the system will be collapsed. Dr. Khalifa: Yes.
49:45
Edip: And there will be no gravitation. There will be no any system.
49:52
And everything will collapse, will crash each other.
49:58
And these are descriptions of end of the world. Edip: Very obvious.
50:05
Dr. Khalifa: So, there'll be an implosion. Edip: What?
50:11
Dr. Khalifa: There will be an implosion. That sounds like it. The stars will crash into each other.
50:18
Edip: Do you remember... Dr. Khalifa: I don't wanna give you a rough time. Edip: No, no, no, I don't worry about that.
50:23

Dr. Khalifa: Ok. Good. Dr. Khalifa: Ok. In Sura 39, it says "we're gonna fold the heavens like folding a book." Edip: Yes. Yes.
50:30

Edip: Yes. Dr. Khalifa: This is it. Dr. Khalifa: So, it's an implosion, that they actually are expecting an implosion.
50:35

Edip: There are two theories about end of this universe, scientific theories.
50:41

According to them, one option, the universe is expanding.
50:48

If the expanse speed is more than a critical point, the universe cannot come together.
50:58

(unintelligible) Forever, it will expand and...
51:06

But another theory is, the maximum speed is below the critical point, and then after a while,
51:18

many years later, they say thousands years or billions years later, they will come together.
51:27

For example, if you threw a stone from the earth, more than 11 km per second, if its speed
51:39

11 km, more than 11 km per second, this stone will not come back to the earth. Dr. Khalifa: Exit...
51:50

Edip: But if the speed of the stone is less than 11 km per second, it will come back many kilometers later,
51:59

it will stop and then will fall on the earth. This is Gravity law.
52:06

And now from Quran, we understand, we know, that the second theory will occur.
52:15

This theory is called as... What is the opposite of open?
52:23

Dr. Khalifa: Implose. Edip: Implodes. Yes. Universe Theory.
52:29

Dr. Khalifa: But what is the Quran's theory? Edip: Quran's theory is implosion.
52:34

They will come together like the paper of the book. And yes, this is the description of implosion.
52:42

Dr. Khalifa: Why will it happen? Edip: Creation was explosion. Edip: What? Dr. Khalifa: Why will the implosion happen?
52:48

Edip: Because God will say "be" and it will be.
52:53

Dr. Khalifa: No, it's not just that. Anybody wants...?
53:00

(unintelligible) Yeah? Emily. Emily: Cause... Edip: God will come. Dr. Khalifa: Yes, there you go.
53:10

You have to speak fast, yeah? Okay, now. So, now, we're talking. Dr. Khalifa: So, this implosion will happen because God will physically come to this universe.
53:19

Edip: God's physical existence, when God comes, this universe cannot stand for God's physical existence, then they will explode... implode.
53:37

Do you have any question about this part? Edip: If you ask, we can explain.
53:45

Dr. Khalifa: Why? It's like pulling teeth, you know? It's got the information there, but you have to pull it out. Edip: Yes. Dr. Khalifa: So, do ask him questions.
53:52

Beth: I have a question. What about verse 8 and 9?
53:58

Edip: [81:8] The girl who was buried alive is asked: [81:9] For what crime was she killed?
54:03

From Quran, we learn that Arabs, they were humiliating women, and they were not glad with the girls.
54:14

When they see girl as a baby, they didn't want girls, and they were killing them.
54:23

And this was a very great crime, offense. And also now we can see the extension of this understanding.
54:38

In many places in the world, girls are also the second, girls are the second class of human beings.
54:51

And I think killing of girls was because of economy.
55:00

Boys, when they become adults, they could gain money or they could work, but girls at that time, they couldn't do.
55:14

And this was one of the reasons.
55:21

What? Yes.

55:27
Edip: summoned, but these are... Dr. Khalifa: (81:5) وَإِذَا الْوُحُوشُ حُيِّرَتْ Edip: (81:5) وَإِذَا الْوُحُوشُ حُيِّرَتْ
55:40
Dr. Khalifa: He's waiting. Edip: Yes. Edip: What's your question, brother?
55:47
Why? A man: Are the beasts called (unintelligible)?
55:53
A man: They are called (unintelligible). A man: What does that refer to?
55:58
Edip: There are two ways to interpret, to understand this. One way, the beasts, when a big event, explosion, or a great shock happens, from fear they come together.
All animals resurrected – "you will meet your pet". Black holes are similar representations of End of the universe.
56:14
They will come together. This may be expression of this event.
56:19
Or in Hereafter, God also will resurrect all animals.
56:27
Dr. Khalifa: The second interpretation is correct. Because in Sura 6, verse 38, you can see that that, remember?
56:34
(6:38) ثُمَّ إِلَىٰ رَبِّهِمْ يُحْشَرُونَ Edip: Yes. Dr. Khalifa: So, it's the same word being used, that all the animals will be resurrected and will be gathered on the Day of Resurrection.
56:43
A man: I also have a comment. So, if you had a pet or anything, you will meet them all on the Day of Judgement.
56:49
A man: I have a comment which I'm not sure is accurate because the earth is (unintelligible).
57:00
Verse 2, verses are very similar also to describe the black hole phenomenon where a star changes its size very quickly
57:12
and then shrinks in a gravitational (unintelligible).
57:17
Dr. Khalifa: Yeah, the black hole phenomenon is a minute representation of this. This is a universal black hole.
57:25
It's similar to it. But I wanna go back to the 8 and 9 that Beth was asking about.
57:32
I don't like to depress you, but this is actually still happening in Saudi Arabia today.
57:45
I call it a cultural disaster. And this is why when they walk into this mosque, they are shocked to see a woman's hair.
57:54
And they run away. I mean, they cover up the woman, and they regard them in such a disastrous way that
Lies attributed to Masjid Tucson "men and woman pray side by side" or "woman lead the prayer". Should be no preference for boy or girl when having children.
58:03
they used to kill the baby girls in the past. And I had a Saudi friend 10 years ago who went back to Saudi Arabia, and he came back.
58:14
He was almost crying. He said "you can find baby girls in garbage bins now."
58:21
He was from Medina. He said "this is in the prophet's city."
58:27
It's very depressing. This is what I call... I mean, how will you change a cultural behavior like that?
58:35
If the Quran didn't do it, what is going to do it? But this will, this will make you understand why they are shocked when they walk in here.
58:46
And they make up stories like "in Masjid Tucson, the men and the women pray side by side," which is not true.
58:52
And they make up things like "women lead the prayer in Masjid Tucson. It's just they have this severe complex.
59:03
But even today, these things happen. They don't have accurate records of pregnancies or even births in Saudi Arabia.
59:13
So, this is why it is significant that it is mentioned.
59:20
And this was mentioned in other places in the Quran. [81:8] The girl who was buried alive is asked: [81:9] For what crime was she killed?
59:30
And of course the hint is for those who commit this horrendous crime.
59:36
It's a demonstration of stupidity.
59:43
So, believers don't have that.
59:48
I come across believers once in a while who prefer to have a son over a daughter.
59:55
And I really sock it to them when they come up with that. Because there is no preference whatsoever, I mean, as far as God is concerned.

1:00:08
It may even be the other way around. In fact, there are sayings, I think here in the States maybe, even other countries also,
1:00:20
that say "the girl brings a son, but the son is taken away by his wife." Something to that effect.
1:00:30
A woman: "When your son marries, you lose a son. When Your daughter marries, you gain a son." Dr. Khalifa: Right, something like that. I've heard it in different ways, said in different ways.
1:00:40
So,...
1:00:47
Right. Yes. He should be brought out.
1:00:57
It's such a horrendous crime that the Quran gives it a lot of attention. It also reflects the kind of mentality that exists there, even now. Forced dress code is similar to burying an infant alive. Oppression of woman.
1:01:10
Any comments, Lisa?
1:01:16
Exactly, yes, exactly. I'm glad you mentioned that. Yeah, even the women who survive, they're actually buried alive, the way they demand that they're covered up this way.
1:01:30
Ismail just came from Iran. And how does the streets look like?
1:01:35
The ladies, they have to be covered up.
1:01:41
How is the society in general accepting this? Is there any kind of rebellion among some people?
1:01:48
Ismail: No, there are some women who have been killed in the same way.
1:01:56
Dr. Khalifa: Is it a widespread rebellion or is it limited? Are the people accepting it?
1:02:01
Like just take the ladies who used to walk in the streets in European clothes. Now, they have to cover up in this black stuff.
1:02:10
So, they are... They're forced, because otherwise they'll be killed.
1:02:16
So, did you hear over there? Ismail says that there is rebellion against this forced dress in Iran, but they can do nothing about it. If they speak up, they'll be killed.
1:02:29
So, it is a terrible oppression. This is a form of burial. They're being buried alive.
1:02:38
What's her name? 60 Minutes. What's her name? Diane Sawyer? Diane Sawyer went to Iran, and she had to, before the plane landed in Iran, she had to cover up her head, and she made a big deal out of this.
1:02:55
It's a double standard. Go ahead, Douglas.
1:03:03
Douglas: I was shocked to find out even today, that some of the so-called Muslim countries, as far as I can tell, just out of sheer suspicion of people who would throw their daughter out of the house,
1:03:14
and (unintelligible)
1:03:19
Dr. Khalifa: Oh, yeah. Of daughters. Douglas: Can you try to rationalize the takeover of all the property, or how you're going to get the property to take their lives?
1:03:29
There are a few incidents of this type that might happen, where the husband would say
1:03:36
"I don't want you to do something wrong with me, and murder his wife, or throw her out, or kill his daughter."
1:03:45
Dr. Khalifa: Well, I have on my desk a piece of news from the Arizona newspaper,
1:03:50
where in Iran they ordered... No, no, excuse me. In Pakistan, a judge ordered the execution of six people, because of sex crimes.
1:04:00
This is the headline. And when you read the article, you find out that this lady didn't like her husband, so she left him.
1:04:09
Of course, according to the Quran, marriage is a contract between two people, and once out, the contract is invalid anymore.
1:04:18
But they don't give this right to the woman, according to the so-called Islamic Shari'a.
1:04:23
So, I don't know how many months or years later, she married somebody else.
1:04:31
Now, her former husband complained, and they ruled that she and her new husband have committed adultery.
1:04:43
So, the judge ordered them stoned to death. And four of their friends were also stoned to death, because they knew about it.

1:04:55
I have this on my desk. If you don't believe it, you can read it later. This is the kind of mentality that is...

1:05:04
where their women are oppressed.

1:05:16
And we read in Sura 28 that God feels for the oppressed, and He makes it up to them.

1:05:21
According to Hadith and Sunnah, the majority of inhabitants of Hell are women. But I'm convinced that the opposite is true, because of the oppression that they undergo.

1:05:34
When I served in Saudi Arabia for the United Nations, I came across a daily program

1:05:42
where people send messages, and most of these messages were from women.

1:05:48
I'm telling you, I cried. I actually cried listening to that program. Because a typical story will be a woman whose husband disappeared for six months or a year.

1:05:59
She doesn't know where he is. She's grounded in the apartment or the house or the place that's assigned for her.
Dr. Rashad Khalifa thanks God for the freedom in America to practise following Quran alone.

1:06:05
And her in-laws bring whatever food or whatever that keeps her alive. She never leaves the place. It's just like a prison.

1:06:13
And this is a typical story. And she's asking for help.

1:06:18
Obviously she snuck out a letter to that radio program.

1:06:25
So, it is a tragic situation. And... I guess abandoning the Quran is one of the reasons for this happening.

1:06:36
Any other comments or questions? I just want you know what is happening over there so we can thank God for the freedom we have here and the ability to practice the Quran.

1:06:48
Edip, Back to Edip. Dr. Khalifa: Verse 15? Edip: Yes, verse 15.

1:06:54
God's Messenger of the Covenant [81:15] I solemnly swear by the galaxies. [81:16] Precisely running in their orbits. [81:17] By the night as it falls.

1:07:04
[81:18] And the morning as it breathes. [81:19] This is the utterance of an honorable messenger. *

1:07:11
[81:20] Authorized by the Possessor of the Throne, fully supported. [81:21] He shall be obeyed and trusted. [81:22] Your friend (Rashad) is not crazy.

1:07:21
[81:23] He saw him at the high horizon. * [81:24] He is not holding back any news. [81:25] It is not the talk of a rejected devil. [81:26] Now then, where will you go?

1:07:32
[81:27] This is a message to all the people. [81:28] For those who wish to go straight. [81:29] Whatever you will is in accordance with the will of GOD, Lord of the universe.

1:07:52
Look at the footnotes, at the footnote. If you add the number of the chapter plus Rashad, gematrical value of Rashad and Khalifa

1:08:04
you'll find it divisible by 19.

1:08:09
And this refers to the message because in verse 27, God says

1:08:21
(81:27) إِنَّ هُوَ إِلَّا ذِكْرٌ لِلْعَالَمِينَ [81:27] This is a message to all the people.

1:08:32
And it describes Rashad's experience, how many years ago?

1:08:40
Edip: 20 years ago. Dr. Khalifa: 1971. Edip: In 1971, when he was in Mecca, he had an experience, a visual experience and this is a description of this event.

1:08:55
Dr. Khalifa: Thank you. If you refer to this Appendix 2. That's 643. Edip: In Appendix 2, there's a reference. I... you have now.
Talks about being Dr. Rashad Khalifa. Talks about "why Authorized" translation of the Quran.

1:09:09
Now, in chapter 3, verse 81, you will see the prophecy about God's Messenger of the Covenant.

1:09:22
And if you add them to the gematrical value of Rashad and Khalifa, you will find 1311, which is multiple of 19.

1:09:32
And this is... this Sura has number of 81.

1:09:37
And you'll find in verse 19, God describes the messenger.

1:09:48

And also, if you add them up, it is also divisible by 19.

1:09:58

Dr. Khalifa: This is, of course, very embarrassing to me, but I can't afford to hold back any of this.

1:10:04

It's mainly for the future generation. Our generation is... may not be able to stand this kind of news.

1:10:15

As for our people, God snuck it on us gradually, very slowly. So, we are able to stand it.

1:10:21

But it really is an awesome responsibility.

1:10:28

I wanna read with you page 643. Why 81?

1:10:35

I want to spare Edip the shyness.

1:10:41

Verse 81 and Sura 81. Number 16 here says "God's Messenger of the Covenant is prophesied in verse 81 of Sura 3.

1:10:48

The addition of the gematrical value of Rashad, which is 505, plus the gematrical value of Khalifa, which is 725, plus the verse number 81, produces a total of 1311, 19×69 .

1:11:01

Number 17, if you look at Sura 81, which is what we're studying tonight, we read about a messenger of God who is powerfully supported and authorized by the Almighty, as we see in verse 19.

1:11:12

Thus, verse 81 of Sura 3 and Sura 81, verse 19, are strongly connected with the name Rashad Khalifa."

1:11:23

As you know, when the first hint came out in the first translation, Authorized English Version, a lot of people were up in arms, you know.

1:11:30

"Why authorized? Who authorized this?" But the verse in Arabic here, verse 20, is very clear.

1:11:38

[81:20] Authorized by the Possessor of the Throne, fully supported. And now we have these mathematical proofs, Quranic and mathematical.

1:11:50

Number 18, on page 643, says "if we add the Sura numbers plus the number of verses from the beginning of the Quran

1:11:57

to verse 3:81, where the Messenger of the Covenant is prophesied, the total comes to 380, 19×20 .

1:12:05

And this is shown in table 6." You understand this number 18?

1:12:10

You take the Sura numbers and the number of verses from the beginning of the Quran to the

1:12:17

to the place where the Messenger of the covenant is prophesied. And this gives us 380, a multiple of 19.

1:12:23

And as you know, 19 is our generation's sign.

1:12:29

Number 19 says "the gematrical value of verse 3:81 is 13148, which is a multiple of 19.

1:12:36

This value is obtained by adding the gematrical values of every letter in the verse."

1:12:41

Number 20, "if you look at that portion of verse 3:81, which refers specifically to the Messenger of the Covenant,"

1:12:48

I have it here in Arabic, it says "a messenger will come to you confirming what you have,"

1:12:53

we find that the gematrical value of this key phrase is 836, 19×44 .

1:13:01

So, this is the connection with Sura 81.

1:13:06

This is why I couldn't afford to avoid writing in verse 22, put the name Rashad in parentheses there, verse 22.

1:13:19

And some of you who are familiar with the initial announcement will excuse me for doing this

1:13:26

because I just can't afford to hold back.

1:13:32

Those of you who are not familiar with that momentous night, I'll be glad to go over it with you again. And

1:13:40

if you find that this is not acceptable, I don't blame you. It is very difficult, very difficult to accept.

1:13:47

But I will be very happy to discuss it with you if you have any reservations.

1:13:55

Or like I said "this is for the future generations." It'll be easier for them.

(Banter) Kids tell neighbours "God's messenger is sleeping at our house". TRUST the Dr. Rashad Khalifa as God deliverer's information via the Dr. Rashad Khalifa.

1:14:01

I have to share with you a story that will please the believers.

1:14:09
We were staying at Farima and Amir Kuleyni in San Francisco, and they have two children,

1:14:15
Shaliz, she is 8 years old, and Paris, he is 6 or 7.

1:14:23
After two days of staying there, the neighbor's kids came to the house and asked "where is God's messenger?"

1:14:29
Apparently, Farima and Amir's children were going to the neighbor's saying "guess who's sleeping in our house?"

1:14:39
And it reflected how it will be a lot easier for the new generation, because they don't have the holdbacks, or the hang-ups that we have.

1:14:50
They will grow up and they will look at the whole story objectively. They will look at the proofs objectively, without anything holding them back.

1:15:00
So, it pleases us to see the people, the new generation.

1:15:05
So this here, if you excuse me for putting it in, it is for the new generations.

1:15:12
And I hope most of you will understand anyway.

1:15:17
Ok, back to Edip. Edip: Do you have any questions about this part?

1:15:24
Dr. Khalifa: If you have any questions, don't be shy, because you have to bring out any doubts and kill them.

1:15:30
Yes. It's interesting that I find some of these things happening without me paying attention, like

1:15:39
[81:24] He is not holding back any news. [81:24] He is not holding back any news.

1:15:45
because I'm not holding back anything. I want everything to be clear and open.

1:15:50
And then I read the verse and I say "yeah, this is what is happening." And the point that Lisa raised of obey and trust,

1:16:00
[81:21] He shall be obeyed and trusted. It is not the person.

1:16:06
It's obey and trust because we're receiving information from God. And this is why God ties the commandment of "obeying God and obeying the messenger" together throughout the Quran.

1:16:16
Because I'm just as excited as you when we receive new information.

1:16:24
That straightened everything that we were doing. We were doing lots of things wrong and God's mercy sees to it that we changed our ways to the correct way.

1:16:35
So, this is where obeying and trusting comes. [81:22] Your friend (Rashad) is not crazy.

1:16:42
This ties in with the other statement of the Quran. It says "I've lived with you many years."

1:16:50
In other words, this is a quotation in the Quran, do you remember it? I forget where it is exactly.

1:16:56
But what it says is that here's a person who has been with you for many years and you know he's not crazy.

1:17:03
Because a person who is not a messenger of God, who claims to be a messenger of God, will have to be crazy, if he's not a messenger.

1:17:11
It will be a person who has no belief that he will meet God someday and will be asked by God about everything he's doing.

1:17:20
Or he's a person who doesn't have any mental capacity whatsoever. And the statement that I've lived with you many years is because, you know, I got to know you. We know each other.

1:17:32
And obviously, I'm not crazy or mentally retarded or any....

1:17:39
So this statement, [81:22] Your friend (Rashad) is not crazy. is...ties in with that I stayed with you for a number of years. It is God's design

1:17:48
to appoint messengers after the age of 40. This has been consistent except for the Prophet Jesus for special reasons.

1:17:58
But every messenger was appointed after the age of 40. So, he lived among his people for 40 years. They knew him as a normal person who was a merchant or a shepherd or

1:18:06
going about his business. They know he's a normal person. All of a sudden, he says "I'm God's messenger."

1:18:12
And invariably they accuse him of being crazy. So, he says "I lived with you so many years and you didn't know that I was crazy. So, why do you call me crazy now?"

1:18:21

You're going to examine what I am saying. Yes. 10:10?

1:18:27

10:16, yes. 10:16, yes. So, this is the idea.

1:18:35

Cause if you...If a person lives with you for so many years, you know him closely, and you know very well he's not crazy,

1:18:44

then he's either, he's really a God's messenger or he's a very very bad person who's trying to trick God.

1:18:52

It's one of the extremes. Nothing in between.

1:19:00

Yes. [81:23] He saw him at the high horizon. *

1:19:05

[81:23] He saw him at the high horizon. * The footnote 81:23 says "Rashad Khalifa was summoned to the high horizon as detailed in Appendix 2.

1:19:15

And this has to do with the fact that I was summoned, and I was, I was passive at the time, but all the prophets

1:19:24

fulfilled their covenant, which is recognizing, acknowledging, supporting, and believing in the Messenger of the Covenant.

1:19:35

Yes, it was on the high horizon. Exactly where, I don't know, but it was out of this, out of this universe.

1:19:44

It was in the place where the souls are. Or chances are, it's in the seventh or the first universe.

1:19:51

If you consider ours the seventh universe, that fulfillment of the Covenant occurred in the first universe.

1:19:58

And in the last conference, as you know, I shared it with you in detail, and I'm glad to share it with anybody in detail at any time.

1:20:07

But most of you know, those of you who don't know it, I'll be glad to share it with you again.

1:20:12

But briefly, I was summoned to the first universe. I sat in a place, and all the prophets one by one acknowledged me as God's Messenger of the Covenant.

1:20:24

I was told they were all the prophets. I was not given the identity of any of them except Ibrahim, because of his resemblance to my own family.

1:20:32

I was taken aback by this man who looks like us, you know, my uncles, my father.

1:20:38

And I was told... there was no speaking at all. But mentally, I was told "this is Abraham."

1:20:44

Other than that, I was told that these are all the prophets, that included Noah, Jesus, Moses, David, Solomon, all of them.

1:20:53

So, this is what 23 refers to. If you read the Appendix 2, it will give you these details.

1:21:09

Yeah. Where are the prophets now? Hold on.

1:21:14

See what happens...

1:21:20

Go ahead. He'll be alright though.

1:21:33

In other words, those who are known to deserve guidance will accept this information.

1:21:41

People who are willed by God to be guided.

1:21:48

Does this make sense, Martha? It should be clear. It says,

1:21:54

[81:27] This is a message to all the people. [81:28] For those who wish to go straight. You know, when you pray every day, you say, Every person has an invisible stamp "hell or heaven". Cannot guide those who are stamped hell.

1:22:00

Ehdina Al-Serata Al-Mustaqeem (1:6) Guide us on the straight path, or the right path. So, those who wish to go straight will accept this heavy information. This is very heavy information.

1:22:16

Okay, when you look at any person, there's an invisible stamp on their forehead that says "Heaven" or "Hell."

1:22:23

Okay, the person who's stamped "Hell" on the forehead, there is nothing you can do to guide them.

1:22:29

And the people who are stamped "Heaven", God knows, only God knows who is going to Heaven and who is going to Hell.

1:22:36

So, the person who is stamped "Hell" or misguided, there is no way you can make them understand.

1:22:44

The person who is stamped "Heaven" will see this and will accept it right away.

1:22:49

They will see that there is nothing wrong with it. It is in accordance with the Quran. There is sufficient proof.

1:22:56

They will... they may hold their judgment for a while until they examine the evidence and so on.

1:23:08

No, refers to you and me and anybody. Dr. Khalifa: Whatever you people will is in accordance with the will of God, Lord of the Universe.

1:23:19

A woman: So, it's like those who are on the straight path are somehow incapable of doing anything that is not according to God's will and the....?

1:23:30

Dr. Khalifa: No, it is no the idea we always talked about it that... When we are born, God knows already the people who did not side with Satan during that Great Feud.

1:23:42

They didn't really side with Satan. Remember the Khutba, my last Khutba about the two arrows?

1:23:49

There are some people who went along with the crowd but in their heart they did not side with Satan. So, these people deserve to be guided. They deserve to be redeemed.

1:23:58

And they are put in circumstances that bring them in touch with this message, for example.

1:24:06

When they are born, they are assigned to a certain house, certain parents, to grow up under certain circumstances, and the end result will be that they're guided, because they deserve to be guided.

1:24:23

Dr. Khalifa: Douglas Douglas: This is a blessing (unintelligible)

1:24:37

and only mention (unintelligible)

1:24:43

It totally nullifies everything they're saying. Douglas: There are a lot of people who quote Quran, and read from the Quran and they say "where did this explanation come from?"

1:24:53

They say that God didn't send a messenger. But they immediately just continue to worshiping the messenger.

1:24:59

All of a sudden, people who need to hang on to someone, who can't be on their own. So, this is both a protection and a mercy for the people who are also guided.

1:25:08

One of the strategies of the atheists and non-believers is to tell you that you are incapable of standing up on your own.

1:25:18

You need someone else. The observation and the sign removes the doubt from the hearts of the believers.

1:25:26

You know that the motivation and incentives are from God to receive God's message.

1:25:31

And this list is describing... Dr. Khalifa: It's an obstacle, it's an obstacle for the misguided.

1:25:48

Say it again? A man: Table 5, why it is... Dr. Khalifa: Yeah, table 5 must be...

1:25:56

Eidp: No, before it. Dr. Khalifa: Yeah, it's from the previous page.

1:26:01

This copy is just dealing with the number 81, because this is Sura 81.

1:26:13

The locust's playing havoc with the grocer?

1:26:20

Eidp: Who will be the last person? Dr. Khalifa: Now, Douglas said that this is lucky for us because... actually, we have no idea how lucky our generation is.

1:26:35

Because this puts us in a place where we can belong with the elite of the elite.

1:26:42

The elite of the elite, or in the Quran, (56:10) **الْأُولَئِكَ الَّذِينَ هُمْ أُولَئِكَ** Those who are especially close to God are the people of the first generation whenever a messenger comes, Abraham, or Ishmael, or Jesus, or Moses.

Elite of the Elite are those who accept the message when it's new.

1:27:09

Eidp: Mā Shā Allāh Dr. Khalifa: It's gonna fly around and hit everybody.

1:27:19

The elite... The elite of the elite are the people who exist at the same time when the message is new

1:27:31

and the people are rejecting it, and you are being persecuted for accepting that message, which is worshipping God alone,

1:27:38

accepting the word of God alone. It's a very heavy responsibility, and the people who accept it are very, very, very, I can say this forever, fortunate.

1:27:48

Because they are the elite of the elite for eternity. And you're not born at this time by coincidence. There is a reason for it.

1:27:57

Obviously you deserve it. But to say that we are lucky or fortunate is the understatement of the century.

1:28:08
It is really a very, very exciting part of history, and I'm just talking as a person.

1:28:15
God happens to want us to know certain information to correct our path. And God's system, as we learn from the Quran, is that He selects one of us to distribute the information through one of us.

1:28:28
And doesn't make this one of us any better, or worse, or special.

1:28:33
There is no... and we have many lessons in the Quran indicating this. Moses, one of the great messengers, God sent a teacher in human form.

1:28:42
He could have been a human. Probably he was an angel. But God didn't tell us if he was a human or an angel. The fact is that Moses existed, and there was another servant of God who taught him a few things.

1:28:55
So, it's just a system whereby God distributes, disseminates information to all of us.

1:29:04
We are a very fortunate generation indeed. Alhamdu Lillah. Abdullah.

1:29:17
Abdullah: ... time of prophet Muhammad, Quran was revealed...

1:29:25
As I understand, it's been revealed...

1:29:32
God revealed certain things in the human form. And similarly, now the miracle has been revealed in such a way.

1:29:46
Dr. Khalifa: I mean, I think we live these very exciting times, and we've seen how the information comes as we needed it at the right time.

1:29:56
When we... before printing the Quran, we were working on the appendix about the two false verses. And Mahmoud Abib, and Abdullah Erik, and Ismail Barakat, and Feroz Kermali, and Gatut were coming with information.

1:30:08
There was just pouring information coming. The evidence is very powerful and amazing.

1:30:13
I mean, we just couldn't catch our breath. And now that the book is in the press, they're very quiet, aren't they?

1:30:20
Do you hear anything from Mahmoud or Abdullah? No. But the information came at the right time.

1:30:26
It was just amazing. I mean, I will start the computer, and I will be working on this subject, and they will walk in with the information. As I'm... just put... just about to put my fingers on the keyboard at the time.

1:30:40
This is what Abdullah is talking about. Information comes as we need it.

1:30:45
And this is why we're so positive about God's signs.

1:30:51
We don't have doubts.

19 Quran Study From Behrouz 919 Sura 2:89 119 Witchcraft Reverting Intro To Blue Quran No 13

Dr. Khalifa: [2:89] ...They rejected it. God's condemnation thus afflicts the disbelievers.

0:06
This is something that we talked about at noon today, the ego.

0:16
As you see at the beginning of this book, if you open the cover and go a few sheets,

0:24
you see that once God alone is mentioned. Across from that, you see verses from the Old Testament and the New Testament prophesying

0:36
the advent of the Prophet Muhammad, the final prophet.

0:41
You see Moses in Deuteronomy 18:15 says "a prophet like me," meaning a message-bearing messenger.

0:51
"...will the Lord, your God, raise up for you from among your kinsmen;"

0:57
The Arabs and Jews are kinsmen. "to him you shall listen."

1:02
And in Deuteronomy 18:19, God says "I will raise up for them a prophet like you..."

1:10
God was speaking to Moses. "...from among their kinsmen and will put my words into his mouth."

1:17
He shall tell them all that I command him. If any man will not listen to My words which he speaks in My name, I Myself will make him answer for it."

1:27
So, there's the prediction of the coming of the Prophet Muhammad to the Jews.

1:34

Of course, the Jews also were expecting the Messiah, Jesus, but when he came they wouldn't acknowledge him.

1:42

He was a human being like them. In spite of the miracles that he showed them, they failed to recognize him.

1:50

They called him "imposter, a carpenter," not God's messenger.

1:57

It's just, you've seen today how bad the human being is. And we are the hardcore, egotistic gang among God's creatures.

2:12

And as you see here, God is saying "I will put My words in his mouth, to him you shall listen."

2:18

The Jews were aware of this, as far as the Messiah was concerned, as far as Muhammad was concerned.

2:24

But it takes killing the ego to sit down and listen to a human being like you and me.

2:32

This is what we're exercising now. We're killing our ego in order to be redeemed, knowing

2:38

that we are listening to God's words in the Quran.

2:43

We're submitting to God, in whatever God does or says.

2:49

In the New Testament, you see the statement here from John 14, 16, 17. "I will ask the

2:55

Father and He will give you another Paraclete, to be with you always, the spirit of truth.

3:01

And in John 16:13, "when the spirit of truth comes to you, he will guide you to all truth

3:09

and will announce to you the things to come." So, the Christians also were given prophecy about the Prophet Muhammad.

3:19

But when he came, brought the Quran, a fantastic miracle, and he told them to worship God alone.

3:30

He told them who Jesus was, but they still they cannot recognize him.

3:37

And this is extended to the Messenger of the Covenant. The Muslims are recipients of the scripture. And God told them in the scripture "the Messenger of the Covenant will come

3:51

after all the prophets have delivered their messages." And I'm quoting here Malachi. "Lo, I am sending My messenger to prepare the way before Me, and suddenly,

4:04

He will come to the temple the Lord whom you seek, and the Messenger of the Covenant whom you desire.

4:10

Yes, he is coming, says the Lord of hosts," which is Rabbil 'Alameen in Arabic, "but who will endure the day of his coming?

4:18

And who can stand when he appears? For he is like the refiner's fire. He will sit purifying and refining."

4:26

So again, it's the ego here. "Who will endure the day of his coming?"

4:34

And how can you tell us that two verses that the Quran we've known all along had two verses wrong in it?

4:41

How do you tell us that the Salat Prayer we've been doing has been wrong?

4:47

And as you know, God blessed us, but because we did this gradually. We fixed. We were doing everything wrong.

4:56

You and I were doing everything wrong. And it takes killing the ego to give up things that we've been taught by our parents and things Takes strength to kill the Ego. Explains the rejection of Truth.

5:07

that we've been doing for a long time. It takes, actually, it takes more courage and more strength to say "I was wrong, I'm gonna do the right thing now."

5:19

"I'm gonna give up what was wrong even though my parents taught me that."

5:25

But this is not the case with the majority of people.

5:30

And this is what the Muslims are doing today. I mean, the Quran clearly says "Muhammad was not the last messenger. He wasn't the Messenger of the Covenant."

5:39

And I'm not harping on this issue, but just the verse happens to state that, 89.

5:45

[2:89] When a scripture came to them from God confirming what they have, and even though they used to prophesy its advent to the disbelievers, when their own prophecy came to pass, they rejected it. God's condemnation thus afflicts the disbelievers.

6:01

So, this brings out their disbelief, because they claim to be believers.

6:08
And they claim to believe the Quran. Yet, when the Quran comes to pass, a Quranic prophecy, they fail to uphold it.

6:18
These same people who are rejecting the Messenger of the Covenant would have rejected the Prophet Muhammad if they existed at the same time.

6:25
They would have been the first to fight him. In fact, the Prophet struggled for 13 years in Mecca.

6:32
They were rejecting him, stoning him, banishing him, boycotting him and his followers.

6:41
These are the same people. And those bigwigs who are meeting in Chicago to preserve the finality of prophethood,

6:50
they would have been the first people to fight the Prophet Muhammad if they existed in his time.

6:56
In fact, they are Abu Lahab's, every single one of them. I mean, who was Abu Lahab?

7:01
Abu Lahab was the religious leader of his time, following the corrupted religion of Abraham, Islam or submission.

7:09
And he opposed the Prophet Muhammad who was telling him "worship God alone. Here's the scripture of this religion."

7:16
And Abu Lahab faltered. Number 90,

7:22
[2:90] Miserable indeed is what they sold their souls for, disbelieving in God's revelations out of sheer resentment that God should bestow His grace upon whomever He chooses from among His servants. Consequently, they incurred wrath upon wrath. Such disbelievers have deserved humiliating retribution.

7:43
Why did they have to take these verses? this assignment.

7:48
Anyway, these are quite relevant to what is happening to us these days.

7:54
[2:90] Miserable indeed is what they sold their souls for, disbelieving in God's revelations... God tells them "a messenger will come after all the prophets," but they disbelieve.

8:06
It's very clear in the Quran. And this is why they're so dumb in the sense that they don't say anything.

8:14
They are very quiet. They don't know what to say.

8:20
This is why they're getting their top leaders to put their heads together, pat each other on the back,

8:26
and gang together to distort the definition of prophet and messenger.

8:32
They don't believe God's revelations. [2:90]Out of sheer resentment that God should bestow His grace upon whomever He chooses from among His servants.

8:42
Where is Douglas? Is Douglas here? Hi, Douglas. Douglas was rooming in a hotel in one of the conferences of the probably social scientists, Muslim social scientists.

8:55
And this is one of the top leaders of the Muslims in America. Ilyas Ba-Yunus is his name.

9:01
And he rejected the mathematical miracle of the Quran, this Ba-Yunus.

9:08
And then the next day, Douglas is gonna correct me if I'm wrong, the next day,

9:15
Douglas realized that he actually knows the miracle and believes in it. So, Douglas asked him. You take it from there. "Why don't you recognize the miracle?" What did he say?

9:26
Douglas: I asked him why didn't he recognize the miracle. Then, his response was "it didn't come from one of us."

9:34
"It didn't come from one of us Muslim scholars, religious scholars." He said that Rashad didn't have the right place.

9:43
Dr. Khalifa: "He's not one of us." Douglas: "He's not one of us. And he's not a religious scholar. He's not a Mulla." Dr. Khalifa: Mulla.

9:52
Dr. Khalifa: So, this is exactly what this verse is saying. [2:90]...out of sheer resentment...

9:57
Not because it is not the truth, or because they do not recognize it, or because they don't understand it.

10:02
But it's simply [2:90] ...out of sheer resentment that God should bestow His grace upon whomever He chooses from among His servants. Consequently, they incurred wrath upon wrath. Such disbelievers have deserved humiliating retribution.

10:18
I want to share with you some other verses related to this.

10:37

Yep, they're human beings.

10:47

Ego. Ego is the big disaster.

10:55

Edip: **وَكَذَلِكَ فَتَنَّا بَعْضَهُم بِبَعْضٍ لِّيَقُولُوا أَهَؤُلَاءِ مَنَّ اللَّهُ عَلَيْهِمْ** (6:53) مَنْ

11:00

Dr. Khalifa: 21:36. Yeah, that's a good one too. Edip: 6:53. Dr. Khalifa: Ok. Let's look at 21:36. 21:36

11:15

Because it is similar to that statement that they told Douglas.

11:22

Under the subtitle "All Messengers Ridiculed." 36, [21:36] When those who disbelieve see you, they ridicule you: "Is this the one who talks about your idols?" They totally disregard the message of the Most Gracious.

11:35

This is not the verse that I wanted to show you, but it's related. Edip: 6:53

11:41

Dr. Khalifa: Oh, there's another one.

11:48

إِلَّا هُزُوا أَهَذَا الَّذِي بَعَثَ اللَّهُ رَسُولًا (25:41)

11:53

Dr. Khalifa: Ok. Let's look at 25:41. 25:41 must be the one I had in mind. They're very similar words.

12:08

Edip: Yes. Dr. Khalifa: 25:41, again, messengers ridiculed. [25:41] When they saw you, they always ridiculed you. "Is this the one chosen by God to be a messenger?"

12:19

[25:42] "He almost diverted us from our gods, if it were not that we steadfastly revered them."

12:25

Counsel for preservation of the finality of prophethood. [25:42] ...They will certainly find out, when they see the retribution, who are the real strayers from the path.

12:36

Oh my gosh, 43. [25:43] Have you seen the one whose god is his ego? Are you going to be his advocate?

12:45

So, this is the reason why they cannot accept a human being. And this is exactly why God said "if I sent an angel..."

12:56

God said "even if I sent an angel as a messenger, I will send him in the form of a human being, and I would confuse them as they are confused."

13:08

"Miserable indeed," number 90, back to. [2:90] Miserable indeed is what they sold their souls for, disbelieving in God's revelations out of sheer resentment that God should bestow His grace upon whomever He chooses from among His servants. Consequently, they incurred wrath upon wrath. Such disbelievers have deserved humiliating retribution.

13:30

Let me share a couple more verses with you, so we can cover the subject,

13:38

and hopefully not see it for another long time.

14:01

43:32. Then, we'll move on. 43:32.

14:12

Probably 31. We'll look at it.

14:20

Okay, 31. Muhammad Ridiculed [43:31] They said, "If only this Quran was sent down through another man from the two communities (Mecca or Medina) who is prominent!"

14:31

They didn't like the Prophet Muhammad. And these very same people would have done the same thing then.

14:38

Now, 32 says, [43:32] Are they the ones who assign your Lord's mercy? We have assigned their shares in this life, raising some of them above others in ranks, in order to let them serve one another. However, the mercy from your Lord is far better than any material they may hoard.

15:02

But the same idea that applies to material things also applies to God's mercy as far as...

15:07

God blessed us to be believers. They cannot do anything if they resent that.

15:17

91, back to page 14. [2:91] When they are told, "You shall believe in what GOD had sent down herein," they say, "We believe only in what was sent down to us." They reject subsequent revelations, even if it is the truth from their Lord, and even though it confirms what they have! Say, "if you did believe in the revelations given to you, why then did you kill God's prophets, if you are truthful?"

15:47

As you know, the prophets of Israel, almost all of them were killed by the children of Israel.

15:55

"Lessons from Israel" 92. [2:92] Moses went to you with profound miracles, yet you worshiped the calf in his absence, and you turned wicked.

16:11

[2:93] Also, we made a covenant with you, as we raised Mount Sinai above you, saying, "You shall uphold the commandments we have given you, strongly, and listen." But they said, "We hear, but we disobey." Their hearts became filled with adoration for the calf, due to their disbelief. Say, "Miserable indeed is what your faith dictates upon you, if you do have any faith."

16:34
94, [2:94] Say, "If the abode of the Hereafter is really reserved for you at GOD, to the exclusion of all other people, then you should long for death, if you are truthful."
16:46
[2:95] They never long for it, because of what their hands have sent forth. GOD is fully aware of the wicked.
16:52
I wanna go back to verse 92. [2:92] Moses went to you with profound miracles, yet you worshiped the calf in his absence, and you turned wicked.
Despite all miracles Moses people witnessed only 2 remained believers.
17:01
Because this again is a continuation of the Khutba today on how bad the humans are and
17:08
how fortunate we are. We must thank God and say "Alhamdu Lillah." Thank him profusely for guiding us.
17:16
This will be our prayer, IN SHAA ALLAH, in Heaven as you know from the Quran. We're gonna spend eternity saying "thank God for guiding us."
17:26
I wanted, actually, to say this in the Khutba, but I forgot. Do you know how many people believed in Moses after all the miracles,
17:32
after parting the Red Sea? 120,000 people, they estimate, watched the Red Sea part. Did anybody see a hill of water?
17:45
There were 2 hills of water on the sides and... And these people walked between two hills of water.
17:50
And if you saw the movie, it made a very good approximation. the Ten Commandments.
17:57
Cecil B. DeMille did a good job there. And then after they crossed, Pharaoh and his army goes behind them and they drown and die,
18:05
the enemies before their eyes. God says in the Quran "before your eyes." They saw this and many other miracles.
18:11
So, how many people believed at the very end when they reached their destination and Moses said
18:18
"now go into Jerusalem." And they said "there are people there, we don't wanna go and fight with them. You and your Lord go and fight. We're going to sit right here."
18:27
Two people. Moses, Aaron, and two people.
18:32
That's how bad the humans are. Now fortunately, Sura 5, verse 23. This is what it tells us.
18:42
Just two people believed with Moses. Now, I don't want you to be too scared because this is not applicable, the same principle
18:52
is not applicable to us. We thank God for it that God assigned us to this generation.
18:58
We are very fortunate because the last Sura in the Quran revealed, Sura 110, is 19 words and talks about
19:08
entering God's religion in great numbers.
19:15
And this is applicable to us. The first verse is 19 letters and the whole Sura is 19 words.
19:21
But at the same time, don't be lax. You must watch your ego because making it, as you see and
19:31
worshipping God alone and killing our ego is the greatest triumph.
19:38
We've made quite a few mistakes. Initially, when Satan wanted to be a god, we made a big mistake.
19:45
When God gave us another chance, we made a bigger mistake.
19:52
And you've seen the, you've seen the proportion of how bad the humans are.
Earth is a halfway house to hell.
20:03
And it's all ego from Satan's ego to our ego. This is what exiled us from God's kingdom
20:10
We're in exile from God's kingdom because of our ego and if we don't kill this ego,
20:17
we will continue to be eternally exiled. Now, this is our last chance in this world. It's our chance.
20:28
God is giving us a taste of what Hell is like. This is halfway house to Hell.
20:37
It is.
20:46
It's amazing how many problems there are in this world that we're seeing. Yes?

Repentance, we must believe God will turn sins into credit – Satan will give you a guilt complex over old or new sins – Repeating sins – we must repent and observe commandments. Read Quran every day At least 2 pages.

21:00

A man: using your will to suppress Satan and his ideas in your head.

21:09

A man: Can you ask for repent for me? Sometimes, I ask for repent for a sin or (unintelligible) or a lie or something. Then, I find how Satan brings it back.

21:22

Dr. Khalifa: This is his job. He's doing his job. Dr. Khalifa: He uses, he uses reverse psychology. He tells you "you're bad. You're bad."

21:30

A man: but I don't know whether to, he uses my ego not in the negative sense. If I... Satan (unintelligible) a week then I know it continues. Then, I will fight with it.

21:51

Dr. Khalifa: Well, what you need to say to Satan is that you believe God, when He says "repentance wipes out the sins and turns them into credits." And don't let Satan

22:02

trick you into, into saying that, or giving you a guilt complex over an old sin or a new sin.

22:11

A man: You know, it's not that... that's one aspect. (unintelligible) the future. Dr. Khalifa: Yes.

22:17

A man: Then, I continued to strongly to grow in righteousness. Dr. Khalifa: Right.

22:22

A man: I mean, I find myself trying to stop mind and Satan, cause I don't... you know, I know like I made a mistake but I don't wanna do it again so...

22:34

Dr. Khalifa: This is what repentance is all about. You pledge that you'll never do it again but being a human, you probably will do it again a few times

22:41

until you realize that the price is too high. The pinch is too painful or the price is too high. Then, you'll... God knows

22:48

God will guide you. God says... God gives you the means to fight Satan and they are worshipping God regularly.

22:58

You must maintain the Five Prayers, the Fasting of Ramadan. You must be conscious of God, the commemoration of God every chance you get.

23:06

God must be on your mind the majority of the time. Because one of the Khutbas that you missed was "who is your god?"

23:14

And the answer is "whatever you're thinking of most of the time, that's your god." So, God gives us guidelines in the Quran as to how to keep God in our mind the majority of the time.

23:25

Like saying "IN SHAA ALLAH, Mā Shā Allāh, Alhamdu Lillah, Subhan Allah" in English or Arabic or in any language, as long as you think about God most of the time.

23:34

So, reading the Quran... you have to read the Quran every day, at least two pages every day.

23:40

I know you do that. Where is your copy of the new Quran?

23:46

I don't wanna embarrass you. We have copies here. A man: I know. I just wanted to Dr. Khalifa: Ok.

23:51

A man: I just wanted to understand the fact that we're responsible for saying "Astaghfirullah." Dr. Khalifa: Right.

24:01

A man: The way I say it is correct? Dr. Khalifa: Yep.

24:09

92. Lessons From Israel. We did that. 93. Ok. So, we're talking about Moses and 120,000 out of them, only two believed.

24:17

And the other half of the Khutba today was how fortunate we are in that we are the generation that

24:27

God showed us the miracle of the Quran based on the number 19, and the last Sura revealed to the Quran is 19 words

24:36

and that it applies to our generation. We thank God for that. Let us read it. 110.

24:42

Sura 110 is in page what? Because it applies to us.

24:52

603. Page 603, Sura 110 is "Triumph." The greatest triumph is to denounce our crime and believe in God alone and worship him alone. Last Sura revealed.

25:06

In the name of God, Most Gracious, Most Merciful [110:1] When triumph comes from GOD, and victory.

25:11

19 letters in Arabic. [110:2] You will see the people embracing GOD's religion in throngs.

25:17

[110:3] You shall glorify and praise your Lord, and implore Him for forgiveness. He is the Redeemer.

25:24
 So, this is the good news. We just have to be careful not to blow it this time. We blew it before a few times.

25:33
 This is our last chance, and we better not blow it. I want to complete the picture for you that ego, like I mentioned in the Khutba today,

25:41
 is not that somebody comes and slaps you in the face and you turn the other cheek. This is, this is not relevant to your spiritual salvation.

25:50
 We're talking about ego as far as God is concerned. We must kill our ego and that we have to do the Five Prayers, and regardless of what the people think, for example.

God controls your happiness and Misery. Believers don't care\not scared about blamers.

26:04
 Fast the month of Ramadan, regardless of what the people think. The people will not put you in Heaven or Hell. They will not save you.

26:10
 God is the One who will put you in Heaven, IN SHAA ALLAH. God is the One who will save you.

26:16
 God is the One who controls your kidneys and lungs, controls your health, your happiness. Directly, God says that in Sura 54.

26:24
 It says "God is the One who controls your happiness or misery." (53:43) وَأَنَّهُ هُوَ أَضْحَكَ وَأَبْكَى

26:30
 God is... This is the Arabic. Very clearly, God controls your happiness.

26:36
 Nothing else, your friends, your relatives, your parents, your children.

26:41
 Nobody controls your happiness or misery. God is the only One who controls happiness.

26:47
 Therefore, if you are wise or intelligent, you don't care what people say. You worship God and you don't care who blames you for it.

26:56
 One of the descriptions of the believers in the Quran "they don't worry about the blaming of the blamers."

27:04
 (5:54) وَلَا يَخَافُونَ عُتْمَةَ لَكُمْ blaming of the blamers

27:09
 You don't care about any blame.

27:15
 It's very important not to blow it this time. What?

27:23
 I'll give you the... (5:54) عُتْمَةَ لَكُمْ

27:41
 It's so difficult. Where did you find it?

28:02
 Just look at حَاف

28:15
 Edip: 5:54 Dr. Khalifa: 5:54? How did you do that? 5:54, Martha.

28:26
 5:54 says, [5:54] O you who believe, if you revert from your religion, GOD will substitute in your place people whom He loves and they love Him. People who are humble with the believers, but stern with the disbelievers, and will strive in the cause of GOD without fear of any blamer.

28:49
 There's, there's another verse also that is even clearer than this, but this is good enough.

28:55
 I'm glad we read this verse here. [5:54] O you who believe, if you revert from your religion,...

Shying away from our practises. It takes killing the EGO to be humble with the believers. Raised Mount Sanai explained.

29:00
 You know, when you shy away and you don't practice your religion, this is reverting.

29:07
 [5:54]GOD will substitute in your place people whom He loves.... God doesn't care.

29:13
 Only if you believe that He cares about you.

29:18
 [5:54]GOD will substitute in your place people whom He loves and they love Him. People who are humble with the believers, and stern with the disbelievers,...

29:26
 This is what I was talking about "if somebody slaps you in the face." You know, with the believers, you're a pussycat. But with the disbelievers, you're a lion.

29:39
 It takes killing the ego to be humble with the believers.

29:45
 And you don't fear any blamer. [5:54]Such is GOD's blessing; He bestows it upon whomever He wills. GOD is Bounteous, Omniscient.

29:59
 Let's go to 97. Gabriel Mediates the Revelation Yes, sir.

30:08
 A man: The verse "we raised Mount Sinai above you" (unintelligible).

30:18

Dr. Khalifa: Physically, physically raised the mountain on top of them like an umbrella.

30:26

Yep. That's one of the miracles.

30:31

They've seen miracles. Only two believed in the end. They're so bad. I mean, God raised the mountain on top of them as a sign that He is speaking to them

30:41

and made a covenant with them, the ten commandments.

30:49

I don't think it is in the Old Testament. Some of the miracles disappeared, probably they didn't believe it or they just dropped out for some reason.

30:59

I don't remember seeing it. Dr. Khalifa: What do you wanna say? Edip: The raising mountain can be in a way that we made mountains that gives you shadow.

31:07

Dr. Khalifa: No, no, no. It says, (7:171) **طَلَّةٌ**. Dr. Khalifa: like umbrella. Edip: Oh, yes.

31:12

Dr. Khalifa: Yes. Yes. Edip: We discussed this (unintelligible). I didn't get this that umbrella.

31:18

Dr. Khalifa: See how difficult it is to believe? Edip is wondering if it is some other raising. Edip: No, no. A man: We were going over the Turkish translation. Dr. Khalifa: Yes.

31:25

A man: He was, so he translated right. I didn't (unintelligible). Dr. Khalifa: umbrella. Yes. Edip: Yes. Dr. Khalifa: Yes.

31:30

Dr. Khalifa: In another place, God said "I raised the mountain on top of them like an umbrella." See, how the umbrella covers you?

31:35

Edip: I can't believe it. Dr. Khalifa: Yes. A man: So, it was another miracle. Dr. Khalifa: Yes.

31:43

Dr. Khalifa: It's a miracle and it's also like a gun to your head.

31:50

Edip: In the desert, they need shadow. Dr. Khalifa: Yes.

32:04

Dr. Khalifa: Who's this?

32:13

What did you say, Donna? I'm sorry.

32:20

Yes, yes, exactly. Twice in the Quran, it is mentioned.

32:28

It can be also the day of the umbrella. **طَلَّةٌ**. It's a good... do you have it in Turkish? **طَلَّةٌ**. Shadow?

32:37

Edip: (unintelligible) yes. Dr. Khalifa: (unintelligible) Edip: (unintelligible) yes.

32:42

Dr. Khalifa: 97. Gabriel Mediates the Revelation

32:50

[2:97] Say, "Whoever is an enemy of Gabriel should know that he has revealed this (Quran) into your heart, in accordance with GOD's will, confirming previous scriptures, and providing guidance and good news for the believers."

"Muslims" disregard God's scripture.

33:03

[2:98] If one opposes GOD, His angels, His messengers, Gabriel and Michael, then GOD opposes the disbelievers.

33:10

What a trade. 99. [2:99] We have sent down to you clear revelations, and only the wicked will reject them.

33:19

[2:100] Is it not a fact that whenever they make a covenant, some of them will violate it? Indeed, most of them do not believe.

33:28

Proof of Disbelief. When a messenger came from God,... [2:101] When a messenger from God went to them confirming what they have, some followers of the scripture disregarded GOD's scripture behind their backs, as if they never had any scripture.

33:43

Now, if this is applicable to the Jews, for example, why did GOD put it here in the Quran?

33:53

Because all the interpretation and understanding is that this is directed to the Jews, which is perfectly alright.

34:01

Dr. Khalifa: But why did God put it here? It's for us to read, right? A man: Sure. Dr. Khalifa: And to learn from this, and because this will be done by so-called Muslims. This is exactly what's happening today.

34:13

[2:101] When a messenger from God went to them confirming what they have, some followers of the scripture... This includes Jews, Christians and Muslims.

34:21

[2:101]disregarded GOD's scripture behind their backs, as if they never had any scripture.

34:33

The announcement that I mentioned today at the Khutba does not have the name of God in it whatsoever.

34:40

It does not have IN SHAA ALLAH. It does not follow the Quran. There is no Quran in it at all, and anyone can look at it.

34:47

So, they completely disregard God's scripture. God tells you "you must say "God willing" when you say "we will do something.""

34:56

And when we wrote about our conference, for example, we said "IN SHAA ALLAH." We said "God willing."

35:03

Because the Quran dictates that as a commandment. You must say "God willing" if you're gonna talk about the future.

35:11

And let the people...Ok. This is where you don't feel the blaming of any blamer. If they're gonna laugh at you because you said "God willing," let them.

35:18

I mean, what will happen to you if they laugh at you? They cannot control your happiness or health.

35:25

So, you say it with courage and enthusiasm, whether it is your boss or your professor.

35:33

Yes. Right. Yes, exactly.

35:38

In fact, this is the whole idea. A woman:remember God when we're busy. Dr. Khalifa: You're delivering a message when you do that.

35:44

Dr. Khalifa: You're reminding the people that there is a God, because they say "wait a minute."

35:49

You know, he's just saying to a guy in the market. "I'll come back for the tomatoes, God willing, in two hours."

35:56

And they will, they will, they will... This reminds them that there is a God.

36:01

You're doing the job. And you're benefiting your own soul.

36:07

So, they completely disregard the scripture. 102. Witchcraft.

36:15

[2:102] They pursued what the devils told them concerning the powers of Solomon.

36:21

Remember moving the palace from one place to place, 2,000 miles or something, 1,000 miles?

36:27

Of course, this is one thing that we know about, but there were other powers that the jinns did for Solomon.

36:36

There were movies made about Solomon, and the treasures of Solomon, where they shot some of these superhuman things.

36:44

[2:102] ...Solomon, however, was not a disbeliever.... In other words, he did not abuse the power that God put at his disposal.

36:53

[2:102]while the devils are disbelievers. Thus, they taught the people witchcraft.

36:58

What is witchcraft and magic? It's using the jinns.

"Witchcraft" explained, uses the Jinns.

37:05

It's no big deal, actually. I think you go to the library and learn magic, witchcraft. There are many books on witchcraft.

37:14

In fact, you don't need any books. You can sit in a room and talk to the jinns until they respond to you if you want to get in trouble, because they are in the same room with you.

37:26

And if you talk to them long enough, some rascal jinn passing by who wants to have some fun will respond to you.

37:34

And like Sura 72 tells us, they will give you trouble in the end because they're much more powerful than you. I can tell you that.

37:41

So, you can imagine an invisible lion passing by and you're trying to pet him or something.

37:51

But he's invisible. They're much, much more powerful than the lion.

37:57

So, it doesn't make sense that they will be your slave. They will fool you for a while. They will do certain things for you.

38:03

And this is why those people that you see on the TV, they don't last.

38:09

Because jinns will not serve them for too long. Maybe a few months and then they disappear. Otherwise, it would have been a big hit.

38:17

And I remember one of them, when the election was between Carter and Reagan,

38:23

this ESP fellow, using the jinns, was on the Today Show two weeks before the elections.

38:32

And he gave Jane Pauley, is that her name? A woman: Yes. Dr. Khalifa: Yeah.

38:38

Dr. Khalifa: He gave her an envelope, sealed envelope. And he said "this envelope will have who won the elections and how many votes," if it is Reagan or Carter, and how many votes.

38:48
 "I will come back on the election. The next day of the election, we'll open the envelope and you're gonna see in it the winner and the number of votes."
 38:57
 Unfortunately, I didn't see that program, but he probably came and they probably opened the envelope and saw that the winner was Reagan and how many votes. So, how did that happen?
 39:07
 They show you on TV somebody who's standing on a stage and some person in the audience
 39:12
 will take his wallet out and this fellow on the stage will read what's in the wallet, the money, the driver's license.
 39:20
 How does he do this? He's using jinns. Now, this is fantastic, right?
 39:25
 And it should be a show that will last for 10 years, but they don't. Because the jinn will go read the wallet and will come and whisper it in his ears and he read the
 39:33
 thing and everybody will be impressed. But next week, when he wants to use the jinn again, the jinn will say "wait a minute, who do you think you are?"
 39:43
 And they will not cooperate. Sura 72.
 39:48
 Usually it is the last time you see them on the TV. The jinn is having fun, you know, national TV, you know, impressing the audience and all that, but they don't last.
 40:04
 For one thing, they can take a trip that is 10 light years away, then they lose their cooperating entity.
 40:13
 So, I wanna go back to 102. [2:102]Solomon was not a disbeliever, while the devils are disbelievers. Thus, they taught the people witchcraft that was sent down through the two angels of Babel, Haroot and Maroot.
 40:30
 [2:102]These two did not divulge such knowledge without pointing out that "This is a test. You shall not abuse such knowledge."
 40:38
 So, God actually sent the knowledge to the planet earth as part of the test to see who's gonna use it, who's gonna abuse it.
 40:47
 And as you know, a lot of people do abuse it. You should come to Egypt and see what they do.
 40:54
 [2:102]But the people used it in such evil schemes as the breaking up of marriages. They can never harm anyone against the will of God. They learn only what hurts them, not what benefits them,
 41:12
 [2:102]and they knew full well that whoever practices such evil will have no share in the Hereafter. Miserable indeed is what they sold their souls for, if they only knew.
 41:24
 So, when you hear about this phenomenon in the newspaper, you understand exactly what is happening.
 41:29
 103. [2:103] Had they believed and led a righteous life, the reward from GOD would have been far better, if they only knew.
 41:39
 Twisting the Words of Supplication [2:104] O you who believe, do not say, "Raa'ena"* (be our shepherd). You should say, "Unzurna" (watch over us), and listen. The disbelievers have incurred a painful retribution.
 41:54
 You can generalize this. If there are words that sound like bad words, you don't have to use them.
 42:01
 It's better to avoid them. So, this doesn't apply to people who do not speak Arabic, but it will apply as a general rule.
 42:14
 I was talking to somebody the other day about... I was talking to Robert actually, about university degrees and so on, and I repeated the word BS a lot.
 42:25
 But this word BS sounds like a bad word in the general language. "Oh, you can get a BS by doing this and that, and studying this and that."
 42:33
 It means a Bachelor's degree. Dr. Khalifa: But BS has other meanings. So, it is better to avoid using those words.
 42:40
 Cisco: But it's actually what it is. Cisco: It's BS.
 42:46
 Cisco: Because I mean... Dr. Khalifa: Yeah, tell us about it, Cisco. Cisco: You know, because people could be graduating in science, and they could run a business.
 42:55
 Or it could be the opposite way. Cisco: They could be graduating in business and going to work in a field application which is BS. Dr. Khalifa: Yes, exactly.
 43:01
 Dr. Khalifa: It's a bunch of BS.
 43:07
 Dr. Khalifa: I'm just giving an example. Where is Robert? I thought Robert was here.
 43:15

Oh, Robert is there. Ok.

43:20

105. Jealousy Condemned

43:26

[2:105] Neither the disbelievers among the followers of the scripture... like Ba-Yunus

43:31

[2:105] ...nor the idol worshippers wish to see any blessings come your way from your Lord. However, GOD showers His blessings upon whomever He chooses. GOD possesses infinite grace.

43:47

I think I'm very proud of Apamea and Naghmeh, for example, because they went through so much jealousy and people harassing them about going to Masjid Tucson.

44:01

But they steadfastly persevered. And this is why they're in for lots of rewards, IN SHAA ALLAH.

44:10

Hey, Naghmeh, how come every time I call Edip's house, you answer the phone? I mean, your sister is married now.

44:20

Mā Shā Allāh

44:25

I love it, though. It's beautiful. Naghmeh: It's her voice that sounds like mine. Dr. Khalifa: Is that right? Maghmeh: Yeah.

44:37

Dr. Khalifa: See, they are cooperating. Well then, how do you explain it when Apamea is here and I call and you answer?

44:48

Well, as long as you don't keep Edip on the couch outside in the living room, it's Ok.

44:57

106.

45:05

'Alaykum Al-Salaam

45:10

A man: (unintelligible) Haroot Dr. Khalifa: Yes.

45:23

Dr. Khalifa: They brought the knowledge of witchcraft to the planet Earth. And they taught a few people.

45:31

And they spread it around until it was imported to Boston, Massachusetts.

45:40

How long ago was it? A hundred years? The witches?

45:46

Yes. It's just, you know, God sends information to the Earth through angels.

45:54

And Haroot and Maroot happen to be the angels who carried the knowledge about witchcraft, here.

46:00

Because it's a definite science. I mean, you have to stand somewhere and draw a triangle and throw some chicken...

46:10

....do that will lure them.

46:17

A man: Some patients, not a lot of, some patients in psychiatric facilities have called it one jinn. Dr. Khalifa: Yes.

46:25

A man: In any psychiatric facilities, they become victims. And when you walk around in the buildings,

46:31

you can definitely see they're possessed. And anyone you see (unintelligible) everyday.

46:41

Dr. Khalifa: Yes, we do hear about all these phenomena a lot but there are people who actually practice witchcraft and that originally came down through these two angels, Haroot and Maroot. So, you know everything about it. Question?

46:57

Edip: Rashad, I wanna say something about "Raa'ena." Dr. Khalifa: Yes.

47:02

Dr. Khalifa: Oh, my goodness

47:14

Dr. Khalifa: Go ahead. Edip: About word "Raa'ena" in verse 104, be our shepherd,

47:19

the word by itself is not a dirty word, but the meaning... Dr. Khalifa: Hebrew it was. Do you know Hebrew?

47:26

Edip: I don't know Hebrew. Dr. Khalifa: So, how do you know it's not a dirty word? Edip: Let me. My understanding, I don't know if it's correct or not, "Raa'ena" means "be our shepherd" and

47:38

Edip: those people that who used this accept themselves as sheep and... Dr. Khalifa: No.

47:43

Edip: This is... Dr. Khalifa: No, it's in Sura 4, you see, if you look at 4:46... Edip: Yes. Dr. Khalifa: But let's not look. I don't wanna waste time on this one. But it's just, in the Hebrew language, it sounds like a dirty word.

47:56

Dr. Khalifa: Pardon? Dr. Khalifa: "Raa'ena" is Arabic. But you can say an Arabic word that's dirty in English and vice versa. Yes

48:14

Why are we laughing, Emily?

48:22

Dr. Khalifa: Yes, Naghmeh. Cause I remember your incident with Ihsan, Naghmeh. Naghmeh: I didn't know.

48:33

A woman: I know that nothing happens because of (unintelligible). And here, because they used their evil in breaking of the marriages. They can never harm anyone against the will of God.

48:49

So, (unintelligible) people (unintelligible) God willed it to happen. I mean, I don't understand like how that could be used.

48:58

Dr. Khalifa: Ok. You're forcing me to give you a real life story. Dr. Khalifa: Ok, there's a person who uses witchcraft and tried to harm me in this way and the jinn, that was supposed to come and

Dr. Rashad Khalifa explains an incident of Witchcraft against him.

49:13

hurt me, came here and my... we all have guards, angels.

49:20

And this was against the will of God. So, the angels told the jinn "what are you here for?" He said "we're here to hit Rashad." He said "ok, you go back and hit the person who sent you."

49:31

And the jinn did and sure enough that person called on the machine here and she was almost dying.

49:38

So, it backfired on her. But this is an example of "they cannot harm anyone against the will of God." Did that confuse you more?

49:47

A woman: No. Dr. Khalifa: Ok. This person practiced witchcraft from, from a country that is famous for witchcraft.

49:59

And she was trying to stop me. So, she practiced witchcraft on me but what happened was that the jinn that was supposed to carry out that,

50:08

since it is against God's will, I didn't deserve it, I didn't do anything wrong on that day, on that day,

50:13

the jinn was sent back and did that thing to that person and she almost died. And we have a few witnesses.

50:23

A woman: Are we talking about real witchcraft? Dr. Khalifa: Real. This is real witchcraft. I'm telling you. She almost died. She was paralyzed.

50:31

What country? Haiti. Haiti. Haiti is full of voodoo. And voodoo, for example, is that real? Is voodoo real?

50:41

It is real and it is jinn. When you make a doll that looks like Muhtesem, and you get a pin,

50:52

and the jinn... now the jinns, as you know, are very fast. They see that you're poking,

50:59

pulling his ear, for example, so they go and pull his ear. This is the mechanism of it.

51:04

It's real. I mean, this is what the Quran is teaching us. Yes. A woman: So, if two people get divorced, does that, you know,... I mean,...

51:15

Dr. Khalifa: Well, everything, ultimately, is the will of God. Ok. But I want you to understand this that bad things are from us.

51:21

Good things are from God. For example, I use the example of the fire. If you turn the stove on, it is God's law that if you put your finger in the fire, it will hurt, right?

51:30

It's God's law. So, it is the will of God that if you put your finger in the fire, it will hurt.

51:35

But if you use the fire to cook your burned rice, the Iranian people burn rice at the bottom,

51:41

they don't know how to cook rice. You can use the, you can use the fire...

51:48

A woman: (unintelligible). A woman: (unintelligible) their faces (unintelligible).

51:58

A man: I know the Persians (unintelligible) Dr. Khalifa: That's my favorite part, the burned rice.

52:04

Dr. Khalifa: You know, at first, they were saying "the dumb guy, you know, he doesn't think we do it on purpose." But anyway, so you can use the fire to cook your food or to burn your finger.

52:13

So, if you use it to cook the food, it's from God. If you burn your finger, it's from you because you decided to put your finger in the fire.

52:21

But not every people who are divorced are because of witchcraft. However, they do use witchcraft for this.

52:26

If it is in accordance with God's will, if these people are out of God's protection, the jinns will bother them.

52:35

But you are... when you are in God's protection, nothing can touch you. They cannot touch you. A woman: But what if individuals have tried to, you know, hurt, you know, two other people and they were hurt for a while and then they got better and then the other person (unintelligible) on them.

52:49

You know, and they were ultimately the ones (unintelligible). They were hurt, you know for the time being. Dr. Khalifa: Yes.

52:56

A woman: I don't if it was witchcraft or not but whatever... Dr. Khalifa: That was in accordance with God's will, they were not protected at the time for some reason.

Angels guarding you are much stronger than the Jinns. Most people are out of God's kingdom. When you miss a Prayer (salat) you are out of God's protection. "Pinches" controlled by God. Talk of the EVIL eye.

53:05

But this day, they can repent any time. They can join God's protection any time. Then, the jinns who are bothering them will not be able to do anything anymore.

53:16

When you're in God's Kingdom nothing can touch you. This is the message that we've been living it. We've been living it for 11-12 years now.

53:27

So, our confidence is increasing. It is now absolute when God tells you "I guarantee you perfect happiness, perfect health perfect wealth," God means it and He does it.

53:40

So, using the jinns... remember the angels who are guarding you are much stronger. But if you're out of God's protection,

53:47

if you're a... the person is bad and is against God and an idol worshipper, the angels who are guarding him hate him.

53:55

So, when a jinn comes to slap him on the face, they say "yeah, be my guest." This is what the mechanism is of being out of God's protection.

54:06

Right They're not protected if they are not strong believers. It is... Most people are out of God's protection. It's basic.

54:16

And it takes discipline, strength and worshipping God, practicing in order to be protected.

54:25

Remember the verses in Sura 41. It gives you the conditions of being in God's protection.

54:35

Page 480. Verse 30. It says,

54:42

[41:30] Those who say: "Our Lord is GOD,"... We say "our Lord is God alone." But that's not all.

54:48

[41:30]then lead a righteous life,... So, it takes discipline and work, worshipping God, the Five daily Prayers.

54:57

In fact, when you miss a Prayer, you're out of God's protection even though you're a believer.

55:02

When you miss a Prayer, you're out of God's protection but God puts limits though on how much you pay, how hard the pinch is. We learn this very well from the Old Testament and the Quran

55:17

that God puts limits on the jinns, Satan, your enemies. So that you don't get more of a pinch than you deserve. So, when you miss a Prayer, you get a pinch.

55:31

This is how we come to realize that God runs the world, controls everything. A woman: About the witchcraft, isn't it when you give credit, like, to stuff like the evil eye, I mean, I think people actually help burning incense for evil eye, like,...

55:53

Dr. Khalifa: This is all over the Middle East. Yes. A woman: I mean, come on, this is (unintelligible)

56:02

It's kind of like witchcraft but you're giving the jinns the credit (unintelligible) Dr. Khalifa: You are absolutely right, and he knows that, too.

56:09

A woman: Oh, yeah, he knows that but (unintelligible). I thought they were crazy by burning incense, I'm like, (unintelligible) the baby. "What are you doing?"

56:16

A woman: And he's like "no." He didn't (unintelligible). Dr. Khalifa: Right. Yes. Dr. Khalifa: It's funny how they... this is all over the world. They believe that. Yeah, all kinds of strange things

56:25

A woman: Yeah, (unintelligible). Dr. Khalifa: It had to be seven times, did you count?

56:33

Dr. Khalifa: I'm sure they did it seven times anyway. Then, they took the baby. That was their grandchild.

56:40

Ok. The Ultimate Miracle: The Quran's Mathematical Code* 106.

56:46

[2:106] When we abrogate any miracle, or cause it to be forgotten, we bring a better miracle, or at least an equal one. Do you not know that GOD is Omnipotent?

56:56

[2:107] Do you not know that GOD possesses the kingship of the heavens and the earth; and you have none besides GOD as your Lord and Master?

57:05

[2:108] Do you wish to demand of your messenger what was demanded of Moses before? Anyone who substitutes disbelief for belief has truly strayed off the right path.

57:17

The... [2:106]Do you not know that GOD is Omnipotent?

57:23

When this miracle, this mathematical miracle, this long sheet on the wall over there, which is a very

57:28
tiny fraction of the miracle is just too awesome for words. And it's a very simple thing thing, but it teaches that God is Omnipotent.

57:46
I just, I can't describe it in words. How can you manipulate the numbers in this way? The physical structure of the Quran 114 Suras, every Sura is a specific number of verses.

57:58
And you put these numbers in any combination, and it comes out a multiple of 19. It's almost a physical impossibility. Followers of the scripture would want you to disbelieve.

58:05
Of course, it is not a physical impossibility because we see it, but for the humans and the jinns, it is a physical impossibility.

58:13
God's greatness is indescribable.

58:21
And God is telling us that those miracles of Moses and Jesus are nothing. God can bring better miracles.

58:30
[2:109] Many followers of the scripture actually wished to revert you, now that you have believed, into disbelievers. This is due to jealousy on their part, after the truth has become evident to them. You shall pardon them, and leave them alone, until GOD issues His judgment. GOD is Omnipotent.

58:50
Those idol worshipping Sunnis, for example, they would rather see you a Christian or a Jew or an atheist than what you are now, a believer.

58:58
They would rather see you disbelieve. And this was reflected very clearly when at the meeting in Los Angeles,

59:06
when this guy gave a research, a lecture, saying that the Quran was hallucinations of Muhammad,

59:14
and I stood up. I stood up and I gave the evidence that the Quran is from God.

59:20
Who did they attack? Actually, they're same people who are meeting in Chicago next week. They attacked me. They didn't attack the other guy who said "the Quran is hallucination."

59:29
They attacked the guy who says "the Quran is from God." They would rather see me say "the Quran is hallucination of Muhammad."

59:40
So, the Quran is really accurate in describing them. 110.

59:47
This is a commandment to you and me. [2:110] You shall observe the Contact Prayers (Salat) and give the obligatory charity (Zakat). Any good you send forth on behalf of your souls,...

59:57
Dr. Khalifa: ...will end up in your, what is it, PRA? A woman: PRA. Dr. Khalifa: PRA. Post Retirement Account.

1:00:03
[2:110]you will find it at GOD. GOD is seer of everything you do.

1:00:10
Now, I know for a fact that it takes time to complete, to do the Contact Prayers, all five of them.

1:00:24
But be sure you go, you move forward, you always move forward. For example, you may start by doing the Morning Prayer, especially the young people. You may start by doing the Morning Prayer, only.

1:00:37
But be sure that you move forward, not backwards. So next time, you do the Noon... the Morning and the Night Prayer.

1:00:44
That's two of them, for a while, for a few months, maybe. And don't be discouraged that you cannot do the others. Then, you do the Morning, the Night, and the Noon.

1:00:54
As long as you keep growing, you'll do alright, but don't hear this commandment and ignore it.

Observing Salat – "Muslims" says Jews and Christians will not go to heaven. Jews and Christians lost Salat.

1:01:05
[2:110] You shall observe the Contact Prayers (Salat) and give the obligatory charity (Zakat).

1:01:12
You can't keep ignoring it. This is God ordering you to do this, the Five Prayers.

1:01:21
This is really the minimum that we can do. And it helps you a lot. You come a long way towards having God as your god. Just the Five Prayers and you come a long way.

1:01:34
And as I mentioned repeatedly before, God wants the strong and the disciplined in His Kingdom. He does not want the lazy ones.

1:01:42
God wants the strong and the disciplined who can do the Five Prayers. You must force your body to do the Five Prayers every day. If you're not doing them, you're not being fair to yourself.

1:01:54
You're suffering too much, unnecessarily, because everything will be straightened in your life if you do the Five Prayers.

1:02:03
And you must be hard on yourself. Put your "self" on trial and tell yourself "you are bad, self. You must do the Five Prayers. Why don't you do the Five Prayers?"

1:02:14

You must keep after your self, until you do, carry out this commandment, 110.

1:02:22

But don't let Satan discourage you, as I said. As long as you move forward.

1:02:29

[2:110] You shall observe the Contact Prayers (Salat) and give the obligatory charity (Zakat).

1:02:34

And this is, the rest of the verse tells us that this is what you're depositing in your PRA.

1:02:39

This is what you benefit now. You receive interest now, fringe benefits.

1:02:48

[2:110]Any good you send forth on behalf of your souls, you will find it at GOD. GOD is seer of everything you do.

1:02:54

111. [2:111] They said, "No one will enter Paradise unless he is Jewish or Christian!" Such is wishful thinking on their part. Say, "Show us your proof, if you are truthful."

1:03:07

And the Muslims, so called Muslims, fall in the same trap. They say "the Jews and the Christians will not go to Heaven."

1:03:15

Well, the Quran tells us otherwise. It is... anyone who worships God alone will make it to Heaven.

1:03:22

The criterion is to worship God alone. There's a book circulating in the United States now

1:03:29

that was written in Saudi Arabia. And in it, they say "if you meet a Christian or a Jew, you must ask them to repent. If they don't repent, you must kill them."

1:03:40

This is in the book. Yes.

1:03:45

It's a book entitled "the Muslims believe." Imagine that.

1:03:53

It's unbelievable, right? I mean, I don't blame you if you don't believe me. But this is true. You can come and read it for yourself. I have it. I have the review of it on my desk.

1:04:04

It's incredible. Edip: Doctors. Dr. Khalifa: Yes. Both of them. Yes.

1:04:10

Edip: Doctors. The translator and the writer are both doctors from WAMY, World Assembly of Muslim Youth.

1:04:20

Edip: I was a member of WAMY. Dr. Khalifa: You were?

1:04:25

Dr. Khalifa: Edip used to be a member of WAMY. Don't worry. We all were.

1:04:38

Edip: Ahmad (unintelligible) Dr. Khalifa: Yes, of course. He was the first president of... Edip: Yes. Dr. Khalifa: I know him very well.

1:04:47

112, [2:112] Indeed,... Here's the answer. [2:112] ...those who devote themselves absolutely to GOD...

1:04:54

And it doesn't tell you if it's a Hindu or a Buddhist or a Muslim or what. [2:112] ...those who devote themselves absolutely to GOD alone, while leading a righteous life, will receive their recompense from their Lord; they have nothing to fear, nor will they grieve.*

1:05:08

This is similar to the verse 62 that names names says "the Jews, the Christians, the converts, the Muslims, any of them, who devotes

1:05:19

themselves absolutely to God and lead a righteous life, they will receive the recompense from their Lord. They have nothing to fear nor will they grieve."

1:05:26

The advantage that you have over the Jew or the Christian is that they lost the Contact Prayer.

1:05:33

You have the Contact Prayer. You have the complete message from God and you have the complete practices. Nothing was lost.

1:05:39

So, the difference is that it's like a person who's going to Boulder, Colorado without a map and a person who's going with a map. You have a map.

1:05:56

A woman: But they don't have the right map. Dr. Khalifa: They have a map from 1800. They don't even have the map. They lost it. Sura 19.

1:06:03

So, God says "He will give them credit for any worship that they do but it is the hard way. It takes longer. They don't grow at the same as you do.

1:06:13

Because what you're following... did you see the mathematical coding of Al-Fātehah? They don't have Al-Fātehah. God gave us this and it causes you to grow much faster, more efficiently.

1:06:23

But they're still... they get credit for worshipping God alone.

1:06:35

113. [2:113] The Jews said, "The Christians have no basis," while the Christians said, "The Jews have no basis." Although they both read the scripture.

1:06:45

Not the same scripture. Both of them read the scripture. [2:113] ...those who possess no knowledge have uttered the same kind of utterances. GOD will judge them all on the Day of Resurrection, regarding their disputes.

1:06:58

What does this say? It says, [2:113] The Jews said, "The Christians have no basis." The Christians said, "The Jews have no basis." Even though both read the scripture.

1:07:06

So, God is saying that you can reach God through either way as long as you or they worship God alone, devote yourself to God alone and lead a righteous life.

1:07:18

Did you say something? Edip: I said "those who possess no knowledge have uttered the same kind of utterances." They're just Muslims today.

1:07:24

Dr. Khalifa: Yes, exactly.

1:07:30

Dr. Khalifa: Yes, sir?

1:07:40

Dr. Khalifa: Yes, a few, quite a few. In fact, we passed... maybe coming up, and we passed a couple of them.

1:08:08

113. 114. You Shall Frequent the Mosques

1:08:13

This is why we are here. [2:114] Who are more evil than those who boycott GOD's mosques, where His name is commemorated, and contribute to their desertion? These ought not to enter therein except fearfully. They have incurred humiliation in this life, and severe retribution in the Hereafter.

1:08:32

So, we must encourage each other to frequent the mosque. The Quranic study is a perfect example. Of course, the people who need this advice are not here.

1:08:44

115 [2:115] To GOD belongs the east and the west; wherever you go there will be the face of GOD. GOD is Omnipresent, Omniscient.

1:08:57

You must also observe God wherever you may be,

1:09:02

in addition to coming to the mosque. Gross Blasphemy [2:116] They said, "GOD has begotten a son!" Be He glorified; never! To Him belongs everything in the heavens and the earth; all are subservient to Him.

1:09:16

Of course as we increase, our knowledge increases and we realize how vast our universe is,

1:09:22

and how vast the other universes are and that they're all in God's hand. With this knowledge, we realize how ridiculous such a statement is.

1:09:34

It's like... it's not even like that, but it's like saying "you're the father of a virus. Here's your son.

1:09:41

Go find an electronic microscope to see him, your dear son."

1:09:51

"Don't you love your son? Right here, at the tip of my finger," there are a few viruses probably.

Attains certainty one can see miracles.

1:10:01

So ridiculous.

1:10:06

[2:117] He is the Initiator of the heavens and the earth: to have anything done, He simply says to it, "Be," and it is.

1:10:13

[2:118] Those who possess no knowledge have said, "If only GOD could speak to us, or some miracle could come to us!" Others before them have uttered the same kind of utterances; their minds are similar. We do manifest the miracles for those who have attained certainty.

1:10:32

This is a very important principle. When you attain certainty, you see miracles.

1:10:39

119 [2:119] We have sent you* with the truth as a bearer of good news, as well as a warner. And you are not answerable for those who have incurred Hell.

1:10:52

I'm going to stop right here. Dr. Sabahi, are you gonna take the Quranic study next week?

1:10:59

Did you say only one? Huh? Okay. You don't wanna take the Quranic study as well?

1:11:07

Oh, you will not be here? Oh, okay.

1:11:14

Where is Laurie? You didn't come last week, right? You did?

1:11:19

Oh, I thought you had a football game or something.

1:11:26

In fact, I meant to call you the next morning. Then, I forgot.

1:11:31

Oh, okay. I thought I asked a few people, but anyway. So, Laurie will give us the Quranic study next week, IN SHAA ALLAH.

1:11:49

Are there any questions before we close this study?

1:11:56

It's okay, any general questions.

1:12:07

Was it the... Yes, it is Divine.

1:12:12

And it is Barā'ah (Ultimatum). No. It was Barā'ah until about a hundred years ago, when they changed it.

1:12:23

So, what I'm doing here is taking everything back to the original, including the names of the Suras. The names of the Suras are Divine.

1:12:33

No, I didn't need to, because it is known actually equally as Barā'ah and Tawbah, so I didn't need to, I didn't.

1:12:45

It probably does, probably does. But we're not aware yet of it. Because the names must stay the way they came down.

1:13:02

Let me see. The numbers of the Suras, yes. But the names...

1:13:08

Eidip: I have some significant news, but it's not all about the Suras.

1:13:14

Eidip: There are some Suras that the names of the Suras are related with some very interesting news. Dr. Khalifa: Yes.

1:13:20

Dr. Khalifa: I'm sure there are... I'm sure there will be, because everything in the Quran is mathematically coded.

1:13:25

So far we don't have anything established yet. Eidip: But this Sura, according to also traditional knowledge, also has two names.

1:13:35

It is Tawbah or Barā'ah. Some people use Barā'ah, but it's also Barā'ah.

1:13:41

Dr. Khalifa: Yes, it is well known as Barā'ah and Tawbah, but Tawbah is a strange name. It's a foreign name.

1:13:46

In fact, I see it here. We should have changed that to Arabic. Sorry about that. Yes.

1:13:53

In the next edition, I will change this Arabic name also to Barā'ah.

1:14:03

Yes. I'm sure there is some mathematical basis for it. That's a good question.

1:14:08

The names of the Suras were divinely inspired. This is why this is The Heifer (Al-Baqarah), for example, and not anything else.

1:14:16

Even though there are many important subjects in this Sura. But if you look at the old books, all of them say "Barā'ah," up to 100 years ago.

1:14:27

Then, this name Tawbah started to appear in less than 100-year-old books.

1:14:36

Any other questions? Well, let us... We're celebrating Apamea's birthday today.

1:14:46

Eidip: Did she born in two days? Dr. Khalifa: Well, her birthday was in the middle of the week, so she gets two Fātehahs.

1:14:54

Eidip: Mā Shā Allāh Dr. Khalifa: Also, it's a good excuse to have some cake.

1:15:00

It's nobody's birthday until... October 12 is Gatut, this year.

1:15:07

The next birthday is October 12. That's Gatut. So,...

1:15:13

You didn't know that, did you?

1:15:19

Yes. Yes. You want it for what? I forgot.

1:15:26

Very good. Ok, this is Al-Fātehah for Frank's trip. He have a good one. And Al-Fātehah for Apamea that may God give her a very happy year coming up.

1:15:36

And maybe a little one at the end of that year. IN SHAA ALLAH

1:15:44

And every year to be even happier, every year after that. Al-Fātehah

1:15:49

Bism Allah Arrahman Arraheem (1:1) Al hamdu Lillahi Rabbil 'Alameen (1:2) Arrahman Arraheem (1:3) Maliki Yawm Eddeen (1:4) Eyyaka Na'abudu Wa Eyyaka Nasta'een (1:5) Ehdina Al-Serata Al-Mustaqeem (1:6) Serata Al-Lazeena An'amta 'Alayhim Ghayri Al-Maghdoobi 'Alayhim Wa Laddaalleen (1:7)

1:16:07

Congratulations. God bless you. Very fortunate. You're a fortunate believer. Mā Shā Allāh.

1:16:19

Bism Allah Arrahman Arraheem In the name of GOD, Most Gracious, Most Merciful.

1:16:25

Congratulations for reading the Quran. And congratulations on starting with the new translation.

1:16:35

And I want to tell you right now that this was made obsolete before it came out of the press.

1:16:44

Which is a very great sign that we must be congratulated about. Because we are advancing faster than the press can work.

1:16:52

For example, you see, you see the title page, down this is "Islamic Productions Tucson."

1:16:58

The next edition, "The United Submitters International, Tucson", for example, just to give you an idea of why this was obsolete before it came out of the press.

1:17:06

And throughout the translation, "Islam" would be "Submission." And "Muslim" will be "Submitter."

1:17:12

And the translation will be universalized.

1:17:19

It is not appropriate. This word, production, is not appropriate. Islam is Arabic. Production is English.

1:17:29

In Arabic, we call the Christian person Nasrani (نَصْرَانِي) But when you say Christian productions, you don't say Nasrani productions. You say Christian productions. The whole thing is English.

1:17:41

Also, this is a stage. You can see that God wants to put the whole world to test.

1:17:51

When the miracle of the Quran appeared first, the title was "The Perpetual Miracle of Muhammad."

1:17:57

It was in Arabic "(unintelligible) معجزة محمد" And it was distributed as such.

1:18:04

I still have the labels as such, but the Arabs and the Muslims still do not understand the miracle.

1:18:14

So, it is not the current excuse that Rashad Khalifa has gone crazy or whatever excuses they used are not true, are not accepted.

1:18:24

They don't... Even if they say "we don't accept this miracle of the Quran because Rashad Khalifa is crazy." They cannot do that.

1:18:31

Because, initially, the miracle was titled "The Miracle of Muhammad, The Perpetual Miracle of Muhammad" which is true because it came through the Prophet Muhammad.

1:18:39

God sent it to the world through the Prophet, in the Quran, and was there the whole time.

1:18:45

And still the Arabs, as you see from the last issue, mainly the Arabs could not understand it, were not permitted to understand it.

1:18:53

And then, it progressed. God willed that it progresses and it became universalized. It became just (unintelligible) the miracle.

1:19:02

And it didn't matter how they accepted it or not. Same with the first translation and with this translation, they cannot say "this is off", you see.

1:19:12

They can look on the spine of the book and it says "Islamic Productions" on there and also it says "the Only Religion acceptable to God is Islam."

1:19:22

I mean, just go flip a couple of pages, see "proclaiming one religion for all the people."

1:19:30

And you can see the translation in the first rectangle saying "the Only Religion acceptable to God is Islam."

1:19:36

So, even though it is very clearly in harmonizing with their language, you will note pretty soon that they don't accept this translation

1:19:45

because God wants to prove something, prove their defiance, regardless of... Even if you agree with them.

1:19:54

Because even if you agree with them and you present the truth to them of worshipping God alone and upholding the word of God alone, they're just not having it in their hearts.

1:20:03

And God will not allow them, does not permit them, as we read in many, many verses in the Quran. God does not permit them to accept the truth.

1:20:13

In Sura 43, we're told that on the Day of Judgment, they will say to guardian of Hell "Let your Lord finish us off."

1:20:23

And the Guardian of Hell, the angel of Hell will tell them "No, you're gonna stay like this forever."

1:20:28

"We have brought the truth to you, we have presented the truth to you, but most of you hate the truth."

1:20:34

Which is true, they really hate the truth. It is something that was incomprehensible.

1:20:40

How can people hate the truth? But it happens, they demonstrate it continuously, they hate the truth.

1:20:47

And they will hate anything to do with God, or anything to do with the truth.

1:20:53

And they want to stay away from it as far as possible. And this is documented in the Quran.

1:20:59
So, this is why, I'm just trying to explain to you why this was obsolete before it came out of the press.

1:21:07
It's also, every step of this book, every step was guided by God. And we had many, many signs that we'll be talking about in the future, from now on.

1:21:16
But I want to share with you the last sign about this book.

1:21:22
I was supposed to pick it up from the press on the 18th, Friday the 18th, which is the last day of the week.

1:21:28
And this was done 50 days before that time. We submitted the originals and they put the schedule and it was scheduled to be released on the 18th, which is the end of the week.

1:21:42
On the 17th, when I called, I said "OK, I'm coming to pick it up." They were very apologetic and they said they will work the weekend because the book will be finished on the 19th, which is a Saturday.

1:21:56
So, this is another vital sign because there are so many departments.

1:22:01
As you see from the book, it's a big printer. It is the same printer that prints books for the University of Arizona Press and to some of the most famous universities around the country.

1:22:13
And there are many departments and every department has its own problems and delays and so on, but the book was finished on the 19th.

1:22:21
And on the 19th, I was in Washington, D.C. and I was driving with Ihsan.

1:22:28
I just decided to be a tourist. So, I went out to the tourist areas, Lincoln Memorial, Washington Memorial, the Capitol and so on.

1:22:36
And we were just leaving Lincoln Memorial, driving back to Ihsan's house.

1:22:42
And all of a sudden, all the license plates... now this may be superstition, but God gives us messages through our superstitions.

1:22:51
I want you to know this, too. From my experience, and probably you all had these experiences. If you were superstitious, for example, that if you wake up in the morning and see a butterfly

1:23:00
standing in the northern corner, northwest corner of your house, in the roof, this means you'll have a good day.

1:23:07
Ok. This is superstition. Then, God will speak to you through that superstition and you'll have a good day.

1:23:12
If God wants to tell you so, He'll send you a butterfly in the northwest corner of the roof of your house. That's what you know.

1:23:19
So anyway, about 1 o'clock on Saturday, 19th of August, and I was driving back from Lincoln Memorial, and all of a sudden

1:23:28
all the license plates around us, almost all of them were divisible by 19 on both sides people parked and in the cars parked on both sides.

1:23:36
And it was really a very strange phenomenon. I've never in my life seen so many divisible numbers of license plates.

1:23:43
I said "what is going on? What is happening?" I said "what is this?" And then we came to a street that is only about 6 or 7 blocks from Ihsan's house called Reed.

1:23:53
The street, the name of the street is Reed. And in the corner is Perpetual Savings. We have also two people from Washington, D.C.

1:23:59
Do you know the area, Gale and Mobile? Perpetual Savings on Reed Street, and the first car in front of us that's gonna turn left is number 114.

1:24:08
I said "this is it. The book is being finished now. So, I'm gonna check with the press." I said "this is it. It must be that the book is being finished now."

1:24:16
And sure enough, when I went there, I said "I'm curious. When did you finish yesterday? You know, You worked on the weekend. I really appreciate it. What time did you finish?"

1:24:24
"Oh, between 1 and 2 o'clock." I said "hmm, we knew that."

1:24:29
So, that was the last sign. So anyway, every step of this, when you find any typing errors or anything, you can be

1:24:38
sure that they are designed by God, because God creates loopholes for the disbelievers who insist on going to Hell.

1:24:48
And so every step of this book was designed by God. And this fits in with Edip's Khutba today, by the way.

1:24:56
If you find any, already Emily found a minor mistake where I forgot to put Arabic, the Arabic word next to it.

1:25:09
So, all these things are guided by God.

1:25:15

I think it is in the beginning of Sura 7. I wanted... The first verse I wanted to look at in the new translation is in Sura 7 at the beginning, or 6.

1:25:27

6 or 7. I'm gonna find out exactly the Sura... the Sura and the verse number.

1:25:38

Dr. Khalifa: Give me just a second. I'll find it. Right. Yeah. Edip: Definitely.

1:25:43

Dr. Khalifa: Sura 6, verse 9. Ok? Let's read it together. Sura 6, verse 9.

1:25:55

The top of page 129. Subtitle is "Requirements of the Test."

1:26:04

And it says, [6:9] Had we sent an angel, we would have sent him in the form of a man, and we would have kept them just as confused as they are confused now.

1:26:13

So, that was Edip's Khutba today. God said "Even if I sent an angel, I will send him in the form of a human being,

1:26:19

a goofy one, and confuse the heck out of them just as they are confused now."

1:26:26

So, it is a requirement that God... number 10 says, [6:10] Messengers before you have been ridiculed. Those who mocked them had incurred the consequences of their ridiculing.

1:26:38

It's because the disbelievers God creates these loopholes for the disbelievers to perfect it.

1:26:44

If God sends an angel, the whole world will believe. If there is an angel who is mighty and strange looking, has these powers and so on, what is the big deal? What is the test?

1:26:57

But we are fortunate in that sense that, that we are passing very difficult tests at very special times and I am passing them along with you

1:27:07

and telling you because more than 90% of the time, I am required, just as you are

1:27:12

to believe certain things that I did not know before in the past.

1:27:17

So, I know it is very difficult. In fact, I probably was the, the most lax of power among... there were many of you who may have more courage than me because for eight years I was a secret, a secret agent.

1:27:41

Even now I can't bring out the word. So, it is just as difficult. I realize how difficult it is. So, congratulations to all of you.

1:27:48

You're very... you're very fortunate people. Alhamdu Lillah. I know you know it.

1:27:54

Okay, we'll just take the book from the cover. A woman: I have a question. Dr. Khalifa: Yes.

1:28:02

Dr. Khalifa: Oh, we planned it this way for a long time. No. That's another good sign, you know, cause

1:28:08

Here, well, the first time we got hold of the new Quran, we were starting from the beginning of the Quran.

1:28:18

Dr. Khalifa: ISBN. A woman: ISBN.

1:28:29

Dr. Khalifa: Oh, yeah. I see. Wow. Did you tell me this before? No, you already forgot it, but this is really something.

1:28:37

Yeah. The ISBN number, this stands for International Standard Book Number.

1:28:45

And it is a unique number that no other book in the world has it. So, I guess if you add 934894 plus 57 plus 1, you get a divisible number. We didn't plan it. We didn't design it this way.

1:28:58

Okay.

20 Quran Study From Behrouz 1020 Sura 3 By M Sabahi Insurance Fear Worry

Dr. Khalifa: أَعُوذُ بِاللَّهِ مِنَ الشَّيْطَانِ الرَّجِيمِ We seek refuge in God from Satan

0:05

I ask God to keep him away from us. We are his prime targets.

0:12

Bism Allah Arrahman Arraheem In the name of GOD, Most Gracious, Most Merciful.

0:20

We're on page 51. Sura number 3, starting at verse 10.

0:28

And our teacher is Dr. Mahmoud Sabahi.

0:34

Dr. Sabahi: أَعُوذُ بِاللَّهِ مِنَ الشَّيْطَانِ الرَّجِيمِ Bism Allah Arrahman Arraheem

0:42

As usual, I ask God to help me and all of us to understand that we are better and better every day.

0:53
If you don't mind, I would like to start from the beginning of the Sura.

0:59
For the specific reason of Aya 7. Aya 7 that we didn't get a chance to talk too much about it last night.

1:08
Bism Allah Arrahman Arraheem [3:1] A.L.M.* [3:2] GOD: there is no god except He; the Living, the Eternal.

1:18
[3:3] He sent down to you this scripture, truthfully, confirming all previous scriptures, and He sent down the Torah and the Gospel

1:27
[3:4] before that, to guide the people. He sent down the statute book. Those who disbelieve in GOD's revelations incur severe retribution. GOD is Almighty, Avenger.

1:41
[3:5] Nothing is hidden from GOD, on earth, or in the heaven. [3:6] He shapes you in the wombs as He wills. There is no god except Him; the Almighty, Most Wise.

1:54
[3:7] He revealed to you this scripture, consisting of straightforward verses—which are the essence of the scripture—as well as multiple-meaning verses. Those who harbor doubt in their hearts will pursue the multiple-meaning verses to create confusion, and to seek different meanings...

2:14
[3:7] ...No one knows their true meaning except GOD and those who possess knowledge. They say, "We believe in this—all of it comes from our Lord." Only those who possess intelligence will take heed.

2:28
I'll stop at this point. And the first six verses doesn't need much explanation because we have gone through it before.

2:45
The Sura starts similar to Sura second with Alif Laam Meem (A.L.M.).

2:53
And with the expression "there is no god except He" which is the major expression that we always use,

3:07
to make sure that we worship God and He is the god of all of us.

3:21
In 5, God is saying that there is nothing hidden from Him either on the earth or in the heaven.

3:32
And then in the 6, God gives us something that we can see, we can experience and understand

3:43
so that we know, we get a glimpse of the greatness of God. Then in 7, which I'd like to go a little bit into it and maybe discuss it because of

3:56
the importance of it and how it has been used.

4:03
[3:7] He revealed to you this scripture, consisting of straightforward verses—which are the essence of the scripture—as well as multiple-meaning verses.

4:14
First, what I would like to focus on is straightforward verses.

4:23
The reason I'm bringing this out is that this verse and these specific words are the topic

4:32
of a lot of discussions among the Muslim scholars all over the Muslim world.

4:40
Straightforward verses are the ones which are straightforward. The Arabic word is Muhkamat (مُحْكَمَات), which there is nothing, no question about it.

4:51
You have to do the Salat. You have to pay the charity and things in that nature that

4:58
we saw it all through Sura number 2 which all of them were explained clearly, exactly that we know all about.

5:09
Then, God goes on saying "these straightforward verses are the essence of the scripture."

5:20
The essence of the scripture, I tried to read about it and this is something that we can discuss a little bit.

5:35
...is, what it is in English, the essence of the scripture, I don't know how strong it is to an English speaking person.

5:44
But in Arabic it says Ummul Kitab (أُمُّ الْكِتَابِ), which the literal meaning I think is the mother of all the books.

5:51
Can we say that? And then, we go to the multiple-meaning verses, which in Arabic they say Mutishabihat (مُتَشَابِهَات).

6:03
These are verses that you can get confused or you can do the interpretation that you want to.

6:13
And then, God explains that those who harbor doubts in their hearts will pursue the multiple-meaning

6:19
verses to create confusion and to seek different meanings. This is the most interesting part of it because myself at least being a Muslim and being raised in an

6:33

Islamic environment, I can very easily, very soundly relate to this because this is

6:42

exactly what is happening. And we have felt it all throughout our lives, how these multiple-meaning verses

6:54

are becoming the essence of the scripture. And the essence of the scripture is put aside.

6:59

So, you see all the time an effort that is put into "understanding the Quran" is devoted

7:10

to the understanding of the multiple-meaning verses, the Mutishabihat (مُتَشَابِهَات).

7:15

And then in that process, people completely forget about the essence of the major points of the scripture.

7:24

And with that they confuse the other people. And I don't have to go to specific examples of this, but you can see it everywhere.

7:33

I'm sure you can see it in other religions, but I have no idea of how those things are done, but

7:40

this clearly shows that how even Satan can use those multiple-meaning verses to divert

7:50

you from the major issue which are the essence of the book.

7:56

And then, God goes on and says "no one knows their true meaning except God." Which is something that we have discussed and we know that He is the ultimate, the only teacher of the Quran.

8:10

And then, says "those who possess knowledge." Who are the people who possess knowledge?

8:17

The... If you are a person who goes to a religious school, you become dressed in a specific case, in a specific way and then,

8:30

you spend all of your life dealing with Mutishabihat (مُتَشَابِهَات) rather than worrying about

8:36

the major issues, does that make you a person that you have to possess You are the one who possesses the knowledge?

8:43

Or everybody else, or anybody can have the possession of that knowledge?

8:50

The Arabic word for this "possess knowledge" is Rasikhuna Fil Elm (رَاسِخُونَ فِي الْعِلْمِ).

8:57

When this... Today, I was listening to Edip. Rasikhun (رَاسِخُونَ) I think in Farsi, at least the way we understand, is somebody who is seeking, who is really trying to find new things.

9:11

It doesn't matter if it is Quran or anything that you wanna find out.

9:20

And these are the people who are seeking, who are thirsty for the truth or to gain knowledge

9:26

about any issue, in this case about the Quran. And you acquire that knowledge by going and trying and seeking and reading and researching.

9:44

How much you do that...

9:49

I think I have a magnetic field for the children.

9:54

Dr. Khalifa: On tape, there's gonna be whispers.

10:05

Dr. Sabahi: So, this is interesting to see who are the people who possess the knowledge.

10:12

The people who can bombard you with all these Arabic verses, which I have firsthand experience of it.

10:17

Because if we dare to ask questions or raise questions about things that cross your mind

10:25

in school or in society, then those people who supposedly possess the knowledge

10:32

wouldn't be able to answer you. And they would resort to saying that, you know, you are becoming a disbeliever, you are becoming... you are questioning

10:45

God and all of these things. You know, when they didn't have an answer, they would relate directly that to God, that you are questioning God,

10:52

while God has all the answers. Thank God that now that I read the Quran, I find out that everything is here.

11:00

So, possessing or getting that knowledge only goes to the people who are, I use the Arabic,

11:08

Rasikhuna Fil Elm (رَاسِخُونَ فِي الْعِلْمِ) the ones who are seeking to find the answers and they are after finding the true meaning

11:17

of the Quran. And then, God says "they say, those people who possess the knowledge

11:24

[3:7] ... "We believe in this—for it all comes from our Lord." Only those who possess intelligence will take heed.
11:35
Nothing to elaborate too much on this. Clearly, it says what it means.
11:44
I'll stop here and I would like to put it to discussion on this verse specifically.
11:52
If any additions or any subtractions or any, whatever could be done to this before I go to the next verse.
12:07
Edip: This is one of the most important verses and has been discussed on it and also
12:15
many times they use this against the miracle of Quran.
12:21
Because the Alif Laam Meem (A.L.M.) and these letters has been accepted by them as multi-meaning verses.
12:31
And they mistranslate this verse and by this way they say "only God knows the meaning of these letters."
12:41
Whoever claims that he knows the meaning of these letters, they are liars and they are Munafiq. They are hypocrites."
12:49
And it is very interesting for me because this verse by itself has multi-meaning.
12:55
Now let's check. Look at the second half of the verse.
13:01
[3:7]No one knows their true meaning except God... Now in Quran, there is no full stops, comma, these kind of things or quotation mark.
13:11
Now, let's try to understand the puzzle or the multi-meaning of this verse.
13:18
No one knows their true meaning except God. Put full stop there now.
13:24
And then end, make it capital. Look at the meaning, just change the opposite.
13:31
No one knows... according to them, they stop in God. They say "no one knows their true meaning except God."
13:38
Stop. "And those who possess knowledge, they say we believe in this." According to them, those who possess knowledge, they cannot understand.
13:47
Because they full stop in God. And I discussed on this subject with them.
13:53
I said "according to you, if you stop in God, the meaning just change in opposite."
13:59
But if you don't stop, if you pass, the meaning just opposite. Somebody can understand.
14:07
And what is your proof that you have to stop there?" They said "there is no proof but many 'Alim, many scholars agree on this subject."
14:15
"Okay, now do you confess that this verse has two meanings, depends on your stop?"
14:22
If you stop on God, nobody will know. But if you don't stop there, if you put comma, some people will understand, will understand, isn't it?"
14:31
"Yes." "This verse has two meanings, has two meanings. That means this verse is by itself multi-meaning verse."
14:40
And do you claim that you know this verse? According to you, nobody knows multi-meaning verses.
14:48
Now, you say this verse by itself has a multi-meaning. And that means, according to you, you contradict with yourself.
14:55
You cannot claim that you know the meaning of this verse. You cannot speak on this verse."
15:02
And this was a very good discussion but I don't know how could I reflect to you.
15:08
And I want to give some examples because by examples it may be clarified.
15:14
For example, word Rasul, messenger, in Quran has multi-meaning.
15:19
One is, you can use this for prophets, also for messengers that don't receive books.
15:25
And they manipulate, they try to change the meaning of these words, Rasul (messenger) and Nabi (prophet).
15:34
And also, for example, word Nafs has double meaning, has three meanings in Quran.
15:41
Nafs, soul, yourself or your ego. For example, just in the beginning, they fail in the meaning of these multi-meaning words.
15:54
Edip: Words, For example, chapter 2 verse 50? Dr. Khalifa: 54
16:00

Edip: 54, they say... God says "you shall repent to your Creator and kill your egos."
16:10
They... Other translation, they say "kill yourself" instead of ego. The word Nafs, they don't understand.
16:17
In fact, 30 verse later, God says "you didn't obey Me, you killed yourself."
16:23
You didn't obey My covenant." And it just contradicts with 30 verse later.
16:30
But they don't understand. God exposed them by these multi-meaning words.
16:35
But people who have information, full information of Quran, they can understand which words according to text, in the text
16:42
has which meaning and they can understand better.
16:48
Thank you. Dr. Khalifa: There's one more thing, Edip. They can't explain why God put, and those who possess knowledge.
16:55
Why did God put it after? No one knows the explanation except God and those who possess knowledge because it's not necessary.
17:04
They put full stop after God, then it should be like "no one knows the expression except God. And God is Omniscient, Omnipotent."
17:10
A man: Rashad Edip: Sure. Dr. Khalifa: Now, why did God say Dr. Sabahi: Yeah. Dr. Khalifa: No one knows the expression except God and those who are well-founded in knowledge."
17:18
Edip: Also, Rashad, the matter of belief, not information, God would say, none of the...
17:29
What's happening? Dr. Khalifa: (unintelligible) gives a Chinese-Mexican dance.
17:36
Dr. Sabahi: He's trying to catch the cricket. Dr. Khalifa: Those are seeing the cricket. Edip: And...
17:48
Dr. Khalifa: By the way, these tapes go all over the world and the people know that there was a cricket in this room.
17:56
And it seems it was from Switzerland and Australia and I'm telling you.
18:01
Dr. Sabahi: Go ahead, Edip. Dr. Khalifa: First thing, Behrouz tells Naghme, he met her. Behrouz comes in, walks down and says "Hey, you and your sister go to the bathroom together."
18:16
"How did you know?"
18:24
It's amazing (unintelligible). Dr. Khalifa: Ok. Who was, who was speaking?
18:30
Dr. Sabahi: Edip. Edip: I already gave up. Dr. Sabahi: He gave up. Ok. A man: Come on. Dr. Sabahi: I think the cricket stopped him.
18:36
Dr. Khalifa: He stole the show. Dr. Sabahi: One thing that I can add to what Edip said. If we look at 2:146, God says,
18:44
[2:146] Those who received the scripture recognize the truth herein, just as they recognize their own children. However, some of them conceal the truth, knowingly.
18:55
And 147, Sura 2, [2:147] This is the truth from your Lord; do not harbor any doubt it.
19:02
So, that could help to understand that people who can, have possessed the knowledge,
19:10
who can gain that knowledge. Everybody can do it.
19:15
And who you know better than anybody else, hopefully your children. Okay, if there is no... question?
19:25
Douglas: In the Arabic text, there is a Wa, which means "and." But it's written very small.
19:31
Dr. Khalifa: No, no, no. It's not very small. Douglas: There's another word... In other words, that Wa (and) is there.
19:37
In other words, I'm not saying that it was distorted. What they do, what they do is they ignore the Wa (and).
19:44
Dr. Khalifa: Exactly. Douglas: They ignore the Wa (and). Douglas: You see, the reason why I raised the question is because we are told in the Quran that
19:53
the people who are misguided, the unbelievers, that Allah will cause them to see what they wanna see in the verses.
20:01
And they will, they will, in their minds, say that the Wa (and) is not present.
20:09
And I think that's critical. That's critical in terms of the interpretation of the verse.
20:17
Dr. Khalifa: Good point. Behrouz: The end of verse 7, it says, Ulul Albab (أُولُوا الْأَلْبَابِ), the intelligent.

20:27
And then in another verse, it is explained as the ones, Dr. Sabahi was asking, why, who are the intelligent.

20:36
It says "the ones that they know and understand God."

20:42
Ulul Albab (أُولُواْ الْآلْبَابِ) Dr. Sabahi: Ulul Albab (أُولُواْ الْآلْبَابِ) Behrouz: ...and understand God. So...

20:47
Dr. Khalifa: The ones who believe. The ones who take heed, believe. Behrouz: But that, this express, explains the last part that (unintelligible).

21:06
Dr. Khalifa: What God is saying instead of saying the negative, God is saying the positive. What God is saying is

21:12
"those who disbelieve are very stupid." We have to be stupid if we disbelieve in God,

21:18
if we can't appreciate all this creation. So, God says "only those who possess intelligence will take heed."

21:29
Dr. Sabahi: Ok. (unintelligible). Yes. Farhad: In Persian, I know it. In Arabic, what do you think?

21:37
There are more books written on Muhkamāt (مُحْكَمَات) than Mutishabihāt (مُتَشَابِهَات). Farhad: more more arguments... Dr. Khalifa: Mutishabihāt (مُتَشَابِهَات).

21:45
Farhad: For example, how many I have seen books called (unintelligible), dependency

21:53
and three those of the book is the thoughts about how to eat, how to...

22:00
Dr. Khalifa: Yes, Mutishabihāt (مُتَشَابِهَات). Dr. Sabahi: it's Mutishabihāt (مُتَشَابِهَات). Farhad: ...Mutishabihāt (مُتَشَابِهَات), or how to do the Wudu (Ablution) or... Dr. Khalifa: Muhkamāt (مُحْكَمَات) is to believe in God alone, do the Salat Prayer, Fast the month of Ramadan, pay your Zakat, perform Hajj.

22:11
Dr. Khalifa: These are Muhkamāt (مُحْكَمَات). God is one. A man: These are not, these are not... God has clearly defined in Quran like...

22:16
Dr. Khalifa: Actually, this reminds me, you notice that the people who object to the Quran have a certain number of verses that they make up.

22:22
Dr. Sabahi: Yeah. Dr. Khalifa: The Quran says "beat your wife."

22:28
Dr. Khalifa: They have certain verses. I mean, they leave the major things, the worshipping God alone, and leading a righteous life, and they bring certain,

22:35
mysterious or obscure verses that they totally misunderstand anyway.

22:40
A man: Without context. Dr. Khalifa: And this keeps them away. Yes. Dr. Khalifa: So, what Farhad is saying is that it is in more ways true. More books written about the

22:52
allegorical verses than the straightforward verses. Farhad: So, these are straightforward but Ablution is not straightforward?

23:00
Dr. Khalifa: Yeah, that's (unintelligible). Edip: But it is not the matter of straightforward or multiple-meaning. It is only,

23:08
how to say, addition and speculation on Hadith. Dr. Khalifa: (unintelligible).

23:14
Edip: On Ablution, for example, it is very straightforward, but (unintelligible) is not something related with it.

23:21
(unintelligible) Farhad: But there are many arguments on that within people in Shia and Sunni. Edip: Because they don't accept Quran alone.

23:27
(unintelligible) Dr. Khalifa: Yes, the wiping the feet or washing the feet.

23:33
These are centuries old arguments.

23:39
Dr. Khalifa: Douglas Douglas: I simply wanna clarify further what I was saying. I don't think it was clear. What I, what I was referring to is that the Wa (and), it shows how Satan can misguide one letter in the Quran.

23:51
One letter, the Wa, which means and, in their minds, in their perceptions, it has no significance, and that's what I meant.

23:59
That they can be misguided. Satan can misguide them with one letter, let alone a word.

24:05
Dr. Khalifa: Exactly, this is the case with the washing the feet or wiping the feet. One letter that decides that the feet should be washed. And they ignore that letter which is

24:16
wipe the... (يَرْؤُوسَكُمْ) Wipe your hair, and this letter B makes it wash the feet, not wipe them.

24:26
Dr. Sabahi: Okay, I'll continue, verses 8 and 9. [3:8] "Our Lord, let not our hearts waver, after You have guided us. And shower us with Your mercy; You are the Grantor."

24:40

[3:9] "Our Lord, You will surely summon all the people on a day that is inevitable. GOD never breaks a promise."

24:47

These two verses are like prayers that the believers should use to ask God to always help them

25:02

and guide them and ask for the mercy from God.

25:08

And the meanings are very clear, but this is something that we always have to, as Rashad frequently reminds us,

25:17

that you have to ask God all the time, don't be shy. You know, just talk to Him, ask Him, and remind yourself of Him.

25:27

These are what these two verses are. Verse 10,

25:33

[3:10] Those who disbelieve cannot be helped by their money or children, against GOD. They are the fuel of Hell.

25:43

[3:11] Like Pharaoh's people and others before them, who rejected our revelations. GOD punished them for their sins. GOD is strict in enforcing retribution.

25:53

[3:12] Say to those who disbelieve, "You will be defeated, then gathered in Hell; what a miserable abode!"

26:00

I'll stop. These three verses are related to each other.

26:07

It is, explains about the disbelievers and God is clearly telling us that those who disbelieve

26:18

cannot be helped. And you can see, a very... you know, every day in your life, you can see people who think their money or children

26:30

or whatever they have in this world can help them and they think they can use that against God.

26:40

But my experience is that even with those people that they think they don't believe in God,

26:47

if you try to pinpoint, tell them "okay, okay, let's go down to the bottom of the whole issue.

26:56

Is there any God or not?" People usually, when you get to that point, are not ready to say it.

27:02

There is some, some kind of, not all of, but there are people who would say it, but my experience is that this is the basic.

27:10

Even those that they disbelieve, there's something, it's like they are afraid of saying it.

27:18

And God is saying that, you know, these people are not gonna be helped by their money or children.

27:26

The example is Pharaoh and people before them that have rejected the revelations.

27:37

And God tells us how to deal with the disbelievers, that He's telling us that those disbelievers will be defeated and gathered in Hell.

27:47

And this is what their destiny is.

27:54

I'll go on. Verse 13. Believers: The Ultimate Victors

28:00

[3:13] An example has been set for you by the two armies who clashed— one army was fighting in the cause of GOD, while the other was disbelieving. They saw them as twice as many with their own eyes. GOD supports with His victory whomever He wills. This should a lesson for those who possess vision.

28:21

14. [3:14] Adorned for the people are such pleasures, as women, children, piles upon piles of gold and silver, trained horses, livestock, and crops. Such are the vanities of this world. GOD possesses a far better abode.

28:41

15. [3:15] "Let me inform you of something that is far better than that: for those who lead a righteous life, at their Lord, gardens with flowing streams, and pure spouses. They rejoice in GOD's approval." GOD is Seer of His worshipers.

28:59

16. [3:16] They say, "Our Lord, we have believed. Forgive us our sins, and spare us the agony of hellfire."

29:08

[3:17] They are steadfast, truthful, submitting, charitable, and meditators at dawn.

29:15

I'll stop at 17. Go back to 13.

29:20

We have quite often discussed it about how God protects the believers.

29:25

When you believe in God, as the verse that Rashad has continuously reminded us of,

29:34

those who believe, they have nothing to grieve, they have nothing to fear.

29:39

And this is exactly what it means. If you can, during everyday life, you can test yourself very easily.

29:50

Things come up. And if you find that fear or that grief in your system, I think it's a very good indication
29:59

that you are forgetting who is the, who is the one who is God.

30:05

And I think, at least for me, this is a great reminder that during everyday experience in life, you see this.

30:17

And if you practice it, you'll see that God always helps you. My personal experiences through my life has been that I have been in situations that nobody

30:30

except God could have saved me or could have helped me. And it has always happened.

30:36

I didn't know it. Now that I look back and see the things or the adventures or the situations that

30:46

myself and my family have gone through, we have been in places and situations that only God could have

30:52

helped us to be able to stay out of trouble or things in that region. So...

31:00

And I think this is when God says that they saw them as twice as many with their own eyes,

31:08

it should be referring to a specific incident in history. I don't know what it is.

31:15

But was there a war or something that happened, which Rashad can tell us.

31:22

Dr. Khalifa: This is... Dr. Sabahi: [3:15] "....approval." GOD is Seer of His worshipers. These allegorical flowing streams and pure spouses that are used in here,

31:35

usually flowing streams are something that in nature, wherever you go, you see that it's beautiful.

31:42

It's just something that reminds you of the beauty of a place.

31:48

And pure spouses, I guess, I don't wanna go too far into this one, specific.

31:54

But again, this is a human nature that this is what people want.

32:00

So, God is using this. It's not telling us that you'll have a lot of water, H2O, and a lot of women or men over

32:07

in the Heaven. But to tell you how beautiful it is if you get there.

32:14

And at the end, God says "God is Seer of His worshippers." So, if you worship God alone, He is the One who sees it all.

32:23

These people who are worshipping God alone, [3:16] They say, "Our Lord, we have believed. Forgive us our sins, and spare us the agony of hellfire."

32:33

This is something that we should always remind ourselves to say and ask God for the sins

32:41

that we have committed in the past or may commit every day to be, be forgiven.

32:48

And God is Merciful, Gracious, and He is the Forgiver. If you are sincere in your asking God and God is the Knower of what is in your heart,

32:59

then you'll see the result.

33:04

And then in 17, God very clearly, God is describing those worshippers, those believers.

33:20

"They are the steadfast." [3:17] They are steadfast, truthful,... They don't lie. They are truthful.

33:26

[3:17] ...submitting, charitable, meditators at dawn. which includes the Salat,

33:32

which includes the Zakat, which includes that you are submitting yourself to God alone and you are steadfast at what you are doing.

33:40

You don't... I use the word vacillate, or you don't go back and forth.

33:45

You are steadfast in what you believe and what you practice. I'll stop at here and, as they say, open the floor for discussion.

33:57

Any questions? Dr. Khalifa: I want to go to what you mentioned about no grief and no worry, no grief, and no fear.

Dr. Rashad Khalifa explains topic of no "Insurance" can take years to come round. "No grief and no Fear". Earth provides "food for the prisoners".

34:10

Well, this seems to come up every time we do a Quranic study, as you noticed, because it is very difficult for us,

34:17

the human nature, it is very difficult for us to come through with this full confidence in God.

34:23

And I've noticed it over many, many years with many, many believers. They eventually come around.

34:28

But it's very difficult to talk them out of insurance, for example. They just don't have that confidence. It takes a long time to grasp that.

34:37

It is also, it takes a long time to use this criterion.

34:42

No grief and no fear. So, I want you to listen to me. I'm gonna repeat it again since God repeats in the whole Quran.

34:51

And it seems to float over our heads. So, just for the moment, including myself, I want to imagine that this is for you.

34:58

Don't let anybody or your companion tell you "this is for somebody else." "It is not for me."

35:03

I want you to, this is directed to you. If you have, if you grieve, grieve over anything you missed,

35:12

or if you're worried about anything in the future, you are not in God's dominion.

35:18

You have to apply this criterion to yourself. So, ask yourself if you heard me.

35:24

I'm gonna repeat it. If you're grieving over anything you missed, or if you're worried about anything in the future, you are not in God's dominion.

35:33

So, for heaven's sake, find out what is it that is grieving you because you missed something, you lost something.

35:39

Or what is it that is causing you to worry about the future. Find out what it is, get rid of it, get back into God's dominion.

35:47

A believer, a criterion of the believer is no grief and no fear. You don't have any grief. You don't have any fear.

35:54

Whatever situation you're in, you tell God "Okay God, I'm a submitter. I accept whatever you have given me, cheerfully."

36:02

And underline "cheerfully." Because God knows best. If you go apply for a job and you don't get it, you don't grieve, you understand that

36:10

this is, God doesn't want this for you for some reasons that God knows. He sees the roads ahead of you.

36:16

And He will pick out the road that is best for you. So, you must have that confidence in God.

36:23

And He runs everything. Remember verse 5, it says,

36:28

[3:5] Nothing is hidden from GOD,... It's a very black statement. [3:5] Nothing is hidden from GOD,...

36:34

Including minor affairs. And God guarantees the believers. The believers are God's people. They're in His domain.

36:43

And God is the Sovereign of the universe. And He sees to it that you have no grief and no worry.

36:49

So, if you have that, you're not in God's dominion. So, He lures you to find out why.

36:56

The second part I want to touch here is number 14. It says,

37:01

[3:14] Adorned for the people are the material things of this world,... Now, I want to remind you. I have an article by a good believer that I may put in the Perspective.

37:10

It's in my desk. And she describes us as prisoners of war.

37:16

We declared war on God billions of years ago. We are the bad creatures.

37:21

We are the rebels. We have been banished from God's kingdom out here. But we are having a chance.

37:28

This is halfway house to Heaven from Hell. And the pleasures we have in this world are the things that are given to the prisoners of war.

37:40

So, can you imagine the things that are for the good creatures in Heaven? I mean, these are, you know, the lobster and the steak and the filet mignon and the shrimp

37:50

and the apples and the bananas and the peaches. These are the food for the prisoners.

37:57

And they are adored for the people. There was another verse where it says that "the disbelievers mock and ridicule the believers."

38:05

Because they're having these things. But in the Hereafter, it's gonna be the other way around.

38:11

Because these things that we have here, all these pleasures and good things, are ridiculous compared to the Hereafter.

38:21

Just think. This is the food for the prisoners of war. We send our best people, the astronauts, in space, and we give them food that you will not give your dog.

38:31
Dr. Khalifa: Right, Lydia? Lydia: Right. Dr. Khalifa: So, it's adored in the eyes of the people. And this...
38:40
We have to remember this. And God says in 15,
38:45
[3:15] "Let me inform you of something that is far better:... Also at the end of verse 14, "God possesses a far better abode."
38:54
Far better. These are the things for the rebels.
38:59
Can you imagine that somebody declares war on you, and you catch him as a captain, put him in prison. What kind of food will you give him?
39:06
Are you gonna cook your best food? Your best food? A man: Dog. Dr. Khalifa: Huh? A man: Dog.
39:13
Dr. Khalifa: Right. Dr. Khalifa: You give him dog food.
39:19
Except dogs are far better than we are. The new movie is called "All dogs go to Heaven." Have you seen that?
39:28
Hollywood is learning, reading the Quran.
39:36
Dr. Khalifa: Are there any questions on this? A man: Yes, I have a suggestion. Dr. Khalifa: Yes. Farhad: This verse 15, as you said before that, you know, they choose, you know, the verse, you know, beating your wife, and
39:48
the disbelievers choose on that and they try to mock you. Farhad: This also has been a tool at the hand of disbelievers. Dr. Khalifa: Right.
39:55
Farhad: You know, telling you that, you know, "Oh, God promises you many spouses in the Heaven. Farhad: God promises you rivers full of honey and milk in the Heaven. What is this?" Dr. Khalifa: That's right.
Allegorical description of Heaven.
40:04
Farhad: That's mocking Dr. Khalifa: Right. Dr. Khalifa: Because this is close to verse 7, where the multiple-meaning verse is.
40:10
The allegorical descriptions. Because if you, if you want to describe your wedding night to a child that is 5 years old, 7 years old, how would you describe that?
40:30
You have to give the child the allegorical description. Say "like eating candy."
40:36
Right? I'm sure you'll agree that your wedding night is a little better than eating candy.
40:43
But this is how you approximate it to the child because the child will never understand.
40:50
I mean, I find this is as the best example. Because it's something that only adults will appreciate.
40:57
The children can never comprehend. Edip: Rashad, (unintelligible). Dr. Khalifa: So, the same with Heaven.
41:02
It's something that you can never comprehend. There's no way God can describe to you.
41:08
As a matter of fact, this is why if you go to Sura 55 when God speaks to the humans and the jinns,
41:16
God says "there's Heaven for the humans and Heaven for the jinns." Because for the humans, they like steak and McDonald's.
41:24
No, I mean... Depends on how old we are. But the jinns don't give a hoot about these things.
41:31
So, if God says "Heaven is this and this." The jinns "Oh, we are not interested." So, the Heaven's description is allegorical. Edip, you had a good idea.
41:40
Edip: Oh yes, I had other example, not so interesting.
41:48
Edip: Ok. The other example is this, Rashad. Edip: If you... Dr. Khalifa: Don't be embarrassed. Edip: Yeah, I...
41:56
Dr. Khalifa: What is your allegory? Edip: If you can communicate with a baby in mother's belly, for example, doesn't know this earth, this world, anything,
42:05
he knows only very little space and he doesn't know light, also ocean and all this kind of anything that we have.
42:15
For example, if you want to describe that baby and this world, how can you describe?
42:21
You can describe about only the things that he knows, very limited things.
42:28
Dr. Khalifa: Yeah, you can even go back 4 generations and describe to your grandfather the TV.
42:33
Edip: Yes. Dr. Sabahi: Yes. Dr. Khalifa: And if he has a baseball bat, he will use it on you. He would think you're kidding, you're mocking him, and ridiculing him.

42:42
 If somebody's sitting in Washington, I mean, watching this in Tucson. I mean, this is something real. This is something that we have now. Just go back 4 generations, try to describe that.

42:53
 We're talking about Heaven which is billions of light years from here.

42:59
 Notice, all Tucson is what, 20 miles and 100 years from town? Heaven is billions of light years from town. Try to describe that.

43:11
 Dr. Sabahi: Martha has a question. Martha: (unintelligible)

43:20
 And I'm just wondering that it might not be possible to state that (unintelligible)

43:26
 For me, it's like (unintelligible).

43:33
 that I haven't understood. But I've also understood that what I need to do is, going from this, is just say (unintelligible).

43:42
 I may not be able to (unintelligible). But He lets you know. So, it's almost as if both of (unintelligible).

43:51
 One is that there are those who have knowledge, who have knowledge, but at the same time if you are not, you don't,

43:59
 you don't just throw up your hands and say, "well,..." You know that 95% of it you accept, you know, but

44:07
 (unintelligible) Dr. Khalifa: That's exactly what the verse says at the end. It says "the believers who say we believe in it, all of this is from God,

44:17
 whether they understand it or not. But they accept it and believe it first. Martha: (unintelligible) Dr. Khalifa: Yes.

44:24
 Dr. Khalifa: Back to Dr. Sabahi. Dr. Sabahi: Right. I wanted to add something to Edip's example of a child,

44:35
 and not knowing what is going on in the world. I have seen very very grown ups that they don't know what is going in the world.

44:42
 And an example was that, which is a little bit funny, one of the religious leaders got a chance to travel Got a chance to travel...

44:52
 Dr. Khalifa: Get Aisha take her to the babysitter. Get Aisha take her to the babysitter.

45:00
 Dr. Khalifa: Ok. Excuse me. Dr. Sabahi: ...got a chance to leave the country, our country, and go to

45:06
 to Africa, and over there, I guess, they took him to a place that these tribes lived, and these tribes

45:12
 didn't have anything on. They just were naked. So, this gentleman comes back and says

45:18
 this is the true, the true life. This is what it should be, and these are the people

45:24
 who force women to cover their hair, and, you know, they are so picky about how the women dress, but

45:31
 he hasn't seen anything outside where he was. He goes and sees it and now he says "wow that's the right way to do it, not the way we do it." But still they don't wanna do it that way in our country.

45:42
 So, it doesn't take to be a baby not to know what is going on in the world. Ok, I go back to verse 18, the first pillar of Islam, God first witnessed

45:49
 The First Pillar of Islam* [3:18] GOD bears witness that there is no god except He, and so do the angels and those who possess knowledge.

46:00
 Again, who possess knowledge. About people who possess knowledge. [3:18]He is the absolute god; there is no god except He, the Almighty, the Wise.

46:11
 [3:19] The only religion approved by GOD is "Islam." Those who received the scripture dispute this fact, knowingly. This is due to jealousy on their part. For those who reject GOD's revelations, GOD is most strict in reckoning.

46:28
 20, [3:20] If they argue with you, then say, "I have submitted myself to GOD; Me and those who follow me." And say to those who received the scripture, as well as those who did not receive any scripture, "Do you accept Islam as your religion?" If they do accept Islam, then they are guided. If they turn away, then your sole mission is to deliver the message. GOD is Seer of all the people.

46:59
 I go back to 18. I remember last time I asked the question "how many times this sentence

47:08
 "there is no god except He" is repeated in Quran?" Up to that point, there was two. And right away in this verse, there are two more of them.

47:17
 I don't know how many more are after it. But clearly, God is telling us

47:27
 who are the ones who are able to say "La Elaha Ella Allah." There is no god except He,

47:33
 and don't add anything after it. He says "the angels, God Himself" is bearing witness to the fact

47:41
and then in addition to God, "the angels, and the people who possess the knowledge."
47:48
Again, the same thing that was in verse 7.
47:54
So, these are the, these are the only people who can say this, this sentence without adding or subtracting anything from it.
48:06
"He is the Absolute God." Again, "there is no god except He, the Almighty, the Wise." And two of
48:15
the names of God, the Almighty and the Wise are after it. So, this is a very strong verse, clearly,
48:22
showing that there is no god except He, and for the believers and people who possess knowledge, this is the main pillar of Islam.
48:33
I have one question myself. In the translation of "He is the absolute god"
48:38
the reason is that I read the Farsi book, that's... I think it's the translation for Qaiman Bilqisti (قَائِمًا بِالْقِسْطِ)
48:47
which they have translated or interpreted, either literally or interpretation, that
48:55
"He is the God that spreads the justice."
49:05
"He is the one, the Just. And He is the one who
49:10
the justice is in His own hands. And He is the one who makes sure that justice is done all over the world."
49:19
which is translated "He is the absolute god." I just wanted to see what is... what...
49:27
Dr. Khalifa: Well, I think I wanted it to mean justly and fairly and truthfully, He is the only god.
49:34
He is the only one that is truthfully and honestly and justly, equitably and fairly the one God.
49:42
Dr. Sabahi: So again, the difference is that you translate this as, as describing what that god is. La Elaha Ella Allah.
49:52
Dr. Khalifa: There's the whole verse (unintelligible). Dr. Sabahi: Yeah. Yeah. Dr. Sabahi: Ok. Ok. Dr. Sabahi: It's not saying any other attribute of God except that. In other words, for example, Satan wanted to be a god,
50:02
but it's not fair for Satan to be a god. It's not just, because he doesn't... he's not worthy of godhood.
50:09
God is the only one who is worthy of godhood. That's what this verse says. Dr. Sabahi: Ok. Dr. Khalifa: (unintelligible) Edip
50:16
Edip: Can be Qaiman Bilqist (قَائِمًا بِالْقِسْطِ) an attribute of Ulul Ilmi (أُولُوا الْعِلْمِ)? They judge very correctly judgement. They have correctly judgment.
50:24
Dr. Khalifa: No, this is referring to God. Qaiman Bilqist (قَائِمًا بِالْقِسْطِ). Qaiman (قَائِمًا) is God. Bilqist (بِالْقِسْطِ) means truthfully, and honestly, justly, He is the only God.
50:31
Or the only one worthy of godhood. So, I translated it as absolute god.
50:37
Dr. Sabahi: Ok.
50:42
And 19, [3:19] The only religion approved by GOD is "Islam."
50:50
And as you know [3:19] ...Those who received the scripture dispute this fact, knowingly. This is due to jealousy on their part. For those who reject GOD's revelations, GOD is most strict in reckoning.
51:03
Everybody, I think, here knows about how people react when you tell them about
51:13
the final scripture, and they dispute you. You can see this. You can... You have experienced this. And you see it every day in life.
51:24
And God is saying that "this is due to jealousy on their part."
51:30
And God is promising that there is going to be a strict reckoning for those people.
51:38
20 is a verse which I find it very interesting, and I think it is something that we have to really keep in mind.
51:48
God is guiding us, telling us how to react to those people who argue with you.
51:55
This is God's words says. You know, if they argue with you or anyone who believes in the scripture,
52:02
and they dispute with you, God is saying, "tell them, [3:20] ..." "I have submitted myself to GOD; Me and those who follow me."
52:10

And then again says [3:20] ...say to those who received the scripture, as well as those who did not receive any scripture,...

52:17
ask them [3:20] ... "Do you accept Islam as your religion?" If they accept Islam, then they are guided. If they turn away, then your sole mission is to deliver the message. GOD is Seer of all the people.

52:38
I've seen this, something relating to verse 20, and how you react or you argue or talk to other people.

52:51
Because those people who are aware of the scripture, and they believe that they are Muslims or

52:56
Christians or Jews, I haven't had any interaction with anybody other than Muslims,

53:02
somewhere in their heart, they believe that they are the ones who are the righteous, they are the right ones.

53:07
And they argue with you. And if you try to go too far, and try to use or try to

53:18
judge them, usually you lose the, you lose the major part of your intention. You lose the point.

53:31
God is telling us that you have to give them the message, and tell them that this is what I think,

53:38
this is what I believe, which is directly from this Quran. I'm not making up anything on my own.

53:44
This is what it is in this Quran. If they accepted it, that's fine. If they didn't, then I have no right to tell them that they are disbelievers,

53:55
they are gonna go to Hell Because this is not my... God is saying that "if they turn away, then your sole mission is to deliver the message."

54:05
Because God is the one who leads the people to righteousness or to disbelieving.

54:16
And my personal experience is that when you get to such an argument,

54:25
usually the other people that talk to you, they pull you towards things are not the major issues.

54:34
They try to bring out the minor issues, and then if you play in their

54:40
ballgame, then you get lost into petty arguments, arguments, not the point that you wanna

54:50
raise and that's delivering the message that "this is what I believe, and my belief is in Quran.

54:58
And one thing that I remember once we asked here from Rashad

55:03
about this point, that whether I can label someone as "you are a disbeliever." There is another verse, we'll get to it, IN SHAA ALLAH,

55:10
that "don't take friends among the disbelievers." How can I decide whether this guy is a believer or not?

55:17
If he says that "I am a disbeliever," that's fine. But if you don't know, he thinks that he is a believer.

55:23
What was said that night was that any time, any day, God is the one who is

55:30
is capable of leading a person to righteousness or averting him from righteousness.

55:36
So, any day that can happen to someone. And I have seen it, even in the short period of time that

55:42
I have been exposed to the true Quran and have been reading it. So,

55:50
you have to be very patient. We have to be very patient. And we have to always keep in mind that

55:56
the sole mission is to deliver the message whether they take heed or they don't, whether they reject it or not,
Spreading the message, Gradual release of the Miracle.

56:03
that is something that God is Seer of all the people. And He is the one who does it.

56:10
So, I stop here and leave it for discussions or questions.

56:18
A man: May I ask a question? What is responsibility of a believer? For example, I wanna compare a Muslim with the Christians and other sects.

56:27
I can see Christian missionaries go in the heart of Africa and spread the Christianity.

56:32
For example, right now in the places that war is going on in Nicaragua, right?

56:40
You will see, you know, all these nuns that they are in the heart of the war. But I don't hear a Muslim doing that.

56:45

And over here, you read that "do not argue." What is my responsibility to spread the word of God? How can I spread it to other people?

56:57

Dr. Khalifa: Just telling, actually, there's the sole way of saying to the... say to those to...

57:04

Dr. Sabahi: Yeah, your sole mission is... A woman: Where is the "reminding?" Dr. Khalifa: 20, it says [3:20] If they argue with you, then say, "I have submitted myself to GOD; Me and those who follow me." And say to those who received the scripture, as well as those who did not receive any scripture, "Do you accept Islam as your religion?" If they do accept Islam, they have been guided. If they turn away, then your sole mission is to deliver the message. GOD is Seer of all the people.

57:28

A man: Do you invite other people, you know, to your religion and if they don't accept...? Dr. Khalifa: We deliver, we deliver the message all over the world. There are believers everywhere.

57:36

And they're believer in the message wherever they are. Keikhosrow is doing it in Atlanta and Behrooz did it in his area.

57:44

And he made the summary of the miracle and he delivered them to the mathematics department known college and university in the area and he went to the churches.

57:53

He wrote to the churches to 100,000 people all over us. In fact, he did, he carried out this verse correctly.

58:01

We have people in Australia, New Zealand, England, doing this. They're very active.

58:08

Wherever they are, it's... you can't help it. When you see a miracle like this, you see a treasure and you want the people to partake of it.

58:15

You're telling them everywhere. And of course, they are being ridiculed and... they're getting believers. Ihsan did it in Washington. Kathy did it in Atlanta.

58:25

She went to all the churches and she was shocked. They're not interested, are they?

58:33

Yeah, before she came here. So, she gave up in Atlanta and said "I'm going to Tucson," where she is.

58:38

So, the believers do that. They deliver the message. And then, that's all they can do.

58:45

Robert Nadib sat at the university in the morning and delivered the message to a number of people.

58:52

Etip: And Apamea. Dr. Khalifa: I don't see Apamea. I see Naghmeh.

59:00

Dr. Khalifa: And Apamea, too. A man: I have a simple observation.

59:06

In communicating the truth to people, naturally we need to be equipped

59:15

with tools. The tools, the best tools are the best words that can carry the true meaning out.

59:25

Since the word "Islam" in Arabic, as it was revealed to you that we should use the meaning

59:35

and carry the meaning to the people. My observation is that the reception is by far greater.

59:42

"Would you submit? Are you a submitter to God? Do you believe in God? Do you submit to Him?"

59:51

This is a door opener. Hardly you can find anyone who can dare saying "I do not," unless he says

1:00:01

"I'm an atheist and I don't believe in God." So, the word "Muslim" may introduce an element of prejudice.

1:00:12

Immediately say "wow, you know, why should I?" But the meaning, the meaning is carried forward, it is effective.

1:00:20

Dr. Khalifa: Ok. This is a very good point. I want to mention here that God wanted this message

1:00:28

to come here gradually. Even the miracle of Quran, at the beginning, it was titled "the perpetual miracle of Muhammad."

1:00:37

And they still rejected it. They still turned it down, because God wants to tell them and show them on the Day of Judgement that even when it was called "the perpetual miracle of Muhammad,"

1:00:46

they could not see it. And because of their arrogance, they would not accept it. Also, the Quran now says "the only religion acceptable to God is Islām."

1:00:57

Islam was given a bad name by thanks to Khomeini and Gaddafi and Islamic revolutionaries.

1:01:06

In the new, in the final and official translation that I'm doing now, and IN SHAA ALLAH that's the one that will be printed by the millions.

1:01:16

It says "the only religion approved by God is submission." And "Muslim" will be changed to "Submitter." The "Muslim Perspective" has been changed to Submitter's Perspective."

1:01:28

But we are delivering the message. All of us are doing it automatically. Every one of you is doing it. I know that.

1:01:36

I think the luckiest ones have been Farhad and Mahvash. Farhad talked to his sister and Mahvash talked to her brother and they hit the jackpot.

1:01:43

Both of them believed. They're real believers. Of course, you've seen them. You've seen Abdul Hayy and Farbani, real believers. So, it's not always failure or ridicule.

1:01:54

We meet with success a lot. And now Abdul Hayy and Farbani are starting a nice group in Scottsdale.

1:02:02

Very nice group. Because they're doing it. Every one of us is doing this.

1:02:09

Look Masoud is lucky by meeting Naghmeh and Apamea.

1:02:16

A man: Mahmoud, Mahmoud. We know each other for 25 years. Dr. Khalifa: Mā Shā Allāh. And Malihe started the whole chain.

1:02:23

"Here's a group. Ok. Let me go investigate."

1:02:29

And then she found... So, God guides in many different ways. And there is a lot of success.

21 Quran Study From Behrouz 1121 Sura 9:52 By Rashad The Hypocrites Apology To Parivash Sura 56:75 B

The messenger: In God the believers shall trust. In other words, if you're a believer, you must trust that God will take care of you. God guarantees it for you.

0:13

And if something appears to be bad, you must know that there's a good reason for it.

0:21

[9:52] Say, "you can only expect for us one of two good things in war (victory

0:31

or martyrdom) while we expect for you condemnation from GOD and retribution from Him,

0:37

at our hands... or at our hands. Therefore, wait, and we will wait along with you."

0:44

[9:53] Say, "Spend, willingly or unwillingly. Nothing will be accepted from you, for you are evil people."

0:52

Rejectors of God's messenger observe the Salat prayers. [9:54] What prevented the acceptance of their spending is that they disbelieved in GOD and His messenger, and when they observed the Contact Prayers (Salat), they observed them lazily, and when they gave to charity, they did so grudgingly.

1:14

This is an important verse. You should remember it, 9:54. Remember it. When the people tell you that "we

1:21

think that Salat began with Muhammad. We think there was no Salat before the Prophet Muhammad.

1:28

You should remind them with this verse. These are people who rejected the Prophet. They disbelieved in God, but they were doing the 5 contact prayers. The word Salat is very specific.

1:38

Because Salat existed before the prophet. Just at the time, it had been... they had been corrupted

1:44

by idol worship.

1:51

Exactly. Same thing today. 9:54 is another proof that the contact prayers (Salat) existed before the Quran.

2:20

Yes, this is a good point because this, this verse was revealed probably less than a year before the prophet's death.

2:29

And this is my chance to give Parivash a public apology because I misunderstood

2:35

her question yesterday. She was saying that the the verse is at the end of Sura 15,

2:41

they are people who accept the Quran partially could not possibly be applicable to the the time of

2:48

the prophet because the Quran itself was being revealed. So, it was not in existence really.

2:55

Even when the Prophet died, they left the Quran in the chronological sequence with instructions in

3:01

the side was... is not organized at all into a Quran. Now, we have the Quran. This is the Quran

3:09

the format that God wants, and did not exist until 20 years after the prophet's death. They decided to put it together.

3:20

Parivash: This is very... this only one verse is very very strong. It says proclaim to whom... proclaim the messenger... if messenger... that I'm messenger and after that...

3:35

The Messenger: (15:89) **وَقُلْ إِنِّي أَنَا النَّذِيرُ الْمُبِينُ** And say I am the... Parivash: One verse is enough to know that after Muhammad, a messenger comes.

3:44

The Messenger: Mā Shā Allāh. Yeah, I misunderstood the question.

3:54

The Messenger: 196, at the top, 55 says "Do not be impressed by their money, or their children. GOD turns these into means of retribution for them in this life, and their souls depart while they are disbelievers.

Disbelievers that look happy.

4:10

This is a common thing that you may come across "Look at those people. They are not believers but they are happy and rich and this and that." But they are not happy. You have to take that word out. Because God says "He

4:21

will cause the money and the children to be to be the source of misery for them."

4:31

Then, after all this misery, they leave the world as disbelievers.

4:38

56, They swear by GOD that they belong with you, while they do not belong with you; they are divisive people.

4:46

They will create division. They'll create confusion because the statements that come out of their mouth is disbelief.

4:58

[9:57] If they could find [any] refuge, or caves, or a hiding place, they would go to it, rushing.

5:03

[9:58] Some of them criticize your distribution of the charities; if they are given therefrom, they become satisfied, but if they are not given therefrom, they become objectors.

5:18

[9:59] They should be satisfied with what GOD and His messenger have given them. They should have said, "GOD suffices us. GOD will provide for us from His bounties, [through] His messenger. We are seeking only GOD."

5:33

And here's the distribution system for charities other than ZAKAT. Those apply to ZAKAT.

5:41

[9:60] Charities shall go to the poor So, on ZAKAT, it says your parents first. They have to be poor. If they are not poor, then you go to the next line which is relatives, cousins, aunts, nephews, nieces, uncles.

6:04

[9:60] Charities shall go to the poor, the needy, the workers who collect them, the new converts, to free the slaves, to those burdened by sudden expenses, in the cause of GOD, and to the traveling alien. Such is GOD's commandment. GOD is Omniscient, Most Wise.

6:29

[9:61] Some of them hurt the prophet by saying, "He is all ears!" Say, "It is better for you that he listens to you. He believes in GOD, and trusts the believers. He is a mercy for those among you who believe." Those who hurt GOD's messenger have incurred a painful retribution.

6:47

62, They swear by GOD to you, to please you, when GOD and His messenger are more worthy of pleasing, if they are really believers.

7:00

Retribution for Opposing God and His Messenger 63, Did they not know that anyone who opposes GOD and His messenger has incurred the fire of Hell forever? This is the worst humiliation.

7:14

[9:64] The hypocrites worry that a sura may be revealed exposing what is inside their hearts. Say, "Go ahead and mock. GOD will [bring out] what you are [worried about]."

7:26

[9:65] If you ask them, they would say, "We were only [joking and playing]." Say, "Do you realize that you are mocking GOD, and His revelations, and His messenger?"

7:37

[9:66] Do not apologize. You have disbelieved after having believed. If we pardon some of you, we will punish others among you, as a consequence of their [transgressions].

7:48

[9:67] The hypocrite men and the hypocrite women belong with each other – they advocate evil and prohibit righteousness, and they are stingy. They forgot GOD, so He forgot them. The hypocrites are truly wicked.

Dr. Rashad Khalifa Talks about Hypocrites.

8:01

[9:68] GOD promises the hypocrite men and the hypocrite women, as well as the disbelievers, the fire of Hell, they abide [therein] forever. It suffices them. GOD has condemned them; they have incurred an [unending] retribution.

8:17

So, here we read four pages, most of the them about the hypocrites because they sit, sit with us and they... we look on them as believers and then

8:27

they talk to some of us and people listen to them and what comes out, they cause doubt in the hearts of them

8:37

in the heart of the believers. But God reserves the lowest pit of Hell for them because of this.

8:45

Because they look like believers, act like believers. We have to be...we have to be aware as we grow. Just because

8:56
 we're all here at the same rung doesn't mean we have to be perfect in our religion. This is a test for all of us.

9:07
 They could be very very loving friendly people and, you know, they are with us and...

9:15
 Then, they stab you.

9:21
 Yes, in fact, there are many examples of this. They are with us and very strong. We became very close and very friendly but now we know they are not believers.

9:32
 Cause things are happening progressively and there's a drop-out point for some people. So, even though they believe

9:41
 when the messengership point came, for example, they couldn't take it. But they continue to come

9:47
 with us and talk with us. You know a few of them.

10:10
 OK. We'll have 5 minutes of discussion.

10:24
 Charity is something that don't stop. Storm could come and destroy San Francisco and the people on the street hungry and... you don't even know their names. You help them.

10:39
 Right. Because it's limited by you and me by not being too extravagant. Go ahead.
 Zakat to Family who are not fighting you because of religion.

11:12
 Yes, give the ZAKAT to the relatives first unless...unless he's fighting you. He's just disbelieving and has made a decision he doesn't know but he's not fighting

11:24
 you actively when you have to give the ZAKAT to the relatives first. God says that.

11:31
 Because your cousin who's not fighting you, maybe next week, he reads the Quran, discover God and becomes

11:37
 better than you and me, right? And maybe when you help him, this will cause him to believe.

11:44
 He says "wow, this is a good statement that believers are charitable." So, God tells us to consider them potential believers.

12:11
 IN SHAA ALLAH.

12:38
 He got the message from another source?

12:44
 Oh, I see. Well, if the circumstances come up, we're supposed to give the message, any way, when the circumstances come up.

12:55
 God will create the circumstances for us to deliver the message but we must strive. We need to strive. We need to do something.
 Believers Vs Strives. Loaning money.

13:08
 You know, as it is the majority of people believe in God alone, worship the Quran alone, worship God alone. And that's it. They're believers. They're good. They're going to Heaven. But they are not the same as

13:24
 people who strive who are just aflame. Hey, look who's here. The Turners are here. Come on in. Come on in. Mā Shā Allāh.

13:51
 You left Omnia home.

13:57
 'Alaykumu Al-Salam Kid sleep here in Tucson? Oh, OK. I know how it is.

14:08
 Mā Shā Allāh.

14:27
 Written down? If... if in your mind, you don't care if she keeps the money

14:35
 and you never get it back, then it's okay. But if you want it to be repaid, God tells us

14:43
 to write it down, so you don't forget how much you give her and she doesn't forget how much she borrows.

14:49
 If you don't care if she ever pays it, then it's okay. This... this you write it down if you expect it

14:58
 to be paid back because I'm telling you you'll forget. You may give her \$500 and then after a

15:05
 month, you'll be absolutely positive you had given her 1000. Sometimes Satan will see to it.

15:20
 The person who's giving the loan is in control. So, it is the person's right. But the person who's taking the loan is the one who dictates the terms or writes down, writes down "I received."

15:36
 "I received \$500 from Roxana and I promise to pay it \$50 a month gradually and finish

15:46
the payments on a certain date." This is... God gives us the details of what to write. Because it'll be written in the hands of the borrower.

15:57
And then you have two witnesses. This is why there'll be no confusion at all. Subhan Allah. I mean, this was... this came down at an age when there were no accountants.

16:39
Yeah, this is true in all countries and seems here also. No, but this is a specific situation talking about the community of believers. And we've seen it also within the

16:51
community of believers.

16:58
We live... we are living the Quran.

17:03
So, why don't we finish question 9? As much as you can.

17:16
We're talking about believers who believe in God, the Hereafter, follow the Quran alone and worship God alone, but that's the extent of it.

17:24
They're good people. They're going to Heaven but they're not at the same rank, as far as God is concerned, like the people who, who strive.

17:37
Right. Yeah, right. You have to see all circumstances and how it is working, but God says

17:47
قُلْ لَا يَسْتَوِي الْقَاعِدُونَ مِنَ الْمُؤْمِنِينَ غَيْرُ أُولِي الضَّرَرِّ وَالْمُجَاهِدُونَ فِي سَبِيلِ اللَّهِ بِأَمْوَالِهِمْ وَأَنْفُسِهِمْ، فَضَّلَ اللَّهُ (4:95) الْمُجَاهِدِينَ بِأَمْوَالِهِمْ وَأَنْفُسِهِمْ عَلَى الْقَاعِدِينَ دَرَجَةً

17:56
God raises the strivers.
Sharing the message "don't chase them away" "keep the door open".

18:02
So, I don't, I don't push unless this comes from the people who care.

18:17
Yeah. Yeah, you're gonna see to it that the message is delivered in the best possible and the most effective manner. It all depends on the circumstances. Again,

18:28
(16:125) ادْعُ إِلَى سَبِيلِ رَبِّكَ بِالْحُكْمَةِ وَالْمَوْعِظَةِ الْحَسَنَةِ Invite to the path of God with wisdom and great diplomacy.

18:37
You're gonna do it so you don't chase him away and you don't.... keep the door open. If they are not going to believe now, you keep the door open for them.

18:47
So, you're right. Yeah. Mā Shā Allāh. So, is it good? Good. Alhamdu Lillah

19:44
But there's a point of... where God asked us to give up and then the question in Sura 13

19:53
so "is it not time for the believers to give up on the disbelievers and realize that God guides whomever He wills?"

20:03
Usually they catch it if God wants it one day. Somebody's gonna believe this. That's it. They see it. You can tell if they're blind and deaf or if there's a concrete wall around them or if they are wide open to the message.

20:21
I don't know. It's been rare to see somebody who's completely blocked and then all of a sudden they, they could see.

20:30
Well, Lisa and Susan go to work. Don't go through this door.

20:35
I think Parivash finished cooking so you can have some breakfast. You're gonna go help them? Yeah.

21:00
Ok. Wait. Stay, stay where you are, stay, stay just one minute.

21:05
Lisa and Susan have to go to work soon. So, just wait. Wait a minute.

21:30
Lisa: أَعُوذُ بِاللَّهِ مِنَ الشَّيْطَانِ الرَّجِيمِ

21:50
Lisa: بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ Lisa: As Rashad said we're starting with verse 75

22:02
Lisa: In Sura 56 verse 75

22:11
Lisa: The honorable Quran [56:75] I swear by the positions of the stars. [56:76] [And it] is an [awesome] oath, if you only knew

22:27
Lisa: We could talk about that all night. Lisa: We know now, though it was not known 1500... 1400 years ago, how awesome an oath this truly is.

22:43
1400 years ago, they could see the stars and looking up in the sky being awed by them as we are today. But for us, having the knowledge that we have

22:54
we know that what you can see in the night sky is the minutest fraction of the stars there.

23:02

I'd like to read a little bit of passage, talking about how big our galaxy and the universe
23:15
really is. I don't wanna go too far with it, but to give us a little bit of a feel
23:21
again on how awesome an oath this truly is because it is a more awesome oath than we could really
23:27
comprehend. Even though intellectually we can try, it's beyond our comprehension.
23:37
Our sun is only one of perhaps a million stars within our galaxy, Milky Way. The stars of the
23:44
Milky Way is awesome. It would take us a hundred thousand years at the speed of light to cross it from one end
23:51
to the other bearing in mind that the sun's light travels 93 million miles in 4 minutes.
24:06
We can appreciate the vastness of the Milky Way, the hundred thousand light years across.
24:13
From the outer limit of our galaxy how significant the planet Earth of the solar system is? Our next-door gal... neighbor
24:22
galaxy, the closest galaxy to our Milky Way is 2 million light years away. These are all
24:32
established scientific facts that a civilized and highly educated generation is fortunate to
24:37
know. If we go to the center of our neighbor galaxy, can you visualize the planet Earth of the
24:44
Milky Way galaxy? How significant is it at that distance? By moving away from our galaxy to the
24:52
nearest galaxy close to us, we are already talking about incredible distances, millions
24:58
of light years. Yet our universe contains a great number of galaxies. Back in the 1950s
25:06
(unintelligible) drew the first map of the universe and its galaxies. One thousand galaxies were surveyed then.
25:14
And since then, scientists have discovered 1 billion galaxies, more than a million times
25:21
what was known 30 years ago. Can you imagine the vastness of our universe with its billion galaxies
25:30
and billion trillion stars? We are now talking about billions of light years within our universe.
25:42
Have you lost track of our planet Earth? How significant is our planet Earth?
26:02
It is very important to keep this size and our significance or perspective in order to
26:09
appreciate the significance or insignificance of teeny creatures who inhabited this planet for
26:14
brief period of time. And then we have one of the psalms. This is psalm... from psalm 8. "when I behold your
26:25
heavens, the work of your fingers, the moon and stars which you set in place, what is man that You
26:32
should be mindful of him or the Son of Man that You should care for him."
26:43
And yet we get up in the morning and we think (unintelligible). This is truly an awesome oath and God is swearing. [56:75] I swear by the
positions of the stars.
26:57
[56:76] [And it] is an [awesome] oath, if you only knew. [56:77] This is an honorable Quran. [56:78] In a [perfectly preserved] book.
27:06
[56:79] None can [touch] it except the [righteous]. [56:80] [It is] A revelation from the Lord of the universe.
27:14
We have in our hand the only thing that we need. God has blessed us with this incredible blessing.
27:23
This is our roadmap back to God. And we know that it is, it is an honorable Quran and it has been perfectly preserved.
27:35
We, in this mosque, know that better than any people on earth or we've been incredibly what? incredibly...
27:47
The miracles continue to come, flooding us, absolutely flooding us, showing with no uncertain... in no uncertain terms that this book is
perfectly preserved.
28:01
And that not only is it perfectly preserved, but it is so incredibly coded that there is no way that
28:08
any human being could have even approached the slightest... to the slightest degree approached writing it even more thoroughly.
28:17
It's beyond, beyond us and truly great. And we know now also that none can touch it except

28:25
the righteous. What does that mean? I mean, that doesn't mean physically touch it, but it means that no

28:31
one can get from this Quran unless they are righteous. Unless they... Unless they're truly thinking of God. And beyond that

28:39
and more importantly for us to this point, we know that no one could discover this miracle, not being righteous.

28:46
There is no way. This miracle is at off limits of anything we can imagine. God has already sworn by the position of the stars that this is an honorable Quran.

28:57
This Quran is honorable and it's perfectly preserved and that is... that... it's overwhelming, massive and overwhelming. So, we know first

29:08
of all, we know that this Quran has been preserved. We're also given very clear, very... the strongest of proofs that the discoverer of this code is indeed righteous which is something that obviously all of us realize

29:25
because (unintelligible)

29:33
But we know very clearly and that this miracle and the revelation itself has come from God.

29:45
There is no way, there's no way we could... we could have made it up or it could have been tricked from God

29:53
that anyone could even trick God to discover the miracle any more than they could have tricked God to....(unintelligible)

30:08
Verse 81, [56:81] Are you [then evading] this [message]? [56:82] Do you make it your [share] that you [reject it]?

30:16
[56:83] [your soul will reach your throat someday] [56:84] [then] you will look around. [56:85] We are closer to it than you are, but you [can] not see. [56:86] [If you do have any power, you should reclaim your soul] [56:87] if you are truthful?

30:35
Look at how many people are fighting, fighting these verses. These verses, to me, are... are specifically directed

30:43
to them as well as obviously to those who reject the Quran.

30:49
"Are you... are you evading this message?" God has already said that the Quran is perfectly preserved that none can touch it except the righteous,

30:58
and yet there are those who say that they are Muslim and say that they study the

31:04
Quran and yet they reject the miracle and they do it out of ego. They don't like what we do. We're just worshipping God alone, removing all additions, all of the falsehood, all of the garbage and coming back to the very simple truth.

31:22
It is very simple. It's not easy and until you make it easy, until you allow it to be easy.

31:31
It's very simple. And it's very straightforward and clear-cut.

31:37
Those who are evading this message and that's truly what it is. I mean, anyone who reads this, reads this Quran have to, have to evade it or follow it. If you follow it,

31:48
there's no way you can, can follow Hadith and Sunnah. There's no way you can accept all the other garbage if you're

31:54
following the Quran. So, if you're reading it and you're still following Hadith and Sunnah, you're evading the Quran.

32:06
[56:82] Do you make it your [share] that you [reject it]? Well, they take the very... it takes a lot of work

32:12
I think on some level not to accept the truth. You have to... you have to work at rejecting the truth.

32:22
When you intend to do that or when you do that, then you become a fanatic person. I think that's a lot of what we've seen.

32:34
And it's very clear from the next verses that none of us can help our lives. None of us can

32:41
stop death when it comes. God is closer to us than our jugular vein. He stands between us

32:50
and our hearts. We know that God is in control of every... the minutest detail in the universe. He controls every

33:00
atom, every subatomic particle within our body, within the rest of the universe. That power is so

33:11
awesome and so incomprehensible to us that it's probably easier for all people to ignore it because

33:16
it's too scary to realize that there is a powerful....

33:25
And yet we're here to come back to that realization. We're here because we did not remember that when we were in God's Heavenly plain and we're here again, as Laurie so beautifully

33:44
expressed. We're here again to try and come back within a second chance. Should I... can I stop here? Are there any questions or comments?

34:17
I'm sorry. Thank you. Excuse me

34:23
The footnote: the Quran is by no means a regular book. Only the sincerest seekers of

34:28
the truth will be allowed to understand it (see 41:44). The insincere will be prevented from acquiring any

34:35
knowledge from the Quran. In fact, those who are prevented by God from learning the Quran. Plainly, this verse means

34:43
that no one can physically touch the Quran unless he satisfies certain ablution requirements.

34:48
Obviously, this distortion is a clear Satanic plot to prevent people from studying God's message to them.

34:54
Our salvation is in reading, studying, and heeding the Quran.

Dr. Rashad Khalifa explains "none can touch it except the righteous"

35:02
The messenger: It's not really "touch", the English word. The Arabic word does not mean "touch." And we have to find another word, but still in English, you can say that.

35:15
The messenger: It means that nobody can derive anything out of the Quran unless they are sincere.

35:23
But in Arabic the word is يَمَسُّه And it's different from يَمَسُّه

35:28
يَمَسُّه is physical touch but يَمَسُّه is touch in this meaning that they cannot take, derive, understand anything from letters they see.

35:40
Cause your teacher is God. When you read this book, you're directly being taught by God as we read in Sura 55. It's not a regular book.

35:51
This is why you read it over and over a thousand times and you still find new things every time, unlike a novel. You read a novel and that's it.

36:00
(unintelligible) Cause every time you look in it, God gives you new information.

36:09
This is.... in verse 77, the Quran in Arabic is described as KARIM. In other places, it is called Quran 'AZIM. And in Sura 50, it is described as Quran MAJEED,

36:21
Glorious, 'AZIM, Great, KARIM, honorable. So, these are actually a sequence of God's names. I mean, this is awesome to describe the Quran with the same names of God.

36:36
'AZIM, MAJEED, KARIM tell you how great this book is. Your salvation is in this book. And we're really... we're really fortunate to be

36:46
studying it every week. I mean, the Quran study. Hopefully, you're reading it everyday, at least one verse every day. Make it a duty upon yourself.

36:56
Cause it... you know, it's a blessing. None can touch it except the righteous. And we have... we have an international

37:09
observation to prove this in the... the miracle of Quran that is coming up in this mosque that it is... it is a miracle that

37:19
is like the Quran, ranges from the very simple to the very complex. Yet, nobody was allowed to

37:26
make any discovery in this miracle except those who are connected with with us, connected with...

37:32
to believers, only believers who believe like we do. They believe in worshipping God alone and upholding the word of

37:41
God alone. Just look at the people made discoveries. I wanna pass this around. Just do it very

37:47
fast. Just take one and pass on to the next.... This is a summary of the miracle in one page. When you look on the back and there are other

37:57
features of the miracle, you'll see that the first verse is 19 letters. The number of Suras is 114, 19 x 6.

38:04
Is this simple enough? The first verse is 19 letters. The number of Suras is a multiple of 19. Rachel, the first revelation was 19 words.

38:14
The last revelation 19 words. These are famous first revelations and famous last revelations.

38:21
And they are very simple. They don't require a computer. But not a single person outside the fold of believers

38:29
was allowed to touch it. It's a monopoly. You look at the people who made major discoveries, Abdullah,

38:40
Mahmud, Ihsan, Lisa, many others, Feroz, Ismail. These are the people that we know. And they are all... Gatut.... they're

38:52
all people who firmly believe like we do. And for a long time, I was surprised why doesn't

38:59
anybody else find these things, you know? Because I needed some support. That's very simple.

39:06
When you look at the back, you see how simple it is. From the missing BISMILLAH to the extra BISMILLAH

39:11
19 Suras. Is this difficult? I mean, the consistency in repetition of the number 19, it's so simple.

39:20
Yet, nobody, a billion Muslims in the world but none of them was allowed to find these very simple facts

39:32
unless they upheld the Quran alone. They believed in Hadith and Sunnah and mentioned other names

39:40
in their prayer. They are not permitted to touch it. This is verse 77. By the way on the wall, you'll see a very

39:51
complex miracle, in the circle. This was, it's no longer the biggest number in the world because this is

40:00
already obsolete. Abdullah, on his birthday yesterday, made it obsolete. In this circle,

40:09
the number begins with the first verse in the Quran, 1. So, if you look on the left, there's an asterisk on the left

40:15
side of the circle and you see right... you start by 1 2 3 4 5 6 7. these are the

40:22
verses in the first Sura. 7 verses followed by the total number of verses in the Sura which is 7.

40:29
Then, you move on to the next Sura, 1 2 3 4 5 6 all the way to 286, the number of verses in Sura 2. When you put the total number of verses

40:40
in Sura two, 286 and you do this all the way to the

40:51
end of the Quran. When you get to the end of the Quran, if you look on the right side, you see this big arrow that says "total number of verses in the Quran", you put that. Now, you have a very long number that is... I like

41:03
it in the (unintelligible). It is 1 kilometer long. And it consists of 12,696 digits. And it is a multiple of 19.

41:10
If you go on, if you see now, if you look on the right side of the circle in the middle of it with

41:15
the big arrow that says "total number of verses in the Quran." After the asterisk comes the total number of

41:22
verses in the first Sura which is 7. And next to it is the seven verses 1 2 3 4 5 6 7.

41:28
Then, you put the total number of verses in Sura number 2 and so on. So, what we're doing in

41:33
the lower half is we are reversing the position of the total number of verses (unintelligible) at the end of

41:39
every Sura. We're putting this in the beginning of every Sura. And brothers and sisters, the number is divisible and go to

41:47
the end. So, now this is a circle and connect the two numbers. We have what was until yesterday,

41:52
the day before yesterday, the longest number in the world, 25388

41:59
digits. And that's a multiple 19. Now, what Abdullah did to make this number obsolete,

42:07
he added the number of every Sura. Okay, let's go now to the asterisk from the left side in the circle.

42:12
It begins with the numbers in the first Sura, 1 2 3 4 5 6 7

42:18
followed by the total number of verses in this Sura which is 7. Now, between the two 7s there, he put the

42:26
number of the Sura, 1. And he did this with every Sura and you get this, the number is still divisible.

42:33
It's just incredible. And there's more. If you put the number of the Sura at the beginning or at the

42:43
end or in the middle, it's still divisible. So, this would be in the Ramadan issue. In the Muslim Perspective, you're gonna

42:52
get more, more of the details. So, now I don't know how many digits there are from the first Sura to the last Sura, the numbers.

43:25
1 2 3 4, you counted the digits? 114. Sura 1, Sura 2, Sura 3, Sura 4, all the way to Sura 114. How many digits? 472, you add that...

43:35
OK. This... there's a by-the-way miracle, you know. 1 2 3 4 all the way to the end of the Quran 114, and you put the digits next to each other.

43:43
474 digits
and it's a multiple of 19. So, you... you put that, you add this to this number which is 25698 digits,

you add 474, now you have the biggest number in the world. It came out of this Quran. 2 4 25 388 plus 1... about. 25800 numbers, digits and that is divisible.

44:06

In the middle meaning between the last verse and the total number of verses. If you look on the left side of the circle, you see the asterisk and above it, you see the number of verses in Sura Al-Fātehah,

44:17

number one. 1 2 3 4 5 6 7 followed by the total number of verses

44:23

in the Sura which is another set. So, he put the 1 between the two 7s that you see there. That's the number of the Sura and you do this in all the Suras, it's divisible. If you move the

44:32

number of the Sura, put it at the beginning, so you have 1 1 2 3 4 5 6 7 7

44:37

that's divisible. And if you put the total number of verses at the beginning, so you have 1 7 1 2 3 4 5 6 7

44:44

you still have a divisible number. So, it is.... it sounds like almost a physical impossibility but it locks... it locks every verse... somebody called today and said

44:57

"how do you know it's only the two verses in Sura 9?" You notice the Sura 9

45:03

is mentioned here. If you look in the upper right corner of the circle, it says total number of verses in Sura 9.

45:08

It has to be 127. This fellow was calling from Louisville, Kentucky and he said "how do you know it's know only

45:14

the two verses in Sura 9 that violate the code?" So, I thought it was every single verse what we see

45:20

here is every single verse in Quran is authenticated as Divine from God, every single one, except these two.

45:30

So, it's just it is fitting to mention why God swears by the position of the stars

45:38

that this is a.... this is a Quran KARIM. By the way, AL-QURAN AL-KARIM has a gematrical value that is 684, a multiple of 19,

45:49

the numerical value of this... the official name of the Quran, AL-QURAN AL-KARIM.

45:56

Just to change the subject to make it a little bit lighter. You know how they count the stars? Just some of you do. But any way, they go out

46:04

in the night and take a picture of the sky, just take a picture and they put in the computer and

46:10

they count... the computer will count the number of the stars in that area in the picture and there's a formula that tells you what the circumference

46:19

from the inside of a circle is and then you can... you can tell from this picture how many are in the

46:26

whole circumference of the whole sky and you do this a hundred times and then you take the average of

46:34

a hundred times and you have exactly, almost exactly, the number of stars, a billion trillion of them.

46:41

And these are the ones that we see. Because of this... our Sun is in the next galaxy, you will not be able to see it because it is one of the dim stars.

46:52

What we're seeing are only the bright stars. This is... this is how we counted them.

46:59

[56:75] I swear by the positions of the stars. Because they are in perfect positioning, perfect orbits. They don't crash into one another.

47:17

There was something else also I wanted... the notes are here.

47:25

Are there any questions?

47:52

Right, right. We have two halves that are divisible by 19. So, what I'm doing here is just making them into a circle. Well, the upper half is a multiple of 19 and you have the

48:04

total number of verses at the end of each Sura. The lower half is a multiple of 19 and connecting them has nothing to do with

48:12

anything, but in the lower half, you have the number of verses at the beginning of every Sura. If you look on the right side of the circle. Look at the right side of the circle at the big

48:22

arrow that says "total number of verses in the Quran." We know that you see Sura Al-Fātehah with the total number of verses which is 7 at

48:29

the beginning, not at the end. So, you have 7 1 2 3 4 5 6 7 instead of

48:36

1 2 3 4 5 6 7 7. Both of them are independently divisible by 19. And I just

48:42
 put them next to each other. And this because the upper half was a discovery by Feroz Karmally.
 48:54
 And he put... he ended up... he ended up putting the total number of verses in the Quran at the end of the number.
 49:02
 The lower half is Abdullah's discovery and the total number of the verses comes ahead of the Suras. So, the total number of verses in
 49:11
 the Quran fits right there, ahead of the whole Quran. This circle is now obsolete, great but obsolete. We have better circles made. Any other
 questions? Back to Lisa and verse number? What?
 49:35
 Lisa: Verse number 88.
 49:41
 [56:88] [Thereafter] If he is one close to Me— [56:89] then [happiness], flowers, and gardens of bliss.
 49:47
 [56:90] And if he [belongs with those on] the right— [56:91] [then] peace [to you from] those on the right. [56:92] But if he is one of the
 [rejectors], the strayers—
 49:56
 [56:93] then an abode of [retribution]— [56:94] and burning Hell. [56:95] This is the [inevitable] truth.
 50:02
 [56:96] You shall glorify the name of your Lord, the Great.
 50:10
 Verse 88 and 89, actually all of these verses, refer back to the beginning
 50:17
 verses of this Quran...this Sura where it talks about the High Heaven, the Lower Heaven and Hell. And we see
 50:24
 again in 88 how beautiful the Highest Heaven is. We know, of course, that these are all allegorical
 50:31
 descriptions. That God uses allegory because there's no way that we in our present states can
 50:38
 even begin to understand really what is in store for us. But we know from, from the allegory of the
 50:45
 Highest Heaven that it is truly blessed and that it is wonderful beyond our dreams. God says that
 50:53
 anything we wish for, anything those who are in the Highest Heaven, IN SHAA ALLAH we'll be there, anything they wish
 51:01
 for and even more. So, God's grace is even greater than anything we can comprehend or, or desire, wish for.
 51:14
 And then those on the right, those in the Lower Heaven, for them also, it's incredibly beautiful
 51:23
 and it's peace. Peace to you from those on the right, an incredible incredible triumph to be
 51:32
 among those on the right. But if he is one of the rejectors strayers, then the retribution
 51:40
 and burning Hell. We know again that we can't comprehend really the awfulness of Hell.
 51:53
 We have a slight idea because we are... it's far from God as anything in the universe at this point
 52:02
 and we know how hellish this world and how awful it is particularly when you step out of God's kingdom. We're incredibly blessed to be in
 God's kingdom, IN SHAA ALLAH, but as soon as you
 52:13
 step out, you know how, what an incredible hell that is and that is nothing compared to the ultimate Hell.
 52:25
 [56:95] This is the [inevitable] truth. [56:96] You shall glorify the name of your Lord, the Great.
 52:33
 Mā Shā Allāh.

22 Quran Study From Behrouz 1222 Sura 39:11 By Rashad Admission Test I Don't Compromise With A Little

Dr. Khalifa: أَعُوذُ بِاللَّهِ مِنَ الشَّيْطَانِ الرَّجِيمِ Bism Allah Arrahman Arraheem God ALONE
 0:08
 Verse 11 says, [39:11] Say, "I have been commanded to worship GOD, devoting the religion absolutely to Him alone.
 0:17
 [39:12] "And I was commanded to be the utmost submitter." [39:13] Say, "I fear, if I disobeyed my Lord, the retribution of a great day."
 0:31
 [39:14] Say, "GOD is the only One I worship, devoting my religion absolutely to Him alone.
 0:38
 These are all commandments from God to you.
 0:46
 I'm gonna read them again, starting at 11. God is telling you to say, [39:11] ..."I have been commanded to worship GOD, devoting the religion
 absolutely to Him alone.

0:56
So, there is no room for Jesus or Moses or Muhammad or the saints.
1:03
Huh? Yes. [39:12] "And I was commanded to be the utmost submitter."
1:10
The utmost submitter never complains. It's a sign of submitter or not.
1:18
The utmost submitter is content with whatever God gives him and understands.
1:25
13, [39:13] Say, "I fear, if I disobeyed my Lord, the retribution of a great day."
1:32
Submitters also realize that everything has a price.
1:38
And this is now after passing all the tests. And you... You've passed your final test. You're in good shape. And you cannot deviate outside
1:48
the path that God drew for you. Because if you deviate, it's very expensive.
1:56
It seems out of proportion, but really it is not.
2:01
You know, when I got pinched in the past, I'd say "No! This is too much! I didn't do that bad."
2:07
And the answer would come back "yes." This is it. You didn't do too bad, but this is the price for it. Yeah.
2:15
The pinch is always way out of proportion, it seems.
2:21
I guess because, you know, somehow we grew up with the notion that God is Forgiving, Merciful which is true, but we tend to abuse this.
2:30
Son.
2:37
God wants to make you perfect. And the system that I have noticed personally, and maybe you too, is that God will take one of
2:46
your defects at a time.
2:51
And He will keep after you until you get rid of that defect. Then, He will start another one, until you cleanse out of that one.
3:01
The end result is a perfect human being, if there is such a thing.
3:06
You'll be following God's commandments perfectly. And you'll be a perfect human being.
3:16
So, the utmost submitter understands all these things.
3:24
Remember that the utmost submitter has a perfect life.
3:30
The only reason you have a headache is because of something you have done.
3:36
I don't think there are any exceptions to that. There are no exceptions. You don't get a scratch or a headache without something you have
done.
3:44
So, it behooves you to find out what it is that you have done.
3:50
Don't defend yourself either. I used to laugh when I tell some people "what did you do wrong?"
3:56
"I didn't do anything wrong." You know, they become defensive. I say "hey, wait a minute, you're supposed to join me in attacking your "self"
and find out what you did wrong."
4:08
They become very defensive. But we're supposed to do this ourselves.
4:13
We have to find out what did I do wrong. But if I, if I'm too egotistic to pinpoint what I did wrong, then I just go on.
4:22
Because the punishment will continue until you know what it is. When you know what it is and you repent, it never happens again.
4:30
The problem is solved. So an utmost submitter means no problems of any kind.
4:46
It's almost unbelievable. But you see, God taught us repeatedly.
4:52
God used me as a guinea pig, a happy guinea pig.
Dr. Rashad Khalifa talks of a personal experience – demonstrated perfect happiness. Edip doubts perfect happiness. Quran verses proves
perfect happiness.
5:00
I mean, I put myself in situations where a problem should have happened.
5:06

But it wasn't the cause of God, so a problem didn't happen. And the reason I'm saying this is because Ihsan is sitting here, and she expected a big problem.

5:16

Thank you. I had... I was busy with this translation, and I slept here three nights in a row. I didn't go home for three days.

5:27

And then, the answering machine... the telephone rang, the answering machine came on. My wife was on the phone. This is Stephanie. So, Ihsan started to run away.

5:35

She said "this is it." She's gonna divorce you. You're finished. This is it. A big fight.

5:42

So, as she was approaching this door here to run away, she heard her say "I made a batch of Italian cookies, but they were so delicious.

5:50

I'm sorry we finished all of them. So, I'm gonna make you another batch."

5:55

She couldn't believe it. She, until now, she can't believe it. But this is... God manipulates the minds and the hearts of the people.

6:06

In fact, this happened again when three or four weeks ago... Huh? A few days ago when this visit.

6:13

I slept here two nights in a row. And she called.

6:18

What did she say this time? What did she want?

6:26

No, say it again. What did... I want to chat. I forget what she wanted, but it was peaceful. She was also running away.

6:36

Oh, yes, yes, yes. She said "I'm the happiest person in the world." I said "what?" Now, now I, I was insulted.

6:46

"Ok. Wait a minute." Honest, this is what she said. Yes, I remember now. She said "I'm the happiest person in the world."

6:51

I said "what's happened?" She said "I found the car I've been looking for, for a long time."

6:56

"I'm like a baby. I'm like a child who found a toy." This is exactly what she said.

7:02

She's been looking for a car.

7:09

So, I mean, this is a situation that warrants a problem, right, with most people. "Where have you been?"

7:18

"You're a half hour late." "If you left your office at 2:30, you should have been here at 3 o'clock. It's 4 o'clock now."

7:30

So, what I'm saying is that God's Mercy and Grace allowed us to learn from experience.

7:37

We really have a track record. And it is... Edip is not comfortable with my statements.

7:45

Because you have to go through what I went through. When I make a blank statement, blanket statement.

7:50

"A believer has a perfect life. No problems, no headaches, no traffic tickets." He says, he always says "What if we grow and we have a lot of people and problems happen?"

7:59

They don't happen. God can handle them.

8:04

God's law is absolute. Let me just read it with you again.

8:10

Because I wanted to pass this on to the people. Let's look at 10:62 or 11:62. What is it?

8:23

Page 216.

8:29

I think Edip will appreciate that because the Arabic is so powerful and he knows it. He knows the Arabic.

8:34

The top of page 216 says, [10:62] Absolutely, GOD's allies have nothing to fear, nor will they grieve.

8:44

In Arabic, (10:62) **أَلَا إِنَّ أَوْلِيَاءَ اللَّهِ لَا خَوْفٌ عَلَيْهِمْ وَلَا هُمْ يَحْزَنُونَ** Very strong Arabic. It says "Absolutely."

8:50

I tried to bring it in the English as close as possible. [10:62] ...GOD's allies have nothing to fear, nor will they grieve.

8:57

The next verse identifies who are they. [10:63] They are those who believe and lead a righteous life.

9:02

That's it. If you believe and lead a righteous life, you have nothing to fear, nor will you grieve.

9:16

Why are you peeking through the, why are you peeking through the crack? Come on in.

9:21

A woman: Hi. Is it okay? Dr. Khalifa: Okay, what? A woman: I had to peek over at the museum and I just wanted to come by to pray.

9:27

Dr. Khalifa: Sure. That's fantastic.

9:37

Number 64 says, [10:64] For them, joy in this world,...

9:43

We don't have to die first before we enjoy Heaven. It happens here. [10:64] For them, joy in this world, and the Hereafter. This is GOD's unchangeable decree. Such is the greatest triumph.

Admission tests usually within the first 5yrs can be within the first month. Follower claims she has a cold and fever, Dr. Rashad Khalifa tries to help identify why. Talk of disbelieving family members.

10:00

So, this is it. God's law.

10:05

You have to realize that there is an admission test.

10:11

And the admission test is very exacting, very exacting.

10:18

It's usually in the first five years after you claim that you've come to worship God alone.

10:25

It doesn't mean it will last five years. Don't be scared. It comes within the... If you're proven to be a total submitter completely in the first month, then it is over.

10:36

But you must realize it happens. And all the while, you're in God's hands. The test is very tough.

10:43

Where is Mahmoud?

10:48

Did he leave? Yes, so, he's going to take his car. Mahmoud is undergoing a test like this.

10:55

He temporarily lost his wife, his kids, his cars, his computers. And he's very cheerful as you see. But it's all temporary.

11:06

Everything will be restored and twice as much. He knows that.

11:12

He's a good believer. And we know that. But what I wanna say is that when you have a problem, you understand, you must understand the root of the problem. What is it?

11:22

Why am I having this problem? So, if you're not in the admission test, then you did something wrong.

11:29

In the admission test, simply, you say that you're gonna worship God alone, and Satan says otherwise.

11:36

You know, "Behrouz doesn't mean it. He's just saying that." And God tells him "OK, you can go and beat him up, but within a limit. You cannot do this and this to him."

11:47

So, Satan starts on Behrouz, beats him up, gives him backache, a few other problems.

11:54

But it doesn't fear Behrouz. He continues to worship God alone. Then, he's proven to be worshiping God alone. Then, all the blessings open up.

12:03

Just, just watch. Pardon?

12:08

A woman: I also have a cold and fever, you know, I must be (unintelligible). Dr. Khalifa: You have cold and fever now? A woman: Yes, (unintelligible)

12:14

Dr. Khalifa: Oh, well, this is part of the fun of traveling, you know.

12:30

The only thing wrong that I can think of that you did may be feeling sympathy for the people who, out of ignorance, were idolizing Muhammad and Ibrahim and so on which is...

12:40

A woman: I do feel that they were idolizing (unintelligible) Dr. Khalifa: Yes. A woman: (unintelligible) Dr. Khalifa: Yes.

12:48

A woman: (unintelligible)

12:53

Dr. Khalifa: Well, their judgment is in God's hand. But I don't think...

12:59

I think your cold and fever will go away as soon as you're convinced that that was wrong.

13:07

You do that. Just a little principle, a reminder from God to us to make everything right.

13:17

But this is a common... By the way, this is a common thing that I went through and everybody goes through

13:23

that we feel for our grandparents and so on. They were, they were all nice people. We loved them very much.

13:29

And our wishful thinking tells us "maybe, they didn't know or their intention were good" and so on.

13:35

A woman: But we have come to know because you have come in our time. Dr. Khalifa: Yes. A woman: (unintelligible) and perhaps. they would have believed. Dr. Khalifa: Yeah, but...

13:41

Dr. Khalifa: No, but see they had the Quran. They had the message there. Dr. Khalifa: Ok, Lisa, you better get going. Yeah.

13:46

A woman: (unintelligible) Dr. Khalifa: Yes.

13:52

Dr. Khalifa: Yes, but you see, if they deserved better, God would have seen to it that they received the corrections.

14:01

A woman: Because exactly this line my father would say, like "if there's a true believer, nothing A woman: can harm him and God will give him Heaven in this world." Dr. Khalifa: Yes.

14:08

A woman: And he will enjoy life. There can't be a happier person. Dr. Khalifa: Yes. A woman: And he was one (unintelligible) wherever he went. Dr. Khalifa: Mā Shā Allāh.

14:18

Dr. Khalifa: This, yeah... Dr. Khalifa: Yeah, but this is fine, but you cannot generalize it to the population.

14:25

If you know a person personally and you see very well that he is worthy of Heaven, he probably did go to Heaven.

14:31

Probably God understood his situation. I'm sure, not probably, I'm sure God understood his situation. But we cannot generalize this and we cannot sympathize with that

14:40

for our own good because if I say "maybe, these people had good intentions" and we defend them, Satan will capitalize on that.

14:50

He says "see, he or she is defending the idol worshippers."

14:57

A woman: I got a terrible headache yesterday because I was questioning this (unintelligible) about the... Dr. Khalifa: Yes, the case of the first cousin. I'm glad, I'm glad you knew that, yeah.

15:07

This is a good example, actually. And 99.9%, this is exactly the connection.

15:15

A woman: (unintelligible.) Then, I started to understand. Dr. Khalifa: Yes. Dr. Khalifa: And it's wonderful to know that, because you probably never again question the wisdom of the Quran.

15:24

A woman: I didn't mean to, but the way I sounded, I probably... Dr. Khalifa: Yes, exactly. It is the way it sounds.

15:30

You see, Mrs. Amirali was perfectly innocent when she was talking about those past generations. But Satan will take that innocent statement and then make a big mountain out of it.

15:39

He will actually say "she is defending the idol worshippers." And there is a law in the Quran that you do not defend idol worshippers, even if they were your parents, your... and so on.

15:52

Remember, he's a liar. Satan is a liar. And if we don't word our statements carefully, especially when we're touching on the issue of idol worship,

Satan capitalizes on our wrong utterances. Do not compromise with a "little insurance". Follower talks of backache.

16:03

he will take that and will capitalize. If I say the slightest thing in defense, away from God. So, this is why I don't compromise when they ask me about

16:12

white lies and little insurance and things. I don't compromise because if I say anything

16:18

that is a little, just slightly away from God's law, Satan will capitalize on it. And say "see, he doesn't follow your law."

16:26

Then, I'll get smashed on the head. Because God invariably calls Satan's excuses.

16:35

And He says "okay, go test him." Because God puts limits on him.

16:41

When He sends him to test you, He puts limits on you. He says "you can give her a cold and fever, but that's about it. You cannot give her a headache," for example.

16:56

We need to understand this mechanism. We believe in God. God told us "there is Satan." And we need to understand what does Satan do.

17:04

We read the other day, some of you were here, some were not, that Satan will come from your right, your left, from your right, right, left, front and back.

17:13

He will come to you from every direction. And he will exactly catch those sentences that may be misunderstood to mean that you're defending the idol worshippers or deviating from God's law.

17:27

And he'll say "this person... ." He will lie.

17:33

But he will use your words. So, we don't wanna give him a chance to do that.

17:39
Like Roxana said, she didn't mean to question God's wisdom. She was just discussing the thing intellectually.

17:44
But it sounded like, if I didn't know her, I would think she was questioning God's wisdom. "Why didn't God prohibit first cousins?"

17:51
"Why are the Christians wiser than God, for example, in prohibiting first cousins marriages?"

17:57
Satan will do that. Satan will say "Roxana means that You're not wise, as wise as the Christians."

18:07
Roxana: I think it takes a while before we realize that every letter of the Quran has to be followed, otherwise we makes mistakes. Dr. Khalifa: Yes.

18:14
Dr. Khalifa: Yes, exactly. It takes a while. It takes a while.

18:20
Where is Martha? Martha.

18:26
No jumping, honey. Sit down. Sit down. Don't jump.

18:32
Shut the door. Oh, are you there? Oh, you're praying?

18:39
Okay. I just wanna keep the kids under control, because they're jumping now. A woman: Nora, thank you.

19:00
Dr. Khalifa: Mrs. Amir-Ali is not supposed to have a headache or cold or flu or anything like that.

19:15
I think also we have to realize the limitations of our bodies, I guess.

19:21
Dr. Khalifa: No, I don't wanna compromise with that. A woman: No, no. Behrouz: Well, my problem is...

19:26
Dr. Khalifa: I just remembered... Behrouz: My back problem is (unintelligible). I knew that I was not supposed to pick up anything. Dr. Khalifa: Yes.

19:34
Behrouz: But surprisingly, in four days, I didn't have any pain.

19:40
Dr. Khalifa: It's just part of the test. You took Mehdi's... Behrouz: Yes. At this time... Dr. Khalifa: You love him so much that you said "I'm gonna take you backache. Behrouz: Yes.

19:48
Behrouz: I don't know if he's gonna love me this much. Dr. Khalifa: Because it's his anniversary.

19:54
God will love you and will remove it. God loves you and will remove it, IN SHAA ALLAH.
"If you give God the credit you can brag" about God's blessings. Satan and the Angels do not know what's in your mind. Only God knows what's in your innermost thoughts. Your "companion" plants bad thoughts.

20:02
The reason I said... I stopped in the middle of the sentence, we have to realize the limitations of our bodies.

20:07
I'm gonna say Alhamdu Lillah, Mā Shā Allāh, Subhan Allah, and all these, because you can brag when you say that.

20:13
You give God the credit, you can brag about it. Brother Abdul Hayy was here, and he came and looked at my computer, my chair.

20:21
And he said "you're supposed to have a terrible backache." Because I'm sitting at the computer, on average, ten hours a day.

20:28
He said "this computer is too high or too low. The chair is this and that." He said "do you have back problems?" I said "no."

20:35
He said "you're supposed to." But, so, this is what I mean by even the body limitations.

20:42
God will heal you somehow. You're in your admission test, so don't complain.

20:50
You're not complaining. Alhamdu Lillah. A woman: Ok. Satan (unintelligible) Dr. Khalifa: Right.

21:01
A woman: (unintelligible) Dr. Khalifa: Mā Shā Allāh. A woman: (unintelligible) Does he know what is in your mind? But sometimes... Dr. Khalifa: No.

21:10
Dr. Khalifa: No, he doesn't know what's in your mind. A woman: (unintelligible) what you say orally? Dr. Khalifa: Right.

21:15
Satan and even the Angels do not know what's in your mind. But, but, there's a big but.

21:23
God knows what's in your mind. You see, this is at the end of Sura 2. God is the only one who knows what's in your innermost thoughts.

21:32
Not only He knows what's in your mind, He knows what's in your mind ten years from now. That's in Sura 20.

21:39
God knows, He knows what is more secret than the secret. So, what's more secret than the secret?

21:45

The future secret. So, So, Satan doesn't know what's in your mind, but God does.

21:53

So, and God says "do not have anything wrong inside, inside your mind."

21:59

Go ahead. A man: So, even thoughts that come into your mind, Satan doesn't put them there.

22:09

Dr. Khalifa: Your companion does. Yes. Your companion is in there. And your companion puts those thoughts, and it is your job to sift through them.

22:18

And if it's... In fact, remember the verse that says "the believers, when a whisper from the devil comes to them, they seek refuge in God."

22:29

Your companion is your devil. And it's your job to counter those bad thoughts.

22:39

He will ask you to do all kinds of bad things, to lie, cheat, lose your temper.

22:45

A child: Ok. Ok. Dr. Khalifa: Does this mean Batul lose her temper? No. No way.

22:53

Then, look at her like that.

23:01

"Are you telling me that Princess Batul loses her temper? No." With two kids like that.

23:11

A man: So, your companion is not in touch with Satan? Dr. Khalifa: No. Dr. Khalifa: He is Satan. He represents Satan.

23:20

He already has his built-in natural instinct to tell you not to Pray, not to worship God alone, not to be honest, etc., etc.

23:28

It's already, that's his nature. A man: So, Satan has no... is not in touch with them until...

23:35

Dr. Khalifa: That's his seed. That's his seed. And it's inside your brain. So, this is the, this is the only access he has to your brain.

23:45

But it's your job and my job to convert this seed of Satan into a God-worshipping jinn.

23:53

A woman: So, it's about your practices in (unintelligible) and living the righteous life that converts Satan? Dr. Khalifa: See, he's reading the Quran now, as you are reading. She is reading the Quran now, excuse me.

People who use Jinns.

24:02

Yeah, as you read the Quran, she too is reading the Quran. And she's thinking about it. Edip: You convinced her and him. Now you are beginning to hear it. Dr. Khalifa: Yes. Exactly.

24:13

Dr. Khalifa: She tried her best to keep you from doing this. But you won, and you brought her.

24:22

Dr. Khalifa: In Sura 72, verse 6, that human beings sometimes use the jinn and they end up in trouble.

24:30

And I know some people who used the jinns, and the jinns became their gods.

24:38

And on the Day of Judgment, God will ask some of those jinns about that, and they will disown each other.

24:50

I know one person who called the jinn jinn, and the jinn said "I am Ali Ibn Abi Taaleb."

24:57

And they will ask about these things, you know, and the jinn will play around with them, will give them information that they actually believe,

25:09

And that caused their destruction. A man: That information (unintelligible) wrong.

25:16

Dr. Khalifa: Of course, it's wrong. A man: They are the big jinn of Ali, for example?

25:23

Dr. Khalifa: No, probably not the jinn of Ali, but the companion of Ali. Because Ali died too long ago.

25:29

I haven't heard of a jinn that's 1400 years old.

25:35

If the jinns want to play around, they can say anything they want, whatever they say. If the person is crazy about Elvis Presley, they will come and say "I'm Elvis."

25:44

They'll even sing. Just to fool the humans.

25:53

See what can keep the kids quiet? What can you do to keep them quiet?

26:06

No, I have a better idea of separating them. Everybody call your kid next to you.

26:13

Let them sit next to you.

26:21

They can hear something useful sometimes. Oh yeah, I've got my kid here.

26:46

Okay, Mā Shā Allāh, it's nice and quiet this way.

26:54

Yes. 159 says, [37:159] GOD be glorified; far above their claims. [37:160] Only GOD's servants who are devoted to Him alone (will be saved). Invoke angels by saying Mashallah.

27:05

[37:161] Indeed, you and what you worship. [37:162] Cannot impose anything on Him. [37:163] Everyone of you will burn in Hell.

27:13

All those people who blaspheme against God and are misled by the jinns, etc. etc.

27:21

Those who are not devoted to God alone have chosen, insisted on going to Hell.

27:28

The Angels [37:164] Each one of us has a specific job.

27:36

So, when you look at your kid and you say "Mā Shā Allāh." There's an angel specializing in protecting that kid.

27:44

"Mā Shā Allāh" invokes that protection. There's a mechanism for everything.

27:55

When you get up in the morning and you say "Bism Allah Arrahman Arraheem. La Elaha Ella Allah," this invokes an angel to stay with you all day and see to it that you have a nice day.

28:09

165, the angels say, [37:165] We are the arrangers. Organizers.

28:14

[37:166] We have duly glorified (our Lord). [37:167] They used to say, [37:168] "Had we received the correct instructions from our parents, [37:169] "we would have been worshipers; devoted to GOD alone."

28:29

[37:170] But they disbelieved, and they will find out. Victory for the Messengers Guaranteed

28:35

[37:171] Our decision is already decreed for our servants the messengers. [37:172] They are surely the victors. [37:173] Our soldiers are the winners.

28:49

[37:174] So disregard them for awhile. [37:175] Watch them; they too will watch. [37:176] Do they challenge our retribution? [37:177] When it hits, they will be sorry; they have been warned.

29:01

[37:178] Disregard them for awhile. [37:179] Watch them; they too will watch. [37:180] Glory be to your Lord, the great Lord; far above their claims.

29:10

[37:181] Peace be upon the messengers. [37:182] Praise be to GOD, Lord of the universe.

29:17

You notice the Quran is teaching us to make no distinction among the messengers.

29:22

So, God says [37:181] Peace be upon the messengers.

29:28

The next Sura In the name of God, Most Gracious, Most Merciful [38:1] S. (Saad),* and the Quran that contains the mathematical code.**

29:37

The message, or the miracle. And the Praying that we went through this today. We looked at the references, and where this word was used.

29:52

And it seems to point, among the other things, to the mathematical code of the Quran.

29:58

[38:2] Those who disbelieve have plunged into arrogance and defiance.

30:04

[38:3] Many a generation before them we annihilated. They called for help, but to no avail.

30:10

[38:4] They wondered that a warner should come to them, from among them. The disbelievers said, "he is a magician; a liar.

30:18

[38:5] "Did he make the gods into one god? "Oh, no. How strange."

30:24

[38:5] "...This is really strange." Because every messenger came with the message "there is no god except the one God."

30:30

"You must forget about the saints, the prophets, the messengers, as idols."

30:39

[38:5] "Did he make the gods into one god? This is really strange." [38:6] The leaders announced, "Go and steadfastly persevere in worshipping your gods. This is all you need.

30:51

[38:7] "We never heard of this from the religion of our fathers. This is a lie. These are the things that we hear exactly.

Cannot follow the parents blindly. "Heaven and Hell start here". Talk of a suicidal billionaire who committed suicide and went to heaven.

31:01

[38:7] "We never heard of this from the religion of our fathers...

31:06

This is their problem. And repeatedly, the Quran says "when they are told "follow God's revelations." They say "no, we follow what our parents taught us."

31:15

So, one needs to have an open mind and a free freedom.

31:21

You can't follow the parents blindly. There's too much at stake.

31:28

And this means perfect happiness here in this world. There's terrible misery here in this world. Heaven and Hell begin right here.

31:36

And all we need to do is step into God's kingdom. Then, we are guaranteed perfect happiness.

31:43

You step into Satan's kingdom and you're guaranteed perfect misery. Even if you make millions and live in mansions and...

31:53

What did Christina Onassis do with all her billions? She tried to commit suicide six times.

32:01

Finally, she succeeded and went to Heaven because she was really in... she was... her circumstances.

32:10

She was... what is it, abused, oppressed, misguided, mistreated, whatever.

32:17

God knows her circumstances. She died at the age of 38.

32:22

But she was a very unhappy person.

32:30

How about her father, one of the richest men in the world? And all, all God did was nullify the muscles in his eyelids.

32:39

I mean, these are the weakest muscles in our body. He couldn't, he couldn't open his eyes.

32:46

He was willing to pay a hundred million dollars to fix that. He couldn't.

32:52

He had the scotch tape. He had to keep it completely open all the time.

32:58

And this is suffering, you know, because it burns. Imagine keeping your eyes open all the time. Just try it for two minutes, see what happens.

33:06

You cannot do it. It's the simple design that we take for granted.

33:11

But God designed it to clean our eyes, wipe our eyes, and scratch our eyes.

33:19

Yes. But it also moistens our eyes. There's a continuous flow of liquid in there.

33:35

Dr. Khalifa: Are we going with you? A man: No. Dr. Khalifa: Alright.

33:40

Yeah, go ahead. The question.

33:45

Come, it's your problem. Thank you, Edip.

34:16

173 says, [37:173] Our soldiers are the winners. by the way. [37:173] Our soldiers are the winners.

34:22

The believers are guaranteed victory, guaranteed. You know, every page of the Quran tells us that God is controlling everything.

34:31

It just takes a believer to take advantage of that and enjoy it.

34:44

There's a distinction going on between God's kingdom and Satan's kingdom. God's kingdom is characterized by perfect happiness, perfect health, perfect wealth, perfect peace of mind.

34:57

Satan's kingdom is characterized by misery no matter what. It is proven over and over again that money, power, all the things that people work hard for do not guarantee happiness.

"All happiness is in God's hand".

35:13

All these people who have attained everything, money, mansion, power, fame, good looks, they come...

35:22

The front page is telling us they're unhappy. So, I think this principle is very well established, that money, power, fame, good looks do not guarantee happiness at all.

35:41

There's a statement in Quran says that all happiness is in God's hand, all dignity, happiness is in God's hand, all of it.

35:53

And the same expression, (10:65) الْعِزَّةُ لِلَّهِ جَمِيعًا Does this mean anything in Farsi?

35:58

(10:65) الْعِزَّةُ لِلَّهِ جَمِيعًا All Izzat (power) belongs in God's hand.

36:05

And God decreed, made a law that He will give it only to the believers.

36:18

God controls everything with all the gifts. "The more you thank Me, the more I give you." God says.

36:25

So, what does this mean? The more we are appreciative, the more God will give us.

36:32
 If we turn unappreciative, we lose everything.
 36:37
 Just make a point of thanking God every chance you get for everything you have.
 36:44
 Excuse me. Then, God will give you more.
 36:53
 A woman: (unintelligible) appreciate what God has given us. A woman: And we praise that, but in the meanwhile we say that "thank you Lord, this is from You."
 37:03
 A woman: (unintelligible). Dr. Khalifa: Yes. Dr. Khalifa: Sure. Dr. Khalifa: This is how we thank God for whatever He gave you.
 37:10
 Thank God for your health, for getting your children.
 37:20
 How much would you pay to have (unintelligible) next to you?
 37:26
 A million dollars, right? I knew of times when you were willing to pay a million dollars for this.
 37:33
 All it took was Surah Al-Hamd.
 37:41
 Yes. Yes.
 37:48
 God never turned us down.
 37:55
 How is your back, Mehdi? (unintelligible)
 38:02
 Behrouz has been carrying furnaces for the last week.
 38:07
 He did it in Stockton and again in Tucson. So at the end of this session, IN SHAA ALLAH, we read Al-Fātehah for him and tomorrow he wakes up as good as new, IN SHAA ALLAH.
 38:20
 Yes. Just take the back pain and throw it away from here.
 38:26
 IN SHAA ALLAH Oh no worries, they're not disbelievers.
 38:34
 Plenty of them, don't worry. Number nine says,
 38:40
 [38:9] Do they own the treasures of your Lord's mercy. He is the Almighty, the Grantor. But number eight, we didn't read yet.
 38:47
 Because they question God's wisdom about choosing His messengers.
 38:52
 Number eight, [38:8] "Why did the message come down to him, instead of us?" Indeed, they are doubtful of My message. Indeed, they have not yet tasted My retribution.
 39:02
 [38:9] Do they own the treasures of your Lord's mercy. He is the Almighty, the Grantor.
 39:10
 [38:10] Do they possess the kingship of the heavens and the earth, and everything between them? Let them promote themselves.
 39:19
 [38:11] Instead, whatever forces they can muster—even if all their parties banded together—will be defeated.
 39:27
 Look what's happening to communism. God gave them 40 years of communism to clean out the trinity and then He let them do it.
 39:41
 Perfect plan. Open up.
 39:48
 Wake up, brother. Okay, I believe you.
 40:00
 How many years have the East Europe seen communism?
 40:06
 Since 1935? A man: Since 44, yeah. Dr. Khalifa: 44, yeah.
 40:20
 So, beginning now, the Soviet Union should break up. Did you hear? A man: Yeah, but the ideology does not break up. Dr. Khalifa: Yes.
 40:28
 A man: It's just that they are fed up with the old guys. They want to do away with the old guys. Dr. Khalifa: And communism. Did you see the Romanian flag?
 40:36
 A man: Yes. Dr. Khalifa: Yeah? What does it look like now? A man: (unintelligible)
 40:41
 Dr. Khalifa: He was an opponent of Ceaușescu. Well, not for long. The communism is out.
 40:50
 Did you say communism succeeded? A man: They are still in power.
 40:55

Dr. Khalifa: Okay. A man: For for human... With human standards. For all political persons, they are still in power. They still control
41:04
the secret services. They still control the army. They still control the media. And they control...
41:10
Because the people in the streets are socialists. They want socialism to work.
41:19
They are disbelievers. Dr. Khalifa: I see. A man: And they want socialism to work. Dr. Khalifa: So, we have to conclude that communism is a
success, basically.
41:27
A man: The people are still supporting socialism. The people (unintelligible).
41:33
Dr. Khalifa: I'm agreeing with you. Number 11.
41:39
[38:11] Instead, whatever forces they can muster....will be defeated. Number 12. [38:12] Disbelieving before them were the people of Noah,
'Ad, and the mighty Pharaoh.
41:48
[38:13] Also, Thamoud, the people of Lot, the dwellers of the Woods (of Midyan); those were the parties.
41:54
[38:14] Each of them disbelieved the messengers and thus, My retribution was inevitable. [38:15] These people can expect a single blow,
from which they will never recover.
42:06
They challenged... These people I understand to be the Arabs. And one blow I understand to be an asteroid from space.
42:14
IN SHAA ALLAH. Number 16. [38:16] They challenged: "Our Lord, why do you not rush the retribution for us, before the Day of Reckoning."
42:24
They challenged God.
42:30
This is it. We really read two pages and we leave the floor open for questions and discussion.
42:38
A man: Why is this the people of the Woods? Dr. Khalifa: Midyan. Midyan.
42:46
This is another name for Midyan. Which is now Gaza, Gaza Strip.
42:52
That's what Midyan is. A man: In the translation in this (unintelligible).
43:00
Dr. Khalifa: So? People of the Woods. A man: (unintelligible) Woods.
43:05
Dr. Khalifa: What is KHASHAB? Do you have KHASHAB in Farsi? A woman: KHASHAB? Dr. Khalifa: KHASHAB?
43:10
Dr. Khalifa: Wood, what is wood? A woman: KHASHAB? A man: CHOOB (چوب) A child: KHASHAB
43:16
A child KHESHAB (gun's magazine) Dr. Khalifa: He knows. A woman: He can't take it enough.
43:24
Dr. Khalifa: Ok, folks. There's a new word in the Farsi language. The new generation knows.
43:30
Dr. Khalifa: CHOOB (چوب)? A man: CHOOB (چوب) Dr. Khalifa: CHOOB (چوب). So, it will be the people of the CHOOB. A man: The people of the
CHOOB. Ok.
43:37
A man: But the Woods here means JANGAL (jungle).
43:42
Dr. Khalifa: Not necessarily, no.
43:49
A man: Carpenter. Dr. Khalifa: Yes. Dr. Khalifa: They would have been carpenting
43:54
A man: NAJJAR. Do you mean carpenter? Dr. Khalifa: NAJJAR Dr. Khalifa: Don't call NAJJAR. Whatever the Arabic says.
44:01
The people of the Woods. (38:13) أَصْحَابُ الْاَيْكَةِ A man: اَلْاَيْكَةِ Dr. Khalifa: Yes.
44:20
Dr. Khalifa: We don't have to put around interpretation. Go ahead. A man: It's funny when you say "they get tricked by big literaries."
44:30
When I was in Tunisia, I was young, I was envious of the Saudis.
44:35
So, "they, they are the people who are very closer to God."
44:41
Dr. Khalifa: They are the (unintelligible). Dr. Khalifa: Yes. A man: Yes. A man: Because when they are trying to give us (unintelligible), you don't
have to do Ramadan.
44:53
A man: So (unintelligible), they are the people (unintelligible). Dr. Khalifa: Yes.
"Jews are God's chosen people" but were still persecuted, the Arabs deserted the Quran they too will suffer retribution.
45:00
Dr. Khalifa: You see, having this message creates a great responsibility.

45:06
It's a great privilege and a great responsibility. Because God says that the Jews, for example, are His chosen people.
45:15
This is in the Quran a few times. So, why are they suffering so much? Why did Hitler kill so many of them?
45:23
Why were they scattered all over the world? Persecuted and discriminated against.
45:29
Because of the responsibility. They received the scripture and they didn't follow it. Now, the Arabs received the Quran, which is a lot more powerful.
45:39
It is the complete message. Every page says "God alone" and they abandoned it. And this is documented in the Quran, in Sura 25.
45:48
That they deserted the Quran. So, you can imagine that their retribution will be a lot worse.
45:55
And it's inevitable.
46:06
A man: God says in the Quran that He never destroys a land before bringing a messenger.
46:16
Dr. Khalifa: The bad signs. A man: When the messenger comes, (unintelligible) does that land get destroyed? Dr. Khalifa: Yes.
46:21
A man: Yes? Dr. Khalifa: Yes, I can say that 100%. It's in Sura 17, God says "I will not send a retribution before I send a messenger."
46:30
I mean, God made it conditional. So, all these miracles that are showing up, and the message, and the messenger, mean that there is severe repudiation coming
46:42
to the disbelievers. A man: So, land means, what? (unintelligible)
46:48
Dr. Khalifa: No, there is no land. A man: They are a native nations.
46:53
Dr. Khalifa: No, God left it blank. He says "we do not...we do not..."
47:02
Let's look at Sura 17.
47:08
You can see the expression.
47:33
I'm trying to find a different quote.
48:00
A woman: 15. Dr. Khalifa: 15?
48:12
Dr. Khalifa: Yeah, the end of 15.
48:20
It says, [17:15]We never punish without first sending a messenger.
48:28
Cause the messenger points out, gives a choice to the people and then they have to make a decision.
48:33
After making the decision, they are held responsible for it.
48:49
Yes, this life, yes. It's talking about this world. yeah.
49:00
Dr. Khalifa: What's the verse number? A man: It's 24.
49:07
(unintelligible) Dr. Khalifa: Why don't you read it?
49:13
Go ahead read aloud so everybody can hear you. A man: 24
49:21
(unintelligible) page here 454.
49:26
A man: And (unintelligible) 24
49:35
(unintelligible)
49:40
Dr. Khalifa: This is an incident where David was in a sanctuary and these two people went in, snuck in.
49:50
with 99 sheep. Yeah.
49:55
They were fighting over one sheep. Well, actually, there's a great lesson here, but I wonder why did you take this out.
Explanation of the story of David and 99 sheep. Be careful with our judgements.
50:04
A man: I did it before, actually. 24. Dr. Khalifa: You don't know what it is? A man: Yes. Dr. Khalifa: It's just two brothers, two brothers.
50:13

One had 99 sheep and the other had one sheep. God wants to teach us a lesson about being very careful when you judge between the people.

50:23

And this... the fellows, they went to David to judge between them.

50:29

The fellow with the one sheep said "I have one sheep and he has 99 sheep and he wants to take mine. And he insists on it."

50:38

So obviously, the one with the 99 sheep... David said "no, keep your sheep. Don't give it to the fellow. He has with 99 of them. You have only one."

50:47

"So, if you give him your sheep, you'll have none and he will have 100. Keep yours."

50:53

So, even though this judgment is very clearly fair, David still thought maybe he did the unjust

51:00

judgment and he repented and he was asking God for forgiveness and everything.

51:06

You can imagine how careful... This is what made David, David. David is very special in the Quran.

51:13

One of the preferred, by God, prophets.

51:23

Dr. Khalifa: Right. But this is David's judgment. Dr. Khalifa: He told the fellow with the one sheep "keep your sheep. Don't give it to him." A woman: Yes.

51:31

Dr. Khalifa: Then, even though this is a very clear and extreme example of a good judgment,

51:39

he said "maybe, I did the wrong judgment." And he was repenting and asking forgiveness and...

51:45

I mean, our presidents back home, they kill people. Then, David just said "keep your one sheep and he keeps his 99."

51:54

They kill people, commit murder and they steal billions of dollars.

52:02

Yes. A man: (unintelligible)

52:23

Dr. Khalifa: No, no he wanted it. He wanted it. Maybe, he wanted to buy it.

52:29

A man: No, he won't Dr. Khalifa: That's okay. They wanted to mix, but he doesn't want to.

52:39

The fellow with the one sheep didn't want to do it. A man: (unintelligible) Dr. Khalifa: That's not the point.

52:51

Yes. You got it.

52:57

That's correct.

53:02

Yes, he waited, yes, yes, this is... Yeah, he waited, he, he, he waited and he studied and he did everything. And then he judged.

53:11

Emily got it. And that's it. He was afraid of... he was thinking of God. "Did he do the right judgment?"

53:20

Yeah.

53:26

Of course. What would you do?

53:32

A woman: I don't know. Dr. Khalifa: Well,... A woman: I'm not in that situation. Dr. Khalifa: Well, you are now. Somebody came to you and he says "I have one sheep and my brother has 99 sheep. And he wants to take my one sheep."

53:44

Ok, what would you do? Do you wanna tell him to give his sheep to the other guy? A woman: He can give the brother the sheep, but here everyone's money is his own.

53:56

If the brother, you know, is giving to his brother, they can make a business (unintelligible).

54:03

But if you're going... Dr. Khalifa: Okay, but the, but this fellow without the sheep, he will just sit there and do nothing.

54:10

At least he has one sheep to care about. He will take it in the morning to eat and bring it in the afternoon. And...

54:17

It's his job.

54:25

Parivash: I have a question. It is my understanding. I don't know if it's true.

54:30

About Sura 15 that... Aya 91, alright? And yeah...

54:37

Because of the... remember the first time, the seven pairs. Ok? And

54:44

I think it couldn't be the time of Muhammad but I wanna know that (unintelligible) time of Muhammad and you, but
54:54
my understanding is it could be... Dr. Khalifa: Seven pairs have to do with the end of the world. Parivash: Okay, no, but after that, it says
55:01
أعوذ بِاللّٰهِ مِنَ الشَّيْطَانِ الرَّجِيمِ Dr. Khalifa: [15:88] Do not be jealous of what others... Parivash: Ok. Ok. And after Parivash: [15:89] And proclaim: "I am
the manifest warner."
55:09
Dr. Khalifa: Yes. Parivash: [15:90] For we will also deal with the dividers.
55:15
Dr. Khalifa: Yes, to accept the Quran partially. Parivash: Ok. Parivash: If it was time of Muhammad, it would say "And Proclaim I am the
messenger."
55:23
Dr. Khalifa: I didn't say, I didn't say it was the time of Muhammad. Parivash: It was the...they accepted Quran only partially. At the time of
Muhammad...
55:32
Dr. Khalifa: There was no Quran. Parivash:... complete that... Dr. Khalifa: Because you're making an assumption that is not there.
55:38
Dr. Khalifa: I didn't say it's been the time of Muhammad. I didn't say it was at the time of Muhammad.
55:43
Parivash: It wasn't. It couldn't be at... Dr. Khalifa: I didn't say that. Where did you get that? Parivash: No, I think my understanding is wrong.
And I wanted your idea.
55:52
Dr. Khalifa: No, but does it say in the translation that this is the time of Muhammad? Parivash: No.
55:58
Dr. Khalifa: You're making the wrong assumption and then you're carrying on based on that.
56:11
Which happens quite often. Sometimes we make a wrong assumption and then we build on it. And we keep going on and on.
56:17
So I'm stopping you before you go on and on.
56:24
What is the footnote?
56:46
Parivash: I'm talking about 91. It could be...couldn't be at the time of... now.
56:53
Dr. Khalifa: It's applicable also at the time of Muhammad. But just, I'm leaving it as it is in the Quran.
Explanation of Heavens and Earth Vs Paradise.
57:00
I see what you mean. In other words, at the time of the Prophet Muhammad, the Quran was not complete. It was not in this form. Yes.
57:08
It has to be now. I see what you mean. Sorry.
57:18
Your chicken kitchen is sometimes confusing.
57:27
A woman: We read in the afternoon that...
57:34
God, God (unintelligible) but in six days, he made heaven and the earth.
57:44
(Unintelligible) Dr. Khalifa: Because he will not make it until after the judgement.
57:53
When all the people are called back And then the bad ones will go to Hell. So, God doesn't wanna do it now.
58:02
He wants to do it afterwards. God created Heaven. The heavens and the earth are different from Heaven, which is paradise.
58:11
God created the heavens and the earth in six days. But heaven or paradise is different from heaven. You see, the English language confuses
it a little bit.
58:21
Because there is the heavens and the earth, which were created in seven days. And there is Paradise, which some people also call Heaven.
58:29
And this is already in existence. But Hell will not be created until after the Day of Judgment.
58:38
On the Day of Judgment. Good question. Mā Shā Allāh
58:44
See, the children, they pick up things. You think they're sitting there oblivious? You think this guy is oblivious, but he's observing everything.
58:51
Right, Hanan?
58:58
Mā Shā Allāh A man: And Sura 15 says
Use of Magic for Good??
59:03
[15:98] You shall sing the praises of your Lord,... Is that singing like singing (unintelligible)?
59:09

Dr. Khalifa: No, no, it's the English expression, meaning praise God all the time.
59:14

A man: It's not singing. Dr. Khalifa: If you wanna do it, do it outside of here.
59:27

Dr. Khalifa: Mani can put up with that. Does he sing a lot?
59:33

Not even in the shower?
59:44

A woman: Rashad, we previously read that Haroot and Maroot (unintelligible)
59:51

Dr. Khalifa: Magic. Witchcraft. A woman: But it says also that people used it in a bad way. Does it mean that people can use it in a good way?
1:00:02

Dr. Khalifa: No. God says "it only brings harm, no good."
1:00:10

A woman: Either way. Dr. Khalifa: That should not be "abuse."
1:00:18

I don't know. I have to think about it. Dr. Khalifa: But it's the statement... A man: that the jinns are...
1:00:23

Dr. Khalifa: Yeah, it's using the jinns. A man: ... on the satanic side. Dr. Khalifa: Yes.
1:00:32

Parivash: If nobody asks it then I (unintelligible).
1:00:40

Dr. Khalifa: You see, if it's something good, it should be temporary. Like the psychic who tried to stop the train, remember?
1:00:47

It worked for him for a while, but then, at the course of time, the jinn said "bye."
Jinns whisper doubts examples given. God matches a believing Jinn with Believers.
1:01:03

Usually it's in a bad way. We have to stay away from the jinns, I know.
1:01:10

A woman: (unintelligible)
1:01:15

Dr. Khalifa: Right. It could never have anything to do with jinns.
1:01:20

A woman: Some people are curious about the things that drive them away from God Dr. Khalifa: Yes. Invariably. Yes.
1:01:29

Invariably, it takes them away from God. A man: So, how come (unintelligible) with the jinns?
1:01:35

God is the One who put them in his service. God said "I committed the jinns to serve Solomon." Not only the jinns, the jinns, the birds.
1:01:48

Dr. Khalifa: Who? Karim? Karim. A woman: Do you mean that convert our jinn by...
1:01:57

Dr. Khalifa: Right. A woman: So, it would be converted and then...
1:02:03

Dr. Khalifa: to be come a good one. You're converting him right now by reading the Quran.
1:02:12

When you read the Quran and think about it, our jinn is also reading the Quran at the same time and thinking about it.
1:02:21

And your jinn will tell you "don't pray, don't believe this."
1:02:30

"Why go through all the trouble?" This is his job. And you tell him "no, I'm gonna Pray five times a day because I want to be happy all my life."
1:02:40

"I'm going to follow this because this guarantees me victory and happiness." And he tells you "oh, forget it. This is all nonsense."
1:02:48

So, you continue to debate like this until you convert him, IN SHAA ALLAH. A woman: Then, what happens after that?
1:02:55

Dr. Khalifa: Then, you become friends, become identical.
1:03:01

A man: My question was simple. When I hear what the jinn power is I believe everything (unintelligible)
1:03:12

I mean, for example. But in the outside, the jinn will... Dr. Khalifa: Yes, the jinn will whisper to you.
1:03:17

A man: (unintelligible) believer Dr. Khalifa: Yes. A man: (unintelligible) Dr. Khalifa: Right. A man: (unintelligible)
1:03:27

Dr. Khalifa: The jinn is telling you to sleep. A man: Yeah. A man: But my question is...
1:03:32

Dr. Khalifa: Yeah, this is all of us. Our jinn is always telling us to not to, not worship God alone.
1:03:40

A man: You believe all the time "oh, I don't (unintelligible) because I have a challenge between me and him." Dr. Khalifa: No.
1:03:45

Dr. Khalifa: There'll be a time when, like Karim said, there'll be a time when he's completely converted.
1:03:51

As a matter of fact, he can be ahead of you. Tomorrow, you're gonna be here for the Khutba, Friday prayer?

1:03:57

A man: Yes. Dr. Khalifa: Yes, IN SHAA ALLAH. A man: IN SHAA ALLAH. Dr. Khalifa: So, you're gonna hear an example of a jinn that is cooperating with you.

Star signs are just observations. Manifestation of the Jinns can be a Ghost. Different heavens allegory Human Vs Tree to explain Heaven for Jinns.

1:04:08

A woman: Our jinn is being Muslim. Then after that, is that possible that our jinn guide us and...? Dr. Khalifa: Yes.

1:04:17

Dr. Khalifa: Sometimes the jinn will be ahead of you. And the Quran, we were reading yesterday, or the day before yesterday, how God matches your companion,

1:04:27

matches the companion, the jinn and the human companions are matched. So, if you're destined to believe, God matches a believing jinn with you, who is also destined to believe.

1:04:39

A person who's destined to disbelieve, God will match a disbelieving companion.

1:04:45

Which makes sense. A man: Rashad, what about astrology? Isn't it a thing that jinn do that?

1:04:52

Dr. Khalifa: No, this is simply observation. They notice that the sun is in the zodiac and another zodiac this and that, so something happens on earth.

1:05:02

It notices the people who are born under a certain sign, have certain characteristics. So, they made notes.

1:05:09

And they compile them and computerize them. Then, if you tell me that you're a Libra, I can tell you what your characteristics are.

1:05:16

You're more susceptible to colds and things like that.

1:05:24

They're just observations, Ok, a compilation, but it's very... it has a long way to go.

1:05:37

Dr. Khalifa: No.

1:05:50

Dr. Khalifa: See, we cannot see the jinns. But I guess some manifestations of the jinn, people would think they're ghosts.

1:06:03

Parivash: Rashad, the jinn (unintelligible)

1:06:08

Parivash: And they, in their first life, they say, they totally admitted the Shaytan. Dr. Khalifa: Satan.

1:06:14

Parivash: Our difference is the human and the jinn (unintelligible)

1:06:20

Dr. Khalifa: God gives the jinns a longer life and more ability to fly in the universe and study God's signs.

1:06:30

But the humans are given 7:172. Read it. 7:172, again.

1:06:42

A man: Rashad, (unintelligible) ability (unintelligible)

1:06:50

Dr. Khalifa: No, because they already made up their minds very strongly that Satan is right.

1:06:56

See, here, God said to the children of Adam, not the children of Satan, not the jinns.

1:07:07

A man: So, did Shaytan know that he is (unintelligible)? Dr. Khalifa: Right.

1:07:17

Dr. Khalifa: Not really, no. It's just that there's a different allegorical Heaven for them. Because...

1:07:29

How do I... Let us say, compare you with a tree.

1:07:35

You and a tree. Well, think of it as two creatures. And I'm saying "I'm gonna put you and the tree, I'm gonna put you both in Heaven.

1:07:43

I'm gonna give you steak. I'm gonna give you potatoes and rice and fruit."

1:07:51

Do you think the tree will go for that?

1:07:58

What? Do you understand what I said?

1:08:06

No, you are a creature and the tree is a creature. And I'm telling you "I'm gonna put you both in Heaven where you can eat steak every day."

1:08:15

Know what? A woman: Because the tree doesn't like the steak. Dr. Khalifa: Right.

1:08:23

So, the humans and the jinns are two different creatures. And God is telling us "I'm gonna put you in gardens with grapes and pomegranates and fruits."

1:08:34

The jinns don't, the jinns don't care about that. So, God is telling them that "you're gonna have your own Heaven with different things.

1:08:43

A woman: It's actually going to be... Dr. Khalifa: Yes, actually may be the same Heaven.

1:08:55

A woman: Are the plants' souls the same as us? Dr. Khalifa: Uhum. (unintelligible).

1:09:06

Mā Shā Allāh (unintelligible)

1:09:26

A woman: The stars and the trees are like me? Dr. Khalifa: Yes. Dr. Khalifa: No.

1:09:33

They're creatures. Well, it's my sleeping time, brothers and sisters. So, I'm gonna retire and see you in the morning, IN SHAA ALLAH.

1:09:40

People: IN SHAA ALLAH. Dr. Khalifa: I got up at what time? A man: This morning? A man: 4.

1:09:49

Dr. Khalifa: No, it was one o'clock. A woman: Are you working?

1:09:55

Dr. Khalifa: Yeah. Dr. Khalifa: Well, I left home at one. So, I got here about twenty after one.

1:10:01

This is why people laugh at me when I say "it's my sleeping time."

23 Quran Study From Behrouz 1323 Sura 51 By Douglas New Era Believers Are Protected From Accidents &

Dr. Khalifa: أَعُوذُ بِاللَّهِ مِنَ الشَّيْطَانِ الرَّجِيمِ We seek refuge in God from Satan, who was the basic cause for us being here in this world.

0:13

And may it back... And may God make it backfire on Satan, give us happiness in this world and forever,

0:21

through believing in God alone. Bism Allah Arrahman Arraheem In the name of God, Most Gracious, Most Merciful.

0:32

We're gonna start with Sura 51, page 366.

0:40

And our teacher tonight, I forgot his name, I don't know if you remember your... what's your name sir?

0:45

A woman: I think he forget his name. Douglas: Rashid. Dr. Khalifa: What's your name? Douglas: Rashid. Douglas: No.

0:52

Dr. Khalifa: I'm serious, he actually forgot! Dr. Khalifa: Rashid?

0:57

Douglas: Douglas. It's Douglas. Douglas Brown. Dr. Khalifa: Douglas Brown? Douglas: Yes. Dr. Khalifa: You're sure?

1:02

Douglas: I'm sure of that. You'll find out later when I...

1:07

Dr. Khalifa: He's a very nervous teacher today.

1:14

And you can, you can guess... no.... first

1:19

that we're having a wedding tonight. One handsome guy is groom and you can tell who the prettiest girl in town tonight is.

1:30

So, as soon, as soon as we finish the Quranic study, we're gonna have these two united, IN SHAA ALLAH.

1:37

Okay Douglas, take it. Douglas: Bism Allah Arrahman Arraheem

1:44

If I lose my speech or get tongue twisted tonight, you all know why. So,...

1:50

Dr. Khalifa: You're excused. Douglas: Ok. Douglas: In the name of God, Most Gracious, Most Merciful

1:57

[51:1] By the blowing winds. [51:2] Carrying clouds. [51:3] And bringing bounties. [51:4] To be distributed by command.

2:06

[51:5] What is promised to you is true. [51:6] Judgment is sure to come.

2:14

I'd like to stop here. I'd like to stop first of all and bear witness that the clouds and the winds have come and

2:22

they're bringing bounty outside right now.

2:27

And we know that that promise is true. Today, Abdullah went over some more characteristics of the code, proving

2:41

that when Allah says He has preserved the Quran, He's preserved it.

2:46

That Allah has all knowledge and it doesn't make any difference what a person does or they don't do,

2:51

what disbelievers believe, feel, and think. It doesn't really make any difference what type of power that a person has in this world,

2:59

influence or whatever. They simply cannot overwhelm Allah. He knows what they have and what they don't have and he controls everything, their thoughts.

3:09

And just like Allah brings the rain, the bounty, He brings the life by His command.

3:17

And it's distributed equally. So then in one way or another, all of us are nourished by the water.

3:28

The very process in creation by which rain is produced is a miracle in itself

3:36

in terms of the orbit of the earth within a specific angle in relationship to the sun and the change of the seasons.

3:46

Many people don't know that the 24-hour difference in heat and cold in the earth causes the winds to flow on the earth.

3:57

That's one of the things that causes the winds to flow, the alternation of light and darkness,

4:03

of the heat and cold. And just imagine what it would be like if it was night all the time or day all the time.

4:11

These laws that Allah has created. These winds would not travel as they do in bringing the bounty to us.

4:22

[51:5] What is promised to you is true. God is telling us, as sure as we can see the rain in front of our eyes, as sure as we can see

4:33

the majesty of the clouds in the sky and how it becomes saturated and it falls,

4:43

this is true. What God promises is true. And the Judgment is sure to come.

4:54

Why do we know that it's sure to come? Because God tells us it's sure to come. That's one of the reasons.

5:00

As was pointed out in the Khutba, the minimum requirement to be a Muslim is to submit,

5:07

to submit to what God tells us and what He teaches us.

5:16

One of the most recent discoveries concerning the time of the Day of Judgment was made the other

5:22

day by Mahmoud and I think sister Ihsan and Emily.

5:28

Verse... Sura 72 verse 27 speaks to the fact that only Allah gives His messenger any knowledge of the past, present, and future.

5:48

Only the messengers that He chooses may be given certain information concerning the past or the future.

5:56

What Mahmoud and sister Ihsan and Emily had done was they took the gematrical value,

6:03

the gematrical, I guess it's the gematrical value of the name Rashad and the name Khalifa

6:10

and the Sura number and the verse number and they added, they put these numbers in a series.

6:16

Just like Abdullah showed us today when we saw the chapter and the verse and the chapter, he put them in a straight line and it's divisible by 19.

6:25

So, not only do we know that God's messenger is given the knowledge of the future, we also know that God willed that His Messenger of the Covenant be given knowledge of the future.

6:35

And if people say "well, there are millions of individuals named Rashad," okay, because you can just take the value of the word "Rashad" and put it next to chapter 72,

6:47

next to verse 27 and it too is a multiple of 19.

6:52

But there is only one Rashad, Khalifa.

6:59

Confirmation of the time of the Day of Judgment and what God promises us is true.

7:09

[51:7] Despite the perfectly created sky. [51:8] You dispute the truth.

7:16

The stars, the sun, the moon, these clouds, how Allah keeps the oxygen and hydrogen,

7:25

how He keeps certain gases within the earth's atmosphere, how He prevents things that are

7:33

dangerous and harmful to us from entering the atmosphere, how ever since He created the earth,

7:40

the cycle of the rainfall has not changed, the evaporation, precipitation, none of this has changed.

7:49

Despite the perfectly created sky, the constellations at night, where humans have given names to

7:59
these constellations, because when they look up at these stars, they see certain patterns
8:05
that they relate to, certain figures and patterns. And just like Prophet Abraham. He looked up at the stars and he realized that this was not an accident.
8:21
These stars and planets could not be positioned in the sky to produce this beauty, to control
8:30
the movements of other heavenly bodies. There had to be some higher being responsible for this.
8:40
And God tells us in the Sura, despite these signs, these magnificent signs that are right before us.
8:47
When we turn on the faucet, we have a sign. We drink it. Without it, we die,
8:54
let alone look at the sky. There is dispute. There is confusion.
9:07
Why is there... what are some of the reasons for the dispute and the confusion?
9:13
Well, we know that this is Satan's kingdom. He's incompetent. He thought that he could be a god.
9:22
He entertained thoughts that he could run a universe, a world, with creatures,
9:29
and God put him to the test.
9:34
And his incompetence, along with individual decisions, intentions, create this doubt.
9:46
Although Satan was very incompetent, he is also a master. He's a master deceiver.
9:54
He's extremely powerful. He's a hypnotist, or whatever names we want to use. He retained the power and ability to mislead us.
10:07
And he has dedicated himself to that. That's his purpose for existence, to mislead as many of
10:13
us as possible, to keep us disputing about the truth and confused.
10:21
We know many times in areas where there are droughts. They will spray the clouds.
10:28
They will seed the clouds in an effort to make it rain.
10:34
Seeding the clouds in itself does not make it rain.
10:39
There's no conclusive proof at all in the first place that seeding a cloud will make it rain or not, because Allah still controls the processes by which it rains.
10:50
But what man learns is he learns some of the laws and principles governing rainfall.
10:59
But he forgets the lawmaker. He learns laws. He learns rules, but somehow Satan is hypnotizing where he can't make the
11:09
logical connection between the law and the rule and the lawmaker and the ruler.
11:22
So he disputes.
11:28
Any questions on the first eight verses?
11:33
Dr. Khalifa: Well, we need to comment on the first, on the title of the Sura.
11:41
You know, a believer appreciates God differently from people who are unaware,
11:47
or who are not strong believers. You can see here that the title of the Sura is the Winds.
11:54
And we learn from the first few verses that the winds, their main job is to carry clouds
12:00
and bring bounties. We need that water. So, in order to appreciate God and these simple words, just imagine yourself sending ten astronauts to space.
12:14
You, sending ten astronauts to space, and you tell them "okay, you're gonna be out
12:20
there for three years, and when you need water, I made an invention in the spaceship,
12:25
so there'll be these clouds on top of you, and they will give you water." You're sending them into space.
12:33
And you devise that system that will give them water, clean water.

12:38
When they pollute the water they have on the spaceship, it's gonna, you know, one of...
12:44
number one purification processes is distillation.
12:49
So, when they pollute, their own water is gonna evaporate, it's gonna be pure water, and come down again. So, you tell them that to assure them that they will have enough water supply for three years, or five years, ten years, or whatever.
13:00
You're sending them. Just imagine that. See, God sent this spaceship with five billion astronauts.
13:07
You and me, we are astronauts. That's right. And God gave us this system. God devised this system, where the water evaporates
13:17
and then comes down by... the winds drive the clouds here. How far are we from the ocean?
13:24
We're far from the ocean. But these clouds came to us from the ocean, by the wind.
13:30
It's a traveling system. And it sends down pure water. You appreciate God if you think, if you imagine sending ten astronauts in space and you tell them
13:42
"I'm going to give you the exact percentage of oxygen for you to breathe."
13:48
Now in 1967, we were technologically advanced people. 1967.
13:54
But we put three astronauts in a capsule in an atmosphere of 100% oxygen.
14:02
Pure oxygen, right? To breathe. And all it took was a spark.
14:08
And the three astronauts were combusted. Ed White, Gus Grissom, and Roger Chaffee.
14:15
They are not with us today because of that. We were really advanced in science.
14:23
But when you put anything in pure oxygen and light a match, everything would be combusted. Everything.
14:29
Everything organic, that is. In fact, this is for chemists.
14:35
If any chemist is here, this is the last thing you do to find out if there is, for example, radioactivity in the ashes of anything.
14:42
You put it in a closed thing there. You fill it with 100% oxygen.
14:48
And you create a spark. And everything will be combusted into ashes.
14:54
This is what happened to the three astronauts. And this is why God didn't give us 100% oxygen.
15:00
We have 20% oxygen. The rest is nitrogen. And this is what they do now
15:05
when they send astronauts into space.
15:10
But they learned the hard way. So, despite our...
15:16
I mean, we were sending people to the moon. And we couldn't give them the correct atmosphere.
15:24
So, these few verses here will make us appreciate God if we think of sending our own astronauts into space.
15:37
Of course, you know how the oxygen is generated for us. We breathe it, and we get out carbon dioxide, which is not good for breathing.
15:45
So, God designed the trees, so they will take carbon dioxide and turn it into apples and give us the oxygen.
15:51
They take the carbon and give us back the oxygen. How do you like that for a system?
15:57
Can you do that for your astronauts? You tell your 10 astronauts "you're gonna be out there for 10 years, and you're gonna to breathe out carbon dioxide, so I'm gonna give you
16:08
a couple of... I invented these plants or something that will take your carbon dioxide, turn it into food for you, and you'll get the oxygen back."
16:20
Such is God's creation. And you think it's all evolution, right?
16:32
Are there any questions on these? The winds and the rains, bounties.
16:39
We're talking only about the 5 billion human beings. You forget the 10 Decillion ants, and the... about 200 Billion mice.
16:49
Ihsan?

16:56
There may be a few of them in this mosque, running around. The name scares her. This is why I said that.

17:04
Okay, back to Douglas. Yes, Catherine. Catherine: (unintelligible)

17:13
Catherine: But there's a verse in the Quran where God talks about those (unintelligible)

17:22
Catherine: Is that allegorical? Dr. Khalifa: No. Did you take a bath today? Catherine: Yes.

17:27
Dr. Khalifa: What did you use? You used water. Yeah. That's it. That's not allegorical. You actually used water.

17:36
Catherine: How is that washing (unintelligible)

17:41
Dr. Khalifa: Oh, oh, oh. The verse says "...removes the devil's, the devil's touch."

17:53
Dr. Khalifa: Well, I have to think about that. Edip: Was that from the Bible? Dr. Khalifa: No, it's in the Quran, yeah.

18:03
Well, let's... I can think of a few things.

18:08
A woman: I think your translation (unintelligible) kind of I understand it is probably (unintelligible).

18:15
I think your translation is that He removes the devil's curse and He sends down water to cleanse you (unintelligible)

18:22
or something like that. So, it's not... Dr. Khalifa: It's not connected? Yeah. A man: Yeah. Dr. Khalifa: Ok.

18:30
A woman: I believe this is wrong, I think. Sura 8, verse 11.

18:35
Dr. Khalifa: Do you wanna read it? [8:11] He causes slumber to pacify you, and He sent down water from the sky to clean you therewith and removed the devil's curse from you... Dr. Khalifa: And.

18:45
Dr. Khalifa: It's a separate issue. A woman: [8:11] ...He reassured your hearts and strengthened your foothold.

18:51
Dr. Khalifa: These are all separate issues. But one of the things we use water for is taking a bath between ourselves.

19:00
A man: Which verse? A woman: In Sura 8, verse 11.

19:06
Dr. Khalifa: You can tell your astronauts "when the water comes down on your spaceship, you can take a bath. A woman: (unintelligible).

19:26
Dr. Khalifa: George. George, go ahead. Douglas: Why?

19:37
Douglas: However,... Dr. Khalifa: We're taking advantage of his nervousness.

19:42
Douglas: [51:9] However deviating that those who are supposed to deviate. [51:10] Woe to the falsifiers.

19:48
[51:11] Who are heedless in their blunders. [51:12] They ask "When is the Day of Judgment?"

19:55
[51:13] That is the day when they suffer in Hell. [51:14] Taste your retribution; this is what you defiantly challenged.

20:05
[51:15] As for the righteous, they have deserved gardens and springs. [51:16] They receive their Lord's blessings in return for their works.

20:14
[51:17] Rarely did they sleep the whole night. [51:18] At dawn, they used to implore for forgiveness.

20:22
[51:19] A portion of their money was set aside for the needy and deprived.

20:29
[51:20] In the earth, there are signs for those who are certain [51:21] Even within yourselves; do you not see?

20:38
[51:22] In the heaven is your provision, and everything that is promised to you.

20:44
[51:23] By the Lord of the heaven and the earth, this is as real as the fact that you speak.

20:51
In verses 9 through 23, God is telling us in verse 9 that the deviators are doing exactly what they're supposed to do.

21:03
And one of the reasons why they are supposed to do this is because they've chosen to do it.

21:11
They have chosen to follow Satan instead of submit to God alone.

21:22
They've chosen to deviate and because they deviate, they incur.

21:28
They're going to meet the consequences of it. And the consequences of it as we know are Hell.

21:37
And we know in this so-called modern age, scientific age, people like to appear what

21:44
they think is intelligent and have scientific minds. So, there are a lot of people whom you say "you believe in Heaven and Hell?"

21:50
"Well, I don't know. I'm not too sure about that. There's not too much proof about it." People like to pretend as if... some people like to pretend as if they need more information

22:00
before they can be confident that there is a Day of Judgment. Well, if you say "there's a Day of Judgment." "When is it coming?"

22:10
Well, now, they've asked the question. They continually ask the question. And God knows they were gonna ask the question. And now they've received an answer.

22:18
And they still don't want it. Now, God has revealed through the code when the Day of Judgment will come and they still do not want it.

22:30
So, they are deviating because they're supposed to deviate. Their deviation is not because they are sincerely seeking the truth and they're just simply ignorant

22:39
or they just don't know where to look and when to look. We're told in Sura 74 that the code and everything associated with the code exposes the hypocrites.

22:51
It exposes the nonbelievers.

23:00
You know, as we grew up and we were children, every now and then we may,

23:06
we may, for example, like we're driving down the street of the road and we'll see a warning sign "don't turn left."

23:12
Somebody said "you'd. better be careful. Don't walk that way anymore." We're surrounded by warnings.

23:19
We don't take them all with the same degree of seriousness.

23:24
Many of them we totally ignore. We feel "well, it's not gonna happen to me."

23:30
And this is the way these disbelievers and falsifiers are.

23:38
When they're warned about the Day of Judgment and they're warned about Hell, to them,

23:44
it doesn't make any difference. God says in the Quran "the human being is prone to only believe in what is in front of his face."

23:58
He only wants to believe what he thinks he can feel and touch in front of his face.

24:04
And one of the things that I was thinking about the other day is when we

24:11
when we went along with Satan and didn't come out and declare that only God is god and that He is absolute,

24:21
we were then put in this world. We could no longer stand the presence of God because we entertained doubt in His power.

24:31
And when we were brought into this world, our bodies were made visible to us. Now if we listen to what God is telling us, He's saying our bodies were made visible to us

24:44
when we came into this world. Well, that implies that our bodies and everything else that's visible to us in this world

24:53
is not permanent or is not absolute because we came from somewhere else that made our bodies visible

25:02
and made us see the things in front of our face. See?

25:07
So, what happens? Satan deceives us and whispers to us and we begin to believe that

25:17
the only thing that's real is what is visible to us despite the proof.

25:25
So, God in His mercy and His absoluteness revealed a miraculous code, revealed an irrefutable proof

25:39
in the highest form of, you know, scientific language, mathematics, right in front of his face

25:48
and he still denies it because he is supposed to deviate.

25:57
And we see that as a result, the people, the falsifiers have to taste their retribution.

26:03
And they will suffer in Hell because they defiantly challenged all of the signs of God.

26:10
They defiantly challenged the revelation. They defied and opposed God's messenger and we know that the Muhammadans, the false Muslims,

26:22

defiantly opposed the miracle of the Quran. And we know that they also defiantly opposed
26:30
Rashad as the Messenger of the Covenant.
26:35
In contrast to these people, the righteous will be rewarded and as we know the descriptions of
26:44
Heaven and Hell in the Quran are allegorical. They are termed in ways that make us think of pleasure and contentment and happiness, life,
26:58
fruit, well-being, a garden with water and springs and flowers and food, but we know that
27:05
we cannot describe Heaven or Hell.
27:12
What is the bargain? What is the bargain for those who are righteous, who heed the signs of God. They receive their Lord's blessings?
27:23
There is obviously no greater bargain, but only a believer is guided to see that.
27:29
Only a person who submits and desires to submit to God is guided to recognize that that is the greatest bargain,
27:36
that is the greatest promise possible in this world.
27:42
And it's not free. We're told in the Quran "do not think that you are going to be allowed to say you believe without being tested."
27:55
We all have to go through tests in life, different circumstances, situations to increase that belief.
28:03
And, IN SHAA ALLAH, hopefully until it approaches a point of certainty.
28:11
We don't question what Allah says in the Quran. We don't question His signs with certainty.
28:21
Mahmoud and I were talking the other day and when you read about the descriptions of the, of Heaven
28:28
for the believers, in light of the fact that we know that every letter of the Quran is divinely fixed and from Allah,
28:35
we know that every statement in the Quran is true. We are certain that every statement of the Quran is true.
28:42
And we were kind of laughing the other day saying that it's a wonder that believers don't commit suicide
28:48
to get to Heaven as fast as they can, you know, because we know that it's true.
28:55
No. What are some of the things that the righteous do in order to get this reward?
29:06
We're told that they don't, during the night or after sunset, they Pray.
29:12
They make their Evening Prayer, their Night Prayer. Or they spend their time reading the Quran or some form of worship, not the entire night,
29:20
but they don't spend their night in idle play or things of no benefit to them.
29:34
And at dawn, at Fajr, wake up and make the Fajr Salat.
29:40
The righteous recite their Prayers five times a day because they know and they understand that
29:50
making their Salat is contact with God. Douglas: It's contact and it's building up credits and their soul is growing so that their soul...
30:03
Dr. Sabahi: ...yeah a lot of... Douglas: Okay, I don't know. I don't really know the details of that. Dr. Sabahi: No, this is an example for the
phenomenon that...
30:11
Douglas: I'll give you an example. Dr. Sabahi:but you don't see that. Douglas: I'll give you an example. None of us have ever seen an x-ray,
but we know what happens if we get exposed to too many of them.
30:22
Gamma rays. In other words, man is capable of learning that certain things exist
30:30
that he cannot directly perceive because of the effect that it has on him. If he can rule out all of the possibilities of anything else in the
environment,
30:40
he knows that there's something there that's causing this cancer or
30:45
causing this genetic mutation to take place. And he tries to learn and discover it. And if God wills, he learns that there is some
30:53
invisible energy, an x-ray or a gamma ray that passes through his body or something like that.
31:00
He can't see it himself. Just like when a person goes to the doctor to get x-rays, when you see the picture, that's not the ray itself.
31:10

See? That's an after-image or a trace that is actually seen.

31:16

So, the doctor or the nurse looks at the trace and knows that that was an x-ray or a particular type of ray that passes through the person.

31:25

So, one of the ways we know that, well obviously this is a proof that all that exists isn't

31:34

limited obviously to what we directly perceive. Because so much around us affects us and influences and we cannot directly perceive.

31:44

Douglas: Does that, does that... Dr. Sabahi: Yeah, just, I think you quoted another verse that God is saying this and then you (unintelligible) by explaining...

31:55

Douglas: I was saying you what I would refer to as a fact that like if we look up in the ceiling and we see that light,

32:02

that's because of certain, right, stimuli. That's because of certain colors and

32:08

light waves that are hitting our eye, right? That has to do with the light waves and nervous

32:14

impulses and what have you that eventually lead to the sense that that is a light.

32:19

I see the light. Okay?

32:24

Dr. Khalifa: But you don't see electricity. Douglas: Right, I don't see the electric. I can't see the actual light wave.

32:30

See? So, in that sense what I was trying to say is that man really limits himself

32:36

when he says that he only wants to believe what he can see. Dr. Sabahi: But we know that a lot of people do that, especially these days to advance in science.

32:45

That's what, that's what makes science advance. When people see things that physically you cannot see it, but if you use up your brain

32:57

and brain power and imagination, you can see things that (unintelligible) But some people can do it.

33:03

And that's difference between (unintelligible) Dr. Khalifa: You're in trouble, Douglas. Martha's gonna ask you a question.

33:08

Martha: No, actually I (unintelligible)

33:20

Martha: Actually, I (unintelligible)

33:29

Martha: We know so much, not a lot of things but we have no idea what is the concept whereby we hear each other speak

33:39

and somehow understand what that person is saying, just zero, absolutely nothing.

33:44

We know that it happens, but we don't know, we don't understand part of what mechanism the ear receives these waves and then somehow takes these waves and translates them into

33:56

something that then goes into our brain. I mean, we just don't know. We have no idea how these things happen. And we do it.

34:02

Four-year-old children do it and two-year-old children do it. And it's language.

34:08

(unintelligible)

34:15

Dr. Khalifa: This is mentioned specifically as a great miracle in the Koran, you know, the language. Just go to Europe.

34:22

Martha: So, we don't doubt it. (unintelligible) Dr. Khalifa: Within the radius of 50 miles, not 50, 20 miles in Europe, you can come across 15 languages.

34:34

Czechoslovakia, Hungary, Austria.

34:39

Within Czechoslovakia, there are several languages. And it's just amazing how these people understand each other, but these people don't understand them. They understand each other and...

34:53

Martha: Even we all speak the same language... Dr. Khalifa: It's a miracle. Dr. Khalifa: It's still amazing. Martha: It's an incredible miracle and (unintelligible)

34:59

at this point in our understanding We're just bening predominantly beginning a deep understanding of how that process happens.

35:09

(unintelligible) God willing, (unintelligible)

35:16

and understanding. We don't understand the first thing about (unintelligible) 2 years old.

35:26

Dr. Khalifa: Some people even speak Turkish. Martha: (unintelligible)

35:32
A woman: That's, It's like the math, it's a language, but it's universal.
35:38
Dr. Khalifa: Right. A woman: One and one equal two.
35:43
Dr. Khalifa: (unintelligible), yes. Douglas: The first major sense that we developed in the womb was hearing.
35:50
Hearing is almost fully developed in the womb before birth, before birth.
35:55
Dr. Khalifa: It's amazing you remember that.
36:02
Okay, verse 24. Douglas: Lessons from the past: Abraham.
36:08
Have you narrated... Excuse me. [51:24] Have you noted the narration about Abraham's honorable guests?
36:13
[51:25] When they entered, they said "Peace." And he said, "Peace to you, strangers!" [51:26] He then asked his family to prepare a fattened calf.
36:22
[51:27] He offered it to them, but they did not eat. [51:28] He became wary of them. They said, "Do not be afraid," and they gave him good news of a knowledgeable son.
36:34
[51:29] His wife came in astonishment, pointing at her face and saying: "I am a sterile old woman."
36:42
[51:30] They said, "Your Lord said thus. He is the Most Wise, the Omniscient."
36:51
These honorable guests that came to see Abraham were angels. They were actually on their way to Gomorrah, Sodom and Gomorrah.
37:00
They were commissioned to go and destroy Sodom and Gomorrah.
37:06
Because the people of Lot had reached the point of no return, in terms of their opposition against God.
37:13
The practice of homosexuality and other kinds of wickedness. And so, their destruction was already written.
37:20
It was already predetermined. And when they went to Abraham's house, he gave them the greeting and welcome as a believer.
37:31
As we know, God commands us in the Quran to greet the people with a hearty greeting, with a,
37:37
to give people a sense of welcome. And they returned it.
37:44
But when he offered them the food, they didn't eat it. And at this particular time, in Abraham's culture, whenever you went to someone's house and
37:54
they offered you of their table and you did not eat it, this would arouse suspicion and sometimes fear.
38:00
Because a guest should return, a guest should, you know, eat of the offering that the host meant.
38:07
And he became somewhat worried as to who they were and what they wanted.
38:14
And as we see here, they told him not to be afraid. And they told him that he would have a son by his wife, Sarah.
38:25
And she could not believe it, obviously, because of her age. And she asked in a different way the same question that Mary asked.
38:36
When the angel went to her and told her that she was gonna have a son. And we know in Sura 4, she said "How can I have a son when no man has touched me?"
38:47
And the angel let her know that Allah could cause life and create the birth of a child
38:53
or the conception of a child in the womb of a woman anytime He wills. He created Adam and Eve out of nothing.
39:06
And I think this was Isaac. Dr. Khalifa: Right. Douglas: This was the birth of Isaac. Douglas: And this was a miracle as well.
39:13
The birth of Isaac was a miracle.
39:27
So, we see that Abraham... God blessed Abraham with many, many sons.
39:32
We knew... We know that in the Quran, God told him to place four pieces of a bird on different hills.
39:41
Dr. Khalifa: Four birds. Douglas: four birds on different hills and called them together and they would come.
39:46
Dr. Khalifa: Many pieces of four birds. Douglas: Here we have his wife having a child well beyond the age which is normally possible for a woman to bear a child.

39:59
We have the influence of Satan in the dream where he thought he was told to sacrifice Ismail.

40:12
We also have the miracle when Abraham's father was such a wicked, he was so so defiant, so arrogant and so wicked

40:21
when Abraham confronted him that he actually built a fire to cremate him, to cremate his own son.

40:32
And we know in the Quran that Abraham sat in the fire until the flames died down and he walked out.

40:41
The power of God, the power of Allah. Douglas: Blessed with many miracles, many signs.

40:55
Dr. Khalifa: No, Ismail.

41:02
Douglas: Any questions or comments?

41:12
Dr. Khalifa: There you said it, his only son. Isaac was never the only son.

41:17
You said the truth right there. A woman: But isn't that the reason they say it is because Isaac was his only legitimate son, but we know why.

41:25
Dr. Khalifa: This is how they justify it. A woman: But it still... Dr. Khalifa: It didn't say "take your only legitimate son." It said "take your only son," even if he's illegitimate."

41:35
But he was not illegitimate. Did you say "you take your only son" or "your only legitimate son?"

41:41
A woman: According to the Bible, (unintelligible) Dr. Khalifa: No.

41:46
Somebody, of course, the Jews and the Christians believe it was Isaac. But that's a racial, that's a racial distortion.

41:55
They said "take your only son, Isaac," So, they made a boo-boo there, because Isaac was never the only son.

42:03
So, when you tell them, when you confront them with that only son business, because Ishmael was 14 years older than Isaac.

42:11
They tell you "oh, it's because Isaac was the only legitimate son." I said "OK, let's look at the Bible." And the Bible consistently calls Ishmael Abraham's son until Abraham dies. And then they say

42:22
"when Abraham died, his two sons, Ishmael and Isaac, buried him."

42:27
So, there's no way out.

42:34
No. No, he didn't. No, you read it in some novel.

42:42
From who? A woman: It's in the first book of the Bible. I don't know. Dr. Khalifa: No, no, it's not, it's not in Genesis.

42:52
OK, Abraham had... I mean, Sarah was sterile. She didn't have anything but Isaac.

43:02
Yeah, there were lots of novels that he said he married this and that.

43:13
OK. If he had any other children, they're irrelevant, because the Quran and the Bible mention only Ishmael and Isaac.

43:23
Dr. Khalifa: Nobody else. A woman: Right, because then the Bible says when Abraham died... Dr. Khalifa: His two sons...

43:28
A woman: And that would be an internal contradiction, because there is another mention of other sons in that, right in the Bible.

43:35
Dr. Khalifa: I don't think so. I don't remember. But anyway, this is the verse in Genesis 22,

43:44
A woman: I'm saying that... Dr. Khalifa: In Genesis 22, around 25, it says "when Abraham died, his two sons, Ishmael and Isaac, buried him."

43:54
So, Ishmael was Abraham's son. He was the only son of Abraham for 14 years.

44:00
Isaac was never the only son. A woman: Ok. What would be an (unintelligible) Isaac?

44:08
Dr. Khalifa: Isaac is the father of the Jews. Ishmael is the father of the Arabs. The Jews wrote the... I mean, played around with the Genesis, the Torah.

44:17
A woman: So, the idea is that they just wanted the miracle to be a miracle with Isaac?

44:23
(unintelligible) Dr. Khalifa: Right. They didn't want anything to Ishmael to have anything to do with anything.

44:31
So, they made a big mistake, just like the two verses in the Quran. Exactly. They made a glaring error.

44:40
And they tried to correct it in the newer editions of the Bible. They say "take your only one."

44:48
Trying very hard, but they make it worse. Your only one what? Donkey? Or...

45:02
A woman: Ishmael will... How could I... Ishmael lived... God commanded Abraham to send them away.

45:10
Dr. Khalifa: It was just another town. Dr. Khalifa: It was just another town.

45:18
A woman: Because I was wondering a period of (unintelligible) Ishameal (unintelligible).

45:27
Dr. Khalifa: About three or four weeks. Three or four weeks at a time.

45:40
Ok. Back to Douglas. And 31.

45:46
Douglas: Sodom and Gomorrah. [51:31] Abraham said, "Where are you going, O messengers?"

45:51
[51:32] They said, "We have been dispatched to guilty people. [51:33] "We are to shower them with stones of clay.

45:58
[51:34] "Marked at your Lord for the transgressors." [51:35] We then delivered all the believers.

46:05
[51:36] We found only one house of Muslim submitters therein. [51:37] We set it up as a lesson for anyone who fears the painful retribution.

46:16
Abraham knew that they were messengers of God. That in this context, angels are messengers of God. They carry warning.

46:26
They carry the revelations, the knowledge, and they also carry out commands from God.

46:34
It's interesting in terms of the Armenia, the earthquake in Armenia. After the devastating earthquake, they had a lot of people on the news conjecturing.

46:43
And one of the major conjectures they came up with was that Armenia is an earthquake fault. It's a fault area.

46:50
They begin to conjecture. I mean, there's nothing wrong with theorizing, but what we find is that when these disasters take place,

46:58
most people don't, well, at least the people who are allegedly the ones who are so called experts or the people who are paid to give their opinion, they make no mention of God.

47:06
That doesn't mean that some of the people don't, but they seem to be locked up or blocked out

47:13
at any suggestion that there is a greater power at work that causes these devastations,

47:20
let alone produces the bounty and benefit. They refuse to believe that there is a God, an intelligence, that this is by design,

47:29
that there are laws and rules. They wanna believe that it's either by haphazard, you see, or

47:38
simply due to some malfunction or something off in the earth's structure, just as an example.

47:48
And the messenger angels were dispatched to the people of Sodom and Gomorrah. And we know that they were showered with volcanoes, tremendous earthquakes and volcanic eruptions.

48:00
And it completely destroyed that area of land, totally. It was so much devastation, fire, and heat that we know that the salt plains,

48:12
it created miles of salt plains where there has been tremendous heat.

48:20
And it's proof in verse 34 that these types of disasters are commanded by Allah.

48:31
And the people who die in these disasters are already determined. They're already identified.

48:39
In other words, only God controls the time of death, and also people who are disbelievers

48:45
are identified by God, and this is one of the things we see in verse 34, [51:34] "Marked at your Lord for the transgressors."

48:53
That these stones, volcanic ash, this heat, this lava, all of this was marked.

49:01
No transgressor, not a single transgressor could leave Sodom and Gomorrah.

49:08
Just a small family of believers who were with Lot were saved.

49:20
And it doesn't make any difference if you've got seismograph in your front, in your living room

49:33
to tell you that there are tremors in the earth. I mean, I'm saying it doesn't make any difference what kind of alarm system you've got.

49:41
Your best alarm system, and I'm not dismissing that, I'm saying the best alarm system is

49:47
submitting to God alone in this life, period. Because we know that God is the One that controls all things.

49:54
God controls, you know, circumstances. A human being is supposed to take precautions, use his or her intelligence,

50:03
but to also understand that God controls all things. You can have all the alarm systems and safety devices and all kinds of things you want,

50:12
but if a circumstance is to befall you, or you were to come upon a certain circumstance,

50:18
there's nothing going to do to stop it from happening, if it has been already written.

50:26
And God says in verse 37 that the destruction of Sodom and Gomorrah was set up as a lesson.

50:34
Not only for a lesson for the survivors with Lot, but for all time,

50:40
our generation and generations to come. Because those soft plains are still there for anyone to see and to reflect on the magnitude of that disaster.

50:53
And if someone says "well, what brought this about or what caused it?" Well, again, we know. We know that the code has confirmed that every word and sentence in the Quran is true.

51:06
It's fact. And when a person is given the opportunity to be exposed to the code, to all of the information,

51:14
and they sincerely want to believe, they know that the Quran is from God. And if God...God tells us what was behind the destruction of Sodom and Gomorrah.

51:28
Are there any questions or comments? A woman: I'm just listening to the news of Armenia

51:33
I'm hearing that in Armenia, now they're celebrating Christmas (unintelligible) service.

51:40
And during the service, they were saying, they're preparing it for Jonah's (unintelligible)

51:45
They believe (unintelligible) was saved. And nothing in the earth is permanent.

51:51
You know, it's interesting. They're talking about how Jesus found us (unintelligible).
Sodom and Gomorrah, we bring destruction upon ourselves, Parents take their children out of God's protection. God assigns Souls to certain environments. Discussions on AIDS.

52:00
Dr. Khalifa: They don't learn, do they? A woman: No. Dr. Khalifa: Haven't learned a thing.

52:06
People bring their destruction on themselves. We know that Sodom and Gomorrah, they were all corrupted beyond reform.

52:16
And this is the one thing that... I mean, they brought it on themselves. So, it is God's law that when they do this, they are destroyed.

52:26
Nowadays, where homosexuals are spread in the society, you cannot just destroy the city of Tucson because there are a thousand homosexuals in it.

52:35
But you can send a virus to pick them out.

52:41
And this is what's happening now. A man: What happens to the children who are (unintelligible)?

52:47
Dr. Khalifa: Their parents brought it on them. A man: What if you got it from blood transfusion?

52:52
Dr. Khalifa: Right. They brought it on themselves. Their family, Their family take the children out of God's protection.

52:58
This is what happens. It's actually a blessing for the children, after all. But if you... whatever disaster happens, it's because the parents removed their children out of God's protection.

53:11
A man: How could it be that the parents actually develop the fate of the child?

53:16
Dr. Khalifa: Ok. We discussed this before. And we said when... When the parents do not follow the commandments, God assigns to their homes, souls that deserve whatever is gonna happen.

53:30
The children are not so innocent as we think. Remember Adolf Hitler was a cute child.

53:37
A woman: Who? Dr. Khalifa: Hitler. He was a cute, innocent child.

53:43
But God knew in advance that he's gonna be a tyrant.

53:49
So was Gaddafi.

53:57

Do you understand, Babak? Do you understand the point?

54:03

Babak: I have a hard time understanding it. Dr. Khalifa: Okay, the babies who will be born next year, where are they now?

54:09

Remember, we existed before the earth came into creation. Okay, the children who will be born next year, where are they now?

54:16

Babak: Not here. Dr. Khalifa: Right. They're in some depository, waiting their turn to come into this world.

54:22

Now you agree that God knows which ones are good and which ones are bad, right? Okay, God told the people in the Bible that if you don't keep the commandments,

54:32

you will incur, you will remove yourselves from God's protection for four generations.

54:38

So, what is the mechanism? What is the mechanism here? It's that when a baby is born in a certain home next year, God will assign a certain soul to that home, right?

54:50

But God does that. He assigns the souls to the homes and the environments where they grow in.

54:58

So, God can pick out a good soul or a bad soul, depending on what the situation is.

We are in an Era of belief, Believers protected from accidents and Diseases. Doubter debates.

55:06

So, the people who pass AIDS onto their babies, they brought it on themselves because they use drugs or...

55:14

Dr. Khalifa: But AIDS is mainly a homosexual disease. There's no question about it. Babak: Rashad, I was talking about Babak: children who are, for some reason or another, need blood transfusions.

55:21

Dr. Khalifa: Right. Babak: And they get blood transfusions, not from their parents, Babak: not that their parents have AIDS or drugs or whatever. Dr. Khalifa: From the blood, yes. Even those.

55:29

Babak: But they get AIDS because of some other jerk, who had AIDS or whatever. Dr. Khalifa: Right. Right.

55:35

Babak: And I just think of... Dr. Khalifa: Okay, we are, we are in an era now where believing house will not need a blood transfusion, to start with.

55:46

Babak: We don't (unintelligible). Dr. Khalifa: We are in an era where when you believe in God and follow His commandments,

55:52

you will not need a blood transfusion to start with, neither you, nor your family.

56:02

Maybe difficult to fathom, but this is God's promise throughout the Quran.

56:10

Babak: I'm sorry I don't mean (unintelligible). But if you go outside in the street and there's an accident, you lose some blood and...

56:20

Dr. Khalifa: Well, that, I'm saying this will not happen, to start with.

56:30

God says He'll protect you from anything like that. If it has to happen, God will protect you, will give you clean blood.

56:40

But I'm saying that it will not happen, to start with.

56:47

Okay, let me... Because this is difficult to understand, and I'm not bragging or anything, but I thank God first. I wanna tell you,

56:53

I'm speaking from experience. And I mention this. It'll be boring to a lot of these people here, because they heard it before.

57:00

But when I was a child, I used to go swim in the canals in the countryside, the village.

57:07

And there's a disease in Egypt that if you swim in the canal, you have to catch that disease called Bilharzia. It's still epidemic in Egypt.

57:15

Dr. Khalifa: And every year, they'll take the children and check them for Bilharzia, through a urine sample. A woman: They don't even check them.

57:22

A woman: Then I used to watch it for so many years, people who lived in the countryside where they would go swimming They'd never even check (unintelligible).

57:28

A woman: At the end of the summer, they lined them up, did a check against (unintelligible). They do Dr. Khalifa: Right. A woman: the same with Bilharzia. They never even bothered checking. Dr. Khalifa: Well, they asked them. Yes.

57:35

Dr. Khalifa Right. A woman: They just did it. They lined them all up and gave them a shot. Dr. Khalifa: These are the ones they knew they swam in the canal, right?

57:41

Well, I was living in a city. So, they checked all the children, at least in my time.

57:47

They took a urine sample and check them for Bilharzia. And every time, I come out negative.

57:53

And they'll ask me "did you go to the village this summer?" "Yes." "Did you swim in the canal?" "Yes." Okay, now they sent a nurse with me, to make sure that I'm giving them a urine sample, not a faucet,

58:04

not a sample from the faucet. They'll go with me, and they will take the sample, and it'll be negative. And I'll go home, and my father would ask me "did they check you for Bilharzia?" I say "Yes."

58:15

He said "what did they find?" I said "nothing." And my father shake his head. It's God's protection. So, I learned that from an early stage.

58:22

So, you can live in the virus, live in the germs, and God will protect you.

58:28

So, I guess God knew that I'd be passing this information on to you. And before I do anything, I thank God for His protection. Then, I'm talking to you from experience.

58:38

It will not happen. When you're a believer, it will not happen. You will not catch AIDS. You will not need transfusion. You will not have an accident.

58:45

You don't even get traffic tickets, depending how good you are. You will get these as pinches whenever you do something wrong.

58:53

But for as long as you're sincerely searching for God, God will give you time, will protect you, until you make a decision.

59:03

Your decision would be to remain in God's protection, or step out of God's protection.

59:10

So, it's your decision. God left it in our hands. Babak: What I'm saying is that everybody dies at some time.

59:16

Dr. Khalifa: That's right. Babak: Every one of us is gonna die. Dr. Khalifa: Yes. Babak: for one reason or another, accident, (unintelligible), whatever. Dr. Khalifa: That's right.

59:23

Dr. Khalifa: Yeah, but... Babak: And it's gonna happen. Dr. Khalifa: Yes. Dr. Khalifa: Well, death is not a disaster. Babak: ...disease that was an easier...

59:29

Dr. Khalifa: No, Death is a fact of life for each one of us. Babak: The impression that I'm getting is that staying with God is gonna protect us from all evil and all harm. Dr. Khalifa: That's right. That's right.

59:41

Babak: And as long as you believe that harmful is gonna come to us... Babak: But at the end, maybe at the age of 90, or 500, or whatever, we're gonna die. Dr. Khalifa: Yes.

59:50

Babak: And we're gonna die of something. Dr. Khalifa: Yes. That's right. Babak: We're not going to stop... Dr. Khalifa: No, no, but there are different...

24 Quran Study From Behrouz 1424 Sura 55 By Lori Alfatehe Sura 56 By Naghmeh

Dr. Khalifa: أَعُوذُ بِاللَّهِ مِنَ الشَّيْطَانِ الرَّجِيمِ We seek refuge in God from Satan.

0:07

Bism Allah Arrahman Arraheem In the name of God, Most Gracious, Most Merciful

0:12

Tonight, we're starting at Sura 54, 55, excuse me.

0:19

And our teacher tonight will be Laurie, right? But before we start, I want to make some corrections.

0:26

In my Khutba today, I make some boo-boos sometimes. Sometimes I say things that appear to be not very tactful.

0:35

For example, we have here a great team of cake-bringers or cake-makers.

0:41

And when I asked, then Rahima was... it was Rahima's turn, Laurie's turn, I said "the best."

0:48

So, this... they're all, they're all great makers of cakes, bringers of cakes.

0:53

And this appears not to be tactful, but I have to explain to you that each believer is the best.

1:00

So, when I, when I say "the best," I'm referring to every single one of them.

1:06

Because we're all... I hope I don't make it worse.

1:11

No, honest, I, because you people are so special that every one of you is the best.

1:18

And when I say that, I just want to pay you the highest possible compliment without infringing on the others' properties.

1:30

But they all are the best, each one of them.

1:39

Every single... Did I describe your cake as the best when you brought it in?

1:49
Now how do I get out of this one? Help!

1:54
I think I'll get out by saying "okay, take it over, Laurie."

2:01
Laurie: أَعُوذُ بِاللَّهِ مِنَ الشَّيْطَانِ الرَّجِيمِ

2:09
I take refuge in God from Satan the rejected. In the name of God, Most Gracious, Most Merciful

2:17
[55:1] GOD, Most Gracious. [55:2] The One who teaches the Quran. [55:3] The One who created the human beings.

2:23
[55:4] The One who taught him how to distinguish right from wrong. [55:5] The sun and the moon created his timing devices

2:31
[55:6] The stars and the trees prostrate. [55:7] He raised the heaven and established the balance.

2:37
[55:8] You shall not transgress when you weigh. [55:9] You shall be equitable when you weigh; do not cheat when you trade.

2:44
[55:10] He made the earth for all the people. [55:11] With fruits, and palms sheath.

2:50
[55:12] With food grains and flowers. [55:13] Which of your Lord's marvels can you two deny?

2:56
[55:14] He created the human from clay, like the potter's. [55:15] And created the jinns from blazing fire.

3:02
[55:16] Which of your Lord's marvels can you two deny? [55:17] Lord of the two easts and the two wests.

3:08
[55:18] Which of your Lord's marvels can you two deny? [55:19] He separates the fresh water from the salt water.

3:15
[55:20] Between them is a barrier they cannot surmount. [55:21] Which of your Lord's marvels can you two deny?

3:22
[55:22] From the two seas you extract pearls and coral. [55:23] Which of your Lord's marvels can you two deny?

3:30
[55:24] He controls the ships that roam the sea like flags. [55:25] Which of your Lord's marvels can you two deny?

3:37
[55:26] Everyone on earth will perish. [55:27] But the presence of your Lord will continue. He is the Possessor of Majesty and Honor.

3:45
[55:28] Which of your Lord's marvels can you two deny? [55:29] Everyone in the heavens and the earth implores Him. Every day He is in full control.

3:54
[55:30] Which of your Lord's marvels can you two deny? [55:31] We will deal with both of you, the two entities, humans and jinns.

4:01
[55:32] Which of your Lord's marvels can you two deny? [55:33] O you jinns and humans, if you can penetrate the outer limits of the heavens and the earth, then penetrate. You can only penetrate when given authority.

4:15
[55:34] Which of your Lord's marvels can you two deny? [55:35] You will be bombarded with masses of fire and molten metal, and you can never succeed.

4:24
[55:36] Which of your Lord's marvels can you two deny? Dr. Khalifa: Are you checking the tape, David?

4:29
This is why we should be checking them. Do the same thing over there. (unintelligible) has grown up enough now.

4:43
Take good care of him. Laurie: This chapter is very special to me, because I have this weakness that I'm very impatient

4:54
with knowledge, and if I don't know something, I can't grasp it. And it always caused me trouble in school, because if I didn't understand it, I couldn't do anything about it.

5:02
And I became Muslim, and I read the Quran, and I found out that I had to submit, even though I didn't understand something.

5:09
It was really a test for me, because I just wanted to know. And I never understood the jinns. I wish like... And I read it and I knew that they...

5:18
Thank you. And I knew because it was in the Quran. I had to believe it, but I didn't know what they were, and nobody could explain it to me.

5:27
You know, and I got really wild explanations of what the jinns were.

5:32
And it always troubled me, but I just forced myself to submit.

5:37
And in the second chapter of the Quran, where it says that

5:42
"the believers are those who believe in the unseen." And this was part of the unseen. And I knew that, IN SHAA ALLAH, over time, that God would explain it to me.

5:53
And one of the blessings of being in this mosque is having things explained to us.

5:59
And as Rashad said in the Khutba today, it's a mercy from God that He sends a messenger from among us to explain to us.

6:08
The knowledge is here in the Quran, and all of us have read the Quran. You know, I read it once a month, from front to back.

6:15
And every time there's something new. And we get what we need at the time we need it.

6:22
And we in this mosque are just developing so far. It's just amazing. You know, Rashad and Lisa and Hasan went to Canada, and there were the people believed they way we do.

6:32
They're still way behind us in the knowledge, because we're here every Friday night, learning and studying.

6:39
We have the input of all these believers here. And we have a messenger that is given the knowledge that is passed on to us.

6:47
And we're responsible for the information in the Quran. And, you know, the verse in the Quran that was admonishing the (unintelligible), saying that

6:57
they were believers when they weren't really. They were just submitters, and that's the first step. But only the believers can attain Paradise.

7:05
So, if we don't have absolute certainty, we can't ever grow and develop to our fullest extent.

7:11
And that's where the increased knowledge is that should bless me. And I read, you know, I've read this verse so many times, and the first time I read it,

7:19
you too, the humans and the jinns, you know, I just didn't understand what it meant. I didn't understand what the jinns were, what their role was, what they had to do with me or with us.

7:30
It was just a mystery. And I just, you know, like I said, I had to force myself not to question it, not to be hung up about it.

7:37
When we had that discussion about jinns in the Quranic studies, I just kept my mouth shut, you know, very different things.

7:44
But now, just in this last year, we found out what this is, and so this chapter has a totally different meaning.

7:52
And for the first time, I understand what it means. And we know now that the jinns are, you know, they have the same requirements.

8:02
There's other verses in the Quran that they have the same requirements that we do. Some of them believed in Jesus, and they believed in other things, and then they heard the Quran,

8:10
and they believed, and, you know, they have the same requirements that we do.

8:16
And they also have the same rewards that we do. You know, there are entities that we can't see. You know, we don't know. They can see us, but we can't see them.

8:25
And yet, the Heaven that's described here in later verses is for them, too. They have their own, but it's the same set-up as ours. It's exactly the same for them.

8:35
Like, you know, these creatures that are so important in this scripture that we don't know anything about.

8:41
And now we know that the jinns were those that, before creation, sided with Satan and

8:48
took a stand against God and believed that Satan could be a god besides God, that God could have partners, which is the ultimate blasphemy.

8:57
And they were banished, and they have a chance to redeem themselves as well.

9:03
And our job is to, you know, and I used to read about Satan and his troops

9:08
and generations of jinns and humans, that I didn't know, how do they, how do they come to be generations?

9:13
How do they multiply? How do they, you know, what do they do to reproduce themselves?

9:19
Now we know that a jinn is assigned to each one of us, and so their reproduction is,

9:25
it coincides with our reproduction, that each one of us is given a companion at

9:31
the time of our entry into this world, and we're in the same boat. We both sinned.

9:37
We both came to this earth with original sin. We both took a stand against God, the jinns more forcefully than we did, but we took the same stand

9:47

as not being for God, because there's only two ways. Either you're for or you're against, and we were wishy-washy, but basically we were against God.

9:55

We've both been given the chance to redeem ourselves. Thing is, the jinns took the definite stand. So, they're going to try to convert us to Satan's way of thinking and to the original sin that we committed.

10:08

So, we have to convert them. So from the time of birth, we're in this constant struggle with our jinn companion to convert them to righteousness

10:18

and to protect ourselves from falling into the path of the jinn. And It's a struggle. It's a struggle every day of our lives, and it just goes on and on.

10:27

And the blessing about knowing who your enemy is, is knowing what they are, what their goal is,

10:34

what their tactics are, so you can learn how to defend yourself. And that's what the Quran is, and that's where these blessings come from.

10:42

So, we know that. And to me, the greatest blessing of all is knowing that we do have original sin and we're bad.

10:48

You know, we were born bad, because we took the stand against God. So now that we know that, we know what we have to do.

10:55

We have to, just every day of our lives, try to redeem ourselves from that sin.

11:03

And the Quran is very specific about giving us the way to do it, and we know now,

11:09

we've heard it several times in Khutbas, that we have to ask ourselves every day "who is my god this week?"

11:15

Ok. Because that's our only goal in life, is to redeem ourselves. Nothing else has any importance whatsoever.

11:22

And we have to do certain things. We have to support ourselves. We have to take care of ourselves. But

11:28

with the goal in mind that this is to do righteousness, you know, we can't be a burden to society, we can't steal, so we have to work and support ourselves.

11:36

So, it's all in tune with the same thing, which is purifying ourselves, and growing and developing our souls.

11:43

So as soon as you take that stand, then the jinns are going to try to,

11:48

your companion and others are going to try and make you stray away from that path. And the greater the stand you take, the greater the enticements are going to be, and you just have to be prepared.

12:00

And I've talked to several people who've said that they've encountered the same thing I did when I made the stand, that I was going to really try and devote more of my thoughts

12:09

to God because I wasn't doing enough, and I knew it, that they just took over, and they didn't want me to, even the little that I was doing was in danger of not being done at all.

12:19

It's just a constant struggle. And so I know this now, and I know that I have to just be on the alert at all times for, for this. And we know that

12:30

most of it is sneaky whispering. And there's even a Sura where, you know, this is

12:35

devoted to this, that Satan whispers to us, I mean, little things that don't seem so bad.

12:42

You know, we've talked about this before. "Oh, you can wait until the game is over before you pray" or you know "I'll pray later," and then something happens and you don't pray.

12:50

And that time can never be regained. Once you miss the Prayer, you can't make it up. That time is...

12:55

The inhabitants of Hell are the farthest from God on the Day of Judgment. Knowing that Heaven is close to God, they will leave Hell and sneak into the area closer to God,

13:04

but because they are not sufficiently prepared to come close to God, they will suffer terribly in the presence of God and will flee back to Hell and so on forever.

13:13

Here's this vicious circle that they're in. A man: It's just like the Jehovah's Witnesses now.

13:20

They don't believe in Hell, but they believe 144,000 go to Heaven and the remainder

13:27

of their chosen people or whatever go to Paradise. But they still deny Hell.

13:34

They say "there's no burning Hell. There's no none of this. You just no longer exist,"

13:40

which is a lie of... outright lying itself, because nothing that exists can be destroyed.

13:49

You know, like matter can't be created or destroyed, ever destroyed. It just recycles.

13:56

In the real world that we're in. No, in the other world, this is not the real world, but in the world we're in now.

14:02

So, they don't believe in Hell, because if you tell them anything contrary to anything pleasant after death,

14:10

they say "well, we just don't exist anymore." "Well, we never get punished for what we do wrong."

14:18

"And that's our punishment, not existing." "Well, we can get a reward. If we're real good, we get this reward."

14:24

"But if we're real bad, we just don't exist anymore." "Just have a reward and no punishment."

14:30

Dr. Khalifa: They wish, they wish this. A man: That's what I'm saying. This, this is... A woman: Thank you. Dr. Khalifa: Quran... A man: This is what I thought about it. Dr. Khalifa: The Quran says 'they will wish that they...'

14:37

A man: Yeah. "This is the Hell they used to deny." Dr. Khalifa: Yes. A man: They deny Hell. Dr. Khalifa: Exactly.

14:43

Dr. Khalifa: I just wanna add here something that we should all know.

14:50

I know Laurie knows that but she just didn't mention it yet. It has to do with the looks.

14:56

See, verse 40 says, (unintelligible), number 39.

15:04

Where's the... Well, not they ask...Oh, 39, yeah.

15:10

"The humans and the jinn will not be asked about their sins." Nobody will need to ask anybody about anything, because the believers develop their souls,

15:21

and the disbelievers fail to develop their souls. And in Sura 17, we're told that the differences in the Hereafter are...

15:30

In this room, the differences in our sizes are within a few inches. But in the Hereafter, the difference will be like the difference between a mouse and the city of New York, city of Tucson, let's say.

15:42

So, when you see somebody the size of the city of Tucson, he or she has developed the soul sufficiently.

15:50

This is why they will be able to come closer to God. When you see somebody's the size of a mouse, you don't need to ask, you know "what did you do wrong?"

15:59

So, that is, this is why nobody will need to ask anybody about their sins.

16:05

It is so obvious. There'll be no question. Also, in Sura 17, we're told that everybody will be the judge for him or herself, to herself.

16:15

Because in that dimension, we will see what we really look like, how much we really developed or how much we lacked development.

16:26

So, boy, when they get you, they'll be recognized by their looks. They'll be undeveloped. They'll be shrunken, like being born without arms and legs.

16:38

Deformed. They will be born into the Hereafter, deformed, undeveloped, aborted.

16:46

But they'll be alive, very well, I mean, well, very alive, not well.

16:57

Also, God lets us understand, as Lori explained in verse 44, how they will try to sneak into Heaven, and they'll find it worse than Hell.

17:08

They will sneak into the Lower Heaven, and they will find it worse than Hell, because they cannot stand, come any closer to God.

17:19

See, God left it completely up to us, completely. This is why God does not inflict an atom's weight of injustice.

17:26

It's absolutely up to you. You can be as close to God as you want, in the High Heaven, or you can be as far from God as you want.

17:36

It's completely up to us. So, the conclusion is that God does not put a single person in Hell.

17:44

It is the people who insist or choose, and they insist on going to Hell.

17:50

This, the whole thing will be automatic in the Hereafter. This is why it is important to do, for example, the five Prayers a day.

17:59

You don't do the five Prayers every day, you won't talk. That's the minimum that you can do.

18:06

Because those are the meals for the real person.

18:11

Imagine if you don't feel... your body does not dry, and you don't feed your body for two months.

18:17

What will your body look like? There's no death in the Hereafter.

18:24

Just imagine not eating for two months. And the people out there in the street, they don't feed their soul for years and years and years.

18:34

And imagine what they look like. Can you imagine what they look like? Just look into our dimension here and think of bodies that didn't eat for years.

18:44

You see those skeletal pictures of the starving people in Central Africa, Ethiopia, Sudan.

18:52

What they look like, you can see their ribs. The shrunk skin and bones.

18:59

And this happens to the soul if the soul is not fed the five meals every day.

19:07

[55:41] The guilty will be recognized by their looks;...

19:15

You can tell who is starving in Africa and who is not. By looking at them.

19:21

And in the Hereafter, you will be able to know who is starving and who is not.

19:27

Except it will be by choice. So, now we go back to Lori and number 46, The Higher Heaven.

19:35

Lori: Yes. [55:46] For those who reverence the glory of their Lord, there will be two Paradises.

19:43

[55:47] Which of your Lord's marvels can you two deny? [55:48] With abundant vegetation. [55:49] Which of your Lord's marvels can you two deny?

19:50

[55:50] Two springs run freely therein. [55:51] Which of your Lord's marvels can you two deny?

19:55

[55:52] They will have two kinds of every fruit. [55:53] Which of your Lord's marvels can you two deny?

20:01

[55:54] They will relax on furnishings lined with silk while the fruits of the two gardens are brought near.

20:06

[55:55] Which of your Lord's marvels can you two deny? [55:56] They will have magnificent spouses therein, never before touched by any human or jinn.

20:15

[55:57] Which of your Lord's marvels can you two deny? [55:58] They will look like gems and coral.

20:20

[55:59] Which of your Lord's marvels can you two deny? [55:60] Is the reward of righteousness anything but the best blessing?

20:26

[55:61] Which of your Lord's marvels can you two deny? These verses are just so beautiful.

20:33

The Higher Heaven, and we know that the verses describing Heaven and Hell are allegorical because there's no way that we can conceive or understand what it really will be like

20:43

until God gives us these things that brings it into our own dimension.

20:48

But we know that there are stratifications. And for those, very clear here, [55:46] For those who reverence the glory of their Lord,...

20:56

who've done everything that they have been able to do, developed their souls, who have kept the commandments, who have not set up another god besides God, then God rewards

21:07

those with the best blessings. And He doesn't even have to do it.

21:12

But there's a verse in Quran that says that God is appreciative. And it's just, that's so incredible to me because He doesn't need us at all.

21:20

Why should He be appreciative of anything that we do? It's just that He is Most Gracious, Most Merciful.

21:26

And we can't comprehend. We can't comprehend that kind of mercy because we're bound by our own

21:32

selfishness and, you know, our own desire to succeed and our own concern with our own well-being.

21:41

We can't imagine that something could be so gracious and so merciful that it could just provide all these things for us.

21:51

I mean, it's just the ultimate of just leisure, not having to do anything and everything that you want, every kind of food that you want to eat, and you don't have to do anything.

22:00

It's just, you know, the springs, they're running freely and you don't have to worry about finding a spouse and going through all these changes.

22:06

And you know, they're just there and you don't have to do anything at all. It's just, it's just an incredible mercy.

22:16
And, you know, what did we have to do in this life to get there? I mean, it's like the most incredible, you know, if somebody offered you a deal and said

22:24
"if you, you know, buy stock at, you know, 50 cents a share and in 10 years, it'll sell for a million dollars a share"

22:30
and you think, you know, that's impossible. How could anything like that exist? But this is even greater.

22:36
All we had to do was say our five Prayers every day, not to have any other gods besides God, but just for our own benefit anyway.

22:43
God doesn't need us. You know, to do the religious duties that are so simple, to fast for one month,

22:51
which if we know is good for us, it lowers our blood pressure, it, you know, gives our kidneys a break.

22:56
We know that praying is good for us. You know, we know about lubricating the joints, and combating arthritis.

23:04
All of these things that are done for our benefit anyway, and just in exchange for doing that, we get this unbelievable,

23:13
you know, this Paradise that, you know, is beyond our wildest dreams, and we know that it's even greater than this.

23:20
Because this is just something that God gives us, which is to our limited ability to perceive anything. What God has in store for us is so much greater.

23:29
In fact, we're told in the Quran that we can't even imagine what is in store for us as a reward for doing what we're supposed to do in the first place.

23:38
It's just incredible mercy. And, you know, we've talked about this before sometimes, well, you know.

23:47
The Lower Heaven isn't that bad either, when we read the next verses you'll see, but the picture here, I mean, there's not that great a differences that we know

23:55
that the Higher Heaven just means that we'll be closer to God. And that's the only understanding that we really need to have, is that we'll be closer to God.

24:02
And the further away from Him we are, the more miserable we'll be. So, even though we'll be in Paradise in the Lower Heaven, it won't be the same.

24:13
And in the next verses, the Lower Heaven, starting with 62.

24:19
Dr. Khalifa: Next, the next two verses, IN SHAA ALLAH, will tell us who goes to the Higher Heaven and who goes to Lower Heaven. Very specific.

24:26
And our teacher will be Naghemeh. Friday. Sura 56, Naghmeh. (unintelligible)

24:38
Before this... A woman: Yula asked that if you would pray for her son.

24:45
Dr. Khalifa: It's Yula? A woman: He has this virus thing and really a bad cough and stuff. She said she had to take him right now.

24:52
(unintelligible) Dr. Khalifa: Nothing bad will happen to her, IN SHAA ALLAH. We will recite Al-Fātehah for Yula and her baby.

24:59
And we recite Al-Fātehah for also, ask God to heal Lori, her voice.

25:05
And Parivash's daughter, Lamia, is having an operation of teeth next week on Friday.

25:12
God loves it when we pray to Him and ask Him to heal our friend and heal us.

25:18
And ask Him for the dearest wish. Also, we're gonna pray to God to bless the birthday folks, Soad, Hamid.

25:30
Hamid's birthday is tomorrow. And Soad's birthday is on 7th.

25:35
And the Erishen's are having an anniversary, the 19th anniversary, I think. No?

25:41
So, ask God to give them all the greatest year coming up and every year after that to be even better with God's blessings.

25:49
Al-Fātehah Bism Allah Arrahman Arraheem (1:1) Al hamdu Lillahi Rabbil 'Alameen (1:2) Arrahman Arraheem (1:3) Maliki Yawm Eddeen (1:4) Eyyaka Na'abudu Wa Eyyaka Nasta'aeen (1:5) Ehdina Al-Serata Al-Mustaqeem (1:6) Serata Al-Lazeena An'amta 'Alayhim Ghayri Al-Maghdoobi 'Alayhim Wa Laddaalleen (1:7)

26:09
Also, we ask God to bless (unintelligible). Keep our friend forever. Audience: IN SHAA ALLAH

26:28
Naghmeh: From far ahead. Okay. We know...

26:34
Naghmeh: Really, should I repeat this? Dr. Khalifa: Yes. Naghmeh: Oh, Okay.

26:40
Okay, God says "and those who are far ahead will be far ahead." And they will be closest to God.

26:46
And far ahead is, of course, the Highest Heaven. Then, and we know that far ahead doesn't mean how much money you have or what looks you have

26:57
or how much education you've got. But it means, what, the kind of intelligence that you have within where you see God and the truth and righteousness.

27:08
And, and we know that that's what puts us far ahead.

27:15
Not because, like I was saying earlier, that there are a lot of people who have all those things.

27:22
And they feel like they have a lot of power and they're in control. But they are very miserable. And they go through drugs and alcohol.

27:30
Most of the people who are out there that are into drugs and alcohol are doctors, people that we go to help us,

27:37
people who make all that money and who are in the high parts of society.

27:43
And people who think they are in control. Not that every doctor is bad or anything like that. But the power has a lot of times led to trouble.

27:54
Because people are not righteous enough. And they don't see. And they don't open their hearts. And they don't let go of that ego enough to understand that if you use your power with God's will,

28:05
then maybe you'll get somewhere. But other than that, you don't get anywhere.

28:11
Maybe here for a while. Like God says "I'll let them enjoy this life for a while." But just for a while.

28:17
And, then we know that there are people who don't have those things. Yet their lives are very calm and very fulfilled.

28:28
And also, as I was saying earlier, is that the Quran has taught us that God is in full control of our money, of what we look like,

28:35
of what we, of how our lives are the thread that we walk into our lives.

28:42
And, then it seems pretty unfair that God would choose some people to have money and looks and put them in Heaven because of that.

28:51
But what makes more sense is that God has given every one of us, no matter what standards we have,

28:57
He has given us that freedom of choice, which makes us equal. And makes us the wise ones if we seek to choose the right path.

29:09
And, and that's where we'll be if we do the commandments in the Quran.

29:15
If the people of Jesus or Moses' time did everything that they brought down through the Bible or the Torah.

29:23
And, and if they did those things, then they will be in the Far Heaven.

29:30
And of course we know that this is the most complete. The prayers and the fasting and the charity, and belief in God alone and the Hereafter, and working righteousness.

29:42
And, and God willing, that will put us far ahead and make us sovereigns on earth,

29:49
no matter how much money or anything we have. And a lot of times I think that's really hard to understand.

29:56
And a lot of times we get bogged down. I know I do. Like when I see someone, you know, who has cute clothes on her, that's really pretty or something like that.

30:05
And, and you just have to step back and think and say "that's not important. You have what God thought was good for you."

30:17
God says that you'll be [56:12] In the gardens of bliss.

30:22
[56:13] Multitudes from the early generations. Gardens of bliss is of course Heaven.

30:30
[56:13] Multitudes from the early generations. We have a footnote that says "the early generations of Muslims were characterized by following the Quran, the whole Quran, and nothing but the Quran.

30:40
250 years after the Prophet, Hadith and Sunnah appeared, followed by the various schools of jurisprudence.

30:48
This marked the progressive deterioration of the Muslim nation."

30:55

Ok. This tells us "the early generations," those are the people that had the big prophets. Those are the ones who had the messengers
31:04
that... well, we have messengers, too, but it just seems like there then it seemed like it was more in people's lives.
31:12
Now, it seems like technology has taken our lives so much that people don't think about God actually sending angels down or messengers down or miracles down.
31:22
But... So, those people who did follow the exact correct way were in the early generations and there are some people now.
31:34
But right now it seems like we just need more and more and more proof to make us be disciplined enough to understand.
31:41
And, and it seems like as time has gone by, people just want to interpret the way they think.
31:47
They don't like something the way it sounds. They have to change it to the way they want it. And that just makes a lot of conflict. And thank God that's why we have the Quran, which is so easy to understand.
31:58
And God says it's easy to memorize and understand. And, and it says in the footnote that "250 years after the Prophet, these two books appeared."
32:11
And we know that these two books are the books that have all the traditions, the things that are totally contradictory to the Quran.
32:17
And these people are so blind that they don't even sit down to compare, to understand and see
32:22
that it is contradictory to what their Prophet that they idolize brought down.
32:29
Number 14. [56:14] But only a few from the later generations.
32:34
And this again tells us that, you know, just the later it gets, the harder it is for people to understand and to follow.
32:42
And they're so bogged down by the material things of this life that it's too hard for them to be religious and to do five daily Prayers, and, or fast for a month.
32:54
They couldn't see that at all. And, and so it seems like it is harder.
32:59
And I guess now we have all the Prayer and we have all the five commandments.
33:07
And it is. It's more, I don't know what you wanna call it, technical or something to get.
33:14
There's more work maybe to get to the Highest Heaven. And it's harder for those people who wanna work that hard and wanna put in the time to do their Prayers and their fasting and wake up before dawn.
33:26
And, and it is harder. And it just seems like those people have to go through more tests.
33:35
And, and it just seems fair in that sense.
33:42
God says, they will be [56:15] On sturdy furnishings. They will relax in rows facing each other.
33:48
[56:17] Serving them will be immortal servants. [56:17] Serving them will be immortal servants.
33:53
I know that a lot of these descriptions of the High Heaven or the Low Heaven, maybe even the Hell, they're all allegorical.
34:03
And God is, knows us so well that He explains all these things to us in a way that we could understand.
34:12
And so everybody loves to relax and they love to have stable things around them.
34:19
It seems like one day you're down and the next day you're up. But, God willing, in Heaven, everything will just be the same.
34:25
And, and it says, [56:17] Serving them will be immortal servants.
34:32
We'll have people serving us. Whereas later on we'll find out that in the Lower Heaven, they have to work for their water.
34:40
Naghmeh: They have to pour their own water, whereas we have servants, not we, but people who are in High Heaven.
34:45
A woman: (unintelligible) Naghmeh: I hit two. A woman: (unintelligible)
34:53
Naghmeh: Be in the High Heaven and they will serve us with cups, pitchers, and pure drinks.
35:03
So, it just shows that we're just gonna have to do less work. The more work we do now, the less work we'll do then.
35:10
If this, then that. [56:19] They are never diverted therefrom, nor deprived.
35:18

Which is great because we know that being here is human and being weak like humans.

35:26

We have a tendency to be diverted, but thank God we're pinched here and there.

35:32

And, and we learn. The ones that wanna learn, they learn. But we do get diverted. But there, God says "you won't be diverted." And we won't be deprived.

35:43

I won't have to look at anyone (unintelligible).

35:49

Naghmeh: Wait, what? Dr. Khalifa: There's a question. A woman: (unintelligible) that when you said "they won't be diverted or deprived," doesn't that mean an absence of anything?

36:00

Returning to the question of Satan being who diverted Adam and Eve and deprived them of their garden there.

36:08

So, there won't be any Satan in Heaven to divert you from your reward or deprive you from your credits.

36:19

Thank you so much. [56:20] With fruits of their choice.

36:24

So, whatever we want. [56:21] And meat of birds that they desire.

36:30

Anything we choose, anything we desire, [56:22] And Magnificent spouses.

36:37

We won't have spouses like we could have on earth, but I guess maybe it could mean that since people supposedly

36:46

love their spouses, then they can love up there just the same and more.

36:51

And, and they won't have to go through any kind of troubles.

36:58

It says that God describes them as precious pearls. And, which is, again, wonderful.

37:08

[56:24] This is the recompense of their works. which shows us that the more righteousness you are

37:15

and the more work towards goodness that you do, the better you will be treated in Heaven and the more you can have.

37:24

[56:25] They will hear no vain talk therein, nor sins.

37:29

[56:26] Only utterances of "Peace, peace."

37:36

I know that in the Quran it says "believers should not commit gross sins or they should

37:44

stay away from sin," yet God says that He understands that we do get diverted sometimes.

37:53

And it says that we shouldn't sit around tables where people are talking rumors.

38:01

And that if we sit with them, we are just as guilty and that we should get up and leave. And if we don't, we stay by mistake, then get up and leave when you remember and repent.

38:12

And that we shouldn't speak behind each other's backs and things like that.

38:19

But I think that a lot of times, especially when you're in groups of people, things like that,

38:25

you do fall into all that. You do fall into rumors. And it just seems like when people get into a group, they disagree on so many things.

38:34

It's like they say "don't talk about religion. Don't talk about government. Don't talk about..."

38:39

I don't know what else, but don't talk about rumors. Because it's the one thing that seems like a group of people just really understand together.

38:48

They really have fun with it. And they don't have fun if they disagree on religion.

38:54

People wanna kill each other if they talk about government or religion or discrimination or racism or anything like that.

39:01

But rumors, it seems like it's an easy topic and it will get people to be friendly with one another and it will pass time.

39:07

But up there, we won't have to stoop that low. And, and again, Satan won't be there to take us that way and make us forget.

39:18

There, there won't be no sin, there will be no sin, and there will be no vain talk, but

39:23

there will be just peace and happiness and, God willing, we'll be there.

39:29

Any questions? Dr. Khalifa: Verse 13, I have some very good news for you.

39:37
I'm not flattering you, but you are very, very special people. You've got to go to the Highest, Highest, Highest Heaven. I'm gonna explain to you why.

39:49
When Abraham started the religion of Islam, according to God's instructions, he and the people around him were worshipping God alone.

40:00
And as time went by, Satan sneakily and gradually added idol worship until the time of Muhammad came, some centuries later.

40:12
By the time Muhammad came, they were worshipping lots of idols,

40:19
Allaat, Manaat, Al-Uzzah, and all that. They were in the Kaaba that Abraham built.

40:25
And you've read how many verses in Quran that say "Abraham was never an idol worshipper." Yet, there is the Kaaba that he built that was full of idols.

40:34
And then God renewed the message, sent the Quran to Muhammad. And sent Muhammad to tell the people "the idols are bad. Worship God alone. Worship God alone." So, what happened?

40:45
And Muhammad and his company were persecuted severely. They threw on them all kinds of dirt and thorns.

40:55
Then, they banished them when they grew. There were about 10 or 15 people for about 3 years.

41:03
Then, they grew to about maybe 25 or 30 people. Then, they thought they were getting too strong, so they banished them out of Mecca, boycotted them.

41:13
Now, and those people were abused. So, those have to have a special place in Heaven.

41:22
They went against the current. They were worshipping God alone in an ocean of idolatry.

41:29
You can easily see that they were very special people. They will be in the highest place in the High Heaven.

41:36
Because even within the High Heaven and the Low Heaven will be ranks.

41:41
Okay, now, 20 years ago, you see how it says here,

41:47
[56:14] Few from the later generations. Now, these are later generations after Muhammad. 1400 years after Muhammad.

41:55
There is not a single mosque in the Muslim world that was worshipping God alone, that was, that is upholding the commandment "the mosque belongs to God, you should not mention other names with God."

42:09
And then God renewed the message right now.

42:15
And the message went loud and clear, ringing throughout the whole world. "Worship God alone." Say "La Elaha Ella Allah."

42:21
NOT "La Elaha Ella Allah, Muhammad Rasulallah." And "devote yourselves to God alone. Uphold the commandments of the Quran."

42:30
"Purify your worship. Your Prayer is wrong. Your fasting is wrong. Your zakat is wrong."

42:35
These are, these are all blessings from God that He sent to our generation.

42:40
And again, we are subject to the same persecution.

42:46
The same ridicule, lucky us.

42:52
Yours truly cannot go into any country in the Middle East. I'll be shot within 24 hours.

42:58
It symbolizes this. And if you go to the Middle East, you better disown me. I'm asking you to do that.

43:05
I mean, God says you even disown God, if you are under those circumstances. As long as your heart is filled with faith.

43:12
If you don't wanna get in trouble, you better tell them "I don't know Rashad Khalifa." But this is...

43:20
You are very, very special people. You've gone through the middle of ridiculing, and mocking.

43:29
Today, Tasneem calls me from New York, and she was talking to some relatives of hers in Chicago, who are very active in the so-called Islamic Center.

43:38
And she told them "I'm devoting myself to God alone. I only say "La Elaha Ella Allah.""

43:43
And guess what they said? They said "Tasneem went to the dogs."

43:48

She's worshipping God alone. And this is ridicule, right? They ridiculed her.

43:55

You know "you're saying La Elaha Ella Allah? You're saying, worship God alone? You mean God alone? Is that all you have, God?"

44:02

I mean, do you see the logic? They're ridiculing her. Mahmoud was working the other night.

44:09

And some so-called Muslims walked in the store. And they saw the label that says "Muhammad." Mahmoud on the label.

44:15

They said "are you a Muslim?" He said "yes." They said "how come we don't see you at the mosque?"

44:21

He said "how come I don't see you at the mosque?"

44:28

So, they said "oh, you mean you go to that mosque?" That's the mosque that worships God alone, right?

44:34

Now, now, Noah, if you remember in the Quran, Noah said, because Noah was building the ark with the

44:42

flat float, whatever you call it, water raft.

44:48

And they were laughing at him. And he told them, he said "you're laughing at me, but I'm really laughing at you." And this was Mahmoud actually was doing in the store.

44:56

Because they said "oh, we never, we never believe in mathematics." A woman: Oh, God. Dr. Khalifa: Now, this is (unintelligible).

45:03

Now on that day, they probably had an exam in calculus, right? In university.

45:09

And they had to follow the formulas and the equations, and otherwise they (unintelligible).

45:17

So, they believe in mathematics. But if it comes to God and the Quran and worshipping God alone, they don't believe in mathematics.

45:24

So, they were looking at Mahmoud, you know, ridiculing him. And of course, he knows "fool souls."

45:30

Just like Noah, he was ridiculing them. Just like... I mean, he was laughing at them, just like they were laughing at him.

45:37

But this makes Mahmoud a very special person. This, this is what it means,

45:44

[56:13] Multitudes from the early generations. We are the first generation of renewing the message.

45:51

And we see it very clearly. Every one of us is in the light, and we can see it.

45:57

Just go in any mosque in the world and say "La Elaha Ella Allah." They will beat you up.

46:04

You are saying "worship God alone." So, you can see what happens after centuries from the first generation.

46:13

Abraham was the first generation. And those people, I mean, they threw Abraham in the fire, right?

46:24

In those days, there was no America for Abraham to run to. They threw him in the fire. So, what did God do?

46:32

He turned the fire into a cool and safe place. Because God, God says "do not think that I will abandon my messengers."

46:41

God creates exits for them. So, the exit for Abraham was a cool and safe fire.

46:47

And the people who were with him, they were persecuted. They have to be special people. Because the easiest thing is to go along with the masses, with the crowds.

46:58

You think this shook Mahmoud? Not one hair.

47:03

And this is why he's very special. I'm just using Mahmoud as an example. Muhtesem went to a grocery store to buy some Middle Eastern stuff.

47:11

And he met some Arabs there.

47:17

They're just totally ignorant. They know nothing. But he says "yes, we go to Masjid Tucson. We worship God alone."

47:25

And they almost beat him up. If he wasn't big enough and strong enough, and a Turk, they would have beaten him up.

47:35

So, why do you have to take all this abuse and all this ridicule? Do you think it shook him up?

47:41

Did it affect his faith? If anything, it strengthened his faith.

47:46

Because he knows that those people are wrong. He knows they're ignorant. He knows they're not worshipping God alone. He knows they lost their Prayer. Probably, never Pray.

47:55
Those people, do you think they Pray? Muhtesem: Well, I asked them "how many Suras are in the Quran?"

48:03
Dr. Khalifa: What? They don't know? Dr. Khalifa: You don't know? Muhtesem: (unintelligible)

48:10
They would say "you're going to Hell." I said "(unintelligible) (unintelligible). He was Palestinian.

48:18
Muhtesem: "You're going to Hell." Dr. Khalifa: And he doesn't know how many Suras are in the Quran. Muhtesem: (unintelligible) on the Day of Judgement (unintelligible)

48:30
Muhtesem: Yet he was there (unintelligible)

48:37
Dr. Khalifa: God is telling you "I'm with you." Muhtesem: (unintelligible) Muhtesem: He's miserable. Just because I worship (unintelligible). I worship God alone. Dr. Khalifa: Exactly.

48:45
Muhtesem: (unintelligible)

48:57
Dr. Khalifa: That's the abuse and ridicule that all of you went through, all of you, every single one of you.

49:02
Muhtesem: (unintelligible) Dr. Khalifa: The Bashars couple, the Bashars, they ridiculed them so many times.

49:11
"You mean you go to that mosque." And the answer is "show me a place where they worship God alone, and I'll go."

49:19
"We'll go to that place." I will go to that place. Any place where they worship God alone, we'll go.

49:26
God is the One... God is the One who created you. God is the One who provides for you.

49:32
God is the One who controls your health, your welfare.

49:37
God is the One who controls your happiness. God is the only One who controls your success.

49:44
Muhammad is dead. The saints are dead. Jesus is dead. Powerless. Even when they were alive. They had absolutely no power.

49:55
So, I mean they just... Because you're going through... This is a first generation. We are.

50:03
We are so lucky. We are a first generation, just like Abraham's generation, Muhammad's generation.

50:12
Muhammad's generation went through the ridicule, the abuse, and they had to leave their city, Mecca, and go to Medina.

50:20
The persecution they went through. Because of this, God reserves a special place for them.

50:25
God is reserving a special place for us. I'm saying it by God's grace.

50:31
So, I have this very good news for you. Because you are... you fit here in verse 13.

50:37
[56:13] Multitudes from the early generations.* In 50 years, I assure you, in 50 years, there'll be millions of people worshipping God alone, and upholding the Quran alone,

50:47
and Praying the correct way. Millions. In just 50 years.

50:52
But they will be following the crowd. They cannot be like you.

50:58
They will be protected by their numbers. Right at this location, right here, there'll be thousands, on this block, in this mosque.

51:08
And there'll be powerful... the people jumping on the wagons. But they don't deserve the same position, or the same credit as you.

51:21
So, this is, this is what it means. [56:13] Multitudes from the early generations.* [56:14] But only a few from the last generations.

51:28
Because these are the far ahead, in Arabic, (56:10) السَّابِقُونَ السَّابِقُونَ These will be the closest to God. They're very special.

51:37
That's you. And you start collecting benefits now.

51:44
And we've seen it. We have a history already. We have a track record in this mosque, 10 years of a track record, a perfect track record, in this life.

51:56
It's guaranteed by God. We may have a pinch here and there, but it's because we make mistakes.

52:05
The tests are brief for you. But if you stray off the path, you know you're gonna get a pinch.

52:12
And you get the pinch and say "thank you God." And come back to the path. You are very special people.

52:22

You deserve a lot of congratulations. God says in Sura 35 that the angels have wings, 2, 3, and 4.

52:32

2, 3, and 4, because the angels closest to God will be the most powerful, the highest in rank.

52:41

They have more wings. This is figuratively speaking.

52:46

And these (56:10) السَّابِقُونَ السَّابِقُونَ these far ahead people, like yourselves, will be there.

52:54

I mean, all those are angels, but still, they have ranks. And 50 years from now, the thousands of people who will be in this location, IN SHAA ALLAH,

53:04

they will go to the High Heaven, because they worship God alone, and they will Pray the correct way. And they'll go to the High Heaven, but they cannot attain your rank.

53:12

Because you're the ones who are taking the abuse. The people who take the abuse and the ridicule have a very special position in the Bible and in the Quran.

53:22

I had a little thing, they hang in there for a while, that says "Congratulations to those who are persecuted."

53:29

For the prophets also have been persecuted. Remember that verse? They hang it there.

53:35

And this is God telling you "Congratulations."

53:41

So, we are very, very lucky. And I'm stressing, I keep stressing this, because I cannot stress it enough.

53:51

Just so you can thank God, so you can be appreciative, so you know who you are.

53:57

Satan will always put doubts in your mind, always will tell you "you're nobody." He hates your guts, okay?

54:06

Because he's gonna be deep, deep in Hell. You hear that, Iman? You were asking about Satan in the Hereafter. He will not be in Heaven, No.

54:14

He will not even come close. He and his troops will be way deep down in the lowest pit of Hell.

54:24

And he'll be beating them, and they'll be beating him. They're gonna spend eternity doing that.

54:32

So, he will try to tell you "you're a nobody." But you speak, you speak back to him. Tell him "I believe God."

54:40

And I believe that I am in this group. [56:13] Multitudes from the early generations.* Because this is the first generation.

54:49

I mean, I couldn't believe it myself. For a long time, I said "it couldn't be just us here worshipping God alone. There must be millions in the world."

54:58

But I discovered that I'm naive, that the human being is really bad.

55:04

I was talking to my nephew, Sharif, in Egypt. And he said "I'm the only one in Egypt."

55:11

He really is a believer. And you can tell the, you can tell the people who believe because they are in the light. They understand.

55:20

And he's the only one that I know in Egypt, that's really a believer.

55:26

IN SHAA ALLAH, he will come to the conference. He's only, he's only 20.

55:35

He was born two weeks before Beth. And he's the only believer in all of Egypt.

55:45

I mean, I was really naive. I mean I said "there must be millions in Egypt who worship God alone."

55:50

Nope. Wrong. So, this is why I'm speaking so strongly.

55:55

I'm telling you "you're very special." And when Satan tells you "you're not," you tell him to shut up.

56:03

You're very special. That is the verse that talks about you.

56:10

Congratulations. Dr. Sabahi: (unintelligible) Dr. Khalifa: Yes. Dr. Sabahi: (unintelligible) Dr. Khalifa: Yes.

56:25

Dr. Khalifa: And this time, and this time, right now. It refers to Muhammad's time, Ibrahim's time, and this time, our time.

56:32

We are a first generation. Right now. Because we are the fortunate generation that is renewing God's message, restoring it, cleaning out all the junk and innovations.

56:47

When you go back to Iran for a visit, you'll be... which town you will be in?

56:53

Dr. Khalifa: Tehran? Dr. Sabahi: Tehran. Dr. Khalifa: I think you'll be the only one in Tehran who's praying the correct way, you and (unintelligible), the kids.

57:04

You'll be the only... and they laugh at you. When you tell them "and in TASHAHUD I just say the name of God alone,

57:09

they say "you mean, you don't mention Muhammad or Ahlul-Bayt or Ali?"

57:14

"No." See, this is what we cleaned out, cleaned out all the creatures. We just mention the Creator.

57:22

And this is restoring the religion. So, you are a first generation. Does this make you special or not? When you're the only one in Tehran who's Praying the correct way. Tehran is how many millions? Five?

57:33

You can see the details but this circle here, you start on this side.

57:39

You put down the first, start with the first verse of Quran. And write the number of every verse in Quran. 1, 2, 3, 4, 5, 6, 7.

57:47

The first Sura is 7 verses. Then, put 7, the number of verses in the Sura. And then do the same with every Sura all the way to the end of Quran, only in the upper half.

57:57

And then... Ok. Let me do it the other way around. Start with the number of verses in the Sura, 7.

58:05

Then, the number of each verse. 1, 2, 3, 4, 5, 6, 7. And then you will link with the other system where you put the verses first and then the number later.

58:16

Ok. You will end up with a number that is in a circle that is 25,400 approximately digits, numbers.

58:26

This number is one mile long. And it is divisible by 19 and it has all the numbers in the Quran with the two systems.

58:35

One system where you put the number of verses at the end of the list of verses. Another system, you put the total number of verses at the beginning.

58:43

And in between the two systems, you have the number of the verses in the whole Quran. It's gonna be in the circle.

58:50

This eventually is going to convert the whole world because they will know that this book is not human made.

58:57

I mean the miracles are becoming so strong now that they will be irresistible.

59:06

So, we may be a very special... you're still a very special group, generation because you've been here even before this miracle was half this strong.

59:18

It is growing now. And 50 years from now, it's gonna be very common knowledge.

59:25

People will accept it easier because there'll be more people talking about it.

59:31

These people told Mahmoud "we don't believe in mathematics." They didn't even look at it.

59:37

But as they jump in the wagon, they will look at it and they will see it and they will know.

59:43

They will just believe. They will know that this is God's message to the world.

59:48

So, the later generations for us may be different from the others. Dr. Khalifa: There are only 300 years left.

59:55

Dr. Sabahi: As if God is saying that (unintelligible). Dr. Khalifa: Yes.

1:00:03

Dr. Khalifa: This has been the system. You see, Christianity was corrupted 300 years after Jesus.

1:00:10

I mean, totally corrupted. They had the Nicene Conferences and they invented the Trinity and everything, 300 years after Jesus.

1:00:18

With Muhammad, it was 300 years that the Hadith became recorded and Islam was wiped out, totally corrupted 300 years after Muhammad.

1:00:26

Now with our generation, when it is 300 years, it's gonna be the end of the world.

1:00:32

And this is documented here in the Quran. So, we have a special situation here.

1:00:42

Also, we have a verse in Quran in 41:53 that says, [41:53] We will show them our signs in the horizons, and within themselves, until they realize that this is the truth.

1:00:53

So, this is a prophecy that God gave us. And this is what's happening now. And it will take 300 years for the world to realize,

1:01:02

probably every single person on earth will realize that this is God's message to the world. And I suspect the world will end with only believers on earth.

1:01:10
That's when Satan will throw up his hands and say "I give up. I have no constituents anymore."
1:01:16
And that will be the end, end of the test. The miracle is very powerful.
1:01:24
And this is the very reason why you are very special people because you believed from the very beginning.
1:01:32
Some of you, even without looking at the miracle, you agreed to worship God alone and uphold the Quran alone.
1:01:39
That's a very special situation. Dr. Khalifa: I stole the show from Naghmeh. Naghmeh: Right.
1:01:46
Dr. Khalifa: I thought it was very important. I wanted you to know who you are.
1:01:56
A man: (unintelligible)
1:02:10
A man: Does it mean that there is also stratification within this... Dr Khalifa: Yes, within each (unintelligible), yes.
1:02:16
A man: (unintelligible) sorry. Dr. Khalifa: But you can call this Hell. And there'll be (unintelligible) there in the deepest... The hypocrites will be in the deepest pit of Hell.
1:02:27
Hypocrites are people who think they are believers. They say they're believers. They believe they are believers. But they are not.
1:02:35
Those are the hypocrites. But the whole place is Hell. This is what...
1:02:42
And God says "those who barely miss Hell and make it into the lowest layer of the Purgatory"
1:02:48
God calls this "a fantastic triumph." Because if you miss this, this thing called Hell, within which there are different layers.
1:03:01
The same with the Lower Heaven and the same with the High Heaven. Because the people in the Purgatory, they cannot go much higher, but they are fantastically happy.
1:03:10
They are in Heaven. And within Heaven, like I said, there will be a line beyond which you cannot go.
1:03:19
These are natural borders. Your growth and development will decide that.
1:03:28
You know, every time you get abused and ridiculed, you grow immensely.
1:03:34
That's why Mahmoud came out smiling out of that episode.
1:03:40
So that Muhtesem... Gatut comes across those ones in a while.
1:03:46
A woman: I have one right in law school. Dr. Khalifa: Yes. A woman: He's not going to law school, but he works in a library. One time he went like this. It was like almost he hit me.
1:03:55
Dr. Khalifa: (unintelligible) A woman: He was...and he... Dr. Khalifa: Does he worship God alone, right?
1:04:00
A woman: And he was like, he was like "Dr. Khalifa says that it's OK for you to repent. Muslims don't have the right to repent."
1:04:07
A woman: I was like "Excuse me?!" That's exactly what he said. He said "God doesn't tell us we have the right to repent. And he tells us that you can repent a hundred times."
1:04:17
A woman: And I'm like "of course, you can. Without repenting, we'll all go to Hell. Are you kidding?" Dr. Khalifa: But that's in the Quran.
1:04:22
Dr. Khalifa: I guess he never read the Quran. A woman: Oh, so many other things. And he's like "you need a Muslim husband who will teach you how it is."
1:04:31
And I said "I'll teach him how it is." So, yes, I beat him, too.
1:04:37
Dr. Khalifa: That's what he needs. A woman: I said "I'll teach him."
1:04:42
Dr. Khalifa: That's our love. A woman: Yeah. Dr. Khalifa: Let me tell you the kind of ridicule and the kind of stupidity they have. I have it obtained here.
1:04:52
This fellow came from Denver, Colorado.
1:04:59
And he wants to talk to me. So, I said "if you have any place for us to talk, we'll talk to you."
1:05:05
And I said.... anyway, the conversation ended by me challenging him to say "La Elaha Ella Allah."
1:05:12
I'm really convinced they cannot do it. I mean, I really know this now. Ihsan was listening.
1:05:17

I told him "you are forbidden by God from saying La Elaha Ella Allah."

1:05:23

He said "are you crazy or something? Of course, I can say La Elaha Ella Allah." I said "go ahead. Say it." I said "say it." Remember?

1:05:32

And he will say "La Elaha Ella Allah, Muhammad Rasulallah." I said "see? You cannot say it. Can you?"

1:05:38

He said "of course, I can say it." I said "go ahead. Say it." He said "La Elaha Ella Allah, Muhammad Rasulallah."

1:05:45

I said "see? You just proved to me that you cannot say La Elaha Ella Allah, can you? Because you are forbidden by God."

1:05:51

I mean, here I'm challenging this guy to say "La Elaha Ella Allah," and he cannot say it. I have it all recorded from the thing.

1:05:58

Now, so, this is, this is a fellow I kept challenging, and again, I guess he got so mad, so half hour later,

Dr. Rashad Khalifa receives a death threat. Within Hell there are ranks.

1:06:10

he called and he said "I'm gonna bring the gun and kill you tonight." Yeah, I have it. I have it on tape.

1:06:17

So, now he's so stupid because he talks at the machine, we're recording it, along with his phone number and everything.

1:06:26

So, of course, we called the police. The police went and paid him a visit. But that's how, that's how stupid, how angry he gets.

1:06:35

Would you threaten somebody and record it on the machine?

1:06:42

His address was divisible by 19. But this is the kind of abuse, the kind of ridiculing that every time you go through this, you grow immensely.

This is a very special treat to you.

1:07:00

If Naghmeh and Apamea did not have the courage, they would have quit long time ago.

1:07:06

I mean, from cousins to brothers to uncles, relatives, aunts, everywhere, friends.

1:07:14

They're ridiculing them. Look at them, steady, persevering.

1:07:19

(unintelligible) God takes the believers out of darkness into the light.

1:07:24

And how can you go back to darkness after you've lived in the light?

1:07:35

They cannot say "La Elaha Ella Allah." (unintelligible). I know they are forbidden by God from saying it.

1:07:42

They are hypnotized by Satan or whatever the (unintelligible) is.

1:07:48

So, within the High Heaven, there are ranks. And within the Lower Heaven, there are ranks. And within Hell, there are ranks.

1:07:55

But these are the general divisions. As we saw in Sura 55, there are big differences between the High Heaven and the Lower Heaven.

1:08:06

But what we have seen are the general characteristics.

1:08:16

Dr. Khalifa: Congratulations. Dr. Sabahi: Can I ask a question? Dr. Khalifa: Yes. Dr. Sabahi: Is it (unintelligible) Quran that (unintelligible)? Dr.

Khalifa: No.

1:08:31

Dr. Khalifa: No, there will be, there will be more believers than ever now. By the way, some people that were kind of suspicious of my population.

1:08:42

And God never let me down. (unintelligible) Magazine, the last issue, had an article of the population.

1:08:50

They had a population curve there. It is in full agreement with my history.

1:08:56

Dr. Khalifa: So, this is good. A woman: (unintelligible) Dr. Khalifa: Yeah. A woman: ...the growing generations including us with a bar?

1:09:02

Dr. Khalifa: Right. Dr. Khalifa: Because I showed that the people from now to the end of the world will be 15 times as many as the people from the beginning of Adam until now.

1:09:12

In other words, the vast majority of the human race are getting the message that our generation is beginning right now.

1:09:19

Or starting a message of worshipping God alone, upholding God's Word alone.

1:09:24

And this is the message that God wills for the vast majority of the human race.

1:09:31

70 billion people. See, until now we had 6 billion people.

1:09:37

From now to the end of the world, it is projected that we'll have 70 billion people.

1:09:43

But to answer Dr. Sabahi's question, the verse in the Quran says,

1:09:48

it doesn't say that everyone will be a believer, but it says "I will show them My signs until they realize that this is the truth."

1:09:56

So, the prophecy is that God will spread His signs until everybody becomes a...

1:10:03

Not everybody, maybe everybody, but at least almost everybody will be a believer.

1:10:10

The miracles that we are seeing now, and they have all discovered the people connected with us.

1:10:18

The people who believe exactly as we do. And this is an exclusive, specifically a very strong sign.

1:10:28

And these miracles will be known by everyone. I'm telling you, in 50 years, there'll be millions, millions of people worshipping God alone and following the Quran alone.

1:10:39

Millions, in just 50 years, maybe less. Naghmeh: You know, what I was gonna say also, it's not only that we're gonna have more people

1:10:47

later who are gonna be seeing these miracles, but also there's another mercy I think from God in that

1:10:53

the old generation, there might not have been as many people as we're gonna have. But the life span then was, what, 35 or 40 years old. Women died in labor.

1:11:04

Naghmeh: There was the wars between Spain and, you know, the Europe and stuff. They were all young people. Dr. Khalifa: Yes.

1:11:11

Naghmeh: And so, you know, it seems like there was mercy there too, because they were all young and they died young. Dr. Khalifa: (unintelligible)

1:11:17

Naghmeh: Yeah. Right. Dr. Khalifa: (unintelligible)

1:11:23

Dr. Khalifa: Go ahead. Naghmeh: Okay, The Lower Heaven, 27.

1:11:28

[56:27] As for the inhabitants of the right side, they will be on the right side.

1:11:34

[56:28] They will enjoy lush orchards. [56:29] And fresh fruits. [56:30] And abundant shade. [56:31] And water to be poured.

1:11:42

[56:32] And many fruits. [56:33] Always in season. [56:34] And exalted furnishings. [56:35] We raise spouses for them. [56:36] Never previously touched. [56:37] Magnificent companions.

1:11:52

[56:38] Exclusively reserved for inhabitants of the right side. [56:39] Multitudes from the early generation. [56:40] And multitudes from the later generations.

1:12:01

Okay, number 27. This we see, the difference between this is from the far ahead to the right side.

1:12:09

And, you know, we've said it over and over again. Well, we know that the people who died before the age of 40

1:12:18

go in the Lower Heaven. And we know that the basic rules in the Quran to make the Lower Heaven is

1:12:27

to believe in God alone, to work righteousness, and to believe in the Hereafter. And those people will make it.

1:12:33

Then, then the right side just sounds so right, sounds so right.

1:12:39

Because first of all, like we know from, you know, the (unintelligible) that we always play is that God knows everything.

1:12:45

God knows the one who is really, really, really mean and bad and He will keep them until they're old.

1:12:51

But, but the ones who died before they are 40, obviously God knew that there was something right about them.

1:12:58

And just because, you know, their life was shorter than ours doesn't mean that it was any kind of bad, you know, thing from God's position.

1:13:08

But that maybe they were gonna prove a test for their family or whatever. But that the thing is that God knew they were on the right side.

1:13:17

And God tells us that the age of 40, you know, before the age of 40, they go to the Lower Heaven.

1:13:22

And, and it just makes sense that those are the people who died before that age. And plus, it's a test for their families.

1:13:33

But they are still, they're so protected. And so if you're on the right side here, you'll be on the right side there.

1:13:41

You won't be up at the top of the people who really tried hard. But you'll be there. And also I think a lot of times, you know, there are a lot of people who believe in God alone.

1:13:51

They believe in the Hereafter and they work righteousness. But it's just way too difficult to ask them to do anything else.

1:13:59
They might give to charity but, you know, on their own, a lot of people maybe do. But they probably don't even give money or anything, but old clothes type of things.

1:14:09
Naghmeh: But... Dr. Khalifa: God says He will reward them for their righteousness. Naghmeh: Right. You know, so it's some kind of charity. But they will not do the Prayer. It's too hard.

1:14:18
They say "I can see myself doing one but five", you know. And... And, and I'm like "you're not doing any, you know, God doesn't need you to be doing this. It's for us."

1:14:29
You know, "and you're not doing any favors for God for doing your prayer, but that it's a favor for us." And over all that, to think 25 minutes maybe out of your whole day, 24 hours, is really nothing.

1:14:42
And I hate to think of it as that but sometimes it just brings you down just saying that. But anyways...

1:14:48
Dr. Khalifa: (unintelligible). A woman: I know.

1:14:56
Naghmeh: So, but I guess they're just right on... Dr. Khalifa: The Prayers, the Prayers are meals. When they say "one Prayer maybe but not five", this means, it's like saying, I just have breakfast.

1:15:05
Naghmeh: Yeah. Dr. Khalifa: Nothing else. Dr. Khalifa: (unintelligible) But whatever righteous thing, work you do, you get rewards.

1:15:16
Again, we're gonna hear some allegorical things. There's gonna be some difference from the Highest Heaven.

1:15:23
There's gonna be shade and there's gonna be fresh fruits, but it doesn't say what they choose.

1:15:30
It doesn't say what they desire but there will be fresh fruits. And it says,

1:15:36
[56:31] And water to be poured. which means poured, I guess, from them because it doesn't say that they will have servants.

1:15:41
So, that means a little bit more work for those people. But they will be taken care of, basically.

1:15:50
I don't understand why it says here [56:35] We raise spouses for them. But in the other one, it says that they will automatically have, like, you know, magnificent spouses.

1:15:59
What's the difference between raising spouses for the right...? Dr. Khalifa: It's like, if you can go to the market and get a meal of corn, or you can put a seed in there and watch it grow until it's a tree of corn.

1:16:10
Naghmeh: Oh, that is great. I mean, it makes sense. Dr. Khalifa: Yes, that's a little bit different.

1:16:16
Naghmeh: That is great.

1:16:29
Naghmeh: And here we have multitudes from the early generations and multitudes from the later generations,

1:16:35
which goes along with what you were just saying, that in the later generations that come after the people who went through all the

1:16:42
trouble and the hassles, the people laughing at them and mocking them, there will be a lot of people who will be, God willing, following the scripture.

1:16:52
The footnote says "because all the humans who die as children will be assigned to the Lower Heaven, the proportion from each generation is about the same.

1:16:59
That also makes sense, of course. So, we just know that, you know, multitudes from the early generations, that could be the people, you know, who,

1:17:12
Naghmeh: the younger, yeah, Dr. Khalifa: Children, Children. Naghmeh: the ones who died before the age of 40, because in the earlier generations, they died at a young age, and then the multitudes from the later generations could be the ones, all the people who follow us.

1:17:24
Dr. Khalifa: But because this happens all the time, no matter what is happening, it could be Abraham's generation, or Muhammad's generation, all the generations, but still, children die in accidents,

1:17:35
people die before 40. So, this is happening continuously. A man: (unintelligible) Dr. Khalifa: No.

1:17:47
A man: (unintelligible) Dr. Khalifa: Yeah.

1:17:53
Dr. Khalifa: So, 40 is there.

1:17:58
Naghmeh: Yeah. Any questions about the Lower Heaven?

Age of 41.

1:18:03
How? 41.

1:18:09
Hell goes right after 41! Wait, what?
1:18:15
It's 41! Naghmeh: My God. Dr. Khalifa: Yes. Oh, my God. Naghmeh: Yeah. Dr. Khalifa: This (unintelligible) Huh?
1:18:21
A man: (unintelligible) Dr. Khalifa: Yep. Dr. Khalifa: 41 means Hell, if you don't make that decision.
1:18:27
A woman: Oh, wait a minute. Dr. Khalifa: If you don't make that decision by then... A woman: Ok.
1:18:34
A woman: That's the year (unintelligible) Dr. Khalifa: 41 is higher.
1:18:40
Dr. Khalifa: (unintelligible) Naghmeh: Subhan Allah.
1:18:45
Dr. Khalifa: Remember the circle? See, this circle here means every verse in the Quran is numbered according to a system, God's system.
1:19:00
Naghmeh: As for the...should I go on? [56:41] As for the inhabitants of the left, they will be on the left.
1:19:08
If you don't work righteousness, you don't believe in God alone, you don't do the commandments,
1:19:13
you don't listen to your inner intuition to believe in God and work righteousness, then
1:19:19
you will be exactly where you deserve to be, which is Hell, which is... Dr. Khalifa: Lisa wants to stop you. Naghmeh: Oh, I'm sorry.
1:19:24
Dr. Khalifa: Go ahead. Lisa: If you go to the Sura that we looked at last week, it talks about Hell.
1:19:35
Naghmeh: It's 41! A man: Oh, my God. A woman: Oh, my God.
1:19:42
Naghmeh: Mā Shā Allāh
1:19:49
A woman: What page? Dr. Khalifa: 378. 378.
1:19:57
Dr. Khalifa: There is no doubt. There'll be no doubt, folks, about the age of 40.
1:20:04
Age 40 is the cut-off point. Naghmeh: We're like the people on Noah's Ark.
1:20:12
Naghmeh: Or people walking through the sea, you know, with Moses. God, we're just like those people. Dr. Khalifa: Exactly.
1:20:21
Naghmeh: [56:42] In ill winds and retribution. [56:43] In shade that actually burns.
1:20:27
[56:44] Never cool, never tolerable. [56:45] They used to be spoiled. [56:46] They insisted on the great blasphemy.
1:20:33
[56:47] They used to say, "After we die and become dust and bones, do we get resurrected?"
1:20:39
[56:48] "Even our early ancestors." [56:49] Say, "The early generations and the late generations."
1:20:45
[56:50] "Will be gathered together on a predetermined day. [56:51] "Then you, O strayers and disbelievers. [56:52] "Will eat from the trees of bitterness."
1:20:54
[56:53] "You will fill your bellies therefrom. [56:54] "Then you will top it with lava. [56:55] "You will ingest drinks of humiliation."
1:21:04
[56:56] Such is their position on the Day of Judgment. [56:57] We created you, if you could only believe!
1:21:10
[56:58] Do you see the semen you produce? [56:59] Is it you who create it, or are we the creators?
1:21:18
[56:60] We have designed death for you. And nothing can prevent us— [56:61] from substituting others in your place, and establishing what you do not know.
1:21:30
I stop there. Again, if you don't work righteousness and believe in God alone and everything, then
1:21:38
you will be in Hell where you deserve to be. Again, allegorically, I believe, it very graphically explains to us what it's going to be like in Hell.
1:21:52
And I don't have to be there to already feel it. And... And it says that ill winds and retribution.
1:22:03
And they will be constantly burning. And they can just never get out.
1:22:09
And... And just it seems sad in a way, but again, you know, God has just put Hell, created Hell, and we put ourselves in there.
1:22:27
And God knows and in every scripture it's described what Hell is gonna be like.
1:22:33
And people just don't understand. They don't believe in it. [56:45] They used to be spoiled. [56:46] They insisted on the great blasphemy.
1:22:42

[56:47] They used to say, "After we die and become dust and bones, do we get resurrected?"
1:22:49

[56:45] They used to be spoiled. That seems like such a, you know, good word again, spoiled.
1:22:54

Besides, it seems like the people who just wanna be in control and the people who just think that
1:23:03

material things make them happy and if they're down, well, you know, "it's okay honey, let's go shopping" or whatever.
1:23:10

Actually... Wait, wait, wait.
1:23:17

Dr. Khalifa: Believers can do that, too. (unintelligible)
1:23:30

Naghmeh: I take that back. I said "thank you, God."
1:23:35

Dr. Khalifa: Right. Naghmeh: How can I say thank you?
1:23:42

Well, anyway, those spoiled people who think that they're just in charge and that they can make things better or worse on their own
1:23:52

and they don't need anyone else or anything else and, you know, as long as they have everything that they like in this life, then it's fine and...
1:24:03

and they don't have to question the Hereafter. They don't feel that there's anything holding them back for them to be seeking God.
1:24:09

It's like a lot of people, you know, when they go through a bad time, it's when they go towards God and it says it in the Quran. It says.
1:24:17

"Whenever hard times come to them, they remember Me. When things get better, they forget about Me."
1:24:23

Dr. Khalifa: It's called Bad Weather Friends. A woman: Bad Weather Friends. Dr. Khalifa: In the new translation, Bad weather friends.
1:24:30

Cause when they are about to drown or the plane is in trouble, they remember God. (unintelligible) this verse is saying.
1:24:38

As soon as they land on shore, they forget God.
1:24:43

Naghmeh: And they just insist on the great blasphemy no matter how many times maybe hardship falls upon them, how many times they get stuck in the
1:24:50

black sea or whatever, they still might go back. Well, the people who are in Hell, they do, but some people learn from their mistakes.
1:24:59

And they question "after we die and become dust and bones, do we get resurrected?"
1:25:06

So many people have troubles with that. About... they'll believe in maybe reincarnation.
1:25:13

I went to this comedy club the other day. I have never gone to one before. And so many times they talked about Shirley MacLaine saying that she's gonna be...
1:25:22

Naghmeh: She was in reincarnation. A woman: She'll be back. Naghmeh: She'll be back. A woman: (unintelligible) Naghmeh: She was, she was an elephant or something.
1:25:30

In the Hereafter, but she will not believe that she could... her soul could be raised. But she'll believe in reincarnation. And so many of these people brought up the same thing, you know, up on the stage.
1:25:39

And... Anyway, so they question that, too.
1:25:45

And God says "if you don't believe in the Hereafter," one of the pillars of the Lower Heavens, then that's it.
1:25:54

[56:48] "Even our early ancestors." There's no difference. We know that God has sent us prophets and messengers throughout the community and throughout our lives.
1:26:04

So, whether it's early ancestors or later ancestors, we're all gonna be resurrected together no matter what.
1:26:11

[56:49] Say, "The early generations and the late generations. like what I said."
1:26:18

[56:50] "Will be gathered together on a predetermined day. We know that, well, we know that the Day of Resurrection, the Day of Judgment will come in about 300 years.
1:26:28

And that... And that everybody will be waiting in line and they will be judged by their souls and their videotapes.
1:26:37

And we're all gonna be together. We're all gonna see what the other person is and there's nothing you can hide.
1:26:43

And like it says in the Quran, it says, even, you know, the ones who are friends will be hating each other on that day, you know when,
1:26:52

if they didn't work righteousness. So, all will be together.

1:26:58
 [56:51] "Then you, O strayers and disbelievers. [56:52] "Will eat from the trees of bitterness. [56:53] "You will fill your bellies therefrom. [56:54] "Then you will top it with lava. [56:55] "You will ingest drinks of humiliation."
 1:27:09
 which again describes everything that they go through and how miserable it would be where your soul is not developed.
 1:27:18
 [56:56] Such is their position on the Day of Judgment. [56:57] We created you, if you could only believe!
 1:27:30
 [56:58] Do you see the semen you produce? [56:59] Is it you who create it, or are we the creators?
 1:27:38
 Again, you know, this is another reminder again for us to take a look at. Gosh, you know, how were we created?
 1:27:47
 How did all this come about, you know? And it's just incredible how the whole system of, I guess, getting pregnant or whatever works.
 1:28:00
 And it's just really amazing. And if somebody doesn't question where that came from, they think that it came from generations of monkeys,
 1:28:08
 then I think there's something wrong. Dr. Khalifa: Did anybody see Nova? (unintelligible)
 1:28:14
 They were talking about this, had a program on this. Dr. Khalifa: how the semens come and move to their position.
 1:28:20
 Naghmeh: Only one out of... Dr. Khalifa: If anybody sees that who does not believe in God...
 1:28:27
 I can't imagine anybody watching this and not believing in God. That was a few days ago.
 1:28:34
 Naghmeh: Just how perfect every single woman's body work. I mean, it's just amazing.
 1:28:40
 And God questions it, you know, is it you who created it? Is it the prophets who came down? Is it the messengers who created it?

25 Quran Study From Behrouz 1525 Sura 58 By Robert

Robert: [58:3] ...shall expiate by freeing a slave before they resume intercourse. This is to admonish you. God is Cognizant of everything you do.
 0:09
 [58:4] If you cannot find a slave to free, then you shall fast two consecutive months before resuming intercourse. And those unable to fast shall feed sixty poor persons. This is for you to believe in God and His messenger. These are God's laws, and the rejecters have deserved painful retribution.
 0:27
 [58:5] Those who oppose God and His messenger are doomed like those before them who were doomed. We have revealed clear revelations, and the disbelievers therein have deserved painful retribution.
 0:38
 [58:6] The day will come when God resurrects them, then informs them of everything they had done. God has recorded it while they forgot. God witnesses all things.
 0:50
 [58:7] Do you not realize that God knows everything in the heavens and the earth? No three people can meet in secrecy without Him being the fourth, nor five without Him being the sixth, nor less than this, nor more, without Him being there. Then, on the Day of Resurrection, He will inform them of everything they did. God is fully aware of all things.
 1:12
 [58:8] Those who are prohibited from conspiracy, then go back to it, conspiring sinfully, maliciously, and in defiance of the messenger. When they come to you, they greet you not with God's greetings, and say to themselves, let us see if God will punish us for what we say. Their only destiny is Hell wherein they burn; what a miserable destiny.
 1:33
 [58:9] O you who believe, if you have to confer secretly, you shall not confer to commit sin, transgression, and disobedience to the messenger. You may confer only to work righteousness and piety. Beware of God, for you will be gathered before Him.
 1:47
 All right, we'll stop there. All right, verse one.
 1:52
 [58:1] God has heard the woman who debated with you about her husband and complained to God... [58:2] Those among you who estranged their wives as if they were their mothers are doing wrong...
 2:03
 Obviously, this is in the Quran for a reason. God...
 2:08
 As the footnote says "a common statement by Arabian husbands who wanted to punish their wives was
 2:14
 "you are forbidden to me in intercourse as my mother." Ok. That obviously, it obviously applied to that point in time in history where this was a common thing, to where it needed to be said.
 2:28
 But as we know, the Quran is for every day, and it applies at all times. So, what these verses are saying, we should obviously take to heart.
 2:39
 Ok.
 2:44

[58:3] Those who estranged their wives in this manner, then reconcile, shall expiate by freeing a slave before they resume intercourse. This is to admonish you.

2:54

There again, obviously, we don't have slaves or things like this today.

3:02

But the point is well taken about the relationship that should exist between a husband and a wife and how

3:12

how regardless of the circumstances, how a person should treat his wife.

3:23

Okay, [58:4] If you cannot find a slave, then you shall fast two consecutive months before resuming intercourse.

3:29

Like this is just straightforwardness here, telling you or telling people this applies to,

3:39

what they need to do to receive reconciliation.

3:45

Ok. [58:5] Those who oppose God and His Messenger are doomed like those before them who were doomed. We have revealed clear revelations, and the disbelievers therein have deserved painful retribution.

3:56

This verse is just tremendous. When God says "We have revealed clear revelations, and the disbelievers therein have deserved painful retribution."

4:05

When He says "clear", He means "clear." The Quran come... the Quran is straightforward, and it says what...you know, what it says is what it means to you.

4:15

When you read it, you don't have to... I mean, it's so fully detailed that you don't have to look to any other outside sources

4:24

to find the meaning of it. It's right there. The Quran is complete. You don't need the Hadith, the Sunnah, the Bible.

4:31

Plus, the Quran confirms these previous scriptures. So, there's no need for them, excluding the Hadith, Sunnah.

4:41

So, when you see people that are rejecting this on the basis of one thing or another,

4:49

it's... they truly deserve, or they will receive, their due... their due... (unintelligible).

5:02

[58:6] The day will come when God resurrects them, then informs them of everything they have done. God has recorded it while they forgot. God witnesses all things.

5:12

This verse is... tells us, while a lot of verses have, and it's been well discussed in here

5:18

in terms of God recording everything, and God knows everything that we do. Nothing goes... nothing goes without...

5:26

Dr. Khalifa: Martha, Martha (unintelligible)

5:38

Robert: Okay. Nothing goes... nothing happens or in anything, in any place on this earth, without God knowing about it.

5:46

From everything... from the ant moving, to the actions of the challenger. Anything. Anything.

5:52

God... when you say God has recorded it, that means God knows your actions before you've even committed them.

5:59

God... Everything has been recorded before they even took place. But when we say this, lots of times we know in the Quran that God controls everything

6:08

here in this mosque, and God controls everything on the earth.

6:14

But in the same sense, you have a... when you decide that you want to be a believer,

6:26

you're making a covenant with God, and you have to hold up your end of the deal.

6:31

You have... you have an obligation in which you're saying "yes, I will Pray five times a day.

6:39

Yes, I will give to charity." You have obligations that you have to do. You have to hold up the commandments. You have to be a righteous person.

6:46

Okay, that doesn't... so that means just because God controls everything and God knows what's gonna happen, and everything is pre-recorded, doesn't mean you can sit back and relax

6:55

Like, like a sticker on the... a bumper sticker on the car outside, I was looking at it a

7:03

couple days ago, and it says "relax, God's in charge." Okay, that means... to me, I took that and I thought "relax, God's in charge. What does that mean? Relax, sit back, God's in charge?"

7:13

No, it means "relax your emotions. Don't worry about anything, because God's in control."
7:19
But that doesn't mean that your end of the deal... you don't have to hold up your end of the deal. You understand what I'm saying?
7:25
It's not like you can just "okay, well, we'll just relax, and I'll sleep from 8 p.m. to 8 p.m. the next day."
7:36
So, we have an obligation to God, and that extends into everything we do.
7:42
God wants us to be the best we can, and put forth the maximum effort in everything we do.
7:47
I discussed this with Mr. Khalifa about, well, why should we wanna achieve in everyday life?
7:56
Why should we want to be a success? Why should a person want to go to college and get an education, or make money, or all these things?
8:05
Because in retrospect, they're not really important. All that's important in this life is our relationship to God.
8:11
And realizing that, that's when these other things can become important, because a wealthy
8:19
believer, he said, can do more good than a poor believer. They can help more people. They can do more things.
8:26
Not that one is better than the other, but just the capability of giving more to charity
8:33
and things like this is greater if you have more wealth, naturally. And with that in mind, also, God wants us to do our best in everything we do.
8:43
And when it comes to our jobs, it's a matter of thinking about God in your job.
8:50
That becomes our goal, to be conscious of God at all times. So you're going to work, but you're realizing that you're completely conscious of God at
9:01
all times within your work. That's what we're talking about, of not idolizing anything else.
9:06
When you set these goals, set these goals with the ultimate plan of being righteous
9:11
in mind in your relationship with God. I kind of got stuck on that verse, because that's the one I understood.
9:17
I can elaborate on that one a little bit longer.
9:23
Ok. [58:7] Do you not realize that God knows everything in the heavens and the earth? No three people can meet in secrecy without Him being the fourth, nor five.
9:30
This is, goes along the same lines. God knows everything. [58:7] ...God is completely Cognizant of all things.
9:37
You can't meet in private. You can't, you know, it just... God knows everything, and everything is recorded.
9:47
Ok. [58:8] Those who are prohibited from conspiracy then go back to conspiring sinfully, maliciously, and in defiance of the messenger.
9:55
I didn't really understand this. Those who are prohibited from conspiracy, who would that be?
Secret conspiracy i.e. boycotting congregational gatherings. Estranging wives due to being like mothers. Abolishment of Slavery.
10:02
Prohibited from conspiracy. Conspiracy in terms of...
10:07
Dr. Khalifa: As meeting in secret. Dr. Khalifa: People in their privacy, they may plot things that may not be in harmony with the society or the group.
10:18
Robert: Ok. So, people... so in a society where you are prohibited from meeting in secret or...
10:23
Dr. Khalifa: No, let's just say three or four of us are sitting somewhere and they say "let us not go to the picnic of
10:30
the group tomorrow, and let us go and invite some others to the mountain, or to the desert."
10:38
So, they're conspiring to break up the group. So, this is the kind of conspiracy.
10:44
Robert: Okay. [58:8] ...Conspiring sinfully, maliciously, and in defiance of the messenger... Then "let us see if God will punish us for what we say."
10:55
Robert: Here again, you see people testing God, and obviously, I mean, that's not the case here. Dr. Khalifa: Actually, we had these things happen here
11:05
Dr. Khalifa: in the past, and those people are not here anymore. A man: (unintelligible) Dr. Khalifa: They're just troublemakers, and they want to do silly things to just create disharmony in the group.
11:20

And time proved that they were not really believers.

11:25

Robert: Ok. [58:9] O you who believe, if you have to confer secretly, you shall not confer to commit sin, transgression, and disobedience to the messenger. You may confer only to work righteousness and piety. Beware of God, for you will be gathered before Him.

11:41

That is just always keeping in mind that the Day of Resurrection is coming. Regardless of where you meet, or the circumstances with which you meet, remember always to be righteous and pious.

11:52

Okay, any questions or comments?

11:57

A man: (unintelligible)

12:03

Dr. Khalifa: Yes.

12:10

Dr. Khalifa: Okay, I think the custom of exchanging the wife as if she is the mother, is kind of unfair to the wife,

12:19

especially in a society where there is polygamy. One wife is left hanging. She is not free to marry somebody else.

12:27

She's not practicing getting her rights as a wife.

12:33

So, God is ending that cruel practice. And in verse 3, we see the Quran's solution to the slave problem, where slavery was practiced.

12:49

It was practiced in this country until 200 years ago. 200 or what? 100 years ago?

12:57

And the Quran's method is the most effective and the best method economically, because

13:03

if you free half a million slaves all at once, there will be problems. They will not be able to handle it.

13:10

So, the Quran made it for expiation, or atonement for sins.

13:17

So, to be (unintelligible). And Robert said we don't have any slaves, so it works.

13:29

The guy who was sitting in a bus or something who was just clapping like this. Somebody asked "what are you clapping for?"

13:39

So, he said "this keeps the elephants away." The guy said "But there are no elephants... The nearest elephant is 3,000 miles from here."

13:49

He said "see, it works." So, there are no slaves now, because this method works.

13:59

And in the next verse, the verse says "if you cannot find a slave", so, if you don't have a slave of your own,

14:05

you can always go and actually find a slave anywhere.

14:10

And free, pay... pay for his freedom. Douglas?

14:16

Douglas: Do these verses also refer to situations where the wife disclaims her husband?

14:22

It seems that a wife should not treat her husband as if he's her father.

14:27

Dr. Khalifa: I don't think that custom exists, although it is sometimes a de facto. It's called headache instead of...

14:39

It's a de facto statement. Douglas: I've heard that before.

14:45

(unintelligible)

14:52

Dr. Khalifa: Sometimes, I see (unintelligible)

15:05

Dr. Khalifa: It is a very common problem. Sometimes, it's the husband's problem. Sometimes, it's the wife's problem, you know.

15:12

But fairness is common sense.

15:18

A woman: (unintelligible).

15:27

Dr. Khalifa: It's all common sense. These verses specifically deal with this practice. It was terribly unfair. It's actually happening now.

15:38

When I was in Saudi Arabia, I would listen to... They have a radio program where people write letters and complain.

15:46

This is their way of getting the solution, of getting somebody's attention. And you would be amazed how many problems there are where wives are locked up for months.

15:56

They don't even see their husband. But they sneak out a letter somehow to the radio station.

16:04

It's a program that makes you cry. It's a problem (unintelligible). So, this is the kind of problem that these verses address.

16:14

It is a form of slavery, and maybe this is why the expiation is to free a slave.

16:22

And then, Robert said, there are no slaves now, but the Quran provides alternatives.

16:29

If you don't have a slave, you go find a slave, and you free him, or free her.

16:35

And if this is not possible, it is not possible now, then you fast two consecutive months,

16:43

which is indicative of the grossness of the offense. This is...This is...

16:48

If you kill somebody by mistake, this is the expiation for killing somebody by mistake.

16:57

And if you cannot fast two consecutive months, then you have to feed 64 people. Just the same as Ramadan. If you cannot fast in the month of Ramadan, you feed one poor person, for every day you break the fast.

17:10

So, you can see the work of existence of God is good.

17:17

So, this is for you to believe in God and His messengers. These are God's laws.

17:22

Because people who adhere to these commandments prove that they believe in God.

17:28

And when we follow the commandments, we attain certainty.

17:35

The obligations, as Robert mentioned, these obligations are not for God's benefit, but for our benefit.

17:43

And the most, the best thing out of those obligations is attaining certainty.

17:52

When you do the five Prayers, if you miss a Prayer, you get a pinch immediately. Eventually, it's gonna sink in our head that God has (unintelligible).

18:01

How does one know that they missed a Noon Prayer? So, it happens gradually. You're gonna have this conviction and this certainty.

18:13

Another thing I want to comment on is no people meet without God being there.

18:24

Dr. Khalifa: What verse it was? Robert: 7. Dr. Khalifa: [58:7] Do you not realize that GOD knows everything in the heavens and the earth? No three people can meet in secrecy without Him being their fourth,...

18:35

So, when God says, He protects you and people who are conspiring to do harm to you, God is there.

18:44

God's angels are there, too. But I want us to visualize God is with us. God is here.

18:52

And subconsciously think that God is here. Do the snap. He knows that you're studying His Word.

Believing in the invisible dimension. God's protection. Being united, those who "break away from the group Satan attacks".

19:00

It's an awesome feeling. But we have to acquire it once in a while. We have to realize that God is here. God is with us. Always.

19:10

And as believers, this is also... Believing in the invisible is very important.

19:16

Just because we are in this dimension and we see each other, we can't ignore that other dimension.

19:25

The invisible dimension.

19:31

Behind each one of you, or next to you, is a big, huge, invisible giant protecting you.

19:40

I'm laughing because there was a... I just glanced at the TV the other day and there was a child with a dragon, invisible dragon.

19:50

They have something like this video. So, nobody can harm you. Nothing can harm you.

19:59

So, it's just not, not just being conscious of God, but also being conscious of the guards. God put to guard you and guard your children and guard all your affairs.

20:18

Prohibiting the Conspiracy. God says in Sura 42, the whole Sura is titled "Consultation."

20:28

And this is... Alhamdu Lillah, we already achieved this. We're all just one unit.

20:34

And we all become one family. Day after day, Friday after Friday, we are the same people who are meeting here. Dedicated.

20:45

It's been wonderful. We've just become a family. So, we don't have this problem anymore. Except that God taught us what this is in the past.

20:56

And (unintelligible) to take a boat (unintelligible) Opposition. (unintelligible)
21:09
Remember what (unintelligible)
21:16
A woman: (unintelligible)
21:22
Dr. Khalifa: Yeah, we agree on that, yes. No, but that was opposition. (unintelligible)
21:33
Ok. I forget. But we did see examples of this and as time went by, the people who did these kinds of conspiracies turned out to be unbelievers.
21:44
They just didn't have it. They never saw the miracle. They never appreciated it.
21:49
And they disappeared. That was years ago.
21:55
So, this verses 8 and 9 remind us of being always a united group.
22:08
Our affairs based on consultation. Satan is like the wolf. The wolf only attacks the straying sheep.
22:17
(unintelligible)
22:25
Are there any questions on these? They're not to be... By the way, this Sura... this is the only Sura in the Quran... This is a certain piece of information on the side.
22:39
From computer facts, this is the only Sura in the Quran where the name of God is in every verse.
22:46
At least once. This Sura here. The only one in the whole Quran where every verse has the word "Allah" in it, at least once.
22:56
Some of the verses have 4 of them. A man: 57 Allah.
23:01
Dr. Khalifa: Say it again. A man: 57 God. 57 times. Dr. Khalifa: Really? Oh, my goodness.
23:08
Alright. Here's another piece of information.
23:14
So, these are the fine details that we are blessed to know,
23:22
when the average so-called Muslim doesn't even know how many Suras are in the Quran.
23:36
Ok. I thought you were saying something.
23:47
Ok, if there are no questions we'll go back to Robert. Oh, Abdullah.
23:53
Abdullah: On 7, when God says "there are no three people can meet in secrecy, without Him being the fourth."
24:02
Then, next one. Literally, it should come up like "nor four people being, without being Him the fifth",
24:14
but jumped to "five." Actually, when you read it, you can't really notice it, because it goes three, four, five, six.
24:23
Abdullah: But the thing is, we know that, actually these numbers are counted, because if it was four and five, then the sum of the numbers will be short.
24:35
Dr. Khalifa: Exactly. Abdullah: A couple of numbers. But the way God put it, you can't really notice it, if you read it a million times.
24:43
See, it's so fluent. (unintelligible)
24:49
Dr. Khalifa: How come it didn't say "two people, God will be the third", and so on? Because these numbers, what God is emphasizing is that the numbers are part of the mathematical code.
25:00
And the total is a multiple of 19, the number of numbers and the total of the numbers.
25:07
Abdullah: Actually, the reason that God didn't start from two is because the verse ends with, it says "nor less than this, nor more." Dr. Khalifa: Yes.
25:16
Abdullah: If it starts with two, there is no less of two, because you can't have one people conspiring.
25:26
Dr. Khalifa: Unless you are schizophrenic. Conspiring with yourself.
25:42
Very good point. Mā Shā Allāh. You see, nor less than this, nor more, covers the whole range of numbers.
25:52
So, it's true. If the verse starts with two, then less than that would be one conspiring with who!
26:02

Dr. Sabahi: (unintelligible) of the messenger.

26:10

Dr. Sabahi: Why does (unintelligible) disobedience of God and messenger?

26:16

Dr. Khalifa: Well, apparently, the word "conspiracy" is against the messenger, in particular.

26:23

See, this verse is dealing with conspiracy. [58:9] O you who believe, if you have to confer secretly, you shall not confer to commit sin, transgression, and disobedience to the messenger. You may confer only to work righteousness and piety. Beware of God,...

26:36

It's a specific commandment dealing with conspiring against the messenger.

26:43

Dr. Sabahi: Does it mean that obedience of the messenger is required (unintelligible)?

26:51

Dr. Khalifa: Well, it's a blessing, yes. See, what is happening, when there is a messenger, God is sending information to the whole group through the messenger.

"Saves a lot of trouble" if we obey the messenger. Community of Submitters debated age of 40, wastes a lot of time.

27:01

And the messenger himself is benefiting from this information. So, it will save us a lot of trouble if we obey him.

27:10

This includes the messenger and the people, because this information comes to everybody.

27:16

Actually, I see this in my last trip to Canada, for example.

27:27

I mentioned the issue of the age of 40, and I assumed that everybody accepted it.

27:35

But they didn't, and I ended up wasting so much time on it. And it's a blessing if the people have the understanding of, for example, this verse.

27:46

They'd be so comfortable if they have the conviction and understanding. They will not waste so much time arguing back and forth, you know.

27:54

Why 40? How can a person who is terrified go to Heaven if he didn't do this and that?

28:01

Ok. But it's a piece of information that God sent to us and gave us the proofs and the evidence and a number from the Quran.

28:08

So, a person who has, who is blessed... God says "it's a blessing" because it saves us a lot of time.

28:14

It's finished. It's closed. Ok. When we say "God says "up to 40, everybody goes to Heaven.

28:21

And here's the number in the Quran. And here are the proofs. Here are the signs." Then, we're convinced.

28:27

So, it's a blessing. So, I appreciate the fact that this verse deals specifically with disobedience to the messenger.

28:40

It's obedience in matters that have to do with God and the information that's coming from God.

28:47

It's not personal obedience. It's obedience to God because it's the information that's coming from God.

28:58

And we have in history... the history tells us they were having a battle or something and the Prophet Muhammad said "let us camp here."

29:06

And they went to him and they said "this is information from you or from God?" "If it's from God, we'll do that."

29:12

He said "no, it's from me." They said "this is a stupid idea." (unintelligible)

29:19

So, once he said "it's from me", they were free not to obey.

29:24

So, the obedience is really to God. This is actually written in history. "Then, we're all dead if we obey you."

29:32

And they did move on to some other place.

29:40

A woman: (unintelligible)

30:13

Dr. Khalifa: Okay, we'll... just we do have a part where we ask general questions.

30:19

So, that falls under the general questions.

30:24

We have to let Robert finish. It will take about 10 minutes to discuss circumcision.

30:32

Robert: Okay, verse 10.

30:37

Ok. [58:10] Conspiracy is from the devil, only causing problems to those who believe, though he cannot harm them against the will of GOD. In GOD the believers shall trust.

30:49

[58:11] O you who believe, if you are asked to make room for others to sit down with you, you shall make room. Then, GOD will make room for you. If you are asked to leave, you shall leave. GOD raises those among you who believe, and those who attain knowledge to higher ranks. GOD is fully Cognizant of everything you do.

31:07

[58:12] O you who believe, if you wish to confer with the messenger, you shall give away a... [58:14] ... And they deliberately swear lies!

31:15

[58:15] GOD has prepared for them a severe retribution. Evil indeed is what they did.

31:21

[58:16] They used their oaths as a cover to repel others from the path of GOD. Consequently, they have deserved humiliating retribution.

31:29

[58:17] Never will their money or children help them against GOD. They will have deserved Hell, wherein they abide forever.

31:36

[58:18] On the Day when GOD resurrects them, they will swear to Him, just as they swear to you, and they will think they have some basis. Indeed, they are liars.

31:46

[58:19] The devil possessed them, and persuaded them to neglect GOD's message. These are the party of the devil. The party of the devil are the losers.

31:56

[58:20] Those who oppose GOD and His messenger are the lowliest. [58:21] GOD has decreed: "I and My messengers will always win." GOD is Powerful, Almighty.

i.e. conspiracies "some people decided they wanted a separate Quranic study and use different translations".

32:06

Ok. And here again, we're talking about conspiracy as being from the devil.

32:16

Conspiracy then meaning plotting, plotting against, to do wrong.

32:23

Dr. Khalifa: Right. Robert: Ok. Cause... Dr. Khalifa: I wish I could think of something specific. Those happened, what, years ago.

32:31

Robert: Because couldn't you also look at... Abdullah: Yeah, that's what I was... Dr. Khalifa: Right. Abdullah: Last (unintelligible) Dr. Khalifa: Yes, exactly.

32:39

Dr. Khalifa: See, I forgot... Abdullah: These people were very opposed... Dr. Khalifa: And they all dropped off.

32:46

Some people decided they wanna have a separate Quranic study and to look at other translations.

32:52

And... Just to break, break away.

32:58

On a separate night. They did and they're all done.

33:06

Proved to be unbelievers. I mean, we really know that they are unbelievers.

33:12

A woman: (unintelligible)

33:20

Abdullah: (unintelligible) their actions are (unintelligible)

33:30

He was against totally you being in charge. That's typical for him to go against messenger of God.

33:39

Not listening to one that God has chosen as a messenger who is in charge. (unintelligible) Remember, he wanted...

33:46

Dr. Khalifa: It's coming to me now, I remember. Abdullah: Yeah, he came, wanted the Quranic study to all (unintelligible) to debate this (unintelligible).

33:57

Dr. Khalifa: He was, he was fooled by somebody who we know. is an FBI informer. We didn't mind him being here.

Different study group's derived "strangest conclusions" i.e. debated the story of the camel being slaughtered.

34:10

He fooled the guy. I remember this detail.

34:15

They're all gone. So, that's the kind of conspiracy. It's not good. It divides the group. It has no good results.

34:22

It's amazing, by the way. When these things happened, people went and they had their own Quranic study.

34:33

For example, they came out with the strangest conclusions, from the same Quran.

34:40

I can tell you that Satan gets hold of them or something, confusing every issue for them.

34:46

And eventually, I will remember some of the ideas that came out. Cause they are very strange ideas.

34:53

And you know, it makes sense. (unintelligible) inferences "That's right, you can derive this meaning from this verse. But that's not what it says."

35:03

If you twist words, you can come up with certain meanings. So hopefully, I will remember some specific examples.

35:11
But when people... It says here, actually. "Conspiracy is from the devil." There we go.

35:17
Ok. "Conspiracy is from the devil." And these people who forced their opinion, and they went to study the Quran,

35:26
I'm remembering some of the ideas.

35:37
Dr. Khalifa: Yes. Abdullah: Oh, yes. Dr. Khalifa: Oh, yes. Oh, my God. Abdullah: Oh, my God. Dr. Khalifa: Now, listen to this. Now, you're gonna get a kick out of this. Yeah. Thank you. You reminded me.

35:46
The word, they said that Saleh... Yeah, this came out of their group.

35:51
The old timers will remember this. They said... now Saleh said "this is God's camel. Let it be, have its own drink some places."

36:03
And then they slaughtered the camel. So, the word... now people underaged, excuse us, but they said that they had sex with the camel.

36:12
By (unintelligible) the camel. A man: What?! A woman: (unintelligible) Dr. Khalifa: That's what came out of their group.

36:19
Abdullah: They're very sick. You're right. Dr. Khalifa: Is this what I said?

36:24
I said "where did you get that?" They said "the word did not mean..."

36:29
They wanted a specific word that means slaughtering. And actually, the word is specific enough, but it is not a common word.

36:39
So, this is one of the examples that "Conspiracy is from the devil."

36:44
And they actually came back and they argued with me. They said "why do you translate it as they slaughtered the camel?"

36:51
So, we really are living the Quran. "Conspiracy is from the devil." Obviously, the devil gave them that idea.

36:59
A man: Also, the people were reading from the... They were translating from the Arabic to English. They were not using this?

37:10
Dr. Khalifa: I think they used both. They used Arabic and English. They had some other translations. A man: And they were using it all together?

37:17
Dr. Khalifa: Yes, they have. Actually, you must be a fool to have that idea.

37:25
Martha, you know Arabic. The word is **فَعَقَرُوا** عَقَرُوا And the word is **عَقَرُوا**

37:31
This is "slaughtering the camel." So, the word in the Quran,

37:36
what they did, the camel was slaughtered. So, they said **عَقَرُوا** means

37:42
They're having sex with the camel. They're not killing it.

37:48
Perverts.

37:53
"Conspiracy is from the devil." You know, this is what happens if we separate ourselves from the believers. The world forgets us.

38:05
Dr. Khalifa: Ok, back to Robert. Robert: Ok. Dr. Khalifa: We should remember this. Robert: [58:10] Conspiracy is from the devil, though he cannot harm them against the will of GOD. In GOD the believers shall trust.

38:17
That's right there. Quite an impressive sentence. [58:10]In GOD the believers shall trust.

38:24
That right there should put everybody's mind at ease. When you're worried about things of any matter,

38:33
whether it be daily life to anything.

38:41
[58:11] O you who believe, make room for those who sit. Then, GOD will make room for you....

38:49
Now to me, this verse... What I thought of it as... As being righteous when someone...

38:55
make room for somebody else to sit down. You're... I'm sure we (unintelligible) let somebody else sit down.

39:00
And that God will make room for you in Heaven. This applied to...

39:07
Could be from my background or something. That where...

39:13
Clothe the needy, feed the hungry. This type of... That's what came to my mind when I read this verse.

39:20
I don't know if that's... If that's along the same lines. But that's how I applied it.

39:26
Especially the part that "God may make room for you." I thought, I thought that was in terms of... Dr. Khalifa: Actually, it's happened now, literally in this room.

39:33
Behrouz, did you find a place to sit down? Did you ask somebody to move?

39:40
Did you have to ask somebody to move? Behrouz: No. Dr. Khalifa: Ok. Dr. Khalifa: But it's possible he comes in and finds that there's nobody... There's no room. And He asks somebody to make room for him.

39:52
You can take it literal or that it covers issues. A man: Also, think of it as be considerate.

39:58
Dr. Khalifa: Exactly. A man: Be kind to others. Dr. Khalifa: Exactly. Dr. Khalifa: Be considerate to others. It's a general principle.

40:05
Otherwise, if you're nice to the people, do unto others like... Robert: As you would have... Right. Dr. Khalifa: God will be kind to you, like He is kind to others.

40:13
Robert: Okay. Dr. Khalifa: If you all come and say "please, move..." (unintelligible) Just make it considerate.

40:22
Robert: [58:11] ...GOD raises those among you who believe, and those who attain knowledge to higher ranks...

40:28
Okay. There again, God raises those among you. In other words, God guides those among... God guides the believers and the people who attain knowledge, He brings them to higher ranks.

40:38
A man: (unintelligible) A man: But why (unintelligible) that they have a high level of righteousness.

40:49
[58:11] ... GOD is fully Cognizant of everything you do. There again, when you see that at the end of the verse, then you can apply some of the other things in terms of...

40:58
He's fully Cognizant of all your actions in terms of... That's why every little thing as to letting a person sit down and being righteous in that manner

41:08
is only seen as a benefit to you.

41:13
It's seen as a plus. Or as a credit, as we always say.

41:19
[58:12] O you who believe, if you wish to confer with the messenger, you shall give away a charity before you confer with him...

41:24
Okay, I saw this as being another means for... another situation where God allows us to give to charity.

41:32
Just another situation where He says "if you have the money, before you confer with the messenger, give to charity."

41:38
That's another situation where God is allowing us to, to grow, essentially. That's how I looked at it.

41:43
Because underneath that, He says "if you don't have the money, God is Forgiver, Merciful.

41:49
So, that's... I looked at that as the situation where human beings tend to be greedy.

41:56
And this is a way for us to give. Dr. Khalifa: Exactly. An excuse. Robert: Right.

42:04
Robert: Ok. [58:13] If you have failed to give to charity before your conference, repent thereafter,... You shall observe the Salat Prayers, and Zakat charity, and obey GOD and His messenger. GOD is Cognizant of everything you do.

42:18
This is again, just reflect upon your actions and repent.

42:27
[58:14] There are those who lie themselves with people who have angered God. They neither belong with you nor with them, and they deliberately swear lies!

42:35
Ok. This is a very important verse in terms of allying yourself with people who are believers

42:44
like yourself so that you may also, so they will help you, I guess you would say, to grow yourselves.

42:52
When you're around people who, as it says here, "angered God" or are disbelievers, their actions tend to be...

43:03
Again, I'm not judging their actions. Some things that are said or done, you can look upon them in a non-righteous light, which

43:14
doesn't further your progress along the lines of, along the right path.

43:20
If you wanna keep yourself on the right path, the best way to do that is to align yourself with believers, or surround yourself with believers.

43:27
[58:15] GOD has prepared for them a severe retribution. Evil indeed is what they did.

43:33

Okay, this obviously refers to the angering of God in the above verse.

43:41

Robert: Is there something, is that... what... Dr. Khalifa: Yes. Robert: Is there a specific thing that this applies to in terms of how these people angered God, or "evil indeed is what they did"?

43:54

Dr. Khalifa: Yeah, they allied themselves with the enemies of God. Actually, we have examples of these.

44:03

People who would, for example, ally themselves. I'm talking about somebody who goes to the Islamic Center.

44:14

In the Islamic Center, they (unintelligible) with worshippers. They don't devote their Prayer to God alone.

44:21

And you know that they anger God when they do this. They will not accept "La Elaha Ella Allah." If you go there and tell them "La Elaha Ella Allah", they call you "KAFIR."

44:31

A man: This doesn't make sense. (unintelligible)

44:37

Dr. Khalifa: (unintelligible) They're criticizing me for saying that Salman Rushdie should have the freedom of expression,

44:46

And in that letter they say "we agree, we admire, or we applaud the Catholic Church

44:55

"for making a stand against Salman Rushdie." So, this is the Islamic Center attacking me, and applauding the Catholic Church.

Talk of Catholic Church and their supporters.

45:06

Ok. Now, I say "La Elaha Ella Allah." The Catholic Church says "Praise Mary, Mother of God."

45:15

So, it is not an issue of worshipping God, it's politics or something. How can they applaud the Catholic Church for anything?

45:23

Of course, the Catholic Church itself practices the same thing that Khomeini practices. They don't like people to write about their Shroud of Turin and all the nonsense that they have.

45:34

And they have heavy censorship. They excommunicate people right and left because of their opinions.

45:42

Dr. Khalifa: So, they are (unintelligible). A woman: (unintelligible)

45:50

Dr. Khalifa: Right. We had... A woman: ...which was exactly the same thing. A woman: It's nice that they're right here, one right after the other.

Dr. Khalifa: Exactly.

45:56

A woman: So, you just see how against them both groups are. Dr. Khalifa: You can see how will God look at people like this for applauding people who are saying "Praise Mary, Mother of God."

46:17

and condemning somebody who says "La Elaha Ella Allah. Worship God alone."

46:22

So, anybody who allies himself with those people, God is angry with them.

46:29

This is verse 15. [58:15] GOD has prepared for them severe retribution. Evil indeed is what they did.

46:34

Robert: They're saying that there are those who ally themselves with people who have angered God.

46:41

Ok. A woman: (unintelligible)

46:47

Dr. Khalifa: Yeah. "Hail Mary, Mother of God. The Lord is with thee." A woman: (unintelligible)

46:55

Robert: "Blessed are thou." A woman: (unintelligible)

47:03

and there's the (unintelligible)

47:22

Dr. Khalifa: No, it doesn't make sense. Mary is dead. Jesus is dead. How can you bless the womb when the woman is dead?

47:28

A woman: (unintelligible)

47:34

Dr. Khalifa: Why do you (unintelligible) to him? (unintelligible) is dead.

47:40

She's great. I mean, she's in God's grace. I'm the one who needs the submission. She made it.

47:46

A woman: (unintelligible) Dr. Khalifa: Why?

48:00

Dr. Khalifa: She's dead. A woman: (unintelligible) Dr. Khalifa: She's dead.

48:05

A woman: Yeah, I know she's dead. Dr. Khalifa: Right. A woman: (unintelligible) Dr. Khalifa: (unintelligible) A woman: (unintelligible)

48:13

Dr. Khalifa: Ok. Let me put it this way. Instead of saying "Subhan Allah. God be glorified. God be praised," because God is alive.

48:19
(unintelligible). He's the One that we worship. You don't need to mention Mary or Muhammad or Jesus or anybody.

48:26
That's the point. A woman: (unintelligible)

48:36
Dr. Khalifa: (unintelligible). We need it. I need it. Robert: Yeah. Robert: Want me to, want me to just read these last verses? Dr. Khalifa: (unintelligible) God's blessings with guidance.

48:45
Robert: and then we can get on with the other discussion. A woman: (unintelligible) and I don't know Arabic but

48:51
the fact is, the fact is that Muhammad is only a messenger. There's nothing wrong with that. A woman: You said, you said "You shouldn't say it in conjunction with God." Dr. Khalifa: with God.

49:01
A woman: because then you should mention every prophet, every messenger. We don't even know them.

49:07
Dr. Khalifa: Because God... there's a commandment that says "Do not make distinction among God's messengers." A man: Excuse me. Can we let Robert finish these?

49:13
Robert: I just... Should I just read this last verse? Because you wanted to discuss the other... Dr. Khalifa: Yes. Robert: Yeah. And then...

49:22
A woman: (unintelligible) Dr. Khalifa: (unintelligible) Robert: Oh, that's all right. There's only one verse left. Dr. Khalifa: Go ahead. Robert: Ok.

49:28
Verse 22. Run For Your Life [58:22] You will not find people who believe in GOD and the Last Day befriending those who oppose GOD and His messenger, even if they were their own parents, or children, or siblings, or family.

49:40
God places faith into their hearts as He supports them with inspiration. He will admit them into the gardens with flowing streams where they abide forever. GOD is pleased with them, and they are pleased with Him. They are the party of GOD. And the party of God are winners.

49:55
This verse is incredibly strong. I think, just from looking at Mr. Khalifa's own situation.

50:05
This really truly proves, if you're a believer, if you can ally yourself with God, even when your family is an obstacle for you.

50:19
That's, that's truly showing that you're a believer. That is confirming to yourself when you can put God above all things, especially someone that's so close as your family.

50:31
And when those people feel that they are doing the right things themselves.

50:39
God is the one. As you go back "in God, the believers shall trust."

50:45
That says it all right there. And you have to put God above everything else, regardless of who it is.

50:53
And to do this is oftentimes very difficult. But if you truly believe, then you'll be in the party of God, who are winners. Follower talks of his experience and journey to Submission.

51:06
A man: Is there anything else? A man: No, this, this answers your question earlier on.

51:12
You asked about the people that oppose the messenger.

51:17
And here it is. The verse says [58:22] You will not find people who believe in GOD and the Last Day befriending those who oppose GOD and His messenger,...

51:30
Keikhosrow Emami: We have not, in any kind of a way, been forced to practice religion.

51:37
Rather, open-minded family, I'm proud of them.

51:43
But in my heart, I've been always searching. I told Dr. Khalifa, I was 16 years old when I felt like I wanna go to a masjid.

51:53
I did. The second time I went to the masjid, I was turned off.

51:59
Because it wasn't for me. Things that I heard, it was not simply logical.

52:07
Of course, I'm 46 now, but I've been growing up. I've gone through so much. You know, you all know how we go through the steps.

52:15
We get busy with other matters. We come and go.

52:20
But one thing never went away from me, it was my thirst for God.

52:31
And then later on, I got very, very interested in Quran. I don't know the reason, but I was just very interested.

52:42
It sounds a little off. A man comes from Tehran, Iran, and he finds God in the United States of America.

52:54

I call that destiny. It was in 1983, or perhaps, I believe it was 1983.

53:04

Somehow, some kind of a way, I came across with 1 and 9.

53:11

Makes it number 19. And I was fascinated. I was fascinated. That's why I went ahead and got a Quran and I was

53:19

going around and bragging about it. "Hey guys,..." actually, I was talking to a Jewish fellow one time,

53:25

Iranian guy, and I didn't know he was Jewish. And I was telling him "look, look, what do you want? I mean, this is it. This is it."

53:32

And he even didn't tell me he was Jewish. Dr. Khalifa: (unintelligible)

53:41

Dr. Khalifa: Go on. Dr. Khalifa: Go ahead. Keikhosrow Emami: So, But as I said, as it comes and it goes, the first wave didn't knock me out, but just warmed me up.

53:55

And, but again, I'm in transportation business. If you all ever come to Atlanta, you can ask who KE is. They call me KE.

54:04

I owned the second largest taxi fleet in town, but I sold it. Of course, and I'm happy. I still have much to be thankful.

54:14

If you ask them what his radio number is, they're gonna tell you "it's 19." I have a property very close to downtown. It is on Highway 19.

54:25

And IN SHAA ALLAH, I've got good plans. I'm not coming to Tucson to live in here, but my goodness, I envy you in a way.

54:32

My heart is with you. But I'll tell you one thing. You will come to the masjid in Atlanta, IN SHAA ALLAH.

54:42

It was a few months ago. Again, I don't know what happened. I was just, I wanted Quran again.

54:50

I mean, never gave it up, but this time I really wanted it. I mean, I wanted Quran.

54:56

So, I went through my papers. I found the address of Masjid Tucson again, wrote a letter, asked for a few books, and I got them.

55:09

But this time, it knocked me out.

55:16

It knocked me out. I talked to Dr. Khalifa many times, a few times on the phone, actually. And I told him, when I was telling him,

55:27

"I have no doubt. I never meant that I never doubted you." When I was saying, I said "I don't doubt. I have no doubt that Quran is indeed that communication which is direct."

55:40

I didn't know that he had made any announcement, actually, at the time. This came to me about 3 and a half, 3, max 4 weeks ago.

55:49

But let me say this to you. Without even the announcement, I was intelligent enough to see that, my goodness, there's got to be something.

56:05

Now, if you all sleep tonight, and tomorrow you see a flying saucer in here, in Tucson, Arizona,

56:11

and the crowds go around it, and there's no door, you can't figure it out. Then all of a sudden, somebody from the crowd steps forward, and he goes towards it, and does something, and the door opens,

56:23

and he gets in it, and he flies around, and maneuver around, and he lands it again,

56:29

don't you believe that somehow those who made the flying saucer taught him something?

56:38

He got some kind of a training from them? It is simply simple logic.

56:47

So, in the back of my mind, I was saying that, well, there's got to be something special. He's blessed. He's blessed.

56:54

So, it was February publication, Muslim Perspectives, when I got it, and it says "Give me only one reason."

57:08

Dr. Khalifa, that was the first time I looked at what you said. So, hey, I'm fresh.

57:16

And "only one reason. I've produced so many Quranic evidences, proofs.

57:24

"You just give me one simple reason", and not for a second, you know, backed off, didn't back off, even though I was expecting it.

57:32

But, I loved it. I loved it, and I loved him, too.

57:38

I just decided, I said "hey, Khosrow, don't overdo it. Don't love him too much."

57:44

Because I'll be just as, just as guilty, probably, I'll make another Jesus Christ, or Prophet Muhammad.

57:54

You see, you go through these things, and things do make sense. They asked Prophet Muhammad "bring a ladder, go up to the heaven, bring the whole book together, show it to us."

58:05
The miracles are performed, of course, but again, miracles come on in all different forms and fashions.

58:16
I am simply overwhelmed. I have a good friend of mine, Andy Mote, and we were talking with a couple of Sunni Muslims

58:26
and a couple of Shias, and the Sunnis asked, you know, they wanted to

58:33
at least eliminate some of the opposition to what they were saying. They said, well, he looks like blonde and American,

58:40
"Well, you must be Christian." He says "no, I'm hoping to become a Muslim."

58:47
So, I am a believer. I have no doubt.

58:53
As I said, two things I know. I don't expect him to perform miracles every second. I know he's a human.

59:00
I know he's gonna make mistakes. The rest of them did.

59:06
And I make sure that I control my emotions. I think I have overcome that. I will stay in Atlanta, and I think I have got my works cut up for me.

59:18
I think God has blessed me with a wonderful family.

59:23
I don't see I've got any weaknesses. I'm sure, but I think I'm okay, and I'm situated that I do good things.

59:33
I've got good plans. I am gonna be naturally communicating every step that I take with Dr. Khalifa and have his coaching and his approval.

59:48
And IN SHAA ALLAH, I'm looking forward to good things.

59:57
I feel God. An experience that I'd like to share with you, I've been always strong in my life.

1:00:05
My frame is not all that big, but even physically I've been strong.

1:00:14
I cannot be intimidated. I do my Prayer regularly. Yes, since when?

1:00:22
When I said "well, yes, he is indeed the messenger." So, even when I was gonna Pray, I said "no, I've got to get to the point. I wanna know how

1:00:32
"I should Pray exactly", because the Prayer that I used to do was a little different, not whole lot.

1:00:41
So, I waited until I got the tapes and everything. Since then, I have been Praying five times a day.

1:00:49
And truly, like he says, that this Contact Prayer, it is not good for... It's not for God.

1:00:58
It is simply, you establish that contact. It is the way you nourish your own self, you, your true self.

1:01:10
I feed me, like I feed my garments, like I exercise to keep my body trim.

1:01:15
So, therefore, I wanna exercise my mind and grow. I've been talking to my wife lately, and she says "Khosrow, you're beginning to sound like (unintelligible). I hope not."

1:01:29
It is what I feel. It is my love for my family.

1:01:36
One thing I've made clear that I love him so much, but definitely, for sure, God is number one.

1:01:47
The experience I had, like Dr. Khalifa said "there's a giant next to you protecting you."

1:01:53
Anybody doubts that? Anybody is doubting that?

1:02:02
I go to the Masjid on 14th Street and do my Prayer. And since the time I Prayed...

26 Quran Study From Behrouz 1626 Sura 67 By Gatut Hamid Argues With Rashad

Gatut: (We seek) refuge in God from the rejected devil. Bism Allah Arrahman Arraheem In the name of God, Most Gracious, Most Merciful.

0:07
We are in Sura 67, Kingship (Al-Mulk).

0:15
[67:1] Most exalted is the One in whose hands is all kingship, and He is Omnipotent.

0:23
Well, I have to stop here. The verse says very clearly that in God is all the Kingship.

0:33
So, Kingship means that He is the sole and the only authority in this whole universe.

0:41

And He is also Omnipotent according to this verse. We also learn from the Quran that God grants Kingship to whomever He wills, and He grants it to the believers.

0:53

In other words, we know that people who worship God alone and follow God's commandment alone,

1:03

God promised them that they will be sovereign, or, kings or queens on earth.

1:09

In other words, they have everything that they need.

1:14

Everything that they need will be in their fingertips without, you know, the headache of a celebrity

1:20

that we know, you know, needs bodyguards, protection from FBI, or you cannot go to Burger King

1:30

to eat if you want because that's the headache of being a celebrity. You have a prison on your own, but God's servants, the believers, have all this and can still

1:41

enjoy this, and they have anything that they want. And I think that's the biggest, you know,

1:46

even the richest person in the world cannot do that because they will go everywhere and everybody

1:53

or some people or some news reporter will follow them. You know, Sam Donaldson will follow them

1:59

and ask questions and all that. So, the believers don't have that kind of headache.

2:06

The same goes with the, you know, financial problems.

2:11

They don't need 10 million dollars, but they have everything that they need. They get good transportation. They get anything that they need, good clothings, without being, you know,

2:24

without worrying that the IRS will get into their pocket or something. Gatut: So,... Dr. Khalifa: All the food they can eat.

2:30

Gatut: All the food that they can eat. That's right. Which is what we have today. Alhamdu Lillah.

2:36

So, God grants kingship to whomever He wills, and according to the Quran, that is the believers.

2:43

Verse 2, The Purpose of Our Life. [67:2] The One who created death and life for the purpose of distinguishing those among you who would do better.* He is the Almighty, the Forgiving.

2:58

God created death and life to distinguish the human beings who are the real believers

3:06

and who are the wishy-washy ones. We all know that the purpose behind creating us here in this life and the whole universe is

3:18

because billions of years ago, we doubted God's Supreme Authority.

3:25

In other words, there is one guy who said "well, I can be a god besides God." And we, all the human beings, this is before the creation of the heavens and the earth and,

3:35

you know, our stay here, we don't show our firm stand for God.

3:41

In other words, we said "well, this guy who was Satan, he may have a point."

3:47

In other words, "let's give him a try. Let's test him." So, we didn't have a firm stand as opposed to the angels, for instance, who said that

3:55

"there is no way that anybody except God can rule the universe." So, God gave us the second chance to redeem ourselves and this is because of His Mercifulness.

Dr. Rashad Khalifa talks of the "flawless" creation of the Universe.

4:07

God doesn't need to prove anything. He already knew. He knows what's gonna happen.

4:14

There's no future for Him because as far as He is concerned, everything is past. Everything has taken place.

4:20

Only He knew it. But we need to affirm to ourselves, in other words, on the Day of Judgment,

4:27

everybody will see with their own eyes that this is what they do, that they do not really believe or they are a real believer.

4:36

So, it is the human beings who need the affirmations. So, there'll be no excuses on the Day of Judgment.

4:46

And verse says that "He is Almighty, the Forgiving." He is Forgiving because even though we committed the blasphemy, we committed the crime

4:55

that makes us, you know, here in this life right now, He didn't send us outright to Hell, but He gave us a second chance.

5:05
The angels said, of course, at the time when we were created "why don't You just send them all to Hell?"

5:12
God says "I know what you do not know." Because God knows that some of the human beings will be redeemed.

5:20
And these are the believers. Number 3,

5:26
[67:3] He created seven universes in layers. You do not see any imperfection in the creation by the Most Gracious. Keep looking; do you see any flaw?

5:36
[67:4] Look again and again; your eyes will come back stumped and conquered.

5:43
[67:5] We adorned the lowest universe with lamps, and guarded its borders with projectiles against the devils; we prepared for them a retribution in Hell.

5:55
[67:6] For those who disbelieved in their Lord, the retribution of Gehenna. What a miserable destiny.

6:03
[67:7] When they get thrown therein, they hear its furor as it fumes. Number 8,

6:09
[67:8] It almost explodes from rage. Whenever a group is thrown therein, its guards would ask them, "Did you not receive a warner?"

6:18
[67:9] They would answer, "Yes indeed; a warner did come to us, but we disbelieved and said, 'GOD did not reveal anything. You are totally astray.'"

6:28
[67:10] They also say, "If we heard or understood, we would not be among the dwellers of Hell!"

6:33
[67:11] Thus, they confessed their sins. Woe to the dwellers of Hell.

6:43
Verse number 3, we learn from here that our universe is not the only universe that God created.

6:50
The scientists, the astronomers, are still trying to determine, you know, the limit or the borders of the universe where we live in.

6:59
And according to God, and this will be proven, IN SHAA ALLAH, in the near future, that

7:07
this universe is only one of the seven universes that God created. Dr. Khalifa: (unintelligible)

7:26
Gatut: Our universe... Dr. Khalifa: (unintelligible) Dr. Khalifa: Go ahead.

7:32
Gatut: Our universe we live in, we live in the, a little dot called the planet Earth, which is located in the solar system.

7:45
We have our own star, which is the sun. And our star is one of the hundreds of thousands of stars in our galaxy, which is the Milky Way galaxy.

7:56
And our Milky Way galaxy is one of the billions of galaxies in the universe that, you know, they stopped counting

8:04
because they couldn't get the total number. But the universe that we live in, which according to rough calculation is probably about 26

8:17
billion light years across, is only the smallest universe. That means that it takes 26 billion years for light to travel.

8:27
Billions with a B. So, that's how awesome is the innermost universe.

8:32
And there are six other universes around the innermost universe. And everything is, all the seven universes, according to the Quran, is in God's hand.

8:50
However, the innermost universe is also, according to verse number five, is actually the prison cell for Satan.

9:02
Because he cannot go beyond our universe. In Sura 72, verse 9, and also in Sura 15, verse 18, there's the same reference of, you know,

9:15
the guard of the universe that, you know, the jinns and Satan cannot go beyond because they will be pursued by projectiles.

9:27
But nobody can find any flaw in God's creation.

9:38
You know, we just look and lay down at a dark night when the moon is, you know, very young and look at the stars.

9:46
I used to do camping a long time ago when I was young. And I always, you know, lie down and look at the dark night and look at the stars.

9:53
And I'm always, you know, never ceased to be amazed how all these can become into being.

10:01
Our sun is just one of the dim stars in the universe, in our universe which is the Milky Way galaxy and

10:10
billions of galaxies like that. And yet, we cannot imagine how vast is the universe because until now there is no way

10:21
that we can even go to our closest neighboring star. And not to mention the neighboring galaxy.

10:30
Verse 4 says this perfectly, [67:4] Look again and again; your eyes will come back stumped and conquered. And that's, at least that's my impression when I look at the stars.

10:40
We also learn from verse 5 that the lowest universe, which is our universe, is adorned with lamps, which is stars.

10:48
This is... We know that lamp is the source of light. And we know that our sun is one of the stars.

10:57
So, what is implied here is probably that only our universe has stars.

11:02
So, we don't know how the outer universes, the second, the third universes look like.

11:17
We also learn from this Sura in verse 7, 8 and 9, how terrible is the condition in Hell.

11:28
We know that Hell is reserved only for those people who go out of their way to reject

11:35
or deny God's Greatness. And therefore, when people go there, people go there on their own volition because

11:49
despite of all these warnings that God sent through the messengers, through the scriptures, and through all the signs that God manifested to the people, they still insist on going

11:59
there. And therefore, it's like they already deserve what they get over there.

12:04
But God explains here how terrible is the condition in hell.

12:10
It is like, Hell has its own personality. I mean, Hell has its own, Hell can be so angry towards the disbelievers because when the disbelievers were sent there

12:19
group by group, Hell can even, you know, sort of talk back to them. "Suffer. What do you do? Why did you...?"

12:26
"Can I have more?" In some other verses in the Quran Hell says "can I have more of these people?" You know, because...

12:32
It's like, you know, a very, very savage beast. But Hell is simply the absence of God.

12:38
In other words, these people cannot stand to become close to God because they did not develop

12:44
their soul enough in this life. And therefore on the Day of Judgment, they have to run away from God.

12:50
They couldn't stand the presence of God. And that absence of God is really actually Hell.

12:55
Because in some of the verses in the Quran, we learn that Hell is also described by darkness, by hopelessness,

13:03
also fire where people are roasted there and never die. So, there is no excuse for the disbelievers when they go there because they have been warned here

13:12
as, with, you know, as best allegory as human language can find.

13:19
As a matter of fact, in verse 9, we know that disbelievers will, what is the word, they will accept the blame. This...

13:32
[67:9] "Yes indeed; we had a warner, but we disbelieved and said, 'GOD did not reveal anything. You are totally astray.'"

13:39
And this is exactly what majority of the people will say when one quotes, you know, from the scripture, you know,

13:46
one is conveying the word of God, they say "we don't believe you. You are far off. You are strange."

13:53
So, that's what they say in this life and in the Hereafter, they will admit that.

13:59
And they also said in verse 10 "if we heard or understood, we would not be among the dwellers of Hell."

14:04
Thus in verse 11, they actually confess their sins.

14:11
I think, if there's any questions or comments or anything, give it at the forum.

14:37
Gatut: Any comments or...? Dr. Khalifa: Any questions? Wait. As usual, I have a comment on (unintelligible) in the heaven or the sky.

14:48
We have here this list of Prayers, schedule for Prayers, an eternal schedule.

14:56
It is correct forever. You can see in the whole year, the sunrise and sunset, by the minute.

15:05

You could have extended it to the second and it would be exactly accurate. You look here at January 1st, the sunrise at a certain time, the sun will rise exactly at that time.

15:15

The sunset at that time, it will exactly be at that time. So, there is no flaw in God's system.

15:21

We know exactly when Halley's Comet is gonna come back. It comes every 76 years.

15:29

And sure enough, right on time, there it is coming, at that point in time. Even though Halley's Comet in an aberration. It looks like an aberration, though it's not. It is not

15:41

So, this is why God says in 4, [67:4] Look again and again; your eyes will come back stumped and conquered.

15:46

You are looking for a flaw. You will not find one. And we have a shared demonstration as to how the moon, we see only one side of the moon,

15:59

even though it is rotating around itself and around the earth, but this movement is synchronized

16:04

so precisely that if it is off by a fraction of a second, we would see the other side of the moon.

16:11

We look at poetry describing the moon that is thousands of years old, and they have been looking at the same side of the moon.

16:21

So, I just wanted to emphasize that because we have a demonstration right here. The flawless nature of God's creation.

16:29

So, these words of the Quran are flawless as well.

16:39

Back to Gatut. Gatut: Verse 12.

16:45

[67:12] As for those who reverence their Lord, when alone in their privacy, they have attained forgiveness and a great recompense.

16:55

Before we go to that page, I'll just comment here that it's very important that the belief has to be Fasting is a private form of worship. Anonymous Charity "believing in God privately".

17:02

also subjected to the test of whether we are believing because of the crowd or whether we are believing because of our own conviction.

17:10

And majority of the people, if they say they believe, that is because usually this is the norm in the society.

17:17

In other words, if the norm in the society is that the people believe in God, if they don't believe in God, they say openly "I don't believe in God", then they're kind of like sore fingers sticking out.

17:30

So, they don't want to be in that position. They go along with the crowd even though, in their heart, they don't really believe.

17:36

And this is why the words "when alone in their privacy" is very important in my opinion because

17:44

even when the believer is by himself or by herself, he still observes God.

17:50

I mean, there's no difference whether he or she is in the group or by himself or herself.

17:56

Dr. Khalifa: So, fasting is a good example of that because fasting is a strictly private (unintelligible). Gatut: Exactly.

18:01

You only... You have to be a believer in God, because you can drink or eat anywhere,

18:09

where nobody can see you, no human beings can see you, only God sees you. So, this is a good example.

18:15

Gatut: That reminds me of a story from some sister who said, when the husband is not there, you say "well,

18:23

you can eat, you can drink, the husband is not here", you know. But, you know, people who said that, seriously, they did not realize how deep, it's not just simply

18:34

something out of skin, it is something that the believer has the conviction in their heart. So,

18:40

it's not because of the husband or the wife or the parents or, you know, in-laws that we fast or that we observe God, that's because of our convictions.

18:48

Dr. Khalifa: And when a need arises here in this community, the charity fund in the drawer.

18:55

The people are putting money there and they put this envelope and they write the name of the person that it goes to. And it's anonymous.

19:03

I try very hard to read the handwriting, but there is no way.

19:08

I have failed 100% of the time. But the person who's putting money in there anonymously, who sees this person?

19:15

There's a good number of believers here who believe in God in privacy, because what is the credit they are getting?

19:23
They know they're getting the credit from God. And we know that God writes in other verses in the Quran that if you give to charity publicly, it is good, but if you give it secretly, it's even better and remits more of your sins.

19:36
And obviously the people who are doing this, they know that this is the truth, they know that God will give them the credit.

19:42
There is no reason in the world for them to put money there, anonymously, except for knowing that God will give them... they get the credit from God.

19:52
So, this is a perfect example of this verse here, 12.

19:57
Mā Shā Allāh.

20:04
Gatut: [67:13] Whether you keep your utterances secret, or declare them, He is fully aware of the innermost thoughts.

20:14
[67:14] Should He not know what He created? He is the Sublime, Most Cognizant.

20:21
This is sort of a rhetorical question. God who created the heavens and the earth and everything in them. Of course, He knows what, you know, what,

20:33
everything that He created. He's fully aware of all the creation that He made.

20:39
I mean, in the Quran, there is even a verse that says "not a single leaf falls without Him being knowing all that." So,

20:50
if we know, if we can count, if it is possible to count how many trees are there in the world and if it is possible to count how many leaves in every tree, which is impossible for any human being,

21:01
but God knows every single leaf that falls. That is how far, we cannot imagine how great is God.

21:11
So, we cannot even hide anything from God. You know, the children are usually very very, still very innocent.

21:18
And they used to be, you know, talk to them about, you know, God and...

21:24
The best way would be, in my experience, they can lie to you, but we told them that you cannot lie to God.

21:30
You can lie to your parents, you can lie, but God will always know. So, in the end, they are the ones who keep saying this all the time.

21:39
God always knows whether we declare anything or we keep it secret.

21:46
15. [67:15] He is the One who put the Earth at your service. Roam its corners, and eat from His provisions. To Him is the final summoning.

21:56
I just read the new translation of the Quran and one of the footnotes, in one of the footnotes, Rashad put

22:07
the analogy of this earth as a spaceship. So, when NASA launches any spaceship, you know, spaceship with two or three people aboard, they have to calculate

22:19
exactly how many they're gonna be there, so how much food, how much oxygen, how much water they need.

22:24
Yet these people are celebrities. These people came back from, you know, from space for a week or two months or whatever,

22:31
and they came back as celebrities and everybody knew them. You know, they are in the newspaper and everything.

22:36
Yet God sent us in this spaceship earth, and we are the ones who originally committed sin and, you know,

22:45
blasphemed against God because we were not sure of God's greatness. Yet God gave us this beautiful

22:52
spaceship earth with all kinds of provision, not only just food and drink, but also with fuels and all kinds of lakes, mountains, coasts, beaches and all that.

23:05
And this is because God is the Most Gracious. He's trying to give us a second chance and

23:12
we have to, you know, we have to...and we know from the scripture, from the Quran, that most people will fail to take the second chance.

23:19
But yet God gave that in advance and see whether, you know, whether we can appreciate that.

23:24
Sura... verse 15 says "the earth is put for our service." Everything in this earth is actually put for our service.

23:31
The animals, the metals, the minerals, the fuel that we can get, anything that we have in this earth is actually created by God for our service.

23:43
Yet actually we are sinners in the beginning to start with.

23:50

So, this comparison makes me wonder if a little bit of room in the universe, I mean in the space

24:00

where these astronauts can climb through and make some celebrities, what about us?

24:05

God gives us all this for free and we actually are not even celebrities. We are, you know,...

24:10

Dr. Khalifa: We don't have to wear space suits here. Gatut: Exactly. Dr. Khalifa: We can take a shower in space, too.

24:25

Gatut: Number sixteen, [67:16] Have you guaranteed that the One in heaven will not strike the earth and cause it to tumble?

24:30

[67:17] Have you guaranteed that the One in heaven will not send upon you a violent storm? Will you then appreciate the value of My warning?

24:39

[67:18] Others before them have disbelieved; how terrible was My requital!

24:48

We know that the earth is such an insignificant mote in God's universe and everything else that is

25:00

in the universe that God created actually fits the palm of God.

25:06

Everything, according to God, is in God's hands. So, when a human being looks at a mountain, it's a huge mountain, and they say "this is...

25:14

"there is no way that anybody can move this." But God says here that nobody can guarantee that nothing will happen to the earth.

25:25

It's very easy for God, if He wills, to strike the earth, wipe out all the disbelievers,

25:32

"cause it to tumble" according to this verse.

25:39

[67:17] Have you guaranteed that the One in heaven will not send upon you a violent storm? ... This is 17.

25:44

Until now, the weather prediction or weather forecast is still an art.

25:50

I met one guy who is finishing his PhD in this atmospheric science in the university,

25:57

and even he considers that weather forecast is still an art.

26:02

With all the supercomputers that they have, actually weather service is probably one of the biggest agencies that uses supercomputers.

26:08

They still cannot predict whether it's gonna be rain today or tomorrow in a localized area.

26:13

Not to mention the global weather pattern. It's still a very difficult subject to deal with.

26:21

And nobody can guarantee whether this place will get rain with certainty. They cannot, you know, we just...

26:29

All we need to do is just watch TV and see the weather forecast and how often they make mistakes.

26:36

So, God can very easily send a violent storm if He wants to.

26:41

If He decides that somebody needs to be shaken up in this area, then God sends a storm there.

26:47

Also, the storm actually will fertilize the soil. But all these are warnings, and we should be able to appreciate that.

26:57

And we learn from history, and the best history is actually the Quran. Because one of the chapters in the Quran is called history.

27:03

And God says in the Quran that the most important lesson in history, when we study or anybody studies history, is

27:11

that we know why these things are happening and how to avoid them. Now, we're...

27:16

We know consistently that anybody or any group or any society who oppose God and His messenger,

27:21

eventually will be wiped out and eventually will be defeated.

27:27

So, we know that this happens to the groups of people that came before us.

27:32

And all are recorded in this word of God that is, not only we know that it's truth, but we have the proof for it, which is the mathematical composition of it.

27:43

[67:19] Have they not seen the birds above them lined up in columns and spreading their wings? The Most Gracious is the One who holds them in the air. He is Seer of all things.

27:57

Here God is talking about the law of aerodynamics. We learn from the Khutba today, which is actually one of the, for those who missed the Khutba today,

28:10
the video program that will be shown starting tomorrow or next week, everywhere is

28:17
is a very good example of how a 20th century or 21st century human being can appreciate

28:26
the facts that have been expounded in a book written 1400 years ago.

28:33
All this detail about everything that only 50 to 100 years ago, some human beings started to learn

28:40
has been in the Quran for 1400 years. And here we know that, first of all, the birds fly because God decided

28:51
them to fly using the shape of the wings and the body. And this kind of shape and principle a human being start to learn and then

28:59
they copy it and they make aeroplanes, they make helicopters with the same principle. In other words, how this 100 tons 747, for instance, can take off into the air.

29:10
Simply because the shape of the wing is such that when you move the object, there will be less

29:17
density of the air on top of the wing than below the wing. So, the whole thing will be lifted.

29:22
So, that's the same design that God has made for the birds' wing. This is the principle of aerodynamics that is not considered well known, but yet all this has been around for millions of years.

29:40
[67:19] Have they not seen the birds above them lined up in columns and spreading their wings? ... We know that the formation the birds fly, again this is also a principle from aerodynamics.

29:50
The birds, God teaches the birds to fly in a certain pattern because certain pattern will be the most efficient to reduce the drag.

29:58
We know that the drag is the biggest challenge for anything that moves in the air. And this kind of formation is now actually being copied by, for instance, if you see Thunderbirds

30:09
F-16 from the Air Force. They always fly in a certain pattern because that pattern will reduce the drag that

30:17
each particular plane will experience. Most of us probably know this principle when we drive in the interstate.

30:26
If you drive 70 miles per hour and there's 18 wheelers 70 miles per hour in front of us, we tend to follow them. Because

30:35
we're basically having a reduced drag by following them and we can consume... we can conserve more fuel by driving that way.

30:43
So, that's also a principle of aerodynamics and it's also mentioned in the Quran here.

30:51
Number 20. [67:20] Where are those soldiers who can help you against the Most Gracious? Indeed, the disbelievers are deceived. Follower Argues with Dr. Rashad Khalifa. Arguing with Common sense against the Quran.

31:00
[67:21] Who is there to provide for you, if He withholds His provisions? Indeed, they have...

31:07
Hamid: God is here fully aware. Dr. Khalifa: This was a battle in war and the believers put on the front.

31:16
They went in there and they were fighting as if they were fighting. But God was doing everything.

31:22
Now read 57:22. 57:22 Hamid: Can I comment on this one?

31:28
Dr. Khalifa: Sure. Hamid: It's very easy to become arrogant. This is a symbolic book and it's telling to the, to the... (unintelligible).

31:41
Dr. Khalifa: In this book, this is what God says. God doesn't say that. Hamid: I agree with you but you don't let me just to... Dr. Khalifa: You're making a statement that contradicts what God said. Hamid: Didn't you make a statement?

31:50
Dr. Khalifa: You said "God... this is a symbolic book." It's not a symbolic book. God said "this is a perfect book." Hamid: Rashad, let me...

31:55
Hamid: It's a warning to humans. We are very complicated beings. Hamid: If you make that big decision, the rest will be easy.

32:04
Dr. Khalifa: That's right. Hamid: It's not. Dr. Khalifa: So, why don't you say what the Quran says? Hamid: It is not. Dr. Khalifa: So, you don't believe God then? Dr. Khalifa: You don't believe what God is saying. Hamid: I do believe God. Please don't put that things on me.

32:12
Hamid: I believe in God. Dr. Khalifa: Well, you're saying things that God doesn't say. Hamid: Every time I come to (unintelligible), you say "then you don't believe." What... Dr. Khalifa: You don't believe God. God is saying in 65. Hamid: I do believe, sir.

32:20
Hamid: I'm telling you I do believe. I'm not lying to you. Dr. Khalifa: You believe Sura 65. Dr. Khalifa: that says if you believe in God, He makes things easy for you?

32:26

Dr. Khalifa: You believe that? Hamid: Of course, He does. I do it. Hamid: I do things easy for me. I do things miserable for me. I have a capability.

32:32

I have a device. Hamid: I have a last testament. Dr. Khalifa: You made a statement now that things will not go easy for you.

32:38

Hamid: Of course, I can make things miserable for myself. Hamid: I have an ability. You are denying everything from me.

32:45

Hamid: And I'm telling you I am able... Dr. Khalifa: Well, that's arrogance. This is what arrogance is. Hamid: No, no, no, no. That is not arrogance. That's ignorance. I'm not ignorant. Dr. Khalifa: Yes. You cannot do anything to yourself.

32:53

Hamid: I'm telling you I can be... Hamid: See, you are very smart, very intelligent, more power to you. Hamid: But don't tell me... Well, if you say...

33:02

Hamid: If you make that big decision between Satan and God, the rest of it is easy. Dr. Khalifa: This is what God is saying. This is what God is saying, not me.

33:08

Hamid: I'm telling you the belief is a revolving door. Dr. Khalifa: Do you believe God or not? Dr. Khalifa: Do you believe God? Ok. Hamid: It's a revolving door. Dr. Khalifa: Do you believe God or not? Hamid: Yes, I do.

33:14

Dr. Khalifa: If you believe God, then you are wrong. Because God says if you make the decision to be with God, things will be easy for you.

33:20

And the rest will follow. Hamid: You know why? You know why? Dr. Khalifa: I can show it to you in the Bible. I can show it to you in the Quran. Hamid: Because as a concept, it's true.

33:27

Hamid: The concept is true. Dr. Khalifa: Ok. Hamid: God is Almighty. Dr. Khalifa: Yes. Hamid: As I was, as I was telling these gentleman, and this, Dr. Khalifa: Ok. Now, we're talking.

33:35

Hamid: When you...when... Let's take it one enterprise as an example.

33:40

Hamid: Let's take one enterprise. You go to one big company and you are hired. Under circumstances, under particular circumstances, you are qualified for that job.

33:50

But if you don't fulfill that expectation, which I put it to you at the first, at the beginning,

33:57

you are fired, you are failed, and they very graciously will tell you "go somewhere else."

34:06

This is what we know what is expected from us. God is not going to interfere. It's not fair.

34:13

He is not gonna interfere. If I pull a gun on you and say "I'm gonna kill you", He's not gonna interfere in that.

34:19

Hamid: If otherwise you pull a gun on me, He is not going to interfere. Dr. Khalifa: You're wrong. You're wrong. (unintelligible) What Mahmoud says? Mahmoud.

34:26

Mahmoud: Well, at least this argument is something that in the last (unintelligible).

34:34

But one thing that I wanna ask you is, one thing that you refer to, and that's the fact that

34:42

we know a lot of things about the Quran, about Islam, from hearing them, not

34:50

referencing them directly to the Quran. What I'd like you to say is, whatever you're saying is the belief, to back it up with the Quranic verses.

35:01

Because we are, as you said, we are talking to someone who is intelligent, who is smart, and he knows Quran.

35:08

So, if you wanna argue, or you wanna prove your point, at least I as a listener here,

35:14

I wanna see your support, your reference. If you say it on the basis of the things that you have heard, and you believe it,

35:24

without any reference to the Quran, then I have a hard time to believe it, to understand what you say or accept it, as a third party listening to both of you.

35:34

No matter whether I believe what he's saying, or what you say is true. If you wanna make the argument, and let it stay, at least make things clear for me,

35:43

or for other people who are sitting here, and things are not clear. I expect you...

35:49

Hamid: to back it up? Mahmoud: back it up with verses. Hamid: I'm sorry, I can't do it. Hamid: I cannot even get close to his knowledge, his Quranic knowledge.

35:56

But I am talking from common sense. Dr. Khalifa: No, no. (unintelligible) Mahmoud: That's... that is why

36:03

Mahmoud: One more minute Mahmoud: That is why I found out when I came in here. A lot of things that I thought was common sense,

36:09
because I'm someone who do science, I always tried to refer everything to some

36:14
very strong reference, and this is the Word of God. So, if you believe in that, then we may have the common ground that this is the Word of God.

36:23
I do believe in God, as everybody else does, but the difference is interpretation. And we have, as I've been and I do, a lot of bad things in the system, a lot of things that are hearsay,

36:35
a lot of things that we have learned has gone to our system, and a lot of intellectual and radical interpretations, which is fine as social and economic issues.

36:46
That's fine, but if I can't back it up with Quranic verses then I'm not gonna get in my heart. At least...

36:54
Dr. Khalifa: The other side of the coin is, if I cannot back it up, and I see something in the Quran, I have to submit to it.

37:00
You see, we're assuming that all these people here believe that the Quran is the truth. Once I show you something in the Quran, I expect you to say "this is what God says, I accept it."

37:10
So, if you read Sura 65, verses 3, 4, and 5, and 6, it tells you that if you believe in God, things will be easy for you.

37:18
God will provide for you whence you never expect. If you read the Bible, it will tell you "seek God's Kingship over you, and everything else follows."

37:27
And there are many, many verses I can show you in the Quran, but if you follow common sense and logic, it doesn't work.

37:34
Robert? Robert: We discuss this, because, like you said, it's hard, especially, I don't know, the way I grew up,

37:42
you learn, you always think you take responsibility for yourself and all these things,

37:47
but in terms of, you're talking about the one big decision, I had a problem with that, because I saw one big decision. Well,

37:54
how do you know when you make one big decision, that you choose this or that? Because lots of times,

37:59
you know, you say, "okay, yes, I believe in God", but a second later, you're doing something that is contrary to, you know, Quranic law, or something of that nature.

38:12
When you make a big decision, you're creating a covenant with God, and you have to uphold,

38:19
you know, when you choose God, you're choosing, you're not just saying "well, okay, I choose God, everything else is gonna follow, because God is gonna control it, so then I don't have to get up and pray, I don't have to do nothing, because, you know, I choose God."

38:31
Robert: But when you choose God, you're choosing to be righteous. Hamid: Consequences. Hamid: There is a consequence. Robert: It's a system. You're creating a covenant with God.

38:37
Robert: And all these things that the Quran says for you is to prove to yourself that God is controlling,

38:44
controlling everything, that you're on the path to God, like praying and all these things. These are things for us to prove to ourselves that we have made the right decision.

38:53
And that... Because God controls the people who choose to go the other direction, too.

38:59
He says "if you choose to go on Satan's path", He pushes you that way. He controls everything.

39:04
So, all these things, like studying, for example, which is totally irrelevant, well, God will provide for us to do certain things. He controls all matters.

39:16
And like what Gatut was saying earlier about studying and not having to

39:25
worry, he was saying strictly that "you don't have to worry when an exam comes", not necessarily you don't have to prepare, because God will control that, God will prepare you.

39:35
You know, God will make sure that you get something done. Like you said "God instills in you the desire to study", so that you are prepared. You don't have to worry about it.

39:44
God will provide for you. God controls all these things on the basis of your covenant with Him.

39:50
Hamid: Because it is the nature of human being. I was just saying, it's a peace of mind. If you are worrisome and in disarray, you cannot achieve much.

39:58
You can go and stay in a library for hours and hours, but your mind is somewhere else.

40:04
But if you have that mind, that peace of mind, then you can achieve it. Robert: God, God... Hamid: So, that is...

40:12
Hamid: I agree with you. He is Almighty. But He is not gonna interfere in daily basis. Dr. Khalifa: Yes, yes Robert: He controls everything, everything. A man: Yes.

40:20
Dr. Khalifa: Even the words you are saying. Dr. Khalifa: Ali. W. are running out of time.

40:28
Dr. Khalifa: Thank God He interferes. He does everything in this world. Ali: When I was back in Iran, and my dad sat on the campus (unintelligible).

40:38
And I was always warned to believe in God and stuff like that. And at school, they made us pray. They made sure we prayed.

40:45
And I always went to it and sometimes, you know, I would just volunteer and try to lead it.

40:51
And there is a part of the Prayer in Iran where you put your hands up like this and you say some things about Ali or Muhammad.

40:59
I always forgot things. I could never remember. Dr. Khalifa: Yeah.
"God is doing everything".

41:05
Ali: I would always skip it. I would remember everything else, but I would skip that. I don't know why.

41:10
I would try to remember. I would tell myself, try to remember in the beginning, but I would just skip it. You know, unless somebody else was leading.

41:17
But I would go down and I would do the thing and if my friend was there or somebody, he would say it loudly, so I would do it.

41:23
But I always skipped it. And I always... Hamid: But if you forget it, there is no credit. But if you did it consciously, then there is some credit.

41:31
Dr. Khalifa: No,... A man: No, no, no. Dr. Khalifa: God says it in the Quran. A man: No, no, you do it in your Prayers so many times. Hamid: But God told him to forget it? Dr. Khalifa: Absolutely. A woman: Yes.

41:39
Dr. Khalifa: See, the words you are saying now. Dr. Khalifa: It is not even funny. God is doing everything. It's not even funny.

41:44
Even the words you're uttering, the encounters you have every day. Ali: Right and right now, I'm going... you know, right now, I mean, school and stuff, I am running for my class presidency.

41:58
Right now, there are a lot of people more popular than me and stuff. I'm not worried because I know God is on my side, but it doesn't mean that I'm not gonna work hard.

42:06
I've been working hard. I'm trying to get posters out. I'm working really hard on my speech. But if I know that God is on my side, I'm not worried.

42:12
I know that I can win if I work hard with Him on my side. But God will provide the stuff for me, the slogans, how the speech will come.

42:22
Dr. Khalifa: Mā Shā Allāh. A woman: And how does... Dr. Khalifa: Douglas. Dr. Khalifa: Douglas. Douglas: One of the things we find in the Quran is God says "those who believe and work righteousness." And that's the sequence.

42:35
You cannot work righteousness unless you believe. A person can think they believe.

42:41
The Quran says "have you not seen those who follow their own opinions?" The Quran speaks of human beings who think they have guidance, who think they have knowledge, when in fact they don't.

42:52
And all of us have at one time or another felt we know something or we know what to do in a situation.

42:58
That sequence throughout the Quran "those who believe and work righteousness",

43:04
one of the things that it points out is that it is Allah's will, it is God's will that we work the righteousness,

43:12
that He guides us to work the righteousness. We cannot do it on our own.

43:18
So, to use the example of studying for the exam, a person who truly believes knows what God says in the Quran,

43:26
that you must be responsible for your own actions in that sense and they will take that step.

43:34
So, that sequence is very crucial, "those who believe and work righteousness."

43:39
Dr. Khalifa: Chester. Jester: Also in the Quran, it says that God tests you daily and every time that you say something, you can make things go miserable for you.

43:48

Isn't that also a test, you know? And when you're miserable, isn't that kind of a failed test? Because you would be happy if you didn't and if you listen, you believe in God because He makes things easier.

43:58

I mean, God will give me (unintelligible), he just gave me a job today by having a (unintelligible).

Follower argues regarding Rapes, child abuse, etc.... "rapes happen in Satan's kingdoms".

44:03

I've just been accepting things as they come along lately and things have become a lot easier. I've argued things and already I've been arguing with God, (unintelligible).

44:16

Dr. Khalifa: Fantastic, Jester. Mā Shā Allāh. Hamid: I agree basically with what they say.

44:23

Hamid: There are some rapes. There are some child abuse. God is not going to interfere.

44:29

Hamid: The guy who abuses, the guy who misleads, the guy who represents himself... Dr. Khalifa: (unintelligible).

44:35

Dr. Khalifa: Something is missing here. Hamid: had to, has to... Dr. Khalifa: The rapes, the rapes and ones who does all this are in Satan's world, not in God's world. Hamid: The last... The last revelation is here

44:44

Hamid: and it says you have to pay the consequences. Hamid: It's here. He's not gonna come down or whatever, the jinn or whatever, is not gonna come and

44:54

hold my hand and say "hey, not to steal things." I'm going to steal it if I decide, if I choose to be a thief, then I have to pay the price.

45:04

Dr. Khalifa: You're making a decision to break God's law. You're making a decision to be in Satan's kingdom. Hamid: That's exactly what I'm saying. Hamid: I'm saying if the speaker is bad, I have to either hire someone to fix it in advance

45:14

Hamid: because I have it up here, I know it's not working. Dr. Khalifa: No, no, no, angels... No. Dr. Khalifa: God will send His angels to fix your stomach or your heart or your car or your speakers.

45:23

Hamid: And the wife. Dr. Khalifa: Yes. Hussein: I have a question about verse 20, Gatut please. Going back to verse 20 of Sura 67, page 563. It's about the invisible soldier that you mentioned

45:42

the jinns or the angels, when the people were fighting the believers,

45:50

or the disbelievers were fighting the believers, even when the number of believers,

45:56

maybe, you know, ten, hundred times higher than the soldiers, the disbelievers were mostly (unintelligible).

46:06

Dr. Khalifa: The believers always win. The believers always win. Hussein: Yeah, that's right. The believers always win. Dr. Khalifa: Yep.

Hussein: And you mentioned about the invisible soldiers.

46:12

Does this mean that we do not see the invisible soldiers and they do not exist physically

46:20

or do they take the gun and they shoot? Or this invisible soldier, what God meant was, again, that sacrifice, determination, hard fighting, not be afraid of anything, just in the front line?

46:36

Dr. Khalifa: No, Hussein, they are mentioned in the Quran several times. Invisible soldiers means soldiers you cannot see.

46:41

They are right in this room, but you cannot see them. Hussein: But how do they fight? Dr. Khalifa: They are very physical. Because they can carry this mosque and turn it upside down. How physical can you get?

46:50

Hamid: They have never done it anywhere in the whole universe. Dr. Khalifa: They didn't do it to us. Hamid: You are putting a question, God can destroy this, but has He ever done it? Dr. Khalifa: Sodom and Gomorrah.

46:57

Dr. Khalifa: Of course. Sodom and Gomorrah. Hamid: Not after the last revelation, because He just said, this is it. Dr. Khalifa: It's in the Quran. Hamid, Hamid, Hamid

47:02

Dr. Khalifa: Read my lips. Read my lips. The angels turned Sodom upside down, the city. Hamid: Yeah, did I just tell you after the Prophet Muhammad, he said "this is it"?

47:10

Now you have everything in your hand? Hamid: Before that, people asked Dr. Khalifa: I don't understand. Prophets "we want some proof", like a miracle. And Moses threw his Dr. Khalifa: Yes.

47:20

Hamid: stick and became a whatever, and open... Dr. Khalifa: Yes. Hamid: because people were not sophisticated, they were not at a higher echelon.

47:27

Hamid: Now, we are, we are in an enlightenment era. Dr. Khalifa: We never (unintelligible) right now.

47:33

Dr. Khalifa: Yes. Hamid: The whole... Dr. Khalifa: So, what is your point? Hamid: If you're not getting it, I'm sorry. I'm saying this is it.

47:39

Dr. Khalifa: If that's what you're saying, you're not following it. Hamid: He said "the consequences... Hamid: (unintelligible) if you make that big decision, God will come and turn the TV for me, if I say "well, listen, my legs are broken." Dr. Khalifa: You don't believe it.

47:49

Hamid: And this guy says "well, go and get a (unintelligible)... Dr. Khalifa: (unintelligible) Dr. Khalifa: If you believe in God, (unintelligible)

Hamid: I do believe in God, sir.

47:55

(unintelligible) Hamid: But I also believe in my intelligence.

48:01

Gatut: See, the Quran says, the Quran says that we have to kill our ego, because that is usually the last idol. Dr. Khalifa: Our teacher... Go ahead.

48:08

Hamid: What that has to do with the price of tea in China? Gatut: I am saying that. Hamid: I'm talking about my...

48:14

Hamid: Did I talk... I said "please believe in yourself, God will guide you." Gatut: No.

48:19

Gatut: Believe in God, not believe in yourself. You believe in God. Hamid: Your ability to, God put it in you, you supposedly... Dr. Khalifa: (unintelligible)

48:27

Gatut: See, Moses was commanded by God to tell his people to kill their ego, because the ego is the last idol.

48:33

We can say we believe in God. Millions of people who believe in God will not make it. Because they still have something hanging, the stumbling block, and the last stumbling block is the ego.

48:43

Gatut: If we cannot accept the word of God as it says in the Quran, Hamid: Everything you do consciously, it will count, Hamid: good or bad, it will count against, for you or against you.

48:51

Hamid: It will credit it in you and nothing to your neighbor, not your brother or father. Hamid: It's your own account.

48:56

Hamid: But, if you don't do it unconsciously, there is no credit. Hamid: If I Pray, if I'm a good Muslim, because my father told me so, there is no credit for me.

49:06

But if I come to the senses that there is such a religion and tells you this, and...

49:11

and I come to the decision, and got to the point, then there is some credit at the end of the line.

49:19

Hamid: But you have to make a decision, it's a revolving door. It's a revolving door. Robert: In the Quran, God says "He misguides those who He pleases and guides those who He pleases.

49:30

So, then on the consequence of what you just said, your own common sense, if God guides who He pleases

49:35

and misguides who He pleases, that's in the Quran. Hamid: Right. Robert: Is that correct? Hamid: That's absolutely correct. Robert: So,...

49:43

Hamid: Not in daily basis... Robert: So then, you can throw conscious and common sense right out the window, in a sense.

49:48

Robert: Now, except the fact that everything in the Quran and everything does make sense. That's how God has made it for us.

49:57

The whole fact that we don't believe that God had His only begotten son and sent Him onto this earth, all these "You do not test God".

50:04

things that don't make sense, three people in one, and all this other stuff, that we just believe in God alone. That's all part of common sense.

50:12

The fact that there are no contradictions in the Quran with science, that it is a perfect book.

50:18

I mean, this is all part of common sense. But when you're talking about, like, one big decision, it's whole bunches of decisions, little decisions,

50:25

which constitute one big decision, whether you believe in God or not. That's what I was talking about "the covenant", with your covenant with God.

50:32

Like when you're talking about praying or not praying, that's a decision whether you're choosing God or Satan. That's all part of that one big decision.

50:39

So, it comes up time and time and time again. But that's the only thing that matters. Whether you tell your employees "look, here, this has to be done in one month or not", and

50:50

they get kicked out, I mean, that doesn't make any difference. Hamid: See, God is fair and just. Robert: He controls all that. Hamid: If you are fool enough to go on the roof and then fall down, He's not gonna do anything. He's not gonna interfere.

51:02

Hamid: If I survive, if I survive, if I survive, if I survive the accident, there is some explanations, physical explanations.

51:11

Hamid: It's not that God's test. Robert: There is no need to test God. You shouldn't test...

51:17

like in the Bible, I don't know if this is in the Quran, but there is a verse where Jesus is on

51:24

on the top of the mountain and the devil says "well, if you're truly "a messenger of God, well, then cast yourself down upon these rocks, because it says that His angels will save you."

51:33

Robert: And Jesus says "This is not the Word of God." Dr. Khalifa: You don't need to test God. Yes. Robert: So, so, it's all part of being righteous. Dr. Khalifa: Our teacher, next week, is Douglas.

51:41

Dr. Khalifa: Douglas Brown. Dr. Khalifa: We're gonna read Al-Fātehah for Ali, who help him with his school and some things.

51:50

He requested Al-Fātehah for... and lucky Farhad Moini, who gets his birthday in the middle of the week, so we're giving them two Fātehahs

52:01

So, we're gonna pray to God again to give him and his family a great year coming up and happy years after that.

52:06

Al-Fātehah Bism Allah Arrahman Arraheem (1:1) Al hamdu Lillahi Rabbil 'Alameen (1:2) Arrahman Arraheem (1:3) Maliki Yawm Eddeen (1:4) Eyyaka Na'abudu Wa Eyyaka Nasta'aeen (1:5) Ehdina Al-Serata Al-Mustaqeem (1:6) Serata Al-Lazeena An'amta 'Alayhim Ghayri Al-Maghdoobi 'Alayhim Wa Laddaalleen (1:7)

52:24

Congratulations. Sura 68, next week, IN SHAA ALLAH.

27 Quran Study From Behrouz 1727 Sura 14;19 Chastity Premarital Pregnancy Sura 17;47 We Are Allowed

Dr. Khalifa: أعوذ بالله من الشَّيْطَانِ الرَّجِيمِ Bism Allah Arrahman Arraheem

0:05

Every page of the Quran says "Worship only the Omnipotent One."

0:11

[14:19] Do you not realize that GOD has created the heavens and the earth for a specific purpose?...

0:17

Batool, stop this noise there, Batool. A child: It's only Rachel. Rachel is only crying.

0:26

Dr. Khalifa: There we go. She knows what she wants. "When I sit in Mama's lap, that's it."

0:34

أعوذ بالله من الشَّيْطَانِ الرَّجِيمِ Bism Allah Arrahman Arraheem Verse 19 of Sura 14 says,

0:39

[14:19] Do you not realize that GOD has created the heavens and the earth for a specific purpose? If He wills, He can remove you, and substitute a new creation in your place.

0:49

[14:20] This is not too difficult for GOD. [14:21] When they all stand before GOD,* the followers said to the leaders, "We used to follow you. Can you spare us even a little bit of GOD's retribution?" They said, "Had GOD guided us, we would have guided you. Now it is too late, whether we grieve or resort to patience, there is no exit for us."

1:13

This is in the past tense to emphasize that this is actually what happened on the Day of Judgment.

1:20

As witnessed by God. The Day of Judgment is not here yet. But these are things... It's...

1:27

The Bible and the Quran speak in the past tense to indicate that this is a prophecy that is sure to come to pass.

1:34

A man: (unintelligible)

1:40

Dr. Khalifa: (14:20) وَمَا ذَلِكْ عَلَى اللَّهِ بَعِزٌ Dr. Khalifa: (14:20) وَمَا ذَلِكْ عَلَى اللَّهِ بَعِزٌ

1:45

A man: It sounds like it's (unintelligible). Dr. Khalifa: No. It's not difficult at all.

1:51

Oh, I see. A man: Because it looks easy for God.

1:57

Dr. Khalifa: No, this is, this is not difficult for God to do.

2:07

22, [14:22] And the devil said, after the judgment had been issued, "GOD has promised you the truthful promise, and I promised you, but I broke my promise. I had no power over you;

2:26

All I did was invite you, and you accepted my invitation. Therefore, do not blame me, and blame yourselves. My complaining cannot help you, nor can your complaining help me. I have disbelieved in your idolizing me. Only the transgressors have incurred a painful retribution."

2:46

So, here is Satan finally telling his constituents "I knew you were stupid to worship me, to follow me."

2:54

So, now the people who follow him now, he points at some of them "you stupid idiots. I tricked you. You follow me?"

3:05

23, [14:23] As for those who believed and led a righteous life, they were admitted into gardens with flowing streams. They abide therein forever, in accordance with the will of their Lord. Their greeting therein is: "Peace."

3:22

[14:24] Do you not see that GOD has cited the example of the good word as a good tree whose root is firmly fixed, and its branch is high in the sky?

3:33

So, the good word, the truth, lasts. It has basis.

3:38

It has roots. And 25, [14:25] It produces its crop every season, as designed by its Lord. GOD thus cites the examples for the people, that they may take heed.

3:53

[14:26] The example of the bad word is that of a bad tree chopped at the soil level; it does not stand.

3:59

So, the bad word, the falsehood, you just blow in it and it falls down.

Removing family from God's protection. Dr. Rashad Khalifa talks of his own family.

4:06

[14:27] GOD strengthens those who believe with the proven word, in this life and in the Hereafter. ...

4:14

And what we have is the proven word.

4:20

[14:27] ...And GOD sends the transgressors astray. GOD does what He wills.

4:26

They remove their families from God's protection. Number 28, [14:28] Have you noted those who responded to GOD's blessings by disbelieving, and thus brought disaster upon their own families?

4:37

We talked earlier this afternoon about the souls being assigned to certain homes.

4:47

So, if the people refuse to uphold God's commandments, God will assign evil souls to their houses.

4:55

A woman: How does this apply to the belief where one parent is believing and the other is disbelieving?

5:03

A woman: (unintelligible). Dr. Khalifa: Amazingly, it works both ways. The believer will get his or her way.

5:13

But a lot of times the situation... Pardon? A woman: (unintelligible). Dr. Khalifa: Usually, yes.

5:22

It's hard to think because... You see, the believers get their way.

5:30

And I'm thinking of my own parents. Where my mother was a believer, my father was not,

5:38

a heavy duty idol worshiper.

5:43

A man: A believer, like, what you mean? Dr. Khalifa: But you see, my mother was not actively preaching, not continuously.

5:50

She was not as educated as she wished to be. But she was just telling us always "God alone, God alone, the saints and the prophets are dead."

6:00

"You must trust in God alone, nobody else." And she kind of gave up because we all ganged up on her, with my father.

6:09

So in other words, we didn't follow her. So, we ended up half the kids are believers and half are disbelievers.

6:16

I should put it this way. Half are believers. 50% are believers, 10% disbeliever, and the rest are wishy-washy.

6:27

Sounds like we had a hundred kids, right? We were only six. But that's a very good proportion.

6:33

Three believers out of the six, and two nice ones made a firm stand, and one disbeliever.

6:43

Oh, I'm sorry. That's not right. A man: If both parents are believers, and true believers, is that a guarantee that the children will be believers?

Dr. Khalifa: No.

6:53

Dr. Khalifa: Those are examples... A man: And two disbelievers, two parents are disbelievers, they can have a believing child?

6:59

Dr. Khalifa: No, (unintelligible) had one son that was disbeliever. We have examples in the Quran of all kinds of relatives.

7:04

Because the word guarantee is just too strong. Generally, yes.

7:11

And in this new era, the believers will get their way. This is a very...this is a, this is a very difficult era to believe, because of the TV, the movies, the atmosphere, the society.

7:26

It's just more, it's more difficult to believe, but at the same time it is easier to believe.

7:33

You can understand that. There are too many distractions.

7:38

So in this new era, where the miracle is mental and everything, just God's system that

7:45

things will go the way of the believers.

7:50

So IN SHAA ALLAH, Roxana's kids, all of them will be believers. They are already, Mā Shā Allāh.

8:02

Where were we? Yeah, we talked about... they remove their families from God's protection.

8:11

There are also examples, for example, Ibrahim was God's favorite person.

8:19

But his father, his parents, were... I don't know about his mother, but at least his father was a disbeliever,

8:26

a real bad one. So, there are certain exceptions, at least in the past.

8:34

I was gonna mention to you Carol Poratio and her husband, for example, where their daughter

8:40

works both ways. Samira is a test for Carol and a punishment for Ehsan.

8:51

So, it works both ways. That incident caused Carol to be a stronger believer.

8:58

It causes Ehsan to be a miserable person.

9:09

[14:28] Have you noted those who responded to GOD's blessings by disbelieving, and thus brought disaster upon their families?

9:17

[14:29] Hell is their destiny, wherein they burn; what a miserable end!

9:23

Idol Worship: The Mother of All Evil [14:30] They set up rivals to rank with GOD and to divert others from His path. Say, "Enjoy for awhile; your final destiny is Hell."

9:34

[14:31] Exhort My servants who believed to observe the Contact Prayers (Salat), and to give (to charity) from our provisions to them, secretly and publicly, before a day comes where there is neither trade, nor nepotism.

9:48

[14:32] GOD is the One who created the heavens and the earth, and He sends down from the sky water to produce all kinds of fruit for your sustenance. He has committed the ships to serve you on the sea in accordance with His command. He has committed the rivers as well.

Prophets & messengers did not decide on the creation on the heavens.

10:05

[14:33] He has committed the sun and the moon in your service, continuously. He has committed the night and the day to serve you.

10:13

All we can do is show our appreciation. I watched (unintelligible). Muhammad didn't do any of this.

10:21

Jesus didn't decide how long the night shall be or what seasons will take place.

10:27

God is the only One who controls the sun, the moon, all that.

10:35

Congratulations, God bless you. A woman: In other words, the truth will be with only God's people.

10:44

Dr. Khalifa: Yes. Dr. Khalifa: Nothing else. Yes. The sun is the truth of method and only God controls the sun.

10:55

The sun is very obedient. Sunrise, sunset, sunrise, sunset.

11:02

A man: This is what Abraham discovered actually, that the sun was obedient to the higher... That's how he discovered...

11:11

Dr. Khalifa: Well, actually, he was ridiculing his people. He was telling them "why don't you worship the one God?"

11:18

And they said "apparently we're worshiping the sun as well." So, he was telling them "maybe this star is our God?" He was just making fun of them.

11:28

As it turns out. Because obviously he has seen the sun, the moon, the stars before.

11:37

And also, if you read the text, he says "O my people, I disown your idolatry."

11:45

So, there's a connection between talking about the sun, the moon, the stars and his guidance.

11:51

Dr. Khalifa: Mr. Azarshahr. Mr. Azarshahr: Yes. I was telling to my wife (unintelligible).

11:59

Because the places we live in sometimes, day by day, it's going to get worse

12:07

for the children to grow old. I said "Ok. I don't want to sacrifice myself, for example, like that, for example, and like that area."

12:15

However, really I don't care. I don't (unintelligible).

12:20

Anyway that I'll be able to survive, I like it. I don't care about your old (unintelligible).

12:26

Dr. Khalifa: Thank you Omar, looks so good. Mr. Azarshahr: I'm asking to Victoria, for example, "let's go to excellent school here. Because my child can grow here. I will go to see them, pray every time."

12:39

So, what's your idea? Because, for example, I try to, all the time I pray for my children to be, to submit to God.

12:47

My next generation, I don't know if I'll be able to see them or not.

12:53

Dr. Khalifa: Like, Remember what I told you just a few minutes ago. You must ask him to pray with you, wherever you are, in your home. And Vicky also, tell her to do that.

13:02

Because, you know, I look at Hany and I know what... he prays with her just like an adult Hany does.

13:10

It's because they taught him to do that. Mr. Azarshahr: (unintelligible) Dr. Khalifa: No, it doesn't matter.

13:16

Dr. Khalifa: Even if you come here, teaching him at home would be the most important thing factor.

13:22

So, you just settle wherever you're making a living, you know. Of course, in Tucson there's a big advantage.

13:31

But we will settle wherever we are making a living.

13:39

What I'm trying to say, what I'm trying to emphasize is that teaching at home is very important. So, Mohammad is not too young to make him... gradually, gradually, he will discipline himself and stand in the prayer.

13:53

At first, he will stand for only half a Rak'at, then for one Rak'at, then for two.

13:59

And eventually he will do the whole prayer with you, and will enjoy it. Give him some incentives, like candy and cookies and stuff.

14:08

A man: (unintelligible) Dr. Khalifa: Huh? A man: (unintelligible) Dr. Khalifa: (unintelligible) A man: (unintelligible)

14:16

Dr. Khalifa: Yes, and he's very hyper. Yeah. Eric: (unintelligible) California.

14:31

Dr. Khalifa: Yes, I don't blame him. But wherever he goes, they are in God's hands, remember that. If you are with God and observing this, your children are in God's hands.

14:41

You don't have to worry about them. Eric: One question.

14:46

Eric: What is the law of the Quran about a father educating his child with the hand, for instance, on the...

15:00

Dr. Khalifa: No. Eric: I didn't find it.

15:08

Eric: He said "is this actually a Satanic in that? Dr. Khalifa: Yes.

15:14

Dr. Khalifa: Don't touch your kids. You'll be sorry.

15:21

You'll be sorry because soon they'll grow up and they'll put you to shame every time you see them.

15:27

Eric: But in the Torah... Dr. Khalifa: If you repent, then God will fix everything. Eric: In the Torah it says "the father who loves his son doesn't ...

15:42

How do you say it in English? A man: the rod. Dr. Khalifa: Make a point. A man: the rod.

15:49

Dr. Khalifa: Everybody here, make a point that you can stand someday and you say "I never slapped my son or my daughter."

15:56

"Never beat my son or my daughter." And if you can repent, then you erase the past and start anew.

16:05

And you can make the same claim before God. Eric: But what does it mean then in the Torah when it says that "the father who loves his son doesn't spare the rod?"

16:17

Eric: What are... Dr. Khalifa: Translate to English. Say it in English.

16:24

Say it in our English. Eric: The father who loves his son... Dr. Khalifa: Yes. Eric: ...doesn't bear the rod.

16:32

Dr. Khalifa: That doesn't tell me "beat your kids."

16:37

It means the father who loves his son never uses the rod.

16:44

Huh? Yeah? So, it depends on how you look at it. Eric: I mean, it's...

16:50

Eric: I don't have the Bible in English. Dr. Khalifa: This is a... It's a satanic trick because it makes the kid hate everything that you want to promote.

17:01

If you want the kid to read the Quran and you beat them to read the Quran, they will hate the Quran. As soon as they're out of your influence, they will curse the Quran and everything that's connected with it. I've seen it.

17:12

Eric: No, yeah, I didn't ask it from this point of view to read the Quran. I... because this is a very...

17:19

Dr. Khalifa: No, I'm just giving an example. If you beat the kid because you want him or her to sleep at 8 o'clock every night,
17:27
they will hate 8 o'clock. Eric: Yeah. Dr. Khalifa: They will connect the beating with whatever you want to promote. Eric: Yes, Rashad, Rashad, Rashad (unintelligible).
17:35
Eric: Yes, but this is not what I was trying to talk about. I was trying... Eric: Some children are committing mischievous acts like throwing stones through the window of the neighbor's house. Dr. Khalifa: Yes, yes, yes, yes.
17:49
Eric: And they do it repeatedly. Dr. Khalifa: Right. Eric: Or they steal bicycles. Or I don't know what they do. Dr. Khalifa: Yes.
17:55
Eric: And the father is trying to say "don't do that", but the kid is continuing to do it.
Dr. Rashad Khalifa refers to Oprah Winfrey show regarding a dysfunctional family.
18:02
So, he punishes his child for having committed disobedience and destruction.
18:10
And this is a question which is very, I would say...
18:18
Dr. Khalifa: If the kid is behaving this way, it's the fault of the parents anyway. They had in, I think it was Oprah Winfrey's show, they had a mother and a daughter.
18:31
The daughter got pregnant when she was 15. She dropped out of high school, dropped out of school and got pregnant.
18:39
And the mother was there and the daughter was there. And Oprah Winfrey was asking "what is it that caused you to drop out of school?"
18:48
And she, and the girl said "well, I wanna be with my boyfriend." So, boyfriend is more fun than school, this kind of thing.
18:56
So then, she turned to the mother and said "why did your daughter turn this way?"
19:05
And the mother said, turned to her and said "why did you drop out of school and go after your boyfriend and get pregnant? Why do you do these bad things when I want you to go to school and this and that?"
19:15
So, the daughter looked at the mother and said "well, you're never home and when you're fooling around with your boyfriend, this and that."
19:22
And that was on the show. So, what I'm saying is, it's the parent's responsibility. If the mother is setting the example for the daughter...
19:29
Eric: Is there anything wrong with getting pregnant with a kid?
19:36
Eric: Maybe they got married in their way in front of God.
19:42
Dr. Khalifa: There's no such thing. Eric: Okay.
19:48
Dr. Khalifa: You mean there's nothing wrong with dropping out of school at the age of 15 and getting pregnant? Eric: No, I mean, school is not a compulsory thing in itself. For...
20:08
Dr. Khalifa: So, you think it's okay to drop out of school and go to the boyfriend and get pregnant without marriage?
20:15
Eric: I didn't say that without marriage. I said maybe with marriage. Dr. Khalifa: Well, so why not get married?
20:24
Eric: I don't know if they got married. Dr. Khalifa: At 15 years old. Pardon? Eric: Maybe they...they... Dr. Khalifa: Why marry in secret? There's a girl 15 years old in school. She drops out, goes to her boyfriend and she marries him and gets pregnant. Why not make the marriage public?
20:38
Eric: I don't know if they made it public or not. But what I'm saying is that, Rashad, rules are such.
20:45
Dr. Khalifa: Yes. Eric: It's not a criteria for righteousness. I didn't find in the Quran that we have to go to school.
20:52
Dr. Khalifa: Maybe it is. You didn't read the Quran. Eric: Maybe she was tired. Dr. Khalifa: You didn't read the Quran.
20:58
You have to read the Quran. It tells you, we were talking about this two days ago, that the rich believer is better than the poor believer.
21:05
That's what God is saying. What does this mean? Eric: Yeah, that's the more educated that they are. Dr. Khalifa: Right.
21:12
Dr. Khalifa: In fact, I will let you read it. Eric: In many schools, they are teaching, they are indoctrinating.
21:24
Dr. Khalifa: Indoctrinating what? Eric: Well, in materialist values and in...
21:30
Dr. Khalifa: So, do you suggest that we cancel schools? Eric: No, we can improve schools. But if some young people drop out of school, maybe it's a reaction against that they don't believe with what is...
21:43
Eric: The schools are under chosens' control, but they don't...
21:49
Dr. Khalifa: Look at page 275. If you read for us 75 and 76, you'll appreciate it.
21:59

Dr. Khalifa: My pillow.

Follower argues with Dr. Rashad Khalifa. Premarital pregnancy.

22:17

You can read the Quran. When I said "you didn't read the Quran", it means you read it, but you didn't read it.

22:23

Dr. Khalifa: Because when you make a statement like that... Eric: But that's easy to say. That's easy to say. Eric: I didn't make a statement. I made a question.

22:29

Dr. Khalifa: You said the school is not important, or it's not mandatory. Something like that. Eric: I didn't say that knowledge is not important.

22:37

Dr. Khalifa: You said school is not. Eric: I said that people who drop out of school can have very good reasons for it.

22:43

Dr. Khalifa: You can't get knowledge without school, that's for sure. Eric: But I will read it. Dr. Khalifa: It will take you 20 times as long if you wanna educate yourself outside, without school.

22:54

Eric: What? Why? Dr. Khalifa: I've seen both. Eric: Are you trying to say that (unintelligible) is protected?

23:03

Dr. Khalifa: I didn't say that. I said "the education in school is faster than education without school." Eric: That is a simplistic generalization which has nothing to do... because each individual is different. And there are lots of individuals.

23:14

Dr. Khalifa: Well, I've seen both examples. I've seen people who go to school and people who didn't go to school. A man: Yes. Yes. Dr. Khalifa: And when you go to school and you have 15 points, you study logic and philosophy and accounting and economics and journalism.

23:28

But if you do it on your own, it's gonna be 20 times as long. This has been the experience. You can accumulate the experience of a hundred scholars because...

23:39

A woman: I agree because... Dr. Khalifa: There, she agrees. Yes. Dr. Khalifa: You can look at a research that did a lot of surveys, surveyed thousands of people, and come up with a conclusion.

23:48

Eric: But you see, the school is not the guarantee that you will learn the right thing. And... Dr. Khalifa: Ignorance is?

23:56

Eric: Well, your mother, for instance, she was not that ignorant. She wanted to know more, but she told you the truth.

24:01

Eric: to worship God alone. Dr. Khalifa: Yes. Eric: You see, don't mix up things like this, because the facts that you have about the school is not the guarantee that

24:10

Eric: that you will succeed in life. Dr. Khalifa: So, this proves that ignorance is good. Eric: No, I didn't say that. Dr. Khalifa: What are you saying?

24:16

Eric: No, I'm saying that... I'm saying... I'm saying... Dr. Khalifa: You're saying the school doesn't guarantee happiness, therefore let us cancel schools. Eric: What I'm trying to say... I don't support... I don't want to start an argument. Dr. Khalifa: Yes.

24:26

Dr. Khalifa: I'm repeating what you're saying. You're saying "the school does not guarantee happiness", right?

24:32

Dr. Khalifa: Is this what you said? He says Eric: Yes. Dr. Khalifa: "Therefore, let us eliminate schools." Eric: No, I didn't say that.

24:37

Dr. Khalifa: Okay, what are you saying? Dr. Khalifa: What is your conclusion? Eric: My conclusion is that we know very well that the school system today is not optimal.

24:51

Eric: Or do you think it is? Dr. Khalifa: Well, it's the best. Dr. Khalifa: The best ever. Eric: You think it's the best? Dr. Khalifa: Yes. A woman: (unintelligible) Eric: Hold on.

24:58

Dr. Khalifa: It's the best ever. A man: What school are you talking about? Dr. Khalifa: Any school system anywhere in the world today is better than any other time.

25:06

Eric: You believe that sincerely? Dr. Khalifa: Yes, I know that. Eric: Well, I don't want to discuss this, but there is a national emergency plan in the United States because the people don't learn anything in the school.

25:17

And the level of illiteracy and the level of Analphabetism has increased in the United States.

25:23

Eric: So I think this is a little bit... Dr. Khalifa: Why? Eric: Because the schools don't teach anymore as they used to.

25:32

They don't teach. Dr. Khalifa: Well, they are better than... Eric: They have acquired new so-called

25:37

Eric: methods which are not as good teaching methods as they used to be. Dr. Khalifa: So, what do you suggest?

25:43

Eric: And the children are not very motivated when they go to school because there are a lot of other activities that are promoted on the side.

25:55

And the role of the school today has become more of a social institution to teach young children to socialize rather than to acquire knowledge. And maybe this...

26:06

Dr. Khalifa: Somehow Eric has taken us away from the Quran. Is this true? A man: Yes. Dr. Khalifa: Ok.

26:11

Dr. Khalifa: We'd like to study the Quran and not politics or school systems or... Eric: Yes, but you took (unintelligible) Dr. Khalifa: Our children...

26:17

Dr. Khalifa: Our children are the most educated kids in the world. Eric: You are just knocking off this 15 or 16-year-old girl or whatever.

26:23

Just like this. Maybe she has a very good reason. Dr. Khalifa: We uphold the highest, we uphold the highest moral character because God told us to do so.

26:32

If a girl gets pregnant, 15, first of all, physiologically she's not ready to get pregnant. It is not good for her.

26:38

To drop out of school is not good for her. It is a bad example. And it affects your behavior.

26:49

When you don't have the highest moral standard, it affects your behavior and then it affects you.

26:55

Eric: Maybe this girl was a believer. Dr. Khalifa: Pardon? Dr. Khalifa: Maybe this girl was a believer. Eric: Maybe she's... Dr. Khalifa: No, she's not a believer.

27:01

Dr. Khalifa: She doesn't know anything. She's drugged. She's an alcoholic. She's a 15-year-old pregnant without marriage.

27:07

Dr. Khalifa: How can she be a believer when she got pregnant at 15 and dropped out of school? Eric: I don't know. Dr. Khalifa: Tell it to her mother. I mean, why do you think she's a believer? Because she got pregnant?

27:15

Eric: I said maybe she is. How do you know that she's not? Dr. Khalifa: Alright.

27:20

A woman: How you're saying, how you're saying like (unintelligible)?

27:28

Eric: I'm trying to say that God knows but we don't know. Dr. Khalifa: So, a girl... Ok, Eric... Eric: We shouldn't pretend that we know, because God knows.

27:36

Dr. Khalifa: So, the girl that gets pregnant, drops out of school at 15, and with her boyfriend and pregnant, she has a child.

27:43

Dr. Khalifa: This is a criterion for a believer. This tells us she's a believer. Is this true? Is this what you're saying?

27:49

Eric: What are you saying? Dr. Khalifa: A girl that's 15 years old, drops out of school and gets pregnant and gives birth to a child out of wedlock. This is a sign of a believer.

Dr. Rashad Khalifa dismisses a member "you're a bad influence on us, I suggest you go back to Switzerland". "I just don't trust you when you're talking to the believers".

28:00

Eric: I didn't say that. Dr. Khalifa: You said "maybe she's a believer." Eric: I said "maybe she's a believer." Dr. Khalifa: Because all the signs are there.

28:08

Dr. Khalifa: All the signs of a believer are there. Right? Eric: Why do you say that all signs of a believer are there?

28:14

Dr. Khalifa: Well, this is your conclusion. Eric: No. Dr. Khalifa: You must see signs. Tell me. Why "Maybe she's a believer"? Why? Eric: I didn't draw any conclusions. Don't put words in my mouth, Rashad.

28:21

Eric: I'm just trying to say that what she has in her heart, for whom we don't know.

28:27

Dr. Khalifa: Well, I think you're bad influence on us, Eric, and I think, I suggest you go back to Switzerland.

28:32

That's my suggestion. Because your behavior reflects what you're saying, and it hasn't been very good.

28:41

Eric: I'm sorry. Dr. Khalifa: Me too.

28:47

Dr. Khalifa: I know certain things you don't know, so excuse my expression. A woman: If something happened like we did say, we as believers judge it from what the Quran says.

28:57

But not to judge the person for what she knows. That's what she decides to do if she knew better.

29:07

If she knew about the rules and regulations, that regulation she would not have been in that position.

29:14

Dr. Khalifa: That's right. A woman: Because she is in that position from what she knows.

29:20

But from what we know, and even for me as a woman, I would not wanna be pregnant very soon.

29:28

I mean, it's a serious responsibility. Dr. Khalifa: No, I mean, looking from God's point of view, strictly from God's point of view,

29:35

I don't think it's a good influence when we have here children, boys and girls, to hear somebody say

29:40

"maybe she's a believer", when she got pregnant at 15 and dropped out of school, and so on. A woman: But I have... Dr. Khalifa: So, I'm very jealous when it comes to guarding our standards.

29:50

A woman: But I have another question that I can add to that. As human beings, we all have to have feelings for the baby.

29:59

I mean, the mother.... the baby....

30:05

Dr. Khalifa: Say it again. A woman: (unintelligible) A woman: Because I know in our country, I mean, I know in our law, if even a man and a woman get pregnant

30:18

and want to get married after one month...

30:24

A woman: I mean, if they have a baby and after one month, they wanna get married, that child is caught in this situation.

30:30

A woman: Do you agree, (unintelligible)? Dr. Khalifa: Yes. Eric: Yes.

30:37

Dr. Khalifa: It was conceived outside of marriage, which is God's institution.

30:47

I just don't trust you talking to the believers when I'm not here. I'm not comfortable.

30:53

Dr. Khalifa: Because of your point of view, maybe you have some European ideas or something. Eric: Dr., I'm not promoting...No. Dr. Khalifa: Whatever it is, I'm not comfortable when you're talking to the people and there's always some negative feedback.

31:05

So, I'd appreciate it if you just visit when I'm here, or it'd be better if you just go back to Switzerland.

31:17

Are there any other questions on this? What were we talking about?

31:24

I was saying that the parents set the example for the children.

31:30

A man: Yes. A man: There's a good example from Maryam and,...

31:37

Dr. Khalifa: (19:20) وَلَمْ أَكُ نَجِسًا A man: 19 years old.

31:43

Dr. Khalifa: (unintelligible) Yeah. Beautiful. A man: Mary was 19 years old when she said "no man has ever touched me."

31:50

Dr. Khalifa: Yes. That's the Quranic lesson, yes. A man: (unintelligible) A woman: (unintelligible)

31:58

Dr. Khalifa: There is a good hint when it is in Sura 19 and it's entitled "Maryam" and it tells the birth of Jesus and so on.

32:06

It's a very good indication. 15 is just... even physiologically, the girl is not ready.

32:16

Just because she's menstruating and so on doesn't mean the uterus is ready and emotional, psychological conditions are satisfied.

32:27

And the same with the boys. A woman: I was just trying to give the whole context of this.

32:33

Maybe we'll learn that later. Fifteen or sixteen (unintelligible)

32:42

Because they have a child, I believe they have a (unintelligible) life.

32:48

Dr. Khalifa: Yes, infant mortality. A woman: (unintelligible) Dr. Khalifa: What a mistake! A woman: 1, 2, 3, Two brothers and a sister died before me. I was a small child.

32:59

A woman: Because my mother was very young. Dr. Khalifa: Right. Dr. Khalifa: Just physiologically, the boys and the girls are not ready before the age of 19 or 20.

33:11

A woman: So, they didn't know in advance and now they are, you know, dying young.

33:17

A woman: (unintelligible)

33:25

A woman: They are talking about hormones. A woman: (unintelligible) A woman: Well, I know there are hormones. But we have a brain, too. A woman: (unintelligible)

33:33

A woman: The animals (unintelligible) A woman: (unintelligible) Dr. Khalifa: Animals are better. A woman: (unintelligible) normal.

33:38

A woman: I mean, animals are better because they know when they are ready.

33:48

A woman: It's a very hard concept for the Westerners. I understand what you are talking about. Please, I mean, please.

33:56

A woman: I mean, but, I mean, I don't picture any of my children running around with a normal kind of dog.

34:05

A woman: That's not human nature. I don't want my daughter or my son are engaged.

34:11

A woman: I want them to learn. Dr. Khalifa: Control themselves. A woman: Have self-control. Dr. Khalifa: Right. A woman: This is what it's all about.

34:18

A woman: (unintelligible) And that is the heart. Dr. Khalifa: Yes. A woman: People that feel normal. People that...

34:24

Dr. Khalifa: It seems like in the last ten Quranic studies, I have been reminding the parents to tell their children that they are very special.

34:31

They must learn they are very special. They are not to behave like the commoners. And they must not let anybody touch them in a sexual manner until their wedding night.

34:41

And yes, I have an appendix here entitled "Virginity." So, if you are too embarrassed, you can just have them read the appendix.

34:49

Sometimes it's a ticklish subject. It's difficult to discuss. But they must teach them first that their happiness in this life and forever depends on obeying God's commandments.

35:00

A woman: Well, I was in a family conference. I mean, it was a service. Dr. Khalifa: And... A woman: How it was (unintelligible). And at the end, he said "oh yes, they were talking about something called hormones."

35:10

A woman: But what about the men? Dr. Khalifa: Right. A woman: And it was in expression of "don't let women touch the men", you know.

35:16

A woman: And on and on. And after he was taking (unintelligible), and I said "this is between men and women. Dr. Khalifa: Right.

35:22

A woman: (unintelligible) He was serious. (unintelligible). Dr. Khalifa: For both. A woman: (unintelligible)

35:28

A woman: But I'm not having to blame him. It's not because the woman is sure (unintelligible). A woman: The man didn't do anything, I mean (unintelligible)

35:50

Dr. Khalifa: Yep. This is why I put in the headlines that boys and girls.

35:55

Because there is no double standard there.

36:02

You know, first and foremost, if a person is a believer, the children are in God's hands.

36:09

And you must have that confidence.

36:15

Just one. Roxana was asking the same question.

36:21

Remember, God says that in Heaven, you have anything you wish for, anything you want.

36:27

And the believer's Heaven begins right here. So, if a believer is one parent to the believer, he or she will have what they want.

36:37

Anything that belongs to you is in God's hands. Including your husband.

36:45

God will control their mind and their heart.

36:51

We go... Husbands go from the extreme, from the extremely cooperative to the extremely violent in opposition.

36:58

And even the extremely violent in opposition, they can threaten and... But they have no will.

Teach children about dangers of being sexually promiscuous.

37:05

The will of God is finally done. They can shout and threaten, but they cannot do anything.

37:13

God is doing everything.

37:23

Behrouz: David prophet, right now, it is saying, it's known to God (unintelligible)

37:32

Dr. Khalifa: Well, it's beginning. It was the AIDS. Yes. I actually heard commercials on the radio and TV advocating abstinence,

37:42

until you have the one partner that you're going to have. I mean, this is unheard of. Twenty years ago, that was unheard of

37:51

to actually hear commercials on the radio and the TV. Talking about AIDS awareness.

37:57

I'm telling you that the best way... A woman: (unintelligible) Dr. Khalifa: Yes. Exactly. Dr. Khalifa: Our generation is coming up.

38:07

I mean, twenty years from now, there'll be twice as many people on earth who never heard of the Trinity or

38:15

or anything like... Ihsan says that this is God's way of teaching them since their parents are lax.

38:21

They're not teaching their children about homosexuality and the dangers and, you know, this and that. Their parents are so lax.

38:27

So, God sees to it that He's teaching them. So now, what was...

38:36

A woman: Oh, it's not the... Dr. Khalifa: It's (unintelligible) who said... A woman: (unintelligible) said (unintelligible)
38:43
Dr. Khalifa: Oh, yes, yes. The cat is so weak and old and falling apart.
38:48
Dr. Khalifa: And (unintelligible) said "maybe she has AIDS. A woman: "She has AIDS." A woman: (unintelligible) Yeah, that's what he said.
38:59
Dr. Khalifa: But that is not, that's not the point, you see. The point is, look at the child who knows about AIDS.
39:05
A woman: (unintelligible) and the word AIDS. A woman: And the next step is teenage (unintelligible), you know. Dr. Khalifa: Yes.
39:11
A woman: AIDS is spreading in our teenage population right now. And there will be more AIDS. This is the system. This is how (unintelligible)
39:20
The hard way that they're gonna learn. (unintelligible)
39:29
A woman: (unintelligible) Dr. Khalifa: Yeah.
39:35
Dr. Khalifa: Diba will call in about 15, 20 minutes. A man: She did. Dr. Khalifa: She did? A man: Yeah. Dr. Khalifa: Where?
39:41
Dr. Khalifa: Where? Here? Dr. Khalifa: Gosh, I was not... I was fighting with Eric. I had no awareness.
39:49
I wasn't aware of anything. A woman: (unintelligible)
39:56
Dr. Khalifa: Oh, wow. A woman: (unintelligible)
40:18
Dr. Khalifa: There's a teacher who's a believer right now. A good one. A woman: Yeah, I mean, I mean...
40:24
A woman: I mean, it's scary. I mean, it's so scary. Dr. Khalifa: When did you meet a butcher or an accountant or a doctor who's a believer?
40:33
Don't be so hard on teachers. A woman: I know we have to balance things.
40:40
Dr. Khalifa: Remember, your children are in God's hands. God will manipulate the circumstances so they will get the right education.
40:51
A woman: And the best education is God's. Dr. Khalifa: Yes, that's it.
40:57
Dr. Khalifa: It's very important.
41:05
Dr. Khalifa: Mā Shā Allāh. I mean, we can use Nani. Look at Hani. Mā Shā Allāh. Lā Quwwata Ellā Bellāh. As an example.
41:12
He stands with us, just like the adults, and prays. Perfect. The only thing we have to, we have to restrain him when he makes his Salam to the left and to the right.
41:24
A woman: (unintelligible) Dr. Khalifa: Yes. Dr. Khalifa: So, he looks at him because he wants to... He's anxious to say congratulations.
41:30
A man: Yeah. Dr. Khalifa: So, we're thinking of putting him on the other side, to be the first one there, so he will start...
41:37
A woman: (unintelligible) Dr. Khalifa: Yes. Dr. Khalifa: But this really tells us that you can teach the kids how to do the proper prayer from very early age.
41:50
Dr. Khalifa: This is only... A woman: (unintelligible) proper prayer. Dr. Khalifa: Yes. A woman: (unintelligible)
41:59
A man: Now he's chasing the fly. You wanna go to Heaven. A man: Oh, this is wonderful. Dr. Khalifa: Yes.
42:04
A woman: (unintelligible) Dr. Khalifa: Yes. A man: He was actually listening, Hany. Dr. Khalifa: Yes. A man: (unintelligible) He was listening to you at the convention. Dr. Khalifa: I know
42:11
A woman: (unintelligible) A man: (unintelligible) Mā Shā Allāh.
42:17
A man: But he was listening to you at the conference. Dr. Khalifa: You know what Nani... How old Nani is, Adnan?
42:23
Did Ahmad Barouni... Wow. Mā Shā Allāh.
42:29
What is this?
42:39
I was gonna hang it in my office. Anyway, Nani was running after a fly with a (unintelligible)
42:47
"You wanna go to Heaven? "You wanna go to Heaven?" Even adults don't know this.
42:57
Dr. Khalifa: Send them to heaven. A man: He's asking the little fly "do you wanna go to Heaven? Do you wanna go to Heaven?"
43:03
A man: He was listening to Rashad at the conference. Dr. Khalifa: So, you take... Yes. A man: He's not even... He's two? He's about two. My God. He was listening at the conference.

43:18
Nobody told him before.

43:37
Dr. Khalifa: Kernalys are here. Mā Shā Allāh.

43:43
What happened to the Jehovah Witnesses who came to your house?

43:51
Aisha was there. Oh, you were there too?

44:02
What did they do? That's good.

44:24
Yeah, they are active. They know the new people. Did he ever show up again?

44:30
I don't think they're Jehovah Witness anymore. He came in to tell us to read the Bible. And we ended up telling him to read the Bible.

44:41
Dr. Khalifa: We showed that he doesn't know what's in it. A woman: (unintelligible) used to read from door to door, just like my kids used to say. Because if they're getting married, if everybody goes from door to door, nobody will be home.

44:54
Dr. Khalifa: Right.

45:08
A man: That gentleman, you are talking, he didn't talk to the Jehovah's. Dr. Khalifa: No, yeah. Were you there? You were not there. A man: No, no, you... Dr. Khalifa: Yes.

45:16
Dr. Khalifa: He came to tell us to not to go to Heaven.

45:22
A man: No to go to Heaven? Dr. Khalifa: Yeah, Huh? A man: What did he say? Dr. Khalifa: He said "I have no hope for going..." or "I have no Heavenly hope." What did he say?

45:32
"I have no Heavenly hope." I said "you mean, you're not going to Heaven?" He said "No." I said "You wanna go to Heaven? Because we're going."

45:42
Dr. Khalifa: He said "no." A man: Oh, my God. Dr. Khalifa: Yes. A woman: No? Dr. Khalifa: He said "no." I said "well, wait a minute. If you have a choice, would you like to go to Heaven or not?"

45:52
He said "what? If I have a choice, yes, but I have no hope." I said "So, you're coming to tell us that you wanna take us with you?"

46:03
"Do you want us to cancel all our Heavenly hope or what?"

46:20
[17:47] ... disbelievers say, "You are following a crazy man." In their privacy, this is what they say.

46:27
[17:47] ... "You are following a crazy man."

46:35
I think this happens to every one of us.

46:40
[17:48] Note how they describe you, and how this causes them to stray off the path.

46:53
[17:49] They said, "After we turn into bones and fragments, we get resurrected anew?!"

46:58
In other words, they do not believe in resurrection after death. They do not believe in the Hereafter. And I want to emphasize here that 49 does not mean they say it orally,

47:09
orally. They say it in their heart, in their mind, secretly. Their subconscious is saying that.

47:16
This is why we need the three criteria to bring out that subconscious statement.

47:22
And I think in the new edition, I'm making this clear.

47:27
They said in their subconscious, [17:49] ... "After we turn into bones and fragments, we get resurrected anew?!"

47:37
50, [17:50] Say, "Even if you turn into rocks or iron. or a lion devours you and digests you. Excuse me. 51.

47:49
51, Actually, this is what it says. [17:51] "...or any kind of creation that you deem impossible to resurrect..."

47:56
This is what it means. "Somebody is eaten up by a lion and devoured. How will you be resurrected?" This is actually what they ask.

48:03
You will be resurrected anew, because the body doesn't mean a thing. The body is eaten up by the earth anyway, or cremated, or whatever.

48:13
[17:51] ... They will then say, "Who will bring us back?" Say, "The One who created you in the first place." They will then shake their heads and say, "When will that be?" Say, "It may be closer than you think."

48:29
Treat Each Other Amicably This is a commandment to all of us, and we have to be very careful, because this is Satan's last stand.

48:38
The war of Custer's. General Custer.
48:44
Custer's Last Stand Dr. Khalifa: I don't know what the connection is, but... A man: There is something there.
48:50
Dr. Khalifa: There is some connection there. [17:53] Tell My servants... That's you and I. [17:53] ... to treat each other in the best possible manner, for the devil will always try to drive a wedge among them...
Devil will try to drive a wedge between believers to contradict the Quran – believers are brothers and sisters.
49:02
This is his last... He failed to stop you from believing in God. He stopped to...
49:09
He failed to stop you from reading the Quran. He failed to stop you from being saved.
49:15
So, his last thing to do is to drive a wedge between the believers.
49:21
Because this will be a violation of God's statement that "the believers are brothers and sisters",
49:28
that "the believers are one family." It's a statement that God made, and Satan wants you to contradict that statement
49:38
by being averse to some other believer. So, we have to go out of our way to make it backfire on Satan.
49:45
If he tries to drive a wedge between you and another believer, you must reverse it. It takes work.
49:58
Pardon? 52? [17:52] The day He summons you, you will respond by praising Him,...
50:06
Oh, did I miss it? Yes. Okay. [17:52] The day He summons you, you will respond by praising Him, and you will then realize that you had lasted in this life but a short while.
50:19
Really very short. Sufficient for the test, but it's very short.
50:25
Just think of all the years that went by so fast.
50:31
Only yesterday you were a freshman in high school.
50:37
It goes like that. [17:53] Tell My servants to treat each other in the best possible manner, for the devil will always try to drive a wedge among them. Surely, the devil is man's most ardent enemy.
50:52
Because if he succeeds to drive a wedge between you and your brother or sister, the believers,
50:58
he can point at you and say "look, he or she is not a believer. "He doesn't have that brotherhood, sisterhood feeling that You stated."
51:07
Satan will say that. And Satan is the biggest crybaby.
51:13
He'll just look for anything to claim you. So don't give him a chance.
51:19
[17:54] Your Lord is the best knower of you. In accordance with His knowledge, He showers you with mercy, or in accordance with His knowledge, He requites you. We did not send you to be their advocate.
51:37
[17:55] Your Lord is the best knower of everyone in the heavens and the earth. In accordance with His knowledge, we preferred some prophets over others. For example, we gave David the Psalms.
51:48
We were talking about this yesterday. Many people, especially secular people, they think that David wrote the Psalms.
51:59
Which is true, but he wrote it with God's inspiration. God... we're told here God gave David the Psalms, because he deserved it.
God allows us to do Salat as a gift. Psalms. Prophets honored by God.
52:07
And I hope all of you were here when I said, for example, the five daily Prayers are a gift from God.
52:13
You know, the one who's doing the five prayers. God is allowing you to do the five Prayers as a gift from Him.
52:20
Because He knows you deserve, you deserve that gift. And this is proven by the prayer, Abraham's prayer. I like to repeat this, because it's very important.
52:36
Because when we do the five Prayers, we don't wanna feel like we're doing God a favor. We should feel the other way around.
52:42
We should feel that we thank God for the favor that God gave us to make us do the five Prayers.
52:49
Abraham's prayer was "please God, make me one who observes the five Prayers." (unintelligible)
53:01
Abraham said "please God, make me one who observes the five daily Prayers."
53:14

[17:55] ...we gave David the Psalms. You know, you always read that people who read the scripture, say "the Psalmist said this, the Psalmist said that."

53:23
They call David the Psalmist. They really, you know, act and write and consider that David is the writer of the Psalms.

53:34
But the Psalms is one of God's scriptures. It is all loving God, and it emanated from David, but God gave David the words to express that love.

53:56
Fine, fine. Even if that is correct, which is not. It is not correct.

54:02
God is the one who preferred, and He ordered us not to prefer anyone, and not to make distinction.

54:08
God preferred by necessity. He spoke to Moses, for example, a great honor that was not given to any other prophet.

54:16
The prophets that are honored in the Quran are the following: Moses, Jesus, and David. Not Muhammad, ironically.

54:23
So, if we are to pinpoint who are the prophets who are honored, and Abraham, excuse me.

54:31
If we are to pinpoint in the Quran who are the prophets who were honored to higher ranks by God, they were Abraham, Moses, Jesus, and David.

54:38
Named by name. You know, (4:125) **وَاتَّخَذَ اللَّهُ إِبْرَاهِيمَ خَلِيلًا** God made Abraham a close friend.

54:44
considered... I mean, what an honor this is. Moses, by speaking to him. Jesus, by being born as a prophet.

54:54
And David, God gave him the Psalms. He loved God so much. He was single. Loved the love of God.

55:02
And until today, if we want to express true love of God, we use David's words.

55:10
A man: Who was John? (unintelligible) Dr. Khalifa: John was a prophet. A man: But was he born as a prophet? Dr. Khalifa: Who? A man: John.

55:15
Dr. Khalifa: The Baptist? A man: Yes. Dr. Khalifa: Yes. A man: He's born as a prophet. Dr. Khalifa: No.

55:21
Dr. Khalifa: He was not born as a prophet. But Jesus was born as a prophet. He spoke from infancy and he said "I am a servant of God. God gave me the scripture."

55:34
When God told Zechariah that John will be a prophet, He said "he will be a prophet after he grows up."

55:46
56, [17:56] Say, "Implore whomever you claim to be gods beside Him." They have no power to relieve your afflictions, nor can they prevent them.

55:57
There goes St. Jude.

56:02
St. Jude, you read the paper every day and people are thanking St. Jude for the operation and for healing their disease.

56:08
Dr. Khalifa: Any paper, it's every day. A man: He was some Jewish guy, you know, St. Jude. Dr. Khalifa: No. Dr. Khalifa: Yes. St. Jude. He probably never existed. Yeah.

56:17
If he did exist, he now doesn't exist. He's in a powerless state. Even if he's alive now, he can do nothing to heal anybody.

56:25
I don't think he went to a school of medicine.

56:30
Soad would do a much better job than St. Jude. If we have a competition, Soad Khalifa against St. Jude, she would do a much better job, healing.

56:42
The Righteous Idols Worship God Alone 57 says, [17:57] Even the idols that they implore...

56:49
that is Hussain, Ali, Muhammad, Jesus, [17:57] ...are seeking the ways and means towards their Lord, wish for His mercy, and fear His retribution. Surely, the retribution of your Lord is dreadful.

57:02
We have this very well put in Sura entitled "The Prophets", 21,

57:08
that they are worried about their own neck. The Prophets themselves, they want to get as close as possible to God and they worry about their own neck.

57:21
58, [17:58] There is not a community that we will not annihilate before the Day of Resurrection, or inflict severe retribution upon them. This is already written down in the book.

57:32
Congratulations, God bless you. These are our two pages. Lisa and Susan.

57:40
There is some fantastic breakfast on the stove for you. You get to work.

57:51

Yes, of course. Very good. But should have waited until Lisa and Susan set out.
Followers go to work post early morning Q Study of 2 pages.
58:01
You can, you can hear it as you have breakfast.
58:08
Are there any workers who are going to work, huh? We're, we're the jobless ones.
58:16
Dr. Khalifa: Yes. You have to go by 8 by... A woman: I have to be there by 8. Behrouz: You can leave the door open now as everything is fine now.
58:22
Dr. Khalifa: Yes. Dr. Khalifa: Yes. Huh? Yes, leave it open. Yes.
58:38
Dr. Khalifa: Because it follows only a number of commandments.
58:44
It refers to the commandments starting at verse 22.
58:52
From 22 to 38 are a number of commandments. So, then, God is saying "this is some of the wisdom."
58:59
"this" referring to just these. Dr. Khalifa: Yes.
59:08
Dr. Khalifa: Yes. Those verses are some of the Quran, are part of the Quran.
59:17
God says "some of the wisdom revealed to you." So, whatever God reveals is wisdom. Hadith is not revealed from God. It's revealed from Satan.
59:25
The people have to have a choice between God's Wisdom and Satan's wisdom.
59:31
And all you need to do is to see how stupid Satan's wisdom is. Just open the book of Hadith at random.
59:38
From the names of the narrators to the subjects themselves are really very stupid.
59:45
I mean, Satan couldn't be that stupid. He must do it on purpose. Just to show God that people will follow him anyway, in disbelief.
59:53
Yes.
1:00:02
Dr. Khalifa: Yes. A man: (unintelligible) A man: It just looks to me that it refers to Quran. The Quran is some of it.
1:00:10
A man: The Quran is not (unintelligible) Dr. Khalifa: Oh, I see. I see. A man: That's the reason. A man: Oh, but there are other scriptures, too.
1:00:16
A man: (unintelligible) Dr. Khalifa: Yeah. A man: But Quran is complete (unintelligible)
1:00:22
Dr. Khalifa: But you see the Hadithists deny that the Quran is wisdom at all. Or part of the wisdom.
1:00:28
They say "Quran is the scripture and the Hadith is the wisdom." Ali Izadi, right?
1:00:34
That's what Ali Izadi said. Dr. Khalifa: Pardon?
1:00:40
Dr. Khalifa: Oh, yeah, they hold... A woman: Wait, wait. When you answer all the questions for me, when you answer the mystery,
1:00:46
Dr. Khalifa: Yes. A woman: I will go and ask what the reason behind all... A woman: I mean, I will look in Hadith for the reason behind it.
1:00:55
Dr. Khalifa: By the way, this didn't show up until we proclaimed that the Quran alone should be upheld. Did you notice that?
1:01:03
We never heard of this before. Only that this message became known that they started to say Quran is...
1:01:10
It's like they made a discovery. A woman: (unintelligible)
1:01:18
A woman: I've never heard of this before (unintelligible) Dr. Khalifa: Right. A woman: But Now when somebody says, (unintelligible) no idea.
1:01:24
A woman (unintelligible) but when they say it, I will (unintelligible) (Unintelligible)
1:01:40
A woman: People, they have no idea where they are from. Dr. Khalifa: By the way, Naima, this is another idea that Ihsan developed also.
1:01:46
But when they ask "where is the Salat in the Quran?" And Ihsan says "if the Salat is described in detail, every step of it, every word you utter, everything in the Quran, which will take quite a few pages, will you follow it?"
1:02:01
And the person says "of course, I follow it." She says "okay, let's take the first step in Salat." It is in the Quran, in Sura 5, verse 6.
1:02:08
It says "O you who believe, when you get up for the prayer, wash your face, your arms to the elbows, wipe your hair, and wash your feet."
1:02:16
"Is this what you do?" They all flunk. Because they don't do that. See?
1:02:22

God is giving you the first step in Salat, and you don't follow it. So why...? A woman: (unintelligible)

1:02:29

Dr. Khalifa: Yes, another... A woman: The only question is "but you're ruining the Salat." Dr. Khalifa: Exactly. A woman: (unintelligible) all the time (unintelligible)

1:02:41

A woman: ...how many Rak'as is Fajr, how many Rak'as in the Zohr, how many Rak'as is... Dr. Khalifa: Exactly. There's no difference.

1:02:47

A woman: (unintelligible) Dr. Khalifa: You know, if some Muslims were doing the Morning 3 Rak'as, and some were doing it 5 Rak'as and so on,

1:02:54

then God would have said "hey, the proper number of Rak'as is 2." A woman: Just like we do the Wudu. (unintelligible)

Details of Ablution in the Quran and still not followed by "Muslims".

1:03:06

A woman: Now, I was saying to this man "the Quran brings only one kind of people, and it's the believers. But then Hadith gives a lot of people."

1:03:17

A woman: The one that's Sahih, the one that's not Sahih, the one that's... Dr. Khalifa: Yes, take your pick.

1:03:23

A woman: I mean, they can pick whatever they want from Heaven. I mean, what leaves is where they are in their feelings and emotions and their bad things.

1:03:32

take your pick. (unintelligible).

1:03:38

Dr. Khalifa: You're quoting the Quran. A woman: Yeah, but if they make it without the requirement of the Quran, I mean, the Quran does say,

1:03:47

there is, I mean, it has to be this, you know, this and this only.

1:03:53

Dr. Khalifa: No, the Quran makes it almost impossible. A woman: Yeah, that's why Hadith makes it possible. (unintelligible)

Short term marriages that facilitate prostitution.

1:04:03

A woman: They have, they have like the, somewhere in Dawa, I don't know where, they marry somebody immediately, a few minutes and then divorce.

1:04:12

A woman: Oh, yeah? Dr. Khalifa: Now, this is a temporary marriage. A woman: Oh, they have it. They have it. I mean, I saw it in my country, where they have women in Morocco, women in Saudi Arabia,

1:04:22

then they take them to Saudi Arabia, and (unintelligible), they come back to Morocco. (unintelligible)

1:04:27

And it's acceptable. I mean, I had women in Morocco saying, yeah, (unintelligible), you know, to marry him (unintelligible)

1:04:35

Dr. Khalifa: No, no, no, it's a lot worse than that. You don't know what Ihsan... Dr. Khalifa: This is prostitution.

1:04:44

Dr. Khalifa: Right? A man: Shari'a prostitution. A woman: They wouldn't have Shari'a prostitution for two years.

1:04:49

Dr. Khalifa: No, no, no. This is for one hour, Naima. Dr. Khalifa: And this is only a few yards from the Ka'bah.

1:04:58

And this man was walking with three or four girls, and he's saying "زواج المتعة، زواج المتعة" "temporary marriage, temporary marriage."

1:05:06

So, a man will walk to him and say "I would like to marry this one."

1:05:12

And he says "for how long?" He says "two hours." "It'll be this much. How about this one?"

1:05:19

I mean, I mean, really, prostitution. And people get angry, and they go to the police, and the police will say "sorry, this is the Shia principle. We cannot interfere in religious affairs."

1:05:30

Dr. Khalifa: As if freedom of religion is rampant in Saudi Arabia. A man: Did they divorce?

1:05:36

Dr. Khalifa: Huh? A man: Did they divorce? Dr. Khalifa: Yes, they divorced after one hour or two hours. And you negotiate with the man.

1:05:43

This is only a few yards from the Ka'bah. It's really terrible. Dr. Khalifa: But... Yeah. A woman: Their thing is, Prophet Muhammad came, he made peace with them.

1:05:51

Hadith is helping (unintelligible).

1:06:04

We can't, we can't say Hadith came to preserve it.

1:06:10

A woman: Hadith came 200 years later. How can they preserve them? A woman: They couldn't preserve it. (unintelligible) much better before Hadith.

1:06:17

A woman: He says "how can we say so much (unintelligible)..." A woman: (unintelligible)

1:06:22

A woman: They were believer before that. A woman: (unintelligible)

1:06:28
Dr. Khalifa: But you were quoting the Quran when you said "in Hadith, they can find anything they want." Sura 68, verse 38.
1:06:35
It says "they have a book in which they can find anything they want." 68:38
1:06:42
68 Sura 68, verse 38. Another multiple (unintelligible)
1:06:56
Yep.
1:07:09
A woman: And I thought, what you want is not what I want. So that's why we are fighting. A woman: And what the other person wants (unintelligible).
1:07:17
Dr. Khalifa: They're always fighting. A woman: (unintelligible) so we will never be... Dr. Khalifa: We had a guy, he walked in three days ago from the Islamic Center here,
1:07:25
saying that they're fighting so much, there is so much hatred and so much fight "I'm sick and tired of it, I'm looking for another place."
1:07:34
A woman: Rashad. Dr. Khalifa: Yes. Feroz: 68:35 says, [68:35] Shall we treat the muslims like the criminals?
1:07:42
Dr. Khalifa: Right. Feroz: Really profound. Dr. Khalifa: Yes. Feroz: But can they see that?
1:07:48
Dr. Khalifa: No. They can't see it. Dr. Khalifa: (68:35) أَفَنَجْعَلُ الْمُسْلِمِينَ كَالْمُجْرِمِينَ
1:07:54
Yes, this is the word that's used. 35 It says, مُجْرِمِينَ
1:08:00
It's a very bad word in Arabic. مُجْرِمِينَ Criminals They are the ones who have a book where they can find anything they want.
1:08:28
Dr. Khalifa: You mean you have a question? I can't believe it. Okay, go ahead.
1:08:35
A woman: We find out that when a righteous guy goes straight to Heaven, but in the Quran you read that
1:08:43
on the Day of Resurrection, when you wake up, it is like waking up from a sickness.
1:08:49
A woman: And in this word, you say, you know, La Elaha Ella Allah, (unintelligible) it's the same (unintelligible) Dr. Khalifa: Right.
1:08:58
A woman: But in here, (unintelligible) A woman: The believers, the righteousness (unintelligible) already, Dr. Khalifa: Yes.
1:09:05
A woman: and then the Day of Resurrection. And what happens? Dr. Khalifa: Right. Dr. Khalifa: Okay, do you know what happens before the Resurrection?
1:09:14
A woman: Before the Day of Resurrection? Dr. Khalifa: Before Resurrection. Immediately before Resurrection, what happens? A woman: Everything will be destroyed and all the things will be annihilated.
1:09:24
Dr. Khalifa: Okay, before that, what happens? Dr. Khalifa: It's okay, I mean, I'm not... just because... you know it, but I want to bring it out.
1:09:33
Dr. Khalifa: Okay, what happens just before Resurrection? A woman: The earthquake and... Dr. Khalifa: Before that?
1:09:46
Dr. Khalifa: Okay, look at Sura 39. The answer is in Sura 39, Azar's answer.
1:09:56
Page 466.
1:10:01
And we have a correction to make because of the new information that the righteous do not die.
1:10:07
The righteous do not die. So, 466. And read, Azar, loud.
1:10:12
466. You're looking at the wrong page. Page 466.
1:10:19
466, read it from the top.
1:10:27
Azar: [39:68] The horn will be blown, whereupon everyone in the heavens and the earth will be struck dead...
1:10:34
Dr. Khalifa: Okay, I want you to, if this is your book, cross "dead" out and put "unconscious."
1:10:40
See, she already got it, right? Azar: Yeah. Dr. Khalifa: Mā Shā Allāh. Happy anniversary.
1:10:49
Edip: It's also, Rashad... Dr. Khalifa: Because this includes the angels, Azar. The angels also will be struck unconscious. Yes.
1:10:56
It says [39:68] ... everyone in the heavens and the earth... Dr. Khalifa: Everyone in the heavens and the earth. A man: Except (unintelligible)
1:11:02
Dr. Khalifa: Except Michael. Or Israfil, the one who is blowing the horn.
1:11:10

Feroz: Was it Michael or the other one? Dr. Khalifa: I don't know if it is Michael or Israfil, I forget. Is it Israfil?
1:11:15
Dr. Khalifa: Israfil? Yeah. A man: Israfil. Dr. Khalifa: It doesn't matter, I think it's...
1:11:24
Dr. Khalifa: Yes. The one angel who blows the horn. Israfil or... Israfil, yeah.
1:11:30
A man: Rashad, (unintelligible) Dr. Khalifa: So, even, even the people in heaven will be unconscious.
1:11:38
The reason I wanted to cross out "dead" and put "unconscious" is because it is the same word used when Moses was not unconscious,
1:11:46
when God manifested Himself. Moses said,
1:11:52
(7:143) فَصَبَّحَهُمْ بُكُورًا وَقَدْ خَرُّوا مُوسَىٰ صَبَّاحًا And the word used here is, if you can see it in Arabic, it says, (39:68) فَصَبَّحَهُمْ مَنْ فِي السَّمَاوَاتِ وَمَنْ فِي الْأَرْضِ
1:11:58
The word فَصَبَّحَهُمْ means "unconscious." So, in this translation, it's not accurate.
1:12:07
Edip: It is also wrong, according to our previous information also, this would be the third death.
1:12:16
Dr. Khalifa: Right, exactly, exactly. Also, in addition to all of this, the people of the cave, they were asleep.
1:12:23
They were unconscious for 309 years. And God used the word "resurrection" for their waking up.
1:12:31
In fact, God used the word "resurrection" for our getting up every morning. And if you know how Barbara Jean sleeps, it's resurrection, alright.
1:12:49
Have a nice day. See you, IN SHAA ALLAH, at the Friday prayer. Alaykum As-Salam.
1:12:59
A woman: (unintelligible) has a question that Farhad asked. The answer is that A woman: (Unintelligible)
Deliberate traps in the Quran for those seeking excuses.
1:13:11
Dr. Khalifa: "Some of the wisdom that we revealed to you." It has a good point in that the people who are looking for excuse, they'll find it.
1:13:18
Because God puts deliberate traps in the Quran for those people.
1:13:24
I'm thinking of how to put a subtitle, change it to avoid that problem.
1:13:30
We'll see. See what happens.
1:13:35
That's a long story. We're gonna call your son "Yahya", so he says, "why, why?"
1:13:42
Dr. Khalifa: Yahya Yuxel. Edip: Yahya Yuxel. Dr. Khalifa: We're expecting, did you know that?
1:13:49
Dr. Khalifa: News travel. A man: Why? Dr. Khalifa: He also. A woman: Is he having morning sickness?
1:13:58
Dr. Khalifa: He loves Apamea so much that when she has morning sickness, he has it, too. I brought him some lunch the other day and he said "I vomit."
1:14:06
Honest. Is this true? Listen, listen to him.
1:14:12
What did you say? Yes.
1:14:18
Yes. Explain, Edip.
1:14:23
Explain. You have no chance.
1:14:32
Dr. Khalifa: Guilty. Edip: Guilty. A man: Third one here, another one. Dr. Khalifa: Ok. Parivash. Just read the Quran.
1:14:43
Parivash: Sura Shams? Dr. Khalifa: Yes. A woman: Yes (unintelligible) Parivash: (unintelligible)
1:14:50
Parivash: Oh. Parivash: No, it's not Shams. (81:1) إِذَا الشَّمْسُ كُوِّرَتْ
1:14:59
Parivash: Sura 81 Dr. Khalifa: 81.
1:15:05
Dr. Khalifa: When God appoints angels to wake us up for the Dawn Prayer, and it takes a little nudge for most people.
1:15:14
But for Baba, they have to knock on the door or break it down, to get them to move out of bed and walk to the door and then...
1:15:21
This is true.
1:15:27
Dr. Khalifa: The best way to wake somebody up for that, I'm sure you all did this, you put the alarm away from the bed, right? A woman: Yes.
1:15:32
A woman: Yeah. Dr. Khalifa: If it's next to the bed, you go, and you're going back.
1:15:38

A woman: It's like when my cat's dreaming. Dr. Khalifa: The angels found that they have to knock on Baba's door,
1:15:46
before they opened the door and find out "Oh, Ok. He didn't do the Morning Prayer."
1:15:56
Mā Shā Allāh. (unintelligible). A woman: (unintelligible) He's like "Ok." He's already awake.
1:16:04
Dr. Khalifa: He prays Fajr, too. A woman: It is neat about the observation when I was home, that the Adhan, I mean, it doesn't end.
1:16:15
I mean, he's waking up everybody, but nobody is waking up.
1:16:21
A woman: I mean, it lasts something like half an hour. In Morocco. Dr. Khalifa: You mean in Morocco? Yes. Yes. Dr. Khalifa: In fact, they're cursing. A woman: Yeah.
1:16:27
A woman: Almost, I mean. Yeah. Dr. Khalifa: Putting the pillows on their ears. A woman: But they don't even do that. Nobody is telling them to leave the cooking.
1:16:35
I mean, I was teasing my mom, I said " (unintelligible) disturbed so much for half an hour already. But look at now. You need to leave a little bit in the kitchen."
1:16:44
Dr. Khalifa: Yes. A woman: ...and turn to God. They will leave it all day long. Nobody is really taking responsibility of time of the prayer. They leave it there.
1:16:51
The evening will come and... Dr. Khalifa: Where we lived back home, they built a mosque with a minaret and with big loudspeakers
1:17:01
that were pointing right to the window of Soad, Soad's room. And this ugly voice guy, you know, every day, one hour before dawn, he comes up and just rattles on some nonsense very loud.
1:17:13
A woman: I mean, it's horrible. Dr. Khalifa: Yes. And usually she's studying for, you know, school of medicine. Dr. Khalifa: She's up until 2 o'clock in the morning or something. And she puts her head down and then there comes this guy.
1:17:22
They actually complained to the police about him. But he won. Yes.
1:17:29
It's really terrible. One hour. Dr. Khalifa: You're right. They don't do it in other prayers. Only in the Fajr Prayer.
1:17:36
A woman: And the one that nobody would (unintelligible). Dr. Khalifa: Yes. Dr. Khalifa: I think the people hate anything that's connected with the Prayer or God or Islam.
1:17:47
What's your question, Azar? Azar: Just one more.
1:17:53
Dr. Khalifa: Just one more. I love that phrase. Azar: One at a time. One at a time.
1:18:01
Azar: In Sura 2, verse 29, we read, [2:29] He is the One who created for you everything on earth, then turned to the sky and created seven universes therein,* and He is fully aware of all things.
1:18:16
And this question come up that, in another verse, we read that everything was in masses and then
1:18:24
explosion happened and there was, you know, everything was created. And when I think about that and I read this one, I am confused that the earth was
1:18:35
Azar: created first and then the seven heavens. Dr. Khalifa: The provisions for every ant, horse and mouse were calculated.
1:18:42
The design was done. Everything was created first. Then... but the process of creation is the big bang.
1:18:51
Azar: So, this is just the provisions that creates... Dr. Khalifa: The earth, the earth took four days. I mean, design and calculate the provisions and everything.
No time sequence as far as God is concerned.
1:19:03
A woman: 4 days for the... Dr. Khalifa: Just the earth. A woman: Just the earth. Dr. Khalifa: (41:10) وَقَدَّرَ فِيهَا أَمُوتَهَا فِي أَرْبَعَةِ أَيَّامٍ
1:19:12
See? God created the whole universe... This is in Sura 41, verse 11.
1:19:20
Edip: Rashad, Thumma (ثُمَّ) in Arabic, doesn't feel, in Quran, creation doesn't mean always a time sequence. Dr. Khalifa: Right.
1:19:29
Sometimes, it is like this. Dr. Khalifa: As a matter of fact, there is no time sequence. As far as God is concerned, there's no time.
1:19:36
Edip: To show us, even to teach us. Dr. Khalifa: Yep. Everything existed. Edip: No, 14, 15, to teach us sometimes God's time sequences.
1:19:44
Dr. Khalifa: There's no time sequence for God. Edip: But... Yes. Dr. Khalifa: Did you hear that, Azar? Dr. Khalifa: Did you hear that? Azar: No, I...
1:19:51
Dr. Khalifa: Go ahead. Edip: Here, especially in verse 29, there is no time sequence because Thumma (ثُمَّ) here, in fact,
1:20:01
means "additionally, He created, how do you say, seven universes and He expanded them."

1:20:09

He created this and also this. Thumma (ثُمَّ) doesn't mean, "then" doesn't mean. Edip: Here it is translated as "then."

1:20:16

Dr. Khalifa: So, there's no time sequence for God. In other words, before the seven universes were created, God knew that the earth will be created, that Azar will be born

1:20:23

and will move to San Francisco and will marry Mehdi at Masjid Tucson. God knew that. So, it was already created, even though there is nothing yet, as far as we're concerned.

1:20:32

So, there is no time sequence as far as God is concerned. Azar: I said maybe, for example, you build one, the building, and you didn't finish the design,

1:20:41

but you go first to your room and you finish this for design.

1:20:47

Azar: Furniture and go back... Dr. Khalifa: You know in your head how many rooms you're gonna have, what it will look like.

1:20:54

Edip: Rashad, in Arabic, Meen Ba'di Zalika (مِنْ بَعْدُ ذَلِكَ) shows time sequence "after this."

1:21:00

Edip: But Thumma (ثُمَّ)... Dr. Khalifa: And usually Meen Ba'di Zalika (مِنْ بَعْدُ ذَلِكَ) applies to people. You disbelieved Meen Ba'di Zalika (مِنْ بَعْدُ ذَلِكَ), or you believed Meen Ba'di Zalika (مِنْ بَعْدُ ذَلِكَ), or you went to another town Meen Ba'di Zalika (مِنْ بَعْدُ ذَلِكَ).

1:21:09

Dr. Khalifa: So, it applies to the creatures, not to the Creator. As far as God is concerned, there is no time.

1:21:16

Therefore, there is no sequence. It means that the people who will be born a hundred years from now,

1:21:22

God already knows about this. So, are they created yet?

1:21:28

Yes. But they are not in existence yet. Dr. Khalifa: They will be here a hundred years from now.

1:21:34

A man: As long as we're concerned, they're not. Dr. Khalifa: Right. Dr. Khalifa: As far as we're concerned. A man: I mean, who said that past, future, and past and present and future do not exist at the same time?

1:21:44

Dr. Khalifa: This is why God tells us about the Day of Resurrection in the past tense, as if it happened, which is true. As far as God's concerned, it happened. Everything is done.

1:21:52

That's why when God says Satan went to Hell, nobody can say "is it possible that God will forgive Satan", because God already tells us what happened in the future.

1:22:04

Parivash: But the word for English, everybody understands that way, because when we say

1:22:10

"everything on earth, then turned to the sky and created seven universes, and designed seven universes,

1:22:18

Parivash: or created? Dr. Khalifa: created.

1:22:24

Dr. Khalifa: It doesn't matter. We shouldn't pick on these little things. We should understand that God created the earth and the heavens.

1:22:30

Parivash: Because when people ask us, we should have an answer for that. Dr. Khalifa: Well, this is the answer. Say "why is it relevant to you whether the earth came first or Jupiter came first?"

1:22:42

Parivash: You know, unfortunately... Dr. Khalifa: Ask them the question. When they ask you, answer the question. Dr. Khalifa: "Is it important whether Jupiter came first or the earth came first?"

1:22:51

"Is it important to you?" Dr. Khalifa: But this is what God says. If the people who have doubt in their hearts, they will ask you those questions as you're talking to them.

1:23:01

A woman: You said 41, which verse? Dr. Khalifa: 41:11 A woman: 41:11. Thank you.

1:23:12

A man: Rashad, (unintelligible) God honored Muhammad in Quran by saying that we made you a prophet as a mercy for the people?

1:23:20

Dr. Khalifa: No, (unintelligible) A man: (unintelligible) Dr. Khalifa: No.

1:23:26

Dr. Khalifa: They used the same expression to (unintelligible). A man: (unintelligible) Dr. Khalifa: (unintelligible)

1:23:36

Dr. Khalifa: It's like when they say "God and His angels make Salat from the Prophet." But then, 10 verses ahead of that, it says "God and His angels make Salat from the believers."

1:23:45

The same words. (33:43) هُوَ الَّذِي يُصَلِّي عَلَيْكُمْ وَمَلَائِكَتُهُ It's exactly the same words, but you never hear them saying

1:23:52

that "God and His angels make Salat...", I'm using the expression "make Salat", which is because whatever the understanding of that is,

1:24:00

God does it for Muhammad, and He does it for the believers, also.

1:24:05

Now, this is exactly 13 verses before (33:56) صَلُّوا عَلَيْهِ وَسَلِّمُوا تَسْلِيمًا which is a big deal, you know, they make out of it.

1:24:11

13 verses before that, God says, (33:41) 33:41] يَا أَيُّهَا الَّذِينَ ءَامَنُوا O you who believe, (33:41) وَسَبِّحُوهُ بُكْرَةً وَأَصِيلًا (33:42) اذْكُرُوا اللَّهَ ذِكْرًا كَثِيرًا

1:24:18

Oh, there (33:43) هُوَ الَّذِي يُصَلِّي عَلَيْكُمْ وَمَلَائِكَتُهُ

1:24:23

Dr. Khalifa: But they pick out, they make it exclusive for the Prophet Muhammad. A woman: Well, they wanted to give him a status higher than anybody in the Quran. Dr. Khalifa: Exactly. Mā Shā Allāh

1:24:33

Dr. Khalifa: Second word's out of context. (21:107) وَمَا أَرْسَلْنَاكَ إِلَّا رَحْمَةً لِّلْعَالَمِينَ

1:24:40

God uses the same thing for Jesus. He said (19:21) وَرَحْمَةً مِنَّا When they say, (21:107) وَمَا أَرْسَلْنَاكَ إِلَّا رَحْمَةً لِّلْعَالَمِينَ we sent you as a mercy to the people,

1:24:49

they consider Muhammad to be the mercy. But what God is saying, and this is what the believers will see, is that out of mercy from God,

1:24:56

He sent Muhammad or any messenger to remind the people and save them.

1:25:02

So, it's the message from God. So, when it comes, the same word is used for Jesus, (19:21) وَرَحْمَةً مِنَّا

1:25:19

Okay, well, Edip gave us a clue. Go take a nap.

1:25:25

Everybody.

1:25:31

Dr. Khalifa: IN SHAA ALLAH, we'll meet at 12:30. A woman: IN SHAA ALLAH.

1:25:38

A woman: Jumu'ah Dr. Khalifa: The Jumu'ah, yes. Excuse me. Yeah, 12 O'clock. Maybe at 12.

1:25:45

Dr. Khalifa: Great talk at 12. Don't miss it.

1:25:50

A man: It's even more exciting. Dr. Khalifa: More exciting. Dr. Khalifa: Saeed Talari is here, folks.

1:25:56

Dr. Khalifa: Mā Shā Allāh. Mā Shā Allāh A man: I am tired. Dr. Khalifa: Thank God.

1:26:04

A man: Oh, yes. Dr. Khalifa: When he wakes up, it's gonna be a lot of trouble.

1:26:11

A man: Ow, ow, ow, I will get sick. I will get sick. Dr. Khalifa: Why? You expected...

1:26:22

Dr. Khalifa: Go ahead. A man: One, two, three, four, five. You have to count to know the number. Behrouz: Right. Right.

1:26:32

A man: So, to make it easy, their number you get. A man: You see what I'm saying? Behrouz: The verses.

1:26:37

A man: Yes. Behrouz: (unintelligible) A man: Yes. Yes. Behrouz: What about the instructions God told Muhammad?

1:26:43

Muhammad put this verse in this Sura with this verse. A man: After the one that was there. Behrouz: After the one.

1:26:50

A man: After the one that was there. Behrouz: What about that he would say "put it before this." Behrouz: He could have said that. A man: How can... There were no numbers. How can he put it before?

1:26:58

A man: There were no numbers. Behrouz: Oh, Ok. A man: You understand? How would he know what number is this? Parivash: It has to be sequence.

1:27:03

A man: Because it came to him as in the sequence that came to him Suras, also it came to him in the sequence of verses. The verses also in sequence.

1:27:11

When I met you first, and then I met Mehdi, and then I met Farhad, and then I met Parivash, and then I met...

1:27:22

In the sequence that I met you, I know "oh, you number one, you number two, you number three, you number four."

1:27:28

Because I can count which one I met first. And then I forget, if I forget the name, then I can put numbers.

1:27:34

A man: Yes, I know. Parivash: Yes, that means, yeah, that means when he said that the Sura Al-Muddath-thir, this is the...

1:27:41

no, he finished Al-Muddath-thir, and God says "now, it's Sura Hamd." Sura Al-Hamd Go to Sura Hamd but not numbers.

1:27:46

Parivash: Now is Sura... A man: He doesn't know numbers. He said "Now, this is Al-Fātehah. A man: This is Al-Fātehah.

1:27:52

Parivash: Now is Sura Sham. A man: When you put it in a book, you're gonna put this one number five. This will be the fifth one. You understand?

1:28:01

Because the first one was, because the first one came to him already, is Sura "Iqra."

1:28:10

And the second one was Sura "Nun." The third one was Sura Al-Muzzammil.

1:28:16

The fourth one was Sura Al-Muddath-thir. He asked him to start here now and this is another Sura, number four now. No verses now.

1:28:24

He starts... There's something called verses, there's something called Sura. That's all he knew. Okay, now this is another Sura now.

1:28:31

Now, he knows this is the fifth Sura. Okay? Now, has the fifth Sura finished or not? He doesn't know that.

1:28:38

He believes it's there. Now, he will go and tell him, this now is on in the Sura Al-Muddath-thir.

1:28:46

Then, continue Sura Al-Mud... Then, he will go and...

28 Quran Study From Parivash 128 Sura 45;33 Parivash's Home 19 Math

Dr. Khalifa: أعوذ بالله من الشيطان الرجيم Bism Allah Arrahman Arraheem

0:06

[45:33] The evils of their works will become obvious to them, and the very things they mocked will come back and haunt them.

0:13

[45:34] It will be proclaimed: "Today we forget you, just as you forgot the meeting of this day. Your abode is the hellfire, and you will have no helpers.

0:24

[45:35] "This is because you mocked and ridiculed GOD's revelations, and were preoccupied with the first life." Consequently, they will never exit therefrom, nor will they be excused.

0:38

[45:36] To GOD belongs all praise; Lord of the heavens, Lord of the earth, Lord of the universe. [45:37] To Him belongs all supremacy in the heavens and the earth. He is the Almighty, Most Wise.

0:50

In the name of God, Most Gracious, Most Merciful. [46:1] H. M. [46:2] The revelation of this scripture is from GOD, the Almighty, the Wise.

0:57

[46:3] We did not create the heavens and the earth, and everything between them except for a specific purpose, and for a finite interim. Those who disbelieve are totally oblivious to the warnings.

1:08

[46:4] Say, "Consider the idols you have set up beside GOD. Show me what on earth did they create. Do they own part of the heavens? Show me any other scripture or any piece of knowledge that supports your idolatry, if you are truthful."

1:25

The Idols Totally Unaware [46:5] Who is farther astray than those who idolize beside GOD idols that can never respond to them until the Day of Resurrection, and are totally unaware of their worship?

1:41

This is what most Sunnis and Shias do. The next page, The Idols Disown Their Worshipers*

1:48

[46:6] And when the people are summoned (on the Day of Judgment), their idols will become their enemies, and will denounce their idolatry.*

1:57

[46:7] When our revelations were recited to them, clearly, those who disbelieved said of the truth that came to them, "This is obviously magic!"

2:05

So, we're talking about idol worshipers who idolize people. Because we're told in verse 6,

2:11

[46:6] ...when the people are summoned (on the Day of Judgment), their idols will become their enemies, and will denounce their idolatry.*

2:19

So, Ali will have to denounce all the Shias, and Muhammad denounces all the Muslims.

2:26

Dr. Khalifa: In fact, this is documented in the Quran. A man: There's (unintelligible) Muslims. Dr. Khalifa: Hmm?

2:31

A man: There's (unintelligible) Dr. Khalifa: Yes. A man: And their idols can never respond to them until the Day of Resurrection.

2:36

Dr. Khalifa: Exactly. A man: (unintelligible) Dr. Khalifa: And Muhammad and Ali and Hussein cannot respond to anybody.

2:42

A woman: Until the Day of Resurrection. Then, they will be disown them. Dr. Khalifa: Then, they disown them. Right.

2:50

They never knew about you. Now, these people, these particular people, [46:7] When our revelations were recited to them, clearly,...

2:57

that is worship God alone, uphold the word of God alone, the creed is La Elaha Ella Allah,

3:03

[46:7] ...those who disbelieved say to the truth that comes to them, "This is obviously magic!"

3:09

[46:8] When they say, "He fabricated this," say, "If I fabricated this, then you cannot protect me from GOD. He is fully aware of everything you scheme. He suffices as a witness between me and you. He is the Forgiver, Most Merciful."

3:27

When I apply this to me personally, I notice always when it says "say", it is already said.

3:34
I always tell them "if I'm a liar, then this is my problem. What is the message? What am I telling you? I'm telling you, worship God alone, and uphold the word of God alone.

3:42
If I'm lying to you, this is my problem, as far as you're concerned. You can benefit from the truth, if it is truthful, and you can benefit from the message. If I am a liar, it's my problem, not yours."

3:55
[46:9] Say, "I am not different from other messengers. I have no idea what will happen to me or to you. I only follow what is revealed to me. I am no more than a profound warner."

4:08
[46:10] Say, "What if it is from GOD and you disbelieved in it? A witness from the Children of Israel has borne witness to a similar phenomenon,*...

4:18
So, look at the footnote here.

4:23
*46:10 This witness is Rabbi Judah the Pious (11th Century A.D.), who discovered the same 19-based mathematical code in intact fragments of the scripture (see Appendix 1).

4:35
So, obviously, number 9, "say" here, refers to our generation.

4:40
[46:9] ..."I am not different from other messengers. I have no idea what will happen to me or to you. I only follow what is revealed to me. I am no more than a profound warner."

4:48
[46:10] Say, "What if it is from GOD and you disbelieved in it? A witness from the Children of Israel has borne witness to a similar phenomenon,* and he has believed, while you have turned arrogant. Surely, GOD does not guide the wicked people." Minimum Criteria for those in the "middle of the jungle". Those who see the proof and reject the Dr. Rashad Khalifa are going to hell.

5:01
Rabbi Judah the Pious is undoubtedly a believer when you read his writings. God alone, in fact, he's a strict scripturist, just like we are.

5:10
Number 11, [46:11] Those who disbelieved said about those who believed, "If it were anything good, they would not have preceded us to it." Because they were not guided thereby, they said, "This is an old fabrication!"

5:27
Number 12, [46:12] Before this, the book of Moses provided guidance and mercy. And this is a confirming Arabic scripture to warn those who transgressed, and to give good news to the righteous.

5:38
Good News [46:13] Surely, those who said, "Our Lord is GOD," then led a righteous life, will have no fear, nor will they grieve.

5:45
Sounds familiar? Number 14, [46:14] They have deserved Paradise, where they abide forever; a reward for their works.

5:55
Congratulations. Any questions? Parivash: Yes. That is Sura... Those who are Christians, not here, but those who not fear, (unintelligible). The question was

6:14
those who are Jewish or Christians, no fear. How about the people who do not believe you are messenger?

6:24
Dr. Khalifa: Say "they're going to Hell." Parivash: Ok. They say "how about this?" Dr. Khalifa: Say... Parivash: I told them something.

6:29
Parivash: I said "this is for people who didn't reach the truth." Dr. Khalifa: who don't know. Yeah. Parivash: If you, if you show...

6:35
Dr. Khalifa: If these people, if they come and see the proof, I give them the proof, I give them the message, And they say, and they don't believe, they're go to hell. Parivash: Ok. Yes. And they, they go. Yeah. Yeah.

6:43
Parivash: I, I... Dr. Khalifa: If they are believers who are included here, they readily accept everything. Parivash: Yes.

6:50
Parivash: I said "for the person of belief, now is the time after Moses."

6:55
And everybody, you know, they don't know and they die or they all, they all Heaven.

7:00
Parivash: But if you did show them the truth, and they still, they say "no, we don't believe." Dr. Khalifa: Yes. Dr. Khalifa: They go to Hell.

7:07
Dr. Khalifa: Yeah. This is for people who don't know. They're in the middle of the jungle. They don't know anything about Quran or anything... But anytime you show them the Quran, they'll believe it.

7:15
They find nothing objectionable in it. You show them any proof from God, they accept it. You see, God will guide them and make them... I mean...

7:23
Parivash: And after this, Alhamdu Lillah, they say "yeah, yeah, this makes sense." Dr. Khalifa: Yeah.

7:30
A man: Would it be appropriate if somebody, regarding verse 10, [46:10] ...A witness from the Children of Israel has borne witness to a similar phenomenon,...

7:42
A man: If people say "well, it also means that this verse also, a part of the verse also refers to Jesus",

7:50
A man: I would say "yes, it used to refer vis-à-vis Muhammad, but now it refers to vis-à-vis, Rashad." Dr. Khalifa: No, actually...

7:58
Dr. Khalifa: No, it never refers to Jesus.

8:05
No, Jesus is not considered one of the children of Israel in the Quran.

8:11
Dr. Khalifa: He's considered the vanguard of a new movement and a whole new religion.

8:17
A man: In the Quran, it says this? Dr. Khalifa: Yes. Dr. Khalifa: (46:10) وَشَهِدَ شَاهِدٌ مِّنْ بَنِي إِسْرَءِيلَ

8:22
You know, if it was Jesus, God would have said "Jesus borne witness." He wouldn't call Jesus one of the children of Israel.

8:31
A man: There has no... I mean, there are two possibilities. One is that the verse had a particular relevance at the time of Muhammad

8:41
and it has a further deeper relevance at your time.

8:48
Dr. Khalifa: No. A man: But not this one. Dr. Khalifa: It's just one of the things that were to come later, to become obvious later.

8:57
A witness from among the children of Israel borne witness to something like it.

Dr. Rashad Khalifa Explains Rabbi Judas the Pious.

9:02
But Jesus didn't bear witness to something like the Quran. It's totally different.

9:08
This is... There's no question that it is Rabbi Judah the Pious. A man: And he has believed. Dr. Khalifa: And... Right.

9:17
Dr. Khalifa: Ok... Bism Allah Arrahman Arraheem In the name of God, Most Gracious, Most Merciful

9:23
It was an excellent brief presentation of the perpetual miracle that God sent to us.

9:31
That is to be witnessed by anybody, in any place, at any time.

9:38
Anybody in Tokyo, Japan, can open this and witness the miracle. This mathematically coded book. This is an original idea.

9:48
And I have to take you back a few years, a few centuries actually, where the realization came first that God spoke to us in mathematics.

9:59
It was about 900 years ago when a Jewish Rabbi discovered this number 19 in the intact remnants of the scriptures.

10:11
Specifically in the prayers that were given to them through Abraham, from prophet Abraham,

10:17
just like our Namaz came through Abraham. What happened about 900 years ago was that the Jews in France added a short statement

10:27
to their morning prayer, which was "blessed are those who follow the righteous path."

10:34
They just added this harmless, seemingly harmless statement. Rabbi Judah the Pious, who was living at that time, just wrote a barrage of literature,

10:44
eight huge volumes, as to why this short statement would destroy what he called Divine rhythm,

10:57
or the key that causes contact between us and God. And he showed that the number 19 is the basis of the scriptures.

11:06
The language of God is speaking to us, that it is the key to the Word of God. And I have it reproduced here, in the appendix.

11:20
Actually, Rabbi Judah the Pious, I think some of you know this, is actually mentioned in the Quran, in Sura 46, verse 10.

11:35
I reproduced part of his writing about this, on page 636 of this book.

11:44
Now, I'm quoting from a book entitled "Studies in Jewish Mysticism." It says "the people, Jews in France, made it a custom to add in the morning prayer,

11:54
"the words, Ashrei temimei derekh, which means, blessed are those who walk the righteous way.

12:00
"And our Rabbi the Pious, of blessed memory, wrote that they were completely and utterly wrong.

12:06
"It is all gross falsehood, because there are only 19 times" Now notice the number 19.

12:12
"There are only 19 times that the Holy Name is mentioned, in that portion of the morning prayer.

12:17
"And similarly, you find the word Elohim, which means God, 19 times, in the pericope of the Ve-elleh shemot.

12:25
"Similarly, you find that Israel were called sons 19 times, and there are many other examples."

12:32
Now, listen to this. "All these sets of 19 are intricately intertwined, and they contain many secrets and esoteric meanings,
12:40
"which are contained in more than 8 large volumes. "Furthermore, in this section, there are 152 words", that's 19 times 8.
12:50
In 46:10 It's 46:10 or 42:10.
12:55
Let me see. Maybe 42:10.
13:04
It's not 46:10. Yes, yes. 46:10 says [46:10] Say, "What if it is from GOD...
13:11
the Quran [46:10] ... "What if it is from GOD and you disbelieved in it? A witness from the Children of Israel has borne witness to a similar phenomenon,*...
13:21
And I believe that this verse refers to Rabbi Judah the Pious, because if you read his writing, he's really a believer.
13:28
So, what I would like to say is that the number 19 has been always the key...
13:38
has always been the key in God's writings. And one of the strange statements of Galileo was that "mathematics is the language with which God created the universe."
13:49
That was a statement by Galileo. And we come to realize now that in nature, the number 19 also, which may be God's signature, is evident in God's creation.
14:04
The sun, the moon, and the earth line up in the same position every 19 years. And you can see this in detail again if you go to the library and look at the Jewish calendar,
14:12
in the Jewish encyclopedia, under calendar, you will see this, because they have to adjust the calendar once every 19 years.
14:20
The human body has 209 bones, which is 19 times 11.
14:26
The human fetus, it is now established that the human, a full term embryo, is in the mother's womb 266 days, 19 times 14.
14:38
And this is not 267. And you'll see this in the textbooks in medical schools.
14:43
So, obviously God puts His stamp on everything, including the Quran. The Quran is the only scripture that is intact.
14:51
And this is where we have the system intact. This... As Behrouz shared with you some of these phenomena.
15:04
Maybe you can, if you sit over there, you can see.
15:21
Just these numbers here will convince anybody that this is not a human-made book.
15:27
This top number, I'm gonna repeat because Behrouz went through it a little bit too fast.
15:33
This number here is the number of digits. If you write every verse in the Quran, the number of every verse. For example, the first Sura is 7 verses.
15:44
So, you write 1234567. Next Sura is 286 verses. So, you write next to that, 1234, all the way through 286.
15:53
And so on, all the way to the end of the Quran. So, we're talking about the physical structure of this book.
15:59
That's every verse in the Quran. You just write the number. You end up with a long number, which we have hanging on the wall at Masjid Tucson.
16:07
And the number of digits is 12,692. This number is a multiple of 19.
16:12
This is the number of digits in the long number, which takes about three pages, printed by the computer.
16:18
And the long number itself is also a multiple of 19. So, this confirms the physical structure of the book,
16:25
how many Suras and how many verses in every Sura. This number here is the number of verses in the Quran.
16:34
Right. You just look at this book and take the first Sura, 7 verses, second Sura, 286 verses, third Sura, 200 verses.
16:40
You add these numbers, you come up with this number, 6346, which is also a multiple of 19. The number of Suras, of course, is 114, which is 19 times 6.
16:51
The first verse, which is very famous, Bism Allah Arrahman Arraheem (بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ) is 19 letters.
16:57
Okay, 2698, this is the number of the word "God" in the Quran, the word "Allah" from the beginning to the end, 2698.

17:10
A multiple of 19. And considering how the Quran was revealed to the Prophet Muhammad, separated in time and place,
17:20
it is really incredible. In fact, when we were working on this book, we had about 6 college graduates, including 1 Ph.D.
17:30
And we had so much difficulty just keeping track of the word God. We made so many mistakes in doing this.
17:37
And... The book, of course, confirms itself, because if you know this, if you open this book,
17:45
any of you who has it, you'll see in English on any page, you'll see in English that the word "GOD" is written in capital bold letters.
17:51
So, anyone can easily verify this. And the number of these, the word God is down written on every page.
17:59
So, you can look at any page and confirm that it is 6 times. This page here, page 97, has 6 words "Allah" in it.
18:09
You can do this randomly on any page and make sure that these counts are correct.
18:14
And you go to the end of the book and you see that the word "God" is a multiple of 19, 2698.
18:20
19 times 142. This number here is the sum of all the numbers mentioned in the Quran, without repetition.
18:31
There are 30 numbers mentioned in the Quran. 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 19,
18:39
20, 30, 40, 50, 60, 70, 80, 99, 100, 200, 300, 400, 500, 600, 700, not 700, 500, 3,000, 5,000, 50,000, 100,000.
18:56
And you add them up, you get this total. 162,146, which is a multiple of 19.
19:01
Now, you notice these are physical facts. Nobody is saying "in my opinion, the total of the numbers in the Quran is 162,140." It's a physical fact. Yes sir?
19:12
A man: Is Quran has only one version, or I mean, different versions of Quran?
19:18
Dr. Khalifa: No, it's only one version. A man: One version. A man: There hasn't been any contest as to the different, any, no denomination.
19:29
Dr. Khalifa: No. There's only one Quran. Dr. Khalifa: There's one Quran. A man: Yes. Just like in Christianity, that the...
19:35
Dr. Khalifa: There are different versions of the Bible. A man: The Bible has different versions (unintelligible). Dr. Khalifa: There's King James Version. There is Martin Luther Version and so on.
19:42
Dr. Khalifa: But the Quran is only one version. There are no differences. A man: Right. Dr. Khalifa: So, this is a physical fact.
19:49
It is nobody's opinion. And it's... all you need to do is find the numbers in the Quran and add them up. If they don't add up to a multiple of 19, then the whole thing collapses. The subject is over.
20:01
But this has been in existence for 20 years now, and it's been scrutinized.
20:06
This research has been scrutinized more than any research in the history of humanity.
20:12
Because back home, they looked at all these numbers, trying to find any errors. It's been confirmed and reconfirmed that these are physical facts.
20:20
This number here is the total of the verses wherever the word "God" is mentioned.
20:27
The word "Allah" is mentioned. And this is really and truly awesome. Because, again, if you have a copy of this, just open it at random anywhere, and see the word "God."
20:37
Okay, I opened at page 259. So, open page 259 if you have this, and I can tell you what's in it.
20:44
In page 259, you see verses 25 to 33 in Sura 14.
20:50
And you noticed that the word God, Allah, is mentioned in verse 25. Verse 27 has 3 of them. Verse 26 has 0. Verse 28 has 1. 29 has 0. 30 has 1 word "Allah."
21:05
31 has 0, and 32 has 1, and 33 has 0.
21:10
So in this, there are 3 words "Allah" in verse 27, but we only add 27.
21:16
Verse 27. So, we add 25 plus 27 plus 28 plus 30 plus 32.
21:23
We add only the verses wherever the word "Allah" is mentioned, whether it is 1 time or 10 times.
21:30

And this is the total, in the whole Quran. It is 118123, which is also a multiple of 19.

21:36

So, all these phenomena defy coincidence, or defy human manufacture.

21:46

And we immediately realize that we have in our hands God's message to you.

21:53

You have full confidence, because this is the age of computers. People have been demanding tangible evidence. Now, we have tangible evidence,

22:01

that this is God speaking to us, and not any human being trying to fool us.

22:07

Ok, now that the book is proven by physical evidence, we have confidence that this is God speaking to us.

22:13

It is not any human being with the shortcomings of human beings.

22:18

And in the book, we have answers to these questions. And we know that God is speaking to us. God is telling us.

22:24

He created us, and He's telling us where we came from. He's telling us why we are here on this earth.

22:30

And He's telling us where we go from here. And, and like the Quran says, it says, none can tell you this like The Expert, one of the names of God, Khabir (خبير).

22:43

In Arabic, (35:14) وَلَا يَنْتَظِرُكَ مِثْلُ خَبِيرٍ None can tell you these things like The Expert. God is The Supreme Expert.

22:51

So now, I will try to share with you what God tells us about these questions.

22:58

Where did you come from?

Dr. Rashad Khalifa Explains the Story of Genesis.

23:05

Do you have some markers? Oh yes, thank you.

23:29

Ok, why are we searching for these questions? Where did we come from?

23:35

It's... We learn from Quran that we are here. We have no recollection of our previous past.

23:42

But we were all in God's kingdom. You can think of us as angels. We used to be angels, in God's kingdom.

23:49

So, if I draw a line representing all the creatures in God's kingdom, billions of years ago.

23:55

And this includes you and me. Billions of years ago. It's just very clear in the Quran that we existed in the past.

24:01

For example, in Sura 7, verse 143, God says "I gathered all of you, all the descendants of Adam, and I had you bear witness that I alone am your Lord."

24:10

God tells us that. But we don't have any recollection of this. We don't remember standing before God and saying "we bear witness You are our Lord."

24:19

So, the Quran teaches us we don't have any remembrance of that. And this is one of the purposes of us being here.

24:26

It's to come into an existence where we do not remember the past, and start, have a fresh start.

24:33

Then, we are given two messages, one message from God, and one message from Satan.

24:39

And we are supposed to freely make a choice. God gave us the freedom to choose. You can choose either one of them, either God's message, or Satan's message.

24:51

As you know, I'm gonna interrupt a bit in the, what God is telling us in the middle of the subject.

24:57

In the middle of the subject, Adam and Eve were in Heaven. And God gave them a message. This is because all of us, I'm sure, know this.

25:05

But God gave Adam and Eve a message. He said "you're in Paradise. You can enjoy anything you want, but not this tree."

25:11

"Don't come close to this tree." That was God's message to Adam and Eve. And they stayed in Heaven, God knows how long, maybe thousands, maybe millions of years.

25:21

So, but the point is, for as long as they respected God's commandment, God's law, they stayed there.

25:29

And then, most of you know, Satan went to them and said "eat from this tree."

25:36

Ok. So now, they have two messages. (unintelligible), how are you?

25:49

Adam and Eve were in Heaven, or in Paradise, or Heaven, the same thing. And they had a message from God telling them "do not eat from this tree."

25:57

And they had a message from Satan saying "eat from this tree." For as long as they obeyed, adhered by God's message, they stayed in Heaven.

26:05

Once they listened to Satan, they were kicked out of Heaven. And this is what brought us here.

26:11

I mean, as a second coming to this world, not the initial. This is not the original sin.

26:20

Eating from the tree is not the original sin as believed in the previous scriptures. So, this line is representing all of God's creatures, including you and me.

26:30

And these creatures of God have different responsibilities, different assignments or work.

26:37

And depending on their duties, they have different powers.

26:42

For example, if somebody assigns to you something to do in New York, your company says "you must go to New York and do something and come back."

26:50

They'll give you a ticket to get on a plane, fly to New York, do a job and come back. This is some power given to you.

26:57

So, God's creatures have different powers. One of the most powerful creatures, not the most powerful creature, one of the powerful creatures,

27:06

now we got to know as Satan, his God-given powers went to his head.

27:12

He had an egotistic problem. He thought he can be a god besides God.

27:17

He thought he can run a dominion besides God. And this immediately created various degrees of agreement or disagreement with Satan.

27:31

So, let's... just to put the matter in perspective, we're going to put a representation of how many creatures agreed with Satan.

27:39

The vast majority of God's creatures did not agree with Satan, only a few. I'm gonna represent them by this red bar.

27:45

I hope you can see it right there. So, the vast majority of creatures, they said "no way, Satan cannot be a god besides God. Only God can be a god."

27:58

I mean, this is from a practical point of view. There's simply more to God-hood than Satan thought.

28:04

And this is reflected in this world now, that Satan cannot run the world. There are many starving children, many diseases, earthquakes, cancer.

28:13

All this is Satan's incompetence, reflects Satan's incompetence in this world.

28:18

These creatures that did not agree with Satan are the angels. They....They are now, the creatures became classified.

28:25

The creatures who upheld God's absolute authority were classified as angels.

28:31

The creatures that rebelled and agreed with Satan were classified as, and then further classified. Let's now classify them as rebels.

28:41

They did not believe in God's absolute authority. Now, I'm going to take this little dot here. By the way, this little dot represents something like a trillion creatures.

28:50

The number of God's angels is not known to anybody except God. You see this in the Quran, in Sura 74, verse 31, where God says "only God knows the number of the angels."

29:00

Even the angels don't know how many of them there are. As you see, this red dot represents a trillion creatures.

29:08

And the blue line is much larger. So, there's countless numbers of angels.

29:13

I'm going to extend this dot here into a long line.

29:19

We're still dealing with the question, where did we come from? This line represents about a trillion creatures.

29:27

They are the creatures that agreed with Satan. And this includes you and me, on this line, to different degrees.

29:37

Let's say here are the least agreeable with Satan, and these are the most (unintelligible) agreeing with Satan.

29:43

God gave these creatures a second chance. First of all, the angels said "since these creatures here rebelled, put them all in Hell."

29:50

"Throw them all in Hell. Banish them from Your kingdom." And in Sura 2, verse 30, God says "No."

29:57

One of the names of God is the Most Merciful. God wanted to give us another chance to reconsider our decision to side with Satan.

30:08

In Sura 2, verse 30, God says "I know what you do not know." The angels said "throw them all in Hell." And God said "I know what you do not know."

30:15

What did God know that the angels didn't know? God knew that some of us, deep in our hearts, believe in God's absolute authority.

30:23

But for some reason, we were swept in the crowd, and we agreed with Satan to different degrees.

30:29

So... Pardon? So, this line here, representing the rebels, God gave them a second chance.

30:36

He said "how would you like to reconsider your agreement with Satan? (unintelligible). Mā Shā Allāh.

30:42

Mā Shā Allāh. Dr. Khalifa: She wrote me a fantastic letter. She's early, very early believer. It takes a lot of courage to do that.

30:53

A woman: I'm proceeding in 70. Dr. Khalifa: Yes. A woman: Why should we not have a messenger? A woman: I mean, I didn't distinguish between a messenger or prophet, whatever I said.

31:01

But I said "this is the time we need someone when God (unintelligible) in the Quran says, we have sent messengers for who went astray. And there were two at a time, many times.

31:12

But I said "in this time, when amongst the most chosen people, the Muslims, which had the last prophet, and things finalized and...

31:21

why even these people are going astray. We are going astray, like we know the wrong things that we are not supposed to do. A woman: All the Muslim countries are at war with each other.

31:29

Dr. Khalifa: Mā Shā Allāh. A woman: Why don't He, why don't He help us now? He won't forsake us, I was so sure. Dr. Khalifa: Yes. A woman: I said "He has to send somebody.

31:36

A woman: (unintelligible). A woman: (unintelligible) I said "I don't see why not." I would accept him,

31:43

A woman: if somebody showed up and said "I'm from God." Dr. Khalifa: Mā Shā Allāh. A woman: As long as he's reading the Word of God I said... Dr. Khalifa: Exactly. By the way, she's reading her letters.

31:50

Dr. Khalifa: You see, I went in there to look for her letter, which I know I have it somewhere, but I couldn't find it. What she just said now is exactly her letters.

31:57

But she added to it that, "but to have the messenger come in my lifetime, this is a dream that I never expected."

32:04

A woman: Immediately I said it, and then I said "oh, I may not be so lucky. I'm... And if he really comes, will I have the courage to stand up and say "oh, I accept somebody there. He won't be right in front of me. (unintelligible)." Dr. Khalifa: Exactly.

32:16

Dr. Khalifa: This is the letter, exactly. This is what she wrote. Can you imagine? And this is very early, when nobody else had any courage, you know, to...

32:23

Because it was very difficult, even on me, you know, initially. A woman: Something else is... Dr. Khalifa: So, is it an honor or not to know Mrs. Amir Ali?

32:31

Mā Shā Allāh. She's very special. Mā Shā Allāh. A woman: Something else is really flying to my head. I was doing it like three weeks ago.

32:39

(unintelligible) In my life, I had people who really played for, I don't know if they were (unintelligible) or not, but

32:47

when you see them, you felt they are. But what we did was, we just went to their houses, and we just expected them, or stayed with them for half an hour,

32:56

or maybe just played the period we were there. But (Unintelligible) And we were hoping that they will, like, help us or give us a spray, lighting.

33:07

And then I, you know, I compared that with what I have here.

33:12

I felt, like, completely different. You see, like, over there, we went and we saw "oh, like, (unintelligible)",

33:22

and we made a person, you know, into a sacred.

33:28

And we just "oh, (unintelligible)." You know, go and get something else from them.

33:33

I think at this time, we have lots of people like that. You know, they might agree, but the way that you see, like, we will be preached (unintelligible).

33:43

I mentioned to the group, I said "Alhamdu Lillah, we might play (unintelligible), rather than just leaving it at that. (unintelligible).

33:52
Dr. Khalifa: Yeah, Alhamdu Lillah. We're very special. Very special. So, the things that, what is happening now is, first of all,

33:58
give us a chance to finish the work that needs to be finished. Second is to select these very special people.
Dr. Rashad Khalifa explains the Elite of the Elite.

34:04
(56:10) السَّيْفُونَ السَّيْفُونَ The elite of the elite. There are people who are joining, and sometimes you think, if the opening up happened, like, last year,

34:16
look how many people would have been deprived of this position, of being elite of the elite.

34:21
Look, there's elite of the elite or (56:10) السَّيْفُونَ السَّيْفُونَ are the people who are in the vanguards of the movement, at the time when it is being persecuted, and everybody is calling us stupid, and

34:31
way off, and all the crazy, and all these names. You know, these are the... But the new generations don't deserve half the credit.

34:40
I always use the example of the Kuleyni's kids. Farima and... Farima and Amir. Farima is a believer, Mā Shā Allāh.

34:49
And she is... she went through, she's an adult, who made that very crucial decision.

34:55
When I stayed at their house, and then, after a couple of days, the neighborhood kids come and say "where is God's messenger? We wanna see God's messenger."

35:03
Because their kids are saying "Guess, who's sleeping in our house?" So, those kids, they grow up with this belief, so they don't, I mean, they have a fantastic credit,

35:15
but it's not half as, not one millionth of the credit that the adults get. So during this period, God has selected these special people.

35:24
Alhamdu Lillah. I'm glad this 33:7 came along.

35:41
Well, this is enough of the load for the morning. So, congratulations. The floor is open to general discussions.

35:48
A man: Can I ask one more question? Dr. Khalifa: Sure. A man: How do you explain to people, for example, the story of Shaykh Uthman, I don't know, are you familiar with him or not?

35:55
A man: I don't know. Dr. Khalifa: Oh, oh,... Dr. Khalifa: إزيك؟ كيف حالك؟ in Arabic.

36:03
Dr. Khalifa: What is the connection? إزيك؟ and كيف حالك؟ This is Egyptian (إزيك؟) and this is Arabic (كيف حالك؟)

36:09
When you think about... Look at this. Did you hear? Dr. Khalifa: I'm sure he knows what he's saying.

36:18
A woman: Yeah, sometimes (unintelligible) Dr. Khalifa: Translate.

36:28
Dr. Khalifa: Translate. Dr. Khalifa: Just when you think about it, it really is a proof of God's existence.

36:36
A woman: You know, and God designed our brains and, you know certain way we learn the languages and our (unintelligible) and the way we process.

36:43
Dr. Khalifa: As a matter of fact, language is the only thing that distinguishes the human being in the animal kingdom.

36:56
The closest creature to us, the chimps, or the orangutans. How come they don't speak?

37:04
They don't. Yeah. Behrouz: Is it like they were talking to animals?

37:10
Dr. Khalifa: Pardon? Edip: They have, I think, a different kind of communication. Dr. Khalifa: Oh yeah, oh yeah, definitely. But I'm talking about the sound.

37:16
Edip: And it's perfect. (unintelligible) Dr. Khalifa: Yes. Dr. Khalifa: The language of the bees. I was talking to Sammy today about the language of the bees.

37:22
Edip: (unintelligible) Yes. by then. Dr. Khalifa: Yes. Edip: Subhan Allah. Dr. Khalifa: I only mention it because I studied it.

37:27
I know how to speak bees bees. Like Chinese, English, Japanese, and bee bees.

37:37
The scouts, the bee scouts, will go and come back and tell the workers in the hive to travel five miles northeast, 45 degrees.

37:47
Yes, and they'll go exactly to that location where the food is, or the flowers are.

37:54
A woman: (unintelligible) Dr. Khalifa: Yes. A man: (unintelligible) Dr. Khalifa: They started... Pardon? A man: (unintelligible)

38:01

Dr. Khalifa: No, any day. On any day. They don't go by the sun, no. Yes. That's what God taught them. But they did this by marking, they're putting colored dots on the scouts and the workers, different colors.

38:14

And they watch them, and then the scouts will go and they'll come back and they do certain things. And it's the language of the bees.

38:23

A woman: Muhammad (unintelligible). Dr. Khalifa: Yeah? Muhammad?

38:41

God puts the variations in the languages as the sign that comes after the creation of the heavens and the earth.

38:49

This tells us how important it is. And the change in our colors.

38:59

Number 23 says, [30:23] Among His signs is your sleeping during the night or the day, and your working in pursuit of His bounties. In this, there are sufficient proofs for people who hear.

39:11

Only yesterday, I heard on the radio that sleeping is one thing that's still mysterious to the scientists.

39:16

They don't know why we need sleep and what happens that refreshes, changes a person who sleeps dead, like myself, at about 8:30, into a person who is alert.

39:28

What is it that happens in sleeping? Why do we sleep? They don't know. I mean, this is the last decade of the 20th century and the scientists do not know why we sleep, what the mechanism is or what happens.

39:45

[30:23] Among His signs is your sleeping during the night or the day, and your working in pursuit of His bounties. In this, there are sufficient proofs for people who hear.

39:58

[30:24] Among His signs is that He shows you the lightning as a source of fear, as well as hope, and He sends down from the sky water to revive a land that died. In these, there are sufficient proofs for people who understand.

40:17

Rain. Rain is just the sign of God.

40:24

Can you imagine if we send astronauts in a spaceship and give them a system where the water circulates?

40:31

The three astronauts in a spaceship and the water evaporates, makes a cloud around the spaceship, goes with the spaceship where it goes.

40:37

And then rains on them fresh water. Perfect. I mean, how will you, how are we gonna do this system? God did it on the spaceship Earth.

40:46

A renewable source of fresh water. We have to think. This is why God uses the word "think" a lot in the Quran.

40:53

See at the end of verse 21? These are signs or sufficient proofs for people who think.

41:03

If there is no rain on Earth for one year, everybody will die. This will tell you how important it is.

41:12

If there is no rain for one year on Earth, everybody will die.

41:17

So, that's among His signs. 25. [30:25] Among His signs is that the heaven and the earth are standing at His disposal. Finally, He calls you out of the earth, one call, whereupon you immediately rise.

41:33

After telling us all these signs, do we have any doubt that God will resurrect the dead? No doubt.

41:39

26, [30:26] To Him belongs everyone in the heavens and the earth; all are subservient to Him.

41:48

[30:27] And He is the One who initiates the creation, then repeats it; this is the easiest thing for Him...

41:55

Now "repeats", it can refer to resurrection, the second Hereafter.

42:00

Or it can mean that Rachel is a repetition of Batool.

42:08

Batool all over again.

42:15

[30:27] ...He is the One who initiates the creation, then repeats it; this is the easiest thing for Him. And to Him belongs the most sublime similitude, in the heavens and the earth. He is the Almighty, Most Wise.

42:28

Absurdity of Idolatry [30:28] He cites for you herein an example from among yourselves: Do you ever elevate your servants or subordinates to the level where they rival you, and to the point that you pay them as much allegiance and respect as is being paid to you? We thus explain the revelations for the people who understand.

42:50

God is the Creator of all things. And He is the boss of the universe. Will He elevate anybody to the status of a god?

42:58

I mean, if you don't accept this for yourself, why should you attribute it to God? Therefore, idolatry is absurd.

43:06

[30:29] Indeed, the transgressors have followed their own opinions, without knowledge. Thus, who can guide those who have been sent astray by GOD? No one can help them.

43:18

And verse 30 tells us that monotheism, worshipping God alone, is a natural instinct in all of us.

43:24

[30:30] Therefore, you shall devote yourself to the religion of strict monotheism. Such is the natural instinct placed into the people by GOD. Such creation of GOD will never change. This is the perfect religion, but most people do not know.

43:44

It's a natural instinct. We are born with the knowledge that we must worship God alone.

43:50

Then, God puts in your body a devil to tell you "no, don't do that."

43:56

"You must believe in Hussein, and Ali, and Muhammad, and Jesus, and Mary and Saint Francis.

44:06

Eidip: Here's the nature, Ok, this is the natural instinct placed into the people by God. Such creation of God will never change.

44:15

Eidip: In other words, with idol worship, they want to change the creation of God.

44:21

Dr. Khalifa: Right. Eidip: I have trouble with the understanding of this verse. But from here, the creation of, God created us to believe.

44:32

Dr. Khalifa: No, This means that the babies that will be born in the next 10 years, 100 years, to the end of the world, will have the same knowledge.

44:40

So, it will never change. This fact will never change. Because obviously, the vast majority of people do change.

44:45

Eidip: But they change by taking, by following the (unintelligible), they change the nature for God. Dr. Khalifa: Yes. Yes.

44:53

Dr. Khalifa: But this verse says it will never change. So, God is talking about the babies that will be born in the future.

44:59

(30:30) فَطَرْتُ اللَّهَ الَّذِي فَطَرَ النَّاسَ عَلَيْهَا لَا تَبْدِيلَ لِخَلْقِ اللَّهِ Eidip: But they grow and they can change.

45:18

Dr. Khalifa: How... Isn't it in every page of the Quran it says, devote yourself to God alone?

45:25

What's wrong with the people? Why do they have to stick Muhammad and Jesus with God? Why?

45:32

And they turn down right hostile when we tell them what God is saying.

45:40

Of course, we know why, but it just never ceases to amaze us. Every page of the Quran says "God alone, devote yourself to God alone. God is the One who created you. God is the One who has the power.

45:50

"Nobody else has power. They're all dead. They're powerless." Every page. A woman: Not even the ones who would read the Quran (unintelligible) that is they don't know (unintelligible)

45:58

A woman: (unintelligible)

46:03

Dr. Khalifa: Yeah. A woman: And they said "we shouldn't read the Quran with meaning. It's wrong. We're not supposed to. When it's translated, the meaning can be different."

46:12

A woman: "It can be very different." But you cannot probably have the exact meaning in Arabic.

46:17

A woman: But you can take up two, three different translations and see. And then, Dr. Khalifa: Exactly. A woman: coincidentally, if a woman asked me for anything, she had used an English translation from our house.

46:28

She wanted to find out where it was. And then I picked up this translation. And I showed her. And she read the verse and I read the verse.

46:35

A woman: And I said "see, the words are so different. And they've been printed years the past. But the meaning is the same." Dr. Khalifa: Exactly.

46:41

A woman: "So, why don't you read?" She said "oh, but we're not allowed to." A woman: You see, their heads, or their minds tells them "don't read the meaning, you'll be understanding it wrongly." Dr. Khalifa: Satan. This is what Satan tells them. Yes.

46:52

A woman: So, they are afraid to read them. Dr. Khalifa: Yes. A woman: I said "you're already missing it. And you don't know what you're missing."

46:58

A woman: "This is why you're not Praying at all." (unintelligible)

47:04

You just try reading and you'll see what it is. A woman: It's such a big deal. Very educated people are doing it. Never read it with the meaning.

Dr. Khalifa: Yes.

47:12

Dr. Khalifa: That's right. Parivash: They are afraid of their changing the meaning. (unintelligible) A woman: Yeah, they've been told that it is different. Parivash: If you don't understand, you're not allowed. Dr. Khalifa: It's just an excuse.

47:20
A woman: If I read it, I just read it in Arabic. Dr. Khalifa: It's just an excuse. Dr. Khalifa: Again, the fellow that I argued with for two or three hours here,
47:27
at the end of which I discovered he never read the Quran. And he has a degree in management.
47:34
So, how many textbooks did he read to get a degree in management? He memorized and took tests.
47:42
It's just an excuse to say that. When they say they don't read the Quran, it's because they don't care. Yes.
47:49
They don't believe. A man: Rashad, I think maybe part of it is some of the mullahs.
47:56
A man: They keep their jobs for themselves. Dr. Khalifa: Exactly. A man: They always try to make the Quran like it's not accessible.
48:02
A man: It's very hard to understand. Dr. Khalifa: Yes. Exactly. A man: "You have to come to me so I tell you what it means." Dr. Khalifa: Exactly.
48:08
A man: "And even in all of our lives, we never can understand the Quran." A man: And especially with the type of translation that they have. Dr. Khalifa: Yes.
48:14
A man: If you read the Quran, you can understand it more than if you read the Arabic because Arabic is not our language.
48:23
Dr. Khalifa: Exactly. Is Naghmeh here? A woman: No. I think she... Dr. Khalifa: Good. Then I can say... See, the lawyers, for example, create a jargon.
48:32
Life is very simple and the issues before the court are very simple. But the lawyers create such a jargon to monopolize the jobs, you know.
48:39
This is really a very valid principle. And the same with the chemists. Is Dr. Sabahi here?
48:47
The chemists create, I'm one of them, who create a certain jargon to monopolize the...
48:54
We make very simple things very complicated. Because this is how we keep our jobs.
49:01
The doctors do the same thing. In fact, they don't even write legibly, so you don't read the writing.
49:07
This is why they keep a secret code between them and the pharmacist.
49:12
A man: It's the same thing with the Hadith and the book of Hadith. Dr. Khalifa: Exactly. A man: I read some of it and I said "who can understand and remember this? This is
49:21
"twenty-eight things about how to just make a glass of water." Honestly, twenty-eight only to...
49:31
If they give you the glass of water, you have to hold it in two hands and you have to go up in one... Dr. Khalifa: Yes
49:41
A man: It's a lot of detail and so they make it. It's like a (unintelligible). It's so complicated. At the end of the day, you have no choice. Just go to the tax office so you can do it. You know, it's not straightforward, (unintelligible) yourself.
49:56
I think if they say "okay, (unintelligible) Quran and read Quran, then all these women have to go and work.
50:03
and they will be making more money. Dr. Khalifa: This is actually a funny incident. I told it to some of you. Bear with me.
50:10
A man: Isn't that you tried to tell a Mullah... Dr. Khalifa: I took an American friend with me to Egypt who was a new Muslim.
50:18
And we were in my hometown and the representative in the parliament for my section happens to be a fanatic Sunni.
50:28
And he met us and was very impressed by this new Muslim. And he invited him to a Coke. Ok. So, he said "let's have a Coke." So, he opened a bottle of Coke
50:38
and he offered it to Dale. That was my friend's name. So, Dale reaches for the bottle of Coke and this member of parliament, he pulls it back.
50:47
And then, he offers it again. So, Dale reaches for it and he pulls it back. So, Dale whispered to me "What's going on here?"
51:00
"What happened?" I said "just watch." So, he reaches for the Coke bottle and the member of parliament pulls the bottle away.
51:06
And then, he offers it to him again. I said "when you're reaching with your left hand." It turns out this is true.
51:12
So, he reached with his right hand and the member of parliament said "now, we are talking." And he gave him the Coke. But there are so many funny things that...
51:22
It turns out to be a rule. They make up this difficult rule.
51:29

If the guy has only left hand...

51:40

Dr. Khalifa: Yes. A man: There's a rule about how to go to bathroom Dr. Khalifa: Yes. A man: (unintelligible) say (unintelligible)

51:47

Dr. Khalifa: Oh my gosh, yes. A man: "We shouldn't say or...." Dr. Khalifa: This is the rules of going to the bathroom.

51:55

Dr. Khalifa: Are you saying the rules of going to the bathroom? A man: Yes. Dr. Khalifa: Yes. A man: This is just one of the... "You have to go with the left foot" for instance and so on.

52:02

"When you see your weight, the weight of body has to be on the left foot."

52:08

A man: There is a Hadith. I read it. A man: It says "the sun, the moon, and the wind (unintelligible), too."

52:15

A man: But eventually, (unintelligible) Dr. Khalifa: Barbara would like this statement. What if he had X-flags the night before?

52:26

A man: If the guy really gotta go, there's a rule. Dr. Khalifa: You forget all the rules. A man: The rules are in your name.

52:35

A man: The rules... A man: Is there not a rule how to cut your nails? Dr. Khalifa: Yes, oh my gosh. They have...

52:42

A man: Edip will destroy it.

52:47

Dr. Khalifa: Lisa, how did you cut your nails today?

52:53

A man: (unintelligible). Now first of all, we must try from our... Dr. Khalifa: Listen to her.

53:00

A man: Which finger is the most vulnerable finger? A man: And you think it must be this finger because it shows God is one.

53:10

A man: And then, because it's first study, but the second one is finger. A man: And it must be on the right side. Ok.

53:16

A man: And you go on the right side, finish this, and you come to... There is no finger on this side.

53:23

Dr. Khalifa: Don't be too sure. Go ahead. Edip: You go through this (unintelligible) from here or from here? It's tight.

53:30

Edip: It's close to this, but it's right. It's left or it's right. And how can we do? If you turn

53:42

Edip: in this way, and then you have to go in this way. But if you turn in this way, you have to go in this way.

53:48

Edip: Which way is the natural? This way or this way?

53:53

Dr. Khalifa: And this is only the first page. Edip: And then, after a very long discussion, we read Imam Ghazali, one of the biggest Ulemas. And he has a lot of books.

54:06

Edip: And then, he decides we have to put our hands in this way and go on, finish this.

54:13

Now, we have one red. This is the poorest finger. Edip: (unintelligible)

54:19

Dr. Khalifa: The least honorable. Edip: Yes. A woman: Well, which one is that? Dr. Khalifa: Yes.

54:29

Dr. Khalifa: How else will Satan divert us from reading the Quran? A man: How many people actually believe in this?

54:35

Dr. Khalifa: More than you think. Dr. Khalifa: My father was one of them.

54:41

Dr. Khalifa: I never understood why he was doing this system. Now, I know.

54:46

Feroz: They're building houses now I had in Pakistan where the bathroom plan say, you know, the washroom should not be facing the Ka'bah.

54:52

Dr. Khalifa: Oh, yeah. Absolutely. This is what Dr. Hay was talking about. Dr. Khalifa: Yes.

Sects within religion. Banter.

55:00

A man: (unintelligible) don't say, we are not supposed to say (unintelligible) towards you.

55:09

A man: So, imagine there are times that we cannot find any direction... Dr. Khalifa: Don't build in that place.

55:20

Dr. Khalifa: Let's go to another verse. Boy, Satan is having fun with the disbelievers.

55:28

Number 31 says, [30:31] You shall submit to GOD, reverence Him, observe the Contact Prayers (Salat), and do not be among the idol worshipers.

55:35

[30:32] Do not be among those who divide their religion into sects; each party rejoicing with what they have.

55:43

We had a fellow come from the Sunni mosque here. And he told Edip he's getting sick and tired of all the fighting that's going on there.

55:53
Ok. I mean, here we are, we're reading the Quran, we all agree on a certain principle in here. But over there, they have different sects.
56:00
And if you, if you favor one sect and not the other one, they have fights.
56:06
Dr. Khalifa: What did he tell you? Edip: All he said was "I have (unintelligible). They hate each other there. It's not (unintelligible)."
56:13
Dr. Khalifa: It's always like that. Dr. Khalifa: Because they do not follow this commandment.
56:20
[30:32] Do not be among those who divide their religion into sects; each party rejoicing with what they have.
56:26
See, if you looked at us 15 years ago, this fellow would be my enemy. I'll be his enemy. Because he'll be a Shia, I'll be a Sunni.
56:33
And this will be... But look, now we're sitting one, united, loving each other.
56:40
A man: Rashad, even among the Shias, I don't know if you know or not, but (unintelligible) it's like when they do the Namaz.
56:50
A man: The person who leads the Namaz doesn't mean that he is the most knowledgeable or not.
56:55
A man: Everybody... But in Shia, you go to Imam Reza, for instance, such and such Imam or whatever,
57:04
A man: and there are different groups. And they just know he is better or so you... Dr. Khalifa: So, this is also true with the Sunnis.
57:10
Dr. Khalifa: Yes. A man: Because of... So, you see several groups. A man: They are doing it at the same time, but some people go behind people, some people go right side, and one more (unintelligible) religion.
57:19
Dr. Khalifa: Yes, it has to be the oldest man and the most knowledgeable. And I remember we had a 90-year-old man that was a Mullah.
57:28
I used to pray Fajr in the patron saint of my hometown, in the mosque. And quite often we'll go wake him up from Sujud.
57:35
We'll make him Sujud. He never, he never gets up, you know.
57:44
We used to say "Hey, Mawlana." And literally...Wait, wait a minute. When he died, I swear, when he died, President Sadat made a tomb for him.
57:55
And people go now and they worship at his tomb, this particular man. His name was Sheikh Hijab.
58:01
Boy, I dreaded every time I go and saw him because it took one hour to pray Fajr.
58:08
Half of them Sujud. No, three quarters Sujud.
58:15
Dr. Khalifa: Yeah. Really. Yes. He was very, very old. It has to be... There's a system in Sunnis.
58:23
I guess Abdul Hayy thought that since we do it here, this way, we all take turns. It doesn't matter who's leading. This is the Sunni system. It is not.
58:30
The Sunni system and apparently also the Shia system, there is priorities for leading the prayer.
58:36
A man: One of them is (unintelligible) handicapped. Dr. Khalifa: Should not be handicapped? A man: Handicapped. Dr. Khalifa: I wish I knew that then.
58:42
A man: Tunnels Beach. A man: Tunnels Beach.
58:50
Dr. Khalifa: Capistrano Beach?
59:04
Dr. Khalifa: Oh, faster.
59:13
Dr. Khalifa: They have to ask, they have to ask you "are you a bastard?"
59:20
Dr. Khalifa: I'm sure these are written in a book, as to the priorities, the conditions of leading the Prayer.
59:26
Dr. Khalifa: What else? A man: Edip, what about if they're all bastards? Dr. Khalifa: I know they have to be, it has to be the oldest one and most knowledgeable, and so on. There's a set of priorities.
59:39
Dr. Khalifa: Huh? Dr. Khalifa: Yes. Yes. Dr. Khalifa: They do. Actually, they say "I am more worthy of leading a Prayer than you. I have a PhD from the Azhar University."
59:48
And the other will say "I have the PhD plus this and that. I'm also seven days older than you."
59:54
Really. Yes.
1:00:00

Dr. Khalifa: Yes. A man: Humbly. Dr. Khalifa: Yes. Dr. Khalifa: The Ahmadi Mullah in Canada said "I will humbly lead the prayer." Ismail Barakat said "you will humbly sit down right there."

1:00:14

He said it, he said it very angrily.

1:00:25

He's supposed to be here, by the way. Ismail, Ismail Barakat.

1:00:32

Dr. Khalifa: Saeed Talari will be here on Thursday, IN SHAA ALLAH. A man: IN SHAA ALLAH.

29 Quran Study From Parivash 229 Mehri's Questions Admission Test & Final Test Tucson 1985

A woman: It doesn't quite fit. (unintelligible) Dr. Khalifa: Oh, OK. Dr. Khalifa: I was gonna say, you don't remove anything and you just stick the end.

0:08

Dr. Khalifa: (unintelligible) on top of (unintelligible) A woman: (unintelligible) A woman (Speaking in Farsi): Nosrat, IN SHAA ALLAH, who will speak? A woman: Yeah, and that doesn't quite work because A woman (Speaking in Farsi): I pushed the button. A woman: there's a little tiny, tiny hole right here. Dr. Khalifa: Yes.

0:14

A woman (Speaking in Farsi): Are you serious you're broadcasting? Are you broadcasting?! A woman (Speaking in Farsi): Yes, we're broadcasting everything. Dr. Khalifa: I have one. If I would use it. (unintelligible)

0:20

A woman (Speaking in Farsi): Don't do that. Don't broadcast it. A woman (Speaking in Farsi): I broadcasted it. Dr. Khalifa: (unintelligible) Dr. Khalifa: I will take the size that fits and stick the top of it. I can do it.

0:27

A woman: Watch this. Watch this. I have a better idea. Dr. Khalifa: Yes. A woman: A nicer, even an amazing one (unintelligible). Dr. Khalifa: Yeah.

0:34

A woman: Ready for what it is? A woman: Here, watch this. Dr. Khalifa: I mean, this is difficult, then. A woman: It's not as difficult. It's...

0:41

A woman (Speaking in Farsi): Anyone who asked me "how was it?" A woman (Speaking in Farsi): Anyone who asked me "how was it?" I said "(Unintelligible)"

0:48

A woman (Speaking in Farsi): Maybe they don't know English. A woman (Speaking in Farsi): They know. A woman (Speaking in Farsi): No, It's possible that they don't know. A woman: Then, you take your tape.

0:55

A woman: This is great. A woman: See, it creates a very sharp border, a very... A woman: Exactly, it's the same border. Dr. Khalifa: Yeah, alright.

Dr. Rashad Khalifa "what about a person in central Africa who never heard of Mohammad". Dr. Rashad Khalifa explains Genesis and the role of the devil.

1:01

Dr. Khalifa: Yeah. That's good. A woman: Yeah. A woman: Go ahead, please. Dr. Khalifa: I try to. (unintelligible) A woman: You shouldn't, but...

1:08

Dr. Khalifa: OK, shall we go again? A woman: Please. Dr. Khalifa: Oh, it's working. A woman: Yes.

1:13

Dr. Khalifa: So after this, the verse that comes after says, "Now... ." It says "Now, you cannot claim on the Day of Judgement,

1:21

you cannot say "oh, I didn't hear about this." A lot of people will ask you, they say "what about a person who is living in Central Africa

1:27

Dr. Khalifa: "in the jungle and never heard of Muhammad or Jesus or anybody?" A woman: I know. They always say that. Dr. Khalifa: Yeah. This is a favorite question of some people. A woman: That's right.

1:33

Dr. Khalifa: They say "this person must go to Heaven", you know. Dr. Khalifa: And you say "No."

1:38

He has no excuse because he already witnessed God. And Ibrahim is a good example. You know, Ibrahim was just a child.

1:46

He went out and looked at the stars and said "this is my God." And then, he reached God because we have the instinct.

1:53

It was like being in the middle of the jungle. Dr. Khalifa: So, every human being has that Fitrat. Exactly. A woman: Fitrat

2:01

A woman: The heritage. Dr. Khalifa: Oh, and then the next verse says, (7:173) **أَوْ تَقُولُوا إِنَّمَا أَشْرَكَ آبَاؤُنَا مِنْ قَبْلُ وَكُنَّا ذُرِّيَّةً مِنْ بَعْدِهِمْ**

2:13

Also, you cannot use an excuse, say "oh, it's my father and my mother taught me that Muhammad or Jesus or Ali or Mary are very important."

2:22

"And I followed them, I believed them." You cannot say that because you're an individual, you're an independent person.

2:28

So, that is not an acceptable excuse. You cannot blame it on your parents. I cannot blame it on my parents.

2:34

And I cannot, I cannot plead ignorance and I cannot blame it on my parents.

2:39

Because my parents taught me that Sayyid (Ahmad) al-Badawi will help you succeed in your examinations. You know, "Go pray."

2:46

Not my mother. My father did. A woman: Why do they then say, if you do something good,
2:51
A woman (Speaking in Farsi): "May God forgive your father." A woman: Huh? The... Parivash: Tradition.
2:56
A woman: Huh? Parivash: Tradition. A woman: No, no. The Parivash: The word Dr. Khalifa: Translate.
3:02
Parivash: It's like when you are a good person, they say "God bless your father." A woman: "God bless your father." Dr. Khalifa: Yeah.
3:07
A woman: And if you are a bad person, well, they say, A woman (Speaking in Farsi): "Damn on your father."
3:13
A woman: But why? Dr. Khalifa: I hear you say "you, son of a bitch." Excuse me. Dr. Khalifa: But I mean, what is the mother's fault?
3:20
Dr. Khalifa: This is just a tradition. It's like she said. A woman: Yeah, really (unintelligible) Dr. Khalifa: Tradition. A woman: The nicest thing, the nicest thing they say is this. A woman (Speaking in Farsi): No, no, no.
3:27
A woman: When you do something bad, they say, "LA'NAT (damn) on your father." Dr. Khalifa: Yeah.
3:34
A woman: And when you do something good, they say, A woman (Speaking in Farsi): "God bless your father." A woman: "God bless your father." Dr. Khalifa: You know, This is just a tradition. Just tradition.
3:42
Dr. Khalifa: Yeah. A woman: Yeah. A woman: Ok. Dr. Khalifa: So, now, when Sheytan had this idea in his head that he can rule part of God's universe by himself,
3:54
the angels didn't know what was in Sheytan's head. Only God knew.
4:01
Now, God had two choices. He can take shaytan and wipe him out. But in that case, the angels would say "Yeah, why did God do this? Our friend Iblis didn't do anything."
4:13
A woman: Yeah. Dr. Khalifa: So, as a mercy for the angels, God decided to expose Sheytan first, Sheytan.
4:21
Expose and show his real rebellion first. So, how will God do this?
4:27
He created Adam, the human being, from clay, this lowly material.
4:35
From mud. And then, He told all the angels to fall prostrate before this creature.
4:43
So, they all did, except Sheytan. He refused.
4:49
And this is why I was rather sensitive to the story that ends up giving us the impression
4:54
that he wanted to make Sujud, but he couldn't. He didn't want to make Sujud.
4:59
The Quran says "he refused." So, these stories are very dangerous. This is why I just, I'm completely averse to them.
5:07
So, Sheytan refused, and the angels... Now in the movie that I wrote, the script, all the angels are falling prostrate before Adam,
5:15
and then except Sheytan. So, they look and they...
5:20
You know, "Sheytan is still standing up." You know, so, they all see he's exposed now.
5:27
Dr. Khalifa: Someday. We have it ready. A woman: Someday IN SHAA ALLAH. Someday IN SHAA ALLAH. Someday IN SHAA ALLAH. Dr. Khalifa: The title is "King of Chaos."
5:34
A woman: "King of Chaos." A woman: Isn't that a great title? A woman: Yes, it is. A woman: Isn't that a great name of a movie or what? I love that. Dr. Khalifa: Yes. It's true. Dr. Khalifa: This is chaos on this earth.
5:41
A woman: But that's a great title, you have to admit. "Holy Quran" Dr. Khalifa: So now, Sheytan is exposed.
5:47
The angels know what he is. Now, Sheytan is eloquent.
5:53
You know when Adam and... Do you call her "Hawa" (Eve)? A woman: Hawa (حوا) (Eve). Dr. Khalifa: Yeah.
5:58
When Adam and Hawa (Eve) made a mistake in Heaven, they repented.
6:04
They asked God forgiveness and they made Tawbah. Dr. Khalifa: And God accepted their repentance. Parivash: Alhamdu Lillah.
6:10
Dr. Khalifa: And said "okay, we'll send you to the planet earth and test you. You and your descendants.
6:16
"And if you make it, you come back here." "Those who don't make it will go with Sheytan."
6:24
But how come Sheytan could not, was not pardoned?

6:30
Why Adam and Eve were pardoned but not, Sheytan was not pardoned? Because he continued to think and he still thinks that he can rule part of this universe with God.

6:41
So, he spoke to the angels. A woman: He still thinks...? Dr. Khalifa: Yeah. A woman: He spoke to the angels!? Dr. Khalifa: He's still trying. Parivash: He's stupid.

6:47
Parivash: He's stupid. Dr. Khalifa: And of course, he's stupid. From the beginning he was stupid. Dr. Khalifa: And God exaggerated his stupidity by giving him this tiny speck of land.

6:56
And God took care of even the provisions of the people and everything. And He told them "just take care of them." You know.

7:02
Dr. Khalifa: Anyway. A woman: Maybe, it meant that Sheytan... Dr. Khalifa: No, but he refused to make Istighfar.

7:09
He refused to repent. He said "no, I can do it." He said "okay, make me a god and I'll do a good job." Sheytan said.

7:16
"I will prove to You", he says to God, "I will prove to You that Your creatures will not worship You alone."

7:24
Parivash: Unappreciative Dr. Khalifa: Yeah. "Will not appreciate Your power." Dr. Khalifa: "They will always... A woman: But... Dr. Khalifa: Wait.

7:30
Dr. Khalifa: "They will always put someone with You. They will not say "God alone.""

7:36
And this is why he's proud of all the human beings who say Jesus with God.

7:42
A woman: Muslims... Dr. Khalifa: This is why we have this criterion in the Quran. Allahu Wahdahu.

7:48
And then the next Sura you remember says, idha du'a allahu wahdahu kafartum wa in yusrak (40:12) إِذَا دُعِيَ اللَّهُ وَحْدَهُ كَفَرْتُمْ وَإِنْ يُتْرَكَ يَتَوَلَّوْا

7:53
When God alone is called upon, you refuse. But when God and somebody else, anybody else, then you're happy. Double the reward. Some angels agreed with the devil.

8:02
You know, different people. You know, with the Jews, it's different. The Christians are different. With the Sunnis, it's different. With the Shias, it's different.

8:08
Every group of them, they want some name besides God, they are happy. You say "La Elaha Ella Allah."

8:14
They say "Muhammadun rasulullah." Dr. Khalifa: You say "I don't wanna..." A woman: "I can't say anything else." Dr. Khalifa: Yeah, I say "I don't wanna say. I wanna say La Elaha Ella Allah."

8:21
"What is wrong with you? I want to say La Elaha Ella Allah." They say "no, Say Muhammadun rasulullah." I mean, "You're gonna tell me what to say?"

8:30
So, it's just some other name with Him. Yeah. A woman: It just came to my mind, I don't wanna forget it, about my children.

8:37
A woman: They are really lucky, right? Dr. Khalifa: That's right. A woman: Because they start with worshipping Allah. Dr. Khalifa: But you are luckier.

8:43
Dr. Khalifa: Yes, you get more credit than they. A woman: I was Dr. Khalifa: They are lucky. A woman: an idol worshiper before though. Dr. Khalifa: You A woman: I was scared.

8:48
Dr. Khalifa: Right. This is why you get double the reward, you see. A woman: Look at me. Dr. Khalifa: For them,

8:54
Dr. Khalifa: you already brought them up saying "God alone." So, Dr. Khalifa: They are very lucky. A woman: You know, Mana

9:00
A woman: Mana in the Quran session we had in Masjid, she was so mad at Azar.

9:07
A woman: Because Azar was talking about the clean, and she knows very good now because she, she...

9:16
Dr. Khalifa: Yeah. your children are very lucky, but you are even luckier. A woman: Alhamdu Lillah. Dr. Khalifa: Yeah. You see, it takes a lot more credit when you grow under

9:24
the influence of putting idols with God, putting names with God. And then you break away from this.

9:30
You get more credit. The Quran says that. It says "I'll double... I will double the reward for you."

9:36
"And I will substitute all the sins of the past into credits." So every time, yes, we all do.

9:43
So every time, every time you called on Hussein or something, that will be changed into credit

9:50
because of your repentance. A woman: IN SHAA ALLAH. Dr. Khalifa: So, Sheytan did not repent.

9:55

And he continued to think that he can rule part of God's kingdom by himself.

10:01

And this is why he was not pardoned. So, even worse than that, he stood up and spoke to the angels,

10:09

and told them "God created me, and He gave me all these powers."

10:15

"And I believe that I can help God, and be His assistant, and rule part of the universe by myself."

10:22

This is what he said. "What is wrong with that? How can I fall prostrate to this tiny creature made of mud?"

10:29

Dr. Khalifa: And some angels agreed with him. A woman: And Some angels did? Dr. Khalifa: Yes. Dr. Khalifa: So, we had a division.

10:37

Dr. Khalifa: So, the Sheytan and his assistants, they became jinns, yes. Dr. Khalifa: And this is in Sura 38.

10:44

A woman: Sura 38. Dr. Khalifa: Sura 38 says, (38:69) مَا كَانَ لِي مِنْ عِلْمٍ بِالْمَلَأِ الْأَعْلَىٰ إِذْ يُفْتَضِّلُونَ

10:50

A woman: Oh, my God. Dr. Khalifa: الْمَلَأِ الْأَعْلَىٰ is what? Dr. Khalifa: The Highest Society, God and the angels.

10:57

يُفْتَضِّلُونَ They divided. Now, in the movie, after this happened, I had a ball of light came and took Sheytan,

11:08

and carried him to the planet earth, to his prison, see. This whole universe. And also, all the other angels who agreed with him, they became jinns.

11:17

A woman: La Elaha Ella Allah. Dr. Khalifa: Yeah. Dr. Khalifa: That's right. So, this is why he was not pardoned.

11:23

Adam and Hawa (Eve) were pardoned. But not Sheytan, because he continued to insist that he can rule part of the, of the kingdom, God's kingdom by himself.

11:33

A woman: Rashad, I have a question. But when he said that most of them will not believe in You except Your servants, which are totally devoted to You, he was right. And in fact that's why it happened.

11:45

Dr. Khalifa: Sure. A woman: But why did the Malaik (angels) (unintelligible)? Dr. Khalifa: He said, but God wanted that. See?

11:51

Dr. Khalifa: God wanted to give him constituents to show... I mean, look at the disasters, the accidents.

11:57

Dr. Khalifa: Remember the girl that came here on wheelchairs? A woman: Yes. Jennifer. Dr. Khalifa: Well, this is Jennifer.

Dr. Rashad Khalifa talks of a road traffic accident. Before exposure of Devil and creation of the earth.

12:03

Dr. Khalifa: She... this is a girl who came here briefly. She was studying religions. But she was 17, 18 years old, a freshman at the university.

12:11

Beautiful girl. And she was riding in a car with her father and her mother. And there comes a drunk driver smashing their car.

12:20

Her mother dies and her father almost dies. His aorta was, got the operation. Yeah.

12:26

Dr. Khalifa: And she is crippled for the rest of her life. A woman: Terribly, too. Just completely. Just Dr. Khalifa: Yeah, from the neck down. A woman: (unintelligible) Yeah.

12:33

A woman: And she has become (unintelligible)? Dr. Khalifa: No. A woman: She looked at it.

12:38

Dr. Khalifa: I'm telling you, this girl would have been healed if she continued to be... I really feel that. A woman: I believe you're right. You know what, I think (unintelligible) A woman: (unintelligible) become a Muslim. A woman: (unintelligible)

12:46

Dr. Khalifa: Just about. Dr. Khalifa: Yeah, almost. Dr. Khalifa: He's just about. His sister and his mother became Muslim.

12:52

And now they're working on him. A woman: Who's this? A woman: Who? Dr. Khalifa: Michael Jackson. A woman: Michael Jackson. A woman: Yeah, isn't that something? A woman: IN SHAA ALLAH. IN SHAA ALLAH. A woman: IN SHAA ALLAH. IN SHAA ALLAH.

13:00

A woman: And how did the Malaik (angels) know about Adam and his children that they are going to...?

13:07

Dr. Khalifa: God told them everything. A woman: Bloodshed and... A woman: Ah. Dr. Khalifa: See, God told them everything. God told them... A woman: He told them everything.

13:13

Dr. Khalifa: And He said that these creatures, the human beings, they will not see Me. He said "I'm going to have a perfect test for Sheytan, to prove that he is an incompetent god."

13:24

And for this, I have created the human race. They are people who have absolute freedom of choice.

13:31

And those among them who side with Sheytan's opinion, that I alone am not enough,

13:37

they will be his constituents. We'll see if he can take care of them or not.

13:42

Okay? So, from the descriptions, from the description of of these conditions, the angels said "but this means that many

13:51

of them will choose Sheytan, and then they will be divided, and they will have wars and bloodshed."

13:57

And God said "I know what you don't know." A woman: And what was that? Dr. Khalifa: Ok. Dr. Khalifa: was that... That was before the exposure of Shaytan. A woman (Speaking Farsi): Yes.

14:06

Dr. Khalifa: He knew what was in Sheytan's head. Dr. Khalifa: See, now we're going back. A woman: But that was before.

14:11

Dr. Khalifa: Yeah, before Sheytan was exposed. You see, because they said, you know what they said?

14:16

They said, أَتَجْعَلُ فِيهَا مَنْ يُفْسِدُ فِيهَا وَيَسْفِكُ الدِّمَاءَ وَنَحْنُ نُسَبِّحُ بِحَمْدِكَ وَنُقَدِّسُ لَكَ (2:30)

14:25

Are you familiar with that verse? A woman: We just read it this afternoon. Dr. Khalifa: They said نَحْنُ Dr. Khalifa: The angels said "and we the angels, نُسَبِّحُ بِحَمْدِكَ

14:32

A woman: Yes. Dr. Khalifa: "we glorify You, we praise Your Glory, وَنُقَدِّسُ لَكَ

14:37

Dr. Khalifa: "and we hold You sacred." A woman: Exactly. Dr. Khalifa: Now, the angels... when the angels said this, they were not accurate.

14:43

Dr. Khalifa: Because there was one of them who was not doing this. They didn't know. A woman: They didn't know. That's, that's the issue. Dr.

Khalifa: So, God said,

14:48

(2:30) إِلَىٰ أَفَلَمْ مَا لَا تَعْلَمُونَ A woman: Yeah. Dr. Khalifa: So, God said "I know what you do not know."

14:54

Dr. Khalifa: Which is something... Parivash: (unintelligible) A woman: Allahu Akbar (God is Great).

15:02

A woman: Yes. Dr. Khalifa: Also, this is why He said "didn't I tell you that I know... (2:33) أَفَلَمْ مَا تُبَيِّنُونَ وَمَا كُنْتُمْ تَكْتُمُونَ

15:08

"Didn't I tell you that I know what you declare, and what you... You know what's Katam?

15:14

Dr. Khalifa: Ketman? Parivash: Yes. Ketman. Parivash (Speaking Farsi): Concealed. Dr. Khalifa: وَمَا تَكْتُمُونَ A woman (Speaking Farsi): No, meaning (unintelligible) Dr. Khalifa: Conceal.

15:20

Dr. Khalifa: "... you declare and what you conceal?" أَلَمْ أَقُلْ لَّكُمْ إِنِّي أَعْلَمُ مَا تُبَيِّنُونَ

15:25

"declare" وَمَا كُنْتُمْ تَكْتُمُونَ "And what you were hiding." Because it became exposed, now.

15:31

Dr. Khalifa: The whole thing is in the Quran. A woman: And that's the key A woman: the key to the word? Dr. Khalifa: Hmm? A woman: To Adam?

15:38

Dr. Khalifa: The key to Adam? A woman: Yes, the words. Dr. Khalifa: Oh, oh, the names. Yes. he... God A woman: The words. Yes. The names.

Dr. Khalifa: God taught him all the names, yes. A woman: All the names and everything.

15:45

Dr. Khalifa: This is how we invented these machines, those videos, and cars, and this light. In other words, God gave Adam knowledge.

15:57

Dr. Khalifa: Anyway, so, where were we? A woman: "I gave him knowledge."

Continued talk of Road traffic accident and a Movie. Imam taking himself out of Gods mercy.

16:02

Dr. Khalifa: Are you tired? I haven't started yet.

16:09

A woman: Then, the Sheytan, no. Dr. Khalifa: Where were we? A woman: The Malaik, they didn't know.

16:14

Dr. Khalifa: Yes, so now, those... Sheytan became confined to this universe, this lowest universe.

16:22

A woman: And then in the... Dr. Khalifa: Until the period of test is over. And we already see the results. It is total chaos.

16:29

And I gave the example of this girl. It's a tragedy. A young girl crippled for life.

16:35

A drunk driver. The woman dies. The man is injured. And this is the kind of thing. In the movie, I have her story in this movie.

16:43

And I have the drunk driver going there. And one of Sheytan's assistants comes in the car and takes over the drunk driver.

16:53

And actually, and tries to, tries to... I'm showing that Sheytan is trying to have a perfect world, but he can't.

17:00

So, this sheytan (devil) is trying to steer the car away from the other car where this girl was sitting.

17:08

But, but it's too late. He can't. But because he took over this drunk driver, he protected him.

17:14

So, which happens a lot. So, the car is completely smashed. And this guy opens the door and walks out, you know, without a scratch.

17:22

You know, this drunk driver. Even though the car is completely smashed. And it happens. You see it a lot, happen, in accidents.

17:31

A woman: It's true. When the film will come out? Dr. Khalifa: Oh, I don't know. A woman: It will be fantastic. Dr. Khalifa: Probably 5 years, 10 years. I don't know. When God wills. But we have it ready.

17:39

Dr. Khalifa: Hmm? A woman: Would you please answer this question? I want to have that in the tape.

17:45

When people idol worship and ask the other humans, the saints and everybody,

17:52

"Please give us this or heal us." Who is doing that? Answer it, please.

18:00

Dr. Khalifa: You see, they are immediately out of God's kingdom. See, the minute they ask anybody other than God, they are out of God's kingdom.

18:06

They belong in Sheytan's kingdom. And they actually, they take themselves out of God's Mercy.

18:12

One of the... It's, it's very simple things that take the people out of God's kingdom.

18:18

There is the most prominent Mullah in the Arab world today. It's Sheikh Metwalli Sha'rawi.

18:24

His name is Sheikh Metwalli Sha'rawi. And I have a mutual friend.

18:30

One that is his friend and is my friend. And he is trying to arrange a meeting between Sheikh Sha'rawi and myself, for 3 years now and it just never happens.

18:41

Something happens. Like, I was supposed to meet him. A woman: It cracked me up. Dr. Khalifa: Yeah. I was supposed to meet him in Washington, for example.

18:49

Dr. Khalifa: One time, then, his daughter got sick. So, he went to see her somewhere.

18:54

So, I couldn't meet him. And then, he came to Washington last January.

19:01

Last February. This last month. And then, my father got sick. So, I went to Egypt. And I couldn't meet him. But anyway,

19:08

Sheikh Metwalli Sha'rawi is almost revered by millions of Muslims in Egypt, Saudi Arabia and those places

19:18

like he's a holy imam, you know. This Sheikh Sha'rawi. And this is how he begins his speeches.

19:25

And if I ever meet him, I'm going to just stay with his opening statement of his speeches.

19:31

He says, الحمد لله رب العلمين والصلوة والسلام على اشرف المرسلين وخاتم النبيين سيدنا محمد وعلى آله وصحبه اجمعين

19:44

Now, the minute he makes that statement, he is out of God's Mercy. And he is not guided in his speeches.

19:51

He has to be on his own. Because he's immediately in Sheytan's kingdom. And he doesn't even know it.

19:57

Because he says, (1:2) اَلْحَمْدُ لِلّٰهِ رَبِّ الْعَالَمِينَ This, this is perfect. And then, he mentions somebody else's name, the Prophet Muhammad, but not only does he

20:06

put somebody with Him, he calls him اشرف المرسلين Parivash: اشرف المرسلين Yeah. Dr. Khalifa: Yes, "the most honorable messenger."

20:13

Immediately, he broke the commandment that says, (2:285) لَا تَفْرُقْ بَيْنَ أَحَدٍ مِنْ رُسُلِيَّ وَقَالُوا سَمِعْنَا وَأَطَعْنَا

20:21

Immediately, he broke the commandment that came out of Muhammad's mouth. A woman: Translate. Translate what he said. Dr. Khalifa: Yeah.

20:27

Parivash: Yes, I... A woman: I know. I want for the tape. Dr. Khalifa: Yeah, but for the tape. Dr. Khalifa: In other words, he called him اشرف المرسلين "the most honorable messenger"

20:34

So immediately, he broke the commandment that tells us "do not make any distinction among the messengers of God."

20:41

And this is repeated in other places in Quran. A woman: Yeah. Dr. Khalifa: But in verse 285 of Sura 2, it is followed immediately by the statement,

20:49

وَقَالُوا سَمِعْنَا وَأَطَعْنَا That the believers say "we hear and we obey." Finished.

20:55

We will not make any distinction among the messengers. But here is Sheikh Sha'rawi saying, اشرف المرسلين وخاتم النبيين

21:02

This is... okay, he is سيدنا محمد خاتم النبيين

21:07

So, I was gonna just hold him to that opening and tell him "Sheikh Sha'rawi, you are out of God's Mercy."

21:16
Immediately, when you broke that commandment that came out of...

21:23
Susan: That's what he does. Dr. Khalifa: Susan. Susan: (unintelligible)

21:28
Dr. Khalifa: Isn't it, isn't this what the Quran teach? I mean, isn't it logical? A woman: You're right. Dr. Khalifa: Okay.

21:35
Dr. Khalifa: Where are you going? A woman: I should go there because I don't want you to have the Dukhan (smoke) in the house. Dr. Khalifa: I mean, God bless you.

21:42
A woman: Dukhan. Dr. Khalifa: Ok. A woman: Dukhan is coming. Oh, no.

21:47
A woman: Here comes the Dukhan. We have two Dukhans now. Dr. Khalifa: I don't, I don't mind it, but this is nice of you.

21:54
Dr. Khalifa: God bless you. A woman: Thank you. Dr. Khalifa: Okay, so we were saying, people when the... your question was, people who call on Jesus and Mary and Hussein

22:05
and Muhammad and Ali and all this, the minute, the minute they call on them for any reason,

22:13
they're out, they're out of God's Mercy, they are immediately in Sheytan's constituents.

22:20
It's just as simple as that. Dr. Khalifa: And I was doing it for years and years. A woman: So, all these people when they are in the...

22:26
A woman: I know, I was doing it, too. Dr. Khalifa: So, thank God that Dr. Khalifa: that I saw the light and came out. A woman: So, all these people in churches, it shows on TV.

22:35
They shake the head of the woman and say, "hallelujah, Jesus healed this person and start walking"

22:41
that's Sheytan (Satan) healing that woman, not Jesus. Dr. Khalifa: Not even Sheytan healing them. This is all fake.

22:47
Dr. Khalifa: Yes. A woman: So, there is no reality? Dr. Khalifa: No, they had, they had many TV programs, 60 minutes.

22:53
And some other TV programs, they showed that all this is fake. A woman: Alhamdu Lillah. I'm happier. Dr. Khalifa: Yeah. Yeah. Belief Minority of a Minority.

23:00
A woman: Okay, anybody has any question (unintelligible) creation? Dr. Khalifa: No, there is something that I wanna say. Yeah.

23:08
Dr. Khalifa: There is something that I want to say, but I forgot. So, I'm gonna remember it, IN SHAA ALLAH. A woman: IN SHAA ALLAH.

23:14
A woman: It was, did you finish, you said "I have it in the movie that God sent Sheytan with a ball on the earth."

23:24
Did you finish that? Dr. Khalifa: Yeah, see, Sheytan and all his, whoever agreed with him were sent to this earth.

23:31
And Sura 38 talks about, (38:69) اَلْمَلٰٓئِٔةُ اَلْاٰلٰٓءِیُّ اِذْ یَخْتَصِمُوْنَ So, when this Feud happened, we have two points of view.

23:41
One point of view says "Allah alone." And this is God's point of view. And the other point of view says "Allah and someone else."

23:50
And now, we look at the Quran and we find that the vast, vast majority of human beings

23:59
will side with Sheytan. Sura number 12, verse 103.

24:06
وَمَا أَكْثَرُ النَّاسِ وَلَوْ حَرَصْتَ بِمُؤْمِنٍ It says, (12:103)

24:11
Do you understand this? وَمَا means "never", means "not."

24:18
وَمَا أَكْثَرُ النَّاسِ means "the majority of people." وَمَا أَكْثَرُ النَّاسِ وَلَوْ حَرَصْتَ no matter how careful, no matter how hard you try

24:28
بِمُؤْمِنٍ they will not believe. Most people, no matter what you do, will not believe.

24:33
Okay? Dr. Khalifa: This, this will not even believe in God. A woman: You talk very kindly, they don't believe. You talk very roughly, they don't believe either.

24:42
A woman: That's true. Dr. Khalifa: Yeah, no matter what you do. Dr. Khalifa: Yeah. (12:103) وَمَا أَكْثَرُ النَّاسِ وَلَوْ حَرَصْتَ بِمُؤْمِنٍ

24:48
Okay, so now we know that the majority of human beings will not believe in God. Period.

24:54
They just don't believe in God. Now, the minority of people believe in God.

25:00
Now, we take this minority, look at this minority in verse 106 of the same Sura, 12.

25:08
وَمَا يُؤْمِنُ أَكْثَرُهُمْ بِاللَّهِ إِلَّا وَهُمْ مُّشْرِكُونَ And it says, (12:106)

25:15
And the majority of those who believe in God insist on putting other names with God.

25:20
So, the majority of believers in God are Mushriks (idol worshippers). Therefore, the people who believe in God are really the minority of a minority.

25:30
And this is a statement of fact. It is not a law or a commandment or an order.

25:37
It's a statement of fact and we see it around us.

25:42
How many mosques in the world did you see where only the name of Allah is honored and worshipped?

25:50
How many? None. A church, a synagogue, a mosque, a place of worship, a temple, any place.

25:57
You don't find any. You find one in Tucson and one in San Francisco and one scattered around the world.

Question asked "Why did God do this to us" Dr. Rashad Khalifa explains.

26:04
But these are very rare. So, it is true that (12:103) وَمَا أَكْثَرُ النَّاسِ وَلَوْ حَرَصْتَ بِمُؤْمِنِينَ

26:13
(12:106) وَمَا يُؤْمِنُ أَكْثَرُهُمْ بِاللَّهِ إِلَّا وَهُمْ مُشْرِكُونَ Except with other names with Allah.

26:20
They do not believe in Allah alone in other words. They do not believe in Allah without some other names with Him.

26:28
Mary or Jesus or Muhammad and so forth. A woman: I have a question which they ask me all the time.

26:34
I want you to explain to them.

26:39
Ok. They said "God wanted to show the angels,

26:46
"Sheytan is arrogant and rebellious. "That's why He created Adam and his descendants on the earth.

26:56
"Why God did that to us? "And we have Sheytan in our hands and we have God.

27:03
"And it's hard to choose. "So, why do we call God is justice?

27:10
Dr. Khalifa: That's a very good question. And it is perfectly...

27:15
The rule is that God does not inflict an atom's weight of injustice.

27:21
(4:40) إِنَّ اللَّهَ لَا يَظْلِمُ مِثْقَالَ ذَرَّةٍ This is the law.

27:30
So, "why did God do this to us" is an invalid question.

27:36
It's not valid because we are the ones who did this to us. Every single one of us was asked "Would you like to have the freedom of choice or do you like to submit outright?"

27:47
And you and I and everybody said "No, we want the freedom of choice. Dr. Khalifa: Every single individual. A woman: On that conference day?

27:54
Dr. Khalifa: Yes. Every single person was asked. A woman: You mean the same verse 172? Dr. Khalifa: No, no, no.

28:00
A woman: Which one? Dr. Khalifa: This is verse, the end of Sura 33. Dr. Khalifa: Al-Ahzāb (The Parties) A woman: The end of Sura 33. Ok. Al-Ahzāb (33:72) إِنَّا عَرَضْنَا الْأَمَانَةَ عَلَى السَّمَوَاتِ وَالْأَرْضِ وَالْجِبَالِ

28:08
A woman: Ok. We have the freedom of choice there? Dr. Khalifa: Yes. Dr. Khalifa: (33:72) فَاتَيْنَ أَنْ يُحْمَلْنَهَا وَأَشْفَقْنَ مِنْهَا وَحَمَلَهَا الْإِنْسَانُ

28:15
Every human being, you and I and Parivash and Senobar and Susan, Every human being on earth

28:22
was asked personally "Do you want the freedom of choice or do you want outright submission?"

28:30
And every one of us said "we'll take the freedom of choice." You see, in that time, we thought it's very easy.

28:37
You know, we said "oh, it's very easy. We're gonna choose you. We know You're the Master. You're our Lord." You know, it's very easy.

28:42
We underestimated the power of Sheytan. A woman: That's right. We still do.

28:48
Dr. Khalifa: Well, of course. I mean, even then, in that dimension, we underestimated the power of Sheytan.

28:53
We said "who's gonna be stupid enough to choose this Sheytan, this creature of Yours? Who's going to choose you?"

28:58
"It's very easy. Of course, we'll take the freedom of choice." And this is why it says, (33:72) إِنَّهُ كَانَ ظَلُومًا جَهُولًا

Dr. Rashad Khalifa explains it took him 3 years to say the correct shahada in the morning. Being accused of disrespecting the prophet.

29:04
At the end, that the human being was stupid to do that. Because we underestimated the power of Sheytan.

29:10
The power of Sheytan, he's so tricky. And he dupes us, you know.

29:16
And you've met hundreds of people and you see the amount of resistance when you tell them "God alone."

29:23
You say "Allah alone." And the resistance is just too much. And a lot of them, a lot of them are people with common sense and logic and everything.

29:32
You tell them "God alone." And the resistance is just fantastic. And the majority don't make it.

29:39
99.9%. They cannot break away from all the traditions and customs that they inherited.

29:50
It took me 3 years to, when I wake up in the morning, to say "La Elaha Ella Allah Wahdahu La Shareeka Lah."

29:57
3 years to get rid of "Muhammad Rasul Allah." Just one day, it dawned on me, I said "I'm gonna wake up on the Day of Resurrection saying

30:05
"La Elaha Ella Allah, Muhammad Rasul Allah." And Muhammad is a human being who is worried with me, you know. On the Day of Hashr, you call it Hashr?

30:13
A woman: Yes. Dr. Khalifa: The Day of Hashr? Yawm Al-Hashr? A woman (Speaking Farsi): Mahshar A woman (Speaking Farsi): Mahshar Dr. Khalifa: Mahshar. A woman: (Speaking Farsi): The Day of Hashr. Mahshar. Dr. Khalifa: Yeah. On the Mahshar

30:18
Dr. Khalifa: See, the Prophet Muhammad A woman: (Speaking Farsi): The Day of Mahshar. Dr. Khalifa: Surat Al-Anbyā, Sura number 21, it says "The Prophet "Muhammad and Moses, and Ibrahim, and all of them will be in Mahshar. They will all be worried."

30:27
Dr. Khalifa: You know, what will happen to us? A woman: No. Dr. Khalifa: What I'm saying is, when they come to me, for example, and say "you disrespect the Prophet Muhammad

30:34
"by not mentioning his name in your Namaz."

30:42
Dr. Khalifa: If they come to me and say "you disrespect the Prophet by not mentioning his name in the Namaz."

30:51
So, the answer to this is "disrespecting the Prophet, or Ali, or Hussein, or any other Prophet, is a forgivable offense."

31:03
"But Shirk is not a forgivable offense. It's the only unforgivable offense."

31:09
Putting other names besides Allah is an unforgivable offense. Because the verse that is repeated in Sura number 4 twice, that says, Allah does not

31:18
(4:48) إِنَّ اللَّهَ لَا يَغْفِرُ أَنْ يُشْرَكَ بِهِ God does not forgive Shirk.

31:24
(4:48) وَيَغْفِرُ مَا دُونَ ذَلِكَ لِمَنْ يَشَاءُ And He forgives anything else.

31:31
Murder, disrespecting a Prophet is forgivable. Anything is forgivable.

31:36
But the only thing that is not forgivable is Shirk. Putting something next to God.

31:42
So, I am taking a chance on disrespecting... if you want to accuse me of disrespecting the Prophet, you cannot accuse me of being Mushrik, of putting something besides Allah.

31:52
Because I say all my Namaz with only the name of Allah in it, from beginning to end. Only God.

31:58
Therefore, you cannot accuse me of Shirk, which is the only unforgivable offense. So, if you accuse me of disrespecting the Prophet, I welcome that. This is a...

Shahada explained. Perfect life explained i.e. no diseases. Rejecting the message of God alone.

32:07
This is a forgivable offense. But I tell them "for your information, I do not disrespect the Prophet."

32:14
This is what the Prophet wants. And this is what every Prophet wants. La Elaha Ella Allah. God alone.

32:21
And this is what we find in Sura 21, verse 31, I think.

32:27
Where it says "every messenger I send with only one message, La Elaha Ella Allah."

32:33
Now, notice there's something that we take for granted by the way. That La Elaha Ella Allah, which is the motto of Islam, or the principle of Islam, La Elaha Ella Allah begins with La.

32:45
La Elaha Ella Allah No other thing with Allah.

32:52

And you notice that in the Quran, every messenger goes to the people and says

32:59

أَلَا تَعْبُدُونَ إِلَّا اللَّهَ My message is لَا إِلَهَ إِلَّا اللَّهُ that you shall not, a negative, you shall not worship except Allah.

33:09

It doesn't say, اعبدوا الله worship God. Because people worship God and go to Hell.

33:16

They worship God and they also put some other names beside Him. And this is why the consistent message in Quran is لَا تَعْبُدُونَ إِلَّا اللَّهَ

33:25

It's a negative commandment. That you shall not worship except Allah.

33:32

Dr. Khalifa: So, this is the accuracy of Quran. A woman: Now, you know why you always keep telling me "Mary, don't say that, don't bring them."

33:40

I said "I can't help it." This is... There is only God. You have to talk only God because I knew it. It's a responsibility.

33:49

A woman: I felt for you guys. A woman: Now you know how I felt. Dr. Khalifa: This is why...

33:55

Dr. Khalifa: This is why the reward is so fantastic. In other words, you say "La Elaha Ella Allah" and you do it,

34:02

only Allah is in your mind, in your life, in all your thoughts and no other names with Him,

34:07

you're a king or queen on earth. You enter God's Kingdom where there is no disease, no headache, no problem, no traffic tickets.

34:20

Really. Perfect life. This is, I find this the most difficult thing for the people to believe.

34:26

Dr. Khalifa: And this is why I wish you were here for the last Khutba on Friday. A woman: I wish. Dr. Khalifa: I was bragging about everybody in this mosque,

34:32

you know, I say "the people here, you just..." because we have beautiful babies, Alhamdu Lillah, Mā Shā Allāh.

34:38

You have to say Alhamdu Lillah and Mā Shā Allāh. And I was saying it with every statement. And we have people who left the Masjid.

34:44

And they had deformed babies. I mean, things that we see with our own eyes.

34:49

And it's because when you come, especially in places like your Masjid, this Masjid, when you come to the message of God alone, and you reject it, Whoa.

New age, belief in God is based on decisions i.e. sacrificing our lives not needed.

35:00

You see, when you come to the message of God alone, Sheytan hates you.

35:05

But he cannot touch you because you're protected. You have guards around you, other angels. A woman: Exactly like her. Dr. Khalifa: Yeah.

35:10

A woman: (unintelligible) Dr. Khalifa: You have angels around you, guarding you. When you say God alone, no other names with Him.

35:18

A woman: That's right. Dr. Khalifa: But then, Sheytan is very angry with you and mad at you because you rejected his point of view.

35:25

But the minute you step out of God's Kingdom, he's waiting for you and he beats you up, you know. And it's really disastrous.

35:33

In the movie that I wrote, I had... there's a Rabbi in Boston, Rabbi Kushner is his name.

35:41

He wrote a book that says "Why Bad Things Happen to Good People." This is the title of the book.

35:47

And of course, bad things don't happen to good people. Never. This is God's promise in the Quran.

35:54

And this is a new age. We are now in a new age where things are straightforward.

35:59

You stay with God and everything is perfect. Not in the old times where you had to go and prove yourself by giving your life

36:07

and being killed as a Shahid (Martyr) for God, you know. This is... Because now it's all mental. We are educated people.

36:13

There's a lot of science. And... And the whole thing is by logic and by thinking. So, once you make a decision, logically, to be with God, then you are proven.

36:23

And you are immediately in God's Kingdom and you are immediately protected.

36:29

Dr. Khalifa: I'm forgetting what I want to say. It's very important. A woman: The Rabbi of Boston. Dr. Khalifa: Ok. Yeah. Rabbi Kushner wrote that book "Why Bad Things Happen to Good People."

36:38

He had a child that had a disease called progeria,

36:45

Rapid aging disease. The child became aged very fast. In 14 years, the child died.

36:51
 So, the Rabbi and his wife were suffering and the child was suffering, was miserable.

36:57
 And he mentions it in the book for 14 years. And in the book, his explanation of why bad things happen to good people,

37:06
 is that "God is unable to control the world." "That God is crying with you."

37:12
 "And God really wants you to be healthy, but He just can't help it." "There are too many people", you know.

37:18
 Dr. Khalifa: Yeah. A woman: (unintelligible) Dr. Khalifa: Yeah. And he goes to ridiculous lengths. He says "are you willing to forgive God?"

37:26
 You know, "and realize His inability." "Just like you forgive your parents", etc, etc.

37:32
 I mean, it's just blasphemous. And you can see exactly why his son became like this.

37:38
 Now, here is a Rabbi who preaches the worship of God. Alright?

37:43
 He preaches the worship of God. A woman: La Elaha Ella Allah Dr. Khalifa: And Satan is angry at him. So, in the movie, I have somebody like him preaching the worship of God.

37:51
 And then, this woman and her husband are crying, coming out of the church.

37:56
 And asking him that their son was hit with a car and died or something. And they were crying. And they're asking the priest or the minister "why did this happen?", and so forth.

38:05
 And he says "believe me, God is crying with you." "And it's just... this is out of control." In other words, I'm taking it from the book of the Rabbi.

38:12
 And then, next, I show the Rabbi sitting in his home, watching the TV with his wife.

38:18
 And his wife is pregnant. And then, Sheytan comes in through the wall. And he goes into her body and plays with the baby.

38:28
 You know, in the script. And then, the baby is born deformed.

38:34
 So, these are things that we actually see happening. So, this is why bad things happen because he blasphemes against God.

38:41
 Do you think this Rabbi is in God's Kingdom? Will he be protected? So, the idea here is that Satan is the cause of all these disasters.

38:50
 First, his incompetence, his inability. Second, his deliberate bad actions against the people who do not side with his opinion,

39:00
 once they step out of God's protection. So, and this is why the retribution is doubled for people who see the message.

39:11
 Once you see the message, and you see God alone, there is a double responsibility here.

39:17
 You accept it, or you reject it. If you accept it, you continue to be protected from Satan, Sheytan.

39:24
 But if you reject it, then you gave up God's protection. Dr. Khalifa: And Sheytan will play havoc with you.

39:30
 A woman: Dr. Khalifa, I have a question. It's different to the subject we are talking about.

39:37
 It's about the Salat (Contact Prayer). Before the Salat, ablution is really important, that's for sure.

39:44
 But if we just get out of the shower, do we have to do it again?

39:51
 Dr. Khalifa: No, you do the ablution in the shower. Dr. Khalifa: You go through the motions in the same order. Yes. A woman: In the shower. Ok.

39:56
 A woman: Ok. (unintelligible) That's good. Dr. Khalifa: Yes. Dr. Khalifa: See, the idea... remember the order? Dr. Khalifa: The face, the arms, the hair, and the feet. A woman: Yeah. Of course. I always do it

40:05
 A woman: but I heard some people said, in Hadith, it says only Ghusl Janabat is the only thing.

40:12
 Dr. Khalifa: No. A woman: But I... Dr. Khalifa: Even in Ghusl Janabat, you have to do the Wudu. A woman: You have to do the ablution in this direction. Dr. Khalifa: Yes.

40:19
 Dr. Khalifa: Yes. A woman: Ok. A woman: Another thing that I have is about, again, the Salat.

40:24
 In the midnight, when you wake up, and you wanna do the Salat, do you have to do in

40:35
 any direction, or you can do anything you want? Dr. Khalifa: Direction of Mecca, yes.

40:41

A woman: No, no, no. That's not what I mean. A woman: I mean, for example, you can do 2 Rak'at, 4 Rak'at, whatever you want. Dr. Khalifa: Anything.

40:50

A woman: Anything. And another thing is, can you do it like kind of meditation

40:55

just sit straight towards the Qibla, and just meditate with God? Dr. Khalifa: Right. A woman: Which one is better in Quran, within the Quran?

Dr. Khalifa: Whatever you feel like.

Praying for others. Being an idol worshipper then turning to God Alone allows you to understand idolatrous mind.

41:04

Dr. Khalifa: It's up to you. Whatever your heart tells you. A woman: But you have to get out of the bed, and get up, and do it.

41:12

A woman: Not in the bed. Dr. Khalifa: No. Dr. Khalifa: You don't have to do anything. It's not required. Dr. Khalifa: That's extra. A woman: Can we do it in the bed?

41:17

Dr. Khalifa: Sure. I mean, that's not required in the middle of the night.

41:23

It's not required. Dr. Khalifa: That's extra. A woman: That's the extra (unintelligible). Dr. Khalifa: It's beautiful. Yeah. Dr. Khalifa: That's not required.

41:29

A man & a woman: (unintelligible)

41:34

A woman: When you are praying for people, for example, for the the war, for the wars, for the

41:43

people you know, OK, the praying, how is it supposed to be, the praying?

41:50

I know it's only ask of God. But how? Just mention the name, or what? I don't know.

41:58

Dr. Khalifa: OK, the Prayers are given in the Quran. The prayer for others, God teaches us how to do it.

42:08

It says, for example, رَبَّنَا اغْفِرْ لَنَا وَلِإِخْوَانِنَا الَّذِينَ سَبَقُونَا بِالْإِيمَانِ وَلَا تَجْعَلْ فِي (59:10) قُلُوبِنَا غِلًّا لِلَّذِينَ ءَامَنُوا

42:16

So, it's always, you cannot ask forgiveness for a Mushrik, for an idol worshipper.

42:23

Because the example of Ibrahim. He asked forgiveness for his father.

42:29

And this was wrong. Why is it wrong? Because God said "I do not forgive the idol worshipper." And you turn around and you say "please God, forgive this idol worshipper."

42:37

This means you're not accepting God's decision not to forgive, never to forgive the idol worshipper who dies.

42:44

By the way, a person who is an idol worshipper at the time of death.

42:50

For example, I was an idol worshipper for a long time, but I repented. I discovered what the truth is.

42:56

Dr. Khalifa: But if the idol worship is maintained until the time of death, then this is where it is unforgivable. It's finished.

43:05

A woman: Excuse me. Dr. Khalifa: Yeah. Dr. Khalifa: Even the Prophet Muhammad, and this upsets a lot of people, he was an idol worshipper.

43:12

Dr. Khalifa: And this is in the Quran. A woman: And this is the Quran. A woman: It says in Quran. Dr. Khalifa: See, and this shocks them. You know, they refuse to see it. They don't wanna see it. A woman: But he repented though.

43:18

Dr. Khalifa: Of course. Dr. Khalifa: In fact, this makes a better teacher out of him. Because I understand the mentality of the Mushriks.

43:25

I understand how the people go before the saint and pray to the saint. Because I did it. And for me, it was very valuable education.

43:34

So, this makes a better messenger out of Muhammad, that he was just like the rest of his society.

43:40

Yes, in Sura 40, verse 66.

43:46

Dr. Khalifa: No? It says "I was stopped from worshipping what you worshipped when the clear revelations came to me." I mean, it's...

43:53

Dr. Khalifa: Yeah. A woman: What Sura? Dr. Khalifa: 66 of Sura 40. A woman: Ok. Dr. Khalifa: They refuse to believe God, you know. They know better than God. They say "no, Muhammad was pure and beautiful."

Rashad's father memorized the Quran and knows Arabic perfectly but it did not help him.

44:03

"He never did anything like that." A woman: No, it says very straight in the Quran.

44:08

Dr. Khalifa: There's some crazy guy out there on the street. Drunk, drunk (unintelligible). It says,

44:14

(93:7) وَوَجَدَكَ ضَالًّا فَهَدَىٰ وَوَجَدَكَ ضَالًّا فَهَدَىٰ Like you say "zallan," (93:7) وَوَجَدَكَ ضَالًّا فَهَدَىٰ

44:19

Right? So, he was ضَالًّا And God guided him when...

44:25

But they refuse that. My father wouldn't accept it. I say "was he Zallan or not? He said "no, he wasn't."

44:31

I said "God says he was." "Do you know better than God? Dr. Khalifa: You know, I tell him. A woman: It's amazing because he knows how to read Arabic.

44:38

Dr. Khalifa: Yeah. Exactly. A woman: And I always beg him to go learn Arabic more and more. Dr. Khalifa: Makes no difference. What did I tell you? See? A woman: Now, I know you told

44:44

Dr. Khalifa: My father, there is nobody who knows Arabic better than my father. A woman: me that statement. Dr. Khalifa: I mean he studied the Nahv, the grammar, everything that has to do with Arabic.

44:52

He memorized the Quran since he was 8 years old. Dr. Khalifa: He never lost it. A woman: What he says about that verse?

44:57

(93:7) وَوَجَدَكَ ضَالًّا فَهَدَىٰ ? Dr. Khalifa: He said "he wasn't." A woman: But that says...

45:03

Dr. Khalifa: He refuses. I know. A woman: What you did? Dr. Khalifa: I said "you're telling God "I know better than You. I know Muhammad better than You.""

45:09

A woman: Allahu Akbar. Ok. Dr. Khalifa: Yeah. Absolutely. A woman: Listen to this question.

45:15

You, you had this question some times ago. A woman: When somebody dies. Dr. Khalifa: Oh no, I didn't finish that point. A woman: You didn't finish that point.

45:22

Dr. Khalifa: I was saying that God says that I do not forgive idol worship.

45:28

And then, you turn around and you say "please, God forgive this idol worshiper." This is why Ibrahim was reprimanded when he said "please, God forgive my father."

45:36

So, the proper way for this situation is to say "please, God guide my father to the right path, to the right way."

45:46

You can pray for guidance, but not for forgiveness if the person is an idol worshiper.

45:51

Like in the case of my father, I cannot ask for his forgiveness. Because God already said "I do not forgive idol worship."

45:58

So, I can't go against God. I can only say "please, God guide my father to the right path."

Praying for others, true Brothers and Sisters. Supplication.

46:05

So, this is an example of the prayer. And this is why when you read the Quran, the prayer of Quran for the others, God teaches us by saying,

46:15

(59:10) رَبَّنَا اغْفِرْ لَنَا وَلِإِخْوَانِنَا الَّذِينَ سَبَقُونَا بِالْإِيمَانِ So, they had Iman (belief). They're Mu'mins (believers).

46:21

(59:10) وَلَا تَجْعَلْ فِي قُلُوبِنَا غِلًّا لِلَّذِينَ آمَنُوا It's always consistently.

46:27

So, you can ask for forgiveness to the believers. Dr. Khalifa: The little things that we do.

46:33

A woman: The believers who are dead? A woman: No. Dr. Khalifa: Yes, it could be, it could be for the believers who died.

46:40

Dr. Khalifa: Could be, as long as, as long as you specify the believers. A woman: The believers. Yes. That's right. Dr. Khalifa: Yeah. A woman: But didn't you say last time... Dr. Khalifa: But you cannot name, you cannot name a person.

46:48

A woman: Yeah. Dr. Khalifa: Because you do not know if this person is a believer or a Mushrik. A woman: That's right. Dr. Khalifa: So, this is why when the Quran teaches us, it makes it general. It says,

46:56

(59:10) رَبَّنَا اغْفِرْ لَنَا وَلِإِخْوَانِنَا الَّذِينَ سَبَقُونَا بِالْإِيمَانِ Those who were before us, the Mu'mins before us.

47:07

A woman: When one of our relative dies, or friend, or whoever we know,

47:14

is this help if we, you just said "yes, it helps to pray."

47:21

But we cannot pray in the name of like, for my father, for my mother.

47:26

A woman: And say that... Dr. Khalifa: No, no, wait. I didn't say it helps. Dr. Khalifa: I didn't say it helps anybody. A woman: So, okay, then I was confused. Dr. Khalifa: You misunderstood.

47:33

A woman: Because you told me it doesn't help before. Dr. Khalifa: Yeah, it doesn't help anybody.

47:39

Dr. Khalifa: But... A woman: But when somebody dies, it's finished. Dr. Khalifa: Right. Dr. Khalifa: It's his, it's whatever he did. A woman: Then, why do they say "you can do it."

47:45

Dr. Khalifa: It's whatever he did. Dr. Khalifa: It's very important. Du'a (prayer) is very important. I'll tell you why.

47:51

Dr. Khalifa: You're saying "please God, forgive us and forgive the believers before us. A woman: Do you want me to turn on the extra light? Dr. Khalifa: Sure. Sure.

48:05

A woman: Yes, this is very important. Dr. Khalifa: Yeah, the Du'a is very important. I'll tell you why. I read, they have a question and answer in a famous newspaper.

48:14

Or you can do the other one, leave it the other one, so we can see the outside. Dr. Khalifa: Keep the outside light on.

48:21

A woman: On? Dr. Khalifa: Yeah. Dr. Khalifa: Yeah. This way we see if anybody is coming or what.

48:26

And I will leave that, I will leave this on and turn this off.

48:33

This is the best effect. Here we have a queen turning the lights off for us.

48:41

No, the other one. Yeah. Here.

48:47

Nice You can say "please God, forgive the believers before us", because they were believers.

48:55

And the believers are all brothers and sisters. God said, (49:10) **إِنَّمَا الْمُؤْمِنُونَ إِخْوَةٌ**

49:03

So, your real brothers and sisters are the believers. Because, even though you're not my sister, from my father and my mother,

49:11

when you worship God alone and I worship God alone, we're gonna be together forever. And my brothers and sisters were in the same house with me for 10-15 years.

49:23

But a believing brother and sister will be for millions of years, for eternity.

49:31

So, this is the real brotherhood. (49:10) **إِنَّمَا الْمُؤْمِنُونَ إِخْوَةٌ** A woman: That's beautiful. Dr. Khalifa: So, when you say "please God, forgive the believers", you're really praying for your brothers and sisters

49:40

who will be with you in the same place forever, and for a long time.

49:45

The question was in the newspaper "why does God want us to pray to Him?"

49:51

Because God says, (40:60) **وَقَالَ رَبُّكُمْ ادْعُونِي أَسْتَجِبْ لَكُمْ** God says in the Quran "pray to Me, and I will respond to you."

49:59

(40:60) **وَقَالَ رَبُّكُمْ ادْعُونِي أَسْتَجِبْ لَكُمْ** So, the question was "why does God want us..." if everything is written down already,

50:06

"your videotape, my videotape, from birth to death, are written down, recorded, "so why pray?"

50:13

That was the question. It turns out, the importance of prayer is, it is a fantastic form of worship.

50:21

Because, first of all, it indicates that you do believe in God.

50:27

In other words, if you don't believe in God, I mean, who are you talking to? "Please, God, forgive the believers." Who are you talking to?

50:33

It indicates, it declares to Sheytan, God points at you and says "See this, this person believes in Me."

50:39

Because nobody will pray to a non-existent imaginary entity.

50:44

A woman: Yeah. Dr. Khalifa: Nobody will pray to God if they didn't believe. When you say "please God, give me a million dollars."

50:51

Ok. Even though it's a materialistic prayer, but it does indicate that you believe in God.

50:57

It's the best form of declaring that the person believes in God. "Please God, give me a million dollars."

51:04

Who are you talking to? To God. So, this is the importance of Du'a. "Please God, heal my sickness." You know.

51:10

"Please God, remove the headache I have." So, you're praying, it proves that you believe in God.

51:16

This is why God says, (40:60) **وَقَالَ رَبُّكُمْ ادْعُونِي أَسْتَجِبْ لَكُمْ** Because every action that we do, God is pointing at us and says "see, he believes in Me."

51:26

"He worships Me." Or, Sheytan will say "see, he cannot worship You alone. They have to mention Jesus next to You."

51:35

So, to every person, this life is all for a test.

51:43

Everything else is just a waste of time. Everything else we do. We are here for the test.

51:48

(67:2) **الَّذِي خَلَقَ الْمَوْتَ وَالْحَيَاةَ لِيَبْلُوَكُمْ** And God created death, because initially there was no death.

51:57
Dr. Khalifa: But God created death and life لِيَبْلُوَكُمْ to test you, put you to the test.
Tests Vs. punishments. Losing money or destroying your car, God will make it up to you. Satan's schemes.

52:04
A woman: There are some people asking me questions about, like, you know we are going through the test now.

52:12
And, Alhamdu Lillah, it doesn't bother us at all. We're really strong now.

52:18
A woman: But they are very worried about Dr. Khalifa: the test. A woman: Two of them, they really didn't worry, because they have a good life without any problem.

52:29
And then, they were asking "what's happening? Aren't we a good people? We don't go through the test?"

52:35
I said "yes, you are." But, I don't know how better I can explain it.

52:41
A woman: Can you explain it again? Dr. Khalifa: Yes, don't ever, don't ever ask for a test.

52:46
I mean, believe me, you're being tested enough thoroughly. Before you finish this life, you're gonna be proven exactly if you believe in God alone,

52:54
or if you believe in God and some others besides Him, or you don't believe in God at all. You're gonna be completely... this is Sura 29, verse 2.

53:03
Dr. Khalifa: It says "do the people think they'll be left to say "we believe" without being put to the test?"

53:10
Parivash: Sura 2, Baqarah Dr. Khalifa: Sura 29. Parivash: (unintelligible) Dr. Khalifa: Sura 29, verse 2.

53:15
Parivash: verse 2, yeah, that's right. Dr. Khalifa: Yeah. Dr. Khalifa: Sura 29, Aya (verse) number 2.

53:20
Parivash: And even Sura 2, it says too, the same thing. Dr. Khalifa: So, one... Of course, yeah. (2:155) وَلَنَبْلُوَنَّكُمْ بِشَيْءٍ مِّنَ الْخَوْفِ وَالْجُوعِ وَنَقْصٍ مِّنَ الْأَمْوَالِ وَالْأَنْفُسِ وَالتَّغْلُظَاتِ

53:29
Everybody must be tested. But, the test never hurts permanently.

53:38
The test is characterized...There are tests and there is punishment. And the difference is, the punishment can leave permanent damage.

53:46
But the test does not leave a permanent damage. Dr. Khalifa: You don't lose a finger, for example.

53:52
A woman: You lose your money and stuff so... Dr. Khalifa: Yes, you lose things... you lose 1000 dollars. When God sends you 10,000. After the test is over and you pass it, then God sends 10,000 to make up for that 1000.

54:03
Dr. Khalifa: So, because the material goes and comes. A woman: Well, you said... Dr. Khalifa: You just throw your car, you know, or something, and God sends you enough money to make it up after you pass the test.

54:13
So, you can tell these people that if you are with God, you're gonna be put to the test to prove the following.

54:19
That you believe in God under all circumstances. Rich and poor.

54:24
Health and sick. Under all circumstances. Once this is established, there's a final test.

54:31
Dr. Khalifa: Then, you are appointed king or queen on earth.

54:36
A woman: And, OK, then, for example, if we ask for test, that's damaging. Dr. Khalifa: No.

54:43
Dr. Khalifa: Don't ask for test. A woman: More? Dr. Khalifa: Yeah. A woman: No, I'm asking this for the people, they are in... Dr. Khalifa: Yeah.

54:50
Dr. Khalifa: Don't ever... A woman: Yeah, I know. Dr. Khalifa: Don't ever ask for test. A woman: "(unintelligible) don't You put us under test."

54:56
Dr. Khalifa: Yeah, there is a prayer. A woman: (unintelligible) Du'a (prayer). Dr. Khalifa: Yeah. A woman: OK, then, you ask God for the material and the Hereafter. Dr. Khalifa: It's OK.

55:09
Dr. Khalifa: It's OK. Perfectly alright. A woman: Ok. Dr. Khalifa: Remember I said, because it is a form of worship, and because it indicates that you believe

55:16
in God, even though you're asking for a million dollars or something materialistic. A woman: Ok. A woman: And one more to last.

55:23
A woman: It is Mahmoud... Dr. Khalifa: Really? A woman: For now. Dr. Khalifa: No way. Yeah.

55:29
A woman: Mahmoud asked me about the different Suras.

55:34
I asked you already last night, but I wanna refresh it again. And the verses, when you read the verses, some of them they're repeated so often.

55:45
And some of them, they are in a place. It does...It's just changing the subject by the sudden. Why?

55:53
 Dr. Khalifa: OK, practically every page of Quran says "Worship God alone. Worship God alone." A woman: Yeah.
 55:59
 "Worship God alone", every page. Is it doing any good? A woman: Right.
 56:05
 Dr. Khalifa: Is it? A woman: No, it doesn't. Dr. Khalifa: It is not. Dr. Khalifa: It's not. Still the vast, vast majority of people have to mention names with Allah.
 56:14
 So, this is why subjects are repeated over and over. So that, when you open the Quran at random... see, I opened it at random, right?
 56:24
 And I read, it says [12:97] They said, "O our father, pray for forgiveness of our sins; we have been really wrong." [12:98] He said, "I will implore my Lord to forgive you; He is the Forgiver, Most Merciful."
 56:35
 This is Sura Yousuf, the story of Joseph. And it says, oh my gosh, it says here
 56:42
 [12:103] The majority of people, no matter what you do, will not believe. A woman: Yes. A woman: Subhan Allah A woman: Allahu Akbar
 56:47
 Dr. Khalifa: [12:104] Even though you do not ask them for any wage... A woman: La Elaha Ella Allah. That's right. Dr. Khalifa: [12:104] ...For this is a message to all the people.
 56:54
 [12:105] And even though the heavens and the earth are full of signs, they pass by them totally heedless!
 57:02
 [12:106] And the majority of those who believe, fall into idol worship.
 57:07
 So, every page in the Quran, so you get the message from here that you must worship God alone.
 57:14
 That it is very difficult, that the majority of people flunk the test. They flunk the first test, the majority, of believing in God.
 57:21
 And then once they pass this test and they believe in God, then Sheytan works on adding other names with God.
 57:27
 And when they pass this test, he divides them.
 57:34
 Maliki and Hanafi and Shafi'i and Sunni and Shia and so forth. So, this is why there are certain subjects repeated in the Quran.
 57:42
 It's to increase the chance of people seeing them. Like you saw now.
 57:47
 You open the Quran at random, and this subject of idol worship is repeated. Dr. Khalifa: Almost every page.
 57:54
 A woman: Thank you very much. Dr. Khalifa: You're welcome.

30 Quran Study From Parivash 330 Sura 28 & Sura 57 Insurance With GOD Sura 45;33 Rashad Was Told To

Dr. Khalifa: أَعُوذُ بِاللَّهِ مِنَ الشَّيْطَانِ الرَّجِيمِ Bism Allah Arrahman Arraheem
 0:06
 [28:6] And to establish them on earth, and to give Pharaoh, Hāmān, and their troops a taste of the suffering they have inflicted upon others.
 0:15
 This verse has to do with God supporting the oppressed.
 0:25
 This is a divine law that we see in verse 5, just before that, that God helps the oppressed.
 0:36
 [28:5] We willed to make it up to those who were oppressed on earth, and to turn them into dignified people, and make them the inheritors.
 0:47
 [28:6] And to establish them on earth, and to give Pharaoh, Hāmān, and their troops a taste of the suffering they have inflicted upon others.
 0:54
 They were enslaving the children of Israel.
 0:59
 Now, you remember Joseph. Joseph was picked up from the well, taken to Egypt.
 1:07
 Eventually, he became the treasurer, and he was the man in charge of all the food for the whole world
 1:13
 actually, because the whole world was in the Middle East, excluding China, that area, but
 1:21
 that was the most active area in the world. And people were coming to him from everywhere, including his own family, as you remember.
 1:31
 And then he played that trick, where they put the king's cup in his brother's goods,
 1:41
 kept his small brother, and then finally he told them who he was and asked them to bring his family to Egypt.
 1:50
 That was in Joseph's time. So, now, his family was who? It was his father, Israel, and his mother, and his 11 brothers.
 1:59

And that was the beginning of the children of Israel in Egypt. So, they came. They were dignified. And he hosted his family in the mansion.

2:13

It was a very important era in Egypt. Now this history in this Sura, is 300-400 years after Joseph.

2:26

And the children of Israel had multiplied and they became slaves of the Egyptians.

2:32

They looked different, just by virtue of their look and their race.

2:42

The Egyptians became racist and used them as slaves, built the pyramids, did the hard work.

2:52

So, God feels for the oppressed and makes it up to them.

2:58

It's just a quick glance at the history of Israel, the children of Israel.

3:06

And it actually reflects the greatness of the Quran, because there are many such complicated stories in the Quran, and

3:13

they flow perfectly, without a flaw, of course. And I really appreciate this, because I tried to write the story of the Quran, and

3:25

starting with a spaceship that had 6 astronauts and 3 robots, just 9 figures.

3:35

And they were supposed to fly at the speed of light, and fashion the speed of light, and witness things.

3:42

And I was putting the story of the Quran in this way. But I could not keep track of the 6 people and 3 robots.

3:55

I had the toughest time keeping track of who is whom, and which robot does what.

4:03

Because I just had a control room, and everyone had a duty to do. 6 humans and 3 robots. Did I say 9 humans?

4:11

Six? See, I can't even keep track of numbers now. 6 humans, and this officer is in charge of navigation, and this one is the captain, and this one is that, and this robot does this.

4:24

I could not keep track of 9 things. 6 humans and 3 robots.

4:29

And the Quran has hundreds of people, and God keeps track of every, the Quran keeps track of every one of them, without a single mistake.

4:37

So after all the reviews and everything, if I look back, I see that I mix the robots, who is doing what, things like that.

4:45

So, these stories were scattered throughout the Quran, but they are perfect.

4:52

Confidence in God [28:7] We inspired Moses' mother: "Nurse him, and when you fear for his life, throw him into the river...

5:01

Does this make sense? When it comes to God, yes.

5:08

I interrupted in the middle of the verse, because this is one of the most incredible stories. And it must teach us the subtitle, "Confidence in God."

5:18

I mean, how can you fear for your children, when you are with God?

5:23

You don't fear for your children at all. It's a piece of cake, raising children for the believers.

5:32

And again, God is teaching all of us through my old age and my experience.

5:38

God gave me a boy and a girl, so we can have the two kinds. And when they are in God's hand, you don't worry one bit, one minute.

5:46

And you see, God will let you know that they are in His hand, and will let you know that they are protected.

5:54

If you worry, you're not a strong believer, you're not a good enough believer to worry.

6:00

You don't have confidence in God. And of course, this depends on you. I mean, you better be solidly with God.

6:07

Then, you will have that confidence, and you'll not worry about your children. They can be out in the street riding a bicycle or something. And what can you do? You can't guard them, but God can.

6:18

So here, God is telling Moses' mother, if you worry about him, throw him in the river. Who ever heard of this?

6:25

You get a basket, put a baby in there. Can you imagine Samarukh throwing Jafar in the river?

6:32

Yeah, I mean, just to bring it to our minds.

6:37

Dr. Khalifa: Go ahead, Edip. Edip: Does she know about Moses, her son, when he became a believer?

6:43

Dr. Khalifa: Yes. Dr. Khalifa: When he, on his own, yeah, after he grew up, he had to make his own decisions. Edip: Yes.

6:50

Edip: Yes. After a certain age, they also (unintelligible) are not responsible for them. Dr. Khalifa: He's not responsible for them.

6:58

Dr. Khalifa: Yeah. They make their own decision.

7:05

I'm tempted here to give an example from my own life, also.

7:14

When I, I was, I was in charge of Sammy until he was, what, 21? That's right. 21.

7:20

And until he got to 21, I took him all the way to the top. Maybe I shouldn't take... God

7:27

He made it to the major leagues. I mean, the peak of his career is hitting the home run in Dodger Stadium.

7:35

And on that day, I had a discussion. He's young, of course, and he's entitled to his young ideas.

7:44

So, I think he made a fatal statement where I told him to thank God.

7:52

In fact, he was playing with the computer here, and the verse that came in front of him, I think he was sitting there, said "the more you thank Me, the more I give you."

8:00

That was the subject that I told him. I said "thank God for the home run." [57:26] ... Some of them were guided, while many were wicked.

8:08

Deterioration of Religion [57:27] Subsequent to them, we sent our messengers. We sent Jesus the son of Mary, and we gave him the Injeel (Gospel), and we placed in the hearts of his followers kindness and mercy. But they invented hermitism which we never decreed for them. All we asked them to do was to uphold the commandments approved by GOD. But they did not uphold the message as they should have. Consequently, we gave those who believed among them their recompense, while many of them were wicked.

8:39

[57:28] O you who believe, you shall reverence GOD and believe in His messenger. He will then grant you double the reward from His mercy, endow you with light to guide you, and forgive you. GOD is Forgiver, Most Merciful.

8:56

[57:29] Thus, the followers of previous scripture should know that they have not monopolized GOD's mercy and grace, and that all grace is in GOD's hand. He bestows it upon whomever He wills. GOD is Possessor of Infinite Grace.

9:12

A woman: (unintelligible) Dr. Khalifa: Yes, the same. (57:29) ذُو الْفَضْلِ الْعَظِيمِ Yes.

9:18

A woman: (unintelligible) Dr. Khalifa: Yes. And it is Sura 57.

9:25

And it just repeats over and over, believing in God and His messengers.

9:31

Dr. Khalifa: Very relevant to our time. A woman: Yeah.

9:37

Parivash: They said that Sura Muhammad, 38, but Abraham, 52, and Nooh (Noah), 28. Dr. Khalifa: 28.

9:46

Parivash: None of them is a multiple of 19, but Muhammad and Rashad is a multiple because the time of Abraham and Nooh is

9:53

it was in the Quran with the... A woman: (unintelligible)

10:23

Dr. Khalifa:not know his children, Abdulaziz Al Saud. And this is in our lifetime, in my lifetime. Excuse me.

10:32

Dr. Khalifa: In my lifetime, Abdulaziz Al Saud did not know his children. Edip: Rashad, maybe with... how do you say it, polygamy (unintelligible) I think he was not the only man. There were others.

10:46

Dr. Khalifa: Of course, and everyone was doing the same thing. Edip: No, no, no. Different ratio between men and woman Dr. Khalifa: No, no, no.

10:52

Edip: It is (unintelligible) Dr. Khalifa: Yes, there were.

10:57

Dr. Khalifa: There was a higher, much higher proportion of women than men because if you have a society of 200 men and 1 woman, you will still have 1 baby every year.

11:07

But it was the other way around. Edip: (unintelligible) Dr. Khalifa: Yeah. No, no, the proportion of women was much higher, and lifespan was much longer.

11:16

And the neighbors used to go to Noah and ask for allowance to take advantage of the fact that he didn't know who they were.

11:25

A man: (unintelligible) A man: That's a joke. That's a joke isn't it? Dr. Khalifa: That's a joke. Dr. Khalifa: I'm sure it happened.

11:32

Here comes a 10 year old kid "Dad, give me my allowance."

11:37

"Who are you?" "I'm your son." "You're sure?" "Yes." "Okay."

11:43
And he's the neighbor's kid. Anyway, we know about one who went bad, so that's not bad at all.

11:51
This will not happen to us, IN SHAA ALLAH. Because we have what, 2, 3.

11:57
And I'm positive that God will assign to our homes only good souls.

12:03
This is a whole new era. And we have to keep in perspective what times, the time on earth it was.

12:10
So, that was one of Edip's flies in the oatmeal.

12:16
Your children are in God's hand. Okay, back to number 7.

12:23
[28:7] We inspired Moses' mother: "Nurse him, and when you fear for his life, throw him into the river without fear or grief. We will return him to you, and will make him one of the messengers."

12:38
This is an example of God letting a human being know the future.

12:44
Throughout the Quran, we know that God picks out whomever He wills to give him future information.

12:50
And Moses' mother was one of them. [28:8] Pharaoh's family picked him up,...

12:57
I mean, when a basket is flowing in the river, it can land anywhere.

13:02
The possibility of the basket landing at Pharaoh's palace is one in billion.

13:12
It just shows you God's control of the minutest detail in the world. [28:8] Pharaoh's family picked him up, only to have him lead the opposition and to be a source of grief for them. That is because Pharaoh, Hāmān, and their troops were transgressors.

13:29
Inside the Lion's Den [28:9] Pharaoh's wife said, "This can be a joyous find for me and you. Do not kill him. He may benefit us, or we may adopt him to be our son." They had no idea.

13:44
So, you can see that Pharaoh's wife was a plant. God planted her in the Pharaoh's palace.

13:52
He assigned that soul to that place at that time just to make this statement. "Don't kill him."

13:59
The whole life is complicated and still is computerized by God to fit the circumstances.

14:06
Fit in this way. As...Of course, we know that Pharaoh's wife was a fantastic believer.

14:13
Right? If you look at the end of Sura 66.

14:18
I think it is 66.

14:27
Is it 65? Oh, this is 67. Ok. Excuse me.

14:32
Yes, number 11, page 561. [66:11] And GOD cites as an example of those who believed the wife of Pharaoh. She said, "My Lord, build a home for me at You in Paradise, and save me from Pharaoh and his works; save me from the transgressing people."

14:50
So, she is one of the top believers. And she was in the home of the worst, just about the worst creature in history, Pharaoh.

15:00
Who said "I am your god." That's how bad he was.

15:05
But she was one of the top believers. And God planted her there for this particular... I mean, one of the reasons.

15:14
So, she said [28:9] ... Do not kill him. He may benefit us, or we may adopt him to be our son." They had no idea.

15:22
The baby obviously looked Hebrew. But God controls the minds and the hearts of everyone, including Pharaoh.

15:29
[28:10] The mind of Moses' mother was growing so anxious that she almost gave away his identity. ...

15:35
She couldn't stand it anymore. [28:10] ... But we strengthened her heart, to make her a believer.

15:43
[28:11] She said to his sister, "Trace his path." She watched him from afar, while they did not perceive.

15:50
The Infant Returned to His Mother Number 12 says, [28:12] We forbade him from accepting all the nursing mothers. (His sister) then said, "I can show you a family that can raise him, and take good care of him."

16:04
So, his sister was watching from afar. And when she saw the commotion, there's a baby screaming.

16:10

I mean, he wasn't very popular because he's... Here's the Pharaoh's wife is trying to convince her husband to keep him. And he was making a lot of noise, hungry and crying.

16:19

There was a commotion. And his sister volunteered the information. I can tell you of someone who'll take good care of him.

16:26

[28:13] Thus, we restored him... [28:13] Thus, we restored him to his mother,...

16:32

He will not... Now, here's a hungry baby who will not nurse from just any woman.

16:41

What a plot. A Divine plot.

16:47

[28:13] Thus, we restored him to his mother, in order to please her, remove her worries, and to let her know that GOD's promise is the truth. However, most of them do not know.

16:58

"God promise is the truth." And God promises you what you read yesterday, that He'll make you a king or queen on earth if you are with Him.

17:09

God is the one who runs everything, all the minute details. He's the one who hires and fires and provides, and creates.

17:17

[28:14] When he reached maturity and strength, we endowed him with wisdom and knowledge. We thus reward the righteous.

17:26

Moses Commits Manslaughter [28:15] Once he entered the city unexpectedly, without being recognized by the people. He found two men fighting; one was (a Hebrew) from his people, and the other was (an Egyptian) from his enemies. The one from his people called on him for help against his enemy. Moses punched him, killing him. He said, "This is the work of the devil; he is an enemy, and a profound misleader."

17:55

Of course, the man who died did not die without God's permission.

18:00

We have the law in Sura 3. "No one dies without God's personal order."

18:08

The angels do not know when anybody will die. Only God knows and decides.

18:13

So, God computerized it so this man will die at this moment as Moses punched him.

18:20

Why? Because Moses will leave, will go meet Joshua, and marry his daughter

18:26

and be away from Egypt for a while and then go back to, in spite of his crime, to go back to Egypt and ask Pharaoh to believe.

18:37

So, you can see God's plan. Something that looks bad, but it's really very good.

18:45

And this, similarly, Joseph's prison was like a school. He worked in a school and he graduated prime minister.

18:53

Dr. Khalifa: It's not bad. Edip: I think this, Rashad, this incident makes Moses a hero. Dr. Khalifa: Yes.

19:00

Dr. Khalifa: Yes. Edip: And a hero among many tribes. Dr. Khalifa: Exactly. Edip: It's likely. Dr. Khalifa: Exactly. Edip: Because he killed one of the oppressors. And this is one of the problems of the unappreciated.

19:12

Dr. Khalifa: Exactly. Exactly. That also, It's a very good point. Raises... Dr. Khalifa: Raises Moses as a leader among the children of Israel.

Edip: And they wanted to kill (unintelligible)

19:21

Dr. Khalifa: Yes. Edip: He's a very brave man. Dr. Khalifa: Yes. Dr. Khalifa: Because he left the palace. I mean, he was a prince.

19:28

Dr. Khalifa: You can imagine him coming out of the palace in a chariot and going to the city. He's a prince, full prince. Edip: Yes.

19:34

Dr. Khalifa: Grew up. Because the king adopted him, the queen. Edip: (unintelligible)

19:39

Dr. Khalifa: And he sacrificed all this because of a Hebrew who was fighting with an Egyptian. So, it's a very good point. So, this is preparation for his leadership.

19:49

When he goes back and tells him, you come with me, they follow him. He's a hero. The making of a hero. Mā Shā Allāh.

19:57

[28:16] He said, "My Lord, I have wronged my soul. Please forgive me," and He forgave him. He is the Forgiver, Most Merciful.

20:05

So, this will fall under the law, the Quranic law, that you may dislike something when it is good for you.

20:10

Or you may like something which is bad for you. So, the moral is, we must submit to God totally, completely. Whatever is happening, we have to accept it.

20:19

We have to know that it is for your own good. If you're a believer, then whatever is happening is for your own good.

20:28

17. I think we've got to stop here because of the workers are going to work.

20:34

7 o'clock. Susan, wake up.

20:40
You're supposed to go have breakfast and go to work.

20:46
Why don't you go ahead? Lisa, you wanna help her find something in there?

20:52
Lisa is not working today. You're the only one.

20:57
Dr. Khalifa: We'll see you, IN SHAA ALLAH, what, at noon? Susan: I have a one. Dr. Khalifa: For the Noon Prayer? Great. Dr. Khalifa: Have a great morning. Susan: I have a one.

21:03
Dr. Khalifa: Hmm? Susan: I have a one. Dr. Khalifa: Yes, I know. Dr. Khalifa: Let's read 17.

21:10
[28:17] He said, "My Lord, in return for Your blessings upon me, I will never be a supporter of the guilty ones."

21:17
[28:18] In the morning, he was in the city, afraid and watchful. ... He didn't know if his crime has been exposed or not.

21:25
[28:18] ... The one who sought his help the day before,... is a troublemaker. And he asked him for help again.

21:30
[28:18] ... Moses said to him, "You are really a troublemaker." Today, he was fighting again with an Egyptian.

21:38
And his name was Wakili. Moses' Crime Exposed

21:44
A man: What? Dr. Khalifa: Number 19. Dr. Khalifa: We know somebody called Wakili and he fights with anything that comes in his way. Yes.

21:53
God shows us examples of everything. Moses' Crime Exposed

21:58
[28:19] Before he attempted to strike their common enemy, he said, "O Moses, do you want to kill me, like you killed the other man yesterday? Obviously, you wish to be a tyrant on earth; you do not wish to be righteous."

22:14
So, this tells us that now everybody knows that he killed an Egyptian.

22:19
[28:20] A man came running from the other side of the city, saying, "O Moses, the people are plotting to kill you. You better leave immediately. I am giving you good advice."

22:29
[28:21] He fled the city, afraid and watchful. He said, "My Lord, save me from the oppressive people."

22:35
Of course, we know the rest of this. This led to his marriage and his return to Egypt as a hero with God's message.

22:46
Alhamdu Lillah Dr. Khalifa: Yeah. Go ahead. Parivash: Did he kill him by accident or was he angry? Dr. Khalifa: It was an accident.

22:54
Dr. Khalifa: It was accident. Yes. Actually he didn't kill him, God killed him.

22:59
Everything was timed that way.

23:05
Dr. Khalifa: We know about Moses, he was hot-tempered and he was physically very strong.

23:13
A man: I think the whole thing was done keeping with God's plan. Dr. Khalifa: Exactly.

23:19
I mean, look here. This is a simple history, but there are so many lessons that we learn from it.

23:25
Because God's power is illustrated in every, every sentence.

23:32
Dr. Khalifa: Behrouz, you're here! You're home! Behrouz: Yes, sir. Yes. Alhamdu Lillah. Dr. Khalifa: Mā Shā Allāh.

23:39
Dr. Khalifa: Parivash is shaking her head because we lost the guy. Now, he's in Tucson.

23:48
Dr. Khalifa: We will come and visit him now. There's one more reason for them to come and visit Tucson.

23:54
Behrouz: Last week, we were talking about the children of Israel.

24:01
Behrouz: These people must be very different with other creatures in the world because of the miracles that God showed them.

24:09
Behrouz: And even Moses was the only prophet, actually went to see God.

24:17
You know, like everybody at that time, they were asking for more miracles. 9 miracles they had.

24:25
Behrouz: And even Moses wanted to see God himself, I mean.

24:30
Dr. Khalifa: But you know, it happened because he was speaking with God. Behrouz: Right. Dr. Khalifa: And it's a natural curiosity in that situation. Because, suppose I'm speaking to you and you're invisible.

24:40

Dr. Khalifa: Then, I will want to see you. Behrouz: (unintelligible) Dr. Khalifa: Yes, so, it was in the conversation.

24:47

But the children of Israel wanted to see God, but it was a totally different issue. It was out of defiance.

24:52

They said "We will not believe unless we see God physically", they said. Dr. Khalifa: But the situation with Moses was different. He was...

24:57

Edip: He was challenging, Moses only... Dr. Khalifa: Moses was in the conversation. He said "my Lord, let me see You."

25:06

(7:143) رَبِّ ارْنِيْ اَنْظُرْ اِلَيْكَ "My lord, let me look at You and see You."

25:11

Behrouz: It was not because of this kind of nation that they didn't believe.

25:17

Dr. Khalifa: Right. Behrouz: They wanted more miracles and more miracles. Dr. Khalifa: Right. Dr. Khalifa: That was the ultimate defiance. That's what they did.

25:25

Edip: But Rashad, at that time, there were about 70 people around him who took them to...

25:31

Dr. Khalifa: No, no, no, no. That's different. Dr. Khalifa: The 70 men went to apologize.

25:39

Dr. Khalifa: This was back in the camp. They were all in Sinai and they thought they will not believe "unless we see God physically." So, they died.

25:46

Because God showed them a little bit. And they died.

25:52

Then, God revived them. One of the incidents in the Quran where God revived the dead.

25:58

But with Moses, this was done actually, it was computerized to teach us that this earth cannot stand the presence of God.

26:04

Because God wiped out the mountain. Just to... It was a fact.

26:10

I mean, God manifested Himself to the mountain. And the mountain shattered.

26:15

And Moses fell unconscious. Then, when he came to, the first thing he said "Subhanak (مُتَبَعًا)", Glory be to You.

26:22

I apologize. Sorry.

26:27

I'm ignorant. Parivash: His intention, his intention was like Abraham when he asked, he didn't believe them. Dr. Khalifa: Yes. Exactly.

26:36

Dr. Khalifa: Exactly. I mean, there's no more belief than that. He's actually speaking with God.

26:43

It was just in the course of conversation that he did that. A man: (unintelligible) Dr. Khalifa: Exactly. Exactly. Yeah.

26:57

Dr. Khalifa: Please stay where you are. I'll be back in one minute.

27:11

[57:19] Those who believed in GOD and His messengers are the saints and martyrs. ...

27:16

A woman: Did you just say 504? 504? Dr. Khalifa: Wow. 540. A woman: Ok.

27:21

Dr. Khalifa: The page number is 540. A woman: Wow. (unintelligible)

27:30

Parivash: 57:19 A woman: Yeah. Dr. Khalifa: Yes. Dr. Khalifa: This is quite a statement. A woman: How?

27:37

Dr. Khalifa: Yes. This is quite a statement here. It says, [57:19] Those who believed in GOD and His messengers are the saints and martyrs. ...

27:45

And all of a sudden it fits to the new information that we got. That the righteous go straight to Heaven. They do not die.

27:53

Remember the verse that says "do not say about the martyrs that they are dead."

28:00

So, martyrs are not only the people who die in battle, fighting. People who die believing in God and His messengers are the saints and the martyrs.

28:11

[57:19] ... Reserved for them at their Lord are their rewards and their light. As for those who disbelieved and rejected our revelations, they have incurred Hell.

28:22

Preoccupation With This Life Condemned [57:20] Know that this worldly life is no more than play and games, and boasting among you, and hoarding of money and children. It is like abundant rain that produces plants and pleases the disbelievers. But then the plants turn into useless hay, and are blown away by the wind. In the Hereafter there is either severe retribution, or forgiveness from GOD and approval. This worldly life is no more than a temporary illusion.

28:56

The Intelligent Alternative [57:21] Therefore, you shall race towards forgiveness from your Lord, and a Paradise whose width encompasses the heaven and the earth. It awaits those who believed in GOD and His messengers. ...

29:10
See, this fits with the first line that we read. The same Paradise where Adam and Eve lived. It awaits each, every righteous person when he or she departs from this world.

29:24
To me, this is very exciting news and we were very excited when that happened.

29:30
I was so excited that in the same day, I printed that page that you got in the mail and I mailed it.

29:36
You get two of them? I sent one to your house and one to Batool.

29:42
You're the only one I sent two copies to. I figured that if you get the two of them you can always pass it on to somebody else.

29:54
But I immediately typed this and sent it and of course that was crucial because

30:00
I don't know if Amir Ali knows this or not, but my mother passed away 10 days after that. Right after that. It was fantastic news.

30:08
It's like God is telling us, assuring us because I knew all along that she was a believer. So, when she passed away and they were dreading telling me on the other end of the line,

30:18
I said "Wow. Alhamdu Lillah. Mā Shā Allāh" "What's wrong with him?"

30:24
Feroz: (unintelligible) They may die but they are in a better place. Dr. Khalifa: Yes. Very. Exactly.

30:30
Dr. Khalifa: It's like she went to a wonderful vacation in Hawaii or something and she's waiting for us until we get there.

30:41
So, but, these, these, and these verses came immediately after that to confirm.

30:48
And I'm telling you it's wonderful because I experienced it. I know exactly how it feels.

30:55
Because obviously this is where I went when I met all the Prophets. This is where I went.

31:10
I just called the Parivash in my office to listen to some Quran by Sheikh Al-Banna, of my favorite reciter.

31:17
And of course she cried. Because it was beautiful mainly. Not just because she's a good believer.

31:25
But this is what I was doing when I experienced that.

31:31
Let me call it righteous death which is not death. I was listening to Sheikh Al-Banna. I was listening to it.

31:36
Now, what condition were you in when you were listening to Al-Banna, when you were listening to Al-Banna now?

31:43
Dr. Khalifa: What condition were you in when you were listening to Sheikh Al-Banna in the Parivash: Now? Dr. Khalifa: when I called you in to listen to the Quran?

31:50
Dr. Khalifa: What condition were you in? A woman (Speaking Farsi): How was your mood? Dr. Khalifa: How did you feel? Parivash: Well, great.

31:57
Dr. Khalifa: Right.

31:57
Parivash: More than good. Dr. Khalifa: It's a state of ecstasy. You know what I mean? Dr. Khalifa: This is how I felt when all of a sudden I was up there.

32:04
That is exactly equivalent to the death of the righteous. Yeah. A woman: You were not asleep?

32:10
Dr. Khalifa: No, no. I was not asleep. I will not sleep when Sheikh Al-Banna is reciting.

32:17
God taught me a few things through that experience.

32:22
First of all, I'm a person who does not know what I ate yesterday or even what day was it yesterday.

32:28
Dr. Khalifa: What day is it today? A man: Tuesday. Dr. Khalifa: See, would you (unintelligible). Tuesday.

32:34
It's very difficult for me to remember what I did last Thursday, what date it was, things like that.

32:40
I'm very bad with remembering dates. But God did it in such a way that I know the day, the date, the time.

32:49
Dr. Khalifa: And that I was awake. A man: What you were listening. Dr. Khalifa: Because I will never sleep when Sheikh Al-Banna is reciting. He reads only for half hour, 6 o'clock in the morning every Tuesday.

32:57
All his life, this is what he did. All the other reciters in Egypt, the time slot changed, but not Sheikh Al-Banna.

33:05
He only read 6 o'clock in the morning every Tuesday from Cairo Radio. A woman: So, it was on the radio? A woman: You were listening to the radio? Dr. Khalifa: Yes. Yes. Yes.

33:14
 Dr. Khalifa: I was... A woman: I thought you were reciting the Quran. Dr. Khalifa: No, no, I was listening. So, I, after we Prayed Fajr in the Ka'bah, then I, we came with my parents.

33:22
 And then, I tuned into Cairo. So, I know the time. It was 6 o'clock in the morning.

33:28
 For Sheikh Al-Banna, so, I never go to sleep. Dr. Khalifa: And he was reading Sura Al-Rahmaan.

33:34
 A man: Yes. Dr. Khalifa: So, I was in a state of ecstasy. And my brother was recording it. At that very moment, my brother Atif was recording it in Egypt.

33:46
 Dr. Khalifa: So, I have a record of it. A woman: How long have you been...? Dr. Khalifa: I didn't miss it.

33:51
 Because when I came back, I knew that Atif recorded it. A man: You know date and the year.

33:57
 Dr. Khalifa: I know the date, the day was Tuesday. Dr. Khalifa: I know the date, it was December 21st, because my parents and myself spent only one Tuesday in Mecca.

34:05
 And it was December 21st. Cause I know it was Zul-Hijja 3. So, I mean, I know the lunar date, the solar date, the time.

34:13
 A woman: It was 1971? Dr. Khalifa: Yes, December 21, 1971.

34:18
 A woman: I thought we were there in 71, but we were. in Ramadan. And I thought it was November, but I don't think it could be November.

34:25
 Dr. Khalifa: No, November was Zul-Qa'dah Dr. Khalifa: Zul-Hijja was in December. A woman: (unintelligible) relatives in Medina.

34:31
 A woman: We were there for Ramadan. A woman: But it should be (unintelligible)

34:38
 Dr. Khalifa: If it's Ramadan, then it was October, yes.

34:44
 A man: (Unintelligible) December. Dr. Khalifa: Yes. Dr. Khalifa: Of course, December 21 was Zul-Hijja 3.

34:54
 Dr. Khalifa: So, it could have been the beginning of November. Yes. A woman: November. Feroz: How many Earth minutes went by...?

35:00
 Dr. Khalifa: Because it was the end of December, but the beginning of Zul-Hijja. Dr. Khalifa: Pardon? Feroz: How many, like, how much time went by on Earth, when you, like, came back? Dr. Khalifa: Like one hour.

35:08
 Feroz: About one hour. Dr. Khalifa: Yeah. Feroz: But did you feel you were there for quite a while?

35:15
 Feroz: Did you feel you were there for quite a while? Dr. Khalifa: Yes, it was quite an elaborate introduction.

35:22
 It was quite a procession of people, going this way. Feroz: And they were all prophets? Dr. Khalifa: Yes.

35:29
 Feroz: (unintelligible)

35:34
 Dr. Khalifa: I didn't count. I didn't... A woman: Do you remember every detail of it or was it...? Dr. Khalifa: It was very sharp.

35:40
 Dr. Khalifa: The consciousness was very sharp. A woman: Like they... Dr. Khalifa: Sharper than what we're doing now.

35:46
 A woman: So, you saw everything in detail? Dr. Khalifa: I saw the persons. I didn't see surroundings.

35:52
 And God showed them to me in their worldly looks. Dr. Khalifa: What they're dressed like here in this world.

35:57
 Feroz: Do all look different in their faces? Dr. Khalifa: Oh yeah, they all looked different. I was taken aback by Abraham's resemblance to my family.

36:04
 "Wow, who's this guy who looks like us?" It was all in my mind, and the answer came in my mind also.

36:10
 "This is Abraham." A woman: So, they all (unintelligible). Dr. Khalifa: Pardon? A woman: (unintelligible)

36:16
 Dr. Khalifa: Not much, no. Dr. Khalifa: It was only long robes and turbans. Dr. Khalifa: And beard.

36:21
 A woman: They all looked young or old? Dr. Khalifa: No, they were all around... A woman: (unintelligible) some looked young or some looked old.

36:27
 Dr. Khalifa: They looked about the same age. Edip: 19. Dr. Khalifa: About 40. No. Dr. Khalifa: It's about 40. Yes.

36:34
 Dr. Khalifa: I mean, if I'm asked how old do you think this guy is, I'll say "40."

36:45
 Dr. Khalifa: Intriguing subject, but it came up because of this, the death of righteous. And I'm passing on to you that it's a wonderful experience.

36:53
A man: (unintelligible) December is gonna be the 19th year of that...
36:59
Dr. Khalifa: Yes. December 1990 A man: And (unintelligible) Dr. Khalifa: Definitely, I think so. A man: Yes.
37:05
Dr. Khalifa: The way this official translation is going. Even with the editor.
37:12
A man: Next, next year will be 19... Dr. Khalifa: Even Ceaușescu is dead.
37:19
A man: Something... A woman: (unintelligible) Dr. Khalifa: Something is happening at the world level.
37:26
21 [57:21] Therefore, you shall race towards forgiveness from your Lord, and a Paradise whose width encompasses the heaven and the earth.
37:36
Dr. Khalifa: The word "race" is mild, it's too mild. A woman: And it's just a forgiveness. Dr. Khalifa: Yes. It's...
37:41
Dr. Khalifa: In other words, God is telling us "if you are righteous, "Heaven awaits you. You don't die, you just go there with this wonderful experience and fantastic property." The width of the heavens and the earth, it's a huge place.
37:54
And we have mansions and great things. So, "you shall race", meaning you shall compete very hard. You shall insist,
38:04
you know, and work hard [57:21] ...towards forgiveness from your Lord, and a Paradise whose width encompasses the heaven and the earth. It awaits those who believed in GOD and His messengers. Such is GOD's grace that He bestows upon whomever He wills. GOD is Possessor of Infinite Grace.
38:22
(57:21) اللَّهُ ذُو الْفَضْلِ الْعَظِيمِ which is a very special name. Because the gematrical value of "Zul Fadl Al-'Azim" is the same as the number of the word "Allah" in the whole Quran.
38:33
So, we think there's something special about it. "Zul Fadl Al-'Azim"
38:42
Profound Fact [57:22] Anything that happens on earth, or to you, has already been recorded, even before the creation. This is easy for GOD to do.
38:53
And we're told the reason, why is God telling us this? We're told the reason in 23.
38:59
[57:23] Thus, you should not grieve over anything you miss, nor be proud of anything He has bestowed upon you. GOD does not love those who are boastful, proud.
39:11
Edip: This is the key of happiness. Dr. Khalifa: Yes. Exactly. Dr. Khalifa: You have an even keel, nothing bothers you. Yes. Edip: Yes.
39:21
Edip: If you are become very happy that you gain something, how do you say it, you'll lose it. Anything. Dr. Khalifa: Yes. Exactly.
39:33
Edip: You become sorry as much as you became happy. Dr. Khalifa: Yes. Edip: You will pay.
39:38
Dr. Khalifa: Well, there's a mechanism for this. If you love anything too much, then Satan will say "Aha!"
39:44
Let me tell God that if you take this thing from him or from her, he or she will blaspheme against You.
39:50
A woman: What is too much? Dr. Khalifa: Hmm? A woman: What is too much? (unintelligible) Dr. Khalifa: Well, if it...
40:00
Dr. Khalifa: If you're gonna do anything to keep that. A woman: What? Oh, (unintelligible)
40:05
Dr. Khalifa: If you do anything, you'll do anything to keep it, whatever it is. A woman: But what about the...?
40:10
Dr. Khalifa: Then, Satan feels that if you're ever given a choice between this thing and God, you'll choose the thing.
40:18
So, if you come even close to that, Satan will make that claim. And God will grant him his wish.
40:26
God will say "Okay, go ahead and take it." And of course, if the person passes the test, God makes it up twice as much, manifold after that.
40:37
A woman: By turning to God and praying to God Dr. Khalifa: Right. A woman: like, letting Him (unintelligible) Dr. Khalifa: Right.
40:49
Dr. Khalifa: Remember the verses in Sura 7 where God says "People pray "Please God give us a good baby."
40:57
"Then as soon as God gives them a good baby, they forget their prayer." They become preoccupied with the baby.
41:04
And the baby becomes their God. They don't do the prayer. They don't...
41:10
I mean, I know people who actually did that. They become so busy with the baby.
41:16
And the baby runs their life. If the baby causes people to stop going to the Quranic study or going to the Fajr Prayer, or...

41:26
Then, this is too much. Just to answer your question.

41:43
A woman: So, when the baby comes... Dr. Khalifa: Then, there have to be, there have to be criteria.

41:54
Dr. Khalifa: We have a child for adoption here.

41:59
Dr. Khalifa: Yes, exactly. Yes.

42:15
I have to go to the last line of verse 23 because it continues into verse 24. It says, [57:23] ... GOD does not love those who are boastful, proud.

42:23
[57:24] They are stingy, and enjoin the people to be stingy. If one turns away, then GOD is the Rich, the Praiseworthy.

42:33
The footnote for 57:22 says, *57:22 We are absolutely free to side with God, or with Satan. God happens to know precisely what kind of decision each of us will make. The video tape of your life, from birth to death, is already recorded.

42:48
So, it's a matter of being a submitter or an objector. Anything that happens in our life, we must submit and say "Okay God, if this is what You want..."

43:17
*57:22 ... each of us will make. The video tape of your life, from birth to death, is already recorded.

43:24
So, it's a matter of being a submitter or an objector. Anything that happens in our life, we must submit and say "Okay God, if this is what You want, I accept it cheerfully." Underline cheerfully.

43:36
No matter what happens. Iron: The Most Useful Metal

43:46
Dr. Khalifa: There's an iron isomer that is 57. The atomic weight is 57.

43:51
A woman: Wow Dr. Khalifa: Yes. The Most Useful Metal [57:25] We sent our messengers supported by clear proofs, and we sent down to them the scripture and the law, that the people may uphold justice. And we sent down the iron, wherein there is strength, and many benefits for the people. All this in order for GOD to distinguish those who would support Him and His messengers, on faith. GOD is Powerful, Almighty.

44:22
"On faith" is a very difficult word to translate. In Arabic it's "Bilghayb (بِالْغَيْب)."

44:29
And I'm always torn between translating it as "on faith" or "when in privacy."

44:36
Dr. Khalifa: "When in their privacy." Edip: They don't see that. Dr. Khalifa: Yes. There are people who are in this mosque and they say "We believe you're God's messenger." But they will not profess that outside.

44:47
They're afraid that the people may ridicule them. They will hesitate to say it.

44:54
So, "Bilghayb (بِالْغَيْب)" applies here. It's that even outside, even away from here or in their privacy, they have no

45:03
no qualms or hesitation about saying "We believe Rashad Khalifa is God's messenger."

45:09
And we have the evidence if you want to examine it.

45:17
It's very significant that God says [57:25] ... All this in order for GOD to distinguish those who would support Him and His messengers, even in their privacy. GOD is Powerful, Almighty.

45:31
Because it's easy if we are here in a crowd that all of us believe in a certain way. We can profess that.

45:37
It's easy because everyone around us is doing the same thing. Outside, do you really, do you maintain this belief or, or what?

45:48
Dr. Khalifa: Yes. A woman: The "on faith" makes more sense than "in privacy." A woman: Yeah, the "privacy" sounds like if you're in your own home.

45:54
A woman: And it doesn't make sense if you don't distinguish. Dr. Khalifa: Yes. A man: In absence. Dr. Khalifa: Yes. Edip: Mā Shā Allāh Dr. Khalifa: That's good. A man: Even when they're not present, (unintelligible) in the absence of them. Dr. Khalifa: Yes.

46:02
A man: That was accurate. Dr. Khalifa: Yes, that too, that's exactly what I said. A man: Because Ghayb (غَيْب) can also be "absent." Dr. Khalifa: Right.

46:07
A man: If he's not present, he's absent. Feroz: How would that fit in, in like, believe in God and support Him and His messengers in...

46:15
A woman: In their absence. Dr. Khalifa: In the... Feroz: In their absence? A woman: Yeah. Dr. Khalifa: Yes. The messenger's absence. A woman: God is never absent. (unintelligible).

46:21
Dr. Khalifa: Like I said, when we're out of here, is this something that you maintain continuously or is it just contingent on being in that, with the same crowd that believe?

46:31
A man: Like, you know, for example, when you said about the party, (unintelligible) of party, like the first thing one should do is A man: accept that you are a messenger and... Dr. Khalifa: Exactly.

46:37
A man: Okay, and then... Dr. Khalifa: And then discuss it intellectually. A man: So first, you accept it on faith, right?

46:43
Dr. Khalifa: Right. A man: So maybe, I mean, that could also apply, that "on faith" could be applied there too, right? Dr. Khalifa: Right.

46:49
Dr. Khalifa: Yeah, but it's a decision that the person makes. A man: So he makes it afterwards, like first he should... Dr. Khalifa: We look at the evidence, so we decide Rashad Khalifa is a messenger or is fraud. Whichever, it's a decision either way.

46:59
And it's, it's one or the other. It's not... It cannot be both of them.

47:06
It will be one of them for some time and the other one for some other time. A man: Ok. Isn't this also in a sense, like when you use "on faith", it's implied that if the messenger said something, you first accept it,

47:17
and then logically, you know, like the party, you know? Dr. Khalifa: Yes. A man: First accept it on faith because you know he's the messenger. So, on faith, you accept it.

47:24
Dr. Khalifa: If you accept it, then you believe that it is true. A man: Right. Dr. Khalifa: See, there are only three choices, actually.

47:30
You believe that "the age of 40", this is true, this is God's truth, I believe it. Dr. Khalifa: Or I reject it. A man: Right.

47:35
Dr. Khalifa: Or I'm neutral. I have to study the evidence first.

47:44
Parivash: No. But, but maybe some people, they say for the... "It doesn't make sense for me. It's not logical for me." Ok. But...

47:52
Dr. Khalifa: Okay, well, then show them the evidence. Yes. Parivash: (unintelligible). Dr. Khalifa: Show them the evidence. "Here's the evidence. Now, what is your reason for rejecting?"

48:01
"You have to accept it or reject it. Here's the evidence." You say, this is... You see, the evidence is not arguable because it's all physical facts.

48:10
A woman: Dr. Khalifa... Dr. Khalifa: I didn't, for example, write in the book that before I was born, "Rashada" 19 times, for example.

48:17
When you add the verses in the Suras, it's a multiple of 19. And it goes on and on.

48:25
So, they're all physical facts. I didn't say, in my opinion, the root word "Rashada" occurs in the Quran 19 times.

48:31
Parivash: It happens sometimes, somebody even notices some proof that you just... Still, their knowledge was not enough and they cannot understand.

48:39
But they believe because they understand the proof that goes on in 19 and everything. They believe you are messenger, okay?

48:47
And believe this kind, and what is logically is not for them.

48:53
That is your point? A man: That's my point. Yeah. Feroz: You see, they accepted Feroz: But they accepted on faith. Parivash: On faith.

48:58
Feroz: Rather than, you know....And then later on, maybe the reason may come. Parivash: Yes. Feroz: They may understand it later on. Dr. Khalifa: Yes.

49:05
Feroz: But just because they don't understand it right away, they don't reject it. Edip: What is the reason of faith? Edip: Faith also must have a reason. Why do you believe?

49:12
A woman: Yeah. They... Dr. Khalifa: Yeah. A woman: Yeah. Edip: (unintelligible) Edip: For example, in Turkey, my friend didn't make a search on mathematical evidence,

49:22
but he learned the message and he said, "This is the message, the old message of messengers and the way of..." how do you say it?

49:30
"The way of the message proves it. It shows that he's messenger." Edip: And by this way, by the message, he believes. Dr. Khalifa: That's well said.

49:36
Dr. Khalifa: That's what the message is saying "Worship God alone. Uphold the Words of God alone. Forget the dead saints and prophets." Edip: And this kind of things, and like that Saleh business.

49:47
Some people may just, because of the faith, because of personality, and

49:54
oh, because of the believers that are around, and all... These are all proofs. If people, crooked people, if some person around him, how do you say, get together,

50:04
bad people, there are very bad communities among each other, and this shows that it's not good.

50:09

Edip: And all this, these are also evidence, different kinds of evidence. Dr. Khalifa: No. Dr. Khalifa: The simplest form is given in the Bible, as you can judge the tree by its fruit.

50:16

Edip: Yes, oh good. Dr. Khalifa: Yes.

50:23

Parivash: Both ways, it work. Yeah? Both ways, "in absence" and it's "on faith."

50:29

Dr. Khalifa: Yes. This is a word, Bilghayb (بِالْغَيْبِ), in Arabic. It's just I always don't know exactly how to translate it, what is the best word.

50:37

Feroz: Is this (رُسُلًا) word, plural, isn't it? Dr. Khalifa: Yes. "Messengers" A man: This is, what you said is so true, that I had very special experience in Turkey, that

50:49

I went through the military service, and I come home, that when I think that the test is over, and everything is okay,

50:57

my, my father came very heavy on me. Very heavy. And

51:04

it was so heavy, because I know the commandment says that, you know, you have to respect them. It was coming on so heavy, that the phone rang.

51:13

Guess who was calling? Rashad was on the phone. I burst into tears. This is God... You know, when you said "in absence", you know, I was like, I was getting so frustrated.

51:24

He's coming, you know, I can't. He's coming on and on and on. All of a sudden the phone rings, my mother answers it, and it says, it's for you.

51:33

And I said "Alhamdu Lillah, what a relief." I was... Dr. Khalifa: That was the first time. A man: Yes. "Alhamdu Lillah", then I burst into tears.

51:39

A man: You know, this is so special, that, you know, that we live Quran. When you said "absent", that just brought back to my, you know...

51:48

Dr. Khalifa: That was his lowest point in Turkey. Edip: But Rashad,... A woman: A special thing happened to me when I was working this summer in Phoenix.

51:55

A woman: I was working with these two Catholic boys, guys. And I, I told them a little bit about my religion, but I just kept quiet, because they're very obnoxious people.

52:05

And one day, though, it got really hot, and I just started telling them all about the miracle and the religion.

52:11

They were both just frustrated, and they were yelling at me, and they were like, and we had

52:18

we had to go through files, insurance files of accidents. We had over 2,000 files. It covered the whole room.

52:25

We had to go through one by one every day. And that day we hardly did any work, and we had a few files on the table.

52:34

And after I started telling them about this, and they were getting frustrated, they were like "this doesn't make sense."

52:39

Then, I started telling them about the 19 in our body. They said "now, you're going way too far with this." A woman: I'm like "it's not like I'm making it up. You can go check it out." Dr. Khalifa: Right.

52:46

A woman: And I was saying, you know "the person in our mosque, you know, he's a messenger" and all this stuff, trying to tell them.

52:51

And, and they just got really frustrated. They said "we just believe in different things. I don't wanna hear it." I said "fine." I closed the whole thing.

53:00

"Do your work." The one that was giving me the most difficulty, Dr. Khalifa, he picked up a file, and it was your file.

53:07

Dr. Khalifa: Oh, my God. A man: Subhan Allah. A woman: Dr. Khalifa, he's like "what's going on here?" It was an accident you had in Phoenix.

53:16

Dr. Khalifa: Yes. A woman: I've seen people who had no insurance, but someone that was in the car or something had the insurance. Dr.

Khalifa: I didn't have insurance.

53:21

The guy who hit me had insurance. A woman: Right. You're covered by God. Dr. Khalifa: I had insurance of God. A woman: And he looked down and he goes, and he like started reading like the address and everything. And he said "that's him."

53:32

And he goes, doo-doo-doo-doo-doo.

53:39

Dr. Khalifa: Wow A woman: I said "I rest my case."

53:44

Dr. Khalifa: Now, do you have access to that file? A woman: No, cause, well, no, it's in Phoenix.

53:50

Dr. Khalifa: What I want you to do is get the date of that accident. Get the date of the accident.

53:56

You're gonna find it, November 25th, 1985. which is, and the hour, 12:30 in the afternoon.

54:03
This is, that was, folks, that was the minute I became eligible for pension from the state of Arizona.

54:09
A man: Wow. Dr. Khalifa: And that was the last time I ever worked for this world.

54:14
Dr. Khalifa: Yes. A woman: Wow. Dr. Khalifa: If you go back to that file, I was told, I'm telling you, I mean, I confess, I was told in advance "you must quit."

54:22
"You have to quit this work. You give all your time to the Masjid." I said "come on, how will I eat?"

54:30
In fact, I was given six weeks, six weeks without pay, before, about two months before that, just two months before that.

54:38
A woman: (unintelligible) Dr. Khalifa: Yes. Dr. Khalifa: And during the six weeks without pay, somehow my account in the bank was better than ever.

54:46
I was afraid to ask them "how did this happen?" And I was telling Ihsan "don't ask, don't ask."

54:55
In other words, yes, God was telling me, you're gonna be better off devoting all your time to Me alone.

55:04
OK, so, if you check that file and look at the..., November 25th, because,

55:09
I have to tell you what the law is in the state of Arizona. In the state of Arizona, you're eligible for pension on the seventh day after your 50th birthday.

55:23
The seventh day after my birthday. Yes, 50 and 7, yes.

55:30
If you work for the state more than five years. Oh my God, that was exactly five years, because I started in 1985, 1980, and that was exactly five years.

55:44
And that was the minute, not the day, the minute, because I worked half the day of Monday.

55:51
So, it was the minute I became eligible and I was making a turn into my work.

55:56
I mean, the accident was right at my work. The gate, there was a gate that said "University of Arizona Agriculture Experiment Station."

56:04
And I'm turning into that gate and this guy ran a red light and he put me in the hospital.

56:10
No more work. That was the last time I ever saw that place. A woman: Wow. Dr. Khalifa: Yeah.

56:16
Dr. Khalifa: Funny thing how she brought this up. Dr. Khalifa: Yes. Dr. Khalifa: But God did not stop it at all.

56:23
God didn't wait a week or two days or ten minutes. Yeah.

56:30
Vicky: Dr. Khalifa, I have a question. A woman: (unintelligible)

56:36
Vicky: Like I have some friends. They (unintelligible)

56:48
And they accept all the message and everything, but they don't accept (unintelligible)

56:54
Vicky: Do I have to stop being with them? Dr. Khalifa: No, not unless they're fighting you.

56:59
Who's making the noise? Alright.

57:04
If they're not fighting, you have to go on along with them but discuss it with them logically. Okay. Now, Vicky is saying that they accept the golden translation.

57:12
Dr. Khalifa: Do they accept the miracle? Vicky: Yes, they do. Dr. Khalifa: They accept the miracle of 19. Vicky: And they do appreciate Dr. Rashad who brought all of these.

57:19
Vicky: "We appreciate from the time we met him. You are great." But they don't wanna accept your messengership. However, I have to say one of them once told me like

57:29
"the messengership is something else." Like, he really gives me imagination of a person who should probably have a wing or ...

57:38
A woman: (unintelligible) Vicky: No, it doesn't look like that. So,... Dr. Khalifa: Yeah, but you have to discuss it with them logically. Batool has a very simple question for them which is...

57:51
Dr. Khalifa: See, I remember what she told me, but she forgot. What is, How do you prove that I'm God's messenger?

57:56
Dr. Khalifa: He had a very simple statement that you mentioned, when I was in your house last time.

58:02

"Why did he find the 19, the miracle of 19?" "How do you explain that?"

58:12

Dr. Khalifa: أعوذ بالله من الشيطان الرجيم Bism Allah Arrahman Arraheem

58:18

[45:33] The evils of their works will become obvious to them and the very things they mocked will come back to haunt them.

58:25

[45:34] It will be proclaimed: "Today we forget you, just as you forgot the meeting of this day. Your abode is the hellfire, and you will have no helpers.

58:36

[45:35] "This is because you mocked and ridiculed GOD's revelations, and were preoccupied with the first life." Consequently, they will never exit therefrom, nor will they be excused.

58:50

[45:36] To GOD belongs all praise; Lord of the heavens, Lord of the earth, Lord of the universe. [45:37] To Him belongs all supremacy in the heavens and the earth. He is the Almighty, Most Wise.

59:02

In the name of God, Most Gracious, Most Merciful [46:1] H. M. [46:2] The revelation of this scripture is from GOD, the Almighty, the Wise.

59:09

[46:3] We did not create the heavens and the earth, and everything between them except for a specific purpose, and for a finite interim. Those who disbelieve are totally oblivious to the warnings.

59:21

[46:4] Say, "Consider the idols you set up besides GOD. Show me what on earth did they create. Do they own part of the heavens? Show me any other scripture, or any piece of knowledge that supports your idolatry, if you are truthful."

59:37

The Idols Totally Unaware [46:5] Who is farther astray than those who idolize besides GOD idols that can never respond to them until the Day of Resurrection, and are totally unaware of their worship?

59:53

This is what most Sunnis today do. The next page, The Idols Disown Their Worshipers*

1:00:01

[46:6] And when the people are summoned (on the Day of Judgment), their idols will become their enemies, and will denounce their idolatry.*

1:00:10

[46:7] When our revelations were recited to them, clearly, those who disbelieved said of the truth that came to them, "This is obviously magic!"

1:00:18

So, we're talking about idol worshipers who idolize people because we're told in verse 6

1:00:24

[46:6] ... when the people are summoned (on the Day of Judgment), their idols will become their enemies, and will denounce their idolatry.*

1:00:32

So, Ali will have to denounce all the Shias and Muhammad denounces all the Muslims.

1:00:39

Dr. Khalifa: In fact, this is documented in the Quran. A man: That's why (unintelligible) Dr. Khalifa: Hmm?

1:00:44

A man: That's why (unintelligible) Dr. Khalifa: Yes. A man: Their idols can never respond to them until the Day of Resurrection. Dr. Khalifa: Exactly.

1:00:50

A man: until the Day of Resurrection. Dr. Khalifa: Yeah. Muhammad and Ali and Hussein cannot respond to anybody. They're dead.

1:00:56

Parivash: Until the Day of Resurrection. Then, they disown them. Dr. Khalifa: Then, they disown them. Right.

1:01:03

Dr. Khalifa: "We never knew about you." Now, these people, these particular people when our revelations were recited to them

1:01:10

clearly that is "Worship God alone. Uphold the word of God alone. The creed is La Elaha Ella Allah"

1:01:16

those who disbelieved say to the truth that comes to them ""This is obviously magic!"

1:01:22

[46:8] When they say, "He fabricated this," say, "If I fabricated this, then you cannot protect me from GOD. He is fully aware of everything you scheme. He suffices as a witness between me and you. He is the Forgiver, Most Merciful."

1:01:40

When I apply this to me, personally, I notice always when it says "say", it is already said

1:01:47

I always tell them "if I'm a liar, then this is my problem. What is the message, what am I telling you? I'm telling you worship God alone

1:01:54

"and uphold the word of God alone. See. If I'm lying to you, this is my problem not as far as you're concerned. You can benefit from

1:02:03

"from the truth if it is truthful and you can benefit from the message. If I'm a liar, it is my problem not yours."

1:02:09

[46:9] Say, "I am not different from other messengers. I have no idea what will happen to me or to you. I only follow what is revealed to me. I am no more than a profound warner."

1:02:22

[46:10] Say, "What if it is from GOD and you disbelieved in it? A witness from the Children of Israel has borne witness to a similar phenomenon,* ...

1:02:32

So, look at the footnote here.

1:02:37

*46:10 This witness is Rabbi Judah the Pious (11th Century A.D.), who discovered the same 19-based mathematical code in intact fragments of the scripture (see Appendix 1).

1:02:49

So, obviously number 9 "say" here refers to our generation. I am not different from other messengers I

1:02:55

[46:9] ... "I am not different from other messengers. I have no idea what will happen to me or to you. I only follow what is revealed to me. I am no more than a profound warner."

1:03:03

[46:10] Say, "What if it is from GOD and you disbelieved in it? A witness from the Children of Israel has borne witness to a similar phenomenon,* and he has believed, while you have turned arrogant. Surely, GOD does not guide the wicked people."

1:03:16

Rabbi Judah the Pious is undoubtedly a believer, when you read his writings. "God alone" In fact, he's a strict scripturist just like we are.

1:03:25

[46:11] Those who disbelieved said about those who believed, "If it were anything good, they would not have preceded us to it." Because they were not guided thereby, they said, "This is an old fabrication!"

1:03:42

[46:12] Before this, the book of Moses provided guidance and mercy. And this is a confirming Arabic scripture, to warn those who transgressed, and to give good news to the righteous.

1:03:53

Good News [46:13] Surely, those who say, "Our Lord is GOD," then lead a righteous life, will have no fear, nor will they grieve.

1:04:00

Sounds familiar? [46:14] They have deserved Paradise, where they abide forever; a reward for their works.

1:04:10

Congratulations! Any questions? Parivash: Yes. It is Sura, "those who are Christians..." not here but "no fear no grief" (unintelligible) the question was that there are

1:04:30

those who are Jewish or Christians no fear. How about the people who do not believe you are messenger?

1:04:40

Dr. Khalifa: They're going to Hell. Parivash: Ok. they say "how about this?" I told them something. I'm gonna make sure.

1:04:45

Parivash: I said "this is for people who didn't reach the proofs. If you, if you show..." Dr. Khalifa: who don't know

1:04:51

Dr. Khalifa: If these people, if they come and see the proof, I give them the proof, I give them the message and they say, and they don't believe, they are going Hell.

1:04:59

Parivash: Yes. I, I,... Dr. Khalifa: If they are believers who are included here, they will readily accept everything.

1:05:04

Parivash: Yes. Parivash: I said for example if now is the time of Moses and Jesus after Moses you know and everybody, you know,

1:05:14

Parivash: they don't know if they died, they all are in Heaven. But if Jesus showed them the truth Dr. Khalifa: Yes.

1:05:21

Parivash: and they still they say "no, we don't believe." Dr. Khalifa: They go to Hell. Dr. Khalifa: Yeah, this is for people who don't know. They are in the middle of the jungle. They don't know anything about Quran or anything.

1:05:30

But any time you show them the Quran, they'll believe it. They find nothing objectionable in it. You show them any proof on God, they accept it.

1:05:37

Dr. Khalifa: You see, God will guide them and make them believe. Parivash: And after this, Alhamdu Lillah, they say "Yeah, yeah." Dr. Khalifa: Yeah.

1:05:48

A man: Will it be appropriate if somebody regarding verse 10, [46:10] ... A witness from the Children of Israel has borne witness to a similar phenomenon, ...

1:06:00

if people say "well, it also means that this verse also, a part of the verse also, refers to Jesus, I could say "yes, it used to refer

1:06:10

A man: to specifically Muhammad, but now it refers to (unintelligible) vis-à-vis, Rashad. Dr. Khalifa: No, actually...

1:06:17

Dr. Khalifa: No, it never refers to Jesus.

1:06:24

Dr. Khalifa: No, Jesus is not considered one of the children of Israel in the Quran.

1:06:31

He's considered a vanguard of a new movement and a whole new religion.

1:06:36

A man: The Quran says that? Dr. Khalifa: Yes. Dr. Khalifa: It says, (46:10) شَهِدَ شَاهِدٌ مِّنْ بَنِي إِسْرَءِيلَ

1:06:42

You know, if it was Jesus, God would have said "Jesus borne witness." He wouldn't call Jesus one of the children of Israel.

1:06:50

A man: There has no... I mean, there are two possibilities. One is that verse had a particular relevance at the time of Muhammad and has a further deeper relevance at your time.

1:07:08
Dr. Khalifa: No. A man: Like not this one. Dr. Khalifa: It's just one of the things that were to come later, to become obvious later.

1:07:16
A witness from among the children of Israel borne witness to something like it. Jesus didn't bear witness to something like the Quran.

1:07:25
It's totally different. This is, there is no question that it is Rabbi Judah the Pious.

1:07:32
A man: He has believed. Dr. Khalifa: And... Right. A man: He has believed. Dr. Khalifa: Yes. Ok...

1:07:39
Dr. Khalifa: Bism Allah Arrahman Arraheem In the name of God, Most Gracious, Most Merciful This was an excellent brief presentation of the perpetual miracle that God sent to us that is to be witnessed by anybody,

1:07:54
at any place, at any time. Anybody in Tokyo, Japan can open this and witness the miracle,

1:08:03
this mathematically, mathematically coded book. This is an original idea. And I have to take you back a few years, a few centuries,

1:08:13
actually where the realization came first that God spoke to us in mathematics.

1:08:20
It was about 900 years ago when a Jewish Rabbi discovered this number 19 in the intact remnants of the scriptures,

1:08:32
specifically in the Prayers that were given, came to them through Abraham, from the prophet Abraham,

1:08:38
just like our Namaz came through Abraham. What happened about 900 years ago was that the Jews in France added

1:08:45
a short statement to their Morning Prayer which was "blessed are those who follow the righteous path."

1:08:55
They just added this harmless, seemingly harmless statement. Rabbi Judah the Pious, who was living at that time, just wrote a barrage of literature, eight huge volumes,

1:09:08
as to why this short statement would destroy what he called the divine rhythm,

1:09:19
or the key that causes contact between us and God. And he showed that the number 19 is the basis of the scriptures, and the language that God

1:09:30
is speaking to us, that it is the key to the Word of God. And I have it reproduced here, in the appendix.

1:09:41
Actually, Rabbi Judah the Pious, I think some of you know this, is actually mentioned in the Quran, in Sura 46, verse 10.

1:09:55
So, I reproduced part of his writing about him, on page 636 of this book.

1:10:06
Now, I'm quoting from a book entitled Studies in Jewish Mysticism. It says, The people [Jews] in France made it a custom to add [in the morning prayer] the words: " 'Ashrei temimei derekh which means [blessed are those who walk the righteous way],"

1:10:23
and our Rabbi, the Pious, of blessed memory, wrote that they were completely and utterly wrong.

1:10:28
It is all gross falsehood, because there are only nineteen times.. Now, notice the number 19.

1:10:35
there are only nineteen times that the Holy Name is mentioned [in that portion of the morning prayer]... and similarly you find the word 'Elohim, which means God, nineteen times in the pericope of Ve'-elleh shemot.

1:10:48
Similarly, you find that Israel were called "sons" nineteen times, and there are many other examples.

1:10:54
Now, listen to this. All these sets of nineteen are intricately intertwined, and they contain many secrets and esoteric meanings, which are contained in more than eight large volumes.

1:11:06
Furthermore, in this section there are 152 (19x8) words.

1:11:12
46:10. Is it 46:10 or 42:10?

1:11:18
Let me see. Maybe 42:10

1:11:28
It's not 46:10. Yes, yes, 46:10 says, [46:10] Say, "What if it is from GOD...

1:11:35
this Quran [46:10] ... "What if it is from GOD and you disbelieved in it? A witness from the Children of Israel has borne witness to a similar phenomenon, ...

1:11:44
And I believe that this verse refers to Rabbi Judah the Pious, because if you read his writings, he's really a believer.

1:11:51
So, what I would like to say is that the number 19 has always been the key, has always been the key in God's writings.

1:12:04
And one of the strange statements of Galileo was that mathematics is the language with which God created the universe.

1:12:12
That was a statement by Galileo. And we come to realize now that in nature, the number 19 also, which may be God's signature,
1:12:25
is evident in God's creation. The sun, the moon, and the earth line up in the same position every 19 years.
1:12:32
And you can see this in detail again if you go to the library and look at the Jewish calendar. In the Jewish encyclopedia, under calendar, you'll see this, because they have to adjust the calendar once every 19 years.
1:12:44
The human body has 209 bones, which is 19×11 .
1:12:50
The human fetus, it is now established that the human, a full term embryo is in the mother's womb 266 days, 19×14 .
1:13:02
And this, not 267. And you see this in the textbooks in medical schools.
1:13:08
So, obviously God puts His stamp on everything, including the Quran.
1:13:13
The Quran is the only scripture that is intact. And this is where we have the system intact,
1:13:18
cause Behrouz shared with you some of these phenomena.
1:13:29
Maybe you can put this wherever we can see it.
1:13:46
Just these numbers here will convince anybody that this is not a human made book.
1:13:52
This top number, I'm gonna repeat because Behrouz went through it a little bit too fast.
1:13:59
This number here is the number of digits if you write every verse in the Quran, the number of every verse.
1:14:06
For example, the first Sura is 7 verses. So, write 1 2 3 4 5 6 7.
1:14:12
Next Sura is 286 verses, so you write next to that, 1 2 3 4, all the way to 286,
1:14:18
and so on, all the way to the end of the Quran. So, we'll talk about the physical structure of this book.
1:14:24
Every verse in the Quran, you just write the number. You end up with a long number, which we have hanging on the wall at Masjid Tucson.
1:14:32
And the number of digits is 12,692. This number is a multiple of 19. This is the number of digits in the long number, which takes about 3 pages, printed by the computer.
1:14:43
And the long number itself is also a multiple of 19. So, this confirms the physical structure of the book.
1:14:51
How many Suras and how many verses in every Sura. This number here is the number of verses in the Quran.
1:15:00
You just look at this book and say, the first Sura is 7 verses, second Sura is 286 verses, third Sura is 200 verses. You add these numbers, you come up with this number, 6 3 4 6,
1:15:09
which is also a multiple of 19. The number of Suras, of course, is 114, which is 19×6 .
1:15:17
The first verse, which is very famous, Bism Allah Arrahman Arraheem, is 19 letters.
1:15:23
Okay, 2698, this is the number of the word "God" in the Quran,
1:15:28
the word "Allah", from the beginning to the end, 2698.
1:15:36
A multiple of 19. And, considering how the Quran was revealed to the Prophet Muhammad, separated in time and place,
1:15:46
it is really incredible. In fact, when we were working on this book, we had about 6 college graduates, including one PhD,
1:15:56
and we had so much difficulty just keeping track of the word "God." We made so many mistakes in doing this.
1:16:04
And, the book, of course, confirms itself. Because, if you notice, if you open this book,
1:16:12
any of you who has it, will see on any page, will see on any page that the word "God" is written in capital bold letters.
1:16:18
So, anyone can easily verify this. And the number of these, the word "God" is down, written on every page.
1:16:26
So, you can look at any page and confirm that it is 6 times, this page here, page 97, has 6 words "Allah" in it.
1:16:36
And you can do this randomly on any page. And make sure that these counts are correct.
1:16:42
And you go to the end of the book and you see that the word "God" is a multiple of 19. 2698.

1:16:47
 19 x 142. This number here is the sum of all the numbers mentioned in the Quran, without repetition.

1:16:58
 There are 30 numbers mentioned in the Quran. 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 19,

1:17:06
 20, 30, 40, 50, 60, 70, 80, 99, 100, 200, 300, 400, 500, 600, 700, not 700, 500, 3,000, 5,000, 50,000, and 100,000.

1:17:24
 And you add them up, you get this total. 162146, which is a multiple of 19.

1:17:29
 Now, you notice these are physical facts. Dr. Khalifa: Nobody is saying "in my opinion, the total of the numbers in the Quran is 162,140." It's a physical fact. Yes, sir?

1:17:39
 A man: Is Quran has only one version, or has there been different versions of Quran?

1:17:46
 Dr. Khalifa: No, there's only one version. A man: One version. There hasn't been any contest as to the different, no denomination of...

1:17:57
 Dr. Khalifa: No, there's only one Quran. There's one Quran. A man: Just like in Christianity, the...

1:18:03
 Dr. Khalifa: There are different versions of the Bible. A man: The Bible has different versions. Dr. Khalifa: There has been different versions of the Bible, multiple versions, so on. A man: That's right.

1:18:10
 Dr. Khalifa: But the Quran is only one version. There are no differences. So, this is a physical fact.

1:18:18
 It is nobody's opinion. And it's... all you need to do is find the numbers in the Quran and add them up.

1:18:25
 If they don't add up to a multiple of 19, then the whole thing collapses and the subject is over. But this has been in existence for 20 years now.

1:18:33
 And it's been scrutinized. This research has been scrutinized more than any research in the history of humanity.

1:18:40
 Because back home, they looked at all these numbers, trying to find any errors. It has been confirmed and reconfirmed that these are physical facts.

1:18:50
 This number here is the total of the verses wherever the word "God" is mentioned.

1:18:56
 The word "Allah" is mentioned. And this is really and truly awesome. Because, again, if you have a copy of this, just open it at random anywhere, and see the word "God."

1:19:06
 Okay, I opened at page 259. So, I opened page 259 if you have this, and I can tell you what's in it.

1:19:13
 In page 259, you see verses 25 to 33 in Sura 14.

1:19:19
 And you notice that the word "God", Allah, is mentioned in verse 25. Verse 27 has 3 of them.

1:19:26
 Verse 26 has 0. Verse 28 has 1. 29 has 0. 30 has 1 word "Allah."

1:19:34
 31 has 0, and 32 has 1, and 33 has 0.

1:19:39
 So, in this, there are 3 words "Allah" in verse 27, but we only add 27.

1:19:46
 So, we add 25 plus 27 plus 28 plus 30 plus 32.

1:19:53
 We add only the verses wherever the word "Allah" is mentioned. Whether it is 1 time or 10 times.

1:19:59
 And this is the total, in the whole Quran. It is 118123, which is also a multiple of 19.

1:20:06
 So, all these phenomena defy coincidence, or defy human manufacture.

1:20:16
 And you immediately realize that we have in our hand God's message to you.

1:20:23
 We have full confidence, because this is the age of computers. People have been demanding tangible evidence, now we have tangible evidence

1:20:31
 that this is God speaking to us, and not any human being trying to fool us.

1:20:37
 Okay, now that the book has proven the physical evidence, we have confidence that this is God speaking to us.

1:20:44
 It is not any human being with the shortcomings of human beings. And in the book we have answers to these questions.

1:20:53
 And we know that God is speaking to us. God is telling us. He created us and He's telling us where we came from.

1:20:58

He's telling us why we are here on this earth. And He's telling us where we go from here.

1:21:03

And like the Quran says, it says "none can tell you this like the Expert",

1:21:11

o. e of the names of God, Khabir. In Arabic (35:14) وَلَا يُتَبَّكُ مِنْ خَبِيرٍ None can tell you these facts like the Expert.

1:21:18

And God is the Supreme Expert. So now, I will try to share with you what God tells us about these questions.

1:21:29

Where did we come from?

1:21:36

Do you have some markers? Oh yes, thank you.

1:22:01

Okay, why are we searching for these questions? "Where did we come from?"

1:22:06

It's, we learn from Quran that we are here. We have no recollection of our previous past.

1:22:14

But we were all in God's kingdom. You can think of us as angels. We used to be angels in God's kingdom.

1:22:20

So, if I draw a line representing all the creatures in God's kingdom billions of years ago,

1:22:27

and this includes you and me, billions of years ago, it is just very clear in the Quran that we existed in the past.

1:22:33

For example, in Sura 7, verse 143, God says "I gathered all of you, all the descendants of Adam, and I had you bear witness that I alone am your Lord." God tells us that.

1:22:44

But we don't have any recollection of this. We don't remember standing before God and saying "we bear witness You are our Lord."

1:22:52

So, the Quran teaches us we don't have any remembrance of that. And this is one of the purposes of us being here, is to come into an existence where we do not remember the past and start, have a fresh start.

1:23:06

Then, we are given two messages, one message from God and one message from Satan.

1:23:12

And we're supposed to freely make a choice. God gave us the freedom to choose. You can choose either one of them, either God's message or Satan's message.

1:23:23

As you know, I'm gonna interrupt to get to what God is telling us. In the middle of the subject, in the middle of the subject, Adam and Eve were in Heaven, and God gave them a message.

1:23:35

This is because all of us, I'm sure, know this. But God gave Adam and Eve a message. He said "you're in Paradise. You can enjoy anything you want, but not this tree."

1:23:44

"Don't come close to this tree." That was God's message to Adam and Eve. And they stayed in Heaven, God knows how long, maybe thousands, maybe millions of years.

1:23:54

So, but the point is, for as long as they respected God's commandment, God's law, they stayed there.

1:24:02

And then, most of you know, Satan went to them and said "eat from this tree."

1:24:10

Ok. So now, they have two messages. Hi Rashi, how are you?

1:24:23

Adam and Eve were in Heaven, or in Paradise, or Heaven, the same thing. And they had a message from God telling them "do not eat from this tree."

1:24:31

And they had a message from Satan saying "eat from this tree." For as long as they obeyed, adhered by God's message, they stayed in Heaven.

1:24:39

Once they listened to Satan, they were kicked out of there. And this is what brought us here.

1:24:45

I mean, as a second comin. to this word, not the initial. This is not the original sin.

1:24:54

The eating from the tree is not the original sin as believed in the previous creatures. So, this line is representing all of God's creatures, including you and me.

1:25:04

And these creatures of God had different responsibilities, different assignments of work.

1:25:11

And depending on their duties, they had different powers.

1:25:17

For example, if somebody assigns to you something to do in New York, your company says "you must go to New York and do something and come back."

1:25:25

They'll give you a ticket to get on a plane, fly to New York, do the job and come back. This is some power given to you.

1:25:32
 So, God's creatures had different powers. One of the most powerful creatures, not the most powerful creature, one of the powerful creatures,
 1:25:41
 now we got to know as Satan, his God-given powers went to his head.
 1:25:47
 He had an egotistic problem. He thought he can be a god besides God.
 1:25:53
 He thought he can run a dominion besides God. And this immediately created various degrees of agreement or disagreement with Satan.
 1:26:06
 So, let's, just to put the matter in perspective, I'm going to put a representation of how many creatures agreed with Satan.
 1:26:15
 The vast majority of God's creatures did not agree with Satan, only a few. I'm gonna represent them by this red dot.
 1:26:21
 I hope you can see it right there. So, the vast majority of creatures, they said "no way, Satan cannot be a god besides God. Only God can be a god."
 1:26:34
 I mean, this is from a practical point of view. There's simply more to God-hood than Satan thought.
 1:26:39
 And this is reflected in this world now, that Satan cannot run the world. There are many starving children, many diseases, earthquakes, cancer.
 1:26:49
 All this is Satan's incompetence, reflects Satan's incompetence in this world.
 1:26:54
 These creatures that did not agree with Satan are the angels. They are now, the creatures became classified.
 1:27:01
 The creatures who upheld God's absolute authority were classified as angels.
 1:27:07
 The creatures that rebelled and agreed with Satan were classified as, and then further classified. Let's now classify them as rebels.
 1:27:17
 They did not believe in God's absolute authority. Now, I'm going to take this little dot here. By the way, this little dot represents something like a trillion creatures.
 1:27:27
 The number of God's angels is not known to anybody except God. You see this in the Quran, Sura 74, verse 31.
 1:27:34
 Where God says "only God knows the number of His, the angels." Even the angels don't know how many of them there are.
 1:27:40
 As you see, this red dot represents a trillion creatures. And the blue line is much larger, so there's countless numbers of angels.
 1:27:50
 I'm going to extend this dot here into a long line.
 1:27:56
 We're still dealing with the question "where did we come from?" This line represents about a trillion creatures.
 1:28:05
 They are the creatures that agreed with Satan. And this includes you and me, in this line.
 1:28:12
 To different degrees. Let's say here are the least agreeable with Satan and these are the most, the most agreeable with Satan.
 1:28:21
 God gave these creatures a second chance. First of all, the angels said "since these creatures here rebel, put them all in Hell."
 1:28:27
 "Throw them all in Hell. Banish them from Your kingdom." And in Sura 2, verse 30, God says "no."
 1:28:34
 One of the names of God is the Most Merciful. God wanted to give us another chance to reconsider our decision to side with Satan.
 1:28:46
 In Sura 2, verse 30, God says "I know what you do not know." The angels said "throw them all in Hell."
 1:28:51
 And God said "I know what you do not know." What did God know that the angels didn't know?
 1:28:56
 God knew that some of us, deep in our hearts, we really believed in God's absolute authority. But for some reason, we were swept in the crowd and we agreed with Satan, to different degrees.
 1:29:06
 A man: (unintelligible) Dr. Khalifa: So,... pardon? So, this line here, representing the rebels, God gave them a second chance.
 1:29:15
 He said "how would you like to reconsider your agreement with Satan?" "I'm going to give you a chance to submit outright. Or, you can go through an experiment where we put Satan to the test."
 1:29:27
 And I use the example of, for example, Muhammad coming and saying "I can fly a plane." He's making a claim.

31 Quran Study From Parivash 431 Sura 18:98 & Sura 81 Edip Azan & Salat By Rashad 11 04 1989

[18:98] ... dam to crumble. The prophecy of my Lord is truth."

0:06
 [18:99] On that day, we will let them invade with one another, then the horn will be blown, and we will summon them all together.

0:13
 Parivash: Rashad, which page is this? Dr. Khalifa: This verse is 304. This verse talks about the end of the world. Parivash: 304.

0:19
 Dr. Khalifa: The last prophecy in the Quran before the end of the world are Gog and Magog.

0:34
 You need a baby. Dr. Khalifa: (unintelligible)

0:40
 The last prophecy is Gog and Magog on the...it's going to happen on 17... 1700 lunar date.

0:51
 2271. The year 2271, because if you go to Gog and Magog it is in verse 94.

1:04
 If you count the verses to the end of the Sura, it comes to 17, 17 centuries from the revelation of the Quran.

1:10
 Dr. Khalifa: The only other mention of Gog and Magog is in Sura 21, also 17 verses from the end.

1:15
 A woman: Rashad, how do you know that the end of the world is coming 9 years after the 17th century?

1:20
 Dr. Khalifa: Because the end of the world is 1709, 1710 actually. A woman: Where does that extra 10 years come from? Where does it...

1:29
 Dr. Khalifa: When you see page 305, at the top K.H.Y.'A.S.

1:36
 Ok. If you add the value of all these letters in the Quran, it comes to 1709. And they determine the length of time from the revelation of the Quran to the end of the world.

1:46
 You have to read the appendix on "the end of the world." I think it is appendix 25. Dr. Khalifa: Huh? A woman: 25. Dr. Khalifa: 25.

1:57
 Dr. Khalifa: So, 1709 means the length of time from the Quran to the end of the world which 1709 will be completed to the end of coming 1710, which is a multiple of 19.

2:08
 You have to give this kid up for adoption.

2:15
 Dr. Khalifa: Yes, I'll take him. A man: That's 300 lunar years from now.

2:20
 Dr. Khalifa: 309. Yes, from now. Yes. Feroz: Rashad, because both of these Gog and Magog are mentioned 17 verses before the end of the chapters,

2:29
 could it also mean that 17 years before the end of the world it is coming? Dr. Khalifa: No, 17 centuries because you put all the pieces together, this is what you come up with.

2:45
 So 99 says on that day we will let them mingle with one another. [18:99] On that day, we will let them invade with one another, ...

2:50
 This is Gog and Magog will be two vast countries or nations or communities. It will look like the spread of true Islam around the world. So, they will attack.

3:00
 God will not let them prevail. So then, the world, the earth will blow up.

3:08
 In other words, you can think of God personally coming to intervene in this. And when God comes to this world, the whole thing will blow up.

3:16
 [18:100] We will present Hell, on that day, to the disbelievers. It is consistent with the rest of the Quran where God says "Hell will be created on the Day of Judgment."

3:27
 There is no Hell now. This is why the unrighteous die because they wait until Hell is created.

3:33
 They see it. God shows it to them in a nightmare, as you see in Sura 40.

3:41
 Heaven already exists. So, for the righteous, they don't wait. They go straight to Heaven.

3:49
 101 [18:101] They are the ones whose eyes were too veiled to see My message. Nor could they hear.

4:01
 There is something very important now that's developing. I think Edip (unintelligible).

4:07
 And that's the word used for message here is Zikr.

4:13
 And we're coming to the realization that Zikr means the mathematical code of the Quran, specifically.

4:20
 A man: The Arabic word Zikr. Dr. Khalifa: Zikr. Dr. Khalifa: Because if you look at Sura 38, this is our reason.

4:28
 This is how it all started to develop. And it makes perfect sense.

4:35

Look at it. page, page look at it, 453.

4:45

Habib, do you wanna...there's two copies of the Quran there, one for your dad, one for your sister. Ok.

4:53

Notice that verse 1 says [38:1] S. (Saad),* and the Quran that contains the message. In Arabic, it says, (38:1) ص وَالْقُرْآنَ ذِي الذِّكْرِ

5:01

In other words, the Quran that contains something in it. And it's called Zikr. What is the something that is contained in the Quran? It's the mathematical miracle.

5:09

And it's in verse, in Sura 38. And it begins with a letter Saad. Get another one.

5:16

There's more of this. Oh, you have two? Yeah. Okay, good. That's good.

5:21

You're hiding the other one under you. All good.

5:28

Zebran, your mom was missing you. I have to teach her to expect only great things.

5:33

She get used to that. She was not missing you? Of course not.

5:40

Dr. Khalifa: You are having fun. Where is Hanan? A woman: He's over there. Dr. Khalifa: Oh, there he is. Dr. Khalifa: How can you stay apart from him, actually?

5:47

A woman: He doesn't want to be with me. Dr. Khalifa: Oh, I see. A woman: Dr. Khalifa, I have four kids. He's adopted.

5:53

Dr. Khalifa: Yeah. Mā Shā Allāh. Dr. Khalifa: As long as you can see him, you can have fun.

6:00

Feroz: It's 15:9. Sura 15, verse 9. Dr. Khalifa: Yes. (15:9) إِنَّا نَحْنُ نَزَّلْنَا الذِّكْرَ وَإِنَّا لَهُ لَحَافِظُونَ

6:07

Dr. Khalifa: Edip doesn't like that. Edip wants to...He doesn't want to touch the idea that the Quran may not be completely preserved.

6:16

But anyway, a Zikr. Also, when God speaks about the number 19, He says, this is Zikra (ذِكْرَى).

6:23

(74:31) إِنَّا ذَكَّرْنَا لِلْأَشْرَارِ Dr. Khalifa: So now, if you look at this verse here,

6:32

Edip: Rashad Dr. Khalifa: On that day... God says, [18:101] They are the ones whose eyes were too veiled to see My ...

6:37

mathematical code. Edip: Well, that's stated in 15:9 Dr. Khalifa: Yes.

6:43

Edip: (15:9) إِنَّا نَحْنُ نَزَّلْنَا الذِّكْرَ وَإِنَّا لَهُ لَحَافِظُونَ Edip: We accept this given a miracle, mathematical structure of Quran.

6:49

The mathematical structure of Quran, until now, we know it covers all verses, even letters,

6:57

words, and the things that we never know, we didn't discover yet.

7:03

And for this reason, when Quran is a Zikr, Quran is a Zikr, this mathematical structure,

7:09

that means that even if we accept that this mathematical structure has been preserved by God, this covers the whole Quran.

7:19

Dr. Khalifa: Yes, and guarantees its preservation. Edip: Yes, it doesn't, it's just that something that, for example, these two verses, does not belong to the mathematical structure.

7:30

Dr. Khalifa: So, we want to close the... a little bit, because they are too noisy.

7:39

Okay, Edip, So... This (18:101) الَّذِينَ كَانَتْ أَعْيُنُهُمْ فِي غِطَاءٍ عَنْ ذِكْرِي

7:45

seems like the mathematical code fits perfectly here. But those people just cannot see the miracle, no matter how gigantic it is.

7:55

A woman: (unintelligible) "and the Quran, that contains the Zikr" which means...

8:00

Dr. Khalifa: mathematical code. A woman: mathematical code. Edip: This is the verse 8 that (38:8) أُنزِلَ عَلَيْهِ الذِّكْرُ مِنْ بَيْنِنَا

8:07

Dr. Khalifa: Yes, that, too. Edip: (unintelligible) Zikr Dr. Khalifa: Yes. A man: Verse 38:8 (unintelligible)? Dr. Khalifa: Yes. A man: This is you, then. I thought they were talking about this one, isn't it?

8:15

Dr. Khalifa: Yeah, the whole, the whole verse is talking about how they can't, why the (unintelligible). Dr. Khalifa: Why... Edip: Because it's miracle. Dr. Khalifa: Yes.

8:23

A man: Why didn't the message come down to them, instead of... Dr. Khalifa: In fact, this actually happens. This is actually what they say. A man: Yes.

8:29

Dr. Khalifa: So, we're getting to this understanding now.

8:35
 So, 101 says, [18:101] They are the ones whose eyes were too veiled to see My message. ... or my mathematical code, or my miracle. You can think of it in any of these terms.

8:43
 [18:101] ... Nor could they hear. This will be reflected in the new translation, IN SHAA ALLAH, in new edition.

8:50
 102. [18:102] Did those who disbelieve think that they could get away with setting up My servants as gods besides Me? ...

8:58
 My servants, meaning Jesus, Muhammad, Mary, Hussein, Ali. A man: Rashad, Dr. Khalifa: Yes.

9:04
 A man: When you say (unintelligible) Dr. Khalifa: Yes. Right.

9:13
 A man: So, you're not gonna, you're not gonna disregard that. It would be off. (unintelligible).

9:20
 Dr. Khalifa: I just couldn't (unintelligible) where the word Zikr was pointing out, that it is not the Quran. A man: So, it's the message as well as the code. Its main...

9:32
 Dr. Khalifa: With a strong leaning to the code. Because, look at 26, for example. Sura 26.

9:37
 If you open that subject, I'll give you more evidence that it may actually be the mathematical code, specifically.

9:44
 A man: Rashad, Dr. Khalifa: Sura 26, at the beginning.

9:57
 Verse 5. [26:5] Whenever a Zikr comes to them from the Most Gracious, they turn away from it.

10:07
 Let's look at Sura 21, the beginning of 21.

10:15
 Verse 2 says, [21:2] Whenever a Zikr comes to them from their Lord, which is new, they listen to it heedlessly.

10:23
 The same word is used, Zikr. 21:2

10:30
 (21:2) مَا يَأْتِيهِمْ مِنْ ذِكْرٍ مِنْ رَبِّهِمْ مُحْدَثٍ New Zikr. New evidence. New proof.

10:38
 A man: But message has... the word Zikr can mean, in Arabic, message or code or coded message? Dr. Khalifa: Reminder, specifically.

10:47
 Dr. Khalifa: Specifically a reminder. A man: reminder. A man: which we (unintelligible) Dr. Khalifa: Yes.

10:53
 Edip: I think, how do you say it, specify with a mathematical code, these,

11:01
 Edip: versus, as in the 14 century (unintelligible), people at that time, they couldn't see this miracle. Dr. Khalifa: Right.

11:09
 Edip: And God blames those people that they do not understand or see this Zikr. And that's...

11:16
 Dr. Khalifa: You mean, we're supposed to know nothing more than the people of the first generation? Edip: No, no, no, but... Edip: I know, but they are the ones whose eyes was too veiled to see, for example, mathematical. If you say this, we have to accuse all...

11:30
 Dr. Khalifa: I say this to us. Edip: Excuse me? Dr. Khalifa: I say this to just us, to the people who saw the mathematical code now.

11:37
 Dr. Khalifa: How do you explain the Arabs' failure to see the mathematical code?

11:45
 Edip: (unintelligible)

11:54
 [18:102] Did those who disbelieve think that they could get away with setting up My servants as gods besides Me? We have prepared for the disbelievers Hell as an eternal abode.

12:05
 [18:103] ... "Shall I tell you who the worst losers are? [18:104] "They are the ones whose works in this life are totally astray, but they think that they are doing good."

12:15
 Those are the worst losers. So, you better make sure that you're worshipping God alone and devoted to God alone.

12:25
 This is the criterion.

12:32
 We were talking about this the other day, and we said you have to assume that you're no good.

12:39
 I'm trying to prove that. If you fail, then you're okay.

12:48
 Okay, let's take two people. One says "La Elaha Ella Allah", and the other says "La Elaha Ella Allah, Muhammad Rasulullah."

12:53
 Which one is more likely to fall in idol worship? A woman: The one who says "La Elaha Ella Allah, Muhammad Rasulullah."

13:00
 Dr. Khalifa: Yes, (unintelligible). Dr. Khalifa: Which one is more likely to be accused of putting something with God?

13:07
Dr. Khalifa: The one who says "La Elaha Ella Allah, Muhammad Rasulullah" may be perfectly alright. Maybe, maybe perfectly alright, but that's a maybe.

13:14
But the one who says "La Elaha Ella Allah", there's no chance of accusing him or her of being, of putting idols next to God.

13:25
You say "God alone" "God and Muhammad." "God and Jesus." "God and Moses." "God and Mary."

13:33
Only the person who says "God alone" is safe.

13:41
And they think they're okay. They think they're right. Those are the worst losers, because on the Day of Judgment, not the Day of Judgment, on the day they die, it's a terrible surprise.

13:51
The angels come to beat him up, he says "what do you mean? I was good."

14:00
So, it's gonna be a terrible surprise. This is why God calls them "the worst losers."

14:06
A man: (unintelligible) according to Quran?

14:14
Dr. Khalifa: Yes, and your work will be in vain. A man: (unintelligible) Dr. Khalifa: Right. Yes.

14:20
Dr. Khalifa: (unintelligible) You'd be the nicest person in the world. You'd be charitable. You're very nice. You never hurt a fly.

14:26
And you go to Hell. Parivash: Rashad, maybe God... Dr. Khalifa: Because your work is in vain. Parivash: (unintelligible). No?

14:37
Dr. Khalifa: (unintelligible) It's in vain. It's totally in vain. But this life, there are certain guarantees in this life anyway for the believer and the disbeliever.

14:46
Remember Abraham said "provide only for those who believe in God and the last day"? And God said "no, I will provides for everybody, believer and disbeliever."

14:55
A man: (unintelligible) Dr. Khalifa: Because it's a test. You have to provide all the... So, on the Day of Judgment, they do not say "oh, I didn't believe because I didn't have any money."

15:05
A man: Isn't it so that actually when you refuse to believe, it's like you are completely rejecting where you come from? In a sense.

15:14
A man: Our soul, we come from the world of... Dr. Khalifa: No, when you refuse to believe, you're making a choice. You are given God's message, the day you were born. And you're given Satan's message.

15:25
And you make a choice. Dr. Khalifa: And you chose Satan's message. Therefore, you belong with him. A man: Yes. Exactly.

15:31
Dr. Khalifa: It's very simple, really. 105,

15:37
[18:105] Such are the ones who disbelieved in the revelations of their Lord and in meeting Him. Therefore, their works are in vain; ...

15:45
We just spoke about that. [18:105] ... on the Day of Resurrection, they have no weight.

15:51
See, Behrouz, they can be very nice and very righteous, but if they don't believe in God,

15:56
and their soul is emanated from God, then the soul will not grow. So, they have no weight.

16:01
They went to the WeightWatchers in Hereafter.

16:06
...of the Hereafter, the WeightWatchers of Hereafter. Dr. Khalifa: You're supposed to go to the WeightWatchers of this world. A man: WeightWatchers, Soul Watchers.

16:12
Dr. Khalifa: Yes, Soul Watchers. You're supposed to go to WeightWatchers. We are WeightWatchers of the soul.

16:17
And we make it as fast as can be. We give you so many calories, like we're doing now.

16:27
We have the fattest soul in the universe, I think. Alhamdu Lillah

16:34
[18:105] ... Therefore, their works will be in vain; on the Day of Resurrection, they have no weight. So, there'll be a weighing day on the Day of Judgment.

16:42
See who weighs, who is the heaviest. And this is repeated throughout the Quran. Huh? A woman: We are fat and beautiful. Dr. Khalifa: Yes, fat and beautiful.

16:55
106, [18:106] Their just requital is Hell, in return for their disbelief, and for mocking My revelations and My messengers.

17:04
[18:107] As for those who believe and lead a righteous life they have deserved a blissful Paradise as their abode.

17:10
 [18:108] Forever they abide therein; they will never want any other substitute.

17:17
 I mean, the choice is so glaring, so fantastic.

17:22
 And what is needed is so simple.

17:27
 What is needed is what is good for us. Do the five prayers, the Fasting of Ramadan, all these are designed for our physical and spiritual improvement.

17:43
 You get up before sunrise, you do the Morning Prayer, and you finish... by the time it's 8 o'clock,

17:49
 you finish more work than others do by 5 o'clock in the afternoon.

18:00
 And 9 o'clock or 10 o'clock, especially on Sunday. 10 o'clock, 11 o'clock, you see your neighbor coming out to get the paper.

18:08
 Very sleepy. Tumbling around. But you've been out for 6 hours already.

18:21
 I think we've discussed all the physical benefits of getting up and doing the Five Prayers.

18:28
 The Quran: Everything We Need [18:109] Say, "If the ocean were ink for the words of my Lord, the ocean would run out, before the words of my Lord run out, even if we double the ink supply."

18:46
 These two verses have to do with Quran versus Quran and Hadith. God gave us the Quran and He gave us everything we need here, everything that's relevant to our eternal life.

19:05
 You see, when God tells us that the Wudu, the Ablution is four steps, He didn't run out of words.

19:11
 If He wanted us to do 9 steps as the regular Muslims do, He would have told us the 9 steps.

19:19
 A man: (unintelligible) Dr. Khalifa: No.

19:30
 Dr. Khalifa: Only the verses, the end of the verses were marked. That's it. A woman: (unintelligible)

19:38
 Dr. Khalifa: These dots and dashes and things and commas in the Quran, they did not exist.

19:45
 Maybe he was wondering if they existed in the past.

19:52
 Ihsan has a very good argument about this. The people who challenge God and say "if the Quran is complete and perfect like God claims, where is the prayer, the details of the prayer?"

20:03
 But she always asks them "you mean, if the details of the Prayer were in the Quran, perfectly stated here, will you follow them?"

20:11
 They say "of course, we'll follow them." She said "okay, let's go to the first step of the Prayer, the Wudu." "Here it is. God tells us it's the 4 step. How many do you do? Do you follow this?"

20:21
 Very smart. Yeah? It's a wonderful argument.

20:28
 It's so short.

20:34
 A woman: (unintelligible) Dr. Khalifa: Huh? Dr. Khalifa: Right, but how do you come up with this idea? Mā Shā Allāh.

20:43
 Wonderful. Parivash: One thing, I found that (unintelligible) is Shia. Dr. Khalifa: Yes.

20:50
 Parivash: Because all of them, they believe that if you say "Amen" in Salat, it destroys your Salat, if you say "Amen." And it's true. Dr. Khalifa: Oh, wonderful. Yes.

20:59
 Parivash: Yeah, but, when we ask them, for example, if "Amen" is bad or good, they say "no, Amen is very good because it's Du'a."

21:07
 Parivash: "And when we have to do (2:201) رَبَّنَا ءَاتِنَا when they say "what is wrong with Rabbana, you are too far, because Rabbana, all this is good things."

21:17
 And I ask them "okay, what's Amen? Amen in my language is very good. Is it bad?" They say "no."

21:23
 I say "Why? Amen destroys the Salat", but they're adding the Muhammad and the (112:1) قُلْ هُوَ اللَّهُ

21:30
 Parivash: and the (unintelligible) Dr. Khalifa: Yeah. Parivash: They don't have any answer. Dr. Khalifa: Right.

21:37
 Dr. Khalifa: They have no argument. A man: (unintelligible) in Arabic.

21:51
 Dr. Khalifa: Who was he? Who? A man: (unintelligible)

21:58
Dr. Khalifa: Someone is asking "why do the Fātehah in Arabic, you know, it's so difficult?"

22:04
Dr. Khalifa: so difficult for the... A man: "Why not Sura? Why don't you read Sura after Al-Fātehah?"

22:09
A man: I tell them "you have to look at the plan of the universal religion. Everybody has to learn Al-Fātehah and have to do it exactly the same way."

22:19
A man: "You put other Suras, but let me give you examples." A man: One example is very easy to learn. And I told Sarah, I said "Sarah, can you recite Sura Al-Fātehah?"

22:31
A man: And she recited to the woman. She doesn't speak Arabic. She's a child. Dr. Khalifa: Yes. A man: (unintelligible) Sura Al-Fātehah. Dr. Khalifa: Perfect.

22:38
A man: (unintelligible) Dr. Khalifa: If you read anything after Al-Fātehah, Al-Hamd, what will you read? And who's gonna pick out what?

22:48
Dr. Khalifa: There are so many... A man: (unintelligible)

23:00
Dr. Khalifa: The Jaffars don't know it yet, but there are some new revelations, this is part of it, that pin down what to read in every Rak'a of the 17 Rak'as of the day.

23:10
And it is only Sura 1, nothing else. So, IN SHAA ALLAH, after you rest, take a nap, enjoy and come back tomorrow, we'll go through it.

23:21
God taught us exactly what to read in every single unit of the Prayer.

23:31
The last verse, 110, says, do not follow Hadith. [18:110] Say, "I am no more than a human like you, being inspired that your god is one god. Those who hope to meet their Lord shall work righteousness, and never worship any other god beside his Lord."

23:49
It says... In other words, this verse is saying, I'm a human being like you, do not idolize me. This is the... The Prophet Muhammad is being idolized against his will, and Jesus and Mary are the same.

24:00
They're being idolized against their will.

24:07
So, this is our one page, afternoon, Quranic study.

24:12
Dr. Khalifa: Congratulations. A woman: Congratulations. Dr. Khalifa: But the floor is open for general discussions.

24:20
A man: What is the difference between lord and small god?

24:27
Dr. Khalifa: Lord is referred to God with a capital L and it's Rab (رَبّ). But if it's with a small l, it is like this, god with a small g.

24:40
Dr. Khalifa: Right? A man: Yeah. Dr. Khalifa: (unintelligible) also. Dr. Khalifa: Sometimes it is said that they made their priests from...

24:50
Behrouz: Sometimes the pronouns, it's "I" subject "I" sometimes "we". Why? (unintelligible)

24:58
Dr. Khalifa: "We" means the angels participated.

25:03
Dr. Khalifa: It means God and the angels. Behrouz: (unintelligible)

25:09
Dr. Khalifa: "I" means God alone. Dr. Khalifa: I thought Leila went to San Francisco yesterday. Leila: No, not yet.

25:18
Dr. Khalifa: Are you going today? Leila: Tomorrow. Dr. Khalifa: Oh, tomorrow. That's good.

25:30
Dr. Khalifa: What, what was the question again? Oh, Rab (رَبّ), Lord. And the question on "I" and "we."

25:38
Like what God says "we revealed this scripture, and we will preserve it." Because Gabriel participated in the process of revelation.

25:46
And "we will preserve it" because the angels are making sure that nobody will tamper with it.

25:54
And this is generally the rule. The one part that confuses a lot of people is "we saw the angels fall prostrate before Adam."

26:02
I hear this question more often than anything else. "We saw the angels fall prostrate before Adam."

26:09
"So, how can it include the angels?" They don't understand that the number of angels is...

26:16
Even the angels don't know how many angels there are. There are so many of them. Their number is so vast.

26:22
What happened was God saw the leaders of the angels. "I wants all the angels to fall prostrate when Adam stands up."

26:30
"When I blow into him from My spirit and he stands up alive from mud to a living person, I want all the angels to prostrate."

26:36

So, the angels went and saw the rest of the angels. That's when this happened.

26:43

"God wants us all to fall prostrate." Dr. Khalifa: So, it's still "we." A man: God called Archangels and the Archangels called the angels.

26:52

Dr. Khalifa: Yes. Behrouz: And I have been told (unintelligible).

27:02

And they say that the name of God is not God. It's Allah is the name.

27:09

And that in translation, it should be Allah. Behrouz: Because that's His name. Dr. Khalifa: Yes.

27:15

Behrouz: And it should not be the name of God, actually.

27:20

Dr. Khalifa: So why do you translate? Why do you translate this? In the name of...

27:27

Dr. Khalifa: You either speak in English or speak in Arabic. Behrouz: Yes, but I mean the name for instance. (unintelligible)

27:32

A man: (unintelligible) Behrouz: Yes, but Allah is Allah. This is what I say.

27:38

Dr. Khalifa: Allah is not a name. Behrouz: Ha, it's not a name. Dr. Khalifa: No. Behrouz: So, they're wrong. They say that Allah is a name. Dr.

Khalifa: Right.

27:47

Dr. Khalifa: The Christians in the Arab world say "Allah." Edip: But all good names are for God.

27:53

Dr. Khalifa: Yeah. Edip: The name is the name you call for Him. Dr. Khalifa: Yes. It's not a name.

27:58

Edip: The name in the scripture. Dr. Khalifa: Yeah. Dr. Khalifa: "Allah" means literally the one God.

28:06

"Allah" means the one God. I hear this a lot, also. But it's very stupid excuse.

28:13

And you look at some translations. "In the name of Allah, the Rahman, the Rahim."

28:19

Give this to any American and have him figure it out. A woman: That's (unintelligible) Dr. Khalifa: Yes. Yes.

28:29

A woman: (unintelligible)

28:48

Behrouz: When you add up the gematrical value of (unintelligible) (1:7) الْمَغْضُوبِ عَلَيْهِمْ

29:00

Behrouz: 800 ض. What is ض? Dr. Khalifa: 800

29:06

Behrouz: (unintelligible) Dr. Khalifa: (unintelligible)

29:23

Dr. Khalifa: One is heavier than the other one? A woman: Rashad, (unintelligible) it's part of the infinity of Allah, that Allah is infinite.

(unintelligible)

29:40

Dr. Khalifa: No. This is true, the true statement.

29:47

Behrouz: Rashad, one subject is really very confusing, especially from (unintelligible) disbelievers (unintelligible). God created the earth, then...

30:02

Dr. Khalifa: Allahu Akbar, Allahu Akbar

 37:47
 Bism Allah Arrahman Arraheem In the name of God, Most Gracious, Most Merciful Tonight, we start at Sura 81. And our teacher is Edip.
 37:59
 He's gonna start right away. Go ahead. Edip: Bism Allah Arrahman Arraheem
 38:05
 [81:1] When the sun is rolled. [81:2] The stars are crashed into each other. [81:3] The mountains are wiped out. [81:4] The reproduction is
 halted.
 38:16
 [81:5] The beasts are summoned. [81:6] The oceans are set aflame.
 38:21
 [81:7] The souls are restored to their bodies. [81:8] The girl who was buried alive is asked:
 38:29
 [81:9] For what crime was she killed? [81:10] The records are made known.
 38:34
 [81:11] The heaven is removed. [81:12] Hell is ignited. [81:13] Paradise is presented. [81:14] Every soul will know everything it brought.
 38:49
 Here, there is a general description of end of the world
 38:55
 and Resurrection. But, I think there is no sequence between these events, only description of both events, of both 2 events.
 39:19
 God's Messenger of the Covenant [81:15] I solemnly ... Dr. Khalifa: You don't explain the stars crashing into each other?
 39:30
 "The sun is rolled." We're not gonna let you get away with it. You have to explain.
 39:38
 Dr. Khalifa: We can read it. Edip: Yes, I know, but it is so obvious. What can I say?
 39:45
 Dr. Khalifa: [81:3] The mountains are wiped out. Edip: Yes, because the harmony, the system will be collapsed.
 39:52

Edip: And there will be no gravitation. There will be no any system. And everything will collapse, will crash into each other.
40:05

And these are description of end of the world. Edip: Very obvious.
40:12

Dr. Khalifa: So, there will be an implosion. Edip: What?
40:18

Dr. Khalifa: There will be an implosion. That sounds like it The stars will crash into each other.
40:26

Dr. Khalifa: I don't wanna give you a rough time. Edip: No, no, no, I don't worry.
40:31

Dr. Khalifa: Ok. In Sura 39, it says "we're gonna fold the heavens like folding of a book. This is it.
40:39

So, it's an implosion. They actually are expecting an implosion. Edip: There are two theories about end of this universe, scientific theories.
40:48

According to them, one option, the universe is expanding.
40:55

If the expand speed is more than a critical point, the universe cannot come together.
41:07

How do you say it, forever it will expand and...
41:12

But another theory is the maximum speed is below the critical point, and then after a while, many years later,
41:26

they say thousands years or billions years later, they will come together.
41:33

For example, if you threw a stone from the earth more than 11 km per second, if its speed 11 km, more than 11 km per second,
41:49

this stone will not come back to the earth. But if the stone, if the speed of the stone
42:00

is less than 11 km per second, it will come back many kilometers later, it will stop and then will fall on the earth.
42:08

This is gravity law. And now from Quran, we understand, we know that the second theory will occur.
42:21

Edip: This theory is called as, what is the opposite of open?
42:29

Dr. Khalifa: Implodes Edip: Implode. Yes. Universal Theory.
42:34

Dr. Khalifa: But what is the Quran's theory? Edip: Quran's theory is implosion.
42:39

They will come together like the paper of the book. And yes, this is the description of implosion.
42:48

Dr. Khalifa: Why will it happen? Edip: Creation with explosion, what? Dr. Khalifa: Why will the implosion happen?
42:54

Edip: Because God will say "be and it will be."
42:59

Dr. Khalifa: No. It's not just that. Anybody wants to...
43:05

(unintelligible), yeah, Emily. Edip: God will come. Dr. Khalifa: Yes, there you go.
43:15

Dr. Khalifa: You have to speak fast. Emily: (unintelligible) Dr. Khalifa: Okay, now, so now, we are talking. So, this implosion will happen because...
43:21

Edip: God... Dr. Khalifa: God will physically come to this universe. Edip: God's physical existence, when God comes, this universe cannot stand for God's physical existence and then they will explode.
43:36

Implode.
43:42

Edip: Do you have any question about this part? Edip: If you ask, we can explain, but...
43:50

Dr. Khalifa: Boy, it's like pulling teeth, you know. He's got the information there, but you have to pull it out. Edip: Yes. Dr. Khalifa: So, do ask him questions.
43:56

A woman: I have a question about verse 8 and 9.
44:03

Edip: [81:8] The girl who was buried alive is asked: [81:9] For what crime was she killed?
44:08

From Quran we learn that Arabs, they were immolating women and they were not glad with the girls when they see girl as a baby.
44:24

They didn't want girls and they were killing them. And this was a very great crime of them.
44:33

And also now we can see the extension of this understanding.
44:42

In many places in the world, girls are also the second, girls are the second class of human beings.

44:55

And I think killing of girls was because of economy.

45:04

Boys, when they become adults, they could gain money or they could work, but girls at that time, they couldn't do.

45:18

And this was one of the reasons. A man: (unintelligible)

45:25

Ediv: What? A man: (unintelligible)

45:31

Ediv: Summoned. The beasts are... Dr. Khalifa: (81:5) وَإِذَا الْوُحُوشُ حُشِرَتْ Ediv: (81:5) وَإِذَا الْوُحُوشُ حُشِرَتْ

45:44

Dr. Khalifa: He's waiting. Ediv: Yes. Ediv: What's your question, brother? A man: (unintelligible) Ediv: Why?

45:51

A man: Are the beasts called to work? (unintelligible) They are called work. To what's that referred?

46:03

Ediv: There are two ways to interpret, to understand this. One way, the beast, when a big event, explosion or a great shock happens, from fear they come together.

46:18

They will come together. This may be expression of this event or in Hereafter, God also will resurrect all animals.

46:31

Dr. Khalifa: Yes, the second interpretation is correct. Because in Sura 6, verse 38, you can see that, that... Remember?

46:38

(6:38) ثُمَّ إِلَىٰ رَبِّهِمْ يُحْشَرُونَ Ediv: Yes. Dr. Khalifa: So, it's the same word being used that all the animals will be resurrected and will be gathered on the Day of Resurrection.

46:47

A man: I also have a comment. Dr. Khalifa: So, if you had a pet or anything, you will meet them all on the Day of Judgement.

46:53

A man: I have a comment which I'm not sure is accurate. Because of my unfamiliarity with the Quran, (unintelligible)

47:03

The first two verses sound very similar also to what is described as a black hole,

47:11

where a star changes its size very quickly and then shrinks and the gravitational mass becomes

47:18

so great that it actually swallows the star. Dr. Khalifa: Yeah, the black hole phenomenon is a minute representation of this. This is a universal black hole.

47:29

It's similar to it. But I wanna go back to the 8 and 9 that Beth was asking about.

47:36

I don't like to depress you, but this is actually still happening in Saudi Arabia today.

47:49

I call it a cultural disaster. And this is why when they walk into this mosque, they're shocked to see a woman's hair.

47:57

And they run away. I mean, they cover up the women and they regard them in such a disastrous way that they used to kill the baby girls in the past.

48:10

And I had a Saudi friend 10 years ago who went back to Saudi Arabia and he came back.

48:17

He was almost crying. He said "you can find baby girls in garbage bins now.

48:24

He was from Medina, in the Prophet's city.

48:30

It's very depressing, but... This is what I call... I mean, How will you change a cultural behavior like that?

48:38

If the Quran didn't do it, what is going to do it? But this will make you understand why they are shocked when they walk in here.

48:48

And they make up stories like in Masjid Tucson, the men and the women pray side by side, which is not true.

48:56

And they make up things like the women lead the prayer at Masjid Tucson. It's just they have this severe complex.

49:06

That even today these things happen. They don't have accurate records of pregnancies or even births in Saudi Arabia.

49:16

So, this is why it is significant that it is mentioned in this Sura, and mentioned in other places in the Quran.

49:25

[81:8] The girl who was buried alive is asked: [81:9] For what crime was she killed?

49:33

And of course, the hint is for those who commit this horrendous crime.

49:39

It's a demonstration of stupidity.

49:46

So, believers don't have that. I come across believers once in a while who prefer to have a son over a daughter.

49:58
And I really suck in to them when they come up with that. Because there is no, there is no preference whatsoever, I mean, as far as God is concerned.

50:11
It may even be the other way around. In fact, there are sayings, I think here in the States, maybe, even other countries also,

50:23
that say, what, "the girl brings a son, but the son is taken away by his wife", something to that effect.

50:32
A woman: "When your son marries, you lose a son, when your daughter marries, you gain a son." Dr. Khalifa: Right, something like that. I've heard it said in different ways, said in different ways.

50:43
Dr. Khalifa: So,... A woman: Also, (unintelligible) Dr. Khalifa: Right. Yeah.

50:56
Dr. Khalifa: It should be brought out. A woman: Yeah, it should be brought out. Dr. Khalifa: Yeah. Dr. Khalifa: It's such a horrendous crime that the Quran gives it a lot of attention.

51:06
It also reflects the kind of mentality that exists there, even now.

51:14
Any comments? Lisa. Lisa: (unintelligible)

51:20
Dr. Khalifa: Exactly, yes, exactly. I'm glad you mentioned that. Yeah, even the women who survive, they're actually buried alive. The way they demand that they're covered up this way.

51:34
Ismail just came from Iran. And how does the streets look like?

51:39
The ladies, they have to be covered up.

51:45
Is there... How is the society in general accepting? Dr. Khalifa: Is there any kind of opinion amongst society?

51:52
Ismail: There are some (unintelligible)

52:00
Dr. Khalifa: Is it a widespread opinion or is it just limited to the people? Are the people accepting it?

52:05
Like, just like the ladies who used to walk in the streets in European clothes. Now they have to cover up in this black stuff.

52:12
Ismail: (unintelligible) Dr. Khalifa: So, they are... Dr. Khalifa: They're forced because otherwise they'll be killed.

52:20
Dr. Khalifa: So, did you hear over there? Ismail says that there is rebellion against this forced dress in Iran, but they can do nothing about it. If they speak up, they'll be killed.

52:33
So, it is a terrible oppression. This is a form of burial. They're being buried alive.

52:42
What's her name? 60 Minutes? What's her name? Diane Sawyer? Diane Sawyer went to Iran and she had to, before the plane landed in Iran, she had to cover up her hair. And she made a big deal out of this.

52:59
And it's a double standard. Go ahead. Douglas: In the process of writing a paper, (unintelligible)

53:07
Douglas: I was shocked to find out that even today, certain so-called Muslim countries (unintelligible) just out of sheer suspicion of (unintelligible) the house

53:18
Douglas: (unintelligible) their wives.

53:23
Dr. Khalifa: Oh yeah, or daughters. Douglas: (unintelligible) trying to rationalize (unintelligible)

53:37
Douglas: Their husbands would say "I don't want you to do something wrong." He would murder his wife or throw her out. (unintelligible).

53:49
Dr. Khalifa: Well, I have on my desk a piece of news from the Arizona newspaper,

53:54
where in Iran they ordered, no, no, excuse me, in Pakistan, a judge ordered the execution of 6 people because of sex crimes.

54:04
This is the headline. And when you read the article, you find out that this lady didn't like her husband, so she left him.

54:12
Of course, according to the Quran, marriage is a contract between two people, and once out, the contract is invalid anymore.

54:21
But they don't give this right to the woman, according to the so-called Islamic Shari'a.

54:27
So, I don't know how many months or years later she married somebody else.

54:34
Now, her former husband complained, and they ruled that she and her new husband have committed adultery.

54:47
So, the judge ordered them stoned to death. And 4 of their friends, also stoned to death, because they knew about it.

54:58
I have this on my desk. If you don't believe it, you can read it later. This is the kind of mentality that is...

55:07
Where their women are oppressed.

55:19
And we read in Sura 28 that God feels for the oppressed, and He makes it up to them.

55:24
According to Hadith and Sunnah, the majority of inhabitants of Hell are women. But I'm convinced that the opposite is true, because of the oppression that they undergo.

55:37
When I served in Saudi Arabia for the United Nations, I came across a daily program where people send messages.

55:48
And most of these messages were from women. I'm telling you, I cried. I actually cried listening to that program.

55:56
Because a typical story will be a woman whose husband disappeared for six months or a year.

56:02
She doesn't know where he is. She's grounded in the apartment or the house or the place that's assigned for her.

56:08
And her in-laws bring whatever food or whatever that keeps her alive. She never leaves the place. It's just like a prison.

56:16
And this is a typical story. And she's asking for help. Obviously, she snuck out a letter to that radio program.

56:28
So, it is a tragic situation. And... I guess abandoning the Quran is one of the reasons for this happening.

56:39
Any other comments or questions? I just want you to know what is happening over there because...

56:45
So, we can thank God for the freedom we have here and the ability to practice the Quran.

56:51
Edip, back to Edip. Dr. Khalifa: Verse 15? Edip: Yes, verse 15.

56:57
God's Messenger of the Covenant [81:15] I solemnly swear by the galaxies. [81:16] Precisely running in their orbits.

57:05
[81:17] By the night as it falls. [81:18] And the morning as it breathes.

57:10
[81:19] This is the utterance of an honorable messenger. * [81:20] Authorized by the Possessor of the Throne, fully supported.

57:18
[81:21] He shall be obeyed and trusted. [81:22] Your friend (Rashad) is not crazy.

57:24
[81:23] He saw him at the high horizon. * [81:24] He is not holding back any news. [81:25] It is not the talk of a rejected devil.

57:32
[81:26] Now then, where will you go? [81:27] This is a message to all the people.

57:37
[81:28] For those who wish to go straight. [81:29] Whatever you will is in accordance with the will of GOD, Lord of the universe.

57:55
Look at the footnotes. At the footnote, If you add the number of the chapter plus Rashad, gematrical value of Rashad (505) and Khalifa (725),

58:07
you'll find it divisible by 19.

58:12
And this refers to the message.

58:19
Because in verse 27, God says, This is a message to all the people. (81:27) **إِنْ هُوَ إِلَّا ذِكْرٌ لِلْعَالَمِينَ**

58:25
[81:27] This is a message to all the people.

58:35
And it describes Rashad's experience.

58:41
Edip: How many years ago? Dr. Khalifa: 1971 Edip: In 1971, when he was in Medina, in Mecca, he had an experience, a visual experience.

58:55
And this is a description of this event. Dr. Khalifa: I think if you go to this appendix 2,

59:01
Dr. Khalifa: page 643. Edip: In Appendix 2, there is a reference you have now.

59:13
Edip: Now, in chapter 3, verse 81, you will see the prophecy about God's Messenger of the Covenant.

59:24
And if you add them to the gematrical value of Rashad and Khalifa, you'll find 1311, which is a multiple of 19.

59:35
And this Sura has number of 81. And you'll find in verse 19, God describes the messenger.

59:51
And also, if you add them up, it's also divisible by 19.

1:00:01
Dr. Khalifa: This is, of course, very embarrassing to me, but I can't afford to hold back any of this.

1:00:07
 It's mainly for the future generation. Our generation may not be able to stand this kind of news.

1:00:18
 As for our people, God snuck it on us gradually, very slowly. So, we are able to stand it.

1:00:24
 But it really is an awesome responsibility.

1:00:31
 I wanna read with you page 643. Why 81?

1:00:38
 I want to spare Edip of shyness.

1:00:44
 Verse 81 & Sura 81. Number 16 here says, God's Messenger of the Covenant is prophesied in Verse 81 of Sura 3.

1:00:51
 The addition of the gematrical value of "Rashad" (505), plus the gematrical value of "Khalifa" (725), plus the Verse number (81), produces $505 + 725 + 81 = 1311 = 19 \times 69$.

1:01:03
 Number 17, If we look at Sura 81, which is what we're studying tonight, we read about a messenger of God who is powerfully supported and authorized by the Almighty, as we see in verse 19.

1:01:15
 Thus, Verse 81 of Sura 3, and Sura 81, Verse 19 are strongly connected with the name "Rashad Khalifa."

1:01:26
 As you know, when the first hint came out in the first translation, authorized English version, a lot of people were up in arms, you know.

1:01:33
 "Why authorized? Who authorized this?" But the verse in Arabic here, verse 20, is very clear.

1:01:41
 [81:20] Authorized by the Possessor of the Throne, fully supported. And now we have these mathematical proofs, Quranic and mathematical.

1:01:52
 Number 18 on page 643 says, If we add the Sura numbers plus the number of verses from the beginning of the Quran to Verse 3:81,

1:02:01
 where the Messenger of the Covenant is prophesied, the total comes to 380, 19×20 . These are shown in Table 6.

1:02:10
 Do you understand this number 18? You take the Sura numbers and the number of verses from the beginning of the Quran

1:02:19
 to the place where the Messenger of the Covenant is prophesied. And this gives us 380, a multiple of 19.

1:02:26
 And as you know, 19 is our generation's sign.

1:02:32
 Number 19 says, The gematrical value of Verse 3:81 is 13148, 19×692 . This value is obtained by adding the gematrical values of every letter in the verse.

1:02:44
 Number 20, if we look at that portion of Verse 3:81 which refers specifically to the messenger of the Covenant:

1:02:51
 I have it here in Arabic. It says, "A messenger will come to you, confirming what you have," we find that the gematrical value of this key phrase is 836, 19×44 .

1:03:03
 So, this is the connection with Sura 81.

1:03:09
 This is why I couldn't afford to or to avoid writing in verse 22, put the name Rashad in parentheses there, verse 22.

1:03:21
 And some of you are familiar with the initial announcement. Excuse me for doing this.

1:03:29
 But I just can't afford to hold back.

1:03:35
 Those of you who are not familiar with that momentous night, I'd be glad to go over it with you again.

1:03:42
 And if you find that this is not acceptable, I don't blame you. It is very difficult, very difficult to accept.

1:03:50
 But I will be very happy to discuss it with you if you have any reservations.

1:03:57
 And like I said, this is for the future generations. It'll be easier for them.

1:04:04
 I have to share with you a story that will please the believers.

1:04:12
 We were staying at Farima and Amir Kulani in San Francisco, and they have two children.

1:04:18
 Shaliz, she's 8 years old, and Paris, he's 6 or 7.

1:04:26
 After two days of staying there, the neighbor's kids came to the house and asked "where is God's messenger?"

1:04:32
 Apparently that the Farima and Amir's children were going to the neighbor's saying, "Guess who's sleeping in our house?"

1:04:42

And it just reflected how it will be a lot easier for the new generation because they don't have the holdbacks or the hang-ups that we have.

1:04:53

They will grow up and they will look at the whole story objectively. They will look at the proofs objectively without anything holding them back.

1:05:02

So, it pleases us to see the people, the new generation.

1:05:08

So, this here, if you'll excuse me for putting it in, it is for the new generations.

1:05:15

And I hope most of you will understand anyway.

1:05:20

Dr. Khalifa: Okay, back to Edip. Edip: Do you have any questions about this part?

1:05:27

Dr. Khalifa: If you have any questions, don't be shy because you have to bring out all the any doubts and kill them.

1:05:34

Yes. It's interesting that they find some of these things happening without me paying attention, like

1:05:43

[81:24] He is not holding back any news. [81:24] He is not holding back any news. Because I'm not holding back anything. I want everything to be clear in the open.

1:05:53

And then I read the verse and I say "yeah, this is what is happening. And the point that Lisa raised of obey and trust,

1:06:04

[81:21] He shall be obeyed and trusted. it is not the person.

1:06:09

It's obey and trust because we're receiving information from God. This is why God ties the commandment of obeying God and obeying the messenger together throughout Quran

1:06:20

because I'm just as excited as you when we receive new information.

1:06:27

You know, that straightened everything that we were doing. We were doing lots of things wrong and God's mercy sees to it that we changed our ways to the correct way.

1:06:38

So, this is where obeying and trusting comes.

1:06:43

[81:22] Your friend (Rashad) is not crazy. This ties in with the other statement. The Quran says "I've lived with you many years."

1:06:53

In other words, this is a quotation in the Quran. Do you remember it? I forget where it is exactly.

1:06:59

But what it says is that here's a person who's been with you for many years and you know he's not crazy.

1:07:06

Because a person who is not a messenger of God, who claims to be a messenger of God, will have to be crazy. If he's not a messenger,

1:07:15

he'll be a person who has no belief that he will meet God someday and will be asked by God about everything he's doing.

1:07:23

Or he's a person who doesn't just have any mental capacity whatsoever. And the statement that "I've lived with you many years" is because, you know, I got to know you, we know each other,

1:07:35

and obviously I'm not crazy or mentally retarded or any any...

1:07:42

So this statement, [81:22] Your friend (Rashad) is not crazy. is, ties in with that I stayed with you for a number of years.

1:07:49

It is God's design to appoint messengers after the age of 40.

1:07:55

This has been consistent except with the Prophet Jesus for special reasons.

1:08:01

But every messenger was appointed after the age of 40. So, he lived among his people for 40 years. They knew him as a normal person who was a merchant or a shepherd or

1:08:10

going about his business. You know, he's a normal person. All of a sudden he says "I'm God's messenger."

1:08:15

And invariably they accuse him of being crazy. So, he said "I lived with you so many years and you didn't know that I was crazy. So why do you call me crazy now?"

1:08:24

"Wait to examine what I'm saying." Yes. 10:10?

1:08:31

10:3. Yes. 10:16. Yes.

1:08:36

So, this is the idea. Because if a person lives with you for so many years, you've known him closely and you know very well he's not crazy,

1:08:47

then he's either, he's really a God's messenger or he's a very, very bad person who is trying to trick God. It's one of the extremes.

1:08:58

And nothing in between. Yes.

1:09:05

[81:23] He saw him at the high horizon. * [81:23] He saw him at the high horizon. *

1:09:12

The footnote 81:23 says, *81:23 Rashad Khalifa was summoned to the high horizon as detailed in Appendix 2.

1:09:18

And this has to do with the fact that I was summoned and I was passive at the time, but all the prophets

1:09:28

fulfilled their covenant, which is recognizing, acknowledging, supporting, and believing in the Messenger of the Covenant.

1:09:38

Yes, it was on the high horizon. Exactly where I, I don't know, but it was out of this universe.

1:09:47

It was in the place where the souls are, so the chances are, it's in the seventh or the first universe.

1:09:54

If you consider ours, the seventh universe, that fulfillment of the covenant occurred in the first universe.

1:10:02

And in the last conference, as you know, I shared it with you in detail and I'm glad to share it with anybody in detail at any time.

1:10:10

But most of you know, those of you who don't know it, I'd be glad to share it with you again.

1:10:16

But briefly, I was summoned to the first universe. I sat in a place and all the prophets one by one acknowledged

1:10:24

me as God's Messenger of the Covenant. I was told they were all the prophets. I was not given the identity of any of them except Ibrahim because of his resemblance to my own family.

1:10:36

I was taken aback by this man who looks like us, you know, my uncles, my father.

1:10:41

And I was told... there was no speaking at all, but mentally, I was told "this is Abraham."

1:10:47

Other than that, I was told that these are all the prophets that included Noah, Jesus, Moses, David, Solomon, all of them.

1:10:56

Dr. Khalifa: So, this is what 23 refers to. If you read the appendix 2, it will give you these details.

1:11:01

A woman: (unintelligible) I know but (unintelligible) Dr. Khalifa: Yes.

1:11:12

Dr. Khalifa: Yeah, where are the prophets now?

1:11:17

Dr. Khalifa: In 3, what happens? You wanna attend to the baby (unintelligible)?

1:11:23

Go ahead. He'll be alright, though.

1:11:36

In other words, those who are known to deserve guidance will accept this information.

1:11:45

People who are willed by God to be guided.

1:11:51

Does this make sense, Martha? It should be clear. So, this is a message to all the people, for those who wish to go straight.

1:12:01

You know, when you pray every day, you say, Ehdina Al-Serata Al-Mustaqeem (1:6). Guide us on the straight path, or the right path.

1:12:08

So, those who wish to go straight will accept this heavy information. This is very heavy information.

1:12:18

Okay, when you look at any person, there's an invisible stamp on their forehead that says "Heaven or Hell."

1:12:26

Okay, the person who's stamped Hell on the forehead, there is nothing you can do to guide them.

1:12:32

And the people who are stamped Heaven, God knows, only God knows who is going to Heaven and who is going to Hell.

1:12:38

So, the person who is stamped Hell or misguided, there is no way you can make them understand.

1:12:46

The person who is stamped Heaven would see this and will accept it right away.

1:12:52

They will see that there is nothing wrong with it. It is in accordance with the Quran. There is sufficient proof.

1:13:00

Dr. Khalifa: They will... they may hold their judgment for a while until they examine the evidence and so on.

1:13:05

A woman: (unintelligible)

1:13:11

Dr. Khalifa: No, refers to you and me and anybody. Dr. Khalifa: Whatever you people will is in accordance with the will of God, Lord of the universe.

1:13:21

A woman: So, it's like those who are on the straight path are somehow incapable of doing anything that's not according to God's will, then?

1:13:32
Dr. Khalifa: No, it is not. We've always talked about it that when we are born, God knows already the people who
1:13:42
who did not side with Satan during that Great Feud. They didn't really side with Satan. Remember my last Khutba about the two arrows?
1:13:51
Okay, there are some people who went along with the crowd, but in their heart, they did not side with Satan.
1:13:56
So, these people deserve to be guided. They deserve to be redeemed and they are put in circumstances that bring them in touch with this message, for example.
1:14:09
When they are born, they are assigned to a certain house, certain parents to grow up under certain circumstances, and the end result will be that they're guided because they deserve to be guided.
1:14:25
Next. Douglas: Now, this is (unintelligible)
1:14:46
Douglas: They're totally nullified in everything they say. A lot of people who quote Quran (unintelligible) and they say "where does this explanation come from?"
1:14:56
They say that God has sent a messenger, but they immediately just accuse you of worshipping the messenger.
1:15:01
All of a sudden, you need to hang on to someone who can't be with you when you're born. So, this is both a protection and a mercy for the people who are also guided.
1:15:11
One of the strategies (unintelligible) is to tell you that you are incapable of standing up on your own, you need someone else.
1:15:22
The authorization and the signs removes a doubt from the hearts of the (unintelligible)
1:15:28
Douglas: You know that the motivation and incentives are from God to receive God's message, and it's just frightening.
1:15:37
Dr. Khalifa: It's an obstacle. It's an obstacle for the misguided.
1:15:46
A man: (Unintelligible) Dr. Khalifa: Say it again.
1:15:52
A man: table 5, why is... Dr. Khalifa: Yeah, table 5 must be...
1:15:58
A man: (unintelligible) somewhere else. Edip: No, before it. Dr. Khalifa: Yeah, it's for the, from the previous page. Edip: 15 must be...
1:16:04
Dr. Khalifa: This copy is just dealing with the number 81, because this is Sura 81.
1:16:15
Dr. Khalifa: The locust are playing havoc with the group there?
1:16:22
Edip: We'll be the lucky person. Dr. Khalifa: Yes. Now, Douglas said that this is lucky for us because, actually, we have no idea how lucky our generation is,
1:16:37
because this puts us in a place where we can belong with the elite of the elite.
1:16:44
The elite of the elite, or in the Quran, (56:10) السَّابِقُونَ السَّابِقُونَ those who are especially close to God are the
1:16:51
the people of the first generation, whenever a messenger comes, Abraham or Ishmael or Jesus or Moses.
1:17:11
Edip: Mā Shā Allāh Dr. Khalifa: It's gonna fly around and hit everybody.
1:17:22
Dr. Khalifa: The elite... Dr. Khalifa: The elite of the elite are the people who exist at the same time when the message is new
1:17:33
and the people are rejecting it and are being persecuted for accepting that message, which is worshiping God alone,
1:17:41
accepting the word of God alone. It's a very heavy responsibility, and the people who accept it are very, very, very, I can say this forever, fortunate.
1:17:50
Because they are the elite and of the elite for eternity. And you're not born at this time by coincidence. There is a reason for it. Obviously, you deserve it.
1:18:02
But to say that we are lucky or fortunate is the understatement of the century.
1:18:10
It is really a very, very exciting part of history, and I'm just talking as a person.
1:18:17
God happens to want us to know certain information to correct our path. And God's system, as we learn from the Quran, is that He selects one of us to distribute the information through one of us,
1:18:30
and doesn't make this one of us any better or worse or special.
1:18:35

There is no, and we have many lessons in the Quran indicating this. Moses, one of the great messengers, God sent a teacher in human form.

1:18:45

He could have been a human. Probably he was an angel, but God didn't tell us if he was a human or an angel.

1:18:51

The fact is that Moses existed, and there was another servant of God who taught him a few things.

1:18:58

So, it's just a system whereby God distributes, disseminates information to all of us.

1:19:06

We are a very fortunate generation indeed. Alhamdu Lillah. Abdullah.

1:19:12

Abdullah: (unintelligible)

1:19:19

Abdullah: at the time of prophet Muhammad, Quran was (unintelligible)

1:19:27

as I understand being revealed, certain verses revealed (unintelligible)

1:19:37

And similarly (unintelligible) being revealed in such a way (unintelligible).

1:19:48

Dr. Khalifa: I mean, I think we lived these very exciting times, and we've seen how the information comes as we needed it, at the right time.

1:19:58

When we, before printing the Quran, we were working on the appendix about the two false verses. And Mohamoud Abib, and Abdullah Arik, and Ismail Barakat, and Feroz Karmally, and Gatut were coming with information.

1:20:10

There was just pouring information coming. The evidence, very powerful and amazing.

1:20:15

I mean, it was just we couldn't catch our breath. And now that the book is in the press, they are very quiet, aren't they?

1:20:21

Do you hear anything from Mohamoud or Abdullah? No. But the information came at the right time.

1:20:29

It was just amazing. I mean, I will be, I will start the computer, and I will be working on this subject,

1:20:35

and they will walk in with the information, as I'm just about to put my fingers on the keyboard to type.

1:20:42

This is what Abdullah is talking about. Information comes as we need it.

1:20:47

And this is why we're so positive about God's signs. We don't have doubts.

32 Quran Study From Parivash 532 Sura 60 & Sura 61 Rich Believer Certainty Insurance 114 Min 12 28 8

Dr. Khalifa: Sovereigns.

0:03

A woman: Sovereigns.

0:03

Dr. Khalifa: Means kings and queens.

0:05

A woman: Right.

0:05

Dr. Khalifa: Just one word for it, instead of two words.

0:07

A woman: Right.

0:08

[24:55] ... as He did for those before them, and will establish for them the religion He has chosen for them, and will substitute peace and security for them in place of fear. All this because they worship Me alone without setting up any idols beside Me. Those ...

0:29

Dr. Khalifa: Does this answer your question?

0:32

Dr. Khalifa: Hmm? A woman: Pardon?

0:32

Dr. Khalifa: Does this answer your question? A woman: Yes.

0:35

Dr. Khalifa: [24:55] ... substitute peace and security for them in place of fear. ...

0:40

Dr. Khalifa: Everything will be alright.

0:41

A woman: What about the unsure 22 verse 15, which says "Happiness Now, and Forever"?

0:48

A woman: We let go everything and just depend on God alone.

0:51

A woman: And it doesn't matter what happens, it doesn't bother you.

0:54
Dr. Khalifa: Yes.
0:55
A woman: (unintelligible)
0:58
Dr. Khalifa: Unless you wanna follow some other translation, then you hang yourself.
1:01
A woman: Yep.
1:11
Dr. Khalifa: It's true.
1:13
Dr. Khalifa: They hang themselves.
1:18
Dr. Khalifa: 22:15 is the verse where translated unanimously in all the other translations as
1:24
"if you don't believe that God can help you in this world and forever, hang yourself."
1:30
Dr. Khalifa: Really?
1:30
A woman: Yes. Yes.
1:32
A woman: What?!
1:33
Dr. Khalifa: I thought you knew that.
1:36
Dr. Khalifa: Ok, so you have to read it for us then.
1:38
A woman: What?! How?!
1:40
A woman: Thank God, I never saw that.
1:42
Dr. Khalifa: Really?
1:43
Dr. Khalifa: Oh.
1:44
A woman: I never really hung (unintelligible)
1:47
A woman: (unintelligible)
1:52
Edip: There are several different interpretations on this. All of them funny from each other.
1:57
Dr. Khalifa: Yes.
1:58
Edip: The other one says "let him go to sky and open a hole from the sky and look at this (unintelligible)
2:05
Dr. Khalifa: It must be Ibn Kathir.
2:06
Edip: No, this is Maududi
2:08
Dr. Khalifa: Maududi, yes. Edip: from Pakistan.
2:09
Dr. Khalifa: Well, This is a contemporary mufassir (interpreter).
2:12
A woman: (unintelligible)
2:14
Dr. Khalifa: He's more sophisticated.
2:16
A woman: Hilarious. Edip: He is modern.
2:18
A woman: But this is really good to show people how it's really been mistranslated.
2:21
A woman: It's hilarious. Edip: It is wonderful.
2:22
A woman: "If any thinks that God will not help him, his apostle, in this world and the Hereafter, let him stretch out a rope to the ceiling and cut himself off. Then, let him see whether his plan will remove that which enrages him."
2:44
A woman: After, after he's dead?!
2:45
Dr. Khalifa: Ok, now, let us say you're a very careful person who wants to follow the Quran to the letter.
2:49
A woman: I'm dead.

2:52
A woman: I'm dead.
2:54
A woman: Wait. I'm finished.
2:55
Dr. Khalifa: Just read it carefully and see what he's trying to tell you and do it. Because it's important. This is God's message to you.
3:01
A woman: I'll be dead. I would have committed suicide.
3:05
Dr. Khalifa: That's right. Yes. A woman: Isn't that right? Yeah.
3:07
A woman: Good God.
3:09
Edip: Rashad, what did I do? You know, I criticized them there. Dr. Khalifa: Yes.
3:14
Edip: There, in Turkey, all Turkish translators, they translated this way. Dr. Khalifa: They said "how dare you!"
3:19
Edip: After my critic, I told them, to these translators, I said "if you think that you are right, now I challenge you, help yourself and don't think either you are right or not."
3:33
A woman: Now, can I read yours? Can I read yours? Dr. Khalifa: Yes, of course.
3:37
A woman: [22:15] If anyone thinks that GOD cannot support him in this life and in the Hereafter, then let him turn completely to (his Creator in) heaven, and sever (the dependency on anyone else). He will then see that this plan eliminates anything that bothers him.
3:55
I mean, that is so clear. And it's real.
3:58
Dr. Khalifa: That's the message of the Quran.
4:00
Edip: In the context, read from the words above and all the context is this. A woman: Yes, it is in context.
4:08
A woman: This is out of context.
4:11
A woman: And it makes no sense at all.
4:12
A woman: Not at all.
4:14
A man: Because they brought their idol, Muhammad, in there.
4:17
Dr. Khalifa: Yes. A woman: Yes, yeah, they put Muhammad in there. Edip: There's no mention of Muhammad.
4:20
Dr. Khalifa: There's no... It has nothing to do with Muhammad.
4:23
A woman: It has nothing to do with Muhammad at all.
4:24
A woman: But they put him in there, too.
4:26
A woman: Because even the Ayat before is talking about God admitting the believers and leading them into a righteous life.
4:35
A woman: It has nothing to do with Muhammad.
4:42
Dr. Khalifa: (unintelligible)
4:55
Dr. Khalifa: (unintelligible)
5:06
Dr. Khalifa: Okay, well, we'll go back to work and we'll see you, IN SHAA ALLAH, for Salat Al-'Asr.
5:10
A man: IN SHAA ALLAH.
5:12
A woman: Is your pillow (unintelligible)?
5:17
Dr. Khalifa: I think.
5:19
Dr. Khalifa: I was vice president of the Sunni mosque.
5:23
Dr. Khalifa: Then one day, I told them not to follow Hadith and Sunnah, so here I found their sign, it's saying "for sale."
5:28
Dr. Khalifa: So, and I asked. And I bought it.
5:34
Behrouz: What (unintelligible) more here.
5:38

Because I think the mosque needs a little job.

5:43

Behrouz: For example, install the extra bathroom or kitchen bathroom or something like that.

5:49

Dr. Khalifa: We're doing it.

5:52

Dr. Khalifa: We expanded it. Their mosque was only up to here.

5:54

Behrouz: Yeah.

5:55

Dr. Khalifa: And then we added this part. So, we keep expanding.

6:00

Dr. Khalifa: And I think we need a new expansion soon, IN SHAA ALLAH.

6:04

A woman: It's getting there.

6:05

Dr. Khalifa: Last Friday, we didn't find a place to sit down.

6:07

A woman: You're going to see people walking.

6:11

Dr. Khalifa: I'm pretty sure, IN SHAA ALLAH, we'll take the whole block. This whole block and we'll build a mosque.

6:15

Audience: IN SHAA ALLAH.

6:22

Ediv: Rashad, we go and invade the other mosques. There's a new one.

6:28

Dr. Khalifa: No, I checked it out and their direction of Qibla is wrong. So, I said "we'll not take it."

6:33

Ediv: Do you think it's wrong?

6:34

Dr. Khalifa: Yes. Their Qibla is, they're looking northeast.

6:38

Behrouz: Really? Dr. Khalifa: Yes.

6:39

Dr. Khalifa: They designed the whole thing looking at northeast.

6:42

A woman: It's a zero. Dr. Khalifa: Yes.

6:43

A man: It's a magnetic north.

6:45

Dr. Khalifa: Either that or we can just, you know, if we can move it, we'll do it.

6:52

A woman: (unintelligible) Dr. Khalifa: Yes.

6:57

A man: (unintelligible)

7:06

Dr. Khalifa: Where? In here, in Tucson?

7:09

A man: Yes.

7:09

Dr. Khalifa: No, it's not expensive here.

7:11

Ediv: IN SHAA ALLAH.

7:13

Dr. Khalifa: Besides, nothing is expensive for God.

7:19

Dr. Khalifa: Like Carl Sagan says "God has billions and billions..."

7:28

Dr. Khalifa: Yes, he mimics Carl Sagan.

7:33

Dr. Khalifa: Billions.

7:38

A woman: Which mosque is the one on the Freeway?

7:40

Dr. Khalifa: Ahmadiyya. Ahmadiyya mosque.

7:44

A woman: How many mosques are there in Tucson?

7:46

Dr. Khalifa: How many? 3

7:48

Dr. Khalifa: It's Ahmadiyya. How many mosques?

7:50
A woman: 1
7:51
Dr. Khalifa: Yeah, 3 mosques. I thought "how many Ahmadiyya's are?"
7:53
A man: How many are those? Dr. Khalifa: Also, 3 Ahmadiyyas.
7:58
Dr. Khalifa: 2 of them enforce it. Actually, this is a surgeon. An anesthetist, not a surgeon,
8:04
who was making a lot of money and meets Ahmadiyya and it's good for his IRS taxes.
8:11
So, he built a mosque and imported two guys to take care of it from Pakistan.
8:16
So, there are 3 of them here.
8:19
Parivash: Rashad, last night somebody asked me "if I'm in the street and I have to do my Prayer. And the mosque that does not belong to any god. And can I go there and pray?" I said "No, you cannot." Dr. Khalifa: No.
8:34
Dr. Khalifa: Because there is a direct commandment saying "don't" in a very strong way.
8:38
(9:108) لَا تَقُمْ فِيهِ أَبَدًا
8:40
Edip: This mosque must be the worst place that you go there. You cannot find any place there to go there. Dr. Khalifa: Yes. Right.
8:46
A woman: He said he had to go to the bathroom.
8:49
Dr. Khalifa: Huh?
8:51
Dr. Khalifa: No.
8:52
A woman: (unintelligible)
8:56
Edip: Because if you go there and worship, you accept the way that they worship. Dr. Khalifa: what they're doing
9:01
A woman: Yeah, Exactly. Dr. Khalifa: Right A woman: 9:108.
9:04
Dr. Khalifa: It's actually a house of Satan. Will you go in a house of Satan to pray?
9:07
A woman: No.
9:09
Dr. Khalifa: Because in Sura 9, really the commandment is very strong. I used to be not sure.
9:14
And then when I read this verse over and over, it says,
9:17
(9:108) لَا تَقُمْ فِيهِ أَبَدًا
9:18
Dr. Khalifa: Do not ever...
9:19
A woman: Yeah, I see it. [9:108] You shall never pray in such a mosque. Dr. Khalifa: Do not never ever pray...
9:23
Parivash: I thought, and you know, they didn't believe, some of them. Mā Shā Allāh. I just opened this verses. Dr. Khalifa: Yes.
9:29
Parivash: It's very clear. Nobody can doubt it. Dr. Khalifa: Yes.
9:33
Vicky: And about their kids that we were talking, I have a sign, IN SHAA ALLAH, like, God is my witness and I'm not lying.
9:43
Vicky: The first time I met Dr. Khalifa, Makan was maybe three or four months.
9:50
Vicky: And at that age, the kid doesn't talk.
9:53
And he said three or four times, Allah, Allah.
9:57
And then I forgot all about that.
9:59
Last time that Dr. Khalifa came to our place, and he had lunch with us.
10:03
And then, the first group left to Parivash's place.
10:08
And I went with my kids and Muhammad to Parivash's house.
10:12
In the way, we were so excited that Muhammad started saying "Allah, Allah."

10:17
Like he was trying Zikr while he was driving.
10:21
And God is my witness, I'm not lying.
10:23
He tried.
10:25
And he tried in my arms.
10:27
He knows it.
10:28
Vicky: He pushed and said "Allah, Allah." Dr. Khalifa: Mā Shā Allāh.
10:31
Vicky: And then, I didn't say anything.
10:32
I was afraid I tell Muhammad that, then Muhammad say "Oh, Vicky, you know, don't say it."
10:38
I was just thinking.
10:38
And then, he turned at me and said "did you hear?"
10:42
Vicky: You know, he's trying very hard.
10:43
A woman: (unintelligible)
10:44
Dr. Khalifa: Yes.
10:45
A woman: And he tries with... Dr. Khalifa: Translation.
10:48
A woman: Subhan Allah.
10:49
Dr. Khalifa: Yes. Mā Shā Allāh.
10:50
Vicky: I think that's why, like, the kids should be like...
10:54
Dr. Khalifa: Oh, they start very early. I was asking Mahdi. I was not joking.
10:57
One week.
10:59
Then it turns out, in their mother's womb, they're listening to the Quran.
11:02
Dr. Khalifa: They're Baroni kids.
11:03
A woman: Yes. Mā Shā Allāh.
11:05
A woman: Yes.
11:05
Dr. Khalifa: They wanted Parivash's recording.
11:10
A woman: Ilahi (my God) Dr. Khalifa: Ilahi (my God). Yes.
11:12
A woman: Ilahi (my God) all the time.
11:13
Dr. Khalifa: Mā Shā Allāh.
11:18
A woman: Jahan was saying when he was saying Zikr, reciting in his sleep "Allah, Allah."
11:24
Dr. Khalifa: In his sleep? A woman: Yes. Dr. Khalifa: Yeah.
11:26
Dr. Khalifa: This is amazing. Francisco sleeps here and then I go to wake him up for Fajr.
11:32
Here is a Chinese-Mexican guy.
11:34
Okay?
11:35
Wake him up and he said "La Elaha Ella Allah. Wahdahu La Shareeka Lah. What's going on here?"
11:42
It's Francisco, yes.
11:44
I wake him up "it's Fajr prayer."
11:45

But it's really fantastic (unintelligible).

11:51

Dr. Khalifa: Because you don't think when you're getting up from your sleep. A woman: Yeah.

11:55

Dr. Khalifa: Your brain is still asleep. A woman: Yeah.

11:57

Dr. Khalifa: In fact, when they interrogate prisoners, they want to hear the truth, they wake him up and ask him immediately a question.

12:05

"Where is your army camping?"

12:06

"Three blocks from here. Wait, what did I say?!"

12:10

A man: No control.

12:11

Dr. Khalifa: Yes.

12:11

Parivash: Rashad,...

12:12

Dr. Khalifa: You cannot manipulate their brain.

12:13

Parivash: One day my brother was in the army, and he came home and he was really, he wanted me to

12:19

go to one of my friends, a neighbor, to bring him to another city because it was very difficult.

12:25

And he was asleep at the room, and I went to my neighbor, and he said "okay, bring him to talk with me maybe I..."

12:34

And I went and I said...

33 Quran Study From Parivash 633 Sura 74 Masud Sabahi 06 02 1989

A woman: (unintelligible) Dr. Khalifa: أَعُوذُ بِاللَّهِ مِنَ الشَّيْطَانِ الرَّجِيمِ We seek refuge in God from Sheytan.

0:16

Bism Allah Arrahman Arraheem In the name of God, Most Gracious, Most Merciful Our teacher today is Mahmoud Sabahi and we'll be working, starting at Sura 74.

0:31

Dr. Khalifa: Dr. Sabahi (unintelligible) Dr. Sabahi: Bism Allah Arrahman Arraheem Before starting the Sura, I think, the traditional teachers

0:47

and students, I'm gonna have a pop quiz next week on what I teach today so that

0:54

the ones who sleep and we'll find out about who is listening and who is not. I think maybe

1:05

tonight is about the anniversary of the time that I came to the mosque last year, or it is

1:12

close because I know it from the NBA playoffs. When I came the first night here, there was

1:19

a gentleman here who had a small TV. He moved to Detroit, I guess, and he had the Lakers, Dr. Sabahi: and I guess Detroit on TV. So, it's about a year, more or less.

1:28

Dr. Khalifa: God has His ways of reminding us of important days.

1:33

So, and this is a very tough Sura that is given to me, but given the fact that God is the teacher of the Quran,

1:44

I asked Him to help me tonight, hopefully to be able to do a good job of what I understand from this surah, basically.

1:54

And then, I'll give you my views and whatever you think about it,

2:00

Then, it can be discussed. أَعُوذُ بِاللَّهِ مِنَ الشَّيْطَانِ الرَّجِيمِ Bism Allah Arrahman Arraheem

2:10

One more thing that I have to add. I have, I'm gonna, I have divided the Sura in different parts.

2:16

I have gone through the whole thing. I've tried to see what the overall point of the

2:24

Sura is, and whether I can divide it in different parts that could help us understand it better.

2:32

The first 7 verses of the Sura, starting from 1 until 7, it seems to be like

2:42

the instructions that God is giving to, a lot of people, I think, to Muhammad, and we know

2:52

that it is not only to Muhammad, it's to everyone, and especially to what we know about the code

3:00

right now. So, I start with the first verse. [74:1] O you hidden secret.* [74:2] Come out and warn. [74:3] Extol your Lord. [74:4] Cleanse your cover.*

3:09

[74:5] Forsake what is wrong. [74:6] Be content with your lot. [74:7] Steadfastly commemorate your Lord.

3:15

These 7 Ayas, as you see, God is instructing or ordering the secret.

3:30

I looked into a lot of translations, Farsi translations. All of them almost unanimously

3:38

translate this as "O you, the person who you have covered yourself with some clothing or something",

3:47

which they have taken it literally as someone who is under something covered,

3:52

which they think is Muhammad, and this is towards him, telling him that "O you, Muhammad,

3:58

"you hidden secret, come out and warn, start your mission and bring your message across."

4:06

Especially, this, this may be the third Sura that was revealed to Muhammad. That's what

4:12

makes it for a lot of people to believe that this is directly for Muhammad. But now that

4:20

we know that Quran is for all times, that doesn't apply to Muhammad. It can apply to

4:27

anyone. And it can apply to what we believe is the messenger. Then, God is telling that secret,

4:40

the person, whoever it is, that [74:3] Glorify your Lord. [74:4] Cleanse your cover.*

4:48

which I had a lot of trouble understanding what does that cleansing mean. It could be a lot of people

4:54

in Farsi translations, they have taken it as cleaning your clothes, because you wanna

4:59

pray, you wanna go to talk to God, so you have to clean your clothes from whatever

5:04

is on it, so that it's clean and nice. But basically, it could mean that it is

5:14

about the secret that cleanses the message, cleanses the Quran or the religion from whatever it has

5:22

been attached to it during these 1400 years. Then, God is asking him to forsake what is

5:30

wrong, stay away from the wrong, be content with your lot. This is very crucial. Be happy

5:39

with what your God has given you, and always commemorate your Lord. With these 7 Suras, then God is

5:46

putting another instruction, that I think is from 8 to 11. God is saying

5:52

[74:8] Then, when the horn is blown. [74:9] That will be a difficult day. [74:10] For the disbelievers, not easy.

5:57

[74:11] Let Me deal with what I created as an individual.

6:02

God is here in this Ayas 8 to 11, is telling

6:11

the messenger that "when the horn is blown", which is obviously referring to the Day of

6:17

Judgment, which is gonna be a difficult day for the disbelievers and a good day for the believers. He says "that's not gonna be an easy day for those, and let Me deal

6:29

with those." And this is a very interesting Aya to me at least. [74:11] Let Me deal with what I created as an individual.

6:37

Sometimes we take it upon ourselves to deal with those who are disbelievers,

6:44

or who happen not to agree with what we say. And we try to deal with them or make judgments.

6:50

And I think this is a very good verse that here God is telling us, that "let Me deal with those.

6:59

"Don't worry about those. I'm gonna deal with them. You worry about what you're supposed to."

7:05

Then, from these instructions, the first part, if you look at it, it's all in present

7:14

tense. It's like the instructions telling him what to do and what not to do. And then, from

7:21

12 on, it starts with, [74:12] I provided him with lots of money.

7:26
I provided these, which is referring I believe to the disbeliever, those individuals that God is saying that I'll deal with them.

7:36
[74:12] I provided him with lots of money. [74:13] And children to behold. [74:14] I made everything easy for him.

7:41
[74:15] Yet, he is greedy for more. [74:16] He stubbornly refused to accept these proofs.

7:46
[74:17] I will increasingly punish him. [74:18] For he reflected, then decided. [74:19] Miserable is what he decided.

7:55
[74:20] Miserable indeed is what he decided. [74:21] He looked. [74:22] He frowned and whined.

8:00
[74:23] Then he turned away arrogantly. [74:24] He said, "This is but clever magic! [74:25] "This is human made."

8:07
I'll stop at 25, because I think between 12 and 25, we have a very interesting description of a disbeliever.

8:19
God is teaching us and telling us that He has provided those with lots of money,

8:30
something that people tend to take as a measure of happiness, as a measure of success.

8:39
And since God knows that, which is something that human beings are used to, He says that

8:48
[74:12] I provided him with lots of money. And then, children. Children are second to money here, as something that

9:00
everyone knows that how human beings love to have children. And so, this is another blessing

9:10
from God, that in addition to money that God provides for everyone, He provides children.

9:16
And then He says, [74:14] I made everything easy for him. just to test him, I guess, to make sure

9:27
that everything is provided for him. He says, [74:14] I made everything easy for him.

9:32
so that he can reach whatever he likes to. But he's greedy for more. Human beings are greedy.

9:40
You never are content with what you get, what God provides you, unless you learn to believe in God and

9:49
to be happy with what you have. This is something that especially for younger generations, like

9:58
my own children, we always have this discussion that, you know, "why don't we have more?"

10:04
"Where is it? Where is it?" So, it never ends. The more you have, the more you want.

10:10
You can see it everywhere, especially in this country, which is so rich. You see it more and more.

10:17
People want more and more and more. You read it, you see it on TV, newspapers, every aspect of

10:23
of life. It is not only in money, it's in fame, it's in science, it's everywhere.

10:32
You know, there are people who are greedy. It doesn't matter what it is. They're greedy for more. They're not happy with what they are.

There's a difference between being greedy for more and trying to

10:43
reach your potential. So, you shouldn't mix those things up. You have to work hard.

10:49
God loves the people who work hard, and you can't reach higher grounds. But you always have to

10:55
commemorate and remember what God tells you, which we have it at the second part of the Sura, at the later part of the Sura.

11:03
[74:16] He stubbornly refused to accept these proofs. God is referring to the proofs that we are gonna go to it later on, that

11:12
he stubbornly refuses to accept those. And we know, we have seen people who do this. [74:17] I will increasingly punish him.

11:19
Now, God is telling us that what He's gonna do with those disbelievers. "I will punish him", and the reason is that "he reflected, then he decided."

11:30
[74:19] Miserable is what he decided. [74:20] Miserable indeed is ... he just... God is again stressing of the fact that this decision

11:41
of not heeding the warnings and learning and believing in God alone is a miserable decision.

11:52
[74:21] He looked. [74:22] He frowned and whined. [74:23] Then he turned away arrogantly. [74:24] He said, "This is but clever magic! [74:25] "This is human made."

11:59
When I was reading these verses and in everyday life

12:04
that we go through, I see it's real. It is everyday. It's not something that only
12:12
may have happened to Muhammad or God was telling to Muhammad. This is something that happens everyday.
12:18
Especially since, with my background, coming from a religious family, a Muslim family,
12:26
living in Iran, and coming to U.S., getting education, going back during the revolution,
12:32
and thinking that this is what we wanted, Islamic country. This is what everyone wanted.
12:39
We were looking, we were striving to have Islam as part of our country, as part of the government.
12:46
And it has been a tradition. I'm gonna just get away from this for a minute,
12:52
which I think is something, I have thought a lot about it, and I think it is something that would define if I shared with you. We went back home
in 1979,
13:03
which was right after the revolution. I loved to go back because this was something that we loved to see,
13:12
an Islamic government, everything according to what we had the knowledge of Islam, this,
13:17
the religion of equality, justice for everyone. And so, everyone was happy, and 96% of the people
13:27
voted for Islamic Republic. That was a true vote that happened at that time.
13:34
And my job was to teach in the university, and the university was the source, the center of all the action,
13:40
the intellectuals, the educated people. And because of the Islamic
13:47
background that all of us have in Iran, in addition to people who were leftist towards Marxism, there were a lot of groups who had Islamic
backgrounds and wanted to have
13:59
an Islamic government, but they didn't know what it is. What is... How God wants to run this country,
14:05
if it is what He really wants. But every group, there were maybe in a time, I remember, there were
14:13
maybe 10 different Islamic groups. Everyone with a different interpretation, not of Quran,
14:21
of something that they thought is from Quran. Because now I look back and I see that how far
14:27
we have been, how far I have been, how far those people have been from the truth. Because
14:33
now that I go through this, I still don't know much about Quran, but when I read more,
14:39
when I come to studies, I see that this is a different story. And over there, which I think is a good example of
14:49
what is happening in all of the Islamic world, is that people take their own
14:55
understanding, which is not complete. They don't have the access to Arabic.
15:04
They have access to lousy translations. And one interesting thing that I read recently was that somebody
15:14
mentioned that people try to interpret Quran or translate Quran based on the Hadith.
15:25
They mean they adjust the Quran translation or understanding to the Hadith, not vice versa. And this is
15:33
a very true thing that happens. But anyway, during these times, always wanting more from
15:42
Islam, wanting to know more from Quran has been something that, especially the younger generations after Dr. Shariati wanted to know. But
unfortunately, there is no way that you
15:53
can reach these things. You can reach the point to see what is really in here.
15:58
What happened is that people started to think twice after what happened, after two or three years after revolution.
16:07
Everybody started to blame Islam and Quran and whatever is related to it.
16:13
They didn't think that this is because these religious establishments, whose leaders are there,
16:20
ruling the country, were representative of Islam. And people who just knew Islam because

16:26
they were born as Muslims, they saw this as a true representation of what is really all
16:34
about. When you say Islam, you stone a woman. If you see Islam, you execute someone without
16:43
any trial. If it's Islam, they can search you without any warrant, anything.
16:49
They can take you, kill you, and so on and so forth. So, what happened was that after five years, which
16:55
I was eligible to come for my sabbatical, four years after I came to U.S. for a presentation of a paper to a conference. Then as a matter of
fact, I came to Tucson to visit a friend.
17:05
Then, I went back home and I told Mary that I have to go for sabbatical leave. I'm sick and tired of... I want to learn more science, so I have to
go. So, I started
17:15
to look for... Sabbatical leave is something that everybody who works in university after so many years is eligible to go for extension of their
education or
17:27
catching up with the science to update their knowledge. After revolution, they have completely
17:34
demolished it. But when I went back home, I said, Mary, we have to go. Whatever happens, we want to go, we should go. And God knows now
that I know after a few months, they passed the rule that now people can go.
17:48
And since I was one of the older, at least at the time, had more experience at the university,
17:55
I applied and was accepted. And it was a big, long journey to come to U.S. And we almost stopped
18:01
in Vancouver, but things worked out, and thanks God we ended up in Tucson. But when we came here,
18:07
one thing that I didn't wanna hear about was Islam, Quran, and everything.
18:15
The reason was that I saw the brainwashings that were going on in schools. I leave my children in school, and
18:21
it was a dilemma. What could I teach them? What is being taught in the schools?
18:27
And what contradictions and what problems and what dangers are involved? So, anyway, we came here, and I remember one day one of
these Jehovah's Witnesses came to the door
18:38
and talked to her. She couldn't refuse. She's so nice, she talked to them. And after
18:44
they kept calling, she said "Mahmoud, talk to them, tell them 'you don't wanna hear it.'" And I said "you invited them, why should I?" One
Sunday morning, they showed up at the door, two very nice ladies.
18:56
I opened the door, I had the chain on, I said "no, we don't wanna talk to you." The lady insisted. I felt bad. I said "okay, let's make an
arrangement for another week."
19:05
So anyway, one day they came in. I sat down with them, I said "okay, I listen to you. Give all of your things."
19:12
She started, you know, giving all the ceremonies, whatever she wanted to talk about. And I said "see, I'm coming from a religious country.
19:21
"I've lived five years under Khomeini. I have decided that I'm gonna be away from any religion for the rest of my life.
19:31
"What you're saying is exactly what Khomeini said, and they're similar. I don't wanna hear it, please don't bother us."
19:37
The lady was shocked, so they left. They never came back.
19:42
It took about three years, I guess, that all of a sudden we realized that something is missing.
19:52
The missing part was that I saw my children growing, and I had the privilege to be raised in a religious family.
19:59
To learn this, either from school, either my parents see them, and practice religion. But you know,...
20:08
And we looked around and I said "God, something wrong is happening." And I knew that there was no way that I could go anywhere else.
20:19
And I didn't know about this mosque at all. Somehow Mary found out about it, and she said, she came sooner than me, as a matter of fact.
20:26
And then one night, she said "okay, let's go, you know, try it, you know, it's not gonna hurt." And I came, I came a few nights, and I listened.
20:39
One thing that impressed me the most was the fact that the message was strong.
20:48
"Worship God alone. Forget about everything else." And one night, I remember, I asked, because I had heard from

20:56
other friends that, you know, this is... The person, which was Dr. Khalifa, is saying he's a messenger of God.

21:04
How can it be? We have the Khatam Al-Nabiyyin (خَاتَمُ النَّبِيِّينَ), it is impossible that somebody else could be.

21:10
And I asked him, I remember, in one of these studies, I said "why you say you are the messenger of God?" And I don't know whether he remembers what he answered me or not, but his answer was great for me, and he said

21:22
"Messenger doesn't mean" something in this, I'm not quote-unquote exactly saying what you said. But he said "Messenger is not important. What is important is the message. If you like the message, take it, if you don't like it, so leave it."

21:36
Which the message was something that I liked, and I have been here since then.

21:42
So, nowadays, my friends here, a lot of them are very puzzled, I see.

21:50
One of them, who I was talking recently to, he doesn't practice either. You know, he says he doesn't believe in anything.

21:59
But one thing, very interestingly that he asked me, he said, "Why among all those mosques, you go to this mosque?" And I said

22:07
"What does it have to do with you? Because you say you don't believe in God." He didn't say he doesn't believe in God. I pushed him

22:13
and I said "okay. You say you don't believe in God." He said "no, no, I believe in God." He was scared to say that. But he said "Muhammad wrote Quran.

22:21
"He just wrote it himself. He did everything, and these are all a bunch of", his word, "nonsense."

22:28
I said "that's your thing, but why do you worry about what I go, and where I go?"

22:33
And he asked me "why don't you go to the other? And I said "I hate this, you know, I have seen those,

22:40
"and I can't take that kind of... I have practiced, I have seen those, and I know what the consequence of that kind of understanding of Quran is."

22:50
But we're going back to these verses that I have here here, 22, 23,

22:58
and 24, and 25, that's exactly what I hear. You know, this is, we used to hear it back home, you know,

23:06
but usually we wouldn't get into discussion about these things, because religion was there, we were there,

23:11
and everyone was happy with their life. But now it is something that people pay attention to.

23:18
They are surprised, why you go there, why you do this, why, what is, this is all, exactly what God is saying, that they say "this is clever magic."

23:28
[74:25] "This is human made." And then, God is saying that

23:34
[74:26] I will commit him to retribution. [74:27] What retribution! [74:28] Thorough and comprehensive.

23:39
[74:29] Obvious to all the people. [74:30] Over it is nineteen.* I'm gonna stop here, catch up my breath. And see for, because if I go like this, I'm gonna finish in five minutes. And

23:52
I haven't prepared the next Sura at all, so this is tough. So, I'll stop here. And

24:02
Dr. Sabahi: as they say, open the floor for discussion or comments or... Don't ask me questions, though.

24:13
Dr. Khalifa: (unintelligible) Dr. Sabahi: I gave him a few questions to ask me.

24:20
This is why when we teach, that's what we do.

24:27
Dr. Khalifa: Any questions? Dr. Khalifa: Okay, let me open the discussion to have a... start something.

24:34
Dr. Khalifa: Dr. Sabahi mentioned about, when God says [74:12] I provided him with lots of money. [74:13] And children to behold. [74:14] I made everything easy for him. [74:15] Yet, he is greedy for more.

24:46
There's a very famous saying in this country, that you never have enough money, you never have enough. And it's very true.

24:56
You come close to some of the richest people in the world, and they don't have enough. I was listening to Sammy Davis Jr. the other day on TV. He wrote a book called "Why Me?"

25:06
And he's making rounds on all the shows and radios and so on. And I found out that six years ago they put a lien on his house.

25:15

Here's a man who makes a million dollars a week. They put a lien on his house because he lost everything in gambling. He works in Las Vegas.

25:24

And the IRS put a lien on his house, and he was very poor. He was very drunk, and he was very miserable.

25:31

So, here's a person that we think is very rich, glamorous.

25:37

Henry Ford is an example of very rich people who will pound the table very hard, and he wants more money, more profit for Ford.

25:44

He wants more. So, the definition of rich and poor will turn everything upside down,

25:52

because Henry Ford was very poor, because he wanted more. The definition of poor is needy, one who needs more. If you need more, you're poor.

26:02

It doesn't matter how many millions you have in the bank, the bank account. If you need more, you're needy, you're poor. And the rich person is a content person.

26:11

No matter how little you have in the bank, if you're content and happy and have all your needs satisfied, you're rich.

26:17

So, this is really the definition of rich and poor. Because they never ever have enough. It's a very famous saying. It's a standard thing that they say. "You never have enough money."

26:31

If you're a person, if you're in God's kingdom, you really have access to God's treasury.

26:38

Anything you need will come to you at the time you need it. And it will come to you in the portions or the amounts that is good for you, that will keep you in God's path,

26:51

in God's kingdom. It will keep you happy and it will keep you satisfied. You may become a millionaire or you may not. But in either case, you will be content. You will be rich.

27:02

And we see this in Sura 54. God says "He's the one who makes you rich or poor."

27:09

And in Sura 63, if you remember, God said... I'm gonna say it in Arabic. Of course, I'm gonna say it and then translate.

27:17

He says, (63:8) وَلِلَّهِ الْعِزَّةُ وَلِرَسُولِهِ وَلِلْمُؤْمِنِينَ وَلَكِنَّ الْمُنَافِقِينَ لَا يَعْلَمُونَ

27:24

He says "all dignity or all power or all richness, all contentment belongs to God, to His messenger, to the believers. But the hypocrites do not know."

27:37

So, if they look at your bank account, they may not decide you're rich, but you're really the richest person in the world.

27:43

You have all your needs satisfied. You're eating as much as you can. And you're dressing as much as you can.

27:50

And you're perfectly happy. And what you eat, you enjoy. So this is what, this is very significant.

28:03

When God says "I gave him lots of money, but he's greedy for more." Because if they are disbelievers, they are poor. No matter how much money they have.

28:12

And you always remember how miserable and how abused he was, in spite of his billions.

28:18

So, this is the true richness. In number 16, you see, [74:16] He stubbornly refused to accept these proofs.

28:26

It's also (unintelligible) in the number 19. And as we saw some proofs today for the miracle of the Quran.

28:35

And the word "stubborn" had to be fulfilled. People who are not accepting the miracle of the Quran

28:44

are stubborn. Stubbornness, stubbornly refusing to accept these overwhelming proofs.

28:51

And they are overwhelming. So, the Quran is just describing that. They're so stubborn.

28:59

As you know, we started out with just a few pieces of proof. They were still overwhelming. In the Quran, the opening statement is 19 letters. The number of Suras is 19 times 6.

29:09

The missing Basmalah is from Tawbah, 19 Suras later. It's just very simple. Surah Qaf has 19 times 3, Surah Nun has 19 times 7.

29:20

These are simple things. Then, it kept growing and growing, and they kept stubbornly refusing and refusing.

29:27

Until they became ridiculous. (unintelligible). So, they will be scandalized on the Day of Judgement.

29:33

"How did you refuse all this?" Dr. Khalifa: So, are there any other ideas you wanna share on this?

29:42

A man: (unintelligible)

29:53

Dr. Khalifa: Well, I look at this as the whole Sura is talking to the number 19. Then to cover means to clear all the doubts,

30:00

[74:4] Cleanse your cover. means clean all the doubts, remove all the incorrect things. It could refer to the two verses, remove the two verses.

30:14

Eidip: (unintelligible) Dr. Khalifa: Yes. Eidip: In the beginning of this Sura, chapter, (unintelligible). Dr. Khalifa: Yes.

30:26

Eidip: There's no mention of the portion of the Quran (unintelligible)

30:38

Dr. Khalifa: (unintelligible) Eidip: Yes, with your power. (unintelligible).

30:50

Dr. Khalifa: As you know the number 19 was instrumental in removing the 2 verses, which was pollution in the Quran.

30:58

And this is to cleanse the Quran from these two human made statements.

31:03

And the number 19 was the factor in removing them. Because a lot of people were suspicious of that. Even in the books of Hadith.

31:12

But we did not have the tools or the means or the strength or the proof to remove them, which is a big thing.

31:18

Dr. Khalifa: Until we saw the proofs of number 19. The miracle removed them.

31:23

Dr. Khalifa: Just because... Eidip: (unintelligible) Rashad. Eidip: (unintelligible) Dr. Khalifa: Right.

31:37

Dr. Khalifa: That's fine, but I don't count it as only the (unintelligible) number 19.

31:43

Dr. Sabahi: I got so excited that I forgot my notes. Because I forgot some notes. Referring to that same verse.

31:50

[74:4] Cleanse your cover. Since a lot of Farsi translations have that as "clothing", which is Libas in Arabic,

31:59

I tried to see whether there is anywhere in Quran that God refers to "cover" as "Libas."

32:05

You know, I just found one. I think it's 78:10. God says, the Arabic is

32:11

(78:10) وَجَعَلْنَا اللَّيْلَ لِبَاسًا which you have translated it "cover" again.

32:17

We may deny the cover. But the Arabic word is "Libas" which is what you put on, clothing.

32:23

But here, it is Thiyabika (ثِيَابِك) which I don't know what the Arabic really means, whether it means cover.

32:30

Then, that again, then I realized that if God wanted to talk about the clothing,

32:38

to clean up your clothes, then He would have used Libas (لباس) rather than Thiyabika (ثِيَابِك) for that.

32:44

Dr. Khalifa: Actually, Thiyab (ثِيَاب) also means garment. Dr. Sabahi: Does it? Dr. Khalifa: Yes, it means garment. But it is allegorical.

33:00

A man: There is also a further... I think a further miracle involved, the Quran's use of the multi-meaning words.

33:11

A man: To encourage disbelievers to have different interpretations of the same verse, for example.

33:16

Dr. Khalifa: The Quran says that. A man: The Quran says that. It says that is the mechanism by which God misguides the disbelievers.

33:23

A man: So, let them blunder in their...

33:29

Dr. Khalifa: There is also a dilemma here that this Sura, the hidden secret, was hidden for 14 centuries. A man: Right.

33:35

Dr. Khalifa: So, what will the people do before they discover it? A man: Exactly. I mean this is also the... The

33:43

(79:30) وَالْأَرْضَ بَعْدَ ذَلِكَ دَحَاهَا A man: The word Dahaha (دَحَاهَا) also is a multi-meaning word. Because God is so Merciful that He even has respect for the idiots,

33:55

A man: that do not know that earth is round. And they think it's flat. Eidip: But it's not multi-meaning.

34:02

A man: It also... Dr. Khalifa: Dahaha (دَحَاهَا) is not multi-meaning. Eidip: Not. One meaning. Dahaha (دَحَاهَا)... A man: Doesn't Daha (دَحَى) means...

Eidip: No, no, no, no.

34:09

A man: In... Dr. Khalifa: I was gonna say, it doesn't have multi-meaning. This is one meaning. Eidip: Only there's one meaning. They didn't, earth...

34:15

Dr. Khalifa: Go ahead. Eidip: They couldn't understand this because it is so obvious. Daha (دَحَى) in Arabic means egg.

34:24

Edip: Dahaha (دَاهَا) meaning that egg. It is very obvious. It has no any other meaning. But they couldn't understand this.

34:31

Edip: They had difficulty with understanding this. They started to interpret this.

34:37

They said "Dahaha (دَاهَا) means Madha." Madha means the place of egg where you put.

34:45

They said "from Daha (دَحَى), Allah wants from us to understand Madha, the place of egg."

34:52

Edip: (unintelligible) the place of egg. But Allah doesn't say Madha. They're interpreting by forcing.

34:58

A man: But isn't that true that Daha (دَحَى) also means bat? Edip: No, no, no. A man: They said...

35:04

Edip: No, no, no. Dr. Khalifa: See, they interpreted this only because they cannot Dr. Khalifa: (unintelligible) A man: I see. I see.

35:09

Dr. Khalifa: The earth is egg-shaped, you know. Edip: There is a multi-meaning sentence here. The verse 29. A man: Yes.

35:16

Edip: [74:29] Obvious to all the people. Also has another meaning. But this meaning is very far from the Quranic text.

35:24

(74:29) (لَوَاحِيَةً لِلْبَشَرِ) has two words in this verse. Lawaha (لَوَاحِيَةً), it means, is "obvious."

35:34

Lawha (لَوَاحِيَةً), Lawaha (لَوَاحِيَةً). And other meaning is "burn", "to burn."

35:40

Lilbashar (لِلْبَشَرِ) in Quran, full Quran, Bashar (بَشَرٌ) means humankind.

35:46

And another meaning is not used in Quran. But in Arabic, you can find. Bashar means "skin."

35:54

They interpreted the second meaning. Lawaha Lilbashar (لَوَاحِيَةً لِلْبَشَرِ) is burning the skin.

36:01

The skin of the human being. Because of the air. And they could understand it this way. It's very interesting.

36:07

But the first meaning which is more dominant. Lawaha Lilbashar (لَوَاحِيَةً لِلْبَشَرِ), Because the word Bashar (بَشَرٌ) is mentioned the second time in the verse 31.

36:17

And the last part of verse 31, you see Lilbashar (لِلْبَشَرِ), Zikra Lilbashar (ذِكْرُ لِلْبَشَرِ). It is a reminder for the people.

36:25

But if you look to all interpretations, all of them,

36:32

we'll see interpreted as Lawaha Lilbashar (لَوَاحِيَةً لِلْبَشَرِ), burning, it burns the skins of human body.

36:41

Edip: This is multiple meanings. Dr. Khalifa: But the Quran always gives you. If there is a questionable word, God will give you a (unintelligible)

A man: Exactly. Mechanism.

36:50

Dr. Khalifa: In the next verse or the verse before that, immediately before that. It's like when the Quran talks about the Salat Prayer being in existence before the Quran.

37:00

They tell you the Salat at that time was clapping and whistling, just to ridicule the disbelievers.

37:06

But God gives them a word too actually, in the verse before that, using the same word which was repelling. You know, by crowding the mosque, they were repelling the unbelievers by

37:18

doing something to keep them away. It has nothing to do with clapping or whistling. They invent this meaning just like that, easily. Like the Hanameen clap.

37:28

Dr. Khalifa: Like the (unintelligible) clap. A man: (unintelligible) Dr. Khalifa: You know, like the Ummi. And the prophet (unintelligible) that the prophet is Ummi. They write the word, "a gentile" that made it to "illiterate."

37:39

Dr. Khalifa: And it actually became a word in the language. A man: I know it's false. Ummi means somebody who is illiterate.

37:44

Dr. Khalifa: It doesn't mean that. You were saying something. A man: No, I was saying that I was referring to Al-Mujtahid (unintelligible).

37:53

Dr. Khalifa: Oh, you mean one of the Mufasssirs. Yes. A man: Yes. Dr. Khalifa: Right. Dr. Khalifa: They do say that. A man: It's in the, it's in a encyclopedia basically.

37:59

Edip: After changing the meaning, they started to use it. A man: Exactly. Exactly, that's...

38:04

Edip: But if you look at a bigger translation, you will see

38:10

They don't know these words. They say "Daha (دَحَى) means egg. I just... Daha (دَحَى) means (unintelligible). It is understood as Madha."

38:18

Dr. Khalifa: They force their traditions on the Quran. One of the major things is, for example, for the women to cover their chest.

38:26

They make the word. They say "it comes up from the head down to the chest." You know, they're telling God what to do, in other words, telling the Quran what the correct understanding is.

38:37

So, they force their traditions on the Quran.

38:42

Edip: I want to give you another example of multi-meaning words. A very interesting example is

38:48

(96:2) خَلَقَ الْإِنْسَانَ مِنْ عَلَقٍ He created human beings from Alaq (عَلَقٍ). What is Alaq (عَلَقٍ)? Well, if you look all the translations, and also new translations, because

38:59

many of them are based on old translations, you see it's from the clot, from a blood, from clot, yes.

39:09

But in embryo (unintelligible), scientifically it is not true, not correct. In our evolution,

39:18

Edip: from (unintelligible) of birth date, there is no this phase, no clot. Dr. Khalifa: No clot.

39:26

Edip: If you look at Arabic, in Arabic, it has 3 meanings. Not 2 meanings, there are 3 meanings. One is clot. Alaq (عَلَقٍ).

39:36

clot مِنْ عَلَقٍ الْإِنْسَانَ And the second one, the hanging part.

39:42

Edip: A piece, a part that's hanging on something, Mo'alaq (مُعَلَّقٍ). Do you use it in Farsi Mo'alaq (مُعَلَّقٍ)? Alaq (عَلَقٍ). Dr. Sabahi: Ok. Suspense.

39:48

Edip: And the third meaning is a small animal that how do you say it? Dr. Khalifa: It's Leech.

39:55

Edip: Leech. Yes, you put on your... yes, it is. And

40:01

now we understand, we see that this is the second phase of evolution and this must be,

40:08

should be translated in the second or third meaning. Edip: Allah created us from like a, what...

40:15

Dr. Khalifa: Hanging animal Edip: Hanging animal Dr. Khalifa: Hanging Embryo. Edip: Embryo. Edip: But with old people, previous generations, they couldn't understand in this way.

40:26

They chose the first option and the old animals became the same translation.

40:33

Well, it's not correct. Dr. Khalifa: Well, I have news for you, Edip. It's only 2 meanings, not 3. Dr. Khalifa: Alaq (عَلَقٍ), meaning clot, doesn't even exist. They invented that. It doesn't even mean clot.

40:43

So, they added the new... They invent these things as they go. Ok, back to Dr. Sabahi.

40:50

Dr. Sabahi: Before getting to 31, one comment about what you said about the disbeliever, how miserable they are and they don't know it.

29:54, the verse says,

41:02

[29:54] They challenge you to bring doom! Though Hell is actually surrounding the disbelievers and they don't realize it.

41:09

So, this is another verse that I found that relates to what it is really.

41:17

It's a continuous matter being in Hell that starts from here and then continues to the Day of Resurrection.

41:25

Verse 31 by itself, it is all in present time, in present tense, sorry.

41:33

[74:31] We made the guardians of Hell angels, and we assigned their numbers (19) ...

41:38

In parentheses, for the following reasons. [74:31] ... (1) to disturb the disbelievers, (2) to convince the Christians and Jews, (3) to strengthen the faith of the faithful, (4) to remove all traces of doubt from the hearts of Christians, Jews, as well as the believers, and (5) to expose those who harbor doubt in their hearts, and the disbelievers; they will say, "What did GOD mean by this allegory?" GOD thus sends astray whoever He wills, and guides whomever He wills. None knows the soldiers of your Lord except He. ...

42:13

This by itself is a huge chapter. First, I tell you about the translations that I

42:19

I saw and it is very interesting when I look at them is that everyone translates, most of

42:26

the ones that I saw, translate this right. They say "we made the guardians of Hell",

42:32

exactly they say "the guardians", the ones who are guarding the Hell, "19." And this is for these reasons

42:39

"to disturb the disbelievers, to convince the Christians and the Jews to, to join this,

42:47

"to accept that this is a divine scripture, and to strengthen the faith" and so on. But

42:53

none of them relates this part to the beginning, the rest of the 29 verses that are preceding this.

43:00
So, they isolate this or translate it as if there is no relationship between this
43:06
and the hidden secret that God is mentioning at the first. What would it mean if God was
43:12
telling Muhammad "okay, Qom (ﷺ), come out and and give the message and warn" while He's telling that there are 19
43:21
angels and this number, this number 19, it's a secret. It is something that we have
43:27
put in there to disturb the disbelievers. The first thing that God is saying is that to disturb the disbelievers.
43:34
Because when you go to them with this, I haven't done it yet so I don't
43:42
know how the reactions is but I can imagine how they would react and seeing what, what
43:47
I have seen here is that it really disturbs them. So, they try to avoid what is the logic.
43:54
This is a logic. This is a mathematical code. This is something which nobody can say
44:01
that is something that made by Rashad Khalifa or whoever else. There's something which is in there.
44:08
And no can, nobody can deny it. So, it really disturbs the disbelievers.
44:13
And then to convince the Christians and Jews which is clear by itself to strengthen the faith of the faithful.
44:22
This is very crucial at least for me because usually especially the educated
44:30
people who go to college, if they go further and do more and more, all of a sudden they
44:37
look at them in the mirror to themselves and say "wow, this is me discovering all these things finding all this thing"
44:44
and you start thanking yourself in the mirror that "wow what a creature I am that I'm doing all these things."
44:50
And slowly, you can't really lose your faith. You start questioning
44:55
"what, what is, how can God do all these things?" Especially for me, a chemist,
45:02
I was thinking, 20 years, I've been doing chemistry and it is a wonderful field and it is so amazing.
45:09
That for me I look at it and I say "God, how could this happen?", but look in coming back and
45:18
reading Quran and trying to understand it, it gives me more more the feeling that
45:26
"no, this is real. This is scientific. This is something that God has created and left for us
45:33
to use for our everyday life." And (5) to expose those who harbor doubt in their hearts
45:39
and the disbeliever, see... Oh, to expose those who harbor doubts in their hearts which here
45:46
clearly, this is about the hypocrites that you... if you offer them this code, this evidence, this...
46:02
and then God does send astray whomever He wills and guides whomever He wills.
46:08
None knows the soldiers of your Lord except He.
46:17
Going back to what I mentioned about, at least my own experience and the question of number 19,
46:26
from the day that I came to this mosque, I heard about it and I saw it and I saw people talking about it. But it didn't catch up with me.
46:36
The reason was that as I said I had the background and also in every day of my life, I see
46:44
so many signs. As I said, I do chemistry and I see what is God... what has God created and
46:52
how this complicated system works. At least, thousands of thousands of chemists and scientists are trying to
47:00
find out how this system works and still, they are years and years away from understanding it.
47:07
So, to me, it wasn't, it wasn't unusual that there's such a code would be in Quran.
47:17
But it was something, as I said, that gave me the support, the support that I needed
47:24

to know that if I confront somebody who is scientific, who tries to take me out with science,
47:34
then we can get into real science and go to mathematical code and say "okay, this is what it is."
47:40
And another thing that I have noticed, I have to mention it here, is that the mathematical
47:49
code is great as it was said in today's Khutba. It keeps going on and going on and what...
47:58
I have noticed sometimes people take... I shouldn't say abuse, but using it too, too many times for
48:13
for little things, you know. If I see something happening outside, it happens to be 19 cars,
48:21
it happens to be 19 on one guy's thing, as I don't know I never shared this with everyone, but
48:28
one night a few months back, in the middle of the night, I woke up and, and I started counting
48:36
the letters in Mary's name, in Farsi's name. She has a long name. It was very funny, I, you know, I thought
48:44
Dr. Sabahi: "What am I doing in the middle of the night? Why am I counting those?" So honestly, this really happened to me. I'm not saying
this is but...
48:51
Dr. Khalifa: (unintelligible) Dr. Sabahi: I counted them and it was 19. So, I recounted them, it was 19. Then, I said "I have to wake her up and
say..."
49:01
Then, I said "she's gonna laugh at me say you know, 'you're crazy going to me in the middle of the night.'"
49:06
But first of all, I got scared, totally scared. "Ok. What is happening? What is this?"
49:12
So, finally after half an hour, I didn't wake her up and went back to sleep. In the morning, as soon as I got up, she was in the kitchen.
49:20
I went to her I said "Mary, if you know, there are 19 letters in your complete name."
49:25
She started laughing. She was dying and she said "come on. Don't joke." I said "honestly, this is what happened to me last night."
49:31
And so, we sat down and counted. It was 19. But whatever the reason, I looked at it as a coincidence.
49:40
Dr. Sabahi: You know, I wouldn't... because I think...
49:45
A woman: (unintelligible)
49:50
Dr. Sabahi: That's why I thought, yeah, I told Mary that she may be an Imamzadeh. You know what Imamzadeh is? Dr. Khalifa: No.
49:55
Dr. Sabahi: Imamzadeh is...how do you... (unintelligible) you know, you know what Imamzadeh... A man: Like a saint.
50:01
Dr. Khalifa: Oh, I see it. Dr. Sabahi: Not a saint, exactly. Someone related to the Imam.
50:06
Dr. Sabahi: Right. Right. And I said, you know, I guess this is a... Dr. Sabahi: So, anyway, what I...
50:12
Dr. Khalifa: She's counting this for you. She investigated (unintelligible)
50:21
Dr. Khalifa: She's much better than the (unintelligible) Dr. Sabahi: So, in any case, but seriously, this is something that sometimes
50:29
we... I think those times when we go over, try to overkill something which is not related to this,
50:37
something that everybody can question your logic, because if you try to mix them up,
50:42
Dr. Sabahi: then you, you, I think, you are taking away from what is really here.
50:48
Dr. Khalifa: So, you just (unintelligible) Dr. Khalifa: Did you, did you... Dr. Sabahi: Oh, this is... Dr. Sabahi: Dilution. Oh, Ok. Chemical, yeah,
chemical.
50:55
Dr. Sabahi: Yes, you're diluting. You're right. Dr. Sabahi: So, this is something that I wanted to mention as part of what I saw in this, in this
verse and overall in this Sura.
51:07
And going back to this verse, [74:31]. ...GOD thus sends astray whomever He wills, and guides whomever He wills. None knows the soldiers
of your Lord except He.
51:19
This is another thing that I would like to mention. I have another verse from Sura 19, Maryam, I guess 73,
51:28
[19:73] When our revelations are recited to them, clearly explained, the disbelievers ask the believers, "Which side is more powerful and in
greater number?"

51:38
And here God says, [74:31] ... None knows the soldiers of your Lord except He. ... I think there's something related to this. My understanding is that God is telling us,

51:48
reminding us "don't judge people, you." We have, we are responsible, okay, we have, we are, we have the responsibility of

51:57
giving the message, warn them, but in no ways, we have the right or are given the right to try to judge them.

52:07
If there are believers or non-believers, God knows it. We don't have to say to someone that he's a disbeliever or non-believer because it is, it is a very very big

52:19
responsibility that I would take personally if I told someone he's not a believer

52:25
or he's a believer or he's not. The only thing that I can tell them is that "okay, this is the truth. This is God's message. This is the truth." Take heed or not and since God tells us later

52:37
and here again, He guides whom, whomever He wills and sends astray whomever He wills,

52:46
that again telling us, is telling us that we have no business of judging people.

52:53
And again, I have experienced this that a lot of people who are really interested to come and listen and

53:03
and learn for different reasons. Some of them are curious. Some of them are really looking for a place

53:09
that would be free from all the things that have been added to Islam,

53:15
somewhere that they can sit down freely to listen and learn and then decide. If God wills,

53:24
they will learn and they will abide by the rules of the Quran, if not then they will go back to where they are.

53:31
But if we as persons as people who come here and somehow the more we come here

53:39
we feel that that feeling of belonging to this place. We try to protect it. And in that

53:47
protection, the thing that we feel we have to do because we think it is, it would be for the best interest of

53:53
the Quran and God, we may make a mistake. We may even if one person

54:00
doesn't get the chance to come in here and listens at least to what is the message then and we have to do something with it,

54:09
then we are responsible. And this is something else that I have noticed and I thought that I have to, because this is the only time that I can talk and everyone can listen.

54:17
So, that I wanted to mention and hope that everyone, all of us will learn from this and

54:27
a lot of other verses that are repeated in the Quran. I think, I'll stop here again

54:33
Dr. Sabahi: because this is a heavy verse and open the floor for discussions and questions from Dr. Khalifa.

54:42
Edip: About the [74:31] ... None knows the soldiers of your Lord except He. ...

54:49
Edip: (unintelligible) God says, this, there's a relation with number, with 19.

54:57
And Allah uses Junud (جُنُود), word Junud (جُنُود), soldiers for angels and also for believers that I forgot.

55:10
And... Edip: I have written down some verses about the soldiers of God. For example,

55:20
[48:7] To GOD belongs all the forces ... all the soldiers

55:26
[48:7] ... of the heavens and the earth. GOD is Almighty, Wise. In Sura Al-Fatt-h.

55:32
And another verse, [9:40] ... then GOD sent down a sense of security upon his messengers, and the believers and He send down invisible soldiers to torment the disbelievers. This is what the disbelievers deserve.

55:52
In another verse, [3:124] You had said to the believers, "Is it not enough that GOD supports you with three thousand angels, descending?"

56:02
You know, these numbers also in the Quran, the numbers of the Quran has been counted and their number, the total number of numbers without repetition is a multiple of 19.

56:13
If you add these numbers and to another numbers, and it will not be a multiple of 19,

56:25

unless you add another number that's mentioned after this word. [3:125] If you steadfastly persevere and work righteousness, then they attack you, your Lord will support you with five thousand* well trained angels.

56:38

If you add these 5,000 also the total of two numbers in Quran without repetition becomes multiple of 19.

56:47

From this, we can understand that God has many kinds of soldiers, many kinds of forces.

56:54

One of them is number. And number, the whole number we cannot know, the greatness of this number.

57:00

And also the kind of soldiers of God, what kind of soldiers does God have.

57:07

And here I think, Allah mentioned that number 19 also one of the soldiers of God.

57:13

Edip: And you don't know its strength and its limitation.

57:30

A man: And verse 31 where He's talking about to convince the Christians and the Jews under number 2 and number 4 also, where you were talking about the Christians and the Jews. They're talking of... Is that as

57:42

like you were talking about, last week about in the next 300 years, there'll be more people than, you know, which were in the early generations, you were talking about Christians and Jews as a whole

57:54

and the religion being started now and, and, like, convincing the body of the Christians and the body of the Jews

58:00

A man: or as an individual basis? Dr. Khalifa: Both, both. Individuals and as a whole. Because the Christians and Jews wonder "is the Quran the word of God or not?"

58:11

And the people who may come across it, Navid, and say "is this your scripture? Is it from God? Is it Muhammad-made? or what?"

58:17

Edip: (unintelligible) Dr. Khalifa: So, the mathematical code, it will remove the doubts. A man: Right. That's an individual basis. What about as like, I don't, I guess, (unintelligible)?

58:27

A man: A lot of religions today as organizations, full organizations rather than faith.

58:33

Dr. Khalifa: Well, you start out with individuals, but this will reach to groups, groups, nations, communities.

58:41

Dr. Khalifa: The trip of a thousand miles begins with one step.

58:50

Edip: The so called Muslim that they do not accept miracle of mathematical miracle of the Quran, you know, they interpret this verse in another way. They said

59:00

"It's the number of guardians of Hell." And I have one question to them. They cannot answer to this question.

59:09

This question is the fourth, the item fourth in verse 30. Item 4 says

59:17

[74:31] ... (4) to remove all traces of doubt from the hearts of Christians, Jews, as well as the believers, ...

59:23

I ask them "with our number 19, with our understanding and with our message, many Christians

59:34

"become Muslim. And in the future, they will be Muslim, IN SHAA ALLAH. But with your number 19,

59:42

"how many Christians became Muslim and become Muslims. Why? Why should they become Muslim with this number this number 19?"

59:50

Dr. Khalifa: (unintelligible) Edip: Yes, what's the reason? And they cannot answer this question.

59:57

Dr. Khalifa: I used number 3, actually. I asked the same question that the people started (unintelligible). I used number 3,

1:00:03

[74:31] ... (3) to strengthen the faith of the faithful, ... Why should it increase the faith of the faithful, whether the angels guarding Hell are 19, or 26, or 72?

1:00:12

Dr. Khalifa: Why? Edip: They say, their answer is this. It has been prepared before. The answer is

1:00:20

"Because they will find, the Christians and Jews will find that the number 19, 19 guardians in their book also."

1:00:29

I say "no, it's not true, because they can't find in their book the number 19 guardian in their book.

1:00:37

"And the second, let's accept that there is, but it will not increase their faith because there are many things

1:00:45

"mentioned in Quran and in their book. These will decrease their belief because they say 'you stole, you have stolen from our book,

1:00:53

"you copied from our book." Mary, the story of Mary. Many stories in Quran are common. Why?

1:00:59

Edip: Especially number 19, too. A man: That's a common belief anyway amongst the Christians and Jews that the Quran is a copy from the Torah.

1:01:07

Dr. Khalifa: Yes. (unintelligible). Dr. Khalifa: But this was, what Edip mentioned, it's one of the ignorant Tafsirs (Interpretations) where they said,

1:01:15

"It must be that 19 guardians of Hell is also mentioned in the Bible. "And when the Christians and Jews see this they say 'oh, the Quran must be correct, then.'"

1:01:23

Just imagine this. Dr. Khalifa: But there is no such thing in the Bible.

1:01:30

A man: Many times you can explain miracle of 19 since it's undeniable. The best answer they have is...

1:01:40

they cannot deny it. I have seen at least one case that the miracle of Quran is more than that.

1:01:46

A man: So, that's the best answer they can find. So, Dr. Khalifa: Yes. A man: They cannot deny it. They don't accept it. So, but the answer they have is...

1:01:55

Dr. Khalifa: It's more than that. A man: It's much... Edip: Ask them "give me, please, examples. Give me examples, one more example."

1:02:02

Edip: They will not give you. A man: No, I had people who tried to write a Sura.

1:02:10

A man: I'm serious Dr. Khalifa: Mathematically coded? A man: Yes A man: By grabbing three letters and stuff that makes sense, like tower of Babel.

1:02:21

Dr. Khalifa: It's too late. Now, it's too overwhelming. Dr. Khalifa: Any other questions? A man: Yeah, I have comment.

1:02:29

A man: You wanted questions. Dr. Sabahi: Comments. Give comments.

1:02:37

A man: About making judgment about others. A man: I think the function of the person who's making judgment, all the time, every second, you're making judgement

1:02:47

about things, about people, about everything. So, if you mean that, if you make a judgement

1:02:55

without having any proof, do not disclose it to others.

1:03:00

But in your day-to-day life, you love one person more than the other. This is just based on your personal judgment.

1:03:10

You feel one person is more reverent than the other. You get more close to him than the other.

1:03:16

This is just based on your personal judgment. But I agree that if you don't have enough...

1:03:24

If you don't have enough evidence, you should not disclose it to somebody else that "this guy is not Mu'min (believer)."

1:03:29

Because this is illegal, if you don't have enough evidence. Or, you cannot prosecute.

1:03:34

That's, that is the function of God. God will prosecute or make judgment, final judgment on any,

1:03:42

A man: whoever He wills. If that's you mean by different....But personal judgment, you are doing every second.

1:03:50

Dr. Khalifa: Yes, this is a very important point, because they make a big deal here about "don't judge."

1:03:56

Well, you cannot say the person is going to Heaven or Hell. This is what you cannot do. Because people change. You can change tomorrow.

Remember Dr. Sabahi himself made a statement that somebody

1:04:07

doesn't believe in God. It's a statement of fact. The person himself said "I don't believe in God." But we don't know if this person is going to Hell or Heaven, because tomorrow, he may believe better than me.

1:04:16

And so, this is where you cannot judge in that respect, but you can, like you said, you make judgments all day, based on the Quran and certain criteria.

1:04:29

If the person himself says "I don't believe in God", you can say "this person does not believe in God." Dr. Khalifa: And this is not judgment.

1:04:36

Edip: (unintelligible) Dr. Khalifa: You can say "if he continues like this and dies as disbeliever in God, he will go to Hell." That's what God said.

1:04:44

But you cannot say "this person is going to Hell or Heaven without any basis. Because this is a changing possibility.

1:04:53

A man: They even cannot disclose it. I think it's not good to disclose to somebody else.

1:05:03

A man: People oftentimes, though, when you're talking about, like, personal judgments even, there's, you find a lot of fault in them,

1:05:10

because oftentimes, you draw conclusions. Somebody says something, well, I don't do this, and then

1:05:15

A man: you know, you make assumptions which is... So, judging all the way around. That's all you have to worry about it yourself. Dr. Khalifa: That's (unintelligible).

1:05:22

Dr. Khalifa: (unintelligible)

1:05:28

Dr. Khalifa: (unintelligible) assumptions that's are just... A man: Oh, just... yeah, well like if you... A man: It's a natural tendency that if you see this and you see this, well people

1:05:36

make conclusions, or they assume that, you know, one and two, well, that makes three. But you don't know for sure,

1:05:42

you know just because it's a human tendency to draw conclusions from, you know, other examples or

1:05:49

things that may have affected you in your life, but it may not be true for all circumstances. Dr. Khalifa: Exactly. This is a very important principle in the Quran that we must always remember,

1:05:59

that a little bit of suspicion is sinful. Even a little bit is sinful. If a person is passing by you and making a face, you draw a conclusion that this person is unfriendly or doesn't like you.

1:06:11

Based on that, you can be wrong, and it is sinful, because that person could be having a headache or a stomachache.

1:06:17

You don't know why he's making a face. And you must give the person the benefit of doubt. Instead of stating that the person is unfriendly or doesn't like you,

1:06:26

you have to say that something is bothering this person. And you feel more, actually, pity or kindness towards the person instead of the other way around.

1:06:36

So, the Quran makes this very clear, very strong. A little bit of suspicion is sinful.

1:06:43

You cannot make conclusions or assumptions without proof.

1:06:48

A man: Can I make a comment here? A man: Like, some people think that if a person doesn't come to the mosque and pray, he prays in the afternoons and people come at 12, and some of them cannot come.

1:06:59

And people think that only because we don't come, you know, we don't pray

1:07:04

you know, because we always have to be here or something. You know, it doesn't have to be that we don't pray.

1:07:10

We can pray when we're working or something like that. So, it doesn't mean that we don't pray. A man: Or that we don't have to do something. Like I missed a lot of (unintelligible).

1:07:22

Dr. Khalifa: (unintelligible) A man: Yeah. Dr. Khalifa: That's, that's a sin. Dr. Khalifa: You shouldn't miss Quranic studies or prayers.

1:07:29

A man: No. Well, I was working. Sure. Dr. Khalifa: Oh, okay. You have an excuse.

1:07:35

A man: It doesn't mean that you're not trying to do your best to come or do something, you know.

1:07:40

Dr. Khalifa: They're excuses. That's it. Dr. Khalifa: (unintelligible) Dr. Sabahi. Dr. Sabahi: I think I want us to continue. No, I'm not gonna answer,

1:07:48

because I wanna go and finish as much as I can. Then at the end, I will do it, because I think it's very important to get to the later part of the Sura, which is kind of interesting

1:07:59

the way it is worded. 32 to 39. Again, it's in the present tense.

1:08:10

[74:32] Absolutely, (I swear) by the moon. [74:33] And the night as it passes. [74:34] And the morning as it shines.

1:08:19

[74:35] This is one of the great miracles.* [74:36] A warning to the human race. [74:37] For those among you who wish to advance, or regress.

1:08:26

[74:38] Every soul is trapped by its sins. [74:39] Except for those on the right.

1:08:33

Again, if you put this, if you not try to isolate verses from each other, you see clearly that

1:08:42

God in 32, 33 and 34 is swearing even to human beings that

1:08:50

[74:32] ... (I swear) by the moon. [74:33] By the night as it passes.

1:08:55

because these are the things that we see, we feel, we experience everyday. [74:34] And the morning as it shines. [74:35] This is one of the great miracles.*

1:09:06
This is referring exactly to 31 that God is talking about 19 angels and the number 19.

1:09:14
And God is swearing that this is one of the greatest miracles. And

1:09:23
verse 36 is telling us that this is a warning to human race which could apply to any way, at any period of time as we know it.

1:09:34
And, and [74:37] For those among you who wish to advance, or regress.

1:09:40
We have the choice. If we see the miracle, if we follow the Quran, then we advance. Otherwise, we regress. And it says,

1:09:50
[74:38] Every soul is trapped by its sins. The more you commit sins, the more you are gonna be trapped.

1:09:56
The more you will have a difficult time to get out of it. And this goes back to what has been discussed quite a few number of times here that 40 years of age is the limit.

1:10:09
But are we free to do everything up to that point? But I guess here [74:38] Every soul is trapped by its sins.

1:10:15
The more you sin, the more you get trapped into it. The harder it is to get out. And so, it is something that the progress has to be made by time.

1:10:28
Then, from 39 to I guess to 47, God is explaining what will happen in the future.

1:10:41
[74:39] Except for those on the right. [74:40] While in Paradise, ... The ones was on the right. [74:40] While in Paradise, they will ask. [74:41] About the guilty.

1:10:50
[74:42] "What brought you to this retribution?" [74:43] They will say, "We did not observe the contact prayers (Salat).

1:10:56
[74:44] "We did not feed the poor. [74:45] "We blundered with the blunderers. [74:46] "We disbelieved in the Day of Judgment.

1:11:02
[74:47] "Until certainty came to us now." If we compare these verses 40 to 47,

1:11:12
God is giving the reasons for people who go to the Hell. Basically, these are the things that

1:11:20
have been said over and over here in the studies or in the Khutbahs that

1:11:26
God is giving the reasons to say, [74:43] They will say, "We did not observe the contact prayers (Salat). [74:44] "We did not feed the poor.

1:11:33
The Zakat. [74:45] "We blundered with the blunderers. [74:46] "We disbelieved in the Day of Judgment.

1:11:38
So, these are the major that you can commit. And then, you deserve Hell. And then, when in the Day of Judgment,

1:11:48
when you are in there, certainty came to you, it's too late. You have already committed enough

1:11:56
that it's too late for you to repent. And God now is saying, it's a kind of closing on the whole Sura. God is saying,

1:12:08
[74:48] The intercession of the intercessors will never help them. Because of what they committed, the sins that they committed.

1:12:15
[74:49] Why are they so averse to this reminder? [74:50] Running like zebras. [74:51] Who are fleeing from the lion!

1:12:21
[74:52] Does each one of them want to receive the scripture personally? [74:53] Indeed, they do not fear the Hereafter. [74:54] Indeed, this is a reminder.

1:12:30
[74:55] For those who wish to take heed. [74:56] They cannot take heed against GOD's will. He is the source of righteousness; He is the source of forgiveness.

1:12:41
48 is clearly what I didn't know before coming to the mosque that Shafa'at or intercession is not gonna help anyone.

1:12:51
That's why a lot of people who think they are Muslims, they believe in

1:12:57
intercession by Muhammad, by his followers, Ali and maybe Omar and so on and so forth.

1:13:04
But clearly, God is saying that no Shafa'at, no intercession. And then, God is kind of,

1:13:09
when I read this verse, it's kind of a son, a father talking to his son, because I have a son, 2 sons. It say

1:13:18
[74:49] Why are they so averse to this reminder? Because you tell your son, because you are more experienced, you have a little more gray hair. And you say "don't do this."

1:13:27
God is telling us "don't do this. Do the right things." But we are averse to the reminder.

1:13:32

And then, we go and experience it. And God says, you know, [74:49] Why are they so averse to this reminder?

1:13:39

Why they don't take heed and they don't understand? They are running like zebras who are fleeing from lion.

1:13:48

And then, God is asking, I think there's a little bit sarcasm in here, that

1:13:55

[74:52] Does each one of them want to receive the scripture personally? Should God come to each one of us personally and tell "okay, this is your Scripture. Go and follow these rules."

1:14:03

And then, God is telling us, [74:53] Indeed, they do not fear the Hereafter.

1:14:10

They are not afraid of the Day of Judgment. Indeed, this is a reminder. This book, this message,

1:14:17

Dr. Sabahi: this miracle is a reminder for all the people. For those...

1:14:23

Dr. Sabahi: Oh,... Dr. Khalifa: You're alright?

1:14:29

A woman: Are you Ok? A man: I think it came down on him.

1:14:34

Dr. Sabahi: Are you Ok?

1:14:51

Dr. Khalifa: See God protects you. Dr. Sabahi: You should have come down directly.

1:15:01

[74:54] Indeed, this is a reminder. [74:55] For those who wish to take heed. [74:56] They cannot take heed against GOD's will. He is the source of righteousness; He is the source of forgiveness.

1:15:11

These have been discussed before here. And since there's only five minutes, I'm gonna stop.

1:15:17

There are a few verses that I took out of other places that would support what is here, which I'm gonna quote here and then leave for questions and answers.

1:15:32

Dr. Sabahi: Edip, you can ask your question. Edip: I forgot my question.

1:15:38

Dr. Sabahi: That was the whole purpose. Edip: Your question is up. My question is

1:15:46

Edip: When hypocrites appear, when they feel advantage in any community, they appear.

1:15:54

And during the first beginning of revelation, there was no any hypocrite.

1:16:03

There shouldn't be, because there is no benefit to become Muslim. Many Muslims are under torture.

1:16:09

Some of them hide their (unintelligible) persecution. But here, this is a hint that this is a prophecy of Quran.

1:16:19

(unintelligible) describes (unintelligible). It says, (74:31) وَلَيَقُولَنَّ الَّذِينَ فِي قُلُوبِهِمْ مَرَضٌ وَالْكَافِرُونَ مَاذَا أَرَادَ اللَّهُ

1:16:29

So, to expose those who harbor doubts in their hearts.

1:16:34

في قُلُوبِهِمْ مَرَضٌ The people who have disease in their hearts. This description is used in the whole Quran for the description

1:16:44

to describe hypocrite. But during this time of revelation, the revelation of this chapter,

1:16:49

Edip: there was no hypocrite. This is, this shows that this is

1:16:55

Dr. Sabahi: For the future. Dr. Khalifa: (unintelligible) of Quran. Edip: Yes.

1:17:00

Edip: Another interesting point is, they say, [74:46] "We disbelieved in the Day of Judgment.

1:17:07

But, two verse after this, Allah says, [74:48] The intercession of the intercessors will never help them.

1:17:15

If you believe in intercession, it shows that you believe in Resurrection also. Because you believe in the intercession,

1:17:24

you say when you resurrect, somebody will save you from God. Is there any contradiction

1:17:30

in these verses? No. You see, they disbelieve in the Day of Judgment. What is the Day of Judgment?

1:17:39

The description of Day of Judgment, we see in Quran, we see, there is no Shafa'at in that day. If you believe in Shafa'at, intercession, you deny, you disbelieve, you are disbeliever of Day of Judgment.

1:17:52

Because Allah says, (82:18) لَمْ يَأْتِكَ مَا يَوْمَ الْآزْمِ (82:19) يَوْمَ لَا تُمْلِكُ نَفْسٌ لِنَفْسٍ شَيْئًا وَالْأَمْرُ يَوْمَئِذٍ لِلَّهِ

1:18:00

On that day, nobody has any power, has no any power.

1:18:06
All power is power of God. And, if somebody believe in Shafa'at, yes, he doesn't believe in Day of Judgment.

1:18:16
Edip: If he says, he is only (unintelligible). Dr. Sabahi: Mā Shā Allāh

1:18:22
Edip: Because, I think, both Muslims, so-called Muslim, and also rejecter of, or atheist, both of them are addressed in these verses.

1:18:36
Some people may understand, Allah excuse so-called Muslim because they say "we believe in Day of Judgment." But in fact, they do not believe in Day of Judgment.

1:18:54
Dr. Khalifa: Do you understand Edip's point about the hypocrites? The hypocrites show up only later, when, when the new message

1:19:03
from God is strong and generally accepted. But in the initial times, of the elite of the elite, the first believers,

1:19:15
when there's persecution of the believers, why will the hypocrites be attracted to a place where they are being persecuted, and threatened

1:19:22
and things like that. So, there's no hypocrites at that time. Because if you announce that everyone who comes to Masjid Tucson, we'll give him \$200, you know, we have big crowds here,

1:19:33
and you can be sure some of them are hypocrites. You know they are not all believers. When there is persecution and difficult times, there are no hypocrites.

1:19:41
Dr. Khalifa: Okay, we thank you very much, Dr. Sabahi. It was very enlightening. Well, I have to ask you to give us the Khutba next Friday, IN SHAA ALLAH.

1:19:48
Dr. Sabahi: No, no, please. Dr. Khalifa: You are fantastic. Audience: Do it. Do it. Do it.

1:19:57
Dr. Khalifa: You have a whole week to prepare. Dr. Sabahi: No, please. No, no. A woman: Do it. Do it. Dr. Sabahi: No, wait. No, please.

1:20:09
Dr. Khalifa: Well, our teacher next week will be Gatut, IN SHAA ALLAH, Suras 75 and 76, page 76.

1:20:17
And we turn to God for this time and ask Him to give Robert a great year coming up, best year of his life so far, and every year after that to be even greater.

1:20:26
May God bless him, and continue to give us guidance and wisdom. Al-Fātehah.

1:20:31
Bism Allah Arrahman Arraheem (1:1) Al hamdu Lillahi Rabbil 'Alameen (1:2) Arrahman Arraheem (1:3) Maliki Yawm Eddeen (1:4) Eyyaka Na'abudu Wa Eyyaka Nasta'een (1:5) Ehdina Al-Serata Al-Mustaqeeem (1:6) Serata Al-Lazeena An'amta 'Alayhim Ghayri Al-Maghdoobi 'Alayhim Wa Laddaalteen (1:7)

1:20:48
Congratulations. Congratulations. God bless you.

1:21:04
Dr. Sabahi (Speaking Farsi): It has vibration.

34 Quran Study From Parivash 734 Sura 33 GOD Is Physical Innovations Praying & Prostrating After Sal

Dr. Khalifa: Innovations creep up on us, and after one generation or two generations, there will be parts.

0:09
Parts will be added to the prayer. When you're by yourself, wonderful, make Tasbih, and Zikr, and Sujoods, and anything you want to do.

0:18
But when we're a group, like, you saw that I really go to unusual lengths to... immediately, I say "Al-Salaamu 'Alaykum" and say "congratulations."

0:29
When I'm by myself, I make Du'a and Tasbih and extra Sujoods or whatever I want to do, whatever I feel like.

0:36
And it is not a set thing.

0:41
No, you don't count, no. You make Tasbih, it doesn't count. That will distract you.

0:47
But I don't know if it's an Iranian habit to make a Sujood after the Salam or what. Do you always do that? Everybody does that?

0:55
Dr. Khalifa: Almost. A woman: Yes.

1:01
Dr. Khalifa: After, after you say "Al-Salaamu 'Alaykum, Al-Salaamu 'Alaykum", or after you finish the Salam, everybody makes Sujud?

1:06
See, it became part of the Salat in Iran. And this, they may bring it to us.

1:14
This will cause the number of Sujuds to be numerically unbalanced, numerically wrong.

1:22

Not that you can't do it by yourself. When you're by yourself, you do do it and you feel like falling prostrate, do it. But it becomes part and parcel of the prayer, and then, you don't have four Sujuds.

1:33

In the morning, we did four Sujuds. Because God is so great, if you are in Sujud from birth to death, that is not sufficient to really express our devotion to God.

1:45

Therefore, it is a numerical structure. It's a symbolic thing. So, two more Sujuds will not do anything as far as expressing our servitude to God.

1:59

So, everything is numerical in the prayer, the Ruku's, the Sujuds, letters, words.

2:06

Let's, when we are in public, let us just stick to the prayer. Otherwise, before you know it, it will be parts added to the Salat.

2:17

And believe me, I resist making prayers and things, Du'a, just because of that point, when we are in public.

2:26

If I make prayers, it will take only a short time and then everybody after Salam will go and make prayers and so on.

2:33

And then, it will become part and parcel at that day. Page 418.

2:39

In the name of God, Most Gracious, Most Merciful [33:1] O you prophet, observe GOD and do not obey the disbelievers and hypocrites. GOD is Omniscient, Most Wise.

2:47

I'm gonna stop right here. This is to the prophet Muhammad. He was the last prophet.

2:54

And God uses him as an example for the rest of us.

3:03

Observe God, (33:1) اَتَّقِ اللَّهَ Be righteous, be conscious of God. It doesn't mean that he was not, but it's a commandment for him and for us to observe God in everything we do, everything we say.

3:14

[33:1] ... do not obey the disbelievers and hypocrites. ... The disbelievers and hypocrites, when they give up on you and they find that your argument is very strong

3:24

and unbeatable in the Quran, they tell you "you worship Rashad Khalifa, or you follow Rashad Khalifa." They play with your last god, which is ego.

3:33

So, "do not obey the disbelievers and hypocrites" because they are the ones who will utter that statement.

3:38

When a person utters that statement, they know full well we worship God alone and we do not follow Rashad Khalifa or worship Rashad Khalifa. We follow what God says.

3:47

Rashad Khalifa says anything that's not in the Quran, you will be the first to tell him "this is not in the Quran, why do you say that?"

3:54

And it is your duty not to obey me if it is not in the Quran.

4:00

And as a matter of fact, in this Sura, it says do not follow the Prophet Muhammad, we're talking about the Prophet, so do not obey him if he's saying something that is not righteous,

4:11

something that is not in Quran, in other words. I forget which verse it is, but we will come to it today.

4:19

[33:1] ... do not obey the disbelievers and hypocrites. ... When they tell you, you follow Rashad Khalifa, you just look at them and smile because this reveals their stupidity.

4:27

We are going out of our way to destroy idols, not to make idols.

4:34

Our only god is God. And we have reached the conviction in our hearts that God alone possesses all power.

4:41

We reached the conviction in our hearts that no saint, no prophet, no Muhammad, no Jesus, no Rashad Khalifa, no anybody, no one other than God can guide us.

4:52

I think, I think that was a good demonstration at the conference that I see people whom I love fall by the wayside.

5:03

Obviously, I can't do anything to help them because it is between them and God. If they don't have the conviction in their hearts, there is nothing in the world they can do or anybody else can do to save them.

5:14

And God gave examples in the Quran, Noah's son. Does Noah love his son? Noah, one of the great Prophets, couldn't help him.

5:21

Abraham, how about Abraham? How close is Abraham to God? As close as can be, right?

5:29

I mean, if anyone gets very close to God, it will be probably as close as Abraham. I don't wanna make it a rule, you may be closer than Abraham to God.

5:35

We have to hold out that possibility. But Abraham's father is going to Hell, and God reprimanded Abraham for asking forgiveness for his father.

5:45

God loves Abraham very much. Abraham asked God to forgive his father, but God reprimanded Abraham.

5:54

So, we are people who know full well that no human being, certainly not Rashad Khalifa, can help you

6:00

in anything, except give you the message, do this with you, discuss it with you. This is all we can do.

6:08

Therefore, there is no idol worship. Therefore, when they tell you "you worship Rashad Khalifa", you smile at them.

6:15

They are not even worth one second of your time. [33:1] O you prophet, observe GOD and do not obey the disbelievers and hypocrites. GOD is Omniscient, Most Wise.

6:25

What does "God is omniscient" mean? In Arabic, 'Alim (عليم).

6:31

If you read the Arabic, you see it there, (33:1) عَلِيمًا حَكِيمًا This means God knows what's in your heart.

6:36

They may say "you worship Rashad Khalifa", but God knows that in your heart, you don't.

6:42

We love each other a lot, but that is not idol worship.

6:47

We love each other because God made it the law that we are a family. Sura 49.

6:53

(49:10) إِنَّمَا الْمُؤْمِنُونَ إِخْوَةٌ The believers are brothers and sisters. Brothers and sisters for eternity love each other.

7:01

Now, don't confuse this with idol worship. Idol worship is simply knowing that this person can help you, help, guide you, or help your, help your health

7:14

or help in any other way, other than share the message with you. [33:1] ... GOD is Omniscient, Most Wise.

7:21

[33:2] Follow what is revealed to you from your Lord. ... Straightforward, clear?

7:27

This is what we follow. We do not follow Muhammad or Jesus or any human being.

7:34

So, when they try to poke your ego and say "you follow this or that", you don't, it doesn't bother you.

7:41

Because God knows that we don't follow any human being. We follow what God... We follow what is revealed to us from our Lord.

7:51

[33:2] Follow what is revealed to you from your Lord. GOD is fully Cognizant of everything you all do.

8:02

A man: A question. Dr. Khalifa: Yes, sir. A man: You said "we follow what's revealed to you from your Lord."

8:07

A man: Of course, we would not follow the human messenger that you just mentioned. Dr. Khalifa: Exactly. A man: That reference to the previous scriptures recorded and defaced as they've been.

8:18

A man: This would also prove them apprehending to learn our Quran. Dr. Khalifa: Yes. A man: Because this, the (unintelligible) for. Dr. Khalifa: Yes.

8:29

A man: So, this entails that... (unintelligible) that we can

8:36

A man: read all these previous scriptures, the book of the Jews, Christians (unintelligible) Dr. Khalifa: Yes.

8:44

Dr. Khalifa: Because God's truth is there. A man: (unintelligible) Dr. Khalifa: Yes. Dr. Khalifa: God's truth is there and is beautiful.

8:51

And the human injections are very obvious. You have (unintelligible).

8:57

Dr. Khalifa: This is very clear. A man: (unintelligible) Dr. Khalifa: Right. Dr. Khalifa: Using the Quran as a criteria.

9:04

The Quran is the ultimate reference. Sura 5, verse 48. The Quran is the ultimate reference.

9:10

If it contradicts the Quran, it doesn't appeal with the Quran, then it is out. The last few days, we talked about Abraham's courage versus the Bible's Abraham's cowardice.

9:22

So, it's obvious. If the Quran tells us Ibrahim was courageous, then Ibrahim was courageous.

9:27

That's just one example. [33:2] Follow what is revealed to you from your Lord. GOD is fully Cognizant of everything you all do.

9:35

[33:3] You shall put your trust in GOD. GOD suffices as an advocate.

9:40

You don't want to appease any human beings. When they tell you "you follow Rashad Khalifa or you idol worship Rashad Khalifa", and it bothers you, then you have an ego.

9:51

Because you worry what the people are saying. We don't give a damn what the people are saying. We know what we're doing. We know what we believe.

10:00

And it doesn't bother us what the people think of us. You will never please the people.

10:07

Anyway. They are very jealous of you. Sura 2 says, they are very jealous of you. They want you to be a disbeliever like they are.

10:15

So, you be equal. You know, ironically, they know you're on the right path. They know.

10:22

You're telling them "La Elaha Ella Allah." But they can't overcome their god, their ego, to agree with you.

10:36

It's arrogance and ignorance that is keeping them. Arrogance that they are jealous of you. They don't wanna agree with you because it hurts their ego.

10:44

And it's ignorance because they don't realize that they should kill their ego in order to save their soul.

10:50

In order to go save themselves, their own necks. Oh, he's going in the corner.

11:04

Now, before verse 4, we have a subtitle saying, "Devotion to God Is Indivisible."

11:10

[33:4] GOD did not give any man two hearts. Nor did He turn your wives whom you estrange (according to your custom) into your mothers.* Nor did He turn your adopted children into genetic offspring. All these are mere utterances that you have invented. GOD speaks the truth, and He guides in the (right) path.

11:30

We have several things in this verse. First of all, our devotion must be to God alone.

11:36

You don't have two hearts in your chest. Your heart belongs to God.

11:41

And there's a very good expression in Luke 12:29.

11:50

Luke 12:29, make a note of it. It says "Seek God's kingship over you and everything else follows."

11:58

So, when you give your heart to God, your spouse will love you, for example. Do you see the connection?

12:06

Everything else. Your boss will love you. Everything else will be at your disposal.

12:15

We're going to stop this. Luke 12:28, we're gonna start with that.

12:22

It says "If God clothes in such splendor the grass of the field, which grows today

12:28

"and is thrown on the fire tomorrow, how much more will He provide for you, O weak in faith?"

12:34

29, "it is not for you to be in search of what you are to eat or drink..."

12:40

And listen to this sentence "Stop worrying." It's two words. "Stop worrying."

12:46

30, "the unbelievers of this world are always running after these things.

12:51

"Your father", should be your God, "knows that you need such things." "Seek out instead His kingship over you and the rest will follow in turn."

13:02

You don't need to worry about provisions or jobs or anything. In your life, God must be the only priority.

13:09

Your work, your day is scheduled around the Five Prayers, not the other way around. People say "I can't do the Noon Prayer because I'm busy doing this and that."

13:18

They should say that, I can't do my work because I'm doing the Noon Prayer.

13:23

What do you think? When the Bible says what?

13:31

No, it is not... it's a misunderstanding of the languages.

13:36

Because Rabbi (ربّي) and rabbi, they confuse Rabb, the Lord, and rabb means father. I don't know how it is in Iran, but in Arabic, the head of the family is called rabbi Al-Usra.

13:47

So, but, so, they can confuse that. If they look at it, they say "the god of the family."

13:54

But it is not the god of the family. It's the head of the family. I don't know if you use that... do you use that expression in Iran, the head of the family is rabb or lord?

14:04
No? Good. We have that in Arabic and we have it even in the Quran, in Sura 12, where Yusuf

14:11
tells the man "Go to your lord", meaning your boss, and used the word "rabbika" (رَبِّكَ). He said "Go to rabbika, your lord, your rabb, and tell him to get me out of here."

14:22
And other examples. So, when it says "your Father", it's a wrong expression.

14:29
It should be "your God."

14:35
So, you give your heart to God and everything else will be yours. And then, the next instruction in verse 4 talks about estranging the wife, so she is hanging,

14:47
neither free to marry somebody else, nor enjoying the full rights of a wife.

14:54
God is very strong on the side of the wife. Sura number 4, all has to do with the rights of women, because they have been oppressed all the time.

15:03
It is a tremendous test for us, men, and millions of men are falling into it.

15:10
So, we really have to bend backward and go out of our way to remove that oppression or any hint of it.

15:17
We are stronger physically. We are the bread earners. And we tend sometimes to tyrannize them without even feeling it.

15:26
So, we have to watch for this. God is on the side of the oppressed, and He is very harsh with the oppressors.

15:38
Mercy and kindness are grace that God wants us to observe.

15:45
So, for our own neck, we have to go out of our way to be really kind and considerate of our spouses.

15:53
We don't wanna take them for granted, and we don't want to inflict any mental persecution on them, or physical, of course.

16:05
Dr. Khalifa: Go on. A woman: It does mean also that God does not keep any man too hard with one wife.

16:20
Dr. Khalifa: Yeah. No, this has to do with devotion. This has to do with the wife, the business, things of this world.

16:31
This means... This is the first commandment. You must love God, your Lord, with all your heart, with all your body, all your soul, all your strength.

16:40
This is what it is. It has nothing to do with polygamy. No. And then the other idea, in the same verse, is you adopt a child and give him your name.

16:51
Wrong. It says "you adopt the children, who are not your genetic children."

16:58
You must preserve their lineage. The name you have in your birth certificate is the name God gave you. It is David Flynn.

17:08
It's not really Davoud. God gave you the name David Flynn.

17:16
So, when Islam came to this country, or when some people in this country came to Islam,

17:27
the Arabs took advantage of it and they gave them Arab names. Those are not Muslim names.

17:33
You can find a counterpart in the Arab world who is the worst creature on earth with the same name as yours.

17:40
It has nothing to do with Islam. I can show you a Sayyid Ahmad who was the worst woman on earth back then.

17:52
A man: Brother Rashad Dr. Khalifa: Yes. A man: What happens in situations (unintelligible).

18:06
Dr. Khalifa: Fine. That's Ok. That's Ok.

18:12
Dr. Khalifa: In fact, this is the way it's supposed to be. A man: I mean for the child. Dr. Khalifa: Oh, for the child. Say it again. So, give me a specific example.

18:21
A man: A man and a woman have a conflict and they break up. Dr. Khalifa: Oh, oh.

18:26
A man: (unintelligible) Dr. Khalifa: OK. See, if the child's lineage is known, if the child's father is known, you give the child the name of the father, the real father.

18:38
Regardless of if he's with the man or the woman after divorce or before divorce, or when.

18:43
But if the child's lineage is not known, then you can give him your name if you want to. It's gonna come up here.

18:49

It's coming up in verse 5. Do Not Change Your Names [33:5] You shall give your adopted children names that preserve their relationship to their genetic fathers. This is more equitable in the sight of GOD. If you do not know their fathers, then, as your brethren in religion, you shall treat them as members of your family. You do not commit a sin if you make a mistake in this respect; you are only responsible for your actual intentions. GOD is Forgiver, Most Merciful.

19:22

I'm telling you, we are very guided people, Alhamdu Lillah, by God's grace. I mean, we are enjoying God's guidance because we have living examples that teach us.

19:33

When I first... I was talking about this 10 years ago. And I think part of you remember that I theorized that, theoretically, a brother and sister can marry each other because of this change of names.

19:45

They don't have their common last name. Because they were adopted, this girl went to this family, and this boy went to this family, and they have now their family's names,

19:55

their adopted names. Then, they grow up, they go to college, they meet each other, and they fall in love, and they marry.

20:03

This is a brother and sister marrying each other because they don't have their names. You know something, this actually happened.

20:10

And one of the people that came to the conference, I don't know if she wants me to say this or not, but her sister married her brother.

20:19

They actually got married. I mean, how rare can this be? What's the chance?

20:24

I was saying it as a theory, maybe one in a million. But turns out that it actually happened. I don't think she minds, but it's Mouvelle.

20:32

Remember Mouvelle (unintelligible)? One of her sisters married one of her brothers.

20:37

And they found out, they broke up the marriage. Yeah. They found out, and they immediately separated, heartbroken and everything.

20:45

But her sister met somebody in the market, I believe another sister, who knows the brother.

20:55

She said "I haven't seen you in a couple of years, how are you doing?" I said "oh, I got married, and this and that", and updated the information.

21:02

And then, when she saw the husband, she said, "oh my gosh, this is our brother." Because this is a sister that she knows, and "this is my brother." And it was, that was quite a shock.

21:12

And it's because of the changing of names. Now, if they had the same names, if Rashad Khalifa meets Safiya Khalifa, we'll say "wait a minute, you may be my sister."

21:23

Dr. Khalifa: And we investigate. A man: So then, the offspring should have the father's name? Yes, it should have father's name.

21:30

Dr. Khalifa: Yes, should have the father's name, if the father is known.

21:37

I think the commandment is very clear. And it's, it's difficult.

21:45

You know, Chester for a long time, he's been known as Khalifa. He got used to the name. It's not easy to give up a thing like this.

21:52

It's been my experience. Douglas Brown, it took me three years to talk him out of his name.

21:58

Dr. Khalifa: And I was, I'm laughing because he had a lot of pain that snapped him out of that name one time.

22:11

A man: She was quite sure that the father that (unintelligible)

22:17

Dr. Khalifa: Yeah, the connection was unmistakable. A man: (unintelligible) Dr. Khalifa: Yes, did he tell you? A man: Well, he told her in more detail. (unintelligible) Dr. Khalifa: Right, okay.

22:28

Dr. Khalifa: Yeah, the connection was very strong. For example, the day before, I told him straight forward, I said "Douglas, you have to change your name."

22:36

Of course, I force the name on them. I call you "Chester." Chester: No, I'm laughing because you (unintelligible)

22:44

Dr. Khalifa: Yes. Chester: Because that's... Because it's not only (unintelligible) also.

22:49

Chester: I think, it's, it is there also. Dr. Khalifa: Yes. Chester: From the very beginning, it wasn't imposed on me. Dr. Khalifa: Right.

22:57

Chester: Calling out my name. Because right from the very (unintelligible) Chester: first meeting near the New York (unintelligible) in New York Island, they found out my name. Dr. Khalifa: Yes.

23:07

Dr. Khalifa: (unintelligible) Chester: First of all, to tell them, you know, the day after they called me "Chester, Chester." Dr. Khalifa: Wonderful, wonderful.

23:13
Dr. Khalifa: This helps you. Chester: Brother, brother, (unintelligible) you know, I take it all in stride. Chester: At one time, I sort of resented it, but for the most part I took it in stride. Dr. Khalifa: Yes.

23:22
Chester: And it's becoming more now palatable. Dr. Khalifa: Yes. Because we insist on calling you "Chester", sir.

23:30
Dr. Khalifa: After a while you have no choice. Chester: Yes, yes, yes. Dr. Khalifa: You get used, you know, you get used to the name.

23:35
Chester: (unintelligible) So, (unintelligible)

23:42
Dr. Khalifa: God rewards you for it, because what you're doing, you're giving up your personal desires for what God is saying. Dr. Khalifa: We all, we all do that. Chester: That's (unintelligible).

23:50
A woman: (unintelligible) Dr. Khalifa: Yes.

23:57
Dr. Khalifa: Right. What happened? Dr. Khalifa: They tell you, ask you "what happened?" A woman: (unintelligible) Dr. Khalifa: Yes.

24:04
Chester: What I'm looking at also is my family, my brothers and sisters, my mother, and my relatives and so forth.

24:13
Because they're saying "well, it must be very awful because you're changing your name."

24:18
Chester: "First of all, to an Arabic name, you didn't wanna change back. And then, it's fine." Dr. Khalifa: Right. Chester: "What's the problem? What's wrong with that?" Dr. Khalifa: Right.

24:25
Dr. Khalifa: You tell them. You tell them "I found out that God says." Dr. Khalifa: Iman.

24:38
Dr. Khalifa: That used to be her.

24:43
Dr. Khalifa: Yes.

24:49
Dr. Khalifa: Right. Dr. Khalifa: Yes. Iman: And at work, I had the same problem working, and it gave me an opportunity to engage with them.

24:58
You know, I always, I've been told I had to change my name. And I did it because I was told I had to. But some of them has not necessarily.

25:07
Iman: They were told to keep their name. Dr. Khalifa: Yeah. Iman: But it was, it was a lot of conversation that made me realize (unintelligible).

25:19
Iman: (unintelligible) Dr. Khalifa: Yes. Dr. Khalifa: The change is in your soul, and in your heart, the invisible part. It's not in the visible part.

25:31
Dr. Khalifa: Yes. Dr. Khalifa: No, let's take, let's take Douglas Brown, for example.

25:38
Dr. Khalifa: There's, there's a Douglas Brown senior who raised Douglas Brown Jr., for example.

25:45
And it was heartbreaking for them, for Douglas Brown senior, to find that his son is now Rashid Hamid.

25:52
There's no connection with him whatsoever. So, when Douglas changed back to his name, they were very happy, the parents were very happy, because they gained their son back.

26:01
There's some kind of, shall I use the word, pride, in raising your children and having them named after you.

26:08
It is not fair to the parents to strip them of that.

26:15
My father is Abdulhalim Khalifa, and I'm Rashad Khalifa, and he's kind of proud that you know, "I raised this son."

26:20
Then all of a sudden, I am Ali Ahmed. So,...

26:28
Yes, even the women, when they get married, should keep their names. But, here in this country, I don't know, there's some inconveniences that go along with that, the checking accounts, the,

26:41
I don't know, the civil laws. Feroz: People say they want a certain wife (unintelligible) Dr. Khalifa: Yes. That's right.

26:47
Feroz: (unintelligible) married and live on it. For additional security or something, they may be living together. Dr. Khalifa: Right.

26:52
Dr. Khalifa: See, once they're married, I mean, this is common sense now. Because of the laws here, again, this will fall under the part of the Quran that says,

27:01
"if you're forced by circumstances, without being malicious or deliberate, then you are not committing a sin."

27:09
So, I will go along with changing the wife's name, if she so wills.

27:14
A compromise would be to keep the name of the family, and the husband's family.

27:20

For example, Batool's last name was what? Maiden name?

27:25

Huh? Is this why you laugh? Sajjadina? Sajjadina. Okay, so it would be Batool Sajjadina Karmally.

27:33

Dr. Khalifa: That will be the compromise. Feroz: So, it will be father's name?

27:40

Dr. Khalifa: Well, you guys in India and Pakistan don't have last names. You don't have last names.

27:46

Dr. Khalifa: Really? Feroz: (unintelligible)

27:51

Dr. Khalifa: I had a friend from Pakistan. His name was Salahuddin. I say "Salahuddin in Egypt, it's the first name, it's one name."

27:59

So, Salahuddin, I say "what's your last name?" He says "Salahuddin." "So, what's your first name?" "Salahuddin." "Wait a minute."

28:06

I say, I said "Salahuddin is your name, right? What's your last name?" He said "this is it. We don't have last names."

28:12

Apparently, it's very common in Pakistan. Feroz: (unintelligible) Dr. Khalifa: It is. A woman: (unintelligible) Dr. Khalifa: Yes. Yes.

28:22

Dr. Khalifa: Yes. Feroz: (unintelligible) Dr. Khalifa: No, Mohammad Sharif. Dr. Khalifa: Yes. But then all of them, all of them are Mohammads.

28:29

A woman: (unintelligible) Dr. Khalifa: Mohammad Rafiq. So,...

28:35

Dr. Khalifa: But it's really his first name. He's Pakistani, right? See? You don't have last names.

28:41

So, it all depends on the countries. A man: (unintelligible) region. Dr. Khalifa: Yes.

28:46

Dr. Khalifa: Yes. A man: Those who come from Punjab. Dr. Khalifa: I don't know. Dr. Khalifa: Yes. It's very possible. A man: (unintelligible)

28:54

A man: west Punjab and east Punjab A man: (unintelligible) A man: And those in east Punjab, they practice (unintelligible). The people who live in (unintelligible).

29:08

A man: Even though they are not Sikhs, they do not use the third name.

29:14

A man: And I don't, or if they do, then they don't use (unintelligible)

29:25

Dr. Khalifa: So, it depends on the region, then. Dr. Khalifa: This is true all over the world, but when we conform to God's law, it's just (unintelligible) understanding.

29:35

You have to remember not being malicious or deliberate. You're not being malicious or deliberate.

29:41

These two things must be there to qualify for permission.

29:46

[33:6] The prophet is closer to the believers than they are to each other, and his wives are like their mothers. Those who are related to each other shall take care of one another in accordance with GOD's scripture. Thus, the believers shall take care of their relatives who immigrate to them, provided they have taken care of their own families first. These are commandments of this scripture.

30:11

Anytime you see the word Prophet, in Arabic Nabi (نبي), it has to do with the local incidents

30:18

involving the prophet Muhammad when he was alive. But you can use, always use that as an example. This is what...They are the Quran. The Quran is for all times.

30:28

So, the prophet is closer to the believers than they are to each other, because the prophet is receiving the Quran and delivering God's commandments to the people, which have to do with eternal existence.

30:39

Our physical relatives are our relatives in this temporary life.

30:45

If they become believers, they become our eternal family. Another factor enters the picture.

30:52

I wanna go to the next verse, which is very important. It has to do with the covenant that the prophets made.

30:59

Because in the September issue of 88 Perspective, they published an article, somebody was saying

31:09

that Muhammad was the messenger of the covenant. Which is very wrong. Because God said, 3:81, God said "He made a covenant with the prophets."

31:18

Since Muhammad was the last prophet, therefore he was included. God didn't say He made a covenant with the previous prophets or the prophets before Muhammad.

31:26

He said He made a covenant with the prophets that a messenger will come after them to unify their message.

31:33

Therefore, Muhammad is not that messenger. The messenger comes after Muhammad. But they established this lie that Muhammad is the last messenger, and they stick to it without any basis whatsoever. They have no basis.

31:46

So, God wills to put in 33:7, Sura 33, which is the other end of the Quran practically,

31:55

that Muhammad was one of the prophets involved in that covenant. So, let us read number 7. It says,

32:00

[33:7] Recall that we took from the prophets their covenant,... indicating it is one covenant. Because they will also try very hard to go to Hell and tell you "there were more than one covenant."

32:10

There wasn't. It was just one covenant. [33:7] ... including a pledge from you (O Muhammad), and from Noah, Abraham, Moses, and Jesus the son of Mary. We took from them a solemn pledge.*

32:21

And you notice everyone, every name mentioned here is a prophet. Because they were messengers who did not deliver scriptures like Saleh, Hud, Lot.

32:30

You don't see Lot here, or Saleh, or Hud. So, these are prophets who brought scriptures.

32:40

Yeah, he brought the Gospel. Yes.

32:50

That was not an out-of-body experience. Dr. Khalifa: I had an out-of-body experience that I did deliberately. It was beautiful.

32:57

A man: (unintelligible) electric. Dr. Khalifa: Yes, anybody can do it. A man: Really? Dr. Khalifa: Yes. Dr. Khalifa: It's the nature of things.

33:03

Dr. Khalifa: That was, I was taken up to somewhere in the universe.

33:12

Dr. Khalifa: No, just the prophets. Feroz: I'm just wondering, like, in the universe, the body goes, isn't there a lot of forces that can affect the body?

33:22

Feroz: Wouldn't it be easier and faster for the soul to go? Dr. Khalifa: Yes. Dr. Khalifa: Well, do you think if God wants to talk to Feroz Karmally and wants the person Feroz, do you think He can take care of the body? Yeah.

33:32

Dr. Khalifa: You're right. There are forces, but at that time, remember, all of us have guards.

33:37

Feroz: But wasn't your body just lying down there? Dr. Khalifa: I was just lying in bed with the radio on my chest, listening to the Cairo. Feroz: So, your body then didn't go up, right?

33:43

Dr. Khalifa: Of course not. Feroz: Ok. Dr. Khalifa: It can't be. Feroz: It's just the soul went up. Dr. Khalifa: Yeah, the body cannot go up there.

33:48

Feroz: OK, that's what I was saying. Dr. Khalifa: There's no way. Dr. Khalifa: First of all, the body needs oxygen. Feroz: That's what I mean, Dr. Khalifa: Yeah.

33:54

Dr. Khalifa: And the minute you go up 1,000, 50,000 feet, there's no oxygen. Feroz: Isn't that really an out-of-body experience with regard to your body?

34:01

Dr. Khalifa: In a sense, yes. I mean, I'm amazed at the way Batool said it. Dr. Khalifa: When you think about it, it really is an out-of-body experience. But it's a deliberate trance travel. A man: In other words, you didn't...

34:13

A man: you didn't deliberately, you didn't deliberately have the out-of-body experience. It was just that stuff.

34:20

Dr. Khalifa: Yes, I was summoned. Dr. Khalifa: We use the word "summon."

34:27

A man: Now, she asked a question. (unintelligible) Dr. Khalifa: Yes, I saw them all.

34:33

I was told after the announcement that your experience in Mecca was, that was fulfillment of the covenant of all the prophets.

34:40

I was told then that those are all the prophets. When I came back, I told my father "guess what? I just met all the prophets."

34:48

And he said "how?" And I explained to him what I explained to you yesterday. I told him exactly what I saw.

34:56

A man: (unintelligible) thousands of... Feroz: No, it's a Hadith, 120 thousand prophets. Dr. Khalifa: No, no. Feroz: I think all the prophets are mentioned in the Quran, are they not?

35:04

Dr. Khalifa: No. Feroz: Not all the prophets? Because all the messengers are not, I know. A man: No.

35:09

Dr. Khalifa: However, God says "messengers." However, some of these messengers may have been prophets. I don't know. It says "Messengers that we told you about, messengers that we never told you about."

35:19

Dr. Khalifa: Yes. Feroz: How many approximately did you see? Do you know? Dr. Khalifa: I'd say 20, between 20 and 30.

35:25

Feroz: And how many are in the Quran? Dr. Khalifa: About 18, 19.

35:31
 Feroz: There may have been a few more. Dr. Khalifa: Yes.

35:36
 Dr. Khalifa: Yes. The prophet brings a new scripture, a new message. A messenger confirms existing scriptures, preaches existing scriptures. He does not bring anything new.

35:50
 Every prophet brings a new scripture. We're using the word prophet for the Arabic word Nabi (نبي). Because the English usage of the word prophet is not the same as Nabi (نبي).

36:03
 This, what, 6:30? Is it 6:30? Do you wanna have some breakfast before you go? Some cereal or something?

36:11
 Dr. Khalifa: I know. Feroz: Scripture doesn't have to be a book. Dr. Khalifa: No, the word scripture, for example, Abraham's scripture is all practical.

36:21
 Feroz: Because the word Kitab, the word Kitab means book, right? Dr. Khalifa: I know. Feroz: The word Kitab means book.

36:27
 Dr. Khalifa: Scripture, yes. Feroz: Book scripture. Dr. Khalifa: Script is writing. So, the word scripture is not really accurate.

36:37
 Message would be a more appropriate word, don't you think, Chester? Chester: Message for the word? Dr. Khalifa: Yeah.

36:43
 Dr. Khalifa: For example, Abraham brought to us the Salat prayer, the Zakat charity, the fasting of Ramadan. They're all practical things that were not written down.

36:52
 What do you call that? What did Abraham receive? Dr. Khalifa: If you say scripture, script means writing. There was nothing written.

37:01
 A man: Scripture would entail more a body of writing. A body of writing. Dr. Khalifa: Right. Dr. Khalifa: Which Abraham did not receive.

37:06
 A man: Ok. And script itself would be a page of writing. Dr. Khalifa: Right. A man: One individual document or something of that nature. Dr. Khalifa: Right.

37:13
 Dr. Khalifa: So, what would be the best word to express what Abraham was given?

37:19
 Something that God gave him to deliver to us. Dr. Khalifa: And it is all practices of... How about...

37:25
 A man: Instructions? Dr. Khalifa: From God message, a message.

37:31
 Dr. Khalifa: Like a message from God. Dr. Khalifa: Anyway, we understand what it is, but we call it scripture.

37:38
 Because the word scripture has to do with the holy revelations from God.

37:46
 So, when they argue with you and say "Muhammad was not one of those prophets", you show them 33:7.

37:52
 Which is what I did in the Perspective. I gave them the answer. And I tell you, I haven't heard a word from them since then.

37:57
 It's been a year plus. It's been one year and two months, I haven't heard a single word. They were really belligerent.

38:04
 Dr. Khalifa: This is the Muslim Digest magazine in South Africa, in South Africa. Ahmad: written by Dr. Khalifa: An Indian.

38:10
 Dr. Khalifa: Yeah. Not a word, Ahmad Dr. Khalifa: He said nothing. Because what can they say?

38:18
 The evidence is very clear. There is nothing you can say. Muhammad is one of the prophets who made the covenant. Therefore, the messenger who comes after the prophet must be separate from Muhammad.

38:28
 Dr. Khalifa: True. Ahmad: Perhaps you may like to consider this in your next issue.

38:35
 Ahmad: (unintelligible) Ahmad: Now, I have... somebody sent me a book explaining, you know, the (unintelligible).

38:49
 Ahmad: You were saying the messenger of the covenant and you said there is one covenant and so forth and... Ahmad: He sent me a book describing what their point of view was of the covenant, of covenants.

39:03
 Dr. Khalifa: Yeah. Ahmad: like the... their distinction between 'Ahd (عهد), Mithaq (ميثاق) and (unintelligible). There are 3 different words. I mean, I...

39:11
 Dr. Khalifa: Are these Arabic, these are Arabic words? Ahmad: Yes, they are Arabic words so I wrote them down. Dr. Khalifa: 'Ahad? Ahmad: A H D, I wrote it down.

39:18
 Dr. Khalifa: 'Ahd (عهد). 'Ahd (عهد). Ok. 'Ahd (عهد). Ahmad: M I T... Dr. Khalifa: Mithaq (ميثاق)? Ahmad: Mithaq (ميثاق). Dr. Khalifa: Ok. Ahmad: And she said "I S..."

39:25
 Dr. Khalifa: (unintelligible) Ok. 'Ahd (عهد), Mithaq (ميثاق) and (unintelligible). Ok. Ahmad: Yes. Ahmad: (unintelligible) I, I, still we see that...

39:32

Dr. Khalifa: Is it a response to messenger of the covenant? Dr. Khalifa: Oh, it's just a general... Ahmad: Yeah, it's published by the Shia.
39:39

Dr. Khalifa: I'd like to see it. A woman: They've played it before. Ahmad: Then, I'll Xerox is and... Dr. Khalifa: Huh? A woman: They've played it before. Dr. Khalifa: Yes. Ahmad: So, they don't see the word in the Quran. (unintelligible) Dr. Khalifa: Yes.
39:47

Dr. Khalifa: Yes. Ahmad: So, the righteousness (unintelligible).
39:55

Dr. Khalifa: "I have also the Shia faith." Ahmad: Yes. They don't know. Dr. Khalifa: Sure! Ahmad: Yes. You said (unintelligible)
40:09

Ahmad: What I wanted to say about that was maybe you could give what the entire covenant was. It was one covenant.
40:15

And therefore, what the full covenant was, as it is in the Quran, or whatever, (unintelligible). If you could give, it might help to...
40:25

Dr. Khalifa: Yeah, well, you see, there's really no argument as far as this is concerned because the same word is used in 3:81 and in 33:7.
40:33

Dr. Khalifa: God said He made a covenant. It's a very strong word. Ahmad: Yes. It's much stronger than agreements and arrangements. Dr. Khalifa: Yes.
40:40

Ahmad: In other words, I think we... Dr. Khalifa: "Pledge" may be a better word. Ahmad: Yes. Dr. Khalifa: Pledge.
40:45

Dr. Khalifa: The prophets pledged they'll fulfill their pledge. Ahmad: Yes. While the Quran, I think, with other words also (unintelligible)
40:53

Dr. Khalifa: Yes. For example, with Ibrahim, it's 'Ahd (عهد). Ahmad: Yes. Dr. Khalifa: So with the prophets, it was Mithaq (ميثاق).
40:58

Ahmad: Yes. A man: (unintelligible) covenant.
41:04

Dr. Khalifa: Mithaq (ميثاق) is stronger. Dr. Khalifa: Pardon? A man: (unintelligible) covenant.
41:11

Dr. Khalifa: 1971. Yes. Parivash: Rashad, I think... Dr. Khalifa: Oh, it's right here in the footnote.
41:18

Parivash: When you show them, the Muslims, Sura 3 Aya, 81, and they say "this is Muhammad."
41:28

Dr. Khalifa: I know, yes. Parivash: And when you show them the Bible that after Jesus comes another prophet. It's very clear.
41:35

Same thing, they say "this is Jesus." Dr. Khalifa: Yes. Yes. Parivash: Same thing. A man: Even how could Jesus be son of God? How could he be it? Dr. Khalifa: It's the human.
41:45

Dr. Khalifa: Yes. A man: Either you give up as a messenger or you... Dr. Khalifa: They want... A man: Cause then it's John. Dr. Khalifa: Yes.
41:53

Dr. Khalifa: They want their cake and eat it too. Footnote 33:7
41:58

A man: Yeah, but they force me back into saying, "this is John the Baptist." Dr. Khalifa: Right.
42:05

Dr. Khalifa: Anything to go to Hell. They'll try anything. Page 419 at the bottom, 33:7. This verse refers to the covenant that is detailed in 3:81.
42:15

God took a covenant from the prophets that they shall support His Messenger of the Covenant who would come after them and is destined to unify their messages under the banner of worshiping God alone.
42:25

The specific identity of that messenger and details of incontrovertible supporting evidence are given in Appendices 2 and 26.
42:34

The Covenant was made before creation, and was finally fulfilled in Mecca Dec. 21, 1971 (Zul-Hijja 3, 1391).
42:44

It's amazing. When you add 12, Zul-Hijja is the month. The number is 12 plus 3 is 15 plus 1391. You get... What you get?
42:58

Dr. Khalifa: 1406. 19x74 A man: Wow! Dr. Khalifa: 1974 is when the miracle was finally materialized.
43:09

And Sura 74 is where the number 19 is mentioned. You see the connections?
43:19

Pardon? Yes. It is somewhere. But look at the end of the footnote.
43:28

Page 419 at the bottom of the footnote. In parentheses, Zul-Hijja 3, 1391.
43:35

This was the Tuesday during Hajj when I was in Mecca. I mean, there is no mistake about the date.
43:42

I shared with you how God made me remember this day. Zul-Hijja, the number of the month is 12.
43:48

The day is 3. The year is 1391. When you add 12 plus 3 plus 1391, you get 1406, which means, which equals 19 x 74.
44:01

Sura 74 is where the number 19 is mentioned. 1974 is the year when the miracle materialized, January 1974.
44:09

It was also Zul-Hijja, another year. So, the connections are just very strong. God's proof is not subtle.

44:19
 God's proof is very very overwhelming. A man: One question.

44:27
 A man: Prophets who have died are in another dimension, whereas (unintelligible) somebody. Dr. Khalifa: Right.

44:34
 Dr. Khalifa: We answered this question yesterday. I guess you were not here. Okay, we are thinking our limited, very limited existence here.

44:41
 Dr. Khalifa: But the fact is, all the people who came to this world and departed are now existing in another world.

44:47
 A man: Correct. Dr. Khalifa: So, what are they doing? Dr. Khalifa: You think they're doing more like this?

44:53
 But those are souls. And they have lots of, obviously have lots of activities going on.

45:00
 And sooner or later we will join them. Dr. Khalifa: So, there must be a lot of people over there, believers, who are...

45:18
 Dr. Khalifa: Yes. Dr. Khalifa: Yes.

45:26
 Dr. Khalifa: This may be referring to the body. We're coming into a lot of understanding about this. Let us share the verses that deal with this.

45:35
 Because this is the best way to deal with it.

45:48
 You know, this is something that I learned from that experience. And I didn't come to realize it until after the announcement.

45:57
 So, we are now discussing it logically.

46:02
 Ok, let's look at 3:169, is this what you said? 3:169.

46:12
 Sura 3:169, on page what? 72. Wow!

46:21
 I opened the book, by the way, and it came right there. So, this is a good sign, Alhamdu Lillah. This means God wants us to discuss this matter now.

46:28
 [3:169] Do not think that those who are killed in the cause of GOD are dead; they are alive at their Lord, being provided for.

46:37
 No, the idol worshippers actually abuse this verse a lot.

46:42
 And they go to the body of the saint, which is nothing, and they plead for help.

46:50
 Now, this is the wrong understanding of the verse. "They are alive at their Lord", they forget this expression, 'Inda Rabbihim (عِنْدَ رَبِّهِمْ), at their Lord.

47:00
 It's very crucial to understand that. It's here. So, like David was saying, they're unconscious, they are nothing, they are a piece of earth as far as the body is concerned.

47:10
 But the persons themselves obviously exist somewhere, and I bore witness to this.

47:17
 They're alive. That consciousness was very sharp, over there. It was very sharp. Not a word was spoken.

47:26
 No, there was communications going on, at least when Abraham came in.

47:33
 So, what does this say? [3:169] Do not think... This is for you and me, we should not think

47:39
 [3:169] ...that those who are killed in the cause of GOD... Now, this is referring to those who are killed in the cause of God, but it really is general. It includes all the righteous.

47:48
 I have to show you another verse that, what I'm telling you now. All the righteous, all the believers, and of course the prophets are among them, have this applying to them.

47:58
 Don't think that they [3:169] ...are dead; they are alive at their Lord, being provided for.

48:03
 So, to complete the picture, let us look at this verse.

48:12
 In Sura 4,

48:22
 69. Wow! 169 and this is 69. 4:69.

48:28
 So, if you add the digits, 4:69 adds to 19, also 3:169 adds to 19.

48:36
 You see that? This adds 3, Sura 3, verse 169 adds to 19, the digits.

48:42
 And verse 4, verse 69, Sura 4, verse 69, also adds up to 19. Page 90.

48:54
 I mean, God gives us this mathematical connections to tell us something. Ok, 69 says, Equality of Believers.
 49:00
 [4:69] Those who obey GOD and the messenger belong with those blessed by GOD—the prophets, the saints, the martyrs, and the righteous.
 ...
 49:07
 So, all these are alive at their Lord, being provided for. I think this is also a very significant expression, "being provided for."
 49:16
 So in other words, the believers... there is one more thing that I must share with you.
 49:25
 So now, we should not think of the believers and the righteous as dead, ok?
 49:31
 We're talking about the real persons, not the bodies. The bodies are a piece of stone, and this is what the idol worshippers go to.
 49:38
 And these are utterly unaware, just like this carpet is unaware.
 49:43
 So, the one more thing that I want you to look at is in Sura 40, and the key word is (unintelligible).
 49:56
 I gave you the verse number in Sura 4.
 50:01
 40? It's 46. Verse 40:46.
 50:07
 Page? 472.
 50:13
 Thank you. 472.
 50:20
 Verse 46 says, A Continuous Nightmare [40:46] The Hell will be shown to them day and night, and on the Day of Resurrection: "Admit Pharaoh's people into the worst retribution."
 50:31
 Ok? So, these people are the disbelievers. This is now the other side of the coin. Dr. Khalifa: The disbelievers see Hell every day, but they don't go in it until the Day of Resurrection.
 50:42
 Feroz: But isn't Hell not yet existing? Dr. Khalifa: It doesn't exist yet, but, I mean, but they are told, they know. In other words, they say "you're gonna go to Hell, and this and that." A woman: In hell itself?
 50:51
 Dr. Khalifa: There's consciousness. Huh? Yes.
 50:57
 Yes. Oh yes, it is known. That's it.
 51:03
 Yes. Exactly. Exactly. And the people destined for Heaven are in their existence.
 51:12
 So, to answer Feroz's question "how will the prophets support the messengers of the covenant?" Well, I'm gonna join them someday, and for all practical purposes, the time is very short.
 51:24
 So, what are they doing? Feroz: Then, they will support you. Dr. Khalifa: No, they did already. They bore witness.
 51:29
 Dr. Khalifa: It doesn't matter that... Feroz: That kind of support. Just agree with your pledge there. Dr. Khalifa: Yeah. Yes. Dr. Khalifa: They know that we exist in the world somewhere, but they had to fulfill their covenant.
 51:39
 And that happened in Zul-Hijja, 1406...Zul-Hijja, 3, 1391.
 51:46
 So, God... in essence, God brought the messenger of the covenant, and "this is the messengers of the covenant. Do you agree? Do you fulfill your covenant?"
 51:54
 So, they came one by one. They said "yes." And now they are talking with each other. Obviously, there's a Society up there, an Eternal Society.
 52:03
 A man: Because you (unintelligible) A man: All prophets, even they're praying to God to give them support. Dr. Khalifa: Yes.
 52:13
 A man: And while they were there, (unintelligible)
 52:18
 A man: they left messages which would link up with the messenger of the covenant
 52:24
 A man: like Jesus spoke of the messenger of the covenant, or in the Old Testament, or the book of Malachi. Dr. Khalifa: Malachi.
 52:35
 A man: I mean, they left words behind to support... Dr. Khalifa: Also, we have to think from their point of view.
 52:41
 Ok. From their point of view, I think God has done them a favor by letting them know that
 52:46
 "you guys delivered messages to the people, and now we're going to unify." In other words, it's a piece of news to them also.
 52:54
 It's a favor to them. So, "we're sending a messenger also to unify your messages in order to become aware of it", because

53:02
they are not aware of what's happening on earth. They don't know who the president of the United States is, or who is ruling India at this time, and they don't give a damn.

53:12
They don't care. The earth is a tiny, tiny thing. It is a very limited existence down here.

53:17
But it is a favor to them to let them know what is going on as far as their messages are concerned. For example, if your company sends you somewhere to design a chemical plant, so you go there,

53:31
and you get on the drawing board, and you design the chemical plant, and you give the plans to the people there, and then you go back to your headquarters, which is 10,000 miles away.

53:41
Then, someday the chairman of the board will call you and say "by the way, your plans that you drew for Guam were carried out, and the plant was established, and it is functioning very well now."

53:52
Of course, you'll be happy to know that. This is exactly like that. You know, I just thought of an example on the spot.

53:59
But it's exactly like this. They came down, they put the blueprints, they delivered messages, and it is nice to know

54:05
that this message will be unified in one, and that the majority of human beings will be given that one message, etc., etc.

54:13
It's like calling somebody in and saying "you know, remember those blueprints that you designed for Guam 10 years ago?"

54:20
"The plant was built. It is now functioning. It is doing very well." So, you say "thank you, sir."

54:26
Okay, Lisa. Dr. Khalifa: I'm not gonna say anything interesting. Lisa: Ok.

54:34
Dr. Khalifa: No worries. Dr. Khalifa: God bless you. Feroz: So I said, God doesn't mean Heaven or with God, like it's in this universe. Dr. Khalifa: No.

54:42
Dr. Khalifa: No, it's a limbo. It is wonderful for the believers. It is awful for the disbelievers.

54:49
Cecilia, you know, people know... one of the best proofs that people know at the time of death, their destiny,

54:58
is that God tells us that the angels beat up the disbelievers on the faces and the rear ends.

55:04
Dr. Khalifa: Twice in the Quran. Cecilia: Does the type of death have anything to do with it?

55:10
Dr. Khalifa: It's invisible to us. The answer is yes. Cecilia: I know. I'm saying, you know, in terms of how we leave this world, the type of death that occurs. Dr. Khalifa: Yes. Yes.

55:18
Dr. Khalifa: Okay, let me, do you hear the question? Do you hear the question? Is the death different for the believers and disbelievers?

55:24
The answer is yes. Repeatedly in the Quran. Death for the believer is a wonderful experience.

55:32
God says "the angels gently call the soul", and God Himself is telling the soul "come back to your Lord, happy and joyous and satisfied."

55:41
This is for the believer. For the disbeliever, they beat him up and snatch the soul out. Dr. Khalifa: Yes, literally.

55:48
A man: That could be like a murder or... Dr. Khalifa: No, no, no, the method doesn't make any difference. A man: The type of death doesn't make any difference? Dr. Khalifa: The type that we see doesn't make any difference, because the nervous system shuts off immediately anyway.

55:58
A man: In other words... Dr. Khalifa: God's prophets to Israel were killed. Okay? Dr. Khalifa: But that's the outside appearance. It doesn't mean anything. A man: It doesn't mean...

56:07
Dr. Khalifa: What happens in the other dimension, which is invisible to us, is the real thing, and it's totally different.

56:14
For the believer, it's a wonderful, beautiful experience. For the disbelievers, it's an awful experience, because they cling to the body and they refuse to leave.

56:23
They don't wanna go. And then they say "let go of your souls." There's a verse that I want to remember, I wanna share with you.

56:34
I had it. Dr. Khalifa: I had it, but I forgot, and I remember it again.

56:40
A man: Sorry. Does it mean the believer doesn't have a lingering, painful death?

56:45
Dr. Khalifa: No. A man: (unintelligible) for the body. Dr. Khalifa: As far as the body goes, yes, but without feeling it. We will not feel it.

56:51
A man: Meaning, slightly give it up, have to have a long suffering death. Dr. Khalifa: Never. No suffering whatsoever.

56:57

Dr. Khalifa: For the believer, no suffering whatsoever, no matter what the method of death is on the outside.
57:02

Feroz: What about if he's under 40, can he have a lingering, painful death? Dr. Khalifa: No.
57:08

Dr. Khalifa: No. He'd be very happy. The person under 40 immediately realizes that God is taking him, because he does not deserve
57:15

to go to Hell and live beyond 40 and go to Hell. Feroz: Because I have had an auntie who died at 39, (unintelligible) quite a long process.
57:23

Dr. Khalifa: Well, this is like pains in this world. This will belong in the pains or tests or...
57:29

They are performing a function. When a child is born deformed and dies at the age of 14, that child performs a function,
57:36

Dr. Khalifa: and in return, he, the real person, goes to Heaven. Feroz: The body can suffer, but the soul won't suffer. Dr. Khalifa: Right. That's right.
57:48

Dr. Khalifa: We're talking about the moment of death. I think that was David's question. David: (unintelligible). I can see a healthy person, and the soul will suffer, and be miserable in life.
57:59

Dr. Khalifa: Yeah. The body doesn't mean a thing. Remember there was a wave of reports on Eddie Murphy?
58:06

He's healthy, he's wealthy, he's successful, he's rich, but miserable.
58:12

Right? Because happiness is not a property of the body.
58:22

Happiness is a function of the soul. And he wrote, he said "something is missing." He's got all the Rolls Royces, the Porsches, the Mercedes that he wants,
58:30

all the girls that he wants, all the money that he wants, mansions in New Jersey and California,
58:36

and he's miserable. He said something is missing. So this is, it's well known now that material success doesn't have, has nothing to do with happiness.
58:47

Dr. Khalifa: Yes. Parivash: One day that, I think, someone argued with me about Martha.
58:53

Dr. Khalifa: About who? Parivash: Martha. Dr. Khalifa: Martha. Parivash: Yes. And I explained for her, she didn't believe, and I asked "OK, do you believe Jesus was (unintelligible)?"
59:02

And she said "of course." And I showed her these verses again. Parivash: Jesus said "I told, I told..." Dr. Khalifa: Yes.
59:09

[5:117] "I told them only what You commanded me to say, that: 'You shall worship GOD, my Lord and your Lord.' ... Dr. Khalifa: Yes.
59:14

[5:117] ... I was a witness among them for as long as I lived with them. When You put me to death, You became the Watcher ...
59:20

Dr. Khalifa: Yes. [5:117] ... for as long as I lived with them. ... Parivash: Yes. Dr. Khalifa: Not after. Yes. Wonderful.
59:27

Dr. Khalifa: (unintelligible) Dr. Khalifa: Who created us? Let's just say God number 1.
59:33

Because One God Who created us? Let's say it's God number 1. Ok. So, the question is "who created God?"
59:42

It's god number 2.
59:47

So, who created god number 2? See, we're going along with an atheist who is asking this question.
59:55

He says "if God created you, who created God?" We say "Ok. Let's give them numbers.
1:00:02

"God number 1 created us." So, he says "Ok. Who created God number 1?" "god number 2. And god number 3. god number 4."
1:00:10

"Who created number 4?" "god number 5." "Who created god number 5?" "god number 6." So, this will lead to what but Infinity of gods.
1:00:19

Mathematically, an infinity of gods equals One God.
1:00:24

There it is. There is one engine of God. Dr. Khalifa: Now, we're talking about time, time frame. An infinity of gods equals one engine of God
1:00:36

Chester: So, (unintelligible) because there is infinite (unintelligible) Dr. Khalifa: Yes. Yes.
1:00:44

Chester: So,... Dr. Khalifa: But Dr. Khalifa: We're talking now about time, a time frame.
1:00:50

We're not talking about physical presence. Also, we're trying to solve the problem of "if God created you, who created God?"
1:00:59

We're gonna end up with a (unintelligible) God. Because now when you talk with an atheist who's asking this question, (unintelligible) step by step.

1:01:07
 Say "I'm saying that God created us." He says "Ok. Who created then number 1 God?"

1:01:15
 Dr. Khalifa: Say "By number 2 god." Chester: Rashad, I would say still... Dr. Khalifa: (unintelligible)

1:01:20
 A woman: I don't... I'm not even talking about (unintelligible) I understand it. Dr. Khalifa: Yes, you added the question which was good.

1:01:26
 Chester: But I'm interested in the idea of God being physical form, number 1, and if God, there's no idea of concept of divinity for God.

1:01:37
 Chester: So, Ok, then there's a saying that God had a birth.

1:01:42
 Chester: And if He had a birth, then our, human concept would tell that He has a death.

1:01:50
 Chester: For if there is just a birth concept, (unintelligible) death.

1:01:58
 Dr. Khalifa: A birth from what? Chester: Well, I don't know from what. Wait a minute! Chester: Just saying that He is not infinite.

1:02:06
 Chester: And He therefore... Dr. Khalifa: (unintelligible) I'm not telling you that. Don't listen to me. Chester: Ok. Dr. Khalifa: You listen to Quran.

A man: The Quran is saying.

1:02:13
 Dr. Khalifa: Yes. God is saying... Let's look at Sura 53, for example. God says, He took Muhammad up to give him the Quran. And then, He came down

1:02:20
 [53:9] Until He became as close as possible. [53:10] He then revealed to His servant (Muhammad) what was to be revealed. Dr. Khalifa: (unintelligible). We have to believe that.

1:02:28
 A woman: Can we not see that God is everything around us? (unintelligible) A woman: (unintelligible) God.

1:02:35
 A woman: which means God has... Chester: I don't deny, I don't deny at all A woman: Ok, so, God has (unintelligible) Dr. Khalifa: (unintelligible) physical, right? A woman: The (unintelligible)

1:02:41
 Chester: I don't deny, I don't deny that Allah has (unintelligible) into being physical. A woman: Ok. But what you are denying is that Allah has...

1:02:48
 Chester: I'm not denying anything. A woman: Ok. A woman: Ok. Listen. Dr. Khalifa: (unintelligible) A woman: No, I'm saying then Allah has the (unintelligible) within Itself to manifest Himself physical, physically.

1:02:58
 Chester: I understand. A woman: Because He is Absolute. A woman: So, why, so then that's what it is. He is manifesting Himself physically to us in the form that we will be able to handle.

1:03:09
 A woman: Because what... He can... Dr. Khalifa: No, wait a, well, let me back up a little bit, ok? Dr. Khalifa: One of Satan's famous blasphemy is that God is a spirit.

1:03:19
 A woman: (unintelligible) Dr. Khalifa: That He's devoid of physical powers. A woman: (unintelligible)

1:03:24
 Dr. Khalifa: You see the Christians doing this all the time, say "God is a spirit." Dr. Khalifa: God is not a spirit.

1:03:29
 God is the most physical of all physical things because He created the physical, He created this universe.

1:03:35
 God is very, very, very, very infinite, very physical. So, I think this is, you have trouble with this concept, initially.

1:03:42
 Parivash: Rashad,... A man: (unintelligible) Chester: I don't have trouble with the concept once it is explained by a person who I believe would know the answer.

1:03:50
 That person would be yourself. If you explain it to me in a way that I understand it, Chester: well, you understand more about the Quran than any other. Dr. Khalifa: I will try. I will try.

1:03:58
 Dr. Khalifa: What I'm saying is that I'm not saying anything on my own. Chester: I understand this. Dr. Khalifa: All of us are referring to what God is telling us.

1:04:03
 Dr. Khalifa: We have to compare this with what Satan is telling us. Chester: And what Satan has dictated to me, and which I've been believing up until this very moment, Dr. Khalifa: Right.

1:04:10
 Chester: was that God is, as you said, is in a spiritual form, has nothing to do with the physical at all. Dr. Khalifa: Right. Right.

1:04:16
 Chester: Even though, I'm understanding, I understand, wrong now, but that He did bring into being a physical creation, Dr. Khalifa: Yes. Right.

1:04:22
 Chester: even though He is some spiritual being, believing that He has that potential, that ability because we're talking about continually the awesomeness of His power and His wisdom.

1:04:31
 Dr. Khalifa: Okay, let's see how God tells us how physical He is, okay? The Jinns, we do not see the Jinns. We do not see the angels. We do not see God.

1:04:40
 And the Judeo-Christian concept as it exists today, and even the Muslim concept, is that these are spiritual beings, right?

1:04:50
 So he's a spiritual being who carried the palace of the Queen of Sheba, 2,000 miles, within a second, before Solomon blinked his eye. He carried the palace like this.

1:05:03
 Now, how physical did it get? Dr. Khalifa: Because it's not even like this, because the palace was carried intact.

1:05:11
 Chester: Can we not say that God is power, to lift up those glasses from the floor, without touching them?

1:05:19
 Chester: Would he have to necessarily have... Dr. Khalifa: Well, some physical force will have to be exerted on these glasses to carry it from here to there.

1:05:30
 Chester: That's what I've been saying. Parivash: If God is a spirit, how can you enjoy when in Resurrection Day (unintelligible) to see Him and enjoy? Dr. Khalifa: Yes.

1:05:38
 Parivash: And another, another... Chester: So, we're talking about the dissolution of our physical bodies at that time, Chester: and as we just went through a while ago, the interaction and the communication and identification of just spirit alone, without physical bodies.

1:05:52
 Chester: Physical bodies stay here, but we can see each other and identify each other spiritually, spiritual beings, souls. Dr. Khalifa: Yes. Yes.

1:05:59
 Dr. Khalifa: Okay, Chester, let us lay down the principle that we have a message from God.

1:06:05
 God is telling straightforward things in this message, straightforward principles in it, straightforward information in the book.

1:06:14
 Well, when we're growing up, Satan also is entitled to give us his message. He's giving us certain information, and most of this information has to do with God and confusing the issue for us.

1:06:27
 Dr. Khalifa: The way out of this dilemma is what? Chester: The way out of the dilemma is to follow one and not the other. Dr. Khalifa: Exactly.

1:06:35
 Dr. Khalifa: Exactly. The way out of dilemma is that you look at God's message, see what He's saying. Whatever God is saying is true, even if it contradicts what we grew up learning,

1:06:45
 because what we grew up learning is mostly Satan's education. Parivash: (unintelligible) Dr. Khalifa: Okay, so we look at Sura 53, we look at Sura 89, we look at Sura 7, 7:171, and 89:22, and 53:9.

1:07:04
 All these are telling us that God is not physically here. We also learn that God is very physical.

1:07:11
 Parivash: One of them said seven heavens in the right hand. Dr. Khalifa: Yeah, this here, yes, this is physical.

1:07:17
 A man: Alright so, are we still, are we thinking of God in the same aspect

1:07:22
 Like when we look at our own physical selves, when we talk about it being just, when we talk about energy?

1:07:29
 Dr. Khalifa: Yes, I'll get to you in just one second. I don't wanna interrupt Chester's flow of the subject. Everything is physical in the world. You see the air, this air?

1:07:36
 Dr. Khalifa: What, is air physical? Chester: Okay, yeah. Dr. Khalifa: You can take this volume of air and compress it, it becomes liquid, continue to compress it, it becomes solid.

1:07:44
 Dr. Khalifa: Because what you're doing, you're bringing the molecules together. Douglas: I think what we're asking is "will Allah manifest Itself as in piece of mass?"

1:07:53
 Dr. Khalifa: Yes, a physical presence of God, a physical entity.

1:07:59
 Dr. Khalifa: And this is what God is teaching us. Edip: Rashad,... Dr. Khalifa: God is a physical entity. Dr. Khalifa: Yes. Go ahead. Edip: There's something confusing, I think, for our brothers, that they understand it from physics and we understand 104 elements.

1:08:14
 Edip: I think this is confusing them, but God, how do you say it, we don't say God is physical elements, but I don't know (unintelligible) this kind of things.

1:08:24
 Dr. Khalifa: We don't know what the physical nature of God is. Edip: Yes. Edip: But we can see it. Dr. Khalifa: Feroz, what did you wanna say? Feroz: I feel like we're stating God is a fusion of elements.

1:08:33
 Dr. Khalifa: Right. Right. That's what Edip's saying. Edip: This is wrong. Edip: Physical means you can feel, you can see, you can...

1:08:39
 Chester: That's what I was asking, what I'm asking. Edip: Yes, you can see this is God's and you can enjoy it.

1:08:44
 Chester: But you cannot... what I was saying is that we cannot look upon it as we look upon what we call our physical selves.

1:08:51

Edip: We don't know, we don't know the fact in Hereafter how it will be. For example, if the baby in the belly of his mother, if you try to tell this baby about this world, give him information about this world,

1:09:04

he cannot understand. He knows it's limited by darkness and very small things and there is heat. There's...

1:09:11

Edip: He doesn't know cold, what is cold. He doesn't know what is light. He doesn't know what is dark. Parivash: What human look like. Dr. Khalifa: What the car looks like.

1:09:18

Douglas: When you say, when you tell me that Allah has so much energy that we cannot withstand His physical presence, Dr. Khalifa: Yes.

1:09:27

Douglas: that's something physical. The energy is something physical. Dr. Khalifa: Yes. Very physical. Yes. Douglas: I understand but I think when, you know, when you begin to try to explain to us that God will take on a physical presence, that means that He is... Dr. Khalifa: Yes.

1:09:39

Dr. Khalifa: Not take on, God has a physical presence. Douglas: Yes, but you were saying that He will manifest Himself to us so that we will be able to withstand His presence.

1:09:51

Dr. Khalifa: Yes. Douglas: That means that He has to do something outside of His self in order for us to see Him. Dr. Khalifa: Yes.

1:09:56

Dr. Khalifa: No, God will physically come here. Douglas: No, I'm not saying that God will physically Dr. Khalifa: Sura 89. Douglas: come here (unintelligible). But it's gotta be some kind of shield or something. Dr. Khalifa: That's removed.

1:10:07

Douglas: No, that He has to put on for us to be with Him. Dr. Khalifa: No, this is it. The shield will be removed. A woman: No, that's it.

1:10:12

Dr. Khalifa: This is when (unintelligible) Douglas: Will the shield be removed from us or from Him? A woman: Yes, yes, from us.

1:10:18

Douglas: I'm asking Rashad. Dr. Khalifa: Yes. Douglas: Will the shield be removed from us or removed from Him? Dr. Khalifa: The shield right now is the distance.

1:10:26

Dr. Khalifa: The shield right now is distance. Dr. Khalifa: Ok. Now, I have an appendix. This...

1:10:32

Douglas: I'm still not getting it. Dr. Khalifa: Okay, we will, IN SHAA ALLAH. I have an appendix that says "who is God?"

1:10:41

And it tells you how vast our universe is, 26 billion light years across, a billion galaxies, surrounded by 6 other greater universes.

1:10:54

Now, the outer limit of the first universe, if we are number 7, and the universe closest to God is number 1, mathematically is infinite.

1:11:03

But it is not infinite. Mathematically, it's so huge, you cannot comprehend it. Dr. Khalifa: There is no number in the universe that will tell us how long that circumference is.

1:11:11

Douglas: In our physical understanding, our limited mind. Dr. Khalifa: Yes. Right. Right. Dr. Khalifa: Imagine the Earth, the solar system, 4 billion miles. Douglas: I can't imagine.

1:11:21

Dr. Khalifa: No, imagine the sun. Where is the sun? Dr. Khalifa: Imagine the sun, because you see it every day. Douglas: 93 million miles. Dr. Khalifa: 93.

1:11:27

Dr. Khalifa: 93 million miles. Dr. Khalifa: 93 million miles. Only 8 light minutes. 8 minutes from us. Only 8 minutes.

1:11:35

Now, keep going for a hundred thousand years at the speed of light. If you take off right now towards the sun at the speed of light, you'll get there in 8 minutes.

1:11:46

Now, keep going, not for a day or a month or a year, a hundred thousand years, we'll get to the edge of our galaxy.

1:11:53

Now, this galaxy, huge as it is, there are one billion of those. And this is inside our universe, the smallest universe.

1:12:00

Let's call it universe number 7. See, I'm glad you're laughing, okay? Because we're beginning to comprehend the greatness of God.

1:12:08

We're talking about the physical entity of God. This vast, vast, vast universe is the smallest of seven universes.

1:12:17

We call it universe number 7. Universe number 6 is bigger. Number 5 is even bigger. Number 3 is bigger.

1:12:24

Number 3, 2, number 1. The circumference of number 1 is utterly infinite.

1:12:31

But it is not really infinite. We're using the word "infinite" to describe how huge it is. Now, this infinite volume or size is within God's hand. That's what God is telling us.

1:12:41

So, how big is God? That's the greatness of God.

1:12:47

This is the physical entity of God. Dr. Khalifa: Yes, Mā Shā Allāh.

1:12:52

A man: The hand is allegorical? Dr. Khalifa: Yes, the hand is allegorical. But you can think of me, for example, in my hand, and within my hand is this infinite...

1:12:59
A man: It shows the greatness of God. Dr. Khalifa: So, if you can call the outer limit of the outer universe, infinite, what would you call God?

1:13:08
Dr. Khalifa: Huh? A woman: Triple infinite. Dr. Khalifa: Say it again? Dr. Khalifa: Triple infinite. So, there's no such thing, you know, but there are different infinities.

1:13:19
Dr. Khalifa: Are we grasping this? A man: Yeah, I'm hearing you. A man: Now, as large as... This is what I'm trying to grasp now. Dr. Khalifa: Yes.

1:13:26
A man: Now, as large as Allah is... Dr. Khalifa: Right. A man: He must then make Himself smaller...

1:13:32
Dr. Khalifa: No. A man: ...to come to move into our presence? Dr. Khalifa: No, but we can... Dr. Khalifa: The relative distance can be closer or farther.

1:13:38
We see it in Sura 53. Now, this is not... If I am theorizing, folks, don't listen to me, but I'm not theorizing.

1:13:45
Dr. Khalifa: I'm saying what God says in Sura 53. Edip: He'll move closer. Dr. Khalifa: God says, God took Muhammad from the planet earth, that He took him somewhere in the universe.

1:13:53
And then, God tells us He came closer, as close as possible. Dr. Khalifa: If God came any closer, Muhammad will...

1:14:00
A man: So, are you saying that Allah is... Dr. Khalifa: Yes.

1:14:05
Dr. Khalifa: Yes, say it. A man: He's limited in terms of what He has created? A man: I mean, is He ruled by certain law, too?

1:14:13
A man: Is Allah being governed because he's saying that He (unintelligible) Dr. Khalifa: God is the lawmaker. God is the lawmaker.

1:14:20
A man: But He's also being governed by His own rules. A man: He adheres to His own laws that He makes. A man: Is that what you're saying?

Dr. Khalifa: Well, of course.

1:14:25
Dr. Khalifa: He makes the laws and He abides by them. For example, God does not advocate sin. Ok. This is the law. And God follows it. God does that.

1:14:36
Alright, so, God is telling us that He moved closer. And God tells us in 89:22, that He will come to this world and that the heavens will fold like a book.

1:14:47
You hear about the stars crashing into each other in the Quran? Why? Because of this immense energy.

1:14:53
I mean, how big are the stars? The sun, the sun is one of the dim stars. Did you know that?

1:14:59
We had a conference here at the University of Arizona across the street about the bright stars. It's a conference about the bright stars.

1:15:05
You know what the definition of a bright star is? This is science now. A bright star is at least one million times as bright as our sun.

1:15:14
This is... Our sun is a very, very dim star. Dr. Khalifa: Just look at the street out there. How many candles can you light to overcome it?

1:15:21
A woman: That's true. Dr. Khalifa: If you put your finger in the sunlight, you see the shadow. Dr. Khalifa: Now, light a number of candles to the rest of the shadows. A woman: To equal that shadow.

1:15:29
Dr. Khalifa: I mean,... A woman: (unintelligible) Dr. Khalifa: And that is one of the dim, that is one of the dim stars.

1:15:36
Dr. Khalifa: What happened?

1:15:43
A woman: Does that mean that we have a shield over us and when it's time for us to see Allah, you know, is the shield, because...

1:15:49
Dr. Khalifa: No, the shield is distance. Dr. Khalifa: The shield is simply distance. A man: Okay, can I ask you a question?

1:15:56
Dr. Khalifa: The shield, this body, the shield, the body as a shield is between us and the other dimension,

1:16:02
Dr. Khalifa: which is an invisible dimension, Dr. Khalifa: where the jinns and the angels are. A man: When you say...

1:16:07
Dr. Khalifa: They see us, we don't see them. Dr. Khalifa: Did you read that in the Quran?

1:16:12
A man: Yes. A man: So, this is the veil that will be removed. Dr. Khalifa: You know, folks, when we're through with this, when we're through with this,

1:16:20
when you stand and you say "Allahu Akbar", you will not say it the way you used to say it anymore. A woman: It's the truth. We really know this. A man: Yes.

1:16:27
Dr. Khalifa: Yes. When you say "God is Great", it's gonna have a whole different meaning, because we're coming Dr. Khalifa: into this appreciation of (unintelligible). Yes.

1:16:34
A man: What I wanna say is this... A man: (unintelligible) Dr. Khalifa: Just (unintelligible). Yes. A man: When we say this that the only barrier is distance, Dr. Khalifa: Mā Shā Allāh

1:16:41
A man: but you're also saying that we cannot stand the Presence. Dr. Khalifa: Yes. Yes. Yes. A man: So, upon death and moving out of this world... Dr. Khalifa: Yes.

1:16:51
Dr. Khalifa: Right, you better be ready to be in that Presence. A woman: Yeah. A woman: To be ready to handle it. Dr. Khalifa: How do you be ready? How do you get ready?

1:16:57
You do the Five Prayers. You follow God's laws. You fast the month of Ramadan. God is number one, not number one, the only One in your priorities.

1:17:06
And so this is how you... Because every time you have anything to do with God, your soul is growing. Your muscles are getting stronger.

1:17:12
You say "Subhan Allah", you're thinking about God, you're doing what we're doing now, your soul is growing.

1:17:17
Because your soul emanated from God. And this is how it will grow, by serving God.

1:17:23
Now, I don't want any of us to freak out because we're discussing this, because all we're doing is reading what God is telling us. Ok?

1:17:31
It's just we have to be cool and quiet about it and see what God is telling us. God's Grace is incomprehensible.

1:17:37
I wanna go through it again. Because this will clarify the concept of infinity or lack of it.

1:17:44
If you take off right now at the speed of light, you will get to the Sun 93 million miles away.

1:17:50
New York is 3,000 miles. New York is 3,000 miles.

1:17:55
And, you know, you think you came a long distance, right? Ok. You take off 93 million miles. You get there in 8 minutes at the speed of light. You get to the Sun in 8 minutes.

1:18:05
Now, keep going, don't stop at the Sun. For a month, then a year, 10 years, 100 years, 1,000 centuries.

1:18:16
Dr. Khalifa: Let us go for 100,000 years. David: 100,000?! Dr. Khalifa: 100,000 years at the speed of light.

1:18:22
Now, you left the Sun back there after 8 minutes of your takeoff. David: Dear God. Dr. Khalifa: All right?

1:18:27
Dr. Khalifa: I'm glad you're laughing because this means you're understanding it. After 100,000 years, David, you get to the border of our galaxy, the Milky Way.

1:18:38
Our galaxy. Now, you know how far you have to go for the next one, the neighbor?

1:18:43
2 million light years to the next galaxy, just to get to the border of the next galaxy.

1:18:49
Because these galaxies are units within the universe, like this. This is a unit. This is another unit. So, from this unit to this unit, you travel 2 million, not 8 minutes, 2 million years at the speed of light.

1:19:05
No, it's one of the galaxies. There are 1 billion of those.

1:19:10
So, now, think of our universe, which is, God says "this is the smallest universe, where the humans and the jinns exist."

1:19:18
26 billion light years. You have to travel 26 billion light years.

1:19:23
By the way, if you just count the stars that we have in our universe, it will take you

1:19:30
32 billion years, which is older than the universe. Just count it, one second per star.

1:19:37
Okay, so this is now, we're talking now about a vast, vast universe, and this is the smallest of seven universes.

1:19:45
Now, think of the bigger one, the next one, which is even bigger. How about the following one, which is even bigger?

1:19:52
And keep going bigger, and then you go to the first universe. That is, you cannot, there is no number that will tell us what the circumference is, how long it is.

1:20:01
There is no number in the universe that describes that. And that is within God's hand.

1:20:07
It's just to give us a picture of how Great God is. So, if we can mathematically call the outer limit of the first universe, infinite, what can we call God?

1:20:17
So, figuratively speaking, we pull the rug from under Satan's feet, and we say "yes, figuratively, God is infinite."

1:20:23
Because of this incomprehensible Greatness. But God is telling us there is a physical presence, and certain lines where you can move, God moves closer or farther.

1:20:38
And God is telling this in His word. So, we are being alerted to what Satan is telling us.

1:20:49
Satan is very tricky. First, he wants to prevent us from ever coming to God. But if we insist and we come to God, then he pushes to another extreme.

1:20:57
He said "okay, don't do just five prayers. Do twenty."

1:21:02
Dr. Khalifa: And he will give you things that will appeal to your religiousness, that you insisted on. A woman: Rashad, I just want to bear witness to God for His immense Mercy and blessings upon all of us here.

1:21:18
A woman: And to just give thanks to Allah for giving us a messenger.

1:21:24
A woman: You are the messenger of God. Dr. Khalifa: You're quoting, you're quoting the Quran. Dr. Khalifa: God says "it's a blessing from God that He sends to among us a messenger." A woman: Nobody...

1:21:31
Dr. Khalifa: I'm talking as one of you. A woman: Nobody could explain something so huge in understanding in such a manner that the human

1:21:40
mind in this dimension could understand it, I mean. Dr. Khalifa: I'm really gratified when I see David's family. A woman: Alhamdu Lillah.

1:21:46
Dr. Khalifa: I'm gratified because it's really something he grasped it. He knew exactly what I'm talking about. And these are sciences now.

1:21:53
It is no longer speculation. Dr. Khalifa: You go take astronomy and this is what they tell you. A woman: And we never took astronomy. We don't know physics. But you gave us physics, science, astronomy.

1:22:03
Dr. Khalifa: Time-life books. Time-life books. They have scenes of the universe. I think I have a couple of them sitting there.

1:22:10
These are physical facts. We travel at the speed of light. We have voids that go across the solar system.

1:22:15
Dr. Khalifa: We know exactly how far everything is and what the sizes are.

1:22:20
A man: I just received a book from (unintelligible) Dr. Khalifa: Sorry. A man: And it's called Space-Time Infinity. Dr. Khalifa: Right.

1:22:26
A man: (unintelligible) Dr. Khalifa: Yes. A man: So, I have, I just received it about maybe two weeks ago. But I haven't started reading it yet.

1:22:35
Dr. Khalifa: No, they're talking about infinity within God's hand. A man: Within God's hand. Dr. Khalifa: Yes.

1:22:40
Dr. Khalifa: Within God's hand by millions of fractions, like very tight minute fraction.

1:22:46
Dr. Khalifa: Because they're talking only about the smallest universe, the smallest of seven universes.

1:22:52
A man: In Bombay, there is a show which has come from the United States.

1:22:57
It's being shown in the planetarium. I haven't seen it but a good friend of mine saw it. And he said,

1:23:03
they have calculated and said that it is no longer a billion galaxies. A man: They have estimated 3,000 billion galaxies. Dr. Khalifa: Yes.

1:23:12
Dr. Khalifa: They stopped counting. A man: Yes. They said, they're growing faster. A man: It is probably growing faster than human population.

1:23:19
Dr. Khalifa: See, they counted the galaxies. We're talking about galaxies. We're not talking about solar systems or stars.

1:23:25
We're talking about galaxies. Dr. Khalifa: So, when they reach 1 billion, you forget it. Dr. Khalifa: "Hey, you know what, we're gonna stop here."

1:23:32
A man: The fact that we are so insignificant in size and the universe of seven heavens is so vast. Dr. Khalifa: Yes, God bless you. Yes.

1:23:41
A man: Is there any other purpose or is there a greater purpose outside of ourselves as far as the universe is concerned in terms of the (unintelligible)?

1:23:49
Dr. Khalifa: No. Dr. Khalifa: The whole purpose is in 51:56. Dr. Khalifa: That's the whole purpose.

1:23:56
Dr. Khalifa: There is one thing. There is one purpose and that is to redeem ourselves, to denounce our idolatry.

1:24:03
Did you see how difficult it is to talk the Mohammedans out of "La Elaha Ella Allah, Muhammad Rasulallah"? You see the blasphemy of putting a tiny, tiny insignificant creature called Muhammad put his name next to God?

1:24:14
Dr. Khalifa: You see the blasphemy now? A man: God is creating (unintelligible) for every human child that is born. Dr. Khalifa: Yes.

1:24:20

Dr. Khalifa: What can you put next to God that will have some significance? You put ten galaxies? "La Elaha Ella Allah, There are ten galaxies in the universe."

1:24:28

Dr. Khalifa: I mean, what is the comparison of Muhammad to ten galaxies? A man: Okay. So, as vast, as vast and as great as the seven universes are and as vast as they are, the sole purpose of this creation was...

1:24:42

Dr. Khalifa: Yes, to be redeemed. A man: My God. Dr. Khalifa: Right. God bless you, David.

1:24:47

A man: I think (unintelligible) there's more, more universes. Dr. Khalifa: (unintelligible) Dr. Khalifa: Wonderful. Wonderful. Yes. Huh?

1:24:56

A man: There are some physical paradoxes which I just wanted to mention before being evaluated by you.

1:25:02

A man: One is that, you see, God has certain limitations. One, He cannot create another being that has no birth and no death because when He creates it, it will have a birth.

1:25:14

A man: So, He cannot create another being. Dr. Khalifa: You cannot say "God cannot." A man: Yes. Dr. Khalifa: It's rather blasphemous to say "God cannot." A man: Ok.

1:25:21

A man: Mā Shā Allāh. Another blasphemous paradox which people have addressed to me is to say

1:25:29

A man: "He can't Dr. Khalifa: "create a rock that He cannot lift." A man: Yes. Yes. Yes. Yes. Dr. Khalifa: Yes. The absurdities.

1:25:37

A man: You shouldn't think of it because it's not right. Dr. Khalifa: Yes, you must think of them, you must attack them and nullify them.

1:25:44

A man: No, but I can't answer him by saying that. A man: Because the moment God creates, it has a beginning. Dr. Khalifa: Yes, exactly. That's what I call illegal questions.

1:25:53

Dr. Khalifa: They are questions that make themselves impossible. A man: Paradox. Dr. Khalifa: Right, paradoxes.

1:26:03

A man: It's in reference to us, ourselves and the seven universes, when a larger comes toward us,

1:26:12

Dr. Khalifa: Yes, that's right. A man: and we understand that each universe has its laws, and since our earth will change, will this affect all the seven universes?

1:26:23

Dr. Khalifa: Yes, yes, yes, the seven universes will fold like a book. Watch this. When God comes to the seven universes,...

1:26:31

That's what God says in Sura 39. What happens when you put a hydrogen bomb over Tucson? What will happen?

1:26:40

Huh? It's gonna be a canyon. It will be a grand canyon.

1:26:46

Dr. Khalifa: There will be a grand canyon here. A man: So, the infinity equals one. How to prove that to some atheist?

1:26:51

Dr. Khalifa: Pardon? A man: You know, god number 2, 3, 4, infinity, infinity equals one. Dr. Khalifa: Ok. An infinity of gods equals one infinite God.

1:26:58

Dr. Khalifa: It's mathematics. (unintelligible) Dr. Khalifa: Yes. We'll use Satan's terminology to defeat him.

1:27:06

A woman: One infinite God. Dr. Khalifa: An infinity of gods equals One infinite God.

1:27:13

A man: Infinite gods, these ones, equal one. Dr. Khalifa: Right. But we...

1:27:18

A man: It's still a paradox of Satan, circular motions. Dr. Khalifa: That's fine, but this will shut him up.

1:27:24

There's no way we can go any further. Yes. And because we have finite minds.

1:27:30

So, as he wants, he's trying to take advantage of our finite mind. Dr. Khalifa: We're taking advantage of his finite mind and shutting him up for it to stop.

1:27:37

E dip: Rashad,... Dr. Khalifa: But he cannot argue with this. E dip: My question is this. I discuss with them a lot in Turkey.

1:27:45

There is a very different way to shut them up. That is, I say "who created this material, this galaxy?"

1:27:55

They say "there is no being." E dip: I say "it is the same for my God." Dr. Khalifa: Right.

1:28:01

E dip: They also have the same problem. Dr. Khalifa: Yes. E dip: You have to say "who created this?" They would say Dr. Khalifa: "There was no begetting."

1:28:07

E dip: "I say the same thing for my God." Dr. Khalifa: Yes. E dip: "My God knows everything. Your god is material. And you have many gods."

1:28:16

Dr. Khalifa: Yes. E dip: "And they have no conscience. They have no control. And you believe those stupid gods."

1:28:22

Edip: "But I believe that God controls everything." "And you came up with a question that also you have this question."

1:28:28

Edip: "First, you give me an answer..." A man: I think that what has happened is that, even for myself as well as Chandler, the alarm goes off.

1:28:37

when you begin speaking of God in a physical type of sense. A man: People always have grown up to try to not fall into that trap of Jesus.

1:28:48

Dr. Khalifa: Exactly. See, when you, when you understand. A man: The alarm goes off. A man: And so, in terms of when we begin to try to grasp God in a physical sense, something human starts to come about.

1:29:02

Dr. Khalifa: Exactly. Mā Shā Allāh. A man: So, you know, the problem starts. A man: In terms of we have to work it out. Dr. Khalifa: Mā Shā Allāh.

1:29:09

A man: I think we should try to attempt it. Dr. Khalifa: You know, when we get a glimpse of God's Greatness, we realize the blasphemy of idol worship, the only unforgivable offense.

1:29:17

Now, this idiot, vice president of Islamic University of Medina, who says "is that all? God, that's all you have?"

1:29:25

I mean, can you imagine the blasphemy? How will he face God on the Day of Judgment? When he knows what he should, what will we know?

1:29:31

Dr. Khalifa: "Is this all?" A woman: What else? Dr. Khalifa: He wants to put next to God, Muhammad.

1:29:37

You can put Muhammad, Jesus, Abraham, Moses, you and me, and the whole solar system.

1:29:44

I mean, we're zero. It's nothing. Mathematically, it's nothing.

1:29:49

I can say "La Elaha Ella Allah, ten galaxies are creatures of God." "A million galaxies."

1:29:56

Put them next to God, where will they go? If our whole universe is the smallest,... I mean, look at the humiliation that God is doing to Satan.

1:30:04

Within the smallest universe, God gives him a tiny planet called Earth. He said "this is yours, Satan, just see if you can run it."

1:30:11

A man: It might be a very good idea just to show them something like this colliding galaxies shown on a video.

1:30:17

Dr. Khalifa: Yes. A man: Then, it will really kill everybody. Dr. Khalifa: Yes. In fact, I do have this, the video tape of the mathematical miracle of the Quran.

1:30:26

I have, it's all in between...
