'ETERNITY'

FADE IN

EXT. STREET - DAY - ESTABLISHING SHOT

With the Doric columned old building of the California Capitol in the background, sun rays splash off the tubas in a BRASS BAND playing cheerful music. A LARGE CROWD mumbles and bunches forward awaiting the Governor's arrival. A shiny black limo arrives, THE GOVERNOR heads for the official bunting draped dais, where a number of well dressed MEN AND WOMEN greet him warmly. After chatting for a few moments, the Governor and other dignitaries take their places at the dais. The Governor sits to the right of a rostrum studded with microphones. A DIGNIFIED WOMAN (JUDGE MALLOY) sits at the left side of the rostrum.

CLOSER SHOT - ROSTRUM

Camera features the microphone studded rostrum, the Governor sitting to the right of the rostrum, and Judge Malloy sitting to the left. After conferring with the GENTLEMAN next to her, Judge Malloy stands up and heads for the rostrum. The crowd quiets down to a hush.

With the rostrum in the center of the picture, Judge Malloy opens the ceremony.

JUDGE MALLOY

We are honored to welcome Governor Delaney to this historic event, on this historic day, March First 1985. In just a few moments, we will receive a special message from the people who founded the California Republic, fought and struggled to secure its independence, then, in 1850, made it part of the greatest country in the world, the United States of America.

The crowd applauds.

JUDGE MALLOY

And now, it gives me pleasure to introduce to you the man who will supervise this event, Governor

Delaney.

The governor stands up amid cheers and applause, shakes hands with Judge Malloy, then walks to the microphones. MEDIA PHOTOGRAPHERS flash their cameras, and TV CAMERAMEN zoom in on the Governor.

GOVERNOR

Thank you very much, judge Malloy.
Ladies and gentlemen, I am sure I
bored you to death with my
political speeches,...

Scattered laughter and cheers.

GOVERNOR

so, let us get down to action right
away. These gentlemen in front of
you will soon uncover the time
capsule we have so eagerly awaited.

Camera ZOOMS AWAY, follows the direction in which he points, and focuses on a pick up truck belonging to the State of California, carrying hoes and other tools. MEN are standing next to it, looking at the governor as he talks.

GOVERNOR

Our fortunate generation will soon
learn a little more of the
magnificent history of early
California, the lives and struggles
of the California pioneers, and
especially the events surrounding
the historic day of September 9,
1850, when the great State of
California became the thirty first
member of the union.

(Looking at the men with
the pick up truck.)

Gentlemen, now you may dig out the
capsule.

The men take out hoes and other tools from the truck, and dig around a rectangular granite stone.

CU - RECTANGULAR GRANITE STONE

The stone is engraved with the words:

INSERT:

UNDER THIS STONE LIES A CAPSULE CONTAINING A
MESSAGE FROM THE PEOPLE OF CALIFORNIA 1885
TO THE PEOPLE OF CALIFORNIA 1985.

(March 1, 1885)

The men remove the stone and some dirt, exposing a wooden box.

They extract the box, and hand it to the governor. One man with
a hammer helps the governor remove the nails and open the box.

The governor takes out a wad of newspapers, unwraps them, then
holds up a metal cylinder about 14 inches long and 7 inches wide.
The crowd cheers.

Camera ZOOMS IN on the old metal cylinder.

CU - METAL CYLINDER'S TAG

The metal tag carries an embossed message:

INSERT:

California Republic - California State

(1850 - 1885)

Camera PANS the crowd, then ZOOMS IN on a LITTLE GIRL carrying a
puppy. The girl looks at HER MOTHER and asks.

LITTLE GIRL

Is this the time capsule, Mom?

MOTHER

Yes honey. It was buried for a
hundred years.

GIRL

Wow! What's in it?

MOTHER

(Impatiently)

We'll soon find out.

The governor struggles to open the cylinder. Camera ZOOMS AWAY to show him signaling to one of the workers for a tool.

The Governor pries open the capsule, looks in it, then hands it over to Judge Malloy. Judge Malloy takes the cylinder, then approaches the rostrum with the governor still standing beside her. While reaching inside the cylinder, she addresses the crowd.

JUDGE MALLOY

The moment you've been waiting for.

She removes a thick roll of newspapers from the metal cylinder, opens it up, and finds another sealed cylinder wrapped in the roll of old newspapers.

THE SMALLER CYLINDER is about 6 inches long and 2 inches wide. She holds up the small cylinder, and speaks into the microphones.

JUDGE MALLOY

My goodness! We have a time capsule within a time capsule.

(Looking at the Governor)

This one is addressed specifically to you Mr. Governor.

Judge Malloy hands the smaller cylinder to Governor Delaney. He examines the cylinder and appears to be reading the message Embossed on its side:

A metal tag carrying an embossed message:

INSERT:

TO BE OPENED BY THE GOVERNOR OF CALIFORNIA, 1985,
SIXTY DAYS AFTER OPENING THE PRIMARY CAPSULE.

GOVERNOR

(Speaking in microphones)

Looks like we will have another ceremony on May First. I invite the media to my office on May First, ten AM, to carry the official opening of this secondary capsule.

Thank you.

camera ZOOMS IN on Judge Malloy as she opens up the stack of old newspapers. She takes out one newspaper at a time and reads the headlines into the microphones.

camera ZOOMS IN on each headline.

JUDGE MALLOY

This is The Hartford Courant:
CALIFORNIA JOINS THE UNION.

This is The Nashville Tennessean:
LINCOLN EMANCIPATES THE SLAVES.

This is The Philadelphia Enquirer:
LINCOLN SHOT IN THEATRE.

This is The Alexandria Gazette:
LEE SURRENDERS.

This is the New York Sun:
GRANT SWORN IN.

Judge Malloy pulls a rolled parchment out of the capsule, appears to read it seriously, then holds up the parchment and addresses the crowd.

JUDGE MALLOY

This is an announcement signed by Barclay Leland Stamford, the famous California pioneer, bequeathing one million acres of prime California land, from San Francisco to Santa Barbara, to his rightful heir.

The crowd murmurs.

JUDGE MALLOY

The announcement says that Mr. Stamford's heir shall come forward with the will within thirty days from now, in order to claim his or her fortune. It is supposed to be an extensive will, consisting of ten chapters, and was passed down through the Stamford family from Mr. Stamford to the lucky inheritor. So, with great anticipation, we expect the fortunate person to present the will to me before the end of March.

The property reverts to the State
of California if not claimed within
90 days from now.

INT. CBS TELEVISION STUDIO - NIGHT

The CBS Evening News with DAN RATHER is about to go on the air.
TECHNICIANS are preparing to air the news. Dan Rather opens with
news of the Stamford will.

CLOSE SHOT - DAN RATHER (fixing his tie, sweater, and jacket)

ANNOUNCER (V.O.)

This is the CBS evening news with
Dan Rather, March First 1985.

DAN RATHER

Good evening, California's century
old capsule was opened today in an
official ceremony headed by
Governor Delaney. As it turned
out,

INT. LIVING ROOM - NIGHT

Middle aged HUSBAND in a recliner chair is holding a magazine in
his hand. He moves his eyes back and forth between the magazine
and the TV.

WIFE is sitting at one end of a large sectional sofa, while teen
age DAUGHTER is laying down lazily at the other end, chewing gum.

Without interrupting the flow of the news, Dan Rather continues
his report.

DAN RATHER (On TV screen)

the capsule gave birth to a smaller
time capsule to be opened by the
Governor on May First, sixty days
from now.

ZOOM SHOT - TV screen

(Dan Rather continues)

The capsule yielded another
surprise, and ED BRADLEY was there
to tell us about it. Ed!

ED BRADLEY (On TV screen)

Dan, some lucky person is destined to inherit a fortune left by Barclay Leland Stamford. A parchment was found in the time capsule announcing that the California pioneer has left an extensive will, consisting of ten chapters, detailing his life experiences, knowledge, and advice, and bequeathing more than a billion dollars worth of real estate to the lucky inheritor. There is a possibility, Dan, that the will is lost or misplaced and may never be found. Stamford's announcement stipulates that if no one comes forward with the will within 30 days, or the property is not claimed within 90 days, the property reverts to the State of California. So, we'll just have to wait and see what happens.

INSERT:

Various kinds of calendars (digital, desk, wall, etc.) indicate the passage of the 30 day period, interspersed with newspaper headlines, radio reports, and TV newscasts stating:

SIX PEOPLE CLAIM TO BE STAMFORD'S HEIRS;

GOVERNOR DELANEY APPOINTS COMMITTEE TO EXAMINE THE STAMFORD WILLS;

MORE THAN A HUNDRED WILLS SUBMITTED SO FAR;

STAMFORD WILL COMMITTEE HIRES HAND WRITING ANALYSTS;

836 CLAIMANTS FOR THE STAMFORD FORTUNE;

836 THE FINAL COUNT;

HANDWRITING EXPERTS EXCLUDE 798 WILLS AS BOGUS;

EXPERTS AGREE: 38 WILLS MATCH STAMFORD'S HANDWRITING.

INT. GOVERNOR'S OFFICE - DAY

NEWSPAPER AND TV CORRESPONDENTS gather in the Governor's office to broadcast the ceremony for opening the secondary capsule.

GOVERNOR DELANEY

Well, ladies and gentlemen, May First is finally here, and, as stipulated by the fathers of California, we are here to open the secondary capsule. This is certainly a unique experience. I have never heard of a time capsule within a time capsule; have you? Well, be that as it may, let us see what kind of surprise this capsule brings. Not another capsule, I hope.

JUDGE MALLOY

That would be an old California joke.

The crowd laughs, then quiets down as the governor breaks the capsule's seal. The suspense heightens. The governor pulls out a single sheet of rolled parchment. He opens it, as the TV cameras zoom in.

CLOSE SHOT - THE PARCHMENT

GOVERNOR DELANEY (V.O.)

Well, well, well; it has to do with the Stamford will. Maybe this piece of paper will solve the puzzle of 38 authentic wills. Ladies and gentlemen, here is what the document says:

In Barclay Stamford's handwriting, the contents of the parchment are readable. CAMERA MOVES DOWN the parchment with the Governor's voice, as far as point No. 3.

INSERT:

I Barclay Leland Stamford have written this message in secrecy, even without my lawyer, in order to provide inviolable authenticating proof for my will. I have coded my will mathematically as follows:

1. Chapter One contains 722 P's.

2. Chapter Two contains 2014 A's,
608 G's, and 950 R's.

3. Chapters Three and Nine contain
a total of 228 C's.

INT. CALIFORNIA CAPITOL - CONFERENCE ROOM - DAY

The Stamford Will Committee (FIVE MEN and THREE WOMEN), chaired by Judge Malloy, is shown sitting at a large conference table.

Coffee cups, empty glasses, soda bottles, lunch bags, left-over sandwiches, and scattered papers and pencils are all over the table.

Stacks of booklets (the wills) are visible on the table.

The committee members look exhausted. Each member is holding a photocopy of one of the Stamford wills, and following the particulars of its mathematical code as recited by Judge Malloy.

Judge Malloy begins where Governor Delaney's voice faded away.

Camera ZOOMS IN on the members' faces, and on the hand-written will, pointing out details of the code.

JUDGE MALLOY (V.O.)

This is the only will so far that conforms to the code. I am almost positive, now, that this is it. Let us move on to item number four.

Item number four says:

Chapters Four and Six consist of nine paragraphs. Here is Chapter Four, and it contains one, two, three, four ...four paragraphs.

This means Chapter Six should consist of five paragraphs; and ... it sure does.

All members confirm that Chapters Four and Six of the will do contain nine paragraphs.

ANGLE on each one of the eight members (the five men and three women) shows each of them somehow confirming that he or she has counted nine paragraphs in Chapters Four and Six.

Judge Malloy moves on to the next item.

JUDGE MALLOY

This is certainly an extensive code. Stamford, obviously, wasn't taking any chances. But this is ridiculous.

COMMITTEE MEMBER

The man must have been a genius. What a magnificent way to guard his fortune!

JUDGE MALLOY

(Looking at the will)

Back to the code. Pages 19, 38, and 57 contain 285, 209, and 171 words, respectively. Wasn't it enough what he specified so far?

Camera PANS all members of the committee as they busily count the words on Pages 19, 38, and 57.

Camera ZOOMS in once in a while to show the members' fingers counting the words.

All members of the Committee agree that the will complies with this specification as well.

JUDGE MALLOY

Here is the final specification. Thank God. The word "Oxalis" is mentioned throughout the will seven times, and is deliberately misspelled as "Axolis" in Paragraph 2 of Chapter 8. Wow. At least this one is easy to check.

Camera ZOOMS IN on the will being examined by some committee members, clearly showing that the word "Oxalis" is mentioned seven times in the will, with the misspelling as "Axolis" confirmed in Paragraph 2 of Chapter 8.

While other contents of the will appear out of focus, the word "Oxalis" is brought into focus seven times, emphasizing that one of them is misspelled as "Axolis."

INT. ABC NEWS STUDIO - MORNING

DAVID HARTMAN and CREW are preparing to air ABC's "Good Morning

Apocryph."

DAVID HARTMAN

(Looking at TV camera)

In case you haven't heard yet, the Stamford Will Committee has finally completed its work. One authentic will was positively recognized through an elaborate mathematical code that Mr. Stamford had incorporated into his will.

INTER TITLES OVER

Superimpose Main and Credit Titles on atmospheric shots of extensive preparations for a major space odyssey.

MEN and WOMEN in NASA uniforms are moving equipment, driving trucks, loading and unloading materials and instruments.

Inside, hundreds of technicians in the Mission Control Center (Johnson Space Center, Houston) are checking all kinds of instruments, computers, and TV monitors.

Outside, a mammoth rocket/spaceship dominates the background.

END TITLES

SPECIAL MESSAGE

Camera ZOOMS IN to a LOW ANGLE CU of a rocket tip to serve as backdrop for a special message.

A ROLLUP slowly crawls into infinity.

ALL EVENTS OF THIS MOTION PICTURE ARE BASED
ON A MATHEMATICALLY CODED DOCUMENT WITH A
BUILT-IN AUTHENTICATING PROOF.

THE DOCUMENT WAS DISPATCHED TO THE PLANET EARTH
IN THE YEAR 610 AD FROM AN EXTRA TERRESTRIAL
SOURCE FAR, FAR, AWAY.

THE DOCUMENT'S UNDENIABLE PHYSICAL EVIDENCE
WAS DISCOVERED AND COMPUTER DECODED BETWEEN

AD 1970 AND AD 1980 BY EGYPTIAN/AMERICAN
SCIENTIST RASHAD KHALIFA, PH.D.

EXT. CAPE CANAVERAL - DAWN

The backdrop is a grand scale, sophisticated, space age equipment. Giant rocket/spacecraft is poised on the launch pad.

Countdown indicator is running at 04:37:19.

Beehive busyness in preparation for a major space odyssey.

SIX ASTRONAUTS (THREE MEN & THREE WOMEN) and THREE ROBOTS arrive in a mini bus to the launch tower, disembark, and enter the launch tower.

TV ANNOUNCERS are broadcasting the event.

EXT. OVERLOOKING CAPE CANAVERAL - SUNRISE

PAN SHOT

THREE TV ANNOUNCERS are sitting at a table with a microphone in front of each announcer. They describe "Operation Intergalactic" to their audience, and discuss it with one another.

Camera ZOOMS IN on each speaking announcer.

Large crowd is there to watch the historic lift off; many people with binoculars.

FIRST ANNOUNCER

As you see, six astronauts and three robots are going on this intergalactic odyssey. Because of the required speed, far beyond the light barrier, these astronauts will be able to travel back and forth into the time dimension, yet stay in touch with MCC, the Mission Control Center.

SECOND ANNOUNCER

From the deep past, they will actually manipulate their communication system to our year, 2242, and keep MCC informed of all developments. It should be

extremely exciting.

TV MONITOR switches picture from the announcer to the astronauts as they walk through the hallways of a massive launch tower.

Camera ZOOMS IN on each astronaut as the announcers talk about them.

FIRST ANNOUNCER (V.O.)

Here comes COMMANDER VIRGIL MOSS, the only astronaut to exit the solar system more than a dozen times. He flew "Eternity", the only self-sufficient intergalactic shuttle, on her maiden voyage six years ago.

THIRD ANNOUNCER (V.O.)

You can easily say that he knows about the Milky Way Galaxy more than anyone in the world.

INT. LAUNCH TOWER - DAWN

Astronauts are walking down a hallway in their space uniforms, heading for the elevator. The TV announcers' voices continue to describe the events. Camera ZOOMS IN to coincide with the announcers' comments.

FIRST ANNOUNCER (V.O.)

You bet. CAPTAIN KATHLEEN SHEARD now comes in view. She's another space veteran, with years of experience.

And here comes MAJOR ANDERSON, Jane Anderson, followed by MU-ONE-NINE. Mu-one-nine's friends nick name him "Mr. Siamese" for obvious reasons.

Mu-one-nine is a bi-cephalous robot whose upper half rotates to perform two jobs, on two separate instruments, simultaneously. He stands six feet tall, coated with gleaming platinum patina, and moves on multi-directional coasters.

FIRST ANNOUNCER (V.O.)

The two astronauts you see walking together are MAJOR SHIRLEY VAN CLEEF and CAPTAIN RAYMOND CATTON.

And here comes CAPTAIN MIKE BARAKAT

arm in arm with BIT-SEVENTY-SIX,
roaring with laughter as usual.
Right behind them is OCTA-OHM-R.

SECOND ANNOUNCER (V.O.)

You know, Greg, we should say that
Mike Barakat is walking arm in arms
with Bit-Seventy-Six.

Bit-Seventy-Six is a 5 foot half cone, equipped with nine extend-
able arms and a complete circle of gauges, and color-coded dials.
At the end of each arm, a retractable four-pronged hand opens up
to reveal a light-emitting eye.

Octa-Ohm-R, on the other hand, is a two-armed, four footer,
celadon porcelain plated master brain, with an eight-headed top
that rotates in many directions like a Rubik's cube. His chest
is equipped with a computer display terminal that looks like a
small TV screen.

INT. SPACECRAFT - CONTROL ROOM - DAY

Commander Moss takes his place at a rotating semi-circular desk
bristling with lighted dials, buttons, and toggle switches. The
commander's station faces the giant viewscreen beneath which is a
long counter teeming with instruments, gauges, controls, and
flashing lights

Major Jane Anderson, Captain Kathleen Sheard, Captain Raymond
Catton, and Major Shirley Van Cleef take their designated
stations at the front counter.

Mike Barakat, Bit-Seventy-Six, and Octa-Ohm-R take their stations
at another counter to the right and slightly behind the
Commander's console.

Mu-One-Nine insinuates himself between two six foot high
rectangular cubes studded with gauges, dials, small TV screens,
and switches.

INT. SPACECRAFT - CONTROL ROOM - DAY

COMMANDER MOSS

Check breeder reactor cells.

Mu-One-Nine flips a switch, notes an indicator labeled "Nuclear
Fuel" light up green.

MU-ONE-NINE

Check.

COMMANDER MOSS
Check oxygen generator.

Bit-Seventy-Six pushes a button and gets a green light below a computer display terminal. Camera ZOOMS IN on the small screen, to show that it reads "5.32 cu.ft/hr" and clicking upward.

BIT-SEVENTY-SIX
Check.

COMMANDER MOSS
Check Food Synthesizer.

MU-One-Nine flips a couple of switches on the other rectangular box, notes green lights, and reports.

MU-ONE-NINE
Check.

COMMANDER MOSS
Check Gravity Simulation System.

Octa-Ohm-R clicks, grinds, rotates his Rubik's cube head, and manipulates his instruments, then reports.

OCTA-OHM-R
GSS is perfect.

COMMANDER MOSS
Check time and calendar indicators.

Captain Mike Barakat looks at a time indicator in front of him.

Camera ZOOMS IN to show that it reads in computer LED numerals "06:46:00".

Camera ZOOMS AWAY to an ANGLE FAVORING MIKE BARAKAT. He flips a switch and the time appears on the main viewscreen, ticking.

Barakat flips another switch and the date is displayed on the main viewscreen reading "19 November 2242".

COMMANDER MOSS
Check Emergency Locator Transmitters.

Major Anderson pushes a number of buttons. Dials light up.

JANE ANDERSON
ELT's are alright.

COMMANDER MOSS

Check Emergency Position Indicating
Beacons.

Octa-Ohm-R clicks, grinds, and turns his eight headed top as he
flips a number of switches and pushes a number of buttons.

OCTA-OHM-R
EPIB's are OK.

COMMANDER MOSS
Check Time Advance Monitor.

Shirley Van Cleef pushes a button and flips a switch. The giant
viewscreen displays the calendar at "19 November 2242".

Van Cleef flips another switch. The calendar clicks to a lower
year, stopping at "5 April 1941".

Van Cleef pushes a button. The screen flickers from date to a
picture of HITLER giving a flaming speech before a huge crowd.

Van Cleef pushes a button and flips a switch. Picture changes
back to calendar, clicking away, and stopping at "11 August
1330".

Van Cleef pushes a button. Calendar reverses all the way from
"11 AUGUST 1330" to "19 NOVEMBER 2242".

SHIRLEY VAN CLEEF
TAM checks fine. Too bad we can't
monitor the future, so we can enjoy
our success now.

COMMANDER MOSS
Kathleen, would you check Mission
Control Center's communication?
And you, Ray, would you check all
Laser Relays and Tracking Stations?

TWO SHOT - KATHLEEN AND RAY

Kathleen Sheard and Raymond Catton get busy with their instru-
ments.

KATHLEEN SHEARD
All systems go.

RAYMOND CATTON
Same here.

COMMANDER MOSS
Display countdown.

Mike Barakat flips a switch, and the giant viewscreen displays "03:23:57:19", and continuing to click downward.

COMMANDER MOSS
Prepare for launch.

All crew members strap themselves to their stations. Octa-Ohm-R clicks, grinds, turns his Rubik's Cube heads, and pushes a button.

The whole floor slowly grinds and grates as it tilts 90 degrees, causing everyone to shift their gaze upward. Countdown on the screen clicking down at "00:00:57".

KATHLEEN SHEARD
So long, MCC. We'll stay in touch.
I'll write if I get work.

MCC (V.O.)
You better do that.
(Laughter)

EXT. CAPE CANAVERAL - DAY

Camera ZOOMS AWAY slowly from a close up of the rocket's tip, revealing the spacecraft's name "Eternity" on one side, and the "United States of America" on the other side.

Camera moves down in slow motion to emphasize the colossal size of "Eternity", stopping on the NASA logo at the base of the rocket/spaceship.

Camera keeps moving downward until some of Eternity's 95 engines appear.

PAN SHOT

A distant view shows lift-off with "Eternity" engulfed in a gigantic fiery cloud and a great rumble.

MCC (V.O.)
We have lift off.

INT. SPACECRAFT - CONTROL ROOM

Main viewscreen shows time clicking at "07:04:14".

JANE ANDERSON
We have Mach Two.

MIKE BARAKAT

(Speaking to Bit-Seventy-

Six)

Hey, Mr. Bit, haven't you forgotten something?

BIT-SEVENTY-SIX

please don't rush me. I can barely keep up with my nine arms and nine eyes. I have a feeling some robotics designer has goofed.

Barakat laughs loudly.

Bit-Seventy-Six pushes a couple of buttons, and flips a couple of switches simultaneously.

The giant screen displays Cape Canaveral and the Florida coast line, diminishing away.

CLOSE SHOT - MAIN VIEWSCREEN

City streets are reducing to map size. Clouds are flying away. The American continent quickly comes into view, then, even more rapidly, the whole planet.

CU ODOMETER

Odometer reads "152,532" miles, and clicking away.

Bit-Seventy-Six pushes some buttons and flips some switches, simultaneously.

CLOSE SHOT - MAIN VIEWSCREEN

Earth picture on the screen shrinks to fill the left half of the screen.

Mu-One-Nine manipulates his rectangular boxes.

CLOSE SHOT - MAIN VIEWSCREEN

The other half of the screen flickers, then stabilizes on a picture of the moon approach.

CU ODOMETER

Odometer reads "248,900 MILES", and ticking upward.

CLOSE SHOT - MAIN VIEWSCREEN

split screen shows the Earth diminishing, as the moon's picture dominates, then races by.

Right half of the screen shows a star studded black sky, while the left half shows the moon diminishing with the Earth visible in the far horizon behind the moon.

Kathleen Sheard flips a switch, then talks into her head set.

KATHLEEN SHEARD
MCC, just passed the moon. Quite romantic.

Octa-Ohm-R clicks, clanks, rotates his multi-head and manipulates his instruments, then reports.

OCTA-OHM-R
Moon EPIB number 14 checks loud and clear.

JANE ANDERSON
Moon colony 209 appears to be in trouble. Their main oxygen generator is out of order. Kathleen, would you summon help for them through MCC?

KATHLEEN SHEARD
Roger.

Mike Barakat pushes a button.

Camera ZOOMS in on the odometer of his desk, showing it clicking at "78,090,095 MILES".

Bit-Seventy-Six flips a few switches, then pushes a button, causing the screen to display the sun approach.

"Eternity" zips by the sun.

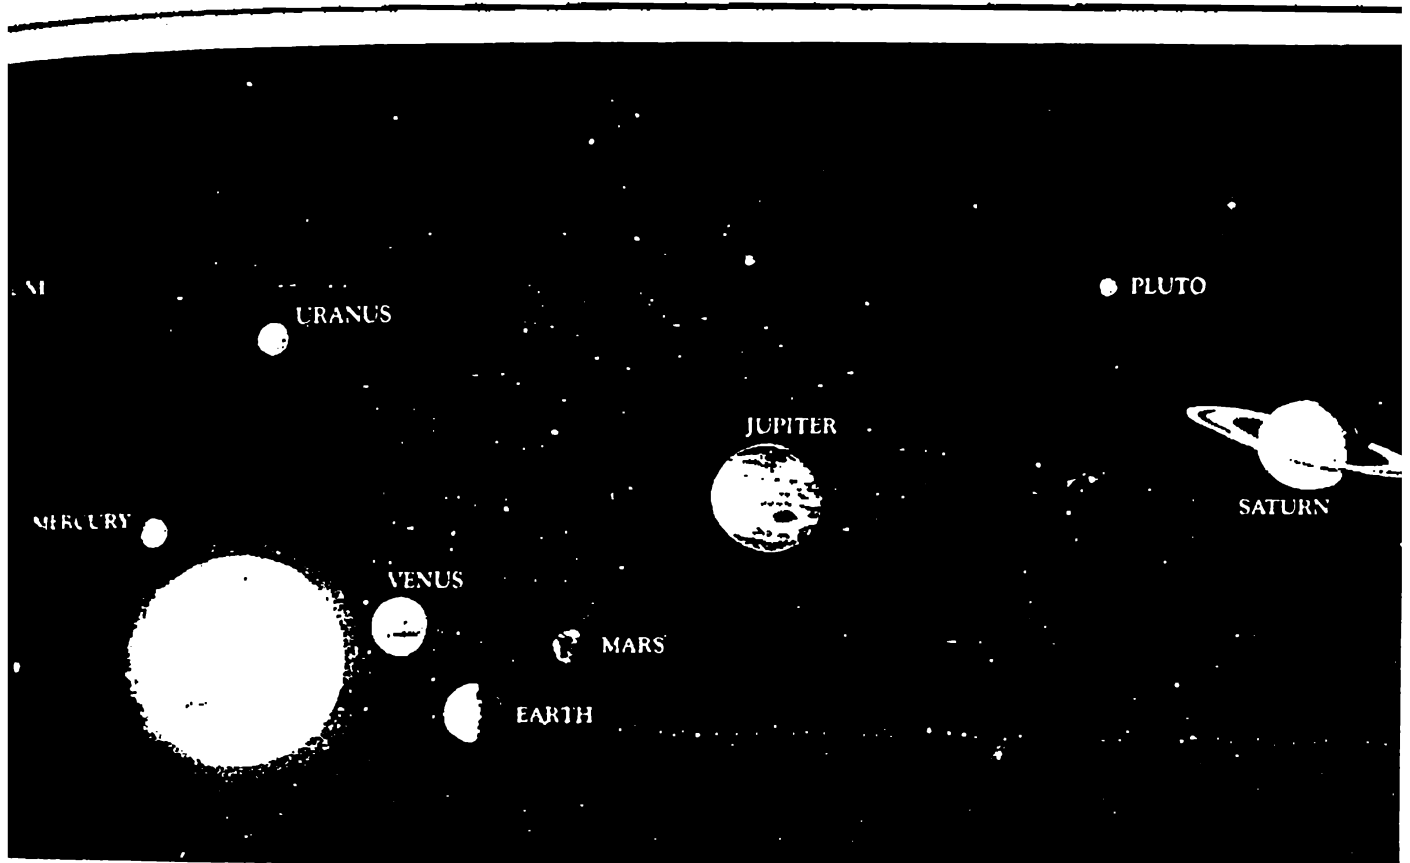

Camera ZOOMS at the odometer on Mike Barakat's desk, showing that it reads "93,115,200 MILES".

Main viewscreen shows a backward view, looking at the sun moving farther back.

The whole solar system comes in view as shown in Figure 1.

CU MAIN VIEWSCREEN

Solar system fills the screen as shown in Figure 1.

All the planets lie on one side of the sun this month but are far from a straight-line pattern. Instead they span an angle of 95 degrees. From this viewpoint, low over the plane of the solar system, they appear even more spread out.

FIGURE 1: THE SOLAR SYSTEM AS VIEWED BY "ETERNITY."

INT. SPACESHIP - CONTROL ROOM

KATHLEEN SHEARD
(Speaking into her head
set)
Exiting the solar system.

MCC (V.O.)
Roger.

CU ODOMETER

Odometer reads "4,370,247,019 MILES".

COMMANDER MOSS
Maximize momentum

Jane Anderson pushes a few buttons. Octa-Ohm-P rattles, grinds, rotates his cube head, then flips a couple of switches.

CU SPEEDOMETER

Speedometer clicks past "680,000 MILES/SECOND".

MIKE BARAKAT
(Speaking into his
headset)
Hold on, we're breaking the light
barrier!

Barakat turns a few knobs, then looks at the main viewscreen.

CLOSE SHOT - MAIN VIEWSCREEN

Picture on the screen shows the solar system diminishing away and the stars elongating into luminous streaks.

CU - TIME GAUGE - it reads "21:10:36" and ticking.

Time gauge slows down, stops momentarily, then reverses direction and speeds up its downward ticking from "21:17:48", to "20:33:38", then to "11:43:04".

CU - CALENDAR GAUGE

Calendar gauge follows suit, reversing from "19 November 2242", down to "07 March 2204", then to "23 October 2185".

FULL SHOT - CONTROL ROOM

Crew members unstrap themselves and move about the spaceship.

Raymond Catton walks over to Mu-One-Nine.

RAY CATTON

Hey, Siam, what are you cooking for dinner tonight?

MU-ONE-NINE

Synthetic roast turkey. Do you prefer turkey gears or springs.
(Laughter)

COMMANDER MOSS

Activate lateral compartments.

Mu-One-Nine throws a few switches on both rectangular boxes, simultaneously.

EXT. SPACE

CLOSE UP of the spacecraft starts at the tip and moves in slow motion down the side of "Eternity" showing parts of the name "Eternity" on one side and "United States of America" on the opposite side.

One-third of the distance down, a compartment starts to project telescopically on the left side of the spaceship, grinding and clanking as it spreads out like a giant round wing.

Camera completes its sweep, resting behind the base of "Eternity" to reveal her 95 engines. "Eternity" looks lopsided from this view, with one wing on the left side.

INT. SPACECRAFT - CONTROL ROOM

Octa-Ohm-R clicks, grinds, rotates his heads, then pushes a few buttons.

EXT. SPACE

Camera resumes its sweep near the base of the craft, moves up slowly on the right side, and shows the second compartment projecting. This renders "Eternity" symmetrical.

INT. SPACECRAFT - CONTROL ROOM

MIKE BARAKAT

(Looking at his watch)

OK, folks, according to my chrono-
meter, it's six PM, August 17th,
1938; time for dinner.

Camera ZOOMS IN on calendar to confirm Barakat's statement,
showing "17 August 1938".

SHIRLEY VAN CLEEF

My first meal in 304 years, not bad
for a crash diet!

FULL SHOT - CONTROL ROOM

All three robots are absent. Crew members walk out of the
control room.

INT. SPACESHIP - HALLWAY

Crew members walk out of the control room through a sliding door,
into a hallway with an arched ceiling. They pass by a round door
to their right, carrying a sign: "GAME ROOM".

A few steps past that door, they turn left into a round sliding
door carrying a sign: "DINING ROOM."

INT. SPACESHIP - DINING ROOM

The dining room is plush. A large dining table dominates the
center of the room, and is set beautifully for six people. An
abundance of sumptuous food is arranged on a long counter buffet
style, including a golden roasted turkey, sweet potatoes,
cranberry relish in little silver dishes, wild rice, delicate
little endive salads and a french pastry cart with everything
from eclaires to Napoleons.

Bit-eventy-Six is carving the turkey and serving three people
simultaneously. The six astronauts are shown enjoying their meal
and each other's company.

MIKE BARAKAT

What a gastronomic delight. Too
bad, Mr. Siam, you can't enjoy this
great food.

MU-ONE-NINE

Pity you are so desperately
dependent on that primitive organic
stuff. All I need is a little
nuclear breeder cell and I'm good

indefinitely. It's delicious, and perpetual. In fact the more I consume my breeder cell, the more it grows. So, don't feel sorry for me.

MIKE BARAKAT

You know I am kidding Siam...just kidding. Sometimes I do envy you.

RAYMOND CATTON

(Wiping his mouth with a napkin)

Who is going to challenge me for a game of pool?

KATHLEEN SHEARD

(Throws her napkin down in a mock-challenging gesture)

I do!

Ray and Kathleen get up and leave the dining room.

INT. SPACESHIP - HALLWAY

Ray and Kathleen are shown exiting the dining room. They walk a few steps, then turn to their left into the sliding door with the sign: "GAME ROOM."

INT. SPACESHIP - GAME ROOM

This area is awesome, filled with sophisticated video game units, a ping pong table, and a pool table.

Just as Ray and Kathleen start their pool game, Bit-Seventy-Six rolls in carrying 9 cues in his nine arms.

BIT-SEVENTY-SIX

I, too, challenge you, captain Catton
(laughter).

INT. SPACECRAFT - CONTROL ROOM

Crew members assemble in the control room. Commander Moss walks over to the computer encyclopedia located to the south of his console.

MAJOR JANE ANDERSON

You know, we can't play videogames forever; I'm afraid I'll get bored.

Commander Moss is consulting the Computer Encyclopedia.

COMMANDER MOSS

Getting bored? You must be joking! This is the last place on earth...uh..excuse me... in the galaxies, for getting bored. You're about to enjoy a most unique entertainment. The calendar is now clicking past 1868 AD.

ZOOM SHOT - CALENDAR GAUGE

Shows the calendar clicking from "AD 1866" to "AD 1865".

COMMANDER MOSS

(Continuing)

Shirley, when it hits AD 1799, monitor the current events on Earth.

SHIRLEY VAN CLEFF

Yes Sir! Should be any time now.

CU CALENDAR GAUGE

The calendar reads "AD 1800", then flips to "AD 1799."

Shirley Van Cleef pushes a few buttons, and flips a couple of toggle switches.

The image on the main viewscreen flickers momentarily then stabilizes with a helicopter shot of the pyramids and Sphinx of Egypt.

EXT. THE PYRAMIDS OF EGYPT - DAY

PAN SHOT

Camera moves down from a helicopter shot of the pyramids to the ground level, and shows NAPOLEON BONAPARTE and his TROOPS admiring the ancient structures.

A turbaned EGYPTIAN GUIDE, wearing an Egyptian flowing "galabeyyah", is narrating the story of the pyramids in Arabic.

A TRANSLATOR renders the guide's words into French, while

Napoleon listens in fascination

EGYPTIAN GUIDE

Al Malik Khufu bana hazal Mabna Al
jabbar faqat leyakoona maqbaratan
lahu wa lizawgatihi, wa amara
bidafni guthamanihi fil haram maa
kammiyyatin kabeeratin minal kunooz
wal maakoolat. Kan Al-Malik yumin
bilbaath.

ENGLISH SUBTITLES

King Cheops built this mighty
pyramid just to serve as a grave
for him and his queen. He decreed
that his body shall be placed in
the king's chamber, along with a
vast treasure and a feast, food to
last. He believed in resurrection
after death and he wanted to be
prepared.

INT. SPACESHIP - CONTROL ROOM

From a FULL SHOT of the control room, camera ZOOMS in on the main
viewscreen showing the French interpreter rendering the Egyptian
guide's words into French, with Napoleon listening.

SHIRLEY VAN CLEEF

I didn't know Napoleon invaded
Egypt!

COMMANDER MOSS

I am glad you're learning something
new.

(While consulting the
Computer Encyclopedia)

Here is something else you will
find interesting. Advance monitor
to the year 1216 BC.

SHIRLEY VAN CLEEF

I think I will turn in for now, if
you don't mind. By the time I come
back, it should be 1216 BC anyway.

CU CALENDAR GAUGE

Calendar is shown clicking down from AD 893 to AD 665.

FULL SHOT - CONTROL ROOM

Shirley Van Cleef leaves the control room.

INT. SPACESHIP - HALLWAY

Shirley Van Cleef exits the Control Room into the arched hallway. She passes a round closed door to her right, labeled: "GAME ROOM", then a similar closed door to her left, labeled: "DINING ROOM", and another door to her right, labeled: "EXERCISE ROOM".

Just as she reaches a sliding door to her left, labeled: "SLEEPING SUITES", she hears SOUNDS of footsteps behind her in the hallway.

FULL SHOT - HALLWAY

It's Mike Barakat and Kathleen Sheard following the footsteps of Shirley Van Cleef.

SHIRLEY VAN CLEEF
Are you going to sleep too?

KATHLEEN SHEARD
Nah...we're going to the exercise
room first. Good night Shirley.

While Shirley enters through the sliding door labeled "SLEEPING SUITES", Kathleen and Mike turn right and enter through a sliding door labeled: "EXERCISE ROOM".

INT. SPACECRAFT - CONTROL ROOM

Shirley Van Cleef, Kathleen Sheard, and Mike Barakat are missing.

Picture on main viewscreen focuses on a cluster of stars, with five major stars constituting what looks like a helicopter view of a pyramid (picture of the Constellation Cygnus).

CU VIEWSCREEN

RAYMOND CATTON (V.O.)
Hey, Octa, what are we looking at?

FULL SHOT - CONTROL ROOM

Shirley Van Cleef, Kathleen Sheard, and Mike Barakat are missing. Octa-Ohm-R clicks, grinds, turns his multi-heads, pushes a number of buttons, then views the small screen on his desk.

OCTA-OHM-R
According to this, it's the
constellation Cygnus, also known as
the Northern Cross.

Suddenly, LOUD ALARM sounds, and RED LIGHTS blink and flash throughout the spaceship.

INT. SPACESHIP - HALLWAY

Shirley Van Cleef rushes out of the sleeping area. Mike Barakat and Kathleen Sheard dart out of the exercise room, still in their exercise attire.

INT. SPACESHIP - CONTROL ROOM

Alarm continues to SOUND, and the RED LIGHTS continue to flash and blink.

All crew members assume their positions at their stations, strap themselves in, and adjust their head sets.

The situation is tense.

Mike Barakat pushes a few buttons and turns a few knobs.

Mu-One-Nine flips a number of switches on both sides of his bicephalous body.

Raymond Catton turns TV monitor on his desk "ON"; it flickers, then shows a completely black picture.

Octa-Ohm-R clicks, grinds, and turns his heads as he throws a few switches.

Bit-Seventy-Six is busy. His nine arms are turning knobs and pushing buttons as eyes at the tips of his arms light up simultaneously.

OCTA-OHM-R
We are heading for a black hole.

Raymond Catton flips a toggle switch. The black picture on his small screen appears on the main viewscreen.

CU VIEWSCREEN

Screen shows a vaguely visible round black object, approaching fast.

FULL SHOT - CONTROL ROOM

Alarm continues to sound. Red lights continue to flash and blink.

COMMANDER MOSS
(In great hurry)
Bear to the right.

Major Jane Anderson turns knobs, throws toggle switches, and pushes a few buttons.

EXT. SPACE

View from behind "Eternity" shows right half of the spaceship's engines turning OFF, with the left half intensifying fire.

INT. SPACESHIP - CONTROL ROOM

All eyes are looking anxiously at the main viewscreen. It shows the spaceship barely averting crash with the black hole.

Alarm and red flashing lights stop. All crew members sigh with great relief.

Screen continues to show a rear view of the black hole moving away from "Eternity".

Light beams from the craft's engines and other sources are shown bending under the gravitational pull of the black hole.

MIKE BARAKAT
Thank God we're faster than light.
After this horrifying experience, I
am going to turn in. See you next
shift.

Mike Barakat walks out of the control room.

INT. SPACESHIP - CONTROL ROOM

Crew members are sitting at their stations.

CU CALENDAR GAUGE

Calendar gauge is ticking down from "AD 11" to "0", then "1 BC" as a BC suffix appears.

CU ODOMETER

Odometer is ticking upward at "456,817,399,152 MILES".

FULL SHOT

Octa-Ohm-R clicks, clanks, turns his multi-head, pushes a few buttons, then makes an announcement.

OCTA-OHM-R

We should be exiting the Milky Way
any time now. Ladies and
gentlemen, welcome to
Intergalactica.

COMMANDER MOSS

Ray, monitor intergalactic entry.

Ray Catton turns a number of knobs, and flicks a number of switches.

The main viewscreen flickers then shows a picture of a star studded black horizon.

CLOSE SHOT - MAIN VIEWSCREEN

Stars fly on both sides of the spaceship as they turn into long luminous streaks.

Light from a distant sun creates a bright glow around an oval planet.

The density of the stars ahead increases to create a crowded sky. "Eternity" is racing towards them, and they appear approaching.

FULL SHOT - CONTROL ROOM

COMMANDER MOSS

Split screen.

Bit-Seventy-Six pushes a few buttons and flips a few switches. Picture on the main viewscreen shrinks to the left half, and a label appears under it saying: FRONT.

Mu-One-Nine manipulates a few controls on his rectangular boxes. The other half of the screen flickers, then shows a different view of a star-studded black horizon, with the stars streaking away from the spaceship. A label under the picture reads: BACK.

Suddenly, the cluster of stars ahead appears to surround "Eternity", then passes by in long luminous streaks, causing the left half of the screen to turn completely black except for a distant faint glow. The right half of the screen shows the star cluster streaking away.

COMMANDER MOSS
Kathleen, would you contact MCC and report our location?

KATHLEEN SHEARD
Yes, sir. Octa, please send your latest EPIB report.

Octa-Ohm-R clicks, clanks, turns his Rubik's cube head, and flicks a couple of switches.

OCTA-OHM-R
It's on your small screen now.

Kathleen Sheard pushes a few buttons. Camera zooms in to show the LED computer numerals of the calendar gauge on Kathleen's desk turning fast, then stopping at "AD 2242".

ANGLE on Kathleen as she adjusts her head set, turns a few knobs, then contacts MCC.

KATHLEEN SHEARD
MCC. Come in MCC.

Radio STATIC is heard before MCC comes in.

MCC (V.O.)
We read you loud and clear Eternity. You should be exiting the Milky Way any time now. You lucky rascals!

KATHLEEN SHEARD
As a matter of fact, we just did. Complete void out here; but it feels great. See you later earthlings.

She pushes a few buttons, takes off her head set, then talks to Shirley Van Cleef.

KATHLEEN SHEARD
What earth-shaking events are you planning to show us today, Shirley.

MIKE BARAKAT

Not earth shaking; galaxy shaking.
(Laughter)

COMMANDER MOSS

(Standing by the Computer
Encyclopedia)

Funny you should use that
expression. Down right ironic.
Earth shaking is the literal word
for it. Shirley, stabilize your
monitor at the year 1216 BC.

ANGLE on Shirley Van Cleef as she turns a few knobs and flips a few switches.

CLOSE SHOT - Main Viewscreen

Picture on the screen flickers, then a picture appears of the Israelites camping in Sinai.

EXT. SINAI DESERT - DAY

PAN SHOT

The ISRAELITES are camping in the desert. Circle of MEN and WOMEN are chatting by a fire where quails are being roasted on a stick.

SOME WOMEN are shown shaping manna into pita-like bread and baking them in a primitive stone oven.

A large boulder with water gushing out of 12 holes in it is shown in the background.

Two bearded middle aged men (MOSES and AARON) are walking towards a sand dune. Moses climbs up the mound, then calls on the people to speak to them with an obvious speech defect, yet with dignity.

MOSES

Lishin to me, everybody. Pleaaj
leave everyching and come here.

FULL SHOT - ISRAELI CAMP

The people slowly gather around Moses.

MOSES

I have to leave you for forty
nightsh, for I have been shummoned
to vijit with the Lord and shpeak

with Him.

A couple of people snicker. Moses stares them down, resuming his speech.

MOSES

Perhapsh I can bring back Shome good newj. Aaron will take my plashe among you, sho pleaj obey him and follow hij direcchion. And pleaj remember to objerve the Lord in everything you do. Remember Hij favorj, and that He delivered you from shlavery in Egypt. Shalom.

Moses hugs a few people as he bids them farewell, then walks away towards a hill.

EXT. SINAI - TOP OF A HILL - DAY

Just as Moses approaches the top of the hill, he hears the VOICE OF GOD.

VOICE

Moses, this is your Lord speaking. Remove your sandals, for the ground you are standing on is sacred.

Moses is awed. He bends down to remove his sandals, then steps to a flat clear area, and falls to his knees.

MOSES

Pleaje fiksh my shpeech defect, my Lord. I..would be a more effective meshshenger, if I can talk better.

VOICE

I can fix your speech right this second, Moses, but it is not to be. I deliberately impart some kind of a superficial defect upon each one of My messengers. I want My creatures to come to Me, not because of your eloquence or charisma, but because they recognize Me as absolute sovereign of the universe.

MOSES

Allow me to shee You, my Lord. Let me look at You.

VOICE

It is a physical impossibility,
Moses. Look at that mountain over
there.

Moses looks to his right. Camera PANS to a distant mountain with
a sharp peak (Picacho Peak, Arizona).

VOICE

If it stays in place, then you can
see Me.

EXT. SINAI DESERT ÷ ISRAELI CAMP - DAY

The Israelites are roaming about their desert camp. Suddenly, a
thick cloud descends on the camp, heavily shading it. It is
almost dark.

An ELDERLY MAN walks to a tent where Aaron is visible near its
entrance. Man asks Aaron.

ELDERLY MAN

What's happening, Aaron? Thick
clouds in the middle of the desert?

AARON

I haven't the slightest idea. I
will have to ask Moses when he
comes back.

EXT. MOUNT SINAI - DAY

PAN SHOT from behind Moses. Moses is looking at the mountain.
Intense light appears descending from the sky, streaming down the
center.

The tip of the streaming light becomes rounded, turning into a
blindingly bright sun, still attached to the top light that now
dominates the sky all the way from right to left.

Moses stands up from his kneeling position, raising his arms to
protect his eyes. The descending "sun" streams down towards the
mountain peak, then touches it in slow motion.

The mountain shatters like a violent volcano, with intensely
bright light and a tremendous rumble. Moses wraps his arms
around his head, backs up a few steps, spins around, then falls,
face down, unconscious. When he comes to, he murmurs.

MOSES

Glory be to You my Lord ... glory
be to You; I repent.

INT. SPACECRAFT - CONTROL ROOM

Main viewscreen shows Moses still on the ground, coming to. All crew members are watching in amazement.

COMMANDER MOSS

What did I tell you? Earth
shaking; wasn't it?

MIKE BARAKAT

Obviously, the earth cannot stand
the manifested presence of God.
Which tells me that all those
teachings about God existing
everywhere are wrong; at least not
physically.

COMMANDER MOSS

That's precisely what the Computer
Encyclopedia says. In fact, God is
nowhere near the Solar System, the
Milky Way Galaxy, or any other
galaxy.

JANE ANDERSON

I wonder if "Eternity" can with-
stand the energy of God! Do you
think we might reach His physical
presence?

COMMANDER MOSS

There is only one way to find out.
(Looking at Raymond
Catton)
Maximize speed.

MU-ONE-NINE

(Cowardly)

Oh, boy, maximize speed.

OCTA-OHM-R

(Clicks, grinds, and turns his
heads)

There goes Mr. Coward Siamese.

MU-ONE-NINE

Listen octa-head, if the earth

could not survive the presence of
God, what makes you think we can?

Raymond Catton flips a number of switches and turns a few knobs.

RAYMOND CATTON
Maximizing speed.

EXT. HYPERSPACE

Rear view of the spaceship shows additional engines firing, until all 95 boosters are lighted. "Eternity" darts forward.

INT. SPACESHIP - GAME ROOM

Jane Anderson is busy playing a sophisticated video game.

INT. SPACESHIP - EXERCISE ROOM

This is a large room, with a Solaflex unit, other exercise equipment, and free standing weights. Kathleen Sheard, Raymond Catton, and Mike Barakat are exercising.

Suddenly, alarm blares, and red lights blink and flash throughout the spaceship. Crew members rush to the control room.

INT. SPACESHIP - CONTROL ROOM

Crew members scurry into the control room, assume their positions, strap themselves to their stations, and put on their head sets.

With the alarm still sounding and the lights blinking, camera ZOOMS IN to show the odometer reading "25,840,133,760 LIGHT YEARS".

Camera ZOOMS IN on the speedometer's "2,888,000 MILES/SECOND". Speedometer starts to slow down fast.

Crew members show strain of sudden braking.

Camera ZOOMS IN on the speedometer to show it clicking downward fast to "1,330,000 MILES/SECOND", all the way down to "77,900 MILES/SECOND".

Every crew member is busy pushing buttons, turning knobs, and flipping switches. SOLID ROSE COLOR appears on the main viewscreen.

BIT-SEVENTY-SIX
We are sinking into a soft object.

RAYMOND CATTON
(Looking at the screen)
Obviously, a soft rose-colored
object.

COMMANDER MOSS
Fire camera satellite.

EXT. HYPERSPACE

Aperture on top of the spaceship opens up like a camera shutter. A cannon projects out of the hole, then slowly releases a CAMERA-BEARING SATELLITE. The satellite floats upward about one thousand feet, with the camera lens pointing down towards the spaceship.

INT. SPACESHIP - CONTROL ROOM

From a FULL SHOT of the control room, camera zooms in on the speedometer as it races downward from "22,800 MILES/SECOND", to "5,700 MILES/SECOND", to "12 MILES/SECOND".

Braking strain intensifies on the faces of the crew.

JANE ANDERSON
We are coming to a halt. I wonder
if our camera satellite ever made
it up there!

MIKE BARAKAT
(As he flips a switch)
I doubt it. We are sinking deep
into something soft and weird.

The solid rose-colored picture on the small screen on Mike Barakat's desk flickers. Barakat pushes a button.

Main viewscreen flickers, then stabilizes with a helicopter shot of the spaceship being stopped by the extended hand of an AWESOME-SIZED, ROSE-COLORED CREATURE. The spaceship is dwarfed to a nubbin by the creature's size.

EXT. SPACE

"Eternity" is shown with the mammoth rose-colored creature

stopping it with his hand.

PAN SHOT emphasizes that the view behind "Eternity" is a sea of stars, while the view ahead of the spaceship is total darkness.

The creature is characterized by six retractable concorde-type wings, three on each side, in addition to four power belts around his body. The power belts, perfectly flush with the body when not in use, consist of what looks like rocket engines that swivel in various directions to steer the creature in any direction, or stop him.

INT. SPACESHIP - CONTROL ROOM

The main viewscreen focuses on the creature's pleasant and friendly face.

JANE ANDERSON

For heavens sakes, what is that?

MIKE BARAKAT

Let us call him an angel. The way he eased us into a halt qualifies him for the honor.

Kathleen Sheard manipulates a number of switches and knobs.

KATHLEEN SHEARD

Contact established with the creature.

COMMANDER MOSS

(Looking at the screen)

Sir, do you speak English?

CREATURE

(On the screen)

I speak any language you choose.

COMMANDER MOSS

Who are you, and why are you stopping us?

CREATURE

(Laughing)

Let us put this question in perspective. Who are you, and what are you doing here?

COMMANDER MOSS

We are space explorers from the

planet Earth. We come in peace, strictly to increase our knowledge. Now, sir, who are you, and why did you stop us?

CREATURE

You human beings never cease to amaze us. You are actually here. Any way, my identity is irrelevant to your mission. As for the reason I stopped you, it's because you have reached the outer boundary of your universe. You cannot proceed any further; at least not without authorization.

COMMANDER MOSS

What do you mean "your universe?"
How many universes are there?
And, how do we secure authorization, to proceed?

CREATURE

While you remain stationary, I will seek permission for you.

COMMANDER MOSS

Who issues such authorization?

CREATURE

This information is again irrelevant to your mission. Please wait here. I should be back shortly with a "yes" or a "no".

EXT. HYPERSPACE

Creature's six retractable concorde-type wings spread out, his four power belts fire up, and he darts away into a perfectly black horizon at incomprehensible speed.

Camera PANS the space horizon to show the creature flying away from the spacecraft, with the background behind it studded with thousands of stars.

INT. SPACESHIP - CONTROL ROOM

COMMANDER MOSS

Kathleen, please contact MCC and give'em the latest information.

KATHLEEN SHEARD

Yes, sir.

She puts on her head set, then fiddles with a number of buttons and switches.

Camera ZOOMS IN on a calendar gauge on her desk to show it reading "589,171 BC" and clicking down fast to "133,551 BC", then to "83,657 BC", then to "7,790 BC", to "893 BC", to "38 BC", to "AD 741", to "AD 1985", finally stopping at "AD 2242."

Camera ZOOMS AWAY to show Kathleen flipping a switch before talking into her head set.

KATHLEEN SHEARD

MCC, come in MCC. This is
"Eternity." Come in....

Radio STATIC interrupts, then MCC voice.

MCC (V.O.)

Kathleen, you've kept your promise.
Where in the heavens are you?

KATHLEEN SHEARD

(Laughing)

We're awaiting permission to enter
...uh...let us call it the second
universe. It's a strange sight
over here; millions of stars and
galaxies between you and us, but
total darkness ahead of us. We are
26 billion light years from you
folks, so focus your telescopes and
try to find us.

(Laughter)

MCC (V.O.)

We'll try to do that. Tell me,
Kathleen, what permission, and from
whom?

KATHLEEN SHEARD

I'd rather let Commander Moss give
you the details.

EXT. SPACE

"Eternity" is shown stationary in the midst of a sea of stars. A

small dot appears on the opposite side, in the black horizon. It is the rose-colored creature approaching at lightning speed.

INT. SPACESHIP - CONTROL ROOM

Main viewscreen shows creature approaching.

CREATURE (On screen)
Commander, you have authorization
to proceed.

Crew members cheer. Kathleen Sheard gets busy with her knobs and switches, trying to contact MCC.

EXT. SPACE

Creature moves to the side, allowing spaceship to proceed. Part of Eternity's engines are shown firing up as it moves past the creature.

INT. SPACESHIP - CONTROL ROOM

Camera ZOOMS IN from a FULL SHOT to show odometer coming to life at "26,030,779,342 LIGHT YEARS".

Camera moves on to the speedometer to show it coming to life and speeding upward to "266,342 MILES/SECOND."

FULL SHOT - CONTROL ROOM

Commander Moss walks over to the computer encyclopedia. All crew members are busy carrying out their duties.

COMMANDER MOSS
(While looking at the computer
terminal)
The encyclopedia confirms what we
discovered so far. There are no
stars or planets beyond 26 billion
light years.

He looks at the main viewscreen as it shows a completely black picture with a hint of faint light around the horizon.

RAYMOND CATTON
I would certainly agree with that.
We are travelling in the midst of
absolutely nothing.

CU ODOMETER

Odometer is shown clicking upward from "76,009,120,057 LIGHT YEARS" to "81,700,323,114 LIGHT YEARS".

Suddenly, alarm SOUNDS, and RED LIGHTS blink and flash throughout the spaceship. Crew scurries to the control room, starp themselves in, and put on their head sets.

CU SPEEDOMETER

Speedometer slows down fast from "5,513,040 MILES/SECOND", to "3,230,114 MILES/SECOND", to "95,551 MILES/SECOND."

Crew members show the strain of sudden braking, as they frantically manipulate their instruments.

Main viewscreen turns rose-colored.

CU SPEEDOMETER - as it moves from "2,603 MILES/HOUR", to "600 MILES/HOUR", to "000".

The spaceship is eased into a complete halt.

The main viewscreen and all small screens in the spaceship are solidly rose-colored.

JANE ANDERSON

Oh, not again!

MIKE BARAKAT

It's our friend stopping us again.
He sure is fast!

COMMANDER MOSS

Fire camera satellite.

EXT. SPACE

Aperture in top of the spaceship opens like a camera shutter, a canon projects out, and launches a camera-carrying satellite to about 1000 feet above the craft.

INT. SPACESHIP - CONTROL ROOM

Main viewscreen flickers, then a helicopter shot appears showing the spaceship dwarfed by EIGHT ANGELIC CREATURES surrounding it in half a circle, with one of them still extending his hand to stop "Eternity."

After manipulating her instruments, Kathleen Sheard establishes contact with the creatures.

Eternity's satellite camera zooms in on the highest ranking one, as recognized by his four power belts and six concorde-type wings.

Main viewscreen shows a WIDE ANGLE SHOT of some of the creatures.

COMMANDER MOSS

Peace and greetings, my friends.

CREATURE (On the screen)

Peace and greetings to you Mr. Moss. You've exhausted the limit of your authorization.

COMMANDER MOSS

I had no idea our authorization was limited. What is it that caused it to expire?

CREATURE (On the screen)

You have reached the outer boundary of the second universe.

COMMANDER MOSS

(Surprised)

Second universe? How many universes are there?

CREATURE (On the screen)

Well, you did come here to learn, didn't you? Mr. Moss, there are seven universes, and we are guardians of the third universe. I am afraid you cannot proceed any further. We will be glad to help you turn around and back to Earth. We will even give you a push, although your breeder reactors can take you back and forth indefinitely.

SHIRLEY VAN CLEFF

What a waste! We've travelled billions of light years, just to learn there is nothing out here.

MU-ONE-NINE

Remember, even nothing is a significant piece of information.

Now you know that there are seven universes guarded by strange creatures, that our universe is the smallest and innermost, and that it is the only one where you can find stars and constellations. Let's go back.

MIKE BARAKAT

There goes Mr. Coward Siamese again. We have five more universes to explore.

(Looking at Mu-One-Nine)

Do you have a family back on earth or something?

COMMANDER MOSS

(Speaking to creature on the screen)

How can we secure a blanket authorization to explore all seven universes?

CREATURE (On the screen)

I doubt very much that any authorization can be granted, let alone a blanket authorization. However, just to be equitable with you, let me go try.

EXT. HYPERSPACE

Helicopter shot shows three of the eight creatures spreading their retractable wings, firing their engines, and darting away.

INT. SPACESHIP - CONTROL ROOM

COMMANDER MOSS

Kathleen, contact MCC to update information.

KATHLEEN SHEARD

Yes, sir.

She starts to manipulate her instruments.

EXT. HYPERSPACE

Helicopter shot shows the five remaining creatures still outside spacecraft. A small dot appears in the horizon; it is one of the creatures returning to "Eternity."

INT. SPACESHIP - CONTROL ROOM

Approaching creature appears on the main viewscreen, and addresses the crew.

CREATURE (On the screen)
Earthlings, you are very fortunate indeed. Blanket authorization is granted to proceed. No guardians will stop you anywhere in the seven universes. Not only do you secure this blanket permit, but we will coat your spaceship with a de-energizer shield to protect you from intensifying energy fields.

COMMANDER MOSS
Thank you, sir. Could you tell us who grants such authorizations?

CREATURE (On the screen)
Just proceed, Commander, and be thankful. A word of warning though. You are approaching Time Zero, beyond which nothing whatsoever is supposed to exist; only the Creator.

EXT. HYPERSPACE

Helicopter shot shows two of the friendly creatures spraying rose-colored misty material all around the spaceship.

INT. SPACESHIP - CONTROL ROOM

Hyperspace appears on the main viewscreen and the small monitors through a rose-colored hue. Octa-Ohm-R clicks, grinds, and turns his multi-heads.

OCTA-OHM-R
What happens to us when we reach Time Zero?

MU-ONE-NINE

(Cowardly)

We simply cease to exist. Let's go back.

EXT. HYPERSPACE

Helicopter shot shows the creatures moving to the sides, allowing the now rose-colored spaceship to proceed. Eternity's engines fire up, and the spacecraft begins to move.

CU ODOMETER then SPEEDOMETER

Odometer comes to life at "82,000,912,665 LIGHT YEARS".

Speedometer picks up momentum, ticking upward from "418,000 MILES/SECOND" to "680,000 MILES/SECOND" as "Eternity" crosses into the third universe.

The spaceship jerks as it breaks the light barrier.

Kathleen Sheard advances the Time Advance Monitor to AD 2242, and contacts MCC.

KATHLEEN SHEARD

We are now 90 billion light years from you, and our compressed time dimension reads millions of years. So, here I am, a voice from the deep, deep past, speaking to you at the speed of thinking and telling you that we have just entered the third universe.

(As she glances at the
rose-tinted giant screen)

Through rose-colored glasses, I am looking at absolutely nothing. Any special instructions?

Radio produces STATIC SOUNDS for a few seconds, then faint MCC voice comes in.

MCC (V.O.)

Carry on. You are doing fine, just fine.

SHIRLEY VAN CLEEF

Kathleen, did you inform MCC of the Time Zero warning?

KATHLEEN SHEARD

Sure did. They don't seem alarmed.

MJ-ONE-NINE

Why should they? They are sitting comfortably on earth, listening to our adventures.

MIKE BARAKAT

Just think, Mr. Siamese, Octa will be with you all the way.

Octa-Ohm-R clicks, grinds, turns his heads, then murmurs.

OCTA-OHM-R

Big deal.

TWO SHOT - Shirley and Ray

SHIRLEY VAN CLEEF

(Whispering)

Hey, Ray, do you think it's wise that we proceed beyond this point?

RAYMOND CATTON

(Whispering)

Frankly, no. We haven't the slightest idea what this Time Zero business means, or how we can handle it.

FULL SHOT - CONTROL ROOM

With a concerned look, Kathleen Sheard nods to Mike Parakat and the two of them leave the control room.

INT. SPACESHIP - HALLWAY.

Kathleen Sheard is walking with Mike Parakat past the sign reading "Game Room." They turn left into the dining area.

INT. SPACESHIP - DINING ROOM

Kathleen and Mike begin to serve themselves coffee. They chat while sitting at the dining table.

KATHLEEN SHEARD

Can't we possibly talk Commander MOSS out of proceeding into Time

Zero?

MIKE BARAKAT

Kathleen, you know as well as I do that Virgil is a veteran intergalactic maniac. He seems to thrive on intrigue and danger. Nothing short of a successful mutiny can change our course.

INT. SPACESHIP - CONTROL ROOM

COMMANDER MOSS

Activate nuclear observatory.

Jane Anderson turns knobs, and flips switches of her instruments.

Bit-Seventy-Six is busy manipulating his buttons, knobs, and switches.

EXT. HYPERSPACE

An observatory dome projects on top of the spaceship close to the front, an aperture slides open in the dome, and a giant telescope projects out of it.

INT. SPACESHIP - CONTROL ROOM

Kathleen and Ray walk into the control room and assume their stations.

COMMANDER MOSS

Aim telescope ahead, and monitor on viewscreen.

Jane Anderson, Raymond Catton, and Bit-Seventy-Six get busy with their instruments.

Main viewscreen flickers then produces a picture of black sky with faint light at the horizon, and streaks of faint light here and there. Light intensifies as the telescope's picture zooms in.

COMMANDER MOSS

Zoom in. Full power.

Jane Anderson turns a couple of knobs.

The main viewscreen shows a faint picture of a round object zooming closer and closer until it fills the screen. It is a perfectly round planet with millions of tiny lighted dots.

Crew watches almost in shock.

COMMANDER MOSS

Zoom in, full power, and compute size and distance.

Picture on viewscreen continues to zoom in on the planet until half of it fills the picture. A hazy figure of a dome-shaped structure, with a large opening in its top, becomes visible on the planet.

Octa-Ohm-R manipulates his instruments, and consults his computer display terminals.

OCTA-OHM-R

I can't believe the size of this thing. I may be a dumb computer, but I simply can't believe the size.

MIKE BARAKAT

I am dying of suspense, Octa. Just give us some figure, not your expressions of amazement.

OCTA-OHM-R

How about a billion times as large as the planet Earth?

SHIRLEY VAN CLEFF

Are you sure the calculations are correct?

OCTA-OHM-R

What an insult to an eight-headed master brain, what an insult! The structure you see on that planet, the structure alone is thousands of times larger than the whole planet Earth.

MIKE BARAKAT

What kind of distance are we talking about?

OCTA-OHM-R

We're talking about billions of

light years.

COMMANDER MOSS

This is a stunning discovery. Wait
till we inform MCC.

(Looking at Jane)

Zoom away, and scan the total
horizon.

Jane, Ray, and Bit-Seventy-Six fiddle with their instruments.

Picture on the main viewscreen zooms away from the planet, until
it looks like a distant object, then swings to the left, panning
the horizon.

Another planet appears.

The crew gasp.

Picture on the screen zooms in on the second planet, as it turns
rose-colored.

COMMANDER MOSS

(Overwhelmed)

Zoom in, full power, and
report size and distance.

OCTA-OHM-P

This one is almost as big as the
other one, at about the same
distance.

Crew get busy with their instruments.

Picture on the viewscreen continues to zoom at the rose-colored
planet. Through rose-colored misty atmosphere, picture shows a
hint of trees.

Kathleen rubs her eyes, and taps her head.

KATHLEEN SHEARD

Am I looking at trees?

JANE ANDERSON

It's the Earth again. We made a
complete circle. I'll be damned;
we've come back to the earth.

RAYMOND CATTON

Wait a minute. This could be a

repeat of the Christopher Columbus
adventure. He thought he found
India in the west, didn't he?

OCTA-OHM-R

These are not normal size trees
either. These are giant trees.

MIKE BARAKAT

Oh, I get it. Giant planets.
Giant trees. I bet our computers
have gone bananas.

From a FULL SHOT of the control room, camera ZOOMS IN on the
odometer.

Odometer reads "209 BILLION LIGHT YEARS".

Camera PANS all gauges (Odometer, Speedometer, Calendar) as they
suddenly spin backward at high speed, causing LED numerals to
become unreadable, then stop with an infinity sign in each one of
the gauges.

FULL SHOT - CONTROL ROOM

All human beings in the control room dematerialize into invisible
molecules. The three robots take over.

Octa-Ohm-R clicks, grinds, turns his multi-head, then rolls to
Commander Moss' station.

INT. SPACESHIP - DINING ROOM

All organic materials in the dining room, plants and foods,
dematerialize and vanish.

INT. SPACESHIP - CONTROL ROOM

Octa-Ohm-R is at the commander's station.

OCTA-OHM-R

I suppose when the creature said
that nothing is supposed to exist
beyond Time Zero, he meant "nothing
organic." Bit-Seventy-six, would
you contact MCC and convey the
latest?

Bit-Seventy-Six rolls over to Kathleen Sheard's desk, and
manipulates some knobs and buttons to establish contact with MCC

at 2242 AD.

BIT-SEVENTY-SIX
MCC ... this is Eternity ... MCC

Radio produces STATIC NOISE, then responds.

MCC (V.O.)
Yes, Eternity, where are you?

Bit-Seventy-Six raises up three of his nine arms, opens up the four-pronged hand at the tip of each arm to reveal three eyes looking at the main viewscreen.

BIT-SEVENTY-SIX
I am not sure MCC, but I think we are beyond Time Zero.

MCC (V.O.)
What makes you think you've crossed Time Zero, and where is Captain Sheard?

BIT-SEVENTY-SIX
This is how I knew that we've gone beyond Time Zero. The whole crew, and everything organic on board has dematerialized.

MCC (V.O.)
(Very alarmed)
What do you mean "dematerialized?"

BIT-SEVENTY-SIX
Vanished. disappeared. No one is left, except us, the three inorganic creatures.

MCC (V.O.)
Is Octa-Ohm-R in command?

OCTA-OHM-R
Yes, sir.

MCC (V.O.)
Octa, turn around and come back.

OCTA-OHM-R
Right away, sir. We're turning around.

(Looking at Mu-One-Nine)

Mu-One-Nine, activate return.

Mu-One-Nine moves to Octa-Ohm-R's original station and manipulates the controls on Octa's desk.

MU-ONE-NINE
No response, Octa. Nothing is
happening.

EXT. HYPERSPACE

Light begins to intensify at the top of the screen, and ahead of "Eternity". The rose-colored protective shield around "Eternity" slowly disintegrates. The spacecraft slowly melts into the intense light.

I N T E R M I S S I O N

EXT. HYPERSPACE

Intense "solid" light dominates the top third of the screen, featuring waves of rainbow colors, and awesome beauty; provokes ecstasy. It is absolutely quiet.

A pointed stream of light emanates from the center top, then slowly drifts downward, separating from the light at the top.

As the ball of light drifts farther and farther down, it cools down, and the light intensity dims progressively, then a perfect sphere is revealed, spinning slowly. The ANGELS' PLANET is created. It looks like the first giant planet detected by Eternity's telescope before it vanished.

A fountain of fire surrounded by intense light issues downward from the center top, accompanied by a low rumble.

The mass of fire and its intense halo changes form, breaks up into thousands of small fiery suns, then each sun transforms into a rose-colored light-emitting angelic creature. The creatures derive their energy from the intense light at the top of the screen. An angel's rank is recognized by the number of retractable concorde-type wings and the number of power belts.

The process is repeated, giving the impression that millions of ANGELS are created; columns upon columns of them are shown flying to their planet. The Angels' Planet becomes dominated by lighted dots representing the angels.

Camera ZOOMS IN on the Angels' Planet to show the angels' mansion, which looks from the outside like a giant dome with a large opening in the center top.

The cumulative light emanating from the angels' bodies radiates like a band of light out of the dome's aperture.

INT. ANGELS' MANSION

The majestic dome is lined with angels in every direction as far as the eye can see. The center dais is a raised giant disc of crystal-like material.

Scintillating bands of light wave into the dome in perfect coordination with God's voice (same voice as that communicating with Moses earlier). God's voice addresses the assembled angels.

GOD'S VOICE

I have created you to carry out
specific functions in areas where

My presence is not necessary, or is utterly devastating. I have given you a mind of your own, and absolute freedom of choice. No one shall serve in My kingdom grudgingly.

An ARCHANGEL (MICHAEL) with the outer edges of three wings visible on each side, and four power belts around his body, steps forward.

MICHAEL

Our Lord, we will always serve You and submit to you, willingly and joyfully.

GOD'S VOICE

I know you will Michael, but perhaps you will understand if I ask you this question:

Suppose you could create three types of creatures.

One creature would serve you and do everything you ask because you programmed him that way.

The second creature possesses a mind of his own and absolute freedom of choice; he may or may not do what you ask him to do.

The third creature possesses a mind of his own and freedom of choice, but because he loves you and respects you, he would do everything you ask him to do.

Which creature would give you the greatest satisfaction?

MICHAEL

I understand, my Lord. You have granted us absolute freedom, but we choose to serve You willingly and joyfully because we recognize You as absolute sovereign of the universe.

GOD'S VOICE

There shall be no compulsion in My kingdom.

EXT. ANGELS' PLANET

The angels are shown dispersing. They fly in different directions out of the opening at the top of their dome-shaped mansion. Camera zooms away until the Angels' Planet fades into infinity.

EXT. HYPERSPACE

The view is dominated by God's intense light at the top of the screen.

A mass of light drifts downward into the void, then materializes into a GIANT PLANET surrounded by a rose-colored atmosphere (the new planet to be known as the Paradise Planet). It is similar to the second giant planet viewed by Eternity's nuclear telescope.

The atmosphere of the Paradise Planet is similar to the rose-colored shield that surrounded spaceship "Eternity" before it melted into the light.

Camera ZOOMS IN through the rose-colored mist to show the planet covered with extraordinarily beautiful landscape, gardens, and fruit-bearing trees.

Camera ZOOMS AWAY through the rose-colored mist until the new planet disappears into infinity.

EXT. HYPERSPACE

A great mass of light emanates from the light of God, drifting downward. Big bang. SEVEN MISTY PANCAKE-SHAPED SPHERES emerge. Only the innermost universe contains millions of lighted dots.

The shape of a hand (God's hand) descends out of the light at the top, and benignly holds the seven spheres as they spin independently. God's hand emanates radiant, luminescent, light. The seven universes are created.

INT. ANGELS' MANSION

A conference of angels is chaired by A DISTINCTIVE LOOKING ARCHANGEL (SATAN).

SATAN

I have summoned you here to inform you that God has created seven universes, and we are to take our positions of service throughout the new creation.

Those of you who possess three or less wings can travel as far as the outer two universes. They shall serve in the sixth and seventh universes.

Those who possess three or four wings shall serve in the third and fourth universes.

Five or more wings will enable you to go all the way to the innermost universe, so you can serve in the two innermost universes.

EXT. HYPERSPACE

With all seven universes spinning independently, the angels are shown scurrying from their planet towards the newly created system. Both the Angels' Planet and the Paradise Planet appear in the background almost as big as all seven universes.

CLOSE SHOT of Satan shows him leaving the angels' planet, with his six concorde-type wings fully spread, and his four power belts firing full blast.

As the camera ZOOMS AWAY, Satan is shown entering the seven universes. He appears like a dot of light trailing a long blue tail streaking across the universes like a falling star, all the way to the innermost universe.

EXT. THE SOLAR SYSTEM

Camera ZOOMS IN on the innermost universe, then through clusters of stars and galaxies until the familiar Solar System appears.

Satan is shown flying into the solar system. He extends his hand and holds the whole planet Earth within his fist.

The planet Earth is dwarfed by the awesome size of Satan, as he looks at it, his hand completely surrounding it.

Initially, the Earth is shown completely covered with water. In

SLOW MOTION and an awesome RUMBLE, the continents emerge out of the water. Satan's hand continues to surround the evolving planet. Africa and the American continents become recognizable because of a crack separating them.

The continents drift apart, and the Earth as we know it today appears on the screen rotating.

EXT. SPACE

Satan retracts his hand, then flies out of the solar system. Camera ZOOMS AWAY to show him traveling across the first two universes.

Camera ZOOMS IN on Satan's smiling face, as his innermost thoughts echo out.

SATAN

(Strictly within his head)

I can rule part of this dominion
all by myself, and run it
perfectly.

The echo travels in waves upward as the camera ZOOMS AWAY. The echo continues upward until it disappears into God's intense light that dominates the top third of the screen.

GOD'S VOICE

(Strictly within His thoughts)

So you wish to be a god besides Me.
Well, Satan, in spite of the
awesome power and authority I have
bestowed upon you, you are not
capable of ruling as a god. There
is much more to godhood than you
think. However, I will give you a
chance to prove yourself. But
first, I must expose your
supercilious thoughts before all
the angels.

EXT. HYPERSPACE - GOD'S LIGHT

From the intense light at the top, a gigantic ball of intense light drifts down towards the planet shrouded with rose-colored mist (Paradise Planet).

The ball of light breaks down into millions of undefined masses of light, then transforms into HUMAN FIGURES.

Camera speed-scans the newly created human souls. Within each soul, a miniature replica appears at the bottom, hazy and ethereal. While speed-scanning the miniature replicas, some known and unknown faces of human beings are recognized by the camera: Moses, JESUS, Napoleon, GHANDI, Hitler, EINSTEIN, LUCILLE BALL, and JFK.

EXT. PARADISE PLANET

Millions of human souls, with their bodies appearing within them as miniature replicas, are assembled on their planet as far as the eye can see. The light of God descends close to the Paradise Planet, then God's voice is heard.

GOD'S VOICE

I have consulted with each and every one of you, and it is your unanimous choice that you shall possess the freedom of choice. Before I send you off to your designated assignment on Earth, I want you to bear witness that I alone am your Lord.

THE HUMAN SOULS

(In a massive echo)

We bear witness that you alone are our Lord.

GOD'S VOICE

Thus, you cannot say on the Day of Judgment that you never heard of this. None of you can plead ignorance. Nor can you say that your parents or teachers influenced your opinions.

I have created you with brains, eyes, and ears, and you are responsible for using them. You shall investigate and verify any information you receive from anyone, including me.

You shall be born into the planet Earth with this knowledge as a natural instinct within each one of you.

You will be absolutely free to choose Me as your Lord, or choose

Satan as your lord.

While in your earthly bodies, you will not consciously recall any of this.

INT. ANGELS' MANSION

Angels are assembled inside their mammoth dome-shaped mansion, as far as the eye can see. Archangel Michael is standing on the crystal dais at the center, addressing the angels' conference.

MICHAEL

I have been instructed to inform you that God will place an infinitesimally small creature on the infinitesimally small planet earth.

In their earthly form, the new creation, known as the human being, will be incapable of seeing God, or seeing you. Like us, the human beings will possess absolute freedom to choose God as their god, or choose anyone or anything else as their god. In either case, we are to guard them and serve them throughout their earthly existence.

The archangel looks to the right, and addresses a particular angel. Camera ZOOMS IN on a PARTICULAR ANGEL WITH A DISTINCTIVE FACE (STARIEL).

MICHAEL (V.O.)

STARIEL, would you go to the planet earth and bring a small mass of earthly material? Since the new creation is to live on Earth, his body must be made of the same ingredients.

EXT. HYPERSPACE - ANGELS' MANSION

Stariel darts out of the top central aperture of the angels' mansion and is shown projecting his six concorde-type wings. All boosters in his three power belts are fired up.

Stariel flies across the seven universes leaving a streak of blue

flame behind him. He is shown entering the innermost universe.

Through his eyes, the billion galaxies of the innermost universe fly past him in long streaks of light, until the solar system appears ahead.

EXT. SOLAR SYSTEM

Stariel swoops towards the planet Earth, looking almost as big as the whole planet. While in flight, Stariel's body shrinks to a size that can be accommodated on Earth.

EXT. THE PLANET EARTH

Stariel lands by a major river such as the Nile or the Mississippi somewhere on Earth. He scoops what looks like two hundred pounds of mud. His six wings project outwards, his power belts fire up, and he takes off.

EXT. THE SEVEN UNIVERSES

With all seven universes visible, spinning independently, Stariel appears like a luminous dot with a tail of bluish flame, darting upwards across the seven universes.

INT. ANGELS' MANSION

Through the aperture at the top of the majestic dome, Stariel flies in. Millions of angels are still assembled, with Michael still standing on the crystal dais. Stariel swoops down, and places the mud in front of Michael. The mud appears like a speck of dirt on the dais.

With the angels assembled in the round building as far as the eye can see, God's scintillating light waves through the opening in the mansion's ceiling.

GOD'S VOICE

Michael, ISRAFEL, and Stariel; I
want the three of you to shape the
mud you brought from Earth
according to My specifications. I
will give you directions as you go.

CLOSE SHOT of the angels' crystal dais shows the clump of mud in the middle. The three archangels (Michael, Israfael, and Stariel) are shown shrinking down to approximately human size.

They approach the mud on the dais, and shape it into the distinctive body and face of ADAM, the father of all humanity.

Once the job is completed, the three angels enlarge again to assume their original size.

EXT. PARADISE PLANET

The Paradise Planet, shrouded in its protective rose-colored horizon, fills the screen. Camera zooms in through the rosy mist until the millions of human souls become visible at a great distance.

With oriental, blonde, and black bodies specifically shown, all human bodies merge together into one giant DNA helix.

At the same time, all human souls merge together into one ball of light that surrounds the DNA helix like a light-emitting circle of mist.

The light-shrouded DNA helix then flies gracefully out of the Paradise planet and heads for the angels' planet.

INT. ANGELS' MANSION

Millions of angels are assembled in the mansion as far as the eye can see. The crystal dais is shown with Adam's clay figure supine in its center.

The DNA helix, surrounded by its light ball, descends through the top aperture of the dome, and thrusts into Adam's body, bringing him immediately to life.

Adam stands up amid the awed murmurs of the angels. Michael comes forward until he stands at the edge of the crystal dais.

MICHAEL

Standing in the center is God's new creation, the human being. It is my honor to convey to you God's command that we shall all fall prostrate before the new creature, whose name is Adam.

Camera speed-scans the millions of angels as they fall prostrate before Adam. Camera makes a double take, showing Satan standing up arrogantly, refusing to bow down. The voice of God echos in scintillating waves of light through the aperture at the top.

GOD'S VOICE

Satan, what prevents you from
bowing before my creation?

While still in prostration, MANY ANGELS raise up their heads,
look at Satan standing up arrogantly, then gasp at his blasphemy.

SATAN

(Arrogantly)

I am better than he; You created me
from energy, and created him from
mud. You granted me enough power
and authority to make me a god in
my own right.

The angels gasp again; shocked.

GOD'S VOICE

Well, Satan, as you know, I have
decreed that no one shall serve in
My kingdom grudgingly. Therefore,
you no longer qualify as a
participant in My kingdom.

As for your opinion that you
qualify as a god, I will indeed
make you a god. I hereby grant you
an infinitesimal speck of My
dominion, the planet Earth, to
serve as your testing ground.

The descendants of Adam who freely
choose you as their god shall be
your constituents. You better do
your best to take care of them, and
prove that you qualify as a god.

A bubble of light descends from the top opening of the Angels'
Mansion, surrounds Adam, then carries him away through the
opening.

EXT. ANGELS' MANSION

The bubble of light carrying Adam comes out of the Angels'
Mansion, passes by the camera to show Adam clearly standing
inside.

The bubble with Adam in it flies gracefully towards the Paradise
Planet with its rose-colored atmosphere. The bubble's POV goes
through the rose-colored mist, then descends into a beautiful
garden.

EXT. PARADISE PLANET

Close shot of Paradise Planet, shrouded in its rose-colored atmosphere, gets closer and closer until it shows Adam strolling amid a beautiful garden. He appears as a giant in the midst of giant trees, with his earthly body appearing as a miniature, hazy and ethereal, replica within the bigger person.

An elongated stream of light descends from the sky, surrounds Adam, and renders him still. The light intensifies around Adam until he becomes invisible, then clears up revealing Adam and EVE strolling together.

The angel Michael flies in and addresses Adam and Eve.

MICHAEL

Adam and Eve, I am here to inform
you that you may eat from any tree
in this Paradise Planet, except
this one tree to your left.

Adam and Eve look to their left, and see a particular tree, loaded with fruits.

MICHAEL

If you eat from this tree, you
break God's law, and you no longer
qualify as participants in His
kingdom.

Also, my Lord wishes to warn you
that Satan is your arch enemy; you
shall not listen to him.

EXT. ANGELS' MANSION

Satan darts out of the angels mansion in a huff, leaving through the aperture at the top of the dome, trailing a long bluish flame, and heads for the Paradise Planet. He swoops down to converse with Adam and Eve.

INT. PARADISE PLANET

While Adam and Eve stroll in Paradise, Satan flies in and talks to them.

SATAN

I hear that Michael has enjoined
you from this tree (pointing at the

forbidden tree). I hope you will not fall for his trick.

ADAM

What trick, Satan? He also alerted us about your vengeful attitude towards us. Maybe I was the direct cause of exposing your supercilious ideas, but it was you who initiated those ideas in the first place. I was simply a tool.

SATAN

This is precisely how I feel about it. I realize it was not your fault, and I carry no hard feelings towards you. I still believe that all the power and authority bestowed upon me by God qualify me to rule in a dominion of my own. God intends to grant my wish, and I will prove to everyone that I am indeed qualified to be a god.

It is all the knowledge that I possess that leads me to warn you of Michael's trick. He does not want you to eat from this tree, lest you rise to his archangelic level.

EVE

Please leave us alone Satan. We are perfectly happy, and we have no reason to doubt Michael's intentions.

SATAN

As you wish. But before I leave, I want to swear to you by God my Lord, that this tree is in fact the tree of eternity and everlasting sovereignty. I have given you my sincere advice, and now the choice is yours.

Satan spreads his six wings, fires up his power belts, and leaves the Paradise Planet, heading for the Angels' Planet.

EXT. PARADISE PLANET

Adam and Eve are strolling in Paradise. They stand in front of the forbidden tree.

ADAM

You know, I couldn't help think about Satan's statements. He swore by God that this is the tree of eternity and everlasting sovereignty.

EVE

We have strict orders from God that we shall not eat from this tree, and I think we should not.

ADAM

God also gave us freedom of choice, and independent brains. I tend to believe Satan. He wouldn't dare swear by God falsely. Once we eat from this tree, I am convinced, we have nothing to worry about; we attain everlasting sovereignty.

Adam and Eve simultaneously pick two fruits from the forbidden tree, and bite into them.

Immediately, their bodies shrink with an awful vacuum sound, as their miniature ethereal replicas materialize to sharp detail. They are naked, ashamed, and they try to cover themselves with leaves.

Light intensifies downward from the sky, and they hear the voice of God.

GOD'S VOICE

Did I not alert you that Satan is your arch enemy? You have listened to Satan instead of Me, and thus, you have chosen him as your god. Consequently, you no longer qualify as participants in my kingdom.

ADAM

Our Lord, we made a serious mistake indeed by listening to anyone but You.

EVE

Please forgive us, our Lord; we repent.

GOD'S VOICE

I have forgiven you, and I have decided to give you another chance to re-enter My kingdom.

I will place you on the planet earth for a temporary probationary period. Under rigorous conditions of the test, those among you, you and your descendants, who choose me alone as their God will re-enter my kingdom and will enjoy my full protection. They are absolutely guaranteed to be healthy, wealthy, and happy.

A bubble of light descends from the sky, surrounds the leaf-draped couple, then whisks them out of the Paradise Planet.

EXT. HYPERSPACE

With the seven universes, the Angels' Planet, and the Paradise Planet visible, the light bubble carrying Adam and Eve whisks out of the Paradise Planet, zooming by the camera to make Adam and Eve visible, then fades into a tiny lighted dot, streaking across the seven universes like a falling star. The dot is seen entering the innermost universe.

EXT. THE SOLAR SYSTEM

With the solar system in view, the light bubble carrying Adam and Eve heads for the Planet Earth.

INT. ANGELS' MANSION

Satan is standing on the central crystal dais, addressing the millions of angels assembled in the Angels' mansion.

SATAN

(Arrogantly)

How do you expect me, the mighty Satan, to bow down before an infinitesimal creature made of mud? God has given me enough power to reign as a god in my own right. How many of you know that? How many of you recognize my power and my abilities?

A NUMBER OF ANGELS raise their hands indicating their agreement with Satan.

A bubble of light descends through the aperture at the top of the angels' dome, surrounds Satan, carries him, and heads for other angels who agreed with him, getting larger and larger as it takes on more of the rebels.

Additional bubbles of light come in through the top, and carry all the rebels away.

EXT. HYPERSPACE

With the seven universes, the Paradise Planet, and the Angels' Planet visible, camera ZOOMS IN on the aperture at the top of the angels' mansion. The light bubbles dart out of the aperture carrying Satan and his supporters. They become visible in the bubbles as they whisk by the camera.

The light bubbles head for the seven universes, and travel like falling stars all the way to the innermost universe.

EXT. HYPERSPACE

God's scintillating light dominates the top third of the screen. The Angels' Planet, the Paradise Planet, and the seven universes are visible.

Camera moves into the seventh universe. There is nothing on the screen, except God's beautiful light at the top.

Out of the scintillating light at the top, misty molecules drift downward, then intensify into the shape of spaceship "Eternity," as the craft materializes with the protective rose-colored shield around it. The spaceship fades in.

INT. SPACESHIP - CONTROL ROOM

The control room, and all crew members of "Eternity" materialize before our eyes.

Odometer flips from the infinity sign to "456,000,000,000 LIGHT YEARS."

Calendar gauge speeds up backward from infinity and stop at "76,000,000 BC."

Speedometer goes from infinity to read "114,000,000 MILES/SECOND."

Crew and robots wonder what has happened.

COMMANDER MOSS

Octa, check the nearest EPIR and report our position. I want to know where in the heavens we are.

Kathleen, try to contact MCC at 2242 as usual. Find out if they know anything.

BIT-SEVENTY-SIX

We probably know more than they. I remember it when you and all organic matter aboard dematerialized. Octa, Mu, and myself took over, and we informed MCC that you fellows had disappeared.

COMMANDER MOSS

(Looking at Kathleen)

They must be worried sick. At least tell them that we're alive and well, and lost in space.

Octa-Ohm-R clicks, clanks, turns his multi-heads, and manipulates some buttons and switches on his desk.

Kathleen does the same at her desk.

OCTA-OHM-R

We are exiting the sixth universe into the fifth universe.

COMMANDER MOSS

At least we're heading in the right direction.

EXT. HYPERSPACE

With all seven universes visible, camera zooms in on the innermost universe, heads for a group of stars, then brings a GIANT RED PLANET in view.

INT. SATAN'S MANSION

Huge square pillars as far as the eye can see line up SATAN'S awesome MANSION, dwarfing the huge creatures. A square opening at the top is the mansion's entrance/exit. Satan is holding a meeting with his assistants. He stands on a square marble dais addressing the fallen angels.

SATAN

If we prove to God that I am capable of ruling a dominion of my own, He will accept us back into His kingdom, and grant us a permanent dominion. This is absolutely our most precious chance to prove that we are right, that I am worthy of godhood.

The earth belongs to me, and I intend to make it a perfect place for my constituents; a perfect paradise.

EXT. EARTH - DAY

Camera travels across beautiful areas on Earth, showing serene, peaceful and breath-takingly beautiful scenes from Alaska, Colorado, Switzerland, and so on.

Scenes of joy and happiness are provided through visits to Disneyland, Sea World, the Lippanzer Horses show at the Spanish Riding School of Vienna, the Moscow circus, and the final scenes of the Swan lake Ballet at Carnegie Hall.

Slowly, camera shifts to Africa's famine-afflicted Sahil, showing CHILDREN starving and dying.

EXT. SPACE - PLANET EARTH

With the globe rotating in the center of the screen, camera ZOOMS IN on England.

INT. STABLE - DUSK

Beautiful HORSES are being taken to their individual box stalls.

MEN and WOMEN are brushing the horses and checking on their food supply, then everybody leaves.

Wall-mounted electric light sparks due to a short, causing fire to start. Fire is spreading towards the stalls.

EXT. SPACE - PLANET EARTH

From a CLOSE SHOT of the globe, camera zooms in on California.

EXT. STREET - DAY

Family of THREE (FATHER, MOTHER, AND TEENAGE DAUGHTER) is leaving the house and getting in the family car. The car leaves the garage, and on to the street.

INT. AUTOMOBILE - MOVING SHOT - DAY

Husband is driving, the wife is in the passenger seat, and the teen age daughter is in the back seat, leaning on the front seat, so her face is in the middle between her parents.

DAUGHTER

Mr. Eustice was so impressed, he gave me an "A plus." Just think, me getting an "A plus" in algebra.

The daughter caresses her father's shoulder lovingly.

DAUGHTER

I have to thank you again for helping me, Dad. Your old-fashioned algebra is a lot better than the new math.

Mother looks at her daughter lovingly, then at her husband, then looks at the street ahead and screams.

MOTHER

My God, what is this man doing?
Look out! Look out!

EXT. STREET - DAY

Helicopter shot shows the family's car moving away from camera. A car is coming from the opposite direction, weaving into the left lane back and forth; obviously, a drunk driver.

INT. DRUNK DRIVER'S CAR - MOVING SHOT - DAY

THE DRIVER is very drunk, and the car is winding back and forth into the left lane at high speed. Through the windshield, the family's car is visible ahead, and a terrible crash is about to happen.

EXT. THE PLANET EARTH

The globe is shown in the center of the screen, rotating. Camera ZOOMS IN on Turkey.

EXT. STREET - TURKISH VILLAGE - DAY

Peaceful Turkish village is shown with CHILDREN playing soccer ball in the street.

GIRLS are happily jumping rope, with two of them holding the ends of the rope, twirling it, while three girls go into the jumping area one at a time.

Suddenly, the earth rumbles, the ground cracks open, the mud houses collapse, PEOPLE and CHILDREN are screaming and dying; an earthquake is in progress.

EXT. SPACE - PLANET EARTH

From a CLOSE SHOT of the rotating planet Earth, camera ZOOMS IN on Sydney, Australia.

INT. HOSPITAL - DELIVERY ROOM - DAY

A BABY is born. DOCTOR and NURSES are tending a MOTHER delivering a baby. The baby is born with a serious deformity.

DOCTOR

(Australian accent)

I don't know how to tell you this,
but

MOTHER

(Interrupting, in Australian accent)

Anything wrong, doctor?

DOCTOR

(Very sad)

The baby's legs are badly
under-developed. It will

never walk.

Mother breaks into hysteric tears.

EXT. SPACE - PLANET EARTH

From a CLOSE SHOT of the planet Earth, camera ZOOMS in on the Indian sub-continent.

EXT. INDIA - GANGES RIVER - DAY

Thousands of PILGRIMS are bathing in the river. Suddenly, a violent whirlpool occurs in the vicinity, sucking hundreds of people into the deep part of the river. Many people are drowning.

EXT. SPACE - PLANET EARTH

Camera zooms in on New York City.

EXT. SUBWAY - NEW YORK CITY - DUSK

A train is approaching the station. An ELDERLY LADY is coming down the stairs into the subway.

YOUNG HOODLUM follows her, strikes her from behind on the right side of her head. The woman falls down, and the young man snatches her purse, then run up the same stairs.

PEOPLE IN THE SUBWAY gasp and come towards the woman to check on her.

EXT. SPACE - PLANET EARTH

Camera zooms in on Germany.

EXT. STREET - GERMANY - NIGHT

Close shot of an apartment building, showing the figures of TWO MEN and TWO WOMEN through a window.

Closer shot of the window shows one man with a gun in his hand. The man with the gun appears to order the other man to put his hands up on the wall as he faces it. The mother and her daughter appear frightened.

The man with the gun walks closer to the man facing the wall, raises his hand to strike the father with the butt of the gun.

The daughter runs to the attacker, pulls his arm down, and appears to plead with him.

The man refrains from hitting the father, but turns around, threatens the mother and her daughter with the gun, orders them to tie up the man, then herds them out of the room.

INT. SATAN'S MANSION

Satan is again conferring with his assistants. He is raging mad.

SATAN

You are not helping me at all. In fact, you are making me the undisputed king of chaos. Look at my dominion and my constituents; total chaos, total chaos.

If I am to prove my competence as a god, we have to double, and triple, our efforts to prevent these disasters. We still have a chance to prove that I am worthy of godhood.

My agreement with God stipulated that He shall not intervene in my kingdom or with my constituents, and I shall not interfere with His devoted constituents. I cannot ask for His help. I must prove my competence on my own.

I want you to scatter, right now, and prevent all disasters. Every constituent in my kingdom must be perfectly healthy, wealthy, and happy.

EXT. SATAN'S RED PLANET

Satan and his assistants swoop out of their planet towards the planet Earth. As they approach the Earth, they shrink in size to approximate human proportions.

They are shown trying to prevent all the disasters mentioned above.

EXT. BRITISH RANCH - NIGHT

Stable is on fire. The horses are NEIGHING, kicking, and trying to break out of their stalls. Fire is catching up with some horses, getting very close to three of them.

FIRE TRUCK arrives at the ranch, sounding its SIREN. FIREMEN rush out carrying their hoses.

EXT. SPACE

ONE OF SATAN'S ASSISTANTS swoops down to the earth, flying from Satan's mansion, through thousands of stars and planets. When the Earth becomes visible from his POV, he is shown shrinking in size as he darts into the earth without stopping. He is shown heading for England, then zeroing in on the burning stable.

EXT. RANCH - NIGHT

Satan's assistant arrives at the ranch. Flames are shooting out of part of the stable. He helps put out the fire; he turns the fire hydrant on, then rushes into the stable, right through the flames, opens up the stalls, leads some horses out, and lets them loose.

The firemen are busy putting out the fire, totally oblivious to Satan's assistant. Three horses are shown dead.

EXT. SPACE

ANOTHER ONE OF SATAN'S HELPERS swoops down from space. He flies from Satan's mansion, through thousands of stars, until the solar system, then the Planet Earth are visible (his POV). Camera ZOOMS in on Earth to show California. Satan's assistant shrinks in size as he darts towards California.

INT. DRUNK DRIVER'S CAR - MOVING SHOT - DAY

Satan's assistant flies into the car in his miniaturized size, and is shown holding the steering wheel along with the drunk driver. But the car swerves into the left lane and crashes head-on with the family's car. Satan's assistant wraps himself around the drunk driver to protect him. There is a tremendous impact.

EXT. STREET - CRASH SCENE - DAY

The two cars are a total wreck. Drunk man opens his door and steps out of his car, without a scratch. The three passengers in the family car are in bad shape, bleeding all over the car's interior.

Ambulance sirens SOUND, and POLICE arrives on the scene. PARAMEDICS work on the family car's passengers, then carry the three victims out of the car.

One paramedic approaches a POLICEMAN.

PARAMEDIC
We've got a woman here with no
vital signs, Code 900. Can you
call dispatch to send a hearse?

The policeman heads for his car, takes out his intercom and speaks into it. The paramedics carry the father and teen age daughter on stretchers, and put them in the ambulance.

INT. HOSPITAL - EMERGENCY ROOM - DAY

The paramedics arrive into the emergency room pushing the two stretchers carrying the man and his daughter. DOCTORS and NURSES rush to examine them.

FIRST DOCTOR
(Examining the girl)
Get her to X-Ray, immediately.

Nurses push the stretcher with girl out of the emergency room.

SECOND DOCTOR
(While examining the man)
Internal bleeding. Severed aorta.
Take him to operating room number
4.

Nurses rush the man's stretcher out of the emergency room.

INT. HOSPITAL - X-RAY ROOM - DAY

Doctors are looking at X-Ray pictures on wall viewer. The pictures show a human neck.

DOCTOR
(Pointing at X-ray
pictures)
She has several compound cervical

fractures.

OTHER DOCTOR

(Very sad)

Quadraplegic, at the very best.

EXT. SPACE

ANOTHER ASSISTANT OF SATAN swoops down from space. After flying from Satan's mansion, through thousands of stars, the solar system, then the planet Earth become visible from his POV. Without stopping he shrinks in size as he heads for the planet Earth. Camera highlights the Indian subcontinent from space. Satan's assistant swoops into India.

EXT. INDIA - GANGES RIVER - DAY

People are drowning as Satan's assistant swoops in. He plunges into the river and starts to save a few people, carrying three or four people at a time, and putting them on shore. He is frantically trying to save all the people, but many people die.

Camera scans the area, showing many people drowning and getting swept away into the whirlpool. Satan's assistant continues his attempts, but is overwhelmed by the task.

EXT. SATAN'S PLANET - SATAN'S MANSION

Satan is holding a meeting with his assistants in their awesome mansion.

SATAN

We are still falling short of what we want to accomplish. I must insist on exerting far more effort and alertness towards keeping the planet Earth and its inhabitants perfectly safe and happy. There are still many diseases, many accidents, and a lot of starvation there. With more organization and perseverance, we can eliminate all these deficiencies.

One of the creatures raises his hand, seeking to speak. Satan nods to give him the floor, calling him FALTA-OOS.

FALTA-OOS

I wish to alert this conference to

another danger. There seems to be a religious awakening throughout the Earth. If all the people believed in God, we will have no constituents, and this would be our biggest failure. We cannot take care of our dominion if we lose our constituents.

SATAN

This is an extremely important point Falta-oos. The only way I can keep my constituents in my kingdom is to prevent them from recognizing God as absolute sovereign. They must either disbelieve in the existence of God outright, or set up idols besides him. Are there any suggestions towards keeping the people from recognizing God?

FALTA-OOS

One of our most effective techniques so far has been to give God, his messengers, and his scriptures a bad name. There is a lot of religious unrest in Iran, Ireland, and some other places right now. This presents a wonderful opportunity to smear God's name real good. God has allowed us total freedom to prove that the human being cannot recognize Him alone as Lord, and we better take advantage of this respite.

SATAN

Wonderful idea Falta-oos, wonderful. Will you take charge of the Iranian situation? I will appoint others to carry out a complete plan.

FALTA-OOS

With pleasure, mighty Satan, with pleasure!

EXT. TEHRAN - STREET - DAY

Noisy demonstration is shown with the crowd carrying pictures of Khomeini. In the midst of obvious anarchy, a mood of victory dominates. The crowd burns effigy's of the Shah and Jimmy Carter, and burn an American flag.

INT. IRANIAN COURT - DAY

TWELVE people are shown in a cage inside the courtroom, including three children, six women, and three men. A JUDGE wearing a black turban and the flowing robe of Iranian clergymen is sitting at a podium.

The accused are being defended by a LAWYER dressed in western clothes, suit and tie. SPECTATORS sitting in the court room represent an Iranian crowd with the typical mixture of western and Iranian attire. Some women among the spectators are crying.

LAWYER

(Frustrated, yelling)

How can you condemn these people to death for alleged minor sex crimes? Even the children...

JUDGE

(Interrupting. Leaning forward)

This is God's law. Prostitutes, homosexuals, and perverts shall be stoned to death. Mercifully, we will not stone them to death; the firing squad will end their sinful life this afternoon.

LAWYER

The Koran is God's book, and it states specifically that sex offenders shall NOT be killed.

JUDGE

The Koran is not everything. In fact, the prophet said that tradition shall abrogate Koran.

LAWYER

Did you hear the prophet say that? You are killing these innocent people on the basis of hearsay.

EXT. TEHRAN - CITY SQUARE - DAY

The twelve people sentenced to die are tied to twelve poles in the square. Firing squad of TWENTY FOUR SOLDIERS is poised with the guns pointed at the twelve victims. CROWD is gathering and looking with great curiosity. Commanding officer gives the signal, and the guns fire.

CLOSE SHOT shows all twelve people collapsing as the blood gushes out of their chests.

FULL SHOT of the whole square shows the crowd cheering and yelling "Allahu Akbar."

EXT. SPACE - THE PLANET EARTH

Camera zooms in on Northern Ireland.

INT. PUB - NIGHT

The mood is festive and there are SOUNDS of PEOPLE drinking and singing throughout the pub. A television is BROADCASTING THE NEWS behind the BARTENDER, but no one is paying attention to it. SOME PEOPLE are throwing darts.

INT. PUB - NIGHT

Full shot of the pub is followed by a zoom in on the television screen broadcasting the news.

TV ANNOUNCER
(On the screen)

A bomb exploded in the midst of
Christmas shoppers today at
London's Harrods Department Store.
Six people were killed, and
fourteen wounded.

Camera ZOOMS away and the voice of the TV announcer fades away.

ANGLE ON the door of the pub. A man walks in with a brief case in his hand. He passes by the camera.

CU - BRIEF CASE

Full shot of the pub shows the man with the brief case sitting at the counter, putting the brief case next to his stool, ordering a drink, finishing it as he looks around at the joyous and oblivious crowd. He walks out of the night club without his brief case.

CU - BRIEF CASE NEXT TO STOOL

EXPLOSION.

EXT. SPACE - THE PLANET EARTH - DAY

Camera zooms in on Boston

HELICOPTER SHOT of a building that may be identified as a church, synagogue, mosque, or temple. Camera zooms in on the building, then through the wall to the interior.

INT. CHURCH - DAY

FULL SHOT of church shows PREACHER giving a sermon at the podium, while PARISHIONERS are listening intently.

PREACHER

God wants us to be as perfect as He is, but He knows that it is impossible. We are basically sinners. We have to fall in sin. It is human nature. And this is where God's mercy comes in. He is the forgiver, the most merciful. If we fall in sin, make a mistake, then turn to Him, apologize, and repent, His forgiveness is absolutely guaranteed...

Camera ZOOMS away to a LONG SHOT, as the preacher's voice fades away.

EXT. CHURCH DOOR - DAY

Parishioners are leaving the church, shaking hands with the preacher on their way out. A WOMAN comes out of the church towards the preacher, her face filled with sadness, followed by HER HUSBAND. She shakes hands with the preacher, then asks him as she holds his hand.

WOMAN

Reverend McGill, my daughter died this morning while playing. Heart failure...

She breaks down in tears, pulls her hand out of the preacher's hand to take a napkin from her purse, wipes her tears, then

continues her talk.

WOMAN

My question is, why? Why? What kind of God would allow things like that?

The husband steps forward, puts his hand lovingly on his wife's shoulder, as he fights back the tears himself, and both of them look at the preacher awaiting his answer.

PREACHER

(Looking guilty and embarrassed)

Mrs. Thompson, I want you to know that God is weeping with you right now. God does not think it is fair either. He wants very much to see everyone of his creatures healthy, wealthy, and happy. But he just can't do it. He loves you ...

Camera zooms out, showing a helicopter shot of the church with the preacher talking to the Thompsons, and the parishioners getting in their cars and leaving.

Camera continues to ZOOM AWAY to show Boston fading away, then the whole planet Earth.

EXT. SPACE - SATAN'S PLANET

Satan whisks out of his planet towards the solar system.

His POV shows his flight towards the solar system, then towards the Planet Earth, until a FULL SHOT of the Earth fills the screen.

EXT. SPACE - THE PLANET EARTH

Satan appears almost as big as the Planet Earth. When he approaches the Earth, he shrinks in size while flying. Camera continues to zoom in on the Earth, then shows Satan in his reduced size swooping into Boston.

The church is shown with the parishioners still leaving. The Thompsons are no longer there.

EXT. STREET - DAY

FULL SHOT of the church shows the parishioners leaving, and the preacher still greeting them at the door as they leave. Satan lands in the church's parking lot, then heads for the preacher, obviously intending to hurt him. AN ANGEL, same size as Satan, appears and stands in Satan's way. The people are totally oblivious, as if Satan and the angel are invisible.

ANGEL

You can't touch him Satan.
Remember your agreement? God does
not intervene in your constituents'
affairs, and you can't touch God's
people.

SATAN

(Very angry)

This preacher is not one of God's
people. He doesn't even recognize
God's omnipotence. Didn't you hear
him say that God is weeping and
helpless? This man is mine. Out
of my way. You're the one who is
breaking the agreement.

ANGEL

Sorry, Satan, you can't touch him.

Satan projects all six wings, fires up all four power belts, and takes off in a huff, magnifying in size as he flies towards hyperspace.

EXT. SPACE

Satan is shown taking off from the Planet Earth. Camera zooms away to show him exiting the solar system at an incredible speed.

EXT. SPACE

The solar system fades away, and Satan diminishes into a streak of light with a bluish flaming tail. Satan appears like a shooting star heading upward, in the midst of a star-studded black sky.

Camera continues to ZOOM AWAY until all seven universes are visible. The innermost universe is full of bright stars, but not the other six universes. Satan approaches the outer limit of the innermost universe.

CU SATAN'S FACE

He is angry and flying at incredible speed. Camera ZOOMS AWAY to show SIX ANGELS waiting for Satan flying towards them far, far, away.

FIRST ANGEL

At this speed, he's going to transgress his limit. We can't allow him into the second universe.

SECOND ANGEL

Fire!

The six angels fire a barrage of laser beams, meeting just ahead of Satan, and exploding in a fountain of laser beams and a deafening bang.

Satan's power belts swivel to the braking position. He stops just short of the explosion area, retracts his wings, then yells at the six angels.

SATAN

I will take this matter all the way to the seventh universe, if I have to. This is a serious breach of my agreement with God. That preacher belongs to me.

FIRST ANGEL

You know as well as we do that you are confined to the innermost universe until the test is over.

SATAN

The test is over. If you take my constituents away, there will be no test. The preacher is mine.

An angel appears far away in the horizon speeding towards the other angels as they argue with Satan.

ARRIVING ANGEL

Let him have the preacher. Satan is right; the preacher has failed to recognize God's omnipotence. All Satan's excuses must be nullified. The preacher belongs to him.

SECOND ANGEL

(Looking at Satan)

What a cry baby!

Satan spreads his wings, fires up his power belts, and darts back towards the planet Earth.

INT. LIVING ROOM ~ EVENING

The preacher is sitting on a sofa, reading a book. His wife is sitting on the other side of the sofa, obviously in her eighth month of pregnancy. She is knitting something for the expected baby as the family watches TV.

A miniature replica of Satan, about the size of a man, enters the room through the wall, stays near the wall behind the couple, then a misty material streams out of Satan towards the wife, enters her body, and heads for the fetus inside of her. An X-ray-type picture shows Satan's hands fiddling with the fetus.

INT. HOSPITAL ~ DELIVERY ROOM - DAY

The preacher's wife is giving birth to her baby. DOCTOR AND NURSES are busy, while the preacher holds his wife's hand. The baby is born crying. The preacher smiles at his wife with great love and admiration. The doctor approaches the preacher and whispers in his ear.

DOCTOR
It's a boy, but, I am sorry, he's
got Down Syndrome.

EXT. SPACE ~ THE PLANET EARTH

From outer space, the camera ZOOMS IN on South America, down to a dirt road in the country side of Central Argentina, where a van is shown as the only vehicle on the road.

INT. VAN ~ MOVING SHOT - DAY

A NUN is driving the van. THREE OTHER NUNS are passengers; one in the front seat with the driver, the others in the back seat. All four nuns are wearing the distinctive nuns' attire.

EXT. ARGENTINA ~ COUNTRYSIDE - DAY

The land is barren and desolate, the road narrow. Up ahead, off the road, an old shabby barn is barely standing. THREE UNIFORMED SOLDIERS appear standing in the middle of the road, signaling the van to stop.

INT. VAN - MOVING SHOT - DAY

The soldiers are visible through the windshield, waving the van down. The nun at the wheel starts to push the brakes, as the nun sitting next to her asks.

NUN
Are these rebels or government
soldiers?

DRIVER
(Pushing the brakes)
They are wearing government
uniforms, but you never know.

The van comes to a stop where the soldiers are standing. One soldier approaches the driver's door, opens it violently and yells in Spanish (English subtitles).

SOLDIER
Where are you going?

DRIVER
We're going to Rio Cuarto.

SOLDIER
(Waving his rifle)
Step out. All of you.

DRIVER
We have nothing to do with your
politics or your war. We're
serving God.

The nuns step out of the van. The soldiers push them and shove them with the rifle butts, herding them towards the old barn.

EXT. SPACE - INNER UNIVERSE BORDER

Satan is shown at the outer boundary of the innermost universe, arguing with four angels (border guards).

SATAN
(Very angry)
Do I have to protest every day?
This is an unfair test. The four
nuns clearly belong to me; I have
to have them, or consider the test
null and void.

ANGEL

These nuns are dedicated to serve God, and you know the rules. You can never touch God's people, or afflict them with any harm. The angels will continue to protect God's people, and there is nothing you can do about it.

Two angels appear far away in the horizon, speeding towards Satan and the other angels.

ARRIVING ANGEL

(Addressing the four angels)

We are here to convey God's decree that any human being who exhibits the slightest compromise of God's oneness and absolute sovereignty shall belong in Satan's kingdom. Satan's excuses must be nullified. These nuns do idolize Jesus, Mary, and a whole bunch of dead or even non-existent saints. The nuns definitely belong to Satan.

Satan appears triumphant. With a pleased expression on his face, he projects his wings, fires up his power belts, and darts back towards the planet Earth.

INT. ARGENTINA - COUNTRYSIDE - BARN - DAY

The soldiers herd the four nuns into the barn, pushing them mercilessly.

ANGLE ON one soldier and one nun. The soldier forcibly raises the nuns arms up, then fondles her as if to search for weapons under her uniform. The nun tries to push his hands away, but he raises her arms up again, then pulls the front of her habit, tearing it, and exposing her breast.

EXT. ARGENTINA - COUNTRYSIDE - DAY

Helicopter shot of the barn ZOOMS AWAY. As the barn diminishes away, two gun shots ring out of the barn. Camera continues to ZOOM AWAY until the whole planet Earth is visible.

EXT. HYPERSPACE

Camera continues to ZOOM AWAY until all seven universes are visible, then ZOOMS IN on the border between the first universe and the second universe.

A bright dot appears in the second universe, heading towards the outer boundary of the innermost universe.

Camera ZOOMS IN on the traveling dot, and spaceship "Eternity" comes into focus.

INT. SPACESHIP - CONTROL ROOM

FULL SHOT of the control room shows all crew members in their stations. Camera zooms in on the odometer at Mike Parakat's desk. The Odometer reads "28,500,551,076 LIGHT YEARS".

CU - CALENDAR GAUGE reading "AD 1995".

Octa-Ohm-R clicks, clanks, turns his multi head, then manipulates a number of knobs and switches.

OCTA-OHM-R

We're approaching the innermost universe.

RAYMOND CATTON

Strange; with a billion galaxies still between us and the Earth, I feel like saying, "We've come home."

COMMANDER MOSS

You've uttered a magic word. Kathleen, contact MCC and tell them we're back in our universe. Jane, Ray, Octa, maximize speed.

JANE ANDERSON

Commander, I am afraid we may be a few years late when we arrive at Cape Canaveral. We have more than 25 billion light years to go, and the calendar is already reading 1995 AD.

COMMANDER MOSS

I tend to share your pessimism, Jane.

JANE

(interrupting)

It is not pessimism, it's realism.

Unless we discover some kind of a short cut or something.

Jane turns her attention to her instruments, manipulating a few controls.

ANGLE ON Octa-Ohm-R as he manipulates his buttons and knobs.

ANOTHER ANGLE ON Ray as he fiddles with his instruments.

EXT. HYPERSPACE

CLOSE SHOT of "Eternity", then camera ZOOMS OUT until the spaceship becomes a dot. "Eternity" is shown crossing the boundary into the innermost universe.

INT. SATAN'S MANSION

FULL SHOT of Satan's mansion shows him holding a conference with his assistants.

SATAN

I am very pleased. All reports so far confirm that the human beings have failed to recognize God and/or his qualities. The last report is now due from YUWA-KEEM.

Camera zooms out to show Satan looking to the left side, where one of Satan's assistants stands up.

SATAN (V.O.)

Yuwa-keem, you're in charge of Australia and Southeast Asia. What good news do you have?

YUWA-KEEM

I have good news indeed, mighty Satan. There is not a single human being in my area who belongs in God's kingdom.

The crowd of Satan's assistants cheers loudly. The devils are shown laughing, slapping each other on the backs, raising their fists in the air, and dancing with joy.

Satan stands up, spreads his wings, fires all his power belts, and darts away.

EXT. SATAN'S PLANET

With Satan's red planet filling the picture, Satan flies out of the square opening at the top. Camera zooms in on his face that is full of joy.

SATAN

(Yelling)

They are all mine. I have proved my point. Not a single human being can worship God alone. They have to have idols, other gods besides God. Ha...Ha...Ha...Ha.

Camera zooms out to show Satan turning upward towards the outer boundary of the innermost universe. He is speeding towards the border. A mass of laser beams shoots out of the horizon, meeting just ahead of Satan, and exploding into a giant fountain of fire. Satan puts on his brakes, retracts his wings, and turns off his power belts. He stops just short of the border, then yells.

SATAN

Make me a god with you. You need me. I have proved it. Not a single human being can recognize you alone, without idols, partners. The Muslims idolize Muhammad and his family; the Buddhists have deified Buddha; the Christians worship Jesus, Mary, and a myriad of saints; the Jews idolize their Talmudic scholars; the Hindus have many, many gods. The majority of humans don't even know you exist. Make me a god with you.

EXT. SPACE

"Eternity" is now flying in a sea of stars and galaxies.

POV "Eternity". Whisking across the milky way galaxy, with the stars around us turning into luminous streaks. The Solar System comes into view.

INT. SPACESHIP - CONTROL ROOM

FULL SHOT shows the crew at their stations, and the main viewscreen showing the solar system from Eternity's POV.

CU ODOMETER

Odometer reads "6,650,209,057 MILES."

CU CALENDAR GAUGE

Calendar reads "19 April 2280."

FULL SHOT - CONTROL ROOM

SHIRLEY VAN CLEEF
We're late, but we made it. Better
late than never.

EXT. SPACE

SATAN is still standing at the outer limit of the innermost universe, yelling.

SATAN
They are all mine; every single one
of them. Ha...Ha...Ha.

Satan protrudes his wings, fires up his power belts, then flies downward, obviously elated.

INT. SPACESHIP - CONTROL ROOM

FULL SHOT shows all crew members in place.

Camera ZOOMS IN on the main viewscreen, showing the sun, and half the solar system's planets. The planet Earth is at the center of the screen, and getting closer.

COMMANDER MOSS
Prepare for landing. Check landing
gears.

Mu-One-Nine manipulates the controls on his two units, simultaneously.

Kathleen Sheard flips a number of switches and checks her headset.

Raymond Catton fiddles with his instruments, and Mike Barakat does the same.

Octa-Ohm-R clicks, grinds, turns his heads, and plays with the controls on his desk.

EXT. SPACE - SPACESHIP

Camera slowly moves down to a LOW ANGLE SHOT of the spaceship's bottom.

Gears and wheels of a Boeing 747 come down momentarily, then up again.

INT. SPACESHIP - CONTROL ROOM

RAYMOND CATTON

Landing gears check perfect.

EXT. SPACE

Helicopter shot shows the spaceship heading for the planet Earth which is visible in the horizon together with the moon. "Eternity" advances until the tail shows up with some of the engines fired, and some of the fired engines going out.

Camera zooms out so that the spaceship gets smaller, as it gets closer and closer to the Earth and moon.

SATAN'S VOICE comes again faint. then becomes stronger.

SATAN (V.O.)

They are all mine ... all mine
...Ha...Ha...Ha...

INT. THE SUPREME SOVIET - DAY

It's a meeting of the Supreme Soviet. GOVERNMENT LEADERS and HIGH RANKING MILITARY OFFICERS are sitting at a huge round table. The president of USSR sits at the head of the table with Lenin's picture and the Russian flag behind him. The mood is very serious; down right grim.

A heavily decorated general stands up and pounds on the table as he addresses the president.

RUSSIAN GENERAL

I see no other choice. Our only alternative is to launch immediate preemptive strikes to all targets, simultaneously.

RUSSIAN PRESIDENT
(lifts up the receiver of a
red telephone)
Release all satellite loads towards
all targets immediately.

EXT. SPACE - THE PLANET EARTH

The planet Earth is in the center of the picture. With the United States and Western Europe clearly visible, BLINDING FLASHES OF LIGHT occur in both areas, followed by the familiar mushroom clouds of several nuclear explosions.

Camera ZOOMS AWAY to show the entire Solar System, then the entire star-studded inner universe, then all seven universes.

With Satan's awful laugh echoing throughout the universe, camera continues to ZOOM AWAY to show God's hand holding the seven universes. With Satan's laugh echoing from a far away distant, God's hand begins to constrict.

Camera ZOOMS IN very fast, through the seven universes, then through the Solar System, until the planet Earth occupies the center of the screen.

Nuclear explosions are taking place all over the United States and Western Europe. Suddenly, the whole planet explodes spectacularly, and the EXPLOSION immediately reverses into an IMPLOSION.

MESSAGE ACROSS THE SCREEN:
Let us build a better world.

TO BE CONTINUED

FADE OUT
